Item 2.02 Results of Operations and Financial Condition

The Timken Company (the Company) has implemented a change to its management structure and now operates under two segments: Mobile Industries and Process Industries. Beginning with the fourth quarter of 2014, the Company will report its financial results utilizing these two segments. The results for the former Aerospace segment are primarily included in the results for the Mobile Industries segment.

Attached as Exhibit 99.1 to this Current Report on Form 8-K is the 2014 (quarterly and year-to-date through September 30, 2014), 2013 (quarterly and annual) and 2012 (annual) financial information, by segment, as if the Company had reported its financial results for the respective period utilizing the two segments and reporting only the results for continuing operations (excluding results from the former steel business that was spun off as TimkenSteel Corporation on June 30, 2014 (the Spinoff)). In addition, the Company also made adjustments to the allocation of certain selling, general and administrative expenses and certain foreign currency exchange gains or losses for all prior periods presented to better reflect the Company's operating model and new cost structure following the Spinoff and the elimination of the former Aerospace segment. The Company believes that this material may be informative to investors.
