Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of

the Baxter International Inc. and Subsidiaries Incentive Investment Plan

Deerfield, Illinois

We have audited the accompanying statements of net assets available for benefits of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

The supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Baxter International Inc. and Subsidiaries Incentive Investment Plan s financial statements. The supplemental schedule is the responsibility of the Plan s management. Our audit procedures included determining whether the information presented in the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated in all material respects in relation to the financial statements as a whole.

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. General Description of the Plan

The following description of the Baxter International Inc. and Subsidiaries Incentive Investment Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document and summary plan description for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is a defined contribution plan the predecessor of which originally became effective on January 1, 1960. The Plan was created for the purpose of providing retirement benefits to United States employees of Baxter International Inc. (the Sponsor or the Company) and its subsidiaries, and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the United States Internal Revenue Code. Plan participants may authorize the Company to make payroll deductions under the Plan ranging from 1% to 50% of their pre-tax monthly compensation limited to a maximum of \$17,500 a year in both 2014 and 2013. Participants who have attained the age of 50 by the end of the year may contribute up to an additional \$5,500 per year in catch-up contributions. Newly hired employees are deemed to have elected to contribute 3% of compensation (increased by 1% per year to a total of 6%) unless they make a contrary election. The Company matches a participant's savings contributions on a dollar for dollar basis up to 3.0% of the participant's compensation, and matches any contributions between 3% and 4% of compensation at the rate of 50 cents for each dollar of a participant's pre-tax contribution, so that the maximum matching contribution for participant who contribute at least 4% of their compensation is 3.5% of compensation. The Company also contributes an additional non-matching 3% of compensation for employees that are not eligible to participate in the Company's U.S. qualified defined benefit pension plan, which includes all new employees hired on or after January 1, 2007, and employees who had less than five years of service on January 1, 2007 and who elected to cease earning additional service in the pension plan and participate in the higher level of Company contributions in the Plan.

Participants are immediately vested in the elective contributions and matching contribution plus actual earnings thereon. The additional non-matching contributions become fully vested after three years of service. Participants are fully vested in the Company's non-matching contributions account, regardless of years of service with the Company, upon attaining age 65, upon becoming disabled in accordance with the provisions of the Plan or upon dying while employed by the Company. Forfeitures of nonvested accounts are used to reduce future employer contributions.

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the last day of the month prior to loan request, plus one percent.

Participants or their beneficiaries may elect lump-sum benefit payments, or benefits may be paid in installments. Shares of Baxter common stock may also be distributed in kind at the participant's election. Subject to certain provisions specified in the Plan agreement, employed participants may withdraw their pre-tax contributions, matching contributions made prior to 2008, vested non-matching contributions and related earnings in cases of financial hardship and in certain other circumstances. In the case of a participant termination by reason of death or disability, the entire vested amount is paid to the person or persons legally entitled thereto.

Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings, and is charged with his or her withdrawals and an allocation of Plan-related expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The net income of the Plan is posted to the participant's accounts on a daily basis. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

Upon enrollment in the Plan, a participant may direct contributions into any of 20 investment options: Stable Income Fund, Baxter Common Stock Fund, Composite Fund, General Equity Fund, State Street Global Advisors S&P 500 Flagship Fund (SSgA S&P 500 Fund), State Street Global Advisors International EAFE Equity Index Fund (SSgA EAFE Equity Fund), State Street Global Advisors Small Cap Fund (SSgA Small Cap Fund), Northern Trust Domestic Mid Cap Fund, State Street Global Advisors Emerging Markets Fund (SSgA Emerging Markets Fund), ten different Target Date Retirement Funds and the Self-Managed Fund. However, non-matching contributions may not be invested in the Baxter Common Stock Fund. In addition, certain participants may maintain shares received in connection with Baxter's 1996 spin-off of Allegiance Corporation (Allegiance), which were subsequently converted into common shares of Cardinal Health Inc. (Cardinal) upon Cardinal's acquisition of Allegiance in 1999. These shares are maintained in the Cardinal Health Common Stock Fund. Additionally, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its cardiovascular business. Participants are not able to make contributions or transfer existing account balances to the Cardinal Health Common Stock Fund or the Edwards Lifesciences Common Stock Fund, but may make transfers out of these funds at any time. Starting in 2013, participants are no longer able to make contributions to the Composite Fund and General Equity Fund, but may make transfers out of these funds at any time.

In March 2014, Baxter announced plans to create two separate, independent global healthcare companies—one focused on lifesaving medical products and the other on developing and marketing innovative biopharmaceuticals. The transition is intended to take the form of a tax-free distribution to Baxter shareholders of more than 80% of the publicly traded stock in the new biopharmaceuticals company (the spin). The transaction is expected to be completed by mid-year 2015, subject to market, regulatory and certain other conditions, including final approval by the Baxter Board of Directors, receipt of a favorable opinion and/or rulings with respect to the tax-free nature of the transaction in the United States, and the effectiveness of the Form 10 registration statement filed with the United States Securities and Exchange Commission.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred.

Valuation of Investments and Collateral

The fair value of Plan investments and collateral is determined as follows:

Cash and cash equivalents	These largely consist of a short-term investment fund and a money market fund, the fair value of which is based on the net asset value. The investment objectives for these funds are to provide safety for principal, daily liquidity and a competitive yield by investing in high quality instruments.
Common stock	Value based on closing prices on the valuation date in an active market on national securities exchanges.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

U.S. government and government agency issues	Value based on reputable pricing vendors that typically use pricing matrices or models.
Corporate and other obligations	Value based on reputable pricing vendors that typically use pricing matrices or models.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

Commingled funds	Value based on net asset values reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. The investment objectives of certain funds are to track the performances of the S&P 500, Europe, Australasia and the Far East (EAFE), or Russell 2000 indexes. In addition, these funds include target date retirement funds, whose objective is to provide investors, who have a specific date in mind for retirement with a portfolio of investments. The underlying investments for all funds vary, with some holding diversified portfolios of domestic stocks, government agency and corporate bonds, and others holding collective investment funds. Each fund provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.
Registered investment companies	Value based upon the closing price from a national security exchange on the valuation date.
Synthetic guaranteed investment contracts	Value based on the fair value of the underlying securities in the contract on the valuation date plus the fair value of the wrapper contracts, which is calculated using a replacement cost approach. The underlying securities are valued based upon the methodologies described above. In addition, this investment includes an individual separate account with Metropolitan Life Insurance Company (MetLife). The value of this separate account is based upon the unit value provided by MetLife as of the Plan's financial statement date plus the fair value of the wrapper contracts, which is calculated using a replacement cost approach. The underlying securities primarily of the account, managed by a sub-advisor of the insurance company, consist of fixed income securities. See below for more information.
Collateral held on loaned securities	Value based upon the net asset value per unit of the short-term investment funds where the collateral is invested. Refer to Note 7 for more information on the securities lending program.
Collateral to be paid on loaned securities	Value based on the fair value of the underlying securities loaned on the valuation date, plus an incremental margin.

Income Recognition

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized depreciation or appreciation of investments. Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest is earned on an accrual basis.

The financial statements reflect the net depreciation or appreciation in the fair value of the Plan's investments. This net depreciation or appreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts (GICs) as part of the Stable Income Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive contracts issued by Transamerica, Prudential and MetLife. During 2014, the GIC with Bank of America was terminated and the Plan entered into a new GIC with Prudential. During 2013, certain assets underlying the synthetic GICs were transferred to an individual separate account with MetLife. The portfolio of assets underlying the synthetic GICs primarily includes cash and cash equivalents, U.S. government and government agency issues, and corporate and other obligations.

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair values of the wrapper contracts were a loss of \$449 thousand and a loss of \$129 thousand at December 31, 2014 and 2013, respectively.

While Plan investments are presented at fair value in the Statements of Net Assets Available for Benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the Statements of Net Assets Available for Benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk. The contract value for the synthetic GICs was \$671.1 million and \$696.9 million at December 31, 2014 and 2013, respectively.

The crediting interest rate, which is reset quarterly, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs was approximately 1.9% and 2.0% at December 31, 2014 and 2013, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 2.8% and 2.7% for the years ended December 31, 2014 and 2013. The credit ratings for Transamerica were AA- at both December 31, 2014 and 2013, the credit rating for Prudential was AA- at December 31, 2014, the credit ratings for MetLife were AA- at both December 31, 2014 and 2013, and the credit rating for Bank of America was A at December 31, 2013.

Events that lead to market value withdrawals that exceed 15 percent of the contract value of the GICs of Prudential and Transamerica or 10 percent of the contract value of the GIC of MetLife would limit the ability of the Plan to transact at contract value with participants. These events include restructurings, early retirement plans, divestitures, bankruptcies, or legal, tax or regulatory changes. The Plan sponsor believes that the occurrence of any such event is remote. The spin does not constitute an event under the GICs.

The wrapper providers can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract. If a wrapper provider would like to exit the contract for another reason, the Plan can maintain the contract through an extended termination process designed to ensure continued benefit-responsive treatment for withdrawals.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

Notes Receivables from Participants

Participant loans are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participant's account balances.

Payment of Benefits and Fees

Benefits are recorded when paid. Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as Plan expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Other

Due from broker for securities sold represent the net cash value of security trades initiated but not yet settled at each respective year-end.

Risks and Uncertainties

The Plan provides for various investment options which invest in any combination of registered investment companies, U.S. government and government agency issues, corporate and other obligations, common stock, commingled funds, synthetic guaranteed investment contracts and short-term investments. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in investment values.

Investments underlying the Plan's synthetic GICs include securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans (corporate and other obligations). The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

3. Eligibility Requirements

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

Employees become eligible to participate in the Plan as of the first day of the month following the completion of thirty days of employment. Eligible employees are those who meet the following requirements:

- A. U.S. employees of Baxter or its subsidiaries which have adopted the Plan;
- B. U.S. employees not covered by a collective bargaining agreement unless the agreement provides for coverage under the Plan; and
- C. U.S. employees who are not leased employees.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

4. Administration of the Plan

State Street Bank and Trust Company (the Trustee) serves as trustee and Voya Institutional Plan Services, LLC, formerly ING Institutional Plan Services, LLC, serves as recordkeeper for the Plan.

The Administrative Committee administers the Plan. The Investment Committee has authority, responsibility and control over the management of the assets of the Plan. Members of both committees are appointed by the Board of Directors of Baxter and are employees of Baxter.

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

5. Fair Value Measurements

The fair value hierarchy under the accounting standard for fair value measurements consists of the following three levels:

Level 1 - Quoted prices in active markets that the Plan has the ability to access for identical assets or liabilities;

Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuations in which all significant inputs are observable in the market; and

Level 3 - Valuations using significant inputs that are unobservable in the market and include the use of judgment by the Plan's management about the assumptions market participants would use in pricing the asset or liability.

Edgar Filing: BAXTER INTERNATIONAL INC - Form 11-K

Collateral held on loaned securities	14,078		14,078	
Total assets	\$ 2,339,461	\$ 508,837	\$ 1,830,753	\$ (129)
Liability				
Collateral to be paid on loaned securities	\$ 14,078	\$ 1,957	\$ 12,121	\$

Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period. The fair value of commingled funds is valued based upon the net asset value of the underlying securities and is classified as Level 2. The Plan did not have any transfers between Levels 1 and 2 during 2014. In 2013, due to a change in the structure of the investment, the target date retirement funds are classified as commingled funds and classified as Level 2.

Table of Contents**Baxter International Inc. and Subsidiaries****Incentive Investment Plan****Notes to Financial Statements****December 31, 2014 and 2013**

The following table sets forth a summary of changes in the fair values of the Plan's level 3 financial instruments.

(in thousands)	Wrapper Contracts
Balance at December 31, 2012	\$ (991)
Additions	65
Unrealized gains (relating to assets held at end of year)	797
Balance at December 31, 2013	(129)
Additions	(84)
Settlements	(67)
Unrealized losses (relating to assets held at end of year)	(169)
Balance at December 31, 2014	\$ (449)

The unrealized losses from the wrapper contracts are excluded from the net appreciation reported for the Plan, but instead are reflected in the change in the adjustment from fair value to contract value for fully benefit responsive contracts reported on the statements of net assets available for benefits. In 2014, the additions are due to the new contract with Prudential and the settlements are due to termination of the contract with Bank of America as detailed in Note 2. The additions in 2013 are due to the new contract with MetLife as detailed in Note 2.

See Valuation of Investments and Collateral in Note 2 above for a discussion of the methodologies used to determine the fair values of the Plan's investments and collateral. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Investments

Investments representing five percent or more of the Plan's net assets available for benefits at December 31, 2014 and 2013 are summarized as follows:

(in thousands, except per share data)	2014	2013
Baxter common stock, 2,530,593 shares and 2,585,408 shares at December 31, 2014 and 2013, respectively	\$ 185,467	\$ 179,815
SSgA S&P 500 Fund	335,741	279,286
MetLife Individual Separate Account	167,683	172,672

SSgA Small Cap Fund

138,789

142,953

Table of Contents**Baxter International Inc. and Subsidiaries****Incentive Investment Plan****Notes to Financial Statements****December 31, 2014 and 2013**

Investments as of December 31, 2014 and 2013 are segregated into various investment fund options as follows:

(in thousands)	2014	2013
Cash (available for investment)	\$ 7,551	\$ 6,121
Stable Income Fund	732,093	748,611
Baxter Common Stock Fund	186,340	181,520
Composite Fund	162,780	158,846
General Equity Fund	183,337	183,162
Cardinal Health Common Stock Fund	8,210	7,307
SSgA S&P 500 Fund	335,741	279,286
SSgA EAFE Equity Fund	104,083	111,718
Edwards Lifesciences Common Stock Fund	22,704	12,935
SSgA Small Cap Fund	138,831	142,953
Northern Trust Domestic Mid Cap	23,638	14,293
SSgA Emerging Markets Fund	8,723	4,624
Self-Managed Fund	54,448	49,082
Target Date Retirement Funds	536,660	424,925
Collateral held on loaned securities	12,903	14,078
Total investments at fair value	2,518,042	2,339,461
Adjustment from fair value to contract value for Stable Income Fund	(41,872)	(36,932)
Total investments	\$ 2,476,170	\$ 2,302,529

Net appreciation (depreciation) in fair value for each significant class of investment, which includes realized and unrealized gains and losses, is as follows:

(in thousands)	2014	2013
Baxter common stock	\$ 9,991	\$ 7,864
Other common stock	33,870	76,699
U.S. government and government agency issues	1,668	(1,653)
Corporate and other obligations	560	(1,752)
Commingled funds	75,339	191,201
Registered investment companies	(86)	1,537
	\$ 121,342	\$ 273,896

7. Securities Lending Transactions

The Plan participates in a securities lending program with the Trustee. The program allows the Trustee to loan securities, which are assets of the Plan, to approved brokers (the Borrowers).

The Trustee requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan in an amount that is at least equal to the fair value of the securities loaned. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the non-cash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by the Borrower, the Trustee shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, to the extent that such replacement securities are available on the open market and if to the extent that such proceeds are insufficient or the collateral is unavailable, the purchase of replacement securities shall be made at Trustee expense or, if replacement securities are not able to be purchased, the Trustee shall credit the Plan for the market value of the unreturned securities.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Plan whole. The fair value of the investment of cash collateral received pursuant to securities lending transactions is reflected on the Statements of Net Assets Available for Benefits as an asset and the obligation to return the amount received is reflected as a liability.

As of December 31, 2014 and 2013, the Plan had securities on loan with a fair value of \$12.6 million and \$13.8 million, respectively, with cash collateral received of \$12.9 million and \$14.1 million, respectively, which was invested in the State Street Quality D Short-Term Investment Fund. Investments underlying this fund primarily consisted of cash and cash equivalents and asset-backed securities as of both December 31, 2014 and 2013, and the net asset value of this fund was approximately \$1.00 per unit. As of December 31, 2014 and 2013 the cash collateral received is reflected at its fair value of \$12.9 million and \$14.1 million in the 2014 and 2013 Statements of Net Assets Available for Benefits, respectively.

Non-cash collateral of \$0.5 million and \$1.7 million received for securities on loan at December 31, 2014 and December 31, 2013, respectively, consisted of U.S. government and government agency issues, equity securities, and corporate and other obligations held by the Trustee on behalf of the Plan. Non-cash collateral is not included with the collateral balance on the 2014 and 2013 Statement of Net Assets Available for Benefits because it may not be sold or repledged. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Plan and the Trustee in its capacity as a security agent. Securities lending income allocated to the Plan amounted to \$24 thousand and \$32 thousand for 2014 and 2013, respectively. Securities lending income is classified as interest income in the Statements of Changes in Net Assets Available for Benefits.

8. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall become fully vested and such termination of the Plan would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

9. Tax Status of the Plan

The Internal Revenue Service (IRS) has determined and informed the Plan sponsor by a letter dated September 16, 2013 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the IRC). The Plan has been amended since the date of the determination letter. The Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

10. Parties-in-Interest

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Table of Contents

Baxter International Inc. and Subsidiaries

Incentive Investment Plan

Notes to Financial Statements

December 31, 2014 and 2013

At December 31, 2014 and 2013, the Plan held units of participation in certain shares of common stock of State Street Corporation, commingled funds and short-term investment funds of State Street Bank and Trust Company, and units of registered investment companies of SSgA, the Plan trustee; shares of common stock, dividend income on those shares and bonds of Baxter, the Plan sponsor; loans with participants; units of registered investment companies managed by Pacific Investment Management Company, an investment manager for the Plan; shares of common stock and units of registered investment companies managed by AllianceBernstein, an investment manager for the Plan; units of registered investment companies managed by Loomis Sayles, an investment manager for the Plan; shares of common stock, bonds, and interest rate wrapper contracts of Prudential for 2014 only, issuer of the Plan's fully benefit-responsive contracts; interest rate wrapper contracts of Transamerica, issuer of the Plan's fully benefit-responsive contracts; shares of common stock, bonds, an individual separate account and interest rate wrapper contracts of MetLife, issuer of the Plan's fully benefit-responsive contracts; units of commingled funds managed by Northern Trust Corporation, an investment manager for the Plan; and units of registered investment companies in various affiliates of Voya Institutional Plan Services, LLC, the recordkeeper. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

Fees paid by the Plan for investment management, recordkeeping and consulting services, also qualify as party-in-interest transactions and are included in Plan expenses in the accompanying financial statements. The Company pays certain expenses for the administration of the Plan. These transactions are exempt from the party-in interest transaction prohibitions of ERISA.

11. Plan Merger

During 2012, Baxter acquired Synovis Life Technologies, Inc. (Synovis). The Synovis 401(k) Plan was merged into the Plan effective September 2014. As a result of this merger, total assets of approximately \$12.1 million were transferred into the Plan.

During 2012, Baxter acquired Sigma International General Medical Apparatus, LLC (SIGMA). The SIGMA 401(k) Plan was merged into the Plan effective July 2013. As a result of this merger, total assets of approximately \$4.9 million were transferred into the Plan.

12. Subsequent Event

In June 2015, Baxter announced that its board of directors had approved the planned separation of its biopharmaceuticals business, which will be known as Baxalta Incorporated, and declared a special dividend distribution of 80.5 percent of the outstanding shares of Baxalta common stock. Baxter will retain a 19.5 percent ownership stake in Baxalta immediately following the distribution. The distribution of Baxalta common stock in form of a special dividend has been structured to qualify as a tax-free distribution to U.S. holders of Baxter's common stock for U.S. federal income tax purposes. The distribution of Baxalta common stock will complete the proposed separation and Baxalta expects to begin trading as an independent company beginning July 1, 2015 on the New York Stock Exchange (NYSE) under the ticker symbol BXLX.

The Plan is expected to continue after separation. All Plan balances, except those associated with the active employees of Baxalta, will remain with the Plan.
