Financial restructuring plan

July 28, lenders committee and bondholder general meeting approved the safeguard plan

Late September, impaired classes of creditors validated the Chapter 11 plan in the US

November 13, EGM on second notice for shareholders to approve the necessary resolutions for the implementation of the financial restructuring plan

November 20, French commercial court hearing on safeguard plan and claim filed by some convertibles bondholders

Subject in particular to the approval of the EGM and the sanctioning of the draft safeguard plan by the French commercial court, the financial restructuring plan should be implemented in Q1 2018

¹ Figures before Non-Recurring Charges related to the Transformation Plan and data library impairment **PARIS, France November 13th 2017 CGG** (ISIN: FR0013181864 NYSE: CGG), **world leader in Geoscience**, announced today its 2017 third quarter unaudited results.

Commenting on these results, Jean-Georges Malcor, CGG CEO, said:

In a challenging geoscience market environment, the strong commitment from our teams, the operating performance in all activities and the strategic positioning of our multi-client library have allowed us to reach a revenue of \$320 million and an EBITDAs of \$90 million this quarter.

The year-to-date revenue were \$919 million, up 6% from last year, despite still very low equipment sales. On this basis, we reiterate our 2017 outlook, with an EBITDAs level expected to be in line with 2016 and with lower cash flow generation.

In parallel, we achieved progress in our financial restructuring process initiated early in the year, in obtaining approval from lenders committee and bondholder general meeting in France on the safeguard plan on July 28th, and approval from the American Court on the Chapter 11 plan on October 16th.

The next decisive step for CGG's sustainability is the approval of the necessary resolutions to implement the financial restructuring plan at the shareholders' Extraordinary General Meeting held today on second notice.

This proposed plan would result in a \$2 billion net debt reduction and would provide the necessary liquidity to support the Company's turnaround, while allowing shareholders to participate in the recovery.

Post-closing event

On October 13, 2017 we made available to the public a prospectus (in the French language, AMF visa n°17-551) in connection with certain issuances provided for under the draft safeguard plan and the Chapter 11 plan in the context of the financial restructuring plan of CGG. The prospectus comprises the CGG reference document (document de référence), filed with the Financial Markets Authority on May 1, 2017, the update of the Company's Reference Document filed with the AMF on October 13, the securities note (including a summary of the prospectus) dated October 13, 2017, and a summary of the prospectus

On October 16, 2017, the relevant U.S. Bankruptcy Court confirmed the Chapter 11 plan

On October 17, 2017, a Securities Note Supplement was made available. It describes the undertaking of Bpifrance Participations to vote in favor of the resolutions required to implement the financial restructuring plan, as well as the related undertakings made by the Company and certain of its creditors in the context of the safeguard proceedings. It also specifies that the U.S. Bankruptcy Court has, on October 16, 2017, entered an order confirming the Chapter 11 plan

On October 31, 2017, a quorum of 22.48% of the share capital was present at the General Meeting of shareholders, which allowed a vote on the ordinary part of the agenda, i.e. mainly approval of the 2016 consolidated annual financial statements. However, such representation was not sufficient to allow the general meeting to vote on the resolutions required to implement the financial restructuring plan. The required quorum for the extraordinary part of the general meeting on first notice is 25% of the share capital, and 20% on second notice

CGG, the creditors who support the proposed restructuring plan, and DNCA agreed to maintain their undertakings in the Lock-Up Agreement, subject to the General Meeting of shareholders being held no later than November 17, 2017. An Extraordinary General Meeting of shareholders has been convened on second notice, on November 13, 2017, to vote on the resolutions required to implement the financial restructuring plan. Bpifrance Participations (which represents approximately 9.35% of the share capital and 10.9% of the voting rights) and DNCA (which represents approximately 7.9% of the share capital and approximately 7.8% of the voting rights) have undertaken to vote in favor of such resolutions

Going concern

On June 14, 2017, a French safeguard procedure was opened with respect to the Company and, on the same date, a US Chapter 11 procedure was opened with respect to 14 of its direct or indirect subsidiaries which are guarantors of the secured debt (French and US Revolving Credit Facilities and Term Loan B) and / or the Senior Notes. Under the umbrella of these legal procedures, the holders of such debt and holders of our convertible bonds (c. U.S. \$2.8 billion outstanding principal amount in total) can no longer call for any accelerated repayment. This provides the Group with a protective framework to conduct its businesses in the ordinary course and the Group stakeholders with a limited period of time to approve a restructuring plan.

The main features of the proposed restructuring plan were disclosed together with the announcement of the above-mentioned court procedures on June 14, 2017:

Full conversion of unsecured debt (Senior Notes and convertible bonds) into equity;

Secured debt (French and US Revolving Credit Facilities and Term Loan B) exchanged for new secured first lien senior notes with a 5-year maturity;

Up to U.S.\$500 million of new money raised through a U.S.\$125 million rights issue and the issuance of U.S.\$375 million of new secured second lien senior notes (with warrants) with a 6-year maturity.

As of November 10, 2017, the Group faces material uncertainties that may cast substantial doubt upon its ability to continue as a going concern. Even under the protection of the court procedures mentioned above, and despite having successfully implemented during the first six months of 2017 all planned specific actions related to marine liabilities, fleet ownership and major contract factoring, the U.S. \$333 million of Group liquidity as of September 30, 2017 does not allow us to fully fund our current operations until at least September 30, 2018.

The ability of the Group to continue as a going concern depends essentially on the effective and timely implementation of the proposed restructuring plan, especially the raising of up to U.S. \$500 million of new money by early 2018. Should the shareholders or the French Court fail to approve the proposed restructuring plan and/or should the targeted implementation timetable of such restructuring plan not be met, the Group liquidity would decrease below the required level to run the operations no later than in the first quarter of 2018 according to the Company cash flow forecasts. If the U.S.\$500 million new money is raised in the first quarter of 2018 in accordance with the proposed restructuring plan, the Group liquidity is expected to be sufficient to fund our current operations until September 30, 2018 at least.

Following the successful completion of the private placement of the commitments to subscribe the new money secured second lien senior notes in a principal amount of U.S.\$375 million (with warrants) in early July, the proposed restructuring plan is now supported, through signed lock-up agreements, by the required majorities of creditors. The financial restructuring plan was adopted (i) on July 28, 2017 by the lenders' committee (unanimously) and by the general meeting of bondholders (by 93.5% of the creditors who cast a vote) as part of the safeguard procedure and (ii) late September 2017, by the creditor classes entitled to vote on the Chapter 11 plan. The General Meeting of shareholders held on October 31, 2017 did not meet the required quorum (22.48% compared to the 25% quorum required on first notice) to vote on the resolutions needed to implement the financial restructuring plan. An Extraordinary General Meeting of shareholders has been convened on second notice for November 13, 2017 with a lower quorum required (20%). Bpifrance Participations (which represents approximately 9.35% of the share capital and 10.9% of the voting rights) and DNCA (which represents approximately 7.9% of the share capital and 7.8% of the

voting rights) have undertaken to vote in favor of such resolutions. On that basis, and in light of the terms of the restructuring plan proposed for the various stakeholders, the Company believes that the implementation of the restructuring plan in the first quarter of 2018 is a reasonable assumption.

Having carefully considered the above, the Company on November 10, 2017 concluded that preparing the September 30, 2017 consolidated financial statements on a going concern basis is an appropriate assumption.

GGR Total Revenue was \$186 million, down 4% year-on-year and 16% sequentially.

Multi-Client revenue was \$106 million, up 7% year-on-year and down 20% sequentially. 33% of the fleet was allocated to multi-client programs compared to 71% in Q3 2016 and 48% in Q2 2017. Multi-client sales were the highest in Brazil and onshore US.

Prefunding revenue was \$70 million, down 21% year-on-year and 4% sequentially. Multi-client cash capex was at \$54 million, down 32% year-on-year and 11% sequentially. The cash prefunding rate was at 131% versus 112% in Q3 2016.

After-sales revenue was \$35 million, up 247% year-on-year and down 40% sequentially.

Subsurface Imaging & Reservoir revenue was \$80 million, down 15% year-on-year and 9% sequentially.

Reservoir businesses were impacted by clients' low capex spending.

GGR EBITDAs was \$102 million, a 54.9% margin.

GGR Operating Income was \$12 million, a 6.3% margin. The multi-client depreciation rate totaled 72%, leading to a library Net Book Value of \$818 million at the end of September, split 90% offshore and 10% onshore.

GGR Capital Employed was down to \$2.2 billion at the end of September 2017.

Capital Employed (in billion \$)	0.7	0.6	0.6	NA	NA

Equipment Total Revenue was \$40 million, down 26% year-on-year and 25% sequentially. This drop was driven by much lower internal sales which reached \$4m in 2017 versus \$20m in Q3 2016. External sales were \$36 million, up 7% year-on-year and down 24% sequentially. Land and marine seismic equipment sales were still impacted by low demand this quarter.

Land equipment sales represented 63% of total sales, compared to 48% in the third quarter of 2016, with artificial lift business strengthening.

Marine equipment sales represented 37% of total sales, compared to 52% in the third quarter of 2016, driven notably by various sentinel sections deliveries.

Equipment EBITDAs was \$(8) million, a margin of (20.9)%.

Equipment Operating Income was \$(16) million, a margin of (39.7)%.

Equipment Capital Employed was stable at \$0.6 billion at the end of September 2017.

Capital Employed (in billion \$)	0.5	0.4	0.4	NA	NA

Contractual Data Acquisition Total Revenue was \$99 million, up 158% year-on-year and 20% sequentially.

Contractual Marine Data Acquisition revenue was \$71 million, up 306% year-on-year and 17% sequentially. Our vessel availability rate was 99%. This compares to 94% in the third quarter of 2016 and 100% in the second quarter of 2017. Our vessel production rate was 96%. This compares to 93% in the third quarter of 2016 and 98% in the second quarter of 2017.

The increase in revenue can mainly be explained by the higher dedication to contractual surveys, as 67% of the fleet was executing contractual jobs versus 29% in Q3 2016. This was coupled with the continued strong fleet metrics of vessel availability and production rates.

Land and Multi-Physics Data Acquisition revenue was \$28 million, up 33% year-on-year and 31% sequentially. Land activity increased this quarter. Airborne is beginning to see improvements in the mining market.

Contractual Data Acquisition EBITDAs was \$5 million, a margin of 5.2%.

Contractual Data Acquisition Operating Income was \$(7) million, a margin of (7.2)%. Contractual Data Acquisition activities continued to suffer from a still competitive market, mitigated by the strong fleet productivity and the positive impact of Global Seismic Shipping (GSS) JV on the cost structure.

Contractual Data Acquisition Capital Employed was stable at \$0.4 billion at the end of September 2017.

Non-Operated Resources

The **Non-Operated Resources Segment** comprises, in terms of EBITDAs and Operating Income, the costs relating to non-operated resources.

Non-Operated Resources EBITDAs was \$(2) million.

Non-Operated Resources Operating Income was \$(4) million. The amortization of excess streamers has a negative impact on the contribution of this segment.

The equity from investments includes the impact of 50% of the Global Seismic Shipping (GSS) JV, which we own with Eidesvik. Seven vessels were transferred to GSS in Q1 2017, four of them are cold-stacked.

Non-Operated Resources Capital Employed was nil at the end of September 2017.

Third quarter 2017 financial results

Group Total Revenue was \$320 million, up 21% year-on-year and down 8% sequentially. The respective contributions from the Group's businesses were 58% from GGR, 11% from Equipment and 31% from Contractual Data Acquisition.

Group EBITDAs was \$90 million, a 28.0% margin, and \$53 million after \$(36) million of Non-Recurring Charges (NRC) related to the Transformation Plan. Excluding Non-Operated Resources (NOR), and to focus solely on the performance of our active Business Lines, Group EBITDAs was \$91 million.

Group Operating Income was \$(24) million, a (7.5)% margin, and \$(60) million after \$(36) million of NRC. Excluding NOR, and to focus solely on the performance of our active Business Lines, Group Operating Income was \$(20) million.

Equity from Investments contribution was \$(11) million and can mainly be explained by the negative contribution from the Global Seismic Shipping (GSS) JV and Seabed Geosolutions JV this quarter.

Total **non-recurring charges** were \$36 million, mainly related to the financial restructuring.

Net financial costs were \$64 million:

Cost of debt was \$69 million, including \$21 million of accelerated amortization of historical issuing fees.
The total amount of interest paid during the quarter was \$15 million

Other financial items were positive \$4 million

Income Taxes were positive \$12 million.

Group Net Income was \$(124) million after NRC.

After minority interests, **Net Income attributable to the owners of CGG** was a loss of \$(125) million / (106) million. EPS was negative at \$(5.64) / (4.77).

Cash Flow

Cash Flow from operations was \$69 million compared to \$22 million for the third quarter of 2016. After cash Non-Recurring Charges, the Cash Flow from operations was \$94 million.

Global Capex was \$66 million, down 35% year-on-year and 15% sequentially.

Industrial capex was \$5 million, down 69% year-on-year and 52% sequentially

Research & Development capex was \$8 million, stable year-on-year and down 7% sequentially

Multi-client cash capex was \$54 million, down 32% year-on-year and 11% sequentially. After the payment of interest expenses and Capex and before cash NRC, **Free Cash Flow** was at \$(11) million compared to \$(105) million for the third quarter of 2016. After cash NRC, Free Cash Flow was at \$14 million. The positive impact is mainly explained by the accelerated refund of French tax credit of \$40m which was triggered by the safeguard regime.

Year-to-Date 2017 Financial Results

Group Total Revenue was \$919 million, up 6% compared to 2016. The respective contributions from the Group's businesses were 61% from GGR, 12% from Equipment and 27% from Contractual Data Acquisition.

Group EBITDAs was \$238 million, a 25.9% margin, and \$78 million after \$(161) million of NRC related to the Transformation Plan. Excluding NOR, and to focus solely on the performance of our active Business Lines, Group EBITDAs was \$250 million.

Group Operating Income was \$(95) million, a (10.3)% margin, and \$(256) million after \$(161) million of NRC. Excluding NOR, and to focus solely on the performance of our active Business Lines, Group Operating Income was \$(65) million.

GGR operating income margin was at 11.9%. Multi-Client sales reached \$310 million with a cash prefunding rate of 121%. Our highest offshore multi-client sales were made in Gulf of Mexico and Brazil. The depreciation rate was 68% leading to a Net Book Value of \$818 million at the end of September. Subsurface Imaging delivered a resilient performance, while reservoir businesses were impacted by clients' low capex spending.

Equipment operating income margin was at (35.8)%. Despite very efficient cost management and its manufacturing flexibility, very low volumes continue to strongly impact the profitability of this segment.

Contractual Data Acquisition operating income margin was at (23.6)% due to weak pricing conditions in Marine, despite our fleet's good operational performance with a high production rate at 97%. 63% of our fleet was dedicated to the contractual market over the first nine months as we executed a large contract in Mexico. Land and Multi-Physics acquisition continued to suffer from a global low level of activity and slow clients' decision process.

NOR operating income was at \$(30) million.

Equity from Investments contribution was \$(11) million year-to-date, mainly explained by the negative contribution from the Global Seismic Shipping (GSS) JV and the Seabed Geosolutions JV.

Total **non-recurring charges** (NRC) were \$161 million:

\$81 million of financial restructuring costs

\$80 million of Group Transformation Plan charges, mainly related to Global Seismic Shipping set up.
Net financial costs were \$161 million:

Cost of debt was \$164 million, including \$21 million of accelerated amortization of historical issuing fees.
The total amount of interest paid was \$72 million

Other financial items were positive at \$3 million

Income Taxes were \$12 million.

Group Net Income was \$(439) million after NRC.

After minority interests, **Net Income attributable to the owners of CGG** was a loss of \$(438) million / (396) million. EPS was negative at \$(19.79) / (17.89).

Cash Flow

Cash Flow from operations was \$156 million before NRC, compared to \$393 million for the first nine months of 2016. Cash Flow from operations was \$81 million after cash NRC.

Global Capex was \$212 million, down 31% year-on-year:

Industrial capex was \$28 million, down 35% year-on-year

Research & development capex was \$22 million, down 14% year-on-year

Multi-client cash capex was \$162 million, down 33% year-on-year

After the payment of interest expenses and Capex and before NRC, **Free Cash Flow** was \$(109) million compared to \$(9) million for the first nine months of 2016. After cash NRC, Free Cash Flow was \$(184) million.

Balance Sheet

Group gross debt was \$2.904 billion at the end of September 2017. Available cash was \$333 million and Group **net debt** was \$2.571 billion.

The net debt to shareholders equity ratio, at the end of September 2017, was 441% compared to 206% at the end of December 2016.

The Group's **liquidity** amounted to \$333 million at the end of September 2017.

Leverage ratio and interest cover ratio are not applicable as of September 30, 2017 as a result of the French safeguard procedure and US Chapter 11 procedure.

Consistent with the financial statements as of December 31, 2016, it appears that reclassifying the financial debt as a current liability is the most appropriate accounting treatment according to IAS 1 for the interim financial statements authorized for issue by the Audit Committee on November 10, 2017. This pure accounting reclassification does not question the going concern assumption. Together, the coordinated proceedings in France and the U.S. prevented acceleration of the debt in France and stayed enforcement in respect of the debt outside of France.
