**Item 8.01. Other Events.**

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act (the Tax Act). The new law makes broad and complex changes to the U.S. tax code and it will take time to fully evaluate the impact on the Company of these changes.

The Company currently estimates that the Tax Act will result in an approximately \$216,000 charge against net income primarily due to the write down of its deferred tax assets as a result of the Tax Act's reduction in the base corporate tax rate from 35% to 21%. The actual amount of this adjustment may vary and will be calculated based on year-end tax balances and valuation assessments of the tax assets.

The impacts of the Tax Act in the fourth quarter will minimally reduce our regulatory capital and our capital ratios, although our capital ratios are expected to remain well above all minimum regulatory capital requirements, and the reduction in the U.S. corporate tax rate is expected to increase our future capacity to generate capital.

While the Tax Act will negatively impact earnings for the fourth quarter of 2017, the lower corporate rate is expected to be a significant ongoing benefit to the Company.

The Company will continue to analyze the Tax Act to determine the full effects of the new law, including the new lower corporate tax rate, on its financial condition and results of operations. The Company intends to announce financial results for the quarter and year ended December 31, 2017, on or around January 25th, 2018.
