Peoples Financial Services Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data)

1. Summary of significant accounting policies:

Nature of operations:

Peoples Financial Services Corp., a bank holding company incorporated under the laws of Pennsylvania, provides a full range of financial services through its wholly-owned subsidiary, Peoples Security Bank and Trust Company (Peoples Bank), including its subsidiaries, Peoples Advisors, LLC and Pensco Realty, Inc. (collectively, the Company or Peoples). The Company services its retail and commercial customers through twenty-six full-service community banking offices located within the Lackawanna, Lehigh, Luzerne, Monroe, Susquehanna, Wayne and Wyoming Counties of Pennsylvania and Broome County of New York.

Basis of presentation:

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10-01 of Regulation S-X. In the opinion of management, all normal recurring adjustments necessary for a fair presentation of the financial position and results of operations for the periods presented have been included. All significant intercompany balances and transactions have been eliminated in consolidation. Prior-period amounts are reclassified when necessary to conform to the current year presentation. These reclassifications did not have any effect on the operating results or financial position of the Company. The operating results and financial position of the Company for the three and six months ended and as of June 30, 2015, are not necessarily indicative of the results of operations and financial position that may be expected in the future.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates that are particularly susceptible to material change in the near term relate to the determination of the allowance for loan losses, fair value of financial instruments, the valuation of real estate acquired in connection with foreclosures or in satisfaction of loans, the valuation of deferred tax assets, determination of other-than-temporary impairment losses on securities, impairment of goodwill and fair value of assets acquired and liabilities assumed in business combinations. Actual results could differ from those estimates. For additional information and disclosures required under GAAP, reference is made to the Company's Annual Report on Form 10-K for the period ended December 31, 2014.

The Company has evaluated events and transactions occurring subsequent to the balance sheet date of June 30, 2015, for items that should potentially be recognized or disclosed in these consolidated financial statements. The evaluation was conducted through the date these consolidated financial statements were issued.

Table of Contents**Peoples Financial Services Corp.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Dollars in thousands, except per share data)****Recent accounting standards:**

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-08, Business Combinations (Topic 805): Pushdown Accounting Amendments to SEC Paragraphs Pursuant to Staff Accounting Bulletin (SAB) 115. This ASU rescinds certain SEC guidance in order to conform with ASU 2014-17, Pushdown Accounting. ASU 2014-17 was issued in November 2014 and provides a reporting entity that is a business or nonprofit activity (an acquiree) the option to apply pushdown accounting to its separate financial statements when an acquirer obtains control of the acquiree. SAB 115 became effective November 21, 2014. The adoption of ASU 2015-18 did not have a material effect on the operating results or financial position of the Company.

2. Other comprehensive income (loss):

The components of other comprehensive loss and their related tax effects are reported in the Consolidated Statements of Income and Comprehensive Income. The accumulated other comprehensive income (loss) included in the Consolidated Balance Sheets relates to net unrealized gains and losses on investment securities available-for-sale and benefit plan adjustments.

The components of accumulated other comprehensive loss included in stockholders' equity at June 30, 2015 and December 31, 2014 is as follows:

| | June 30, 2015 | December 31, 2014 |
|---|--------------------------|------------------------------|
| Net unrealized gain on investment securities available-for-sale | \$ 4,768 | \$ 6,292 |
| Related income taxes | 1,669 | 2,202 |
| Net of income taxes | 3,099 | 4,090 |
| Benefit plan adjustments | (7,567) | (7,567) |
| Related income taxes | (2,648) | (2,648) |
| Net of income taxes | (4,919) | (4,919) |
| Accumulated other comprehensive loss | \$ (1,820) | \$ (829) |

Table of Contents**Peoples Financial Services Corp.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Dollars in thousands, except per share data)****2. Other comprehensive income (loss) continued:**

Other comprehensive income (loss) and related tax effects for the three and six months ended June 30, 2015 and 2014 is as follows:

| Three months ended June 30 | 2015 | 2014 |
|--|-----------------|-----------------|
| Unrealized gain (loss) on investment securities available-for-sale | \$ (1,459) | \$ 1,242 |
| Net gain on the sale of investment securities available-for-sale | | |
| (1) | | (160) |
| Other comprehensive income (loss) gain before taxes | (1,459) | 1,082 |
| Income tax expense (benefit) | (510) | 378 |
| Other comprehensive income (loss) | \$ (949) | \$ 704 |
| Six months ended June 30 | 2015 | 2014 |
| Unrealized gain (loss) on investment securities available-for-sale | \$ (692) | \$ 3,636 |
| Net gain on the sale of investment securities available-for-sale | | |
| (1) | (832) | (160) |
| Other comprehensive income (loss) gain before taxes | (1,524) | 3,476 |
| Income tax expense (benefit) | (533) | 1,216 |
| Other comprehensive income (loss) | \$ (991) | \$ 2,260 |

(1) Represents amounts reclassified out of accumulated comprehensive income and included in gains on sale of investment securities on the consolidated statements of income and comprehensive income.

3. Earnings per share:

Basic earnings per share represent income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company

relate solely to outstanding stock options, and are determined using the treasury stock method.

There were no shares considered anti-dilutive for the three and six month periods ended June 30, 2015 and 2014.

4. Investment securities (continued):

The maturity distribution of the amortized cost and fair value, of debt securities classified as held-to-maturity at June 30, 2015, is summarized as follows:

| | Amortized Cost | Fair Value |
|---------------------------------|---------------------------|-----------------------|
| June 30, 2015 | | |
| Within one year | | |
| After one but within five years | \$ 326 | \$ 330 |
| After five but within ten years | 176 | 180 |
| After ten years | 6,867 | 6,909 |
| | 7,369 | 7,419 |
| Mortgage-backed securities | 6,257 | 6,685 |
| Total | \$ 13,626 | \$ 14,104 |

Securities with a carrying value of \$191,687 and \$216,192 at June 30, 2015 and December 31, 2014, respectively, were pledged to secure public deposits and repurchase agreements as required or permitted by law.

Securities and short-term investment activities are conducted with a diverse group of government entities, corporations and state and local municipalities. The counterparty's creditworthiness and type of collateral is evaluated on a case-by-case basis. At June 30, 2015 and December 31, 2014, there were no significant concentrations of credit risk from any one issuer, with the exception of U.S. Government agencies and sponsored enterprises that exceeded 10.0 percent of stockholders' equity.

The fair value and gross unrealized losses of investment securities with unrealized losses for which an other-than-temporary impairment (OTTI) has not been recognized at June 30, 2015 and December 31, 2014, aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position, are summarized as follows:

| | Less Than 12 Months | 12 Months or More | Total |
|----------------------|--------------------------------|------------------------------|--------------|
| June 30, 2015 | | | |

| | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses | Fair Value | Unrealized Losses |

| Tax-exempt | 4,702 | 23 | 2,423 | 39 | 7,125 | 62 |
| Mortgage-backed securities: | | | | | | |
| U.S. Government agencies | 20,148 | 167 | | | 20,148 | 167 |
| U.S. Government-sponsored enterprises | 22,870 | 226 | | | 22,870 | 226 |
| Total | \$ 68,948 | \$ 449 | \$ 10,921 | \$ 114 | \$ 79,869 | \$ 563 |

The Company had 110 investment securities, consisting of 84 tax-exempt state and municipal obligations, two U.S. Treasury Securities, one taxable state and municipal obligation, one U.S. Government-sponsored enterprise securities, and 22 mortgage-backed securities that were in unrealized loss positions at June 30, 2015. Of these securities, one taxable state and municipal obligation, six mortgage-backed securities and three tax-exempt state and municipal securities were in a continuous unrealized loss position for twelve months or more. Management does not consider the unrealized losses on the debt securities, as a result of changes in interest rates, to be OTTI based on historical evidence that indicates the cost of these securities is recoverable within a reasonable period of time in relation to normal cyclical changes in the market rates of interest. Moreover, because there has been no material change in the credit quality of the issuers or other events or circumstances that may cause a significant adverse impact on the fair value of these securities, and management does not intend to sell these securities and it is unlikely that the Company will be required to sell these securities before recovery of their amortized cost basis, which may be maturity, the Company does not consider the unrealized losses to be OTTI at June 30, 2015. There was no OTTI recognized for the three or six months ended June 30, 2015 and 2014.

The Company had 52 investment securities, consisting of 16 tax-exempt state and municipal obligations, one taxable state and municipal obligation, nine U.S. Government-sponsored enterprise securities and 26 mortgage-backed securities that were in unrealized loss positions at December 31, 2014. Of these securities, two U.S. Government-sponsored enterprise securities, four tax-exempt state and municipal securities, and one taxable state and municipal obligation were in a continuous unrealized loss position for twelve months or more.

The Company segments loans into risk categories based on relevant information about the ability of borrowers to service their debt such as current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. Loans are individually analyzed for credit risk by classifying them within the Company's internal risk rating system. The Company's risk rating classifications are defined as follows:

Pass- A loan to borrowers with acceptable credit quality and risk that is not adversely classified as Substandard, Doubtful, Loss nor designated as Special Mention.

Special Mention- A loan that has potential weaknesses that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or in the institution's credit position at some future date. Special Mention loans are not adversely classified since they do not expose the Company to sufficient risk to warrant adverse classification.

Substandard- A loan that is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the bank will sustain some loss if the deficiencies are not corrected.

Doubtful A loan classified as Doubtful has all the weaknesses inherent in one classified Substandard with the added characteristic that the weaknesses make the collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loss- A loan classified as Loss is considered uncollectible and of such little value that its continuance as bankable loan is not warranted. This classification does not mean that the loan has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this basically worthless asset even though partial recovery may be affected in the future.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data)

5. Loans, net and allowance for loan losses (continued):

Included in the commercial loan and commercial and residential real estate categories are troubled debt restructurings that are classified as impaired. Troubled debt restructurings totaled \$3,046 at June 30, 2015, \$2,933 at December 31, 2014 and \$1,900 at June 30, 2014.

Troubled debt restructured loans are loans with original terms, interest rate, or both, that have been modified as a result of a deterioration in the borrower's financial condition and a concession has been granted that the Company would not otherwise consider. Unless on nonaccrual, interest income on these loans is recognized when earned, using the interest method. The Company offers a variety of modifications to borrowers that would be considered concessions. The modification categories offered generally fall within the following categories:

Rate Modification - A modification in which the interest rate is changed to a below market rate.

Term Modification - A modification in which the maturity date, timing of payments or frequency of payments is changed.

Interest Only Modification - A modification in which the loan is converted to interest only payments for a period of time.

Payment Modification - A modification in which the dollar amount of the payment is changed, other than an interest only modification described above.

Combination Modification - Any other type of modification, including the use of multiple categories above. There were four loans modified as a troubled debt restructuring for the three months ended June 30, 2015, in the amount of \$170. There were eight loans modified as troubled debt restructurings for the first six months ended June 30, 2015, in the amount of \$554. There were no loans modified as troubled debt restructurings for the three or six months ended June 30, 2014. During the three and six months ended June 30, 2015 and 2014, there were no defaults on loans restructured within the last twelve months.

6. Other assets:

The components of other assets at June 30, 2015, and December 31, 2014 are summarized as follows:

| | June 30, 2015 | December 31, 2014 |
|---|--------------------------|------------------------------|
| Other real estate owned | \$ 334 | \$ 561 |
| Investment in residential housing program | 7,044 | 4,329 |
| Mortgage servicing rights | 566 | 676 |
| Bank owned life insurance | 30,374 | 29,983 |
| Restricted equity securities | 3,357 | 3,687 |
| Other assets | 14,785 | 13,830 |
| Total | \$ 56,460 | \$ 53,066 |

7. Fair value estimates:

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosure under GAAP. Fair value estimates are calculated without attempting to estimate the value of anticipated future business and the value of certain assets and liabilities that are not considered financial. Accordingly, such assets and liabilities are excluded from disclosure requirements.

Peoples Financial Services Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data)

7. Fair value estimates (continued):

In accordance with FASB ASC 820, Fair Value Measurements and Disclosures, fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets. In many cases, these values cannot be realized in immediate settlement of the instrument.

Current fair value guidance provides a consistent definition of fair value, which focuses on exit price in an orderly transaction that is not a forced liquidation or distressed sale between participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under current market conditions.

In accordance with GAAP, the Company groups its assets and liabilities generally measured at fair value into three levels based on market information or other fair value estimates in which the assets and liabilities are traded or valued and the reliability of the assumptions used to determine fair value. These levels include:

Level 1: Unadjusted quoted prices of identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

An asset's or liability's placement in the fair value hierarchy is based on the lowest level of input that is significant to the fair value estimate.

The following methods and assumptions were used by the Company to calculate fair values and related carrying amounts of financial instruments:

Cash and cash equivalents: The carrying values of cash and cash equivalents as reported on the balance sheet approximate fair value.

Investment securities: The fair values of U.S. Treasury securities and marketable equity securities are based on quoted market prices from active exchange markets. The fair values of debt securities are based on pricing from a matrix pricing model.

Loans held for sale: The fair values of loans held for sale are based upon current delivery prices in the secondary mortgage market.

Table of Contents

Peoples Financial Services Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data)

7. Fair value estimates (continued):

Net loans: For adjustable-rate loans that re-price frequently and with no significant credit risk, fair values are based on carrying values. The fair values of other non-impaired loans are estimated using discounted cash flow analysis, using interest rates currently offered in the market for loans with similar terms to borrowers of similar credit risk. Fair values for impaired loans are estimated using discounted cash flow analysis determined by the loan review function or underlying collateral values, where applicable.

In conjunction with the Merger, the loans purchased were recorded at their acquisition date fair value. In order to record the loans at fair value, management made three different types of fair value adjustments. A market rate adjustment was made to adjust for the movement in market interest rates, irrespective of credit adjustments, compared to the stated rates of the acquired loans. A credit adjustment was made on pools of homogeneous loans representing the changes in credit quality of the underlying borrowers from the loan inception to the acquisition date. The credit adjustment on distressed loans represents the portion of the loan balance that has been deemed uncollectible based on the management's expectations of future cash flows for each respective loan.

Mortgage servicing rights: To determine the fair value, the Company estimates the present value of future cash flows incorporating assumptions such as cost of servicing, discount rates, prepayment speeds and default rates.

Accrued interest receivable: The carrying value of accrued interest receivable as reported on the balance sheet approximates fair value.

Restricted equity securities: The carrying values of restricted equity securities approximate fair value, due to the lack of marketability for these securities.

Deposits: The fair values of noninterest-bearing deposits and savings, NOW and money market accounts are the amounts payable on demand at the reporting date. The fair value estimates do not include the benefit that results from such low-cost funding provided by the deposit liabilities compared to the cost of borrowing funds in the market. The carrying values of adjustable-rate, fixed-term time deposits approximate their fair values at the reporting date. For fixed-rate time deposits, the present value of future cash flows is used to estimate fair values. The discount rates used are the current rates offered for time deposits with similar maturities.

The fair value assigned to the core deposit intangible asset represents the future economic benefit of the potential cost savings from acquiring core deposits in the Merger compared to the cost of obtaining alternative funding such as brokered deposits from market sources. Management utilized an income valuation approach to present value the estimated future cash savings in order to determine the fair value of the intangible asset.

Short-term borrowings: The carrying values of short-term borrowings approximate fair value.

Long-term debt: The fair value of fixed-rate long-term debt is based on the present value of future cash flows. The discount rate used is the current rate offered for long-term debt with the same maturity.

Accrued interest payable: The carrying value of accrued interest payable as reported on the balance sheet approximates fair value.

Off-balance sheet financial instruments:

The majority of commitments to extend credit, unused portions of lines of credit and standby letters of credit carry current market interest rates if converted to loans. Because such commitments are generally unassignable of either the Company or the borrower, they only have value to the Company and the borrower. None of the commitments are subject to undue credit risk. The estimated fair values of off-balance sheet financial instruments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing. The fair value of off-balance sheet financial instruments was not material at June 30, 2015 and December 31, 2014.

Table of Contents**Peoples Financial Services Corp.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(Dollars in thousands, except per share data)

7. Fair value estimates (continued):

Assets and liabilities measured at fair value on a nonrecurring basis at June 30, 2015 and December 31, 2014 are summarized as follows:

| | | Fair Value Measurement Using Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|-------------------------|---------------|--|--|--|
| June 30, 2015 | Amount | | | |
| Impaired loans | \$ 6,448 | | | \$ 6,448 |
| Other real estate owned | \$ 88 | | | \$ 88 |

| | | Fair Value Measurement Using Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
|--------------------------|---------------|--|--|--|
| December 31, 2014 | Amount | | | |
| Impaired loans | \$ 4,414 | | | \$ 4,414 |
| Other real estate owned | \$ 218 | | | \$ 218 |

Fair values of impaired loans are based on the present value of expected future cash flows discounted at the loan's effective interest rate or the fair value of the collateral if the loan is collateral dependent.

The following table presents additional quantitative information about assets measured at fair value on a nonrecurring basis and for which the Company has utilized Level 3 inputs to determine fair value:

**Quantitative Information about Level 3 Fair Value Measurements
Range**

| | Fair Value Estimate | Valuation Techniques | Unobservable Input | (Weighted Average) |
|-------------------------|--------------------------------|-----------------------------|---------------------------|---------------------------|
| June 30, 2015 | | | | |
| Impaired loans | \$ 6,448 | Appraisal of collateral | Appraisal adjustments | 14.0% to 63.0% (24.2%) |
| | | | Liquidation expenses | 3.0% to 6.0% (5.4%) |
| Other real estate owned | \$ 88 | Appraisal of collateral | Appraisal adjustments | 20.0% to 73.5% (53.4%) |
| | | | Liquidation expenses | 3.0% to 6.0% (5.0%) |

Quantitative Information about Level 3 Fair Value Measurements
Range

| December 31, 2014 | Fair Value Estimate | Valuation Techniques | Unobservable Input | (Weighted Average) |
|--------------------------|----------------------------|-----------------------------|---------------------------|---------------------------|
| Impaired loans | \$ 4,414 | Appraisal of collateral | Appraisal adjustments | 2.6% to 61.1% (24.5%) |
| | | | Liquidation expenses | 3.0% to 6.0% (5.5%) |
| Other real estate owned | \$ 218 | Appraisal of collateral | Appraisal adjustments | 19.7% to 47.8% (30.5%) |
| | | | Liquidation expenses | 3.0% to 6.0% (5.0%) |

Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various Level 3 Inputs which are not identifiable.

Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses. The range and weighted average of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.

Table of Contents**Peoples Financial Services Corp.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(Dollars in thousands, except per share data)****8. Employee benefit plans:**

The Company provides an Employee Stock Ownership Plan (ESOP) and a Retirement Profit Sharing Plan. The Company also maintains a Supplemental Executive Retirement Plan (SERP), an Employees Pension Plan, which is currently frozen, and a Postretirement Plan Life Insurance plan which was curtailed in 2013.

For the three and six months ended June 30, salaries and employee benefits expense includes approximately \$173 and \$452 in 2015 and \$584 and \$834 in 2014 relating to the employee benefit plans.

Components of net periodic benefit cost are as follows:

| Three months ended June 30, | Pension Benefits | |
|---------------------------------------|-------------------------|-------------|
| | 2015 | 2014 |
| Net periodic pension cost: | | |
| Service cost | | |
| Interest cost | \$ 174 | \$ 169 |
| Expected return on plan assets | (233) | (227) |
| Amortization of prior service cost | | |
| Amortization of unrecognized net loss | 50 | 23 |
| Net periodic pension cost | \$ (9) | \$ (35) |

| Six months ended June 30, | Pension Benefits | |
|---------------------------------------|-------------------------|-------------|
| | 2015 | 2014 |
| Net periodic pension cost: | | |
| Service cost | | |
| Interest cost | \$ 348 | \$ 338 |
| Expected return on plan assets | (466) | (454) |
| Amortization of prior service cost | | |
| Amortization of unrecognized net loss | 100 | 46 |
| Net periodic pension cost | \$ (18) | \$ (70) |

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the unaudited consolidated interim financial statements contained in Part I, Item 1 of this report, and with our audited consolidated financial statements and

Management's Discussion and Analysis of Financial Condition and Results of Operations presented in our Annual Report on Form 10-K for the year ended December 31, 2014.

Cautionary Note Regarding Forward-Looking Statements:

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, which are subject to risks and uncertainties. These statements are based on assumptions and may describe future plans, strategies and expectations of Peoples Financial Services Corp. and its direct and indirect subsidiaries. These forward-looking statements are generally identified by use of the words believe, expect, intend, anticipate, estimate, project or similar expressions. All statements in this report, other than statements of historical facts, are forward-looking statements.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Important factors that could cause our actual results to differ materially from those in the forward-looking statements include, but are not limited to: our ability to achieve the intended benefits of the 2013 merger with Pensco Financial Services Corporation; changes in interest rates; economic conditions, particularly in our market area; legislative and regulatory changes and the ability to comply with the significant laws and regulations governing the banking and financial services business; monetary and fiscal policies of the U.S. government, including policies of the U.S. Department of Treasury and the Federal Reserve System; credit risk associated with lending activities and changes in the quality and composition of our loan and investment portfolios; demand for loan and other products; deposit flows; competition; changes in the values of real estate and other collateral securing the loan portfolio, particularly in our market area; changes in relevant accounting principles and guidelines; and inability of third party service providers to perform. Additional factors that may affect our results are discussed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, and in reports we file with the Securities and Exchange Commission from time to time.

These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Except as required by applicable law or regulation, Peoples Financial Services Corp. does not undertake, and specifically disclaims any obligation, to release publicly the result of any revisions that may be made to any forward-looking statements to reflect events or circumstances after the date of the statements or to reflect the occurrence of anticipated or unanticipated events.

Notes to the Consolidated Financial Statements referred to in the Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") are incorporated by reference into the MD&A. Certain prior period amounts may have been reclassified to conform with the current year's presentation. Any reclassifications did not have any effect on the operating results or financial position of the Company.

Critical Accounting Policies:

Disclosure of our significant accounting policies are included in Note 1 to the consolidated financial statements of the Annual Report on Form 10-K for the year ended December 31, 2014. Some of these policies are particularly sensitive requiring significant judgments, estimates and assumptions.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Operating Environment:

With no new fiscal policy initiatives enacted during the second quarter of 2015, the focus of the Federal Open Market Committee (FOMC) was limited to issuing policy statements regarding the state of the economy. The FOMC noted improvement in labor markets, housing and household spending. Despite improvement to the unemployment rate, the historically low work force participation rate and slow wage growth continue to be a drag on the economy. The Federal Reserve's estimate for the gross domestic product (GDP), the value of all goods and services produced in the Nation, was downgraded to 1.8% to 2.0% for 2015. GDP rebounded in the second quarter of 2015 to a seasonally adjusted growth rate of 2.3%, comparable with the 2.4% experienced in 2014. The consumer price index (CPI) increased 3.2% annualized during the second quarter of 2015. Expectations are that the FOMC will begin to raise the federal funds rate starting late in the third quarter of 2015.

Review of Financial Position:

Total assets increased \$6,086, or 0.7% annualized, to \$1,747,755 at June 30, 2015, from \$1,741,669 at December 31, 2014. Loans, net increased to \$1,231,541 at June 30, 2015, compared to \$1,209,894 at December 31, 2014, an increase of \$21,647 or 3.6% annualized. The increase in loans, net during 2015 has been directly correlated to a decrease in investment securities available-for-sale. Investment securities decreased \$21,835 or 6.2% in the first six months of 2015. Interest-bearing deposits increased \$15,884, while noninterest-bearing deposits decreased \$16,675. Total stockholders' equity increased \$3,625 or at an annual rate of 3.0%, from \$246,779 at year-end 2014 to \$250,404 at June 30, 2015. Compared to March 31, 2015, total assets increased \$33,794 or 2.0% while loans, net decreased \$5,627 or 0.5% and deposits increased \$8,489 or 0.6%. For the six months ended June 30, 2015, total assets averaged \$1,718,850, an increase of \$17,059 from \$1,701,791 for the same period of 2014.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Investment Portfolio:

The majority of the investment portfolio is held as available-for-sale, which allows for greater flexibility in using the investment portfolio for liquidity purposes by allowing securities to be sold when market opportunities occur. Investment securities available-for-sale totaled \$318,790 at June 30, 2015, a decrease of \$20,796, or 6.1% from \$339,586 at December 31, 2014. The decrease was primarily a result of the sale of U.S. Treasury securities in response to changes in the slope of the yield curve and in order to fund loan demand. Investment securities held-to-maturity totaled \$13,626 at June 30, 2015, a decrease of \$1,039 or 7.1% from \$14,665 at December 31, 2014 due to payments received from mortgage backed holdings. For the three months ended June 30, 2015, total investments increased \$37,944 resulting primarily from the purchase of short-term U.S. Treasury securities.

For the six months ended June 30, 2015, the investment portfolio averaged \$310,481, a decrease of \$9,971 or 3.1% compared to \$320,452 for the same period last year. The tax-equivalent yield on the investment portfolio decreased 3 basis points to 2.76% for the six months ended June 30, 2015, from 2.79% for the comparable period of 2014. The yield decline is the result of decreasing reinvestment yields. The tax-equivalent yield decreased from 2.78% in the first quarter of 2015 to 2.74% in the second quarter of 2015.

Securities available-for-sale are carried at fair value, with unrealized gains or losses net of deferred income taxes reported in the accumulated other comprehensive income (loss) component of stockholders' equity. We reported net unrealized holding gains, included as a separate component of stockholders' equity of \$3,099, net of deferred income taxes of \$1,669, at June 30, 2015, and \$4,090, net of deferred income taxes of \$2,202, at December 31, 2014.

The Asset/Liability Committee (ALCO) reviews the performance and risk elements of the investment portfolio monthly. Through active balance sheet management and analysis of the securities portfolio, we endeavor to maintain sufficient liquidity to satisfy depositor requirements and meet the credit needs of our customers.

Loan Portfolio:

Following two consecutive quarters of strong loan growth in the fourth quarter of 2014 and first quarter of 2015, loans, net decreased slightly in the second quarter of 2015, but maintained an increase during the six month period. Loans, net increased to \$1,231,541 at June 30, 2015 from \$1,209,894 at December 31, 2014, an increase of \$21,647 or 3.6% annualized. The growth reflected increases in commercial loans, commercial real estate loans and residential real estate loans, partially offset by a decrease in consumer loans. Commercial loans increased \$2,828, or 1.8% annualized, to \$322,418 at June 30, 2015 compared to \$319,590 at December 31, 2014. Commercial real estate loans increased \$18,354 or 7.5% annualized, to \$511,835 at June 30, 2015 compared to \$493,481 at December 31, 2014. Residential real estate loans increased \$1,900, or 1.2% on an annualized basis, to \$312,567 at June 30, 2015 compared to \$310,667 at December 31, 2014.

The second quarter included the reclassification of \$11,780 in loans previously classified as consumer into residential real estate loans based on the underlying collateral of the loans. Consumer loans decreased \$1,435, or 3.4% on an

annualized basis, to \$84,721 at June 30, 2015 compared to \$86,156 at December 31, 2014. For the quarter ended June 30, 2015, loans, net in aggregate decreased \$5,627.

Table of Contents**Peoples Financial Services Corp.****MANAGEMENT'S DISCUSSION AND ANALYSIS****(Dollars in thousands, except per share data)**

For the six months ended June 30, 2015, loans, net averaged \$1,230,623, an increase of \$46,082 or 3.9% compared to \$1,184,541 for the same period of 2014. The tax-equivalent yield on the loan portfolio was 4.66% for the six months ended June 30, 2015, a 26 basis point decrease from the comparable period last year. Loan interest income in the first six months of 2015 and 2014, which we recognized as a result of the 2013 Pensco merger, were \$347 and \$1,430. As a result, the tax-equivalent yield on the loan portfolio would have decreased 10 basis points comparing the six months ended June 30, 2015 and 2014. The tax-equivalent yield on the loan portfolio decreased 8 basis points in the second quarter of 2015 from 4.71% in the second quarter of 2014. The tax-equivalent yield decreased 7 basis points comparing the first and second quarters of 2015.

In addition to the risks inherent in our loan portfolio, in the normal course of business, we are also a party to financial instruments with off-balance sheet risk to meet the financing needs of our customers. These instruments include legally binding commitments to extend credit, unused portions of lines of credit and commercial letters of credit made under the same underwriting standards as on-balance sheet instruments, and may involve, to varying degrees, elements of credit risk and interest rate risk (IRR) in excess of the amount recognized in the financial statements.

Unused commitments at June 30, 2015, totaled \$284,352, consisting of \$261,135 in unfunded commitments of existing loan facilities and \$23,217 in standby letters of credit. Due to fixed maturity dates, specified conditions within these instruments, and the ultimate needs of our customers, many will expire without being drawn upon. We believe that amounts actually drawn upon can be funded in the normal course of operations and therefore, do not represent a significant liquidity risk to us. In comparison, unused commitments, at December 31, 2014, totaled \$266,570, consisting of \$235,961 in unfunded commitments of existing loans and \$30,609 in standby letters of credit.

Asset Quality:

National, Pennsylvania, New York and market area unemployment rates at June 30, 2015 and 2014, are summarized as follows:

| | June 30, 2015 | June 30, 2014 |
|--------------------------|----------------------|----------------------|
| United States | 5.3% | 6.1% |
| Pennsylvania (statewide) | 5.5% | 6.0% |
| Lackawanna County | 5.9% | 6.7% |
| Lehigh County | 5.6% | 6.2% |
| Luzerne County | 6.5% | 7.3% |
| Monroe County | 6.8% | 7.4% |
| Susquehanna County | 5.4% | 5.7% |
| Wayne County | 5.4% | 5.8% |
| Wyoming County | 6.2% | 6.7% |
| New York (statewide) | 5.3% | 6.2% |

| | | |
|---------------|------|------|
| Broome County | 5.8% | 6.4% |
|---------------|------|------|

The employment conditions improved for the Nation, Pennsylvania, New York as well as all seven counties representing our market areas in Pennsylvania and New York from one year ago. Despite the overall improvements, employment conditions continued to be weak as unemployment rates remained elevated relative to historical levels.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Our asset quality improved in the second quarter of 2015. Nonperforming assets decreased \$334 or 3.1% to \$10,549 at June 30, 2015, from \$10,883 at December 31, 2014. We experienced an increase in nonaccrual and restructured loans, which was more than offset by declines in accruing loans past due 90 days or more and other real estate owned. As a percentage of loans, net and foreclosed assets, nonperforming assets equaled 0.86% at June 30, 2015 compared to 0.90% at December 31, 2014.

Loans on nonaccrual status increased \$284 to \$8,983 at June 30, 2015 from \$8,699 at December 31, 2014. The majority of the increase from year end was due to an increase of \$358 in residential real estate loans and an increase of \$177 in commercial loans on nonaccrual status. Commercial real estate loans on nonaccrual status decreased \$264 while consumer loans on nonaccrual status increased \$13. Other real estate owned decreased \$227 to \$334 at June 30, 2015 from \$561 at December 31, 2014.

For the three months ended June 30, 2015, nonperforming assets improved to \$10,549, a decrease of \$748 from \$11,297 at March 31, 2015. Decreases in nonaccrual and restructured loans of \$593 and accruing loans past due 90 days or more of \$165 more than offset a \$10 increase in other real estate owned.

Generally, maintaining a high loan to deposit ratio is our primary goal in order to maximize profitability. However, this objective is superseded by our attempts to assure that asset quality remains strong. We continued our efforts to maintain sound underwriting standards for both commercial and consumer credit. Most commercial lending is done primarily with locally owned small businesses.

We maintain the allowance for loan losses at a level we believe adequate to absorb probable credit losses related to specifically identified loans, as well as probable incurred loan losses inherent in the remainder of the loan portfolio as of the balance sheet date. The allowance for loan losses is based on past events and current economic conditions. We employ the Federal Financial Institutions Examination Council Interagency Policy Statement, as amended December 13, 2006, and GAAP in assessing the adequacy of the allowance account. Under GAAP, the adequacy of the allowance account is determined based on the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 310, Receivables, for loans specifically identified to be individually evaluated for impairment and the requirements of FASB ASC 450, Contingencies, for large groups of smaller-balance homogeneous loans to be collectively evaluated for impairment.

We follow our systematic methodology in accordance with procedural discipline by applying it in the same manner regardless of whether the allowance is being determined at a high point or a low point in the economic cycle. Each quarter, loan review identifies those loans to be individually evaluated for impairment and those loans collectively evaluated for impairment utilizing a standard criteria. Internal loan review grades are assigned quarterly to loans identified to be individually evaluated. A loan's grade may differ from period to period based on current conditions and events, however, we consistently utilize the same grading system each quarter. We consistently use loss experience from the latest twelve quarters in determining the historical loss factor for each pool collectively evaluated for impairment. Qualitative factors are evaluated in the same manner each quarter and are adjusted within a relevant range of values based on current conditions. For additional disclosure related to the allowance for loan losses refer to the

note entitled, Loans, net and Allowance for Loan Losses, in the Notes to Consolidated Financial Statements to this Quarterly Report.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

The allowance for loan losses increased \$1,090 to \$11,428 at June 30, 2015, from \$10,338 at the end of 2014. For the six months ended June 30, 2015, net charge-offs were \$410 or 0.07% of average loans outstanding, a \$677 decrease compared to \$1,087 or 0.19% of average loans outstanding in the same period of 2014. Net charge-offs were \$125 or 0.04% of average loans outstanding in the second quarter of 2015, a \$313 decrease compared to \$438 or 0.15% of average loans outstanding in the second quarter of 2014.

Deposits:

We attract the majority of our deposits from within our eight county market area that stretches from the Lehigh Valley in Pennsylvania to Broome County in the Southern Tier of New York State through the offering of various deposit instruments including demand deposit accounts, NOW accounts, money market deposit accounts, savings accounts, and time deposits, including certificates of deposit and IRAs. For the six months ended June 30, 2015, total deposits decreased slightly to \$1,424,767 from \$1,425,558 at December 31, 2014. Growth was experienced in savings accounts and interest-bearing transaction accounts while the other classifications declined. Interest-bearing transaction accounts, including NOW and money market accounts, increased \$14,831, or 6.6% annualized, to \$467,197 at June 30, 2015, from \$452,366 at December 31, 2014. Savings deposits increased \$8,035, or 4.1% annualized, to \$399,987 at June 30, 2015, from \$391,952 at December 31, 2014. All other deposit categories decreased in the first six months of 2015 due to cyclical trends. Demand deposits, decreased \$16,675, or 10.7% annualized, to \$296,823 at June 30, 2015, compared to \$313,498 at December 31, 2014. Time deposits less than \$100 decreased \$626, or 0.7% annualized, while time deposits of \$100 or more declined \$6,356, or 16.9% annualized.

For the three months ended June 30, 2015, total deposits increased \$8,489 or 2.4% annualized. Growth in interest-bearing and noninterest-bearing demand deposits, as well as time deposits less than \$100, more than offset declines in demand deposits, savings deposits and time deposits of \$100 or more.

For the six months ended June 30, 2015 interest-bearing deposits averaged \$1,116,900 in 2015 compared to \$1,113,621 in 2014. The cost of interest-bearing deposits was 0.44% in 2015 compared to 0.50% for the same period last year. For the first six months, the overall cost of interest-bearing liabilities including the cost of borrowed funds, was 0.52% in 2015 compared to 0.59% in 2014. The cost of interest-bearing liabilities decreased 4 basis points when comparing the first and second quarters of 2015.

Interest rates have been at historic lows for an extended period. Short term and core deposit rates have remained flat. As such, deposits have been attracted by offering rates on longer term time deposit products and core savings accounts which are higher than other investment alternatives available to customers elsewhere in the market place.

Borrowings:

The Bank utilizes borrowings as a secondary source of liquidity for its asset/liability management. Advances are available from the Federal Home Loan Bank of Pittsburgh (FHLB) provided certain standards related to credit worthiness have been met. Repurchase and term agreements are also available from the FHLB.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Total short-term borrowings at June 30, 2015, totaled \$25,860 compared to \$19,557 at December 31, 2014, an increase of \$6,303. Long-term debt was \$31,663 at June 30, 2015, compared to \$33,140 at year end 2014. The reduction was a product of monthly contractual amortized payments made during the six months ended June 30, 2015.

Market Risk Sensitivity:

Market risk is the risk to our earnings or financial position resulting from adverse changes in market rates or prices, such as interest rates, foreign exchange rates or equity prices. Our exposure to market risk is primarily IRR associated with our lending, investing and deposit-gathering activities. During the normal course of business, we are not exposed to foreign exchange risk or commodity price risk. Our exposure to IRR can be explained as the potential for change in our reported earnings and/or the market value of our net worth. Variations in interest rates affect earnings by changing net interest income and the level of other interest-sensitive income and operating expenses. Interest rate changes also affect the underlying economic value of our assets, liabilities and off-balance sheet items. These changes arise because the present value of future cash flows, and often the cash flows themselves, change with interest rates. The effects of the changes in these present values reflect the change in our underlying economic value and provide a basis for the expected change in future earnings related to interest rates. IRR is inherent in the role of banks as financial intermediaries. However, a bank with a high degree of IRR may experience lower earnings, impaired liquidity and capital positions, and most likely, a greater risk of insolvency. Therefore, banks must carefully evaluate IRR to promote safety and soundness in their activities.

As a result of economic uncertainty and a prolonged era of historically low market rates, it has become challenging to manage IRR. Due to these factors, IRR and effectively managing it are very important to both bank management and regulators. Bank regulations require us to develop and maintain an IRR management program, overseen by the Board of Directors and senior management, that involves a comprehensive risk management process in order to effectively identify, measure, monitor and control risk. Should bank regulatory agencies identify a material weakness in our risk management process or high exposure relative to our capital, bank regulatory agencies may take action to remedy these shortcomings. Moreover, the level of IRR exposure and the quality of our risk management process is a determining factor when evaluating capital adequacy.

The ALCO, comprised of members of our Board of Directors, senior management and other appropriate officers, oversees our IRR management program. Specifically, ALCO analyzes economic data and market interest rate trends, as well as competitive pressures, and utilizes computerized modeling techniques to reveal potential exposure to IRR. This allows us to monitor and attempt to control the influence these factors may have on our rate-sensitive assets (RSA) and rate-sensitive liabilities (RSL), and overall operating results and financial position. One such technique utilizes a static gap model that considers repricing frequencies of RSA and RSL in order to monitor IRR. Gap analysis attempts to measure our interest rate exposure by calculating the net amount of RSA and RSL that reprice within specific time intervals. A positive gap occurs when the amount of RSA repricing in a specific period is greater than the amount of RSL repricing within that same time frame and is indicated by a RSA/RSL ratio greater than 1.0. A negative gap occurs when the amount of RSL repricing is greater than the amount of RSA and is indicated by a RSA/RSL ratio of less than 1.0. A positive gap implies that earnings will be impacted favorably if interest rates rise

and adversely if interest rates fall during the period. A negative gap tends to indicate that earnings will be affected inversely to interest rate changes.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Our cumulative one-year RSA/RSL ratio equaled 2.01% at June 30, 2015. Given the length of time that market rates have been at historical lows and the potential for rates to increase in the future, the focus of ALCO has been to create a positive static gap position. With regard to RSA, we predominantly offer medium-term, fixed-rate loans as well as adjustable rate loans. With respect to RSL, we offer longer term promotional certificates of deposit in an attempt to increase duration. The current position at June 30, 2015, indicates that the amount of RSA repricing within one year would exceed that of RSL, thereby causing increases in market rates, to increase net interest income. However, these forward-looking statements are qualified in the aforementioned section entitled "Forward-Looking Discussion" in this Management's Discussion and Analysis.

Static gap analysis, although a standard measuring tool, does not fully illustrate the impact of interest rate changes on future earnings. First, market rate changes normally do not equally or simultaneously affect all categories of assets and liabilities. Second, assets and liabilities that can contractually reprice within the same period may not do so at the same time or to the same magnitude. Third, the interest rate sensitivity table presents a one-day position. Variations occur daily as we adjust our rate sensitivity throughout the year. Finally, assumptions must be made in constructing such a table.

As the static gap report fails to address the dynamic changes in the balance sheet composition or prevailing interest rates, we utilize a simulation model to enhance our asset/liability management. This model is used to create pro forma net interest income scenarios under various interest rate shocks. Model results at June 30, 2015, produced results similar to those indicated by the one-year static gap position. In addition, parallel and instantaneous shifts in interest rates under various interest rate shocks resulted in changes in net interest income that were well within ALCO policy limits. We will continue to monitor our IRR throughout 2015 and endeavor to employ deposit and loan pricing strategies and direct the reinvestment of loan and investment repayments in order to manage our IRR position.

Financial institutions are affected differently by inflation than commercial and industrial companies that have significant investments in fixed assets and inventories. Most of our assets are monetary in nature and change correspondingly with variations in the inflation rate. It is difficult to precisely measure the impact inflation has on us, however we believe that our exposure to inflation can be mitigated through asset/liability management.

Liquidity:

Liquidity management is essential to our continuing operations and enables us to meet financial obligations as they come due, as well as to take advantage of new business opportunities as they arise. Financial obligations include, but are not limited to, the following:

Funding new and existing loan commitments;

Payment of deposits on demand or at their contractual maturity;

Repayment of borrowings as they mature;

Payment of lease obligations; and

Payment of operating expenses.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

These obligations are managed daily, thus enabling us to effectively monitor fluctuations in our liquidity position and to adapt that position according to market influences and balance sheet trends. Future liquidity needs are forecasted and strategies are developed to ensure adequate liquidity at all times.

Historically, core deposits have been the primary source of liquidity because of their stability and lower cost, in general, than other types of funding. Providing additional sources of funds are loan and investment payments and prepayments and the ability to sell both available for sale securities and mortgage loans held for sale. We believe liquidity is adequate to meet both present and future financial obligations and commitments on a timely basis.

We employ a number of analytical techniques in assessing the adequacy of our liquidity position. One such technique is the use of ratio analysis to determine the extent of our reliance on noncore funds to fund our investments and loans maturing after June 30, 2015. Our noncore funds at June 30, 2015, were comprised of time deposits in denominations of \$100 or more and other borrowings. These funds are not considered to be a strong source of liquidity since they are very interest rate sensitive and are considered to be highly volatile. At June 30, 2015, our net noncore funding dependence ratio, the difference between noncore funds and short-term investments to long-term assets, was 6.2%, while our net short-term noncore funding dependence ratio, noncore funds maturing within one-year, less short-term investments to long-term assets equaled 2.7%. Comparatively, our overall noncore dependence ratio improved from year-end 2014 when it was 8.5%. Similarly, our net short-term noncore funding dependence ratio was 3.0% at year-end, indicating that our reliance on noncore funds has decreased.

The Consolidated Statements of Cash Flows present the changes in cash and cash equivalents from operating, investing and financing activities. Cash and cash equivalents, consisting of cash on hand, cash items in the process of collection, deposit balances with other banks and federal funds sold, increased \$4,131 during the six months ended June 30, 2015. Cash and cash equivalents increased \$26,098 for the same period last year. For the six months ended June 30, 2015, net cash inflows of \$8,867 from operating activities were partially offset by net cash outflows of \$4,486 from investing activities and \$250 from financing activities. For the same period of 2014, net cash inflows of \$9,942 from operating activities and \$29,195 from financing activities were partially offset by net cash outflows of \$13,039 from investing activities.

Operating activities provided net cash of \$8,867 for the six months ended June 30, 2015, and \$9,942 for the corresponding six months of 2014. Net income, adjusted for the effects of gains and losses along with noncash transactions such as depreciation and the provision for loan losses, is the primary source of funds from operations.

Investing activities primarily include transactions related to our lending activities and investment portfolio. Investing activities used net cash of \$4,486 for the six months ended June 30, 2015, compared to \$13,039 for the same period of 2014. In 2015, an increase in lending activities was the primary factor causing the net cash outflow from investing activities. Investment portfolio activities was the predominant factor causing the net cash outflow from investing activities in 2014.

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Financing activities used net cash of \$250 for the six months ended June 30, 2015, and provided net cash of \$29,195 for the corresponding six months of 2014. Deposit gathering is our predominant financing activity. During the six months ended June 30, 2015, deposits decreased compared to an increase in deposits during the same period last year. The net decrease in deposits totaled \$424 in the six months ended June 30, 2015. Comparatively, deposit gathering provided net cash of \$43,866 for the same period of 2014. We continued to attract deposits from new and existing customers, including municipalities and school districts, as well as deposits gathered in relation to natural gas activity within existing markets in Susquehanna and Wyoming Counties of Pennsylvania.

We believe that our future liquidity needs will be satisfied through maintaining an adequate level of cash and cash equivalents, by maintaining readily available access to traditional funding sources, and through proceeds received from the investment and loan portfolios. The current sources of funds will enable us to meet all cash obligations as they come due.

Capital:

Stockholders' equity totaled \$250,404 or \$33.20 per share at June 30, 2015, compared to \$246,779 or \$32.69 per share at December 31, 2014. Net income of \$9,475 for the six months ended June 30, 2015 was the primary factor leading to the improved capital position. Stockholders' equity was also affected by cash dividends declared of \$4,679, shares retired of \$215, stock based compensation of \$35, and an other comprehensive loss resulting from market value fluctuations in the investment portfolio of \$991.

Dividends declared equaled \$0.62 per share in 2015 and 2014. The dividend payout ratio was 49.2% for the six months ended June 30, 2015 and 58.5% for the same period of 2014. The merger agreement pursuant to which we merged with Pensco in 2013 contemplates that, unless 80 percent of our board of directors determines otherwise, we will pay a quarterly cash dividend in an amount no less than \$0.31 per share through 2018, provided that sufficient funds are legally available, and that Peoples and Peoples Bank remain Well-capitalized in accordance with applicable regulatory guidelines. It is the intention of the Board of Directors to continue to pay cash dividends in the future. However, these decisions are affected by operating results, financial and economic decisions, capital and growth objectives, appropriate dividend restrictions and other relevant factors.

In July 2013, the Board of Directors of the FRB approved the Basel III interim final rule (Basel III) which is intended to strengthen the quality and increase the required level of regulatory capital for a more stable and resilient banking system. The changes include: (i) a new regulatory capital measure, Common Equity Tier 1 (CET1), which is limited to capital elements of the highest quality; (ii) a new definition and increase of tier 1 capital which is now comprised of CET1 and Additional Tier 1; (iii) changes in calculation of some risk-weighted assets and off-balance sheet exposure; and (iv) a capital conservation buffer that will limit capital distributions, stock redemptions, and certain discretionary bonus payments if the institution does not maintain capital in excess of the minimum capital requirements. These new capital rules took effect for our Bank on January 1, 2015 and reporting began with the March 31, 2015 call report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

The adequacy of capital is reviewed on an ongoing basis with reference to the size, composition and quality of resources and regulatory guidelines. We seek to maintain a level of capital sufficient to support existing assets and anticipated asset growth, maintain favorable access to capital markets, and preserve high quality credit ratings. At June 30, 2015, the Bank's Tier 1 capital to total average assets was 10.92% as compared to 10.42% at December 31, 2014. The Bank's Tier 1 capital to risk weighted asset ratio was 15.40% and the total capital to risk weighted asset ratio was 16.38% at June 30, 2015. These ratios were 14.28% and 15.15% at December 31, 2014. The Bank's common equity Tier 1 to risk weighted asset ratio was 15.40 at June 30, 2015. The Bank was deemed to be well-capitalized under regulatory standards at June 30, 2015.

Review of Financial Performance:

Net income for the second quarter of 2015 equaled \$4,431 or \$0.59 per share compared to \$3,331 or \$0.44 per share for the second quarter of 2014. Return on average assets (ROA) measures our net income in relation to total assets. Our ROA was 1.03% for the second quarter of 2015 compared to 0.78% for the same period of 2014. Return on average equity (ROE) indicates how effectively we can generate net income on the capital invested by stockholders. Our ROE was 7.14% for the second quarter of 2015 compared to 5.60% for the second quarter of 2014. The results for the three months ended June 30, 2014 included pre-tax acquisition related expenses of \$1,008. Net income for the six months ended June 30, 2015 equaled \$9,475 or \$1.26 per share compared to \$8,029 or \$1.06 per share for the same period of 2014. Our ROA and ROE were 1.11% and 7.71% through six months in 2015 compared to 0.95% and 6.79% for the same period of 2014. Gains on sale of investment securities were \$832 for the six months ended June 30, 2015 and \$160 for the comparable period in 2014.

Net Interest Income:

Net interest income is the fundamental source of earnings for commercial banks. Fluctuations in the level of net interest income can have the greatest impact on net profits. Net interest income is defined as the difference between interest revenue, interest and fees earned on interest-earning assets, and interest expense, the cost of interest-bearing liabilities supporting those assets. The primary sources of earning assets are loans and investment securities, while interest-bearing deposits, short-term and long-term borrowings comprise interest-bearing liabilities. Net interest income is impacted by:

Variations in the volume, rate and composition of earning assets and interest-bearing liabilities;

Changes in general market rates; and

The level of nonperforming assets.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Changes in net interest income are measured by the net interest spread and net interest margin. Net interest spread, the difference between the average yield earned on earning assets and the average rate incurred on interest-bearing liabilities, illustrates the effects changing interest rates have on profitability. Net interest margin, net interest income as a percentage of earning assets, is a more comprehensive ratio, as it reflects not only the spread, but also the change in the composition of interest-earning assets and interest-bearing liabilities. Tax-exempt loans and investments carry pre-tax yields lower than their taxable counterparts. Therefore, in order to make the analysis of net interest income more comparable, tax-exempt income and yields are reported herein on a tax-equivalent basis using the prevailing federal statutory tax rate of 35.0% in 2015 and 2014.

For the three months ended June 30, tax-equivalent net interest income increased \$479 to \$14,947 in 2015 from \$14,468 in 2014. The net interest spread increased to 3.72% for the three months ended June 30, 2015 from 3.58% for the three months ended June 30, 2014. The tax-equivalent net interest margin increased to 3.84% for the second quarter of 2015 from 3.73% for the comparable period of 2014. The tax-equivalent net interest margin for the first quarter of 2015 was 3.88%. Loan interest income in the second quarter of 2015 related to loans acquired in the 2013 Pensco merger was \$122, resulting in an increase in the tax-equivalent net interest margin of 3 basis points. Comparatively, loan interest recognized on these loans in the second quarter of 2014 was \$375 resulting in an increase in the tax-equivalent net interest margin of 10 basis points. Without such interest income, the tax equivalent net interest margin for the three months ended June 30 would have been 3.81% in 2015 and 3.63% in 2014.

For the three months ended June 30, tax-equivalent interest income on earning assets increased \$200, to \$16,395 in 2015 as compared to \$16,195 in 2014. The increase was primarily due to the growth in average earning assets which increased \$2,082, to \$1,559,644 for the second quarter of 2015 from \$1,557,562 for the same period in 2014. The overall yield on earning assets, on a fully tax-equivalent basis, increased 5 basis points for the three months ended June 30, 2015 at 4.22% as compared to 4.17% for the three months ended June 30, 2014. The increase in the yield on earning assets resulted from a shifting of volumes from lower yielding earning assets to loans. The overall yield earned on loans however, decreased 8 basis points for the second quarter of 2015 to 4.63% from 4.71% for the second quarter of 2014. Average loans increased to \$1,235,423 for the quarter ended June 30, 2015 compared to \$1,187,568 for the same period in 2014. The resulting tax-equivalent interest earned on loans was \$14,268 for the three month period ended June 30, 2015 compared to \$13,938 for the same period in 2014, an increase of \$330.

Total interest expense decreased \$279, to \$1,448 for the three months ended June 30, 2015 from \$1,727 for the three months ended June 30, 2014. A favorable volume variance caused the decrease. The average volume of interest bearing liabilities declined to \$1,160,031 for the three months ended June 30, 2015, as compared to \$1,172,286 for the three months ended June 30, 2014. The cost of funds decreased to 0.50% for the three months ended June 30, 2015 as compared to 0.59% for the same period in 2014.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

For the six months ended June 30, tax-equivalent net interest income decreased \$227 to \$29,774 in 2015 from \$30,001 in 2014. The net interest spread decreased to 3.73% for the six months ended June 30, 2015 from 3.76% for the six months ended June 30, 2014. The tax-equivalent net interest margin for the six months ended June 30 was 3.86% in 2015 compared to 3.90% in 2014. Loan interest income in the six months ended June 30, 2015 related to loans acquired in the fourth quarter of 2013 was \$347, resulting in an increase in the tax-equivalent net interest margin of 5 basis points. Comparatively, loan interest income on these loans recognized in the first six months of 2014 was \$1,430 resulting in an increase in the tax-equivalent net interest margin of 19 basis points. Without such interest income, the tax equivalent net interest margin for the six months ended June 30 would have been 3.81% in 2015 and 3.71% in 2014.

For the six months ended June 30, 2015, tax-equivalent interest income decreased \$658, to \$32,757 as compared to \$33,415 for the six months ended June 30, 2014. A volume variance in interest income of \$2,176 attributable to changes in the average balance of earning assets was more than offset by a \$2,834 unfavorable rate variance due to a reduction in the yield on earning assets. Specifically, the decrease was primarily due to declining yields on average earning assets which decreased 10 basis points for the first six months of 2015 from the same period in 2014. The overall yield on earning assets, on a fully tax-equivalent basis, decreased for the six months ended June 30, 2015 to 4.25% as compared to 4.35% for the six months ended June 30, 2014. This was a result of the continuation of the low interest rate environment along with increased market competition.

Total interest expense decreased \$431 to \$2,983 for the six months ended June 30, 2015 from \$3,414 for the six months ended June 30, 2014. A favorable volume variance caused interest expenses to decrease \$320. The average volume of interest bearing liabilities declined to \$1,156,541 for the six months ended June 30, 2015, as compared to \$1,169,541 for the six months ended June 30, 2014. The remaining \$111 decrease in interest expense was attributable to a favorable rate variance. The cost of funds decreased to 0.52% for the six months ended June 30, 2015 as compared to 0.59% for the same period in 2014.

Table of Contents**Peoples Financial Services Corp.****MANAGEMENT'S DISCUSSION AND ANALYSIS****(Dollars in thousands, except per share data)**

The average balances of assets and liabilities, corresponding interest income and expense and resulting average yields or rates paid are summarized as follows. Averages for earning assets include nonaccrual loans. Investment averages include available-for-sale securities at amortized cost. Income on investment securities and loans is adjusted to a tax equivalent basis using the prevailing federal statutory tax rate of 35%.

| | Six months ended | | | | | |

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Provision for Loan Losses:

We evaluate the adequacy of the allowance for loan losses account on a quarterly basis utilizing our systematic analysis in accordance with procedural discipline. We take into consideration certain factors such as composition of the loan portfolio, volumes of nonperforming loans, volumes of net charge-offs, prevailing economic conditions and other relevant factors when determining the adequacy of the allowance for loan losses account. We make monthly provisions to the allowance for loan losses account in order to maintain the allowance at the appropriate level indicated by our evaluations. Based on our most current evaluation, we believe that the allowance is adequate to absorb any known and inherent losses in the portfolio as of June 30, 2015.

For the three and six months ended June 30, 2015, the provision for loan losses totaled \$750 and \$1,500, compared to \$1,201 and \$2,058 for those same periods in 2014. The decrease in nonperforming assets was the main contributor to the decreased provision for the quarter and year-to-date periods ended June 30, 2015.

Noninterest Income:

Noninterest income for the second quarter decreased \$152 or 4.0% to \$3,626 in 2015 from \$3,778 in 2014. For the six months ended June 30, 2015, noninterest income totaled \$7,935, an increase of \$597 or 8.1% from \$7,338 for the comparable period of 2014. Service charges, fees and commissions was relatively unchanged, decreasing \$27 to \$3,154 through six months in 2015 from \$3,181 for the same period in 2014. Merchant services income decreased \$29 to \$1,753 for the six months ended June 30, 2015 from \$1,782 for the same period last year as a result of lower transaction volumes and a decrease in the number of merchant accounts serviced. Income generated from commissions and fees on fiduciary activities decreased \$169 to \$946 for the six months ended June 30, 2015 in comparison to \$1,115 for the same period in 2014 due to a decrease in executor fees settled in 2015. Income generated from our wealth management division increased \$51 to \$403 through the first six months of 2015 in comparison to \$352 over that same period in 2014. Mortgage banking income increased \$178 to \$470 for the first six months of 2015 compared to \$292 for the comparable period in 2014 as the volume of loans originated for sale improved. Life insurance investment income decreased \$79 to \$377 for the six months ended June 30, 2015 from \$456 for the same period in 2014. Beginning late in the third quarter of 2014, we began to incur offsets to life insurance income that represent mortality costs to the life insurance. Those costs netted from income equaled \$71 through the first six months of 2015. Gains from the sale of investment securities available-for-sale increased to \$832 for the six months ended June 30, 2015 compared to \$160 for the same period in 2014 as we took advantage of the significant improvement in the value of U.S. Treasury securities brought on by the reduction in market yields in the first quarter of 2015.

For the three months ended June 30, noninterest income decreased to \$3,626 in 2015 from \$3,778 in 2014. Increases in income from merchant services, wealth management and mortgage banking were more than offset by declines in service charges, fees and commissions, commissions and fees on fiduciary activities, life insurance income and net gains on sale of investment securities available-for-sale.

Table of Contents

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Noninterest Expenses:

In general, noninterest expense is categorized into three main groups: employee-related expenses, occupancy and equipment expenses and other expenses. Employee-related expenses are costs associated with providing salaries, including payroll taxes and benefits, to our employees. Occupancy and equipment expenses, the costs related to the maintenance of facilities and equipment, include depreciation, general maintenance and repairs, real estate taxes, rental expense offset by any rental income, and utility costs. Other expenses include general operating expenses such as advertising, contractual services, insurance, including FDIC assessment, other taxes and supplies. Several of these costs and expenses are variable while the remainder are fixed. We utilize budgets and other related strategies in an effort to control the variable expenses.

For the second quarter, noninterest expense decreased \$728 or 6.0% to \$11,511 in 2015 from \$12,239 in 2014. For the six months ended June 30, 2015, noninterest expense decreased \$921 or 3.9% to \$22,605 in 2015 from \$23,526 in 2014. Personnel costs increased 7.1%, net occupancy and equipment costs increased 13.7%, merchant services expense increased 11.6% and other expenses decreased by 10.5% comparing year-to-date 2015 and 2014.

Salaries and employee benefits expense, which comprise the majority of noninterest expense, totaled \$5,613 for the second quarter of 2015, an increase of \$652 or 13.1% when compared to the second quarter of 2014. Salaries and employee benefits expense totaled \$10,846 for the six months ended June 30, 2015 compared to \$10,129 for the same period of 2014, an increase of \$717 or 7.1%. Severances paid out to eliminate certain duplicated positions in the first six months of 2015 totaled \$405.

Merchant services expense increased \$155 or 31.3% to \$650 for the three months ended June 30, 2015 from \$495 for the same period in 2014. Merchant services expense increased \$123 or 11.6% to \$1,183 for the six months ended June 30, 2015 from \$1,060 for the year earlier period. Both the quarterly and six month results were a product of higher interchange fees being paid to the service providers.

We experienced a \$178 or 7.7% decrease in net occupancy and equipment expense comparing the second quarters of 2015 at \$2,149 and 2014 at \$2,327. Net occupancy and equipment expense increased \$557 or 13.7% comparing the six months ended June 30, 2015 at \$4,617 and June 30, 2014 at \$4,060. The increase in net occupancy and equipment expense was caused by costs associated with the Lehigh Valley branch during 2015, which had no comparable expense in the corresponding period in 2014, and costs associated with snow removal and clean up to the 26 locations due to the severe winter.

For the second quarter, other expenses decreased \$311 or 10.0% to \$2,804 from \$3,115 comparing 2015 to 2014. For the six months ended June 30, 2015, other expenses decreased \$626 or 10.5% to \$5,359 as compared to \$5,985 for the same period of 2014. The decrease was the result of realizing cost synergies as we begin to achieve certain of the intended benefits of the 2013 merger with Pensco.

Peoples Financial Services Corp.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Dollars in thousands, except per share data)

Income Taxes:

We recorded income tax expense of \$1,124 or 20.2% of pre-tax income, and \$762 or 18.6% of pre-tax income for the three months ended June 30, 2015 and 2014. We recorded income tax expense of \$2,638 or 21.8% of pre-tax income, and \$2,225 or 21.7% of pre-tax income for the six months ended June 30, 2015 and 2014.

Table of Contents**Peoples Financial Services Corp.****Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

Market risk is the risk to our earnings and/or financial position resulting from adverse changes in market rates or prices, such as interest rates, foreign exchange rates or equity prices. Our exposure to market risk is primarily interest rate risk (IRR), which arises from our lending, investing and deposit gathering activities. Our market risk sensitive instruments consist of non-derivative financial instruments, none of which are entered into for trading purposes. During the normal course of business, we are not exposed to foreign exchange risk or commodity price risk. Our exposure to IRR can be explained as the potential for change in reported earnings and/or the market value of net worth. Variations in interest rates affect the underlying economic value of assets, liabilities and off-balance sheet items. These changes arise because the present value of future cash flows, and often the cash flows themselves, change with interest rates. The effects of the changes in these present values reflect the change in our underlying economic value, and provide a basis for the expected change in future earnings related to interest rates. Interest rate changes affect earnings by changing net interest income and the level of other interest-sensitive income and operating expenses. IRR is inherent in the role of banks as financial intermediaries.

A bank with a high degree of IRR may experience lower earnings, impaired liquidity and capital positions, and most likely, a greater risk of insolvency. Therefore, banks must carefully evaluate IRR to promote safety and soundness in their activities.

The projected impacts of instantaneous changes in interest rates on our net interest income and economic value of equity at June 30, 2015, based on our simulation model, as compared to our ALCO policy limits are summarized as follows:

| Changes in Interest Rates (basis points) | June 30, 2015 % Change in | | | |
|--|------------------------------|--------|--------------------------|--------|
| | Net Interest Income | | Economic Value of Equity | |
| | Metric | Policy | Metric | Policy |
| +400 | 5.9 | (20.0) | 4.5 | (45.0) |
| +300 | 4.9 | (20.0) | 4.7 | (35.0) |
| +200 | 3.3 | (10.0) | 3.8 | (25.0) |
| +100 | 1.7 | (10.0) | 2.7 | (15.0) |
| Static | | | | |
| -100 | (2.9) | (10.0) | (11.0) | (15.0) |

Our simulation model creates pro forma net interest income scenarios under various interest rate shocks. Given instantaneous and parallel shifts in general market rates of plus 100 basis points, our projected net interest income for the 12 months ending June 30, 2015, would increase slightly at 1.7% percent from model results using current interest rates. Additional disclosures about market risk are included in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2014, under the heading Market Risk Sensitivity, and are incorporated into this Item 3 by reference. There were no material changes in our market risk from December 31, 2014.

Item 4. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures.

At June 30, 2015, the end of the period covered by this Quarterly Report on Form 10-Q, the Chief Executive Officer (CEO) and Chief Financial Officer (CFO) evaluated the effectiveness of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based upon that evaluation, the CEO and CFO concluded that the disclosure controls and procedures, at June 30, 2015, were effective to provide reasonable assurance that information required to be disclosed in the Company's reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that information required to be disclosed in such reports is accumulated and communicated to the CEO and CFO to allow timely decisions regarding required disclosure.

(b) Changes in internal control.

There were no changes made in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

The nature of the Company's business generates a certain amount of litigation involving matters arising out of the ordinary course of business. In the opinion of management, there were no legal proceedings that had or might have a material effect on the consolidated results of operations, liquidity, or the financial position of the Company in 2014 and through the date of this quarterly report on Form 10-Q.

Item 1A. Risk Factors.

There have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents**Peoples Financial Services Corp.****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

On January 30, 2015, the Board of Directors authorized the repurchase of up to 370,000 shares of the Company's common stock. The following purchases were made by or on behalf of the Company or any affiliated purchaser, as defined in the Exchange Act Rule 10b-18(a) (3), of the Company's common stock during each of the months for the quarter ended June 30, 2015. At June 30, 2015, there were 362,567 shares available for repurchase under the 2015 Stock Repurchase Program with an expiration date of December 31, 2015.

| MONTH | | Total number of shares purchased | Average price paid per share | Total number of shares purchased as part of publicly announced plans or programs | Maximum number of shares that may yet be purchased under the plans or programs |
|---------------|----------------|----------------------------------|------------------------------|--|--|
| April 1, 2015 | April 30, 2015 | | | | 368,200 |
| May 1, 2015 | May 31, 2015 | 3,569 | \$ 38.69 | 3,569 | 364,631 |
| June 1 | June 30, 2015 | 2,064 | 37.57 | 2,064 | 362,567 |
| Total | | 5,633 | \$ 38.28 | 5,633 | |
