Wells Fargo Advantage Funds

Major central banks, including the Fed and the European Central Bank (ECB) continued to inject liquidity into the banks and the market through various quantitative easing policies.

Dear Valued Shareholder:

We are pleased to offer you this annual report for the *Wells Fargo Advantage Utilities and High Income Fund* for the 12-month period that ended August 31, 2013. Much of the period was marked by monetary easing by global central banks. Toward the end of the period, however, investor concerns that the U.S. Federal Reserve (Fed) would end its bond-buying program led to higher interest rates, resulting in losses for bond indexes and volatility for stock indexes. However, increased confidence that the U.S. economy was staging a fragile recovery, combined with resilience in European economies, resulted in double-digit returns for major U.S. stock market indexes for the 12-month reporting period. The resilient economy also helped support high-yield bonds, which benefited from low default rates.

Central banks continued to provide stimulus.

Major central banks, including the Fed and the European Central Bank (ECB) continued to inject liquidity into the banks and the market through various quantitative easing policies. In the United States, throughout the reporting period, the Federal Open Market Committee (FOMC) kept its key interest rates effectively at zero in order to support the economy and the financial system. After its September 2012 meeting, the FOMC announced its intention to keep interest rates low until at least mid-2015 and to make open-ended purchases of \$40 billion per month in mortgage-backed securities to support the housing market. In December 2012, the Fed increased its quantitative easing program by adding purchases of \$45 billion per month in long-term U.S. Treasuries. The FOMC continued its policy of monetary easing into 2013. However, indications in May 2013 that the FOMC might reduce (or taper) its bond-buying program caused a rise in interest rates and a subsequent sell-off in both stocks and bonds. Even though comments by Fed Chairman Ben Bernanke and other members of the FOMC helped lend clarity to the central bank's plans, the markets remained unsettled through the end of the reporting period.

European markets benefited from the ECB's September 2012 announcement that it would purchase an unlimited amount of one- to three-year sovereign debt from countries that had formally applied for a bailout throughout the period. As a result, when the tiny eurozone nation of Cyprus was forced to implement capital controls and impose losses on uninsured bank depositors in March 2013, global stock markets remained resilient despite short-term volatility. Moreover, in May 2013, the ECB cut its key rate to a historic low of 0.5%. The ECB's aggressive actions helped ease investor worries about a eurozone sovereign debt default.

U.S. and developed foreign market stocks gained on relatively good news.

For most of the period, U.S. economic data remained moderately positive. Reported gross domestic product (GDP) growth came in at a solid 2.8% annualized rate in the third quarter of 2012 but fell back to a 0.1% annualized rate in the fourth quarter. Many analysts attributed the fourth-quarter weakness to the temporary aftereffects from Hurricane Sandy, which devastated the Eastern Seaboard in October 2012, a view that was given credence by the rebound in GDP growth to a 1.1% annualized rate in the first quarter of 2013 and a 2.5% annualized rate in the second quarter 2013. Even the stubbornly high unemployment rate showed signs of improvement, declining from 7.8% in September 2012 to 7.3% in August 2013. The main drawback was the federal budget sequestration that took effect on March 1, 2013, and had the potential to dampen economic growth.

Letter to shareholders (unaudited)

Wells Fargo Advantage Utilities and High Income Fund 3

The relatively positive outlook for the U.S. economy contributed to a strong domestic stock market for much of the reporting period. Dividend-paying stocks, including utilities, initially outperformed as investors continued to seek out yield in a historically low-yielding environment. After the Fed began to signal the end of its bond-buying program in May 2013, however, utilities and other dividend-paying stocks sold off as investors anticipated a rise in interest rates. The utilities sector ended the 12-month period with moderate gains that were less than the return of the S&P 500 Index¹. In the fixed-income market, the rising interest rates that followed the Fed's taper talk resulted in negative returns for investment-grade bonds for the 12-month period. However, high-yield bond indexes posted single-digit gains, continuing to benefit from their more generous yields and a relatively low default rate.

Don't let short-term uncertainty derail long-term investment goals.

Periods of uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with *Wells Fargo Advantage Funds*. We appreciate your confidence in us and remain committed to helping you meet your financial needs. For current information about your fund investments, contact your investment professional, visit our website at wellsfargoadvantagefunds.com, or call us directly at **1-800-222-8222**. We are available 24 hours a day, 7 days a week.

Sincerely,

Karla M. Rabusch

President

Wells Fargo Advantage Funds

The relatively positive outlook for the U.S. economy contributed to a strong domestic stock market for much of the reporting period.

1. The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

Average annual total return¹ (%) as of August 31, 2013

	1 year	5 year	Since inception 4-28-2004
Based on market value	8.93	(1.49)	7.09
Based on net asset value (NAV) per share	12.44	2.60	7.83

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on fund distributions or the sales of fund shares. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Performance figures of the Fund do not reflect brokerage commissions that a shareholder would pay on the purchase and sale of shares. If taxes and such brokerage commissions had been reflected, performance would have been lower. To obtain performance information current to the most recent month-end, please call 1-800-222-8222.

The Fund's gross and net expense ratios for the year ended August 31, 2013, were 1.25% and 1.25%, respectively, which includes 0.21% of interest expense.

Comparison of NAV vs. market value since inception²

The Fund is leveraged through a secured debt borrowing facility and also may incur leverage by issuing preferred shares in the future. The use of leverage results in certain risks including, among others, the likelihood of greater volatility of net asset value and the market price of common shares. High-yield securities have a greater risk of default and tend to be more volatile than higher rated debt securities. Foreign investments may contain more risk due to the inherent risks associated with changing political climates, foreign market instability, and foreign currency fluctuations. Risks of international investing are magnified in emerging or developing markets. Funds that concentrate their investments in a single industry or sector may face increased risk of price fluctuation over more diversified funds due to adverse developments within that industry or sector. Non-diversified funds may face increased risk of price fluctuation over more diversified funds due to adverse developments within certain sectors. Derivatives involve risks, including interest-rate risk, credit risk, the risk of improper valuation, and the risk of non-correlation to the relevant instruments that they are designed to hedge or closely track. Illiquid securities may be subject to wide fluctuations in market value and may be difficult to sell.

1. Total returns based on market value are calculated assuming a purchase of common stock on the first day and sale on the last day of the period reported. Total returns based on NAV are calculated based on the NAV at the beginning of the period and end of period. Dividends and distributions, if any, are assumed for the purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total returns do not reflect brokerage commissions. If brokerage commissions were included, the returns would be lower.
2. This chart does not reflect any brokerage commissions. Dividends and distributions have the effect of reducing the Fund's NAV.

Performance highlights (unaudited)

Wells Fargo Advantage Utilities and High Income
Fund**MANAGER'S DISCUSSION**

The Fund's return was 8.93% during the 12 months ended August 31, 2013, based on market value. During the same period, the Fund's return based on NAV was 12.44%.

Overview

The Fund was positioned defensively throughout the 12-month period, though somewhat less defensively in the second half compared with the first half. While the interest rate outlook was favorable for most of the year, as soon as the U.S. Federal Reserve began to talk of reducing (or tapering) its pace of bond purchases, interest rates rose and both bonds and bond surrogates, such as utilities and telecommunication services stocks, sold off. In the domestic utility space, the Fund was more focused on fully regulated integrated and network utilities and relatively less exposed to utility companies with direct or indirect commodity risk. The Fund continued to maintain exposure to European utility and telecommunication services issuers in anticipation of a nascent recovery in Europe.

The equity allocation of the Fund continued to be managed with a focus on income generation. The Fund's equity investment process includes a dividend capture strategy, which is used in an attempt to achieve the Fund's primary investment objective of high current income. In employing dividend capture, a fund purchases a stock before an ex-dividend date, becomes entitled to the dividend, and then typically sells the stock on or after the stock's ex-dividend date. This may result in a lack of capital appreciation over time, which may also lead to erosion in the value of the fund. Dividend capture may also increase the portfolio turnover rate and related transaction costs of the fund.

High-yield bonds continued to benefit from rising stock prices (as high-yield bonds often trade in sympathy with stocks), relatively low volatility, and strong investor interest due to a dearth of attractive income opportunities. More recently, the market gave back some of its gains due to the effect of rising U.S. Treasury yields on fixed-income assets. Even though many companies that issue high-yield debt were successful at cutting costs and raising cash flow over the past year, the increased use of debt to fund acquisitions and pay dividends resulted in higher average leverage ratios. On the whole, credit fundamentals deteriorated. However, on the positive side, historically low interest rates and a wave of refinancings have kept companies' interest costs low and have extended near-term maturities.

Ten largest holdings³ (%) as of August 31, 2013

SCANA Corporation	3.86
Deutsche Post AG	3.84
American Electric Power Company Incorporated	3.79
Suez Environnement Company SA	3.63
NextEra Energy Incorporated	3.56
ITC Holdings Corporation	3.54
Great Plains Energy Incorporated	3.39
Southern California Edison	3.27
Northeast Utilities	3.26
The Williams Companies Incorporated	3.21

Credit quality⁴ as of August 31, 2013

Contributors to performance

In the equity portfolio, on balance, the Fund's European issuers contributed to performance, with Deutsche Post AG, Vodafone Group plc, and Hera SpA as particular standouts. In the domestic utility space, ITC Holdings Corporation; Spectra Energy Corporation; and NextEra Energy Incorporated were significant contributors. The Fund also participated in the strong appreciation of the high-yield bond market with a position in Springleaf Finance Corporation, the largest contributor to performance.

Detractors from performance

In the equity portfolio, detractors on the foreign side included Telefonica Brasil SA, which was exacerbated by a modest decline in the currency exchange rate. Domestic laggards included American Electric Power Company Incorporated; Great Plains Energy Incorporated; Williams Companies Incorporated; Edison International; and The Southern Company.

Specific holdings in the high-yield component lagged the broader high-yield market as a result of the Fund's lower risk profile. Holding relatively shorter average-life bonds and cash detracted in a market that rewarded higher-risk issues.

**6 Wells Fargo Advantage Utilities and High Income Fund
Country allocation⁵ as of August 31, 2013**

Performance highlights (unaudited)

Management outlook

We are now seeing what appears to be a modest economic recovery in the U.S. While stronger economic growth should be positive for utilities suffering from weak sales, stronger economic growth could also eventually result in rising interest rates as monetary stimulus is withdrawn, and such a scenario would be a headwind for utility stocks. Longer term, fundamentals for regulated network operators remain robust, while the outlook for utilities with significant commodity price exposure remains challenging.

There are two main scenarios we see for high yield going forward. In our view, the more likely scenario is that the economy would continue to improve while U.S. Treasury yields continue to rise. In that case, high-yield bonds would most likely outperform other fixed-income asset classes. In the other scenario, which we believe is less likely, some external event leads to a sharp increase in credit spreads. We see several potential long-term imbalances that could reignite systemic risks and lead to a sell-off in high yield and various other asset classes, including the high government debt and deficit levels in most of the developed world, a potential real estate and municipal debt bubble in China, and persistent trade and current account deficits or surpluses among various countries around the globe. Ultimately, though, we believe that high yield's relative performance will be driven by corporate fundamentals and default rates.

3. The ten largest holdings are calculated based on the value of the securities divided by total net assets of the Fund. Holdings are subject to change and may have changed since the date specified.
4. Credit quality is subject to change and is calculated based on the total market value of bonds held by the Fund. The ratings indicated are from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit Quality Ratings. Credit quality ratings apply to the underlying holdings of the Fund and not the Fund itself. Standard & Poor's rates the creditworthiness of bonds on a scale of AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Standard & Poor's rates the creditworthiness of short-term notes from SP-1 (highest) to SP-3 (lowest). Moody's rates the creditworthiness of bonds on a scale of Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Moody's rates the creditworthiness of short-term U.S. tax-exempt municipal securities from MIG 1/VMIG 1 (highest) to SG (lowest). Fitch rates the creditworthiness of bonds on a scale of AAA (highest) to D (lowest). If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of three rating agencies, the lower rating was

utilized and if rated by one of the agencies that rating was utilized. We generally define higher quality bonds as bonds that have a rating of BBB/Baa and above and lower quality bonds as bonds with a rating below BBB/Baa.

5. Country allocation is subject to change and is calculated based on the total long-term investments of the Fund.

1. Calculated based upon average shares outstanding

2. Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions that a shareholder would pay on the purchase and sale of shares.

3. Ratios include interest expense relating to interest associated with borrowings and/or leverage transactions as follows:

Year ended August 31, 2013	0.21%
Year ended August 31, 2012	0.25%
Year ended August 31, 2011	0.25%
Year ended August 31, 2010	0.19%
Year ended August 31, 2009	0.70%

The accompanying notes are an integral part of these financial statements.

1. ORGANIZATION

The *Wells Fargo Advantage Utilities and High Income Fund* (the Fund) was organized as a statutory trust under the laws of the state of Delaware on February 4, 2004 and is registered as a non-diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income and moderate capital growth, with an emphasis on providing tax-advantaged dividend income.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (normally 4 p.m. Eastern Time).

Equity securities that are listed on a foreign or domestic exchange, except for The Nasdaq Stock Market, Inc. (Nasdaq), are valued at the official closing price or, if none, the last sales price. Securities listed on Nasdaq are valued at the Nasdaq Official Closing Price (NOCP). If no NOCP is available, securities are valued at the last sales price. If no sales price is shown on the Nasdaq, the bid price will be used. If no sale occurs on the primary exchange or market for the security that day or if no sale occurs and no bid price is shown on Nasdaq, the prior day's price will be deemed stale and fair values will be determined in accordance with the Fund's Valuation Procedures.

Securities denominated in foreign currencies are translated into U.S. dollars using the rates of exchange in effect on the day of valuation at a time specified by the Management Valuation Team of Wells Fargo Funds Management, LLC (Funds Management).

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures approved by the Board of Trustees of the Fund are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the last reported sales price or latest quoted bid price. On August 31, 2013, fair value pricing was used in pricing foreign securities.

Fixed income securities acquired with maturities exceeding 60 days are valued based on evaluated bid prices received from an independent pricing service which may utilize both transaction data and market information such as yield, prices of securities of comparable quality, coupon rate, maturity, type of issue, trading characteristics and other market

data. If valuations are not available from the independent pricing service or values received are deemed not representative of market value, values will be obtained from a broker-dealer or otherwise determined based on the Fund's Valuation Procedures.

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined by procedures established in good faith and approved by the Board of Trustees. The Board of Trustees has established a Valuation Committee comprised of the Trustees and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the Management Valuation Team. The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Management Valuation Team which may include items for ratification.

Valuations of fair valued securities are compared to the next actual sales price when available, or other appropriate market information to assess the continued appropriateness of the fair valuation methodology used. These securities are fair valued on a day-to-day basis, taking into consideration changes to appropriate market information and any

20 Wells Fargo Advantage Utilities and High Income Fund

Notes to financial statements

significant changes to the input considered in the valuation process until there is a readily available price provided on the exchange or by an independent pricing service. Valuations received from an independent pricing service or broker quotes are periodically validated by comparisons to most recent trades and valuations provided by other independent pricing services in addition to the review of prices by the adviser and/or subadviser. Unobservable inputs used in determining fair valuations are identified based on the type of security, taking into consideration factors utilized by market participants in valuing the investment, knowledge about the issuer and the current market environment.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. Assets, including investment securities, and liabilities denominated in foreign currency are translated into U.S. dollars at the rates of exchange at a time specified by the Management Valuation Team on the date of valuation. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting in changes in exchange rates.

The changes in net assets arising from changes in exchange rates and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are recorded with net realized and unrealized gains or losses from investments. Gains and losses from certain foreign currency transactions are treated as ordinary income for U.S. federal income tax purposes.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund's commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Term loans

The Fund may invest in term loans. The Fund begins earning interest when the loans are funded. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. The Fund assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower.

Options

The Fund may be subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may write covered call options or secured put options on individual securities and/or indexes. When the Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options that expire unexercised are recognized as realized gains from investments on the expiration date. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a

realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the realized gain or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. The Fund, as a writer of an option, bears the market risk of an unfavorable change in the price of the security and/or index underlying the written option.

The Fund may also purchase call or put options. The premium is included in the Statement of Assets and Liabilities as an investment, the value of which is subsequently adjusted based on to the current market value of the option. Premiums paid for purchased options that expire are recognized as realized losses from investments on the expiration date. Premiums paid for purchased options that are exercised or closed are added to the amount paid or offset against the proceeds received for the underlying security to determine the realized gain or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardized. Options traded over the counter expose the Fund to counterparty risk in the event the counterparty does not perform. This risk is mitigated by having a master netting arrangement between the Fund and the counterparty and by having the counterparty post collateral to cover the Fund's exposure to the counterparty.

Notes to financial statements

Wells Fargo Advantage Utilities and High Income Fund 21

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the Fund is informed of the ex-dividend date. Dividend income from foreign securities is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily based on the effective interest method. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Distributions to shareholders

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with federal income tax regulations, which may differ in amount or character from net investment income and realized gains recognized for purposes of U.S. generally accepted accounting principles.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

Reclassifications are made to the Fund's capital accounts for permanent tax differences to reflect income and gains available for distribution (or available capital loss carryforwards) under federal income tax regulations. U.S. generally accepted accounting principles requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share. The primary permanent differences causing such reclassifications are due to consent fees, foreign currency transactions and bond premiums. At August 31, 2013, as a result of permanent book-to-tax differences, the following reclassification adjustments were made on the Statement of Assets and Liabilities:

Paid-in capital

Overdistributed net
investment incomeAccumulated net
realized losses

		on investments
\$2,250	\$390,542	(\$392,792)

As of August 31 2013, capital loss carryforwards available to offset future net realized capital gains were as follows through the indicated expiration dates:

2017	2018	No expiration Short-term
\$20,548,693	\$27,435,579	\$4,033,372

As of August 31, 2013, the Fund had \$341,205 of current year deferred post-October capital losses, which will be recognized on the first day of the following fiscal year.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to significant unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- n Level 1 – quoted prices in active markets for identical securities

22 Wells Fargo Advantage Utilities and High Income Fund

Notes to financial statements

n Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, use of amortized cost, etc.)

n Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

As of August 31, 2013, the inputs used in valuing investments in securities were as follows:

	Quoted prices (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Investments in securities				
Equity securities				
<i>Common stocks</i>	\$ 54,076,078	\$ 14,871,035	\$ 0	\$ 68,947,113
<i>Preferred stocks</i>	15,372,405	6,202,051	0	21,574,456
<i>Warrants</i>	0	84,344	0	84,344
Corporate bonds and notes	0	33,875,751	0	33,875,751
Term loans	0	2,129,548	910,933	3,040,481
Yankee corporate bonds and notes	0	1,949,967	0	1,949,967
Short-term investments				
<i>Investment companies</i>	2,462,946	0	0	2,462,946
	\$ 71,911,429	\$ 59,112,696	\$ 910,933	\$ 131,935,058

Transfers in and transfers out are recognized at the end of the reporting period.

4. TRANSACTIONS WITH AFFILIATES AND OTHER EXPENSES

Advisory fee

Funds Management, an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo) is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.60% of the Fund's average daily total assets. Total assets consist of net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets.

Funds Management has retained the services of certain investment subadvisers to provide daily portfolio management to the Fund. The fees for subadvisory services are borne by Funds Management. Wells Capital Management Incorporated (an affiliate of Funds Management) and Crow Point Partners, LLC are each investment subadvisers to the Fund and are each entitled to receive a fee from Funds Management at an annual rate of 0.20% of the Fund's average daily total assets.

Administration fee

Funds Management also serves as the administrator to the Fund providing the Fund with facilities, equipment and personnel. Funds Management is entitled to receive an annual administration fee from the Fund equal to 0.05% of the Fund's average daily total assets.

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of shares with no par value. For the years ended August 31, 2013 and August 31, 2012, the Fund issued 5,359 and 18,219 shares, respectively.

6. BORROWINGS

The Fund has borrowed approximately \$22 million through a secured debt financing agreement administered by a major financial institution (the Facility). The Facility has a commitment amount of \$25 million which expires on February 24, 2014, at which point it may be renegotiated and potentially renewed for another one-year term. At August 31, 2013, the Fund had secured borrowings outstanding in the amount of \$22,003,939 (including accrued interest and usage and commitment fees payable).

The Fund's borrowings under the Facility are generally charged interest at a rate determined by the type of loan elected by the Fund. During year ended August 31, 2013, an effective interest rate of 1.05% was incurred on the borrowings. Interest expense of \$234,588, representing 0.21% of the Fund's average daily net assets, was incurred during the year ended August 31, 2013.

Notes to financial statements

Wells Fargo Advantage Utilities and High Income Fund 23

The Fund has pledged all of its assets to secure the borrowings and pays a commitment fee at an annual rate equal to 0.15% of average daily unutilized amounts of the \$25 million commitment amount. The secured borrowing fees on the Statement of Operations represents structuring fees and commitment fees. Of this amount, \$5,635 represents structuring fees.

7. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the year ended August 31, 2013 were \$90,015,334 and \$81,307,192, respectively.

As of August 31, 2013, the Fund had unfunded term loan commitments of \$14,850.

8. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid was \$8,307,863 and \$8,292,871 of ordinary income for the years ended August 31, 2013 and August 31, 2012, respectively.

As of August 31, 2013, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income	Unrealized gains	Post-October capital losses deferred	Capital loss carryforward
\$70,828	\$14,600,146	\$(341,205)	\$(52,017,644)

9. CONCENTRATION RISK

The Fund invests a substantial portion of its assets in the utilities industry and, therefore, may be more affected by changes in that industry than would be a fund whose investments are not heavily weighted in any industry.

10. INDEMNIFICATION

Under the Fund's organizational documents, the officers and directors are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

11. NEW ACCOUNTING PRONOUNCEMENT

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*. ASU 2011-11, which amends FASB ASC Topic 210, *Balance Sheet*, creates new disclosure requirements which require entities to disclose both gross and net information for derivatives and other financial instruments that are either offset in the Statement of Assets and Liabilities or subject to an enforceable master netting arrangement or similar agreement. The disclosure requirements are effective for interim and annual reporting periods beginning on or after January 1, 2013. Management has assessed

the potential impact, in addition to expanded financial statement disclosure, that may result from adopting this ASU and determined that there are no significant changes to the financial statements.

12. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to shareholders:

Declaration Date	Record Date	Payable Date	Per share amount
August 15, 2013	September 17, 2013	October 1, 2013	\$0.075
September 27, 2013	October 15, 2013	November 1, 2013	\$0.075
October 25, 2013	November 14, 2014	December 2, 2013	\$0.075

The final determination of the source of all distributions in the current year is subject to change and will be made after calendar year-end. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of the calendar year and may be subject to change based on tax regulations. These distributions are not reflected in the accompanying financial statements.

24 Wells Fargo Advantage Utilities and High Income Fund

Report of independent registered public accounting firm

BOARD OF TRUSTEES AND SHAREHOLDERS OF WELLS FARGO ADVANTAGE UTILITIES AND HIGH INCOME FUND:

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments and the summary portfolio of investments of the Wells Fargo Advantage Utilities and High Income Fund (the Fund), as of August 31, 2013, and the related statement of operations for the year then ended, statements of changes in net assets for each of the years in the two-year period then ended, statement of cash flows for the year then ended, and the financial highlights for each of the years in the five-year period ended August 31, 2013. These financial statements and financial highlights are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of August 31, 2013 by correspondence with the custodian and brokers, or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Wells Fargo Advantage Utilities and High Income Fund as of August 31, 2013, the results of its operations for the year then ended, changes in its net assets for each of the years in the two-year period then ended, its cash flows for the year then ended, and the financial highlights for each of the years in the five year period then ended, in conformity with U.S. generally accepted accounting principles.

Wells Fargo Advantage Utilities and High Income Fund 25

TAX INFORMATION

For corporate shareholders, pursuant to Section 854 of the Internal Revenue Code, 32.09% of ordinary income dividends qualify for the corporate dividends-received deduction for the fiscal year ended August 31, 2013.

Pursuant to Section 854 of the Internal Revenue Code, \$4,144,828 of income dividends paid during the fiscal year ended August, 31, 2013, has been designated as qualified dividend income (QDI).

For the fiscal year ended August 31, 2013, \$2,279,573 has been designated as interest-related dividends for nonresident alien shareholders pursuant to Section 871 of the Internal Revenue Code.

PROXY VOTING INFORMATION

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-800-222-8222**, visiting our website at **wellsfargoadvantagefunds.com**, or visiting the SEC website at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Fund's website at **wellsfargoadvantagefunds.com** or by visiting the SEC website at sec.gov.

PORTFOLIO HOLDINGS INFORMATION

The complete portfolio holdings for the Fund are publicly available on the Fund's website (**wellsfargoadvantagefunds.com**) on a monthly, 30-day or more delayed basis. The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q, which is available without charge by visiting the SEC website at sec.gov. In addition, the Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and at regional offices in New York City, at 233 Broadway, and in Chicago, at 175 West Jackson Boulevard, Suite 900. Information about the Public Reference Room may be obtained by calling 1-800-SEC-0330.

BOARD OF TRUSTEES AND OFFICERS

The following table provides basic information about the Board of Trustees (the Trustees) and Officers of the Fund. Each of the Trustees and Officers listed below acts in identical capacities for each fund in the Wells Fargo Advantage family of funds, which consists of 131 mutual funds comprising the Wells Fargo Funds Trust, Wells Fargo Variable Trust, Wells Fargo Master Trust, and four closed-end funds, including the Fund (collectively the Fund Complex). All of the Trustees are also Members of the Audit and Governance Committees of each Trust in the Fund Complex. The mailing address of each Trustee and Officer is 525 Market Street, 12th Floor, San Francisco, CA 94105. The Board of Trustees is classified into three classes of which one is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Officer serves an indefinite term.

Independent Trustees

Name and year of birth	Position held and length of service	Principal occupations during past five years	Other directorships during past five years
Peter G. Gordon (Born 1942)	Trustee, since 2010; Chairman, since 2010	Co-Founder, Retired Chairman, President and CEO of Crystal Geysers Water Company. Trustee Emeritus, Colby College.	Asset Allocation Trust

Other information (unaudited)

BOARD CONSIDERATION OF INVESTMENT ADVISORY AND SUB-ADVISORY AGREEMENTS:

Under Section 15 of the Investment Company Act of 1940 (the 1940 Act), the Board of Trustees (the Board) of the *Wells Fargo Advantage Utilities and High Income Fund* (the Fund), all the members of which have no direct or indirect interest in the investment advisory and sub-advisory agreements and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Trustees), must determine whether to approve the continuation of the Fund's investment advisory and sub-advisory agreements. In this regard, at an in-person meeting held on March 28-29, 2013 (the Meeting), the Board reviewed: (i) an investment advisory agreement with Wells Fargo Funds Management, LLC (Funds Management) for the Fund, (ii) an investment sub-advisory agreement with Wells Capital Management Incorporated (WellsCap), an affiliate of Funds Management, for the Fund, and (iii) an investment sub-advisory agreement with Crow Point Partners, LLC (Crow Point) for the Fund. The investment advisory agreement with Funds Management and the investment sub-advisory agreements with WellsCap and Crow Point (the Sub-Advisers) are collectively referred to as the Advisory Agreements.

At the Meeting, the Board considered the factors and reached the conclusions described below relating to the selection of Funds Management and the Sub-Advisers and the continuation of the Advisory Agreements. Prior to the Meeting, the Trustees conferred extensively among themselves and with representatives of Funds Management about these matters. The Board has adopted a team-based approach, with each team consisting of a sub-set of Trustees, to assist the Board in the discharge of its duties in reviewing performance and other matters throughout the year. The Independent Trustees were assisted in their evaluation of the Advisory Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately.

In providing information to the Board, Funds Management and the Sub-Advisers were guided by a detailed set of requests for information submitted to them by independent legal counsel on behalf of the Independent Trustees at the start of the Board's annual contract renewal process earlier in 2013. In considering and approving the Advisory Agreements, the Trustees considered the information they believed relevant, including but not limited to the information discussed below. The Board considered not only the specific information presented in connection with the Meeting, but also the knowledge gained over time through interaction with Funds Management and the Sub-Advisers about various topics. In this regard, the Board reviewed reports of Funds Management at each of its quarterly meetings, which included, among other things, portfolio reviews and performance reports. In addition, the Board and the teams mentioned above confer with portfolio managers at various times throughout the year. The Board did not identify any particular information or consideration that was all-important or controlling, and each individual Trustee may have attributed different weights to various factors.

After its deliberations, the Board unanimously determined that the continuation of the Advisory Agreements is in the best interests of the Fund and its shareholders, and that the compensation payable to Funds Management and the Sub-Advisers is reasonable. The Board considered the continuation of the Advisory Agreements for the Fund as part of its consideration of the continuation of advisory agreements for funds across the complex, but each decision was made on a fund-by-fund basis. The following summarizes a number of important, but not necessarily all, factors considered by the Board in reaching its determination.

Nature, extent and quality of services

The Board received and considered various information regarding the nature, extent and quality of services provided to the Fund by Funds Management and the Sub-Advisers under the Advisory Agreements. This information included, among other things, a summary of the background and experience of senior management of Funds Management, and

the qualifications, background, tenure and responsibilities of each of the portfolio managers primarily responsible for the day-to-day portfolio management of the Fund.

The Board evaluated the ability of Funds Management and the Sub-Advisers, based on attributes such as their financial condition, resources and reputation, to attract and retain qualified investment professionals, including research, advisory and supervisory personnel. The Board further considered the compliance programs and compliance records of Funds Management and the Sub-Advisers. In addition, the Board took into account the administrative and other services provided to the Fund by Funds Management and its affiliates and Funds Management's oversight of the Fund's various service providers.

Fund performance and expenses

The Board considered the performance results for the Fund over various time periods ended December 31, 2012. The Board also considered these results in comparison to the performance of funds in a universe that was determined by Lipper Inc. (Lipper) to be similar to the Fund (the Universe), and in comparison to the Fund's benchmark index and to

Other information (unaudited)

Wells Fargo Advantage Utilities and High Income Fund 29

other comparative data. Lipper is an independent provider of investment company data. The Board received a description of the methodology used by Lipper to select the funds in the performance Universe. The Board also considered these results in comparison to the performance of funds in a custom peer group that was determined by Funds Management to be similar to the Fund (the Custom Peer Group).

The Board noted that the performance of the Fund was higher than or in range of the median performance of the Universe, the Fund's benchmark, the ERH Blended Index, which is a proprietary index used by the Board to help it assess the Fund's relative performance, and the Custom Peer Group for the one-year period under review. The Board also noted that the performance of the Fund was lower than the Universe, the benchmark and the Custom Peer Group for the three- and five-year periods under review.

The Board received information concerning, and discussed factors contributing to, the underperformance of the Fund relative to the Universe, the benchmark and the Custom Peer Group for the three- and five-year periods under review. Funds Management advised the Board about the market conditions and investment decisions that it believed contributed to the underperformance during that period. Funds Management advised the Board that the Fund's focus on short duration, shorter maturity credits and an underweight to long-dated bonds detracted from performance relative to the Universe, the Custom Peer Group and the benchmark. The Board also noted the positive performance of the Fund relative to the Universe, the benchmark and the Custom Peer Group for the more recent one-year period under review. The Board was satisfied with the explanation it received.

The Board received and considered information regarding the Fund's net operating expense ratio and its various components, including actual management fees (which reflect fee waivers, if any, and include advisory and administration fees), custodian and other non-management fees, and fee waiver and expense reimbursement arrangements. The Board also considered this ratio in comparison to the median ratio of funds in an expense group that was determined by Lipper to be similar to the Fund (the Group). The Board received a description of the methodology used by Lipper to select the funds in the expense Group. Based on the Lipper reports, the Board noted that the net operating expense ratio of the Fund was lower than the median net operating expense ratio of the expense Group.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board concluded that the overall performance and expense structure of the Fund supported the re-approval of the Advisory Agreements.

Investment advisory and sub-advisory fee rates

The Board reviewed and considered the contractual investment advisory fee rate that is payable by the Fund to Funds Management for investment advisory services (the Advisory Agreement Rate), both on a stand-alone basis and on a combined basis with the Fund's contractual administration fee rate (the Management Rate). The Board also reviewed and considered the contractual investment sub-advisory fee rates that are payable by Funds Management to each of the Sub-Advisers for investment sub-advisory services (the Sub-Advisory Agreement Rate).

Among other information reviewed by the Board was a comparison of the Management Rate of the Fund with that of other funds in the expense Group at a common asset level. The Board noted that the Management Rate of the Fund was lower than the median rate for the Fund's expense Group. The Board and Funds Management agreed to extend the Fund's advisory fee waiver to February 2014.

The Board also received and considered information about the portion of the total advisory fee that was retained by Funds Management after payment of the fee to the Sub-Advisers for sub-advisory services. In assessing the reasonableness of this amount, the Board received and evaluated information concerning the nature and extent of responsibilities retained and risks assumed by Funds Management and not delegated to or assumed by the Sub-Advisers, and about Funds Management's on-going oversight services. In recognition of the fact that the Wells Fargo enterprise provides a suite of combined advisory and sub-advisory services to the Fund through affiliated entities, the Board ascribed limited relevance to the allocation of the total advisory fee between Funds Management and WellsCap. The Board also considered that the sub-advisory fees paid to Crow Point had been negotiated by Funds Management on an arm's-length basis.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board determined that the Advisory Agreement Rate and each Sub-Advisory Agreement Rate were reasonable in light of the services covered by the Advisory Agreements.

Profitability

The Board received and considered information concerning the profitability of Funds Management, as well as the profitability of Wells Fargo as a whole, from providing services to the Fund. The Board did not receive or consider to be

30 Wells Fargo Advantage Utilities and High Income Fund

Other information (unaudited)

necessary separate profitability information with respect to WellsCap, because, as an affiliate of Funds Management, its profitability information was subsumed in the collective Wells Fargo profitability analysis provided by Funds Management.

Funds Management explained the methodologies and estimates that it used in calculating the profitability from the Fund and the fund family as a whole. Among other things, the Board noted that the levels of profitability reported on a fund-by-fund basis varied widely, depending on factors such as the size and type of fund. Based on its review, the Board did not deem the profits reported by Funds Management to be at a level that would prevent it from approving the continuation of the Advisory Agreements.

The Board also received separate profitability information with respect to Crow Point, which is not affiliated with Funds Management. The Board did not deem the profits reported by Crow Point to be at a level that would prevent it from approving the continuation of the sub-advisory agreement with Crow Point.

Economies of scale

The Board considered the extent to which there may be sharing with the Fund of potential economies of scale in the provision of advisory services to the Fund. The Board noted that, as is the case with many other closed-end funds, there are no breakpoints in the Management Rate. The Board further noted that, although the Fund would not share in any potential economies of scale through contractual breakpoints, fee waiver and expense reimbursement arrangements can also be a means of sharing potential economies of scale with the Fund. The Board noted that it would have opportunities to revisit the Management Rate as part of future contract reviews.

Other benefits to Funds Management and the Sub-Advisers

The Board received and considered information regarding potential fall-out or ancillary benefits received by Funds Management and its affiliates, including WellsCap, and Crow Point as a result of their relationship with the Fund. Ancillary benefits could include, among others, benefits directly attributable to other relationships with the Fund and benefits potentially derived from an increase in Funds Management's and the Sub-Advisers' business as a result of their relationship with the Fund (such as the ability to market to shareholders other financial products and services offered by Funds Management and its affiliates, including WellsCap, or Crow Point, or to operate other products and services that follow investment strategies similar to those of the Fund).

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits received by Funds Management and its affiliates, including WellsCap, or Crow Point were unreasonable.

Conclusion

After considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board unanimously approved the continuation of the Advisory Agreements for an additional one-year period.

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

The following is a list of common abbreviations for terms and entities that may have appeared in this report.

ACA	ACA Financial Guaranty Corporation
ADR	American depositary receipt
ADS	American depositary shares

ITEM 2. CODE OF ETHICS

(a) As of the end of the period, covered by the report, Wells Fargo Advantage Utilities and High Income Fund has adopted a code of ethics that applies to its President and Treasurer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

(c) During the period covered by this report, there were no amendments to the provisions of the code of ethics adopted in Item 2(a) above.

(d) During the period covered by this report, there were no implicit or explicit waivers to the provisions of the code of ethics adopted in Item 2(a) above.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The Board of Trustees of Wells Fargo Advantage Utilities and High Income Fund has determined that Judith Johnson is an audit committee financial expert, as defined in Item 3 of Form N-CSR. Mrs. Johnson is independent for purposes of Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a), (b), (c), (d) The following table presents aggregate fees billed in each of the last two fiscal years for services rendered to the Registrant by the Registrant's principal accountant. These fees were billed to the registrant and were approved by the Registrant's audit committee.

	Fiscal year ended August 31, 2013	Fiscal year ended August 31, 2012
Audit fees	\$ 48,680	\$ 47,490
Audit-related fees		
Tax fees (1)	3,740	3,650
All other fees		
	\$ 52,420	\$ 51,140

(1) Tax fees consist of fees for tax compliance, tax advice and tax planning. Excise tax fees for fiscal year ended 2012 in the amount of \$1,700 was billed on December 2012 and is included in the fiscal year ended August 31, 2013 value. Excise tax fees for fiscal year ended 2011 in the amount of \$1,660 was billed on December 2011 and is included in the fiscal year ended August 31, 2012 value.

(e) The Chairman of the Audit Committees is authorized to pre-approve: (1) audit services to the mutual funds of Wells Fargo Funds Trust; (2) non-audit tax or compliance consulting or training services provided to the Funds by the independent auditors (Auditors) if the fees for any particular engagement are not anticipated to exceed \$50,000; and (3) non-audit tax or compliance consulting or training services provided by the Auditors to a Fund's investment adviser and its controlling entities (where pre-approval is required because the engagement relates directly to the operations and financial reporting of the Fund) if the fee to the Auditors for any particular engagement is not anticipated to exceed \$50,000. For any such pre-approval sought from the Chairman, Management shall prepare a brief description

of the proposed services. If the Chairman approves of such service, he or she shall sign the statement

prepared by Management. Such written statement shall be presented to the full Committees at their next regularly scheduled meetings.

(f) Not applicable

(g) Not applicable

(h) Not applicable

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS

Not applicable.

ITEM 6. INVESTMENTS

A summary portfolio of investments is included as part of the report to shareholders filed under Item 1 of this Form. The complete portfolio of investments for Wells Fargo Advantage Utilities and High Income Fund is filed under this Item.
