Table of Contents**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. Overview**

ORBCOMM Inc. (ORBCOMM or the Company), a Delaware corporation, is a global wireless data communications company focused on machine-to-machine (M2M) communications. The Company s services are designed to enable businesses and government agencies to track, monitor, and control and communicate with fixed and mobile assets. The Company operates a two-way global wireless data messaging system optimized for narrowband data communication. The Company also provides customers with technology to proactively monitor, manage and remotely control refrigerated transportation and other mobile assets. This technology enables the Company to expand its global technology platform by transferring capabilities across new and existing vertical markets and deliver complementary products to our channel partners and resellers worldwide. The Company provides these services through a constellation of 25 owned low-Earth orbit, or LEO satellites, two AIS microsatellites and accompanying ground infrastructure, and also provides terrestrial-based cellular communication services through reseller agreements with major cellular wireless providers. The Company s satellite-based system uses small, low power, fixed or mobile satellite subscriber communicators (Communicators) for connectivity, and cellular wireless subscriber identity modules (SIMS) that are connected to the cellular wireless providers networks, with these systems capable of being connected to other public or private networks, including the Internet (collectively, the ORBCOMM System).

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared pursuant to the rules of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to SEC rules. These financial statements should be read in conjunction with the Company s Annual Report on Form 10-K for the year ended December 31, 2013.

The following reclassifications have been made to the accompanying unaudited condensed consolidated statements of operations: depreciation and amortization was reclassified from cost of services, cost of product sales, product development, and selling, general and administrative expenses into its own caption in the condensed consolidated statements of operations. In addition, the condensed consolidated statements of operations includes a gross profit subtotal caption. Prior period financial statement amounts have been reclassified to conform to current period presentation. These reclassifications had no effect on previously reported net income.

In the opinion of management, the financial statements as of March 31, 2014 and for the three month periods ended March 31, 2014 and 2013 include all adjustments (including normal recurring accruals) necessary for a fair presentation of the consolidated financial position, results of operations and cash flows for the periods presented. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year.

The financial statements include the accounts of the Company, its wholly-owned and majority-owned subsidiaries, and investments in variable interest entities in which the Company is determined to be the primary beneficiary. All significant intercompany accounts and transactions have been eliminated in consolidation. The portions of majority-owned subsidiaries that the Company does not own are reflected as noncontrolling interests in the condensed consolidated balance sheets.

Investments in entities over which the Company has the ability to exercise significant influence but does not have a controlling interest are accounted for under the equity method of accounting. The Company considers several factors in determining whether it has the ability to exercise significant influence with respect to investments, including, but

not limited to, direct and indirect ownership level in the voting securities, active participation on the board of directors, approval of operating and budgeting decisions and other participatory and protective rights. Under the equity method, the Company's proportionate share of the net income or loss of such investee is reflected in the Company's condensed consolidated results of operations.

Although the Company owns interests in companies that it accounts for pursuant to the equity method, the investments in those entities had no carrying value as of March 31, 2014 and December 31, 2013. The Company has no guarantees or other funding obligations to those entities. The Company had no equity or losses of those investees for the three months ended March 31, 2014 and 2013.

When the Company does not exercise significant influence over the investee the investment is accounted under the cost method.

Acquisition-related costs

Acquisition-related costs directly relate to acquisitions and include professional services expenses and may include identifiable integration costs. For the three months ended March 31, 2014 and 2013, acquisition-related costs were \$1,184 and \$404, respectively.

Fair Value of Financial instruments

The Company has no financial assets or liabilities that are measured at fair value on a recurring basis. However, if certain triggering events occur the Company is required to evaluate the non-financial assets for impairment and any resulting asset impairment would require that a non-financial asset be recorded at the fair value. FASB Topic ASC 820 *Fair Value Measurement Disclosure*, prioritizes inputs used in measuring fair value into a hierarchy of three levels: Level 1- unadjusted quoted prices for identical assets or liabilities traded in active markets, Level 2- inputs other than quoted prices included within Level 1 that are either directly or indirectly observable; and Level 3- unobservable inputs in which little or no market activity exists, therefore requiring an entity to develop its own assumptions that market participants would use in pricing.

Table of Contents

The carrying value of the Company's financial instruments, including cash, accounts receivable, note receivable and accounts payable approximated their fair value due to the short-term nature of these items. The carrying value of the Senior Notes approximated its fair value due to the recent issuance (See Note 11). The fair value of the Note payable-related party is de minimis.

Concentration of credit risk

The Company's customers are primarily commercial organizations. Accounts receivable are generally unsecured.

Accounts receivable are due in accordance with payment terms included in contracts negotiated with customers. Amounts due from customers are stated net of an allowance for doubtful accounts. The Company determines its allowance for doubtful accounts by considering a number of factors, including the length of time accounts are past due, the customer's current ability to pay its obligations to the Company, and the condition of the general economy and the industry as a whole. The Company writes-off accounts receivable when they are deemed uncollectible.

The following table presents customers with revenues greater than 10% of the Company's consolidated total revenues for the periods shown:

	Three Months ended	
	March 31,	
	2014	2013
Caterpillar Inc.	14.4%	25.4%
Komatsu Ltd.	12.1%	13.2%

The following table presents customers with accounts receivable greater than 10% of the Company's consolidated accounts receivable for the periods shown:

	March 31,	December 31,
	2014	2013
Caterpillar Inc.	18.2%	20.9%

The Company does not currently maintain in-orbit insurance coverage for its satellites to address the risk of potential systemic anomalies, failures or catastrophic events affecting its satellite constellation. If the Company experiences significant uninsured losses, such events could have a material adverse impact on the Company's business.

Table of Contents**Inventories**

Inventories are stated at the lower of cost or market, determined on a first-in, first-out basis. Inventory consists primarily of raw materials and purchased parts to be utilized by its contract manufacturer. The Company reviews inventory quantities on hand and evaluates the realizability of inventories and adjusts the carrying value as necessary based on forecasted product demand. A provision is made for potential losses on slow moving and obsolete inventories when identified.

Warranty costs

The Company accrues for one-year warranty coverage on product sales estimated at the time of sale based on historical costs to repair or replace products for customers compared to historical product revenues. The warranty accrual is included in accrued liabilities.

3. Acquisitions***Euroscan Holding B.V.***

On March 11, 2014, the Company completed the acquisition of 100% of the outstanding equity of Euroscan Holding B.V., including, indirectly, its wholly-owned subsidiaries Euroscan B.V., Euroscan GmbH Vertrieb Technischer Geräte, Euroscan Technology Ltd. and Ameriscan, Inc. (collectively, the Euroscan Group or Euroscan). The acquisition was completed pursuant to the Share Purchase Agreement dated March 11, 2014 (the Share Purchase Agreement), entered into by the Company and MWL Management B.V., R.Q. Management B.V., WBB GmbH, ING Corporate Investments Participaties B.V. and Euroscan Holding B.V., as sellers. As this acquisition was effective on March 11, 2014, the results of operations of Euroscan are included in the condensed consolidated financial statements beginning March 12, 2014. The acquisition of Euroscan was not considered significant under SEC Regulation S-X.

The aggregate consideration paid by the Company at the closing was valued at \$29,185 (21,000), subject to adjustments for working capital and net cash (on a debt free, cash free basis), payable in cash and common stock as follows:

- (i) Cash consideration in an amount equal to \$29,163 (20,999) payable in Euros, which includes an initial working capital estimate of \$2,220 (1,599) subject to a final working capital adjustment and net cash. 1,000 of such cash consideration was placed in escrow with a third party to be available to pay any indemnification obligations of MWL Management B.V. and R.Q. Management B.V. under the Share Purchase Agreement; and
- (ii) Issuance of 291,230 shares of the Company's common stock to MWL Management B.V. and R.Q. Management B.V. (based on 1,600 divided by the 20-day-average closing price of the Company's common stock ending on the second business day prior to the execution of the Share Purchase Agreement). The 291,230 shares of common stock were valued at \$7.70 per share, which reflected the Company's closing price of common stock on March 11, 2014

In addition to the consideration paid at closing, the Share Purchase Agreement provides for contingent consideration of up to \$6,547 (4,714) (the Earn-Out) and is payable post-closing by the Company to MWL Management B.V. and R.Q. Management B.V. Up to \$2,778 (2,000) will be payable based on achieving an increase in number of wireless subscribers attributable to the Euroscan Group for three one-year earn-out periods April 1, 2014 through March 31,

Edgar Filing: ORBCOMM Inc. - Form 10-Q

2015, April 1, 2015 through March 31, 2016 and April 1, 2016 through March 31, 2017. Up to \$2,083 (1,500) will be payable based on achieving certain gross profits of the Euroscan Group, subject to certain adjustments for three earn-out periods March 11, 2014 through December 31, 2014, January 1, 2015 through December 31, 2015 and January 1, 2016 through December 31, 2016. Up to \$1,686 (1,214) will be payable based on achieving certain operational milestones obtained before March 31, 2017. Any shares of common stock to be issued will be based on the 20-day average closing price of the Company's common stock prior to the last trading day of the earn-out periods.

The following table summarizes the fair value of the purchase price:

Cash	\$ 29,163
Issuance of 291,230 shares of common stock (valued at \$7.70 per share, which reflects the Company's common stock closing price on March 11, 2014)	2,242
Fair value of contingent earn-out amounts	4,800
Total	\$ 36,205

Table of Contents**Preliminary Estimated Purchase Price Allocation**

The total preliminary estimated purchase price was allocated to the net assets acquired based upon their preliminary estimated fair values as of the close of business on March 11, 2014 as set forth below. The excess of the preliminary purchase price over the preliminary net assets was recorded as goodwill. The preliminary allocation of the purchase price was based upon a preliminary valuation and the estimates and assumptions are subject to change. As of March 31, 2014 the purchase price allocation and estimated purchase price is preliminary due to the proximity to the acquisition date. The Company anticipates finalizing the purchase price allocation by the first quarter of 2015. The preliminary estimated purchase price allocation for the acquisition is as follows:

Cash	\$ 280
Accounts receivable	2,613
Inventory	1,394
Other current assets	502
Property, plant and equipment	324
Intangible assets	17,400
Other noncurrent assets	171
 Total identifiable assets acquired	 22,684
 Accounts payable and accrued expenses	 (2,503)
Deferred revenues	(44)
Deferred tax liabilities	(4,558)
 Total liabilities assumed	 (7,105)
 Net identifiable assets acquired	 15,579
Goodwill	20,626
 Total preliminary purchase price	 \$ 36,205

Intangible Assets

The fair values of the technology and trademarks were estimated using a relief from royalty method under the income approach based on discounted cash flows. The fair value of the customer lists was estimated based on an income approach using the excess earnings method. A discount rate of 17.5% was selected to reflect risk characteristics of these intangible assets. The discount rate was applied to the projected cash flows associated with the assets in order to value the intangible assets. The remaining useful lives of the technology and trademarks were based on historical product development cycles, the projected rate of technology migration and a market participant's use of these intangible assets and the pattern of projected economic benefit of these intangible assets. The remaining useful lives of customer lists were based on the customer attrition and the projected economic benefit of these customers.

Goodwill

The acquisition of Euroscan allows the Company to complement its North American Operations in M2M by adding a significant distribution channel in Europe and other key geographies where Euroscan has market share. These factors contributed to a preliminary estimated purchase price resulting in the recognition of goodwill. The goodwill recorded as part of the acquisition is partially related to the establishment of a deferred tax liability for the intangible assets which have no tax basis and, therefore, will not result in a future tax deduction. As of March 31, 2014, the Company does not intend to make the Internal Revenue Code Section 338(g) election to treat the acquisition as a deemed asset sale. The goodwill attributable to the acquisition is not deductible for tax purposes. However, the period of making the election with the Internal Revenue Service remains open for 8.5 months from the acquisition date.

Table of Contents**Contingent earn-out consideration**

The estimated fair value of the contingent earn-out amounts was determined based on the Company's preliminary estimates using weighted probabilities to achieve an increase in the number of wireless subscribers attributable to the Euroscan Group business for three one-year earn-out periods covering April 1, 2014 through March 31, 2017, and specific gross profit thresholds attributable to the Euroscan Group business for three earn-out periods covering March 11, 2014 through December 31, 2014, January 1, 2015 through December 31, 2015 and January 1, 2016 through December 31, 2016. In addition, the estimated fair value of the contingent earn-out amounts for obtaining certain operational milestones was determined based on the Company's preliminary estimates using weighted probabilities for achieving the milestones before March 31, 2017.

At the acquisition date, the Company estimated the fair value of the contingent earn-out amounts using probability-weighted discounted cash flow models discounted at 16.5% for the wireless subscribers and gross profit earn-outs and 0.5-1.5% for the operational milestones earn-outs, and recorded a liability for the estimated fair value of the contingent earn-out consideration. The fair value measurements are based on significant inputs not observed in the market and thus represents a Level 3 measurement. Any change in the fair value of the contingent earn-out amounts subsequent to the acquisition date, including changes from events after the acquisition date, will be recognized in earnings in the period the estimated fair value changes. Achievement of the earn-out measures lower than the targets will result in less being paid out. Achievement below certain thresholds will reduce the liability to zero. The undiscounted range of potential payments related to the number of wireless subscribers earn-out is from \$0 to \$2,778, gross profit target earn-outs is from \$0 to \$2,083, and certain operational milestones earn-out is from \$0 to \$1,686. As of March 31, 2014, the Company estimated the fair value of the contingent earn-out amounts at \$4,800 using probability-weighted discounted models, and recorded \$1,056 in accrued liabilities and \$3,744 in other liabilities in the condensed consolidated balance sheet.

Indemnification Asset

In connection with the Share Purchase Agreement, the Company entered into an escrow agreement with MWL Management B.V., R.Q. Management B.V and an escrow agent. Under the terms of this escrow agreement, 1,000 was placed in an escrow account through March 11, 2016 (subject to reduction as described below) to fund any indemnification obligations to the Company under the Share Purchase Agreement. Under the terms of the escrow agreement, the escrow amount is subject to reduction and early release to the extent no unresolved claims exist in accordance with the following provisions: (1) On September 11, 2014, the escrow amount is reduced by 250 which amount is then distributed to MWL Management B.V. and R.Q. Management B.V., (2) On March 11, 2015, the escrow amount is further reduced by 250 which amount is then distributed to MWL Management B.V. and R.Q. Management B.V and (3) On September 11, 2015, the escrow amount is further reduced by 250 which amount is then distributed to MWL Management B.V. and R.Q. Management B.V. On March 11, 2016, the remaining balance of the escrow account will be distributed to MWL Management B.V. and R.Q. Management B.V to the extent no resolved claims exist.

Pre-Acquisition Contingencies

The Company has evaluated and continues to evaluate pre-acquisition contingencies related to Euroscan that existed as of the acquisition date. If any pre-acquisition contingencies that were acquired as part of the acquisition become probable and estimable, the Company will record such amounts to goodwill in the one-year measurement period, or the Company's results of operations, if outside the one-year measurement period as applicable.

Sensor Enabled Notification System

Effective on the close of business on October 1, 2013, the Company completed the acquisition of certain assets and liabilities of Comtech Mobile Datacom Corporation (Comtech) Sensor Enabled Notification System (SENS) operations pursuant to an Asset Purchase Agreement (Comtech Asset Purchase Agreement) dated as of October 1, 2013. The consideration paid to acquire SENS was \$1,978 in cash. The operations of SENS are included in the Company s condensed consolidated financial statements subsequent to the acquisition date of October 1, 2013.

Preliminary Estimated Purchase Price Allocation

The total preliminary estimated purchase price was allocated to the net assets acquired based upon their preliminary estimated fair values as of the close of business on October 1, 2013 as set forth below. The excess of the preliminary purchase price over the preliminary net assets was recorded as goodwill. The preliminary allocation of the purchase price was based upon a preliminary valuation and the estimates and assumptions are subject to change. The areas of the preliminary purchase price allocation that are not yet finalized relate to the fair values of intangible assets and goodwill. The Company anticipates finalizing the purchase price allocation by the end of the third quarter of 2014. The preliminary estimated purchase price allocation for the acquisition is as follows:

Inventory	485
Intangible assets	1,270
Total identifiable assets acquired	1,755
Accounts payable and accrued expenses	(8)
Net identifiable assets acquired	1,747
Goodwill	231
Total preliminary purchase price	\$ 1,978

Intangible Assets

The fair values of the technology and trademarks were estimated using a relief from royalty method under the income approach based on discounted cash flows. The fair value of the customer lists was estimated based on an income approach using the excess earnings method. A discount rate of 43% was selected to reflect risk characteristics of these intangible assets. The discount rate was applied to the projected cash flows associated with the assets in order to value the intangible assets. The remaining useful lives of the technology and trademarks were based on historical product development cycles, the projected rate of technology migration and a market participant s use of these intangible assets and the pattern of projected economic benefit of these intangible assets. The remaining useful lives of customer lists were based on the customer attrition and the projected economic benefit of these customers.

Goodwill

The acquisition of SENS gives the Company access to a customer base that includes military, international, government and commercial customers as well as expanded reach in growing regions, such as the Middle East, Asia and South America. These factors contributed to a preliminary estimated purchase price resulting in the recognition of goodwill. The acquired goodwill is deductible for income tax purposes.

GlobalTrak

Effective on the close of business on April 3, 2013, the Company completed the acquisition of certain assets and liabilities of GlobalTrak, a division of System Planning Corporation (SPC), pursuant to an Asset Purchase Agreement (GlobalTrak Asset Purchase Agreement) dated as of March 13, 2013. The consideration paid to acquire GlobalTrak was \$2,990 in cash, which included \$500 that was deposited in escrow with a third party escrow agent and a final working capital adjustment of \$86 which was paid to the Company. The \$500 is available to pay indemnification obligations of SPC to the Company primarily relating for breaches of representations and warranties made by SPC. During the three months ended March 31, 2014, the Company reduced warranty liabilities assumed in connection with the acquisition. As a result, goodwill decreased by \$250 and warranty liabilities decreased by the same amount since it was within the one-year measurement period.

Indemnification Asset

In connection with the GlobalTrak Asset Purchase Agreement, the Company entered into an escrow agreement with SPC and an escrow agent. Under the terms of this escrow agreement, \$500 was placed in an escrow account for up to fifteen months to fund any indemnification obligations to the Company primarily relating for breaches of representations and warranties made by SPC. Under the terms of the escrow agreement, SPC will be entitled to receive one-half of the \$500, less the aggregate amount of claims made by the Company against SPC six months from April 3, 2013. In the event that the Company believes that an indemnity obligation of SPC has arisen under the GlobalTrak Asset Purchase Agreement, the Company shall have the right to provide written notice to the escrow agent and SPC setting forth a description of the claim and the amount of cash to be distributed to the Company from the escrow account. In October 2013, the Company notified the escrow agent to release \$250 from escrow and distribute the amount to SPC.

MobileNet, Inc.

Effective on the close of business on April 1, 2013, the Company completed the acquisition of substantially all of the assets of MobileNet, Inc. (MobileNet), pursuant to an Asset Purchase Agreement (the MobileNet Asset Purchase Agreement) dated as of March 13, 2013.

The consideration paid by the Company consisted of \$3,231 in cash, and the issuance of 329,344 shares of the Company's common stock (valued at \$4.96 per share, which reflects the Company's common stock closing price on April 1, 2013), of which 164,672 shares of common stock were placed into an escrow account for up to fifteen months from closing to fund any indemnification obligations to the Company primarily relating for breaches of representations and warranties made by MobileNet.

Table of Contents

In addition to the consideration paid at closing, the MobileNet Asset Purchase Agreement provides for contingent consideration payable by the Company to MobileNet if service revenues attributable to the MobileNet business for either of the two one year earn-out periods May 1, 2013 through April 30, 2014 and May 1, 2014 through April 30, 2015 are in excess of the specified baseline amount. In that event, the Company has agreed to pay to MobileNet an amount equal to (i) 50% of the first \$2,000 of such excess amount for the applicable earn-out period and (ii) 35% of any amount of such excess amount for the applicable earn-out period which is greater than \$2,000. Up to 50% of any potential earn-out amounts can be paid in common stock at the Company's option. Any shares of common stock to be issued will be based on the 20-day average closing price of the common stock prior to the last trading day of the earn-out period.

Contingent earn-out consideration

The estimated fair value of the contingent earn-out amounts was determined based on the Company's estimates using weighted probabilities to achieve the service revenues attributable to the MobileNet business for either of the two one year earn-out periods May 1, 2013 through April 30, 2014 and May 1, 2014 through April 30, 2015. At the acquisition date, the Company estimated the fair value of the contingent earn-out amounts using a probability-weighted discounted cash flow models discounted at 19% and recorded a liability for the estimated fair value of the contingent earn-out consideration. The fair value measurements are based on significant inputs not observed in the market and thus represents a Level 3 measurement. Any change in the fair value of the contingent earn-out amounts subsequent to the acquisition date, including changes from events after the acquisition date, will be recognized in earnings in the period the estimated fair value changes. Achievement of the service revenues lower than the targets will result in less being paid out. Achievement below certain thresholds will reduce the liability to zero. As of March 31, 2014, the Company estimated the fair value of the contingent earn-out amounts using a probability-weighted discounted models discounted at 18%. For the three months ended March 31, 2014, the fair value of the earn-out amounts decreased by \$571 which is recorded in selling, general and administrative expenses in the condensed consolidated statements of operations. As of March 31, 2014, \$347 is included in other liabilities in the condensed consolidated balance sheet.

Indemnification Asset

In connection with the MobileNet Asset Purchase Agreement, the Company entered into an escrow agreement with MobileNet and an escrow agent. Under the terms of this escrow agreement, 164,672 shares of common stock were issued to MobileNet and placed in an escrow account for up to fifteen months to fund any indemnification obligations to the Company primarily relating for breaches of representations and warranties made by MobileNet. Under the terms of the escrow agreement, MobileNet will retain all rights and privileges of ownership of the common stock placed in the escrow account. Further subject to certain resale restrictions, MobileNet has the right to sell any of the common stock that was placed in escrow provided that all proceeds of any such sale are deposited directly with the escrow agent. In the event that the Company believes that an indemnity obligation of MobileNet has arisen under the MobileNet Asset Purchase Agreement, the Company shall have the right to provide written notice to the escrow agent and MobileNet setting forth a description of the distribution event and the number of shares of the Company's common stock and or amount of cash to be distributed to the Company from the escrow account. The Company will direct the escrow agent to release to the Company from the escrow account a number of shares of common stock equal to the distribution amount valued at the 20-day average closing price from April 1, 2013. The Company did not record an indemnification asset for any indemnity obligations of MobileNet arising under the MobileNet Asset Purchase Agreement.

LMS**Contingent earn-out consideration**

The estimated fair value of the remaining contingent earn-out amount of \$950 was determined based on the Company's estimates using weighted probabilities to achieve the sales targets through 2014. The Company estimated the fair value of the sales targets contingent earn-out amounts using a probability-weighted discounted cash flow model. The fair value measurements are based on significant inputs not observed in the market and thus represents a Level 3 measurement. Any change in the fair value of the contingent earn-out amounts subsequent to the acquisition date, including changes from events after the acquisition date will be recognized in earnings in the period the estimated fair value changes. Achievement of the sales target lower than the target will result in less than the \$950 being paid out. Achievement below certain thresholds will reduce the liability to zero. For the three months ended March 31, 2014, the fair value of the earn-out amount was increased by \$8 which is recorded to selling, general and administrative expenses in the condensed consolidated statements of operations. As of March 31, 2014, \$25 is included in accrued liabilities and \$191 is included in other liabilities in the condensed consolidated balance sheet.

StarTrak

Warranty Liabilities and Escrow Agreement

As a result of the acquisition of StarTrak on May 16, 2011, the Company recorded warranty obligations on StarTrak's product sales, which provide for costs to replace or fix the product. One-year warranty coverage is accrued on product sales which provide for costs to replace or fix the product.

Table of Contents

In connection with the acquisition, the Company entered into an escrow agreement with Alanco. Under the terms of the escrow agreement, 166,611 shares of common stock were issued to Alanco and placed in an escrow account to cover 50% of certain costs relating to fuel sensor warranty obligations incurred by the Company. In the event that the sum of (i) aggregate warranty expenses (other than for fuel sensors) and (ii) any fuel sensor damages directly expended or accrued on the StarTrak balance sheet from March 1, 2011 through March 1, 2012 exceeds \$600, the Company shall have the right to provide written notice to the escrow agent and Alanco setting forth a description of the fuel sensor distribution event and the number of shares of the Company's common stock to be distributed to the Company from the escrow account. The number of shares of common stock that the Company will direct the escrow agent to release to the Company from the escrow account will equal 50% of the fuel sensor damages (excluding the amount of damages that when added to the non-fuel sensor damages equals \$600) incurred or suffered from June 1, 2011 through March 1, 2012, valued at \$3.001 per share. As a result, the Company has recorded in relation to the escrow agreement an indemnification asset measured at fair value, which was included in other assets. On February 24, 2014 the Company and Alanco entered into a settlement agreement to distribute the 166,611 shares of common stock from the escrow account to Alanco. In consideration for agreeing to distribute these shares of common stock, the Company received \$691 from Alanco. The Company recorded a loss of \$97 for the difference between the value of indemnification asset and the \$691, which is recorded to selling, general and administrative expenses in the condensed consolidated statements of operations. From January 1, 2014 through February 23, 2014 the Company recorded a gain of \$126 on the fair value of the common stock held in escrow, which is recorded as a reduction to selling, general and administrative expenses. For the three months ended March 31, 2013, the Company recorded a gain of \$135 on the fair value of the common stock held in escrow, which is recorded as a reduction to selling, general and administrative expenses in the condensed consolidated statements of operations.

Pro Forma Results for the Acquisition of GlobalTrak

The following table presents the unaudited pro forma results of the Company and GlobalTrak for the three months ended March 31, 2013 as though the companies had been combined as of the beginning of the period presented. The pro forma information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place on January 1, 2013.

The supplemental pro forma revenues, net income (loss) attributable to ORBCOMM Inc. and the net income (loss) attributable to common stockholders for the period from January 1, 2013 through March 31, 2013 presented in the table below were adjusted to include the amortization of the intangible assets and income tax expense calculated from January 1, 2013 to the acquisition date. Also the supplemental pro forma information was adjusted to exclude acquisition costs directly related to GlobalTrak.

Balance at March 31, 2014	55,000	\$	5.92

For the three months ended March 31, 2014 and 2013, the Company recorded stock-based compensation expense of \$226 and \$340 related to these RSUs, respectively. As of March 31, 2014, \$247 of total unrecognized compensation cost related to these RSUs is expected to be recognized through March 2015.

The fair values of the time-based and performance-based RSU awards are based upon the closing stock price of the Company's common stock on the date of grant.

Performance Units

The Company grants Market Performance Units (MPUs) to its senior executives based on stock price performance over a three-year period measured on December 31 for each performance period. The MPUs will vest at the end of each performance period only if the Company satisfies the stock price performance targets and continued employment by the senior executives through the dates the Compensation Committee has determined that the targets have been achieved. The value of the MPUs that will be earned each year ranges up to 15% of each of the senior executives' 2013 base salaries depending on the Company's stock price performance target for that year. The value of the MPUs can be paid in either cash or common stock or a combination at the Company's option. The MPUs are classified as a liability and are revalued at the end of reporting period based on the awards fair value over a three-year period.

As the MPUs contain both a performance and service condition, the MPUs have been treated as a series of three separate awards or tranches for purposes of recognizing stock-based compensation expense. The Company recognizes stock-based compensation expense on a tranche-by-tranche basis over the requisite service period for that specific tranche. The Company estimated the fair value of the MPUs using a Monte Carlo Simulation Model that used the following assumptions:

	Three months ended March 31,	
	2014	2013
Risk-free interest rate	0.09% to 0.79%	0.13% to 0.35%

Edgar Filing: ORBCOMM Inc. - Form 10-Q

Estimated volatility factor	40.00% to 45.00%	40.00%
Expected dividends	None	None

For the three months ended March 31, 2014 and 2013, the Company recorded stock-based compensation relating to these MPUs of \$105 and \$51, respectively.

5. Net (loss) income Attributable to ORBCOMM Inc. Common Stockholders

Basic net (loss) income per common share is calculated by dividing net (loss) income attributable to ORBCOMM Inc. by the weighted-average number of common shares outstanding for the period. Diluted net loss per common share is the same as basic net loss per common share, because potentially dilutive securities would have an antidilutive effect as the Company incurred a net loss for the three months ended March 31, 2014. For the three months ended March 31, 2013, the Company included the effect of 1,306,344 SARs, RSUs, shares of Series A convertible preferred stock and stock options in its diluted weighted average common shares outstanding.

The potentially dilutive securities excluded from the determination of diluted income per share, as their effect is antidilutive, are as follows:

	Three months ended March 31,	
	2014	2013
Series A convertible preferred stock	155,335	
SARs	4,427,818	3,513,241
RSUs	165,255	42,391
Stock options	50,000	424,116
	4,798,408	3,979,748

The computation of net (loss) income attributable to ORBCOMM Inc. common stockholders is as follows for the three months March 31, 2014 and 2013.

	Three months ended	
	March 31,	
	2014	2013
Net (loss) income attributable to ORBCOMM Inc.	\$ (431)	\$ 1,108
Preferred stock dividends on Series A convertible preferred stock	(10)	(16)
Net (loss) income attributable to ORBCOMM Inc. common stockholders	\$ (441)	\$ 1,092

During the three months ended March 31, 2014 and 2013, the Company capitalized costs attributable to the design and development of internal-use software in the amount of \$628 and \$337, respectively.

Depreciation and amortization expense for the three months ended March 31, 2014 and 2013 was \$1,337 and \$1,002, respectively. This includes amortization of internal-use software of \$186 and \$109 for the three months ended March 31, 2014 and 2013, respectively.

Assets under construction primarily consist of milestone payments pursuant to procurement agreements which includes, the design, development, launch and other direct costs relating to the construction of the next-generation satellites (See Note 15) and upgrades to its infrastructure and ground segment.

7. Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price of an acquired business over the estimated fair values of the underlying net tangible and intangible assets.

Goodwill consisted of the following:

Balance at January 1, 2014	\$ 20,335
Addition resulting from the acquisition of Euroscan	20,626
Reduction of warranty liabilities within the one-year measurement period assumed in connection with the acquisition of GlobalTrak	(250)
Balance at March 31, 2014	\$ 40,711

Goodwill is allocated to the Company's one reportable segment, which is its only reporting unit.

The Company's intangible assets consisted of the following:

	Useful life (years)	March 31, 2014			December 31, 2013		
		Cost	Accumulated amortization	Net	Cost	Accumulated amortization	Net
Customer lists	5, 7, 10 and 12	\$ 21,850	(1,434)	\$ 20,416	\$ 7,450	\$ (1,183)	\$ 6,267
Patents and technology	5 and 10	8,380	(1,575)	6,805	5,980	(1,398)	4,582

		\$ 31,920	\$ (3,346)	\$ 28,574	\$ 14,520	\$ (2,884)	\$ 11,636

The weighted-average amortization period for the intangible assets is 10.80 years. The weighted-average amortization period for customer lists, patents and technology and trade names and trademarks is 11.26, 9.71 and 9.28 years, respectively.

Amortization expense was \$462 and \$256 for the three months ended March 31, 2014 and 2013, respectively.

Table of Contents

Estimated amortization expense for intangible assets subsequent to March 31, 2014 is as follows:

Years ending December 31,	
Remainder of 2014	\$ 2,318
2015	3,091
2016	3,089
2017	2,939

10. Note Payable-Related Party

In connection with the acquisition of a majority interest in Satcom in 2005, the Company recorded an indebtedness to OHB Technology A.G. (formerly known as OHB Teledata A.G.), a stockholder of the Company. At March 31, 2014 and December 31, 2013, the principal balance of the note payable was 1,138 and it had a carrying value of \$1,571. The carrying value was based on the note's estimated fair value at the time of acquisition. The difference between the carrying value and principal balance was being amortized to interest expense over the estimated life of the note of six years which ended in September 30, 2011. This note does not bear interest and has no fixed repayment term. Repayment will be made from the distribution profits (as defined in the note agreement) of ORBCOMM Europe LLC. The note has been classified as long-term and the Company does not expect any repayments to be required prior to March 31, 2015.

11. Note Payable***\$45,000 9.5% Senior Notes***

On January 4, 2013, the Company issued \$45,000 aggregate principal amount of Senior Notes ("Senior Notes") due January 4, 2018. Interest is payable quarterly at a rate of 9.5% per annum. The Senior Notes are secured by a first priority security interest in substantially all of the Company's and its subsidiaries' assets. The covenants in the Senior Notes limits the Company's ability to among other things to, incur additional indebtedness and liens, to sell, transfer, lease or otherwise dispose of the Company's or subsidiaries' assets, merge or consolidate with other companies. The Company is also required to obtain launch and one year in-orbit insurance for the next-generation satellites under the terms of the Senior Notes. The Company must also comply with a maintenance covenant of either having available liquidity of \$10,000 (the sum of (a) cash and cash equivalents plus (b) the total amount available to be borrowed under a working capital facility) or a leverage ratio (consolidated total debt to consolidated adjusted EBITDA, adjusted for stock-based compensation, certain other non-cash items and other agreed upon other charges) of not more than 4.5 to 1.0. In connection with the issuance of the Senior Notes, the Company incurred approximately \$1,390 of debt issuance costs, which will be amortized through January 4, 2018. For the three months ended March 31, 2014 and 2013, the amortization of the debt issuance costs was \$70 and \$75, respectively. For the three months ended March 31, 2014 and 2013, the Company capitalized all of the interest expense and amortization of the debt issuance costs to

construction of the next-generation satellites.

As of March 31, 2014, the Company was in compliance with the financial covenants.

12. Stockholders Equity

Series A convertible preferred stock

During the three months ended March 31, 2014, holders of the Series A convertible preferred stock converted 9,836 shares into 16,387 shares of the Company's common stock. During the three months ended March 31, 2014, the Company issued dividends in the amount of 1,014 shares to the holders of the Series A convertible preferred stock. As of March 31, 2014, dividends in arrears were \$9.

Common Stock

In January 2014, the Company issued 33,594 shares of its common stock as a form of payment in connection with MPUs for achieving the fiscal year 2013 stock performance target.

Table of Contents

On January 17, 2014, the Company completed a public offering of 6,325,000 shares of its common stock including 825,000 shares sold upon full exercise of the underwriters' overallotment option at a price of \$6.15 per share. The Company received net proceeds of approximately \$36,607 after deducting underwriters' discounts and commissions and offering costs.

As of March 31, 2014, the Company has reserved 7,998,089 shares of common stock for future issuances related to employee stock compensation plans.

13. Segment Information

The Company operates in one reportable segment, M2M data communications. Other than satellites in orbit, long-lived assets outside of the United States are not significant. The following table summarizes revenues on a percentage basis by geographic regions, based on the country in which the customer is located.

	Three months ended March 31,	
	2014	2013
United States	80%	87%
Japan	6%	9%
Europe	9%	3%
Other	5%	1%
	100%	100%

14. Income taxes

For the three months ended March 31, 2014, the Company's income tax provision was \$173 resulting from a foreign income tax expense of \$110 and \$63 of amortization of tax goodwill generated from acquisitions. For the three months ended March 31, 2013, the Company's income tax provision was \$145, resulting from a foreign income tax expense of \$82 from income generated by ORBCOMM Japan and \$63 of amortization of tax goodwill generated from acquisitions.

As of March 31, 2014 and December 31, 2013, the Company maintained a valuation allowance against all of its net deferred tax assets, excluding goodwill, attributable to operations in the United States and all other foreign jurisdictions, except for Japan, as the realization of such assets was not considered more likely than not.

As of March 31, 2014, the Company had unrecognized tax benefits of \$775. There were no changes to the Company's unrecognized tax benefits during the three months ended March 31, 2014. The Company is subject to U.S. federal and state examinations by tax authorities from 2008. The Company does not expect any significant changes to its unrecognized tax positions during the next twelve months.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. No interest and penalties related to uncertain tax positions were recognized during the three months ended March 31, 2014.

15. Commitments and Contingencies*Next-generation satellites*

On May 5, 2008, the Company entered into a procurement agreement with Sierra Nevada Corporation (SNC) pursuant to which SNC is constructing eighteen low-earth-orbit satellites in three sets of satellites (shipsets) for the Company's next-generation satellites (the Initial Satellites). Under the agreement, SNC is also providing launch support services, a test satellite (excluding the mechanical structure), a satellite software simulator and the associated ground support equipment.

The total contract price for the Initial Satellites under the procurement agreement is \$117,000, subject to reduction upon failure to achieve certain in-orbit operational milestones with respect to the Initial Satellites or if the pre-ship reviews of each shipset are delayed more than 60-120 days after the specified time periods described below. The Company has agreed to pay SNC up to \$1,500 in incentive payments for the successful operation of the Initial Satellites five years following the successful completion of in-orbit testing for the third shipset of eight satellites.

Table of Contents

On August 31, 2010, the Company entered into two additional task order agreements with SNC in connection with the procurement agreement discussed above. Under the terms of the launch vehicle changes task order agreement, SNC will perform the activities to launch eighteen of the Company's next-generation satellites on a SpaceX Falcon 1e or Falcon 9 launch vehicle. The total price for the launch activities is cost reimbursable up to \$4,110 that is cancelable by the Company, less a credit of \$1,528. Under the terms of the engineering change requests and enhancements task order agreement, SNC will design and make changes to each of the next-generation satellites in order to accommodate an additional payload-to-bus interface. The total price for the engineering changes requests is cost reimbursable up to \$317. Both task order agreements are payable monthly as the services are performed, provided that with respect to the launch vehicle changes task order agreement, the credit in the amount of \$1,528 will first be deducted against amounts accrued thereunder until the entire balance is expended.

On August 23, 2011, the Company and SNC entered into a definitive First Amendment to the procurement agreement (the "First Amendment"). The First Amendment amends certain terms of the procurement agreement dated May 5, 2008 and supplements or amends five separate task order agreements, dated as of May 20, 2010 (Task Order #1), August 31, 2010 (Task Orders #2 and #3), and December 15, 2010 (Task Orders #4 and #5) (collectively with Task Order #6, the "Task Orders"). On July 3, 2012, the Company and SNC entered into an additional task order agreement ("Task Order #06") for SNC to perform final design work to enable additional payload components in satellites 3-18 to be re-programmable while in-orbit. The total price for the work under Task Order #6 is cost plus fixed fee of up to \$521. In addition, the Company and SNC entered into (i) Task Order #7 on June 24, 2013 for additional work in connection with the thrust vector alignment with respect to the first eight satellites for the firm fixed price of \$189; (ii) Task Order #8 on September 10, 2013 for the final design, implementation and testing of the added reprogrammability of the payload for the firm fixed price of \$1,650; (iii) Task Order #9 on January 14, 2014 for additional work in connection with the thrust vector alignment with respect to the remaining nine satellites for the firm fixed price of \$127; and (iv) Task Order #10 on April 18, 2014 for additional software work on a cost plus fixed fee basis estimated at \$175.

The First Amendment modifies the milestone payment schedule under the procurement agreement dated May 5, 2008 but does not change the total contract price (excluding optional satellites and costs under the Task Orders) of \$117,000. Payments under the Amendment extend into the second quarter of 2014, subject to SNC's successful completion of each payment milestone. The First Amendment also settles the liquidated delay damages triggered under the procurement agreement dated May 5, 2008 and provides an ongoing mechanism for the Company to obtain pricing proposals to order up to thirty optional satellites substantially identical to the Initial Satellites for which firm fixed pricing previously had expired under the procurement agreement dated May 5, 2008. The Company is anticipating \$3,900 in total liquidated delay damages will be available to offset milestone and task order payments.

On March 20, 2014, the Company and SNC entered into a definitive Second Amendment to the procurement agreement (the "Second Amendment"). The Second Amendment amends certain terms of the procurement agreement dated May 5, 2008, as amended by the First Amendment and supplemented by nine separate Task Orders, dated as of May 20, 2010 (Task Order #1), August 31, 2010 (Task Orders #2 and #3), December 15, 2010 (Task Orders #4 and #5), July 3, 2012 (Task Order #6), June 24, 2013 (Task Order #7), September 10, 2013 (Task Order #8), and January 14, 2014 (Task Order #9). The Second Amendment modifies the number of satellites in each ship set to reflect the actual number of satellites to be launched in each of the two missions. The Second Amendment also modifies the payment milestone schedule under the First Amendment but does not change the total contract price (excluding optional satellites and costs under the Task Orders) of \$117,000.

As of March 31, 2014, the Company has made milestone payments of \$58,500 to SNC under the procurement agreement. The Company anticipates making payments under the agreement of approximately \$47,970 over the next twelve months.

On December 21, 2012, the Company and Space Exploration Technologies Corp. (SpaceX) entered into a Launch Services Agreement (the Falcon 9 Agreement) pursuant to which SpaceX will provide launch services (the Launch Services) for the carriage into low-Earth-orbit of up to 17 ORBCOMM next-generation satellites currently being constructed by Sierra Nevada Corporation. Under the Falcon 9 Agreement, SpaceX will also provide to the Company satellite-to-launch vehicle integration and launch support services, as well as certain related optional services. The total price under the Falcon 9 Agreement (excluding any optional services) is \$42,600 subject to certain adjustments, which reflects pricing agreed under the 2009 agreement for Launch Services discussed below. The amounts due under the Falcon 9 Agreement are payable by the Company in installments from the date of execution of the Falcon 9 Agreement through the performance of each Launch Service.

The Falcon 9 Agreement anticipated that the Launch Services for 17 Satellites would be performed by the second quarter of 2014, subject to certain rights of ORBCOMM and SpaceX to reschedule the Launch Services as needed. Either the Company or SpaceX may postpone and reschedule either Launch Service based on satellite and launch vehicle readiness, among other factors, subject to the payment of certain fees by the party requesting or causing the delay following 6 months of delay with respect to either of the two Launch Services.

Both the Company and SpaceX have customary termination rights under the Falcon 9 Agreement, including for material breaches and aggregate delays beyond 365 days by the other party. The Company has the right to terminate either of the Launch Services subject to the payment of a termination fee in an amount that would be based on the date ORBCOMM exercises its termination right.

As of March 31, 2014, the Company has made milestone payments of \$35,145 under the Falcon 9 Agreement. The Company anticipates making payments of approximately \$7,455 over the next twelve months.

On August 28, 2009, the Company and Space Exploration Technologies Corp. (SpaceX) entered into a Commercial Launch Services Agreement (the Agreement) pursuant to which SpaceX will provide launch services (the Launch Services) using multiple SpaceX Falcon 1e launch vehicles for the carriage into low-Earth-orbit for the Company's 18 next-generation commercial communications satellites currently being constructed by SNC. Under the Agreement, SpaceX will also provide to the Company launch vehicle integration and support services, as well as certain related optional services.

The total price under the Agreement (excluding any options or additional launch services) was \$46,600, subject to certain adjustments. The amounts due under the Agreement were payable in periodic installments from the date of execution of the Agreement through the performance of each Launch Service.

Table of Contents

On September 21, 2012, SpaceX and the Company entered into a Secondary Payload Launch Services Agreement totaling \$4,000 of the original \$46,600 to launch the next-generation prototype which occurred on October 7, 2012.

In April, 2014, the Company obtained launch and one year in-orbit insurance for the OG2 satellite program. For the first launch of six satellites, the Company obtained (i) a maximum total of \$66,000 of launch plus one year in-orbit insurance coverage; and (ii) \$22,000 of launch vehicle flight only insurance coverage. The total premium cost for launch one is \$9,953. For the second launch of eleven satellites, the Company obtained (i) a maximum total of \$120,000 of launch plus one year in-orbit insurance coverage; and (ii) \$22,000 of launch vehicle flight only insurance coverage. The total premium cost for launch two is \$16,454. In April, 2014, the Company paid the total premium for launch one and 5% of the total premium for launch two, with the balance of the premium cost for launch two becoming due 30 days prior to the scheduled launch of the second mission.

The policy contains a three satellite deductible under the launch portion across both missions plus one year insurance coverage whereby claims are payable in excess of the first three satellites in the aggregate for both launch one and launch two combined that are total losses or constructive total losses. The launch vehicle only coverage requires the loss of all satellites on the applicable mission as a result of the launch vehicle flight in order to collect under that portion of the insurance policy. The policy is also subject to specified exclusions and material change limitations customary in the industry. These exclusions include losses resulting from war, anti-satellite devices, insurrection, terrorist acts, government confiscation, radioactive contamination, electromagnetic interference, loss of revenue and third party liability.

Airtime credits

In 2001, in connection with the organization of ORBCOMM Europe LLC and the reorganization of the ORBCOMM business in Europe, the Company agreed to grant certain country representatives in Europe approximately \$3,736 in airtime credits. The Company has not recorded the airtime credits as a liability for the following reasons: (i) the Company has no obligation to pay the unused airtime credits if they are not utilized; and (ii) the airtime credits are earned by the country representatives only when the Company generates revenue from the country representatives. The airtime credits have no expiration date. Accordingly, the Company is recording airtime credits as services are rendered and these airtime credits are recorded net of revenues from the country representatives. For the three months ended March 31, 2014 and 2013, airtime credits used totaled approximately \$8 for each respective quarter. As of March 31, 2014 and December 31, 2013, unused credits granted by the Company were approximately \$2,089 and \$2,097, respectively.

Development and Production Agreement

In February 2014, the Company entered into an agreement with a vendor to develop and manufacture products over a 5-year period. Future minimum payments over the term of the agreement total \$4,817.

Overview

We are a global provider of machine-to-machine (M2M) solutions, including network connectivity, devices and web reporting applications. These solutions enable optimal business efficiencies, increased asset efficiency, utilization, and substantially reduce asset write-offs helping industry leaders realize benefits on a world-wide basis. Our M2M products and services are designed to track, monitor and enhance security for a variety of assets, such as trailers, trucks, rail cars, intermodal containers, generators, fluid tanks, marine vessels, oil and gas wells, pipeline monitoring equipment, irrigation control systems, and utility meters, in the transportation & distribution, heavy equipment, oil & gas, maritime and government industries. Additionally, we provide Automatic Identification System (AIS) data services for vessel tracking and to improve maritime safety to government and commercial customers worldwide. We

provide these services using multiple network platforms, including our own constellation of 25 low-Earth orbit satellites, two AIS microsattellites, and our accompanying ground infrastructure. We also offer customer solutions utilizing additional satellite and terrestrial-based cellular network service options that we obtain through service agreements we have entered into with mobile satellite providers Inmarsat and Globalstar, as well as several major cellular (Tier One) wireless carriers. Our satellite-based customer solution offerings use small, low power, mobile earth stations (Communicators) for remote asset connectivity, and our terrestrial-based solutions utilize cellular data modems with subscriber identity modules (SIMS). Customer solutions provide access to data gathered over these systems via connections to other public or private networks, including the Internet. We are dedicated to providing the most versatile, leading-edge M2M solutions that enable our customers to maximize operational efficiency, increase asset utilization and achieve significant return on investment.

Customers benefiting from our network, products and solutions include original equipment manufacturers, or OEMs; such as Caterpillar, Komatsu, Doosan Infracore America, Hitachi, Hyundai Heavy Industries, The Manitowoc Company and Volvo Construction Equipment; vertical market technology integrators known as VARs and IVARs, such as I.D. Systems, Inc., inthinc Technology Solutions Inc., and American Innovations, Ltd.; leading refrigeration unit manufacturers such as Carrier and Thermo King, and well-known brands such as Tropicana, Maersk Line, Prime Inc., C.R. England, FFE Transport, Inc., Target, Chiquita, Ryder, J.B. Hunt, Hapag-Lloyd, Golden State Foods, Martin-Brower and Canadian National Railways.

Acquisition***Euroscan Holding B.V.***

On March 11, 2014, we completed the acquisition of 100% of the outstanding equity of Euroscan Holding B.V., including, indirectly, its wholly-owned subsidiaries Euroscan B.V., Euroscan GmbH Vertrieb Technischer Geräte, Euroscan Technology Ltd. and Ameriscan, Inc. (collectively, the Euroscan Group or Euroscan). The acquisition was completed pursuant to the Share Purchase Agreement dated March 11, 2014 (the Share Purchase Agreement), entered into by us and MWL Management B.V., R.Q. Management B.V., WBB GmbH, ING Corporate Investments Participaties B.V. and Euroscan Holding B.V., as sellers. As this acquisition was effective on March 11, 2014, the results of operations of Euroscan are included in the condensed consolidated financial statements beginning March 12, 2014.

The aggregate consideration paid by us at the closing was valued at \$29.2 million (21,000,000), subject to adjustments for working capital and net cash (on a debt free, cash free basis), payable in cash and common stock as follows:

- (i) Cash consideration in an amount equal to \$29.2 million (20,999,000) payable in Euros, which includes an initial working capital estimate of \$2.2 million (1,599,000) subject to a final working capital adjustment and net cash. 1,000,000 of such cash consideration was placed in escrow with a third party to be available to pay any indemnification obligations of MWL Management B.V. and R.Q. Management B.V. under the Share Purchase Agreement; and
- (ii) Issuance of 291,230 shares of our common stock to MWL Management B.V. and R.Q. Management B.V. (based on 1,600,000 divided by the 20-day-average closing price of our common stock ending on the second business day prior to the execution of the Share Purchase Agreement). The 291,230 shares of common stock were valued at \$7.70 per share, which reflected our closing price of common stock on March 11, 2014.

In addition to the consideration paid at closing, the Share Purchase Agreement provides for contingent consideration of up to \$6.5 million (4,714,214) (the Earn-Out) and is payable post-closing by us to MWL Management B.V. and R.Q. Management B.V. Up to \$2.8 million (2,000,000) will be payable based on achieving an increase in number of wireless subscribers attributable to the Euroscan Group for three one-year earn-out periods: April 1, 2014 through March 31, 2015; April 1, 2015 through March 31, 2016 and April 1, 2016 through March 31, 2017. Up to \$2.1 million (1,500,000) will be payable based on achieving certain gross profits of the Euroscan Group, subject to certain adjustments for three earn-out periods: March 11, 2014 through December 31, 2014; January 1, 2015 through December 31, 2015; and January 1, 2016 through December 31, 2016. Up to \$1.7 million (1,214,214) will be payable based on achieving certain operational milestones obtained before March 31, 2017. Any shares of common stock to be issued will be based on the 20-day average closing price of the common stock prior to the last trading day of the earn-out periods.

See Note 3 to the condensed consolidated financial statements for further discussion on the Euroscan acquisition.

Public offering

On January 17, 2014, we completed a public offering of 6,325,000 shares of common stock including 825,000 shares sold upon full exercise of the underwriters' over-allotment option at a price of \$6.15 per share. We received net proceeds of approximately \$36.6 million after deducting underwriters' discounts and commissions and offering costs.

Critical Accounting Policies and Estimates

Our discussion and analysis of our results of operations, liquidity and capital resources are based on our consolidated financial statements which have been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, accounts receivable, accounting for business combinations, goodwill, satellite network and other equipment, long-lived assets, capitalized development costs, income taxes, warranty costs, loss contingencies and the value of securities underlying stock-based compensation. We base our estimates on historical and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results may differ from our estimates and could have a significant adverse effect on our results of operations and financial position. For a discussion of our critical accounting policies and estimates see Part II, Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2013. There have been no material changes to our critical accounting policies during 2014.

Table of Contents**EBITDA**

EBITDA is defined as earnings attributable to ORBCOMM Inc., before interest income (expense), provision for income taxes and depreciation and amortization. We believe EBITDA is useful to our management and investors in evaluating our operating performance because it is one of the primary measures we use to evaluate the economic productivity of our operations, including our ability to obtain and maintain our customers, our ability to operate our business effectively, the efficiency of our employees and the profitability associated with their performance. It also helps our management and investors to meaningfully evaluate and compare the results of our operations from period to period on a consistent basis by removing the impact of our financing transactions and the depreciation and amortization impact of capital investments from our operating results. In addition, our management uses EBITDA in presentations to our board of directors to enable it to have the same measurement of operating performance used by management and for planning purposes, including the preparation of our annual operating budget.

EBITDA is not a performance measure calculated in accordance with accounting principles generally accepted in the United States, or GAAP. While we consider EBITDA to be an important measure of operating performance, it should be considered in addition to, and not as a substitute for, or superior to, net income (loss) or other measures of financial performance prepared in accordance with GAAP and may be different than EBITDA measures presented by other companies.

The following table reconciles our net (loss) income to EBITDA for the periods shown:

	Three months ended March 31,	
	2014	2013
	(In thousands)	
Net (loss) income attributable to ORBCOMM Inc.	\$ (431)	\$ 1,108
Income tax expense	173	145
Interest income	(2)	(17)
Interest expense	2	46
Depreciation and amortization	1,799	1,258
 EBITDA	 \$ 1,541	 \$ 2,540

EBITDA during the three months ended March 31, 2014 decreased by \$1.0 million over 2013. The decrease was due to an increase in operating expenses, primarily due to \$3.3 million to operate companies acquired after April 2013, an increase in acquisition costs of \$0.8 million, offset by a \$0.6 million change in the fair value of acquisitions related contingent consideration. The increase in expenses was offset by increases in service revenues of \$0.5 million and product revenues of \$2.1 million. The increase in service revenues was primarily due to an increase in AIS revenue of \$0.2 million, \$1.1 million from our acquisitions and increases in core service revenues notwithstanding the effect on growth in service revenues of a back billing adjustment in the first quarter of 2013. The increase in product revenues was attributable to the products sold by the companies we acquired.

Revenues

We derive service revenues from the utilization of Communicators and the utilization of SIMS on the cellular providers wireless networks by its customers (i.e., its value added resellers, international value added resellers, international licensees and country representatives and direct customers). These service revenues generally consist of

subscriber-based and recurring monthly usage fees and a one-time activation fee for each Communicator or SIM activated for use. Usage fees are generally based upon the number, size and frequency of data transmitted by a customer and the overall number of Communicators and SIMS activated by each customer. Revenues for usage fees from currently billing Communicators and SIMS are recognized on an accrual basis, as services are rendered, or on a cash basis, if collection from the customer is not reasonably assured at the time the service is provided. Usage fees charged to our resellers and direct customers are charged primarily on the overall number of Communicators activated by them and the total amount of data transmitted. We also earn service revenues from extended warranty service agreements extending beyond the initial warranty period of one year, royalty fees from third parties for the use of our proprietary communications protocol charged on a one-time basis for each Communicator connected to our M2M data communications system and fees from providing engineering, technical and management support services to customers.

We derive product revenues primarily from sales of subscriber communicators to our resellers (i.e., our VARs, IVARs, international licensees and country representatives) and direct customers. We also sell cellular wireless subscriber identity modules, or SIMS, (for our terrestrial-communication services) to our resellers and direct customers. Revenues generated from product revenues are either recognized when the products are shipped or when customers accept the product depending on the specific contractual terms.

Shipping costs billed to customers are included in product sales revenues and the related costs are included as costs of product sales.

Amounts received prior to the performance of services under customer contracts are recognized as deferred revenues and revenue recognition is deferred until such time that all revenue recognition criteria have been met.

Table of Contents

The table below presents our revenues for the three months ended March 31, 2014 and 2013, together with the percentage of total revenue represented by each revenue category in (in thousands):

	Three months ended March 31,			
	2014		2013	
Service revenues	\$ 14,426	74.7%	\$ 13,890	83.1%
Product sales	4,924	25.3%	2,830	16.9%
	\$ 19,350	100.0%	\$ 16,720	100.0%

Total revenues for the three months ended March 31, 2014 and 2013 were \$19.4 million and \$16.7 million, respectively, an increase of 15.7%.

Service revenues

Service revenues increased \$0.5 million for the three months ended March 31, 2014, or 3.9%, to \$14.4 million from \$13.9 million for the three months ended March 31, 2013. The increase in service revenues in 2014 over 2013 was primarily due to an increase in AIS revenue of \$0.2 million, \$1.1 million from our acquisitions, and increases in core service revenues notwithstanding the effect on growth in service revenues of a billing adjustment in the first quarter of 2013.

As of March 31, 2014, we had approximately 889,000 billable subscriber communicators compared to approximately 777,000 billable subscriber communicators as of March 31, 2013, an increase of 14.1%.

Service revenue growth can be impacted by the customary lag between subscriber communicator activations and recognition of service revenue from these units.

Product sales

Revenues from product sales increased \$2.1 million for the three months ended March 31, 2014, or 74.0%, to \$4.9 million from \$2.8 million for the three months ended March 31, 2013. The increase in product revenues was primarily attributable to the products sold by the companies we acquired, and increases from Japan.

Costs of revenues, exclusive of depreciation and amortization

Costs of services is comprised of expenses to operate our network, such as payroll and related costs, including stock-based compensation, and usage fees to third-party networks. Costs of services increased by \$0.4 million, or 7.1%, to \$5.1 million for the three months ended March 31, 2014 from \$4.7 million for the three months ended March 31, 2013. The increase was primarily due to costs to operate the acquired companies.

Costs of products includes the purchase price of subscriber communicators and SIMS sold, costs of warranty obligations, shipping charges, as well as operational costs to fulfill customer orders including costs for employees and inventory management. Costs of product sales increased by \$1.9 million, or 91.4% to \$4.0 million for the three months ended March 31, 2014 from \$2.1 million for the three months ended March 31, 2013. The increase was primarily due to increased product sales, additional manufacturing costs associated with the launch of new products and inventory charges.

Gross Profit

Gross profit increased by \$0.4 million or 3.8% to \$10.3 million for the three months ended March 31, 2014 compared to \$9.9 million for the three months ended March 31, 2013. The increase was due to increases in gross profit of \$0.2 million from service revenues and \$0.2 million from product sales. The increase in gross profit from service revenues was primarily due to \$0.5 million from acquisitions and increases in other service revenues notwithstanding the effect on growth in service revenues of a billing adjustment in the first quarter of 2013 that had the effect of increasing service margins in the prior year period. The increase in gross profit from product sales was primarily due to \$0.3 million from acquisitions, which included inventory obsolescence reserves that had the effect of decreasing product margins in the current year period.

Table of Contents

Selling, general and administrative expenses

Selling, general and administrative expenses relate primarily to expenses for general management, sales and marketing, finance, professional fees and general operating expenses. Selling, general and administrative expenses increased by \$0.7 million, or 12.0%, to \$6.8 million for the three months ended March 31, 2014 from \$6.1 million for the three months ended March 31, 2013. The increase was primarily due to additional headcount, most of which was from the companies acquired.

Product development expenses

Product development expenses consist primarily of the expenses associated with our engineering efforts including the cost of third parties to support our current applications. Product development expenses for the three months ended March 31, 2014 and 2013 were \$0.7 million and \$0.8 million, respectively.

Depreciation and amortization

Depreciation and amortization increased by \$0.5 million by 43.0% to \$1.8 million for the three months ended March 31, 2014 compared to \$1.3 million for the three months ended March 31, 2013. The increase is primarily due to the amortization of intangible assets acquired in our acquisitions.

Acquisition-related costs

Acquisition-related costs directly related to our acquisitions which include professional services expenses, and may include identifiable integration costs.

Income (loss) from operations

We have a loss from operations of \$0.2 million for the three months ended March 31, 2014, compared to income from operations of \$1.3 million for the three months ended March 31, 2013.

Other income (expense)

Other income (expense) is comprised primarily of interest income from our cash and cash equivalents, which consists of U.S. Treasuries, interest bearing instruments, and our previously held investments in marketable securities consisting of U.S. government and agency obligations, corporate obligations and FDIC-insured certificates of deposit classified as held to maturity, foreign exchange gains and losses and interest expense.

For the three months ended March 31, 2014 and March 31, 2013 other expenses was less than \$0.1 million.

(Loss) income before income taxes

We have a loss before income taxes of \$0.2 million for the three months ended March 31, 2014, compared to income before income taxes of \$1.3 million for the three months ended March 31, 2013.

Income taxes

For the three months ended March 31, 2014, we recorded income taxes of \$0.2 million, which included foreign income taxes of \$0.1 million and \$0.1 million from the amortization of tax goodwill generated from our acquisitions.

For the three months ended March 31, 2013, we recorded income taxes of \$0.1 million, which included foreign income tax expense of less than \$0.1 million from income generated by ORBCOMM Japan and \$0.1 million from the amortization of tax goodwill generated from our acquisitions.

As of March 31, 2014 and 2013, we maintained a valuation allowance against all of our net deferred tax assets, excluding goodwill, attributable to operations in the United States and all foreign jurisdictions, except for Japan, as the realization of such assets was not considered more likely than not.

Net (loss) net income

We have a net loss of \$0.4 million for the three months ended March 31, 2014 compared to net income of \$1.2 million for the three months ended March 31, 2013.

Noncontrolling interests

Noncontrolling interests relate to earnings and losses attributable to noncontrolling shareholders.

Net (loss) income attributable to ORBCOMM Inc.

We have a net loss attributable to our company of \$0.4 million for the three months ended March 31, 2014 compared to a net income of \$1.1 million for the three months ended March 31, 2013.

For the three months ended March 31, 2014 and 2013, the net (loss) income attributable to our common stockholders includes dividends of less than \$0.1 million paid in shares of the Series A convertible preferred stock.

Table of Contents***Liquidity and Capital Resources******Overview***

Our liquidity requirements arise from our working capital needs and to fund capital expenditures to support our current operations, and facilitate growth and expansion. We have financed our operations and expansion with cash flows from operating activities, sales of our common stock through public offerings and private placements of debt. At March 31, 2014, we have an accumulated deficit of \$63.8 million. Our primary source of liquidity consisted of cash and cash equivalents and restricted cash totaling \$76.9 million, and cash flows from operating activities, which we believe will be sufficient to provide working capital and capital expenditures for the next twelve months.

Operating activities

Cash provided by our operating activities for the three months ended March 31, 2014 was \$0.6 million resulting from a net loss of \$0.4 million, supplemented by non-cash items including \$1.8 million for depreciation and amortization and \$0.9 million for stock-based compensation, offset by a net decrease of \$0.6 million in the fair values of acquisitions related contingent consideration. Working capital activities primarily consisted of a net use of cash of \$2.2 million from a decrease in accounts payable and accrued expenses primarily related to timing for payments for professional fees.

Cash used in our operating activities for the three months ended March 31, 2013 was \$0.4 million resulting from net uses of cash of \$2.3 million for an increase in accounts receivable primarily due to the increase in revenues and \$1.9 million from a decrease in accounts payable and accrued expenses primarily related to timing of payments, offset by net income of \$1.2 million and non-cash items including \$1.3 million for depreciation and amortization and \$0.6 million for stock-based compensation.

Investing activities

Cash used in our investing activities for the three months ended March 31, 2014 was \$30.9 million, resulting primarily from capital expenditures of \$2.7 million and \$28.9 million in cash consideration paid to acquire Euroscan.

Cash used in our investing activities for the three months ended March 31, 2013 was \$40.8 million, resulting primarily from capital expenditures of \$11.9 million and purchases of marketable securities of \$48.8 million, offset by proceeds received from the maturities of marketable securities totaling \$19.9 million.

Financing activities

Cash provided by our financing activities for the three months ended March 31, 2014 was \$36.6 million, primarily due to net proceeds received from a public offering of 6,325,000 shares of common stock completed on January 17, 2014.

Cash provided by our financing activities for the three months ended March 31, 2013 was \$40.6 million, resulting primarily from proceeds received from the issuance of \$45 million Senior Notes, offset by payments for debt issuance costs of \$1.1 million in connection with the Senior Notes and a \$3.4 million principal repayment of the 6% secured promissory note issued in connection with the acquisition of StarTrak.

Future Liquidity and Capital Resource Requirements

We expect cash flows from operating activities, along with our existing cash and cash equivalents and restricted cash will be sufficient to provide working capital and to fund our interest payments on the \$45 million Senior Notes and capital expenditures, which primarily includes the deployment of the next-generation satellites for the next twelve months. For the remainder of 2014, we expect to incur approximately \$80 million of capital expenditures primarily for our next-generation satellites.

On January 17, 2014, we completed a public offering of 6,325,000 shares of common stock including 825,000 shares sold upon full exercise of the underwriters' over-allotment option at a price of \$6.15 per share. We received net proceeds of approximately \$36.6 million after deducting underwriters' discounts and commissions and offering costs.

Table of Contents

On January 4, 2013, we issued \$45 million aggregate principal amount of Senior Notes due on January 4, 2018. Interest is payable quarterly at a rate of 9.5% per annum. The Senior Notes are secured by a first priority security interest in substantially all of our and subsidiaries' assets. The Senior Notes allow us to put in place a revolving credit facility of up to \$15 million, secured by a first priority security interest in receivables and inventory. The covenants in the Senior Notes limits our ability among other things to, incur additional indebtedness and liens, to sell, transfer, lease or otherwise dispose of our subsidiaries assets, merge or consolidate with other companies. We are also required to obtain launch and one year in-orbit insurance for our next-generation satellites under the terms of the Senior Notes. We must also comply with a maintenance covenant of either having available liquidity of \$10 million (the sum of (a) cash and cash equivalents plus (b) the total amount available to be borrowed under a working capital facility) or a maximum leverage ratio (consolidated total debt to consolidated adjusted EBITDA, adjusted for stock-based compensation and certain other non-cash items and other agreed upon other charges) of not more than 4.5 to 1.0.

On April 4, 2014 we filed a Form S-3 shelf registration prospectus statement for a proposed maximum aggregate offering price of \$100 million. We may use this prospectus at any time or from time to time to offer, in one or more offerings, our debt securities, shares of our common stock, shares of our preferred stock, warrants to purchase our debt securities, common stock or preferred stock or units consisting of any combination of the foregoing securities. The shelf registration statement was declared effective on April 9, 2014.

Debt Covenants

As of March 31, 2014, we were in compliance with our covenants of the \$45 million Senior Notes.

Contractual Obligations

There have been no material changes in our contractual obligations as of March 31, 2014, as previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risks

There has been no material changes in our assessment of our sensitivity to market risk as of March 31, 2014, as previously disclosed in Part II, Item 7A "Quantitative and Qualitative Disclosures about Market Risks" in our Annual Report on Form 10-K for the year ended December 31, 2013.

Concentration of credit risk

The following table presents customers with revenues greater than 10% of our consolidated total revenues for the periods shown:

	Three Months ended

Item 4. Disclosure Controls and Procedures*Evaluation of the Company's disclosure controls and procedures.*

The Company's management evaluated, with the participation of the Company's President and Chief Executive Officer and Executive Vice President and Chief Financial Officer the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of March 31, 2014. Based on their evaluation, the Company's President and Chief Executive Officer and Executive Vice President and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2014.

Changes in Internal Control over Financial Reporting.

We reviewed our internal control over financial reporting at March 31, 2014. As a result of the acquisition of Euroscan we have begun to integrate certain business processes and systems of Euroscan. Accordingly, certain changes have been made and will continue to be made to our internal controls over financial reporting until such time as this integration is complete. In reliance on interpretive guidance issued by the SEC staff, management has chosen to exclude disclosure of changes in internal control over financial reporting related to Euroscan.

There have been no other changes in our internal control over financial reporting identified in an evaluation thereof that occurred during the first quarter of 2014 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
