Beneficial Owners: Shares Registered in the Name of a Broker or Bank

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you should have received a proxy card and voting instructions with these proxy materials from that organization rather than directly from us. Follow the instructions from your broker or bank included with these proxy materials, or contact your broker or bank to request a proxy form.

May I revoke my proxy?

If you give us your proxy, you may revoke it at any time before it is exercised. You may revoke your proxy in any one of the three following ways:

Table of Contents

you may notify our corporate secretary in writing before the annual meeting and vote in person at the meeting.

What constitutes a quorum?

The presence at the annual meeting, in person or by proxy, of holders representing a majority of our outstanding common stock as of March 31, 2014, or approximately 21,586,086 shares, constitutes a quorum at the meeting, permitting us to conduct our business.

What vote is required to approve each proposal?

Proposal 1: Election of Director. The nominee who receives the most For votes (among votes properly cast in person or by proxy) will be elected. Only votes For or Withheld will affect the outcome.

Proposal 2: Ratification of Independent Registered Public Accounting Firm. The ratification of the appointment of Ernst & Young LLP must receive For votes from the holders of a majority of the shares of common stock present or represented by proxy and entitled to vote at the annual meeting.

Voting results will be tabulated and certified by Broadridge Financial Solutions, Inc.

What is the effect of abstentions and broker non-votes?

Shares of common stock held by persons attending the annual meeting but not voting, and shares represented by proxies that reflect abstentions as to a particular proposal, will be counted as present for purposes of determining the presence of a quorum. Abstentions are treated as shares present in person or by proxy and entitled to vote, so abstaining has the same effect as a negative vote for purposes of determining whether our stockholders have ratified the appointment of Ernst & Young LLP, our independent registered public accounting firm. However, because the election of directors is determined by a plurality of votes cast, abstentions will not be counted in determining the outcome of such proposal.

Shares represented by proxies that reflect a broker non-vote will be counted for purposes of determining whether a quorum exists. A broker non-vote occurs when a nominee holding shares for a beneficial owner has not received instructions from the beneficial owner and does not have discretionary authority to vote the shares for certain non-routine matters. With regard to the election of directors, broker non-votes, if any, will not be counted as votes cast and will have no effect on the result of the vote. However, ratification of the appointment of Ernst & Young LLP is considered a routine matter on which a broker or other nominee has discretionary authority to vote. Accordingly, no broker non-votes will likely result from this proposal.

Who is paying the costs of soliciting these proxies?

We will pay all of the costs of soliciting these proxies. Our directors, officers and other employees may solicit proxies in person or by mail, telephone, fax or email. We will pay our directors, officers and other employees no additional compensation for these services. We will ask banks, brokers and other institutions, nominees and fiduciaries to forward these proxy materials to their principals and to obtain authority to execute proxies. We will then reimburse them for their expenses. Our costs for forwarding proxy materials will not be significant.

How do I obtain an Annual Report on Form 10-K?

PROPOSAL 1:

ELECTION OF DIRECTOR

Our board of directors is divided into three classes, with one class of our directors standing for election each year, generally for a three-year term. Directors for each class are elected at the annual meeting of stockholders held in the year in which the term for their class expires and hold office until their resignation or removal or their successors are duly elected and qualified. In accordance with our certificate of incorporation and bylaws, our board of directors may fill existing vacancies on the board of directors by appointment.

The term of office of our Class III director, Roger C. Lucas, Ph.D., will expire at the 2014 annual meeting. Accordingly, the nominee for Class III director for election at the 2014 annual meeting is Roger C. Lucas, Ph.D. If Dr. Lucas is elected at the 2014 annual meeting, he will be elected to serve for a three-year term that will expire at our 2017 annual meeting of stockholders and until his successor is elected and qualified.

If no contrary indication is made, proxies in the accompanying form are to be voted for Dr. Lucas or in the event that Dr. Lucas is not a candidate or is unable to serve as a director at the time of the election (which is not currently expected), for any nominee who is designated by our board of directors to fill the vacancy.

All of our directors bring to the board of directors significant leadership experience derived from their professional experience and service as executives or board members of other corporations and/or venture capital firms. The process undertaken by the nominating and corporate governance committee in recommending qualified director candidates is described below under Director Nomination Process. Certain individual qualifications and skills of our directors that contribute to the board of directors' effectiveness as a whole are described in the following paragraphs.

Mr. Tyree also serves as a director for a number of privately held companies. Mr. Tyree earned Bachelor's Degrees in Psychology and Forensic Studies and a Master's Degree in Business Administration from Indiana University. We believe Mr. Tyree is qualified to serve on our board of directors because of his international leadership and management experience in the healthcare industry and his service on the boards of directors of a range of private companies.

Board Independence

Our board of directors has determined that all of our directors are independent directors within the meaning of the applicable Nasdaq Stock Market LLC, or Nasdaq, listing standards, except for Thomas J. Schall, Ph.D., our President, Chief Executive Officer and Chairman. In addition, our board of directors previously determined that our former directors, Rishi Gupta, J.D. and Edward E. Penhoet, Ph.D., who resigned from our board of directors effective February 20, 2013 and July 7, 2013, respectively, were independent directors within the meaning of the applicable Nasdaq listing standards.

Board Leadership Structure

Our board of directors currently has five independent directors and one employee director. Our board of directors is currently chaired by Dr. Schall, who is also our Chief Executive Officer. Our board of directors believes that Dr. Schall's service as both Chairman and Chief Executive Officer is in the best interests of our company and our stockholders. Dr. Schall possesses detailed and in-depth knowledge of the issues, opportunities

Table of Contents

and challenges we face, and we believe he is the person best positioned to develop agendas that ensure that our board of directors' time and attention is focused on the most critical matters. Our board of directors believes that his combined role enables decisive leadership, ensures clear accountability and enhances our ability to communicate our message and strategy clearly and consistently to stockholders, employees and strategic partners.

Our board of directors appointed Dr. Lucas as the lead independent director to help reinforce the independence of the board of directors as a whole. The position of lead independent director has been structured to serve as an effective balance to a combined Chief Executive Officer and Chairman role. As the lead independent director, Dr. Lucas is empowered to, among other duties and responsibilities, review and provide input on the agendas for meetings of the board of directors, chair executive sessions in the absence of the Chairman, serve as a liaison between the Chairman and the independent directors and serve as an independent point of contact for management and others wishing to communicate to the board of directors other than through the Chairman. As reinforcement of the importance of an independent board of directors, the independent directors routinely meet outside the presence of our management, including Dr. Schall. For all of these reasons, the board of directors believes that the lead independent director can help ensure the effective independent functioning of the board of directors in its oversight responsibilities.

The Board's Role in Risk Oversight

Our board of directors has responsibility for the oversight of the company's risk management processes and, either as a whole or through its committees, regularly discusses with management our major risk exposures, their potential impact on our business and the steps we take to manage them. The risk oversight process includes receiving regular reports from board committees and members of senior management to enable our board to understand the company's risk identification, risk management and risk mitigation strategies with respect to areas of potential material risk, including operations, finance, legal, regulatory, strategic and reputational risk.

The audit committee reviews information regarding liquidity and operations, and oversees our management of financial risks. Periodically, the audit committee reviews our policies with respect to risk assessment, risk management, loss prevention and regulatory compliance. Oversight by the audit committee includes direct communication with our external auditors, and discussions with management regarding significant risk exposures and the actions management has taken to limit, monitor or control such exposures. The compensation committee is responsible for assessing whether any of our compensation policies or programs has the potential to encourage excessive risk-taking. The nominating and corporate governance committee manages risks associated with the independence of the board, corporate disclosure practices, and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire board is regularly informed through committee reports about such risks. Matters of significant strategic risk are considered by our board as a whole.

Board of Directors Meetings

During the fiscal year 2013, our board of directors met seven times, including telephonic meetings. One director, Dr. Klein, attended fewer than 75% of the total number of meetings held during his term of service by the board of directors and the committees of the board of directors of which he is a member.

Committees of the Board of Directors

We have three standing committees: the audit committee, the compensation committee and the nominating and corporate governance committee. Each of these committees has a written charter approved by our board of directors. A copy of each charter can be found under the Investors' Corporate Governance section of our website at www.chemocentryx.com.

Report of the Audit Committee of the Board of Directors

The audit committee oversees the company's financial reporting process on behalf of our board of directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the audit committee reviewed the audited financial statements in the company's annual report with management, including a discussion of any significant changes in the selection or application of accounting principles, the reasonableness of significant judgments, the clarity of disclosures in the financial statements and the effect of any new accounting initiatives.

The audit committee reviewed with Ernst & Young LLP, which is responsible for expressing an opinion on the conformity of the company's audited financial statements with generally accepted accounting principles, its judgments as to the quality, not just the acceptability, of the company's accounting principles and such other matters as are required to be discussed with the audit committee under generally accepted auditing standards, and by Statement on Auditing Standards No.16 (Communications with Audit Committees), as amended, as adopted by the Public Company Accounting Oversight Board (United States) in Rule 3200T. In addition, the audit committee has discussed with Ernst & Young LLP, its independence from management and the company, has received from Ernst & Young LLP the written disclosures and the letter

Edgar Filing: ChemoCentryx, Inc. - Form DEF 14A

required by applicable requirements of the Public Company Oversight Board regarding Ernst & Young LLP's communications with the audit committee concerning independence, and has considered the compatibility of non-audit services with the auditors' independence.

Table of Contents

The audit committee met with Ernst & Young LLP to discuss the overall scope of its services, the results of its audit and reviews, its evaluation of the company's internal controls and the overall quality of the company's financial reporting. Ernst & Young LLP, as the company's independent registered public accounting firm, also periodically updates the audit committee about new accounting developments and their potential impact on the company's reporting. The audit committee's meetings with Ernst & Young LLP were held with and without management present. The audit committee is not employed by the company, nor does it provide any expert assurance or professional certification regarding the company's financial statements. The audit committee relies, without independent verification, on the accuracy and integrity of the information provided, and representations made, by management and the company's independent registered public accounting firm.

In reliance on the reviews and discussions referred to above along with those held with management, the audit committee has recommended to the company's board of directors that the audited financial statements be included in our annual report for the year ended December 31, 2013. The audit committee and the company's board of directors also have recommended, subject to stockholder approval, the ratification of the appointment of Ernst & Young LLP as the company's independent registered public accounting firm for 2014.

This report of the audit committee is not soliciting material, shall not be deemed filed with the SEC and shall not be incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing, except to the extent that we specifically incorporate this information by reference, and shall not otherwise be deemed filed under such acts.

The foregoing report has been furnished by the audit committee.

Respectfully submitted,

The Audit Committee of the Board of Directors

Geoffrey M. Parker (chairperson)

Compensation Committee Interlocks and Insider Participation

The compensation committee of our board of directors currently consists of Mr. Tyree (chairperson) and Drs. Feczko and Lucas. Rishi Gupta, J.D. and Edward E. Penhoet, Ph.D. each served as a member of the compensation committee until his resignation from our board of directors effective February 20, 2013 and July 7, 2013, respectively. None of the members of our compensation committee during fiscal year 2013 has ever been one of our officers or employees. None of our executive officers currently serves, or has served, as a member of the board of directors or compensation committee of any entity that had one or more executive officers serving as a member of our board of directors or compensation committee during fiscal year 2013.

Director Nomination Process

Director Qualifications

In evaluating director nominees the nominating and corporate governance committee will consider among other things the following factors:

personal and professional integrity, ethics and values;

experience in corporate management, such as serving as an officer or former officer of a publicly held company;

strong finance experience;

experience relevant to our industry;

Table of Contents

experience as a board member of another publicly held company;

diversity of expertise and experience in substantive matters pertaining to our business relative to other board members;

diversity of background and perspective, including with respect to age, gender, race, place of residence and specialized experience;
and

practical and mature business judgment, including the ability to make independent analytical inquiries.

The nominating and corporate governance committee's goal is to assemble a board of directors that brings to the company a variety of perspectives and skills derived from high quality business and professional experience. Moreover, the nominating and corporate governance committee believes that the background and qualifications of the board of directors, considered as a group, should provide a significant mix of experience, knowledge and abilities that will allow the board of directors to fulfill its responsibilities. Nominees are not discriminated against on the basis of race, religion, national origin, sexual orientation, disability or any other basis proscribed by law.

Other than the foregoing criteria for director nominees, the nominating and corporate governance committee has not adopted a formal policy with respect to a fixed set of specific minimum qualifications for its candidates for membership on the board of directors. The nominating and corporate governance committee may consider such other facts, including, without limitation, diversity, as it may deem are in the best interests of the company and its stockholders. The nominating and corporate governance committee does, however, believe it is appropriate for at least one, and, preferably, several, members of our board of directors to meet the criteria for an audit committee financial expert as that phrase is defined under the regulations promulgated by the SEC, and that a majority of the members of our board of directors be independent as required under the Nasdaq qualification standards. The nominating and corporate governance committee also believes it is appropriate for our President and Chief Executive Officer to serve as a member of our board of directors. Our directors' performance and qualification criteria are reviewed annually by the nominating and corporate governance committee.

Identification and Evaluation of Nominees for Directors

The nominating and corporate governance committee identifies nominees for director by first evaluating the current members of our board of directors willing to continue in service. Current members with qualifications and skills that are consistent with the nominating and corporate governance committee's criteria for board of director service and who are willing to continue in service are considered for re-nomination, balancing the value of continuity of service by existing members of our board of directors with that of obtaining a new perspective or expertise.

If any member of our board of directors does not wish to continue in service or if our board of directors decides not to re-nominate a member for re-election, the nominating and corporate governance committee identifies the desired skills and experience of a new nominee in light of the criteria above. The nominating and corporate governance committee generally polls our board of directors and members of management for their recommendations. The nominating and corporate governance committee may also review the composition and qualification of the boards of directors of our competitors, and may seek input from industry experts or analysts. The nominating and corporate governance committee reviews the qualifications, experience and background of the candidates. Final candidates are interviewed by the members of the nominating and corporate governance committee and by certain of our other independent directors and executive management. In making its determinations, the nominating and corporate governance committee evaluates each individual in the context of our board of directors as a whole, with the objective of assembling a group that can best contribute to the success of our company and represent stockholder interests through the exercise of sound judgment. After review and deliberation of all feedback and data, the nominating and corporate governance committee makes its recommendation to our board of directors. To date, the nominating and corporate governance committee has not

Table of Contents

utilized third-party search firms to identify board of director candidates. The nominating and corporate governance committee may in the future choose to do so in those situations where particular qualifications are required or where existing contacts are not sufficient to identify an appropriate candidate.

The nominating and corporate governance committee evaluates nominees recommended by stockholders in the same manner as it evaluates other nominees. We have not received director candidate recommendations from our stockholders and do not have a formal policy regarding consideration of such recommendations. However, any recommendations received from stockholders will be evaluated in the same manner that potential nominees suggested by board members, management or other parties are evaluated. We do not intend to treat stockholder recommendations in any manner different from other recommendations.

Under our amended and restated bylaws, stockholders wishing to suggest a candidate for director should write to our corporate secretary. In order to give the nominating and corporate governance committee sufficient time to evaluate a recommended candidate and/or include the candidate in our proxy statement for the 2015 annual meeting, the recommendation should be received by our corporate secretary at our principal executive offices in accordance with our procedures detailed in the section below entitled "Stockholder Proposals."

Director Attendance at Annual Meetings

Although our company does not have a formal policy regarding attendance by members of our board of directors at our annual meeting, we encourage all of our directors to attend. No non-employee directors attended our annual meeting in 2013.

Communications with our Board of Directors

Stockholders seeking to communicate with our board of directors should submit their written comments to our corporate secretary, ChemoCentryx, Inc., 850 Maude Avenue, Mountain View, CA 94043. The corporate secretary will forward such communications to each member of our board of directors; provided that, if in the opinion of our corporate secretary it would be inappropriate to send a particular stockholder communication to a specific director, such communication will only be sent to the remaining directors (subject to the remaining directors concurring with such opinion).

Corporate Governance

Our company's Code of Business Conduct and Ethics, Audit Committee Charter, Compensation Committee Charter and Nominating and Corporate Governance Committee Charter are available, free of charge, on our website at www.chemocentryx.com. Please note, however, that the information contained on the website is not incorporated by reference in, or considered part of, this proxy statement. We will also provide copies of these documents as well as our company's other corporate governance documents, free of charge, to any stockholder upon written request to ChemoCentryx, Inc., 850 Maude Avenue, Mountain View, CA 94043.

Director Compensation

We compensate certain non-employee members of the board of directors for their service. Directors who are also employees do not receive cash or equity compensation for service on the board of directors in addition to compensation payable for their service as our employees. The non-employee members of our board of directors are also reimbursed for travel, lodging and other reasonable expenses incurred in attending board of directors or committee meetings.

Following our initial public offering in February 2012, we adopted a new non-employee director compensation policy that remained in effect until December 31, 2013. Under this policy, we provided cash compensation in the form of an annual retainer of \$30,000 for each non-employee director. We also paid an additional annual retainer of \$15,000 to the chairman of our audit committee, \$10,000 to other non-employee directors who served on our audit committee, \$7,500 to the chair of our compensation committee, \$5,000 to other non-employee directors who served on our compensation committee, \$5,000 to the chair of our nominating and

corporate governance committee and \$2,500 to other non-employee directors who served on our nominating and corporate governance committee. In April 2012, we designated a non-employee director as our lead independent director and amended our non-employee director compensation policy to add an additional annual retainer of \$15,000 for such a director. We have reimbursed and will continue to reimburse our non-employee directors for their reasonable expenses incurred in attending meetings of our board of directors and committees of the board of directors.

Also under our prior non-employee director compensation policy, any non-employee director who was first elected to the board of directors was granted an option to purchase 25,000 shares of our common stock on the date of his or her initial election to the board of directors. Such options had an exercise price per share equal to the fair market value of our common stock on the date of grant. In addition, on the date of each annual meeting of our stockholders, each non-employee director was eligible to receive an option to purchase 12,500 shares of common stock.

The initial options granted to non-employee directors described above vest and become exercisable in 36 equal monthly installments over the three-year period following the date of grant, subject to the director's continuing service on our board of directors on those dates. The annual options granted to non-employee directors described above vest and/or become exercisable in 12 equal monthly installments over the first year following the date of grant, subject to the director's continuing service on our board of directors (and, with respect to grants to a chairman of the board of directors or board committee, service as chairman of the board of directors or a committee) on those dates. The term of each option granted to a non-employee director is ten years. These options were granted under our 2012 Equity Incentive Award Plan.

The following table provides information related to the compensation of each of our non-employee directors during the year ended December 31, 2013.

In addition, on the date of each annual meeting of our stockholders, each non-employee director will be granted such number of restricted stock units on the date of such annual meeting as is determined by dividing (x) \$90,000 by (y) the fair market value (as defined under our 2012 Equity Incentive Award Plan) per share of our common stock on the date of grant; provided that the dollar value in clause (x) above shall be \$130,000 for purposes of the awards granted to the non-employee directors on the date of the 2014 annual meeting of the company's stockholders.

Table of Contents**PROPOSAL 2:****RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS**

The audit committee has selected Ernst & Young LLP as the company's independent registered public accountants for the year ending December 31, 2014 and has further directed that management submit the selection of independent registered public accountants for ratification by the stockholders at the annual meeting. Ernst & Young LLP has audited the company's financial statements since 2000. Representatives of Ernst & Young LLP are expected to be present at the annual meeting, will have an opportunity to make a statement if they so desire, and will be available to respond to appropriate questions.

Stockholder ratification of the selection of Ernst & Young LLP as the company's independent registered public accountants is not required by Delaware law, the company's amended and restated certificate of incorporation, or the company's amended and restated bylaws. However, the audit committee is submitting the selection of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the audit committee will reconsider whether to retain that firm. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of different independent registered public accountants at any time during the year if the audit committee determines that such a change would be in the best interests of the company and its stockholders.

Independent Registered Public Accountants Fees

The following table represents aggregate fees billed to us for services related to the fiscal years ended December 31, 2013 and 2012, by Ernst & Young LLP, our independent registered public accounting firm.

Audit Related Fees ⁽²⁾		
Tax Fees ⁽³⁾		
All Other Fees ⁽⁴⁾		
Total	\$ 270,240	\$ 528,390

- (1) Audit Fees consist of fees billed for professional services performed by Ernst & Young LLP for the audit of our annual financial statements and related services that are normally provided in connection with statutory and regulatory filings or engagements.
- (2) Audit Related Fees consist of fees billed by Ernst & Young LLP for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements. There were no such fees incurred in 2013 or 2012.
- (3) No tax fees were incurred in 2013 or 2012.
- (4) No other fees were incurred in 2013 or 2012.

The audit committee has considered whether the provision of non-audit services is compatible with maintaining the independence of Ernst & Young LLP, and has concluded that the provision of such services is compatible with maintaining the independence of our auditors.

Pre-Approval Policies and Procedures

Our audit committee has established a policy that all audit and permissible non-audit services provided by our independent registered public accounting firm will be pre-approved by the audit committee, and all such services were pre-approved in accordance with this policy during the fiscal years ended December 31, 2013 and 2012. These services may include audit services, audit-related services, tax services and other services. The audit

committee considers whether the provision of each non-audit service is compatible with maintaining the independence of our auditors. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. Our independent registered public accounting firm and management are required to periodically report to the audit committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date.

Vote Required; Recommendation of the Board of Directors

The affirmative vote of a majority of the shares of common stock present or represented by proxy and entitled to vote at the meeting will be required to ratify the selection of Ernst & Young LLP. Abstentions will be counted toward the tabulation of votes cast on this proposal and will have the same effect as negative votes. The approval of Proposal 2 is a routine proposal on which a broker or other nominee has discretionary authority to vote. Accordingly, no broker non-votes will likely result from this proposal.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS VOTE TO RATIFY THE SELECTION OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2014. PROXIES SOLICITED BY THE BOARD OF DIRECTORS WILL BE SO VOTED UNLESS STOCKHOLDERS SPECIFY OTHERWISE ON THEIR PROXY CARDS.

Narrative Disclosure to Summary Compensation Table**Employment Agreements**

We have entered into amended and restated employment agreements with each of our named executive officers. Each of the employment agreements has a three-year term, subject to automatic successive one-year renewals unless we provide written notice of our desire to terminate the agreement at least sixty days prior to the expiration of the then-current term. Pursuant to the employment agreements, each executive officer is eligible for a target performance bonus of up to 25% (40% with respect to Dr. Schall) of his or her base salary, based upon the achievement of financial and performance objectives established by the compensation committee. Any final bonus payment shall be determined by our board of directors or compensation committee.

The employment agreements provide for certain severance payments to our named executive officers. All cash severance payments are payable in a lump sum. If we terminate an executive officer's employment without cause or if the executive officer resigns for good reason (unless such termination occurs within 12 months following a change in control), we are obligated to pay such executive officer a lump sum severance payment equal to his or her base salary in effect at the time of termination for 18 months. Additionally, each of the named executive officers will receive accelerated vesting and/or exercisability of 100% of his or her outstanding stock awards.

Under each of the employment agreements, if we terminate an executive officer's employment without cause or if the executive officer resigns for good reason, in each case within 12 months following a change in control, we are obligated to pay such executive officer a lump sum severance payment equal to the sum of: (1) 18 months of his or her base salary in effect at the time of termination, (2) one and one-half times the executive officer's target bonus, and (3) 18 months of health benefits continuation at our cost. Furthermore, all of the executive officer's outstanding stock awards will vest upon the date of termination. The foregoing change-in-control severance benefits shall only apply so long as the executive officer is working on a full-time basis.

Table of Contents

For purposes of the amended and restated employment agreements, **cause** means an executive officer (1) has committed an act of fraud, embezzlement or dishonesty in connection with the executive officer's employment, or has intentionally committed some other illegal act that has, or may be reasonably expected to have, a material adverse impact on the company or any successor or parent or subsidiary thereof; (2) has been convicted of, or entered a plea of guilty or no contest to, a felony, or to any crime involving moral turpitude, which causes or may reasonably be expected to cause substantial economic injury to or substantial injury to the reputation of the company or any successor or parent or subsidiary thereof; (3) has made any unauthorized use or disclosure of confidential information or trade secrets of the company or any successor or parent or subsidiary thereof that has, or may reasonably be expected to have, a material adverse impact on any such entity; (4) has materially breached a company policy, materially breached the provisions of the executive officer's employment agreement (if any), or has committed any other intentional misconduct that has, or may be reasonably expected to have, a material adverse impact on the company or any successor or parent or subsidiary thereof, or (5) has intentionally refused or intentionally failed to act in accordance with any lawful and proper direction or order of the board of directors or the appropriate individual to whom the executive officer reports; provided such direction is not materially inconsistent with the executive officer's customary duties and responsibilities.

For purposes of the amended and restated employment agreements, **good reason** means (1) a material diminution in the executive officer's authority, duties or responsibilities, (2) a material diminution in the executive officer's base compensation unless such a reduction is imposed across-the-board to senior management of the company, (3) a material change in the geographic location at which the executive officer must perform services to us, (4) any other action or inaction that constitutes a material breach by the company or any successor or affiliate of its obligations to the executive officer under the employment agreement or (5) a material diminution in the authority, duties or responsibilities of the supervisor to whom the named executive officer is required to report.

For purposes of the amended and restated employment agreements, **change in control** has the same meaning as such term is given under the terms of our 2012 Equity Incentive Award Plan.

Executive Compensation Elements

The following describes the material terms of the elements of our executive compensation program during 2013. For 2013, Compensia, an independent compensation consulting firm, was retained by the compensation committee to assist it in the determination of the key elements of the executive compensation program. Compensia reports to and is accountable to the compensation committee, and may not conduct any other work for us without the authorization of the compensation committee. In 2013, Compensia provided advice to the compensation committee with respect to competitive practices and the amounts and nature of compensation paid to executive officers in similar organizations. Compensia also advised on, among other things, structuring our various compensation programs and determining the appropriate levels of salary, bonus and equity awards payable to our named executive officers. Compensia did not provide any services to us in 2013 beyond its engagement as an advisor to the compensation committee on executive compensation matters. After review and consultation with Compensia, the compensation committee has determined that Compensia is independent and there is no conflict of interest resulting from retaining Compensia currently or during the year ended December 31, 2013. In reaching these conclusions, the compensation committee considered the factors set forth in Exchange Act Rule 10C-1 and NASDAQ listing standards.

2013 Base Salaries

In February 2013, the compensation committee set annual base salaries for our named executive officers to be in effect until the next annual review. The 2013 annual base salaries of the named executive officers were as follows: Dr. Schall, \$510,000; Dr. Bekker, \$369,382; and Ms. Kanaya, \$372,212. Dr. Schall's 2013 base salary represented an approximately 6% increase over his 2012 base salary and was approved by the compensation committee in order to bring his base salary closer to the median for chief executive officers of comparable companies. Dr. Bekker and Ms. Kanaya did not receive base salary increases for 2013.

Table of Contents

2013 Performance Bonuses

Each named executive officer is eligible for an annual performance bonus based upon the achievement of certain corporate performance goals and objectives approved by our board of directors and individual performance.

Bonuses are set based on the executive officer's base salary as of the end of the bonus year, and are expected to be paid out in the first quarter of the following year. Each of the named executive officers is eligible to receive a target bonus of 35% of his or her base salary, with the exception of Dr. Schall, who is eligible to receive a target bonus of 50% of his base salary. Each named executive officer's bonus is based entirely on performance relative to corporate objectives.

At the beginning of each year, the board of directors (considering the recommendations of the compensation committee and management) sets corporate goals and milestones for the year. These goals and milestones and the proportional emphasis placed on each are set by the board of directors after considering management input and our overall strategic objectives. These goals generally relate to factors such as financial targets, achievement of product development objectives and operational and business development objectives. The board of directors, upon recommendation of the compensation committee, determines the level of achievement of the corporate goals for each year. This achievement level is then applied to each named executive officer's target bonus to determine that year's total bonus award.

All final bonus payments to our named executive officers are determined by our compensation committee. The actual bonuses awarded in any year, if any, may be more or less than the target, depending on individual performance and the achievement of corporate objectives and may also vary based on other factors at the discretion of the compensation committee.

For 2013, the corporate performance objectives generally fell into the following categories: objectives related to continued progress in the area of internally conducted clinical trials and pipeline development (45% weighting); drug discovery efforts and pipeline support (25% weighting); and financial, corporate and business development objectives (30% weighting), including achieving revenue and cash utilization targets for 2013 and business development and investor relations objectives. With the exception of the financial targets described above, quantitative measures were generally not established for the corporate objectives during 2013. Instead these performance objectives and areas of emphasis were used as a guide by the board of directors in subjectively determining overall corporate performance as they represented those areas in which the named executive officers and our employees generally were expected to focus their efforts during the year. The three foregoing areas of emphasis were weighted based on their level of importance to our business plan.

In evaluating management's performance relative to corporate performance for 2013, our board of directors determined to award a corporate achievement level of 72.5%. In coming to its final determination regarding the overall corporate achievement percentage, the board of directors awarded 86% credit for corporate performance relative to our internally conducted clinical trial and pipeline development efforts, noting (1) achievements relative to CCX140, the company's lead independent development program targeting the chemokine receptor known as CCR2 including successfully completing enrollment of the Phase II study in patients with diabetic nephropathy and enabling the 12-week interim analysis of the same study; (2) achievements relative to CCX168, the company's program targeting the complement receptor known as C5aR including successfully completing Steps 1 and 2 of the 3-step Phase II study in anti-neutrophil cytoplasmic antibody, or ANCA, associated renal vasculitis, or AARV; and (3) other achievements related to the company's other early stage programs targeting CXCR7 and CCR6. With respect to our drug discovery efforts and pipeline support, the board of directors awarded 84% credit, noting off-clinical support, including preclinical and pharmaceutical development efforts relative to CCX140, CCX168 and the next generation of CCR2 and CCR9 drug candidates, CCX872 and CCX507, respectively. The board of directors awarded 43% credit with respect to financial, corporate and business development objectives for 2013. Specifically, the board of directors noted the company's year-end cash and investments level being greater than budget, but the board of directors also noted that the company's revenue

Table of Contents

did not hit forecasted levels due to GSK not exercising its option on CCX168 and that the company did not sufficiently advance its business development efforts during 2013. However, in recognition of the company's successful completion of a \$70 million follow-on offering during 2013, which was not a stated objective in the original 2013 bonus plan, the compensation committee determined to award each named executive officer 82.5% of their respective target award bonus for 2013.

These achievement levels were then used to determine each named executive officer's bonus. The bonuses paid to our named executive officers for 2013 are set forth in the Summary Compensation Table above.

2013 Option Grants

In July 2013, the compensation committee awarded the following options to our named executive officers: Dr. Schall, options to purchase 165,000 shares and Dr. Bekker and Ms. Kanaya, options to purchase 70,000 shares each. Each of these option awards has a ten-year term and vests over a four-year period as follows: 25% of the shares underlying the option vest on July 1, 2013, and the remainder of the shares underlying the option vest in equal monthly installments over the remaining 36 months thereafter, provided that the executive continues to provide services to the company. Each of the option awards has an exercise price of \$14.28 per share, the closing price per share of our common stock on the date of grant. The size of the foregoing annual awards to the named executive officers were determined by the compensation committee after consultation with Compensia and review of awards intended by the compensation committee to approximate the 60th percentile for annual long-term equity awards to executives in similar organizations.

Health and Welfare Benefits

Our named executive officers are eligible to participate in all of our employee benefit plans, including our medical, dental, vision, group life and disability insurance plans, in each case on the same basis as other employees. We believe that these health and welfare benefits help ensure that we have a productive and focused workforce through reliable and competitive health and other benefits.

Retirement Savings

All of our full-time employees in the United States, including our named executive officers, are eligible to participate in our 401(k) plan. Pursuant to our 401(k) plan, employees may elect to reduce their current compensation by up to the statutorily prescribed annual limit (which was \$17,500 in 2013), with additional salary deferrals not to exceed \$5,500 available to those employees 50 years of age or older, and to have the amount of this reduction contributed to our 401(k) plan. While we may elect to make matching contributions, no such contributions have been made. The 401(k) Plan currently does not offer the ability to invest in our securities.

Perquisites

We do not provide significant perquisites or personal benefits to our named executive officers. We do, however, pay the premiums for term life insurance for our named executive officers.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under Section 16(a) of the Exchange Act, directors, executive officers and beneficial owners of 10% or more of our common stock, or reporting persons, are required to report to the SEC on a timely basis the initiation of their status as a reporting person and any changes with respect to their beneficial ownership of our common stock. Based solely on our review of copies of such forms that we have received, or written representations from reporting persons, we believe that during the fiscal year ended December 31, 2013, all executive officers, directors and greater than 10% stockholders complied with all applicable filing requirements, except that for each of Thomas J. Schall, Ph.D., our President, Chief Executive Officer and Chairman; Susan M. Kanaya, our Senior Vice President, Finance, Chief Financial Officer and Secretary; Juan C. Jaen, our former Senior Vice President of Drug Discovery and Chief Scientific Officer; Markus J. Cappel, Ph.D., our Chief Business Officer and Treasurer; and Petrus Bekker, M.D., Ph.D., our Senior Vice President of Medical and Clinical Affairs, a Form 4 was filed on July 26, 2013 for a transaction that occurred on July 23, 2013. Each of these officers had attempted to timely file on July 25, 2013 but were unable to do so due to the failure of the filing service's server that connects its web-based system to the EDGAR system.

STOCKHOLDER PROPOSALS

Proposals of stockholders intended to be presented at our annual meeting of stockholders to be held in 2015 must be received by us no later than December 11, 2014, which is 120 days prior to the first anniversary of the mailing date of this proxy, in order to be included in our proxy statement and form of proxy relating to that meeting, unless the date of the 2015 annual meeting of stockholders is changed by more than 30 days from the anniversary of our 2014 annual meeting, in which case the deadline for such proposals will be a reasonable time before we begin to print and send our proxy materials. These proposals must comply with the requirements as to form and substance established by the SEC for such proposals in order to be included in the proxy statement.

In addition, our amended and restated bylaws establish an advance notice procedure with regard to certain matters, including stockholder proposals not included in our proxy statement, to be brought before an annual meeting of stockholders. In general, notice must be received at our principal executive offices not less than 90 calendar days before nor more than 120 calendar days before the one year anniversary of the date on which we first mailed our proxy statement to stockholders in connection with the previous year's annual meeting of stockholders. Therefore, to be presented at our 2015 annual meeting of stockholders, such a proposal must be received by us no earlier than December 11, 2014 and no later than January 10, 2015. However, if the date of the annual meeting is more than 30 days earlier or more than 60 days later than such anniversary date, notice must be received not later than the close of business on the later of 90 calendar days in advance of such annual meeting or, if later, ten calendar days following the date on which public announcement of the date of the meeting is first made. If the stockholder fails to give notice by these dates, then the persons named as proxies in the proxies solicited by the board of directors for the 2015 annual meeting may exercise discretionary voting power regarding any such proposal. Stockholders are advised to review our amended and restated bylaws which also specify requirements as to the form and content of a stockholder's notice.

STOCKHOLDERS SHARING THE SAME ADDRESS

The rules promulgated by the SEC permit companies, brokers, banks or other intermediaries to deliver a single copy of a proxy statement and annual report to households at which two or more stockholders reside. This practice, known as householding, is designed to reduce duplicate mailings and save significant printing and postage costs as well as natural resources. Stockholders sharing an address who have been previously notified by their broker, bank or other intermediary and have consented to householding will receive only one copy of our proxy statement and annual report. If you would like to opt out of this practice for future mailings and receive separate proxy statements and annual reports for each stockholder sharing the same address, please contact your broker, bank or other intermediary. You may also obtain a separate proxy statement or annual report without charge by sending a written request to ChemoCentryx, Inc., 850 Maude Avenue, Mountain View, CA 94043, Attention: Corporate Secretary, or by calling us at 650-210-2900.
