**Conflict Minerals Disclosure for the year ended December 31, 2017:**

**Item 1.01 Conflict Minerals Disclosure and Report**  
**Conflict Minerals Disclosure**

Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act defines conflict minerals as cassiterite (tin), columbite-tantalite (tantalum), gold, wolframite (tungsten), or their derivatives ( Conflict Minerals ). In 2017, GNC manufactured and sold certain products that contained a Conflict Mineral. GNC conducted a good faith reasonable country of origin inquiry regarding the Conflict Mineral contained in the products that we sold. This inquiry included obtaining from all suppliers of the Conflict Mineral certifications that such Conflict Mineral did not come from the Democratic Republic of the Congo or any adjoining countries. Based on its reasonable country of origin inquiry, GNC concluded that it has no reason to believe that such Conflict Mineral may have originated in the Democratic Republic of the Congo or any adjoining countries.

Other than the above, GNC does not believe any of its other products manufactured and sold in 2017 contained any Conflict Minerals.

This Conflict Minerals Disclosure is also available on GNC's website: [www.gnc.com](http://www.gnc.com) (on the Investor Relations page under the SEC Filings subpage).
