Notes to Condensed Consolidated Financial Statements

(Dollars in tables in thousands, except per share amounts)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting primarily of normal and recurring adjustments) considered necessary for a fair presentation have been included. Due to the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended January 30, 2016, filed with the Securities and Exchange Commission (SEC) on April 11, 2016.

As used herein, the terms we, our, us and Stein Mart refer to Stein Mart, Inc. and its wholly-owned subsidiaries.

Recent Accounting Pronouncements

In March 2016, the FASB issued ASU No. 2016-09 *Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*. This standard makes several modifications to ASC Topic 718 related to the accounting for forfeitures, employer tax withholding on share-based compensation and the financial statement presentation of excess tax benefits or deficiencies. ASU No. 2016-09 also clarifies the statement of cash flows presentation for certain components of share-based awards. The standard is effective for interim and annual reporting periods beginning after December 15, 2016, with early adoption permitted. We are currently evaluating the effect the adoption of this ASU will have on our financial condition, results of operations or cash flows.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. This update requires organizations to recognize lease assets and lease liabilities on the balance sheet and also disclose key information about leasing arrangements. This ASU is effective for annual reporting periods beginning on or after December 15, 2018, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual period. We are currently evaluating the effect the adoption of this ASU will have on our financial condition, results of operations or cash flows.

In 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU No. 2014-09 provides a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU No. 2014-09 will require an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This update creates a five-step model that requires entities to exercise judgment when considering the terms of the contract(s) which include (i) identifying the contract(s) with the customer, (ii) identifying the separate performance obligations in the contract, (iii) determining the transaction price, (iv) allocating the transaction price to the separate performance obligations, and (v)

recognizing revenue when each performance obligation is satisfied. This guidance was deferred by ASU No. 2015-14, issued by the FASB in August 2015, and is effective for annual and interim reporting periods beginning after December 15, 2017, with early adoption permitted for annual and interim reporting periods beginning after December 15, 2016. We have the option to apply the provisions of ASU No. 2014-09 either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of applying this ASU recognized at the date of initial application. We are currently evaluating which transition approach to use and assessing the effect the adoption of this ASU may have on our financial condition, results of operations or cash flows.

2. Shareholders Equity

Dividends

During the first quarter of 2016, we paid a quarterly dividend of \$0.075 per common share on April 14, 2016.

On February 4, 2015, we announced that our Board of Directors declared a special cash dividend of \$5.00 per common share which was paid on February 27, 2015. As a result of the special cash dividend, all outstanding stock options and performance share awards were modified during 2015 so that they retain the same fair value. No incremental compensation expense resulted from these modifications. In the first quarter of 2015, we also paid a quarterly dividend of \$0.075 per common share on April 17, 2015

Stock Repurchase Plan

During the 13 weeks ended April 30, 2016, we repurchased 143,282 shares of our common stock at a total cost of approximately \$0.9 million. During the 13 weeks ended May 2, 2015, we repurchased 190,140 shares of our common stock at a total cost of approximately \$3.0 million. Stock repurchases were for tax withholding amounts due on employee stock awards and during the first quarter of 2016 and 2015 included no shares purchased on the open market under our previously authorized stock repurchase plan. As of April 30, 2016, there are 577,592 shares that can be repurchased pursuant to the Board of Director's current authorization.

Options to acquire shares totaling approximately 1.3 million and 28 thousand shares of common stock that were outstanding during the 13 weeks ended April 30, 2016 and May 2, 2015, respectively, were not included in the computation of diluted earnings per common share. Options excluded were those that had exercise prices greater than the average market price of the common shares such that inclusion would have been anti-dilutive.

4. Commitments and Contingencies

We are involved in various routine legal proceedings incidental to the conduct of our business. During the 13 weeks ended April 30, 2016 and May 2, 2015, we accrued \$1.4 million and \$0.1 million, respectively, for actual and anticipated legal settlements. Management does not believe that any of these legal proceedings will have a material adverse effect on our financial condition, results of operations or cash flows.

The following discussion and analysis should be read in conjunction with the audited consolidated financial statements included in our Annual Report on Form 10-K for the year ended January 30, 2016, filed with the Securities and Exchange Commission (SEC) on April 11, 2016.

Overview

We are a national retailer offering the fashion merchandise, service and presentation of a better department or specialty store at prices comparable to off-price retail chains. Our focused assortment of merchandise features current-season moderate to better fashion apparel for women and men, as well as accessories, shoes and home fashions.

Financial Overview for the First Quarter of 2016

Net sales in the first quarter of 2016 were \$355.7 million compared to \$353.5 million in the first quarter of 2015. Comparable store sales in the first quarter of 2016 decreased 3.4 percent compared to the first quarter of 2015. Net income in the first quarter of 2016 was \$13.3 million, or \$0.29 per diluted share, compared to net income of \$13.6 million, or \$0.29 per diluted share, in the first quarter of 2015. We had \$149.0 million, \$190.2 million and \$152.4 million of direct borrowings on our Credit Facilities as of April 30, 2016, January 30, 2016 and May 2, 2015, respectively.

Thirteen Weeks Ended April 30, 2016, Compared to the Thirteen Weeks Ended May 2, 2015 (dollar amounts in thousands):

Net Sales

	13 Weeks Ended	13 Weeks Ended	Increase/
	April 30, 2016	May 2, 2015	(Decrease)
Net sales	\$ 355,712	\$ 353,521	\$ 2,191
Sales percent increase:			
Total net sales			0.6%
Comparable store sales			(3.4)%

The 3.4 percent decrease in comparable stores sales was driven by decreases in the number of transactions and average unit retail prices. Comparable store sales reflect stores open throughout the period and prior fiscal year and include e-commerce sales. E-commerce sales contributed approximately 0.4 percent to the comparable store sales and were approximately 1.8 percent and 1.5 percent of sales in the first quarters of 2016 and 2015, respectively. Comparable store sales do not include leased department commissions.

Gross Profit

	13 Weeks Ended	13 Weeks Ended	Increase/

Gross profit	\$ 108,892	\$ 108,380	\$ 512
Percentage of net sales	30.6%	30.7%	(0.1)%

We maintained our gross profit rate as a percent of sales for the quarter.

Selling, general and administrative expenses	\$ 86,474	\$ 85,622	\$ 852
Percentage of net sales	24.3%	24.2%	0.1%

SG&A increased slightly in the first quarter of 2016 compared to 2015. Increases in SG&A were driven by operating expenses for our new stores and higher accruals for actual and anticipated legal settlements. These increases were offset by higher credit card program income, lower incentive compensation and operating savings. Credit card income was higher due to the improved economics from our new agreement with Synchrony Financial. Incentive compensation was lower based on our sales and earnings results.

Liquidity and Capital Resources

Capital requirements and working capital needs are funded through a combination of internally generated funds, available cash, credit terms from vendors and our \$250 million senior secured revolving credit facility pursuant to a second amended and restated credit agreement with Wells Fargo Bank (the Credit Agreement). Working capital is used to support store inventories and capital investments for system improvements, fund new store openings, maintain existing stores, pay dividends, make debt service payments and repurchase of shares of our common stock. Historically, our working capital needs are lowest after our heavy spring selling in March and April and holiday selling in late December and early January. They are highest as we begin paying for our heavy spring, fall, and holiday receipts in late February, October and at the end of November. As of April 30, 2016, we had cash and cash equivalents of \$16.3 million and \$149.0 million in borrowings under our Credit Facilities. We believe that our cash flows from operations and our available cash and cash equivalents are sufficient to cover our liquidity requirements over the next 12 months.

Net cash provided by operating activities was \$60.3 million for the first quarter of 2016 compared to net cash provided by operating activities of \$34.5 million for the first quarter of 2015. The increase in cash provided by operating activities was mainly due to higher accrued expenses and a signing bonus related to our new credit card program, partially offset by investments in inventory.

Net cash used in investing activities was entirely for capital expenditures and was \$11.3 million for the first quarter of 2016 compared to \$7.1 million for the first quarter of 2015. Capital expenditures were greater for the first quarter of 2016 primarily due to additional new and relocated stores in the first quarter of 2016 compared to 2015.

Net cash used in financing activities was \$44.5 million for the first quarter of 2016 compared to cash used in financing activities of \$75.6 million for the first quarter of 2015. During the first quarter of 2016, we had proceeds from borrowings of \$80.9 million and repayments of debt for \$122.1 million. Borrowings under the Credit Facilities were initially used for a special dividend 2015, and have subsequently been used for working capital, capital expenditures and other general corporate purposes. We also paid cash dividends of \$3.4 million during the first quarter of 2016. In addition, we repurchased 143,282 shares of common stock for \$0.9 million. During the first quarter of 2015, we paid cash dividends of \$228.8 million and repurchased 190,140 shares of common stock for \$3.0 million. See Note 2 Shareholders Equity of the Notes to the Condensed Consolidated Financial Statements for further discussion.

Critical Accounting Policies and Estimates

We discuss our critical accounting policies and estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the year ended January 30, 2016. We have made no significant change in our critical accounting policies and estimates since January 30, 2016.

Recent Accounting Pronouncements

Recently issued accounting pronouncements are discussed in Note 1 Basis of Presentation of the Notes to the Condensed Consolidated Financial Statements.

Table of Contents

Seasonality and Inflation

Our business is seasonal. Sales and profitability are historically higher in the first and fourth quarters of the fiscal year, which include the spring and holiday seasons. Therefore, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

Although we expect that our operations will be influenced by general economic conditions, we do not believe that inflation has had a material effect on our results of operations. However, there can be no assurance that our business will not be affected by inflation in the future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risk, see **Quantitative and Qualitative Disclosures about Market Risk** in Part II, Item 7A of our Annual Report on Form 10-K for the year ended January 30, 2016. There were no material changes to our market risk during the quarter ended April 30, 2016.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of April 30, 2016 to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
