REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Participants and the Employee Benefits Administrative Committee

of The Lubrizol Corporation Employees Profit Sharing and Savings Plan

Wickliffe, Ohio

We have audited the accompanying statements of net assets available for benefits of The Lubrizol Corporation Employees Profit Sharing and Savings Plan (the Plan) as of December 31, 2013 and 2012 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012 and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

THE LUBRIZOL CORPORATION EMPLOYEES

PROFIT SHARING AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following brief description of The Lubrizol Corporation Employees Profit Sharing and Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General The Lubrizol Corporation (the Company) established the Plan for the purpose of encouraging employee long-term, tax-deferred savings for retirement and employee ownership of common shares of the Company. Effective April 2, 2012, the Plan was amended to allow employees to purchase Class B shares of Berkshire Hathaway Inc. The Plan is subject to the reporting and disclosure requirements, vesting standards and the fiduciary responsibility requirements of the Employee Retirement Income Security Act of 1974, as amended.

On February 27, 2013, the Company amended the Plan to provide for the merger of the Active Organics, Inc. 401(k) Plan into the Plan on or after March 1, 2013. The physical transfer of assets of \$773,610 into the Plan took place on April 17, 2013. On May 2, 2012, the Company amended the Plan to provide for the merger of the Merquinsa North America 401(k) Plan into the Plan effective June 11, 2012. The physical transfer of assets of \$322,420 into the Plan took place on June 12, 2012.

Administration The Plan is administered by the Employee Benefits Administrative Committee (the Committee), which is appointed by the Management Advisory Committee (the MAC) of the Company. The Committee's powers and duties relate to the issuance of interpretive rules and regulations in accordance with the Plan document, including determination of the method and time of benefit distributions and authorization of disbursements from the Plan.

The Plan is a participating plan in The Lubrizol Corporation Employees Profit Sharing and Savings Plan Trust (Master Trust) along with The Lubrizol Corporation Age-Weighted Defined Contribution Plan (the AWDC Plan). The assets of the above plans are part of the Master Trust.

The Retirement and Savings Plans Investment Committee (the Investment Committee), which is also appointed by the MAC, reviews the investment policies and procedures for the Plan; monitors the performance of, and fees and expenses charged by, the investment alternatives offered under the Plan to ensure the consistency of the investment alternatives with the Plan's investment policies; approves changes to the investment alternatives offered under the Plan; monitors the asset levels of the Master Trust; and appoints and removes the Trustee for the Master Trust. The assets within the Master Trust are maintained and administered by the Plan's Trustee, ING National Trust, and the Plan's recordkeeper, ING. The Plan document and trust agreement provide that the Trustee of the Plan shall hold, invest, reinvest, manage, and administer all assets of the Plan as a trust fund for the exclusive benefit of participants and their beneficiaries. Each plan (the Plan and the AWDC Plan) has the ability to direct its own investments within the Master Trust.

Participation and Contributions All regular employees of the Company and of participating subsidiaries are eligible for participation on the first day of covered employment.

The combined before-tax (CODA), after-tax Roth 401(k) (Roth) and after-tax (Supplemental) contributions are limited to 75% of eligible compensation for both highly and non-highly compensated employees. The Company makes matching contributions (Company Matching) of 50% of an employee's combined CODA, Roth and Supplemental contributions up to 6% of the employee's eligible compensation. The maximum eligible compensation set by the Internal Revenue Service for purposes of allocating Plan contributions was \$255,000 for 2013 and \$250,000 for 2012.

Table of Contents

CODA and Company Matching contributions are excluded from the participants' taxable income until such amounts are received by them as a distribution from the Plan. Roth and Supplemental contributions are made on an after-tax basis and are therefore included in the participants' taxable income in the period of contribution. Participants who turned at least age 50 during 2013 or 2012 were eligible to elect to make an additional before-tax or Roth Catch-up contribution of up to \$5,500 in both 2013 and 2012, if they met one of the following conditions:

- a. Elected to make before-tax and Roth 401(k) contributions of 75% of eligible compensation; or
- b. Contributed \$17,500 for the 2013 Plan year or \$17,000 for the 2012 Plan year.

The Company also contributes a portion of its adjusted consolidated net income, as defined in the Plan document, to the Plan (Profit Sharing). Profit Sharing contributions are determined by the Organization and Compensation Committee of the Board of Directors of the Company and are allocated to each participant's profit sharing account based upon the year-end compensation of the employee, as defined in the Plan document.

In addition to the above contributions, the Plan provides for rollover contributions (described in Sections 402, 403 and 408 of the Internal Revenue Code) and transferred contributions from certain other tax-qualified plans by or on behalf of an employee in accordance with procedures established by the Company, except that the Plan does not accept Roth rollover contributions.

Participant Accounts Each participant's account is credited with the participant's contributions, allocations of the Company Matching and Profit Sharing contributions, income from investments, gains or losses on sales of investments, appreciation or depreciation in the market value of investments and expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment of Contributions Participants elect investment of their CODA, Roth and Supplemental contributions in one or more of the Plan's investment funds in 1% increments. All participants, regardless of age or vested ownership percentage, are able to direct the investment of the Company Matching contributions made to their account into any of the 401(k) investment funds. A participant may elect to change his or her investment elections as to future contributions and may also elect to reallocate once daily a portion or all of past CODA, Roth, Supplemental, Company Matching, Catch-up, Roth Catch-up and Profit Sharing contributions among the available investment funds in increments of 1% of the total amount to be reallocated.

If an employee does not make an investment election, any CODA, Roth, Supplemental, Company Matching, Catch-up, Roth Catch-up and Profit Sharing contributions will be deposited in the target retirement fund with the date that most closely matches a retirement age of 65, which meets the Department of Labor's definition as a qualified default investment alternative.

Vesting and Distributions Active participants vest in Company Matching contributions and their beneficial interest in Profit Sharing contributions at a rate of 33-1/3% for each full year of eligible service and become 100% vested after three years. Participants are immediately 100% vested in employee contributions. The participants also will become 100% vested if employment ends due to retirement on or after age 55, total and permanent disability, or death.

Participants may request voluntary withdrawals of their Supplemental contributions and may also apply for hardship withdrawals from their CODA, Roth, Catch-up and Roth Catch-up contributions, subject to adherence to Internal Revenue Service regulations as determined by the Plan's recordkeeper, or request an in-service distribution upon attainment of age 59-1/2. Upon attainment of age 55, active participants may request an in-service distribution of Company Matching contributions.

Table of Contents

When a participant's employment terminates, his or her vested account balances may be distributed in a single lump sum. Participants may also elect installment distribution payments or partial withdrawals of their vested account balance. Amounts distributed from the Berkshire Hathaway Class B Stock Fund are paid in the form of Class B shares of Berkshire Hathaway or their cash equivalent.

Notes Receivable From Participants The Plan allows participants to borrow up to the lesser of 50% of the value of their CODA, Roth, Rollover and vested Company Matching contribution accounts or 100% of the value of their CODA, Roth and Rollover accounts, not to exceed \$50,000 or 50% of their total account balance. Each participant is restricted to three outstanding loans at a time, and the minimum loan is \$1,000.

Participant loans accrue interest at a rate fixed at the time of the borrowings. Loan repayments are made through payroll deductions and are credited to the participant's account. The repayment period may not be more than five years except for loans issued to purchase a principal residence, which may be repaid within fifteen years.

Forfeited Accounts Forfeited nonvested accounts are used to reduce future Company contributions. In 2013 and 2012, Company contributions were reduced by \$62,500 and \$65,000, respectively, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting Each fund of the Plan is accounted for separately. The accounts of these funds are maintained, and the accompanying financial statements have been prepared, on the accrual basis of accounting.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments Investments are reported at fair value and then adjusted to contract value for guaranteed investment contracts (GICs) included in the Stable Value Fund. GICs are stated at contract value, which is equivalent to cost plus reinvested interest. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on a cash basis. Dividends are recorded on the ex-dividend date. Net investment gain includes gains and losses on investments bought and sold as well as held during the year.

The value of all funds and the interests of participants under each fund are calculated on a daily basis based on the best information available, which may include estimated values.

Notes Receivable From Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Expenses No fees are charged to participants for Plan administrative and operating expenses. Plan administrative and operating expenses are either paid directly by the Company or are offset with revenue sharing payments received by the Plan Trustee and recordkeeper from investment fund managers. Revenue sharing payments are made from the total expense charges paid by participants investing in the funds offered under the Plan. The Company monitors the payments received by the Plan service providers to ensure that they are used properly for qualifying plan administrative and operating expenses. The Company reserves the right to initiate charges to participants for Plan administrative and operating costs in the future.

A redemption fee of 1% is imposed by the Fidelity Advisors Diversified International Fund on money transferred out of the fund less than 30 days following a transfer of money into the fund. A participant's account is charged a fee of \$50.00 for each loan taken by the participant. If expedited mailing of the loan check is requested, an additional \$25.00 fee is charged to the participant's account.

Other fees primarily represent investment management advisory fees that are charged to individual participants who select this fee-based service. The fees for the aforementioned services are paid to an independent third-party advisor.

Table of Contents

Payment of Benefits Benefits are recorded when paid.

New Accounting Pronouncements In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which is codified in ASC Topic 820, Fair Value Measurement. This pronouncement changed certain fair value measurement guidance and expanded certain disclosure requirements. ASU 2011-04 was effective for the Plan year beginning January 1, 2012, and was applied accordingly.

Reclassifications Certain prior year amounts have been reclassified to conform to the current year presentation.

3. DESCRIPTION OF THE INVESTMENT FUNDS

The Plan offers various investment alternatives, maintains separate accounts for each participant, and invests contributions and earnings, as required by the Plan or as directed by each participant, in one or more of the following funds:

The Stable Value Fund is managed by Deutsche Asset & Wealth Management and invests in stable value investment contracts, issued by banks, insurance companies and other financial institutions and a diversified portfolio of fixed income instruments including U.S. Government and agency securities, mortgage-backed securities, asset-backed securities, corporate bonds, interest rate futures and options. See Note 10 for subsequent events.

The Core Fixed Income Fund invests in a mutual fund, the PIMCO Total Return Mutual Fund. The fund invests in fixed income instruments including U.S. Government and corporate bond securities, mortgage and asset-backed securities, U.S. dollar and non-U.S. dollar denominated securities of non-U.S. issuers.

The Target Retirement Income Fund is an actively managed collective trust fund by State Street Global Advisors and invests in a combination of U.S. and international equity securities, fixed income securities, alternative investments such as real estate securities index funds and commodity index funds and cash with a current target asset allocation of 27% equities, 65% fixed income and 8% alternatives. The fund's objective is to allocate its assets across multiple asset classes while seeking to achieve the appropriate level of risk for a retired participant or a participant who anticipates retiring in the near-term.

The Target Retirement 2010 Fund is an actively managed collective trust fund by State Street Global Advisors and invests in a combination of U.S. and international equity securities, fixed income securities, alternative investments such as real estate securities index funds and commodity index funds and cash with a current target asset allocation of 29% equities, 63% fixed income and 8% alternatives. The fund's objective is to allocate its assets across multiple asset classes while seeking to achieve the appropriate level of risk given a participant's anticipated retirement date in or within a few years of 2010.

The Target Retirement 2020 Fund is an actively managed collective trust fund by State Street Global Advisors and invests in a combination of U.S. and international equity securities, fixed income securities, alternative investments such as real estate securities index funds and commodity index funds and cash with a current target asset allocation of 57% equities, 38% fixed income and 5% alternatives. The fund's objective is to allocate its assets across multiple asset classes while seeking to achieve the appropriate level of risk given a participant's anticipated retirement date in or within a few years of 2020.

The Target Retirement 2030 Fund is an actively managed collective trust fund by State Street Global Advisors and invests in a combination of U.S. and international equity securities, fixed income securities, alternative investments such as real estate securities index funds and commodity index funds and cash with a current target asset allocation of 75% equities, 22% fixed income and 3% alternatives. The fund's objective is to allocate its assets across multiple asset classes while seeking to achieve the appropriate level of risk given a participant's anticipated retirement date in or within a few years of 2030.

Table of Contents

The Target Retirement 2040 Fund is an actively managed collective trust fund by State Street Global Advisors and invests in a combination of U.S. and international equity securities, fixed income securities, alternative investments such as real estate securities index funds and commodity index funds and cash with a current target asset allocation of 86% equities, 11% fixed income and 3% alternatives. The fund's objective is to allocate its assets across multiple asset classes while seeking to achieve the appropriate level of risk given a participant's anticipated retirement date in or within a few years of 2040.

The Target Retirement 2050 Fund is an actively managed collective trust fund by State Street Global Advisors and invests in a combination of U.S. and international equity securities, fixed income securities, alternative investments such as real estate securities index funds and commodity index funds and cash with a current target asset allocation of 87% equities, 10% fixed income and 3% alternatives. The fund's objective is to allocate its assets across multiple asset classes while seeking to achieve the appropriate level of risk given a participant's anticipated retirement date in or within a few years of 2050.

The Large Cap Equity Passive Core Fund invests in a collective trust fund, the SSgA S&P 500 Index Fund maintained by State Street Global Advisors, which invests in the common stocks included in the Standard & Poor's 500 Index, futures contracts and other derivative securities. The fund's objective is to closely replicate the performance of the common stocks included in the Standard & Poor's Composite Stock Price Index.

The Large Cap Equity Active Core Fund invests in a mutual fund, The Hartford Capital Appreciation HLS IA I, which invests in a concentrated portfolio of common and preferred stocks and securities convertible into common stocks. The fund's objective is to seek long-term capital growth.

The Large Cap Equity Value Fund invests in a mutual fund, the MFS Value Fund, which invests in equity securities believed to be undervalued. The fund's objective is to seek long-term capital appreciation and dividend income.

The Large Cap Equity Growth Fund invests in a mutual fund, the American Century Ultra Fund, which invests in equity and equity-like securities that are growing at, or are expected to grow at an accelerated pace relative to other securities.

The Mid Cap Equity Value Fund invests in a mutual fund, the RS Value Fund (Class Y), which invests in equity securities that are believed to be selling at attractive prices relative to their potential value.

The Mid Cap Equity Growth Fund invests in a mutual fund, the Munder Mid Cap Core Growth Y, which invests primarily in securities of companies that are believed to have above-average earnings growth potential.

The Small Cap Equity Value Fund invests in a mutual fund, the American Century Small Cap Value Institutional Fund. The fund invests primarily in a portfolio of common stocks of small capitalization companies that are believed to be undervalued versus their peer group and have the greatest potential for significant appreciation.

The Small Cap Equity Growth Fund invests in a mutual fund, the Kalmar Growth with Value Small Cap Fund, which invests primarily in a concentrated portfolio of common stocks of small market capitalization companies that while growing vigorously, are less followed by other investors and are inefficiently valued.

The International Equity Core Fund invests in a mutual fund, the Fidelity Advisors Diversified International Fund, which invests in a diversified portfolio of common stocks and other equity-like securities of companies based outside the United States.

The International Small Cap Equity Fund invests in a mutual fund, the Templeton Institutional Foreign Smaller Companies Fund. The fund invests primarily in a diversified portfolio of equity securities of smaller companies that are traded principally outside the United States.

The Berkshire Hathaway Class B Stock Fund consists of Class B shares of Berkshire Hathaway and temporary investments in the State Street Government Short Term Fund.

Table of Contents

4. INVESTMENT CONTRACTS WITH THIRD PARTIES

The Plan has an investment contract with Deutsche Asset & Wealth Management through which both traditional and synthetic GICs are held in the Plan's Stable Value Fund. Traditional GICs are unsecured, general account obligations of insurance companies. The obligation is backed by the general account assets of the insurance company that writes the investment contract. The crediting rate on this product is typically fixed for the life of the investment. A separate account GIC is similar to a traditional GIC except investments are segregated in separate accounts maintained by an insurance company for the benefit of the investors. The total return of the segregated account assets supports the separate account GIC's return. The crediting rate on this product will reset periodically but will not have an interest rate of less than 0%.

General fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the fund and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract provides book value accounting for the asset and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate of the contract is set at the start of the contract and typically resets every quarter. The initial crediting rate is established based on the market interest rates at the time the initial asset is purchased but will not be less than 0%.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration and assures that book value, benefit-responsive payments will be made for participant-directed withdrawals. The crediting rate on a constant duration synthetic GIC resets every quarter based on the book value of the contract and the market yield, market value and average duration of the underlying assets. The crediting rate aims at converging the book value of the contract and the market value of the underlying portfolio over the duration of the contract and therefore will be affected by movements in interest rates and/or changes in the market value of the underlying portfolio. The initial crediting rate is established based on the market interest rates at the time the underlying portfolio is first put together but will not be less than 0%.

Withdrawals and transfers resulting from certain events, including employer initiated events and changes in the qualification of the Plan, may limit the ability of the fund to transact at book or contract value. These events may cause liquidation of all or a portion of a contract at market value. The Plan administrator does not believe that the occurrence of any event that would limit the Plan's ability to transact at book or contract value is probable. All contracts are fully benefit-responsive.

The average yield of the fund during 2013 and 2012 based on actual earnings was 1.75% and 1.05%, respectively. The average yield of the fund during 2013 and 2012 based on the interest rate credited to participants was 2.06% and 2.00%, respectively.

The Statements of Net Assets Available for Benefits present the Plan's investments at fair value as well as the adjustment of the Stable Value Fund investments from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

See Note 10 for subsequent events.

5. INTEREST IN THE LUBRIZOL CORPORATION EMPLOYEES' PROFIT SHARING AND SAVINGS PLAN TRUST

The Plan's investments are held in a Master Trust for the investment of assets of the Plan and the AWDC. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated expenses. The Plan's interest in the net assets of the Master Trust was approximately 99.65% at December 31, 2013, and 99.83% at December 31, 2012. Investment income and expenses within the Master Trust are allocated to the individual plans based on the underlying individual participants' activity and account balances.

Table of Contents

The Plan estimates the fair value of investments in the Master Trust using available market information and generally accepted valuation methodologies. Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The inputs used to measure fair value are classified into three levels: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following is a description of the valuation methodologies used for assets of the Master Trust measured at fair value:

Class B shares of Berkshire Hathaway (Symbol BRK-B): Valued at the closing price as reported on the New York Stock Exchange and classified within Level 1 of the valuation hierarchy.

Mutual Funds: Valued at the net asset value (NAV) as reported on various stock exchanges and classified within Level 1 of the valuation hierarchy.

Common Collective Trust Funds: Valued using the NAV provided by the administrator of the trust and classified within Level 2 of the valuation hierarchy. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding.

Guaranteed Investment Contracts within the Stable Value Fund: The fair value for traditional GICs is valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The fair value for synthetic GICs is calculated by separately valuing the securities and wrap contract held by the fund. The securities within the synthetic GICs are valued based on their quoted market prices. The value of the wrap contract is valued by discounting the difference between current market level rates for wrap fees and the contracted rates being charged. Traditional and synthetic GICs are classified within Level 3 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used at December 31, 2013 and 2012. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables represent the Level 3 financial instruments held in the Stable Value Fund of the Master Trust, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

As of December 31, 2013:

Instrument	Fair Value	Principal Valuation Technique	Range of Significant	
			Unobservable Inputs	Input Values
Guaranteed Investment Contracts	\$20,317,112	Discounted Cash Flow	Discount Rate Range	0.35 - 1.93
			Payout Date	3/31/2014 - 1/24/2018
			Payout Percentage	25% - 100%
Wrapper Contracts	\$50,561	Replacement Cost	Discount Rate Range	0.25 - 1.69
			Fee Payment Dates	Quarterly over next 4 yrs.
			Current Wrapper Fees	20 bps - 25 bps
			Indicative Wrapper Fees	20 bps - 25 bps

Table of Contents

As of December 31, 2012:

		Principal		
		Valuation		
		Range of Significant		
Instrument	Fair Value	Technique	Unobservable Inputs	Input Values
Guaranteed Investment Contracts	\$16,649,353	Discounted Cash Flow	Discount Rate Range	0.56 - 1.60
			Payout Date	4/1/2013 - 11/29/2017
			Payout Percentage	25% - 100%
Wrapper Contracts	\$100,188	Replacement Cost	Discount Rate Range	0.18 - 1.30
			Fee Payment Dates	Quarterly over next 4 yrs.
			Current Wrapper Fees	20 bps - 22.5 bps
			Indicative Wrapper Fees	20 bps - 25 bps

Guaranteed Investment Contracts: The significant unobservable inputs used in the fair value measurement of the guaranteed investment contracts are the contract payout dates, contract payout percentage amounts, and certain discount rates. The payout dates and percentage amounts are fixed over the term of the contracts and typically do not change. Significant increases (decreases) in the discount rates would result in significantly lower or (higher) fair value, respectively.

Wrapper Contracts: The significant unobservable inputs used in the fair value measurement of the wrapper contracts are the length of time associated with the wrapper fee payments (fee payment dates), current wrapper fee, indicative wrapper fee, and certain discount rates. Significant increases (decreases) in the discount rates or the length of time associated with the wrapper fee payments would result in significantly lower (higher) fair value, respectively. Significant increases (decreases) in the difference between the current wrapper fee and the indicative wrapper fee would result in significantly lower (higher) fair value, respectively. Typically, the indicative wrapper fee is greater than or equal to the current wrapper fee for a given wrapper investment contract. If the indicative wrapper fee is equal to the current wrapper fee, the fair value will equal zero.

The following table sets forth by level, within the fair value hierarchy, the investments of the Master Trust as of December 31, 2013:

	Level 1	Level 2	Level 3	December 31, 2013
Berkshire Hathaway Class B stock fund	\$ 38,671,233	\$ -	\$ -	\$ 38,671,233
Mutual funds:				
Large-cap equities	91,492,073	-	-	91,492,073
Mid-cap equities	59,474,274	-	-	59,474,274
Small-cap equities	46,747,556	-	-	46,747,556

Table of Contents

Net investment gain from the Master Trust for the year ended December 31, 2012:

Net appreciation in fair value of investments:	
Mutual funds	\$ 27,448,131
Common collective trust funds	52,819,408
Berkshire Hathaway Class B stock fund	978,568
Interest and dividends	10,013,359
Total	\$ 91,259,466

6. RISKS AND UNCERTAINTIES

The Master Trust holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan, through the Master Trust, invests in Class B shares of Berkshire Hathaway within the Berkshire Hathaway Class B stock fund. During the years ended December 31, 2013 and 2012, 331,694 and 168,435 Class B shares, respectively, of Berkshire Hathaway at a cost of \$36,453,108 and \$14,039,700, respectively, were purchased within the fund. All purchased shares were acquired at the then current market value on the open market. In addition, during the years ended December 31, 2013 and 2012, the fund sold or distributed to participants 149,945 and 26,482 Class B shares, respectively, of Berkshire Hathaway and received proceeds of \$16,897,452 and \$2,284,923, respectively. The realized gain on these sales was \$1,951,164 and \$87,782 for 2013 and 2012, respectively.

Fees paid to ING National Trust, the Trustee, by the Plan were \$57,425 and \$56,750 in 2013 and 2012, respectively.

8. TAX EXEMPT STATUS

The Plan obtained its latest determination letter dated November 21, 2011, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of Section 401 of the Internal Revenue Code. The Plan has been amended since receiving this determination letter. However, the Company believes that the Plan currently is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2013, the Plan's tax years from 2010 and thereafter remain subject to examination by the IRS, as well as by other applicable taxing authorities.

9. PLAN TERMINATION

The Plan was adopted with the expectation that it will continue indefinitely. The Board of Directors of the Company may, however, terminate the Plan at any time. In addition, the Board of Directors of any subsidiary may withdraw such subsidiary from the Plan at any time. In the event of termination of the Plan, all participants immediately will become fully vested in the value of their account balances.

10. SUBSEQUENT EVENTS

Effective February 26, 2014, employees of Lubrizol Specialty Products, Inc. (formerly, Phillips Specialty Products Inc., LSPPI), a subsidiary of Berkshire Hathaway acquired from Phillips 66 pursuant to an agreement dated December 30, 2013, became participants in the Plan and were credited with prior vesting service recognized by Phillips 66.

Effective March 12, 2014, Goldman Sachs Asset Management succeeded Deutsche Asset Management as the investment manager for the Lubrizol Stable Value Fund. The change is the result of Deutsche's sale of its stable value business to Goldman Sachs.

Effective April 1, 2014, the share class for the Kalmar Growth-with-Value Small Cap Fund changed to the recently created Institutional Class (ticker symbol: KGSIX). The share class for this fund was the Investor Class (ticker symbol: KGSCX). The change to the Institutional Class allows account holders under the Plan to continue to invest in this fund at a lower expense ratio. The change to the Institutional Class did not affect the investment style, objective or strategy of the fund.

Effective April 11, 2014, a self-directed brokerage account option with TD Ameritrade was made available to Plan participants. This option allows participants to direct the investment of a portion of the balance in their Plan account in mutual fund investments other than the core investment funds.

Effective July 1, 2014, an auto escalation feature will be added to the Plan. Unless employees opt-out each year, participants whose current contribution rates are between 0% and 5% of their eligible compensation will have their pre-tax contribution rate automatically increase on an annual basis to the next higher full percent starting the first full pay period after July 1, 2014. Every July 1st after that, pre-tax contribution rates will be automatically increased one percentage point. Once participants are contributing 6%, auto escalation will stop.

Effective July 1, 2014, loan processing fees will increase from \$50 to \$75 and overnight fees for delivery of loan and distribution checks will increase from \$25 to \$50.
