F. Impairment Losses on Investments:

The Company holds a 16.8% ownership interest in Nephromics, Inc. (Nephromics) and accounts for its investment under the equity method of accounting as Nephromics is a limited liability company. During the third quarter of fiscal 2012, Nephromics signed an agreement to sell substantially all of its assets. The sale price included a payment at closing, future payment contingent upon the issuance of certain patents, and royalties on future sublicense income. As a result of the agreement, the Company determined that a portion of its investment in Nephromics was other-than-temporarily impaired and wrote off \$2.4 million of this investment during the quarter ended March 31, 2012. The Company s net investment in Nephromics was \$505,000 at both March 31, 2013 and June 30, 2012.

The Company held an ownership interest in ACTGen, Inc. (ACTGen), a development stage biotechnology company, through the second quarter of fiscal 2013. During the third quarter of fiscal 2012, the Company determined that the Company s investment in ACTGen was other-than-temporarily impaired and wrote off its remaining investment of \$854,000 during the quarter ended March 31, 2012.

G. Income Taxes

These activities are conducted domestically through TECHNE Corporation s wholly-owned subsidiaries, Research and Diagnostic Systems, Inc. (R&D Systems), Boston Biochem, Inc. (R&D Europe) and Tocris Holdings Limited (Tocris). R&D Europe has a sales subsidiary, R&D Systems GmbH, in Germany and a sales office in France. TECHNE Corporation distributes its biotechnology products in China through its wholly-owned subsidiary, R&D Systems China Co., Ltd. (R&D China). R&D China has a sales subsidiary, R&D Systems Hong Kong Ltd., in Hong Kong.

The Company has two reportable segments based on the nature of its products (biotechnology and hematology). R&D Systems Biotechnology Division, R&D Europe, Tocris, R&D China, BiosPacific and Boston Biochem operating segments are included in the biotechnology reporting segment. The Company s biotechnology reporting segment develops, manufactures and sells biotechnology research and diagnostic products world-wide. The Company s hematology reporting segment, which consists of R&D Systems Hematology Division, develops and manufactures hematology controls and calibrators for sale world-wide.

RESULTS OF OPERATIONS

Consolidated net sales decreased 3.1% and consolidated net earnings increased 4.3%, respectively, for the quarter ended March 31, 2013 compared to the quarter ended March 31, 2012. Consolidated net sales and consolidated net earnings decreased 2.0% and 1.1%, respectively, for the nine months ended March 31, 2013 compared to the nine months ended March 31, 2012. Consolidated net sales for the quarter and nine months ended March 31, 2013 were unfavorably affected by changes in foreign currency exchange rates from the same prior-year periods. A stronger U.S. dollar as compared to foreign currencies reduced sales by \$122,000 and \$2.6 million in the quarter and nine-month periods ended March 31, 2013, from the comparable prior-year periods.

Net Sales

Consolidated net sales for the quarter and nine months ended March 31, 2013 were \$81.0 million and \$231 million, respectively, decreases of \$2.6 million (3.1%) and \$4.8 million (2.0%) from the quarter and nine months ended March 31, 2012, respectively. Excluding the effect of the change from the comparable prior-year period in exchange rates used to convert sales in foreign currencies (primarily British pound sterling, euros and Chinese yuan), consolidated net sales for the quarter and nine months ended March 31, 2013 decreased 3.0% and 0.9%, respectively, from comparable prior-year periods. Included in consolidated net sales for the quarter and nine months ended March 31, 2013 were \$694,000 and \$1.4 million, respectively, of sales of new biotechnology products that had their first sale in fiscal 2013.

Net sales by reportable segment were as follows (in thousands):

	~	Quarter Ended March 31,		oths Ended ch 31,
	2013	2012	2013	2012
Biotechnology	\$ 75,285	\$ 78,180	\$ 214,416	\$ 220,291
Hematology	5,707	5,441	16,684	15,588
Consolidated net sales	\$ 80,992	\$ 83,621	\$ 231,100	\$ 235,879

Biotechnology segment net sales decreased \$2.9 million (3.7%) and \$5.9 million (2.7%) for the quarter and nine months ended March 31, 2013, respectively, compared to the same prior-year periods. The decrease in the quarter ended March 31, 2013 was affected by one less ship day as compared to the third quarter of the prior fiscal year and also included the Easter holiday, which was in the fourth quarter of the prior fiscal year. The decrease in net sales for the nine months ended March 31, 2013 was affected by two less ship days in the nine-month period, the Easter holiday and changes in exchange rates from the comparable prior-year periods, which impacted sales by \$2.6 million, as noted above.

Biotechnology segment sales growth (decline), excluding the effect of changes in exchange rates, from the same prior-year periods were as follows:

	~	Quarter Ended March 31,		is Ended 31,
	2013	2012	2013	2012
U.S. industrial, pharmaceutical and biotechnology	(2.5%)	5.6%	(4.2%)	5.7%

Europe	(10.3%)	(0.4%)	(2.0%)	(0.6%)
China	24.9%	19.9%	19.4%	22.4%
Pacific rim distributors, excluding China	9.6%	7.8%	4.7%	6.5%

Biotechnology segment net sales consisted of the following:

	Nine Months Ended March 31, 2013
United States:	2010
Industrial, pharmaceutical and biotechnology	29%
Academic	13%
Other	13%
	55%
Europe	28%
China	5%
Pacific rim distributors, excluding China	10%
Rest of world	2%

Hematology segment net sales increased \$266,000 (4.9%) and \$1.1 million (7.0%) for the quarter and nine months ended March 31, 2013, respectively, compared to the same prior-year periods as a result of increased sales volume.

Gross Margins

Fluctuations in gross margins, as a percentage of net sales, are typically the result of changes in foreign currency exchange rates, changes in product mix and seasonality. Such fluctuations are normal and expected to continue in future periods. Gross margins have also been affected by acquisitions completed in prior years.

Segment gross margins, as a percentage of net sales, were as follows:

Quarter Ended Nine Months Ended March 31, March 31,

100%

Edgar Filing: TECHNE CORP /MN/ - Form 10-Q

	2013	2012	2013	2012
Biotechnology	77.5%	77.7%	76.4%	76.9%
Hematology	49.0%	48.7%	49.0%	47.8%
Consolidated	75.5%	75.8%	74.4%	75.0%

The Biotechnology segment gross margin percentage for the quarter ended March 31, 2013 decreased from the same prior-year period primarily due to lower sales volumes. The Biotechnology segment gross margin percentage for the nine months ended March 31, 2013, respectively, decreased from the same prior-year period due to lower sales volumes and unfavorable exchange rates. This negative gross margin impact was partially offset by a decline in the costs recognized upon the sale of inventory acquired in fiscal 2011 which was written-up to fair value. Hematology segment gross margin percentage for the quarter and nine months ended March 31, 2013 increased slightly from the comparable prior-year periods as a result of increased sales volume.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$83,000 (0.8%) and decreased \$57,000 (0.2%) for the quarter and nine months ended March 31, 2013 from the same prior-year periods. Selling general and administrative expenses were impacted by decreases in profit sharing expense of \$399,000 and \$1.1 million for the quarter and nine months ended March 31, 2013, respectively, as compared to the same prior-year periods. The increase in selling, general and administrative expense, excluding the profit sharing impact, was mainly the result of increased marketing wages and consulting related to upgrading the Company s website.

Consolidated selling, general and administrative expenses were composed of the following (in thousands):

	Quarter Ended March 31.		Nine Months Ended March 31,	
	2013	,		2012
Biotechnology	\$ 8,941	\$ 8,921	\$ 27,304	\$ 27,394
Hematology	375	435	1,173	1,315
Unallocated corporate expenses	666	543	2,789	2,614
Consolidated selling, general and administrative Expenses	\$ 9,982	\$ 9,899	\$ 31,266	\$ 31,323

The Company hired a new Chief Executive Officer (CEO) effective April 1, 2013. The compensation for the previous CEO was below market, and therefore, the Company will incur higher executive compensation costs as a result. These increases should not be significant in the fiscal year ending June 30, 2013, but could impact financial results beginning in fiscal 2014. This change could also impact other compensation and benefit costs.

Research and Development Expenses

Research and development expenses for the quarter and nine months ended March 31, 2013 increased \$97,000 (1.4%) and \$1.4 million (7.0%), respectively, from the same prior-year periods. The increase was mainly due to increases in personnel and supply costs associated with the development and release of new high-quality biotechnology products. The Company expects research and development expenses to continue to increase in future periods as a result of its ongoing product development program.

Research and development expenses were composed of the following (in thousands):

	~	Quarter Ended March 31,		Nine Months Ended March 31,	
	2013	2013 2012		2012	
Biotechnology	\$ 7,015	\$ 6,924	\$ 21,470	\$ 20,017	
Hematology	204	198	604	609	
Consolidated research and development expenses	\$ 7,219	\$7,122	\$ 22,074	\$ 20,626	

Impairment Loss on Investments in Unconsolidated Entities

The Company holds a 16.8% ownership interest in Nephromics, Inc. (Nephromics) and accounts for its investment under the equity method of accounting as Nephromics is a limited liability company. During the third quarter of fiscal 2012, Nephromics signed an agreement to sell substantially all of its assets. The sale price included a payment at closing, future payment contingent upon the issuance of certain patents, and royalties on future sublicense income. As a result of the agreement, the Company determined that a portion of its investment in Nephromics was other-than-temporarily impaired and wrote off \$2.4 million of this investment during the quarter ended March 31, 2012. The Company s net investment in Nephromics was \$505,000 at both March 31, 2013 and June 30, 2012.

The Company held an ownership interest in ACTGen, Inc. (ACTGen), a development stage biotechnology company, through the second quarter of fiscal 2013. During the third quarter of fiscal 2012, the Company determined that the Company s investment in ACTGen was other-than-temporarily impaired and wrote off its remaining investment of \$854,000 during the quarter ended March 31, 2012.

Income Taxes

Income taxes for the quarter and nine months ended March 31, 2013 were provided at rates of 25.5% and 29.8%, respectively, of consolidated earnings before income taxes, compared to 26.5% and 30.0% for the same prior-year periods. In January 2013, the U.S. federal credit for research and development was reinstated retroactively for the period of January 2012 through December 2013. Included in income tax expense for both the quarter and nine months ended March 31, 2013 was a \$1.2 million credit for research and development expenses compared to a \$430,000 credit for research and development expenses for the nine months ended March 31, 2012. Included in income tax expense for the quarter and nine months ended March 31, 2013 were credits to U.S. income tax expense of \$1.1 million and \$500,000, respectively, related to foreign source income compared to income tax expense of \$379,000 and \$862,000, respectively, for the same prior-year periods. The income tax credits in fiscal 2013 were due to changes in estimates related to foreign source income. Included in income taxes for the quarter and nine months ended March 31, 2012 was a \$3.0 million benefit due to the reversal of a deferred tax valuation allowance on the Company s excess tax basis in investments in unconsolidated entities. The Company determined such valuation allowance was no longer necessary as of March 31, 2012. The Company expects the effective tax rate for the remainder of fiscal 2013 to range from 30% to 32%.

Cash Flows From Operating Activities

The Company generated cash of \$93.6 million from operating activities in the first nine months of fiscal 2013 compared to \$89.3 million in the first nine months of fiscal 2012. The increase from the prior year was primarily due to changes in income taxes payable as a result of the timing of tax payments, partially offset by decreased net earnings for the period.

FORWARD LOOKING INFORMATION AND CAUTIONARY STATEMENTS

This quarterly report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those regarding the Company's expectations as to the effect of changes to accounting policies, the expected effective income tax rate, the amount of capital expenditures for the remainder of the fiscal year, the timeframe for completing facility improvements in the U.S. and the U.K., the source of funding for capital expenditure requirements, the sufficiency of currently available funds for meeting the Company's needs, the impact of fluctuations in foreign currency exchange rates, and expectations regarding gross margin fluctuations, increasing research and development expenses and increasing selling, general and administrative expenses. These statements involve risks and uncertainties that may affect the actual results of operations. The following important factors, among others, have affected and, in the future, could affect the Company's actual results: the introduction and acceptance of new products, general national and international economic conditions, increased competition, the reliance on internal manufacturing and related operations, the impact of currency exchange rate fluctuations, economic instability in Eurozone countries, the recruitment and retention of qualified personnel, the impact of governmental regulation, maintenance of intellectual property rights, credit risk and fluctuation in the market value of the Company's investment portfolio, unseen delays and expenses related to facility improvements, and the success of financing efforts by companies in which the Company has invested. For additional information concerning such factors, see the Company's Annual Report on Form 10-K for fiscal 2012 as filed with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At March 31, 2013, the Company had a portfolio of fixed income debt securities, excluding those classified as cash and cash equivalents, of \$210 million. These securities, like all fixed income instruments, are subject to interest rate risk and will decline in value if market interest rates increase. As the Company s fixed income securities are classified as available-for-sale, no gains or losses are recognized by the Company in its consolidated statements of earnings due to changes in interest rates unless such securities are sold prior to maturity. The Company generally holds its fixed income securities until maturity and, historically, has not recorded any material gains or losses on any sale prior to maturity.

At March 31, 2013, the Company held an investment in the common stock of CCXI. The investment was included in short-term available-for-sale investments at its fair value of \$87.5 million. At March 31, 2013, the potential loss in fair value due to a 10% decrease in the market value of CCXI was \$8.7 million.

12

The Company operates internationally, and thus is subject to potentially adverse movements in foreign currency exchange rates. For the nine months ended March 31, 2013, approximately 30% of consolidated net sales were made in foreign currencies, including 14% in euros, 7% in British pound sterling, 4% in Chinese yuan and the remaining 5% in other European currencies. As a result, the Company is exposed to market risk mainly from foreign exchange rate fluctuations of the euro, British pound sterling and the Chinese yuan as compared to the U.S. dollar as the financial position and operating results of the Company s foreign operations are translated into U.S. dollars for consolidation.

Month-end average exchange rates between the British pound sterling, euro and Chinese yuan and the U.S. dollar, which have not been weighted for actual sales volume in the applicable months in the periods, were as follows:

	~	Quarter Ended March 31,		Nine Months Ended March 31,	
	2013	2012	2013	2012	
Euro	\$ 1.32	\$ 1.33	\$ 1.29	\$ 1.36	
British pound sterling	1.54	1.59	1.58	1.59	
Chinese yuan	.161	.159	.160	.157	

The Company s exposure to foreign exchange rate fluctuations also arises from trade receivables and intercompany payables denominated in one currency in the financial statements, but receivable or payable in another currency. At March 31, 2013, the Company had the following trade receivable and intercompany payables denominated in one currency but receivable or payable in another currency (in thousands):

	Denominated Currency	U.S. Dollar Equivalent	
Accounts receivable in:			
Euros	£ 978	\$	1,487
Other European currencies	£ 1,162	\$	1,766
Intercompany payable in:			
Euros	£ 664	\$	1,010
U.S. dollars	£ 2,492	\$	3,788
U.S. dollars	yuan 4,440	\$	708

All of the above balances are revolving in nature and are not deemed to be long-term balances. The Company does not enter into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes on forecasted intercompany foreign currency denominated balance sheet positions. Foreign currency transaction gains and losses are included in Other non-operating expense in the Consolidated Statement of Earnings and Comprehensive Income. The effect of translating net assets of foreign subsidiaries into U.S. dollars are recorded on the Consolidated Balance Sheet as part of Accumulated other comprehensive income.

The effects of a hypothetical simultaneous 10% appreciation in the U.S. dollar from March 31, 2013 levels against the euro, British pound sterling and Chinese yuan are as follows (in thousands):

Decrease in translation of 2013 earnings into U.S. dollars (annualized)	\$ 2,469
Decrease in translation of net assets of foreign subsidiaries	16,202
Additional transaction losses	450

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended (the Exchange Act)). Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company s disclosure controls and procedures are effective to ensure that material information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. There was no change in the Company s internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company s most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company s internal control over financial reporting.
