SECURITIES REGISTERED PURSUANT TO SECTION 12(g) OF THE ACT: NONE

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15 (d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the shares of the registrant's Common Stock held by non-affiliates was approximately \$4,092,088,786 as of June 30, 2016 based on the closing price of such shares on the New York Stock Exchange on that day. The number of shares of the registrant's Common Stock outstanding on February 16, 2017 was 117,666,948.

DOCUMENTS INCORPORATED BY REFERENCE:

Portions of the registrant's definitive Proxy Statement for the 2017 Annual Meeting of Stockholders, currently scheduled to be held on May 11, 2017, are incorporated by reference into Part III of this Annual Report on Form 10-K.

CAUTIONARY STATEMENT REGARDING

FORWARD-LOOKING INFORMATION

This Annual Report on Form 10-K contains statements that are forward-looking statements as defined within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give our current expectations of forecasts of future events. All statements other than statements of current or historical fact contained in this Annual Report, including statements regarding our future financial position, business strategy, budgets, projected costs, and plans, and objectives of management for future operations, are forward-looking statements. The words anticipate, believe, continue, estimate, expect, intend, could, may, plan, projects, will, a, as they relate to us, are intended to identify forward-looking statements. These forward-looking statements are based on our current plans and actual future activities, and our results of operations may be materially different from those set forth in the forward-looking statements. In particular these include, among other things, statements relating to:

general economic and market conditions, including the impact governmental budgets can have on our contract renewals and renegotiations, per diem rates, and occupancy;

fluctuations in our operating results because of, among other things, changes in occupancy levels, competition, increases in costs of operations, fluctuations in interest rates, and risks of operations;

changes in the privatization of the corrections and detention industry and the public acceptance of our services;

our ability to obtain and maintain correctional, detention, and reentry facility management contracts, including, but not limited to, sufficient governmental appropriations, contract compliance, effects of inmate disturbances, and the timing of the opening of new facilities and the commencement of new management contracts as well as our ability to utilize current available beds and new capacity as development and expansion projects are completed;

increases in costs to develop or expand correctional, detention, and reentry facilities that exceed original estimates, or the inability to complete such projects on schedule as a result of various factors, many of which are beyond our control, such as weather, labor conditions, and material shortages, resulting in increased construction costs;

changes in government policy regarding the utilization of the private sector for corrections and detention capacity and our services by the U.S. Department of Justice, or DOJ, and the Department of Homeland Security, or DHS;

changes in government policy and in legislation and regulation of corrections and detention contractors that affect our business, including, but not limited to, California's utilization of out-of-state contracted

correctional capacity and the continued utilization of the South Texas Family Residential Center by U.S. Immigration and Customs Enforcement, or ICE, under terms of the current contract, and the impact of any changes to immigration reform and sentencing laws (Our company does not, under longstanding policy, lobby for or against policies or legislation that would determine the basis for, or duration of, an individual's incarceration or detention.);

Table of Contents

our ability to successfully integrate operations of our acquisitions and realize projected returns resulting therefrom;

our ability to meet and maintain qualification for taxation as a real estate investment trust, or REIT; and

the availability of debt and equity financing on terms that are favorable to us.

Any or all of our forward-looking statements in this Annual Report may turn out to be inaccurate. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, and financial needs. They can be affected by inaccurate assumptions we might make or by known or unknown risks, uncertainties and assumptions, including the risks, uncertainties and assumptions described in Risk Factors.

In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this Annual Report may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements. When you consider these forward-looking statements, you should keep in mind the risk factors and other cautionary statements in this Annual Report, including in Management's Discussion and Analysis of Financial Condition and Results of Operations and Business.

Our forward-looking statements speak only as of the date made. We undertake no obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained in this Annual Report.

Table of Contents

PART I.

ITEM 1. BUSINESS.

Overview

We are a diversified government solutions company with the scale and experience needed to solve tough government challenges in cost-effective ways. We provide a broad range of solutions to government partners that serve the public good through high-quality corrections and detention management, innovative and cost-saving government real estate solutions, and a growing network of residential reentry centers to help address America's recidivism crisis. We have been a flexible and dependable partner for government for more than 30 years. Our employees are driven by a deep sense of service, high standards of professionalism and a responsibility to help government better the public good.

Structured as a real estate investment trust, or REIT, we are the nation's largest owner of partnership correctional, detention, and residential reentry facilities and one of the largest prison operators in the United States. As of December 31, 2016, we owned or controlled 49 correctional and detention facilities, owned or controlled 25 residential reentry facilities, and managed an additional 11 correctional and detention facilities owned by our government partners, with a total design capacity of approximately 89,700 beds in 20 states and the District of Columbia. In addition to providing fundamental residential services, our facilities offer a variety of rehabilitation and educational programs, including basic education, faith-based services, life skills and employment training, and substance abuse treatment. These services are intended to help reduce recidivism and to prepare offenders for their successful reentry into society upon their release. We also provide or make available to offenders certain health care (including medical, dental, and mental health services), food services, and work and recreational programs.

Over the past several years, we have successfully executed strategies to diversify our business and offer a broader range of solutions to government partners. To reflect this transformation, we announced in October 2016 our decision to rename and rebrand Corrections Corporation of America to CoreCivic, Inc., or CoreCivic, or the Company. Our decision to rename the Company was the result of an intense research, brand strategy, and creative process that began in mid-2015. While the Company was legally renamed in December 2016, related rebranding efforts are ongoing. Through three business offerings, CoreCivic Safety, CoreCivic Properties, and CoreCivic Community, we provide a broad range of solutions to government partners that serve the public good through high-quality corrections and detention management, innovative and cost-saving government real estate solutions, and a growing network of residential reentry centers to help address America's recidivism crisis.

We are a Maryland corporation formed in 1983. Our principal executive offices are located at 10 Burton Hills Boulevard, Nashville, Tennessee, 37215, and our telephone number at that location is (615) 263-3000. Our website address is www.corecivic.com. We make our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, definitive proxy statements, and amendments to those reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), available on our website, free of charge, as soon as reasonably practicable after these reports are filed with or furnished to the Securities and Exchange Commission, or the SEC. Information contained on our website is not part of this Annual Report.

We began operating as a REIT for federal income tax purposes effective January 1, 2013. We provide correctional services and conduct other business activities through taxable REIT

Table of Contents

subsidiaries, or TRSs. A TRS is a subsidiary of a REIT that is subject to applicable corporate income tax and certain qualification requirements. Our use of TRSs enables us to comply with REIT qualification requirements while providing correctional services at facilities we own and at facilities owned by our government partners and to engage in certain other business operations. A TRS is not subject to the distribution requirements applicable to REITs so it may retain income generated by its operations for reinvestment.

As a REIT, we generally are not subject to federal income taxes on our REIT taxable income and gains that we distribute to our stockholders, including the income derived from providing prison bed capacity and dividends we earn from our TRSs. However, our TRSs will be required to pay income taxes on their earnings at regular corporate income tax rates.

As a REIT, we generally are required to distribute annually to our stockholders at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and excluding net capital gains). Our REIT taxable income will not typically include income earned by our TRSs except to the extent our TRSs pay dividends to the REIT.

Our customers primarily consist of federal, state, and local correctional and detention authorities. Federal correctional and detention authorities primarily consist of the Federal Bureau of Prisons, or the BOP, the United States Marshals Service, or the USMS, and ICE. Payments by federal correctional and detention authorities represented 52%, 51%, and 44% of our total revenue for the years ended December 31, 2016, 2015, and 2014, respectively.

Our customer contracts typically have terms of three to five years and contain multiple renewal options. Most of our facility contracts also contain clauses that allow the government agency to terminate the contract at any time without cause, and our contracts are generally subject to annual or bi-annual legislative appropriations of funds.

We are compensated for providing bed capacity and correctional, detention, and residential reentry services at a per diem rate based upon actual or minimum guaranteed occupancy levels. Occupancy rates for a particular facility are typically low when first opened or immediately following an expansion. However, beyond the start-up period, which typically ranges from 90 to 180 days, the occupancy rate tends to stabilize. We also lease facilities to governmental agencies and third-party operators. The average compensated occupancy of our facilities, based on rated capacity was as follows for the years 2016, 2015, and 2014:

| | 2016 | 2015 | 2014 |
|------------------------------|------|------|------|
| Owned and managed facilities | 76% | 80% | 81% |
| Managed-only facilities | 95% | 94% | 95% |
| Total operating facilities | 79% | 83% | 84% |
| Leased facilities | 100% | 100% | 100% |
| Total | 80% | 83% | 84% |

The average compensated occupancy of our owned and managed facilities, excluding idled facilities, was 87% for 2016 and 89% for both 2015 and 2014.

We also provide transportation services to governmental agencies through TransCor America, LLC, or TransCor, a subsidiary of our wholly-owned TRS. During the years ended December 31, 2016, 2015, and 2014, TransCor

generated total revenue of \$2.6 million, \$4.1 million, and \$4.4 million, respectively, or approximately 0.1%, 0.2%, and 0.3% of our total consolidated revenue in 2016, 2015, and 2014, respectively. We believe TransCor provides a complementary service to our core business that enables us to respond quickly to our customers' transportation needs.

Table of Contents

Operating Procedures and Offender Services

Pursuant to the terms of our customer contracts, we are responsible for the overall operations of our facilities, including staff recruitment, general administration of the facilities, facility maintenance, security, and supervision of the offenders. We are required by our customer contracts to maintain certain levels of insurance coverage for general liability, workers' compensation, vehicle liability, and property loss or damage. We also are required to indemnify our customers for claims and costs arising out of our operations and, in certain cases, to maintain performance bonds and other collateral requirements.

We are committed to equipping offenders in our care with the services, support, and resources necessary to return to the community as productive, contributing members of society. To that end, we provide a wide range of evidence-based reentry programs and activities at our facilities. At most of the facilities we manage, offenders have the opportunity to enhance their basic education from literacy through the acquisition of the high school equivalency diploma endorsed by the respective state and, in some cases, postsecondary educational achievements and opportunities to participate in college correspondence classes. In a number of our facilities we offer an adult education curriculum recognized by a number of nations to which these offenders may return, including curriculum offered in conjunction with the Mexican government. We also provide the Adult Education in Spanish program for our offenders with such a distinct need in education.

We recently invested in the equipment necessary for the offenders who are close to taking their high school equivalency exam (either the GED or the HiSET) to use the GED/HiSET Academy software program. GED/HiSET Academy is an offline software program that provides over 200 hours of individualized lessons up to the 12th grade. The GED/HiSET Academy incorporates best teaching practices and provides an atmosphere to engage and motivate students to learn everything they need to know to pass the GED/HiSET exam. During 2016, the number of offenders in facilities we manage who passed high school equivalency exams increased by 56% from 2015.

In addition, we offer a broad spectrum of vocational/technical education opportunities to equip individuals with marketable job skills. Our trade programs are certified by the National Center for Construction Education and Research, or NCCER. NCCER establishes the curriculum and certification for over 4,000 construction and trade organizations. Graduates of these programs enter the job market with certified skills that significantly enhance employability. During 2016, the number of offenders in facilities we manage who earned vocational certificates increased by 26% compared to 2015. Near the end of 2016, in coordination with the Georgia Department of Corrections, we developed programs at two facilities in Georgia to offer courses in welding and diesel truck maintenance, enabling students to earn trade certificates from nearby colleges.

For those with assessed substance use disorder needs, we offer evidence-based treatment programs such as the Residential Drug Abuse Program, or RDAP, with proven clinical outcomes. We offer both Residential Therapeutic Community models and intensive outpatient programs. We also offer drug and alcohol use education/DWI programs in some of our locations. Our goal in providing RDAP is to stimulate internal motivation for change and progress through the stages of change so that lasting personality alterations can occur. Our drug and alcohol education programs help participants understand their relationships with drugs and the links between drug use and crime, as well as assisting them to make better choices and decisions that can lead to healthier relationships in their lives. Our Victim

Table of Contents

Impact Programs, available at a number of our facilities, seek to educate offenders on the negative effects upon others resulting from their criminal conduct. At all our facilities, we provide faith-based programs to those seeking spiritual growth and character development. Our facilities offer opportunities for religious worship and study for a variety of faith groups and belief systems. Our Reentry and Life Skills programs prepare individuals for life after incarceration by teaching offenders how to successfully conduct a job search, how to manage their budget and financial matters, parenting skills, and relationship and family skills. Equally significant, we offer cognitive behavioral programs aimed at changing anti-social attitudes and behaviors of offenders, with a focus on altering the level of criminal thinking of offenders. Across the country, these programs incorporate the use of thousands of volunteers, along with our staff, who assist in providing guidance, direction, and post-incarceration services to offenders. We believe that together these efforts help us achieve reductions in recidivism.

Through our community corrections facilities, we provide an array of services to defendants and offenders who are serving their full sentence, the last portion of their sentence, waiting to be sentenced, or awaiting trial while supervised in a community environment. We offer housing and programs, with a key focus on employment, job readiness, life skills, and various substance abuse treatment programs, in order to help offenders successfully reenter the community and reduce the risk of recidivism. We also offer an alternative sentencing option to the courts which allows offenders who are gainfully employed to pay a significant portion of their cost of incarceration while serving their sentence in a community facility.

In addition, in some of our community corrections facilities, we offer housing and program services to parolees who have completed their sentence, but lack a viable home plan. Through a focus on employment and skill development, we provide a means for these parolees to successfully reintegrate into their communities.

Lastly, we provide day-reporting and outpatient substance abuse treatment programs at some of our community corrections facilities. These programs, depending on the needs of the offender, can provide cognitive behavioral based programs to assist in the offender's successful reentry while holding the offender accountable while living in the community.

We are proud of the employees who provided these extensive services to the offenders entrusted in our care. We believe these services will help offenders become more productive citizens and transition successfully back into society. Through the dedication of our teachers, counselors, case managers, chaplains, and other inmate support service professionals, our program highlights during 2016 include:

Our La Palma Correctional Center awarding 964 vocational certificates.

Our Crowley County Correctional Facility leading the Colorado state system in GED completions.

Our Wheeler Correctional Facility leading the Georgia state system in GED completions.

Our Northwest New Mexico Correctional Facility re-missioning as a program-intensive reentry facility. The American Correctional Association, or ACA, is an independent organization comprised of corrections professionals that establishes accreditation standards for correctional and detention institutions. Outside agency standards, such as those established by the ACA, provide us with the industry's most widely accepted operational

guidelines. ACA accredited facilities must be audited and re-accredited at least every three years. We have sought and received ACA accreditation for 41, or approximately 95%, of the eligible facilities we

Table of Contents

operated as of December 31, 2016, excluding our community corrections facilities. During 2016, 14 of the facilities we manage were re-accredited by the ACA with an average score of 99.6%, making our portfolio average 99.5%.

Beyond the standards provided by the ACA, our facilities are operated in accordance with a variety of company and facility-specific policies and procedures, as well as various contractual requirements. Many of these policies and procedures reflect the high standards generated by a number of sources, including the ACA, The Joint Commission, the National Commission on Correctional Healthcare, the Occupational Safety and Health Administration, as well as federal, state, and local government codes and regulations and longstanding correctional procedures.

In addition, our facilities are operated in compliance with the Prison Rape Elimination Act, or PREA, standards, which became effective in August 2013. All confinement facilities covered under the PREA standards must be audited at least every three years to be considered compliant with the Act. Covered facilities include adult prisons and jails, juvenile facilities, lockups (housing detainees overnight), and community confinement facilities, whether operated by the Department of Justice or by a state, local, corporate, or nonprofit authority.

Our facilities operate under these established standards, policies, and procedures, and also are subject to annual audits by our Quality Assurance Division, or QAD, which operates under the auspices of, and reports directly to, our Office of General Counsel and independently from our Operations Division. Through the QAD, we have devoted significant resources to ensuring that our facilities meet outside agency and accrediting organization standards and guidelines.

The QAD employs a team of full-time auditors, who are subject matter experts from all major disciplines within institutional operations. Annually, without advance notice, QAD auditors conduct on-site evaluations of each facility we operate using specialized audit tools, typically containing more than 1,000 audit indicators across all major operational areas. In most instances, these audit tools are tailored to facility and partner specific requirements. In addition, audit teams often work with facilities to address specific areas of need, such as meeting requirements of new partner contracts or providing detailed training of new departmental managers.

The QAD management team coordinates overall operational auditing and compliance efforts across all CoreCivic facilities. In conjunction with subject matter experts and other stakeholders having risk management responsibilities, the QAD management team develops performance measurement tools used in facility audits. The QAD management team provides governance of the corporate corrective action plan process for any items of nonconformance identified through internal and external facility reviews. Our QAD also contracts with teams of ACA certified correctional auditors to evaluate compliance with ACA standards at accredited facilities. Similarly, the QAD coordinates the work of certified PREA auditors to help ensure that all facilities operate in compliance with applicable PREA standards.

Business Development

We believe we own approximately 58% of all privately owned prison beds in the United States, manage nearly 41% of all privately managed prison beds in the United States, and are currently the second largest private owner and provider of community corrections services in the nation. Under the direction of our partnership development department, we market our facilities and services to government agencies responsible for federal, state, and local correctional, detention, and residential reentry facilities in the United States. Under the direction of our real estate department, we pursue asset acquisitions and business

Table of Contents

combination transactions that we believe will provide favorable investment returns and increase value to our stockholders. Our real estate department also pursues mission-critical real estate solutions for government agencies including, but not limited to, corrections and detention real estate assets.

We execute cross-departmental efforts to market CoreCivic Safety solutions to government partners that seek corrections and detention management services, CoreCivic Properties solutions to customers that need real estate and maintenance services, and CoreCivic Community solutions to government partners seeking residential reentry services. We also offer government partners a combination of these business offerings, and currently have two government partners utilizing all three.

As indicated by the following chart, business from our federal customers, including primarily the BOP, USMS, and ICE, continues to be a significant component of our business. The BOP, USMS, and ICE were the only federal partners that accounted for 10% or more of our total revenue during the last three years.

Certain of our contracts with federal partners contain clauses that guarantee the federal partner access to a minimum bed capacity in exchange for a fixed monthly payment. However, these contracts also generally provide the government the ability to cancel the contract for non-appropriation of funds or for convenience.

Despite our increase in federal revenues, inmate populations in federal facilities, particularly within the BOP system nationwide, have declined over the past two years. Inmate populations in the BOP system declined in 2015 and 2016 due, in part, to the retroactive application of changes to sentencing guidelines applicable to certain federal drug trafficking offenses. Increases in capacity within the federal system could result in a decline in BOP populations within our facilities, and could negatively impact the future demand for prison capacity. Further, in a memorandum to the BOP dated August 18, 2016, the DOJ directed that, as each contract with privately operated prisons reaches the end of its term, the BOP should either decline to renew that contract or substantially reduce its scope in a manner consistent with law and the overall decline of the BOP's inmate population. However, in November 2016, we announced that the BOP exercised a two-year renewal option at our 1,978-bed, McRae Correctional Facility. The amended agreement commenced on December 1, 2016, and provides for housing up to 1,724 federal inmates with a fixed monthly payment for 1,633 beds, compared to our previous contract which contained a fixed payment for 1,780 beds.

On August 29, 2016, the Secretary of the DHS announced that he directed the Homeland Security Advisory Council, or HSAC, to establish a Subcommittee of the Council to review ICE's current policy and practices concerning the use of private immigration detention and evaluate whether this practice should be eliminated. A written report of the subcommittee's

Table of Contents

evaluation was provided by the HSAC to the Secretary of the DHS and the Director of ICE on November 30, 2016. According to the report, fiscal considerations, combined with the need for realistic capacity to handle sudden increases in detention, suggest that DHS's use of private for-profit detention will continue. The report indicated that, as of September 12, 2016, 10% of the ICE detainee population was housed in federally owned and directed facilities, while 65% was housed in facilities operated by private, for-profit contractors, and 25% was housed in facilities operated by county jails or other local or state government entities. Further, the report indicated that ICE should seek ongoing ways to reduce reliance on detention in county jails, which generally do not meet Performance-Based National Detention Standards, or PBNDS, promulgated by ICE.

We believe the utilization of private sector bed capacity and management services provides ICE with flexible and cost-effective solutions essential to their mission. We also believe the new contract we signed in October 2016 to provide detention space and services at our Cibola County Corrections Center to ICE for up to 1,116 detainees, and the new contract award we announced in December 2016 to provide detention capacity to ICE at our 2,016 bed Northeast Ohio Correctional Center, demonstrate examples of our ability to provide flexible solutions and fulfill emergent needs of ICE that would be very difficult to replicate in the public sector. We previously housed inmates from the BOP at the Cibola facility under a contract that expired in October 2016 and at the Northeast Ohio facility under a contract that expired in May 2015. Therefore, we believe these new contracts provide further examples of the marketability of our real estate assets across multiple government customers.

We generated approximately 9% and 28% of our total revenue from the BOP and ICE during the year ended December 31, 2016, respectively.

State revenues from contracts at correctional, detention, and residential reentry facilities that we operate constituted 38%, 40%, and 46% of our total revenue during 2016, 2015, and 2014, respectively, and decreased 2.0% from \$725.1 million during 2015 to \$710.4 million during 2016. Approximately 6%, 10%, and 12% of our total revenue for 2016, 2015, and 2014, respectively, was generated from the California Department of Corrections and Rehabilitation, or CDCR, in facilities housing inmates outside the state of California. The CDCR was our only state partner that accounted for 10% or more of our total revenue during these years.

Several of our state partners are projecting improvements in their budgets which has helped us secure recent per diem increases at certain facilities. Further, several of our existing state partners, as well as state partners with which we do not currently do business, are experiencing growth in inmate populations and overcrowded conditions. Although we can provide no assurance that we will enter into any new contracts, we believe we are well positioned to provide them with needed bed capacity, as well as the programming and reentry services they are seeking.

We believe the long-term growth opportunities of our business remain attractive as governments consider their emergent needs, as well as the efficiency, savings, and offender programming opportunities we can provide along with flexible solutions to match our partners' needs. Further, we expect our partners to continue to face challenges in maintaining old facilities, and developing new facilities and additional capacity which could result in future demand for the solutions we provide.

Table of Contents

We believe that we can further develop our business by, among other things:

Maintaining and expanding our existing customer relationships and filling existing beds within our facilities, while maintaining an adequate inventory of available beds that we believe provides us with flexibility and a competitive advantage when bidding for new management contracts;

Enhancing the terms of our existing contracts and expanding the services we provide under those contracts;

Pursuing additional opportunities to purchase and manage existing government-owned facilities;

Pursuing additional opportunities to lease our facilities to government and other third-party operators in need of correctional, detention, and residential reentry capacity;

Pursuing mission-critical real estate solutions for government agencies including, but not limited to, corrections and detention real estate assets;

Pursuing other asset acquisitions and business combinations through transactions with non-government third parties;

Maintaining and expanding our focus on community corrections and reentry programming that align with the needs of our government partners; and

Establishing relationships with new customers who have either previously not outsourced their correctional facility management needs or have utilized other private enterprises.

We generally receive inquiries from or on behalf of government agencies that are considering outsourcing the ownership and/or management of certain facilities or that have already decided to contract with a private enterprise. When we receive such an inquiry, we determine whether there is an existing need for our correctional, detention, and residential reentry facilities and/or services and whether the legal and political climate in which the inquiring party operates is conducive to serious consideration of outsourcing. Based on these findings, an initial cost analysis is conducted to further determine project feasibility.

Frequently, government agencies responsible for correctional, detention, and residential reentry facilities and services procure space and services through solicitations or competitive procurements. As part of our process of responding to such requests, members of our management team meet with the appropriate personnel from the agency making the request to best determine the agency's needs. If the project fits within our strategy, we submit a written response. A typical solicitation or competitive procurement requires bidders to provide detailed information, including, but not limited to, the space and services to be provided by the bidder, its experience and qualifications, and the price at which the bidder is willing to provide the facility and services (which services may include the purchase, renovation, improvement or expansion of an existing facility or the planning, design and construction of a new facility). The

requesting agency selects a firm believed to be able to provide the requested bed capacity, if needed, and most qualified to provide the requested services and then negotiates the price and terms of the contract with that firm.

Table of Contents

2016 Accomplishments

In 2016, we entered into a number of new contracts, renewed several other significant contracts, and completed numerous other transactions and milestones, including the following:

Completed the acquisition of Correctional Management, Inc., or CMI, a privately held community corrections company that operates seven community corrections facilities with approximately 600 beds in Colorado.

Entered into a five-year lease with unlimited two-year renewal options with the Oklahoma Department of Corrections, or ODOC, for our previously idled 2,400-bed North Fork Correctional Facility.

Completed the acquisition of a 112-bed community corrections facility in California that is leased to a third-party operator under a triple net lease agreement.

Awarded a contract extension to continue providing residential reentry services for the BOP at our 120-bed CAI-Boston Avenue and 483-bed CAI-Ocean View facilities, and agreed to consolidate populations at both facilities into our CAI-Ocean View facility.

Awarded a new two-year contract, with three one-year renewal options, by the CDCR to provide residential reentry space and services for up to 120 residents at our CAI-Boston Avenue facility.

Announced a restructuring of our corporate operations and implementation of a cost reduction plan that is expected to result in annual expense savings of approximately \$9.0 million. The restructuring realigns the corporate structure to more effectively serve facility operations, while better supporting our ongoing business diversification strategy.

ICE amended its agreement to utilize our 2,400-bed South Texas Family Residential Center. The agreement extends the life of the contract through September 2021, and can be further extended by bi-lateral modification.

Announced a new contract award to house up to 1,116 ICE detainees at our Cibola County Corrections Center. The contract contains an initial term of five years, with renewal options upon mutual agreement. We previously housed inmates from the BOP at our Cibola facility under a separate contract that expired on October 30, 2016.

Completed the expansion of our Red Rock Correctional Center in Arizona, bringing the facility to a design capacity of 2,024 beds. We began receiving inmates at the expanded Red Rock facility under a December

2015 award to house up to an additional 1,000 medium-security inmates from the Arizona Department of Corrections. The award brought the contracted bed capacity at the facility to 2,000 inmates.

Table of Contents

Announced a new contract award from ICE at our 2,016-bed Northeast Ohio Correctional Center in order to assist ICE with their current detention needs. The new contract contains an initial term expiring March 31, 2017, with three six-month renewal periods at the option of ICE. As of January 31, 2017, we housed approximately 215 ICE detainees and approximately 520 detainees from the USMS under a separate contract at the Northeast Ohio facility.

Renamed and began the process of rebranding the Company as CoreCivic in order to reflect the successful execution of strategies to diversify our business and offer a broader range of solutions to government partners.

Facility Portfolio

General

Our facilities can generally be classified according to the level(s) of security at such facility. Minimum security facilities have open housing within an appropriately designed and patrolled institutional perimeter. Medium security facilities have either cells, rooms or dormitories, a secure perimeter, and some form of external patrol. Maximum security facilities have cells, a secure perimeter, and external patrol. Multi-security facilities have various areas encompassing minimum, medium or maximum security.

Our facilities can also be classified according to their primary function. The primary functional categories are:

Correctional Facilities. Correctional facilities house and provide contractually agreed upon programs and services to sentenced adult prisoners, typically prisoners on whom a sentence in excess of one year has been imposed.

Detention Facilities. Detention facilities house and provide contractually agreed upon programs and services to (i) prisoners being detained by ICE, (ii) prisoners who are awaiting trial who have been charged with violations of federal criminal law (and are therefore in the custody of the USMS) or state criminal law, and (iii) prisoners who have been convicted of crimes and on whom a sentence of one year or less has been imposed.

Residential Facilities. Residential facilities provide space and residential services in an open and safe environment to adults with children who have been detained by ICE and are awaiting the outcome of immigration hearings or the return to their home countries. As contractually agreed upon, residential facilities offer services including, but not limited to, educational programs, medical care, recreational activities, counseling, and access to religious and legal services.

Community Corrections. Community corrections/residential reentry facilities offer housing and programs to offenders who are serving the last portion of their sentence or who have been assigned to the facility in lieu of a jail or prison sentence, with a key focus on employment, job readiness, and life skills.

Leased Facilities. Leased facilities are facilities that we own but do not manage and that are leased to third-party operators. As of December 31, 2016, we leased three correctional facilities and five community corrections facilities to third-party operators.

Table of Contents

Facilities and Facility Management Contracts

As of December 31, 2016, we owned or controlled 49 correctional and detention facilities, three of which we leased to third-party operators, and owned or controlled 25 residential reentry facilities, five of which we leased to third-party operators, in 18 states and the District of Columbia. Additionally, we managed 11 correctional and detention facilities owned by government agencies. We also owned two corporate office buildings. Owned and managed facilities include facilities placed into service that we own or control via a long-term lease and manage. Managed-only facilities include facilities we manage that are owned by a third party. The following table sets forth all of the facilities that, as of December 31, 2016, we (i) owned and managed, (ii) owned, but were leased to another operator, and (iii) managed but are owned by a government authority. The table includes certain information regarding each facility, including the term of the primary customer contract related to such facility, or, in the case of facilities we owned but leased to a third-party operator, the term of such lease.

Table of Contents

- (A) Design capacity measures the number of beds and, accordingly, the number of offenders each facility is designed to accommodate. Facilities housing detainees on a short-term basis may exceed the original intended design capacity due to the lower level of services required by detainees in custody for a brief period. From time to time, we may evaluate the design capacity of our facilities based on customers using the facilities, and the ability to reconfigure space with minimal capital outlays. As a result, the design capacity of certain facilities may vary from the design capacity previously presented. We believe design capacity is an appropriate measure for evaluating our operations, because the revenue generated by each facility is based on a per diem or monthly rate per offender housed at the facility paid by the corresponding contracting governmental entity.
- (B) We manage numerous facilities that have more than a single function (e.g., housing both long-term sentenced adult prisoners and pre-trial detainees). The primary functional categories into which facility types are identified were determined by the relative size of offender populations in a particular facility on December 31, 2016. If, for example, a 1,000-bed facility housed 900 adult offenders with sentences in excess of one year and 100 pre-trial detainees, the primary functional category to which it would be assigned would be that of correctional facilities and not detention facilities. It should be understood that the primary functional category to which multi-user facilities are assigned may change from time to time.
- (C) Remaining renewal options represents the number of renewal options, if applicable, and the term of each option renewal.
- (D) Pursuant to the terms of a contract awarded by the state of Arizona in September 2012, the state of Arizona has an option to purchase the Red Rock facility at any time during the term of the contract, including extension options, based on an amortization schedule starting with the fair market value and decreasing evenly to zero over the twenty year term.
- (E) These facilities are subject to purchase options held by the Georgia Department of Corrections, or GDOC, which grants the GDOC the right to purchase the facility for the lesser of the facility's depreciated book value, as defined, or fair market value at any time during the term of the contract between the GDOC and us.
- (F) The facility, formerly known as the Otter Creek Correctional Center, is subject to a deed of conveyance with the city of Wheelwright, Kentucky which includes provisions that allow assumption of ownership by the city of Wheelwright under the following occurrences: (1) we cease to operate the facility for more than two years, (2) our failure to maintain at least one employee for a period of sixty consecutive days, or (3) a conversion to a maximum security facility based upon classification by the Kentucky Corrections Cabinet. We have entered into an agreement with the city of Wheelwright that extends the reversion through July 31, 2018, in exchange for \$20,000 per month or until we resume operations, as defined in the agreement.
- (G) The facility is subject to a purchase option held by the Tallahatchie County Correctional Authority which grants Tallahatchie County Correctional Authority the right to purchase the facility at any time during the contract at a price generally equal to the cost of the premises less an allowance for amortization originally over a 20-year period. The amortization period was extended through 2050 in connection with an expansion

completed during the fourth quarter of 2007.

- (H) The state of Montana has an option to purchase the facility generally at any time during the term of the contract with us at fair market value less the sum of a pre-determined portion of per diem payments made to us by the state of Montana.
- (I) The state of Ohio has the irrevocable right to repurchase the facility before we may resell the facility to a third party, or if we become insolvent or are unable to meet our obligations under the management contract with the state of Ohio, at a price generally equal to the fair market value, as defined in the Real Estate Purchase Agreement.
- (J) These facilities are subject to purchase options held by the ODOC, which grants the ODOC the right to purchase the facility at its fair market value at any time during the term of the contract with ODOC.
- (K) The state of Tennessee has the option to purchase the facility in the event of our bankruptcy, or upon an operational or financial breach, as defined, at a price equal to the book value of the facility, as defined.
- (L) The District of Columbia has the right to purchase the facility at any time during the term of the contract at a price generally equal to the present value of the remaining lease payments for the premises. Upon expiration of the lease in the first quarter of 2017, ownership of the facility automatically reverts to the District of Columbia. The District assumed operation of the facility in January 2017.

Table of Contents

Competitive Strengths

Under our three business offerings, CoreCivic Safety, CoreCivic Community, and CoreCivic Properties, we offer multiple solutions to unique challenges, allowing government organizations to address their various needs while customizing the solution based on their unique circumstances. Accordingly, we believe that we benefit from the following competitive strengths:

The First and Largest Private Prison Owner. Under our CoreCivic Safety platform, our recognition as the nation's leading private prison owner and one of the largest prison operators in the United States provides us with significant credibility with our current and prospective clients. We believe we own approximately 58% of all privately owned prison beds in the United States and manage nearly 41% of all privately managed prison beds in the United States. We pioneered modern-day private prisons with a list of notable accomplishments, such as being the first company to design, build, and operate a private prison, the first company to manage a private maximum-security facility under a direct contract with the federal government, and the first company to purchase a government-owned correctional facility from a governmental agency in the United States and to manage the facility for the government agency. We are also the first company to lease a private prison to a state government. In addition to providing us with extensive experience and institutional knowledge, our size also helps us deliver value to our customers by providing purchasing power and allowing us to achieve certain economies of scale.

Available Beds within Our Existing Facilities. As of December 31, 2016, we had approximately 8,300 beds at seven facilities that are vacant and immediately available to use. We are actively engaged in marketing this available capacity to existing and prospective customers. Historically, we have been successful in substantially filling our inventory of available beds and the beds that we have constructed. Filling these available beds would provide substantial growth in revenues, cash flow, and earnings per share.

Second Largest Community Corrections Owner and Operator in the United States. Under our CoreCivic Community and CoreCivic Properties platforms, we have a rapidly growing network of community corrections facilities that we own and manage and facilities that we own and lease to third-party operators whose mission it is to help address America's recidivism crisis. Community corrections facilities offer housing and programs, with a key focus on employment, job readiness, and life skills, in order to help offenders successfully re-enter the community and reduce the risk of recidivism.

On April 8, 2016, we closed on the acquisition of 100% of the stock of CMI along with the real estate used in the operation of CMI's business from two entities affiliated with CMI. CMI, a privately held community corrections company that operates seven community corrections facilities, including six owned and one leased, with approximately 600 beds in Colorado, specializes in community correctional services, drug and alcohol treatment services, and residential reentry services. CMI provides these services through multiple contracts with three counties in Colorado, as well as the Colorado Department of Corrections, a pre-existing partner of ours. We acquired CMI as a strategic investment that continues to expand the reentry assets we own and the services we provide.

On June 10, 2016, we acquired a residential reentry facility in Long Beach, California from a privately held owner. The 112-bed facility is leased to Community Education Centers, Inc., or CEC, under a triple net lease agreement that extends through June 2020 and includes one five-year lease extension option. CEC separately contracts with the CDCR to provide rehabilitative and reentry services to residents at the leased facility. We acquired the facility in the real estate only transaction as a strategic investment that expands our investment in the residential reentry market.

Table of Contents

With the acquisitions of CMI and the Long Beach facility in 2016, along with the acquisitions of Avalon Correctional Services, Inc., or Avalon, and four community corrections facilities in Pennsylvania in 2015, and the acquisition of Correctional Alternatives, Inc., or CAI, in 2013, we have become the second largest community corrections owner and operator in the United States. We believe this recognition provides us with a platform for further growth. We believe the demand for the housing and programs that community corrections facilities offer will continue to grow as offenders are released from prison and due to an increased awareness of the important role these programs play in an offender's successful transition from prison to society. We are actively pursuing opportunities to acquire additional community corrections facilities in order to provide these services to parolees, defendants, and offenders who are serving their full sentence, the last portion of their sentence, waiting to be sentenced, or awaiting trial while supervised in a community environment. We also believe we have the opportunity to maximize utilization of available beds within our community corrections portfolio.

Attractive REIT Profile. Key characteristics of our business make us a highly attractive REIT. As of December 31, 2016, we owned or controlled 74 facilities containing approximately 15 million square feet which, for the year ended December 31, 2016, generated 98% of our net operating income, or our operating income before general and administrative expenses, asset impairments, depreciation, and amortization. Land and buildings comprise approximately 90% of our gross fixed assets. These valuable assets are located in areas with high barriers to entry, particularly due to the unique permitting and zoning requirements for these facilities. Further, the majority of our assets are constructed primarily of concrete and steel, generally requiring lower maintenance capital expenditures than other types of commercial properties.

We believe we are the largest developer of mission-critical, criminal justice center real estate projects over the past 15 years. We provide space and services under contracts with federal, state, and local government agencies that generally have credit ratings of single-A or better. In addition, a majority of our contracts have terms between one and five years, and we have historically experienced customer retention of approximately 93%, which contributes to our relatively predictable and stable revenue base. This stream of revenue combined with our low maintenance capital expenditure requirement translates into steady predictable cash flow. We believe the REIT structure also provides us with greater access to capital and flexibility to pursue growth opportunities.

Attractive Real Estate Assets Portfolio. Under our CoreCivic Properties platform, we offer our customers an attractive portfolio of facilities that can be leased for various needs as an alternative to providing turn-key correctional, detention, and residential reentry bed space and services to our government partners. In May 2016, we entered into a lease with the ODOC for our previously idled 2,400-bed North Fork Correctional Facility. The lease agreement commenced on July 1, 2016, and includes a five-year base term with unlimited two-year renewal options. The lease of the North Fork facility, along with the lease of our California City Correctional Center to the CDCR originating in 2013, exemplify our ability to react quickly to our partners' needs with innovative and flexible solutions that make the best use of taxpayer dollars.

We intend to pursue additional opportunities like the aforementioned 2016 acquisition of the Long Beach facility in California and the 2015 acquisition of four community corrections facilities in Pennsylvania that are all leased to a third-party operator, and like those with the ODOC and CDCR to lease prison facilities to government and other third-party operators in need of correctional capacity.

Table of Contents

Offer Compelling Value. We believe that our government partners seek a compelling value and service offering when selecting an outsourced correctional services provider. We believe we offer a cost-effective alternative to our government partners by reducing their correctional services costs while allowing them to avoid long-term pension obligations for their employees and large capital investments in new prison beds. We attempt to improve operating performance and efficiency through the following key operating initiatives: (1) standardizing supply and service purchasing practices and usage; (2) implementing a standard approach to staffing and business practices in an effort to reduce our fixed expenses; (3) improving offender management, resource consumption, and reporting procedures through the utilization of numerous technological initiatives; (4) reconfiguring facility bed space to optimize capacity utilization; and (5) improving productivity and reducing employee turnover. Through ongoing company-wide initiatives, we continue to focus on efforts to contain costs and improve operating efficiencies, ensuring continuous delivery over the long-term.

Through our strong commitment to community corrections and reentry programs, we offer our government partners additional long-term value. Our evidence-based reentry programs, including academic education, vocational training, substance abuse treatment, life skills training, and faith-based programming, are customizable based on partner needs and are applied utilizing best practices and/or industry standards. Through our efforts in community corrections and reentry programs, we can provide consistency and common standards across facilities. We can also serve multiple levels of government on an as-needed basis, all toward reaching the goal we share with our government partners of providing offenders with the opportunity to succeed when they are released, making our communities safer, and, ultimately, reducing recidivism.

We also offer a wide variety of specialized services that address the unique needs of various segments of the offender population. Because the offenders in the facilities we operate differ with respect to security levels, ages, genders, and cultures, we focus on the particular needs of an offender population and tailor our services based on local conditions and our ability to provide services on a cost-effective basis.

We believe that our government partners and other agencies in the criminal justice sector also seek a compelling value and service offering when pursuing solutions to their unique real estate needs and circumstances. We believe that our track record of constructing quality assets on time and within budget, our design and construction methods, and our expertise and experience enable us to construct real estate assets at a fraction of the cost of the public sector. We also believe that our robust preventative maintenance program, which is included in our service offering, significantly reduces the risk of real estate neglect. We also offer utility management services using environmentally-friendly, state-of-the art technology.

Development and Expansion Opportunities. The demand for capacity in the short-term has been affected by the budget challenges many of our government partners currently face. At the same time, these challenges impede our customers' ability to construct new prison beds of their own or update older facilities, which we believe could result in further need for private sector capacity solutions in the long-term. We intend to continue to pursue build-to-suit opportunities like our 2,552-bed Trousdale Turner Correctional Center recently constructed in Trousdale County, Tennessee, and alternative solutions like the 2,400-bed South Texas Family Residential Center whereby we identified a site and lessor to provide residential housing and administrative buildings for ICE. We also expect to continue to pursue investment opportunities and are in various stages of due diligence to complete

Table of Contents

additional transactions like the acquisitions of five residential reentry facilities in Pennsylvania and California over the past two years, and business combination transactions like the acquisitions of Avalon and CMI. The transactions that have not yet closed are subject to various customary closing conditions, and we can provide no assurance that any such transactions will ultimately be completed. We are also pursuing investment opportunities in other real estate assets used to provide mission critical governmental services primarily in the criminal justice sector. In the long-term, however, we would like to see meaningful utilization of our available capacity and better visibility from our customers before we add any additional prison capacity on a speculative basis.

Proven Senior Management Team. Our senior management team has applied their prior experience and diverse industry expertise to improve our operations, related financial results, and capital structure. Under our senior management team's leadership, we have successfully executed strategies to diversify our business and offer a broader range of solutions to government partners over the past several years resulting in the Company being renamed and rebranded as CoreCivic, created new business opportunities with customers that have not previously utilized the private corrections sector, converted to a REIT, completed several business combination transactions, and successfully completed numerous recapitalization and refinancing transactions, resulting in increases in profitability and enhancing stockholder value.

Financial Flexibility. As of December 31, 2016, we had cash on hand of \$37.7 million and \$455.9 million available under our revolving credit facility, with a total weighted average effective interest rate of 4.0% on all outstanding debt, while our total weighted average maturity on all outstanding debt was 4.5 years. For the year ended December 31, 2016, our fixed charge coverage ratio was 6.8x and our debt leverage was 3.4x. During the year ended December 31, 2016, we generated \$375.4 million in cash through operating activities, and as of December 31, 2016, we had net working capital of \$26.6 million.

Capital Strategy

Our business development strategy includes marketing our available beds to existing and potential government partners that seek corrections, detention, and reentry management services. We may also offer government partners the opportunity to lease our idle facilities as an alternative to providing turn-key bed space and services to our government partners. Successful efforts would generate significant cash flows without the need to incur substantial capital expenditures.

Our business development strategy also includes acquiring or developing mission critical government assets primarily in the criminal justice sector and expanding our network of residential reentry centers through mergers and acquisitions, or M&A, activities. These business development activities will require capital. We currently expect to fund these growth opportunities with cash on hand and availability under our revolving credit facility. As of December 31, 2016, we had cash on hand of \$37.7 million and \$455.9 million available under our revolving credit facility. We may also seek to issue debt or equity securities from time to time when we determine that market conditions and the opportunity to utilize the proceeds from the issuance of such securities are favorable. We currently anticipate that any proceeds obtained through capital markets transactions would be used to pay-down our revolving credit facility. We may also pursue alternative sources of capital that could include secured indebtedness, subject to limitations set forth in our debt agreements.

On February 26, 2016, we entered into an ATM Equity Offering Sales Agreement, or ATM Agreement, with multiple sales agents. Pursuant to the ATM Agreement, we may offer and sell to or through the sales agents from time to time, shares of our common stock, par value

Table of Contents

\$0.01 per share, having an aggregate gross sales price of up to \$200.0 million. Sales, if any, of our shares of common stock will be made primarily in at-the-market offerings, as defined in Rule 415 under the Securities Act of 1933, as amended. The shares of common stock would be offered and sold pursuant to our registration statement on Form S-3 filed with the SEC on May 15, 2015, and a related prospectus supplement dated February 26, 2016. We intend to use the net proceeds from any sale of shares of our common stock to repay borrowings under our revolving credit facility (including the Term Loan under the accordion feature of the revolving credit facility) and for general corporate purposes, including to fund future acquisitions and development projects. We believe the ATM program is a useful tool to match fund proceeds from common stock sales with M&A activity and other capital needs, in order to manage our capital allocation strategy. There were no shares of our common stock sold under the ATM Agreement during the year ended December 31, 2016.

We reorganized our corporate structure to facilitate our qualification as a REIT for federal income tax purposes effective for our taxable year beginning January 1, 2013. To qualify and be taxed as a REIT, we generally are required to distribute annually to our stockholders at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and excluding net capital gains), and are subject to regular corporate income taxes to the extent we distribute less than 100% of our REIT taxable income (including capital gains) each year. The amount, timing and frequency of future distributions, however, will be at the sole discretion of our Board of Directors and will be declared based upon various factors, many of which are beyond our control, including our financial condition and operating cash flows, the amount required to maintain qualification and taxation as a REIT and reduce any income and excise taxes that we otherwise would be required to pay, limitations on distributions in our existing and future debt instruments, limitations on our ability to fund distributions using cash generated through our TRSs, alternative growth opportunities that require capital deployment, and other factors that our Board of Directors may deem relevant. Because as a REIT we are required to distribute a substantial portion of our cash generated from operations to stockholders as a dividend, growth opportunities may require more external capital resources than were required prior to our conversion to a REIT. During 2016, our Board of Directors declared a quarterly dividend of \$0.54 in each of the first three quarters and \$0.42 in the fourth quarter, totaling \$241.7 million for the year, compared with a total of \$254.8 million during 2015 and \$239.1 million during 2014.

In addition to the cash on hand and availability under our revolving credit facility, we currently expect our REIT taxable income to be less than our operating cash flow, primarily due to the deductibility of non-cash expenses such as depreciation on our real estate assets. This liquidity provides us with the flexibility to (i) invest in additional facility acquisitions and developments, which could include acquisitions of facilities from government partners, third parties, or additional business combinations similar to the acquisitions of Avalon and CMI, (ii) pay down debt, (iii) increase dividends to our stockholders, or (iv) repurchase our common stock.

Government Regulation

Business Regulations

The industry in which we operate is subject to extensive federal, state, and local regulations, including educational, health care, and safety regulations, which are administered by many governmental and regulatory authorities. Some of the regulations are unique to the corrections industry. Facility management contracts typically include reporting requirements, supervision, and on-site monitoring by representatives of the contracting governmental agencies. Corrections officers are customarily required to meet certain training standards

Table of Contents

and, in some instances, facility personnel are required to be licensed and subject to background investigation. Certain jurisdictions also require us to award subcontracts on a competitive basis or to subcontract with businesses owned by members of minority groups. Our facilities are also subject to operational and financial audits by the governmental agencies with which we have contracts. Failure to comply with these regulations and contract requirements can result in material penalties or non-renewal or termination of facility management contracts.

Environmental Matters

Under various federal, state, and local environmental laws, ordinances and regulations, a current or previous owner or operator of real property may be liable for the costs of removal or remediation of hazardous or toxic substances on, under, or in such property. Such laws often impose liability whether or not the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. As an owner of correctional, detention, and residential reentry facilities, we have been subject to these laws, ordinances, and regulations as the result of our operation and management of correctional, detention, and residential reentry facilities. Phase I environmental assessments have been obtained on substantially all of the properties we currently own. We are not aware of any environmental matters that are expected to materially affect our financial condition or results of operations; however, if such matters are detected in the future, the costs of complying with environmental laws may adversely affect our financial condition and results of operations.

Health Insurance Portability and Accountability Act of 1996 and Privacy and Security Requirements

In 1996, Congress enacted the Health Insurance Portability and Accountability Act of 1996, or HIPAA. HIPAA was designed to improve the portability and continuity of health insurance coverage, simplify the administration of health insurance, and protect the privacy and security of health-related information.

Privacy regulations promulgated under HIPAA regulate the use and disclosure of individually identifiable health information, whether communicated electronically, on paper, or orally. The regulations also provide patients with significant rights related to understanding and controlling how their health information is used or disclosed. Security regulations promulgated under HIPAA require that covered entities, including most health care providers, health clearinghouses, group health plans, and their business associates, implement administrative, physical, and technical safeguards to protect the security of individually identifiable health information that is maintained or transmitted electronically. These privacy and security regulations require the implementation of compliance training and awareness programs for our health care service providers and selected other employees primarily associated with our employee medical plans. Further, covered entities and their business associates must provide notification to affected individuals without unreasonable delay but not to exceed 60 days of discovery of a breach of unsecured protected health information. Notification must also be made to the U.S. Department of Health and Human Services, or DHHS, and, in certain situations involving large breaches, to the media. In a final rule released in January 2013, DHHS modified the breach notification requirement by creating a presumption that all non-permitted uses or disclosures of unsecured protected health information are breaches unless the covered entity or business associate establishes that there is a low probability the information has been compromised.

Violations of the HIPAA privacy and security regulations could result in significant civil and criminal penalties, and the American Recovery and Reinvestment Act of 2009, or ARRA, has strengthened the enforcement provisions of HIPAA. ARRA broadens the applicability of the

Table of Contents

criminal penalty provisions to employees of covered entities and requires DHHS to impose penalties for violations resulting from willful neglect. ARRA also increases the amount of the civil penalties, with penalties of up to \$50,000 per violation for a maximum civil penalty of \$1,500,000 in a calendar year for violations of the same requirement. Further, ARRA authorizes state attorneys general to bring civil actions for injunctions or damages in response to violations that threaten the privacy of state residents. In addition, under ARRA, DHHS is required to perform periodic HIPAA compliance audits of covered entities and their business associates.

In addition, there are numerous legislative and regulatory initiatives at the federal and state levels addressing the privacy and security of patient health information and other identifying information. For example, federal and various state laws and regulations strictly regulate the disclosure of patient identifiable information related to substance abuse treatment. Further, various state laws and regulations require providers and other entities to notify affected individuals in the event of a data breach involving certain types of individually identifiable health or financial information, and these requirements may be more restrictive than the regulations issued under HIPAA and ARRA. These statutes vary and could impose additional penalties and compliance costs.

Healthcare reform could have an impact on our business

The Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010 (collectively, the Health Reform Law) were signed into law in the United States. Certain of the provisions that have increased our healthcare costs since 2010 include the removal of annual plan limits, the expansion of dependent child coverage up to age 26, the mandate that health plans provide 100% coverage on expanded preventive care, and, in 2014, the removal of pre-existing condition exclusions. In addition, beginning with the 2014 benefit year, we became subject to the three-year annual Transitional Reinsurance Fee, imposed in order to finance a temporary reinsurance fund established to stabilize individual premiums purchased through the federal and state insurance exchanges. Our healthcare costs may continue to be negatively affected in the future, depending upon regulatory guidance, elements of the law that are effective as of future dates, the impact the law could have on healthcare rates in general, and our response to these changes. While much of the added cost from the Health Reform Law has occurred, we anticipate added costs in the future due to provisions being phased in over time. Changes to the Health Reform Law in the future could impact our response to our healthcare structure and could have an impact on our business and operating costs.

Beginning in 2016, the Health Reform Law requires applicable large employers to report to the Internal Revenue Service, or IRS, information regarding health coverage offered to full-time employees. Compliance with the Health Reform Law reporting rules and any future changes to the Health Reform Law could impact our operating costs, and non-compliance could result in material penalties.

Insurance

We maintain general liability insurance for all the facilities we operate, as well as insurance in amounts we deem adequate to cover property and casualty risks, workers compensation, and directors and officers liability. In addition, each of our leases with third parties provides that the lessee will maintain insurance on each leased property under the lessee's insurance policies providing for the following coverages: (i) fire, vandalism, and malicious mischief, extended coverage perils, and all physical loss perils; (ii) comprehensive general public liability (including personal injury and property damage); and (iii) workers compensation. Under each of these leases, we have the right to periodically review our lessee's insurance coverage and provide input with respect thereto.

Table of Contents

Each of our management contracts and the statutes of certain states require the maintenance of insurance. We maintain various insurance policies including employee health, workers' compensation, automobile liability, and general liability insurance. Because we are significantly self-insured for employee health, workers' compensation, automobile liability, and general liability insurance, the amount of our insurance expense is dependent on claims experience, and our ability to control our claims experience. Our insurance policies contain various deductibles and stop-loss amounts intended to limit our exposure for individually significant occurrences. However, the nature of our self-insurance policies provides little protection for deterioration in overall claims experience or an increase in medical costs. We are continually developing strategies to improve the management of our future loss claims but can provide no assurance that these strategies will be successful. However, unanticipated additional insurance expenses resulting from adverse claims experience or an increasing cost environment for general liability and other types of insurance could adversely impact our results of operations and cash flows.

Employees

As of December 31, 2016, we employed 13,755 employees. Of such employees, 375 were employed at our corporate offices and 13,380 were employed at our facilities and in our inmate transportation business. We employ personnel in the following areas: clerical and administrative, facility administrators/wardens, security, medical, quality assurance, transportation and scheduling, maintenance, teachers, counselors, case managers, chaplains, and other support services.

Each of the facilities we currently operate is managed as a separate operational unit by the facility administrator or warden. All of these facilities follow a standardized code of policies and procedures.

We have not experienced a strike or work stoppage at any of our facilities. Approximately 790 employees at four of our facilities are represented by labor unions. In the opinion of management, overall employee relations are good.

Competition

The correctional, detention, and residential reentry facilities we own, operate, or manage, as well as those facilities we own but are managed by other operators, are subject to competition for offenders and residents from other private operators. We compete primarily on the basis of bed availability, cost, the quality and range of services offered, our experience in the design, construction, and management of correctional and detention facilities, and our reputation. We compete with government agencies that are responsible for correctional, detention, and residential reentry facilities and a number of companies, including, but not limited to, The GEO Group, Inc., Management and Training Corporation, and CEC. We also compete in some markets with small local companies that may have a better knowledge of the local conditions and may be better able to gain political and public acceptance. Other potential competitors may in the future enter into businesses competitive with us without a substantial capital investment or prior experience. We may also compete in the future for acquisitions and new development projects with companies that have more financial resources than we have or those willing to accept lower returns than we are willing to accept. Competition by other companies may adversely affect occupancy at our facilities, which could have a material adverse effect on the operating revenue of our facilities. In addition, revenue derived from our facilities will be affected by a number of factors, including the demand for beds, general economic conditions, and the age of the general population.

Table of Contents

ITEM 1A. RISK FACTORS.

As the owner and operator of correctional, detention, and residential reentry facilities, we are subject to certain risks and uncertainties associated with, among other things, the corrections and detention industry and pending or threatened litigation in which we are involved. In addition, we are also currently subject to risks associated with our indebtedness as well as our qualification as a REIT for federal income tax purposes effective for our taxable years beginning January 1, 2013. The risks and uncertainties set forth below could cause our actual results to differ materially from those indicated in the forward-looking statements contained herein and elsewhere. The risks described below are not the only risks we face. Additional risks and uncertainties not currently known to us or those we currently deem to be immaterial may also materially and adversely affect our business operations. Any of the following risks could materially adversely affect our business, financial condition, or results of operations.

Risks Related to Our Business and Industry

Our results of operations are dependent on revenues generated by our correctional, detention, and residential reentry facilities, which are subject to the following risks associated with the corrections and detention industry.

We are subject to fluctuations in occupancy levels, and a decrease in occupancy levels could cause a decrease in revenues and profitability. While a substantial portion of our cost structure is fixed, a substantial portion of our revenue is generated under facility ownership and management contracts that specify per diem payments based upon daily occupancy. We are dependent upon the governmental agencies with which we have contracts to provide offenders for facilities we operate. We cannot control occupancy levels at the facilities we operate. Under a per diem rate structure, a decrease in our occupancy rates could cause a decrease in revenue and profitability. For the years 2016, 2015, and 2014, the average compensated occupancy of our facilities, based on rated capacity, was 79%, 83%, and 84%, respectively, for all of the facilities we operated, exclusive of facilities that are leased to third-party operators where our revenue is generally not based on daily occupancy. Occupancy rates may, however, decrease below these levels in the future. When combined with relatively fixed costs for operating each facility, a decrease in occupancy levels could have a material adverse effect on our profitability.

We are dependent on government appropriations and our results of operations may be negatively affected by governmental budgetary challenges. Our cash flow is subject to the receipt of sufficient funding of, and timely payment by, contracting governmental entities. If the appropriate governmental agency does not receive sufficient appropriations to cover its contractual obligations, it may terminate our contract or delay or reduce payment to us. Any delays in payment, or the termination of a contract, could have an adverse effect on our cash flow and financial condition. In addition, federal, state and local governments are constantly under pressure to control additional spending or reduce current levels of spending. In prior years, these pressures have been compounded by economic downturns. Accordingly, we have been requested and may be requested in the future to reduce our existing per diem contract rates or forego prospective increases to those rates. Further, our government partners could reduce offender population levels in facilities we own or manage to contain their correctional costs. In addition, it may become more difficult to renew our existing contracts on favorable terms or otherwise.

Table of Contents

Competition may adversely affect the profitability of our business. We compete with government entities and other private operators on the basis of bed availability, cost, quality and range of services offered, experience in designing, constructing, and managing facilities, and reputation of management and personnel. While there are barriers to entering the market for the ownership and management of correctional, detention, and residential reentry facilities, these barriers may not be sufficient to limit additional competition. In addition, our government customers may assume the management of a facility that they own and we currently manage for them upon the termination of the corresponding management contract or, if such customers have capacity at their facilities, may take offenders and residents currently housed in our facilities and transfer them to government-run facilities. Since we are paid on a per diem basis with no minimum guaranteed occupancy under most of our contracts, the loss of such offenders and residents, and the resulting decrease in occupancy, would cause a decrease in our revenues and profitability.

Resistance to privatization of correctional and detention facilities and escapes or inmate disturbances could result in our inability to obtain new contracts, the loss of existing contracts, or other unforeseen consequences. The operation of correctional and detention facilities by private entities has not achieved complete acceptance by either governments or the public. The movement toward privatization of correctional and detention facilities has also encountered resistance from certain groups, such as labor unions and others that believe that correctional and detention facilities should only be operated by governmental agencies. In the past, legislation has been proposed in the United States Congress to prohibit the federal government from entering into contracts with private prison operators, and to eliminate state and local contracts for privately run prisons. Such legislation runs contrary to our primary business purpose and, if passed, would have a material adverse impact on our business. Moreover, the belief or market perception that such legislation could be passed could have a negative impact on our stock price.

Further, negative publicity about an escape, riot or other disturbance or perceived poor operational performance, contract compliance, or other conditions at a privately managed facility may result in adverse publicity to us and the private corrections industry in general. Any of these occurrences or continued trends may make it more difficult for us to renew or maintain existing contracts or to obtain new contracts, which could have a material adverse effect on our business.

We are subject to terminations, non-renewals, or competitive re-bids of our government contracts. We typically enter into facility contracts with governmental entities for terms of up to five years, with additional renewal periods at the option of the contracting governmental agency. Notwithstanding any contractual renewal option of a contracting governmental agency, as of December 31, 2016, 44 of our facility contracts with the customers listed under **Business Facility Portfolio** **Facilities and Facility Management Contracts** are currently scheduled to expire on or before December 31, 2017 but have renewal options (24), or are currently scheduled to expire on or before December 31, 2017 and have no renewal options (20). Although we generally expect these customers to exercise renewal options or negotiate new contracts with us, one or more of these contracts may not be renewed by the corresponding governmental agency. In addition, these and any other contracting agencies may determine not to exercise renewal options with respect to any of our contracts in the future. Our government partners can also re-bid contracts in a competitive procurement process upon termination or non-renewal of our contract. Competitive re-bids may result from the expiration of the term of a contract, including the initial term and any renewal periods, or the early termination of a contract. Competitive re-bids are often required by applicable federal or state procurement laws periodically in order to further competitive pricing and other terms for the government agency. The aggregate revenue earned during the year ended December 31, 2016 for the 44 contracts with scheduled maturity dates, notwithstanding contractual renewal options, on or before December 31, 2017 was \$647.6 million, or 35% of total revenue.

Table of Contents

Our contract with the District of Columbia, or District, at the D.C. Correctional Treatment Facility is scheduled to expire in the first quarter of 2017. The District assumed operation of the facility in January 2017. We incurred facility net operating losses at the facility of \$0.1 million and \$0.7 million in 2016 and 2015, respectively, and generated facility net operating income of \$1.0 million in 2014. Our investment in the direct financing lease with the District also expires in the first quarter of 2017. Upon expiration of the lease in 2017, ownership of the facility automatically reverts to the District.

During 2015, ICE solicited proposals for the rebid of our 1,000-bed Houston Processing Center. The contract is currently scheduled to expire in April 2017. We have submitted our response to ICE, but can provide no assurance that we will be awarded a new contract for this facility.

As previously discussed herein, on August 18, 2016, the DOJ directed that, as each contract with privately operated prisons reaches the end of its term, the BOP should either decline to renew that contract or substantially reduce its scope in a manner consistent with law and the overall decline of the BOP's inmate population. Currently, we have two owned and managed facilities that house BOP inmates with contracts that expire in the next twelve months. We can provide no assurance that we will be awarded new contracts for these two facilities or that the contracts will not be substantially reduced in scope. These two facilities have a total capacity of 3,654 beds and contributed \$91.4 million in revenue during 2016. The total net carrying value of the two facilities was \$144.5 million as of December 31, 2016. We have a third owned and managed facility housing BOP inmates under a contract that was renewed in November 2016 for two additional years through November 2018. This facility generated \$40.5 million of revenue during 2016.

During the third quarter of 2016, the Texas Department of Criminal Justice, or TDCJ, solicited proposals for the rebid of four facilities we currently manage for the state of Texas. The current managed-only contracts for these four facilities are scheduled to expire in August 2017. The four facilities have a total capacity of 5,129 beds and generated \$2.3 million in facility net operating income during 2016. We have submitted our response to the solicitation, but can provide no assurance that we will be awarded new managed-only contracts for these four facilities.

Based on information available at this filing, notwithstanding the contracts at facilities described above, we expect to renew all other material contracts that have expired or are scheduled to expire within the next twelve months. We believe our renewal rate on existing contracts remains high for a variety of reasons including, but not limited to, the constrained supply of available beds within the U.S. correctional system, our ownership of the majority of the beds we operate, and the quality of our operations.

Governmental agencies typically may terminate a facility contract at any time without cause or use the possibility of termination to negotiate a lower per diem rate. In the event any of our contracts are terminated or are not renewed on favorable terms or otherwise, we may not be able to obtain additional replacement contracts. The non-renewal, termination, or competitive re-bid of any of our contracts with governmental agencies could materially adversely affect our financial condition, results of operations and liquidity, including our ability to secure new facility contracts from others.

Table of Contents

Our ability to secure new contracts to develop and manage correctional, detention, and residential reentry facilities depends on many factors outside our control. Our growth is generally dependent upon our ability to obtain new contracts to develop and manage correctional, detention, and residential reentry facilities. This possible growth depends on a number of factors we cannot control, including crime rates and sentencing patterns in various jurisdictions, governmental budgetary constraints, and governmental and public acceptance of privatization. The demand for our facilities and services could be adversely affected by the relaxation of enforcement efforts, leniency in conviction or parole standards and sentencing practices or through the decriminalization of certain activities that are currently proscribed by criminal laws. For instance, any changes with respect to drugs and controlled substances or illegal immigration could affect the number of persons arrested, convicted, and sentenced, thereby potentially reducing demand for correctional facilities to house them. Immigration reform laws are currently a focus for legislators and politicians at the federal, state, and local level. Legislation has also been proposed in numerous jurisdictions that could lower minimum sentences for some non-violent crimes and make more inmates eligible for early release based on good behavior. Also, sentencing alternatives under consideration could put some offenders on probation with electronic monitoring who would otherwise be incarcerated. Similarly, reductions in crime rates or resources dedicated to prevent and enforce crime could lead to reductions in arrests, convictions and sentences requiring incarceration at correctional facilities. Our company does not, under longstanding policy, lobby for or against policies or legislation that would determine the basis for, or duration of, an individual's incarceration or detention.

Moreover, certain jurisdictions recently have required successful bidders to make a significant capital investment in connection with the financing of a particular project, a trend that will require us to have sufficient capital resources to compete effectively. We may compete for such projects with companies that have more financial resources than we have. Further, we may not be able to obtain the capital resources when needed. A prolonged downturn in the financial capital markets could make it more difficult to obtain capital resources at favorable rates of return or obtain capital resources at all.

We may face community opposition to facility location, which may adversely affect our ability to obtain new contracts. Our success in obtaining new awards and contracts sometimes depends, in part, upon our ability to locate land that can be leased or acquired, on economically favorable terms, by us or other entities working with us in conjunction with our proposal to construct and/or manage a facility. Some locations may be in or near populous areas and, therefore, may generate legal action or other forms of opposition from residents in areas surrounding a proposed site. When we select the intended project site, we attempt to conduct business in communities where local leaders and residents generally support the establishment of a privatized correctional, detention, or residential reentry facility. Future efforts to find suitable host communities may not be successful. We may incur substantial costs in evaluating the feasibility of the development of a correctional or detention facility. As a result, we may report significant charges if we decide to abandon efforts to develop a correctional or detention facility on a particular site. In many cases, the site selection is made by the contracting governmental entity. In such cases, site selection may be made for reasons related to political and/or economic development interests and may lead to the selection of sites that have less favorable environments.

Providing family residential services increases certain unique risks and difficulties compared to operating our other facilities. In September 2014, we signed an amended agreement to provide safe and humane residential housing, as well as educational opportunities, to women and children under the custody of ICE, who are awaiting their due process before immigration courts. In October 2016, we entered into an amended agreement that extended

Table of Contents

the life of the 2014 agreement through September 2021. This is an important service to our federal government partner. At the same time, providing this type of residential service subjects us to unique risks such as unanticipated increased costs and litigation that could materially adversely affect our business, financial condition, or results of operations. For instance, the contract mandates resident to staff ratios that are higher than our typical contract, requires services unique to this contract (e.g. child care and primary education services), and limits the use of security protocols and techniques typically utilized in correctional and detention settings. These operational risks and others associated with privately managing this type of residential facility could result in higher costs associated with staffing and lead to increased litigation.

In June 2015, ICE announced a policy change regarding family unit detention that has shortened the duration of ICE detention for those who are awaiting further process before immigration courts. Public policies and views regarding family detention, as well as proposals pertaining to the most effective means to address families crossing the border illegally, continue to evolve. In addition, numerous lawsuits, to which we are not a party, have challenged the government's policy of detaining migrant families.

One such lawsuit in the United States District Court for the Central District of California concerns a settlement agreement between ICE and a plaintiffs' class consisting of detained minors, whereby the court issued an order on August 21, 2015, enforcing the settlement agreement and requiring compliance by October 23, 2015. The court's order clarified that the government has the flexibility to hold class members for longer periods of time in unlicensed and secure facilities during influxes of large numbers of undocumented migrant families via the southern U.S. border. After announcing its intention to comply fully with the court's order, the federal government appealed. In July 2016, the U.S. Court of Appeals for the Ninth Circuit affirmed most aspects of the District Court's order, but ruled that ICE is not required to release a parent simply because the settlement agreement might require release of that parent's minor child. The impact of these rulings on family residential programs is not yet known.

In December 2016, a Texas state court judge blocked efforts by Texas state officials to license the South Texas Family Residential Center as a child care center, ruling that the state officials lacked authority to license such facilities. The state of Texas has appealed this ruling, and the impact of the judge's decision on family residential detention programs is not yet known. Any court decision or government action that impacts our existing contract for the South Texas Family Residential Center could materially affect our cash flows, financial condition, and results of operations.

We may incur significant start-up and operating costs on new contracts before receiving related revenues, which may impact our cash flows and not be recouped. When we are awarded a contract to provide or manage a facility, we may incur significant start-up and operating expenses, including the cost of constructing the facility, purchasing equipment and staffing the facility, before we receive any payments under the contract. These expenditures could result in a significant reduction in our cash reserves and may make it more difficult for us to meet other cash obligations. In addition, a contract may be terminated prior to its scheduled expiration and as a result we may not recover these expenditures or realize any return on our investment.

Government agencies may investigate and audit our contracts and, if any improprieties are found, we may be required to cure those improprieties, refund revenues we have received, to forego anticipated revenues, and we may be subject to penalties and sanctions, including prohibitions on our bidding in response to RFPs. Certain of the governmental agencies with which we contract have the authority to audit and investigate our contracts with them. As

Table of Contents

part of that process, government agencies may review our performance of the contract, our pricing practices, our cost structure and our compliance with applicable performance requirements, laws, regulations and standards. The regulatory and contractual environment in which we operate is complex and many aspects of our operations remain subject to manual processes and oversight that make compliance monitoring difficult and resource intensive. A governmental agency review could result in a request to cure a performance or compliance issue, and if we are unable to do so, the failure could lead to termination of the contract in question or other contracts that we have with that governmental agency. Similarly, for contracts that actually or effectively provide for certain reimbursement of expenses, if an agency determines that we have improperly allocated costs to a specific contract, we may not be reimbursed for those costs, and we could be required to refund the amount of any such costs that have been reimbursed. If a government audit asserts improper or illegal activities by us, we may be subject to civil and criminal penalties and administrative sanctions, including termination of contracts, forfeitures of profits, suspension of payments, fines and suspension or disqualification from doing business with certain government entities. In addition to the potential civil and criminal penalties and administrative sanctions, any adverse determination with respect to contractual or regulatory violations could negatively impact our ability to bid in response to RFPs in one or more jurisdictions.

Failure to comply with facility contracts or with unique and increased governmental regulation could result in material penalties or non-renewal or termination of noncompliant contracts or our other contracts to provide or manage correctional, detention, and residential reentry facilities. The industry in which we operate is subject to extensive federal, state, and local regulations, including educational, health care, and safety regulations, which are administered by many regulatory authorities. Some of the regulations are unique to the corrections industry, some are unique to government contractors, and the combination of regulations we face is unique and complex. Facility contracts typically include reporting requirements, supervision, and on-site monitoring by representatives of the contracting governmental agencies. Corrections officers are customarily required to meet certain training standards and, in some instances, facility personnel are required to be licensed and subject to background investigation. Certain jurisdictions also require us to award subcontracts on a competitive basis or to subcontract with certain types of businesses, such as small businesses and businesses owned by members of minority groups. Our facilities are also subject to operational and financial audits by the governmental agencies with which we have contracts. Federal regulations also require federal government contractors like us to self-report evidence of certain forms of misconduct. We may not always successfully comply with these regulations and contract requirements, and failure to comply can result in material penalties, including financial penalties, non-renewal or termination of noncompliant contracts or our other facility contracts, and suspension or debarment from contracting with certain government entities.

In addition, private prison managers are subject to government legislation and regulation attempting to restrict the ability of private prison managers to house certain types of inmates, such as inmates from other jurisdictions or inmates at medium or higher security levels. Legislation has been enacted in several states, and has previously been proposed in the United States Congress, containing such restrictions. Such legislation may have an adverse effect on us.

Our inmate transportation subsidiary, TransCor, is subject to regulations promulgated by the Departments of Transportation and Justice. TransCor must also comply with the Interstate Transportation of Dangerous Criminals Act of 2000, which covers operational aspects of transporting prisoners, including, but not limited to, background checks and drug testing of employees; employee training; employee hours; staff-to-inmate ratios; prisoner restraints; communication with local law enforcement; and standards to help ensure the safety of prisoners during transport. We are subject to changes in such regulations, which could result in an increase in the cost of our transportation operations.

Table of Contents

On August 4, 2016, the Federal Communications Commission, or FCC, which regulates telecommunications, published an Order in the Federal Register, which set numerous rate caps on interstate and intrastate calling services, or ICS. Those rate caps were stayed by a federal appeals court pending judicial review, however, leaving existing rate caps established in an earlier FCC ruling in place. The stayed Order applies directly to ICS providers who offer their services pursuant to contracts with correctional facilities, including those that we manage. The vast majority of our facilities will be subject to the rate caps applicable to state and federal prisons. A separate tiered rate cap structure will apply at small jails we operate, however an effective date is not known at this time due to pending judicial review.

This Order, when effective, could reduce ICS-related revenue, as it expands coverage to intrastate ICS, but due to the unpredictability of call volume increases that may occur as a result of lower rates, the financial impact cannot be anticipated at this time. The impact to our revenue is limited as a significant amount of commissions paid by our ICS providers are passed along to our customers or are reserved and used for the benefit of inmates in our care. Our failure to comply with, or changes to, existing regulations or adoption of new regulations in the areas discussed above could result in further increases to our costs or reductions in our revenue. On January 31, 2017, the FCC, through its counsel, informed the federal appeals court that it would no longer defend the portions of the 2016 Order imposing intrastate rate caps. The impact of this position change is not yet known as litigation over this issue is still ongoing.

In previous notices, the FCC sought comment on various topics including the development of international ICS rate caps; the potential regulation of rates associated with technology-based ICS alternatives, such as videoconferencing; and whether additional reforms are necessary for effective regulation of revenue sharing agreements. All of these reforms, if pursued, could impact revenue to correctional facility operators, both public and private.

We depend on a limited number of governmental customers for a significant portion of our revenues. We currently derive, and expect to continue to derive, a significant portion of our revenues from a limited number of governmental agencies. The loss of, or a significant decrease in, business from the BOP, ICE, USMS, or various state agencies could seriously harm our financial condition and results of operations. The three primary federal governmental agencies with correctional and detention responsibilities, the BOP, ICE, and USMS, accounted for 52% of our total revenues for the year ended December 31, 2016 (\$953.9 million). ICE accounted for 28% of our total revenues for the year ended December 31, 2016 (\$511.8 million), USMS accounted for 15% of our total revenues for the year ended December 31, 2016 (\$277.2 million), and BOP accounted for 9% of our total revenues for the year ended December 31, 2016 (\$164.9 million). Although the revenue generated from each of these agencies is derived from numerous management contracts, the loss or substantial reduction in value of one or more of such contracts could have a material adverse impact on our financial condition, results of operations, and cash flows. We expect to continue to depend upon these federal agencies and a relatively small group of other governmental customers for a significant percentage of our revenues.

As previously discussed herein, in a memorandum to the BOP dated August 18, 2016, the DOJ directed that, as each contract with privately operated prisons reaches the end of its term, the BOP should either decline to renew that contract or substantially reduce its scope in a manner consistent with law and the overall decline of the BOP's inmate population. In addition to the decline in the BOP's inmate population, the DOJ memorandum cites purported operational, programming, and cost efficiency factors as reasons for the new DOJ directive.

Table of Contents

In addition, on August 29, 2016, the Secretary of the DHS announced that he directed the HSAC to establish a Subcommittee of the Council to review ICE's current policy and practices concerning the use of private immigration detention and evaluate whether this practice should be eliminated. A written report of the subcommittee's evaluation was provided by the HSAC to the Secretary of the DHS and the Director of ICE on November 30, 2016. According to the report, fiscal considerations, combined with the need for realistic capacity to handle sudden increases in detention, suggest that DHS's use of private for-profit detention will continue. The report indicated that, as of September 12, 2016, 10% of the ICE detainee population was housed in federally owned and directed facilities, while 65% was housed in facilities operated by private, for-profit contractors, and 25% was housed in facilities operated by county jails or other local or state government entity. Further, the report indicated that ICE should seek ongoing ways to reduce reliance on detention in county jails, which generally do not meet PBNDS promulgated by ICE.

Revenue from our South Texas Family Residential Center was \$267.3 million in 2016. The loss or further reduction in value of this contract would have a material adverse impact on our financial condition, results of operations, and cash flows. See Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, - Results of Operations for a further discussion regarding our contract at the South Texas Family Residential Center, and anticipated reduction in revenue in 2017 resulting from an amendment to this contract.

Approximately 6% of our total revenues for the year ended December 31, 2016 (\$113.4 million) was generated from the CDCR in facilities housing inmates outside the state of California, a decrease from \$170.5 million, or 10%, of our total revenues in 2015, and \$204.4 million, or 12% of our total revenues in 2014. Our management agreement with the CDCR, as well as the status of legal and legislative action contributing to the reduction in the state of California inmate populations, are more fully described hereafter in MD&A - Results of Operations .

On January 10, 2017, the Governor of California issued a proposed budget for fiscal 2017-2018. The proposed budget contemplates that implementation of initiatives to reduce prison populations will allow the CDCR to remove all inmates from one of our two remaining out-of-state facilities in fiscal 2017-2018. Additionally, as a result of such prison population reduction initiatives, the CDCR anticipates returning any remaining inmates from our out-of-state facilities by 2020. Although the proposed budget acknowledges that estimates of population reductions are preliminary and subject to considerable uncertainty, we can provide no assurance that we would be able to replace the cash flows associated with our contract with the CDCR, if CDCR inmates are removed from our Tallahatchie and La Palma facilities.

We are dependent upon our senior management and our ability to attract and retain sufficient qualified personnel.

The success of our business depends in large part on the ability and experience of our senior management. The unexpected loss of any of these persons could materially adversely affect our business and operations.

In addition, the services we provide are labor-intensive. When we are awarded a facility management contract or open a new facility, we must hire operating management, correctional officers, and other personnel. The success of our business requires that we attract, develop, and retain these personnel. Our inability to hire sufficient qualified personnel on a timely basis or the loss of significant numbers of personnel at existing facilities could adversely affect our business and operations. Under many of our contracts, we are subject to financial penalties for insufficient staffing.

Table of Contents

Adverse developments in our relationship with our employees could adversely affect our business, financial condition or results of operations.

As of December 31, 2016, we employed 13,755 employees. Approximately 790 of our employees at four of our facilities, or approximately 6% of our workforce, are represented by labor unions. We have not experienced a strike or work stoppage at any of our facilities and in the opinion of management overall employee relations are good. New executive orders, administrative rules and changes in National Labor Relations could increase organizational activity at locations where employees are currently not represented by a labor organization. Increases in organizational activity or any future work stoppages could have a material adverse effect on our business, financial condition, or results of operations.

Changes to Federal wage regulations could have an impact on our future results of operations.

As a labor-intensive business, changes in labor regulations can materially impact our business. In May 2016, the U.S. Department of Labor, or DOL, released updated overtime and exemption rules under the Fair Labor Standards Act which would have increased the minimum salary needed to qualify for the standard white collar employee exemption from \$455 to \$913 per week, or to \$47,476 annually for a full-year worker. The updated rules also would have increased the threshold to qualify for the highly compensated employee, or HCE, exemption from \$100,000 to \$134,004 per year. Additionally, the updated rules established a mechanism for automatically updating the minimum salary and compensation levels every three years. The initial increases to the standard salary level and HCE total annual compensation requirement were to have taken effect on December 1, 2016. Future automatic updates to those thresholds were to have occurred every three years, beginning on January 1, 2020. However, in late November 2016, a federal judge in Texas issued a nationwide preliminary injunction against implementation of the updated overtime rules. Therefore, the updated overtime rules did not go into effect on December 1, 2016, and the future of the announced overtime rule changes continues to be uncertain. We had developed plans to comply with the new regulations as of the effective date, and proceeded to implement certain aspects of our plans following the preliminary injunction. We are currently monitoring developments with the litigation and will continue to analyze the impact of any developments on our payroll costs and results of operations.

We are subject to necessary insurance costs.

Workers' compensation, auto liability, employee health, and general liability insurance represent significant costs to us. Because we are significantly self-insured for workers' compensation, auto liability, employee health, and general liability risks, the amount of our insurance expense is dependent on claims experience, our ability to control our claims experience, and in the case of workers' compensation and employee health, rising health care costs in general. Unanticipated additional insurance costs could adversely impact our results of operations and cash flows, and the failure to obtain or maintain any necessary insurance coverage could have a material adverse effect on us.

We may be adversely affected by inflation.

Many of our facility contracts provide for fixed fees or fees that increase by only small amounts during their terms. If, due to inflation or other causes, our operating expenses, such as wages and salaries of our employees, insurance, medical, and food costs, increase at rates faster than increases, if any, in our revenues, then our profitability would be adversely affected. See MD&A Inflation.

Table of Contents

We are subject to legal proceedings associated with owning and managing correctional and detention facilities.

Our ownership and management of correctional and detention facilities, and the provision of inmate transportation services by a subsidiary, expose us to potential third-party claims or litigation by prisoners or other persons relating to personal injury or other damages resulting from contact with a facility, its managers, personnel or other prisoners, including damages arising from a prisoner's escape from, or a disturbance or riot at, a facility we own or manage, or from the misconduct of our employees. To the extent the events serving as a basis for any potential claims are alleged or determined to constitute illegal or criminal activity, we could also be subject to criminal liability. Such liability could result in significant monetary fines and could affect our ability to bid on future contracts and retain our existing contracts. In addition, as an owner of real property, we may be subject to a variety of proceedings relating to personal injuries of persons at such facilities. The claims against our facilities may be significant and may not be covered by insurance. Even in cases covered by insurance, our deductible (or self-insured retention) may be significant.

We are subject to risks associated with ownership of real estate.

Our ownership of correctional, detention, and residential reentry facilities subjects us to risks typically associated with investments in real estate. Investments in real estate and, in particular, correctional and detention facilities have limited or no alternative use and thus, are relatively illiquid. Therefore, our ability to divest ourselves of one or more of our facilities promptly in response to changing conditions is limited. Investments in correctional, detention, and residential reentry facilities subject us to risks involving potential exposure to environmental liability and uninsured loss. Our operating costs may be affected by the obligation to pay for the cost of complying with existing environmental laws, ordinances and regulations, as well as the cost of complying with future legislation. In addition, although we maintain insurance for many types of losses, there are certain types of losses, such as losses from earthquakes and acts of terrorism, which may be either uninsurable or for which it may not be economically feasible to obtain insurance coverage, in light of the substantial costs associated with such insurance. As a result, we could lose both our capital invested in, and anticipated profits from, one or more of the facilities we own. Further, it is possible to experience losses that may exceed the limits of insurance coverage.

In addition, facility development and expansion projects pose additional risks, including cost overruns caused by various factors, many of which are beyond our control, such as weather, labor conditions, and material shortages, resulting in increased construction costs. Further, if we are unable to utilize this new bed capacity, our financial results could deteriorate.

Certain of our facilities are subject to options to purchase and reversions. Eleven of our facilities are subject to an option to purchase by certain governmental agencies, including the aforementioned D.C. Correctional Treatment Facility, ownership of which reverted to the District in the first quarter of 2017. Such options are exercisable by the corresponding contracting governmental entity generally at any time during the term of the respective facility contract. Certain of these purchase options are based on the depreciated book value of the facility, which essentially results in the transfer of ownership of the facility to the governmental agency at the end of the life used for accounting purposes. See Business Facility Portfolio Facilities and Facility Management Contracts. If any of these options are exercised, there exists the risk that we will be unable to invest the proceeds from the sale of the facility in one or more properties that yield as much cash flow as the property acquired by the government entity. In addition, in the event any of these options is exercised, there exists the risk that the contracting governmental agency will terminate the management

Table of Contents

contract associated with such facility. For the year ended December 31, 2016, the eleven facilities currently subject to these options generated \$354.8 million in revenue (19.2% of total revenue) and incurred \$272.0 million in operating expenses. Certain of the options to purchase are exercisable at prices below fair market value. See Business Facility Portfolio Facilities and Facility Management Contracts.

Risks related to facility construction and development activities may increase our costs related to such activities. When we are engaged to perform construction and design services for a facility, we typically act as the primary contractor and subcontract with other companies who act as the general contractors. As primary contractor, we are subject to the various risks associated with construction (including, without limitation, shortages of labor and materials, work stoppages, labor disputes, and weather interference which could cause construction delays). In addition, we are subject to the risk that the general contractor will be unable to complete construction at the budgeted costs or be unable to fund any excess construction costs, even though we require general contractors to post construction bonds and insurance. Under such contracts, we are ultimately liable for all late delivery penalties and cost overruns.

We may be adversely affected by an increase in costs or difficulty of obtaining adequate levels of surety credit on favorable terms.

We are often required to post bid or performance bonds issued by a surety company as a condition to bidding on or being awarded a contract. Availability and pricing of these surety commitments are subject to general market and industry conditions, among other factors. Increases in surety costs could adversely affect our operating results if we are unable to effectively pass along such increases to our customers. We cannot assure you that we will have continued access to surety credit or that we will be able to secure bonds economically, without additional collateral, or at the levels required for any potential facility development or contract bids. If we are unable to obtain adequate levels of surety credit on favorable terms, we would have to rely upon letters of credit under our revolving credit facility, which could entail higher costs even if such borrowing capacity was available when desired at the time, and our ability to bid for or obtain new contracts could be impaired.

Interruption, delay or failure of the provision of our technology services or information systems, or the compromise of the security thereof, could adversely affect our business, financial condition or results of operations.

Components of our business depend significantly on effective information systems and technologies. As with all companies that utilize information systems, we are vulnerable to negative impacts if the operation of those systems is interrupted, delayed, or certain information contained therein is compromised. As a matter of course, we exchange data with our government partners and other third-party providers. We employ industry-standard methodologies to ensure the availability and security of such systems and information. Despite the security measures we have in place, and any additional measures we may implement in the future, our facilities and systems, and those of our third-party service providers, could be vulnerable to security breaches, computer viruses, lost or misplaced data, programming errors, human errors, acts of vandalism, or other events. For example, several well-known companies have recently disclosed high-profile security breaches, involving sophisticated and highly targeted attacks on their company's infrastructure or their customers' data, which were not recognized or detected until after such companies had been affected notwithstanding the preventative measures they had in place. Any security breach or event resulting in the interruption, delay or failure of our services or information systems, or the misappropriation, loss, or other unauthorized disclosure of customer data or confidential

Table of Contents

information, including confidential information about our employees, whether by us directly or our third-party service providers, could damage our reputation, expose us to the risks of litigation and liability, disrupt our business, result in lost business, or otherwise adversely affect our results of operations.

Risks Related to Our Indebtedness

Our indebtedness could adversely affect our financial health and prevent us from fulfilling our obligations under our debt securities.

We have a significant amount of indebtedness. As of December 31, 2016, we had total indebtedness of \$1,455.0 million. Our indebtedness could have important consequences. For example, it could:

make it more difficult for us to satisfy our obligations with respect to our indebtedness;

increase our vulnerability to general adverse economic and industry conditions;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, dividends, and other general corporate purposes;

limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

place us at a competitive disadvantage compared to our competitors that have less debt; and

limit our ability to borrow additional funds or refinance existing indebtedness on favorable terms.

Our senior bank credit facility and other debt instruments have restrictive covenants that could limit our financial flexibility.

The indentures related to our aggregate original principal amount of \$325.0 million 4.125% senior notes due 2020, \$350.0 million 4.625% senior notes due 2023, and \$250.0 million 5.0% senior notes due 2022, collectively referred to herein as our senior notes, and our senior bank credit facility, contain financial and other restrictive covenants that limit our ability to engage in activities that may be in our long-term best interests. Our ability to borrow under our senior bank credit facility is subject to compliance with certain financial covenants, including leverage and interest coverage ratios. Our senior bank credit facility includes other restrictions that, among other things, limit our ability to incur indebtedness; grant liens; engage in mergers, consolidations and liquidations; make asset dispositions, restricted payments and investments; enter into transactions with affiliates; and amend, modify or prepay certain indebtedness. The indentures related to our senior notes contain limitations on our ability to effect mergers and change of control events, as well as other limitations on our ability to create liens on our assets.

Our failure to comply with these covenants could result in an event of default that, if not cured or waived, could result in the acceleration of all or a substantial portion of our debts. We do not have sufficient working capital to satisfy our debt obligations in the event of an acceleration of all or a significant portion of our outstanding indebtedness.

Table of Contents

Servicing our indebtedness will require a significant amount of cash. Our ability to generate cash depends on many factors beyond our control.

Our ability to make payments on our indebtedness, to refinance our indebtedness, and to fund planned capital expenditures will depend on our ability to generate cash in the future. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory, and other factors that are beyond our control.

The risk exists that our business will be unable to generate sufficient cash flow from operations or that future borrowings will not be available to us under our senior bank credit facility in an amount sufficient to enable us to pay our indebtedness, including our existing senior notes, or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness, including our senior notes, on or before maturity. We may not, however, be able to refinance any of our indebtedness, including our senior bank credit facility and including our senior notes, on commercially reasonable terms or at all.

We are required to repurchase all or a portion of our senior notes upon a change of control, and our senior bank credit facility is subject to acceleration upon a change of control.

Upon certain change of control events, as that term is defined in the indentures for our senior notes, including a change of control caused by an unsolicited third party, we are required to make an offer in cash to repurchase all or any part of each holder's notes at a repurchase price equal to 101% of the principal thereof, plus accrued interest. The source of funds for any such repurchase would be our available cash or cash generated from operations or other sources, including borrowings, sales of equity or funds provided by a new controlling person or entity. Sufficient funds may not be available to us, however, at the time of any change of control event to repurchase all or a portion of the tendered notes pursuant to this requirement. Our failure to offer to repurchase notes, or to repurchase notes tendered, following a change of control will result in a default under the respective indentures, which could lead to a cross-default under our senior bank credit facility and under the terms of our other indebtedness. In addition, our senior bank credit facility which is subject to acceleration upon the occurrence of a change in control (as described therein), may prohibit us from making any such required repurchases. Prior to repurchasing the notes upon a change of control event, we must either repay outstanding indebtedness under our senior bank credit facility or obtain the consent of the lenders under our senior bank credit facility. If we do not obtain the required consents or repay our outstanding indebtedness under our senior bank credit facility, we would remain effectively prohibited from offering to purchase the notes.

Despite current indebtedness levels, we may still incur more debt.

The terms of the indentures for our senior notes and our senior bank credit facility restrict our ability to incur indebtedness; however, we may nevertheless incur additional indebtedness in the future and in the future, we may refinance all or a portion of our indebtedness, including our senior bank credit facility, and may incur additional indebtedness as a result. As of December 31, 2016, we had \$455.9 million of additional borrowing capacity available under our revolving credit facility. In addition, we may issue an indeterminate amount of debt securities from time to time when we determine that market conditions and the opportunity to utilize the proceeds from the issuance of such debt securities are favorable. If new debt is added to our and our subsidiaries' current debt levels, the related risks that we and they now face could intensify.

Table of Contents

Our access to capital may be affected by general macroeconomic conditions.

Credit markets may tighten significantly such that our ability to obtain new capital will be more challenging and more expensive. We can provide no assurance that the banks that have made commitments under our senior bank credit facility will continue to operate as going concerns in the future or will agree to extend commitments beyond the maturity date. If any of the banks in the lending group were to fail, or fail to renew their commitments, it is possible that the capacity under our senior bank credit facility would be reduced. In the event that the availability under our senior bank credit facility was reduced significantly, we could be required to obtain capital from alternate sources in order to continue with our business and capital strategies. Our options for addressing such capital constraints would include, but not be limited to (i) delaying certain capital expenditure projects, (ii) obtaining commitments from the remaining banks in the lending group or from new banks to fund increased amounts under the terms of our senior bank credit facility, (iii) accessing the public capital markets, or (iv) reducing our dividend (but not less than amounts required to maintain our status as a REIT and avoid income and excise taxes). Such alternatives could be on terms less favorable than under existing terms, which could have a material effect on our consolidated financial position, results of operations, or cash flows.

Rising interest rates would increase the cost of our variable rate debt.

We have incurred and expect in the future to incur indebtedness that bears interest at variable rates. Accordingly, increases in interest rates would increase our interest costs, which could have a material adverse effect on us and our ability to make distributions to our stockholders and pay amounts due on our debt or cause us to be in default under certain debt instruments. In December 2015, and again in December 2016, the Federal Reserve System raised the federal funds interest rate by 25 basis points after having held interest rates at almost zero over recent years. Per the Federal Reserve System's statement, additional gradual increases are expected during 2017, subject to market-based uncertainties such as changes in inflation, the condition of the labor market, and other global economic and financial developments. In addition, an increase in market interest rates may lead holders of our common stock to demand a higher yield on their shares from distributions by us, which could adversely affect the market price for our common stock.

Risks Related to our REIT Structure

If we fail to remain qualified as a REIT, we would be subject to corporate income taxes and would not be able to deduct distributions to stockholders when computing our taxable income.

We currently operate in a manner that is intended to allow us to qualify as a REIT for federal income tax purposes commencing with our taxable year beginning January 1, 2013. However, we cannot assure you that we have qualified or will remain qualified as a REIT. Qualification as a REIT requires us to satisfy numerous requirements established under highly technical and complex sections of the Internal Revenue Code of 1986, as amended, or the Code, which may change from time to time and for which there are only limited judicial and administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. For example, in order to qualify as a REIT, the REIT must derive at least 95% of its gross income in any year from qualifying sources. In addition, a REIT is required to distribute annually to its stockholders at least 90% of its REIT taxable income (determined without regard to the dividends paid deduction and by excluding capital gains) and must satisfy specified asset tests on a quarterly basis.

Table of Contents

If we fail to qualify as a REIT in any taxable year, we would be subject to federal income tax (including any applicable alternative minimum tax) on our taxable income computed in the usual manner for corporate taxpayers without deduction for distributions to our stockholders and we may need to borrow additional funds or issue securities to pay such additional tax liability. Any such corporate income tax liability could be substantial and would reduce the amount of cash available for other purposes because, unless we are entitled to relief under certain statutory provisions, we would be taxable as a C-corporation, beginning in the year in which the failure occurs, and we would not be allowed to re-elect to be taxed as a REIT for the following four years.

Even if we remain qualified as a REIT, we may be required to pay taxes under certain circumstances.

Even though we qualify as a REIT, we will be subject to certain U.S. federal, state and local taxes on our income and property, on taxable income that we do not distribute to our stockholders, and on net income from certain prohibited transactions. In addition, the REIT provisions of the Code are complex and are not always subject to clear interpretation. For example, a REIT must derive at least 95% of its gross income in any year from qualifying sources, including rents from real property. Rents from real property includes amounts received for the use of limited amounts of personal property and for certain services. Whether amounts constitute rents from real property or other qualifying income may not be entirely clear in all cases. We may fail to qualify as a REIT if we exceed the permissible amounts of non-qualifying income unless such failures qualify under certain statutory relief provisions. Even if we qualify for statutory relief, we may be required to pay an excise or penalty tax (which could be significant in amount) in order to utilize one or more such relief provisions under the Code to maintain our qualification as a REIT. Furthermore, we conduct substantial activities through TRSs, and the income of those subsidiaries is subject to U.S. federal income tax at regular corporate rates.

To maintain our REIT status, we may be forced to obtain capital during unfavorable market conditions, which could adversely affect our overall financial performance.

In order to qualify as a REIT, we will be required each year to distribute to our stockholders at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and by excluding any net capital gain), and we will be subject to tax to the extent our net taxable income (including net capital gain) is not fully distributed. In addition, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which distributions we pay in any calendar year are less than the sum of 85% of our ordinary income, 95% of our net capital gains, and 100% of our undistributed income from prior years. We intend to continue to make distributions to our stockholders to comply with the distribution requirements of the Code as well as to reduce our exposure to federal income taxes and the nondeductible excise tax. Differences in timing between the receipt of income and the payment of expenses to arrive at taxable income, along with the effect of required debt amortization payments, could require us to borrow funds on a short-term basis to meet the distribution requirements that are necessary to achieve the tax benefits associated with qualifying as a REIT. We may acquire additional capital through our issuance of securities senior to our common stock, including additional borrowings or other indebtedness or the issuance of additional securities. Issuance of such senior securities creates additional risks because leverage is a speculative technique that may adversely affect common stockholders or noteholders. If the return on assets acquired with borrowed funds or other leverage proceeds does not exceed the cost of the leverage, the use of leverage could negatively affect our cash flow.

Table of Contents

Additionally, the issuance of senior securities involves offering expenses and other costs, including interest payments, which are borne indirectly by our common stockholders. Fluctuations in interest rates could increase interest payments on our senior securities, and could reduce cash available for distribution on common stock or for payment on our debt securities. Increased operating costs, including the financing cost associated with any leverage, may reduce our total return to common stockholders. Rating agency guidelines applicable to any senior securities may impose asset coverage requirements, dividend limitations, voting right requirements (in the case of the senior equity securities), and other restrictions. Further, the terms of any senior securities or other borrowings may impose additional requirements, restrictions and limitations that are more stringent than those required by a rating agency that rates outstanding senior securities that may have an adverse effect on us and may affect our ability to pay distributions to our stockholders. On the other hand, we may not be able to raise such additional capital in the future on favorable terms or at all. Unfavorable economic conditions could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us.

Further, in order to maintain our REIT status, we may need to borrow funds to meet the REIT distribution requirements even if the then-prevailing market conditions are not favorable for these borrowings. These borrowing needs could result from differences in timing between the actual receipt of cash and inclusion of income for federal income tax purposes or the effect of non-deductible capital expenditures, the creation of reserves, or required debt or amortization payments. Our ability to access debt and equity capital on favorable terms or at all is dependent upon a number of factors, including general market conditions, the market's perception of our growth potential, our current and potential future earnings and cash distributions, and the market price of our securities. Issuance of debt or equity securities will expose us to typical risks associated with leverage, including increased risk of loss.

To the extent our ability to issue debt or other senior securities such as preferred stock is constrained, we may depend on issuance of additional shares of common stock to finance new investments. If we raise additional funds by issuing more shares of our common stock or senior securities convertible into, or exchangeable for, shares of our common stock, the percentage ownership of our stockholders at that time would decrease, and you may experience dilution.

There are uncertainties relating to our estimate of the E&P Distribution.

To qualify for taxation as a REIT effective for the year ended December 31, 2013, we were required to distribute to our stockholders on or before December 31, 2013, our undistributed accumulated earnings and profits attributable to taxable periods ending prior to January 1, 2013. On May 20, 2013, we distributed \$675.0 million to stockholders of record as of April 19, 2013 in satisfaction of this requirement, or the E&P Distribution. We believe that the total value of the E&P Distribution was sufficient to fully distribute our accumulated earnings and profits and that a portion of the E&P Distribution exceeded our accumulated earnings and profits. However, the amount of our accumulated earnings and profits is a complex factual and legal determination. We may have had less than complete information at the time we estimated our earnings and profits or may have interpreted the applicable law differently from the IRS. Substantial uncertainties exist relating to the computation of our undistributed accumulated earnings and profits, including the possibility that the IRS could, in auditing tax years through 2012, successfully assert that our taxable income should be increased, which could increase our pre-REIT accumulated earnings and profits. Thus, we could fail to satisfy the requirement that we distribute all of our pre-REIT accumulated earnings and profits by the close of our first taxable year as a REIT. Moreover, although there are procedures available to cure a failure to distribute all of our pre-REIT accumulated earnings and profits, we cannot now determine whether we would be able to take advantage of them or the economic impact to us of doing so.

Table of Contents

Performing services through our TRSs may increase our overall tax liability relative to other REITs or subject us to certain excise taxes.

A TRS may hold assets and earn income, including income earned from the performance of correctional services, that would not be qualifying assets or income if held or earned directly by a REIT. We conduct a significant portion of our business activities through our TRSs. Our TRSs are subject to federal, foreign, state and local income tax on their taxable income, and their after-tax net income generally is available for distribution to us but is not required to be distributed to us. The TRS rules also impose a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis. In addition, the TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to ensure that the TRS is subject to an appropriate level of corporate income taxation. We believe our arrangements with our TRSs are on arm's-length terms and intend to continue to operate in a manner that allows us to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to avoid application of the 100% excise tax or the limitations on interest deductions discussed above.

The value of the securities we own in our TRS is limited under the REIT asset tests.

Under the Code, no more than 25% (20% for taxable years beginning after December 31, 2017) of the value of the gross assets of a REIT may be represented by securities of one or more TRSs. This limitation may affect our ability to increase the size of our TRSs' operations and assets, and there can be no assurance that we will be able to comply with the applicable limitation. If we are unable to comply with the applicable limitation, we would fail to qualify as a REIT. Furthermore, our significant use of TRSs may cause the market to value shares of our common stock differently than the stock of other REITs, which may not use TRSs as extensively. Although we intend to monitor the value of our investments in TRSs, there can be no assurance that we will be able to comply with the applicable limitations discussed above.

We may be limited in our ability to fund distributions using cash generated through our TRSs.

At least 75% of gross income for each taxable year as a REIT must be derived from passive real estate sources and no more than 25% of gross income may consist of dividends from our TRSs and other non-real estate income. This limitation on our ability to receive dividends from our TRSs may affect our ability to fund cash distributions to our stockholders using cash from our TRSs. Moreover, our TRSs are not required to distribute their net income to us, and any income of our TRSs that is not distributed to us will not be subject to the REIT income distribution requirement.

REIT ownership limitations may restrict or prevent you from engaging in certain transfers of our common stock.

In order to satisfy the requirements for REIT qualification, no more than 50% in value of all classes or series of our outstanding shares of stock may be owned, actually or constructively, by five or fewer individuals (as defined in the Code to include certain entities) at any time during the last half of each taxable year beginning with our 2014 taxable year. To assist us in satisfying this share ownership requirement, our charter imposes ownership limits on each class and series of our shares of stock. Under applicable constructive ownership rules, any shares of stock owned by certain affiliated owners generally would be added together for

Table of Contents

purposes of the common stock ownership limits, and any shares of a given class or series of preferred stock owned by certain affiliated owners generally would be added together for purposes of the ownership limit on such class or series.

If anyone transfers shares of our common stock in a manner that would violate the ownership limits, or prevent us from qualifying as a REIT under the federal income tax laws, those shares of common stock instead would be transferred to a trust for the benefit of a charitable beneficiary and will be either redeemed by us or sold to a person whose ownership of the shares will not violate the ownership limit. If this transfer to a trust fails to prevent such a violation or fails to permit our continued qualification as a REIT, then the initial intended transfer would be null and void from the outset. The intended transferee of those shares will be deemed never to have owned the shares. Anyone who acquires shares in violation of the ownership limit or the other restrictions on transfer bears the risk of suffering a financial loss when the shares of common stock are redeemed or sold if the market price of our shares of common stock falls between the date of purchase and the date of redemption or sale.

Complying with REIT requirements may cause us to forego otherwise attractive opportunities or liquidate otherwise attractive investments.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our common stock. If we fail to comply with one or more of the asset tests at the end of any calendar quarter, we may be able to avail ourselves of certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. We may be subject to a penalty for failure to comply with one or more of these tests. In order to meet these tests, we may be required to forego investments we might otherwise make or to liquidate otherwise attractive investments. Thus, compliance with the REIT requirements may hinder our performance and reduce amounts available for distribution to our stockholders.

The tax imposed on REITs engaging in prohibited transactions may limit our ability to engage in transactions which would be treated as sales for federal income tax purposes.

A REIT's net income from prohibited transactions is subject to a 100% penalty tax. In general, prohibited transactions are sales or other dispositions of property, other than foreclosure property, held primarily for sale to customers in the ordinary course of business. Although we do not intend to hold any properties that would be characterized as held for sale to customers in the ordinary course of our business, unless a sale or disposition qualifies under certain statutory safe harbors, such characterization is a factual determination and no guarantee can be given that the IRS would agree with our characterization of our properties or that we will always be able to make use of the available safe harbors.

We have not established a minimum distribution payment level, and we may be unable to generate sufficient cash flows from our operations to make distributions to our stockholders at any time in the future.

We are generally required to distribute to our stockholders at least 90% of our net taxable income (excluding net capital gains) each year to qualify as a REIT under the Code. To the extent we satisfy the 90% distribution requirement but distribute less than 100% of our net taxable income (including net capital gains), we will be subject to federal corporate income tax on our undistributed net taxable income. We intend to distribute at least 100% of our net taxable income (excluding net capital gains). However, our ability to make distributions to our stockholders may be adversely affected by the issues described in the risk factors set forth in this annual report. Subject to satisfying the requirements for REIT qualification, we

Table of Contents

intend to continue to make regular quarterly distributions to our stockholders. Our Board of Directors has the sole discretion to determine the timing, form and amount of any distributions to our stockholders. Our Board of Directors makes determinations regarding distributions based upon, among other factors, our historical and projected results of operations, financial condition, cash flows and liquidity, satisfaction of the requirements for REIT qualification and other tax considerations, capital expenditure and other expense obligations, debt covenants, contractual prohibitions or other limitations and applicable law and such other matters as our Board of Directors may deem relevant from time to time.

It is possible that we will not be able to continue to make distributions to our stockholders or that the level of any distributions we do make to our stockholders will achieve a market yield or increase or even be maintained over time, any of which could materially and adversely affect the market price of our shares of common stock. Distributions could be dilutive to our financial results and may constitute a return of capital to our investors, which would have the effect of reducing each stockholder's basis in its shares of common stock. We also could use borrowed funds or proceeds from the sale of assets to fund distributions.

Dividends payable by REITs, including us, generally do not qualify for the reduced tax rates available for some dividends.

Qualified dividends payable to U.S. stockholders that are individuals, trusts and estates generally are subject to tax at preferential rates. Subject to limited exceptions, dividends payable by REITs are not eligible for these reduced rates and are taxable at ordinary income tax rates. The more favorable rates applicable to regular corporate qualified dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the shares of REITs, including the shares of our common stock.

Distributions that we make to our stockholders are treated as dividends to the extent of our earnings and profits as determined for federal income tax purposes and are generally taxable to our stockholders as ordinary income. However, our dividends are eligible for the lower rate applicable to qualified dividends to the extent they are attributable to income that was previously subject to corporate income tax, such as the dividends we receive from our TRSs or attributable to the accumulated earnings and profits in connection with acquisitions of C-corporations. Also, a portion of our distributions may be designated by us as long-term capital gains to the extent that they are attributable to capital gain income recognized by us. Our distributions may constitute a return of capital to the extent that they exceed our earnings and profits as determined for federal income tax purposes. A return of capital generally is not taxable, but has the effect of reducing the basis of a stockholder's investment in our shares of common stock. Any such distributions that exceed a stockholder's tax basis in our shares of common stock generally will be taxable as capital gains.

We could have potential deferred and contingent tax liabilities from our REIT conversion that could limit, delay or impede future sales of our properties.

Even though we qualify for taxation as a REIT, if we acquire any asset from a corporation which is or has been a C-corporation in a transaction in which the basis of the asset in our hands is less than the fair market value of the asset (including as a result of the REIT conversion), in each case determined at the time we acquired the asset or converted to a REIT, as applicable, and we subsequently recognize a gain on the disposition of the asset during the five-year period beginning on the date on which we acquired the asset or converted to a REIT, as applicable, then we will be required to pay tax at the highest regular corporate tax rate on this gain to the extent of the excess of (a) the fair market value of the

Table of Contents

asset over (b) its adjusted basis in the asset, in each case determined as of the date on which we acquired the asset or converted to a REIT, as applicable. These requirements could limit, delay or impede future sales of our properties. We currently do not expect to sell any asset if the sale would result in the imposition of a material tax liability. We cannot, however, assure you that we will not change our plans in this regard.

Tax liabilities and attributes inherited in connection with acquisitions.

From time to time we may acquire other corporations or entities and, in connection with such acquisitions, we may succeed to the historic tax attributes and liabilities of such entities. For example, in order to qualify as a REIT, at the end of any taxable year, we must not have any earnings and profits accumulated in a non-REIT year. As a result, if we acquire a C-corporation in certain transactions, we must distribute the corporation's earnings and profits accumulated prior to the acquisition before the end of the taxable year in which we acquire the C-corporation. We also could be required to pay the acquired entity's unpaid taxes even though such liabilities arose prior to the time we acquired the entity. These issues are applicable to Avalon and CMI, which were C-corporations prior to our acquisitions of these companies.

Legislative or regulatory action affecting REITs could adversely affect us or our stockholders.

In recent years, numerous legislative, judicial and administrative changes have been made to the federal income tax laws applicable to investments in REITs and similar entities. At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. Changes to the tax laws, regulations and administrative interpretations, which may have retroactive application, could adversely affect us and may impact our taxation or that of our stockholders. Accordingly, we cannot assure you that any such change will not significantly affect our ability to qualify for taxation as a REIT or the federal income tax consequences to us of such qualification.

Other Risks Related to Our Securities

The market price of our equity securities may vary substantially, which may limit our stockholders' ability to liquidate their investment.

The trading prices of equity securities issued by REITs have historically been affected by changes in market interest rates. One of the factors that may influence the price of our common stock in public trading markets is the annual yield from distributions on our common stock as compared to yields on other financial instruments. An increase in market interest rates, or a decrease in our distributions to stockholders, may lead prospective purchasers of our shares to demand a higher annual yield, which could reduce the market price of our equity securities.

Other factors that could affect the market price of our equity securities include the following:

actual or anticipated variations in our quarterly results of operations;

changes in market valuations of companies in the corrections or detention industries;

changes in expectations of future financial performance or changes in estimates of securities analysts;

fluctuations in stock market prices and volumes;

issuances of common shares or other securities in the future; and

announcements by us or our competitors of acquisitions, investments or strategic actions.

Table of Contents

The number of shares of our common stock available for future sale could adversely affect the market price of our common stock.

We cannot predict the effect, if any, of future sales of common stock, or the availability of common stock for future sale, on the market price of our common stock. Sales of substantial amounts of common stock (including stock issued under equity compensation plans or stock issued pursuant to our ATM Equity Offering Sales Agreement), or the perception that these sales could occur, may adversely affect prevailing market prices for our common stock.

Future offerings of debt or equity securities ranking senior to our common stock or incurrence of debt (including under our senior bank credit facility) may adversely affect the market price of our common stock.

If we decide to issue debt or equity securities in the future ranking senior to our common stock or otherwise incur indebtedness (including under our senior bank credit facility), it is possible that these securities or indebtedness will be governed by an indenture or other instrument containing covenants restricting our operating flexibility and limiting our ability to make distributions to our stockholders. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges, including with respect to distributions, more favorable than those of our common stock and may result in dilution to owners of our common stock. Because our decision to issue debt or equity securities in any future offering or otherwise incur indebtedness will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings or financings, any of which could reduce the market price of our common stock and dilute the value of our common stock.

Our issuance of preferred stock could adversely affect holders of our common stock and discourage a takeover.

Our Board of Directors has the authority to issue up to 50.0 million shares of preferred stock without any action on the part of our stockholders. Our Board of Directors also has the authority, without stockholder approval, to set the terms of any new series of preferred stock that may be issued, including voting rights, dividend rights, liquidation rights and other preferences superior to our common stock. In the event that we issue shares of preferred stock in the future that have preferences superior to our common stock, the rights of the holders of our common stock or the market price of our common stock could be adversely affected. In addition, the ability of our Board of Directors to issue shares of preferred stock without any action on the part of our stockholders may impede a takeover of us and discourage or prevent a transaction favorable to our stockholders.

Our charter and bylaws and Maryland law could make it difficult for a third party to acquire our company.

The Maryland General Corporation Law and our charter and bylaws contain provisions that could delay, deter, or prevent a change in control of our company or our management. These provisions could also discourage proxy contests and make it more difficult for our stockholders to elect directors and take other corporate actions. These provisions:

Table of Contents

authorize us to issue blank check preferred stock, which is preferred stock that can be created and issued by our Board of Directors, without stockholder approval, with rights senior to those of common stock;

provide that directors may be removed with or without cause only by the affirmative vote of at least a majority of the votes of shares entitled to vote thereon; and

establish advance notice requirements for submitting nominations for election to the Board of Directors and for proposing matters that can be acted upon by stockholders at a meeting.

We are also subject to anti-takeover provisions under Maryland law, which could delay or prevent a change of control. Together, these provisions of our charter and bylaws and Maryland law may discourage transactions that otherwise could provide for the payment of a premium over prevailing market prices for our common stock, and also could limit the price that investors are willing to pay in the future for shares of our common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

None.

ITEM 2. PROPERTIES.

The properties we owned at December 31, 2016 are described under Item 1 and in Note 4 of the Notes to the Consolidated Financial Statements contained in this Annual Report, as well as in Schedule III in Part IV to this Annual Report.

ITEM 3. LEGAL PROCEEDINGS.

In a memorandum to the BOP dated August 18, 2016, the DOJ directed that, as each contract with privately operated prisons reaches the end of its term, the BOP should either decline to renew that contract or substantially reduce its scope in a manner consistent with law and the overall decline of the BOP's inmate population. In addition to the decline in the BOP's inmate population, the DOJ memorandum cites purported operational, programming, and cost efficiency factors as reasons for the new DOJ directive.

Following the release of the DOJ memorandum, a purported securities class action lawsuit was filed against us and certain of our current and former officers in the United States District Court for the Middle District of Tennessee, captioned *Grae v. Corrections Corporation of America et al.*, Case No. 3:16-cv-02267. The lawsuit is brought on behalf of a putative class of shareholders who purchased or acquired our securities between February 27, 2012 and August 17, 2016. In general, the lawsuit alleges that, during this timeframe, our public statements were false and/or misleading regarding the purported operational, programming, and cost efficiency factors cited in the DOJ memorandum and, as a result, our stock price was artificially inflated. The lawsuit alleges that the publication of the DOJ memorandum on August 18, 2016 revealed the alleged fraud, causing the per share price of our stock to decline, thereby causing harm to the putative class of shareholders. We believe the lawsuit is entirely without merit and intend to vigorously defend against it. In addition, we maintain insurance, with certain self-insured retention amounts, to cover the alleged claims which mitigates the risk such litigation would have a material adverse effect on our financial condition, results of operations, or cash flows.

See additional information required under this section described in Note 15 of the Notes to the Consolidated Financial Statements contained in this Annual Report.

PART II.**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.****Market Price of and Distributions on Capital Stock**

Our common stock is traded on the New York Stock Exchange, or NYSE, under the symbol CXW. On February 16, 2017, the last reported sale price of our common stock was \$32.69 per share and there were approximately 3,000 registered holders and approximately 47,000 beneficial holders, respectively, of our common stock.

The following table sets forth, for the fiscal quarters indicated, the range of high and low sales prices of the common stock.

Common Stock

| | SALES PRICE | |
|-------------------------|--------------------|------------|
| | HIGH | LOW |
| FISCAL YEAR 2016 | | |
| First Quarter | \$ 32.94 | \$ 25.81 |
| Second Quarter | \$ 35.05 | \$ 30.00 |
| Third Quarter | \$ 34.71 | \$ 13.04 |
| Fourth Quarter | \$ 26.00 | \$ 12.99 |

| | SALES PRICE | |
|-------------------------|--------------------|------------|
| | HIGH | LOW |
| FISCAL YEAR 2015 | | |
| First Quarter | \$ 42.31 | \$ 36.34 |
| Second Quarter | \$ 40.89 | \$ 32.98 |
| Third Quarter | \$ 35.48 | \$ 28.00 |
| Fourth Quarter | \$ 31.76 | \$ 24.21 |

Dividend Policy

During 2015 and 2016, CoreCivic's Board of Directors declared the following quarterly dividends on its common stock:

| Declaration Date | Record Date | Payable Date | Per Share |
|-------------------|-----------------|------------------|-----------|
| February 20, 2015 | April 2, 2015 | April 15, 2015 | \$ 0.54 |
| May 14, 2015 | July 2, 2015 | July 15, 2015 | \$ 0.54 |
| August 13, 2015 | October 2, 2015 | October 15, 2015 | \$ 0.54 |

Edgar Filing: CoreCivic, Inc. - Form 10-K

| | | | |
|-------------------|-----------------|------------------|---------|
| December 10, 2015 | January 4, 2016 | January 15, 2016 | \$ 0.54 |
| February 19, 2016 | April 1, 2016 | April 15, 2016 | \$ 0.54 |
| May 12, 2016 | July 1, 2016 | July 15, 2016 | \$ 0.54 |
| August 11, 2016 | October 3, 2016 | October 17, 2016 | \$ 0.54 |
| December 8, 2016 | January 3, 2017 | January 13, 2017 | \$ 0.42 |

Table of Contents

In order to qualify as a REIT, we are required each year to distribute to our stockholders at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and excluding net capital gains) and we will be subject to tax to the extent our net taxable income (including net capital gains) is not fully distributed. While we intend to continue paying regular quarterly cash dividends at levels expected to fully distribute our annual REIT taxable income, future dividends will be paid at the discretion of our Board of Directors and will depend on our future earnings, our capital requirements, our financial condition, alternative uses of capital, the annual distribution requirements under the REIT provisions of the Code and on such other factors as our Board of Directors may consider relevant.

Issuer Purchases of Equity Securities

None.

ITEM 6. SELECTED FINANCIAL DATA.

The following selected financial data for the five years ended December 31, 2016, was derived from our consolidated financial statements and the related notes thereto after any applicable reclassification of discontinued operations. This data should be read in conjunction with our audited consolidated financial statements, including the related notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations. Our audited consolidated financial statements, including the related notes, as of December 31, 2016 and 2015, and for the years ended December 31, 2016, 2015, and 2014 are included in this Annual Report.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto appearing elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, but not limited to, those described under Item 1A, Risk Factors and included in other portions of this report.

OVERVIEW

We are a diversified government solutions company with the scale and experience needed to solve tough government challenges in cost-effective ways. We provide a broad range of solutions to government partners that serve the public good through high-quality corrections and detention management, innovative and cost-saving government real estate solutions, and a growing network of residential reentry centers to help address America's recidivism crisis. We have been a flexible and dependable partner for government for more than 30 years. Our employees are driven by a deep sense of service, high standards of professionalism and a responsibility to help government better the public good.

As of December 31, 2016, we owned or controlled 49 correctional and detention facilities, owned or controlled 25 residential reentry facilities, and managed an additional 11 correctional and detention facilities owned by our government partners, with a total design capacity of approximately 89,700 beds in 20 states and the District of Columbia. We are the nation's largest owner of partnership correctional, detention, and residential reentry facilities and one of the largest prison operators in the United States. Our size and experience provide us with significant credibility with our current and prospective customers, and enable us to generate economies of scale in purchasing power for food services, health care and other supplies and services we offer to our government partners.

We are structured as a real estate investment trust, or REIT. We began operating as a REIT for federal income tax purposes effective January 1, 2013. See Item 1, Business Overview for a description of how we are organized and provide correctional services and conduct other operations through taxable REIT subsidiaries, or TRSs, in order to comply with REIT qualification requirements. We believe that operating as a REIT maximizes our ability to create stockholder value given the nature of our assets, helps lower our cost of capital, draws a larger base of potential stockholders, provides greater flexibility to pursue growth opportunities, and creates a more efficient operating structure.

Over the past several years, we have successfully executed strategies to diversify our business and offer a broader range of solutions to government partners. To reflect this transformation, we announced in October 2016, our decision to rename and rebrand Corrections Corporation of America to CoreCivic, Inc., or CoreCivic, or the Company. Our decision to rename the Company was the result of an intense research, brand strategy, and creative process that began in mid-2015. While the Company was legally renamed in December 2016, related rebranding efforts are ongoing. Through three business offerings, CoreCivic Safety, CoreCivic Properties, and CoreCivic Community, we provide a broad range of solutions to government partners that serve the public good through high-quality corrections and detention management, innovative and cost-saving government real estate solutions, and a growing network of residential reentry centers to help address America's recidivism crisis.

Table of Contents

Our Business

We are compensated for providing bed capacity and correctional, detention, and residential reentry services at a per diem rate based upon actual or minimum guaranteed occupancy levels. Federal, state, and local governments are constantly under budgetary constraints putting pressure on governments to control correctional budgets, including per diem rates our customers pay to us as well as pressure on appropriations for building new prison capacity.

Despite our increase in federal revenues, inmate populations in federal facilities, particularly within the Federal Bureau of Prisons, or the BOP, system nationwide, have declined over the past two years. Inmate populations in the BOP system declined in 2015 and 2016 due, in part, to the retroactive application of changes to sentencing guidelines applicable to certain federal drug trafficking offenses. Increases in capacity within the federal system could result in a decline in BOP populations within our facilities, and could negatively impact the future demand for prison capacity. Further, in a memorandum to the BOP dated August 18, 2016, the Department of Justice, or DOJ, directed that, as each contract with privately operated prisons reaches the end of its term, the BOP should either decline to renew that contract or substantially reduce its scope in a manner consistent with law and the overall decline of the BOP's inmate population. However, in November 2016, we announced that the BOP exercised a two-year renewal option at our 1,978-bed, McRae Correctional Facility. The amended agreement commenced on December 1, 2016, and provides for housing up to 1,724 federal inmates with a fixed monthly payment for 1,633 beds, compared to our previous contract which contained a fixed payment for 1,780 beds.

On August 29, 2016, the Secretary of the Department of Homeland Security, or DHS, announced that he directed the Homeland Security Advisory Council, or HSAC, to establish a Subcommittee of the Council to review the U.S. Immigration and Customs Enforcement's, or ICE's, current policy and practices concerning the use of private immigration detention and evaluate whether this practice should be eliminated. A written report of the subcommittee's evaluation was provided by the HSAC to the Secretary of the DHS and the Director of ICE on November 30, 2016. According to the report, fiscal considerations, combined with the need for realistic capacity to handle sudden increases in detention, suggest that DHS's use of private for-profit detention will continue. The report indicated that, as of September 12, 2016, 10% of the ICE detainee population was housed in federally owned and directed facilities, while 65% was housed in facilities operated by private, for-profit contractors, and 25% was housed in facilities operated by county jails or other local or state government entities. Further, the report indicated that ICE should seek ongoing ways to reduce reliance on detention in county jails, which generally do not meet Performance-Based National Detention Standards, or PBNDS, promulgated by ICE.

We believe the utilization of private sector bed capacity and management services provides ICE with flexible and cost-effective solutions essential to their mission. We also believe the new contract we signed in October 2016 to provide detention space and services at our Cibola County Corrections Center to ICE for up to 1,116 detainees, and the new contract award we announced in December 2016 to provide detention capacity to ICE at our 2,016 bed Northeast Ohio Correctional Center, demonstrate examples of our ability to provide flexible solutions and fulfill emergent needs of ICE that would be very difficult to replicate in the public sector. We previously housed inmates from the BOP at the Cibola facility under a contract that expired in October 2016 and at the Northeast Ohio facility under a contract that expired in May 2015. Therefore, we believe these new contracts provide further examples of the marketability of our real estate assets across multiple government customers.

Table of Contents

We generated approximately 9% and 28% of our total revenue from the BOP and ICE during the year ended December 31, 2016, respectively.

Several of our state partners are projecting improvements in their budgets which has helped us secure recent per diem increases at certain facilities. Further, several of our existing state partners, as well as state partners with which we do not currently do business, are experiencing growth in inmate populations and overcrowded conditions. Although we can provide no assurance that we will enter into any new contracts, we believe we are well positioned to provide them with needed bed capacity, as well as the programming and reentry services they are seeking.

We believe the long-term growth opportunities of our business remain attractive as governments consider their emergent needs, as well as the efficiency, savings, and offender programming opportunities we can provide along with flexible solutions to match our partners' needs. Further, we expect our partners to continue to face challenges in maintaining old facilities, and developing new facilities and additional capacity which could result in future demand for the solutions we provide.

Governments continue to experience many significant spending demands which have constrained correctional budgets limiting their ability to expand existing facilities or construct new facilities. We believe the outsourcing of prison management services to private operators allows governments to manage increasing inmate populations while simultaneously controlling correctional costs and improving correctional services. We believe our customers discover that partnering with private operators to provide residential services to their offenders introduces competition to their prison system, resulting in improvements to the quality and cost of corrections services throughout their correctional system. Further, the use of facilities owned and managed by private operators allows governments to expand correctional capacity without incurring large capital commitments and allows them to avoid long-term pension obligations for their employees.

We also believe that having beds immediately available to our partners provides us with a distinct competitive advantage when bidding on new contracts. While we have been successful in winning contract awards to provide management services for facilities we do not own, and will continue to pursue such management contracts selectively, we believe the most significant opportunities for growth are in providing our government partners with available beds within facilities we currently own or that we develop. We also believe that owning the facilities in which we provide management services enables us to more rapidly replace business lost compared with managed-only facilities, since we can offer the same beds to new and existing customers and, with customer consent, may have more flexibility in moving our existing inmate populations to facilities with available capacity. Our management contracts generally provide our customers with the right to terminate our management contracts at any time without cause.

We are actively engaged in marketing our available capacity to existing and prospective customers. Historically, we have been successful in substantially filling our inventory of available beds and the beds that we have constructed. Filling these available beds would provide substantial growth in revenues, cash flow, and earnings per share. However, we can provide no assurance that we will be able to fill our available beds.

The demand for capacity in the short-term has been affected by the budget challenges many of our government partners currently face. At the same time, these challenges impede our customers' ability to construct new prison beds of their own or update older facilities, which we believe could result in further need for private sector capacity solutions in the long-term.

Table of Contents

We intend to continue to pursue build-to-suit opportunities like our 2,552-bed Trousdale Turner Correctional Center recently constructed in Trousdale County, Tennessee, and alternative solutions like the 2,400-bed South Texas Family Residential Center whereby we identified a site and lessor to provide residential housing and administrative buildings for ICE. We also expect to continue to pursue investment opportunities and are in various stages of due diligence to complete additional transactions like the acquisitions of five residential reentry facilities in Pennsylvania and California over the past two years, and business combination transactions like the acquisitions of Avalon Correctional Services, Inc., or Avalon, in the fourth quarter of 2015 and Correctional Management, Inc., or CMI, in the second quarter of 2016. The transactions that have not yet closed are subject to various customary closing conditions, and we can provide no assurance that any such transactions will ultimately be completed. We are also pursuing investment opportunities in other real estate assets used to provide mission critical governmental services primarily in the criminal justice sector. In the long-term, however, we would like to see meaningful utilization of our available capacity and better visibility from our customers before we add any additional prison capacity on a speculative basis.

We also remain steadfast in our efforts to contain costs. Approximately 59% of our operating expenses consist of salaries and benefits. The turnover rate for correctional officers for our company, and for the corrections industry in general, remains high. We are making investments in systems and processes intended to help manage our workforce more efficiently and effectively, especially with respect to overtime and costs of turnover. We are also focused on workers' compensation and medical benefits costs for our employees due to continued rising healthcare costs throughout the country and the uncertainty of the impact of the Patient Protection and Affordable Care Act, and any changes thereto, on future healthcare costs. Reducing these staffing costs requires a long-term strategy to control such costs, and we continue to dedicate resources to enhance our benefits, provide specialized training and career development opportunities to our staff and attract and retain quality personnel. Through ongoing company-wide initiatives, we continue to focus on efforts to contain costs and improve operating efficiencies, ensuring continuous delivery of quality services over the long-term.

Through the combination of our initiatives to (i) increase our revenues by taking advantage of our available beds, (ii) deliver new bed capacity through new facility construction and expansion opportunities, (iii) invest in real estate-only solutions, (iv) acquire community corrections facilities, and (v) contain our operating expenses, we believe we will be able to maintain our competitive advantage and continue to improve the quality services we provide to our customers at an economical price, thereby producing value to our stockholders.

Table of Contents**CRITICAL ACCOUNTING POLICIES**

The consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based upon the information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. A summary of our significant accounting policies is described in Note 2 of the Notes to the Consolidated Financial Statements contained in this Annual Report. The significant accounting policies and estimates which we believe are the most critical to aid in fully understanding and evaluating our reported financial results include the following:

Asset impairments. The primary risk we face for asset impairment charges, excluding goodwill, is associated with correctional facilities we own. As of December 31, 2016, we had \$2.8 billion in property and equipment, including \$180.1 million in long-lived assets, excluding equipment, at seven idled correctional facilities. The impairment analyses we performed for each of these facilities excluded the net book value of equipment, as a substantial portion of the equipment is easily transferrable to other company-owned facilities without significant cost. The carrying values of the seven idled facilities as of December 31, 2016 were as follows (in thousands):

| | |
|---|------------|
| Prairie Correctional Facility | \$ 17,071 |
| Huerfano County Correctional Center | 17,542 |
| Diamondback Correctional Facility | 41,539 |
| Southeast Kentucky Correctional Facility ⁽¹⁾ | 22,618 |
| Marion Adjustment Center | 12,135 |
| Lee Adjustment Center | 10,342 |
| Kit Carson Correctional Center | 58,819 |
| | \$ 180,066 |

⁽¹⁾ Formerly known as the Otter Creek Correctional Center.

From the date each facility became idle, the idled facilities incurred combined operating expenses of approximately \$8.5 million, \$7.3 million, and \$6.5 million for the years ended December 31, 2016, 2015, and 2014, respectively. The 2014 amount excludes expenses incurred in connection with the activation of the Diamondback Correctional Facility which began in the third quarter of 2013 and continued until near the end of the second quarter of 2014, as further described hereafter.

We evaluate the recoverability of the carrying values of our long-lived assets, other than goodwill, when events suggest that an impairment may have occurred. Such events primarily include, but are not limited to, the termination of a management contract or a significant decrease in inmate populations within a correctional facility we own or manage. Accordingly, we tested each of the aforementioned idled facilities for impairment when we were notified by the respective customers that they would no longer be utilizing such facility.

We re-perform the impairment analyses on an annual basis for each of the idle facilities and evaluate on a quarterly basis market developments for the potential utilization of each of these facilities in order to identify events that may cause us to reconsider our most recent assumptions. Such events could include negotiations with a prospective

customer for the utilization of an idle facility at terms significantly less favorable than used in our most recent

Table of Contents

impairment analysis, or changes in legislation surrounding a particular facility that could impact our ability to house certain types of inmates at such facility, or a demolition or substantial renovation of a facility. Further, a substantial increase in the number of available beds at other facilities we own could lead to a deterioration in market conditions and cash flows that we might be able to obtain under a new management contract at our idle facilities. We have historically secured contracts with customers at existing facilities that were already operational, allowing us to move the existing population to other idle facilities. Although they are not frequently received, an unsolicited offer to purchase any of our idle facilities at amounts that are less than the carrying value could also cause us to reconsider the assumptions used in our most recent impairment analysis.

In performing our annual impairment analyses, the estimates of recoverability are initially based on projected undiscounted cash flows that are comparable to historical cash flows from management contracts at similar facilities to the idled facilities and sensitivity analyses that consider reductions to such cash flows. Our sensitivity analyses included reductions in projected cash flows by as much as half of the historical cash flows generated by the respective facility as well as prolonged periods of vacancies. In all cases, the projected undiscounted cash flows in our analyses as of December 31, 2016, exceeded the carrying amounts of each facility.

Our impairment evaluations also take into consideration our historical experience in securing new management contracts to utilize facilities that had been previously idled for periods comparable to the periods that our currently idle facilities have been idle. Such previously idled facilities are currently being operated under contracts that generate cash flows resulting in the recoverability of the net book value of the previously idled facilities by substantial amounts. Due to a variety of factors, the lead time to negotiate contracts with our federal and state partners to utilize idle bed capacity is generally lengthy and has historically resulted in periods of idleness similar to the ones we are currently experiencing at our idle facilities. As a result of our analyses, we determined each of the idled facilities to have recoverable values in excess of the corresponding carrying values. However, we can provide no assurance that we will be able to secure agreements to utilize our idle facilities, or that we will not incur impairment charges in the future.

By their nature, these estimates contain uncertainties with respect to the extent and timing of the respective cash flows due to potential delays or material changes to historical terms and conditions in contracts with prospective customers that could impact the estimate of cash flows. Notwithstanding the effects the recent economic downturn has had on our customers' demand for prison beds in the short-term which led to our decision to idle certain facilities, we believe the long-term trends favor an increase in the utilization of our correctional facilities and management services. This belief is based on our experience in operating in difficult economic environments and in working with governmental agencies faced with significant budgetary challenges, which is a primary contributing factor to the lack of appropriated funding since 2009 to build new bed capacity by the federal and state governments with which we partner.

Based on a decline in offender populations within the state of Colorado and available capacity at other facilities we own in Colorado, we idled our 1,488-bed Kit Carson Correctional Center during the third quarter of 2016. Inmate populations from the Kit Carson Correctional Center were transferred to the remaining two company-owned facilities that we continue to operate for the Colorado Department of Corrections, the Bent County Correctional Facility and the Crowley County Correctional Facility. We idled the Kit Carson Correctional Center following the transfer of the inmate population, and we are marketing the facility to other customers. We incurred a facility net operating loss at the Kit Carson Correctional Center of \$2.5 million during the time the facility was active in 2016. We

Table of Contents

performed an impairment analysis of the Kit Carson Correctional Center, which had a net carrying value of \$58.8 million as of December 31, 2016, and concluded that this asset has a recoverable value in excess of the carrying value.

On July 29, 2016, the BOP elected not to renew its contract at our owned and managed 1,129-bed Cibola County Corrections Center located in New Mexico. We prepared to idle the facility upon expiration of the contract on October 30, 2016. We performed an impairment analysis of the Cibola County Corrections Center, which had a net carrying value of \$29.4 million as of December 31, 2016, and concluded that this asset has a recoverable value in excess of the carrying value. On October 31, 2016, we announced a new contract award to house up to 1,116 ICE detainees at our Cibola facility and began receiving detainees in December 2016 under the new contract. The contract contains an initial term of five years, with renewal options upon mutual agreement. We believe this new contract provides a further example of the marketability of our real estate assets across multiple government customers.

Revenue Recognition – Multiple-Element Arrangement. In September 2014, we agreed under an expansion of an existing inter-governmental service agreement, or IGSA, between the city of Eloy, Arizona and ICE to provide residential space and services at our South Texas Family Residential Center. The amended IGSA qualifies as a multiple-element arrangement under the guidance in Accounting Standards Codification, or ASC, 605, Revenue Recognition . We evaluate each deliverable in an arrangement to determine whether it represents a separate unit of accounting. A deliverable constitutes a separate unit of accounting when it has standalone value to the customer. ASC 605 requires revenue to be allocated to each unit of accounting based on a selling price hierarchy. The selling price for a deliverable is based on its vendor specific objective evidence, or VSOE, of selling price, if available, third-party evidence, or TPE, if VSOE of selling price is not available, or estimated selling price, or ESP, if neither VSOE of selling price nor TPE is available. We establish VSOE of selling price using the price charged for a deliverable when sold separately. We establish TPE of selling price by evaluating similar products or services in standalone sales to similarly situated customers. We establish ESP based on management judgment considering internal factors such as margin objectives, pricing practices and controls, and market conditions. In arrangements with multiple elements, we allocate the transaction price to the individual units of accounting at inception of the arrangement based on their relative selling price. The allocation of revenue to each element requires considerable judgment and estimations which could change in the future. In October 2016, we entered into an amended IGSA that extended the life of the contract through September 2021. As a result of this amendment, the deferred revenue associated with the multiple elements will be recognized over future periods based on the delivery of future services. If the IGSA were to be further amended or terminated before the expiration of the five-year term, we would determine the allocation of any deferred revenues to the separate units of accounting to be recognized immediately for services previously provided and, if amended, over future periods based on the delivery of future services.

Self-funded insurance reserves. As of December 31, 2016 and 2015, we had \$29.8 million and \$30.1 million, respectively, in accrued liabilities for employee health, workers' compensation, and automobile insurance claims. We are significantly self-insured for employee health, workers' compensation, and automobile liability insurance claims. As such, our insurance expense is largely dependent on claims experience and our ability to control our claims. We have consistently accrued the estimated liability for employee health insurance claims based on our history of claims experience and the estimated time lag between the incident date and the date we pay the claims. We have accrued the estimated liability for workers' compensation claims based on an actuarial valuation of the outstanding liabilities, discounted to the net present value of the outstanding liabilities, using a

Table of Contents

combination of actuarial methods used to project ultimate losses, and our automobile insurance claims based on estimated development factors on claims incurred. The liability for employee health, workers' compensation, and automobile insurance includes estimates for both claims incurred and for claims incurred but not reported. These estimates could change in the future. It is possible that future cash flows and results of operations could be materially affected by changes in our assumptions, new developments, or by the effectiveness of our strategies.

Legal reserves. As of December 31, 2016 and 2015, we had \$9.3 million and \$4.2 million, respectively, in accrued liabilities related to certain legal proceedings in which we are involved. We have accrued our best estimate of the probable costs for the resolution of these claims based on a range of potential outcomes. In addition, we are subject to current and potential future legal proceedings for which little or no accrual has been reflected because our current assessment of the potential exposure is nominal. These estimates have been developed in consultation with our General Counsel's office and, as appropriate, outside counsel handling these matters, and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible that future cash flows and results of operations could be materially affected by changes in our assumptions, new developments, or by the effectiveness of our strategies.

Table of Contents**RESULTS OF OPERATIONS**

Our results of operations are impacted by the number of facilities we owned and managed, the number of facilities we managed but did not own, the number of facilities we leased to other operators, and the facilities we owned that were not in operation. The following table sets forth the changes in the number of facilities operated for the years ended December 31, 2016, 2015, and 2014.

| | Effective Date | Owned and Managed | Managed Only | Leased | Total |
|--|-------------------|-------------------------|-----------------|----------|-----------|
| Facilities as of December 31, 2013 | | 49 | 16 | 4 | 69 |
| Termination of the management contracts for the Bay, Graceville and | | | | | |
| Moore Haven Correctional Facilities | January 2014 | | (3) | | (3) |
| Termination of the contract at the North Georgia Detention Center | February 2014 | (1) | | | (1) |
| Termination of the management contract for the Idaho Correctional Center | July 2014 | | (1) | | (1) |
| Sale of the Houston Educational Facility | November 2014 | | | (1) | (1) |
| Activation of the South Texas Family Residential Center | October 2014 | 1 | | | 1 |
| Facilities as of December 31, 2014 | | 49 | 12 | 3 | 64 |
| Impairment of non-core assets | January 2015 | | (2) | | (2) |
| Acquisition of four community corrections facilities in Pennsylvania | August 2015 | | | 4 | 4 |
| Termination of the management contract for the Winn Correctional Center | September 2015 | | (1) | | (1) |
| Termination of the lease contract at the Leo Chesney Correctional Center | October 2015 | 1 | | (1) | |
| Acquisition of eleven community corrections facilities in Oklahoma (3), Texas (7), and Wyoming (1) | October 2015 | 11 | | | 11 |
| Activation of the Trousdale Turner Correctional Center | December 2015 | 1 | | | 1 |
| Facilities as of December 31, 2015 | | 60 | 11 | 6 | 77 |
| Acquisition of seven community corrections facilities in Colorado | April 2016 | 7 | | | 7 |
| Lease of the North Fork Correctional Facility | May 2016 | (1) | | 1 | |
| Acquisition of the Long Beach Community Corrections Center in California | June 2016 | | | 1 | 1 |
| Facilities as of December 31, 2016 | | 66 | 11 | 8 | 85 |

Table of Contents**Year Ended December 31, 2016 Compared to the Year Ended December 31, 2015**

During the year ended December 31, 2016, we generated net income of \$219.9 million, or \$1.87 per diluted share, compared with net income of \$221.9 million, or \$1.88 per diluted share, for the previous year. Financial results for the year ended December 31, 2016, include \$4.0 million of restructuring charges resulting from the realignment of our corporate structure to more effectively serve facility operations and support the progression of our business diversification strategy via the acquisitions of residential reentry facilities and a focus on real estate-only solutions for our government partners.

Facility Operations

A key performance indicator we use to measure the revenue and expenses associated with the operation of the facilities we own or manage is expressed in terms of a compensated man-day, which represents the revenue we generate and expenses we incur for one offender for one calendar day. Revenue and expenses per compensated man-day are computed by dividing facility revenue and expenses by the total number of compensated man-days during the period. A compensated man-day represents a calendar day for which we are paid for the occupancy of an offender. We believe the measurement is useful because we are compensated for operating and managing facilities at an offender per-diem rate based upon actual or minimum guaranteed occupancy levels. We also measure our ability to contain costs on a per-compensated man-day basis, which is largely dependent upon the number of offenders we accommodate. Further, per compensated man-day measurements are also used to estimate our potential profitability based on certain occupancy levels relative to design capacity. Revenue and expenses per compensated man-day for all of the facilities placed into service that we owned or managed, exclusive of those held for lease, were as follows for the years ended December 31, 2016 and 2015:

| | For the Years Ended December 31, | |
|---|-------------------------------------|----------|
| | 2016 | 2015 |
| Revenue per compensated man-day | \$ 74.77 | \$ 72.76 |
| Operating expenses per compensated man-day: | | |
| Fixed expense | 38.53 | 37.53 |
| Variable expense | 15.21 | 14.96 |
| Total | 53.74 | 52.49 |
| Operating income per compensated man-day | \$ 21.03 | \$ 20.27 |
| Operating margin | 28.1% | 27.9% |
| Average compensated occupancy | 78.8% | 82.5% |
| Average available beds | 83,882 | 80,121 |
| Average compensated population | 66,112 | 66,111 |

Fixed expenses per compensated man-day for the year ended December 31, 2016 include depreciation expense of \$38.7 million and interest expense of \$10.0 million in order to more properly reflect the cash flows associated with the

lease at the South Texas Family Residential Center. Fixed expenses per compensated man-day for the year ended December 31, 2015 include depreciation expense of \$29.9 million and interest expense of \$8.5 million associated with the lease at the South Texas Family Residential Center.

Table of Contents*Revenue*

Total revenue consists of revenue we generate in the operation and management of correctional, detention, and residential reentry facilities, as well as rental revenue generated from facilities we lease to third-party operators, and from our inmate transportation subsidiary. The following table reflects the components of revenue for the years ended December 31, 2016 and 2015 (in millions):

| | For the Years Ended | | | |
|----------------------------|---------------------|------------|-----------|----------|
| | December 31, | | \$ Change | % Change |
| | 2016 | 2015 | | |
| Management revenue: | | | | |
| Federal | \$ 954.8 | \$ 912.1 | \$ 42.7 | 4.7% |
| State | 710.4 | 725.1 | (14.7) | (2.0%) |
| Local | 78.1 | 65.7 | 12.4 | 18.9% |
| Other | 65.8 | 52.9 | 12.9 | 24.4% |
| Total management revenue | 1,809.1 | 1,755.8 | 53.3 | 3.0% |
| Rental and other revenue | 40.7 | 37.3 | 3.4 | 9.1% |
| Total revenue | \$ 1,849.8 | \$ 1,793.1 | \$ 56.7 | 3.2% |

The \$53.3 million, or 3.0%, increase in revenue associated with the operation and management of correctional, detention, and residential reentry facilities consisted of an increase in revenue of approximately \$48.5 million resulting from an increase of 2.8% in average revenue per compensated man-day and an increase in revenue of approximately \$4.8 million generated primarily by one additional day of operations due to leap year in 2016. The increase in average revenue per compensated man-day from 2015 to 2016 was primarily a result of the full activation of the South Texas Family Residential Center in the second quarter of 2015, as further described hereafter, and per diem increases at several of our other facilities.

Average daily compensated population was consistent from 2015 to 2016. However, there were several notable offsetting factors that affected the average daily compensated population when comparing 2015 to 2016. Average compensated population in 2016 was positively affected by the acquisition of Avalon in the fourth quarter of 2015, the acquisition of CMI in the second quarter of 2016, and the activation of the Trousdale Turner Correctional Center in the fourth quarter of 2015. We began housing state of Tennessee inmates at the Trousdale facility in January 2016. Average compensated population was also positively affected by the full activation of the South Texas Family Residential Center in the second quarter of 2015. Average compensated population in 2016 was negatively affected by the expiration of our contract with the BOP at our Northeast Ohio Correctional Center effective May 31, 2015, and the decline in California inmates held in our out-of-state facilities, both as further described hereafter. Average compensated population was also negatively affected by the aforementioned decline in offender populations within the state of Colorado and the expiration of our managed-only contract at the Winn Correctional Facility effective September 30, 2015, as further described hereafter.

Business from our federal customers, including primarily the BOP, the United States Marshals Service, or USMS, and ICE, continues to be a significant component of our business. Our federal customers generated approximately 52% and 51% of our total revenue for the years ended December 31, 2016 and 2015, respectively, increasing \$42.7 million, or 4.7%. The increase in federal revenues primarily resulted from the full activation of the South Texas Family

Residential Center in the second quarter of 2015, partially offset by a

Table of Contents

decline in federal populations at our Northeast Ohio Correctional Center. The combined effect of per diem increases for several of our federal contracts and a net increase in federal populations at certain other facilities, primarily from ICE, also contributed to the increase in federal revenues.

State revenues from contracts at correctional, detention, and residential reentry facilities that we operate decreased 2.0% from 2015 to 2016 primarily as a result of a decline in California inmates held in our out-of-state facilities. In addition, the decrease in state revenues was a result of the expiration of our managed-only contract with the state of Louisiana at the state-owned Winn Correctional Facility effective September 30, 2015. The decline in offender populations within the state of Colorado also contributed to the decrease in state revenues. The decrease in state revenues was partially offset by the revenue generated at our newly activated Trousdale Turner Correctional Center, and as a result of the acquisitions of Avalon's eleven community corrections facilities in the fourth quarter of 2015 and CMI's seven community corrections facilities in the second quarter of 2016, each as further described hereafter. The acquisition of CMI also contributed to the \$12.4 million, or 18.9%, increase in the revenue from local authorities from 2015 to 2016.

Operating Expenses

Operating expenses totaled \$1,275.6 million and \$1,256.1 million for the years ended December 31, 2016 and 2015, respectively. Operating expenses consist of those expenses incurred in the operation and management of correctional, detention, and residential reentry facilities, as well as at facilities we lease to third-party operators, and for our inmate transportation subsidiary.

Expenses incurred in connection with the operation and management of correctional, detention, and residential reentry facilities increased \$23.6 million, or 1.9% during 2016 compared with 2015. The increase in operating expenses was primarily a result of the activation of the Trousdale Turner Correctional Center in the fourth quarter of 2015, and the acquisitions of Avalon and CMI. The one additional day of operations due to leap year in 2016 also contributed to the increase in operating expenses. The increase in operating expenses was partially offset by a reduction in expenses resulting from the expiration of our BOP contract at our Northeast Ohio Correctional Center effective May 31, 2015 and the expiration of our managed-only contract with the state of Louisiana at the state-owned Winn Correctional Facility effective September 30, 2015. In addition, the increase in operating expenses was partially offset by a reduction in expenses that resulted from idling our Kit Carson Correctional Center in the third quarter of 2016, and from idling our North Fork Correctional Facility in the fourth quarter of 2015. We idled the North Fork facility as a result of a decline in California inmates held in our out-of-state program. In May 2016, we announced that we leased the North Fork Correctional Facility to the Oklahoma Department of Corrections, or ODOC. The lease agreement commenced on July 1, 2016, as further described hereafter.

Table of Contents

Fixed expenses per compensated man-day increased to \$38.53 during the year ended December 31, 2016 from \$37.53 during the year ended December 31, 2015. Fixed expenses per compensated man-day increased primarily as a result of an increase in salaries and benefits per compensated man-day. The increase in salaries and benefits per compensated man-day was partially a result of these expenses being leveraged over smaller offender populations at certain facilities and due to wage adjustments implemented during 2015. The increase in salaries and benefits per compensated man-day was also due to more favorable claims experience in our employee self-insured medical plan in the prior year. As the economy has improved, we have experienced wage pressures in certain markets across the country, and have provided wage increases to remain competitive. We continually monitor compensation levels very closely along with overall economic conditions and will set wage levels necessary to help ensure the long-term success of our business. Salaries and benefits represent the most significant component of our operating expenses, representing approximately 59% of our total operating expenses during both 2016 and 2015.

In May 2016, the U.S. Department of Labor released updated overtime and exemption rules under the Fair Labor Standards Act. Among other provisions, the updated rules were to have increased the minimum salary needed to qualify for the standard white collar employee exemption from \$455 to \$913 per week, or to \$47,476 annually for a full-year worker. The effective date for this provision was to have been December 1, 2016. However, in late November 2016, a federal judge in Texas issued a nationwide preliminary injunction against implementation of the updated overtime rules. Therefore, the updated overtime rules did not go into effect on December 1, 2016, and the future of the announced overtime rule changes continues to be uncertain. We had developed plans to comply with the new regulations as of the effective date, and proceeded to implement certain aspects of our plans following the preliminary injunction. We are currently monitoring developments with the litigation and will continue to analyze the impact of any developments on our payroll costs and results of operations.

Facility Management Contracts

We typically enter into facility contracts to provide prison bed capacity and management services to governmental entities for terms typically ranging from three to five years, with additional renewal periods at the option of the contracting governmental agency. Accordingly, a substantial portion of our facility contracts are scheduled to expire each year, notwithstanding contractual renewal options that a government agency may exercise. Although we generally expect these customers to exercise renewal options or negotiate new contracts with us, one or more of these contracts may not be renewed by the corresponding governmental agency.

Our contract with the District of Columbia, or District, at the D.C. Correctional Treatment Facility is scheduled to expire in the first quarter of 2017. The District assumed operation of the facility in January 2017. We incurred facility net operating losses at the facility of \$0.1 million and \$0.7 million in 2016 and 2015, respectively, and generated facility net operating income of \$1.0 million in 2014. Our investment in the direct financing lease with the District also expires in the first quarter of 2017. Upon expiration of the lease in 2017, ownership of the facility automatically reverts to the District.

Table of Contents

During 2015, ICE solicited proposals for the rebid of our 1,000-bed Houston Processing Center. The contract is currently scheduled to expire in April 2017. We have submitted our response to ICE, but can provide no assurance that we will be awarded a new contract for this facility.

As previously discussed herein, on August 18, 2016, the DOJ directed that, as each contract with privately operated prisons reaches the end of its term, the BOP should either decline to renew that contract or substantially reduce its scope in a manner consistent with law and the overall decline of the BOP's inmate population. Currently, we have two owned and managed facilities that house BOP inmates with contracts that expire in the next twelve months. We can provide no assurance that we will be awarded new contracts for these two facilities or that the contracts will not be substantially reduced in scope. These two facilities have a total capacity of 3,654 beds and contributed \$91.4 million in revenue during 2016. The total net carrying value of the two facilities was \$144.5 million as of December 31, 2016. We have a third owned and managed facility housing BOP inmates under a contract that was renewed in November 2016 for two additional years through November 2018. This facility generated \$40.5 million of revenue during 2016.

During the third quarter of 2016, the Texas Department of Criminal Justice, or TDCJ, solicited proposals for the rebid of four facilities we currently manage for the state of Texas. The current managed-only contracts for these four facilities are scheduled to expire in August 2017. The four facilities have a total capacity of 5,129 beds and generated \$2.3 million in facility net operating income during 2016. We have submitted our response to the solicitation, but can provide no assurance that we will be awarded new managed-only contracts for these four facilities.

Based on information available at this filing, notwithstanding the contracts at facilities described above, we believe we will renew all other material contracts that have expired or are scheduled to expire within the next twelve months. We believe our renewal rate on existing contracts remains high as a result of a variety of reasons including, but not limited to, the constrained supply of available beds within the U.S. correctional system, our ownership of the majority of the beds we operate, and the quality of our operations.

The operation of the facilities we own carries a higher degree of risk associated with a facility contract than the operation of the facilities we manage but do not own because we incur significant capital expenditures to construct or acquire facilities we own. Additionally, correctional and detention facilities have limited or no alternative use. Therefore, if a contract is terminated on a facility we own, we continue to incur certain operating expenses, such as real estate taxes, utilities, and insurance, which we would not incur if a management contract were terminated for a managed-only facility. As a result, revenue per compensated man-day is typically higher for facilities we own and manage than for managed-only facilities. Because we incur higher expenses, such as repairs and maintenance, real estate taxes, and insurance, on the facilities we own and manage, our cost structure for facilities we own and manage is also higher than the cost structure for the managed-only facilities. Accordingly, the following tables display the revenue and expenses per compensated man-day for the facilities placed into service that we own and manage and for the facilities we manage but do not own, which we believe is useful to our financial statement users:

Table of Contents

| | For the Years Ended December 31, | |
|---|-------------------------------------|----------|
| | 2016 | 2015 |
| Owned and Managed Facilities: | | |
| Revenue per compensated man-day | \$ 82.76 | \$ 81.32 |
| Operating expenses per compensated man-day: | | |
| Fixed expense | 41.44 | 40.55 |
| Variable expense | 16.19 | 16.16 |
| Total | 57.63 | 56.71 |
| Operating income per compensated man-day | \$ 25.13 | \$ 24.61 |
| Operating margin | 30.4% | 30.3% |
| Average compensated occupancy | 75.6% | 79.9% |
| Average available beds | 69,984 | 65,073 |
| Average compensated population | 52,942 | 52,007 |
| Managed Only Facilities: | | |
| Revenue per compensated man-day | \$ 42.62 | \$ 41.18 |
| Operating expenses per compensated man-day: | | |
| Fixed expense | 26.81 | 26.38 |
| Variable expense | 11.29 | 10.53 |
| Total | 38.10 | 36.91 |
| Operating income per compensated man-day | \$ 4.52 | \$ 4.27 |
| Operating margin | 10.6% | 10.4% |
| Average compensated occupancy | 94.8% | 93.7% |
| Average available beds | 13,898 | 15,048 |
| Average compensated population | 13,170 | 14,104 |

Owned and Managed Facilities

Facility net operating income, or the operating income or loss from operations before interest, taxes, asset impairments, depreciation and amortization, at our owned and managed facilities increased by \$29.9 million, from \$505.7 million in 2015 to \$535.6 million in 2016, an increase of 5.9%. Facility net operating income at our owned and managed facilities in 2016 was favorably impacted by the full activation of the South Texas Family Residential Center. The aforementioned \$48.7 million and \$38.4 million aggregate depreciation and interest expense associated

with the lease at the South Texas Family Residential Center in the years ended December 31, 2016 and 2015, respectively, are not included in the facility net operating income amounts reported above, but are included in the per compensated man-day statistics.

In September 2014, we announced that we agreed to an expansion of an existing inter-governmental service agreement, or IGSA, between the city of Eloy, Arizona and ICE to house up to 2,400 individuals at the South Texas Family Residential Center, a facility we lease in Dilley, Texas. The expanded agreement gives ICE additional capacity to accommodate the influx of Central American female adults with children arriving illegally on

Table of Contents

the Southwest border while they await the outcome of immigration hearings. As part of the agreement, we are responsible for providing space and residential services in an open and safe environment which offers residents indoor and outdoor recreational activities, counseling, group interaction, and access to religious and legal services. In addition, we provide educational programs through a third party and food services through the lessor. ICE Health Service Corps, a division of ICE, is responsible for medical services provided to residents. The services provided under the original amended IGSA commenced in the fourth quarter of 2014 and had an original term of up to four years.

In October 2016, we entered into an amended IGSA that provides for a new, lower fixed monthly payment commencing in November 2016, and extends the term of the contract through September 2021. The agreement can be further extended by bi-lateral modification. However, ICE can also terminate the agreement for convenience or non-appropriation of funds, without penalty, by providing us with at least a 60-day notice. In the event we cancel the lease with the third-party lessor prior to its expiration as a result of the termination of the IGSA by ICE for convenience, and if we are unable to reach an agreement for the continued use of the facility within 90 days from the termination date, we are required to pay a termination fee based on the termination date, currently equal to \$10.0 million and declining to zero by October 2020.

We lease the South Texas Family Residential Center and the site upon which it was constructed from a third-party lessor. Concurrent with the aforementioned amendment to the IGSA entered into in October 2016, we modified our lease agreement with the third-party lessor of the facility to reflect a reduced monthly lease expense effective in November 2016, with a new term concurrent with the amended IGSA. ICE began housing the first residents at the facility in the fourth quarter of 2014, and the site was completed during the second quarter of 2015. In accordance with the multiple-element arrangement guidance, a portion of the fixed monthly payments to us pursuant to the IGSA is recognized as lease and service revenue. During the years ended December 31, 2016 and 2015, we recognized \$267.3 million and \$244.7 million, respectively, in total revenue associated with the facility. The original IGSA with ICE had a favorable impact on the revenue and net operating income of our owned and managed facilities during the years ended December 31, 2016 and 2015. Operating margin percentages at this facility were comparable to those of our average owned and managed facilities during 2015, but increased during 2016 as expenses normalized for stabilized operations. Under terms of the aforementioned amended IGSA entered into in October 2016, we anticipate that the revenues generated at the South Texas Family Residential Center will be reduced by 40% and operating margin percentages at the facility will be comparable to those of our average owned and managed facilities, resulting in a material reduction to our facility net operating income in 2017.

In June 2015, ICE announced a policy change regarding family unit detention that has shortened the duration of ICE detention for those who are awaiting further process before immigration courts. Public policies and views regarding family detention, as well as proposals pertaining to the most effective means to address families crossing the border illegally, continue to evolve. In addition, numerous lawsuits, to which we are not a party, have challenged the government's policy of detaining migrant families.

One such lawsuit in the United States District Court for the Central District of California concerns a settlement agreement between ICE and a plaintiffs' class consisting of detained minors, whereby the court issued an order on August 21, 2015, enforcing the settlement agreement and requiring compliance by October 23, 2015. The court's order clarified that the government has the flexibility to hold class members for longer periods of time in unlicensed and secure facilities during influxes of large numbers of undocumented migrant families via the southern U.S. border. After announcing its intention to comply fully with the court's

Table of Contents

order, the federal government appealed. In July 2016, the U.S. Court of Appeals for the Ninth Circuit affirmed most aspects of the District Court's order, but ruled that ICE is not required to release a parent simply because the settlement agreement might require release of that parent's minor child. The impact of these rulings on family residential programs is not yet known.

In December 2016, a Texas state court judge blocked efforts by Texas state officials to license the South Texas Family Residential Center as a child care center, ruling that the state officials lacked authority to license such facilities. The state of Texas has appealed this ruling, and the impact of the judge's decision on family residential detention programs is not yet known. Any court decision or government action that impacts our existing contract for the South Texas Family Residential Center could materially affect our cash flows, financial condition, and results of operations.

In December 2015, we announced that we were awarded a new contract from the Arizona Department of Corrections, or ADOC, to house up to an additional 1,000 medium-security inmates at our Red Rock facility, bringing the contracted bed capacity to 2,000 inmates. The new management contract contains an initial term of ten years, with two five-year renewal options upon mutual agreement and provides for an occupancy guarantee of 90% of the contracted beds once the 90% occupancy rate is achieved. The government partner included the occupancy guarantee in its RFP in order to guarantee its access to the beds. In connection with the new award, we expanded our Red Rock facility to a design capacity of 2,024 beds and added additional space for inmate reentry programming. Construction was substantially completed at December 31, 2016, although we began receiving inmates under the new contract during the third quarter of 2016. The new contract is expected to generate approximately \$22.0 million to \$25.0 million of incremental annual revenue.

In May 2011, in response to a lawsuit brought by inmates against the state of California, the U.S. Supreme Court upheld a lower court ruling issued by a three judge panel requiring California to reduce its inmate population to 137.5% of its capacity. In an effort to meet the Federal court ruling, the state of California enacted legislation that shifted the responsibilities for housing certain lower level inmates from state government to local jurisdictions. This realignment plan commenced on October 1, 2011 and, along with other actions to reduce inmate populations, has resulted in a reduction in state inmate populations of approximately 30,000 as of December 31, 2016.

During the first quarter of 2015, the adult inmate population held in state of California institutions first met the Federal court order to reduce inmate populations below 137.5% of its capacity. Inmate populations in the state continued to decline below the court ordered capacity limit which has resulted in declining inmate populations in the out-of-state program at facilities we own and operate. As of December 31, 2016, the adult inmate population held in state of California institutions remained in compliance with the Federal court order at approximately 134.0% of capacity, or approximately 114,000 inmates, which did not include the California inmates held in our out-of-state facilities. During the years ended December 31, 2016 and 2015, we housed an average daily population of approximately 4,900 and 7,300 California inmates, respectively, in facilities outside the state as a partial solution to the State's overcrowding. This decline in population, net of the revenue generated by one additional day of operations due to leap year in 2016, resulted in a decrease in revenue of \$57.1 million from the year ended December 31, 2015 to the year ended December 31, 2016.

Approximately 6% and 10% of our total revenue for the years ended December 31, 2016 and 2015, respectively, was generated from the California Department of Corrections and Rehabilitation, or CDCR, in facilities housing inmates outside the state of California.

Table of Contents

On January 10, 2017, the Governor of California issued a proposed budget for fiscal 2017-2018. The proposed budget contemplates that implementation of initiatives to reduce prison populations will allow the CDCR to remove all inmates from one of our two remaining out-of-state facilities in fiscal 2017-2018. Additionally, as a result of such prison population reduction initiatives, the CDCR anticipates returning any remaining inmates from our out-of-state facilities by 2020. Although the proposed budget acknowledges that estimates of population reductions are preliminary and subject to considerable uncertainty, we can provide no assurance that we would be able to replace the cash flows associated with our contract with the CDCR, if CDCR inmates are removed from our Tallahatchie and La Palma facilities. An elimination of the use of our out-of-state solutions by the state of California would have a significant adverse impact on our financial position, results of operations, and cash flows.

During December 2014, the BOP announced that it elected not to renew its contract with us at our owned and managed 2,016-bed Northeast Ohio Correctional Center. The contract with the BOP at this facility expired on May 31, 2015. Facility net operating income decreased by \$9.8 million from the year ended December 31, 2015 to the year ended December 31, 2016 as a result of this reduction in inmate population. In December 2016, we announced a new contract award from ICE at the Northeast Ohio facility in order to assist ICE with their current detention needs. The new contract contains an initial term expiring March 31, 2017, with three six-month renewal periods at the option of ICE. As of January 31, 2017, we housed approximately 215 ICE detainees and approximately 520 detainees from the USMS pursuant to a separate contract that expires December 31, 2018, with no renewal options remaining. While the new contract provides ICE with the flexibility to increase detainee populations, it also provides us with the option to house other inmate populations at the facility.

During the fourth quarter of 2015, we closed on the acquisition of 100% of the stock of Avalon, along with two additional facilities operated by Avalon. The acquisition included 11 community corrections facilities with approximately 3,000 beds in Oklahoma, Texas, and Wyoming. We acquired Avalon, which specializes in community correctional services, drug and alcohol treatment services, and residential reentry services, as a strategic investment that continues to expand the reentry assets we own and the services we provide.

On April 8, 2016, we closed on the acquisition of 100% of the stock of CMI along with the real estate used in the operation of CMI's business from two entities affiliated with CMI. CMI, a privately held community corrections company that operates seven community corrections facilities, including six owned and one leased, with approximately 600 beds in Colorado, specializes in community correctional services, drug and alcohol treatment services, and residential reentry services. CMI provides these services through multiple contracts with three counties in Colorado, as well as the Colorado Department of Corrections, a pre-existing partner of ours. We acquired CMI as a strategic investment that continues to expand the reentry assets we own and the services we provide. We currently expect the annualized revenues to be generated by these seven facilities to range from approximately \$12.0 million to \$13.0 million.

Total revenue generated from the acquisitions of Avalon and CMI during 2016 totaled \$45.1 million.

Managed-Only Facilities

Total revenue at our managed-only facilities decreased \$6.6 million, from \$212.0 million in 2015 to \$205.4 million in 2016. The decrease in revenues at our managed-only facilities was largely the result of our decision to exit the contract at the Winn Correctional Center effective September 30, 2015. Facility net operating income at our managed-only facilities decreased

Table of Contents

\$0.2 million, from \$22.0 million during the year ended December 31, 2015 to \$21.8 million during the year ended December 31, 2016. During 2016 and 2015, managed-only facilities generated 3.9% and 4.2%, respectively, of our total facility net operating income.

We expect the managed-only business to remain competitive and we will only pursue opportunities for managed-only business where we are sufficiently compensated for the risk associated with this competitive business. Further, we may terminate existing contracts from time to time when we are unable to achieve per diem increases that offset increasing expenses and enable us to maintain safe, effective operations. In April 2015, we provided notice to the state of Louisiana that we would cease management of the contract at the 1,538-bed Winn Correctional Center within 180 days, in accordance with the notice provisions of the contract. Management of the facility transitioned to another operator effective September 30, 2015. We incurred a facility net operating loss at the Winn Correctional Center of \$3.9 million during the time the facility was active in 2015. In anticipation of terminating the contract at this facility, we also recorded an asset impairment of \$1.0 million during the first quarter of 2015 for the write-off of goodwill associated with the Winn facility.

Other Facility-Related Activity

On August 27, 2015, we acquired four community corrections facilities from a privately held owner of community corrections facilities and other government leased assets. The four acquired community corrections facilities have a capacity of approximately 600 beds and are leased to Community Education Centers, Inc., or CEC, under triple net lease agreements that extend through July 2019 and include multiple five-year lease extension options. CEC separately contracts with the Pennsylvania Department of Corrections and the Philadelphia Prison System to provide rehabilitative and reentry services to residents and inmates at the leased facilities. We acquired the four facilities in the real estate-only transaction as a strategic investment that expands our investment in residential reentry facilities.

In May 2016, we entered into a lease with the ODOC for our previously idled 2,400-bed North Fork Correctional Facility. The lease agreement commenced on July 1, 2016, and includes a five-year base term with unlimited two-year renewal options. However, the lease agreement permitted the ODOC to utilize the facility for certain activation activities and, therefore, revenue recognition began upon execution of the lease. The average annual rent to be recognized during the five-year base term is \$7.3 million, including annual rent in the fifth year of \$12.0 million. After the five-year base term, the annual rent will be equal to the rent due during the prior lease year, adjusted for increases in the Consumer Price Index, or CPI. We are responsible for repairs and maintenance, property taxes and property insurance, while all other aspects and costs of facility operations are the responsibility of the ODOC.

On June 10, 2016, we acquired a residential reentry facility in Long Beach, California from a privately held owner. The 112-bed facility is leased to CEC under a triple net lease agreement that extends through June 2020 and includes one five-year lease extension option. CEC separately contracts with the CDCR to provide rehabilitative and reentry services to residents at the leased facility. We acquired the facility in the real estate only transaction as a strategic investment that further expands our investment in residential reentry facilities.

General and administrative expense

For the years ended December 31, 2016 and 2015, general and administrative expenses totaled \$107.0 million and \$103.9 million, respectively. General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. We incurred \$1.6 million and \$3.6 million of expenses in the years ended December 31, 2016 and 2015, respectively, associated with mergers and acquisitions.

Table of Contents

As we pursue additional mergers and acquisitions, we could incur significant general and administrative expenses in the future associated with our due diligence efforts, whether or not such transactions are completed. These expenses could create volatility in our earnings. However, notwithstanding these expenses, we currently expect general and administrative expenses to decrease in the future as a result of a cost reduction plan we implemented at the end of the third quarter of 2016 as part of a restructuring of our corporate operations, as described hereafter.

Depreciation and Amortization

For the years ended December 31, 2016 and 2015, depreciation and amortization expense totaled \$166.7 million and \$151.5 million, respectively. Our depreciation and amortization expense increased as a result of completion of construction of the 2,400-bed South Texas Family Residential Center in the second quarter of 2015. Prior to the second quarter of 2015, residents had been housed in pre-existing housing units on the property. Our lease agreement with the third-party lessor resulted in our being deemed the owner of the newly constructed assets for accounting purposes, in accordance with ASC 840-40-55, formerly Emerging Issues Task Force No. 97-10, *The Effect of Lessee Involvement in Asset Construction*. Accordingly, our balance sheet reflects the costs attributable to the building assets constructed by the third-party lessor, which, beginning in the second quarter of 2015, began depreciating over the remainder of the four-year term of the original lease. Depreciation expense for the constructed assets at this facility was \$38.7 million and \$29.9 million during the years ended December 31, 2016 and 2015, respectively. As previously described herein, we modified our lease agreement with the third-party lessor of the facility in October 2016, which resulted in a reduced monthly lease rate effective in November 2016 and extended the term of the contract. As a result of the lease modification, depreciation expense for the constructed assets at the South Texas Family Residential Center is expected to decline in 2017 to approximately \$16.6 million. Depreciation expense also increased in 2016 due to the completion of the Trousdale Turner Correctional Center construction project in the fourth quarter of 2015.

Restructuring charges

During the third quarter of 2016, we announced a restructuring of our corporate operations and implementation of a cost reduction plan, resulting in the elimination of approximately 12% of the corporate workforce at our headquarters. The restructuring realigns the corporate structure to more effectively serve facility operations and support the progression of our business diversification strategy. We reported a charge in the third quarter of 2016 of \$4.0 million associated with this restructuring. This charge primarily consists of cash payments for severance and related benefits to terminated employees and a non-cash charge associated with the voluntary forfeiture by our chief executive officer of a restricted stock unit award. The impact of these staffing reductions, together with the implementation of the cost reduction plan, are expected to result in annual expense savings of approximately \$9.0 million, most of which are general and administrative expenses. A substantial portion of these expense savings commenced in the fourth quarter of 2016.

Interest expense, net

Interest expense was reported net of interest income and capitalized interest for the years ended December 31, 2016 and 2015. Gross interest expense, net of capitalized interest, was \$68.9 million and \$51.8 million for 2016 and 2015, respectively. Gross interest expense is based on outstanding borrowings under our \$900.0 million revolving credit facility, or revolving credit facility, our outstanding Incremental Term Loan, or Term Loan, and our outstanding senior notes, as well as the amortization of loan costs and unused facility fees.

Table of Contents

We also incur interest expense associated with the lease of the South Texas Family Residential Center, in accordance with ASC 840-40-55. Our interest expense increased in 2016 as a result of completion of construction of the 2,400-bed South Texas Family Residential Center in the second quarter of 2015. Interest expense associated with the lease of this facility was \$10.0 million and \$8.5 million during the years ended December 31, 2016 and 2015, respectively. As previously described herein, we modified our lease agreement with the third-party lessor of the facility in October 2016, which resulted in a reduced monthly lease rate effective in November 2016 and extended the term of the contract. As a result of the lease modification, interest expense associated with the lease of the South Texas Family Residential Center is expected to decline in 2017 to approximately \$6.4 million.

We have benefited from relatively low interest rates on our revolving credit facility, which is largely based on the London Interbank Offered Rate, or LIBOR. It is possible that LIBOR could increase in the future. The interest rate on our revolving credit facility was at LIBOR plus a margin of 1.75% during the first six months of 2015. During July 2015, we amended and restated the revolving credit facility agreement to, among other modifications, reduce by 0.25% the applicable margin of base rate and LIBOR loans. Based on our leverage ratio, loans under our revolving credit facility during the last six months of 2015 and during 2016 were at the base rate plus a margin of 0.50% or at LIBOR plus a margin of 1.50%, and a commitment fee equal to 0.35% of the unfunded balance.

In October 2015, we obtained \$100.0 million under a Term Loan under the accordion feature of our revolving credit facility. Interest rates under the Term Loan are the same as the interest rates under our revolving credit facility, except that the interest rate on the Term Loan was at a base rate plus a margin of 0.50% or at LIBOR plus a margin of 1.75% during the first two fiscal quarters following closing of the Term Loan. We used net proceeds from the Term Loan to pay down a portion of our revolving credit facility. The Term Loan has a maturity of July 2020, with scheduled principal payments in years 2016 through 2020.

On September 25, 2015, we completed the offering of \$250.0 million aggregate principal amount of 5.0% senior notes due October 15, 2022. We used net proceeds from the offering to pay down a portion of our revolving credit facility which had a variable weighted average interest rate of 2.2% at December 31, 2016. While our interest expense increased during the year ended December 31, 2016 compared with the prior year as a result of this refinancing transaction completed in 2015, we reduced our exposure to variable rate debt, extended our weighted average maturity, and increased the availability under our revolving credit facility.

Gross interest income was \$1.1 million and \$2.1 million for the years ended December 31, 2016 and 2015, respectively. Gross interest income is earned on a direct financing lease, notes receivable, investments, and cash and cash equivalents. Capitalized interest was \$0.6 million and \$5.5 million during the years ended December 31, 2016 and 2015, respectively. Capitalized interest decreased as a result of the completion of the Otay Mesa Detention Center and the Trowsdale Turner Correctional Center construction projects in the fourth quarter of 2015. Capitalized interest in 2016 was primarily associated with the expansion project at our Red Rock Correctional Center, as further described under *Liquidity and Capital Resources* hereafter.

Income tax expense

During the years ended December 31, 2016 and 2015, our financial statements reflected an income tax expense of \$8.3 million and \$8.4 million, respectively. Our effective tax rate was 3.6% during both the years ended December 31, 2016 and 2015. As a REIT, we are entitled to a deduction for dividends paid, resulting in a substantial reduction in the amount of federal income tax expense we recognize. Substantially all of our income tax expense is incurred

Table of Contents

based on the earnings generated by our TRSs. Our overall effective tax rate is estimated based on the current projection of taxable income primarily generated in our TRSs. Our consolidated effective tax rate could fluctuate in the future based on changes in estimates of taxable income, the relative amounts of taxable income generated by the TRSs and the REIT, the implementation of additional tax planning strategies, changes in federal or state tax rates or laws affecting tax credits available to us, changes in other tax laws, changes in estimates related to uncertain tax positions, or changes in state apportionment factors, as well as changes in the valuation allowance applied to our deferred tax assets that are based primarily on the amount of state net operating losses and tax credits that could expire unused.

Year Ended December 31, 2015 Compared to the Year Ended December 31, 2014

During the year ended December 31, 2015, we generated net income of \$221.9 million, or \$1.88 per diluted share, compared with net income of \$195.0 million, or \$1.66 per diluted share, for the previous year. Net income was negatively impacted during 2014 by \$30.0 million of asset impairments, net of taxes, or \$0.26 per diluted share, at the Houston Educational Facility, Queensgate Correctional Facility, and Mineral Wells Pre-Parole Transfer Facility. The asset impairments were recorded in the fourth quarter of 2014.

Facility Operations

Revenue and expenses per compensated man-day for all of the facilities placed into service that we owned or managed, exclusive of those held for lease, were as follows for the years ended December 31, 2015 and 2014:

| | For the Years Ended December 31, | |
|---|-------------------------------------|----------|
| | 2015 | 2014 |
| Revenue per compensated man-day | \$ 72.76 | \$ 63.54 |
| Operating expenses per compensated man-day: | | |
| Fixed expense | 37.53 | 33.06 |
| Variable expense | 14.96 | 11.60 |
| Total | 52.49 | 44.66 |
| Operating income per compensated man-day | \$ 20.27 | \$ 18.88 |
| Operating margin | 27.9% | 29.7% |
| Average compensated occupancy | 82.5% | 83.8% |
| Average available beds | 80,121 | 82,942 |
| Average compensated population | 66,111 | 69,536 |

Fixed expenses per compensated man-day for 2015 include depreciation expense of \$29.9 million and interest expense of \$8.5 million in order to more properly reflect the cash flows associated with the lease at the South Texas Family Residential Center. The calculations of expenses per compensated man-day for 2014 exclude expenses incurred during the first six months of 2014 for start-up efforts associated with the Diamondback facility because of the distorted

impact they have on the statistics. The Diamondback expenses were incurred in connection with the activation of the facility in anticipation of a new contract. As further described hereafter, in April 2014, we made the decision to once again idle the facility in the absence of a definitive contract. The de-activation was completed near the end of the second quarter of 2014.

Table of Contents*Revenue*

Total revenue consists of revenue we generate in the operation and management of correctional, detention, and residential reentry facilities, as well as rental revenue generated from facilities we lease to third-party operators, and from our inmate transportation subsidiary. The following table reflects the components of revenue for the years ended December 31, 2015 and 2014 (in millions):

| | For the Years Ended | | | |
|---------------------------------|---------------------|------------|-----------|----------|
| | December 31, | | \$ Change | % Change |
| | 2015 | 2014 | | |
| Management revenue: | | | | |
| Federal | \$ 912.1 | \$ 728.3 | \$ 183.8 | 25.2% |
| State | 725.1 | 759.3 | (34.2) | (4.5%) |
| Local | 65.7 | 68.6 | (2.9) | (4.2%) |
| Other | 52.9 | 56.5 | (3.6) | (6.4%) |
| Total management revenue | 1,755.8 | 1,612.7 | 143.1 | 8.9% |
| Rental and other revenue | 37.3 | 34.2 | 3.1 | 9.1% |
| Total revenue | \$ 1,793.1 | \$ 1,646.9 | \$ 146.2 | 8.9% |

The \$143.1 million, or 8.9%, increase in revenue associated with the operation and management of correctional and detention facilities consisted of an increase in revenue of approximately \$222.5 million resulting from an increase of 14.5% in average revenue per compensated man-day, partially offset by a decrease in revenue of approximately \$79.4 million caused by a decrease in the average daily compensated population from 2014 to 2015. Most notably, the increase in average revenue per compensated man-day was a result of the activation of the South Texas Family Residential Center in the fourth quarter of 2014, as further described hereafter. Per diem increases at several of our other facilities also contributed to the increase in average revenue per compensated man-day from 2014 to 2015. Excluding the impact of revenue at the South Texas Family Residential Center, revenue per compensated man-day increased 2.5% from 2014 to 2015.

Average daily compensated population decreased 3,425, or 4.9%, from 2014 to 2015. The decline in average compensated population primarily resulted from the expiration of our contract with the BOP at our Northeast Ohio Correctional Center effective May 31, 2015, and due to a decline in California inmates held in our out-of-state facilities, both as further described hereafter. A decline in federal populations at certain of our other facilities also contributed to the decrease in average compensated population from 2014 to 2015.

The decline in average compensated population also resulted from the expiration of our contract at the Idaho Correctional Center after the state of Idaho assumed management of the facility effective July 1, 2014. In addition, the decline in average compensated population resulted from the expiration of our managed-only contracts at the Bay Correctional Facility, Graceville Correctional Facility, and Moore Haven Correctional Facility, collectively referred to herein as the Three Florida Facilities, after the Florida Department of Management Services, or DMS, awarded the management of these contracts to another operator effective January 31, 2014. Combined, these four managed-only facilities generated facility net operating losses of \$1.9 million during the time they were active in 2014. The decline in average compensated population was also a result of the expiration of our contract with the state of Vermont at our

Lee Adjustment Center effective June 30, 2015, and the expiration of our managed-only contract with the state of Louisiana at the state-owned Winn Correctional Facility effective September 30, 2015, as further described hereafter.
The

Table of Contents

decline in average compensated population was partially offset by an increase in populations at our newly activated South Texas Family Residential Center and at our Red Rock Correctional Center, both as further described hereafter.

Our federal customers generated approximately 51% and 44% of our total revenue for the years ended December 31, 2015 and 2014, respectively, increasing \$183.8 million, or 25.2%. The increase in federal revenues primarily resulted from the activation of the South Texas Family Residential Center in the fourth quarter of 2014, as further described hereafter, and per diem increases at several of our other facilities, partially offset by a decline in federal populations at several facilities, including the BOP population at our Northeast Ohio Correctional Center, as further described hereafter.

State revenues from correctional, detention, and residential reentry facilities that we operate decreased 4.5% from 2014 to 2015. The decrease in state revenues was primarily a result of a decline in California inmates held in our out-of-state facilities, as further described hereafter. In addition, the decrease in state revenues was a result of the expiration of our contract with the state of Vermont at our Lee Adjustment Center effective June 30, 2015, and the expiration of our managed-only contract with the state of Louisiana at the state-owned Winn Correctional Facility effective September 30, 2015, as further described hereafter. The decrease in state revenues was also a result of the expiration of our contracts at the Idaho Correctional Center effective July 1, 2014 and at the Three Florida Facilities effective January 31, 2014. The decrease in state revenues was partially offset by an increase in revenue at our Red Rock Correctional Center in Arizona and as a result of the acquisition of Avalon, both as further described hereafter.

Rental and other revenue increased from 2014 to 2015 as a result of a contract adjustment in the fourth quarter of 2013 by one of our government partners. The contract adjustment resulted in an accrual of \$13.0 million of revenue and an equal accrual of operating expenses during the fourth quarter of 2013, which were revised to \$9.0 million during the first quarter of 2014, resulting in the reduction of both revenue and operating expenses by \$4.0 million in the first quarter of 2014.

Operating Expenses

Operating expenses totaled \$1,256.1 million and \$1,156.1 million for the years ended December 31, 2015 and 2014, respectively. Operating expenses consist of those expenses incurred in the operation and management of correctional, detention, and residential reentry facilities, as well as at facilities we lease to third-party operators, and for our inmate transportation subsidiary.

Expenses incurred in connection with the operation and management of correctional, detention, and residential reentry facilities increased \$91.9 million, or 8.1% during 2015 compared with 2014. Similar to our increase in revenues, operating expenses increased most notably as a result of the activation of our South Texas Family Residential Center in the fourth quarter of 2014, as further described hereafter. The additional inmate population at our Red Rock Correctional Center, as further described hereafter, the transition of operations from the San Diego Correctional Facility to the newly constructed Otay Mesa Detention Center during the fourth quarter of 2015, and the acquisition of Avalon also contributed to the increase in operating expenses. The increase in operating expenses was partially offset by a reduction in expenses resulting from the expiration of our BOP contract at our Northeast Ohio Correctional Center effective May 31, 2015, as further described hereafter, and the expiration of our contract with the state of Vermont at our Lee Adjustment Center effective June 30, 2015. In addition, the increase in operating expenses was partially offset by a reduction in expenses that resulted from idling our North Fork Correctional Facility in the

Table of Contents

fourth quarter of 2015, and by a reduction in expenses resulting from the expiration of our contracts at the managed-only Idaho Correctional Center effective July 1, 2014 and at the Three Florida Facilities effective January 31, 2014. We temporarily idled the North Fork facility as a result of a decline in California inmates held in our out-of-state program.

Fixed expenses per compensated man-day increased to \$37.53 during the year ended December 31, 2015 from \$33.06 during the year ended December 31, 2014. Fixed expenses per compensated man-day for the year ended December 31, 2015 include depreciation expense of \$29.9 million and interest expense of \$8.5 million in order to more properly reflect the cash flows associated with the lease at the South Texas Family Residential Center. In total, fixed expenses at the fully constructed 2,400-bed South Texas Family Residential Center contributed to an increase of \$2.73 per compensated man-day for the year ended December 31, 2015.

Fixed expenses per compensated man-day increased from 2014 to 2015 due to an increase in salaries and benefits per compensated man-day of \$2.42. The increase in salaries and benefits per compensated man-day resulted primarily from a higher average wage rate at our South Texas Family Residential Center, which accounted for an increase of \$1.11 per compensated man-day. The increase in salaries and benefits per compensated man-day was also due to necessary staffing required during the decline in California inmate populations, expenses associated with the termination of the contract at the Winn Correctional Center, inflationary increases, and higher employee benefits. Salaries and benefits represent the most significant component of our operating expenses, representing approximately 59% and 62% of our total operating expenses during 2015 and 2014, respectively.

Variable expenses per compensated man-day increased \$3.36 during the year ended December 31, 2015 from the year ended December 31, 2014. The increase was primarily due to expenses associated with activating our South Texas Family Residential Center, and due to an increase in other variable expenses. Variable expenses at the South Texas Family Residential Center accounted for an increase of \$2.47 per compensated man-day.

Operating expenses also increased from the year ended December 31, 2014 to the year ended December 31, 2015 as a result of the contract adjustment by one of our government partners which reduced both revenue and operating expenses by \$4.0 million in the first quarter of 2014, as previously described. In addition, operating expenses in the first quarter of 2015 included a \$3.0 million bad debt charge associated with a facility we no longer manage. Operating expenses also increased in 2015 as a result of preparing the newly constructed Trousdale Turner Correctional Center for the intake of inmate populations in the first quarter of 2016.

Table of Contents

The following tables display the revenue and expenses per compensated man-day for the facilities placed into service that we own and manage and for the facilities we manage but do not own, which we believe is useful to our financial statement users:

| | For the Years Ended December 31, | |
|---|-------------------------------------|----------|
| | 2015 | 2014 |
| Owned and Managed Facilities: | | |
| Revenue per compensated man-day | \$ 81.32 | \$ 70.55 |
| Operating expenses per compensated man-day: | | |
| Fixed expense | 40.55 | 35.25 |
| Variable expense | 16.16 | 12.09 |
| Total | 56.71 | 47.34 |
| Operating income per compensated man-day | \$ 24.61 | \$ 23.21 |
| Operating margin | 30.3% | 32.9% |
| Average compensated occupancy | 79.9% | 81.0% |
| Average available beds | 65,073 | 66,179 |
| Average compensated population | 52,007 | 53,592 |
| Managed Only Facilities: | | |
| Revenue per compensated man-day | \$ 41.18 | \$ 39.98 |
| Operating expenses per compensated man-day: | | |
| Fixed expense | 26.38 | 25.68 |
| Variable expense | 10.53 | 9.95 |
| Total | 36.91 | 35.63 |
| Operating income per compensated man-day | \$ 4.27 | \$ 4.35 |
| Operating margin | 10.4% | 10.9% |
| Average compensated occupancy | 93.7% | 95.1% |
| Average available beds | 15,048 | 16,763 |
| Average compensated population | 14,104 | 15,944 |

Owned and Managed Facilities

Facility net operating income at our owned and managed facilities increased by \$54.6 million, from \$451.1 million in 2014 to \$505.7 million in 2015, an increase of 12.1%. Facility net operating income at our owned and managed facilities for the year ended December 31, 2015 was favorably impacted by the activation of the South Texas Family Residential Center, as further described hereafter. The aforementioned \$38.4 million aggregate depreciation and interest expense associated with the lease at the South Texas Family Residential Center in the year ended December 31, 2015 is not included in the facility net operating income amounts reported above, but is included in the per compensated man-day statistics.

In September 2014, we announced that we agreed under an expansion of an IGSA between the city of Eloy, Arizona, and ICE to house up to 2,400 individuals at the South Texas Family Residential Center, a facility we lease in Dilley, Texas. We lease the South Texas Family

Table of Contents

Residential Center and the site upon which it was constructed from a third-party lessor. Our lease agreement with the lessor is over a period co-terminus with the aforementioned amended IGSA with ICE. ICE began housing the first residents at the facility in the fourth quarter of 2014, and the site was completed during the second quarter of 2015. The agreement provides for a fixed monthly payment in accordance with a graduated schedule. In accordance with the multiple-element arrangement guidance, a portion of the fixed monthly payments is recognized as lease and service revenue. During the years ended December 31, 2015 and 2014, we recognized \$244.7 million and \$21.0 million, respectively, in total revenue associated with the facility. The expanded agreement with ICE had a favorable impact on the revenue and net operating income of our owned and managed facilities during the year ended December 31, 2015.

In September 2012, we announced that we were awarded a new management contract from the ADOC to house up to 1,000 medium-security inmates at our 1,596-bed Red Rock Correctional Center in Arizona. The management contract, which commenced in January 2014, contains an initial term of ten years, with two five-year renewal options upon mutual agreement and provides an occupancy guarantee of 90% of the contracted beds, was implemented in two phases. The government partner included the occupancy guarantee in its RFP in order to guarantee its access to the beds. We received approximately 500 inmates from Arizona during the first quarter of 2014 and received approximately 500 additional inmates during the first quarter of 2015. In addition, in July 2015, we entered into a temporary agreement with the state of Arizona to house approximately 560 inmates for a period not to exceed 180 days. The temporary agreement ended in December 2015. Revenue increased by \$17.7 million from the year ended December 31, 2014 to the year ended December 31, 2015 as a result of these increases in inmate populations.

On October 13, 2015, we announced that we renewed our contract with the CDCR through June 30, 2019. The contract renewal provides for up to 6,562 beds to be made available to CDCR during the renewal term at any of our facilities. The contract includes renewal options to extend beyond the three-year term upon mutual agreement by both parties. The remaining terms and conditions of the new contract are substantially unchanged from the previous contract, which was scheduled to expire June 30, 2016.

During the first quarter of 2015, the adult inmate population held in state of California institutions met the Federal court order to reduce inmate populations below 137.5% of its capacity. Inmate populations in the state continued to decline below the court ordered capacity limit which resulted in declining inmate populations in the out-of-state program. During the years ended December 31, 2015 and 2014, we housed an average daily population of approximately 7,300 and 8,800 California inmates, respectively, in facilities outside the state as a partial solution to the State's overcrowding. This decline in population resulted in a decrease in revenue of \$33.9 million from the year ended December 31, 2014 to the year ended December 31, 2015. Approximately 10% and 12% of our total revenue for the years ended December 31, 2015 and 2014, respectively, was generated from the CDCR in facilities housing inmates outside the state of California.

During December 2014, the BOP announced that it elected not to renew its contract with us at our owned and operated 2,016-bed Northeast Ohio Correctional Center. The contract with the BOP at this facility expired on May 31, 2015. Facility net operating income decreased by \$11.8 million from the year ended December 31, 2014 to the year ended December 31, 2015 as a result of this reduction in inmate population.

During the third quarter of 2013, we began hiring staff at the Diamondback Correctional Facility in order to reactivate the facility for future operations. Our decision to activate the facility was made as a result of potential need for additional beds by certain state customers.

Table of Contents

In January 2014, the state of Oklahoma issued an RFP for bed capacity in the state of Oklahoma and anticipated that an award announcement would be made in the second quarter of 2014. When it became evident the contract would not be awarded and commence in the near-term, we made the decision to re-idle the facility. The de-activation was completed near the end of the second quarter of 2014. In the preceding table, the calculations of expenses per man-day for the year ended December 31, 2014 exclude expenses incurred during the first six months of 2014 for the Diamondback facility because of the distorted impact they have on the statistics.

During the fourth quarter of 2015, we closed on the acquisition of 100% of the stock of Avalon, along with two additional facilities operated by Avalon. Avalon, a privately held community corrections company that operates 11 community corrections facilities with approximately 3,000 beds in Oklahoma, Texas, and Wyoming, specializes in community correctional services, drug and alcohol treatment services, and residential re-entry services. Avalon provides these services for various federal, state, and local agencies, many with which we currently partner. We acquired Avalon as a strategic investment that continues to expand the reentry assets owned and services we provide.

Managed-Only Facilities

Total revenue at our managed-only facilities decreased \$20.7 million from \$232.7 million in 2014 to \$212.0 million in 2015. The decrease in revenues at our managed-only facilities was largely the result of the expiration of our contracts at the Winn Correctional Center effective September 30, 2015, the Idaho Correctional Center effective July 1, 2014, and at the Three Florida Facilities effective January 31, 2014. Revenue per compensated man-day increased to \$41.18 in 2015 from \$39.98 in 2014, or 3.0%. Operating expenses per compensated man-day increased to \$36.91 in 2015 from \$35.63 in 2014. Facility net operating income at our managed-only facilities decreased \$3.3 million from \$25.3 million during the year ended December 31, 2014 to \$22.0 million during the year ended December 31, 2015. During 2015 and 2014, managed-only facilities generated 4.2% and 5.3%, respectively, of our total facility net operating income.

During the third quarter of 2013, the state of Idaho reported that they expected to solicit bids for the management of the Idaho Correctional Center upon the expiration of our contract in June 2014. During the third quarter of 2013, we decided not to submit a bid for the continued management of this facility. The state announced in early 2014 that it would assume management of the facility effective July 1, 2014. The transition of our operations to the state of Idaho was completed successfully on July 1, 2014. This facility incurred a facility net operating loss of \$1.9 million during the time it was active in 2014.

In April 2015, we provided notice to the state of Louisiana that we would cease management of the contract at the 1,538-bed Winn Correctional Center within 180 days, in accordance with the notice provisions of the contract. Management of the facility transitioned to another operator effective September 30, 2015. We generated facility net operating income at this facility of \$0.9 million for the year ended December 31, 2014. We incurred a facility net operating loss at the Winn Correctional Center of \$3.9 million during the time the facility was active in 2015. In anticipation of terminating the contract at this facility, we also recorded an asset impairment of \$1.0 million during the first quarter of 2015 for the write-off of goodwill associated with the Winn facility.

Table of Contents***General and administrative expense***

For the years ended December 31, 2015 and 2014, general and administrative expenses totaled \$103.9 million and \$106.4 million, respectively. General and administrative expenses consist primarily of corporate management salaries and benefits, professional fees and other administrative expenses. The decrease in general and administrative expenses was primarily a result of decreased incentive compensation and professional fees, partially offset by \$3.6 million of expenses incurred during 2015 associated with mergers and acquisitions, including primarily expenses for the acquisition of Avalon, which closed in the fourth quarter of 2015.

Depreciation and Amortization

For the years ended December 31, 2015 and 2014, depreciation and amortization expense totaled \$151.5 million and \$113.9 million, respectively. Our depreciation and amortization expense increased as a result of completion of construction of the 2,400-bed South Texas Family Residential Center in the second quarter of 2015. Prior to the second quarter of 2015, residents had been housed in pre-existing housing units on the property. In accordance with ASC 840-40-55, we incurred depreciation expense for the constructed assets at this facility of \$29.9 million during the year ended December 31, 2015.

Interest expense, net

Interest expense was reported net of interest income and capitalized interest for the years ended December 31, 2015 and 2014. Gross interest expense, net of capitalized interest, was \$51.8 million and \$43.1 million for 2015 and 2014, respectively. Gross interest expense during these periods was based on outstanding borrowings under our \$900.0 million revolving credit facility, our outstanding Term Loan, and our outstanding senior notes, as well as the amortization of loan costs and unused facility fees. We also incur interest expense associated with the lease of the South Texas Family Residential Center, in accordance with ASC 840-40-55. Our interest expense increased in 2015 as a result of completion of construction of the 2,400-bed South Texas Family Residential Center in the second quarter of 2015. Interest expense associated with the lease of this facility was \$8.5 million during the year ended December 31, 2015.

We benefited from relatively low interest rates on our revolving credit facility, which is largely based on the LIBOR. The interest rate on our revolving credit facility was at LIBOR plus a margin of 1.75% during 2014 and the first six months of 2015. Based on our leverage ratio, following an amendment to our revolving credit facility executed in July 2015, loans under our revolving credit facility bore interest at the base rate plus a margin of 0.25% or at LIBOR plus a margin of 1.25%, and a commitment fee equal to 0.30% of the unfunded balance.

In October 2015, we obtained \$100.0 million under a Term Loan under the accordion feature of our revolving credit facility. Interest rates under the Term Loan are the same as the interest rates under our revolving credit facility, except that the interest rate on the Term Loan is at a base rate plus a margin of 0.50% or at LIBOR plus a margin of 1.75% during the first two fiscal quarters following closing of the Term Loan. We used net proceeds from the Term Loan to pay down a portion of our revolving credit facility. The Term Loan has a maturity of July 2020, with scheduled principal payments in years 2016 through 2020.

On September 25, 2015, we completed the offering of \$250.0 million aggregate principal amount of 5.0% senior notes due October 15, 2022. We used net proceeds from the offering to pay down a portion of our revolving credit facility which had a variable weighted average

Table of Contents

interest rate of 1.9% at December 31, 2015. While our interest expense increased during 2015 as a result of the refinancing transactions, we reduced our exposure to variable rate debt, extended our weighted average maturity, and increased the availability under our revolving credit facility.

Gross interest income was \$2.1 million and \$3.6 million for the years ended December 31, 2015 and 2014, respectively. Gross interest income is earned on a direct financing lease, notes receivable, investments, and cash and cash equivalents. Interest income generated on investments we hold in a rabbi trust were higher during the year ended December 31, 2014 compared to the same period in 2015. Capitalized interest was \$5.5 million and \$2.5 million during the years ended December 31, 2015 and 2014, respectively. Capitalized interest was associated with various construction and expansion projects.

Income tax expense

During the years ended December 31, 2015 and 2014, our financial statements reflected an income tax expense of \$8.4 million and \$6.9 million, respectively. Our effective tax rate was 3.6% and 3.4% during the years ended December 31, 2015 and 2014, respectively. As a REIT, we are entitled to a deduction for dividends paid, resulting in a substantial reduction in the amount of federal income tax expense we recognize. Substantially all of our income tax expense is incurred based on the earnings generated by our TRSs. Our overall effective tax rate is estimated based on the current projection of taxable income primarily generated in our TRSs.

LIQUIDITY AND CAPITAL RESOURCES

Our principal capital requirements are for working capital, stockholder distributions, capital expenditures, and debt service payments. Capital requirements may also include cash expenditures associated with our outstanding commitments and contingencies, as further discussed in the notes to our financial statements. Additionally, we may incur capital expenditures to expand the design capacity of certain of our facilities (in order to retain management contracts) and to increase our inmate bed capacity for anticipated demand from current and future customers. We may acquire additional correctional and residential reentry facilities as well as other real estate assets used to provide mission critical governmental services primarily in the criminal justice sector, that we believe have favorable investment returns and increase value to our stockholders. We will also consider opportunities for growth, including, but not limited to, potential acquisitions of businesses within our lines of business and those that provide complementary services, provided we believe such opportunities will broaden our market share and/or increase the services we can provide to our customers.

To qualify and be taxed as a REIT, we generally are required to distribute annually to our stockholders at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and excluding net capital gains). Our REIT taxable income will not typically include income earned by our TRSs except to the extent our TRSs pay dividends to the REIT. Our Board of Directors declared a quarterly dividend of \$0.54 for each of the first three quarters of 2016 and \$0.42 in the fourth quarter of 2016 totaling \$241.7 million. The amount, timing and frequency of future distributions will be at the sole discretion of our Board of Directors and will be declared based upon various factors, many of which are beyond our control, including our financial condition and operating cash flows, the amount required to maintain qualification and taxation as a REIT and reduce any income and excise taxes that we otherwise would be required to pay, limitations on distributions in our existing and future debt instruments, limitations on our ability to fund distributions using cash generated through our TRSs, alternative growth opportunities that require capital deployment, and other factors that our Board of Directors may deem relevant.

Table of Contents

As of December 31, 2016, our liquidity was provided by cash on hand of \$37.7 million, and \$455.9 million available under our revolving credit facility. During the years ended December 31, 2016 and 2015, we generated \$375.4 million and \$399.8 million, respectively, in cash through operating activities, and as of December 31, 2016, we had net working capital of \$26.6 million. We currently expect to be able to meet our cash expenditure requirements for the next year utilizing these resources. We have no debt maturities until April 2020.

Our cash flow is subject to the receipt of sufficient funding of and timely payment by contracting governmental entities. If the appropriate governmental agency does not receive sufficient appropriations to cover its contractual obligations, it may terminate our contract or delay or reduce payment to us. Delays in payment from our major customers or the termination of contracts from our major customers could have an adverse effect on our cash flow, financial condition and, consequently, dividend distributions to our shareholders.

Debt and equity

As of December 31, 2016, we had \$350.0 million principal amount of unsecured notes outstanding with a fixed stated interest rate of 4.625%, \$325.0 million principal amount of unsecured notes outstanding with a fixed stated interest rate of 4.125%, and \$250.0 million principal amount of unsecured notes outstanding with a fixed stated interest rate of 5.0%. In addition, we had \$95.0 million outstanding under our Term Loan with a variable interest rate of 2.3%, and \$435.0 million outstanding under our revolving credit facility with a variable weighted average interest rate of 2.2%. As of December 31, 2016, our total weighted average effective interest rate was 4.0%, while our total weighted average maturity was 4.5 years. We may also seek to issue debt or equity securities from time to time when we determine that market conditions and the opportunity to utilize the proceeds from the issuance of such securities are favorable.

On February 26, 2016, we entered into an ATM Equity Offering Sales Agreement, or ATM Agreement, with multiple sales agents. Pursuant to the ATM Agreement, we may offer and sell to or through the sales agents from time to time, shares of our common stock, par value \$0.01 per share, having an aggregate gross sales price of up to \$200.0 million. Sales, if any, of our shares of common stock will be made primarily in at-the-market offerings, as defined in Rule 415 under the Securities Act of 1933, as amended. The shares of common stock will be offered and sold pursuant to our registration statement on Form S-3 filed with the SEC on May 15, 2015, and a related prospectus supplement dated February 26, 2016. We intend to use the net proceeds from any sale of shares of our common stock to repay borrowings under our revolving credit facility (including the Term Loan under the accordion feature of the revolving credit facility) and for general corporate purposes, including to fund future acquisitions and development projects. There were no shares of our common stock sold under the ATM Agreement during the year ended December 31, 2016.

On August 19, 2016, Moody's downgraded our senior unsecured debt rating to Ba1 from Baa3. Also on August 19, 2016, S&P Global Ratings, or S&P, lowered our corporate credit and senior unsecured debt ratings to BB from BB+. Additionally, S&P lowered our revolving credit facility rating to BBB- from BBB. Both Moody's and S&P lowered our ratings as a result of the DOJ announcing its plans on August 18, 2016 to reduce the BOP's utilization of privately operated prisons. On February 7, 2012, Fitch Ratings assigned a rating of BBB- to our revolving credit facility and BB+ ratings to our unsecured debt and corporate credit.

Table of Contents***Facility development and capital expenditures***

In December 2015, we announced we were awarded a new contract from the ADOC to house up to an additional 1,000 medium-security inmates at our 1,596-bed Red Rock Correctional Center in Arizona. In connection with the new contract, we expanded our Red Rock facility to a design capacity of 2,024 beds and added additional space for inmate reentry programming. Total cost of the expansion was approximately \$37.0 million. Construction was substantially completed at December 31, 2016, although we began receiving inmates under the new contract during the third quarter of 2016.

The demand for capacity in the short-term has been affected by the budget challenges many of our government partners currently face. At the same time, these challenges impede our customers' ability to construct new prison beds of their own or update older facilities, which we believe could result in further need for private sector capacity solutions in the long-term. We intend to continue to pursue build-to-suit opportunities like our 2,552-bed Trousdale Turner Correctional Center recently constructed in Trousdale County, Tennessee, and alternative solutions like the 2,400-bed South Texas Family Residential Center whereby we identified a site and lessor to provide residential housing and administrative buildings for ICE. We also expect to continue to pursue investment opportunities and are in various stages of due diligence to complete additional transactions like the acquisitions of five residential reentry facilities in Pennsylvania and California over the past two years, and business combination transactions like the acquisitions of Avalon and CMI. The transactions that have not yet closed are subject to various customary closing conditions, and we can provide no assurance that any such transactions will ultimately be completed. We are also pursuing investment opportunities in other real estate assets used to provide mission critical governmental services primarily in the criminal justice sector. In the long-term, however, we would like to see meaningful utilization of our available capacity and better visibility from our customers before we add any additional prison capacity on a speculative basis.

Operating Activities

Our net cash provided by operating activities for the year ended December 31, 2016 was \$375.4 million compared with \$399.8 million in 2015 and \$423.6 million in 2014. Cash provided by operating activities represents our net income plus depreciation and amortization, changes in various components of working capital, and various non-cash charges. The decrease in cash provided by operating activities during 2016 was primarily due to negative fluctuations in working capital balances when compared to the same period in the prior year, including the decrease in deferred revenues associated with the South Texas Family Residential Center and routine timing differences in the payment of accounts payables, accrued salaries and wages, and other liabilities, net of the collection of accounts receivables and higher operating income.

The decrease in cash provided by operating activities during 2015 was primarily due to negative fluctuations in working capital balances when compared to the same period in the prior year, including the decrease in deferred revenues associated with the South Texas Family Residential Center and routine timing differences in the payment of accounts payables, accrued salaries and wages, and other liabilities, partially offset by an increase in operating income.

Table of Contents**Investing Activities**

Our cash flow used in investing activities was \$122.2 million for the year ended December 31, 2016 and was primarily attributable to capital expenditures of \$93.4 million, including expenditures for facility development and expansions of \$41.8 million primarily related to the aforementioned expansion project at our Red Rock Correctional Center, and \$51.6 million for facility maintenance and information technology capital expenditures. Our cash flow used in investing activities also included \$43.8 million attributable to the acquisitions of CMI and a residential reentry facility in California during the second quarter of 2016. Partially offsetting these cash outflows, we received proceeds of \$8.4 million primarily related to the sale of undeveloped land.

Our cash flow used in investing activities was \$409.3 million for the year ended December 31, 2015 and was primarily attributable to capital expenditures of \$224.3 million, including expenditures for facility development and expansions of \$164.9 million primarily related to the facility development projects at our Trowsdale and Otay Mesa facilities, and \$59.4 million for facility maintenance and information technology capital expenditures. In addition, cash flow used in investing activities during the year ended December 31, 2015 included \$34.5 million of capitalized lease payments related to the South Texas Family Residential Center. Our cash flow used in investing activities during the year ended December 31, 2015 also included \$158.4 million related to the aforementioned acquisitions of four community corrections facilities in the third quarter of 2015 and Avalon in the fourth quarter of 2015.

Our cash flow used in investing activities was \$196.9 million for the year ended December 31, 2014 and was primarily attributable to capital expenditures during the year of \$135.1 million, including expenditures for facility development and expansions of \$85.8 million and \$49.3 million for facility maintenance and information technology capital expenditures. In addition, cash flow used in investing activities included \$70.8 million of capitalized lease payments related to the South Texas Family Residential Center. Cash flow used in investing activities for the year ended December 31, 2014 was partially offset by proceeds from the sale of assets and net decreases in restricted cash and other assets.

Financing Activities

Cash flow used in financing activities was \$280.8 million for the year ended December 31, 2016 and was primarily attributable to dividend payments of \$255.5 million and \$4.0 million for the purchase and retirement of common stock that was issued in connection with equity-based compensation. In addition, cash flow used in financing activities included \$11.8 million of cash payments associated with the financing components of the lease related to the South Texas Family Residential Center, \$4.0 million of net repayments under our revolving credit facility, and \$5.0 million of scheduled principal repayments under our Term Loan.

Cash flow provided by financing activities was \$0.4 million for the year ended December 31, 2015. Cash flow used in financing activities included dividend payments of \$250.7 million and \$9.5 million for the purchase and retirement of common stock that was issued in connection with equity-based compensation. Cash flow used in financing activities for the year ended December 31, 2015 also included \$5.7 million for the payment of debt issuance and other refinancing costs associated with refinancing transactions. In addition, cash flow used in financing activities included \$6.5 million of cash payments associated with the financing components of the lease related to the South Texas Family Residential Center. These payments were offset by \$264.0 million of net proceeds from issuance of debt and principal repayments under our revolving credit facility, as well as the cash flows associated with exercising stock options, including the related income tax benefit of equity compensation, totaling \$8.2 million.

Table of Contents

Cash flow used in financing activities was \$230.2 million for the year ended December 31, 2014 and was primarily attributable to dividend payments of \$234.0 million. Additionally, cash flow used in financing activities included \$4.0 million for the purchase and retirement of common stock that was issued in connection with equity-based compensation and \$5.0 million of net payments on our revolving credit facility. These payments were partially offset by cash flows associated with exercising stock options, including the related income tax benefit of equity compensation, totaling \$13.1 million.

Funds from Operations

Funds From Operations, or FFO, is a widely accepted supplemental non-GAAP measure utilized to evaluate the operating performance of real estate companies. The National Association of Real Estate Investment Trusts, or NAREIT, defines FFO as net income computed in accordance with generally accepted accounting principles, excluding gains or losses from sales of property and extraordinary items, plus depreciation and amortization of real estate and impairment of depreciable real estate and after adjustments for unconsolidated partnerships and joint ventures calculated to reflect funds from operations on the same basis.

We believe FFO is an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting results.

We also present Normalized FFO as an additional supplemental measure as we believe it is more reflective of our core operating performance. We may make adjustments to FFO from time to time for certain other income and expenses that we consider non-recurring, infrequent or unusual, even though such items may require cash settlement, because such items do not reflect a necessary component of our ongoing operations. Even though expenses associated with mergers and acquisitions, or M&A, may be recurring, the magnitude and timing fluctuate based on the timing and scope of M&A activity, and therefore, such expenses, which are not a necessary component of our ongoing operations, may not be comparable from period to period. Normalized FFO excludes the effects of such items.

FFO and Normalized FFO are supplemental non-GAAP financial measures of real estate companies' operating performances, which do not represent cash generated from operating activities in accordance with GAAP and therefore should not be considered an alternative for net income or as a measure of liquidity. Our method of calculating FFO and Normalized FFO may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Table of Contents

Our reconciliation of net income to FFO and Normalized FFO for the years ended December 31, 2016, 2015, and 2014 is as follows (in thousands):

| | For the Years Ended December 31 | | |
|--|---------------------------------|------------|------------|
| | 2016 | 2015 | 2014 |
| FUNDS FROM OPERATIONS: | | | |
| Net income | \$ 219,919 | \$ 221,854 | \$ 195,022 |
| Depreciation of real estate assets | 94,346 | 90,219 | 85,560 |
| Impairment of real estate assets | | | 29,915 |
| Income tax benefit for special items | | | (72) |
| Funds From Operations | 314,265 | 312,073 | 310,425 |
| Expenses associated with debt refinancing transactions | | 701 | |
| Expenses associated with mergers and acquisitions | 1,586 | 3,643 | |
| Gain on settlement of contingent consideration | (2,000) | | |
| Restructuring charges | 4,010 | | |
| Goodwill and other impairments | | 955 | 167 |
| Income tax benefit for special items | (215) | (26) | (48) |
| Normalized Funds From Operations | \$ 317,646 | \$ 317,346 | \$ 310,544 |

Contractual Obligations

The following schedule summarizes our contractual obligations by the indicated period as of December 31, 2016 (in thousands):

| | Payments Due By Year Ended December 31, | | | | | | |
|---|---|------------|------------|------------|-----------|------------|--------------|
| | 2017 | 2018 | 2019 | 2020 | 2021 | Thereafter | Total |
| Long-term debt | \$ 10,000 | \$ 10,000 | \$ 15,000 | \$ 820,000 | \$ | \$ 600,000 | \$ 1,455,000 |
| Interest on senior notes | 42,094 | 42,094 | 42,094 | 35,390 | 28,688 | 36,781 | 227,141 |
| Contractual facility developments and other commitments | 9,143 | | | | | | 9,143 |
| South Texas Family Residential Center | 50,808 | 50,808 | 50,808 | 50,947 | 38,976 | | 242,347 |
| Operating leases | 589 | 605 | 615 | 563 | 574 | 290 | 3,236 |
| Total contractual cash obligations | \$ 112,634 | \$ 103,507 | \$ 108,517 | \$ 906,900 | \$ 68,238 | \$ 637,071 | \$ 1,936,867 |

The cash obligations in the table above do not include future cash obligations for variable interest expense associated with our Term Loan or the balance on our outstanding revolving credit facility as projections would be based on future outstanding balances as well as future variable interest rates, and we are unable to make reliable estimates of either.

Further, the cash obligations in the table above also do not include future cash obligations for uncertain tax positions as we are unable to make reliable estimates of the timing of such payments, if any, to the taxing authorities. The contractual facility developments included in the table above represent development projects for which we have already entered into a contract with a customer that obligates us to complete the development project. Certain of our other ongoing construction projects are not currently under contract and thus are not included as a contractual obligation above as we may generally suspend or terminate such projects without substantial penalty. With respect to the South Texas Family Residential Center, the cash obligations included in the table above reflect the full contractual obligations of the lease of the site, excluding contingent payments, even though the lease agreement provides us with the ability to terminate if ICE terminates the amended IGSA, as previously described herein.

Table of Contents

We had \$9.1 million of letters of credit outstanding at December 31, 2016 primarily to support our requirement to repay fees and claims under our self-insured workers' compensation plan in the event we do not repay the fees and claims due in accordance with the terms of the plan. The letters of credit are renewable annually. We did not have any draws under any outstanding letters of credit during 2016, 2015, or 2014.

INFLATION

Many of our management contracts include provisions for inflationary indexing, which mitigates an adverse impact of inflation on net income. However, a substantial increase in personnel costs, workers' compensation or food and medical expenses could have an adverse impact on our results of operations in the future to the extent that these expenses increase at a faster pace than the per diem or fixed rates we receive for our management services. We outsource our food service operations to a third party. The contract with our outsourced food service vendor contains certain protections against increases in food costs.

SEASONALITY AND QUARTERLY RESULTS

Our business is subject to seasonal fluctuations. Because we are generally compensated for operating and managing facilities at an inmate per diem rate, our financial results are impacted by the number of calendar days in a fiscal quarter. Our fiscal year follows the calendar year and therefore, our daily profits for the third and fourth quarters include two more days than the first quarter (except in leap years) and one more day than the second quarter. Further, salaries and benefits represent the most significant component of operating expenses. Significant portions of the Company's unemployment taxes are recognized during the first quarter, when base wage rates reset for unemployment tax purposes. Finally, quarterly results are affected by government funding initiatives, the timing of the opening of new facilities, or the commencement of new management contracts and related start-up expenses which may mitigate or exacerbate the impact of other seasonal influences. Because of these seasonality factors, results for any quarter are not necessarily indicative of the results that may be achieved for the full fiscal year.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Our primary market risk exposure is to changes in U.S. interest rates. We are exposed to market risk related to our revolving credit facility and Term Loan because the interest rates on our revolving credit facility and Term Loan are subject to fluctuations in the market. If the interest rate for our outstanding indebtedness under the revolving credit facility and Term Loan was 100 basis points higher or lower during the years ended December 31, 2016, 2015, and 2014, our interest expense, net of amounts capitalized, would have been increased or decreased by \$5.7 million, \$5.9 million, and \$5.7 million, respectively.

As of December 31, 2016, we had outstanding \$325.0 million of senior notes due 2020 with a fixed interest rate of 4.125%, \$350.0 million of senior notes due 2023 with a fixed interest rate of 4.625%, and \$250.0 million of senior notes due 2022 with a fixed interest rate of 5.0%. Because the interest rates with respect to these instruments are fixed, a hypothetical 100 basis point increase or decrease in market interest rates would not have a material impact on our financial statements.

We may, from time to time, invest our cash in a variety of short-term financial instruments. These instruments generally consist of highly liquid investments with original maturities at the date of purchase of three months or less. While these investments are subject to interest rate risk and will decline in value if market interest rates increase, a hypothetical 100 basis

Table of Contents

point increase or decrease in market interest rates would not materially affect the value of these instruments. See the risk factor discussion captioned *Rising interest rates would increase the cost of our variable rate debt* under Item 1A of this Annual Report on Form 10-K for more discussion on interest rate risks that may affect our financial condition.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The financial statements and supplementary data required by Regulation S-X are included in this Annual Report on Form 10-K commencing on Page F-1.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Management's Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of our senior management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act as of the end of the period covered by this Annual Report. Based on that evaluation, our officers, including our Chief Executive Officer and Chief Financial Officer, concluded that as of the end of the period covered by this Annual Report our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures

of the Company are being made only in accordance with authorizations of management and directors of the Company; and

- (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2016. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework released in 2013. Based on this assessment, management believes that, as of December 31, 2016, the Company's internal control over financial reporting was effective.

The Company's independent registered public accounting firm, Ernst & Young LLP, has issued an attestation report on the Company's internal control over financial reporting. That report begins on page 93.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the fourth fiscal quarter of 2016 that have materially affected, or are likely to materially affect, our internal control over financial reporting.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of CoreCivic, Inc. and Subsidiaries

We have audited CoreCivic, Inc. (formerly Corrections Corporation of America) and Subsidiaries' internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). CoreCivic, Inc. and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, CoreCivic, Inc. and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on the COSO criteria.

Table of Contents

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of CoreCivic, Inc. and Subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2016, of CoreCivic, Inc. and Subsidiaries and our report dated February 23, 2017 expressed an unqualified opinion thereon. Our audits also included the financial statement schedule listed in the Index at Item 15(2).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders of

CoreCivic, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheets of CoreCivic, Inc. (formerly Corrections Corporation of America) and Subsidiaries as of December 31, 2016 and 2015, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2016. Our audits also included the financial statement schedule listed in the Index at Item 15(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of CoreCivic, Inc. and Subsidiaries at December 31, 2016 and 2015, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), CoreCivic, Inc. and Subsidiaries' internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 23, 2017, expressed an unqualified opinion thereon.

Table of Contents

CORECIVIC, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2016, 2015 AND 2014

1. ORGANIZATION AND OPERATIONS

CoreCivic, Inc. (together with its subsidiaries, the Company or CoreCivic) is the nation's largest owner of partnership correctional, detention, and residential reentry facilities and one of the largest prison operators in the United States. As of December 31, 2016, CoreCivic owned or controlled 49 correctional and detention facilities, owned or controlled 25 residential reentry facilities, and managed an additional 11 correctional and detention facilities owned by its government partners, with a total design capacity of approximately 89,700 beds in 20 states and the District of Columbia. In addition to providing fundamental residential services, CoreCivic's facilities offer a variety of rehabilitation and educational programs, including basic education, faith-based services, life skills and employment training, and substance abuse treatment. These services are intended to help reduce recidivism and to prepare offenders for their successful reentry into society upon their release. CoreCivic also provides or makes available to offenders certain health care (including medical, dental, and mental health services), food services, and work and recreational programs.

Over the past several years, the Company has successfully executed strategies to diversify its business and offer a broader range of solutions to government partners. To reflect this transformation, management announced in October 2016, its decision to rename and rebrand the Company from Corrections Corporation of America to CoreCivic. The decision to rename the Company was the result of an intense research, brand strategy, and creative process that began in mid-2015. While the Company was legally renamed in December 2016, related rebranding efforts are ongoing. Through three business offerings, CoreCivic Safety, CoreCivic Properties, and CoreCivic Community, the Company provides a broad range of solutions to government partners that serve the public good through high-quality corrections and detention management, innovative and cost-saving government real estate solutions, and a growing network of residential reentry centers to help address America's recidivism crisis.

CoreCivic began operating as a real estate investment trust (REIT) for federal income tax purposes effective January 1, 2013. The Company provides correctional services and conducts other business activities through taxable REIT subsidiaries (TRSs). A TRS is a subsidiary of a REIT that is subject to applicable corporate income tax and certain qualification requirements. The Company's use of TRSs enables CoreCivic to comply with REIT qualification requirements while providing correctional services at facilities it owns and at facilities owned by its government partners and to engage in certain other business operations. A TRS is not subject to the distribution requirements applicable to REITs so it may retain income generated by its operations for reinvestment.

Table of Contents**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****Basis of Presentation**

The consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles and include the accounts of CoreCivic on a consolidated basis with its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

CoreCivic considers all liquid debt instruments with a maturity of three months or less at the time of purchase to be cash equivalents.

Accounts Receivable and Allowance for Doubtful Accounts

At December 31, 2016 and 2015, accounts receivable of \$229.9 million and \$234.5 million were net of allowances for doubtful accounts totaling \$1.6 million and \$0.5 million, respectively. Accounts receivable consist primarily of amounts due from federal, state, and local government agencies for the utilization of CoreCivic's correctional, detention, and residential reentry facilities, as well as for operating and managing such facilities.

Accounts receivable are stated at estimated net realizable value. CoreCivic recognizes allowances for doubtful accounts to ensure receivables are not overstated due to uncollectibility. Bad debt reserves are maintained for customers based on a variety of factors, including the length of time receivables are past due, significant one-time events, and historical experience. If circumstances related to customers change, estimates of the recoverability of receivables would be further adjusted.

Property and Equipment

Property and equipment are carried at cost. Assets acquired by CoreCivic in conjunction with acquisitions are recorded at estimated fair market value at the time of purchase. Betterments, renewals and significant repairs that extend the life of an asset are capitalized; other repair and maintenance costs are expensed. Interest is capitalized to the asset to which it relates in connection with the construction or expansion of facilities. Construction costs directly associated with the development of a correctional facility are capitalized as part of the cost of the development project. Such costs are written-off to general and administrative expense whenever a project is abandoned. The cost and accumulated depreciation applicable to assets retired are removed from the accounts and the gain or loss on disposition is recognized in income. Depreciation is computed over the estimated useful lives of depreciable assets using the straight-line method. Useful lives for property and equipment are as follows:

| | | |
|-------------------------------|---|----------|
| Land improvements | 5 | 20 years |
| Buildings and improvements | 5 | 50 years |
| Equipment and software | 3 | 10 years |
| Office furniture and fixtures | | 5 years |

Table of Contents

Accounting for the Impairment of Long-Lived Assets Other Than Goodwill

Long-lived assets other than goodwill are reviewed for impairment when circumstances indicate the carrying value of an asset may not be recoverable. When circumstances indicate an asset may not be recoverable, impairment is recognized when the estimated undiscounted cash flows associated with the asset or group of assets is less than their carrying value. If impairment exists, an adjustment is made to write the asset down to its fair value, and a loss is recorded as the difference between the carrying value and fair value. Fair values are determined based on quoted market values, comparable sales data, discounted cash flows or internal and external appraisals, as applicable.

Goodwill

Goodwill represents the cost in excess of the net assets of businesses acquired. As further discussed in Note 3, goodwill is tested for impairment at least annually using a fair-value based approach.

Investment in Direct Financing Lease

Investment in direct financing lease represents the portion of CoreCivic's management contract with a governmental agency that represents lease payments on buildings and equipment. The lease is accounted for using the financing method and, accordingly, the minimum lease payments to be received over the term of the lease less unearned income are capitalized as CoreCivic's investment in the lease. Unearned income is recognized as income over the term of the lease using the interest method.

Investment in Affiliates

Investments in affiliates that are equal to or less than 50%-owned over which CoreCivic can exercise significant influence are accounted for using the equity method of accounting. Investments under the equity method are recorded at cost and subsequently adjusted for contributions, distributions, and net income attributable to the Company's ownership based on the governing agreement.

Debt Issuance Costs

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, Interest Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs . The new standard was further amended by ASU 2015 15 issued in August 2015. Under the standard, debt issuance costs, excluding those costs incurred related to revolving credit facilities, are to be presented as a direct deduction from the face amount of the related liability, rather than as a deferred charge, or asset, on the balance sheet as previously required. For public reporting entities such as CoreCivic, the new standard was effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption of the new standard was permitted and retrospective application was required. CoreCivic elected to early adopt the new standard in the fourth quarter of 2015.

Debt issuance costs are capitalized and amortized into interest expense using the interest method, or on a straight-line basis over the term of the related debt, if not materially different than the interest method. However, certain debt issuance costs incurred in connection with debt refinancings are charged to expense in accordance with Accounting Standards Codification (ASC) 470-50, Modifications and Extinguishments .

Table of Contents**Revenue Recognition**

CoreCivic maintains contracts with certain governmental entities to manage their facilities for fixed per diem rates. CoreCivic also maintains contracts with various federal, state, and local governmental entities for the housing of offenders in company-owned facilities at fixed per diem rates or monthly fixed rates. These contracts usually contain expiration dates with renewal options ranging from annual to multi-year renewals. Most of these contracts have current terms that require renewal every two to five years. Additionally, most facility management contracts contain clauses that allow the government agency to terminate a contract without cause, and are generally subject to legislative appropriations. CoreCivic generally expects to renew these contracts for periods consistent with the remaining renewal options allowed by the contracts or other reasonable extensions; however, no assurance can be given that such renewals will be obtained. Fixed monthly rate revenue is recorded in the month earned and fixed per diem revenue, including revenue under those contracts that include guaranteed minimum populations, is recorded based on the per diem rate multiplied by the number of offenders housed or guaranteed during the respective period.

CoreCivic recognizes any additional management service revenues upon completion of services provided to the customer. Certain of the government agencies also have the authority to audit and investigate CoreCivic's contracts with them. If the agency determines that CoreCivic has improperly allocated costs to a specific contract or otherwise was unable to perform certain contractual services, CoreCivic may not be reimbursed for those costs and could be required to refund the amount of any such costs that have been reimbursed.

Rental revenue is recognized in accordance with ASC 840, *Leases*. In accordance with ASC 840, minimum rental revenue is recognized on a straight-line basis over the term of the related lease. Leasehold incentives are recognized as a reduction to rental revenue on a straight-line basis over the term of the related lease. Rental revenue associated with expense reimbursements from tenants is recognized in the period that the related expenses are incurred based upon the tenant lease provision.

In September 2014, CoreCivic agreed under an expansion of an existing inter-governmental service agreement (*IGSA*) between the city of Eloy, Arizona and U.S. Immigration and Customs Enforcement (*ICE*) to provide residential space and services at the South Texas Family Residential Center. The IGSA was further amended in October 2016, as described in Note 5. The IGSA qualifies as a multiple-element arrangement under the guidance in ASC 605, *Revenue Recognition*. CoreCivic evaluates each deliverable in an arrangement to determine whether it represents a separate unit of accounting. A deliverable constitutes a separate unit of accounting when it has standalone value to the customer. ASC 605 requires revenue to be allocated to each unit of accounting based on a selling price hierarchy. The selling price for a deliverable is based on its vendor specific objective evidence (*VSOE*) of selling price, if available, third-party evidence (*TPE*) if VSOE of selling price is not available, or estimated selling price (*ESP*) if neither VSOE of selling price nor TPE is available. CoreCivic establishes VSOE of selling price using the price charged for a deliverable when sold separately. CoreCivic establishes TPE of selling price by evaluating similar products or services in standalone sales to similarly situated customers. CoreCivic establishes ESP based on management judgment considering internal factors such as margin objectives, pricing practices and controls, and market conditions. In arrangements with multiple elements, CoreCivic allocates the transaction price to the individual units of accounting at inception of the arrangement based on their relative selling price.

Other revenue consists primarily of ancillary revenues associated with operating correctional, detention and residential reentry facilities, such as commissary, phone, and vending sales, and are

Table of Contents

recorded in the period the goods and services are provided. Revenues generated from prisoner transportation services for governmental agencies are recorded in the period the inmates have been transported to their destination.

Self-Funded Insurance Reserves

CoreCivic is significantly self-insured for employee health, workers' compensation, automobile liability claims, and general liability claims. As such, CoreCivic's insurance expense is largely dependent on claims experience and CoreCivic's ability to control its claims experience. CoreCivic has consistently accrued the estimated liability for employee health insurance based on its history of claims experience and time lag between the incident date and the date the cost is paid by CoreCivic. CoreCivic has accrued the estimated liability for workers' compensation claims based on an actuarially determined liability, discounted to the net present value of the outstanding liabilities, using a combination of actuarial methods used to project ultimate losses, and the Company's automobile insurance claims based on estimated development factors on claims incurred. The liability for employee health, workers' compensation, and automobile insurance includes estimates for both claims incurred and for claims incurred but not reported. CoreCivic records litigation reserves related to general liability matters for which it is probable that a loss has been incurred and the range of such loss can be estimated. These estimates could change in the future.

Income Taxes

CoreCivic began operating as a REIT for federal income tax purposes effective January 1, 2013. As a REIT, the Company generally is not subject to corporate level federal income tax on taxable income it distributes to its stockholders as long as it meets the organizational and operational requirements under the REIT rules. However, certain subsidiaries have made an election with the Company to be treated as TRSs in conjunction with the Company's REIT election. The TRS elections permit CoreCivic to engage in certain business activities in which the REIT may not engage directly, so long as these activities are conducted in entities that elect to be treated as TRSs under the Internal Revenue Code. A TRS is subject to federal and state income taxes on the income from these activities and therefore, CoreCivic includes a provision for taxes in its consolidated financial statements.

Income taxes are accounted for under the provisions of ASC 740, *Income Taxes*. ASC 740 generally requires CoreCivic to record deferred income taxes for the tax effect of differences between book and tax bases of its assets and liabilities. Deferred income taxes reflect the available net operating losses and the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the statement of operations in the period that includes the enactment date. Realization of the future tax benefits related to deferred tax assets is dependent on many factors, including CoreCivic's past earnings history, expected future earnings, the character and jurisdiction of such earnings, unsettled circumstances that, if unfavorably resolved, would adversely affect utilization of its deferred tax assets, carryback and carryforward periods, and tax strategies that could potentially enhance the likelihood of realization of a deferred tax asset.

In November 2015, the FASB issued ASU 2015-17, *Balance Sheet Classification of Deferred Taxes*, which requires that all deferred tax assets and liabilities be classified as non-current on the balance sheet rather than separating deferred taxes into current and non-current amounts, as previously required. For public reporting entities such as CoreCivic, the new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016.

Table of Contents

Early adoption of the new standard is permitted and the guidance may be adopted on either a prospective or retrospective basis. CoreCivic elected to early adopt ASU 2015-17 in the fourth quarter of 2015 and to apply the new standard retrospectively. See Note 11 for further discussion of the significant components of CoreCivic's deferred tax assets and liabilities.

Income tax contingencies are accounted for under the provisions of ASC 740. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The guidance prescribed in ASC 740 establishes a recognition threshold of more likely than not that a tax position will be sustained upon examination. The measurement attribute requires that a tax position be measured at the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement.

Foreign Currency Transactions

CoreCivic has extended a working capital loan to Agecroft Prison Management, Ltd. (APM), the operator of a correctional facility in Salford, England previously owned by a subsidiary of CoreCivic. The working capital loan is denominated in British pounds; consequently, CoreCivic adjusts these receivables to the current exchange rate at each balance sheet date and recognizes the unrealized currency gain or loss in current period earnings. See Note 7 for further discussion of CoreCivic's relationship with APM.

Fair Value of Financial Instruments

To meet the reporting requirements of ASC 825, *Financial Instruments*, regarding fair value of financial instruments, CoreCivic calculates the estimated fair value of financial instruments using market interest rates, quoted market prices of similar instruments, or discounted cash flow techniques with observable Level 1 inputs for publicly traded debt and Level 2 inputs for all other financial instruments, as defined in ASC 820, *Fair Value Measurement*. At December 31, 2016 and 2015, there were no material differences between the carrying amounts and the estimated fair values of CoreCivic's financial instruments, other than as follows (in thousands):

| | December 31, | | | |
|--------------------------------------|----------------------------|-------------------|----------------------------|-------------------|
| | 2016 | | 2015 | |
| | Carrying Amount | Fair Value | Carrying Amount | Fair Value |
| Investment in direct financing lease | \$ 684 | \$ 694 | \$ 3,223 | \$ 3,408 |
| Note receivable from APM | \$ 2,920 | \$ 4,647 | \$ 3,504 | \$ 5,864 |
| Debt | \$ (1,455,000) | \$ (1,459,625) | \$ (1,464,000) | \$ (1,452,719) |

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and those differences could be material.

Table of Contents**Concentration of Credit Risks**

CoreCivic's credit risks relate primarily to cash and cash equivalents, restricted cash, accounts receivable, and an investment in a direct financing lease. Cash and cash equivalents and restricted cash are primarily held in bank accounts and overnight investments. CoreCivic maintains deposits of cash in excess of federally insured limits with certain financial institutions. CoreCivic's accounts receivable and investment in direct financing lease represent amounts due primarily from governmental agencies. CoreCivic's financial instruments are subject to the possibility of loss in carrying value as a result of either the failure of other parties to perform according to their contractual obligations or changes in market prices that make the instruments less valuable.

CoreCivic derives its revenues primarily from amounts earned under federal, state, and local government contracts. For each of the years ended December 31, 2016, 2015, and 2014, federal correctional and detention authorities represented 52%, 51%, and 44%, respectively, of CoreCivic's total revenue. Federal correctional and detention authorities consist primarily of the Federal Bureau of Prisons (BOP), the United States Marshals Service (USMS), and ICE. The BOP accounted for 9%, 11%, and 13% of total revenue for 2016, 2015, and 2014, respectively. The USMS accounted for 15%, 16%, and 17% of total revenue for 2016, 2015, and 2014, respectively. ICE accounted for 28%, 24%, and 13% of total revenue for 2016, 2015, and 2014, respectively, with the increases in 2016 and 2015 resulting in part from the contract at the South Texas Family Residential Center, as further described in Note 5. These federal customers have management contracts at facilities CoreCivic owns and at facilities CoreCivic manages but does not own. State revenues from contracts at correctional, detention, and residential reentry facilities that CoreCivic operates represented 38%, 40%, and 46% of total revenue during the years ended December 31, 2016, 2015, and 2014, respectively. Approximately 6%, 10%, and 12% of total revenue for the years ended December 31, 2016, 2015, and 2014, respectively, was generated from the State of California Department of Corrections and Rehabilitation (the CDCR) in facilities housing inmates outside the state of California. No other customer generated more than 10% of total revenue during 2016, 2015, or 2014. Although the revenue generated from each of these agencies is derived from numerous management contracts, the loss of one or more of such contracts could have a material adverse impact on CoreCivic's financial condition and results of operations.

Accounting for Stock-Based Compensation*Restricted Stock and Units*

CoreCivic accounts for restricted stock-based compensation under the recognition and measurement principles of ASC 718, Compensation-Stock Compensation . CoreCivic amortizes the fair market value as of the grant date of restricted stock and unit awards over the vesting period using the straight-line method. The fair market value of performance-based restricted stock units is amortized over the vesting period as long as CoreCivic expects to meet the performance criteria. If achievement of the performance criteria becomes improbable, an adjustment is made to reverse the expense previously recognized.

Stock Options

CoreCivic's stock option plans are described more fully in Note 12. CoreCivic accounts for those plans under the recognition and measurement principles of ASC 718. All options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant.

Table of Contents

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, which establishes a single, comprehensive revenue recognition standard for all contracts with customers. For public reporting entities such as CoreCivic, ASU 2014-09 was originally effective for interim and annual periods beginning after December 15, 2016 and early adoption of the ASU was not permitted. In July 2015, the FASB agreed to defer the effective date of the ASU for public reporting entities by one year, or to interim and annual periods beginning after December 15, 2017. Early adoption is now allowed as of the original effective date for public companies. In summary, the core principle of ASU 2014-09 is to recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. Companies are allowed to select between two transition methods: (1) a full retrospective transition method with the application of the new guidance to each prior reporting period presented, or (2) a modified retrospective transition method that recognizes the cumulative effect on prior periods at the date of adoption together with additional footnote disclosures. CoreCivic is currently planning to adopt the standard when effective in its fiscal year 2018 and expects to utilize the modified retrospective transition method upon adoption of the ASU. CoreCivic is reviewing the ASU to determine the potential impact it might have on the Company's results of operations or financial position and its related financial statement disclosure.

In February 2016, the FASB issued ASU 2016-02, *Leases (ASC 842)*, which requires lessees to put most leases on their balance sheets but recognize expenses on their income statements in a manner similar to current accounting requirements. ASU 2016-02 also eliminates current real estate-specific provisions for all entities. For lessors, the ASU modifies the classification criteria and the accounting for sales-type and direct financing leases. For public reporting entities such as CoreCivic, guidance in ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years, and early adoption of the ASU is permitted. Entities are required to use a modified retrospective approach for leases that exist or are entered into after the beginning of the earliest comparative period in the financial statements. CoreCivic is currently planning to adopt the ASU when effective in its fiscal year 2019. CoreCivic does not currently expect that the new standard will have a material impact on its financial statements.

Table of Contents

In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*, that will change certain aspects of accounting for share-based payments to employees. ASU 2016-09 will require all income tax effects of awards to be recognized in the income statement when the awards vest or are settled. The new ASU will also allow an employer to repurchase more of an employee's shares than it can currently for tax withholding purposes without triggering liability accounting, and to make a policy election to account for forfeitures. Companies will be required to elect whether to account for forfeitures of share-based payments by (1) recognizing forfeitures of awards as they occur, or (2) estimating the number of awards expected to be forfeited and adjusting the estimate when it is likely to change, as is currently required. For public reporting entities such as CoreCivic, guidance in ASU 2016-09 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, and early adoption of the ASU is permitted. All of the guidance in the ASU must be adopted in the same period. CoreCivic will adopt the ASU in its fiscal year 2017. CoreCivic also expects that the new standard will have an impact on its financial statements whenever the vested value of the awards differs from the grant-date fair value of such awards.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, that provides guidance to assist entities with evaluating when a set of transferred assets and activities (a set) is a business. Under the new guidance, an entity first determines whether substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets. If this threshold is met, the set is not a business. If it is not met, the entity then evaluates whether the set meets the requirement that a business include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The new ASU provides a more robust framework to use in determining when a set of assets and activities is a business. For public reporting entities such as CoreCivic, guidance in ASU 2017-01 is effective for fiscal years beginning after December 15, 2017, and interim periods within those years, and is to be applied prospectively to any transactions occurring within the period of adoption. Early adoption of the ASU is allowed for transactions that occur before the issuance date or effective date of the ASU, only when the transaction has not been reported in financial statements that have been issued or made available for issuance. CoreCivic expects to early adopt ASU 2017-01 in the first quarter of 2017.

In January 2017, the FASB issued ASU 2017-04, *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test of Goodwill Impairment*, that eliminates the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge. This requirement is the second step in the annual two-step quantitative impairment test that is currently required under ASC 350, *Intangibles—Goodwill and Other*. Instead, entities will recognize an impairment charge based on the first step of the quantitative impairment test currently required, which is the measurement of the excess of a reporting unit's carrying amount over its fair value. Entities will still have the option to perform a qualitative assessment to determine if the quantitative impairment test is necessary. For public reporting entities such as CoreCivic, guidance in ASU 2017-04 is effective for fiscal years beginning after December 15, 2019, and interim periods within those years. Early adoption of the ASU is allowed for interim or annual goodwill impairment tests performed on testing dates on or after January 1, 2017. CoreCivic is reviewing the ASU to determine the potential impact it might have on the Company's results of operations or financial position and its related financial statement disclosure.

3. GOODWILL

ASC 350, *Intangibles—Goodwill and Other*, establishes accounting and reporting requirements for goodwill and other intangible assets. Goodwill was \$38.4 million and \$35.6 million as of December 31, 2016 and 2015, respectively. This goodwill was established in connection with the acquisitions

Table of Contents

of Correctional Management, Inc. (CMI) in the second quarter of 2016 and Avalon Correctional Services, Inc. (Avalon) in the fourth quarter of 2015, both as further described in Note 6, the acquisition of Correctional Alternatives, Inc. (CAI) during 2013, and the acquisitions of two service companies during 2000.

Under the provisions of ASC 350, CoreCivic performs a qualitative assessment that may allow it to skip the annual two-step impairment test. Under ASC 350, a company has the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, an entity determines it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary. If the two-step impairment test is required, CoreCivic determines the fair value of a reporting unit using a collaboration of various common valuation techniques, including market multiples and discounted cash flows. These impairment tests are required to be performed at least annually. CoreCivic performed its impairment tests during the fourth quarter, in connection with CoreCivic's annual budgeting process, and concluded no impairments had occurred. CoreCivic will perform these impairment tests at least annually and whenever circumstances indicate the carrying value of goodwill may not be recoverable.

In April 2015, CoreCivic provided notice to the state of Louisiana that it would cease management of the Winn Correctional Center within 180 days, in accordance with the notice provisions of the contract. Management of the facility transitioned to another operator effective September 30, 2015. In anticipation of terminating the contract at this facility, CoreCivic recorded an asset impairment of \$1.0 million during the first quarter of 2015 for the write-off of goodwill associated with the Winn facility.

4. PROPERTY AND EQUIPMENT

At December 31, 2016, CoreCivic owned 76 real estate properties, including 49 correctional and detention facilities, three of which CoreCivic leased to third-party operators, 25 residential reentry facilities, five of which CoreCivic leased to third-party operators, and two corporate office buildings. At December 31, 2016, CoreCivic also managed 11 correctional and detention facilities owned by governmental agencies.

Property and equipment, at cost, consists of the following (in thousands):

| | December 31, | |
|--------------------------------|---------------------|--------------|
| | 2016 | 2015 |
| Land and improvements | \$ 234,862 | \$ 207,405 |
| Buildings and improvements | 3,509,825 | 3,443,791 |
| Equipment and software | 379,811 | 360,168 |
| Office furniture and fixtures | 35,651 | 35,018 |
| Construction in progress | 29,831 | 30,401 |
| | 4,189,980 | 4,076,783 |
| Less: Accumulated depreciation | (1,352,323) | (1,193,723) |
| | \$ 2,837,657 | \$ 2,883,060 |

Construction in progress primarily consists of correctional facilities under construction or expansion. Interest is capitalized on construction in progress and amounted to \$0.6 million, \$5.5 million, and \$2.5 million in 2016, 2015, and 2014, respectively.

Table of Contents

Depreciation expense was \$165.8 million, \$151.4 million, and \$114.0 million for the years ended December 31, 2016, 2015, and 2014, respectively.

Eleven of the facilities owned by CoreCivic are subject to options that allow various governmental agencies to purchase those facilities. Certain of these options to purchase are based on a depreciated book value while others are based on a fair market value calculation. In addition, one facility, which is also subject to a purchase option, is constructed on land that CoreCivic leases from a governmental agency under a ground lease. Under the terms of the ground lease, the facility becomes the property of the governmental agency upon expiration of the ground lease in 2017. CoreCivic depreciates this property over the shorter of the term of the applicable ground lease or the estimated useful life of the property.

CoreCivic leases land and building at the Elizabeth Detention Center under operating leases that expire in June 2022. CoreCivic leased portions of the land and building of the San Diego Correctional Facility under an operating lease that expired December 31, 2015 pursuant to amended lease terms executed between CoreCivic and the County of San Diego in January 2010. During December 2013, CoreCivic elected to terminate the lease of land and building at the North Georgia Detention Center effective during the first quarter of 2014.

CoreCivic leases the South Texas Family Residential Center and the site upon which it was constructed from a third-party lessor. CoreCivic's lease agreement with the lessor is over a base period concurrent with an IGSA with ICE which was amended in October 2016, as further described in Note 5. However, ICE can terminate the agreement for convenience or non-appropriation of funds, without penalty, by providing CoreCivic with at least a 60-day notice. In the event CoreCivic cancels the lease with the third-party lessor prior to its expiration as a result of the termination of the IGSA by ICE for convenience, and if CoreCivic is unable to reach an agreement for the continued use of the facility within 90 days from the termination date, CoreCivic is required to pay a termination fee based on the termination date, currently equal to \$10.0 million and declining to zero by October 2020.

CoreCivic's original lease agreement with the third-party lessor required CoreCivic to pay \$70.0 million in September 2014, which resulted in CoreCivic being deemed the owner of the constructed assets for accounting purposes, in accordance with ASC 840-40-55, formerly Emerging Issues Task Force No. 97-10, "The Effect of Lessee Involvement in Asset Construction". Accordingly, CoreCivic recorded an asset representing the costs incurred attributable to the building assets constructed by the third-party lessor and a related financing liability. CoreCivic is depreciating the asset over the term of the lease, as amended and extended through September 2021, and is imputing interest on the financing liability. Additionally, CoreCivic determined that the lease with the third-party lessor also included separate units of account for the land and pre-existing cottages as well as food services provided by the third-party lessor. The amount of consideration allocated to each of these separate deliverables was determined based on the relative selling price of the lessor-financing, the land lease, the lease of pre-existing cottages, and the food services. The operating lease term for the land is equivalent to the term of the lease and is recognized on a straight-line basis over the lease term. The operating lease term for the pre-existing cottages was the four-month period in which CoreCivic used the cottages for housing residents. The food services provided by the third-party lessor are recognized proportionally based on the number of beds available to ICE.

The expense incurred for the leases at these four facilities, inclusive of the expenses recognized for the South Texas lease, as described above, was \$103.0 million, \$85.9 million, and \$9.1 million for the years ended December 31, 2016, 2015, and 2014, respectively. Future minimum lease payments as of December 31, 2016 under these and other operating leases, inclusive of \$242.3 million of payments expected to be made under the cancelable lease at the South Texas facility, are as follows (in thousands):

Edgar Filing: CoreCivic, Inc. - Form 10-K

Table of Contents

In June 2013, CoreCivic entered into an Economic Development Agreement (EDA) with the Development Authority of Telfair County (Telfair County) in Telfair County, Georgia to implement a tax abatement plan related to CoreCivic's bed expansion project at its McRae Correctional Facility. The tax abatement plan provides for 90% abatement of real property taxes in the first year, decreasing by 10% over the subsequent nine years. In June 2013, Telfair County issued bonds in a maximum principal amount of \$15.0 million. According to the EDA, legal title of CoreCivic's real property was transferred to Telfair County. Pursuant to the EDA, the bonds were issued to CoreCivic, so no cash exchanged hands. Telfair County then leased the real property back to CoreCivic. The lease payments are equal to the amount of the payments on the bonds. At any time, CoreCivic has the option to purchase the real property by paying off the bonds, plus \$100. Due to the form of the transactions, CoreCivic has not recorded the bonds or the capital lease associated with the sale lease-back transaction. The original cost of CoreCivic's property and equipment is recorded on the balance sheet and is being depreciated over its estimated useful life.

5. REAL ESTATE TRANSACTIONS**Activations**

In September 2014, CoreCivic announced that it had agreed under an expansion of an existing IGSA between the city of Eloy, Arizona and ICE to house up to 2,400 individuals at the South Texas Family Residential Center, a facility leased by CoreCivic in Dilley, Texas. Services provided under the original amended IGSA commenced in the fourth quarter of 2014, had an original term of up to four years, and could be extended by bi-lateral modifications. The agreement provided for a fixed monthly payment in accordance with a graduated schedule. In October 2016, CoreCivic entered into an amended IGSA that provides for a new, lower fixed monthly payment commencing in November 2016, and extends the life of the contract through September 2021. The agreement can be further extended by bi-lateral modification. However, ICE can also terminate the agreement for convenience or non-appropriation of funds, without penalty, by providing CoreCivic with at least a 60-day notice. ICE began housing the first residents at the facility in December 2014, and the site was completed during the second quarter of 2015.

Under the fixed monthly payment schedule of the original amended IGSA, ICE agreed to pay CoreCivic \$70.0 million in two \$35.0 million installments during the fourth quarter of 2014 and graduated fixed monthly payments over the remaining months of the contract. As described in Note 2, CoreCivic used the multiple-element arrangement guidance prescribed in ASC 605, Revenue Recognition in determining the total revenue to be recognized over the term of the amended IGSA. CoreCivic determined that there were five distinct elements related to the amended IGSA with ICE. The lease revenue element, representing the operating lease of the site and constructed assets, was valued based on the estimated selling price of the land and building improvements provided to ICE and is recognized proportionately based on the number of beds available. The correctional services revenue element, representing the correctional management services provided to ICE, was valued based on the estimated selling price of similar services CoreCivic provides and is recognized based on labor efforts expended over the contract. The food services revenue element was valued based on

Table of Contents

the TPE of the contracted outsourced service and is recognized proportionately based on the number of beds available. The educational services revenue element, representing the grade-level appropriate juvenile educational program prescribed under the IGSA, was based on the TPE of the contracted outsourced service and is recognized on a straight-line basis over the period educational services are required to be performed. The construction management services revenue element, representing CoreCivic's site development and construction management services, was valued based on the estimated selling price of similar services CoreCivic provides and was recognized on a straight-line basis during the first seven months of the IGSA representing the period over which the construction activity was ongoing. During the years ended December 31, 2016, 2015, and 2014, CoreCivic recognized \$266.8 million, \$244.2 million, and \$21.0 million, respectively, in revenue associated with the amended IGSA with the unrecognized balance of the fixed monthly payments reported in deferred revenue. The current portion of deferred revenue is reflected within accounts payable and accrued expenses while the long-term portion is reflected in deferred revenue in the accompanying consolidated balance sheets. As of December 31, 2016 and 2015, total deferred revenue associated with this agreement amounted to \$67.0 million and \$94.6 million, respectively.

In June 2015, ICE announced a policy change regarding family unit detention that has shortened the duration of ICE detention for those who are awaiting further process before immigration courts. Public policies and views regarding family detention, as well as proposals pertaining to the most effective means to address families crossing the border illegally, continue to evolve. In addition, numerous lawsuits, to which CoreCivic is not a party, have challenged the government's policy of detaining migrant families.

One such lawsuit in the United States District Court for the Central District of California concerns a settlement agreement between ICE and a plaintiffs' class consisting of detained minors, whereby the court issued an order on August 21, 2015, enforcing the settlement agreement and requiring compliance by October 23, 2015. The court's order clarified that the government has the flexibility to hold class members for longer periods of time in unlicensed and secure facilities during influxes of large numbers of undocumented migrant families via the southern U.S. border. After announcing its intention to comply fully with the court's order, the federal government appealed. In July 2016, the U.S. Court of Appeals for the Ninth Circuit affirmed most aspects of the District Court's order, but ruled that ICE is not required to release a parent simply because the settlement agreement might require release of that parent's minor child. The impact of these rulings on family residential programs is not yet known.

In December 2016, a Texas state court judge blocked efforts by Texas state officials to license the South Texas Family Residential Center as a child care center, ruling that the state officials lacked authority to license such facilities. The state of Texas has appealed this ruling, and the impact of the judge's decision on family residential detention programs is not yet known. Any court decision or government action that impacts CoreCivic's existing contract for the South Texas Family Residential Center could materially affect the Company's cash flows, financial condition, and results of operations.

In December 2015, CoreCivic announced it was awarded a new contract from the Arizona Department of Corrections to house up to an additional 1,000 medium-security inmates at its 1,596-bed Red Rock Correctional Center in Arizona, bringing the contracted bed capacity to 2,000 inmates. In connection with the new contract, CoreCivic expanded its Red Rock facility to a design capacity of 2,024 beds and added additional space for inmate reentry programming. Total cost of the expansion was approximately \$37.0 million. Construction was substantially completed at December 31, 2016, although CoreCivic began receiving inmates under the new contract during the third quarter of 2016. As of December 31, 2016, CoreCivic housed approximately 1,700 inmates at the Red Rock Correctional Center.

Table of Contents

Pursuant to an agreement with Trousdale County, Tennessee, CoreCivic agreed to finance, design, construct, and operate a 2,552-bed facility to meet the responsibilities of a separate IGSA between Trousdale County and the state of Tennessee regarding correctional services. CoreCivic invested approximately \$144.0 million in the Trousdale Turner Correctional Center and construction was completed in the fourth quarter of 2015. In order to guarantee access to the beds at the facility, the IGSA with the state of Tennessee includes a minimum monthly payment plus a per diem payment for each inmate housed in the facility in excess of 90% of the design capacity following completion of the ramp, which occurred in the third quarter of 2016. CoreCivic began housing state of Tennessee inmates at the newly activated facility in January 2016. As of December 31, 2016, CoreCivic housed approximately 2,300 inmates at the Trousdale Turner Correctional Center.

In April 2016, CoreCivic was awarded a contract to continue providing residential reentry services for the BOP, which was a rebid of existing contracts at both of CoreCivic's CAI facilities, CAI-Boston Avenue and CAI-Ocean View. During the contract rebid process, CoreCivic identified an opportunity to consolidate BOP resident populations at both facilities into the 483-bed CAI-Ocean View facility in order to make available the CAI-Boston Avenue facility for other potential partners and more efficiently utilize available capacity. On July 18, 2016, CoreCivic announced that it received an award from the CDCR to house up to 120 residents as part of The Male Community Reentry Program (MCRP) at CoreCivic's 120-bed CAI-Boston Avenue residential reentry facility in San Diego, California. The MCRP was designed by the CDCR to provide a range of community-based, rehabilitative services to help participants successfully reenter the community and reduce recidivism. The new contract commenced on August 1, 2016 and contains an initial term extending to June 30, 2018, with three one-year renewal options.

Leasing Transactions

In May 2016, CoreCivic entered into a lease with the Oklahoma Department of Corrections (ODOC) for its previously idled 2,400-bed North Fork Correctional Facility. The lease agreement commenced on July 1, 2016, and includes a five-year base term with unlimited two-year renewal options. However, the lease agreement permitted the ODOC to utilize the facility for certain activation activities and, therefore, revenue recognition began upon execution of the lease. The average annual rent to be recognized during the base term is \$7.3 million, including annual rent in the fifth year of \$12.0 million. After the five-year base term, the annual rent will be equal to the rent due during the prior lease year, adjusted for increases in the Consumer Price Index (CPI). CoreCivic is responsible for repairs and maintenance, property taxes and property insurance, while all other aspects and costs of facility operations are the responsibility of the ODOC.

Acquisitions

On August 27, 2015, CoreCivic acquired four community corrections facilities from a privately held owner of community corrections facilities and other government leased assets. The four acquired community corrections facilities have a capacity of approximately 600 beds and are leased to Community Education Centers, Inc. (CEC) under triple net lease agreements that extend through July 2019 and include multiple five-year lease extension options. CEC separately contracts with the Pennsylvania Department of Corrections and the Philadelphia Prison System to provide rehabilitative and reentry services to residents and inmates at the leased facilities. CoreCivic acquired the four facilities in the real estate-only transaction as a strategic investment that expands the Company's investment in the residential reentry market. The consideration paid for the asset portfolio consisted of approximately \$13.8 million in cash, excluding transaction related expenses. In allocating the purchase price, CoreCivic recorded \$13.4 million of net tangible assets and \$0.4 million of identifiable intangible assets.

Table of Contents

On June 10, 2016, CoreCivic acquired a residential reentry facility in Long Beach, California from a privately held owner for approximately \$7.7 million in cash, excluding transaction-related expenses. In allocating the purchase price, CoreCivic recorded \$7.4 million of net tangible assets and \$0.3 million of identifiable intangible assets. The 112-bed facility is leased to CEC under a triple net lease agreement that extends through June 2020 and includes one five-year lease extension option. CEC separately contracts with the CDCR to provide rehabilitative and reentry services to residents at the leased facility. CoreCivic acquired the facility in the real estate only transaction as a strategic investment that expands the Company's investment in the residential reentry market.

Real Estate Closures and Idle Facilities

On July 29, 2016, the BOP elected not to renew its contract at CoreCivic's owned and managed 1,129-bed Cibola County Corrections Center located in New Mexico. CoreCivic prepared to idle the facility upon expiration of the contract on October 30, 2016. CoreCivic performed an impairment analysis of the Cibola County Corrections Center, which had a net carrying value of \$29.4 million as of December 31, 2016, and concluded that this asset has a recoverable value in excess of the carrying value. On October 31, 2016, CoreCivic announced a new contract award to house up to 1,116 ICE detainees at the Cibola facility and began receiving detainees in December 2016 under the new contract. The contract contains an initial term of five years, with renewal options upon mutual agreement.

Based on a decline in offender populations within the state of Colorado and available capacity at other facilities CoreCivic owns in Colorado, CoreCivic idled its 1,488-bed Kit Carson Correctional Center during the third quarter of 2016. Inmate populations from the Kit Carson Correctional Center were transferred to the remaining two company-owned facilities that CoreCivic continues to operate for the Colorado Department of Corrections, the Bent County Correctional Facility and the Crowley County Correctional Facility. CoreCivic idled the Kit Carson Correctional Center following the transfer of the inmate population, and is continuing to market the facility to other customers. CoreCivic performed an impairment analysis of the Kit Carson Correctional Center, which had a net carrying value of \$58.8 million as of December 31, 2016, and concluded that this asset has a recoverable value in excess of the carrying value.

CoreCivic also has six additional idled facilities that are currently available and being actively marketed to potential customers. The following table summarizes each of the idled facilities and their respective carrying values, excluding equipment and other assets that could generally be transferred and used at other facilities CoreCivic owns without significant cost (dollars in thousands):

| Facility | Design Capacity | Date Idled | Net Carrying Values at December 31, | |
|---|-----------------|------------|-------------------------------------|------------|
| | | | 2016 | 2015 |
| Prairie Correctional Facility | 1,600 | 2010 | \$ 17,071 | \$ 17,961 |
| Huerfano County Correctional Center | 752 | 2010 | 17,542 | 18,276 |
| Diamondback Correctional Facility | 2,160 | 2010 | 41,539 | 43,030 |
| Southeast Kentucky Correctional Facility ⁽¹⁾ | 656 | 2012 | 22,618 | 23,270 |
| Marion Adjustment Center | 826 | 2013 | 12,135 | 12,536 |
| Lee Adjustment Center | 816 | 2015 | 10,342 | 10,840 |
| Kit Carson Correctional Center | 1,488 | 2016 | 58,819 | 60,039 |
| | 8,298 | | \$ 180,066 | \$ 185,952 |

(1) Formerly known as the Otter Creek Correctional Center.

From the date each of the aforementioned seven facilities became idle, CoreCivic incurred approximately \$8.5 million, \$7.3 million, and \$6.5 million in operating expenses for the years ended

Table of Contents

December 31, 2016, 2015, and 2014, respectively. The operating expenses incurred in 2014 exclude the incremental expenses incurred in connection with the activation of the Diamondback facility which began in the third quarter of 2013 and continued until near the end of the second quarter of 2014, when anticipated opportunities to activate the facility were deferred.

CoreCivic considers the cancellation of a contract as an indicator of impairment and tested each of the aforementioned facilities for impairment when it was notified by the respective customers that they would no longer be utilizing such facility. CoreCivic updates the impairment analyses on an annual basis for each of the idled facilities and evaluates on a quarterly basis market developments for the potential utilization of each of these facilities in order to identify events that may cause CoreCivic to reconsider its most recent assumptions. As a result of CoreCivic's analyses, CoreCivic determined each of the idled facilities to have recoverable values in excess of the corresponding carrying values.

In the fourth quarter of 2014, CoreCivic made the decision to actively pursue the sale of the Queensgate Correctional Facility, idle since 2009, and the Mineral Wells Pre-Parole Transfer Facility, idle since 2013. CoreCivic reviewed comparable sales data and concluded that either the exit value in the principle market or comparable sales prices for similar properties in the respective geographical areas represented the fair value of these assets. CoreCivic determined the principle market for these assets will be buyers who intend to use the assets for purposes other than as correctional facilities. The aggregate net book value of these facilities prior to the evaluation for impairment was \$28.8 million and, as a result of the impairment indicator resulting from the potential sale of the facilities, CoreCivic recorded non-cash impairments totaling \$27.8 million during the fourth quarter of 2014 to write down the book values of the Queensgate and Mineral Wells facilities to the estimated fair values using Level 2 inputs for quoted prices of similar assets and assuming asset sales for uses other than correctional facilities.

Sales

In the third quarter of 2014, CoreCivic entered into a purchase and sale agreement with a third party to sell its idled Houston Educational Facility in Houston, Texas for \$4.5 million. The Houston Educational Facility was an asset that was previously leased to a charter school operator. CoreCivic closed on the sale during the fourth quarter of 2014. The net book value of this facility prior to the evaluation for impairment was \$6.4 million and, as a result of the impairment indicator resulting from the potential sale of the facility, CoreCivic recorded a non-cash impairment of \$2.2 million during the second quarter of 2014 to write-down the book value of the facility to the estimated fair value using Level 2 inputs. The ultimate sale price was used as a proxy for the fair value of the facility.

6. BUSINESS COMBINATIONS

During the fourth quarter of 2015, CoreCivic closed on the acquisition of 100% of the stock of Avalon, along with two additional facilities operated by Avalon. The acquisition included 11 community corrections facilities with approximately 3,000 beds in Oklahoma, Texas, and Wyoming. CoreCivic acquired Avalon, which specializes in community correctional services, drug and alcohol treatment services, and residential reentry services, as a strategic investment that continues to expand the reentry assets CoreCivic owns and the services the Company provides. The aggregate purchase price of \$157.5 million, excluding transaction-related expenses, includes two earn-outs. One earn-out for \$5.5 million, which was based on the completion of and transition to a newly constructed facility that delivers the contracted services provided at the Dallas Transitional Center, was paid in the second quarter of 2016. The second earn-out for up to \$2.0 million was based on the achievement of certain utilization milestones over 12 months following the acquisition.

Table of Contents

The utilization milestones were not achieved resulting in a \$2.0 million gain recognized in the third quarter of 2016. The gain is reported as revenue in the accompanying statement of operations for the year ended December 31, 2016. The acquisition was funded utilizing cash from CoreCivic's \$900.0 Million Revolving Credit Facility, as defined hereafter.

In allocating the purchase price for the transaction, CoreCivic recorded the following (in millions):

| | |
|----------------------------------|-----------------|
| Property and equipment | \$ 119.2 |
| Intangible assets | 18.5 |
| Total identifiable assets | 137.7 |
| Goodwill | 19.8 |
| Total consideration | \$ 157.5 |

Several factors gave rise to the goodwill recorded in the acquisition, such as the expected benefit from synergies of the combination and the long-term contracts for community corrections services that continue to broaden the scope of solutions CoreCivic provides, from incarceration through release. The results of operations for Avalon have been included in the Company's consolidated financial statements from the date of acquisition.

On April 8, 2016, CoreCivic closed on the acquisition of 100% of the stock of CMI, along with the real estate used in the operation of CMI's business from two entities affiliated with CMI. CMI, a privately held community corrections company that operates seven community corrections facilities, including six owned and one leased, with approximately 600 beds in Colorado, specializes in community correctional services, drug and alcohol treatment services, and residential reentry services. CMI provides these services through multiple contracts with three counties in Colorado, as well as the Colorado Department of Corrections, a pre-existing partner of CoreCivic's. CoreCivic acquired CMI as a strategic investment that continues to expand the reentry assets CoreCivic owns and the services the Company provides. The aggregate purchase price of the transaction was \$35.0 million, excluding transaction-related expenses. The transaction was funded utilizing cash from CoreCivic's \$900.0 Million Revolving Credit Facility.

In allocating the purchase price for the transaction, CoreCivic recorded the following (in millions):

| | |
|--|----------------|
| Tangible current assets and liabilities, net | \$ 1.0 |
| Property and equipment | 29.2 |
| Intangible assets | 1.5 |
| Total identifiable assets | 31.7 |
| Goodwill | 3.3 |
| Total consideration | \$ 35.0 |

Several factors gave rise to the goodwill recorded in the acquisition, such as the expected benefit from synergies of the combination and the long-term contracts for community corrections services that continues to broaden the scope of

solutions CoreCivic provides, from incarceration through release. The results of operations for CMI have been included in the Company's consolidated financial statements from the date of acquisition.

Table of Contents**7. INVESTMENT IN AFFILIATE**

CoreCivic has a 50% ownership interest in APM, an entity holding the management contract for a correctional facility, HM Prison Forest Bank, under a 25-year prison management contract with an agency of the United Kingdom government. CoreCivic has determined that its joint venture investment in APM represents a variable interest entity (VIE) in accordance with ASC 810, Consolidation of which CoreCivic is not the primary beneficiary. The Forest Bank facility, located in Salford, England, was previously constructed and owned by a wholly-owned subsidiary of CoreCivic, which was sold in April 2001. All gains and losses under the joint venture are accounted for using the equity method of accounting. During 2000, CoreCivic extended a working capital loan to APM, which has an outstanding balance of \$2.9 million as of December 31, 2016.

For the years ended December 31, 2016 and 2015, equity in losses of the joint venture was \$41,000 and \$126,000, respectively. For the year ended December 31, 2014, equity in earnings of the joint venture was \$720,000. The equity in losses and earnings of the joint venture is included in other (income) expense in the consolidated statements of operations. As of December 31, 2016, CoreCivic's equity investment in APM was \$0.5 million and is reported in other assets in the accompanying consolidated balance sheets. The outstanding working capital loan of \$2.9 million, combined with the \$0.5 million investment in APM, represents CoreCivic's maximum exposure to loss in connection with APM.

8. OTHER ASSETS

Other assets consist of the following (in thousands):

| | December 31, | |
|--|---------------------|-------------|
| | 2016 | 2015 |
| Debt issuance costs, less accumulated amortization of \$1,633 and \$542, respectively | \$ 3,526 | \$ 4,879 |
| Intangible lease value, less accumulated amortization of \$4,990 and \$3,118, respectively | 36,598 | 37,430 |
| Other intangible assets, less accumulated amortization of \$1,421 and \$363, respectively | 4,434 | 4,191 |
| Deferred leasing costs | 7,380 | 8,021 |
| Notes receivable, net | 5,858 | 7,743 |
| Cash equivalents and cash surrender value of life insurance held in Rabbi trust | 13,110 | 16,946 |
| Deposits | 2,117 | 2,020 |
| Straight-line rent receivable | 9,229 | 3,324 |
| Other | 532 | 150 |
| | \$ 82,784 | \$ 84,704 |

The gross carrying amount of intangible assets amounted to \$47.4 million and \$45.1 million at December 31, 2016 and 2015, respectively. Of these amounts, \$41.6 million and \$40.5 million, respectively, was related to intangible lease values. Amortization expense related to intangible assets was \$2.9 million, \$1.5 million, and \$1.4 million for 2016, 2015, and 2014, respectively, and depending upon the nature of the asset, was either reported as operating expense or depreciation and amortization in the accompanying statement of operations for the respective periods.

Table of Contents

As of December 31, 2016, the estimated amortization expense related to intangible assets for each of the next five years is as follows (in thousands):

| | |
|------|----------|
| 2017 | \$ 3,010 |
| 2018 | 3,010 |
| 2019 | 2,718 |
| 2020 | 2,181 |
| 2021 | 1,483 |

9. ACCOUNTS PAYABLE, ACCRUED EXPENSES AND OTHER LONG-TERM LIABILITIES

Accounts payable and accrued expenses consist of the following (in thousands):

| | December 31, | |
|--|---------------------|-------------|
| | 2016 | 2015 |
| Trade accounts payable | \$ 49,866 | \$ 72,689 |
| Accrued salaries and wages | 29,766 | 28,871 |
| Accrued dividends | 51,496 | 65,232 |
| Accrued workers' compensation and auto liability | 6,652 | 6,978 |
| Accrued litigation | 9,290 | 4,176 |
| Accrued employee medical insurance | 8,413 | 7,911 |
| Accrued property taxes | 27,707 | 24,796 |
| Accrued interest | 9,526 | 9,780 |
| Deferred revenue | 14,332 | 31,844 |
| Construction payable | 7,845 | 8,483 |
| Lease financing obligation | 11,785 | 19,775 |
| Other | 33,429 | 37,140 |
| | \$ 260,107 | \$ 317,675 |

The total liability for workers' compensation and auto liability was \$21.4 million and \$22.2 million as of December 31, 2016 and 2015, respectively, with the long-term portion included in other long-term liabilities in the accompanying consolidated balance sheets. These liabilities were discounted to the net present value of the outstanding liabilities using a 3.0% rate in 2016 and 2015. These liabilities amounted to \$23.9 million and \$25.0 million on an undiscounted basis as of December 31, 2016 and 2015, respectively.

Other long-term liabilities consist of the following (in thousands):

| | December 31, | |
|-------------------------------|---------------------|-------------|
| | 2016 | 2015 |
| Intangible lease liability | \$ 6,578 | \$ 6,965 |
| Accrued workers' compensation | 14,726 | 15,188 |

Edgar Filing: CoreCivic, Inc. - Form 10-K

| | | |
|-------------------------------|------------------|-----------|
| Accrued deferred compensation | 9,850 | 13,253 |
| Lease financing obligation | 18,832 | 21,047 |
| Other | 1,856 | 1,856 |
| | \$ 51,842 | \$ 58,309 |

Table of Contents**10. DEBT**

Debt outstanding consists of the following (in thousands):

| | December 31, | |
|---|---------------------|---------------------|
| | 2016 | 2015 |
| \$900.0 Million Revolving Credit Facility, principal due at maturity in July 2020; interest payable periodically at variable interest rates. The weighted average rate at December 31, 2016 and 2015 was 2.2% and 1.9%, respectively. | \$ 435,000 | \$ 439,000 |
| Term Loan, scheduled principal payments through maturity in July 2020; interest payable periodically at variable interest rates. The rate at December 31, 2016 and 2015 was 2.3% and 2.0%, respectively. Unamortized debt issuance costs amounted to \$0.4 million and \$0.6 million at December 31, 2016 and 2015, respectively. | 95,000 | 100,000 |
| 4.625% Senior Notes, principal due at maturity in May 2023; interest payable semi-annually in May and November at 4.625%. Unamortized debt issuance costs amounted to \$3.9 million and \$4.5 million at December 31, 2016 and 2015, respectively. | 350,000 | 350,000 |
| 4.125% Senior Notes, principal due at maturity in April 2020; interest payable semi-annually in April and October at 4.125%. Unamortized debt issuance costs amounted to \$2.7 million and \$3.5 million at December 31, 2016 and 2015, respectively. | 325,000 | 325,000 |
| 5.0% Senior Notes, principal due at maturity in October 2022; interest payable semi-annually in April and October at 5.0%. Unamortized debt issuance costs amounted to \$2.8 million and \$3.3 million at December 31, 2016 and 2015, respectively. | 250,000 | 250,000 |
| Total debt | 1,455,000 | 1,464,000 |
| Unamortized debt issuance costs | (9,831) | (11,923) |
| Current portion of long-term debt | (10,000) | (5,000) |
| Long-term debt, net | \$ 1,435,169 | \$ 1,447,077 |

Revolving Credit Facility. During July 2015, CoreCivic entered into an amended and restated \$900.0 million senior secured revolving credit facility (the "\$900.0 Million Revolving Credit Facility"). The \$900.0 Million Revolving Credit Facility has an aggregate principal capacity of \$900.0 million and a maturity of July 2020. The \$900.0 Million Revolving Credit Facility also has an accordion feature that provides for uncommitted incremental extensions of credit in the form of increases in the revolving commitments or incremental term loans in an aggregate principal amount up to an additional \$350.0 million as requested by CoreCivic, subject to bank approval. At CoreCivic's option, interest on outstanding borrowings under the \$900.0 Million Revolving Credit Facility is based on either a base rate plus a margin ranging from 0.00% to 0.75% or at LIBOR plus a margin ranging from 1.00% to 1.75% based on CoreCivic's leverage ratio. The \$900.0 Million Revolving Credit Facility includes a \$30.0 million sublimit for swing line loans that enables CoreCivic to borrow at the base rate from the Administrative Agent without advance notice.

Based on CoreCivic's current leverage ratio, loans under the \$900.0 Million Revolving Credit Facility bear interest at the base rate plus a margin of 0.50% or at LIBOR plus a margin of 1.50%,

Table of Contents

and a commitment fee equal to 0.35% of the unfunded balance. The \$900.0 Million Revolving Credit Facility also has a \$50.0 million sublimit for the issuance of standby letters of credit. As of December 31, 2016, CoreCivic had \$435.0 million in borrowings under the \$900.0 Million Revolving Credit Facility as well as \$9.1 million in letters of credit outstanding resulting in \$455.9 million available under the \$900.0 Million Revolving Credit Facility.

The \$900.0 Million Revolving Credit Facility is secured by a pledge of all of the capital stock of CoreCivic's domestic subsidiaries, 65% of the capital stock of CoreCivic's foreign subsidiaries, all of CoreCivic's accounts receivable, and all of CoreCivic's deposit accounts. The \$900.0 Million Revolving Credit Facility requires CoreCivic to meet certain financial covenants, including, without limitation, a maximum total leverage ratio, a maximum secured leverage ratio, and a minimum fixed charge coverage ratio. As of December 31, 2016, CoreCivic was in compliance with all such covenants. In addition, the \$900.0 Million Revolving Credit Facility contains certain covenants that, among other things, limit the incurrence of additional indebtedness, payment of dividends and other customary restricted payments, transactions with affiliates, asset sales, mergers and consolidations, liquidations, prepayments and modifications of other indebtedness, liens and other encumbrances and other matters customarily restricted in such agreements. In addition, the \$900.0 Million Revolving Credit Facility is subject to certain cross-default provisions with terms of CoreCivic's other indebtedness, and is subject to acceleration upon the occurrence of a change of control.

Incremental Term Loan. On October 6, 2015, CoreCivic obtained \$100.0 million under an Incremental Term Loan (Term Loan) under the accordion feature of the \$900.0 Million Revolving Credit Facility. As of April 1, 2016, interest rates under the Term Loan are the same as the interest rates under the \$900.0 Million Revolving Credit Facility. The interest rate on the Term Loan was at a base rate plus a margin of 0.50% or at LIBOR plus a margin of 1.75% during the first two fiscal quarters following closing of the Term Loan. The Term Loan has the same collateral requirements, financial and certain other covenants, and cross-default provisions as the \$900.0 Million Revolving Credit Facility. The Term Loan, which is pre-payable, also has a maturity coterminous with the \$900.0 Million Revolving Credit Facility due July 2020, with scheduled quarterly principal payments in years 2016 through 2020. As of December 31, 2016, the outstanding balance of the Term Loan was \$95.0 million.

Senior Notes. Interest on the \$325.0 million aggregate principal amount of CoreCivic's 4.125% senior notes issued in April 2013 (the 4.125% Senior Notes) accrues at the stated rate and is payable in April and October of each year. The 4.125% Senior Notes are scheduled to mature on April 1, 2020. Interest on the \$350.0 million aggregate principal amount of CoreCivic's 4.625% senior notes issued in April 2013 (the 4.625% Senior Notes) accrues at the stated rate and is payable in May and November of each year. The 4.625% Senior Notes are scheduled to mature on May 1, 2023. Interest on the \$250.0 million aggregate principal amount of CoreCivic's 5.0% senior notes issued in September 2015 (the 5.0% Senior Notes) accrues at the stated rate and is payable in April and October of each year. The 5.0% Senior Notes are scheduled to mature on October 15, 2022.

The 4.125% Senior Notes, the 4.625% Senior Notes, and the 5.0% Senior Notes, collectively referred to herein as the Senior Notes, are senior unsecured obligations of the Company and are guaranteed by all of the Company's subsidiaries that guarantee the \$900.0 Million Revolving Credit Facility. CoreCivic may redeem all or part of the Senior Notes at any time prior to three months before their respective maturity date at a make-whole redemption price, plus accrued and unpaid interest thereon to, but not including, the redemption date. Thereafter, the Senior Notes are redeemable at CoreCivic's option, in whole or in part, at a redemption price equal to 100% of the aggregate principal amount of the notes to be redeemed plus accrued and unpaid interest thereon to, but not including, the redemption date.

Table of Contents

CoreCivic may also seek to issue additional debt or equity securities from time to time when the Company determines that market conditions and the opportunity to utilize the proceeds from the issuance of such securities are favorable.

Guarantees and Covenants. All of the domestic subsidiaries of CoreCivic (as the parent corporation) have provided full and unconditional guarantees of the Senior Notes. Each of CoreCivic's subsidiaries guaranteeing the Senior Notes are 100% owned subsidiaries of CoreCivic; the subsidiary guarantees are full and unconditional and are joint and several obligations of the guarantors; and all non-guarantor subsidiaries are minor (as defined in Rule 3-10(h)(6) of Regulation S-X).

As of December 31, 2016, neither CoreCivic nor any of its subsidiary guarantors had any material or significant restrictions on CoreCivic's ability to obtain funds from its subsidiaries by dividend or loan or to transfer assets from such subsidiaries.

The indentures governing the Senior Notes contain certain customary covenants that, subject to certain exceptions and qualifications, restrict CoreCivic's ability to, among other things, make restricted payments; incur additional debt or issue certain types of preferred stock; create or permit to exist certain liens; consolidate, merge or transfer all or substantially all of CoreCivic's assets; and enter into transactions with affiliates. In addition, if CoreCivic sells certain assets (and generally does not use the proceeds of such sales for certain specified purposes) or experiences specific kinds of changes in control, CoreCivic must offer to repurchase all or a portion of the Senior Notes. The offer price for the Senior Notes in connection with an asset sale would be equal to 100% of the aggregate principal amount of the notes repurchased plus accrued and unpaid interest and liquidated damages, if any, on the notes repurchased to the date of purchase. The offer price for the Senior Notes in connection with a change in control would be 101% of the aggregate principal amount of the notes repurchased plus accrued and unpaid interest and liquidated damages, if any, on the notes repurchased to the date of purchase. The Senior Notes are also subject to certain cross-default provisions with the terms of CoreCivic's \$900.0 Million Revolving Credit Facility, as more fully described hereafter.

Other Debt Transactions

Letters of Credit. At December 31, 2016 and 2015, CoreCivic had \$9.1 million and \$14.5 million, respectively, in outstanding letters of credit. The letters of credit were issued to secure CoreCivic's workers' compensation and general liability insurance policies, performance bonds, and utility deposits. The letters of credit outstanding at December 31, 2016 and 2015 were provided by a sub-facility under the \$900.0 Million Revolving Credit Facility.

Table of Contents**Debt Maturities**

Scheduled principal payments as of December 31, 2016 for the next five years and thereafter were as follows (in thousands):

| | |
|-------------------|---------------------|
| 2017 | \$ 10,000 |
| 2018 | 10,000 |
| 2019 | 15,000 |
| 2020 | 820,000 |
| 2021 | |
| Thereafter | 600,000 |
| Total debt | \$ 1,455,000 |

Cross-Default Provisions

The provisions of CoreCivic's debt agreements relating to the \$900.0 Million Revolving Credit Facility and the Senior Notes contain certain cross-default provisions. Any events of default under the \$900.0 Million Revolving Credit Facility that results in the lenders' actual acceleration of amounts outstanding thereunder also result in an event of default under the Senior Notes. Additionally, any events of default under the Senior Notes that give rise to the ability of the holders of such indebtedness to exercise their acceleration rights also result in an event of default under the \$900.0 Million Revolving Credit Facility.

If CoreCivic were to be in default under the \$900.0 Million Revolving Credit Facility, and if the lenders under the \$900.0 Million Revolving Credit Facility elected to exercise their rights to accelerate CoreCivic's obligations under the \$900.0 Million Revolving Credit Facility, such events could result in the acceleration of all or a portion of CoreCivic's Senior Notes, which would have a material adverse effect on CoreCivic's liquidity and financial position. CoreCivic does not have sufficient working capital to satisfy its debt obligations in the event of an acceleration of all or a substantial portion of CoreCivic's outstanding indebtedness.

11. INCOME TAXES

As discussed in Note 1, the Company began operating in compliance with REIT requirements for federal income tax purposes effective January 1, 2013. As a REIT, the Company must distribute at least 90 percent of its taxable income (including dividends paid to it by its TRSs) and will not pay federal income taxes on the amount distributed to its stockholders. In addition, the Company must meet a number of other organizational and operational requirements. It is management's intention to adhere to these requirements and maintain the Company's REIT status. Most states where CoreCivic holds investments in real estate conform to the federal rules recognizing REITs. Certain subsidiaries have made an election with the Company to be treated as TRSs in conjunction with the Company's REIT election; the TRS elections permit CoreCivic to engage in certain business activities in which the REIT may not engage directly. A TRS is subject to federal and state income taxes on the income from these activities and therefore, CoreCivic includes a provision for taxes in its consolidated financial statements.

Table of Contents

Income tax expense is comprised of the following components (in thousands):

| | For the Years Ended December 31, | | |
|--|----------------------------------|----------|----------|
| | 2016 | 2015 | 2014 |
| Current income tax expense | | | |
| Federal | \$ 10,181 | \$ 2,519 | \$ 9,326 |
| State | 1,983 | 136 | 828 |
| | 12,164 | 2,655 | 10,154 |
| Deferred income tax expense (benefit) | | | |
| Federal | (3,400) | 5,589 | (2,280) |
| State | (511) | 117 | (931) |
| | (3,911) | 5,706 | (3,211) |
| Income tax expense | \$ 8,253 | \$ 8,361 | \$ 6,943 |

Significant components of CoreCivic's deferred tax assets and liabilities as of December 31, 2016 and 2015, are as follows (in thousands):

| | December 31, | |
|---|-----------------|-----------|
| | 2016 | 2015 |
| Noncurrent deferred tax assets: | | |
| Asset reserves and liabilities not yet deductible for tax | \$ 29,198 | \$ 28,589 |
| Tax over book basis of certain assets | 866 | 893 |
| Net operating loss and tax credit carryforwards | 5,487 | 5,287 |
| Intangible contract value | 2,570 | 2,717 |
| Other | 346 | 460 |
| Total noncurrent deferred tax assets | 38,467 | 37,946 |
| Less valuation allowance | (3,436) | (3,780) |
| Total noncurrent deferred tax assets | 35,031 | 34,166 |
| Noncurrent deferred tax liabilities: | | |
| Book over tax basis of certain assets | (9,386) | (15,238) |
| Intangible lease value | (8,368) | (8,862) |
| Other | (3,542) | (242) |
| Total noncurrent deferred tax liabilities | (21,296) | (24,342) |

| | | |
|--|------------------|-----------------|
| Net total noncurrent deferred tax assets | \$ 13,735 | \$ 9,824 |
|--|------------------|-----------------|

The tax benefits associated with equity-based compensation reduced income taxes payable by \$1.5 million, \$0.5 million, and \$0.7 million during 2016, 2015, and 2014, respectively. Such benefits were recorded as increases to stockholders' equity.

F - 32

Table of Contents

A reconciliation of the income tax provision at the statutory income tax rate and the effective tax rate as a percentage of income from continuing operations before income taxes for the years ended December 31, 2016, 2015, and 2014 is as follows:

| | 2016 | 2015 | 2014 |
|---|---------------|--------|--------|
| Statutory federal rate | 35.0% | 35.0% | 35.0% |
| Dividends paid deduction | (32.5) | (31.9) | (31.1) |
| State taxes, net of federal tax benefit | 1.1 | 0.9 | 0.8 |
| Permanent differences | 0.3 | 0.4 | 0.1 |
| Other items, net | (0.3) | (0.8) | (1.4) |
| | 3.6% | 3.6% | 3.4% |

CoreCivic's effective tax rate was 3.6%, 3.6%, and 3.4% during 2016, 2015, and 2014, respectively. As a REIT, CoreCivic is entitled to a deduction for dividends paid, resulting in a substantial reduction in the amount of federal income tax expense it recognizes. Substantially all of CoreCivic's income tax expense is incurred based on the earnings generated by its TRSs. CoreCivic's overall effective tax rate is estimated based on its current projection of taxable income primarily generated in its TRSs. The Company's consolidated effective tax rate could fluctuate in the future based on changes in estimates of taxable income, the relative amounts of taxable income generated by the TRSs and the REIT, the implementation of additional tax planning strategies, changes in federal or state tax rates or laws affecting tax credits available to the Company, changes in other tax laws, changes in estimates related to uncertain tax positions, or changes in state apportionment factors, as well as changes in the valuation allowance applied to the Company's deferred tax assets that are based primarily on the amount of state net operating losses and tax credits that could expire unused.

CoreCivic had no liabilities for uncertain tax positions as of December 31, 2016 and 2015. CoreCivic recognizes interest and penalties related to unrecognized tax positions in income tax expense. CoreCivic does not currently anticipate that the total amount of unrecognized tax positions will significantly change in the next twelve months. CoreCivic had an income tax receivable of \$8.8 million and \$21.2 million as of December 31, 2016 and 2015, respectively, representing overpayment of federal income tax, which is included in prepaid expenses and other current assets in the accompanying consolidated balance sheets.

CoreCivic's U.S. federal income tax returns for tax years 2013 through 2015 remain subject to examination by the Internal Revenue Service (IRS). The IRS completed an audit during the first quarter of 2016 of one of the Company's TRSs for the year ended December 31, 2013 with no material adjustments. All states in which CoreCivic files income tax returns follow the same statute of limitations as federal, with the exception of the following states whose open tax years include 2012 through 2015: Arizona, California, Colorado, Kentucky, Minnesota, New Jersey, Texas, and Wisconsin.

Table of Contents**12. STOCKHOLDERS EQUITY****Dividends on Common Stock**

The tax characterization of dividends per share on common shares as reported to stockholders was as follows for the years ended December 31, 2016, 2015, and 2014:

| Declaration Date | Record Date | Payable Date | Ordinary Income | Return of Capital | Total Per Share |
|-------------------|-----------------|------------------|-------------------------|----------------------|--------------------|
| February 20, 2014 | April 2, 2014 | April 15, 2014 | 0.51 ⁽¹⁾ | | \$ 0.51 |
| May 15, 2014 | July 2, 2014 | July 15, 2014 | 0.51 ⁽¹⁾ | | \$ 0.51 |
| August 14, 2014 | October 2, 2014 | October 15, 2014 | 0.51 ⁽¹⁾ | | \$ 0.51 |
| December 11, 2014 | January 2, 2015 | January 15, 2015 | 0.382836 ⁽²⁾ | 0.127164 | \$ 0.51 |
| February 20, 2015 | April 2, 2015 | April 15, 2015 | 0.405355 ⁽³⁾ | 0.134645 | \$ 0.54 |
| May 14, 2015 | July 2, 2015 | July 15, 2015 | 0.405355 ⁽³⁾ | 0.134645 | \$ 0.54 |
| August 13, 2015 | October 2, 2015 | October 15, 2015 | 0.405355 ⁽³⁾ | 0.134645 | \$ 0.54 |
| December 10, 2015 | January 4, 2016 | January 15, 2016 | 0.487167 ⁽⁴⁾ | 0.052833 | \$ 0.54 |
| February 19, 2016 | April 1, 2016 | April 15, 2016 | 0.487167 ⁽⁴⁾ | 0.052833 | \$ 0.54 |
| May 12, 2016 | July 1, 2016 | July 15, 2016 | 0.487167 ⁽⁴⁾ | 0.052833 | \$ 0.54 |
| August 11, 2016 | October 3, 2016 | October 17, 2016 | 0.487167 ⁽⁴⁾ | 0.052833 | \$ 0.54 |
| December 8, 2016 | January 3, 2017 | January 13, 2017 | (5) | (5) | \$ 0.42 |

(1) \$0.076573 of this amount constitutes a Qualified Dividend, as defined by the IRS.

(2) \$0.048357 of this amount constitutes a Qualified Dividend, as defined by the IRS.

(3) \$0.051202 of this amount constitutes a Qualified Dividend, as defined by the IRS.

(4) \$0.030979 of this amount constitutes a Qualified Dividend, as defined by the IRS.

(5) Taxable in 2017.

Future dividends will depend on CoreCivic's distribution requirements as a REIT, future earnings, capital requirements, financial condition, opportunities for alternative uses of capital, and on such other factors as the Board of Directors of CoreCivic may consider relevant.

Common Stock

Restricted shares. During 2016, CoreCivic issued approximately 635,000 shares of restricted common stock units (RSUs) to certain of its employees and non-employee directors, with an aggregate value of \$18.5 million, including 562,000 RSUs to employees and non-employee directors whose compensation is charged to general and administrative expense and 73,000 RSUs to employees whose compensation is charged to operating expense. During 2015, CoreCivic issued approximately 438,000 RSUs to certain of its employees and non-employee directors, with an aggregate value of \$17.5 million, including 385,000 RSUs to employees and non-employee directors whose compensation is charged to general and administrative expense and 53,000 RSUs to employees whose compensation is charged to operating expense.

CoreCivic established performance-based vesting conditions on the RSUs awarded to its officers and executive officers in years 2014 through 2016. Unless earlier vested under the terms of the agreements, RSUs issued to officers and executive officers in 2015 and 2016 are subject to vesting over a three-year period based upon the satisfaction of

certain annual performance criteria, and no more than one-third of the RSUs may vest in any one performance period. With respect to RSUs issued in 2014, no more than one-third of such shares or RSUs may vest in the first performance period; however, the performance criteria are cumulative for the three-year period. RSUs issued to other employees in 2016, unless earlier vested under the terms of the agreements, generally vest

Table of Contents

equally on the first, second, and third anniversary of the award. Shares of restricted stock and RSUs issued to other employees in years prior to 2016, unless earlier vested under the terms of the agreements, cliff vest on the third anniversary of the award. RSUs issued to non-employee directors vest one year from the date of award.

Nonvested restricted common stock transactions as of December 31, 2016 and for the year then ended are summarized below (in thousands, except per share amounts).

| | Shares of restricted common stock and RSUs | Weighted average grant date fair value |
|---------------------------------------|---|---|
| Nonvested at December 31, 2015 | 975 | \$ 36.65 |
| Granted | 635 | \$ 29.08 |
| Cancelled | (152) | \$ 31.53 |
| Vested | (414) | \$ 36.52 |
| Nonvested at December 31, 2016 | 1,044 | \$ 32.84 |

During 2016, 2015, and 2014, CoreCivic expensed \$17.8 million (\$1.7 million of which was recorded in operating expenses, \$14.4 million of which was recorded in general and administrative expenses, and \$1.7 million of which was recorded in restructuring charges), \$14.7 million (\$1.5 million of which was recorded in operating expenses and \$13.2 million of which was recorded in general and administrative expenses), and \$12.1 million (\$1.4 million of which was recorded in operating expenses and \$10.7 million of which was recorded in general and administrative expenses), net of forfeitures, relating to the restricted common stock and RSUs, respectively. As of December 31, 2016, CoreCivic had \$16.5 million of total unrecognized compensation cost related to RSUs that is expected to be recognized over a remaining weighted-average period of 1.7 years. The total fair value of restricted common stock and RSUs that vested during 2016, 2015, and 2014 was \$15.1 million, \$13.9 million, and \$9.8 million, respectively.

Restricted stock-based compensation expense of \$1.7 million for the year ended December 31, 2016 included in restructuring charges in the consolidated statement of operations reflects the voluntary forfeiture of RSUs awarded in February 2016 to CoreCivic's chief executive officer, in connection with a restructuring and cost reduction plan implemented during the third quarter of 2016, as further described in Note 13.

Preferred Stock

CoreCivic has the authority to issue 50.0 million shares of \$0.01 par value per share preferred stock (the Preferred Stock). The Preferred Stock may be issued from time to time upon authorization by the Board of Directors, in such series and with such preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends, qualifications or other provisions as may be fixed by CoreCivic's Board of Directors.

Stock Option Plans

CoreCivic has equity incentive plans under which, among other things, incentive and non-qualified stock options are granted to certain employees and non-employee directors of CoreCivic by the compensation committee of CoreCivic's Board of Directors. The options are granted with exercise prices equal to the fair market value on the date of grant. Vesting periods for options granted to employees generally range from three to four years. Options granted to non-employee directors vest on a date approximately following the first anniversary of the grant date. The term of such options is ten years from the date of grant.

Table of Contents

In years after 2012, CoreCivic elected not to issue stock options to its non-employee directors, officers, and executive officers as it had in the past and instead elected to issue all of its equity compensation in the form of restricted common stock and RSUs as previously described herein. During 2016, 2015, and 2014, CoreCivic expensed \$0.1 million, \$0.7 million, and \$1.9 million, respectively, net of estimated forfeitures, relating to its outstanding stock options, all of which was charged to general and administrative expenses.

Stock option transactions relating to CoreCivic's non-qualified stock option plans are summarized below (in thousands, except exercise prices):

| | No. of options | Weighted-Average Exercise Price of options | Weighted-Average Remaining Contractual Term | Aggregate Intrinsic Value |
|----------------------------------|----------------|--|---|---------------------------|
| Outstanding at December 31, 2015 | 1,467 | \$ 20.37 | | |
| Granted | | | | |
| Exercised | (140) | 18.81 | | |
| Cancelled | | | | |
| Outstanding at December 31, 2016 | 1,327 | \$ 20.53 | 3.2 | \$ 5,442 |
| Exercisable at December 31, 2016 | 1,327 | \$ 20.53 | 3.2 | \$ 5,442 |

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between CoreCivic's stock price as of December 31, 2016 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on December 31, 2016. This amount changes based on the fair market value of CoreCivic's stock. The total intrinsic value of options exercised during the years ended December 31, 2016, 2015, and 2014 was \$1.7 million, \$7.3 million, and \$12.3 million, respectively.

Nonvested stock option transactions relating to CoreCivic's non-qualified stock option plans as of December 31, 2016 and changes during the year ended December 31, 2016 are summarized below (in thousands, except grant date fair values):

| | Number of options | Weighted average grant date fair value |
|---------------------------------------|-------------------|--|
| Nonvested at December 31, 2015 | 51 | \$ 6.50 |
| Granted | | \$ |
| Cancelled | | \$ |
| Vested | (51) | \$ 6.50 |
| Nonvested at December 31, 2016 | | \$ |

As of December 31, 2016, CoreCivic had no unrecognized compensation cost related to stock options.

At CoreCivic's 2011 annual meeting of stockholders held in May 2011, CoreCivic's stockholders approved an amendment to the 2008 Stock Incentive Plan that increased the authorized limit on issuance of new awards to an aggregate of up to 18.0 million shares. In addition, during the 2003 annual meeting the stockholders approved the adoption of CoreCivic's Non-Employee Directors

Table of Contents

Compensation Plan, authorizing CoreCivic to issue up to 225,000 shares of common stock pursuant to the plan. As of December 31, 2016, CoreCivic had 9.2 million shares available for issuance under the Amended and Restated 2008 Stock Incentive Plan and 0.2 million shares available for issuance under the Non-Employee Directors Compensation Plan.

13. RESTRUCTURING AND COST REDUCTION PLAN

During the third quarter of 2016, CoreCivic announced a restructuring of its corporate operations and implementation of a cost reduction plan, resulting in the elimination of approximately 12% of the corporate workforce at its headquarters. The restructuring realigns the corporate structure to more effectively serve facility operations and support the progression of CoreCivic's business diversification strategy. CoreCivic reported a charge in the third quarter of 2016 of \$4.0 million associated with this restructuring. This charge primarily consists of cash payments for severance and related benefits to terminated employees and a non-cash charge associated with the voluntary forfeiture by CoreCivic's chief executive officer of an RSU award, as described in Note 12. The impact of these staffing reductions, together with the implementation of the cost reduction plan, are expected to result in annual expense savings of approximately \$9.0 million, most of which are general and administrative expenses. A substantial portion of these expense savings commenced in the fourth quarter of 2016.

14. EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the year. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the entity. For CoreCivic, diluted earnings per share is computed by dividing net income by the weighted average number of common shares after considering the additional dilution related to restricted share grants and stock options.

Table of Contents

A reconciliation of the numerator and denominator of the basic earnings per share computation to the numerator and denominator of the diluted earnings per share computation is as follows (in thousands, except per share data):

| | For the Years Ended December 31, | | |
|---|----------------------------------|----------------|----------------|
| | 2016 | 2015 | 2014 |
| NUMERATOR | | | |
| Basic: | | | |
| Net income | \$ 219,919 | \$ 221,854 | \$ 195,022 |
| Diluted: | | | |
| Net income | \$ 219,919 | \$ 221,854 | \$ 195,022 |
| DENOMINATOR | | | |
| Basic: | | | |
| Weighted average common shares outstanding | 117,384 | 116,949 | 116,109 |
| Diluted: | | | |
| Weighted average common shares outstanding | 117,384 | 116,949 | 116,109 |
| Effect of dilutive securities: | | | |
| Stock options | 306 | 631 | 895 |
| Restricted stock-based awards | 101 | 205 | 308 |
| Weighted average shares and assumed conversions | 117,791 | 117,785 | 117,312 |
| BASIC EARNINGS PER SHARE | \$ 1.87 | \$ 1.90 | \$ 1.68 |
| DILUTED EARNINGS PER SHARE | \$ 1.87 | \$ 1.88 | \$ 1.66 |

Approximately 268,000, 8,000, and 12,000 stock options were excluded from the computations of diluted earnings per share for the years ended December 31, 2016, 2015, and 2014, respectively, because they were anti-dilutive.

15. COMMITMENTS AND CONTINGENCIES**Legal Proceedings**

General. The nature of CoreCivic's business results in claims and litigation alleging that it is liable for damages arising from the conduct of its employees, offenders or others. The nature of such claims includes, but is not limited to, claims arising from employee or offender misconduct, medical malpractice, employment matters, property loss, contractual claims, including claims regarding compliance with contract performance requirements, and personal injury or other damages resulting from contact with CoreCivic's facilities, personnel or offenders, including damages arising from an offender's escape or from a disturbance at a facility. CoreCivic maintains insurance to cover many of these claims, which may mitigate the risk that any single claim would have a material effect on CoreCivic's consolidated financial position, results of operations, or cash flows, provided the claim is one for which coverage is available. The combination of self-insured retentions and deductible amounts means that, in the aggregate, CoreCivic is subject to substantial self-insurance risk.

CoreCivic records litigation reserves related to certain matters for which it is probable that a loss has been incurred and the range of such loss can be estimated. Based upon management's review of the potential claims and outstanding litigation and based upon management's experience and history of estimating losses, and taking into consideration CoreCivic's self-insured retention amounts, management believes a loss in excess of amounts already recognized would not be material to

F - 38

Table of Contents

CoreCivic's financial statements. In the opinion of management, there are no pending legal proceedings that would have a material effect on CoreCivic's consolidated financial position, results of operations, or cash flows. Any receivable for insurance recoveries is recorded separately from the corresponding litigation reserve, and only if recovery is determined to be probable. Adversarial proceedings and litigation are, however, subject to inherent uncertainties, and unfavorable decisions and rulings resulting from legal proceedings could occur which could have a material adverse impact on CoreCivic's consolidated financial position, results of operations, or cash flows for the period in which such decisions or rulings occur, or future periods. Expenses associated with legal proceedings may also fluctuate from quarter to quarter based on changes in CoreCivic's assumptions, new developments, or by the effectiveness of CoreCivic's litigation and settlement strategies.

Insurance Contingencies

Each of CoreCivic's management contracts and the statutes of certain states require the maintenance of insurance. CoreCivic maintains various insurance policies including employee health, workers' compensation, automobile liability, and general liability insurance. These policies are fixed premium policies with various deductible amounts that are self-funded by CoreCivic. Reserves are provided for estimated incurred claims for which it is probable that a loss has been incurred and the range of such loss can be estimated.

Guarantees

Hardeman County Correctional Facilities Corporation (HCCFC) is a nonprofit, mutual benefit corporation organized under the Tennessee Nonprofit Corporation Act to purchase, construct, improve, equip, finance, own and manage a detention facility located in Hardeman County, Tennessee. HCCFC was created as an instrumentality of Hardeman County to implement the County's incarceration agreement with the state of Tennessee to house certain inmates.

During 1997, HCCFC issued \$72.7 million of revenue bonds, which were primarily used for the construction of a 2,016-bed medium security correctional facility. In addition, HCCFC entered into a construction and management agreement with CoreCivic in order to assure the timely and coordinated acquisition, construction, development, marketing and operation of the correctional facility.

HCCFC leases the correctional facility to Hardeman County in exchange for all revenue from the operation of the facility. HCCFC has, in turn, entered into a management agreement with CoreCivic for the correctional facility.

In connection with the issuance of the revenue bonds, CoreCivic is obligated, under a debt service deficit agreement, to pay the trustee of the bond's trust indenture (the Trustee) amounts necessary to pay any debt service deficits consisting of principal and interest requirements (outstanding principal balance of \$6.6 million at December 31, 2016 plus future interest payments). In the event the state of Tennessee, which is currently utilizing the facility to house certain inmates, exercises its option to purchase the correctional facility, CoreCivic is also obligated to pay the difference between principal and interest owed on the bonds on the date set for the redemption of the bonds and amounts paid by the state of Tennessee for the facility plus all other funds on deposit with the Trustee and available for redemption of the bonds. At the option of the state of Tennessee, ownership of the facility would revert to the State in August 2017 at no cost. Therefore, CoreCivic does not currently believe the state of Tennessee will exercise its option to purchase the facility. At December 31, 2016, the outstanding principal balance of the bonds exceeded the purchase price option by \$4.6 million.

Table of Contents**Retirement Plan**

All employees of CoreCivic are eligible to participate in the Corrections Corporation of America 401(k) Savings and Retirement Plan (the Plan) upon reaching age 18 and completing one year of qualified service. Eligible employees may contribute up to 90% of their eligible compensation, subject to IRS limitations. For the years ended December 31, 2016, 2015, and 2014, CoreCivic provided a discretionary matching contribution equal to 100% of the employee's contributions up to 5% of the employee's eligible compensation to employees with at least one thousand hours of employment in the plan year. Prior to January 1, 2012, employer contributions were made to those who were employed by CoreCivic on the last day of the plan year, and investment earnings or losses thereon become vested 20% after two years of service, 40% after three years of service, 80% after four years of service, and 100% after five or more years of service. Effective January 1, 2012, the Plan adopted a safe harbor provision that provides, among other changes, future employer matching contributions to be paid into the Plan each pay period and vest immediately.

During 2016, 2015, and 2014, CoreCivic's discretionary contributions to the Plan, net of forfeitures, were \$12.0 million, \$12.0 million, and \$11.1 million, respectively.

Deferred Compensation Plans

During 2002, the compensation committee of the board of directors approved CoreCivic's adoption of two non-qualified deferred compensation plans (the Deferred Compensation Plans) for non-employee directors and for certain senior executives. The Deferred Compensation Plans are unfunded plans maintained for the purpose of providing CoreCivic's directors and certain of its senior executives the opportunity to defer a portion of their compensation. Under the terms of the Deferred Compensation Plans, certain senior executives may elect to contribute on a pre-tax basis up to 50% of their base salary and up to 100% of their cash bonus, and non-employee directors may elect to contribute on a pre-tax basis up to 100% of their director retainer and meeting fees. During the years ended December 31, 2016, 2015, and 2014, CoreCivic matched 100% of employee contributions up to 5% of total cash compensation. CoreCivic also contributes a fixed rate of return on balances in the Deferred Compensation Plans, determined at the beginning of each plan year. Matching contributions and investment earnings thereon become vested 20% after two years of service, 40% after three years of service, 80% after four years of service, and 100% after five or more years of service. Distributions are generally payable no earlier than five years subsequent to the date an individual becomes a participant in the Plan, or upon termination of employment (or the date a director ceases to serve as a director of CoreCivic), at the election of the participant. Distributions to senior executives must commence on or before the later of 60 days after the participant's separation from service or the fifteenth day of the month following the month the individual attains age 65.

During 2016, 2015, and 2014, CoreCivic provided a fixed return of 5.45%, 5.6%, and 5.6%, respectively, to participants in the Deferred Compensation Plans. CoreCivic has purchased life insurance policies on the lives of certain employees of CoreCivic, which are intended to fund distributions from the Deferred Compensation Plans. CoreCivic is the sole beneficiary of such policies. At the inception of the Deferred Compensation Plans, CoreCivic established an irrevocable Rabbi Trust to secure the plans' obligations. However, assets in the Deferred Compensation Plans are subject to creditor claims in the event of bankruptcy. During 2016, 2015, and 2014, CoreCivic recorded \$0.2 million, \$0.3 million, and \$0.2 million, respectively, of matching contributions as general and administrative expense associated with the Deferred Compensation Plans. Assets in the Rabbi Trust were \$13.1 million and \$16.9 million as of December 31, 2016 and 2015, respectively. As of December 31, 2016 and 2015, CoreCivic's

Table of Contents

liability related to the Deferred Compensation Plans was \$10.6 million and \$15.1 million, respectively, which was reflected in accounts payable and accrued expenses and other liabilities in the accompanying balance sheets.

Employment and Severance Agreements

CoreCivic currently has employment agreements with several of its executive officers, which provide for the payment of certain severance amounts upon termination of employment under certain circumstances or a change of control, as defined in the agreements.

16. SEGMENT REPORTING

As of December 31, 2016, CoreCivic owned and managed 66 facilities, and managed 11 facilities it did not own. In addition, CoreCivic owned eight facilities that it leased to third-party operators. Management views CoreCivic's operating results in one operating segment. However, the Company has chosen to report financial performance segregated for (1) owned and managed facilities and (2) managed-only facilities as the Company believes this information is useful to users of the financial statements. Owned and managed facilities include the operating results of those facilities placed into service that were owned or controlled via a long-term lease and managed by CoreCivic. Managed-only facilities include the operating results of those facilities owned by a third party and managed by CoreCivic. The operating performance of the owned and managed and the managed-only facilities can be measured based on their net operating income. CoreCivic defines facility net operating income as a facility's operating income or loss from operations before interest, taxes, asset impairments, depreciation, and amortization.

Table of Contents

The revenue and net operating income for the owned and managed and the managed-only facilities and a reconciliation to CoreCivic's operating income is as follows for the three years ended December 31, 2016, 2015, and 2014 (in thousands):

| | For the Years Ended December 31, | | |
|--|----------------------------------|--------------|--------------|
| | 2016 | 2015 | 2014 |
| Revenue: | | | |

| Total assets | \$ 3,271,604 | \$ 3,356,018 |

Table of Contents

17. SUBSEQUENT EVENTS

During February 2017, CoreCivic issued approximately 0.5 million RSUs to certain of CoreCivic's employees and non-employee directors, with an aggregate value of \$17.7 million. Unless earlier vested under the terms of the RSU agreement, approximately 0.3 million RSUs were issued to officers and executive officers and are subject to vesting over a three-year period based upon satisfaction of certain annual performance criteria for the fiscal years ending December 31, 2017, 2018, and 2019. Approximately 0.2 million RSUs issued to other employees vest evenly on the first, second, and third anniversary of the award. Shares of RSUs issued to non-employee directors vest on the first anniversary of the award. Any RSUs that become vested will be settled in shares of CoreCivic's common stock.

On February 17, 2017, the Company's Board of Directors declared a quarterly dividend of \$0.42 per common share payable April 17, 2017 to stockholders of record on April 3, 2017.

18. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS OF CORECIVIC AND SUBSIDIARIES

The following condensed consolidating financial statements of CoreCivic and subsidiaries have been prepared pursuant to Rule 3-10 of Regulation S-X. These condensed consolidating financial statements have been prepared from the Company's financial information on the same basis of accounting as the consolidated financial statements.

NOTES TO SCHEDULE III - REAL ESTATE ASSETS AND ACCUMULATED DEPRECIATION

- (A) The aggregate cost of properties for federal income tax purposes is approximately \$3.6 billion at December 31, 2016.
- (B) Depreciation is calculated using estimated useful lives of depreciable assets up to 50 years for prison facilities.
- (C) CoreCivic recorded non-cash impairments during the fourth quarter of 2014 to write down the book values of the Queensgate and Mineral Wells facilities to the estimated fair values assuming asset sales for uses other than correctional facilities.
- (D)

We transitioned operations from the 1,154-bed San Diego Correctional Facility to the newly constructed 1,482-bed Otay Mesa Detention Center in the fourth quarter of 2015. The San Diego Correctional Facility was subject to a ground lease with the County of San Diego. Upon expiration of the lease on December 31, 2015, ownership of the facility automatically reverted to the County of San Diego.

- (E) The South Texas Family Residential Center is subject to a lease agreement with a third-party lessor. This agreement resulted in CoreCivic being deemed the owner of the newly constructed assets for accounting purposes, in accordance with ASC 840-40-55, formerly Emerging Issues Task Force No. 97-10, The Effect of Lessee Involvement in Asset Construction.
