PROSPECTUS SUPPLEMENT

(To Prospectus Dated April 17, 2015)

40,872 Shares of Common Stock

and

34,219 Shares of 6.50% Series A-4 Cumulative Convertible Preferred Stock

This prospectus relates to the offer and sale from time to time by the selling stockholder named herein of up to (i) 34,219 shares of our 6.50% Series A-4 Cumulative Convertible Preferred Stock, par value \$0.01 per share, or Series A-4 Preferred Shares, in connection with our acquisition of 58 manufactured home communities described in the accompanying prospectus, or the Acquisition, and (ii) 40,872 shares of our common stock, par value \$0.01 per share, consisting of (A) 25,664 shares currently outstanding and (B) up to 15,208 shares initially issuable upon conversion of the Series A-4 Preferred Shares.

We have registered the offering and resale of the Registered Shares to allow the selling stockholder to sell any or all of its Registered Shares using any of the methods described in Plan of Distribution beginning on page S-3 of this prospectus supplement. The registration of the Registered Shares does not necessarily mean that any of the Registered Shares will be sold by the selling stockholder under this prospectus supplement or otherwise.

We will not receive proceeds from the sale of the Registered Shares by the selling stockholder.

Distributions on the Series A-4 Preferred Shares are payable on a cumulative basis quarterly in arrears on or about the last day of March, June, September and December of each year. The distribution rate is 6.50% per annum of the \$25.00 liquidation preference, which is equivalent to \$1.625 per annum per Series A-4 Preferred Share.

The Series A-4 Preferred Shares rank, with respect to distribution rights and rights upon our voluntary or involuntary liquidation, dissolution or winding up, junior to the 3,400,000 shares outstanding of our 7.125% Series A Cumulative Redeemable Preferred Stock, liquidation preference \$25.00 per share, and senior to our common stock.

If a Fundamental Change (as defined in the accompanying prospectus) occurs, then at any time after November 26, 2019, we or the holders of the Series A-4 Preferred Shares may cause the Series A-4 Preferred Shares to be redeemed for cash at a redemption price equal to the sum of the greater of (i) the amount that the Series A-4 Preferred Shares would have received in the Fundamental Change if they had been converted into shares of our common stock or (y) \$25.00 per share, plus (ii) any accrued and unpaid distributions thereon to, but not including, the redemption date. If we or a holder exercise the redemption rights relating to the Series A-4 Preferred Shares, the holders of those Series A-4 Preferred Shares will not have the conversion right described in the accompanying prospectus. The Series A-4 Preferred Shares have no maturity date and will remain outstanding indefinitely unless redeemed or converted into shares of our common stock, \$0.01 par value per share.

Each holder of Series A-4 Preferred Shares will have the right (unless a notice of redemption has been delivered previously) to convert some or all of the Series A-4 Preferred Shares held by such holder into that number of shares of our common stock obtained by dividing \$25.00 by a conversion price equal to \$56.25, as the conversion price may be adjusted as described in the accompanying prospectus. If, at any time after November 26, 2019, the volume weighted average of the daily volume weighted average price of a share of our common stock on the New York Stock Exchange, or NYSE, equals or exceeds 115.5% of the then prevailing conversion price for at least 20 trading days in a period of 30 consecutive trading days, then we may convert each outstanding Series A-4 Preferred Share into that number of shares of common stock equal to the quotient obtained by dividing \$25.00 by the then prevailing conversion price.

Our common stock is listed on NYSE under the symbol SUI. On June 19, 2015, the last reported sale price of our common stock on NYSE was \$65.01.

Investing in our common stock involves a high degree of risk. You should review carefully the risks and uncertainties described under the heading Risk Factors on page 9 of the accompanying prospectus, and the documents incorporated by reference therein.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus supplement or the accompanying prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

To assist us in complying with certain federal income tax requirements applicable to real estate investment trusts, our charter contains certain restrictions relating to the ownership and transfer of our stock, including an ownership limit of 9.8%, in number of shares or value, of the issued and outstanding shares of our capital stock. See Description of Series A-4 Preferred Shares Restrictions on Ownership and Transfer on page 29 of the accompanying prospectus and Certain Provisions of Maryland Law and Our Charter and Bylaws Restrictions on Ownership and Transfer of our Stock on page 36 of the accompanying prospectus.

**RATIO OF EARNINGS TO COMBINED FIXED CHARGES
AND PREFERRED STOCK DISTRIBUTIONS**

The following table sets forth our ratio of earnings to combined fixed charges and preferred stock distributions for the periods indicated. In certain of the periods presented, earnings were not sufficient to cover combined fixed charges and preferred stock dividends. The extent of the deficiency in each such period is shown below.

	March 31, 2015	2014	Fiscal Year Ended December 31,			
			2013	2012	2011	2010
	(amounts in thousands)					
Ratio of earnings to combined fixed charges and preferred stock dividends	0.95:1	1.02:1	1.13:1	1.07:1	0.98:1	0.98:1
Deficiency of earnings available to cover fixed charges	\$ 1,711	\$	\$	\$	\$ 1,607	\$ 1,355

The ratios of earnings to combined fixed charges and preferred stock distributions were computed by dividing earnings by the aggregate of our fixed charges and preferred distributions. For this purpose, earnings consist of (i) pre-tax income from continuing operations before adjustment for noncontrolling interests, gain on dispositions and distributions from affiliates, plus (ii) fixed charges, less (iii) capitalized interest, less (iv) distributions to holders of shares of our 7.125% Series A Cumulative Redeemable preferred stock, 6.50% Series A-4 Cumulative Convertible preferred stock and preferred securities of the Operating Partnership. Fixed charges consist of (i) interest expense (including the amortization of deferred financing costs and premiums and discounts on indebtedness), (ii) capitalized interest, (iii) estimate of interest within rental expense, and (iv) distributions to holders of shares of our 7.125% Series A Cumulative Redeemable preferred stock, 6.50% Series A-4 Cumulative Convertible preferred stock and preferred securities of the Operating Partnership.

During the periods prior to November 14, 2012, we had no issued and outstanding preferred stock and paid no preferred stock distributions.

PLAN OF DISTRIBUTION

The selling stockholder, which as used herein includes donees, pledgees, transferees or other successors-in-interest selling Registered Shares received after the date of this prospectus from the selling stockholder as a gift, pledge, partnership distribution or other transfer, may, from time to time, sell, transfer or otherwise dispose of any or all of its Registered Shares on any stock exchange, market or trading facility on which the Registered Shares are traded or in private transactions. These dispositions may be at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale, or at negotiated prices.

The selling stockholder may use any one or more of the following methods when disposing of shares or interests therein:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately-negotiated transactions;

an underwritten offering;

short sales effected after the date of this prospectus;

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

agreements with broker-dealers to sell a specified number of such shares at a stipulated price per share;

a combination of any such methods of sale; and

any other method permitted by applicable law.

The selling stockholder may effect such transactions by selling its Registered Shares directly to purchasers, to or through broker-dealers, which may act as agents for the seller and buyer or principals, or to underwriters who acquire Registered Shares for their own account and resell them in one or more transactions. Such broker-dealers or underwriters may receive compensation in the form of discounts, concessions, or commissions from the selling stockholder and/or the purchasers of the Registered Shares for whom such broker-dealers may act as agents or to whom they sell as principal, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions) and such discounts, concessions, or commissions may be allowed or re-allowed or paid to dealers. Any public offering price and any discounts or concessions allowed or paid to dealers may be changed at different times.

The selling stockholder may, from time to time, pledge or grant a security interest in some or all of the shares of common stock it owns and, if it defaults in the performance of its secured obligations, the pledgees or secured parties may offer and sell the shares of common stock, from time to time, under this prospectus supplement and the accompanying prospectus, or under an amendment to this prospectus supplement under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling stockholder to include the pledgee, transferee or other successors in interest as selling stockholder under this prospectus supplement. The selling stockholder also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus supplement.

In connection with the sale of the Registered Shares, the selling stockholder may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the

Table of Contents

Registered Shares in the course of hedging the positions they assume. The selling stockholder may also sell Registered Shares short and deliver these securities to close out its short positions, or loan or pledge the Registered Shares to broker-dealers that in turn may sell these securities. The selling stockholder may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of Registered Shares offered by this prospectus supplement and the accompanying prospectus, which Registered Shares such broker-dealer or other financial institution may resell pursuant to this prospectus supplement and the accompanying prospectus (as supplemented or amended to reflect such transaction).

The aggregate proceeds to the selling stockholder from the sale of the Registered Shares it offers will be the purchase price of the Registered Shares less discounts or commissions, if any. The selling stockholder reserves the right to accept and, together with its agents from time to time, to reject, in whole or in part, any proposed purchase of Registered Shares to be made directly or through agents. We will not receive any of the proceeds from this offering.

The selling stockholder also may resell all or a portion of the Registered Shares in open market transactions in reliance upon Rule 144 under the Securities Act, provided that it meets the criteria and conforms to the requirements of that rule.

The selling stockholder and any underwriters, broker-dealers or agents that participate in the sale of the Registered Shares may be underwriters within the meaning of Section 2(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the Registered Shares may be underwriting discounts and commissions under the Securities Act. A selling stockholder who is an underwriter within the meaning of Section 2(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

To the extent required, the Registered Shares to be sold, the name of the selling stockholder, the respective purchase prices and public offering prices, the names of any agents, dealer or underwriter, any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus supplement and the accompanying prospectus.

In order to comply with the securities laws of some states, if applicable, the Registered Shares may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the Registered Shares may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the selling stockholder that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling stockholder and its affiliates. In addition, to the extent applicable we will make copies of this prospectus supplement and the accompanying prospectus (as it may be supplemented or amended from time to time) available to the selling stockholder for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling stockholder may indemnify any broker-dealer that participates in transactions involving the sale of the Registered Shares against certain liabilities, including liabilities arising under the Securities Act.

We have agreed to indemnify the selling stockholder against liabilities, including liabilities under the Securities Act and state securities laws, relating to the registration of the shares offered by this prospectus supplement and the accompanying prospectus.

We have agreed with the selling stockholder to keep the registration statement of which this prospectus supplement constitutes a part effective until the earlier of (1) such time as all of the Registered Shares covered by this prospectus supplement have been disposed of pursuant to and in accordance with the registration statement or (2) the date on which all of the Registered Shares are eligible for resale without restriction under Rule 144 of the Securities Act.

We refer to the shares of common stock and the Series A-4 Preferred Shares being offered for resale hereunder as the Registered Shares.

We have registered the offering and resale of the Registered Shares to allow the selling stockholders to sell any or all of their Registered Shares using any of the methods described in Plan of Distribution beginning on page 57 of this prospectus. The registration of the Registered Shares does not necessarily mean that any of the Registered Shares will be sold by the selling stockholders under this prospectus or otherwise.

We will not receive proceeds from the sale of the Registered Shares by the selling stockholders.

Distributions on the Series A-4 Preferred Shares are payable on a cumulative basis quarterly in arrears on or about the last day of March, June, September and December of each year. The distribution rate is 6.50% per annum of the \$25.00 liquidation preference, which is equivalent to \$1.625 per annum per Series A-4 Preferred Share.

The Series A-4 Preferred Shares rank, with respect to distribution rights and rights upon our voluntary or involuntary liquidation, dissolution or winding up, junior to the 3,400,000 shares outstanding of our 7.125% Series A Cumulative Redeemable Preferred Stock, liquidation preference \$25.00 per share, and senior to our common stock.

If a Fundamental Change (as defined in this prospectus) occurs, then at any time after November 26, 2019, we or the holders of the Series A-4 Preferred Shares may cause the Series A-4 Preferred Shares to be redeemed for cash at a redemption price equal to the sum of the greater of (i) the amount that the Series A-4 Preferred Shares would have received in the Fundamental Change if they had been converted into shares of our common stock or (y) \$25.00 per share, plus (ii) any accrued and unpaid distributions thereon to, but not including, the redemption date. If we or a

holder exercise the redemption rights relating to the Series A-4 Preferred Shares, the holders of those Series A-4 Preferred Shares will not have the conversion right described below. The Series A-4 Preferred Shares have no maturity date and will remain outstanding indefinitely unless redeemed or converted into shares of our common stock, \$0.01 par value per share.

Each holder of Series A-4 Preferred Shares will have the right (unless a notice of redemption has been delivered previously) to convert some or all of the Series A-4 Preferred Shares held by such holder into that number of shares of our common stock obtained by dividing \$25.00 by a conversion price equal to \$56.25, as the conversion price may be adjusted as described in this prospectus. If, at any time after November 26, 2019, the volume weighted average of the daily volume weighted average price of a share of our common stock on the New York Stock Exchange, or NYSE, equals or exceeds 115.5% of the then prevailing conversion price for at least 20 trading days in a period of 30 consecutive trading days, then we may convert each outstanding Series A-4 Preferred Share into that number of shares of common stock equal to the quotient obtained by dividing \$25.00 by the then prevailing conversion price.

Our common stock is listed on the NYSE, under the symbol SUI. The last reported sale price of our common stock on the NYSE on April 16, 2015 was \$63.54 per share. Company Overview

We are a self-administered and self-managed real estate investment trust, or REIT. We own, operate, and develop manufactured housing, or MH, and recreational vehicle, or RV, communities concentrated in the midwestern, southern and southeastern United States. We are a fully-integrated real estate company which, together with our affiliates and predecessors, has been in the business of acquiring, operating, developing and expanding MH and RV communities since 1975. As of March 31, 2015, we owned and operated a portfolio of 243 properties, which we refer to as Properties, located in 29 states, including 209 MH communities, 25 RV communities, and nine Properties containing both MH and RV sites. As of March 31, 2015, the Properties contained an aggregate of 89,320 developed sites comprised of 71,106 developed manufactured home sites, 9,409 annual RV sites (inclusive of both annual and seasonal usage rights), 8,805 transient RV sites, and approximately 7,200 additional manufactured home sites suitable for development. We lease individual parcels of land, or sites, with utility access for placement of manufactured homes and RVs to our customers. The Properties are designed to offer affordable housing to individuals and families, while also providing certain amenities.

We are engaged through SHS, a taxable REIT subsidiary, in the marketing, selling, and leasing of new and pre-owned homes to current and future residents in our communities. The operations of SHS support and enhance our occupancy levels, property performance and cash flows.

Structured as an umbrella partnership REIT, or UPREIT, the Operating Partnership is the entity through which we conduct substantially all of our operations, and which owns, either directly or indirectly through SHS and other subsidiaries, all of our assets. This UPREIT structure enables us to comply with certain complex requirements under the U.S. federal tax rules and regulations applicable to REITs, and to acquire MH communities in transactions that defer some or all of the sellers' tax consequences. We are the sole general partner of, and, as of March 31, 2015, held approximately 95.5% of the interests (not including preferred limited partnership interests) in, the Operating Partnership. The interests in the Operating Partnership held by the partners are referred to herein as OP Units.

We were incorporated in Maryland on July 23, 1993 and completed the initial public offering of our common stock on December 9, 1993. Our executive and principal property management office is located at 27777 Franklin Road, Suite 200, Southfield, Michigan 48034 and our telephone number is (248) 208-2500. We have regional property management offices located in Austin, Texas; San Antonio, Texas; Dayton, Ohio; Grand Rapids, Michigan; Elkhart, Indiana; Indianapolis, Indiana; Traverse City, Michigan; Charlotte, North Carolina; Denver, Colorado; Ft. Myers, Florida; and Orlando, Florida; and we employed an aggregate of 1,861 full and part time employees (including seasonal employees) as of March 31, 2015.

Our website address is www.suncommunities.com, which contains information concerning us and our subsidiaries. Information included or referred to on, or otherwise accessible through, our website is not incorporated by reference or otherwise a part of this prospectus supplement.

Recent Developments

Under an Omnibus Agreement dated July 30, 2014 with Green Courte Real Estate Partners, LLC, GCP REIT II, GCP REIT III, American Land Lease, Inc. and Asset Investors Operating Partnership, L.P., which we collectively refer to as the Green Courte Entities, we acquired 58 manufactured home communities, or the Projects, from the Green Courte Entities. The manufactured home communities included in the Acquisition comprise over 19,000 home sites in eleven states, including nearly 11,000 home sites located in Florida. In connection with these transactions, we also acquired the contractual right of one of the Green Courte Entities to acquire an additional manufactured home community pursuant to a binding purchase agreement. The Acquisition occurred in a series of closings between November 26, 2014 and January 6, 2015.

We acquired the Projects, as well as tangible personal property, intellectual property, new and used manufactured homes owned by certain Green Courte Entities or their affiliates, manufactured home loans made to residents of the Projects held by the Green Courte Entities or their affiliates (together with associated collateral and liens) and other related assets, for an aggregate purchase price of approximately \$1.33 billion, including the assumption of approximately \$553.9 million of debt. As consideration for the Acquisition, we (i) paid approximately \$340.2 million in cash, (ii) issued 4,738,870 shares of our common stock and 501,130 common OP Units in the Operating Partnership (at an issuance price of \$50.00 per share or unit, as applicable), and (iii) issued 6,330,551 Series A-4 Preferred Shares, and 669,449 Series A-4 Preferred Units in the Operating Partnership, (at an issuance price of \$25.00 per share or unit, as applicable) to the Green Courte Entities. The Series A-4 Preferred Units have economic and other rights and preferences substantially similar to those of the Series A-4 Preferred Shares.

In addition, in connection with the Acquisition, under a separate subscription agreement, on January 6, 2015, we issued and sold to Green Courte Real Estate Partners III, LLC, 150,000 shares of common stock, at a purchase price of \$50.00 per share and 200,000 Series A-4 Preferred Units, at a purchase price of \$25.00 per unit. We refer to this sale as the PIPE Transaction and the securities sold in the PIPE Transaction as the PIPE Securities.

In connection with the Acquisition, on January 6, 2015, Randall K. Rowe, Chairman and Founder, and James R. Goldman, Vice Chairman and Chief Investment Officer, of the Green Courte Entities were appointed to serve on our board of directors. Also on January 6, 2015, Ronald A. Klein was appointed to serve on our board of directors.

All securities issued in connection with the Acquisition and all PIPE Securities issued in connection with the PIPE Transaction (together with all shares of our common stock issuable upon the exchange or conversion of Series A-4 Preferred Shares, common OP Units or Series A-4 Preferred Units issued in connection with the Acquisition or the PIPE Transaction, as applicable) are subject to a six-month lock-up period from their date of issuance, commencing on the date of their respective issuances, except that the securities as to which Mr. Rowe or Mr. Goldman has a direct or indirect pecuniary interest are subject to a 12-month lock-up period from their date of issuance.

Restrictions on ownership and transfer

Our charter contains restrictions on ownership and transfer of shares of our common stock and the Series A-4 Preferred Shares intended to assist us in maintaining our qualification as a REIT for U.S. federal income tax purposes. For example, without the approval of our board of directors, our charter restricts any person from owning, or being deemed to own by virtue of the attribution provisions of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code, more than 9.8%, in number of shares or value, of the issued and outstanding shares of our capital stock. In addition, the articles supplementary establishing the Series A-4 Preferred Shares provide that, notwithstanding any other provision of the Series A-4 Preferred Shares, no holder of shares of Series A-4 Preferred Shares will be entitled to convert such shares into shares of our common stock to the extent that receipt of such shares of common stock would cause the holder or any other person to exceed the ownership limitations contained in our charter. See [Description of the Series A-4 Preferred Shares](#), [Restrictions on Ownership and Transfer](#), [Description of Common Stock](#), [Restrictions on Ownership](#) and [Certain Provisions of Maryland Law and Our Charter and Bylaws](#), [Restrictions on Ownership and Transfer of our Stock](#) for more information about these restrictions.

Risk factors	You should carefully read the information contained under the caption Risk Factors in this prospectus, our Annual Report on Form 10-K for the year ended December 31, 2014 and our other filings under the Securities Exchange Act of 1934, as amended, or the Exchange Act, that are incorporated by reference in this prospectus before deciding to invest in the Registered Shares.
Plan of Distribution	The Registered Shares may be sold by the selling stockholders pursuant to this prospectus in the manner described under Plan of Distribution.
Common Stock Trading and Symbol	Our common stock is listed on the NYSE, under the symbol SUI.
Tax Consequences	The U.S. federal income tax consequences of purchasing, owning and disposing of the Registered Shares are summarized in Material U.S. Federal Income Tax Considerations on page 37 of this prospectus.
The Series A-4 Preferred Shares	
Distributions	Holder s of the Series A-4 Preferred Shares are entitled to receive cumulative cash distributions on the Series A-4 Preferred Shares from the date of issuance at a rate of 6.50% per year of the \$25.00 liquidation preference per share (equivalent to \$1.625 per share per year). Upon the occurrence of a Fundamental Change (as defined under Description of the Series A-4 Preferred Shares Redemption below), from and after such Fundamental Change the distribution rate on the Series A-4 Preferred Shares will be increased to an annual rate equal to the greater of (i) 10.00%, and (ii) 8.00% above the then-published (in the Wall Street Journal) U.S. Treasury maturing on the date closest to the five year anniversary of the date the Fundamental Change occurs. Distributions on the Series A-4 Preferred Shares are payable quarterly in arrears on the last day of March, June, September and December of each year, or if not a business day, the next succeeding business day. See Description of the Series A-4 Preferred Shares Distributions.
No Maturity	The Series A-4 Preferred Shares have no maturity date. Accordingly, the Series A-4 Preferred Shares will remain outstanding indefinitely unless redeemed or converted into shares of our common stock.
Redemption	If a Fundamental Change (as defined in this prospectus) occurs, then at any time after November 26, 2019, we or the holders of the Series A-4 Preferred Shares may cause the Series A-4 Preferred Shares to be redeemed for cash at a redemption price equal to the sum of the greater

of (i) the amount that the Series A-4 Preferred Shares would have received in the Fundamental Change if they had been converted into shares of our common stock or (y) \$25.00 per share, plus (ii) any accrued and unpaid distributions thereon to, but not including, the redemption date. If we or a holder exercise the redemption rights relating to the Series A-4 Preferred Shares, the holders of those Series A-4 Preferred Shares will not have the conversion right described below. See Description of the Series A-4 Preferred Shares Redemption.

Table of Contents

Optional Conversion

Subject to certain limitations, upon written notice to us, each holder of shares of Series A-4 Preferred Shares at its option may convert any or all of the Series A-4 Preferred Shares held by such holder for that number of shares of our common stock equal to the quotient obtained by dividing \$25.00 by the then-applicable conversion price, or the Conversion Price. The initial Conversion Price is \$56.25, so initially each Series A-4 Preferred Share is convertible into approximately 0.4444 shares of common stock. The Conversion Price is subject to adjustment.

At our option, instead of issuing the shares of common stock to the converting holder of Series A-4 Preferred Shares as described above, we may make a cash payment to the converting holder with respect to each Series A-4 Preferred Share the holder desires to convert equal to the fair market value of one share of our common stock.

See Description of the Series A-4 Preferred Shares Conversion Rights Optional Conversion and Description of the Series A-4 Preferred Shares Conversion Rights Conversion Price Adjustments.

Mandatory Conversion

If, at any time after November 26, 2019, the volume weighted average of the daily volume weighted average price of a share of our common stock on the NYSE equals or exceeds 115.5% of the then prevailing Conversion Price for at least 20 trading days in a period of 30 consecutive trading days, then, within 10 days thereafter, upon written notice to the holders thereof, we may convert each outstanding Series A-4 Preferred Share into that number of shares of common stock equal to the quotient obtained by dividing \$25.00 by the Conversion Price. See Description of the Series A-4 Preferred Shares Conversion Rights Mandatory Conversion and Description of the Series A-4 Preferred Shares Conversion Rights Conversion Price Adjustments.

Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding-up of our affairs, the record holders of the Series A-4 Preferred Shares will be entitled to be paid out of our assets legally available for distribution to our stockholders, after payment of or provision for our debts and other liabilities, a liquidation preference of \$25.00 per Series A-4 Preferred Share, plus an amount equal to any accrued and unpaid distributions (whether or not authorized or declared) to the date of payment to such holders, before any distribution or payment may be made to holders of shares of our common stock or any other class or series of shares ranking junior to the Series A-4 Preferred Shares as to liquidation rights, but after any distributions or payments are made to holders of our 7.125% Series A Cumulative Redeemable Preferred Stock, \$0.01 par value per share, or the 7.125% Series A Preferred Stock, and any other class or series of

stock we may authorize and designate in the future that rank senior to the Series A-4 Preferred Shares with respect to such liquidating distributions.

See Description of the Series A-4 Preferred Shares Liquidation Preference.

Ranking

The Series A-4 Preferred Shares rank, with respect to distribution rights and rights upon our voluntary or involuntary liquidation, dissolution or winding up:

junior to all of our existing and future debt obligations, including convertible or exchangeable debt securities;

Table of Contents

senior to shares of our common stock, to our Junior Participating Preferred Stock, \$0.01 par value per share, and to any other of our equity securities that by their terms rank junior to the Series A-4 Preferred Shares;

on a parity with any other class or series of shares of our preferred stock or other equity securities that we may later authorize or issue in the future and that by their terms are on a parity with the Series A-4 Preferred Shares (which we may only authorize with the affirmative vote of the holders of a majority of the Series A-4 Preferred Shares); and

junior to our 7.125% Series A Preferred Stock and any equity securities that we may later authorize and that by their terms rank senior to the Series A-4 Preferred Shares (which we may only authorize with the affirmative vote of the holders of a majority of the Series A-4 Preferred Shares).

See Description of the Series A-4 Preferred Shares Ranking.

Voting Rights

Holders of Series A-4 Preferred Shares generally have no voting rights.

However, if a Preferred Distribution Default (as defined in this prospectus) occurs, the holders of the Series A-4 Preferred Shares, voting together as a single class with the holders of any other class or series of our preferred stock which have similar voting rights and rank on parity with the Series A-4 Preferred Shares, will be entitled to vote for the election of two additional directors to serve on our board of directors until the Preferred Distribution Default is cured. The holders of the Series A-4 Preferred Shares and the holders of any other class or series of our preferred stock with applicable voting rights must vote for such persons as are selected by a plurality of the votes cast at a separate meeting of the holders of the Series A-4 Preferred Shares, any such other class or series of our preferred stock, the Series A-4 Preferred Units issued by the Operating Partnership and any other OP units issued by the Operating Partnership that are on a parity with the Series A-4 Preferred Units.

In addition, the affirmative vote of the holders of a majority of the Series A-4 Preferred Shares is required for us to: (a) amend, alter, supplement or repeal any of the provisions of our charter (including the articles supplementary establishing the Series A-4 Preferred Shares) in a manner

that adversely affects the powers, rights, privileges or preferences of the Series A-4 Preferred Shares or the holders of the Series A-4 Preferred Shares; or (b) authorize, create or issue any additional shares of capital stock, or reclassify any existing shares of capital stock into shares, ranking senior to or on parity with the Series A-4 Preferred Shares as to distributions and upon our voluntary or involuntary liquidation, dissolution or winding up, except that we may authorize, create and issue: (i) senior shares of capital stock in connection with a subsequent public offering of preferred stock by us, and (ii) any class or series of capital stock expressly designated to rank on parity with the Series A-4 Preferred Shares with respect to distributions and rights upon voluntary or involuntary liquidation, winding-up or dissolution of Sun, so long as at the time of the issuance the leverage ratio (as defined in our primary credit facility agreement from time to time) is less than 68.50% (or such other percentage as set forth in the credit

facility agreement in which the leverage ratio is defined) and full cumulative distributions on the Series A-4 Preferred Shares for all past distribution periods ending on or prior to such date have been or contemporaneously are declared and paid in cash or declared and contemporaneously a sum sufficient to pay them in full in cash is set apart for payment.

See Description of the Series A-4 Preferred Shares Voting Rights.

RISK FACTORS

Investment in the Registered Shares pursuant to this prospectus involves risks. In addition to the information presented in this prospectus and the risk factors in our most recent Annual Report on Form 10-K and our other filings under the Exchange Act that are incorporated by reference in this prospectus, you should consider carefully the following risk factors before deciding to purchase the Registered Shares. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occur, our business, financial condition and results of operations may suffer. In that event, the trading price of our common stock or the Series A-4 Preferred Shares could decline, and you may lose all or part of your investment in our common stock.

Risks Relating to our Common Stock and the Series A-4 Preferred Shares

Future sales and/or issuances of our common stock or preferred stock, Series A-4 Preferred Shares or other securities may cause the market price of our common stock or the Series A-4 Preferred Shares to decline.

The sale and/or issuance of substantial amounts of our common stock or Series A-4 Preferred Shares whether directly by us or in the secondary market, the perception that such sales could occur or the availability of future issuances of shares of our common stock, preferred stock, OP Units or other securities convertible into or exchangeable or exercisable for our common stock or preferred stock, could materially and adversely affect the market price of our common stock or the Series A-4 Preferred Shares and our ability to raise capital through future offerings of equity or equity-related securities. In addition, we may issue capital stock that is senior to our common stock or the Series A-4 Preferred Shares in the future for a number of reasons, including to finance our operations and business strategy, to adjust our ratio of debt to equity or for other reasons.

Our business operations may not generate the cash needed to make distributions on our capital stock or to service our indebtedness, and we may adjust our common stock distribution policy.

Our ability to make distributions on our common stock and the Series A-4 Preferred Shares and payments on our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. We cannot assure you that our business will generate sufficient cash flow from operations or that future borrowings will be available to us in an amount sufficient to enable us to make distributions on our common stock or Series A-4 Preferred Shares, to pay our indebtedness or to fund our other liquidity needs.

The decision to declare and pay distributions on shares of our common stock in the future, as well as the timing, amount and composition of any such future distributions, will be at the sole discretion of our board of directors in light of conditions then existing, including our earnings, financial condition, capital requirements, debt maturities, the availability of debt and equity capital, applicable REIT and legal restrictions and general overall economic conditions and other factors. Any change in our common stock distribution policy could have a material adverse effect on the market price of our common stock.

Table of Contents

The market price of our common stock and the value of the Series A-4 Preferred Shares could be volatile and could decline, resulting in a substantial or complete loss on your investment.

The stock markets, including the NYSE, on which we list our common stock, have experienced significant price and volume fluctuations. As a result, the market price of the common stock or the Series A-4 Preferred Shares could be similarly volatile, and investors in our common stock and the Series A-4 Preferred Shares may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. The price of our common stock or Series A-4 Preferred Shares could be subject to wide fluctuations in response to a number of factors, including:

the trading price of our common stock, which may affect the value of the Series A-4 Preferred Shares;

issuances of other equity securities in the future, including series or classes of preferred stock;

our operating performance and the performance of other similar companies;

our ability to maintain compliance with covenants contained in our debt facilities;

actual or anticipated variations in our operating results, funds from operations, cash flows or liquidity;

changes in expectations of future financial performance or changes in our earnings estimates or those of analysts;

changes in our distribution policy;

the market for similar securities;

publication of research reports about us or the real estate industry generally;

increases in market interest rates that lead purchasers of our common stock to demand a higher dividend yield or that may negatively affect the market for the Series A-4 Preferred Shares;

changes in market valuations of similar companies;

adverse market reaction to the amount of our debt outstanding at any time, the amount of our debt maturing in the near- and medium-term and our ability to refinance our debt, or our plans to incur additional debt in the future;

additions or departures of key management personnel;

speculation in the press or investment community;

actions by institutional stockholders;

if, and to the extent the Series A-4 Preferred Shares are rated after the date of this prospectus, changes in the credit ratings;

equity issuances by us, or share resales by our stockholders, or the perception that such issuances or resales may occur;

the realization of any of the other risk factors included or incorporated by reference in this prospectus; and

general market, economic and political conditions.

Many of the factors listed above are beyond our control. Those factors may cause the market price of our common stock or the Series A-4 Preferred Shares to decline significantly, regardless of our financial condition, results of operations and prospects. It is impossible to provide any assurance that the market price of our common stock or the Series A-4 Preferred Shares will not fall in the future, and it may be difficult for holders to resell shares of our common stock or the Series A-4 Preferred Shares at prices they find attractive, or at all. In the past, securities class action litigation has often been instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

The redemption and conversion features of the Series A-4 Preferred Shares may make it more difficult for a party to take over Sun or discourage a party from taking over Sun.

If a Fundamental Change (which includes certain change of control transactions) occurs, then at any time after November 26, 2019, each holder of Series A-4 Preferred Shares may require us to redeem such holder's Series A-4 Preferred Shares for cash. See Description of the Series A-4 Preferred Shares Redemption. Holders of Series A-4 Preferred Shares also have the right to convert

Table of Contents

those shares to shares of common stock. See Description of the Series A-4 Preferred Shares Conversion Rights. These features may have the effect of inhibiting a third party from making an acquisition proposal for Sun or of delaying, deferring or preventing a change of control of Sun under circumstances that otherwise could provide the holders of our common stock and Series A-4 Preferred Shares with the opportunity to realize a premium over the then-current market price or that stockholders may otherwise believe is in their best interests.

Conversion of Series A-4 Preferred Shares will dilute the ownership interest of existing common stockholders.

The conversion of some or all of the Series A-4 Preferred Shares will dilute the ownership interests of existing common stockholders. Any sales in the public market of shares of our common stock issuable upon such conversion could adversely affect prevailing market prices of our common stock.

Our ability to pay distributions is limited by the requirements of Maryland law.

Our ability to pay distributions on shares of our common stock and the Series A-4 Preferred Shares is limited by the laws of Maryland. Under Maryland law, a Maryland corporation generally may not make a distribution if, after giving effect to the distribution, the corporation would not be able to pay its debts as they become due in the usual course of business, or the corporation's total assets would be less than the sum of its total liabilities plus, unless the corporation's charter provides otherwise, the amount that would be needed, if the corporation were dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of stockholders whose preferential rights are superior to those receiving the distribution, provided, however, that a Maryland corporation may make a distribution from: (i) its net earnings for the fiscal year in which the distribution is made; (ii) its net earnings for the preceding fiscal year; or (iii) the sum of its net earnings for its preceding eight fiscal quarters even if, after such distribution, the corporation's total assets would be less than its total liabilities. Accordingly, we generally may not make a distribution on shares of our common stock or the Series A-4 Preferred Shares if, after giving effect to the distribution, we would not be able to pay our debts as they become due in the usual course of business or, unless paid from one of the permitted sources of net earnings as described above, our total assets would be less than the sum of our total liabilities plus, unless the terms of such class or series of stock provide otherwise, the amount that would be needed to satisfy the preferential rights upon dissolution of the holders of shares of any class or series of stock then outstanding, if any, with preferential rights upon dissolution senior to those of the common stock or the Series A-4 Preferred Shares.

We may not be able to pay distributions upon events of default under our financing documents.

Some of our financing documents contain restrictions on distributions upon the occurrence of events of default thereunder. If such an event of default occurs, such as our failure to pay principal at maturity or interest when due for a specified period of time, we would be prohibited from making payments on our shares of capital stock, including our common stock and the Series A-4 Preferred Shares.

Certain provisions of Maryland law could inhibit changes in control, which may discourage third parties from conducting a tender offer or seeking other change of control transactions that could involve a premium price for our common stock or that our stockholders otherwise believe to be in their best interest.

Certain provisions of the Maryland General Corporation Law, or MGCL, may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change of control under circumstances that otherwise could provide the holders of shares of our capital stock with the opportunity to realize a premium over the then-prevailing market price of such shares, including:

business combination provisions that, subject to limitations, prohibit certain business combinations between us and an interested stockholder (defined generally as any person who beneficially owns 10% or more of the voting power of our shares or an affiliate thereof or an affiliate or associate of ours who was the beneficial owner, directly or indirectly, of 10% or more of the voting power of our then outstanding voting stock at any time within the two-year period immediately prior to the date in question) for five years after the most recent date on which the stockholder becomes an interested stockholder, and thereafter impose fair price and/or supermajority and stockholder voting requirements on these combinations; and

control share provisions that provide that control shares of our company (defined as shares that, when aggregated with other shares controlled by the stockholder, entitle the stockholder to exercise one of three increasing ranges of voting power in electing directors) acquired in a control share acquisition (defined as the direct or indirect acquisition of ownership or control of issued and outstanding control shares) have no voting rights except to the extent approved by our stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter, excluding all interested shares.

Table of Contents

The provisions of the MGCL relating to business combinations do not apply, however, to business combinations that are approved or exempted by our board of directors prior to the time that the interested stockholder becomes an interested stockholder. As permitted by the statute, our board of directors has by resolution exempted Milton M. Shiffman, Robert B. Bayer, and Gary A. Shiffman, their affiliates and all persons acting in concert or as a group with the foregoing, from the business combination provisions of the MGCL and, consequently, the five-year prohibition and the supermajority vote requirements will not apply to business combinations between us and these persons. As a result, these persons may be able to enter into business combinations with us that may not be in the best interests of our stockholders without compliance by our company with the supermajority vote requirements and the other provisions of the statute.

Also, pursuant to a provision in our bylaws, we have exempted any acquisition of our stock from the control share provisions of the MGCL. However, our board of directors may by amendment to our bylaws opt in to the control share provisions of the MGCL at any time in the future.

Additionally, Subtitle 8 of Title 3 of the MGCL permits our board of directors, without stockholder approval and regardless of what is currently provided in our charter or bylaws, to elect to be subject to certain provisions relating to corporate governance that may have the effect of delaying, deferring or preventing a transaction or a change of control of our company that might involve a premium to the market price of our common stock or otherwise be in our stockholders' best interests. These provisions include a classified board; two-thirds vote to remove a director; that the number of directors may only be fixed by the board of directors; that vacancies on the board as a result of an increase in the size of the board or due to death, resignation or removal can only be filled by the board, and the director appointed to fill the vacancy serves for the remainder of the full term of the class of director in which the vacancy occurred; and a majority requirement for the calling by stockholders of special meetings. Other than a classified board, the filling of vacancies as a result of the removal of a director and a majority requirement for the calling by stockholders of special meetings, we are already subject to these provisions, either by provisions of our charter and bylaws unrelated to Subtitle 8 or by reason of an election to be subject to certain provisions of Subtitle 8. In the future, our board of directors may elect, without stockholder approval, to make us subject to the provisions of Subtitle 8 to which we are not currently subject.

Risks Relating to the Series A-4 Preferred Shares

The Series A-4 Preferred Shares are not listed on a securities exchange, are not DTC-eligible and an active trading market for the Series A-4 Preferred Shares may not develop, which may negatively impact their market value and your ability to transfer or sell your shares. In addition, the Series A-4 Preferred Shares have no stated maturity date.

The Series A-4 Preferred Shares are a new issue of securities for which there is currently no public market. Because the Series A-4 Preferred Shares do not have a stated maturity date, investors seeking liquidity will be limited to selling their Series A-4 Preferred Shares in the secondary market. As of the date of this prospectus, the Series A-4 Preferred Shares are not listed on the NYSE or any other securities exchange or quotation system and are not eligible for deposit with DTC, and therefore may not be traded and serviced through DTC's electronic book-entry system. The lack of DTC-eligibility limits the availability to trade the Series A-4 Preferred Shares through brokers. There can be no assurance that the Series A-4 Preferred Shares will be listed on the NYSE or any other securities exchange or quotation system or that they will become DTC-eligible. There can be no assurance that any brokers or dealers will make a market in the Series A-4 Preferred Shares. Brokers or dealers that do make a market may cease their market making activities at any time. Moreover, even if you are able to sell your Series A-4 Preferred Shares, we cannot assure you as to the price at which any sales will be made. Future trading prices of the Series A-4 Preferred Shares will depend on many factors, including, among other things, prevailing interest rates, our operating results, the price

of our common stock, and the market for similar securities. Historically, the market for preferred securities has been subject to disruptions that have caused volatility in prices. It is possible that the market for the Series A-4 Preferred Shares will be subject to disruptions which may have a negative effect on the holders of the Series A-4 Preferred Shares, regardless of our prospects or financial performance.

The Series A-4 Preferred Shares have not been rated.

We have not sought to obtain a rating for the Series A-4 Preferred Shares. No assurance can be given, however, that one or more rating agencies might not independently determine to issue such a rating or that such a rating, if issued, would not adversely affect the market price of the Series A-4 Preferred Shares. In addition, we may elect in the future to obtain a rating of the Series A-4 Preferred Shares, which could adversely affect the market price of the Series A-4 Preferred Shares. Ratings only reflect the views of the rating agency or agencies issuing the ratings and such ratings could be revised downward, placed on a watch list or withdrawn entirely at the discretion of the issuing rating agency if in its judgment circumstances so warrant. Any such downward revision, placing on a watch list or withdrawal of a rating could have an adverse effect on the market price of the Series A-4 Preferred Shares.

Table of Contents

The Series A-4 Preferred Shares are subordinate to our 7.125% Series A Preferred Stock and our existing and future debt, and your interests could be diluted by the issuance of additional preferred stock and by other transactions.

The payment of amounts due on the Series A-4 Preferred Shares is subordinated to shares of our 7.125% Series A Preferred Stock and all of our existing and future debt, including our senior secured revolving credit facility, our collateralized term loans and our mortgage notes, and will be structurally subordinated to the obligations of our subsidiaries. Our future debt may also include restrictions on our ability to pay distributions to preferred stockholders. Subject to the affirmative vote or consent of the holders a majority of the outstanding Series A-4 Preferred Shares, we may also issue additional preferred stock in the future which is on a parity with or senior to the Series A-4 Preferred Shares with respect to the payment of distributions and the distribution of assets upon liquidation, dissolution or winding up. The issuance of such additional preferred stock on parity with or senior to the Series A-4 Preferred Shares would dilute the interests of the holders of the Series A-4 Preferred Shares, and any issuance of preferred stock senior to the Series A-4 Preferred Shares or of additional indebtedness could affect our ability to pay distributions on, or redeem or pay the liquidation preference on, the Series A-4 Preferred Shares. Any of these factors may affect the trading price for the Series A-4 Preferred Shares. See [Description of the Series A-4 Preferred Shares Ranking](#), [Description of the Series A-4 Preferred Shares Distributions](#) and [Description of the Series A-4 Preferred Shares Liquidation Preference](#).

As a holder of Series A-4 Preferred Shares, you will have extremely limited voting rights.

Your voting rights as a holder of Series A-4 Preferred Shares will be limited. Our common stock is the only class of our securities that carries full voting rights.

If a Preferred Distribution Default occurs, holders of Series A-4 Preferred Shares will be entitled to elect, voting together with any then outstanding preferred stock on a parity with the Series A-4 Preferred Shares upon which like voting rights have been conferred and are exercisable, two additional directors to serve on our board of directors until the Preferred Distribution Default is cured. The holders of the Series A-4 Preferred Shares and the holders of any other class or series of our preferred stock with applicable voting rights must vote for such persons as are selected by a plurality of the votes cast at a separate meeting of the holders of the Series A-4 Preferred Shares, any such other class or series of our preferred stock, the Series A-4 Preferred Units issued by the Operating Partnership and any other OP units issued by the Operating Partnership that are on a parity with the Series A-4 Preferred Units. In addition, the affirmative vote of the holders of a majority of the Series A-4 Preferred Shares is required for us to: (a) amend, alter, supplement or repeal any of the provisions of our charter (including the articles supplementary establishing the Series A-4 Preferred Shares) in a manner that adversely affects the powers, rights, privileges or preferences of the Series A-4 Preferred Shares or the holders of the Series A-4 Preferred Shares; or (b) subject to certain exceptions, authorize, create or issue any additional shares of capital stock, or reclassify any existing shares of capital stock into shares, ranking senior to or on parity with the Series A-4 Preferred Shares as to distributions and rights upon our voluntary or involuntary liquidation, dissolution or winding up.

Holders of other shares of preferred stock and OP units that have a right to vote to select or elect directors upon a Preferred Distribution Default may have interests and incentives different than those of holders of Series A-4 Preferred Shares. There can be no assurances that the holders of such securities will always act in a manner desired by you or other holders of Series A-4 Preferred Shares. Other than the limited circumstances described in this prospectus, holders of Series A-4 Preferred Shares will not have any voting rights. See [Description of the Series A-4 Preferred Shares Voting Rights](#).

If a Fundamental Change occurs, we will be able to redeem the Series A-4 Preferred Shares at our option at any time after November 26, 2019.

The Series A-4 Preferred Shares have no maturity date. If a Fundamental Change occurs, then at any time after November 26, 2019, we or the holders of the Series A-4 Preferred Shares may cause the Series A-4 Preferred Shares to be redeemed, as described under Description of the Series A-4 Preferred Shares Redemption. We do not need your consent in order to redeem the Series A-4 Preferred Shares as described above. If we redeem your Series A-4 Preferred Shares, you may not be able to invest the proceeds in an investment with a comparable return.

We may not have the ability to raise the funds necessary to redeem for cash Series A-4 Preferred Shares and we cannot redeem the Series A-4 Preferred Shares if we have not paid all of distributions on the 7.125% Series A Preferred Stock.

If a Fundamental Change occurs, then at any time after November 26, 2019, we or the holders of the Series A-4 Preferred Shares may cause the Series A-4 Preferred Shares to be redeemed, as described under Description of the Series A-4 Preferred Shares Redemption. We cannot assure you that we will have sufficient financial resources, or will be able to arrange financing, to pay the redemption price in cash with respect to any Series A-4 Preferred Shares you wish to redeem. In addition, our then existing indebtedness could contain restrictions which would not allow us to redeem your Series A-4 Preferred Shares. Also, we may not redeem Series A-4 Preferred Shares unless full cumulative distributions on the 7.125% Series A Preferred Stock for all past distribution periods and the then current distribution period have been or contemporaneously are declared and paid in cash or declared and contemporaneously a sum sufficient to pay them in full in cash is set apart for payment.

Holders of Series A-4 Preferred Shares will have no rights as holders of shares of our common stock until they acquire shares of our common stock.

Until a holder acquires shares of our common stock upon the conversion of Series A-4 Preferred Shares, it will have no rights with respect to shares of our common stock, including voting rights applicable to our common stock, rights to respond to tender offers and rights to receive any dividends or other distributions on shares of our common stock. Upon the conversion of their Series A-4 Preferred Shares, holders thereof will be entitled to exercise the rights of a holder of shares of our common stock only as to matters for which the record date occurs on or after the conversion date.

We may make cash payments instead of issuing shares of common stock if holders of the Series A-4 Preferred Shares exercise their conversion rights.

Subject to certain limitations, upon written notice to us, each holder of shares of Series A-4 Preferred Shares at its option may convert any or all of the Series A-4 Preferred Shares held by such holder shares of our common stock. At our option, instead of issuing the shares of common stock to the converting holder of Series A-4 Preferred Shares, we may make a cash payment to the converting holder with respect to each Series A-4 Preferred Share the holder desires to convert equal to the fair market value of one share of our common stock. We do not need your consent in order exercise this right and if we exercise this right, you may not be able to invest the proceeds in an investment with a comparable return. See Description of the Series A-4 Preferred Shares Conversion Rights Optional Conversion.

Our charter, which includes the articles supplementary establishing the Series A-4 Preferred Shares, contains restrictions upon ownership and transfer of our stock, which may impair the ability of holders to convert Series A-4 Preferred Shares into shares of our common stock.

Our charter, which includes the articles supplementary establishing the Series A-4 Preferred Shares, subject to certain exceptions, contains provisions providing that no holder may own more than 9.8%, in number of shares or value, of shares of our outstanding common stock and preferred stock. You should consider these ownership limitations prior to your purchase of Series A-4 Preferred Shares. In addition, the articles supplementary provide that, notwithstanding any other provision of the Series A-4 Preferred Shares, no holder of shares of Series A-4 Preferred Shares will be entitled to convert such shares into our common stock to the extent that receipt of our common stock would cause the holder to exceed the ownership limitations contained in our charter, which may limit your ability to convert the Series A-4 Preferred Shares into our common stock. The restrictions could also reduce the possibility that a third party will attempt to acquire control of us, which could adversely affect the market price of the Series A-4 Preferred Shares. See Description of the Series A-4 Preferred Shares Restrictions on Ownership and Transfer and Certain Provisions of Maryland Law and Our Charter and Bylaws Restrictions on Ownership and Transfer of our Stock for more information about these restrictions.

**RATIO OF EARNINGS TO COMBINED FIXED CHARGES
AND PREFERRED STOCK DISTRIBUTIONS**

The following table sets forth our ratio of earnings to combined fixed charges and preferred stock distributions for the periods indicated. In certain of the periods presented, earnings were not sufficient to cover combined fixed charges and preferred stock distributions. The extent of the deficiency in each such period is shown below.

	Fiscal Year ended December 31,				
	2014	2013	2012	2011	2010
Ratio of earnings to combined fixed charges and preferred stock distributions	1.02:1	1.13:1	1.07:1	0.98:1	0.98:1
Deficiency of earnings available to cover fixed charges	\$	\$	\$	\$ 1,607	\$ 1,355

The ratios of earnings to combined fixed charges and preferred stock distributions were computed by dividing earnings by the aggregate of our fixed charges and preferred distributions. For this purpose, earnings consist of (i) pre-tax income from continuing operations before adjustment for noncontrolling interests, gain on dispositions and distributions from affiliates, plus (ii) fixed charges, less (iii) capitalized interest, less (iv) distributions to holders of shares of our 7.125% Series A Cumulative Redeemable Preferred Stock, 6.50% Series A-4 Cumulative Convertible Preferred Stock and preferred securities of the Operating Partnership. Fixed charges consist of (i) interest expense (including the amortization of deferred financing costs and premiums and discounts on indebtedness), (ii) capitalized interest, (iii) estimate of interest within rental expense, and (iv) distributions to holders of shares of our 7.125% Series A Cumulative Redeemable Preferred Stock, 6.50% Series A-4 Cumulative Convertible Preferred Stock and preferred securities of the Operating Partnership.

During the periods prior to November 14, 2012, we had no issued and outstanding preferred stock and paid no preferred stock distributions.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the Registered Shares being offered for resale by the selling stockholders under this prospectus.

DESCRIPTION OF COMMON STOCK

We have the authority to issue 100,000,000 shares of capital stock, of which 90,000,000 shares are common stock, par value \$0.01 per share. As of March 31, 2015, we had 53,498,307 shares of common stock issued and outstanding.

The following description sets forth certain general terms and provisions of our common stock. The statements below describing the common stock are in all respects subject to and qualified in their entirety by reference to the applicable provisions of our charter and bylaws.

General

Subject to the preferential rights of any other class or series of stock, holders of our common stock will be entitled to receive distributions when, as and if declared by our board of directors, out of funds legally available therefor. Payment and declaration of distributions on the common stock and purchases of shares thereof by us will be subject to certain restrictions if we fail to pay distributions on the preferred stock. Upon any liquidation, dissolution or winding up of Sun, holders of common stock will be entitled to share equally and ratably in any assets available for distribution to them, after payment or provision for payment of the debts and other liabilities of Sun and the preferential amounts owing with respect to any outstanding preferred stock or senior debt securities.

The common stock will possess ordinary voting rights for the election of directors and in respect of other corporate matters, each share entitling the holder thereof to one vote. Holders of common stock will not have cumulative voting rights in the election of directors. Upon receipt by us of lawful payment therefor, the common stock will, when issued, be fully paid and nonassessable, and will not be subject to redemption except (as described in our charter) as necessary to preserve our status as a REIT. A stockholder of Sun has no preemptive rights to subscribe for additional shares of common stock or other securities of Sun except as may be granted by the board of directors.

Under Maryland law, a Maryland corporation generally cannot dissolve, amend its charter, merge, sell all or substantially all of its assets, engage in a share exchange or consolidation unless advised by the board of directors and approved by the affirmative vote of stockholders holding at least two-thirds of the votes entitled to be cast on the matter unless a lesser percentage, but not less than a majority of all the votes entitled to be cast on the matter, is set forth in the corporation's charter. Our charter does not provide for a lesser percentage in such situations.

Restrictions on Ownership

For us to qualify as a REIT under the Internal Revenue Code of 1986, as amended, or the Code, our common stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the issued and outstanding shares of capital stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities such as qualified private pension plans) during the last half of a taxable year (other than the first year) or during a proportionate part of a shorter taxable year.

Because the board of directors believes it is essential for us to continue to qualify as a REIT, our charter, subject to certain exceptions, contains a provision, which we refer to as the Ownership Limit, providing that no holder may own,

or be deemed to own by virtue of the attribution provisions of the Code, more than 9.8% in number of shares or value, of our outstanding common stock and preferred stock. The board of directors may exempt a

Table of Contents

person from the Ownership Limit if evidence satisfactory to the board of directors and our tax counsel is presented that the proposed transfer of stock to the intended transferee will not then or in the future jeopardize our status as a REIT. As a condition of such exemption, the intended transferee must give written notice to us of the proposed transfer and must furnish such opinions of counsel, affidavits, undertakings, agreements, and information as may be required by the board of directors no later than the fifteenth day prior to any transfer which, if consummated, would result in the intended transferee owning shares in excess of the Ownership Limit. The foregoing restrictions on transferability and ownership will not apply if the board of directors determines that it is no longer in the best interests of Sun to attempt to qualify or to continue to qualify as a REIT. Any transfer of shares of common stock that would: (i) create a direct or indirect ownership of shares of stock in excess of the Ownership Limit; (ii) result in the shares of stock being owned by fewer than 100 persons; or (iii) result in Sun being closely held within the meaning of Section 856(h) of the Code, shall be null and void, and the intended transferee will acquire no rights to the shares.

Our charter excludes Milton M. Shiffman, Gary A. Shiffman and Robert B. Bayer; trustees, personal representatives and agents to the extent acting for them or their respective estates; or certain of their respective relatives from the Ownership Limit. These persons may acquire additional shares of stock through the redemption of OP Units, through our equity incentive plans, from other stockholders or otherwise, but in no event will they be entitled to acquire additional shares such that the five largest beneficial owners of our stock hold more than 50% of the total outstanding stock.

Shares of stock purported to be transferred in excess of the Ownership Limit that are not otherwise permitted as provided above will constitute Excess Shares, which will be transferred by operation of law to Sun as trustee for the exclusive benefit of the person or persons to whom the Excess Shares are ultimately transferred, until such time as the intended transferee retransfers the Excess Shares. Subject to the Ownership Limit, the Excess Shares may be retransferred by the intended transferee to any person who may hold such Excess Shares at a price not to exceed the price paid by the intended transferee (or the market price of the common stock as of the date of purported transfer, if the intended transferee received the shares of stock as a gift or otherwise did not give value for the shares of stock), at which point the Excess Shares will automatically be exchanged for the stock to which the Excess Shares are attributable. In addition, such Excess Shares held in trust are subject to purchase by Sun. The purchase price of any Excess Shares shall be equal to the lesser of the price paid for the shares of stock by the intended transferee and the fair market value of such shares of stock reflected in the closing sales price for the shares of stock, if then traded on the NYSE, or the last reported sales price for the shares of stock on any exchange or quotation system over which our common stock may be traded, or, if such quotation is not available, the fair market value as determined by the board of directors in good faith, on the last trading day immediately preceding the day on which notice of such proposed purchase is sent by Sun. From and after the intended transfer to the intended transferee of the Excess Shares, the intended transferee shall cease to be entitled to distributions, voting rights, and other benefits with respect to such shares of the stock except the right to payment of the purchase price for the shares of stock or the transfer of shares as provided above. Any dividend or distribution paid to a proposed transferee on Excess Shares prior to our discovery that such shares of stock have been transferred in violation of the provisions of our charter shall be repaid to us upon demand. If the foregoing transfer restrictions are determined to be void or invalid by virtue of any legal decision, statute, rule, or regulation, then the intended transferee of any Excess Shares may be deemed, at Sun's option, to have acted as an agent on behalf of Sun in acquiring such Excess Shares and to hold such Excess Shares on behalf of Sun.

All certificates representing shares of stock will bear a legend referring to the restrictions described above.

All persons who own, directly or by virtue of the attribution provisions of the Code, more than 5% in number of shares or value, of our outstanding common stock and preferred stock must give a written notice to us containing the information specified in our charter by January 31 of each year. In addition, each stockholder shall upon demand be required to disclose to us in writing such information with respect to the direct, indirect and constructive ownership of

shares of common stock as the board of directors deems necessary to comply with the provisions of the Code applicable to a REIT, to comply with the requirements of any taxing authority or governmental agency or to determine any such compliance.

These ownership limitations could have the effect of discouraging a takeover or other transaction in which holders of some, or a majority of, shares of common stock might receive a premium for their shares over the then prevailing market price or which such holders might believe to be otherwise in their best interest.

The registrar and transfer agent for the common stock is Computershare Trust Company, N.A.

Maturity

The Series A-4 Preferred Shares have no stated maturity and are not subject to any sinking fund or mandatory redemption requirements.

Ranking

The Series A-4 Preferred Shares rank, with respect to distribution rights and rights upon our voluntary or involuntary liquidation, dissolution or winding up:

junior to all of our existing and future debt obligations, including convertible or exchangeable debt securities;

senior to shares of our common stock, to our Junior Participating Preferred Stock, \$0.01 par value per share, or the Junior Participating Preferred Stock, and to any other of our equity securities that by their terms rank junior to the Series A-4 Preferred Shares;

on a parity with any other class or series of shares of our preferred stock or other equity securities that we may later authorize or issue in the future and that by their terms are on a parity with the Series A-4 Preferred Shares (which we may only authorize with the affirmative vote of the holders of a majority of the Series A-4 Preferred Shares); and

junior to the 7.125% Series A Preferred Stock and any equity securities that we may later authorize and that by their terms rank senior to the Series A-4 Preferred Shares (which we may only authorize with the affirmative vote of the holders of a majority of the Series A-4 Preferred Shares).

Table of Contents**Distributions**

Subject to the preferential rights of the holders of the 7.125% Series A Preferred Stock and any senior securities we may authorize and designate in the future, we will distribute to the record holders of our Series A-4 Preferred Shares cumulative preferential cash distributions of \$1.625 per share each year, which is equivalent to 6.50% of the \$25.00 liquidation preference per year per Series A-4 Preferred Share. Notwithstanding the foregoing, upon the occurrence of a Fundamental Change (as defined under Redemption below), from and after such Fundamental Change the distribution rate on the Series A-4 Preferred Shares will be increased to an annual rate equal to the greater of (i) 10.00%, and (ii) 8.00% above the then-published (in the Wall Street Journal) U.S. Treasury maturing on the date closest to the five year anniversary of the date the Fundamental Change occurs. The adjusted distribution rate will be determined initially as of the date of the Fundamental Change and then adjusted on each anniversary of the Fundamental Change. Distributions will be distributed when, as and if declared by our board of directors and will be payable out of funds legally available for such payments.

Distributions on the Series A-4 Preferred Shares are cumulative from and including the date of original issue by us and are payable quarterly in arrears on the last day of March, June, September and December of each year or, if any such day is not a business day, then on the next succeeding business day. The term business day means each day, other than a Saturday, Sunday or legal holiday under Michigan or federal law. The distributions payable on any distribution payment date will include distributions accrued from and including the immediately preceding distribution payment date (or, with respect to the first distribution payment date, the original date of issuance) to but not including such distribution payment date. The amount of distribution payable on each distribution payment date will be computed by dividing the annual distribution amount by four. Distributions will be payable to holders of record as they appear in our stock records at the close of business on the applicable record date, or on such other date designated by our board of directors that is not more than 30 nor less than 10 days prior to the due date for the distribution payment.

We will not declare or pay distributions on the Series A-4 Preferred Shares, or pay or set apart for payment distributions on the Series A-4 Preferred Shares, at any time if the terms and provisions of any agreement to which we are a party, including any agreement relating to our indebtedness, prohibits, directly or indirectly, the authorization, payment or setting apart for payment or provides that the authorization, payment or setting apart for payment would constitute a breach of the agreement or a default under the agreement, or if the declaration, payment or setting apart for payment is restricted or prohibited by law. These restrictions may include indirect covenants which require us to maintain specified levels of net worth or assets. We do not believe that these restrictions currently have any adverse impact on our ability to pay distributions on the Series A-4 Preferred Shares.

Notwithstanding the foregoing, distributions on the Series A-4 Preferred Shares are cumulative and accrue whether or not we have earnings, whether or not there are funds legally available for the payment of those distributions, and whether or not those distributions are declared or authorized. Accrued but unpaid distributions on the Series A-4 Preferred Shares accumulate as of the due date on which each such distribution payment first becomes payable.

Unless full cumulative distributions on the Series A-4 Preferred Shares for all past distribution periods have been or contemporaneously are declared and paid in cash or declared and contemporaneously a sum sufficient to pay them in full in cash is set apart for payment, we will not authorize, declare, pay, set apart for payment or otherwise make any distributions on (other than a distribution paid in common stock or in any other class of shares ranking junior to the Series A-4 Preferred Shares as to distributions and upon our voluntary or involuntary liquidation, dissolution or winding up, or options, warrants or rights to subscribe for or purchase our common stock or such junior shares), or redeem, purchase or otherwise acquire for any consideration (or pay or make available any monies for a sinking fund for the redemption of any such shares) any shares of common stock or any other series of preferred stock ranking

junior to or on parity with the Series A-4 Preferred Shares as to distributions and upon our voluntary or involuntary liquidation, dissolution or winding up; provided that this restriction will not limit distributions on or our acquisition of any such shares of common stock or shares of junior stock (1) by conversion into or exchange for any such shares of common stock or shares of junior stock, (2) by redemption, purchase or other acquisition of shares of our common stock or shares of junior stock made for purposes of an incentive, benefit or share purchase plan of Sun, its subsidiaries, the Operating Partnership or any of its subsidiaries, (3) redemptions, repurchases or other acquisitions for the purpose of preserving our status as a REIT for federal income tax purposes, or (4) distributions required in order for us to maintain our status as a REIT for federal income tax purposes.

Table of Contents

When we do not pay distributions in full in cash (or we do not set apart a sum sufficient to pay them in full) upon the Series A-4 Preferred Shares and any other series of preferred stock ranking on a parity as to distributions with the Series A-4 Preferred Shares, we will declare any distributions upon the Series A-4 Preferred Shares and any other series of preferred stock ranking on a parity as to distributions with the Series A-4 Preferred Shares proportionately so that the distributions declared and paid or set apart for payment per share of Series A-4 Preferred Shares and those other series of preferred stock will in all cases bear to each other the same ratio that accumulated, accrued and unpaid distributions per share on the Series A-4 Preferred Shares and those other series of preferred stock (which will not include any accumulation in respect of unpaid distributions on such other series of preferred stock for prior distribution periods if those other series of preferred stock do not have cumulative distributions) bear to each other. No interest, or sum of money in lieu of interest, will be payable in respect of any distribution payment or payments on the Series A-4 Preferred Shares which may be in arrears.

Record holders of our Series A-4 Preferred Shares are not entitled to any distribution, whether payable in cash, securities or other property, in excess of full cumulative distributions on the Series A-4 Preferred Shares as provided above, except as described under Liquidation Preference and Redemption below. Any distribution payment made on the Series A-4 Preferred Shares will first be credited against the earliest accrued but unpaid distributions due with respect to those shares.

If, for any taxable year, we elect to designate any portion of the distributions, within the meaning of the Internal Revenue Code, paid or made available for the year to holders of all classes of our capital stock as capital gain dividends, as defined in Section 857 of the Internal Revenue Code, then the portion of the distributions designated as capital gain dividends that will be allocable to the record holders of our Series A-4 Preferred Shares will be the portion of the distributions designated as capital gain dividends multiplied by a fraction, the numerator of which will be the total distributions paid or made available to such record holders of our Series A-4 Preferred Shares for the year and the denominator of which will be the total distributions paid or made available for the year to holders of all classes of our capital stock.

Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding-up of our affairs, the record holders of the Series A-4 Preferred Shares will be entitled to be paid out of our assets legally available for distribution to our stockholders, after payment of or provision for our debts and other liabilities, a liquidation preference of \$25.00 per Series A-4 Preferred Share, plus an amount equal to any accrued and unpaid distributions (whether or not authorized or declared) to the date of payment to such holders. This amount will be paid after any distributions or payments are made to holders of our 7.125% Series A Preferred Stock and any other class or series of stock we may authorize and designate in the future that rank senior to the Series A-4 Preferred Shares with respect to such liquidating distributions and before any distribution or payment may be made to holders of shares of our common stock or any other class or series of shares ranking junior to the Series A-4 Preferred Shares as to liquidation rights. If, upon our voluntary or involuntary liquidation, dissolution or winding up, our available assets are insufficient to pay the amount of the liquidation distributions on all outstanding Series A-4 Preferred Shares and the corresponding amounts payable on all other classes or series of shares ranking on a parity with the Series A-4 Preferred Shares as to liquidation rights, then the record holders of the Series A-4 Preferred Shares and all other classes or series of shares of that kind will share proportionately in any such distribution of assets in proportion to the full liquidating distributions to which they would otherwise be respectively entitled.

The record holders of our Series A-4 Preferred Shares are entitled to written notice of any liquidation. After payment of the full amount of the liquidating distributions to which they are entitled, such record holders will have no other right or claim to any of our remaining assets. Our consolidation or merger with or into any other corporation or other

entity, the consolidation or merger of any other corporation or other entity with or into us, a statutory share exchange by us, or the voluntary sale, lease, exchange, transfer or conveyance of all or substantially all of our property or assets will not be deemed to constitute our liquidation, dissolution or winding-up. In determining whether a distribution (other than upon voluntary or involuntary liquidation), by dividend, redemption or other acquisition of shares or otherwise, is permitted under Maryland law, amounts that would be needed, if we were to be dissolved at the time of distribution, to satisfy the preferential rights upon dissolution of holders of our Series A-4 Preferred Shares will not be added to our total liabilities.

Redemption

If a Fundamental Change (as defined below) occurs, then at any time after November 26, 2019:

we may, from time to time at our option, redeem all or any part of the outstanding Series A-4 Preferred Shares for a redemption price, or the Redemption Price, payable in cash, equal to the sum of (A) the greater of (x) the amount that such Series A-4 Preferred Shares would have received in the Fundamental Change if they had been converted into shares of our common stock immediately prior to such Fundamental Change or (y) \$25.00 per share, plus (B) any accrued and unpaid distributions on the redeemed Series A-4 Preferred Shares to, but not including, the redemption date, without interest; and

each holder of Series A-4 Preferred Shares will have the right to cause the Company to redeem such holder's Series A-4 Preferred Shares for the Redemption Price.

For these purposes, a Fundamental Change means that either of the following events shall have occurred and are continuing:

our common stock ceases to be listed on the NYSE, the NYSE MKT or NASDAQ, or listed or quoted on an exchange or quotation system that is a successor to the NYSE, the NYSE MKT or NASDAQ; or

(x) the acquisition by any person or group within the meaning of Section 13(d)(3) of the Exchange Act, of beneficial ownership, directly or indirectly, through a purchase, merger or other acquisition transaction or series of purchases, mergers or other acquisition transactions of shares of our common stock entitling that person or group to exercise more than 50% of the total voting power of all shares of our common stock entitled to vote generally in the election of our directors (except that such person or group shall be deemed to have beneficial ownership of all securities that such person or group has the right to acquire, whether such right is currently exercisable or is exercisable only upon the passage of time or occurrence of a subsequent condition); and (y) following the closing of any transaction referred to in clause (x) above, neither we nor the acquiring or surviving entity has a class of common securities (or American Depositary Receipts representing such securities) listed on the NYSE, the NYSE MKT or NASDAQ, or listed or quoted on an exchange or quotation system that is a successor to the NYSE, the NYSE MKT or NASDAQ.

We are required to deliver to all holders of Series A-4 Preferred Shares: (i) notice of the anticipated effective date of a Fundamental Change by the later of (A) 20 business days in before the anticipated effective date and (B) the date of first public disclosure by us of the Fundamental Change, which notice shall include a reasonable summary of the terms of such Fundamental Change and the resulting distribution rate and conversion price applicable to the Series A-4 Preferred Shares; (ii) notice of the occurrence of the Fundamental Change within 15 days after the occurrence of the Fundamental Change; and (iii) notice of the distribution rate applicable to the Series A-4 Preferred Shares within 15 days after each anniversary of such Fundamental Change.

To exercise redemption rights, we or a holder of Series A-4 Preferred Shares must provide written notice of the redemption. The notice must specify:

the redemption date, which may not be less than 10 business days, nor more than 60 business days, after the date of the notice;

the number of Series A-4 Preferred Shares to be redeemed;

the Redemption Price; and

that distributions on the Series A-4 Preferred Shares to be redeemed will cease to accumulate immediately prior to such redemption date.

A failure to give notice of redemption or any defect in the notice or in its mailing will not affect the validity of the redemption of any Series A-4 Preferred Shares except as to the holder to whom notice was defective or not given.

Once we or a holder of Series A-4 Preferred Shares send a notice of redemption, the holders of the Series A-4 Preferred Shares to which the notice of redemption relates will cease to have the right to convert those Series A-4 Preferred Shares into shares of common stock as described below under Conversion Rights.

Table of Contents

On or after the redemption date, upon the holder's surrender of the certificates, if any, representing the Series A-4 Preferred Shares being redeemed, we will pay the Redemption Price for the redeemed Series A-4 Preferred Shares (including all accrued and unpaid distributions to but excluding the redemption date) to the holder of the Series A-4 Preferred Shares and each surrendered Series A-4 Preferred Share certificate, if any, will be canceled, and a new certificate will be issued for any shares represented by certificated Series A-4 Preferred Shares that are not being redeemed.

From and after the redemption date (unless we default in payment of the Redemption Price), all distributions on the Series A-4 Preferred Shares designated for redemption in the redemption notice will cease to accrue, those Series A-4 Preferred Shares will no longer be deemed outstanding and all rights of the holders of those Series A-4 Preferred Shares will terminate, except the right to receive the Redemption Price. At our election, prior to a redemption date and upon notice to the holders of the applicable Series A-4 Preferred Shares, we may irrevocably deposit the Redemption Price for Series A-4 Preferred Shares to be redeemed in trust for the holders with a bank or trust company. Any monies so deposited which remain unclaimed at the end of two years after the redemption date shall be returned by such bank or trust company to the Company.

If we redeem fewer than all of the outstanding Series A-4 Preferred Shares, the notice mailed to each holder will also specify the number of Series A-4 Preferred Shares held by such holder to be redeemed. In this case, we will determine the number of Series A-4 Preferred Shares to be redeemed on a pro rata basis, by lot or by any other equitable method we may choose, and to the extent that any of the Series A-4 Preferred Shares to be redeemed are certificated, new certificates will be issued evidencing the unredeemed shares.

Notwithstanding anything else to the contrary in the articles supplementary establishing the Series A-4 Preferred Shares, we will not be required to provide notice of redemption in the manner described above to a holder of Series A-4 Preferred Shares in the event such holder's Series A-4 Preferred Shares are redeemed in accordance with the terms of our charter in order to preserve our status as a REIT for U.S. federal income tax purposes.

Except as otherwise provided herein, the redemption provisions of the Series A-4 Preferred Shares do not in any way limit our right or ability to purchase, from time to time either at a public or a private sale, Series A-4 Preferred Shares at such price or prices as we may determine, subject to the provisions of applicable law.

In addition, we will comply with any applicable requirements of the NYSE or any other securities exchange on which the Series A-4 Preferred Shares may be listed at the time of any redemption.

Any Series A-4 Preferred Shares that we redeem or otherwise reacquire will be retired and will be restored to the status of authorized and unissued preferred stock without designation as to class or Series A-4nd may be reissued as shares of any class or series of preferred stock.

In order to ensure that we remain qualified as a REIT for federal income tax purposes, the Series A-4 Preferred Shares are subject to provisions of our charter, under which Series A-4 Preferred Shares owned by a stockholder in excess of the ownership limit, as defined in this prospectus, will be designated automatically as Excess Shares and transferred as described in Certain Provisions of Maryland Law and Our Charter and Bylaws Restrictions on Ownership and Transfer of our Stock below and Description of Common Stock Restrictions on Ownership above. Accordingly, without limiting the redemption rights described above, we may purchase the Excess Shares after any such transfer in accordance with the terms of our charter.

Conversion Rights

Except as provided below, the Series A-4 Preferred Shares are not convertible into or exchangeable for any of our other securities or our property.

Optional Conversion

Subject to the limitations below, upon written notice to us, each holder of shares of Series A-4 Preferred Shares at its option may convert any or all of the Series A-4 Preferred Shares held by such holder for that number of shares of our common stock equal to the quotient obtained by dividing \$25.00 by the then-applicable conversion price, or the Conversion Price. The initial Conversion Price is \$56.25, so initially each Series A-4 Preferred Share is convertible into approximately 0.4444 shares of common stock. The Conversion Price is subject to adjustment as described below under Conversion Price Adjustments. We will not convert less than 1,000 Series A-4 Preferred Shares into shares of common stock on any conversion date. A holder of Series A-4 Preferred Shares may not exercise its conversion right if the conversion would cause us to no longer qualify as a REIT or could violate applicable securities laws.

Table of Contents

At our option, instead of issuing the shares of common stock to the converting holder of Series A-4 Preferred Shares as described above, we may make a cash payment to the converting holder with respect to each Series A-4 Preferred Share the holder desires to convert equal to the fair market value of one share of our common stock, or the Common Stock Fair Market Value. In that case, the holder will only have the right to such payment and shall cease to have any further rights as a stockholder. The Common Stock Fair Market Value will be the average of the closing prices (or if our common stock is then traded on an over-the-counter exchange, the average of the reported bid and ask prices) of our common stock for the 10 consecutive trading days preceding the conversion date. If our common stock is not publicly-traded, its fair market value will be determined jointly by us and the converting stockholders.

Holders of Series A-4 Preferred Shares may withdraw any conversion notice (in whole or in part) by a written notice of withdrawal delivered to us prior to the conversion date specified in the conversion notice.

Mandatory Conversion

If, at any time after November 26, 2019, the volume weighted average of the daily volume weighted average price of a share of our common stock on the NYSE equals or exceeds 115.5% of the then prevailing Conversion Price for at least 20 trading days in a period of 30 consecutive trading days, then, within 10 days thereafter, upon written notice to the holders thereof, we may convert each outstanding Series A-4 Preferred Share into that number of shares of common stock equal to the quotient obtained by dividing \$25.00 by the Conversion Price.

Terms Applicable to Optional and Mandatory Conversions

On the distribution payment date next following the conversion date of any Series A-4 Preferred Shares, we will pay the holders of those Series A-4 Preferred Shares a distribution in an amount equal to (i) a prorated portion of the accrued distributions on the Series A-4 Preferred Shares based on the number of days elapsed from the prior distribution payment date through, but not including, the conversion date, less (ii) the amount of the distribution or dividend, if any, paid on the shares of common stock into which the Series A-4 Preferred Shares were converted for the quarterly period in which the conversion date occurred.

We will at all times reserve and keep available out of the authorized and unissued shares of our common stock, solely for issuance upon the conversion of the Series A-4 Preferred Shares, that number of shares of our common stock as from time to time are issuable upon the conversion of all the Series A-4 Preferred Shares then outstanding.

We will not issue fractional shares of common stock upon the conversion of the Series A-4 Preferred Shares. Instead, we will pay the cash value (computed to the nearest cent) of such fractional shares, based on the fair market value of our common stock.

Conversion Price Adjustments

Stock Dividends and Similar Transactions

If we:

pay a dividend or make a distribution on our common stock payable in shares of common stock,

subdivide the outstanding shares of our common stock into a greater number of shares,

combine the outstanding shares of our common stock into a smaller number of shares, or

issue any shares of capital stock by reclassification of outstanding shares of our common stock (including a reclassification pursuant to a merger or consolidation in which we are the continuing entity and in which the shares of our common stock outstanding immediately prior to the merger or consolidation are not exchanged for cash, or securities or other property of another entity),

then, the Conversion Price in effect at the opening of business on the day following the date fixed for the determination of stockholders entitled to receive such dividend or distribution or at the opening of business on the day following the day on which such subdivision, combination or reclassification becomes effective, as the case may be, will be adjusted so that the holder of any Series A-4 Preferred Shares thereafter surrendered for conversion will be entitled to receive the number of shares of common stock that it would have owned or have been entitled to receive after the happening of any of the events described above if such Series A-4 Preferred Shares had been exchanged or converted immediately prior to the record date in the case of a dividend or distribution or the effective date in the case of a subdivision, combination or reclassification. Subject to limited exceptions, an adjustment of the type described in this paragraph will become effective immediately after the opening of business on the day next following the record date in the case of a dividend or distribution and will become effective immediately after the opening of business on the day next following the effective date in the case of a subdivision, combination or reclassification.

Issuance of Options and Similar Transactions

If we issue rights, options or warrants to all holders of shares of our common stock entitling them (for a period expiring within 45 days after the record date described below) to subscribe for or purchase shares of our common stock at a price per share less than the Common Stock Fair Market Value on the record date for the determination of stockholders entitled to receive such rights, options or warrants, then the Conversion Price in effect at the opening of business on the day next following such record date shall be adjusted to equal the price determined by multiplying:

(A) the Conversion Price in effect immediately prior to the opening of business on the day following the date fixed for such determination by

(B) a fraction,

the numerator of which will be the sum of (X) the number of shares of our common stock outstanding on the close of business on the date fixed for such determination and (Y) the number of shares of common stock that could be purchased at such Common Stock Fair Market Value from the aggregate proceeds to us from the exercise of such rights, options or warrants for shares of our common stock, and

the denominator of which will be the sum of (XX) the number of shares of our common stock outstanding on the close of business on the date fixed for such determination and (YY) the number of additional shares of our common stock offered for subscription or purchase pursuant to such rights, options or warrants.

Subject to limited exceptions, an adjustment of the type described in this paragraph will become effective immediately after the opening of business on the day next following such record date. In determining whether any rights, options or warrants entitle the holders of shares of our common stock to subscribe for or purchase shares of common stock at less than such Common Stock Fair Market Value, there shall be taken into account any consideration we receive upon issuance and upon exercise of such rights, options or warrants, the value of such consideration, if other than cash, to be determined in good faith by our board of directors.

Other Common Stock Distributions

If we make a distribution on the shares of our common stock other than in cash or shares of common stock (including any distribution in securities (other than rights, options or warrants referred to above under *Issuance of Options and Similar Transactions*)) (each of the foregoing being referred to herein as a *distribution*), then the Conversion Price in effect at the opening of business on the next day following the record date for determination of stockholders entitled to receive such distribution shall be adjusted to equal the price determined by multiplying:

(A) the Conversion Price in effect immediately prior to the opening of business on the day following the record date by

(B) a fraction,

the numerator of which will be the difference between (X) the number of shares of our common stock outstanding on the close of business on the record date and (Y) the number of shares determined by dividing (aa) the aggregate value of the property being distributed by (bb) the Common Stock Fair Market Value on the record date, and

the denominator of which shall be the number of shares of our common stock outstanding on the close of business on the record date.

Subject to limited exceptions, an adjustment of the type described in this paragraph will become effective immediately after the opening of business on the day next following the record date (except as provided below). The value of the property being distributed shall be as determined in good faith by our board of directors; provided, however, that if the property being distributed is a publicly traded security, its value will be calculated in accordance with the procedure for calculating the Common Stock Fair Market Value (calculated for a period of five consecutive trading days commencing on the twentieth trading day after the distribution). Neither the issuance by us of rights, options or warrants to subscribe for or purchase any of our securities nor the exercise thereof shall be deemed a distribution for purposes of the adjustments described in this paragraph.

Table of Contents

Self-Tender Offers

If we acquire, pursuant to an issuer or self-tender offer, all or any portion of the outstanding shares of our common stock and the tender offer involves the payment of consideration per share of our common stock having a Common Stock Fair Market Value (as determined in good faith by our board of directors), at the last time, or the Expiration Time, tenders may be made pursuant to the offer, that exceeds the closing price per share of our common stock on the trading day next succeeding the Expiration Time, then the Conversion Price in effect on the opening of business on the next day after the Expiration Time will be adjusted to equal the price determined by multiplying:

(A) the Conversion Price in effect immediately prior to the Expiration Time by

(B) a fraction,

the numerator of which will be (X) the number of shares of our common stock outstanding (including the shares acquired in the tender offer) immediately prior to the Expiration Time, multiplied by (Y) the closing price per share of our common stock on the next trading day following the Expiration Time, and

the denominator of which will be the sum of (XX) the value (determined in accordance with the procedures described under *Other Common Stock Distributions* above) of the aggregate consideration paid to acquire the shares acquired in the tender offer and (YY) the product of (I) the number of shares of our common stock outstanding (less any shares acquired in the tender offer) at the Expiration Time, multiplied by (II) the closing price per shares of our common stock on the next trading day following the Expiration Time.

Equitable Adjustments and Discretionary Decrease in Conversion Price

If we take any action affecting our common stock, other than the actions described above, that in the opinion of our board of directors would materially adversely affect the exchange or conversion rights of the holders of Series A-4 Preferred Shares, the Conversion Price Stock may be adjusted, to the extent permitted by law, in such manner, if any, and at such time as our board of directors, in its sole discretion, may determine to be equitable under the circumstances.

In addition, to the extent permitted by law, we may decrease the Conversion Price by any amount, permanently or for a period of at least 20 business days, if the decrease is irrevocable during the period.

Limitations on Adjustments

No adjustment in the Conversion Price will be required unless the adjustment would require a cumulative increase or decrease of at least 1% in the Conversion Price, but any such adjustments that are not made immediately will be carried forward and taken into account in any subsequent adjustment until made and any adjustment will be required and made not later than such time as may be required in order to preserve the tax-free nature of a distribution to the holders of our common stock.

We will not be required to make any adjustment of the Conversion Price for:

the issuance of any shares of our common stock under any plan providing for the reinvestment of dividends or interest payable on our securities and the investment of optional amounts in shares of our common stock under such plan,

the issuance of any options, rights or shares of our common stock under any stock option, stock purchase or other equity-based plan we maintain, or

the repurchase of any shares of our common stock under an open-market share repurchase program or other buy-back transaction that is not a tender offer or exchange offer.

We may, to the extent permitted by law, reduce in the Conversion Price, in addition to the adjustments described above, so that any stock dividends, subdivision of shares, reclassification or combination of shares, distribution of rights or warrants to purchase stock or securities, or a distribution of other assets (other than cash dividends) we make to our stockholders will not be taxable, or if that is not possible, to diminish any income taxes that are otherwise payable because of such event.

Table of Contents

Constructive Conversion of Series A-4 Preferred Shares in Certain Transactions

If we enter into a transaction (including without limitation a merger, consolidation, statutory share exchange, issuer or self-tender offer for at least 30% of the shares of our common stock outstanding, sale of all or substantially all of our assets or recapitalization of the shares of our common stock, but excluding any transaction of the type described under

Stock Dividends and Similar Transactions above), in which shares of our common stock are converted into the right to receive stock, securities or other property, each Series A-4 Preferred Share that is not converted into the right to receive stock, securities or other property in connection with the transaction will be convertible or exchangeable into the kind and amount of shares of stock, securities and other property that would have been received if that Series A-4 Preferred Share had been converted into shares of our common stock immediately before the transaction (without giving effect to any Conversion Price adjustment under Self Tender Offers above). We may not enter into any transaction of this type unless its terms are consistent with this paragraph.

Notices

We are obligated to send to holders of Series A-4 Preferred Shares written notice if:

we declare dividends on our common stock (other than cash dividends and cash distributions),

we grant to our common stockholders rights or warrants to subscribe for or purchase shares of our capital stock or any other rights or warrants,

we reclassify the outstanding shares of our common stock or enter into any consolidation or merger that requires approval of our stockholders, or enter into a statutory share exchange, an issuer or self-tender offer for at least 30% of the outstanding shares of our common stock (or an amendment thereto changing the maximum number of shares sought or the amount or type of consideration being offered therefor shall have been adopted), or the sale or transfer of all or substantially all of our assets as an entirety, or

a voluntary or involuntary liquidation, dissolution or winding up of Sun occurs.

We are obligated to send written notice to holders of Series A-4 Preferred Shares of any adjustment of the Conversion Price. Each notice must include the adjusted Conversion Price and the effective date of the adjustment.

Voting Rights

Holders of Series A-4 Preferred Shares generally have no voting rights, except as described below.

Voting Rights upon Preferred Distribution Default

A preferred distribution default, or a Preferred Distribution Default, will exist if for six or more quarterly periods (whether or not consecutive), full cumulative distributions are not paid on:

the Series A-4 Preferred Shares,

any series of preferred stock ranking on parity with the Series A-4 Preferred Shares as to rights to receive distributions and to participate in distributions or payments in the event of any voluntary or involuntary liquidation, dissolution or winding up of Sun, or Series A-4 Parity Preferred Stock,

the Series A-4 Preferred Units, or

any class or series of OP units issued by the Operating Partnership that rank on parity with the Series A-4 Preferred Units with respect to distributions and rights upon voluntary or involuntary liquidation, dissolution or winding up of the Operating Partnership, or Series A-4 Parity Preferred Units.

Table of Contents

Except as described in the last paragraph of this subsection below, if a Preferred Distribution Default occurs, holders of the Series A-4 Preferred Shares, voting together as a class with the holders of all shares of Series A-4 Parity Preferred Stock and upon which like voting rights have been conferred and are exercisable, which we refer to collectively with the Series A-4 Preferred Shares as the Voting Preferred Stock, will be entitled to elect two additional directors to our board of directors, which we refer to as Preferred Stock Directors. The holders of the Voting Preferred Stock shall vote for and elect (and may only vote for and elect) as the Preferred Stock Directors such persons as shall have been selected by a plurality of the votes cast at a separate meeting of the holders of the Voting Preferred Stock, the Series A-4 Preferred Units and any Series A-4 Parity Preferred Units (voting together as a single class) held for such purpose, such meeting to be held with respect to notice and other procedural matters in substantially the same manner as a special meeting of our stockholders. The election of the Preferred Stock Directors will take place at the next annual meeting of stockholders, or at a special meeting of the holders of Series A-4 Preferred Shares and any other class or series of Voting Preferred Stock called for that purpose and each subsequent annual meeting (or special meeting held in its place) unless and until all distributions accumulated on the Series A-4 Preferred Shares, any other class or series of Voting Preferred Stock, the Series A-4 Preferred Units and the Series A-4 Parity Preferred Units have been paid in full for all past distribution periods and the accumulated distribution for the then current distribution period shall have been authorized, declared and fully paid or authorized, declared and a sum sufficient for the payment thereof irrevocably set apart for payment in trust. Each Preferred Stock Director will serve for a one-year term and until the director's successor is duly elected and qualifies or until the director's right to hold the office terminates, whichever occurs earlier, and will be entitled to one vote on any matter before the board of directors.

Upon the election of Preferred Stock Directors, the size of our board of directors will be increased by two directors, if not already increased by two by reason of the election of directors by the holders of any class or series of Voting Preferred Stock.

So long as a Preferred Distribution Default continues, any vacancy in the office of a Preferred Stock Director elected under this paragraph may be filled only by action of the other Preferred Stock Director who remains in office or by a vote of the holders of the Voting Preferred Stock when they have the voting rights described above in accordance with the procedures described above. At any time that the voting rights conferred upon the Voting Preferred Stock are exercisable, and notwithstanding anything to the contrary in our bylaws, our secretary may, and upon the written request of holders entitled to cast at least 10% of the votes entitled to be cast by the holders of the Series A-4 Preferred Units, any Series A-4 Parity Preferred Units and the Voting Preferred Stock will, call a special meeting of the holders of the Voting Preferred Stock for the purpose of electing the Preferred Stock Directors. If any such special meeting required to be called as above provided shall not be called by our secretary within 20 days after receipt of any such request, then any holder of Series A-4 Preferred Shares may call such meeting, upon the notice above provided, and for that purpose shall have access to the our stock books.

Subject to the next sentence, any Preferred Stock Director may be removed with or without cause only by the affirmative vote of a majority of the holders of the outstanding Voting Preferred Stock, and may not be removed by the holders of our common stock. The holders of the outstanding Voting Preferred Stock shall only vote to remove a Preferred Stock Director upon the approval of a majority of the votes entitled to be cast by the holders of the Series A-4 Preferred Units, any Series A-4 Parity Preferred Units and the Voting Preferred Stock (voting together as a single class) at a meeting of such holders held for such purpose.

If and when all accumulated distributions on the Series A-4 Preferred Shares, any other class or series of Voting Preferred Stock, the Series A-4 Preferred Units and the Series A-4 Parity Preferred Units shall have been paid in full or authorized, declared, and a sum sufficient for payment thereof has been irrevocably set apart for payment in trust, and a sum sufficient for the then-current distribution period has been authorized, declared and set apart for payment in trust, the voting rights with respect to Preferred Stock Directors will terminate (subject to reinstatement in the event of

each and every Preferred Distribution Default), the term of office of each of the Preferred Stock Directors so elected will terminate and the size of our board of directors will be reduced accordingly.

Notwithstanding the foregoing, until May 26, 2017, the Preferred Stock Directors, if any, shall be Randall K. Rowe and James R. Goldman and, if they are serving on our board of directors at the time of a Preferred Distribution Default, the Voting Preferred Stock shall not have the right to appoint additional directors to the board of directors.

Other Voting and Consent Rights

So long as any Series A-4 Preferred Shares remain outstanding, the affirmative vote or consent of the holders of a majority of the outstanding Series A-4 Preferred Shares (voting separately as a class) will be required to:

amend, alter, supplement or repeal any of the provisions of our charter (including the articles supplementary establishing the Series A-4 Preferred Shares) in a manner that adversely affects the powers, rights, privileges or preferences of the Series A-4 Preferred Shares or the holders of the Series A-4 Preferred Shares; provided, however, that the creation or issuance of additional shares of our capital stock or other equity securities in accordance with the articles supplementary establishing the Series A-4 Preferred Shares shall not be deemed to adversely affect the powers, rights or preferences of the Series A-4 Preferred Shares; or

authorize, create or issue any additional shares of capital stock or other equity securities, or reclassify any existing shares of capital stock or other equity securities into shares ranking senior to or on parity with the Series A-4 Preferred Shares as to distributions and upon our voluntary or involuntary liquidation, dissolution or winding up; except that we may authorize, create and issue: (i) senior shares of capital stock or other equity securities in connection with a subsequent public offering of preferred stock by us, and (ii) any class or series of capital stock or other equity securities expressly designated to rank on parity with the Series A-4 Preferred Shares with respect to distributions and rights upon voluntary or involuntary liquidation, winding-up or dissolution of the Company, so long as at the time of the issuance the leverage ratio (as defined in our primary credit facility agreement from time to time) is less than 68.50% (or such other percentage as set forth in the credit facility agreement in which the leverage ratio is defined) and full cumulative distributions on the Series A-4 Preferred Shares for all past distribution periods ending on or prior to such date have been or contemporaneously are declared and paid in cash or declared and contemporaneously a sum sufficient to pay them in full in cash is set apart for payment.

In any matter in which the Series A-4 Preferred Shares are entitled to vote, each Series A-4 Preferred Share will entitle the holder thereof to cast one vote. When holders of Series A-4 Preferred Shares and another class or series of preferred shares are entitled to vote together as a single class on any matter, or when Series A-4 Preferred Shares, any other class or series of Voting Preferred Stock, Series A-4 Preferred Units, and any Series A-4 Parity Preferred Units are entitled to vote together as a single class on any matter, the each such share or unit will have one vote for each \$25.00 of liquidation preference payable with respect to such share or unit by us or the Operating Partnership, as applicable.

As to any voting right set forth above, the holders of Series A-4 Preferred Shares have exclusive voting rights on any proposed amendment to our charter that would alter only the contract rights of the Series A-4 Preferred Shares.

Other than as set forth above, holders of the Series A-4 Preferred Shares do not have any voting rights with respect to, and the consent of the holders of the Series A-4 Preferred Shares is not required for, the taking of any corporate action or any action that may otherwise require the vote of our stockholders under our charter or the Maryland General Corporation Law, regardless of the effect that such corporate action may have upon the holders of the Series A-4 Preferred Shares. In addition, the voting provisions above do not apply if, at or prior to the time when the act with respect to which the vote would otherwise be required would occur, we have converted, purchased, redeemed, reacquired or called for redemption upon proper procedures (as set forth above) all outstanding Series A-4 Preferred Shares.

Restrictions on Ownership and Transfer

For us to qualify as a REIT under the Internal Revenue Code, our common stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the issued and outstanding shares of capital stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities such as qualified private pension plans) during the last half of a taxable year (other than the first year) or during a proportionate part of a shorter taxable year.

Because the board of directors believes it is essential for us to continue to qualify as a REIT, our charter, subject to certain exceptions, contains a provision, which we refer to as the Ownership Limit, providing that no holder may own, or be deemed to own by virtue of the attribution provisions of the Internal Revenue Code, more than 9.8% in number of shares or value of our outstanding common stock and preferred stock.

Our charter excludes Milton M. Shiffman, Gary A. Shiffman, and Robert B. Bayer; trustees, personal representatives and agents to the extent acting for them or their respective estates; or certain of their respective relatives from the Ownership Limit. These persons may acquire additional shares of stock through the redemption of OP Units, through our equity incentive plans, from other stockholders or otherwise, but in no event will they be entitled to acquire additional shares such that the five largest beneficial owners of our stock hold more than 50% of the total outstanding stock.

Table of Contents

Shares of stock purported to be transferred in excess of the Ownership Limit that are not otherwise permitted as provided above will constitute Excess Shares, which will be transferred by operation of law to Sun as trustee for the exclusive benefit of the person or persons to whom the Excess Shares are ultimately transferred, until such time as the intended transferee retransfers the Excess Shares. Subject to the Ownership Limit, the Excess Shares may be retransferred by the intended transferee to any person who may hold such Excess Shares at a price not to exceed the price paid by the intended transferee (or the market price of the common stock as of the date of purported transfer, if the intended transferee received the shares of stock as a gift or otherwise did not give value for the shares of stock), at which point the Excess Shares will automatically be exchanged for the stock to which the Excess Shares are attributable. In addition, such Excess Shares held in trust are subject to purchase by Sun in accordance with the terms of our charter, but such compensation may be less than the amount they paid for those Excess Shares.

All certificates representing Series A-4 Preferred Shares will bear a legend referring to the restrictions described above.

These ownership limitations could have the effect of discouraging a takeover or other transaction in which holders of some, or a majority of, shares of common stock might receive a premium for their shares over the then prevailing market price or which such holders might believe to be otherwise in their best interest.

The Series A-4 Preferred Shares are subject to provisions of our charter, including the articles supplementary relating to the Series A-4 Preferred Shares, under which any Series A-4 Preferred Shares owned by a stockholder in excess of the Ownership Limit, will automatically be designated Excess Shares and transferred to a trust for the exclusive benefit of a charitable beneficiary which we will designate. Owners of Excess Shares are entitled to compensation for their Excess Shares in accordance with the terms of our charter, but such compensation may be less than the amount they paid for those Excess Shares.

The articles supplementary relating to the Series A-4 Preferred Shares and our charter contain provisions that allow our board of directors to exempt a person from the Ownership Limit if evidence satisfactory to the board of directors and our tax counsel is presented that the proposed transfer of stock to the intended transferee will not then or in the future jeopardize our status as a REIT, subject to certain conditions.

Preemptive Rights

No holders of the Series A-4 Preferred Shares, as holders, have any preemptive rights to purchase or subscribe for shares of our common stock or any other of our securities.

Form and Listing

The Series A-4 Preferred Shares will be issued and maintained initially in book-entry form registered in the name of the holder thereof. Any holder of Series A-4 Preferred Shares has the right to request a certificate therefor and upon such request made in writing to the transfer agent and registrar for the Series A-4 Preferred Shares, we will cause to be issued a duly executed certificate for such Series A-4 Preferred Shares registered in the name in which the Series A-4 Preferred Shares were held in book-entry form or such other name(s) as specified by the holder in writing.

As of the date of this prospectus, the Series A-4 Preferred Shares are not listed on the NYSE or any other securities exchange or quotation system and are not eligible for deposit with DTC, and therefore may not be traded and serviced through DTC's electronic book-entry system.

CERTAIN PROVISIONS OF MARYLAND LAW AND OUR CHARTER AND BYLAWS

The following summary of certain provisions of Maryland law, our charter and bylaws and certain indemnification agreements does not purport to be complete and is subject to and qualified in its entirety by reference to Maryland law, our charter and bylaws, and the form of such indemnification agreements, copies of which are filed as exhibits to the registration statement of which this prospectus is a part. See [Where You Can Find More Information](#).

Our Board of Directors

Our charter and bylaws provide that the number of our directors may be established, increased or decreased only by a majority of our entire board of directors but may not be fewer than three nor, unless our bylaws are amended, more than 15. Each of our directors serves for a one-year term or until his or her successor is duly elected and qualified.

Our bylaws provide that at a meeting of stockholders duly called and at which a quorum is present, a majority of the votes cast for a nominee shall be required to elect that nominee as a director; provided, however, that directors shall be elected by a plurality of the votes cast at any meeting of stockholders for which a stockholder has nominated a person for election to the board of directors in compliance with the advance notice requirements for stockholder nominees for director set forth in our bylaws and certain other requirements of our bylaws are satisfied (a contested election). Our board of directors could amend our bylaws to alter the vote required in contested elections to be the same as that required in uncontested elections.

If the election of a director nominee requires an approval other than a plurality of the votes cast, it is possible that no nominee would receive the required vote. In the case of a failure to elect one or more directors because the nominees receive votes constituting less than the required vote, the incumbent directors would hold over and continue to serve until the next election of directors and until their successors are duly elected and qualify.

The foregoing provisions are subject to the rights of the holders of one or more classes or series of our preferred stock to elect directors.

Removal of Directors and Vacancies

Our charter provides that a director may be removed only for cause and only by the affirmative vote of at least two-thirds of the votes entitled to be cast in the election of directors.

We have elected in our bylaws to be subject to a provision of Maryland law requiring that vacancies on our board of directors as a result of the death or resignation of a director or an increase in the size of the board of directors may be filled only by the remaining directors, whether or not sufficient to constitute a quorum, and that any individual elected to fill such a vacancy will serve for the remainder of the full term of the class of directorship in which the vacancy occurred and until his or her successor is duly elected and qualifies.

Vacancies on our board of directors arising as a result of any reason other than the death or resignation of a director or an increase in the size of the board of directors (e.g., removal of a director) may be filled by a majority of the remaining directors, whether or not sufficient to constitute a quorum. A director elected by the board of directors to fill any such vacancy will serve until the next annual meeting of stockholders and until his or her successor is elected and qualifies. In addition, our stockholders may elect a successor to fill a vacancy on the board of directors which results from the removal of a director, in which case such director will serve for the balance of the term of the removed director.

The foregoing provisions are subject to the rights of the holders of one or more classes or series of our preferred stock to remove directors and fill vacancies on our board of directors. Also, as long as our directors are elected annually, the provisions regarding directors serving for the remainder of the full term or the balance of the term means until the next annual meeting of stockholders.

Business Combinations

Under the MGCL, certain business combinations (including a merger, consolidation, share exchange or, in certain circumstances specified under the statute, an asset transfer or issuance or reclassification of equity securities) between a Maryland corporation and any interested stockholder, or an affiliate of such an interested stockholder, are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder.

Maryland law defines an interested stockholder as:

any person who beneficially owns, directly or indirectly, 10% or more of the voting power of the corporation's outstanding voting stock; or

an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then-outstanding voting stock of the corporation.

After such five-year period, any such business combination must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation; and

two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom (or with whose affiliate) the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These supermajority approval requirements do not apply for mergers, consolidations or share exchanges if, among other conditions, the corporation's common stockholders receive a minimum price (as defined in the MGCL) for their shares and the consideration is received in cash or in the same form as previously paid by the interested stockholder for its shares.

A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which the person otherwise would have become an interested stockholder. The board of directors may provide that its approval is subject to compliance with any terms and conditions determined by it.

Pursuant to the statute, our board of directors has by resolution exempted Milton M. Shiffman, Robert B. Bayer, and Gary A. Shiffman, their affiliates and all persons acting in concert or as a group with the foregoing, from these provisions of the MGCL and, consequently, the five-year prohibition and the supermajority vote requirements will not apply to business combinations between us and these persons. As a result, these persons may be able to enter into business combinations with us that may not be in the best interests of our stockholders without compliance by us with the supermajority vote requirements and the other provisions of the statute.

Control Share Acquisitions

The MGCL provides that holders of control shares of a Maryland corporation acquired in a control share acquisition have no voting rights with respect to any control shares except to the extent approved by the affirmative vote of at least two-thirds of the votes entitled to be cast by stockholders in the election of directors generally but excluding shares of stock in respect of which any of the following persons is entitled to exercise or direct the exercise of the voting power of such shares in the election of directors: (1) the person who has made or proposes to make the control share acquisition, (2) any officer of the corporation or (3) any employee of the corporation who is also a director of the corporation. Control shares are voting shares of stock that, if aggregated with all other such shares of stock previously acquired by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of:

one-tenth or more but less than one-third;

one-third or more but less than a majority; or

a majority or more of all voting power.

Control shares do not include shares that the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition, directly or indirectly, of ownership of, or the power to direct the exercise of voting power with respect to, issued and outstanding control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition, upon satisfaction of certain conditions (including an undertaking to pay expenses and making an acquiring person statement as described in the MGCL), may compel the corporation to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the control shares. If no request for a special meeting is made, the corporation may itself present the question at any stockholders meeting.

Table of Contents

If voting rights of control shares are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then, subject to certain conditions and limitations, the corporation may redeem any or all of the control shares (except those for which voting rights have previously been approved) for fair value determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquirer or, if a stockholders meeting is held to consider the voting rights of the control shares (and the voting rights are not approved), as of the date of the meeting. If voting rights for control shares are approved at a stockholders meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of such appraisal rights may not be less than the highest price per share paid by the acquirer in the control share acquisition.

The control share acquisition statute does not apply (1) to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (2) to acquisitions approved or exempted by the charter or bylaws of the corporation.

Our bylaws contain a provision exempting from the control share acquisition statute any and all control share acquisitions by any person of shares of our stock. Our board of directors may amend or eliminate this provision at any time in the future.

Subtitle 8

Subtitle 8 of Title 3 of the MGCL permits a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of the following five provisions:

a classified board;

a two-thirds vote requirement for removing a director;

a requirement that the number of directors be fixed only by vote of the directors;

a requirement that a vacancy on the board as a result of an increase in the size of the board of directors or the death, resignation or removal of a director be filled only by the remaining directors and for the remainder of the full term of the class of directors in which the vacancy occurred; or

a majority requirement for the calling by stockholders of a special meeting of stockholders.

We have elected to be subject to the provisions of Subtitle 8 relating to the filling of vacancies on our board of directors as a result of an increase in the size of the board of directors or the death or resignation of a director. We have not elected to be subject to the provisions of Subtitle 8 relating to the filling of vacancies on our board of directors as a result of the removal of a director, although we may elect to do so in the future. Through provisions in our charter and bylaws unrelated to Subtitle 8, we already (1) require a two-thirds vote for the removal of any director

from the board, which removal must be for cause; and (2) vest in the board the exclusive power to fix the number of directorships, subject to limitations set forth in our charter and bylaws. We have not elected to have a classified board or a majority requirement for the calling of a special meeting of stockholders. In the future, our board of directors may elect, without stockholder approval, to adopt these requirements pursuant to Subtitle 8 or, unrelated to Subtitle 8, we could amend our bylaws to include a majority requirement for the calling by stockholders of a special meeting of stockholders.

Amendments to Our Charter and Bylaws

Other than amendments permitted to be made without stockholder approval under the MGCL, our charter generally may be amended only if such amendment is declared advisable by our board of directors and approved by the affirmative vote of stockholders entitled to cast two-thirds of the votes entitled to be cast on the matter. Our board of directors has the exclusive power to adopt, alter or repeal any provision of our bylaws or to make new bylaws.

Meetings of Stockholders

Under our bylaws, annual meetings of stockholders will be held each year at a date and time determined by our board of directors. Special meetings of stockholders may be called only by our board of directors, the chairman of our board of directors, our president or our chief executive officer. Additionally, subject to the provisions of our bylaws, special meetings of the stockholders to act on any matter that may properly be considered at a meeting of stockholders must be called by our secretary upon the written request of stockholders entitled to cast at least 10% of the votes entitled to be cast at such meeting on such matter who have requested the special meeting in accordance with the procedures set forth in, and provided the information required by, our bylaws. Only matters set forth in the notice of the special meeting may be considered and acted upon at such a meeting.

Advance Notice of Director Nominations and New Business

Our bylaws provide that:

with respect to an annual meeting of stockholders, nominations of individuals for election to our board of directors and the proposal of business to be considered by stockholders at the annual meeting may be made only:

- i pursuant to our notice of the meeting;
- i by or at the direction of our board of directors; or
- i by a stockholder who was a stockholder of record both at the time the stockholder provides the notice required by our bylaws and at the time of the annual meeting, who is entitled to vote at the meeting and who has complied with the advance notice procedures set forth in, and provided the information required by, our bylaws; and

with respect to special meetings of stockholders, only the business specified in our company's notice of meeting may be brought before the meeting of stockholders, and nominations of individuals for election to our board of directors may be made only:

- i pursuant to our notice of the meeting;
- i by or at the direction of our board of directors; or
- i provided that the meeting has been called in accordance with our bylaws for the purpose of electing directors, by a stockholder who is a stockholder of record both at the time the stockholder provides the notice required by our bylaws and at the time of the meeting, who is entitled to vote at the meeting in the election of each individual so nominated, and who has complied with the advance notice provisions set forth in, and provided the information required by, our bylaws.

The purpose of requiring stockholders to give advance notice of nominations and other proposals is to afford our board of directors the opportunity to consider the qualifications of the proposed nominees or the advisability of the other proposals and, to the extent considered necessary by our board of directors, to inform stockholders and make recommendations regarding the nominations or other proposals.

Although our bylaws do not give our board of directors the power to disapprove stockholder nominations and proposals that comply with our bylaws, our bylaws may have the effect of precluding a contest for the election of directors or proposals for other action if the proper procedures are not followed, and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate of directors to our board of directors or to

approve its own proposal.

Anti-takeover Effect of Certain Provisions of Maryland Law and Our Charter and Bylaws

Our charter and bylaws and Maryland law contain provisions that may delay, defer or prevent a change of control or other transaction that might involve a premium price for our common stock or otherwise be in the best interests of our stockholders, including business combination provisions, supermajority vote and cause requirements for removal of directors, provisions that certain vacancies on our board of directors may be filled only by the remaining directors, for the full term of the class of directors in which the vacancy occurred, the power of our board to issue additional shares of stock of any class or series and to fix the terms of one or more classes or series of stock without stockholder approval, the restrictions on ownership and transfer of our stock and advance notice requirements for director nominations and stockholder proposals. Likewise, if the provision in the bylaws opting out of the control share acquisition provisions of the MGCL were rescinded, these provisions of the MGCL could have similar anti-takeover effects.

Indemnification and Limitation of Directors and Officers Liability

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from actual receipt of an improper benefit or profit in money, property or services or active and deliberate dishonesty that is established by a final judgment and is material to the cause of action. Our charter contains such a provision that eliminates such liability to the maximum extent permitted by Maryland law.

The MGCL requires a Maryland corporation (unless its charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he or she is made or threatened to be made a party by reason of his or her service in that capacity. The MGCL permits a Maryland corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made or are threatened to be made a party by reason of their service in those or other capacities unless it is established that:

the act or omission of the director or officer was material to the matter giving rise to the proceeding and:

- i was committed in bad faith; or
- i was the result of active and deliberate dishonesty;

the director or officer actually received an improper personal benefit in money, property or services; or

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

However, under the MGCL, a Maryland corporation may not indemnify a director or officer for an adverse judgment in a suit by or in the right of the corporation or if the director or officer was adjudged liable on the basis that personal benefit was improperly received, unless in either case a court orders indemnification and then only for expenses.

In addition, the MGCL permits a Maryland corporation to advance reasonable expenses to a director or officer, without requiring a preliminary determination of the director's or officer's ultimate entitlement to indemnification, upon the corporation's receipt of:

a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation; and

a written undertaking by the director or officer or on his or her behalf (which need not be secured) to repay the amount paid or reimbursed by the corporation if it is ultimately determined that he or she did not meet the standard of conduct.

Our charter authorizes us to obligate our company and our bylaws obligate us, to the fullest extent permitted by Maryland law in effect from time to time, to indemnify and to pay or reimburse reasonable expenses in advance of final disposition of a proceeding to:

any present or former director or officer who is made or threatened to be made a party to the proceeding by reason of his or her service in that capacity; or

Table of Contents

any individual who, while a director or officer of our company and at our request, serves or has served as a director, officer, partner, member, manager or trustee of another corporation, REIT, partnership, limited liability company, joint venture, trust, employee benefit plan or any other enterprise and who is made or threatened to be made a party to the proceeding by reason of his or her service in that capacity.

Our charter and bylaws also permit us, with the approval of our board of directors, to indemnify and advance expenses to any person who served a predecessor of ours in any of the capacities described above and to any employee or agent of our company or a predecessor of our company.

Insofar as the foregoing provisions permit indemnification of directors, officers or persons controlling us for liability arising under the Securities Act, we have been informed that in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Indemnification Agreements

We have entered into indemnification agreements with our executive officers and directors. Under the terms of these agreements, we have agreed (subject to certain exclusions), to hold harmless and indemnify the officer or director who has entered into such an indemnification agreement against any and all expenses, judgments, penalties, fines and amounts paid in settlement, actually and reasonably incurred by such director or officer in connection with any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative to which such director or officer is, was or at any time becomes a party, or is threatened to be made a party, by reason of the fact that such director or officer is, was or at any time becomes a director, officer, partner, trustee, employee or agent of our company, or is or was serving or at any time serves at the request of our company as a director, officer, partner, trustee, employee or agent of another corporation, partnership, joint venture, trust or other enterprise (including, without limitation, employee benefit plans), to the fullest extent authorized and permitted by applicable law on the date of such agreements and to such greater extent as applicable law may thereafter permit.

In addition, the indemnification agreements provide that we will make an advance payment of expenses to the officers or directors who have entered into such indemnification agreements, in order to cover a claim relating to any fact or occurrence arising from or relating to events or occurrences specified in the prior paragraph, subject to receipt of an undertaking by or on behalf of such officer or director to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the company as authorized under these agreements.

The indemnification agreements also include provisions that specify the procedures and presumptions, which are to be employed to determine whether such officer or director is entitled to indemnification thereunder.

Restrictions on Ownership and Transfer of our Stock

Because the board of directors believes it is essential for us to continue to qualify as a REIT, our charter, subject to certain exceptions, contains a provision, which we refer to as the Ownership Limit, providing that no holder may own, or be deemed to own by virtue of the attribution provisions of the Code, more than 9.8% in number of shares or value, of our outstanding common stock and preferred stock. For more information regarding these and other restrictions on the ownership and transfer of our stock, see [Description of Common Stock](#) [Restrictions on Ownership](#) and [Description of Preferred Stock](#) [Restrictions on Ownership](#).

REIT Qualification

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without approval of our stockholders, if it determines that it is no longer in our best interest to continue to be qualified as a REIT.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of material U.S. federal income tax consequences regarding our company and the ownership and disposition of shares of our common stock and Series A-4 Preferred Shares.

Because this is a summary that is intended to address only material United States federal income tax consequences relating to the ownership and disposition of our common stock and Series A-4 Preferred Shares that will apply to all holders, it may not contain all the information that may be important to you. As you review this discussion, you should keep in mind that:

the tax consequences to you may vary depending on your particular tax situation;

special rules that are not discussed below may apply to you if, for example, you are a tax-exempt organization, a broker-dealer, a non-U.S. person, a trust, an estate, a regulated investment company, a financial institution, an insurance company, or otherwise subject to special tax treatment under the Code;

this summary does not address state, local or non-U.S. tax considerations;

this summary deals only with holders that hold our securities as a capital asset within the meaning of Section 1221 of the Code; and

this discussion is not intended to be, and should not be construed as, tax advice.

You are urged both to review the following discussion and to consult with your own tax advisor to determine the effect of ownership and disposition of our securities on your individual tax situation, including any state, local or non-U.S. tax consequences.

The information in this section is based on the Code, final and temporary Treasury regulations, the legislative history of the Code, administrative interpretations and practices of the Internal Revenue Service, including its practices and policies as endorsed in private letter rulings, which are not binding on the Internal Revenue Service except in the case of the taxpayer to whom a private letter ruling is addressed, and existing court decisions all of which as currently in effect as of the date of this prospectus. Future legislation, regulations, administrative interpretations and court decisions could change current law or adversely affect existing interpretations of current law. Any change could apply retroactively. We have not obtained any rulings from the Internal Revenue Service concerning the tax treatment of the matters discussed below. Thus, it is possible that the Internal Revenue Service could challenge the statements in this discussion, which do not bind the Internal Revenue Service or the courts, and that a court could agree with the Internal Revenue Service.

Taxation of Sun as a REIT

We have elected to be taxed as a REIT under the Code. A REIT generally is not subject to federal income tax on the income that it distributes to stockholders if it meets the applicable REIT distribution requirements and other

requirements for qualification.

We believe that we are organized and have operated, and we intend to continue to operate, in a manner allowing us to qualify as a REIT, but there can be no assurance that we have qualified or will remain qualified as a REIT. Qualification and taxation as a REIT depend upon our ability to meet, through actual annual (or in some cases quarterly) operating results, requirements relating to income, asset ownership, distribution levels and diversity of share ownership, and the various other REIT qualification requirements imposed under the Code. Given the complex nature of the REIT qualification requirements, the ongoing importance of factual determinations and the possibility of future changes in our circumstances, we cannot provide any assurance that our actual operating results will satisfy the requirements for taxation as a REIT under the Code for any particular taxable year.

Table of Contents

In the opinion of Jaffe, Raitt, Heuer & Weiss, Professional Corporation, commencing with our taxable year which ended December 31, 1994, we have been organized in conformity with the requirements for qualification as a REIT, and our method of operation enabled us to meet the requirements for qualification and taxation as a REIT under the Code. It must be emphasized that this opinion is based on various assumptions and is conditioned upon certain representations made by us as to factual matters. In addition, such qualification and taxation as a REIT depends upon our ability to meet, through actual annual operating results, distribution levels, diversity of stock ownership, and the various qualification tests imposed under the Code discussed below, the results of which have not been and will not be reviewed by Jaffe, Raitt, Heuer & Weiss, Professional Corporation. Accordingly, no assurance can be given that the actual results of our operations in any particular taxable year will satisfy such requirements.

So long as we qualify for taxation as a REIT, we generally will not be subject to federal corporate income tax on our net income that is distributed currently to our stockholders. This treatment substantially eliminates double taxation (that is, taxation at both the corporate and stockholder levels) that generally results from an investment in a corporation. However, we will be subject to federal income tax as follows:

We will be taxed at regular corporate rates on any undistributed REIT taxable income. REIT taxable income is the taxable income of the REIT subject to specified adjustments, including a deduction for dividends paid.

Under some circumstances, we may be subject to the alternative minimum tax on our items of tax preference.

If we have net income from the sale or other disposition of foreclosure property that is held primarily for sale to customers in the ordinary course of business, or other non-qualifying income from foreclosure property, we will be subject to tax at the highest corporate rate on this income.

Our net income from prohibited transactions will be subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property held primarily for sale to customers in the ordinary course of business other than foreclosure property.

If we fail to satisfy either the 75% gross income test or the 95% gross income test discussed below, but nonetheless maintain our qualification as a REIT because other requirements are met, we will be subject to a tax equal to the greater of (1) the amount by which 75% of our gross income exceeds the amount of our income qualifying under the 75% test for the taxable year or (2) the amount by which 95% of our gross income exceeds the amount of our income qualifying for the 95% income test for the taxable year, multiplied by a fraction intended to reflect our profitability.

If we fail to satisfy any of the asset tests (other than a failure by a de minimis amount of the 5% or 10% asset tests) and we qualify for and satisfy certain cure provisions, then we will have to pay an excise tax equal to the greater of (1) \$50,000 and (2) an amount determined by multiplying (x) the net income generated during a specified period by the assets that caused the failure by (y) the highest

federal income tax applicable to corporations.

If we fail to satisfy any REIT requirements other than the income test or asset test requirements and we qualify for a reasonable cause exception, then we will have to pay a penalty equal to \$50,000 for each such failure.

We will be subject to a 4% excise tax on the excess of the required distribution over the sum of amounts actually distributed and amounts retained for which federal income tax was paid, if we fail to distribute during each calendar year at least the sum of:

- (1) 85% of our REIT ordinary income for the year;

Table of Contents

- (2) 95% of our REIT capital gain net income for the year; and
- (3) any undistributed taxable income from prior taxable years.

We will be subject to a 100% penalty tax on some payments we receive (or on certain expenses deducted by a taxable REIT subsidiary) if arrangements among us, our tenants and our taxable REIT subsidiaries are not comparable to similar arrangements among unrelated parties.

If we should acquire any asset from a C corporation in a carry-over basis transaction and we subsequently recognize gain on the disposition of such asset during the ten-year recognition period beginning on the date on which we acquired the asset, then, to the extent of any built-in gain, such gain will be subject to tax at the highest regular corporate rate. Built-in gain means the excess of (a) the fair market value of the asset as of the beginning of the applicable recognition period over (b) the adjusted basis in such asset as of the beginning of such recognition period.

Income earned by our taxable REIT subsidiaries will be subject to tax at regular corporate rates.

We may be required to pay penalties to the Internal Revenue Service in certain circumstances, including if we fail to meet record-keeping requirements intended to monitor our compliance with rules relating to the composition of our stockholders or we elect to preserve REIT qualification in the case of certain inadvertent failures of the REIT rules.

Requirements for Qualification as a REIT

We elected to be taxable as a REIT for federal income tax purposes for our taxable year ended December 31, 1994 and for all subsequent taxable years. In order to have so qualified, we must have met and continue to meet the requirements discussed below, relating to our organization, sources of income, nature of assets and distributions of income to stockholders.

The Code defines a REIT as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest;
- (3) that would be taxable as a domestic corporation, but for Sections 856 through 859 of the Code;
- (4) that is neither a financial institution nor an insurance company subject to applicable provisions of the Code;

- (5) the beneficial ownership of which is held by 100 or more persons;
- (6) during the last half of each taxable year not more than 50% in value of the outstanding shares of which is owned directly or indirectly by five or fewer individuals, as defined in the Code to include specified entities;
- (7) that makes an election to be taxable as a REIT, or has made this election for a previous taxable year which has not been revoked or terminated, and satisfies all relevant filing and other administrative requirements established by the Internal Revenue Service that must be met to elect and maintain REIT status;

Table of Contents

- (8) that uses a calendar year for federal income tax purposes and complies with the recordkeeping requirements of the Code and regulations promulgated thereunder; and
- (9) that meets other applicable tests, described below, regarding the nature of its income and assets and the amount of its distributions.

Conditions (1), (2), (3) and (4) above must be met during the entire taxable year and condition (5) above must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months. For purposes of determining stock ownership under condition (6) above, a supplemental unemployment compensation benefits plan, a private foundation and a portion of a trust permanently set aside or used exclusively for charitable purposes generally are each considered an individual. A trust that is a qualified trust under Code Section 401(a) generally is not considered an individual, and beneficiaries of a qualified trust are treated as holding shares of a REIT in proportion to their actuarial interests in the trust for purposes of condition (6) above.

We believe that we have issued sufficient shares of common stock with sufficient diversity of ownership to allow us to satisfy conditions (5) and (6) above. In addition, our charter contains restrictions regarding the transfer of shares of common stock that are intended to assist us in continuing to satisfy the share ownership requirements described in conditions (5) and (6) above. These restrictions, however, may not ensure that we will be able to satisfy these share ownership requirements.

To monitor its compliance with condition (6) above, a REIT is required to send annual letters to its stockholders requesting information regarding the actual ownership of its shares. If we comply with the annual letters requirement and we do not know or, exercising reasonable diligence, would not have known of our failure to meet condition (6) above, then we will be treated as having met condition (6) above.

To qualify as a REIT, we cannot have at the end of any taxable year any undistributed earnings and profits that are attributable to a non-REIT taxable year. We do not believe that we have any non-REIT earnings and profits and believe that we therefore satisfy this requirement.

Qualified REIT Subsidiaries

If a REIT owns a corporate subsidiary that is a qualified REIT subsidiary, the separate existence of that subsidiary will be disregarded for federal income tax purposes. Generally, a qualified REIT subsidiary is a corporation, other than a taxable REIT subsidiary (discussed below), all of the stock of which is owned by the REIT. All assets, liabilities and items of income, deduction and credit of the qualified REIT subsidiary will be treated as assets, liabilities and items of income, deduction and credit of the REIT itself. A qualified REIT subsidiary of Sun will not be subject to federal corporate income taxation, although it may be subject to state and local taxation in some states.

Taxable REIT Subsidiaries

A taxable REIT subsidiary of Sun is a corporation in which we directly or indirectly own stock and that elects, together with us, to be treated as a taxable REIT subsidiary under Section 856(1) of the Code. In addition, if one of our taxable REIT subsidiaries owns, directly or indirectly, securities representing 35% or more of the vote or value of a subsidiary corporation, that subsidiary will also be treated as our taxable REIT subsidiary. A taxable REIT subsidiary is a corporation subject to federal income tax, and state and local income tax where applicable, as a regular C corporation.

Generally, a taxable REIT subsidiary can perform some impermissible tenant services without causing us to receive impermissible tenant services income under the REIT income tests. A taxable REIT subsidiary also can recognize income that would be subject to the 100% prohibited transaction tax, or income that would be non-qualifying income under the gross income tests, if earned by a REIT. However, several provisions regarding the arrangements between a REIT and its taxable REIT subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, a taxable REIT subsidiary is limited in its

Table of Contents

ability to deduct interest payments in excess of a certain amount made to us. In addition, we will be obligated to pay a 100% penalty tax on some payments that we receive or on certain expenses deducted by the taxable REIT subsidiary if the economic arrangements between us, our tenants and the taxable REIT subsidiary are not comparable to similar arrangements among unrelated parties.

Ownership of Partnership Interests by a REIT

A REIT that is a partner in a partnership (or a member in a limited liability company or other entity that is treated as a partnership for federal income tax purposes) will be deemed to own its proportionate share of the assets of the partnership and will be deemed to earn its proportionate share of the partnership's income. The assets and gross income of the partnership retain the same character in the hands of the REIT for purposes of the gross income and asset tests applicable to REITs as described below. Thus, our proportionate share of the assets and items of income of any entity taxable as a partnership for federal income tax purposes in which we hold an interest, such as the Operating Partnership, will be treated as our assets and liabilities and our items of income for purposes of applying the requirements described in this prospectus. The assets, liabilities and items of income of any partnership in which we own an interest include such entity's share of the assets and liabilities and items of income with respect to any partnership in which it holds an interest.

Income Tests Applicable to REITs

To qualify as a REIT, we must satisfy two gross income tests. First, at least 75% of our gross income, excluding gross income from prohibited transactions, for each taxable year must be derived directly or indirectly from investments relating to real property or mortgages on real property, including rents from real property, gains on the disposition of real estate, distributions paid by another REIT and interest on obligations secured by mortgages on real property or on interests in real property, or from some types of temporary investments. Second, at least 95% of our gross income, excluding gross income from prohibited transactions, for each taxable year must be derived from any combination of income qualifying under the 75% test and distributions, interest, and gain from the sale or disposition of stock or securities.

Rents received by us will qualify as rents from real property in satisfying the gross income requirements for a REIT described above only if several conditions are met. First, the amount of rent must not be based in whole or in part on the income or profits of any person. However, an amount received or accrued generally will not be excluded from the term rents from real property solely by reason of being based on a fixed percentage or percentages of receipts or sales. Second, rents received from a related party tenant will not qualify as rents from real property in satisfying the gross income tests unless the tenant is a taxable REIT subsidiary and at least 90% of the property is leased to unrelated tenants and the rent paid by the taxable REIT subsidiary is substantially comparable to the rent paid by the unrelated tenants for comparable space, or the property leased to the taxable REIT subsidiary is a hotel and certain other requirements are satisfied. A tenant is a related party tenant if the REIT, or an actual or constructive owner of 10% or more of the REIT, actually or constructively owns 10% or more of the tenant. Third, if rent attributable to personal property, leased in connection with a lease of real property, is greater than 15% of the total rent received under the lease, then the portion of rent attributable to the personal property will not qualify as rents from real property.

Generally, for rents to qualify as rents from real property for the purpose of satisfying the gross income tests, we may provide directly only an insignificant amount of services, unless those services are usually or customarily rendered in connection with the rental of real property and not otherwise considered rendered to the occupant.

Accordingly, we may not provide impermissible services to tenants (except through an independent contractor from whom we derive no revenue and that meets other requirements or through a taxable REIT subsidiary) without giving

rise to impermissible tenant service income. Impermissible tenant service income is deemed to be at least 150% of our direct cost of providing the service. If the impermissible tenant service income exceeds 1% of our total income from a property, then all of the income from that property will fail to qualify as rents from real property. If the total amount of impermissible tenant service income from a property does not exceed 1% of our total income from the property, the services will not taint the other income from the property (that is, it will not cause the rent paid by tenants of that property to fail to qualify as rents from real property), but the impermissible tenant service income will not qualify as rents from real property.

Table of Contents

We have provided and will provide services with respect to the manufactured housing communities. We believe that the services with respect to our communities that have been and will be provided by us are usually or customarily rendered in connection with the rental of space for occupancy only and are not otherwise rendered to particular tenants, or, if considered impermissible services, income from the provision of such services with respect to a given property has not and will not exceed 1% of all amounts received by us from such property. Therefore, we believe that the provision of such services has not and will not cause rents received with respect to our communities to fail to qualify as rents from real property. We believe that services with respect to our communities that may not be provided by us directly without jeopardizing the qualification of rent as rents from real property have been and will be performed by independent contractors or taxable REIT subsidiaries.

We have not charged, and do not anticipate charging, rent that is based in whole or in part on the income or profits of any person. We have not derived, and do not anticipate deriving, rent attributable to personal property leased in connection with real property that exceeds 15% of the total rents.

We may in the future acquire equity stakes in additional taxable REIT subsidiaries, which do not constitute real estate assets. Gain from a sale or other taxable disposition of these interests will constitute income satisfying the 95% income test, but not the 75% income test. The need to satisfy the 75% income test may adversely affect the time at which we chose to sell or dispose of one or more of these investments, depending on the appreciation of these equity interests, if any.

We have earned and continue to earn amounts of non-qualifying income. For example, we earn fees related to the management of properties that are not wholly-owned by us. We believe that the amount of non-qualifying income generated from these activities has not affected and will not affect our ability to meet the gross income tests.

Any gain realized by us on the sale of any property held as inventory or other property held primarily for sale to customers in the ordinary course of business will be treated as income from a prohibited transaction that is subject to a 100% penalty tax, unless such property has been held by us for not less than two years and certain other requirements are satisfied or the gain is realized in a taxable REIT subsidiary. Under existing law, whether property is held as inventory or primarily for sale to customers in the ordinary course of a trade or business is a question of fact that depends on all the facts and circumstances of a particular transaction. We generally intend to hold our properties for investment with a view to long-term appreciation, to engage in the business of acquiring, developing, owning and operating properties, and to make occasional sales of properties as are consistent with our investment objectives. We cannot provide any assurance, however, that the Internal Revenue Service might not contend that one or more of these sales are subject to the 100% penalty tax. We intend to hold assets developed or held for sale in taxable REIT subsidiaries. Although a taxable REIT subsidiary is not subject to the 100% penalty tax, it does pay tax on its taxable income and gains at regular corporate rates.

If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may nevertheless qualify as a REIT for that year if we are entitled to relief under the Code. These relief provisions generally will be available if our failure to meet the tests is due to reasonable cause and not due to willful neglect and, following our identification of such failure for any taxable year, we file a schedule describing each item of our gross income described in the gross income tests in accordance with the applicable Treasury Regulations. It is not possible, however, to state whether in all circumstances we would be entitled to the benefit of these relief provisions. For example, if we fail to satisfy the gross income tests because non-qualifying income that we intentionally incur exceeds the limits on non-qualifying income, the Internal Revenue Service could conclude that the failure to satisfy the tests was not due to reasonable cause. If these relief provisions are inapplicable to a particular set of circumstances involving us, we will fail to qualify as a REIT. As discussed under Taxation of Sun as a REIT, even if these relief provisions apply, a tax would be imposed based on the amount of non-qualifying income.

Asset Tests Applicable to REITs

At the close of each quarter of our taxable year, we must satisfy several tests relating to the nature of our assets:

- (1) at least 75% of the value of our total assets must be represented by real estate assets, cash, cash items (including receivables) and government securities;
- (2) not more than 25% of our total assets may be represented by securities other than those in the 75% asset class;
- (3) except for investments in qualified REIT subsidiaries, taxable REIT subsidiaries, equity interests in REITs or other securities that qualify as real estate assets for purposes of the test described in clause (1): the value of any one issuer's securities owned by us may not exceed 5% of the value of our total assets; we may not own more than 10% of any one issuer's outstanding voting securities; and we may not own more than 10% of the value of the outstanding securities of any one issuer; and
- (4) not more than 25% of our total assets may be represented by securities of one or more taxable REIT subsidiaries. Securities for purposes of the asset tests may include debt securities. However, certain debt of an issuer will not count as a security for purposes of the 10% value test, including: (1) debt securities that are straight debt as defined in Section 1361 of the Code, as modified by Section 856(m); (2) debt from an issuer who is an individual; or (3) non-straight debt, but only if the REIT possesses an aggregate value of not more than one percent of the value of the issuer's outstanding securities.

We believe that the aggregate value of our taxable REIT subsidiaries does not exceed 25% of the aggregate value of our gross assets. With respect to each issuer in which we currently own an interest that does not qualify as a REIT, a qualified REIT subsidiary or a taxable REIT subsidiary, we believe that our pro rata share of the value of the securities, including debt, of any such issuer does not exceed 5% of the total value of our assets and that we comply with the 10% voting securities limitation and 10% value limitation with respect to each such issuer. In this regard, however, we cannot provide any assurance that the Internal Revenue Service might not disagree with our determinations.

After initially meeting the asset tests at the close of any quarter, we will not lose our status as a REIT if we fail to satisfy the 25% and 5% asset tests and the 10% value limitation at the end of a later quarter solely by reason of changes in the relative values of our assets. If the failure to satisfy the 25% or 5% asset tests or the 10% value limitation results from an acquisition of securities or other property during a quarter, the failure can be cured by disposition of sufficient non-qualifying assets within 30 days after the close of that quarter. We intend to maintain adequate records of the value of our assets to ensure compliance with the asset tests and to take any available actions within 30 days after the close of any quarter as may be required to cure any noncompliance with the 25% or 5% asset tests or 10% value limitation.

Moreover, if we fail to satisfy any of the asset tests at the end of a calendar quarter during a taxable year and such failure is not cured within 30 days as described above, we will not lose our REIT status if one of the following additional exceptions applies: (A) the failure is due to a violation of the 5% or 10% asset tests and is de minimis (for this purpose, a de minimis failure is one that arises from our ownership of assets the total value of which does not

exceed the lesser of 1% of the total value of our assets at the end of the quarter in which the failure occurred and \$10 million) and we either dispose of the assets that caused the failure or otherwise satisfy any of the asset tests within 6 months after the last day of the quarter in which our identification of the failure occurred; or (B) the failure is due to a violation of any of the asset tests (other than a de minimis violations of the 5% or 10% asset tests) and all of the following requirements are satisfied: (i) the failure is due to reasonable cause and not willful neglect, (ii) we file a schedule in accordance with Treasury Regulations providing a description of each asset that caused the failure, (iii) we either dispose of the assets that caused the failure or otherwise satisfy the asset tests within 6 months after the last day of the quarter in which our identification of the failure occurred, and (iv) we pay an excise tax equal to the greater of (x) \$50,000 and (y) an amount determined by multiplying the net income generated during a specified period by the assets that caused the failure by the highest federal income tax applicable to corporations.

Table of Contents**Annual Distribution Requirements Applicable to REITs**

To qualify as a REIT, we are required to distribute dividends, other than capital gain dividends, to our stockholders each year in an amount at least equal to (1) the sum of (a) 90% of our REIT taxable income, computed without regard to the dividends paid deduction and our net capital gain, and (b) 90% of the net income, after tax, from foreclosure property, minus (2) the sum of certain specified items of noncash income. In addition, if we recognize any built-in gain, we will be required, under Treasury regulations, to distribute at least 90% of the built-in gain, after tax, recognized on the disposition of the applicable asset. See *Taxation of Sun as a REIT* for a discussion of the possible recognition of built-in gain. These distributions must be paid either in the taxable year to which they relate, or in the following taxable year if declared before we timely file our tax return for the prior year and if paid with or before the first regular dividend payment date after the declaration is made.

We believe that we have made and intend to continue to make timely distributions sufficient to satisfy the annual distribution requirements.

We anticipate having sufficient cash or liquid assets to enable us to satisfy the 90% distribution requirement. It is possible, however, that we, from time to time, may not have sufficient cash or other liquid assets to meet this distribution requirement or to distribute such greater amount as may be necessary to avoid income and excise taxation, due to timing differences between (a) the actual receipt of income and the actual payment of deductible expenses and (b) the inclusion of such income and the deduction of such expenses in arriving at our taxable income, or as a result of nondeductible expenses such as principal amortization or capital expenditures in excess of noncash deductions. In the event that such timing differences occur, we may find it necessary to arrange for borrowings or, if possible, pay taxable stock dividends in order to meet the dividend requirement.

Under some circumstances, we may be able to rectify a failure to meet the distribution requirement for a year by paying dividends to stockholders in a later year, which may be included in our deduction for dividends paid for the earlier year. We will refer to such dividends as *deficiency dividends*. Thus, we may be able to avoid being taxed on amounts distributed as *deficiency dividends*. We will, however, be required to pay interest based upon the amount of any deduction taken for *deficiency dividends*.

To the extent that we do not distribute all of our net capital gain or distribute at least 90%, but less than 100%, of our REIT taxable income, as adjusted, we are subject to tax on these amounts at regular corporate tax rates.

We will be subject to a 4% excise tax on the excess of the required distribution over the sum of amounts actually distributed and amounts retained for which federal income tax was paid, if we fail to distribute during each calendar year at least the sum of:

- (1) 85% of our REIT ordinary income for the year;
- (2) 95% of our REIT capital gain net income for the year; and
- (3) any undistributed taxable income from prior taxable years.

A REIT may elect to retain rather than distribute all or a portion of its net capital gains and pay the tax on the gains. In that case, a REIT may elect to have its stockholders include their proportionate share of the undistributed net capital

gains in income as long-term capital gains and receive a credit for their share of the tax paid by the REIT. For purposes of the 4% excise tax described above, any retained amounts would be treated as having been distributed.
