For the transition period from _____ to _____

Commission File Number 000-19289

STATE AUTO FINANCIAL CORPORATION

(Exact name of Registrant as specified in its charter)

Ohio (State or other jurisdiction of incorporation or organization)	31-1324304 (I.R.S. Employer Identification No.)
518 East Broad Street, Columbus, Ohio (Address of principal executive offices)	43215-3976 (Zip Code)
Registrant's telephone number, including area code: (614) 464-5000	

Edgar Filing: State Auto Financial CORP - Form 10-Q

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the Registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

On April 26, 2013, the Registrant had 40,515,134 Common Shares outstanding.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of State Auto Financial Corporation and Subsidiaries (State Auto Financial or the Company) have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (GAAP) for complete financial statements. In the opinion of the Company, all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three month period ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. The balance sheet at December 31, 2012 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company s annual report on Form 10-K for the year ended December 31, 2012 (the 2012 Form 10-K). Capitalized terms used herein and not otherwise defined shall have the meaning ascribed to them in the 2012 Form 10-K.

Adoption of Accounting Pronouncements

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

The amendments in this guidance result in additional disclosure requirements under GAAP and do not change the current requirements for reporting net income or other comprehensive income in financial statements. The new guidance requires an entity to present, either in a single note, or, parenthetically on the face of the statement where net income is presented, the effects of significant amounts reclassified from each component of accumulated other comprehensive income by the respective line items of net income, only, if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. If a component is not required to be reclassified to net income in its entirety, the entity would, instead, cross-reference it to the related disclosure required under GAAP. This guidance is effective prospectively for fiscal years and interim periods beginning after December 15, 2012. The Company adopted this guidance at January 1, 2013 and it did not have a material impact on the consolidated financial statements, see Note 7 Other Comprehensive Income and Accumulated Other Comprehensive Income.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The following table sets forth the realized losses related to other-than-temporary impairments on the Company's investment portfolio recognized for the three months ended March 31, 2013 and 2012:

<i>(\$ millions)</i>	Three months ended March 31	
	2013	2012
Equity securities:		
Small-cap securities	\$ 0.3	0.4
<i>Total other-than-temporary impairments</i>	\$ 0.3	0.4

The Company did not recognize other-than-temporary impairments on its fixed maturity securities for the three months ended March 31, 2013 and 2012. The Company reviewed its investments at March 31, 2013, and determined no additional other-than-temporary impairment existed in the gross unrealized holding losses.

The Company regularly monitors its investments that have fair values less than cost or amortized cost for signs of other-than-temporary impairment, an assessment that requires significant management judgment regarding the evidence known. Such judgments could change in the future as more information becomes known, which could negatively impact the amounts reported. Among the factors that management considers for fixed maturity securities are the financial condition of the issuer including receipt of scheduled principal and interest cash flows, and intent to sell including if it is more likely than not that the Company will be required to sell the investments before recovery. When a fixed maturity has been determined to have an other-than-temporary impairment, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings as a realized loss, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Among the factors that management considers for equity securities and other invested assets are the length of time and/or the significance of decline below cost, the Company's ability and intent to hold these securities through their recovery periods, the current financial condition of the issuer and its future business prospects, and the ability of the market value to recover to cost in the near term. When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, the cost basis of the security is adjusted to fair value. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

The following table sets forth the amortized cost and fair value of available-for-sale fixed maturities by contractual maturity at March 31, 2013:

<i>(\$ millions)</i>	Amortized cost	Fair value
Due in 1 year or less	\$ 45.0	45.8
Due after 1 year through 5 years	299.7	322.9

Edgar Filing: State Auto Financial CORP - Form 10-Q

Due after 5 years through 10 years	435.0	471.5
Due after 10 years	633.6	672.7
U.S. government agencies residential mortgage-backed securities	362.0	382.1
<i>Total</i>	\$ 1,775.3	1,895.0

Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay the obligations with or without call or prepayment penalties.

Fixed maturities with fair values of \$10.1 and \$10.0 million, respectively, were on deposit with insurance regulators as required by law at March 31, 2013 and December 31, 2012.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The following table sets forth the components of net investment income for the three months ended March 31, 2013 and 2012:

(\$ millions)	Three months ended March 31	
	2013	2012
Fixed maturities	\$ 14.8	15.7
Equity securities	1.2	1.0
Cash and cash equivalents, and other	1.4	1.4
<i>Investment income</i>	17.4	18.1
Investment expenses	0.5	0.6
<i>Net investment income</i>	\$ 16.9	17.5

The Company's current investment strategy does not rely on the use of derivative financial instruments.

The following table sets forth the realized and unrealized holding gains (losses) on the Company's investment portfolio for the three months ended March 31, 2013 and 2012:

(\$ millions)	Three months ended March 31	
	2013	2012
Realized gains:		
Fixed maturities	\$ 0.5	3.1
Equity securities	6.6	4.4
<i>Total realized gains</i>	7.1	7.5
Realized losses:		
Equity securities:		
Sales	(0.1)	
OTTI	(0.3)	(0.4)
<i>Total realized losses</i>	(0.4)	(0.4)
<i>Net realized gain on investments</i>	\$ 6.7	7.1

Change in unrealized holding gains (losses), net of tax:

Edgar Filing: State Auto Financial CORP - Form 10-Q

Fixed maturities	\$ (9.2)	(0.6)
Equity securities	18.3	11.6
Other invested assets	3.6	4.0
Deferred federal income tax liability thereon	(4.5)	(5.4)
Valuation allowance	4.8	5.4
 <i>Change in net unrealized holding gains (losses), net of tax</i>	 \$ 13.0	 15.0

There was a deferred federal income tax liability, net of a valuation allowance, on the net unrealized holding gains at March 31, 2013 and December 31, 2012 of \$52.2 million and \$52.5 million, respectively.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

3. Fair Value of Financial Instruments

Below is the fair value hierarchy that categorizes into three levels the inputs to valuation techniques that are used to measure fair value:

Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1, and it includes valuation techniques which use prices for similar assets and liabilities.

Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The Company utilizes one nationally recognized pricing service to estimate the majority of its available-for-sale investment portfolio's fair value. The Company obtains one price per security and the processes and control procedures employed by the Company are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, the Company gains an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, the Company compares to other fair value pricing information gathered from other independent pricing sources. At March 31, 2013 and December 31, 2012, the Company did not adjust any of the prices received from the pricing service.

Transfers between level categorizations may occur due to changes in the availability of market observable inputs. Transfers in and out of level categorizations are reported as having occurred at the beginning of the quarter in which the transfer occurred. There were no transfers between level categorizations during the three months ended March 31, 2013 and 2012.

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that are carried at fair value:

Fixed Maturities

The Company utilizes a third party pricing service to estimate fair value measurements for the majority of its fixed maturities. The fair value estimate of the Company's fixed maturity investments are determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, and other market-observable information. The fixed maturity portfolio pricing obtained from the pricing service is reviewed for reasonableness. Regularly, a sample of security prices are referred back to the pricing service for more detailed explanation as to how the pricing service arrived at that particular price. The explanations are reviewed for reasonableness by the portfolio manager and investment officer. Additionally, the prices and assumptions are verified against an alternative pricing source for reasonableness and accuracy. Any discrepancies with the pricing are returned to the pricing service for further explanation and if necessary, adjustments are made. To date, the Company has not identified any significant discrepancies in the pricing provided by its third party pricing service. Investments valued using these inputs include U.S. treasury securities and obligations of U.S. government agencies, obligations of states and political subdivisions, corporate securities (except for one security discussed below), and U.S. government agencies residential mortgage-backed securities. All unadjusted estimates of fair value for fixed maturities priced by the pricing service are included in the amounts disclosed in Level 2 of the hierarchy. If market inputs are unavailable, then no fair value is provided by the pricing service. For these securities, fair value is determined either by requesting brokers who are knowledgeable about these securities to provide a quote; or the Company internally

Edgar Filing: State Auto Financial CORP - Form 10-Q

determines the fair values by employing widely accepted pricing valuation models, and depending on the level of observable market inputs, renders the fair value estimate as Level 2 or Level 3. The Company holds two fixed maturity corporate securities included in Level 3. The Company estimates the fair value of one security using the present value of the future cash flows and the Company obtains a broker quote of the other security's fair value. Due to the limited amount of observable market information for both of these securities, the Company includes the fair value estimates in Level 3.

Equities

The fair value of each equity security is based on an observable market price for an identical asset in an active market and is priced by the same pricing service discussed above. All equity securities are recorded using unadjusted market prices and have been disclosed in Level 1.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Other Invested Assets

Included in other invested assets are two international private equity funds (the funds) that invest in equity securities of foreign issuers and are managed by third party investment managers. The funds had a fair value of \$62.3 million and \$59.0 million at March 31, 2013 and December 31, 2012, respectively, which was determined using each fund's net asset value. The Company employs procedures to assess the reasonableness of the fair value of the funds including obtaining and reviewing each fund's audited financial statements. There are no unfunded commitments related to the funds. The Company may not sell its investment in the funds; however, the Company may redeem all or a portion of its investment in the funds at net asset value per share with the appropriate prior written notice. Due to the Company's ability to redeem its investment in the funds at net asset value per share at the measurement date, the funds have been disclosed in Level 2.

The remainder of the Company's other invested assets consist primarily of holdings in publicly-traded mutual funds. The Company believes that its prices for these publicly-traded mutual funds based on an observable market price for an identical asset in an active market reflect their fair values and consequently these securities have been disclosed in Level 1.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

For assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3), the following tables set forth a reconciliation of the beginning and ending balances for the three months ended March 31, 2013 and the year ended December 31, 2012, separately for each major category of assets:

<i>(\$ millions)</i>	Fixed maturities
Balance at January 1, 2013	\$ 8.5
Total realized gains (losses) included in earnings	
Total unrealized gains (losses) included in other comprehensive income	
Purchases	0.1
Sales	
Transfers into Level 3	
Transfers out of Level 3	
Balance at March 31, 2013	\$ 8.6

<i>(\$ millions)</i>	Fixed maturities
Balance at January 1, 2012	\$ 2.9
Total realized gains (losses) included in earnings	(0.2)
Total unrealized gains (losses) included in other comprehensive income	
Purchases	5.8
Sales	
Transfers into Level 3	
Transfers out of Level 3	
Balance at December 31, 2012	\$ 8.5

The following sections describe the valuation methods used by the Company for each type of financial instrument it holds that is not measured at fair value but for which fair value is disclosed:

Financial Instruments Disclosed, But Not Carried, At Fair Value*Notes Receivable from Affiliates*

In May 2009, the Company entered into two separate credit agreements with State Auto Mutual pursuant to which it loaned State Auto Mutual a total of \$70.0 million. The Company estimates the fair value of the notes receivable from affiliate using market quotations for U.S. treasury securities with similar maturity dates and applies an appropriate credit spread. Consequently this has been placed in Level 2 of the fair value hierarchy.

Edgar Filing: State Auto Financial CORP - Form 10-Q

(\$ millions, except interest rates)

	March 31, 2013			December 31, 2012		
	Carrying value	Fair value	Interest rate	Carrying value	Fair value	Interest rate
Notes receivable from affiliate	\$ 70.0	\$ 79.3	7.00%	\$ 70.0	\$ 78.3	7.00%

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Notes Payable

Included in notes payable are Senior Notes and Subordinated Debentures. The fair value of the Senior Notes is based on the observable market price and has been disclosed in Level 2. The carrying amount of the Subordinated Debentures approximates its fair value as the interest rate adjusts quarterly and has been disclosed in Level 3.

(\$ millions, except interest rates)

	March 31, 2013			December 31, 2012		
	Carrying value	Fair value	Interest rate	Carrying value	Fair value	Interest rate
Senior Notes due 2013: issued \$100.0, November 2003 with fixed interest	\$ 100.3	\$ 100.6	6.25%	\$ 100.4	\$ 100.3	6.25%
Affiliate Subordinated Debentures due 2033: issued \$15.5, May 2003 with variable interest	15.5	15.5	4.49	15.5	15.5	4.51
Total notes payable	\$ 115.8	\$ 116.1		\$ 115.9	\$ 115.8	

4. Reinsurance

The insurance subsidiaries of State Auto Financial, including State Auto Property & Casualty Insurance Company (State Auto P&C), Milbank Insurance Company and State Auto Insurance Company of Ohio (collectively referred to as the STFC Pooled Companies) participate in a quota share reinsurance pooling arrangement (the Pooling Arrangement) with State Automobile Mutual Insurance Company (State Auto Mutual) and its subsidiaries and affiliates, State Auto Insurance Company of Wisconsin, Meridian Citizens Mutual Insurance Company, Meridian Security Insurance Company, Patrons Mutual Insurance Company of Connecticut (which includes Litchfield Mutual Fire Insurance Company as it was merged with Patrons Mutual at the close of business March 31, 2013), Rockhill Insurance Company (RIC), Plaza Insurance Company (Plaza), American Compensation Insurance Company (American Compensation) and Bloomington Compensation Insurance Company (Bloomington Compensation), (collectively referred to as the Mutual Pooled Companies).

The following table sets forth a summary of the Company's external reinsurance transactions, as well as reinsurance transactions with State Auto Mutual under the Pooling Arrangement, for the three months ended March 31, 2013 and 2012:

(\$ millions)

	Three months ended March 31	
	2013	2012
Premiums earned:		
Assumed from external insurers and reinsurers	\$ 0.4	1.0
Assumed under Pooling Arrangement	261.3	254.9
Ceded to external insurers and reinsurers	(5.5)	(7.4)
Ceded under Pooling Arrangement	(210.7)	(196.9)

Edgar Filing: State Auto Financial CORP - Form 10-Q

<i>Net assumed premiums earned</i>	\$ 45.5	51.6
Losses and loss expenses incurred:		
Assumed from external insurers and reinsurers	\$ (0.2)	0.9
Assumed under Pooling Arrangement	173.7	191.5
Ceded to external insurers and reinsurers	(1.0)	(5.8)
Ceded under Pooling Arrangement	(131.8)	(156.1)
<i>Net assumed losses and loss expenses incurred</i>	\$ 40.7	30.5

5. Income Taxes

The following table sets forth the reconciliation between actual federal income tax benefit and the amount computed at the indicated statutory rate for the three months ended March 31, 2013 and 2012:

(\$ millions)	Three months ended			
	March 31		2012	
	2013	%	2012	%
Amount at statutory rate	\$ 7.0	35	\$ (0.7)	35
Tax-exempt interest and dividends received deduction	(2.3)	(12)	(2.2)	115
Other, net	0.2	1	0.1	(5)
Valuation allowance	(4.6)	(23)	2.8	(145)
<i>Federal income tax expense and effective rate</i>	\$ 0.3	1	\$	

The following table sets forth the tax effects of temporary differences that give rise to significant portions of deferred tax assets and deferred tax liabilities at March 31, 2013 and December 31, 2012:

(\$ millions)	March 31, 2013	December 31, 2012
Deferred tax assets:		
Unearned premiums not currently deductible	\$ 33.5	33.4
Losses and loss expenses payable discounting	25.3	25.2
Postretirement and pension benefits	38.5	39.4
Realized loss on other-than-temporary impairment	7.0	7.5
Other liabilities	15.0	14.5
Net operating loss carryforward	63.6	66.5
Tax credit carryforward	1.2	0.9
Other	7.4	7.9
<i>Total deferred tax assets</i>	191.5	195.3
Deferred tax liabilities:		
Deferral of policy acquisition costs	33.1	32.1
Net unrealized holding gains on investments	66.2	61.7
<i>Total deferred tax liabilities</i>	99.3	93.8

Edgar Filing: State Auto Financial CORP - Form 10-Q

<i>Total net deferred tax assets before valuation allowance</i>	92.2	101.5
Less valuation allowance	90.8	100.5
<i>Net deferred federal income taxes</i>	\$ 1.4	1.0

Deferred income tax assets and liabilities represent the tax effect of the differences between the financial statement carrying value of existing assets and liabilities and their respective tax bases. In accordance with the Financial Accounting Standards Board's Accounting Standards Codification 740, Income Taxes (ASC 740), the Company periodically evaluates its deferred tax assets, which requires significant judgment, to determine if they are realizable based upon weighing all available evidence, both positive and negative, including loss carryback potential, past operating results, existence of cumulative losses in the most recent years, projected performance of the business, future taxable income, including the ability to generate capital gains, and prudent and feasible tax planning strategies. In making such judgments, significant weight is given to evidence that can be objectively verified. At March 31, 2013 and December 31, 2012 the Company recorded a valuation allowance of \$90.8 million and \$100.5 million, respectively. The deferred income tax asset remaining after recognition of the valuation allowance represents a deferred tax asset on the gross unrealized fixed maturity losses where management determined this portion of the asset to be realizable due to management's assertion that it has both the ability and intent to hold these securities through recovery or maturity.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

Based on ASC 740 intraperiod tax allocation guidelines, the following sets forth the change in valuation allowance attributable to continuing operations and other comprehensive income for the three months ended March 31, 2013 and 2012 is as follows:

<i>(\$ millions)</i>	2013	2012
Continuing operations	\$ (4.6)	2.8
Other comprehensive income	(5.1)	(5.6)
<i>Change in valuation allowance</i>	\$ (9.7)	(2.8)

In future periods the Company will re-assess its judgments and assumptions regarding the realization of its net deferred tax assets, but until such time the positive evidence exceeds the negative evidence the Company will maintain a valuation allowance against its net deferred tax assets.

6. Pension and Postretirement Benefit Plans

The following table sets forth the components of net periodic cost for the Company's pension and postretirement benefit plans for the three months ended March 31, 2013 and 2012:

<i>(\$ millions)</i>	Pension		Postretirement	
	Three months ended March 31			
	2013	2012	2013	2012
Service cost	\$ 1.5	1.9	\$	
Interest cost	2.4	2.5	0.2	0.2
Expected return on plan assets	(3.0)	(2.9)		(0.1)
Amortization of:				
Prior service costs (benefits)			(1.4)	(1.3)
Transition assets			0.1	0.1
Net loss	2.0	1.7	0.2	0.2
<i>Net periodic cost (benefit)</i>	\$ 2.9	3.2	\$ (0.9)	(0.9)

The Company contributed \$3.3 million for the three months ended March 31, 2013 and expects to contribute an additional \$9.8 million to the pension plan during 2013.

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The following tables set forth the reclassifications out of accumulated other comprehensive income, by component, to the Company's consolidated statement of income for the three months ended March 31, 2013 and 2012:

(\$ millions)

Details about Accumulated Other Comprehensive Income Components	Three months ended		Affected line item in the Condensed Consolidated Statements of Income
	March 31, 2013	March 31, 2012	
Unrealized gains and losses on available for sale securities	\$ 6.7	7.1	Realized gain/(loss) on sale of securities
	6.7	7.1	Total before tax
			Tax (expense) benefit
	6.7	7.1	Net of tax
Amortization of benefit plan items			
Transition asset	(0.1)	(0.1)	(a)
Negative prior-service costs	1.4	1.3	(a)
Net actuarial loss	(2.2)	(1.9)	(a)
	(0.9)	(0.7)	Total before tax
			Tax (expense) benefit
	(0.9)	(0.7)	Net of tax
<i>Total reclassifications for the period</i>	\$ 5.8	6.4	

^(a) These accumulated other comprehensive income components are included in the computation of net periodic pension cost (see pension and postretirement benefit plans footnote for additional details)

8. Earnings (Loss) per Common Share

The following table sets forth the compilation of basic and diluted net earnings (loss) per common share for the three months ended March 31, 2013 and 2012:

(\$ millions, except per share amounts)

Three months ended
March 31

Edgar Filing: State Auto Financial CORP - Form 10-Q

	2013	2012
Numerator:		
Net income for basic earnings (loss) per common share	\$ 19.7	(2.0)
Denominator:		
Weighted average shares for basic net earnings (loss) per common share	40.5	40.3
Effect of dilutive share-based awards	0.2	
<i>Adjusted weighted average shares for diluted net earnings (loss) per common share</i>	40.7	40.3
Basic net earnings (loss) per common share	\$ 0.49	(0.05)

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

The following table sets forth the options to purchase shares of common stock that were not included in the computation of diluted earnings per common share because the exercise price of the options was greater than the average market price or their inclusion would have been antidilutive for the three months ended March 31, 2013 and 2012:

<i>(number of options in millions)</i>	Three months ended March 31	
	2013	2012
Number of options	3.2	3.7

9. Segment Information

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve or products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied and general liability insurance covering small-to-medium sized commercial exposures in the business insurance market. The specialty insurance segment provides commercial coverages, including workers' compensation for both legacy State Auto Group and RTW, Inc.'s insurance subsidiaries, that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services.

The Company evaluates the performance of its insurance segments using industry financial measurements based on Statutory Accounting Practices (SAP), which include loss and loss adjustment expense ratios, underwriting expense ratios, combined ratios, statutory underwriting gain (loss), net premiums earned and net written premiums. One of the most significant differences between SAP and GAAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred and amortized over the same period the premium is earned. The investment operations segment is evaluated based on investment returns of assets managed by Stateco.

Asset information by segment is not reported for the insurance segments because the Company does not produce such information internally.

As of January 1, 2013 our units within the specialty insurance segment changed from RED, Rockhill and Workers' Compensation to Excess & Surplus Property, Excess & Surplus Casualty, Programs and Workers' Compensation. This change did not have any impact on segment reporting.

Notes to Condensed Consolidated Financial Statements, Continued (Unaudited)

10. Contingencies and Litigation

In accordance with the Contingencies Topic of the FASB ASC, the Company accrues for a litigation-related liability when it is probable that such a liability has been incurred and the amount can be reasonably estimated. The Company reviews all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, the Company cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, the Company does not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. Based on currently available information known to the Company, it believes that its reserves for litigation-related liabilities are reasonable. However, in the event that a legal proceeding results in a substantial judgment against, or settlement by, the Company, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the consolidated financial statements of State Auto Financial Corporation.

The following describes a pending legal proceeding, other than routine litigation incidental to our business, to which State Auto Financial or any of its subsidiaries is a party or to which any of its or their property is subject:

In April 2013, a putative class action lawsuit (Schumacher vs. State Automobile Mutual Insurance Company, et al.) was filed against State Auto Mutual, State Auto Financial and State Auto P&C in Federal District Court in Ohio. Plaintiffs' claims relate to State Auto's homeowners insurance to value (ITV) program and allege that their homeowners policy limits and premiums were improperly increased, causing them to purchase coverage in excess of that which was necessary to insure them in the event of loss. Plaintiffs' claims include breach of good faith and fair dealing, negligent misrepresentation and fraud, violation of the Ohio Deceptive Trade Practices Act, and fraudulent inducement. Plaintiffs are seeking class certification and compensatory and punitive damages to be determined by the court. The Company intends to deny any and all liability to plaintiffs or the alleged class and to vigorously defend this lawsuit.

The Company is involved in other lawsuits arising in the ordinary course of our business operations arising out of or otherwise related to our insurance policies. Additionally, from time to time the Company may be involved in lawsuits arising in the ordinary course of business but not arising out of or otherwise related to its insurance policies. These lawsuits are in various stages of development. The Company generally will contest these matters vigorously but may pursue settlement if appropriate. Based on currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits will be material to its results of operations or have a material adverse effect on its consolidated financial or cash flow positions.

Additionally, the Company may be impacted by adverse regulatory actions and adverse court decisions where insurance coverages are expanded beyond the scope originally contemplated in its insurance policies. The Company believes that the effects, if any, of such regulatory actions and published court decisions are not likely to have a material adverse effect on its financial or cash flow position.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

The term "State Auto Financial" as used below refers only to State Auto Financial Corporation and the terms "our Company," "we," "us," and "our" used below refer to State Auto Financial Corporation and its consolidated subsidiaries. The term "first quarter" as used below refers to the three months ended March 31 for the time period then ended. For a glossary of terms for State Auto Financial Corporation and its subsidiaries and affiliates and a glossary of selected insurance and accounting terms, see the section entitled "Important Defined Terms Used in this Form 10-K" included in our Annual Report on Form 10-K for the year ended December 31, 2012 (the "2012 Form 10-K").

The discussion and analysis presented below relates to the material changes in financial condition and results of operations for our consolidated balance sheets as of March 31, 2013 and December 31, 2012, and for the consolidated statements of income for the three-month periods ended March 31, 2013 and 2012. This discussion and analysis should be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the 2012 Form 10-K, and in particular the discussions in those sections thereof entitled "Overview," "Executive Summary" and "Critical Accounting Policies." Readers are encouraged to review the entire 2012 Form 10-K, as it includes information regarding our Company not discussed in this Form 10-Q. This information will assist in your understanding of the discussion of our current period financial results.

The discussion and analysis presented below includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "estimate," "anticipate," "project," "believe" or "continue" or the negative variations thereon or similar terminology. Forward-looking statements speak only as of the date the statements were made. Although we believe that the expectations reflected in forward-looking statements have a reasonable basis, we can give no assurance that these expectations will prove to be correct. Forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed in or implied by the statements. For a discussion of the most significant risks and uncertainties that could cause our actual results to differ materially from those projected, see "Risk Factors" in Item 1A of the 2012 Form 10-K, updated by Part II, Item 1A of this Form 10-Q. Except to the limited extent required by applicable law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The Company has four reportable segments: personal insurance, business insurance, specialty insurance and investment operations. The reportable insurance segments are business units managed separately because of the differences in the type of customers they serve or products they provide or services they offer. The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied and general liability insurance covering small-to-medium sized commercial exposures in the business insurance market. Effective January 1, 2013, the units within the specialty insurance segment changed from the three units of RED, Rockhill and Workers' Compensation to the four units of Excess & surplus property, Excess & surplus casualty, Programs and Workers' compensation. The specialty insurance segment provides commercial coverages that require specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources. The investment operations segment, managed by Stateco, provides investment services. See "Personal and Business Insurance" and "Specialty Insurance" in Item 1 of the 2012 Form 10-K for more information about our insurance segments. Financial information about our reportable segments for 2013 is set forth in Note 9 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

POOLING ARRANGEMENT

The STFC Pooled Companies and the Mutual Pooled Companies participate in a quota share reinsurance pooling arrangement referred to as the Pooling Arrangement. Under the Pooling Arrangement, State Auto Mutual assumes premiums, losses and expenses from each of the Pooled Companies and in turn cedes to each of the Pooled Companies a specified portion of premiums, losses and expenses based on each of the Pooled Companies' respective pooling percentages. State Auto Mutual then retains the balance of the pooled business.

The following table sets forth the participants and their participation percentages in the Pooling Arrangement since January 1, 2012:

STFC Pooled Companies:	
State Auto P&C	51.0%
Milbank	14.0
SA Ohio	0.0
<i>Total STFC Pooled Companies</i>	<i>65.0</i>
State Auto Mutual Pooled Companies:	
State Auto Mutual	34.0
SA Wisconsin	0.0
Meridian Security	0.0
Meridian Citizens Mutual	0.5
Patrons Mutual ⁽¹⁾	0.5
RIC	0.0
Plaza	0.0
American Compensation	0.0
Bloomington Compensation	0.0
<i>Total State Auto Mutual Pooled Companies</i>	<i>35.0</i>

⁽¹⁾ Includes the pooling participation percentage of Litchfield which was merged into Patrons Mutual as of the close of business on March 31, 2013. Litchfield's pooling participation percentage was 0.1% from January 1, 2012 to March 31, 2013.

RESULTS OF OPERATIONS

Our net income was \$19.7 million for the first quarter of 2013 compared to a net loss of \$2.0 million for the first quarter of 2012. Our pretax income was \$20.0 million for the first quarter of 2013 compared to pretax loss of \$2.0 million for the first quarter of 2012. The improvement in our 2013 results, when compared to our 2012 results, was primarily due to a decrease in the level of catastrophe losses during the first quarter of 2013. Results have been and will continue to be impacted by the termination of business previously written through our former RED unit in our specialty insurance segment, as well as the quota share reinsurance arrangement covering our homeowners book of business, discussed below.

for a discussion of the HO QS Arrangement.

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Use of Non-GAAP Financial Measures

In the following discussion of the results of our insurance segments, we sometimes refer to GAAP financial measures in the context of "as reported" and to non-GAAP financial measures in the context of "pro forma." These pro forma, or non-GAAP financial measures, may (i) exclude the impact of the HO QS Arrangement cession for the three months ended March 31, 2013 and (ii) exclude the impact of program business written through our former RED unit. We believe the use of these non-GAAP financial measures will enable investors to (a) better understand the impact of the reinsurance arrangement cession on our reported results for the three months ended March 31, 2013, and (b) perform a meaningful comparison of our results of operations for the three months ended March 31, 2013 and 2012. We have also included Reconciliation Tables 1-12 and Tables 1-6 for readers to better understand the use and calculation of these non-GAAP financial measures.

Insurance Segments

The insurance segments market a broad line of property and casualty insurance products throughout the United States through independent insurance agencies, which include retail agents and wholesale brokers. The personal insurance segment provides primarily personal automobile and homeowners coverage to the personal insurance market. The business insurance segment provides primarily commercial automobile, commercial multi-peril, fire & allied and general liability insurance covering small-to-medium sized commercial exposures in the business insurance market. Effective January 1, 2013, the units within the specialty insurance segment changed from the three units of RED, Rockhill and Workers Compensation to the four units of Excess & surplus property, Excess & surplus casualty, Programs and Workers compensation. The specialty insurance segment provides commercial coverage requiring specialized product underwriting, claims handling or risk management services through a distribution channel of retail agents and wholesale brokers, which may include program administrators and other specialty sources.

Insurance industry regulators require our insurance subsidiaries to report their financial condition and results of operations using SAP. We use SAP financial results, along with industry standard financial measures determined on a SAP basis and certain measures determined on a GAAP basis, to internally monitor the performance of our insurance segments and reward our employees.

One of the more significant differences between GAAP and SAP is that SAP requires all underwriting expenses to be expensed immediately and not deferred over the same period that the premium is earned. In converting SAP underwriting results to GAAP underwriting results, acquisition costs are deferred and amortized over the periods the related written premiums are earned. For a discussion of deferred acquisition costs, see "Critical Accounting Policies - Deferred Acquisition Costs" section included in Item 7 of our 2012 Form 10-K.

The accounting for pension benefits also contributes to the difference between our GAAP loss and expense ratios and our SAP loss and expense ratios. At January 1, 2013, we adopted new SAP pension guidance, which required the recognition of service costs for non-vested participants. In accordance with GAAP, service costs related to non-vested participants was recognized over the vesting period.

All references to financial measures or components thereof in this discussion are calculated on a GAAP basis, unless otherwise noted.

(2) See Reconciliation Tables 3 and 4 above for the impact of the HO QS Arrangement cession on our SAP underwriting results.

Revenue

Edgar Filing: State Auto Financial CORP - Form 10-Q

We measure top-line growth for our insurance segments based on net written premiums, which represent the premiums on the policies we have issued for a period, net of reinsurance. Net written premiums provide us with an indication of how well we are doing in terms of revenue growth before it is actually earned. Our policies provide a fixed amount of coverage for a stated period of time, often referred to as the policy term. As such, our net written premiums are recognized as earned ratably over the policy term. The unearned portion of net written premiums, called unearned premiums, is reflected on our balance sheet as a liability and represents our obligation to provide coverage for the unexpired term of the policies.

Catastrophe losses on our personal insurance segment were \$0.6 million, or 0.5 catastrophe loss ratio points, for the three months ended March 31, 2013, which included \$1.2 million or 1.0 points of prior period favorable development (Table 2). For the three months ended March 31, 2013, cessions under the HO QS Arrangement reduced our personal insurance segment catastrophe losses by \$2.0 million or 1.1 catastrophe loss ratio points (Reconciliation Table 5). Catastrophe losses on our personal insurance segment were \$5.8 million, or 4.9 loss ratio points, for the three months ended March 31, 2012, which included \$3.9 million or 3.3 catastrophe loss ratio points of prior period favorable development (Table 2).

Personal auto net written premiums for the three months ended March 31, 2013 decreased 0.1% compared to the same 2012 period (Table 1). This decrease in premiums was primarily due to (i) reshaping our geographic footprint and (ii) actions taken in our homeowners book of

Edgar Filing: State Auto Financial CORP - Form 10-Q

business (discussed below) which have impacted our companion home/auto policies, offset by new business growth in states less prone to wind damage.

The personal auto SAP non-catastrophe loss ratio for the three months ended March 31, 2013 increased 2.5 points compared to the same 2012 period primarily due to an increase in personal injury protection loss costs (Table 2). We continue to aggressively address our rate needs in the personal auto line of business and have filed rate increases in the mid-single digit range to offset loss cost trends, primarily relating to bodily injury claims.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Homeowners net written premiums for the three months ended March 31, 2013 increased 10.2% compared to the same 2012 period primarily due to rate increases (Table 1). As we continue to aggressively address our rate needs in the homeowners' book of business, rates increased 14% for the first quarter of 2013 and we expect a comparable rate increase for the remainder of 2013. In addition to rate increases, we continue to utilize the following additional strategies to improve our homeowners results.

CustomFitSM homeowners: During 2012, we developed a second generation CustomFit homeowners product, which enhances our ability to model non-weather related losses. This second generation of CustomFit homeowners was deployed in 2 active states in late 2012, with plans for 2 additional states in 2013.

Evaluating, monitoring and terminating unprofitable agencies: We are aggressively evaluating and monitoring unprofitable agencies, which includes reviewing existing policies, implementing tighter new business and renewal guidelines, and applying other loss mitigation tools. In 2012, we terminated the personal lines relationship with a significant number of agencies in our most unprofitable homeowners states and will see the run off of these agencies' business throughout the majority of 2013.

Insurance to value: We continue to focus on insurance to value so that our insureds maintain an amount of coverage sufficient to replace their home and contents in the case of a total loss. Proper insurance to value ensures that our premiums are commensurate with our loss exposure.

Wind and hail deductibles: We have implemented mandatory wind and hail deductibles in all targeted catastrophe prone states. We continue to evaluate the implementation of this loss mitigation tool in other states based upon annual rate reviews.

The as reported homeowners SAP non-catastrophe loss ratio for the three months ended March 31, 2013 improved 5.7 points when compared to the same 2012 period (Table 2). The pro forma homeowners SAP non-catastrophe loss ratio for the three months ended March 31, 2013 improved 8.6 points when compared to the same 2012 period (Reconciliation Tables 7 and 8). Our non-catastrophe loss ratio improved as a result of prior year rate actions emerging in earned premiums.

Net written premiums for the business insurance segment for the three months ended March 31, 2013 increased 14.9% compared to the same 2012 period (Table 3). This increase in premiums was primarily due to (i) writing larger average premium new business accounts, (ii) receiving modest pricing increases on renewal business, and (iii) experiencing more growth on existing policies due to improved economic conditions. Also contributing to this growth was the umbrella quota share reinsurance arrangement, which was terminated effective July 1, 2012. For the three months ended March 31, 2012, \$3.6 million of written premiums were ceded under the umbrella treaty. For the three months ended March 31, 2013, the termination of this umbrella treaty accounted for 5.0 points of the 14.9% net written premiums growth discussed above.

The business insurance segment's SAP non catastrophe loss and ALAE ratio for the three months ended March 31, 2013 was 52.1 loss ratio points compared to 49.1 loss ratio points for the same 2012 period (Table 4). The increase was primarily due to increased claim severity in our commercial multi-peril line.

Edgar Filing: State Auto Financial CORP - Form 10-Q

The business insurance segment's catastrophe loss and ALAE ratio for the three months ended March 31, 2013 was 4.8 loss ratio points compared to 18.3 loss ratio points for the same 2012 period (Table 4). We experienced an improved level of catastrophe losses in our fire and allied lines in the first quarter of 2013 as compared to the first quarter of 2012.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Our small accounts are a foundational element of our premium writings and will continue as an important part of our future business plans. Improved efficiency and reduced processing expense will be critical to our success managing these accounts. Business Insurance Evolution (BIE) is an important tool providing automated predictive price models and rules engines as part of our new business and policy renewal process on our smaller accounts. BIE will allow this process to move from being high touch processing (i.e. very manual), to low or in many instances no touch processing. We intend to continue the rollout of BIE for renewal business into our remaining states in 2013. We believe that over time the ability to price policies based on predictive criteria and issue them more efficiently will produce an improvement in our loss ratio and expense ratio results, while increasing agent satisfaction.

Our current book of business is mainly comprised of smaller commercial accounts that are less than \$5,000 in premium. Our goal in 2013 is to write larger accounts in the premium range of \$25,000-\$50,000. As these accounts are written frequently by independent agents, we have developed strategies which we believe will enable us to write a larger percentage of these accounts. We believe writing a greater mix of larger accounts will improve our expense ratio and provide value to our independent agencies.

Additionally, we are concentrating on accounts which produce \$100,000 or more in premium. These large accounts will typically have over \$3.0 million of payroll and more than \$25.0 million in sales. We believe our risk consulting and claims management will provide value to our independent agents in writing these larger accounts.

Specialty Insurance Segment

Effective January 1, 2013 our units within the specialty insurance segment changed from the three units of RED, Rockhill and Workers compensation to the four units of Excess & surplus property, Excess & surplus casualty, Programs (which includes the former RED unit) and Workers compensation. Previously reported financial information has been revised to reflect the effect of the change in units. The following table sets forth the net written premiums by unit for our specialty insurance segment for the three months ended March 31, 2013 and 2012.

Table 5

(\$ millions)	Net written premiums		
	2013	2012	% Change
Specialty insurance segment:			
Excess & surplus property	\$ 9.4	5.8	62.1

For the three months ended March 31, 2013, the business written by our former RED unit, which is in run-off, increased our net SAP specialty insurance segment underwriting loss by \$2.7 million or 13.0 combined ratio points (Reconciliation Table 9). For the three months ended March 31, 2012, the business written by our former RED unit increased our net SAP specialty insurance segment underwriting loss by \$10.0 million or 14.8 combined ratio points (Reconciliation Table 10).

<i>Combined ratio</i>	114.2%	131.0%	99.4%

Net written premiums for the specialty insurance segment for the three months ended March 31, 2013 decreased 18.5% compared to the same 2012 period (Table 5). Excluding the impact of the net written premiums of our former RED unit, the specialty insurance segment net written premiums for the three months ended March 31, 2013 increased 46.6% compared to the same 2012 period (Reconciliation Tables 9 and 10). The SAP non-catastrophe loss ratio for the specialty insurance segment for the three months ended March 31, 2013 improved 9.9 points compared to the same 2012 period primarily due to our Workers' compensation unit (Table 6).

Edgar Filing: State Auto Financial CORP - Form 10-Q

Net written premiums for the Excess & surplus property unit for the three months ended March 31, 2013 increased 62.1% compared to the same 2012 period (Table 5). The growth in this unit was primarily due to new business, as well as, rate increases of approximately 13.5% and a favorable property catastrophe reinsurance premium adjustment during the first quarter of 2013. The SAP non-catastrophe loss ratio for the Excess & surplus property unit for the three months ended March 31, 2013 increased 5.4 points when compared to the same 2012 period (Table 6). The increase was driven primarily by prior year favorable development from the first quarter of 2012.

Net written premiums for the Excess & surplus casualty unit for the three months ended March 31, 2013 increased 11.1% compared to the same 2012 period (Table 5). The growth in this unit is primarily due to new business during the first quarter of 2013. The SAP non-catastrophe loss ratio for the Excess & surplus casualty unit was relatively flat for the first quarter compared to the same 2012 period (Table 6).

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Net written premiums for our Programs unit for the three months ended March 31, 2013 decreased 48.9% compared to the same 2012 period (Table 5). Excluding the impact of the net written premiums of our former RED unit, the Programs unit net written premiums increased \$12.9 million (Reconciliation tables 11 and 12). We believe that we will grow our Programs unit by targeting small to medium sized programs using managing general underwriters who have proven track records in terms of profitability and distribution. The SAP non-catastrophe loss ratio for the Programs unit, excluding the RED unit, for the three months ended March 31, 2013 decreased 11.6 points compared to the same 2012 period (Reconciliation Tables 11 and 12). The decrease was driven primarily by underwriting and rate actions initiated in 2012 for the largest program. The rate increase on this program was 8.6%.

The following tables set forth, on a SAP and pro forma basis, certain of our key performance indicators for the Programs unit before and after the impact of our former RED unit's underwriting results, which is in run-off, for the three months ended March 31, 2013 and 2012.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Net written premiums for our Workers' compensation unit for the three months ended March 31, 2013, increased 3.3% compared to the same 2012 period (Table 5). The premium growth in our Workers' compensation unit was driven by rate increases. During the first quarter of 2013, rate increases of 9.2% were taken on our entire workers' compensation book of business. The Workers' compensation unit's SAP non-catastrophe loss ratio for the three months ended March 31, 2013, was 61.6%, an improvement of 21.4 points compared to the same 2012 period (Table 6). This improvement was attributable to more favorable development on prior accident years in the first quarter of 2013 as compared to the first quarter of 2012. We anticipate solid underwriting results from our targeted workers' compensation strategy which focuses on accounts under \$10,000 and our traditionally profitable debit mod business, which we define as business with limited driving and off-premises but higher than average soft-tissue injuries.

<i>Total specialty</i>	359.6	355.9	3.7
<i>Total losses and loss expenses payable net of reinsurance recoverable on losses and loss expenses payable</i>	\$ 932.2	\$ 928.7	3.5

We conduct quarterly reviews of loss development reports and make judgments in determining the reserves for ultimate losses and loss expenses payable. Several factors are considered by us when estimating ultimate liabilities including consistency in relative case reserve adequacy, consistency in claims settlement practices, recent legal developments, historical data, actuarial projections, accounting projections, exposure changes, anticipated inflation, current business conditions, catastrophe developments, late reported claims, and other reasonableness tests.

The risks and uncertainties inherent in our estimates include, but are not limited to, actual settlement experience different from historical data, trends, changes in business and economic conditions, court decisions creating unanticipated liabilities, ongoing interpretation of policy provisions by the courts, inconsistent decisions in lawsuits regarding coverage and additional information discovered before settlement of

Edgar Filing: State Auto Financial CORP - Form 10-Q

claims. Our results of operations and financial condition could be impacted, perhaps significantly, in the future if the ultimate payments required to settle claims vary from the liability currently recorded. For a discussion of our reserving methodologies as well as a measure of sensitivity discussion see Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies Loss and Loss Expenses Payable in Item 7 of the 2012 Form 10-K.

Annualized investment yield, after tax	2.5%	2.4
Net investment income, after tax	\$ 13.3	13.6
Effective tax rate	21.3%	22.0

Our net investment income for the three months ended March 31, 2013 decreased \$0.6 million when compared to the same 2012 period. Our investment operations revenue for the three months ended March 31, 2013 was primarily impacted by the income earned on our Treasury

Inflation-Protected Securities, which is dependent on changes in the CPI Index.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

The following table sets forth realized gains (losses) and the proceeds received on sale for our investment portfolio for the three months ended March 31, 2013 and 2012:

(\$ in millions)	2013		2012	
	Realized gains (losses)	Proceeds received on sale	Realized gains (losses)	Proceeds received on sale
Realized gains:				
Fixed maturities	\$ 0.5	38.5	3.1	45.9
Equity securities	6.6	27.5	4.4	27.0
<i>Total realized gains</i>	7.1	66.0	7.5	72.9
Realized losses:				
Equity securities:				
Sales	(0.1)	0.6		
OTTI	(0.3)		(0.4)	
<i>Total realized losses</i>	(0.4)	0.6	(0.4)	
<i>Net realized gain on investments</i>	\$ 6.7	66.6	7.1	72.9

During the first quarter 2013, equity sales were executed for various reasons, including: (i) the achievement of our price target, (ii) in response to changes in business conditions, which in our opinion diminished the future business prospects on these securities, and (iii) in order to manage our equity holdings consistent with our investment objectives.

When a fixed maturity security has been determined to have an other-than-temporary decline in fair value, the impairment charge is separated into an amount representing the credit loss, which is recognized in earnings, and the amount related to non-credit factors, which is recognized in accumulated other comprehensive income. See Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies Investments included in Item 7 of the 2012 Form 10-K for other-than-temporary impairment (OTTI) indicators. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income. We did not recognize OTTI on our fixed maturity portfolio for the three months ended March 31, 2013 or 2012.

When an equity security or other invested asset has been determined to have a decline in fair value that is other-than-temporary, we adjust the cost basis of the security to fair value. See Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies Investments included in Item 7 of the 2012 Form 10-K for OTTI impairment indicators. This results in a charge to earnings as a realized loss, which is not reversed for subsequent recoveries in fair value. Future increases or decreases in fair value, if not other-than-temporary, are included in accumulated other comprehensive income.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

The following table sets forth the realized losses related to OTTI on our investment portfolio recognized for the three months ended March 31, 2013:

(\$ millions, except # of positions)

	Number of positions	Total impairment
Small-cap equity securities	6	\$ 0.3

Gross Unrealized Investment Gains and Losses

Based upon our review of our investment portfolio at March 31, 2013, we determined that there were no individual investments with an unrealized holding loss that had a fair value significantly below cost continually for more than one year. The following table sets forth detailed information on our available-for-sale investment portfolio by lot at fair value for our gross unrealized holding gains (losses) at March 31, 2013:

(\$ millions, except # of positions)

	Cost or amortized cost	Gross unrealized holding gains	Number of gain positions	Gross unrealized holding losses	Number of loss positions	Fair value
Fixed maturities:						
U.S. treasury securities and obligations of U.S. government agencies	\$ 303.7	\$ 37.0	52	\$	5	\$ 340.7
Obligations of states and political subdivisions	781.8	46.6	278	(1.4)	36	827.0
Corporate securities	327.8	18.6	74	(1.2)	16	345.2
U.S. government agencies residential mortgage-backed securities	362.0	21.5	118	(1.4)	17	382.1
<i>Total fixed maturities</i>	1,775.3	123.7	522	(4.0)	74	1,895.0
Equity securities:						
Large-cap securities	154.9	38.3	37	(2.9)	6	190.3
Small-cap securities	43.4	15.1	82			58.5
<i>Total equity securities</i>	198.3	53.4	119	(2.9)	6	248.8
Other invested assets	49.0	19.0	4			68.0
<i>Total available-for-sale investments</i>	\$ 2,022.6	\$ 196.1	645	\$ (6.9)	80	\$ 2,211.8

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

The following table sets forth our unrealized holding gains by investment type, net of deferred tax that was included as a component of accumulated comprehensive income (loss) at March 31, 2013 and December 31, 2012, and the change in unrealized holding gains, net of deferred tax, for the three months ended March 31, 2013:

<i>(\$ millions)</i>	March 31, 2013	December 31, 2012	\$ Change
<u>Available-for-sale investments:</u>			
Unrealized holding gains:			
Fixed maturities	\$ 119.7	128.9	(9.2)
Equity securities	50.5	32.2	18.3
Other invested assets	19.0	15.4	3.6
<i>Unrealized gains</i>	189.2	176.5	12.7
Net deferred federal income tax liability (less valuation allowance)	(52.2)	(52.5)	0.3
<i>Unrealized gains, net of tax</i>	\$ 137.0	124.0	13.0

Fair Value Measurements

We primarily use one independent nationally recognized pricing service in developing fair value estimates. We obtain one price per security, and our processes and control procedures are designed to ensure the value is accurately recorded on an unadjusted basis. Through discussions with the pricing service, we gain an understanding of the methodologies used to price the different types of securities, that the data and the valuation methods utilized are appropriate and consistently applied, and that the assumptions are reasonable and representative of fair value. To validate the reasonableness of the valuations obtained from the pricing service, we compare to other fair value pricing information gathered from other independent pricing sources. See Note 3, Fair Value of Financial Instruments to our condensed consolidated financial statements included in Item 1 of this Form 10-Q for a presentation of our available-for-sale investments within the fair value hierarchy at March 31, 2013 and December 31, 2012.

As of March 31, 2013, Level 3 assets as a percentage of total assets were 0.3% which we have determined to be insignificant.

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Other Items*Income Taxes*

Deferred income tax assets and liabilities represent the tax effect of the differences between the financial statement carrying value of existing assets and liabilities and their respective tax bases. In accordance with the Financial Accounting Standards Board's Accounting Standards Codification 740, Income Taxes (ASC 740), we periodically evaluate our deferred tax assets, which requires significant judgment, to determine if they are realizable based upon weighing all available evidence, both positive and negative, including our historical and anticipated future taxable income. In making such judgments, significant weight is given to evidence that can be objectively verified. The following table sets forth the components of our federal income tax expense for the three months ended March 31, 2013 and 2012, respectively.

(\$ millions)	Three months ended March 31	
	2013	2012
Income (loss) before federal income taxes	\$ 20.0	\$ (2.0)
Current tax expense	0.3	
Deferred tax expense (benefit)	4.6	(2.8)
	4.9	(2.8)
Valuation allowance	(4.6)	2.8
Federal income tax expense	0.3	
<i>Net income (loss)</i>	\$ 19.7	\$ (2.0)

In the first quarter of 2013, we recorded current tax expense in the income statement of \$0.3 million related to the Alternative Minimum Tax (AMT). AMT is an alternative tax system whereby we calculate our tax and if it is greater than regular tax, we provide for the AMT. In our case for the first quarter of 2013, while we had both regular tax and AMT tax net operating loss carryforwards, the Internal Revenue Code only allows for a 90% offset of the AMT obligation; whereas, the Internal Revenue Code allows for an 100% offset of the regular tax obligation. This resulted in recording a current tax provision. The deferred tax benefit for the AMT was offset by the tax valuation allowance, which resulted in a net tax provision for the quarter.

In future periods we will re-assess our judgments and assumptions regarding the realization of our net deferred tax assets, but until such time as the positive evidence exceeds the negative evidence we will maintain a valuation allowance against our net deferred tax assets.

Based on ASC 740 intraperiod tax allocation guidelines, the following sets forth the change in valuation allowance attributable to continuing operations and other comprehensive income for the three months ended March 31, 2013 and 2012 is as follows:

(\$ millions)	2013	2012
---------------	------	------

Edgar Filing: State Auto Financial CORP - Form 10-Q

Continuing operations	\$ (4.6)	2.8
Other comprehensive income	(5.1)	(5.6)
<i>Change in valuation allowance</i>	\$ (9.7)	(2.8)

See Note 5 of our condensed consolidated financial statements included in Item 1 of this Form 10-Q.

LIQUIDITY AND CAPITAL RESOURCES

General

Liquidity refers to our ability to generate adequate amounts of cash to meet our short- and long-term needs. Our primary sources of cash are premiums, investment income, investment sales and the maturity of fixed income security investments. The significant outflows of cash are payments of claims, commissions, premium taxes, operating expenses, income taxes, dividends, interest and principal payments on debt and investment purchases. The cash outflows may vary due to uncertainties regarding settlement of large losses or catastrophe events. As a result, we continually monitor our investment and reinsurance programs to ensure they are appropriately structured to enable the insurance subsidiaries to meet anticipated short- and long-term cash requirements without the need to sell investments to meet fluctuations in claim payments.

Liquidity

Our insurance subsidiaries must have adequate liquidity to ensure that their cash obligations are met. However, the STFC Pooled Companies do not have the daily liquidity concerns normally associated with an insurance company due to their participation in, and the terms of, the Pooling Arrangement. Under the terms of the Pooling Arrangement, State Auto Mutual receives all premiums and pays all losses and expenses associated with the insurance business produced by the STFC Pooled Companies and the other pool participants, and then it settles the intercompany balances generated by these transactions with the pool participants within 45 days following each quarter end. We believe this provides State Auto Mutual with sufficient liquidity to pay losses and expenses of our insurance operations on a timely basis. When settling the intercompany balances, State Auto Mutual provides the pool participants with full credit for the premiums written net of losses paid during the quarter, retaining all receivable amounts from insureds and agents and reinsurance recoverable on paid losses from unaffiliated reinsurers. Any receivable amounts that are ultimately deemed to be uncollectible are charged-off by State Auto Mutual and allocated to the pool participant on the basis of its pooling percentage. As a result, we have an off-balance sheet credit risk related to the balances due to State Auto Mutual from insureds, agents and reinsurers, which are offset by the unearned premiums from the respective policies. While the total amount due to State Auto Mutual from policyholders and agents is significant, the individual amounts due are relatively small at the policyholder and agency level. Based on historical data, this credit risk exposure is not considered to be material to our financial position, though the impact to income on a quarterly basis may be material. The State Auto Group mitigates its exposure to this credit risk through its in-house collections unit for both personal and commercial accounts which is supplemented by third party collection service providers. The amounts deemed uncollectible by State Auto Mutual and allocated to the STFC Pooled Companies are included in the other expenses line item in the accompanying consolidated statements of income.

We generally manage our cash flows through current operational activity and maturing investments, without a need to liquidate any of our other investments. However, should our written premiums decline or paid losses increase significantly, or a combination thereof, our cash flows from operations could be impacted requiring us to liquidate investments at losses. This action was not necessary for the three months ended March 31, 2013.

We maintain a portion of our investment portfolio in relatively short-term and highly liquid investments to ensure the immediate availability of funds to pay claims and expenses. At March 31, 2013 and December 31, 2012, we had \$64.3 million and \$59.0 million, respectively, in cash and cash equivalents, and \$2,211.8 million and \$2,197.9 million, respectively, of total available-for-sale investments. Included in our fixed maturities available-for-sale were \$10.1 and \$10.0 million of securities on deposit with insurance regulators as required by law at March 31, 2013 and December 31, 2012, respectively; in addition, substantially all of our fixed maturity and equity securities are traded on public markets. For a further discussion regarding investments, see Investments Operations Segment included in this Item 2.

Net cash provided by operating activities was \$8.0 for the first quarter of 2013 compared to net cash used in operating activities of \$343.5 million for the first quarter 2012. Net cash from operations will vary from period to period if there are significant changes in underwriting

Edgar Filing: State Auto Financial CORP - Form 10-Q

results, primarily a combination of the level of premiums written and loss and loss expenses paid, changes in cash flows from investment income or federal income tax activity. The majority of the change between periods was due to our settlement payment of \$261.4 million related to the 12.31.11 pool change and our payment of \$75.5 million related to our share of the State Auto Group's initial net unearned premium transfer under the HO QS Arrangement during the first quarter 2012.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Net cash provided by investing activities was \$1.3 million and \$56.5 million, respectively, for the first quarter of 2013 and 2012. The majority of the change is due to a lower level of call activity in first quarter 2013 when compared to first quarter 2012

Net cash used in financing activities was \$4.0 million and \$6.0 million for the first quarter 2013 and 2012, respectively. The decrease is due to the change in dividends paid from \$0.15 per share to \$0.10 per share.

Other Capital Transactions

On May 3, 2013, State Auto Financial's board of directors declared a quarterly cash dividend of \$0.10 per share. The dividend is payable June 28, 2013 to shareholders of record at the close of business on June 12, 2013. This was the 88th consecutive quarterly cash dividend declared since State Auto Financial had its initial public offering in 1991.

Borrowing Arrangements

Credit Facility

State Auto Financial has a \$100.0 million unsecured revolving credit facility with a syndicate of lenders which matures in September 2016 (the Credit Facility). During the term of the Credit Facility, we have the right to increase the total facility to a maximum amount of \$150.0 million, provided that no event of default has occurred and is continuing. The Credit Facility is available for general corporate purposes and provides for interest-only payments during its term, with principal and interest due in full at maturity. Interest is based on LIBOR or a base rate plus a calculated margin amount. The Credit Facility includes certain covenants, including financial covenants that require us to maintain a minimum net worth and not exceed a certain debt to capitalization ratio. As of March 31, 2013, State Auto Financial had not made any borrowings and was in compliance with all of its covenants.

Senior Notes

State Auto Financial has outstanding \$100.0 million of unsecured Senior Notes due November 2013. The Senior Notes bear interest at a fixed rate of 6.25% per annum, which is payable each May 15 and November 15. The Senior Notes are general unsecured obligations ranking senior to all existing and future subordinated indebtedness and equal with all existing and future senior indebtedness. The Senior Notes are not guaranteed by any of State Auto Financial's subsidiaries and thereby are effectively subordinated to all State Auto Financial's subsidiaries existing and future indebtedness.

In the first quarter 2013, State Auto P&C became a member of the Federal Home Loan Bank of Cincinnati (FHLB). We intend to refinance the Senior Notes with a secured borrowing with the FHLB.

Subordinated Debentures

State Auto Financial's Delaware business trust subsidiary (the Capital Trust) has outstanding \$15.0 million liquidation amount of capital securities, due 2033. In connection with the Capital Trust's issuance of the capital securities and the related purchase by State Auto Financial of all of the Capital Trust's common securities (liquidation amount of \$0.5 million), State Auto Financial has issued to the Capital Trust \$15.5 million aggregate principal amount of unsecured Floating Rate Junior Subordinated Debt Securities due 2033 (the Subordinated Debentures). The sole assets of the Capital Trust are the Subordinated Debentures and any interest accrued thereon. Interest on the Capital Trust's capital and common securities is payable quarterly at a rate equal to the three-month LIBOR rate plus 4.20%, adjusted quarterly. The applicable interest rates for March 31, 2013 and 2012 were 4.49% and 4.69%, respectively.

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

(a majority-owned subsidiary of State Automobile Mutual Insurance Company)

Reinsurance Arrangements

Members of the State Auto Group follow the customary industry practice of reinsuring a portion of their exposures and paying to the reinsurers a portion of the premiums received. Insurance is ceded principally to reduce net liability on individual risks or for individual loss occurrences, including catastrophic losses. Although reinsurance does not legally discharge the individual members of the State Auto Group from primary liability for the full amount of limits applicable under their policies, it does make the assuming reinsurer liable to the extent of the reinsurance ceded.

To minimize the risk of reinsurer default, the State Auto Group cedes only to third-party reinsurers who are rated A- or better by A.M. Best and also utilizes both domestic and international markets to diversify its credit risk. We utilize reinsurance to limit our loss exposure and contribute to our liquidity and capital resources.

For a discussion of our reinsurance arrangements see Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Reinsurance Arrangements in Item 7 of the 2012 Form 10-K. There have been no material changes in these other reinsurance arrangements since December 31, 2012.

Credit and Financial Strength Ratings

On May 8, 2013, A.M. Best Co. affirmed the State Auto Group's financial strength rating of A (Excellent) and revised its outlook from stable to negative.

Regulatory Considerations

At March 31, 2013, all of our insurance subsidiaries were in compliance with statutory requirements relating to capital adequacy.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

The amendments in this guidance result in additional disclosure requirements under GAAP and do not change the current requirements for reporting net income or other comprehensive income in financial statements. The new guidance requires an entity to present, either in a single note, or, parenthetically on the face of the statement where net income is presented, the effects of significant amounts reclassified from each component of accumulated other comprehensive income by the respective line items of net income, only, if the amount reclassified is required under GAAP to be reclassified to net income in its entirety in the same reporting period. If a component is not required to be reclassified to net income in its entirety, the entity would, instead, cross-reference it to the related disclosure required under GAAP. This guidance is effective prospectively for fiscal years and interim periods beginning after December 15, 2012. We adopted this guidance at January 1, 2013, and it did not have a material impact on the condensed consolidated financial statements.

MARKET RISK

With respect to Market Risk, see the discussion regarding this subject at Management's Discussion and Analysis of Financial Condition and Results of Operations Investment Operations Segment Market Risk in Item 7 of the 2012 Form 10-K. There have been no material changes from the information reported regarding Market Risk in the 2012 Form 10-K.

Item 3. Quantitative and Qualitative Disclosure of Market Risk

The information called for by this item is provided in this Form 10-Q under the caption "Market Risk" under Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations."

Table of Contents

STATE AUTO FINANCIAL CORPORATION AND SUBSIDIARIES

Item 4. Controls and Procedures

Disclosure Controls and Procedures

With the participation of our principal executive officer and principal financial officer, our management has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)), as of the end of the period covered by this report. Based upon that evaluation, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report:

1. Information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission;
2. Information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure; and
3. Our disclosure controls and procedures are effective in timely making known to them material information required to be included in our periodic filings with the Securities and Exchange Commission.

Changes in Internal Control over Financial Reporting

There has been no change in our internal controls over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

The following describes a pending legal proceeding, other than routine litigation incidental to our business, to which State Auto Financial or any of its subsidiaries is a party or to which any of its or their property is subject:

In April 2013, a putative class action lawsuit (Schumacher vs. State Automobile Mutual Insurance Company, et al.) was filed against State Auto Mutual, State Auto Financial and State Auto P&C in Federal District Court in Ohio. Plaintiffs' claims relate to State Auto's homeowners insurance to value (ITV) program and allege that their homeowners policy limits and premiums were improperly increased, causing them to purchase coverage in excess of that which was necessary to insure them in the event of loss. Plaintiffs' claims include breach of good faith and fair dealing, negligent misrepresentation and fraud, violation of the Ohio Deceptive Trade Practices Act, and fraudulent inducement. Plaintiffs are seeking class certification and compensatory and punitive damages to be determined by the court. We intend to deny any and all liability to plaintiffs or the alleged class and to vigorously defend this lawsuit.

We are involved in other lawsuits arising in the ordinary course of our business operations arising out of or otherwise related to our insurance policies. Additionally, from time to time we may be involved in lawsuits arising in the ordinary course of business but not arising out of or otherwise related to its insurance policies. These lawsuits are in various stages of development. We generally contest these matters vigorously but may pursue settlement if appropriate. Based on currently available information, we do not believe it is reasonably possible that any such lawsuit or related lawsuits will be material to our results of operations or have a material adverse effect on our consolidated financial or cash flow positions.

Additionally, we may be impacted by adverse regulatory actions and adverse court decisions where insurance coverage is expanded beyond the scope originally contemplated in its insurance policies. We believe that the effects, if any, of such regulatory actions and published court decisions are not likely to have a material adverse effect on our financial or cash flow position.

In accordance with the Contingencies Topic of the FASB ASC, we accrue for a litigation-related liability when it is probable that such a liability has been incurred and the amount can be reasonably estimated. We review all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, we cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, we do not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. Based on currently available information known to us, we believe that our reserves for litigation-related liabilities are reasonable. However, in the event that a legal proceeding results in a substantial judgment against, or settlement by, us, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the consolidated financial statements of State Auto Financial Corporation.
