comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Item 1. Reports to Stockholders.

The Report to Shareholders is attached herewith.

The Gabelli Equity Trust Inc.

Semiannual Report June 30, 2014

(Y)our Portfolio Management Team

To Our Shareholders,

For the six months ended June 30, 2014, the net asset value (NAV) total return of The Gabelli Equity Trust Inc. (the Fund) was 5.4%, compared with total returns of 7.1% and 2.7% for the Standard & Poor s (S&P) 500 Index and the Dow Jones Industrial Average, respectively. The total return for the Fund s publicly traded shares was 1.2%. The Fund s NAV per share was \$7.31, while the price of the publicly traded shares closed at \$7.53 on the New York Stock Exchange (NYSE). See below for additional performance information.

Enclosed are the schedule of investments and financial statements as of June 30, 2014.

Comparative Results

Average Annual Returns through June 30, 2014 (a) (Unaudited)

| | Year to Date | 1 Year | 5 Year | 10 Year | 20 Year | 25 Year | Since Inception (08/21/86) |
|------------------------------------|-----------------|--------|--------|---------|---------|---------|----------------------------------|
| Gabelli Equity Trust | | | | | | | |
| NAV Total Return (b) | 5.44% | 26.98% | 24.77% | 11.15% | 10.94% | 10.19% | 11.44% |
| Investment Total Return (c) | 1.18 | 23.55 | 22.53 | 11.28 | 10.52 | 10.53 | 11.21 |
| S&P 500 Index | 7.14 | 24.61 | 18.83 | 7.78 | 9.79 | 9.89 | 10.13(d) |
| Dow Jones Industrial Average | 2.66 | 15.46 | 17.76 | 7.62 | 10.49 | 10.75 | 11.01(d) |
| Nasdaq Composite Index | 6.18 | 30.98 | 20.57 | 9.20 | 9.58 | 9.71 | 9.17(d) |

- (a) Returns represent past performance and do not guarantee future results. Investment returns and the principal value of an investment will fluctuate. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. Performance returns for periods of less than one year are not annualized. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing. The Dow Jones Industrial Average is an unmanaged index of 30 large capitalization stocks. The S&P 500 and the Nasdaq Composite Indices are unmanaged indicators of stock market performance. Dividends are considered reinvested except for the Nasdaq Composite Index. You cannot invest directly in an index.
- (b) Total returns and average annual returns reflect changes in the NAV per share, reinvestment of distributions at NAV on the ex-dividend date, adjustments for rights offerings, spin-offs, and taxes paid on undistributed long term capital gains and are net of expenses. Since inception return is based on an initial NAV of \$9.34.
- (c) Total returns and average annual returns reflect changes in closing market values on the NYSE, reinvestment of distributions, and adjustments for rights offerings, spin-offs, and taxes paid on undistributed long term capital gains. Since inception return is based on an initial offering price of \$10.00.
- (d) From August 31, 1986, the date closest to the Fund s inception for which data is available.

For six months ended June 30, 2014 and the year ended 2013 based on net asset value per share, adjusted for reinvestment of distributions at net asset value on the ex-dividend date. The years ended 2012, 2011, 2010, and 2009 were based on net asset value per share, adjusted for reinvestment of distributions at prices obtained under the Fund's dividend reinvestment plan. Total return for a period of less than one year is not annualized.

Based on market value per share, adjusted for reinvestment of distributions at prices determined under the Fund's dividend reinvestment plan. Total return for a period of less than one year is not annualized.

* Based on year to date book income. Amounts are subject to change and recharacterization at year end.

(a) Calculated based upon average common shares outstanding on the record dates throughout the periods.

(b) Amount represents less than \$0.005 per share.

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

- (c) Annualized.
- (d) Since February 2008, the weekly auctions have failed. Holders that have submitted orders have not been able to sell any or all of their shares in the auctions.
- (e) Based on weekly prices.
- (f) Asset coverage is calculated by combining all series of preferred stock.

See accompanying notes to financial statements.

The Gabelli Equity Trust Inc.

Notes to Financial Statements (Unaudited)

1. Organization. The Gabelli Equity Trust Inc. (the Fund) is a non-diversified closed-end management investment company organized as a Maryland corporation on May 20, 1986 and registered under the Investment Company Act of 1940, as amended (the 1940 Act), whose primary objective is long term growth of capital with income as a secondary objective. Investment operations commenced on August 21, 1986.

The Fund will invest at least 80% of its assets in equity securities under normal market conditions (the 80% Policy). The 80% Policy may be changed without shareholder approval. The Fund will provide shareholders with notice at least sixty days prior to the implementation of any changes in the 80% Policy.

2. Significant Accounting Policies. The Fund's financial statements are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP), which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Directors (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of sixty days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than sixty days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. U.S. government obligations with maturities greater than sixty days are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and non-financial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value American Depositary Receipt securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The Gabelli Equity Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and

Level 3 significant unobservable inputs (including the Board's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities and other financial instruments by inputs used to value the Fund's investments as of June 30, 2014 is as follows:

| | Level 1 Quoted Prices | Valuation Inputs Level 2 Other Significant Observable Inputs | Level 3 Significant Unobservable Inputs | Total Market Value at 6/30/14 |
|---|--------------------------|--|--|----------------------------------|
| INVESTMENTS IN SECURITIES: | | | | |
| ASSETS (Market Value): | | | | |

| LIABILITIES (Unrealized Depreciation): | | | | |
| EQUITY CONTRACTS | | | | |
| Futures Contracts Sold (b) | \$ (82,633) | \$ | \$ | \$ (82,633) |

(a) Please refer to the Schedule of Investments (SOI) for the industry classifications of these portfolio holdings.

(b) Represents cumulative unrealized depreciation of futures contracts as reported in the SOI.

* Other financial instruments are derivatives reflected in the SOI, such as options, futures, forwards, and swaps, which may be valued at the unrealized appreciation/depreciation of the instrument.

The Fund did not have material transfers among Level 1, Level 2, and Level 3 during the six months ended June 30, 2014. The Fund's policy is to recognize transfers among Levels as of the beginning of the reporting period.

Additional Information to Evaluate Qualitative Information.

General. The Fund uses recognized industry pricing services approved by the Board and unaffiliated with the Adviser to value most of its securities, and uses broker quotes provided by market makers of securities not valued by these and other recognized pricing sources. Several different pricing feeds are received to value domestic equity securities, international equity securities, preferred equity securities, and fixed

income securities. The data within these feeds is ultimately sourced from major stock exchanges and trading systems where these

The Gabelli Equity Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

securities trade. The prices supplied by external sources are checked by obtaining quotations or actual transaction prices from market participants. If a price obtained from the pricing source is deemed unreliable, prices will be sought from another pricing service or from a broker/dealer that trades that security or similar securities.

Fair Valuation. Fair valued securities may be common and preferred equities, warrants, options, rights, and fixed income obligations. Where appropriate, Level 3 securities are those for which market quotations are not available, such as securities not traded for several days, or for which current bids are not available, or which are restricted as to transfer. Among the factors to be considered to fair value a security are recent prices of comparable securities that are publicly traded, reliable prices of securities not publicly traded, the use of valuation models, current analyst reports, valuing the income or cash flow of the issuer, or cost if the preceding factors do not apply. A significant change in the unobservable inputs could result in a lower or higher value in Level 3 securities. The circumstances of Level 3 securities are frequently monitored to determine if fair valuation measures continue to apply.

The Adviser reports quarterly to the Board the results of the application of fair valuation policies and procedures. These include back testing the prices realized in subsequent trades of these fair valued securities to fair values previously recognized.

Derivative Financial Instruments. The Fund may engage in various portfolio investment strategies by investing in a number of derivative financial instruments for the purposes of increasing the income of the Fund, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or that, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

Collateral requirements differ by type of derivative. Collateral requirements are set by the broker or exchange clearing house for exchange traded derivatives, while collateral terms are contract specific for derivatives traded over-the-counter. Securities pledged to cover obligations of the Fund under derivative contracts are noted in the Schedule of Investments. Cash collateral, if any, pledged for the same purpose will be reported separately in the Statement of Assets and Liabilities.

The Fund's policy with respect to offsetting is that, absent an event of default by the counterparty or a termination of the agreement, the master agreement does not result in an offset of reported amounts of financial assets and financial liabilities in the Statement of Assets and Liabilities across transactions between the Fund and the applicable counterparty. The enforceability of the right to offset may vary by jurisdiction.

The Gabelli Equity Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

The Fund's derivative contracts held at June 30, 2014, if any, are not accounted for as hedging instruments under GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

Swap Agreements. The Fund may enter into equity contract for difference swap transactions for the purpose of increasing the income of the Fund. The use of swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an equity contract for difference swap, a set of future cash flows is exchanged between two counterparties. One of these cash flow streams will typically be based on a reference interest rate combined with the performance of a notional value of shares of a stock. The other will be based on the performance of the shares of a stock. Depending on the general state of short term interest rates and the returns on the Fund's portfolio securities at the time an equity contract for difference swap transaction reaches its scheduled termination date, there is a risk that the Fund will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction.

During the six months ended June 30, 2014, the Fund held no investments in equity contract for difference swap agreements.

Futures Contracts. The Fund may engage in futures contracts for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuations in the value of the contract, and are included in unrealized appreciation/depreciation on futures contracts. The Fund recognizes a realized gain or loss when the contract is closed.

There are several risks in connection with the use of futures contracts as a hedging instrument. The change in value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in value of the hedged investments. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market. Open positions in futures contracts at June 30, 2014 are reflected within the Schedule of Investments.

The Fund's volume of equity futures contracts held during the six months ended June 30, 2014 had an average monthly notional amount while outstanding of approximately \$17,461,928.

At June 30, 2014, the Fund's derivative liabilities (by type) are as follows:

| | Gross Amounts Not Offset in the Statement of Assets and Liabilities | | | | |
|--------------------|--|--|---|-------------------------------|------------|
| | Gross Amounts Recognized Liabilities Presented in the Statement of Assets and Liabilities | | Gross Amounts Available for Offset in the Statement of Financial Instruments | | |
| Liabilities | | | | Cash Collateral Pledged | Net Amount |
| Futures Contracts | \$1,466 | | | | \$1,466 |

The Gabelli Equity Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

For the six months ended June 30, 2014, the effect of equity futures contracts can be found in the Statement of Operations under Net Realized and Unrealized Gain/(Loss) on Investments, Futures Contracts, and Foreign Currency, Net realized loss on futures contracts, and Net change in unrealized appreciation/depreciation on futures contracts.

Limitations on the Purchase and Sale of Futures Contracts, Certain Options, and Swaps. Subject to the guidelines of the Board, the Fund may engage in commodity interest transactions (generally, transactions in futures, certain options, certain currency transactions, and certain types of swaps) only for bona fide hedging or other permissible transactions in accordance with the rules and regulations of the Commodity Futures Trading Commission (CFTC). Pursuant to amendments by the CFTC to Rule 4.5 under the Commodity Exchange Act (CEA), the Adviser has filed a notice of exemption from registration as a commodity pool operator with respect to the Fund. The Fund and the Adviser are therefore not subject to registration or regulation as a commodity pool operator under the CEA. In addition, certain trading restrictions are now applicable to the Fund as of January 1, 2013. These trading restrictions permit the Fund to engage in commodity interest transactions that include (i) bona fide hedging transactions, as that term is defined and interpreted by the CFTC and its staff, without regard to the percentage of the Fund's assets committed to margin and options premiums and (ii) non-bona fide hedging transactions, provided that the Fund does not enter into such non-bona fide hedging transactions if, immediately thereafter, either (a) the sum of the amount of initial margin deposits on the Fund's existing futures positions or swaps positions and option or swaption premiums would exceed 5% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions, or (b) the aggregate net notional value of the Fund's commodity interest transactions would not exceed 100% of the market value of the Fund's liquidating value, after taking into account unrealized profits and unrealized losses on any such transactions. Therefore, in order to claim the Rule 4.5 exemption, the Fund is limited in its ability to invest in commodity futures, options, and certain types of swaps (including securities futures, broad based stock index futures, and financial futures contracts). As a result, in the future, the Fund will be more limited in its ability to use these instruments than in the past, and these limitations may have a negative impact on the ability of the Adviser to manage the Fund, and on the Fund's performance.

Investments in Other Investment Companies. The Fund may invest, from time to time, in shares of other investment companies (or entities that would be considered investment companies but are excluded from the definition pursuant to certain exceptions under the 1940 Act) (the Acquired Funds) in accordance with the 1940 Act and related rules. Shareholders in the Fund would bear the pro rata portion of the periodic expenses of the Acquired Funds in addition to the Fund's expenses. For the six months ended June 30, 2014, the Fund's pro rata portion of the periodic expenses charged by the Acquired Funds was less than 1 basis point.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade

The Gabelli Equity Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Restricted Securities. The Fund may invest up to 10% of its net assets in securities for which the markets are restricted. Restricted securities include securities whose disposition is subject to substantial legal or contractual restrictions. The sale of restricted securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than does the sale of securities eligible for trading on national securities exchanges or in the over-the-counter markets. Restricted securities may sell at a price lower than similar securities that are not subject to restrictions on resale. Securities freely saleable among qualified institutional investors under special rules adopted by the SEC may be treated as liquid if they satisfy liquidity standards established by the Board. The continued liquidity of such securities is not as well assured as that of publicly traded securities, and accordingly the Board will monitor their liquidity. For the restricted securities the Fund held as of June 30, 2014, refer to the Schedule of Investments.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain/(loss) on investments determined by using the identified cost method. Interest income (including amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

Custodian Fee Credits and Interest Expense. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as Custodian fee credits. When cash balances are overdrawn, the Fund is charged an overdraft fee equal to 110% of the 90 day Treasury Bill rate on outstanding balances. This amount, if any, would be included in the Statement of Operations.

Distributions to Shareholders. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities and

The Gabelli Equity Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

Under the Fund's current common share distribution policy, the Fund declares and pays quarterly distributions from net investment income, capital gains, and paid-in capital. The actual source of the distribution is determined after the end of the year. Pursuant to this policy, distributions during the year may be made in excess of required distributions. To the extent such distributions are made from current earnings and profits, they are considered ordinary income or long term capital gains. The Fund's current distribution policy may restrict the Fund's ability to pass through to shareholders all of its net realized long term capital gains as a Capital Gain Dividend and may cause such gains to be treated as ordinary income. Distributions sourced from paid-in capital should not be considered as dividend yield or the total return from an investment in the Fund. The Board will continue to monitor the Fund's distribution level, taking into consideration the Fund's NAV and the financial market environment. The Fund's distribution policy is subject to modification by the Board at any time.

Distributions to shareholders of the Fund's Series C Auction Rate Cumulative Preferred Stock, 5.875% Series D Cumulative Preferred Stock, Series E Auction Rate Cumulative Preferred Stock, Series G Cumulative Preferred Stock, and 5.00% Series H Cumulative Preferred Stock (Preferred Stock) are recorded on a daily basis and are determined as described in Note 5.

The tax character of distributions paid during the year ended December 31, 2013 was as follows:

| | Common | Preferred |
|---------------------------------|----------------|---------------|
| Distributions paid from: | | |
| Ordinary income. | \$ 21,142,024 | \$ 2,306,290 |
| Net long term capital gains | 95,940,599 | 10,465,739 |
| Total distributions paid | \$ 117,082,623 | \$ 12,772,029 |

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

As of December 31, 2013, the components of accumulated earnings/losses on a tax basis were as follows:

| | |
|--|-----------------------|
| Net unrealized appreciation on investments, futures contracts, and foreign currency translations | \$ 820,059,398 |
| Other temporary differences* | 1,432,214 |
| Total. | \$ 821,491,612 |

* Other temporary differences were primarily due to mark-to-market adjustments on futures contracts.

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

Under the Regulated Investment Company Modernization Act of 2010, the Fund is permitted to carry forward for an unlimited period capital losses incurred. As a result of the rule, post enactment capital losses that are carried forward will retain their character as either short term or long term capital losses.

The Gabelli Equity Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

The following summarizes the tax cost of investments and the related net unrealized appreciation at June 30, 2014:

| | Cost | Gross Unrealized Appreciation | Gross Unrealized Depreciation | Net Unrealized Appreciation |
|-------------|----------------|-------------------------------------|-------------------------------------|--------------------------------|
| Investments | \$ 849,640,996 | \$ 915,525,930 | \$ (26,829,352) | \$ 888,696,578 |

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2014, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2014, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. The Fund's federal and state tax returns for the prior three fiscal years remain open, subject to examination. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Agreements and Transactions with Affiliates. The Fund has entered into an investment advisory agreement (the *Advisory Agreement*) with the Adviser which provides that the Fund will pay the Adviser a fee, computed weekly and paid monthly, equal on an annual basis to 1.00% of the value of the Fund's average weekly net assets including the liquidation value of preferred stock. In accordance with the *Advisory Agreement*, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

The Adviser has agreed to reduce the management fee on the incremental assets attributable to the Series C, Series D, and Series E Preferred Stock (*C, D, and E Preferred Stock*) if the total return of the NAV of the common shares of the Fund, including distributions and advisory fee subject to reduction, does not exceed the stated dividend rate or corresponding swap rate of the *C, D, and E Preferred Stock* for the year. The Fund's total return on the NAV of the common shares is monitored on a monthly basis to assess whether the total return on the NAV of the common shares exceeds the stated dividend rate of the *C, D, and E Preferred Stock* for the period. For the six months ended June 30, 2014, the Fund's total return on the NAV of the common shares exceeded the dividend rate of the outstanding *C* and *E Preferred Stock*, but not on the outstanding *D Preferred Stock*. Thus, advisory fees were accrued on the liquidation value of the *C* and *E Preferred Stock*, and advisory fees on the liquidation value of the *D Preferred Stock* were reduced by \$293,054.

During the six months ended June 30, 2014, the Fund paid brokerage commissions on security trades of \$19,977 to G.research, Inc., an affiliate of the Adviser.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the *Advisory Agreement* between the Fund and the Adviser. During the six months ended June 30, 2014, the Fund paid or accrued \$22,500 to the Adviser in connection with the cost of computing the Fund's NAV.

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive based variable compensation from affiliates of the Adviser). For the six months ended June 30, 2014, the Fund paid or accrued \$79,113 in payroll expenses in the Statement of Operations.

The Gabelli Equity Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

There was a reduction in the advisory fee paid to the Adviser relating to certain portfolio holdings, i.e., unsupervised assets, of the Fund with respect to which the Adviser transferred dispositive and voting control to the Fund's Proxy Voting Committee. During the six months ended June 30, 2014, the Fund's Proxy Voting Committee exercised control and discretion over all rights to vote or consent with respect to such securities, and the Adviser reduced its fee with respect to such securities by \$696.

The Fund pays each Director who is not considered an affiliated person an annual retainer of \$15,000 plus \$2,000 for each Board meeting attended. Each Director is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended. The Audit Committee Chairman receives an annual fee of \$3,000, the Proxy Voting Committee Chairman receives an annual fee of \$1,500, and the Nominating Committee Chairman and the Lead Director each receive an annual fee of \$2,000. A Director may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Directors who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities during the six months ended June 30, 2014, other than short term securities and U.S. Government obligations, aggregated \$35,330,501 and \$48,567,489, respectively.

5. Capital. The Fund's Articles of Incorporation, as amended, permit the Fund to issue 246,000,000 shares of common stock (par value \$0.001) and authorizes the Board to increase its authorized shares from time to time. The Board has authorized the repurchase of its shares on the open market when the shares are trading on the NYSE at a discount of 10% or more (or such other percentage as the Board may determine from time to time) from the NAV of the shares. During the six months ended June 30, 2014 and the year ended December 31, 2013, the Fund did not repurchase any shares of its common stock in the open market.

Transactions in common shares were as follows:

| | Six Months Ended June 30, 2014 (Unaudited) | | Year Ended December 31, 2013 | |
|---|--|--------------|---------------------------------|---------------|
| | Shares | Amount | Shares | Amount |
| Net increase from common shares issued upon reinvestment of distributions | 1,235,151 | \$ 9,042,602 | 2,888,148 | \$ 18,998,599 |

A shelf registration authorizing the offering of an additional \$500 million of common or preferred shares was declared effective by the SEC on May 22, 2013.

The Fund's Articles of Incorporation, as amended, authorize the issuance of up to 18,000,000 shares of \$0.001 par value Preferred Stock. The Preferred Stock is senior to the common stock and results in the financial leveraging of the common stock. Such leveraging tends to magnify both the risks and opportunities to common shareholders. Dividends on shares of the Preferred Stock are cumulative. The Fund is required by the 1940 Act and by the Articles Supplementary to meet certain asset coverage tests with respect to the Preferred Stock. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Series C, Series D, Series E, Series G, and Series H Preferred Stock at redemption prices of \$25,000, \$25, \$25,000, \$25, and \$25, respectively, per share plus an amount equal to the accumulated and unpaid dividends whether or not declared on such shares in order to meet these requirements. Additionally,

The Gabelli Equity Trust Inc.**Notes to Financial Statements (Unaudited) (Continued)**

failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to common shareholders and could lead to sales of portfolio securities at inopportune times. The income received on the Fund's assets may vary in a manner unrelated to the fixed and variable rates, which could have either a beneficial or detrimental impact on net investment income and gains available to common shareholders.

For Series C and Series E Preferred Stocks, the dividend rates, as set by the auction process that is generally held every seven days, are expected to vary with short term interest rates. Since February 2008, the number of shares of Series C and Series E Preferred Stock subject to bid orders by potential holders has been less than the number of shares of Series C and Series E Preferred Stock subject to sell orders. Holders that have submitted sell orders have not been able to sell any or all of the Series C and Series E Preferred Stock for which they have submitted sell orders. Therefore the weekly auctions have failed, and the dividend rate has been the maximum rate. For Series C and Series E Preferred Stock, the maximum auction rate is 175% of the AA Financial Composite Commercial Paper Rate. Existing Series C and Series E shareholders may submit an order to hold, bid, or sell such shares on each auction date, or trade their shares in the secondary market.

The Fund may redeem at anytime, in whole or in part, the Series C, Series D, and Series E Preferred Stock at their respective redemption prices. In addition, the Board has authorized the repurchase of Series D Preferred Stock in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2014 and the year ended December 31, 2013, the Fund did not repurchase or redeem any shares of Series C, Series D, and Series E Preferred Stock.

Commencing July 31, 2017 and September 27, 2017, and anytimes thereafter, the Fund at its option, may redeem the Series G and Series H Preferred Stock, respectively, in whole or in part at the redemption price. In addition, the Board has authorized the repurchase of the Series G and Series H Preferred Stock in the open market at prices less than the \$25 liquidation value per share. During the six months ended June 30, 2014, the Fund repurchased 500 shares and 3,300 shares of the Series G and Series H Preferred Stock, respectively.

The following table summarizes Cumulative Preferred Stock information:

| Series | Issue Date | Issued/ Authorized | Number of Shares Outstanding at 06/30/2014 | Net Proceeds | 2014 Dividend Rate Range | Dividend Rate at 06/30/2014 | Accrued Dividends at 06/30/2014 |
|----------------|--------------------|-----------------------|--|----------------|-----------------------------|-----------------------------------|---------------------------------------|
| C Auction Rate | June 27, 2002 | 5,200 | 2,880 | \$ 128,246,557 | 0.07% to 0.14% | 0.123% | \$ 1,476 |
| D 5.875% | October 7, 2003 | 3,000,000 | 2,363,860 | \$ 72,375,842 | Fixed Rate | 5.875% | \$ 48,221 |
| E Auction Rate | October 7, 2003 | 2,000 | 1,120 | \$ 49,350,009 | 0.07% to 0.123% | 0.123% | \$ 383 |
| G 5.000% | August 1, 2012 | 2,816,524 | 2,814,424 | \$ 69,812,243 | Fixed Rate | 5.000% | \$ 48,862 |
| H 5.000% | September 28, 2012 | 4,200,000 | 4,186,973 | \$ 101,167,500 | Fixed Rate | 5.000% | \$ 72,691 |

The holders of Preferred Stock generally are entitled to one vote per share held on each matter submitted to a vote of shareholders of the Fund and will vote together with holders of common stock as a single class. The holders of Preferred Stock voting together as a single class also have the right currently to elect two Directors and under certain circumstances are entitled to elect a majority of the Board of Directors. In addition, the affirmative vote of a majority of the votes entitled to be cast by holders of all outstanding shares of the preferred stock, voting as a single class, will be required to approve any plan of reorganization adversely affecting the preferred stock, and the approval of two-thirds of each class, voting separately, of the Fund's outstanding voting stock must approve the conversion of the Fund from a closed-end to an open-end investment company. The approval of a majority (as defined in the 1940 Act) of the outstanding preferred stock and a majority (as defined in the

The Gabelli Equity Trust Inc.

Notes to Financial Statements (Unaudited) (Continued)

1940 Act) of the Fund's outstanding voting securities are required to approve certain other actions, including changes in the Fund's investment objectives or fundamental investment policies.

6. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

7. Other Matters. On April 24, 2008, the Adviser entered into a settlement with the SEC to resolve an inquiry regarding prior frequent trading in shares of the GAMCO Global Growth Fund (the Global Growth Fund) by one investor who was banned from the Global Growth Fund in August 2002. Under the terms of the settlement, the Adviser, without admitting or denying the SEC's findings and allegations, paid \$16 million (which included a \$5 million civil monetary penalty). On the same day, the SEC filed a civil action in the U.S. District Court for the Southern District of New York (the Court) against the Executive Vice President and Chief Operating Officer (the Officer) of the Adviser, alleging violations of certain federal securities laws arising from the same matter. On May 2, 2014, the SEC filed with the Court a stipulation of voluntary dismissal of the civil action against the Officer, and on June 19, 2014, the Court approved the stipulation and entered an order of dismissal of the action against the Officer. The settlement by the Adviser and the disposition of the action against the Officer did not have a material adverse impact on the Adviser or its ability to fulfill its obligations under the Advisory Agreement.

8. Subsequent Events. Management has evaluated the impact on the Fund of all subsequent events occurring through the date the financial statements were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.

Shareholder Meeting May 12, 2014 Final Results

The Fund's Annual Meeting of Shareholders was held on May 12, 2014 at the Greenwich Library in Greenwich, Connecticut. At that meeting, common and preferred shareholders, voting together as a single class, elected Frank J. Fahrenkopf, Jr. and Salvatore J. Zizza as Directors of the Fund. A total of 146,956,378 votes and 147,083,902 votes were cast in favor of these Directors, and a total of 4,491,225 votes and 4,363,701 votes were withheld for these Directors, respectively. In addition, preferred shareholders, voting as a separate class, elected Anthony J. Colavita as a Director of the Fund. A total of 7,863,888 votes were cast in favor of this Director and a total of 498,044 votes were withheld for this Director.

Mario J. Gabelli, CFA, James P. Conn, Arthur V. Ferrara, William F. Heitmann, and Anthony R. Pustorino continue to serve in their capacities as Directors of the Fund.

We thank you for your participation and appreciate your continued support.

Certifications

The Fund's Chief Executive Officer has certified to the New York Stock Exchange (NYSE) that, as of June 11, 2014, he was not aware of any violation by the Fund of applicable NYSE corporate governance listing standards. The Fund reports to the SEC on Form N-CSR which contains certifications by the Fund's principal executive officer and principal financial officer that relate to the Fund's disclosure in such reports and that are required by Rule 30a-2(a) under the 1940 Act.

The Gabelli Equity Trust Inc.

Board Consideration and Re-Approval of Investment Advisory Agreements (Unaudited)

Section 15(c) of the Investment Company Act of 1940, as amended (the 1940 Act), contemplates that the Board of Directors (the Board) of The Gabelli Equity Trust Inc. (the Fund), including a majority of the Directors who have no direct or indirect interest in the investment advisory agreement and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Board Members), are required to annually review and re-approve the terms of the Fund's existing investment advisory agreement and approve any newly proposed terms therein. In this regard, the Board reviewed and re-approved, during the most recent six month period covered by this report, the Investment Advisory Agreement (the Advisory Agreement) with Gabelli Funds, LLC (the Adviser) for the Fund.

More specifically, at a meeting held on May 13, 2014, the Board, including the Independent Board Members, considered the factors and reached the conclusions described below relating to the selection of the Adviser and the re-approval of the Advisory Agreement.

Nature, Extent, and Quality of Services.

The Independent Board Members considered the nature, quality, and extent of administrative and shareholder services performed by the Adviser, including portfolio management, supervision of Fund operations and compliance and regulatory filings and disclosures to shareholders, general oversight of other service providers, review of Fund legal issues, assisting the Independent Board Members in their capacity as directors, and other services. The Independent Board Members concluded that the services are extensive in nature and that the Adviser consistently delivered a high level of service.

Investment Performance of the Fund and Adviser.

The Independent Board Members considered short term and long term investment performance for the Fund over various periods of time as compared with relevant equity indices and the performance of other core, growth, and value equity closed-end funds included in the Lipper peer group. The Independent Board Members noted that the Fund's total return performance was above the peer average and peer median for the one, three, five, and ten year periods ended March 31, 2014. The Independent Board Members concluded that the Adviser was delivering satisfactory performance results consistent with the investment strategies being pursued by the Fund.

Costs of Services and Profits Realized by the Adviser.

(a) Costs of Services to Fund: Fees and Expenses. The Independent Board Members considered the Fund's management fee rate and expense ratio relative to industry averages for the Fund's Lipper peer group category and the advisory fees charged by the Adviser and its affiliates to other fund and non-fund clients. The Independent Board Members noted that the mix of services under the Advisory Agreement is much more extensive than those under the advisory agreements for non-fund clients. The Independent Board Members noted that the other non-management expenses paid by the Fund are below the average and median for its peer group, but that the total expenses were above the average and median for peer funds and that management and gross advisory fees were at the high end of the peer group range. They took note of the fact that the use of leverage impacts comparative expenses to peer funds, not all of which utilize leverage. The Independent Board Members were aware that the Adviser waives its fee on the incremental liquidation value of the Fund's Series C, Series D, and Series E preferred stock if the total return on net asset value of the common stock does not exceed the stated dividend rate or net swap expense for the Series C, Series D, and Series E preferred stock, as applicable, for the year after consideration of the reinvestment of distributions and the management fees attributable to the incremental liquidation value of the Series C, Series D, and Series E preferred stock, and that the comparative total expense ratio and other expense information reflected these waivers, if applicable. The Independent

The Gabelli Equity Trust Inc.

Board Consideration and Re-Approval of Investment Advisory Agreements (Unaudited) (Continued)

Board Members concluded that the fee is acceptable based upon the qualifications, experience, reputation, and performance of the Adviser.

(b) Profitability and Costs of Services to Adviser. The Independent Board Members considered the Adviser's overall profitability and costs, and pro forma estimates of the Adviser's profitability and costs attributable to the Fund as part of the Gabelli/GAMCO funds complex and assuming the Fund constituted the Adviser's only investment company under its management. The Independent Board Members also considered whether the amount of profit is a fair entrepreneurial profit for the management of the Fund and noted that the Adviser has substantially increased its resources devoted to Fund matters in response to regulatory requirements and new or enhanced Fund policies and procedures. The Independent Board Members concluded that the absolute fee was reasonable despite the absence of breakpoints, particularly in light of the above average performance over time.

Extent of Economies of Scale as Fund Grows.

The Independent Board Members considered whether there have been economies of scale with respect to the management of the Fund and whether the Fund has appropriately benefited from any economies of scale. The Independent Board Members noted that economies of scale may develop for certain funds as their assets increase and their fund level expenses decline as a percentage of assets, but that fund level economies of scale may not necessarily result in Adviser level economies of scale.

Whether Fee Levels Reflect Economies of Scale.

The Independent Board Members also considered whether the management fee rate is reasonable in relation to the asset size of the Fund and any economies of scale that may exist, and concluded that the Fund's current fee schedule (without breakpoints) was considered reasonable. Nonetheless, the Independent Board Members determined that Mr. Conn would reach out to the Adviser to discuss breakpoints for the Fund.

Other Relevant Considerations.

(a) Adviser Personnel and Methods. The Independent Board Members considered the size, education, and experience of the Adviser's staff, the Adviser's fundamental research capabilities, and the Adviser's approach to recruiting, training, and retaining portfolio managers and other research and management personnel, and concluded that, in each of these areas, the Adviser was structured in such a way to support the high level of services being provided to the Fund.

(b) Other Benefits to the Adviser. The Independent Board Members also considered the character and amount of other incidental benefits received by the Adviser and its affiliates from its association with the Fund. The Independent Board Members considered the brokerage commissions paid to an affiliate of the Adviser. The Independent Board Members concluded that potential fall-out benefits that the Adviser and its affiliates may receive, such as affiliated brokerage commissions, greater name recognition, or increased ability to obtain research services, appear to be reasonable, and may in some cases benefit the Fund.

Conclusions.

In considering the Advisory Agreement, the Independent Board Members did not identify any factor as all important or all controlling, and instead considered these factors collectively in light of the Fund's surrounding circumstances. Based on this review, it was the judgment of the Independent Board Members that shareholders had received satisfactory absolute and relative performance over time consistent with the investment strategies being pursued by the Fund at reasonable fees and, therefore, re-approval of the Agreement was in the best interests of the

The Gabelli Equity Trust Inc.

Board Consideration and Re-Approval of Investment Advisory Agreements (Unaudited) (Continued)

Fund and its shareholders. As a part of its decision making process, the Independent Board Members noted that the Adviser has managed the Fund since its inception, and the Independent Board Members believe that a long term relationship with a capable, conscientious adviser is in the best interests of the Fund. The Independent Board Members considered, generally, that shareholders invested in the Fund knowing that the Adviser managed the Fund and knowing its investment management fee schedule. As such, the Independent Board Members considered, in particular, whether the Adviser managed the Fund in accordance with its investment objectives and policies as disclosed to shareholders. The Independent Board Members concluded that the Fund was managed by the Adviser consistent with its investment objectives and policies.

**AUTOMATIC DIVIDEND REINVESTMENT
AND VOLUNTARY CASH PURCHASE PLANS**

Enrollment in the Plan

It is the policy of The Gabelli Equity Trust Inc. (the Fund) to automatically reinvest dividends payable to common shareholders. As a registered shareholder, you automatically become a participant in the Fund's Automatic Dividend Reinvestment Plan (the Plan). The Plan authorizes the Fund to credit shares of common stock to participants upon an income dividend or a capital gains distribution regardless of whether the shares are trading at a discount or a premium to net asset value. All distributions to shareholders whose shares are registered in their own names will be automatically reinvested pursuant to the Plan in additional shares of the Fund. Plan participants may send their stock certificates to Computershare Trust Company, N.A. (Computershare) to be held in their dividend reinvestment account. Registered shareholders wishing to receive their distribution in cash must submit this request in writing to:

The Gabelli Equity Trust Inc.

c/o Computershare

P.O. Box 30170

College Station, TX 77842-3170

Shareholders requesting this cash election must include the shareholder's name and address as they appear on the share certificate. Shareholders with additional questions regarding the Plan or requesting a copy of the terms of the Plan may contact Computershare at (800) 336-6983.

If your shares are held in the name of a broker, bank, or nominee, you should contact such institution. If such institution is not participating in the Plan, your account will be credited with a cash dividend. In order to participate in the Plan through such institution, it may be necessary for you to have your shares taken out of street name and re-registered in your own name. Once registered in your own name, your dividends will be automatically reinvested. Certain brokers participate in the Plan. Shareholders holding shares in street name at participating institutions will have dividends automatically reinvested. Shareholders wishing a cash dividend at such institution must contact their broker to make this change.

The number of shares of common stock distributed to participants in the Plan in lieu of cash dividends is determined in the following manner. Under the Plan, whenever the market price of the Fund's common stock is equal to or exceeds net asset value at the time shares are valued for purposes of determining the number of shares equivalent to the cash dividends or capital gains distribution, participants are issued shares of common stock valued at the greater of (i) the net asset value as most recently determined or (ii) 95% of the then current market price of the Fund's common stock. The valuation date is the dividend or distribution payment date or, if that date is not a New York Stock Exchange (NYSE) trading day, the next trading day. If the net asset value of the common stock at the time of valuation exceeds the market price of the common stock, participants will receive shares from the Fund valued at market price. If the Fund should declare a dividend or capital gains distribution payable only in cash, Computershare will buy common stock in the open market, or on the NYSE or elsewhere, for the participants' accounts, except that Computershare will endeavor to terminate purchases in the open market and cause the Fund to issue shares at net asset value if, following the commencement of such purchases, the market value of the common stock exceeds the then current net asset value.

The automatic reinvestment of dividends and capital gains distributions will not relieve participants of any income tax which may be payable on such distributions. A participant in the Plan will be treated for federal income tax purposes as having received, on a dividend payment date, a dividend or distribution in an amount equal to the cash the participant could have received instead of shares.

Voluntary Cash Purchase Plan

The Voluntary Cash Purchase Plan is yet another vehicle for our shareholders to increase their investment in the Fund. In order to participate in the Voluntary Cash Purchase Plan, shareholders must have their shares registered in their own name.

Participants in the Voluntary Cash Purchase Plan have the option of making additional cash payments to Computershare for investments in the Fund's shares at the then current market price. Shareholders may send an amount from \$250 to \$10,000. Computershare will use these funds to purchase shares in the open market on or about the 1st and 15th of each month. Computershare will charge each shareholder who participates \$0.75, plus a pro rata share of the brokerage commissions. Brokerage charges for such purchases are expected to be less than the usual brokerage charge for such transactions. It is suggested that any voluntary cash payments be sent to Computershare, P.O. Box 43010, Providence, RI 02940-3010 such that Computershare receives such payments approximately 10 days before the 1st and 15th of the month. Funds not received

Edgar Filing: GABELLI EQUITY TRUST INC - Form N-CSRS

at least five days before the investment date shall be held for investment until the next purchase date. A payment may be withdrawn without charge if notice is received by Computershare at least 48 hours before such payment is to be invested.

Shareholders wishing to liquidate shares held at Computershare must do so in writing or by telephone. Please submit your request to the above mentioned address or telephone number. Include in your request your name, address, and account number. The cost to liquidate shares is \$2.50 per transaction as well as the brokerage commission incurred. Brokerage charges are expected to be less than the usual brokerage charge for such transactions.

For more information regarding the Dividend Reinvestment Plan and Voluntary Cash Purchase Plan, brochures are available by calling (914) 921-5070 or by writing directly to the Fund.

The Fund reserves the right to amend or terminate the Plan as applied to any voluntary cash payments made and any dividend or distribution paid subsequent to written notice of the change sent to the members of the Plan at least 90 days before the record date for such dividend or distribution. The Plan also may be amended or terminated by Computershare on at least 90 days written notice to participants in the Plan.
