Report on the review of quarterly information ITR

To the Shareholders, Directors and Management of

Ultrapar Participações S.A.

São Paulo, SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Ultrapar Participações S.A. (Company), comprised in the Quarterly Financial Information ITR Form for the quarter ended September 30, 2018, which comprise the balance sheet as of September 30, 2018 and related statements of income, comprehensive income for the three and nine-month period then ended and changes in shareholders' equity and cash flows for the nine-month period then ended, including the explanatory notes.

The Company's Management is responsible for the preparation of the interim financial information in accordance with Technical Pronouncement CPC 21(R1) Interim Financial Information and with International Standard IAS 34 Interim Financial Reporting, issued by the International Accounting Standards Board IASB, such as for the presentation of these information in a manner consistent with the standards issued by the Brazilian Securities Commission, applicable to the preparation of the Quarterly Financial Information ITR. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of the review

Our review was carried out in accordance with the Brazilian and international review standards for interim information (NBC TR 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the individual and consolidated interim financial information included in the quarterly information referred to above was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34, issued by the IASB applicable to the preparation of Quarterly Financial Information ITR and presented in accordance with the standards issued by the Brazilian Securities Commission CVM.

Other matters

Interim statements of value added

The individual and consolidated statements of value added for the nine-month period ended September 30, 2018, prepared under the responsibility of the Company's management, and presented as supplementary information for the purposes of IAS 34, were submitted to the same review procedures followed together with the review of the Company's interim financial information. In order to form our conclusion, we evaluated whether these statements are reconciled to the interim financial information and to the accounting records, as applicable, and whether their form and content are in accordance with the criteria set on Technical Pronouncement CPC 09 Statement of Value Added. Based on our review, nothing has come to our attention that causes us to believe that the accompanying statements of value added are not prepared, in all material respects, in accordance with the individual and consolidated interim financial information taken as a whole.

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

1. Operations

Ultrapar Participações S.A. (Ultrapar or Company) is a publicly-traded company headquartered at the Brigadeiro Luis Antônio Avenue, 1343 in the city of São Paulo SP, Brazil.

The Company engages in the investment of its own capital in services, commercial, and industrial activities, through the subscription or acquisition of shares of other companies. Through its subsidiaries, it operates in the segments of liquefied petroleum gas LPG distribution (Ultragaz), fuel distribution and related businesses (Ipiranga), production and marketing of chemicals (Oxiteno), and storage services for liquid bulk (Ultracargo) and retail distribution of pharmaceutical, hygiene, beauty, and skincare products, through Imifarma Produtos Farmacêuticos e Cosméticos S.A. (Extrafarma). For further information about segments, see Note 32.

2. Presentation of Interim Financial Information and Summary of Significant Accounting Policies

The Company's individual and consolidated interim financial information were prepared in accordance with the International Accounting Standard (IAS) 34 Interim Financial Reporting issued by the International Accounting Standards Board (IASB) and in accordance with the pronouncement CPC 21 (R1) issued by the Accounting Pronouncements Committee (CPC) and approved by the Brazilian Securities and Exchange Commission (CVM).

All relevant specific information of the interim financial information, and only this information, is being presented and correspond to that used by the Company's and its subsidiaries Management.

The presentation currency of the Company's individual and consolidated interim financial information is the Brazilian Real (R\$), which is the Company's functional currency.

The Company and its subsidiaries applied the accounting policies described below in a consistent manner for all periods presented in the individual and consolidated interim financial information.

a. Recognition of Income

Revenue of sales and services rendered is measured at the value of the consideration that the Company's subsidiaries expect to be entitled to, net of sales returns, discounts, amortization of contractual assets with customers and other deductions, if applicable, being recognized as the entity fulfills its performance obligation. At Ipiranga, the revenue

from sales of fuels and lubricants is recognized when the products are delivered to gas stations and to large consumers. At Ultragaz, revenue from sales of LPG is recognized when the products are delivered to customers at home, to independent dealers and to industrial and commercial customers. At Extrafarma, the revenue from sales of pharmaceuticals is recognized when the products are delivered to end user customers in own drugstores and when the products are delivered to independent resellers. At Oxiteno, the revenue from sales of chemical products is recognized when the products are delivered to industrial customers, depending of the freight mode of delivery. At Ultracargo, the revenue provided from storage services is recognized as services are performed. The breakdowns of revenues from sales and services are shown in Notes 26 and 32.

Amortization of contractual assets with customers for the exclusive rights in Ipiranga's reseller service stations and the bonuses paid in performance obligation sales are recognized as a deduction of the sales revenue in the income statement according to the conditions established in the agreements which is reviewed as per the changes occurred in the agreements (see Notes 2.f and 11).

Deferred revenue from loyalty program is recognized in the income statement when the points are redeemed, on which occasion the costs incurred are also recognized in profit or loss. Deferred revenue of unredeemed points is also recognized in profit or loss when points expire. For more information, see Note 23 Loyalty program.

The franchising upfront fee received by Ipiranga is deferred and recognized in profit or loss on the straight-line accrual basis throughout the terms of the agreements with the franchisees. For more information, see Note 23 Franchising upfront fee.

Costs of products sold and services provided include goods (mainly fuels, lubricants, LPG, and pharmaceutical products), raw materials (chemicals and petrochemicals) and production, distribution, storage, and filling costs.

b. Cash and Cash Equivalents

Includes cash, banks deposits, and short-term, highly-liquid investments that are readily convertible into a known amount of cash and are subject to an insignificant risk of change in value. See Note 4 for further details on cash and cash equivalents of the Company and its subsidiaries.

c. Financial Assets

The Company and its subsidiaries evaluated the classification and measurement of financial assets based on its business model of financial assets as follows:

Amortized cost: financial assets held in order to collect contractual cash flows, solely principal and interest. The interest earned and the foreign currency exchange variation are recognized in profit or loss, and balances are stated at acquisition cost plus the interest earned, using the effective interest rate method. Financial investments in guarantee of loans are classified as amortized cost.

Measured at fair value through other comprehensive income: financial assets that are acquired or originated for the purpose of collecting contractual cash flows or selling financial assets. The balances are stated at fair value, and the interest earned and the foreign currency exchange variation are recognized in profit or loss. Differences between fair value and initial amount of financial investments plus the interest earned are recognized in other comprehensive income in the Valuation adjustments. Accumulated gains and losses recognized in shareholders equity are reclassified to profit or loss at the time of their settlement. Substantially the financial investments in Bank Certificates of Deposit (CDB) and repurchase agreements are classified as measured at fair value through other comprehensive income.

Measured at fair value through profit or loss: financial assets not classified as amortized cost or measured at fair value through other comprehensive income. The balances are stated at fair value and both the interest earned and the exchange variations and changes in fair value are recognized in the income statement. Investment funds and derivatives are classified as measured at fair value through profit or loss.

The Company and its subsidiaries use financial instruments for hedging purposes, applying the concepts described below:

Hedge accounting fair value hedge: financial instruments used to hedge exposure to changes in the fair value of an item, attributable to a particular risk, which can affect the entity's profit or loss. In the initial designation of the fair value hedge, the relationship between the hedging instrument and the hedged item is documented, including the objectives of risk management, the strategy in conducting the transaction, and the methods to be used to evaluate its effectiveness. Once the fair value hedge has been qualified as effective, the hedge item is also measured at fair value. Gains and losses from hedge instruments and hedge items are recognized in profit or loss. The hedge accounting must be discontinued when the hedge becomes ineffective.

Hedge accounting cash flow hedge: financial instruments used to hedge the exposure to variability in cash flows that is attributable to a risk associated with an asset or liability or highly probable transaction or firm commitment that may affect the income statements. The portion of the gain or loss on the hedging instrument that is determined to be effective relating to the effects of exchange rate effect, is recognized directly in equity in accumulated other comprehensive income as Valuation adjustments while the ineffective portion is recognized in profit or loss. Gains or losses on the hedging instrument relating to the effective portion of this hedge that had been recognized directly in accumulated other comprehensive income shall be recognized in profit or loss in the period in which the hedged item is recognized in profit or loss or as initial cost of non-financial assets, in the same line of the statement that the hedged item is recognized. The hedge accounting shall be discontinued when (i) the Company cancels the hedging relationship; (ii) the hedging instrument expires; and (iii) the hedging instrument no longer qualifies for hedge accounting. When hedge accounting is discontinued, gains and losses recognized in other comprehensive income in equity are reclassified to profit or loss in the period which the hedged item is recognized in profit or loss. If the transaction hedged is canceled or is not expected to occur, the cumulative gains and losses in other comprehensive income in equity shall be recognized immediately in profit or loss.

Hedge accounting hedge of net investments in foreign operation: financial instruments used to hedge exposure on net investments in foreign subsidiaries due to the fact that the local functional currency is different from the functional currency of the Company. The portion of the gain or loss on the hedging instrument that is determined to be effective, referring to the exchange rate effect, is recognized directly in equity in accumulated other comprehensive income as cumulative translation adjustments, while the ineffective portion and the operating costs are recognized in profit or loss. The gain or loss on the hedging instrument that has been recognized directly in accumulated other comprehensive income shall be recognized in income upon disposal of the foreign operation.

For further detail on financial instruments of the Company and its subsidiaries, see Note 33.

d. Trade Receivables

Trade receivables are recognized at the amount invoiced of the counterparty that the Company subsidiaries are entitled. The estimated losses take into account, at the initial recognition of the contract, the expected losses for the next 12 months and for the useful life of the contract when the deterioration or improvement of the customers credit quality (see Notes 5 and 33 Customer Credit Risk), considering the customers characteristics in each business segment. The amount of the allowance for estimated losses on doubtful accounts is deemed by management to be sufficient to cover any probable loss on realization of trade receivables.

e. Inventories

Inventories are stated at the lower of acquisition cost or net realizable value (see Note 6). The cost value of inventory is measured using the weighted average cost and includes the costs of acquisition and processing directly and indirectly related to the units produced based on the normal capacity of production. Estimates of net realizable value are based on the average selling prices at the end of the reporting period, net of applicable direct selling expenses. Subsequent events related to the fluctuation of prices and costs are also considered, if relevant. If net realizable values are below inventory costs, a provision corresponding to this difference is recognized. Provisions are also made for obsolescence of products, materials, or supplies that (i) do not meet its subsidiaries specifications, (ii) have exceeded their expiration date, or (iii) are considered slow-moving inventory. This classification is made by management with the support of its industrial and operations teams.

f. Contractual assets with customers exclusive rights

Exclusive rights disbursements as provided in Ipiranga's agreements with reseller service stations and major consumers are recognized as contractual assets when paid and amortized according to the conditions established in the agreements (see Note 2.a and 11).

g. Investments

Investments in subsidiaries are accounted for under the equity method of accounting in the individual interim financial information of the parent company (see Notes 3.b and 12). A subsidiary is an investee in which the investor is entitled to variable returns on investment and has the ability to interfere in its financial and operational activities. Usually the equity interest in a subsidiary is more than 50%.

Investments in associates and joint ventures are accounted for under the equity method of accounting in the individual and consolidated interim financial information (see Note 12). An associate is an investment, in which an investor has significant influence, that is, has the power to participate in the financial and operating decisions of the investee but does not exercise control. A joint venture is an investment in which the shareholders have the right to net assets on behalf of a joint control. Joint control is the agreement, which establish that decisions about the relevant activities of the investee require the consent from the parties that share control.

Other investments are stated at acquisition cost less provision for losses, unless the loss is considered temporary.

h. Property, Plant, and Equipment

Property, plant, and equipment is recognized at acquisition or construction cost, including financial charges incurred on property, plant, and equipment under construction, as well as maintenance costs resulting from scheduled plant outages and estimated costs to remove, to decommission, or to restore assets (see Notes 2.n and 20), less accumulated depreciation and, when applicable, less provision for losses (see Note 13).

Depreciation is calculated using the straight-line method, over the periods mentioned in Note 13, taking into account the estimated useful lives of the assets, which are reviewed annually.

Leasehold improvements are depreciated over the shorter of the lease contract term and useful life of the property.

i. Leases

Finance Leases

Certain lease contracts transfer substantially all the risks and benefits associated with the ownership of an asset to the subsidiaries. These contracts are characterized as finance leases, and assets thereunder are capitalized at lease commencement at their fair value or, if lower, present value of the minimum lease payments under the contracts. The items recognized as assets are depreciated and amortized using the lower of the straight-line method over the lower of the useful lives applicable to each group of assets or the contract terms, as mentioned in Notes 13 and 14. Financial charges under the finance lease contracts are allocated to profit or loss over the lease contract term, based on the amortized cost and the effective interest rate method of the related lease obligation (see Note 15.i).

Operating Leases

There are lease transactions where the risks and benefits associated with the ownership of the asset are not transferred and where there is no purchase option, or the purchase option at the end of the contract is equivalent to the market value of the leased asset. Payments made under an operating lease contract are recognized as cost or expense in the income statement on a straight-line basis over the term of the lease contract (see Note 34.c).

j. Intangible Assets

Intangible assets include assets acquired by the Company and its subsidiaries from third parties, according to the criteria below (see Note 14):

Goodwill is shown as intangible assets corresponding to the positive difference between the amount paid or payable to the seller and the fair value of the identified assets and liabilities assumed of the acquired entity. Goodwill is tested annually for impairment. Goodwill is allocated to the business segments, which represent the lowest level that goodwill is monitored by the Company for impairment testing purposes (see Note 14.i).

Other intangible assets acquired from third parties, such as software, technology, and commercial property rights, are measured at the total acquisition cost and amortized using straight-line method, over the periods mentioned in Note 14, taking into account their useful lives, which are reviewed annually.

The Company and its subsidiaries have not recognized intangible assets that were generated internally. The Company and its subsidiaries have goodwill and brands acquired in business combinations, which are evaluated as intangible assets with indefinite useful life (see Note 14 items i and v).

k. Other Assets

Other assets are stated at the lower of cost and realizable value, including, if applicable, interest earned, monetary changes and changes in exchange rates incurred or less a provision for loss and, if applicable, adjustment to present value.

l. Financial Liabilities

The Company and its subsidiaries' financial liabilities include trade payables and other payables, loans, debentures, finance leases and derivative financial instruments. Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost. The financial liabilities at fair value through profit or loss refer to derivative financial instruments, subscription warrants, and financial liabilities designated as hedged items in a fair value hedge relationship upon initial recognition (see Note 2.c Fair Value Hedge). The financial liabilities at amortized cost are stated at the initial transaction amount plus related charges and net of amortization and transaction costs. The charges are recognized in profit or loss using the effective interest rate method.

Transaction costs incurred and directly attributable to the activities necessary for contracting loans or for issuing bonds, as well as premiums and discounts upon issuance of debentures and other debt, are allocated to the instrument and amortized to profit or loss over its term, using the effective interest rate method (see Note 15.j).

m. Income and Social Contribution Taxes on Income

Current and deferred income tax (IRPJ) and social contribution on net income tax (CSLL) are calculated based on their current rates, considering the value of tax incentives. Taxes are recognized based on the rates of IRPJ and CSLL provided for by the laws enacted on the last day of the interim financial information. The current rates in Brazil are 25% for IRPJ and 9% for CSLL. For further details about recognition and realization of IRPJ and CSLL, see Note 9.

For purposes of disclosure, deferred tax assets were offset against the deferred tax liability, IRPJ and CSLL, in the same taxable entity and the same taxation authority.

n. Provision for Asset Retirement Obligation Fuel Tanks

The subsidiary Ipiranga has the legal obligation to remove the underground fuel tanks located at Ipiranga-branded service stations after a certain period. The estimated cost of the obligation to remove these fuel tanks is recognized as a liability when the tanks are installed. The estimated cost is recognized in property, plant, and equipment and depreciated over the respective useful lives of the tanks. The amounts recognized as a liability are monetarily restated using the National Consumer Price Index (IPCA) until the respective tank is removed (see Note 20). An increase in the estimated cost of the obligation to remove the tanks could result in negative impact in future results. The estimated removal cost is reviewed and updated annually or when there is significant change in its amount and change in the estimated costs are recognized in income statements when they become known.

o. Provisions for Tax, Civil, and Labor Risks

A provision for tax, civil and labor risks is recognized for quantifiable risks, when the chance of loss is more-likely-than-not in the opinion of management and internal and external legal counsel, and the amounts are recognized based on the evaluation of the outcomes of the legal proceedings (see Note 21).

p. Post-Employment Benefits

Post-employment benefits granted and to be granted to employees, retirees, and pensioners are based on an actuarial calculation prepared by an independent actuary and reviewed by management, using the projected unit credit method (see Note 19.b). The actuarial gains and losses are recognized in cumulative other comprehensive income in the Valuation adjustments and presented in the statement of shareholders equity.

q. Other Liabilities

Other liabilities are stated at known or measurable amounts plus, if applicable, related charges, monetary restatement, and changes in exchange rates incurred. When applicable, other liabilities are recognized at present value, based on interest rates that reflect the term, currency, and risk of each transaction.

r. Foreign Currency Transactions

Foreign currency transactions carried out by the Company or its subsidiaries are remeasured into their functional currency at the exchange rate prevailing at the date of each transaction. Outstanding monetary assets and liabilities of the Company and its subsidiaries are translated using the exchange rate at the date of the reporting period. The effect of the difference between those exchange rates is recognized in profit or loss until the conclusion of each transaction.

s. Basis for Translation of Interim Financial Information of Foreign Subsidiaries

1) Assets and liabilities of the foreign subsidiaries, denominated in currencies other than that of the Company (functional currency: Brazilian Real), which have administrative autonomy, are translated using the exchange rate at the end of the reporting period. Revenues and expenses are translated using the average exchange rate of each year and shareholders' equity is translated at the historical exchange rate of each transaction affecting shareholders' equity. Gains and losses resulting from changes in these foreign investments are directly recognized in shareholders' equity in cumulative other comprehensive income in the cumulative translation adjustments and will be recognized in profit or loss if these investments are disposed of. The balance in cumulative other comprehensive income and presented in the shareholders' equity as cumulative translation adjustments on September 30, 2018 was a gain of R\$ 92,219 (gain of R\$ 53,061 on December 31, 2017) see Note 25.g Cumulative Translation Adjustments.

The foreign subsidiaries with functional currency different from the Company and which have administrative autonomy are listed below:

Subsidiary	Functional currency	Location
Oxiteno México S.A. de C.V.	Mexican Peso	Mexico
	Mexican Peso	Mexico

Oxitenos Servicios Corporativos S.A. de C.V.

Oxitenos Servicios Industriales de C.V.	Mexican Peso	Mexico
Oxitenos USA LLC	U.S. Dollar	United States
Oxitenos Uruguay S.A. (i)	U.S. Dollar	Uruguay
Oxitenos Andina, C.A. (ii)	Bolivar Soberano	Venezuela

- (i) The subsidiary Oxitenos Uruguay S.A. (Oxitenos Uruguay) determined its functional currency as the U.S. dollar (US\$), as its inventory sales, purchases of raw material inputs, and financing activities are performed substantially in this currency.
- (ii) According the definition and general guidance of IAS 29, the characteristics of the economic environment of Venezuela indicate that this country is a hyperinflationary economy. As a result, the financial information of Oxitenos Andina, C.A. (Oxitenos Andina) was adjusted by the Venezuelan Consumer Price Index.
- On August 20, 2018, the Venezuelan Central Bank put into effect the currency conversion (elimination of five zeros of the currency) and the Bolivar Soberano. This implies a change in the monetary scale and all that is expressed in bolivars to simplify commercial transactions and accounting records, being the Bolivar Soberano traded as of September 30, 2018 at the variable exchange rate of 62.17 VEF/US\$ for sale and 62.01 VEF/US\$ for purchase.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information**

(In thousands of Brazilian Reais, unless otherwise stated)

Due to the economic and political situation in Venezuela and the uncertainty of its assets realization by Oxiten S.A. Indústria e Comércio (Oxiten S.A.), the Company's management recognized an impairment loss for subsidiary Oxiten Andina in the amount of R\$ 6,836, as shown below:

Current assets

Cash and cash equivalents	2,484
Trade receivables, net	637
Inventories, net	1,368
Other receivables	147
	4,636

Non-current assets

Property, plant, and equipment, net	2,199
Intangible assets, net	1
	2,200

Total of impairment loss	6,836
--------------------------	-------

2) Assets and liabilities of the other foreign subsidiaries, which do not have administrative autonomy, are considered an extension of the activities of their parent company and are translated using the exchange rate at the end of the reporting period. Gains and losses resulting from changes in these foreign investments are directly recognized as financial income or loss. The loss recognized in income for the nine-month period ended September 30, 2018 amounted to R\$ 7,916 (R\$ 2,667 gain for the nine-month period ended September 30, 2017).

According to the definition and general guidance of IAS 29, the characteristics of the economic environment of Argentina indicate that this country is a hyperinflationary economy since July 2018. The subsidiary Oxiten Argentina Sociedad de Responsabilidad Ltda. acts as a commercial office and the effect of the Argentina's economy becoming hyperinflationary does not affect the Company's interim financial information.

t. Use of Estimates, Assumptions and Judgments

The preparation of the interim financial information requires the use of estimates, assumptions, and judgments for the accounting of certain assets, liabilities, and income. Therefore, the Company and subsidiaries management use the best information available at the time of preparation of the interim financial information, as well as the experience of past and current events, also considering assumptions regarding future events. The interim financial information therefore include estimates, assumptions, and judgments related mainly to determining the fair value of financial instruments (Notes 2.c, 2.l, 4, 15 and 33), the determination of the estimated losses on doubtful accounts (Notes 2.d, 5 and 33), the determination of provisions for losses of inventories (Notes 2.e and 6), the determination of deferred IRPJ and CSLL amounts (Notes 2.m and 9), the determination of control in subsidiaries (Notes 2.g, 2.s, 3 and 12.a), the determination of joint control in joint venture (Notes 2.g, 12.a and 12.b), the determination of significant influence in associates (Notes 2.g and 12.c), the determination of exchange rate used to translation of Oxiteno Andina information (Note 2.s), the useful lives of property, plant, and equipment (Notes 2.h and 13), the useful lives of intangible assets, and the determination of the recoverable amount of goodwill (Notes 2.j and 14), provisions for assets retirement obligations (Notes 2.n and 20), provisions for tax, civil, and labor risks (Notes 2.o and 21), estimates for the preparation of actuarial reports (Notes 2.p and 19.b) and the determination of fair value of subscription warrants indemnification (Notes 24 and 33). The actual result of the transactions and information may differ from their estimates.

u. Impairment of Assets

The Company and its subsidiaries review, every report period, the existence of any indication that an asset may be impaired and annually test intangible assets with undefined useful life. If there is an indication, the Company and its subsidiaries estimate the recoverable amount of the asset. Assets that cannot be evaluated individually are grouped in the smallest group of assets that generate cash flow from continuous use and that are largely independent of cash flows of other assets (cash generating units - CGU). The recoverable amount of assets or CGUs corresponds to the greater of their fair value net of applicable direct selling costs and their value in use.

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

The fair value less costs of disposal is determined by the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date, net of costs of removing the asset, and direct incremental costs to bring an asset into condition for its sale, legal costs, and taxes.

To assess the value in use, the Company and its subsidiaries consider the projections of future cash flows, trends, and outlooks, as well as the effects of obsolescence, demand, competition, and other economic factors. Such cash flows are discounted to their present values using the discount rate before tax that reflects market conditions for the period of impairment testing and the specific risks of the asset or CGU being evaluated. In cases where the expected discounted future cash flows are less than their carrying amount, an impairment loss is recognized for the amount by which the carrying value exceeds the fair value of these assets. Losses for impairment of assets are recognized in profit or loss. In case goodwill has been allocated to a CGU, the recognized losses are first allocated to reduce the corresponding goodwill. If the goodwill is not enough to absorb such losses, the surplus is allocated to the assets on a pro-rata basis. An impairment of goodwill cannot be reversed. For other assets, impairment losses may be reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if the impairment had not been recognized.

As of September 30, 2018, the Company recognized an impairment loss for subsidiary Oxiteno Andina (see Note 2.s.1.ii).

v. *Business Combination*

A business combination is accounted applying the acquisition method. The cost of the acquisition is measured based on the consideration transferred and to be transferred, measured at fair value at the acquisition date. In a business combination, the assets acquired and liabilities assumed are measured in order to classify and allocate them accordingly to the contractual terms, economic circumstances and relevant conditions on the acquisition date. The non-controlling interest in the acquired is measured based on its interest in identifiable net assets acquired. Goodwill is measured as the excess of the consideration transferred and to be transferred over the fair value of net assets acquired (identifiable assets and liabilities assumed, net). After the initial recognition, goodwill is measured at cost less any accumulated impairment losses. For impairment testing purposes, goodwill is allocated to the Company's operating segments. When the cost of the acquisition is lower than the fair value of net assets acquired, a gain is recognized directly in the income statement. Costs related to the acquisition are recorded in the income statement when incurred.

w. *Statements of Value Added*

As required by Brazilian Corporate Law, the Company and its subsidiaries prepare the individual and consolidated statements of value added (DVA) according to CPC 09 – Statement of Value Added, as an integral part of the interim financial information as applicable to publicly-traded companies, and as supplemental information for the International Financial Reporting Standards (IFRS), which does not require the presentation of DVA.

x. *Statements of Cash Flows Indirect Method*

The Company and its subsidiaries prepared its individual and consolidated statements of cash flows in accordance with IAS 7 (CPC 03) – Cash Flow Statement. The Company and its subsidiaries present the interest paid on loans and debentures in financing activities. The Company and its subsidiaries present financial investments on a net basis of income and redemptions in the investment activities.

y. *Adoption of the Pronouncements Issued by CPC and IASB*

The following standards, amendments, and interpretations to IFRS were issued by the IASB, which are effective as of January 1, 2018:

	Equivalent CPC
IFRS 9 – Financial instrument classification and measurement: includes new requirements for the classification and measurement of financial assets and liabilities, derecognition requirements, new impairment methodology for financial instruments, and new hedge accounting guidance.	48
IFRS 15 – Revenue from contracts with customers: establish the principles of nature, amount, timing and uncertainty of revenue and cash flow arising from a contract with a customer.	47

The Company and its subsidiaries disclosed the information to the impacts on the adoption of IFRS 9 (CPC 48) and 15 (CPC 47), in accordance with the new accounting practices introduced by the IASB and immaterial reclassifications and adjustments to the better presentation of the interim financial information: i) the sales revenue previously recognized at the issuance of the invoice, was adjusted to the time of the delivery of the products and ii) segregation of sales and purchase taxes between the sales revenue and the cost of products.

(1) IFRS 9 adoption (CPC 48) Financial instruments**a) Classification and measurement of financial instruments:**

The Company and its subsidiaries evaluated the classification and measurement of financial instruments and, based on its business model, concluded that the target is achieved, receiving contractual cash flows and selling financial assets (hold for collect and sell). Accordingly, most part of the financial investments are classified as measured at fair value through other comprehensive income, except for funds that are classified as measured at fair value through profit or loss and financial investments given as collateral for loans that are classified as amortized cost (see Note 2.c).

b) Estimated losses on doubtful accounts

The Company and its subsidiaries assessed the estimated credit losses on doubtful accounts on trade receivables, taking into account, at the initial recognition of the contract, the expected losses for the next 12 months and for the useful life of the contract when the deterioration or improvement of customers' credit quality (see Note 2.d).

c) Derivative financial instruments

The Company and its subsidiaries have not identified impacts arising from this change keeping the permanence of the application of IAS 39.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***(2) IFRS 15 adoption (CPC 47) Revenue recognition from contracts with customers**

The Company and its subsidiaries evaluated all the stages for the recognition of their revenues from contracts with customers and based on their diagnosis did not identify material measurement impacts resulting from the adoption of this standard (see Note 2.a).

In relation to the presentation in the income statement, the Company and its subsidiaries evaluated that certain expenses, allocated as selling and marketing until December 31, 2017, should be better presented as a reduction of revenue, substantially in relation to the amortization expenses of exclusive contracts to operate Ipiranga service station.

The Company and its subsidiaries adopted retrospectively the impacts of the IFRS 9 and 15.

3. Principles of Consolidation, Investments in Subsidiaries and Acquisition

a) Principles of Consolidation

In the preparation of the consolidated interim financial information the investments of one company in another, balances of asset and liability accounts, revenues transactions, costs and expenses were eliminated, as well as the effects of transactions conducted between the companies. Non-controlling interests in subsidiaries are presented within consolidated shareholders' equity and net income.

Consolidation of a subsidiary begins when the parent company obtains direct or indirect control over a company and ceases when the parent company loses control of a company. Income and expenses of a subsidiary acquired are included in the consolidated income statement and other comprehensive income from the date the parent company gains the control. Income and expenses of a subsidiary, in which the parent company loses control, are included in the consolidated income statement and other comprehensive income until the date the parent company loses control.

When necessary, adjustments are made to the interim financial information of subsidiaries to bring their accounting policies into line with the Company's accounting policies.

c) Association with Chevron Brasil Lubrificantes S.A.

On August 4, 2016, the Company through its subsidiary Ipiranga Produtos de Petróleo S.A. (IPP) entered into an association agreement with Chevron Brasil Lubrificantes Ltda. (Chevron) to create a new company in the lubricants market. The association is formed by Ipiranga and Chevron's lubricants operations in Brazil. On February 2017, this transaction was approved without restrictions through an opinion issued by the General Superintendence (SG) of the Brazilian Antitrust Authority (CADE) and published in the Brazilian Federal Official Gazette. On December 1, 2017, the association was concluded, through the contribution of the subsidiary Ipiranga Lubrificantes S.A. (IpiLubs) to Chevron Brasil Lubrificantes S.A. (CBLSA) and consequently IPP obtained direct control of CBLSA. IPP and Chevron hold 56% and 44%, respectively, of the CBLSA.

The Company is measuring the open balance, fair value of assets and liabilities, and, consequently, the goodwill of their transaction. The purchase price allocation will be concluded in 2018. During the process of identification of assets and liabilities, intangible assets, which are not recognized in the acquired entity's books, will also be taken into account. The Company, supported by a third party company specialized in valuations, estimated the temporary amount for the purchase price allocation and calculated the temporary goodwill in the amount of R\$ 85,264. The temporary goodwill is based on the synergy between the lubricant operations of CBLSA and IpiLubs. During the process of identification of assets and liabilities, intangible assets, which were not recognized in the acquired entity's books were also taken into account, as shown below:

	Amount	Useful life	Amortization method
Commercial property rights	101,125	24 years	Straight line

d) TEAS Terminal Exportador de Álcool de Santos Ltda. Acquisition

On January 30, 2018, the Company through its subsidiary Terminal Químico de Aratu S.A. Tequimar (Tequimar) entered into a sale and purchase agreement for the acquisition of 100% of the quotas of TEAS Terminal Exportador de Álcool de Santos Ltda. (TEAS), owned by Raízen Energia S.A. and Raízen Araraquara Açúcar e Álcool Ltda., which had already been operated by the subsidiary Tequimar in the Port of Santos. The purchase price of the acquisition was R\$ 103,373. On February 14, 2018, this transaction was approved without restrictions through an opinion issued by the SG of CADE. On March 2, 2018, CADE issued a certificate, attesting to the approval of the transaction. On March 29, 2018, the acquisition was concluded through the closing of the operation.

The Company is measuring the open balance, fair value of assets and liabilities, and, consequently, the goodwill of their transaction. The purchase price allocation will be concluded in 2018. During the process of identification of assets and liabilities, intangible assets, which are not recognized in the acquired entity's books, will also be taken into account. The Company, supported by a third party company specialized in valuations, estimated the temporary amount for the purchase price allocation and calculated the temporary goodwill in the amount of R\$ 797.

The table below summarizes the temporary assets acquired and liabilities assumed as of the acquisition date, subject to the customary final adjustments of purchase price allocation and calculation of goodwill:

e) Unrealized Acquisition

On November 17, 2016, the Company through its subsidiary Companhia Ultragaz S.A. (Cia Ultragaz), entered into a sale and purchase agreement for the acquisition of 100% of the capital stock of Liquigás Distribuidora S.A (Liquigás) for the amount of R\$ 2,665 million, subject to update by the Interbank Certificate of Deposit (CDI). On February 28, 2018, the Court of Appeals of CADE voted the transaction and, despite all the efforts endeavored by the applicants, decided to reject the transaction. Due to the non-closing of the transaction, Cia. Ultragaz paid a contractual fine of R\$ 286,160 in favor of Petróleo Brasileiro S.A. Petrobras (Petrobras) on March 9, 2018 (see Note 29).

4. Cash and Cash Equivalents and Financial Investments

Cash equivalents and financial investments, excluding cash and bank deposits, are substantially represented by investments: (i) in Brazil, in certificates of deposit of first-rate financial institutions linked to the CDI, in repurchase agreement and in short term investments funds, whose portfolio comprised of Brazilian Federal Government bonds and in certificates of deposit of first-rate financial institutions; (ii) outside Brazil, in certificates of deposit of first-rate financial institutions and in short term investments funds, whose portfolio comprised of Federal Government bonds; and (iii) in currency and interest rate hedging instruments.

Purchase and sale transactions relate substantially to the purchase of raw materials, feedstock, transportation, and storage services based on similar market prices and terms with customers and suppliers with comparable operational performance. The above operations related to ConectCar Soluções de Mobilidade Eletrônica S.A. (ConectCar) refer to services provided. Borrowing agreements are for an indeterminate period and do not contain interest clauses. In the opinion of the Company and its subsidiaries' management, transactions with related parties are not subject to credit risk, which is why no allowance for doubtful accounts or collateral is provided. Collateral provided by the Company in loans of subsidiaries and affiliates are mentioned in Note 15.k). Intercompany loans are contracted in light of temporary cash surpluses or deficits of the Company, its subsidiaries, and its associates.

b. Key executives (Consolidated)

The Company's compensation strategy combines short and long-term elements, following the principles of alignment of interests and of maintaining a competitive compensation, and is aimed at retaining key officers and remunerating them adequately according to their attributed responsibilities and the value created to the Company and its shareholders.

Short-term compensation is comprised of: (a) fixed monthly compensation paid with the objective of rewarding the executive's experience, responsibility, and his/her position's complexity, and includes salary and benefits such as medical coverage, check-up, life insurance, and others; (b) variable compensation paid annually with the objective of aligning the executive's and the Company's objectives, which is linked to: (i) the business performance measured through its economic value creation and (ii) the fulfillment of individual annual goals that are based on the strategic plan and are focused on expansion and operational excellence projects, people development and market positioning, among others. In addition, the chief executive officer in office until October 2, 2017 was entitled to additional long term variable compensation, which was terminated with the succession of the chief executive officer announced by the Company in June 2017. Further details about the Deferred Stock Plan are contained in Note 8.c) and about post-employment benefits in Note 19.b).

The Company and its subsidiaries recognized expenses for compensation of its key executives (Company's directors and executive officers) as shown below:

c. Deferred Stock Plan (Consolidated)

Since 2003, Ultrapar has adopted a stock plan in which the executive has the usufruct of shares held in treasury. The Deferred Stock Plan provides for the transfer of the ownership of the shares to those eligible members of management after five to seven years from the initial concession of the rights subject to uninterrupted employment of the participant during the period. The volume of shares and the executives eligible are determined by the Board of Directors, and there is no mandatory annual grant. The total number of shares to be used in the plan is subject to the number of shares in treasury. Ultrapar's Board of Directors does not have a stock plan. The fair value of the awards were determined on the grant date based on the market value of the shares on the B3 S.A. - Brasil, Bolsa, Balcão (B3), the Brazilian Securities, Commodities and Futures Exchange and the amounts are amortized between five to seven years from the grant date.

The table below summarizes shares granted to the Company and its subsidiaries' management:

Grant date	Balance of number of shares granted	Vesting period	Market price of shares on the grant date (in R\$ per share)	Total grant costs, including taxes	Accumulated recognized grant costs	Accumulated unrecognized grant costs

- (i) Consist of certain expenses that cannot be deducted for tax purposes under applicable tax legislation, such as expenses with fines, donations, gifts, losses of assets, negative effects of foreign subsidiaries and certain provisions;
- (ii) Consist of certain gains and income that are not taxable under applicable tax legislation, such as the reimbursement of taxes and the reversal of certain provisions;
- (iii) Brazilian tax law allows for an alternative method of taxation for companies that generated gross revenues of up to R\$ 78 million in their previous fiscal year. Certain subsidiaries of the Company adopted this alternative form of taxation, whereby income and social contribution taxes are calculated on a basis equal to 32% of operating revenues, as opposed to being calculated based on the effective taxable income of these subsidiaries. The adjustment to estimated income represents the difference between the taxation under this alternative method and the income and social contribution taxes that would have been paid based on the effective statutory rate applied to the taxable income of these subsidiaries;
- (iv) Interest on equity is an option foreseen in Brazilian corporate law to distribute profits to shareholders, calculated based on the long-term interest rate (TJLP), which does not affect the income statement, but is deductible for purposes of IRPJ and CSLL, being taxable to the beneficiary and deductible to the entity that pays.

- (1) On May 9, 2018, the subsidiary Bahiana Distribuidora de Gás Ltda. (Bahiana), filed a request at SUDENE requiring the 75% income tax reduction incentive for additional ten years, due to the modernization for its Aracaju plant Sergipe which was approved by SUDENE on September 21, 2018. The constitutive benefit appraisal report will be sent to the Brazilian Federal Revenue Service (RFB) for approval.
- (2) On July 3, 2017, the subsidiary Bahiana, filed a request at SUDENE requiring the 75% income tax reduction incentive, due to productive unit implementation for its Juazeiro plant Bahia. SUDENE approved the incentive until 2026 through an appraisal report issued on November 7, 2017. The constitutive benefit appraisal report was sent to the RFB, on November 27, 2017, for approval within a term of 120 days. As a result of the expiration of the statutes of limitation for the RFB to approve the constitutive benefit appraisal report, the income tax reduction was recognized by the subsidiary in the income statement in 2018, in the total amount of R\$ 149 with retroactive effect in January 2017.

d . Income and Social Contribution Taxes Carryforwards

As of September 30, 2018, the Company and certain subsidiaries had tax loss carryforwards related to income tax (IRPJ) of R\$ 1,084,193 (R\$ 598,183 as of December 31, 2017) and negative basis of CSLL of R\$ 1,061,087 (R\$ 576,949 as of December 31, 2017), whose compensations are limited to 30% of taxable income in a given tax year, which do not expire. Deferred income and social contribution tax assets were recognized in the amount of R\$ 326,936 as of September 30, 2018 (R\$ 201,471 as of December 31, 2017).

As from April 2018, the subsidiary Extrafarma ceased to recognize the deferred taxes due to the estimate of realization of the tax loss carryforwards (IRPJ) and negative basis of CSLL to exceed the term of 10 years. The balance of tax loss carryforwards (IRPJ) and negative basis of CSLL without deferred taxes constituted amounts to R\$ 116,500.

⁽³⁾ See Note 3.d.

On December 31, 2017, the Company tested the balances of goodwill shown in the table above for impairment. The determination of value in use involves assumptions, judgments, and estimates of cash flows, such as growth rates of revenues, costs and expenses, estimates of investments and working capital, and discount rates. The assumptions about growth projections and future cash flows are based on the Company's business plan of its operating segments, as well as comparable market data, and represent management's best estimate of the economic conditions that will exist over the economic life of the various CGUs, to which goodwill is related. The main key-assumptions used by the Company to calculate the value in use are described below:

Period of evaluation: the evaluation of the value in use is calculated for a period of 5 years (except the Extrafarma segment), after which we calculate the perpetuity, considering the possibility of carrying the business on indefinitely. For the Extrafarma segment, a period of 10 years was used due to its expansion plan and a four-year period to

maturity of new stores were considered.

Discount and real growth rates: on December 31, 2017, the discount and real growth rates used to extrapolate the projections ranged from 9.6% to 12.7% and from 0% to 1% p.a., respectively, depending on the CGU analyzed. For the subsidiary Oxiteno Andina, due to the macroeconomic scenario in Venezuela, the discount rate used was 803.8%.

Revenue from sales and services, costs and expenses, and gross margin: for 2018, the budget prepared by management and approved by the Board of Directors was considered. In subsequent periods, the Company considers the forecast of the general inflation or price index predicted in the contracts.

Opening of new commercial points (investments): for 2018, the budget prepared by the management and approved by the Board of Directors was considered. In subsequent periods, the Company considers the expansion plans of each business unit, which also considers the commercial establishments closed in the previously years.

The goodwill impairment tests and net assets of the Company and its subsidiaries did not result in the recognition of impairment for the year ended December 31, 2017. The Company assessed a sensitivity analysis of discount and growth rate of perpetuity, due to their significant impact on cash flows and value in use. An increase of 0.5 percentage points in the discount rate or a decrease of 0.5 percentage points in the growth rate of the perpetuity of the cash flow of each business segment would not result in the recognition of impairment.

ii) Software includes user licenses and costs for the implementation of the various systems used by the Company and its subsidiaries, such as: integrated management and control, financial management, foreign trade, industrial automation, operational and storage management, accounting information, and other systems.

iii) The subsidiaries Oxiteno S.A., Oxiteno Nordeste and Oleoquímica Indústria e Comércio de Produtos Químicos Ltda. (Oleoquímica) recognize as technology certain rights of use held by them. Such licenses include the production of ethylene oxide, ethylene glycols, ethanalamines, glycol ethers, ethoxylates, solvents, fatty acids from vegetable oils, fatty alcohols, and specialty chemicals, which are products that are supplied to various industries.

(In thousands of Brazilian Reais, unless otherwise stated)

iv) Commercial property rights include those described below:

Subsidiary Tequimar has an agreement with CODEBA – Companhia das Docas do Estado da Bahia, which allows it to explore the area in which the Aratu Terminal is located for 20 years, renewable for a similar period. The price paid by Tequimar was R\$ 12,000, which is being amortized from August 2002 to July 2042.

Subsidiary Tequimar has a lease contract for an area adjacent to the Port of Santos for 20 years from December 2002, renewable for a similar period, which allows the construction, operation, and use of a terminal for liquid bulk unloading, tank storage, handling, and distribution. The price paid by Tequimar was R\$ 4,334, which is being amortized from August 2005 to December 2022.

Subsidiary Extrafarma pays key money to obtain certain commercial establishments to open drugstores which is stated at the cost of acquisition, amortized using the straight-line method, considering the lease contract terms. In the case of the closedown of stores, the residual amount is written off.

v) Brands are represented by the acquisition cost of the am/pm brand in Brazil and of the Extrafarma brand and Chevron and Texaco trademark rights.

vi) Other intangibles refer mainly to the loyalty program – Clube Extrafarma .

The amortization expenses were recognized in the interim financial information as shown below:

As provided in IAS 39 (CPC 8 (R1)), the transaction costs and issuance premiums associated with debt issuance by the Company and its subsidiaries were added to their financial liabilities, as shown in Note 15.j).

The Company's management entered into hedging instruments against foreign exchange and interest rate variations for a portion of its debt obligations (see Note 33).

b. Notes in the Foreign Market

On October 6, 2016, the subsidiary Ultrapar International S.A. (Ultrapar International) issued US\$ 750 million in notes in the foreign market, maturing in October 2026, with interest rate of 5.25% p. a., paid semiannually. The issue price was 98.097% of the face value of the note. The notes were guaranteed by the Company and its subsidiary IPP. The Company has designated hedge relationships for this transaction (see Note 33 Hedge accounting: cash flow hedge and net investment hedge in foreign entities).

As a result of the issuance of the notes in the foreign market, the Company and its subsidiaries are required to perform certain obligations, including:

Restriction on sale of all or substantially all assets of the Company and subsidiaries Ultrapar International and IPP.

Restriction on encumbrance of assets exceeding US\$ 150 million or 15% of the amount of the consolidated tangible assets.

The Company and its subsidiaries are in compliance with the levels of covenants required by this debt. The restrictions imposed on the Company and its subsidiaries are customary in transactions of this nature and have not limited their ability to conduct their business to date.

c. Foreign Loans

1) The subsidiary IPP has foreign loans in the amount of US\$ 415 million. IPP also contracted hedging instruments with floating interest rate in U.S. dollar and exchange rate variation, changing the foreign loans charges, on average, to 103.9% of CDI (see Note 33). IPP designated these hedging instruments as a fair value hedge; therefore, loans and hedging instruments are both measured at fair value from inception, with changes in fair value recognized through profit or loss. The foreign loans are secured by the Company.

The foreign loans have the maturity distributed as follows:

Maturity	US\$ (million)	Cost in % of CDI
Nov/18 (*)	80.0	101.4
Jun/21	100.0	105.0
Jul/21	60.0	101.8
Jul/23	50.0	104.9
Sep/23	60.0	105.0
Sep/23	65.0	104.8
Total / average cost	415.0	103.9(*)

(*) In September 2018, the subsidiary IPP renegotiated this foreign loan changing its amount to US\$ 60 million and its maturity to November 2023. After the renegotiation, the financial charges will be 104.5% of the CDI, considering the respective hedging instrument.

2) The subsidiary LPG International Inc. has a foreign loan in the amount of US\$ 30 million with maturity in December 2018 and interest rate of LIBOR + 1.85% p.a., paid quarterly. The foreign loan is guaranteed by the Company and its subsidiary IPP.

During these contracts, the Company shall maintain the following financial ratios, calculated based on its audited consolidated interim financial information:

Maintenance of a financial ratio, determined by the ratio between consolidated net debt and consolidated Earnings before Interest, Taxes, Depreciation, and Amortization (EBITDA), at less than or equal to 3.5.

Maintenance of a financial ratio determined by the ratio between consolidated EBITDA and consolidated net financial expenses, higher than or equal to 1.5.

The Company complies with the levels of covenants required by these loans. The restrictions imposed on the Company and its subsidiaries are usual for this type of transaction and have not limited their ability to conduct their business to date.

3) The subsidiary Global Petroleum Products Trading Corporation has a foreign loan in the amount of US\$ 60 million with maturity on June 22, 2020 and interest of LIBOR + 2.0% p.a., paid quarterly. The Company, through the subsidiary Cia. Ultragas, contracted hedging instruments subject to floating interest rates in dollar and exchange rate variation, changing the foreign loan charge to 105.9% of CDI. The foreign loan is guaranteed by the Company and its subsidiary Oxitenor Nordeste.

k. Guarantees

The financings are guaranteed by collateral in the amount of R\$ 69,019 as of September 30, 2018 (R\$ 66,337 as of December 31, 2017) and by guarantees and promissory notes in the amount of R\$ 11,045,120 as of September 30, 2018 (R\$ 9,587,971 as of December 31, 2017).

The Company and its subsidiaries offer collateral in the form of letters of credit for commercial and legal proceedings in the amount of R\$ 231,455 as of September 30, 2018 (R\$ 237,537 as of December 31, 2017). In addition, the Company provides guarantees related to the supply of LPG by Petrobras up to the amount of R\$ 45 million. As of September 30, 2018, the Company did not have guarantees related to raw materials imported by the subsidiary IPP(R\$ 81,046 as of December 31, 2017).

Some subsidiaries of Oxiteno issue collateral to financial institutions in connection with the amounts owed by some of their customers to such institutions (vendor financing). If a subsidiary is required to make any payment under these collaterals, this subsidiary may recover the amount paid directly from its customers through commercial collection. The maximum amount of future payments related to these collaterals is R\$ 3,214 as of September 30, 2018 (R\$ 8,224 as of December 31, 2017), with maturities of up to 30 days. Until September 30, 2018, the subsidiaries did not have losses in connection with these collaterals. The fair value of collaterals recognized in current liabilities as other payables is R\$ 80 as of September 30, 2018 (R\$ 205 as of December 31, 2017), which is recognized as profit or loss as customers settle their obligations with the financial institutions.

Employee Benefits and Private Pension Plan (Consolidated)*****a. ULTRAPREV- Associação de Previdência Complementar***

In February 2001, the Company's Board of Directors approved the adoption of a defined contribution pension plan to be sponsored by the Company and each of its subsidiaries. Participating employees have been contributing to this plan, managed by Ultraprev Associação de Previdência Complementar (Ultraprev), since August 2001. Under the terms of the plan, every year each participating employee chooses his or her basic contribution to the plan. Each sponsoring company provides a matching contribution in an amount equivalent to each basic contribution, up to a limit of 11% of the employee's reference salary, according to the rules of the plan. As participating employees retire, they may choose to receive either (i) a monthly sum ranging between 0.5% and 1.0% of their respective accumulated fund in Ultraprev or (ii) a fixed monthly amount which will exhaust their respective accumulated fund over a period of 5 to 25 years. The sponsoring company does not take responsibility for guaranteeing amounts or the duration of the benefits received by the retired employee. For the nine-month period ended September 30, 2018, the subsidiaries contributed R\$ 18,262 (R\$ 18,553 for the nine-month period ended September 30, 2017) to Ultraprev, which is recognized as expense in the income statement. The total number of participating employees as of September 30, 2018 was 8,049 active participants and 271 retired participants. In addition, Ultraprev had 26 former employees receiving benefits under the rules of a previous plan whose reserves are fully constituted.

b. Post-employment Benefits

The subsidiaries recognized a provision for post-employment benefits mainly related to seniority bonus, payment of Government Severance Indemnity Fund (FGTS), and health, dental care, and life insurance plan for eligible retirees.

The amounts related to such benefits were determined based on a valuation conducted by an independent actuary and reviewed by management as of December 31, 2017 and are recognized in the interim financial information in accordance with IAS 19 R2011 (CPC 33 R2).

a.1) Provisions for Tax Matters and Social Security

a.1.1) On October 7, 2005, the subsidiaries Cia. Ultragaz and Bahiana filed for and obtained a preliminary injunction to recognize and offset PIS and COFINS credits on LPG purchases, against other taxes levied by the RFB, notably IRPJ and CSLL. The decision was confirmed by a trial court on May 16, 2008. Under the preliminary injunction, the subsidiaries made escrow deposits for these debits which amounted to R\$ 496,173 as of September 30, 2018 (R\$ 483,485 as of December 31, 2017). On July 18, 2014, a second instance unfavorable decision was published and the subsidiaries suspended the escrow deposits, and started to pay income taxes from that date. To revert the court decision, the subsidiaries presented a writ of prevention which was dismissed on December 30, 2014, and the subsidiaries appealed this decision on February 3, 2015. Appeals were also presented to the respective higher courts (STJ and STF) whose final trial are pending.

a.1.2) The subsidiaries Oxiteno S.A., Oxiteno Nordeste, Cia. Ultragaz, Tequimar, Tropical Transportes Ipiranga Ltda., Empresa Carioca de Produtos Químicos S.A. (EMCA), IPP and Extrafarma filed for a preliminary injunction seeking the deduction of ICMS from their PIS and COFINS tax bases. On March 15, 2017, in a decision with general repercussion, the Federal Supreme Court (STF) decided that the ICMS does not make up the calculation of PIS and COFINS tax bases. Therefore, supported by its legal advisors, on May 31, 2017, Oxiteno Nordeste and IPP reversed the provision in the amount of R\$ 109,463.

The Company emphasizes that it is possible for the STF to restrict the effects of the judgment or to decide that the effectiveness will be reached after its final decision or other time that may be fixed. Despite the favorable context, until there is effective final decision, the causes may be reassessed, which could result in the recognition of new provisions in the future, except for Oxiteno S.A., that obtained a favorable final decision and is assessing amounts and evaluating the possibility of constituting a possible contingent asset.

a.2) Provisions for Civil, Environmental and Regulatory Claims

a.2.1) The Company and its subsidiaries maintained provisions for lawsuits and administrative proceedings, mainly derived from contracts entered into with customers and former services providers, as well as proceedings related to environmental and regulatory issues in the amount of R\$ 91,341 as of September 30, 2018 (R\$ 89,296 as of December 31, 2017).

a.3) Provisions for Labor Matters

a.3.1) The Company and its subsidiaries maintained provisions of R\$ 92,940 as of September 30, 2018 (R\$ 82,425 as of December 31, 2017) for labor litigation filed by former employees and by employees of our service providers mainly contesting the non-payment of labor rights.

b. Contingent Liabilities (Possible)

The Company and its subsidiaries are parties in tax, civil, environmental, regulatory, and labor claims whose loss prognosis is assessed as possible (proceedings whose chance of loss is 50% or less). by the Company's legal departments based on the opinion of its external legal advisors and, based on this assessment, these claims were not recognized in the interim financial information. The estimated amount of this contingency is R\$ 2,781,606 as of September 30, 2018 (R\$ 2,576,583 as of December 31, 2017).

b.1) Contingent Liabilities for Tax Matters and Social Security

The Company and its subsidiaries have contingent liabilities for tax matters and social security in the amount of R\$ 1,880,572 as of September 30, 2018 (R\$ 1,709,435 as of December 31, 2017), mainly represented by:

b.1.1) The subsidiary IPP and its subsidiaries have assessments invalidating the offset of excise tax (IPI) credits in connection with the purchase of raw materials used in the manufacturing of products which sales are not subject to IPI under the protection of tax immunity. The amount of this contingency is R\$ 167,034 as of September 30, 2018 (R\$ 166,003 as of December 31, 2017).

b.1.2) The subsidiary IPP and its subsidiaries have legal proceedings related to ICMS. The total amount involved in these proceedings, was R\$ 758,638 as of September 30, 2018 (R\$ 618,774 as of December 31, 2017). Such proceedings arise mostly of the disregard of ICMS credits amounting to R\$ 366,390 as of September 30, 2018 (R\$ 307,255 as of December 31, 2017), of which R\$ 173,905 (R\$ 121,891 as of December 31, 2017) refer to proportional reversal requirement of ICMS credits related to the acquisition of hydrated alcohol; of alleged non-payment in the

amount of R\$ 124,445 (R\$ 113,999 as of December 31, 2017); and inventory differences in the amount of R\$ 181,459 (R\$ 149,171 as of December 31, 2017) related to the leftovers or faults due to temperature changes or product handling.

b.1.3) The Company and its subsidiaries are parties to administrative and judicial suits involving Income Tax, Social Security Contribution, PIS and COFINS, substantially about denials of offset claims and credits disallowance which total amount is R\$ 660,414 as of September 30, 2018 (R\$ 645,868 as of December 31, 2017), mainly represented by:

b.1.3.1) The subsidiary IPP received a tax assessment related to the IRPJ and CSLL resulting from the supposedly undue amortization of the goodwill paid on acquisition of a subsidiary, in the amount of R\$ 192,108 as of September 30, 2018 (R\$ 187,027 as of December 31, 2017), which includes the amount of the income taxes, interest and penalty. Management assessed the likelihood of the tax assessment, supported by the opinion of its legal advisors, as possible, and therefore did not recognize a provision for this contingent liability.

b.2) Contingent Liabilities for Civil, Environmental and Regulatory Claims

The Company and its subsidiaries have contingent liabilities for civil, environmental and regulatory claims in the amount of R\$ 628,622, totaling 3,192 lawsuits as of September 30, 2018 (R\$ 593,437, totaling 2,783 lawsuits as of December 31, 2017), mainly represented by:

b.2.1) The subsidiary Cia. Ultragaz is party to an administrative proceeding before CADE based on alleged anti-competitive practices in the State of Minas Gerais in 2001. The CADE entered a decision against Cia. Ultragaz and imposed a penalty of R\$ 32,821 as of September 30, 2018 (R\$ 32,315 as of December 31, 2017). The imposition of such administrative decision was suspended by a court order and its merit is being judicially reviewed.

b.2.2) In 2016, the subsidiary Cia. Ultragaz became party to two administrative proceedings filed by CADE, related to allegations of anti-competitive practices: i) one of the proceedings relate to practices in the State of Paraíba and other Northeast States, in which the subsidiary Bahiana is part along with Cia. Ultragaz. On this proceeding, Cia. Ultragaz and Bahiana signed a Cessation Commitment Agreement (TCC) with CADE, approved on November 22, 2017, in the amount of R\$ 95,987, to be paid in 8 (eight) equal installments updated semiannually by SELIC, with maturity of the first one in 180 (one hundred and eighty) days from the date of publication of the approval. Three employees and one former employee signed TCC in the total amount of R\$ 1,100. With the TCC, the administrative proceeding will be suspended in relation to the Cia. Ultragaz and Bahiana until final decision; ii) the second proceeding relate to practices in the Federal District and around, in which only Cia. Ultragaz is part. On this proceeding, Cia. Ultragaz signed a TCC with CADE, approved on September 6, 2017, in the amount of R\$ 2,154, to be paid in a single installment, with maturity in 180 (one hundred and eighty) days from the date of publication of the approval. Two former employees signed TCC in the amount of R\$ 50 each. With the TCC, the administrative proceeding will be suspended in relation to the Cia. Ultragaz until final decision.

b.2.3) The subsidiary IPP became party to two administrative proceedings filed by CADE, related to allegations of anti-competitive practices in the city of Joinville, State of Santa Catarina and around the city of Belo Horizonte, State of Minas Gerais. As of September 30, 2018, as a result of these administrative proceedings, no fine had been imposed to the subsidiary. Supported by the opinion of external legal counsel that classified the probability of loss as remote, Management did not recognize a provision for this contingency as of September 30, 2018.

b.2.4) On November 29, 2016, a technical opinion was issued by the Operational Support Center for Execution (Centro de Apoio Operacional à Execução - CAEX), a technical body linked to the São Paulo State Public Prosecutor (MPE), presenting a proposal of compensation for the alleged environmental damages caused by the fire on April 2, 2015 at the Santos Terminal of the subsidiary Tequimar. This technical opinion is non-binding, with no condemnatory or sanctioning nature, and will still be evaluated by the authorities and parties. The subsidiary disagrees with the

methodology and the assumptions adopted in the proposal and is negotiating an agreement with the MPE and the Brazilian Federal Public Prosecutor (MPF), and currently there is no civil lawsuit filed on the matter. The negotiations relate to *in natura* repair of the any damages. When the negotiations with the MPE and MPF are concluded, the payments related to the project costs may affect the Company s interim financial information, in addition to the amounts already recognized. In the criminal sphere, the MPF denounced the subsidiary Tequimar, which was summoned and replied to the complaint on June 19, 2018. In addition, as of September 30, 2018, there are contingent liabilities not recognized related to lawsuits and extrajudicial lawsuits in the amount of R\$ 68,186 and R\$ 3,426 (R\$ 88,075 and R\$ 25,852 as of December 31, 2017), respectively. For more information, see Note 22.

b.3) Contingent Liabilities for Labor Matters

The Company and its subsidiaries have contingent liabilities for labor matters in the amount of R\$ 272,412, totaling 1,743 lawsuits as of September 30, 2018 (R\$ 273,711, totaling 1,899 lawsuits as of December 31, 2017), mainly represented by:

b.3.1) In 1990, the Petrochemical Industry Labor Union (Sindiquímica), of which the employees of Oxiteno Nordeste and EMCA, companies located in the Camaçari Petrochemical Complex, are members, filed separate lawsuits against the subsidiaries demanding the compliance with the fourth section of the collective labor agreement, which provided for a salary adjustment in lieu of the salary policies practiced. In the same year, a collective labor dispute was also filed by the Union of Employers (SINPEQ) against Sindiquímica, requiring the recognition of the loss of effectiveness of such fourth section. The decisions rendered on the individual claims which were favorable to the subsidiaries Oxiteno Nordeste and EMCA are final and unappealable. The collective labor dispute remains pending trial by STF. In 2010, some companies in the Camaçari Petrochemical Complex signed an agreement with Sindiquímica and reported the fact in the collective labor dispute. In October 2015, Sindiquímica filed enforcement lawsuits against all Camaçari Petrochemical Complex companies that have not yet made settlements, including Oxiteno Nordeste and EMCA. The decisions of 1st instance were favorable to the companies, which are waiting for judgment of the Regional Labor Court of the 5th Region. In addition to collective actions, individual claims containing the same object have been filed.

c. Lubricants operation between IPP and Chevron

In the process of transaction of the lubricants operation in Brazil between Chevron and subsidiary IPP (see Note 3.c), it was agreed that each shareholder is responsible for any claims arising out of acts, facts or omissions prior to the transaction. The liability provisions of the Chevron shareholder in the amount of R\$ 3,554 are reflected in the consolidation of these interim financial information (R\$ 3,452 as of December 31, 2017), as well as the contingent liabilities identified in the date of acquisition, whose provision amount of R\$ 198,900 was recognized as a business combination on December 1, 2017. The amounts of provisions of Chevron's liability recognized in the business combination will be reimbursed to subsidiary CBLSA in the event of losses and an indemnity asset was hereby constituted in the same amount, without the need to establish a provision for uncollectible amounts.

22. Trade payables customers indemnification

In April 2015, a fire occurred in six ethanol and gasoline tanks operated by Ultracargo in Santos, which represented 4% of the subsidiary's overall capacity as of December 31, 2014. The Civil and Federal Police investigated the accident and its impacts, and concluded that it is not possible to determine the cause of the accident and neither to

individualize active or passive conduct related to the cause, and there was no criminal charge against either individual or the subsidiary, by both authorities. Notwithstanding that, the Brazilian Federal Public Prosecutor denounced the subsidiary Tequimar in the criminal sphere, which was summoned and replied to the complaint on June 19, 2018.

In June 2017, the licensing required for the return to operation of 67.5 thousands cubic meters from the total of 150 thousands cubic meters affected by the fire was obtained. The remaining tanks continue to be paralyzed and in the process of recovery for subsequent licensing and start of operation.

The remaining balance of customers and third parties indemnification is shown below:

24. Subscription warrants indemnification

Because of the association between the Company and Extrafarma on January 31, 2014, 7 subscription warrants indemnification were issued, corresponding to up to 3,205,622 shares of the Company. The subscription warrants indemnification may be exercised beginning 2020 by the former shareholders of Extrafarma and are adjusted according to the changes in the amounts of provisions for tax, civil, and labor risks and contingent liabilities related to the period prior to January 31, 2014. The subscription warrants indemnification's fair value is measured based on the share price of Ultrapar (UGPA3) and is reduced by the dividend yield until 2020, since the exercise is possible only from 2020, and they are not entitled to dividends until that date. As of September 30, 2018, the subscription warrants indemnification were represented by 2,032,011 shares and amounted to R\$ 73,317 (as of December 31, 2017, they were represented by 2,415,848 and totaled R\$ 171,459). Due to the final adverse decision of some of these lawsuits, on September 30, 2018, the maximum number of shares that could be issued related to the subscription warrants indemnification was up to 2,992,010 (3,035,499 shares as of December 31, 2017). For further information on Extrafarma's acquisition, see Note 3.a to the Financial Statements of the Company filed with the CVM on February 17, 2016.

25. Shareholders Equity

a. Share Capital

The Company is a publicly traded company listed on B3 in the Novo Mercado listing segment under the ticker UGPA3 and on the New York Stock Exchange (NYSE) in the form of level III American Depositary Receipts (ADRs) under the ticker UGP . On September 30, 2018, the subscribed and paid-in capital stock consists of 556,405,096 common shares with no par value and the issuance of preferred shares and participation certificates is prohibited. Each common share entitles its holder to one vote at Shareholders Meetings.

The price of the shares issued by the Company as of September 30, 2018, on B3 was R\$ 37.33.

As of September 30, 2018, the Company is authorized to increase capital up to the limit of 800,000,000 common shares, without amendment to the Bylaws, by resolution of the Board of Directors.

As of September 30, 2018, there were 31,971,260 common shares outstanding abroad in the form of ADRs (28,935,260 shares as of December 31, 2017).

b. Equity instrument granted

On April 19, 2017, a new share-based incentive plan was approved, which establishes the general terms and conditions for the concession of common shares issued by the Company held in treasury (see Note 8.c).

c. Treasury Shares

The Company acquired its own shares at market prices, without capital reduction, to be held in treasury and to be subsequently disposed of or cancelled, in accordance with CVM Instructions 10, issued on February 14, 1980 and 268, issued on November 13, 1997.

As of September 30, 2018, 13,311,355 common shares (13,041,356 shares as of December 31, 2017) were held in the Company's treasury, acquired at an average cost of R\$ 36.38 per share (R\$ 36.98 as of December 31, 2017).

d. Capital Reserve

The capital reserve reflects the gain on the transfer of shares at market price used in the Deferred Stock Plan granted to executives of the subsidiaries of the Company, as mentioned in Note 8.c).

Because of Extrafarma's association in 2014, the Company recognized an increase in the capital reserves in the amount of R\$ 498,812, due to the difference between the value attributable to share capital and the market value of the Ultrapar shares on the date of issue, deducted by R\$ 2,260 related to the incurred costs directly attributable to issuing new shares. For further information about the Extrafarma acquisition, see Note 3.a. to the Financial Statements of the Company filed with the CVM on February 17, 2016.

e. Revaluation Reserve

The revaluation reserve reflects the revaluation of assets of subsidiaries and is based on depreciation, write-off, or disposal of the revalued assets of the subsidiaries, as well as the tax effects recognized by these subsidiaries.

f. Profit Reserves

Legal Reserve

Under Brazilian Corporate Law, the Company is required to appropriate 5% of net annual earnings to a legal reserve, until the balance reaches 20% of capital stock. This reserve may be used to increase capital or absorb losses, but may not be distributed as dividends.

Retention of Profits

Reserve recognized in previous fiscal years and used for investments contemplated in a capital budget, mainly for expansion, productivity, and quality, acquisitions and new investments, in accordance with Article 196 of Brazilian Corporate Law.

Investments Reserve

In compliance with Article 194 of the Brazilian Corporate Law and Article 55.c) of the Bylaws this reserve is aimed to protect the integrity of the Company's assets and to supplement its capital stock, in order to allow new investments to be made. As provided in its Bylaws, the Company may allocate up to 45% of net income to the investments reserve, up to the limit of 100% of the share capital.

The investments reserve is free of distribution restrictions and totaled R\$ 3,000,707 as of September 30, 2018.

g. Valuation Adjustments and Cumulative Translation Adjustments

Valuation Adjustments

- (i) Actuarial gains and losses relating to post-employment benefits, calculated based on a valuation conducted by an independent actuary, are recognized in shareholders' equity under the title "valuation adjustments". Actuarial gains

and losses recorded in equity are not reclassified to profit or loss in subsequent periods.

- (ii) Gains and losses on the hedging instruments of exchange rate related to firm commitment and highly probable transactions designated as cash flows hedges are recognized in shareholders' equity as valuation adjustments. Gains and losses are reclassified to initial cost of non-financial assets.
- (iii) The differences between the fair value of financial investments measured at fair value through other comprehensive income and the initial amount of financial investments plus the interest earned and the foreign currency exchange variation are recognized in shareholders' equity as valuation adjustments. Gains and losses are reclassified to income statements when the financial investment is settled.
- (iv) The Company recognizes in this item the effect of changes in the non-controlling interest in subsidiaries that do not result in loss of control. This amount corresponds to the difference between the amount by which the non-controlling interest was adjusted and the fair value of the consideration received or paid and represents a transaction with shareholders.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Cumulative Translation Adjustments**

The change in exchange rates on assets, liabilities, and income of foreign subsidiaries that have (i) functional currency other than the presentation currency of the Company, (ii) an independent administration and (iii) notes in the foreign market (see Note 33 – net investment hedge in foreign entities), is directly recognized in the shareholders' equity. This accumulated effect is reflected in profit or loss as a gain or loss only in case of disposal or write-off of the investment.

Balance and changes in valuation adjustments and cumulative translation adjustments of the Company are as follows:

32. Segment Information

The Company operates five main business segments: gas distribution, fuel distribution, chemicals, storage and drugstores. The gas distribution segment (Ultragaz) distributes LPG to residential, commercial, and industrial consumers, especially in the South, Southeast, and Northeast regions of Brazil. The fuel distribution segment (Ipiranga) operates the distribution and marketing of gasoline, ethanol, diesel, fuel oil, kerosene, natural gas for vehicles, and lubricants and related activities throughout all the Brazilian territory. The chemicals segment (Oxiten) produces ethylene oxide and its main derivatives and fatty alcohols, which are raw materials used in the home and personal care, agrochemical, paints, varnishes, and other industries. The storage segment (Ultracargo) operates liquid bulk terminals, especially in the Southeast and Northeast regions of Brazil. The drugstores segment (Extrafarma) trades pharmaceutical, hygiene, and beauty products through its own drugstore chain in the states of Alagoas, Amapá,

Amazonas, Bahia, Ceará, Maranhão, Pará, Paraíba, Pernambuco, Piauí, Rio Grande do Norte, São Paulo, Sergipe and Tocantins. The segments shown in the interim financial information are strategic business units supplying different products and services. Intersegment sales are at prices similar to those that would be charged to third parties.

33. Risks and Financial Instruments (Consolidated)

Risk Management and Financial Instruments Governance

The main risks to which the Company and its subsidiaries are exposed reflect strategic/operational and economic/financial aspects. Operational/strategic risks (including, but not limited to, demand behavior, competition, technological innovation, and material changes in the industry structure) are addressed by the Company's management model. Economic/financial risks primarily reflect default of customers, behavior of macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company and its subsidiaries and their counterparties. These risks are managed through control policies, specific strategies, and the establishment of limits.

The Company has a policy for the management of resources, financial instruments, and risks approved by its Board of Directors (Policy). In accordance with the Policy, the main objectives of financial management are to preserve the value and liquidity of financial assets and ensure financial resources for the development of the business, including expansions. The main financial risks considered in the Policy are risks associated with currencies, interest rates, credit, and selection of financial instruments. Governance of the management of financial risks and financial instruments follows the segregation of duties below:

Implementation of the management of financial assets, instruments, and risks is the responsibility of the financial area, through its treasury department, with the assistance of the tax and accounting departments.

Supervision and monitoring of compliance with the principles, guidelines, and standards of the Policy is the responsibility of the Risk and Investment Committee, which is composed of members of the Company's Executive Board (Committee). The Committee holds regular meetings and is in charge, among other responsibilities, of discussing and monitoring the financial strategies, existing exposures, and significant transactions involving investment, fundraising, or risk mitigation. The Committee monitors the risk standards established by the Policy through a monitoring map on a monthly basis.

Changes in the Policy or revisions of its standards are subject to the approval of the Board of Directors of Ultrapar.

Continuous improvement of the Policy is the joint responsibility of the Board of Directors, the Committee, and the financial area.

The internal audit department audits the compliance with the requirements of the Policy.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Currency Risk**

Most transactions of the Company, through its subsidiaries, are located in Brazil and, therefore, the reference currency for risk management is the Brazilian Real. Currency risk management is guided by neutrality of currency exposures and considers the transactional, accounting, and operational risks of the Company and its subsidiaries and their exposure to changes in exchange rates. The Company considers as its main currency exposures the assets and liabilities in foreign currency and the short-term flow of net sales in foreign currency of Oxitenó.

The Company and its subsidiaries use exchange rate hedging instruments (especially between the Brazilian Real and the U.S. dollar) available in the financial market to protect their assets, liabilities, receipts, and disbursements in foreign currency and net investments in foreign operations. Hedge is used in order to reduce the effects of changes in exchange rates on the Company's income and cash flows in Brazilian Reais within the exposure limits under its Policy. Such foreign exchange hedging instruments have amounts, periods, and rates substantially equivalent to those of assets, liabilities, receipts, and disbursements in foreign currencies to which they are related. Assets and liabilities in foreign currencies are stated below, translated into Brazilian Reais:

Scenarios I, II and III were based on 10%, 25% and 50% variations, respectively, applied on the net position of the Company exposed to the currency risk, simulating the effects of appreciation and devaluation of the Real in the income statement and the shareholders' equity:

The table below shows, in the three scenarios, the effects of exchange rate changes on the net liability position of R\$ 2,037.9 million in foreign currency as of September 30, 2018:

In millions of Brazilian Reais	Risk	Scenario I 10%	Scenario II 25%	Scenario III 50%

The Company and its subsidiaries adopt policies for borrowing and investing financial resources and for capital cost minimization. The financial investments of the Company and its subsidiaries are primarily held in transactions linked to the CDI, as set forth in Note 4. Borrowings primarily relate to financing from Banco do Brasil, as well as debentures and borrowings in foreign currency, as shown in Note 15.

The Company attempts to maintain its financial interest assets and liabilities at floating rates.

The table below shows the incremental expenses and income that would be recognized in financial income as of September 30, 2018, due to the effect of floating interest rate changes in different scenarios.

For sensitivity analysis of floating interest rate risk, the Company used the accumulated amount of the reference indexes (CDI, TJLP, LIBOR, THIE and SELIC) as a base scenario up to September 30, 2018. Scenarios I, II and III were based on 10%, 25% and 50% variations, respectively, applied in the floating interest rate of the base scenario:

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Credit Risks**

The financial instruments that would expose the Company and its subsidiaries to credit risks of the counterparty are basically represented by cash and bank deposits, financial investments, hedging instruments (see Note 4), and trade receivables (see Note 5).

Credit risk of financial institutions Such risk results from the inability of financial institutions to comply with their financial obligations to the Company and its subsidiaries due to insolvency. The Company and its subsidiaries regularly conduct a credit review of the institutions with which they hold cash and cash equivalents, financial investments, and hedging instruments through various methodologies that assess liquidity, solvency, leverage, portfolio quality, etc. Cash and cash equivalents, financial investments, and hedging instruments are held only with institutions with a solid credit history, chosen for safety and soundness. The volume of cash and cash equivalents, financial investments, and hedging instruments are subject to maximum limits by each institution and, therefore, require diversification of counterparties.

Government credit risk The Company's policy allows investments in government securities from countries classified as investment grade AAA or Aaa by specialized credit rating agencies and in Brazilian government bonds. The volume of such financial investments is subject to maximum limits by each country and, therefore, requires diversification of counterparties.

The credit risk of cash, cash equivalents and financial investments is summarized below:

Counterparty credit rating	Fair value	
	09/30/2018	12/31/2017
AAA	5,210,382	29,003
AA	861,285	6,076,520
A	217,673	192,638
BBB	139,444	71,767
Total	6,428,784	6,369,928

Customer credit risk - Such risks are managed by each business unit through specific criteria for acceptance of customers and their credit rating and are additionally mitigated by the diversification of sales. No single customer or group accounts for more than 10% of total revenue.

The Company maintained the following allowance for estimated losses on doubtful accounts on trade receivables:

	09/30/2018	12/31/2017 Restated
Ipiranga	447,666	350,594

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Liquidity Risk**

The Company and its subsidiaries' main sources of liquidity derive from (i) cash, cash equivalents, and financial investments, (ii) cash generated from operations and (iii) financing. The Company and its subsidiaries believe that these sources are sufficient to satisfy their current funding requirements, which include, but are not limited to, working capital, capital expenditures, amortization of debt, and payment of dividends.

The Company and its subsidiaries periodically examine opportunities for acquisitions and investments. They consider different types of investments, either directly, through joint ventures, or through associated companies, and finance such investments using cash generated from operations, debt financing, through capital increases, or through a combination of these methods.

The Company and its subsidiaries believe to have enough working capital and sources of financing to satisfy their current needs. The gross indebtedness due over the next twelve months totals R\$ 4,162.0 million, including estimated interests on loans (for quantitative information, see Note 15). Furthermore, the investment plan for 2018 totals R\$ 2,676 million, and until September 30, 2018, the amount of R\$ 1,532.7 million had been realized. As of September 30, 2018, the Company and its subsidiaries had R\$ 6,236.5 million in cash, cash equivalents, and short-term financial investments (for quantitative information, see Note 4).

The table below presents a summary of financial liabilities as of September 30, 2018 by the Company and its subsidiaries, listed by maturity. The amounts disclosed in this table are the contractual undiscounted cash outflows, and, therefore, these amounts may be different from the amounts disclosed on the balance sheet as of September 30, 2018.

To calculate the estimated interest on loans some macroeconomic assumptions were used, including averaging for the period the following: (i) CDI of 8.91% in 2018, 11.12% from 2019 to 2021, 11.12% from 2022 to 2023, 12.21% from 2024 to 2033, (ii) exchange rate of the Real against the U.S. dollar of R\$ 4.05 in 2018, R\$ 4.15 in 2019, R\$ 4.36 in 2020, R\$ 4.67 in 2021, R\$ 5.05 in 2022, R\$ 5.46 in 2023, R\$ 5.90 in 2024, R\$ 6.39 in 2025, R\$ 6.91 in 2026 and R\$ 7.45 in 2027 (iii) TJLP of 6.75% p.a. and (iv) IGP-M of 9.55% in 2018, 4.39% in 2019, 4.0% from 2020 to 2033 (v) IPCA of 4.40% (source: B3, Bulletin Focus and financial institutions).

- (2) Includes estimated interest payments on short-term and long-term loans until the payment date.
- (3) The currency and interest rate hedging instruments were estimated based on projected U.S dollar futures contracts and the futures curves of DI x Pre and Pre x IPCA contracts quoted on B3 on September 28, 2018 and on the futures curve of LIBOR (ICE IntercontinentalExchange) on September 28, 2018. In the table above, only the hedging instruments with negative results at the time of settlement were considered.

Capital Management

The Company manages its capital structure based on indicators and benchmarks. The key performance indicators related to the capital structure management are the weighted average cost of capital, net debt / EBITDA, interest coverage, and indebtedness / equity ratios. Net debt is composed of cash, cash equivalents, and financial investments (see Note 4) and loans, including debentures (see Note 15). The Company can change its capital structure depending on the economic and financial conditions, in order to optimize its financial leverage and capital management. The Company seeks to improve its return on invested capital by implementing efficient working capital management and a selective investment program.

Selection and Use of Financial Instruments

In selecting financial investments and hedging instruments, an analysis is conducted to estimate rates of return, risks involved, liquidity, calculation methodology for the carrying value and fair value, and a review is conducted of any documentation applicable to the financial instruments. The financial instruments used to manage the financial resources of the Company and its subsidiaries are intended to preserve value and liquidity.

The Policy contemplates the use of derivative financial instruments only to cover identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). The risks identified in the Policy are described in the above sections, and are subject to risk management. In accordance with the Policy, the Company and its subsidiaries can use forward contracts, swaps, options, and futures contracts to manage identified risks. Leveraged derivative instruments are not permitted. Because the use of derivative financial instruments is limited to the coverage of identified risks, the Company and its subsidiaries use the term *hedging instruments* to refer to derivative financial instruments.

As mentioned in the section *Risk Management and Financial Instruments Governance*, the Committee monitors compliance with the risk standards established by the Policy through a risk map, including the use of hedging instruments, on a monthly basis. In addition, the internal audit department verifies the compliance with the requirements of the Policy.

(In thousands of Brazilian Reais, unless otherwise stated)

Hedging instruments existing as of September 30, 2018 are described below, according to their category, risk, and hedging strategy:

a and c Hedging against foreign exchange exposure of liabilities in foreign currency The purpose of these contracts is (i) to offset the effect of the change in exchange rates of debts or firm commitments in U.S. dollars by converting them into debts or firm commitments in Brazilian Reais linked to CDI, (ii) firm commitments in U.S. dollars, changing them into debts or firm commitments in Reais indexed to the CDI and (iii) change a financial investment linked to the CDI and given as a guarantee to a loan in the U.S. dollar into a financial investment linked to the U.S. dollar. As of September 30, 2018, the Company and its subsidiaries had outstanding swap contracts totaling US\$ 1,290.1 million in notional amount with a liability position, on average of 84.5% of CDI, of which US\$ 267.1 million, had an asset position at US\$ + 3.36% p.a., US\$ 290.0 million had an asset position at US\$ + LIBOR + 1.29% p.a. and US\$ 733.0 million in interest rate swap with an asset position at US\$ + 5.65% p.a. This amount includes US\$ 415.0 million related to the fair value of hedging instruments of Ipiranga's debt (see Notes 15.c and hedge accounting below).

b Hedging against fixed interest rate + IPCA in Brazilian Reais The purpose of this contract is to change fixed interest rate + IPCA of debentures issued in Brazilian Reais to floating interest. As of September 30, 2018 this swap contract totaled R\$ 566.1 million of notional amount, corresponding to the principal amount of the debt and had an asset position at 4.55% p.a. + IPCA and a liability position at 95.2% of CDI.

d Hedging against foreign exchange exposure of operations The purpose of these contracts is to make the exchange rate of the revenues of subsidiaries Oleoquímica, Oxiten S.A. and Oxiten Nordeste equal to the exchange rate of the cost of their main raw materials during their operating cycles. As of September 30, 2018, these swap contracts totaled US\$ 8.4 million and, on average, had an asset position at 44.7% of CDI and a liability position at US\$ + 0.0% p.a.

Hedge Accounting

The Company and its subsidiaries use derivative and non-derivative financial instruments for hedging purposes and test, throughout the duration of the hedge, their effectiveness, as well as the changes in their fair value.

Fair value hedge

The Company and its subsidiaries designate as fair value hedges certain financial instruments used to offset the variations in interest and exchange rates, which are based on the market value of financing contracted in Brazilian Reais and U.S. dollars.

On September 30, 2018, the notional amount of foreign exchange hedging instruments designated as fair value hedge totaled US\$ 415.0 million. In 2018, a gain of R\$ 210.0 million related to the result of hedging instruments, a loss of R\$ 33.6 million related to the fair value adjustment of debt, and a loss of R\$ 255.9 million related to the financial expense of the debt were recognized in the income statements, transforming the average effective cost of the operation into 103.8% of CDI (see Note 15.c.1).

On September 30, 2018, the notional amount of interest rate hedging instruments designated as fair value hedges totaled R\$ 566.1 million. As of September 30, 2018, a loss of R\$ 36.7 million related to the result of hedging instruments, a gain of R\$ 37.7 million related to the fair value adjustment of debt, and a loss of R\$ 38.8 million related to the financial expense of the debt were recognized in the income statements, transforming the average effective cost of the operations into 95.2% of CDI.

Cash flow hedge

The Company and its subsidiaries designate, as cash flow hedge of firm commitment and highly probable transactions, derivative financial instruments to hedge firm commitments and non-derivative financial instruments to hedge highly probable future transactions, to hedge against fluctuations arising from changes in exchange rate.

On September 30, 2018, the Company had no open exchange rate hedging instruments of firm commitments designated as cash flow hedges. For the exchange rate hedging instruments settled in 2018, a gain of R\$ 10.7 million was recognized in the income statement, transferring the unrealized gain of Other comprehensive income to the income statement on September 30, 2018 (gain of R\$ 5.3 million on December 31, 2017, net of deferred income and social contribution taxes).

On September 30, 2018, the notional amount of foreign exchange hedging instruments for highly probable future transactions designated as fair value hedge, related to notes in the foreign market totaled US\$ 570.0 million. On September 30, 2018, the unrealized loss of Other comprehensive income is R\$ 292.3 million (loss of R\$ 30.5 million on December 31, 2017), net of deferred income and social contribution taxes.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)***Net investment hedge in foreign entities**

The Company and its subsidiaries designate, as net investment hedge in foreign entities, notes in the foreign market, for hedging net investment in foreign entities, to offset changes in exchange rates.

On September 30, 2018, the balance of foreign exchange hedging instruments designated as net investments hedge in foreign entities, related to part of the investments made in entities which functional currency is other than the Brazilian Real, totaled US\$ 96.0 million. On September 30, 2018, the unrealized loss of Other comprehensive income is R\$ 54.1 million (loss of R\$ 6.2 million on December 31, 2017), net of deferred income and social contribution taxes. The effects of exchange rate changes on investments and hedging instruments were offset in shareholders equity.

Notes to the Individual and Consolidated Interim Financial Information

(In thousands of Brazilian Reais, unless otherwise stated)

The fair value of financial instruments, including currency and interest hedging instruments, was determined as follows:

The fair value of cash and bank deposit balances are identical to their carrying values.

Financial investments in investment funds are valued at the value of the fund unit as of the date of the interim financial information, which corresponds to their fair value.

Financial investments in CDBs (Bank Certificates of Deposit) and similar investments offer daily liquidity through repurchase at the yield curve and the Company calculates their fair value through methodologies commonly used for mark to the market.

The fair value of trade receivables and trade payables are approximate to their carrying values.

The subscription warrants indemnification were measured based on the share price of Ultrapar (UGPA3) at the interim financial information date and are adjusted to the Company's dividend yield, since the exercise is only possible starting in 2020 onwards and they are not entitled to dividends until then. The number of shares of subscription warrants indemnification is also adjusted according to the changes in the amounts of provision for tax, civil, and labor risks and contingent liabilities related to the period prior to January 31, 2014. (See Note 24).

The fair value calculation of notes in the foreign market (see Note 15.b) is based on the quoted price in an active market.

The fair value of other financial investments and financing was determined using calculation methodologies commonly used for mark-to-market reporting, which consist of calculating future cash flows associated with each instrument adopted and adjusting them to present value at the market rates as of September 30, 2018 and December 31, 2017. For some cases where there is no active market for the financial instrument, the Company and its subsidiaries can use quotes provided by the transaction counterparties.

The interpretation of market information on the choice of calculation methodologies for the fair value requires considerable judgment and estimates to obtain a value deemed appropriate to each situation. Consequently, the estimates presented do not necessarily indicate the amounts that may be realizable in the current market.

Financial instruments were classified as financial assets or liabilities measured at amortized cost, except (i) all exchange rate and interest rate hedging instruments, which are measured at fair value through profit or loss, (ii) financial investments classified as measured at fair value through profit or loss, (iii) financial investments that are classified as measured at fair value through other comprehensive income (see Note 4), (iv) loans and financing measured at fair value through profit or loss (see Note 15), (v) guarantees to customers that have vendor arrangements (see Note 15.k), which are measured at fair value through profit or loss, and (vi) subscription warrants indemnification, which are measured at fair value through profit or loss (see Note 24). Cash, banks, and trade

receivables are classified as measured at amortized cost. Trade payables and other payables are classified as financial liabilities measured at amortized cost.

Sensitivity Analysis of Derivative Financial Instruments

The Company and its subsidiaries use derivative financial instruments only to hedge against identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). Thus, for purposes of sensitivity analysis of market risks associated with financial instruments, as required by CVM Instruction 475/08, the Company analyzes the hedging instrument and the hedged item together, as shown on the charts below.

For the sensitivity analysis of foreign exchange hedging instruments, management adopted as a likely scenario the Real/U.S. dollar exchange rates at maturity of each swap, projected by U.S dollar futures contracts quoted on B3 as of September 28, 2018. As a reference, the exchange rate for the last maturity of foreign exchange hedging instruments is R\$ 7.04 in the likely scenario. Scenarios II and III were estimated with a 25% and 50% additional appreciation or depreciation of the Brazilian Real against the likely scenario, according to the risk to which the hedged item is exposed.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Individual and Consolidated Interim Financial Information***(In thousands of Brazilian Reais, unless otherwise stated)*

Based on the balances of the hedging instruments and hedged items as of September 28, 2018, the exchange rates were replaced, and the changes between the new balance in Brazilian Reais and the original balance in Brazilian Reais as of September 28, 2018 were calculated in each of the three scenarios. The table below shows the change in the values of the main derivative instruments and their hedged items, considering the changes in the exchange rate in the different scenarios:

		Scenario I (likely)	Scenario II	Scenario III
	Risk			
Currency swaps receivable in U.S. dollars				
(1) U.S. Dollar / Real swaps	Dollar	523,664	1,235,892	1,948,121
(2) Debts/firm commitments in dollars	appreciation	(523,651)	(1,235,863)	(1,948,076)
(1)+(2)	Net effect	13	29	45
Currency swaps payable in U.S. dollars				
(3) Real / U.S. Dollar swaps	Dollar	(319)	8,186	16,691
(4) Gross margin of Oxitenio	devaluation	319	(8,186)	(16,691)
(3)+(4)	Net effect			

For sensitivity analysis of hedging instruments for interest rates in Brazilian Reais, the Company used the futures curve of the DI x Pre contract quoted on B3 as of September 28, 2018 for each of the swap and debt (hedged item) maturities, to determine the likely scenarios. Scenarios II and III were estimated based on a 25% and 50% deterioration, respectively, of the likely scenario pre-fixed interest rate.

Based on the three scenarios of interest rates in Brazilian Reais, the Company estimated the values of its debt and hedging instruments according to the risk which is being hedged (variations in the pre-fixed interest rates in Brazilian Reais), by projecting them to future value at the contracted rates and bringing them to present value at the interest rates of the estimated scenarios. The result are shown in the table below:

Risk	Scenario II	Scenario III
-------------	--------------------	---------------------

			Scenario I (likely)		
Interest rate swap (in Brazilian Reais)	Debentures	CRA			
(1) Fixed rate swap	CDI		Decrease in	(125,593)	(68,192)
(2) Fixed rate debt			Pre-fixed rate	125,593	68,192
					(40)

i) Subsidiary Tequimar has agreements with CODEBA and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with its port facilities in Aratu and Suape, respectively. Such agreements establish a minimum cargo movement of products, as shown below:

Port	Minimum movement in tons per year	Maturity
Aratu	397,000	2031
Aratu	900,000	2022
Suape	250,000	2027
Suape	400,000	2029

If the annual movement is less than the minimum contractual movement, the subsidiary is liable to pay the difference between the effective movement and the minimum contractual movement, based on the port tariff rates in effect on the date established for payment. As of September 30, 2018, these rates were R\$ 6.99 per ton for Aratu and R\$ 2.54 per ton for Suape. The subsidiary has met the minimum cargo movement required since the beginning of the contractual agreements.

ii) Subsidiary Oxiteno Nordeste has a supply agreement with Braskem S.A. which establishes a minimum annually consumption level of ethylene, and conditions for the supply of ethylene until 2021. The minimum purchase commitment clause provided for a minimum annual consumption of 205 thousand tons in 2018. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine based on the current ethylene price for the quantity not purchased. According to contractual conditions and tolerances, there are no material issues regarding the minimum purchase commitment.

iii) Subsidiary Oxiteno S.A. has a supply agreement with Braskem S.A., valid until 2023, which establishes and regulates the conditions for supply of ethylene to Oxiteno based on the international market for this product. The minimum purchase is 44,100 tons of ethylene annually. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine based on the current ethylene price for the quantity not purchased. According to contractual conditions and tolerances, there are no material issues regarding the minimum purchase commitment.

b. Insurance Coverage

The Company maintains insurance policies with the objective of covering several risks to which it is exposed, including loss of profits, losses and damage from fire, lightning, explosion of any kind, gale, aircraft crash, electric damage, and other risks, covering the industrial plants and distribution bases and branches of all subsidiaries. The maximum compensation values based on the risk analysis of certain locations are shown below:

	Maximum compensation value (*)	
Oxitenó	US\$	1,142
Ipiranga	R\$	1,032
Ultracargo	R\$	949
Ultragaz	R\$	266
Extrafarma	R\$	160

(*) In millions. In accordance with policy conditions.

The General Liability Insurance program covers the Company and its subsidiaries with a maximum aggregate coverage of US\$ 400 million against losses caused to third parties as a result of accidents related to commercial and industrial operations and/or distribution and sale of products and services.

The Company maintains liability insurance policies for directors and executive officers (D&O) to indemnify the members of the Board of Directors, fiscal council and executive officers of Ultrapar and its subsidiaries (Insured) in the total amount of US\$ 80 million, which cover any of the Insured liabilities resulting from wrongful acts, including any act or omission committed or attempted, except if the act, omission or the claim is consequence of gross negligence or willful misconduct.

In addition, group life and personal accident, health and national and international transportation and other insurance policies are also maintained.

The coverage and limit of the insurance policies are based on a careful study of risks and losses conducted by independent insurance advisors. The type of insurance is considered by management to be sufficient to cover potential losses based on the nature of the business conducted by the companies.

Subsidiaries Cia. Ultragaz, Bahiana, Tequimar, Serma, and Oxiten S.A. have operating lease contracts for the use of IT equipment. These contracts have terms from 36 to 48 months. The subsidiaries have the option to purchase the assets at a price equal to the fair market price on the date of option, and management does not intend to exercise such option. Subsidiaries Cia. Ultragaz and Bahiana have operating lease contracts related to vehicles in their fleet. These contracts have terms of 24 to 60 months and there is no purchase option. The future disbursements (installments), assumed under these contracts, amount approximately to:

	Up to 1 year	Between 1 and 5 years	More than 5 years	Total
09/30/2018	32,575	62,649		95,224

The subsidiaries IPP, Extrafarma, and Cia. Ultragaz have operating lease contracts related to land and building of service stations, drugstores, and stores, respectively. The future disbursements and receipts (installments), arising from these contracts, amount approximately to:

		Up to 1 year	Between 1 and 5 years	More than 5 years	Total

Table of Contents**Considerations on the financial and operational information**

The financial information presented in this document has been prepared according to International Financial Reporting Standards (IFRS). The financial information of Ultrapar corresponds to the Company's consolidated information. The information on Ipiranga, Oxiten, Ultragas, Ultracargo and Extrafarma is reported without the elimination of intercompany transactions. Therefore, the sum of such information may not correspond to Ultrapar's consolidated information. Additionally, the financial and operational information presented in this document is subject to rounding and, consequently, the total amounts presented in the tables and charts may differ from the direct sum of the amounts that precede them. Except when otherwise indicated, the information presented in this document compares the third quarter of 2018 (3Q18) and the third quarter of 2017 (3Q17).

As from 2018, the IFRS 9 and 15 standards issued by the IASB (International Accounting Standards Board) have been adopted. In order to provide a comparative basis between the information for 3Q18 and 9M18 and that of 3Q17 and 9M17 shown in this document, the information for 2017 includes alterations in the accounting standards, consequently differing from the values previously reported in the respective earnings releases. Explanations on the impacts of the third quarter 2017 compared with the amounts previously published are available from our website (ri.ultra.com.br).

Information denominated EBITDA – Earnings Before Interest, Taxes, Depreciation and Amortization; Adjusted EBITDA – adjusted for amortization of contractual assets with customers - exclusive rights; and EBIT – Earnings Before Interest and Taxes is presented in accordance with Instruction 527, issued by the Brazilian Securities and Exchange Commission – CVM on October 04, 2012. Net revenues Total of R\$ 23,834 million (+17%) due to growth in revenues at all the businesses. In relation to 2Q18, net revenues increased 5%, the result of higher revenues at Ipiranga, Oxitenio e Ultragaz. In 9M18, net revenues amounted to R\$ 67,231 million, 16% higher than the same period in 2017.

Adjusted EBITDA Total of R\$ 850 million (-30%) and reflecting lower EBITDA at Ipiranga and Extrafarma, and higher EBITDA at Oxitenio, Ultragaz e Ultracargo. Compared with 2Q18, Adjusted EBITDA increased by 18% due to a higher EBITDA at Ipiranga, Oxitenio and Ultragaz. In 9M18, Adjusted EBITDA amounted to R\$ 2,076 million, 29% less than 9M17, impacted by the fine following the rejection of the Liquigás acquisition.

Depreciation and amortization³ Total of R\$ 296 million (+6%) reflecting the investments made over the past 12 months. Compared with 2Q18, total costs and expenses with depreciation and amortization rose 2%. In 9M18, depreciation and amortization totaled R\$ 885 million, a growth of 2% in relation to 9M17.

Financial results - Ultrapar reported net debt on September 30, 2018 of R\$ 9.2 billion (2.9x LTM Adjusted EBITDA) compared with R\$ 6.8 billion on September 30, 2017 (1.7x LTM Adjusted EBITDA). The increased leverage mainly reflects lower EBITDA LTM and higher working capital in the period, despite the practically stable investment amount compared to the same period of the previous year. Ultrapar's net financial expenses were R\$ 59 million, R\$ 62 million less than when compared with 3Q17, due to: (i) the decline in the Interbank Rate (CDI) year-over-year despite the increase in net debt, (ii) the depreciation in Ultrapar's shares relative to the subscription warrant (issued in association with Extrafarma), and (iii) the effects of currency variations in the periods. In relation to 2Q18, net finance expenses fell R\$ 6 million, principally due to the effects of currency variations in the periods under review, partially compensated by lower depreciation of Ultrapar's shares relative to the subscription warrant. In 9M18, net financial expenses amounted to R\$ 230 million, a decrease of 35% compared to 9M17.

Net earnings Total of R\$ 323 million (-41%), due to lower EBITDA, despite the reduction in financial expenses. In relation to 2Q18, net earnings increased 34%, principally due to higher EBITDA. In 9M18, net income amounted to R\$ 637 million, 44% less than 9M17. Excluding the effects of the fine, net earnings would have been R\$ 826 million in 9M18.

Operational cash flow Total of R\$ 1,443 million in 9M18, compared with R\$ 1,368 million in 9M17, due to lower tax payments, reflecting lower earnings and greater use of credits for compensating taxes, offset by higher investments in working capital, the result of insurance reimbursements during 2017.

¹ Starting in Dec/17, total volume includes ICONIC, the lubricants joint venture with Chevron

² Fuel oils, arla 32, kerosene, lubricants and greases

Operational performance Otto cycle volume fell 1% in relation to 3Q17, in line with the weak performance of the market as a whole. By contrast, diesel volume improved by 5%, due to higher service station sales. Compared with 2Q18, volumes increased 6%, with an increase of 8% in diesel and 4% in Otto cycle, reflecting an improvement on the economic environment, seasonal variations between periods and the effect of the strike in the preceding quarter. In 9M18, Ipiranga registered sales volume of 17,520 thousand m³, flat in relation to volume in 9M17.

Net revenues Total of R\$ 20,007 million (+17%), principally due to the variation in fuel costs and higher sales volume. In relation to 2Q18, net revenues rose 5%, due to the same factors explained above. In 9M18, net revenues amounted to R\$ 56,590 million, 15% higher than 9M17.

Cost of goods sold Total of R\$ 19,162 million (+21%), mainly due to variations in fuel costs and higher sales volume. In relation to 2Q18, the cost of goods sold rose 5%, in line with the growth reported in volume and the variation in the costs of fuels. In 9M18, cost of goods sold totaled R\$ 54,050 million, an 18% increase in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 544 million (+1%), mainly due to higher expenses of R\$ 29 million with the consolidation of results of ICONIC, the lubricants joint venture with Chevron, which began operations in December 2017. Excluding this effect, SG&A expenses would have been 4% lower year-over-year, due to: (i) lower expenditures with marketing programs, (ii) reduced expenditures with strategic consultancies, (iii) adherence to the Special Tax Regulation Program amnesty (*Programa Especial de Regularização Tributária* - PERT) in 3Q17, and (iv) lower maintenance expenses. These effects were partially compensated by the increase in freight expenditures, in line with higher sales volume and the increased costs of diesel. In relation to 2Q18, SG&A expenses, rose 1%, the result of higher expenditures with freight, again in line with higher sale volumes and increased expenses with maintenance, partially offset by lower expenses with marketing programs and reduced provisions for doubtful debts. In 9M18, SG&A expenses totaled R\$ 1,634 million, 7% higher than 9M17. Excluding expenses with ICONIC, SG&A expenses were flat in relation to 9M17.

Adjusted EBITDA Total of R\$ 497 million (-47%), impacted by the more favorable fuel costs and the opportunities for importing in 3Q17 and the impact of R\$ 24 million from inventory loss due to the truckers' strike and the booking of inventory at average cost. These effects were partially attenuated by the higher sales volume and the greater than normal disposal of assets, in 3Q18 amounting to R\$ 13 million. In relation to 2Q18, Adjusted EBITDA increased 24%, due to: (i) the gradual recovery in margins, (ii) higher sales volume, (iii) the positive variation in the costs of fuels, and (iv) asset disposals in 3Q18 amounting to R\$ 13 million. In 9M18, Adjusted EBITDA at Ipiranga was R\$ 1,484 million, a decrease of 32% in relation to the same period in 2017.

Investments A total of R\$ 253 million was invested in the period and mainly allocated to maintenance and expansion of the service station and franchise network. Out of total investments, R\$ 90 million were applied in property, plant and equipment and in intangible assets, R\$ 102 million in contractual assets with clients (exclusive rights) and R\$ 61 million for financing clients and rental advances, net of repayments. Ipiranga ended 3Q18 with 8,018 service stations (+3%), a net addition of 204 service stations over the past 12 months. In 9M18, investments amounted to R\$ 674 million.

Operational performance Specialty chemicals sales volume reported a 7% reduction on an annualized basis, due to the high comparative base in 3Q17. The domestic market fell 8%, principally in the agro-chemical and distribution segments. Specialty chemicals sales volume to export markets declined 5%, due to lower exports to Argentina, in spite of the greater sales volume in the United States. On the other hand, commodity sales rose 18% in relation to 3Q17, reflecting the stronger demand for these products domestically. In relation to 2Q18, total sales volume was up 6%, with increases both in commodity volume as well as specialty chemical volume. In 9M18, sales volume totaled 579 thousand tons, a reduction of 2% in relation to the same period in 2017.

Net revenues Total of R\$ 1,368 million (+33%), due to a 25% devaluation of the Real in relation to the US Dollar (equivalent to R\$ 0.79/US\$) and an average price 9% higher in US Dollars, the result of increased year-over-year costs of raw materials, principally ethylene, in spite of lower sales volume and the higher share of commodities in the sales mix. In relation to 2Q18, net revenues increased 16%, due to higher sales volume and a 10% devaluation in the Real in relation to the US Dollar (equivalent to R\$ 0.35/US\$). In 9M18, net revenues amounted to R\$ 3,548 million, 25% greater than 9M17.

Cost of goods sold Total of R\$ 1,038 million (+26%), due to: (i) the 25% devaluation of the Real against the US Dollar, (ii) the increase in costs of raw materials, mainly ethylene on a year-on-year comparative basis, and (iii) the costs related to the startup of the new unit in Texas. Compared with 2Q18, the cost of goods sold rose 13%, reflecting the increase in sales volume, the 10% devaluation in the Real against the US Dollar, in addition to higher costs in the USA, with the startup of the new plant. In 9M18, the cost of goods sold amounted to R\$ 2,784 million, a growth of 22% in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 194 million (+12%), due to: (i) greater expenses with variable compensation, (ii) greater expenditures in the United States with the startup of the new plant, and (iii) the impact of the Real's devaluation on expenses in the international operations. In relation to 2Q18, SG&A expenses increased 9%, mainly due to higher logistical expenses, reflecting higher sales volume, the sales mix, as well as greater expenditures with the international units affected by the impact of devaluation of the Real. In 9M18, SG&A expenses amounted to R\$ 538 million, and year-over-year improvement of 11% relative to the same period in 2017.

EBITDA Oxitenos EBITDA amounted to R\$ 173 million (+135%) due to the higher average exchange rate given the 25% devaluation of the Real against the US Dollar and the higher unitary margins in US Dollars. The results of 3Q18 consider an impairment at Oxiteno Andina of R\$ 7 million as a consequence of the adverse political and economic scenario at Venezuela. In relation to 2Q18, EBITDA increased 43% due to higher sales volume and a 10% devaluation in relation to the US Dollar. In 9M18, EBITDA was R\$ 346 million, a growth of 58% in relation to 9M17.

Investments Investment in the period was R\$ 107 million, mainly allocated to the new specialty chemicals plant in the United States and maintenance of the production facilities. Investments in 9M18 were R\$ 397 million.

Operational performance The bottled segment recorded a decline of 3% when compared to the same period in 2017, lower than the 4% decline in the LPG market as a whole. The bulk segment registered a decline of 1% in volume due to fewer business days in the quarter. In relation to 2Q18, sales volume rose 1%, with an increase of 6% in the bulk segment, reflecting seasonal factors between periods and the impacts from the truckers' strike in 2Q18. In 9M18, Ultragaz sales volume was 1,304 thousand tons, a reduction of 1% in relation to 9M17, in line with the 1% reduction in the LPG market.

Net revenues Total of R\$ 1,870 million (+19%) mainly due to pass-through of readjusted LPG costs, despite the reduced volume of sales in the period. In relation to 2Q18, net revenues increased 6%, reflecting higher sales volume and pass-through of cost readjustments in LPG, with the bulk segment taking a greater share of the sales mix. In 9M18, net revenues amounted to R\$ 5,261 million, 20% greater than 9M17.

Cost of goods sold Total of R\$ 1,625 million (+25%), principally due to readjustments in LPG costs. In relation to 2Q18, the cost of goods sold increased by 5% due to greater sales volume and readjustments in LPG costs. In 9M18, cost of goods sold amounted to R\$ 4,601 million, a growth of 25% in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 145 million (-10%), due to: (i) lower expenses with strategic consultancies, (ii) lower provisions for doubtful debts, (iii) lower marketing expenditures, and (iv) lower freight expenditures, reflecting the migration of clients from delivery CIF to FOB. In relation to 2Q18, SG&A expenses increased 8%, mainly due to the non-recurring effect of the reevaluation of the provision for estimated losses in 2Q18 with the reversal of R\$ 9 million. In 9M18, SG&A expenses totaled R\$ 411 million, 13% less than the same period in 2017.

EBITDA Total of R\$ 159 million (0%) due to initiatives adopted for reducing costs and expenses, thus neutralizing the impact on results of lower sales volume. In relation to 2Q18, Ultragaz's EBITDA rose 7% due to higher sales volume and the greater share of bulk in the overall sales mix. In 9M18, EBITDA ex-fine imposed following the rejection of the proposed acquisition of Liquigás in 1Q18, totaled R\$ 424 million, a growth of 8% in relation to 9M17.

Investments Ultragaz invested R\$ 54 million, allocated mainly to clients in the bulk segment, gas bottles and IT with a focus on the strategy of differentiation and innovation. In 9M18, investments totaled R\$ 171 million.

¹ *Monthly average*

Operational performance Ultracargo's average storage rose 5% in relation to 3Q17 due to increased ethanol handling at the Suape and Santos port terminals, despite the reduced handling of fuels at the Suape and Itaquí terminals. Compared with 2Q18, average storage at the terminals fell 3%, due to reduced fuel and ethanol handling activity in Suape, but partially offset by more intensive ethanol operations in Santos. In 9M18, Ultracargo's average storage increased by 6% in relation to 9M17.

Net revenues Total of R\$ 124 million in 3Q18 (+11%), driven by increased average storage and by higher average prices. In relation to 2Q18, net revenues fell 2% due to lower average storage in the quarter. In 9M18, net revenues totaled R\$ 367 million, 15% higher than 9M17.

Cost of services provided Total of R\$ 62 million (+12%), due to greater expenditures in Santos due to the partial resumption in operations at the terminal. In relation to 2Q18, the cost of services provided rose by 2% due to greater expenditures with maintenance. In 9M18, the cost of services provided amounted to R\$ 182 million, an increase of 14% in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 31 million (+13%), due to higher payroll expenses and consultancies for new projects. In relation to 2Q18, SG&A increased 29%, influenced by a non-recurring credit of R\$ 8 million in 2Q18, with the recovery of an improperly charged port management fee. In 9M18, SG&A expenses amounted to R\$ 83 million, year-over-year 3% greater.

EBITDA Total of R\$ 44 million (+10%) due to higher average storage in the period and higher average prices at the terminals. In relation to 2Q18, EBITDA fell 19%, due to the receipt of non-recurring credits amounting to R\$ 8 million in 2Q18, as mentioned above, and lower activity in the period. In 9M18, Ultracargo's EBITDA amounted to R\$ 139 million, a growth of 58% in relation to 9M17.

Investments Ultracargo invested R\$ 36 million in the period, mainly allocated to expansion at the Itaquí terminal and maintenance and modernization of terminal safety systems and processes. In 9M18, investments amounted to R\$ 86 million.

Operational performance Extrafarma ended 3Q18 with 414 stores, 77 openings and 29 closures in the past 12 months, equivalent to an increase of 13%. At the end of 3Q18, still maturing stores (up to three years of operations) represented 53% of the store network compared with 51% in 3Q17, reflecting the accelerated expansion of the network. In relation to 2Q18, Extrafarma opened 21 new stores and closed 13, as a result of a higher churn ratio specifically in this quarter.

Gross Revenue Total of R\$ 515 million (+3%), due to the growth of 9% in retail sales, a reflection of the higher number of stores and the annual readjustment in medicine prices. These effects were attenuated by the non-recurring impact of the replacement of the retailing system in June and temporarily affected operations during the stabilization phase. In relation to 2Q18, gross revenue declined 8% largely due to the non-recurring effects of the aforementioned IT migration in the retailing system. In 9M18, Extrafarma's gross revenue was R\$ 1,615 million, 11% higher than the same period for 2017.

Cost of goods sold and gross profit Cost of goods sold totaled R\$ 346 million (+7%), due to improving sales and the annual readjustment in medicine prices. Gross profit was R\$ 143 million (-4%), principally due to the substitution of the retailing system, which impacted sales, and by more intensive promotional activities and the network's more extensive geographical coverage. In relation to 2Q18, the cost of goods sold and the gross profit recorded a reduction of 6% and 11% respectively, due to a reduction in sales and lower trade marketing funds from industries in the period. In 9M18, the cost of goods sold amounted to R\$ 1,073 million and gross profit R\$ 456 million, 15% and 4% more than 9M17, respectively.

Sales, general and administrative expenses (SG&A) Total of R\$ 178 million (+13%), reflecting the higher number of stores. Excluding the effect of new stores, SG&A expenses fell by 4% on an annual comparative basis. This was mainly the result of initiatives implemented for improving productivity and reducing expenses, particularly payroll, logistics and card fees. In relation to 2Q18, SG&A expenses fell 3% due to lower expenses with payroll, publicity and advertising and logistics, in spite of a higher average number of stores. In 9M18, SG&A expenses were R\$ 531 million, 16% higher than 9M17.

EBITDA Total of R\$ 24 million negative compared to R\$ 7 million in 3Q17, due to: (i) the non-recurring effects relating to the substitution of the retailing system and the investments write-off given the higher churn ratio, with an impact on results of R\$ 26 million, and (ii) the greater number of new and still-maturing stores. Excluding the non-recurring effects, EBITDA would have been R\$ 2 million in 3Q18. In relation to 2Q18, EBITDA fell due to

non-recurring effects already mentioned stabilization of the retailing system and investments write-off. In 9M18, Extrafarma's EBITDA was R\$ 31 million negative, compared with an EBITDA of R\$ 20 million in 9M17.

Investments Extrafarma invested R\$ 29 million, allocated largely to the opening of new stores and IT, in order to enhance the shopping experience and operational excellence. In 9M18, Extrafarma invested R\$ 68 million.

Startup of Oxitenó's specialty chemicals plant in the United States

Completion of the succession process in Ipiranga

During the third quarter, we observed a recovery in the economy following the truckers' strike, despite continuing high levels of unemployment and fuel price hikes in line with international market parity. We maintain our perspective on the recovery of Brazilian economy especially now that the electoral process is complete and there is a definition of

the new occupants of the legislative and executive branches.

At Oxiteno, we initiated operations at the new specialty chemicals plant in Texas, a state of the art facility supplying a market with a growing demand for our products. At Ipiranga, we have noted a gradual improvement in sales volume and gains in market share and profitability thanks to a more hands-on commercial management. We remain committed to pursuing operational excellence and initiatives for reducing costs and expenses in order to overcome the difficulties of a still challenging economy. We have made adjustments in our initial investment plan with a focus on greater selectivity and discipline in the allocation of capital, the objective being to maximize returns on invested capital and preserve financial leverage.

We are confident that we are taking the necessary measures to resume our trajectory of growth at Ultra. We are convinced of the potential of our businesses and our people to continue creating value for our stakeholders.

Ultrapar reported an Adjusted EBITDA in 3Q18 of R\$ 850 million (-30%) and net income of R\$ 323 million (-41%).

Ipiranga

Ipiranga reported volumes of 6,200 thousand m³, an increase of 2% in relation to 3Q17, with a growth of 5% in diesel, and a decrease of 1% in Otto cycle. Adjusted EBITDA at Ipiranga was R\$ 497 million, a decline of 47% in relation to 3Q17, quarter which recorded gains due to the variation in fuel costs and opportunities for importation. On the other hand in 3Q18 the residual effects of the truckers' strike were still felt, in particular in July, followed by gradual recovery in August and September, even with the constant increases in prices in a scenario of already high levels of unemployment and the government measures introduced following the truckers' strike.

Oxiteno

Oxiteno posted volumes of 205 thousand tons in 3Q18, a year-over-year reduction of 2% due to lower sales of specialty chemicals, a reflection of a high comparative base in 3Q17, a record for the period. Oxiteno's EBITDA amounted to R\$ 173 million, a growth of 135% in relation to 3Q17, principally due to the 25% depreciation in the Real against the US Dollar and the higher levels of unit margins in US Dollar terms.

Ultragaz

Ultragaz reported volumes of 450 thousand tons, a year-over-year reduction of 2%, with a 3% decline in the bottled segment and 1% in the bulk business, lower than the nationwide decrease in LPG volume. EBITDA at Ultragaz was

R\$ 159 million (0%), and initiatives for reducing costs and expenses effectively neutralized lower sales volume.

Ultracargo

Average storage at Ultracargo increased by 5% in relation to 3Q17, largely reflecting greater ethanol handling activity at the Santos and Suape port terminals. Ultracargo's EBITDA amounted to R\$ 44 million in the quarter, an increase of 10% in relation to 3Q17, and reflecting greater average storage and higher average prices collected at the terminals.

Extrafarma

Extrafarma ended 3Q18 with 414 stores, opening 77 units over the past 12 months and 21 in the quarter. EBITDA in 3Q18 was negative at R\$ 24 million, mainly as a result of the high percentage of new or maturing stores as well as the following non-recurring effects during the quarter: (i) stabilization of the new retail management system implemented in June 2018, and (ii) investments write-off due to a higher churn, impacting the quarter in R\$ 26 million.

¹ Starting in Dec/17, total volume includes ICONIC, the lubricants joint venture with Chevron

² Fuel oils, arla 32, kerosene, lubricants and greases

Operational performance Otto cycle volume fell 1% in relation to 3Q17, in line with the weak performance of the market as a whole. By contrast, diesel volume improved by 5%, due to higher service station sales. Compared with 2Q18, volumes increased 6%, with an increase of 8% in diesel and 4% in Otto cycle, reflecting an improvement on the economic environment, seasonal variations between periods and the effect of the strike in the preceding quarter. In 9M18, Ipiranga registered sales volume of 17,520 thousand m³, flat in relation to volume in 9M17.

Net revenues Total of R\$ 20,007 million (+17%), principally due to the variation in fuel costs and higher sales volume. In relation to 2Q18, net revenues rose 5%, due to the same factors explained above. In 9M18, net revenues amounted to R\$ 56,590 million, 15% higher than 9M17.

Cost of goods sold Total of R\$ 19,162 million (+21%), mainly due to variations in fuel costs and higher sales volume. In relation to 2Q18, the cost of goods sold rose 5%, in line with the growth reported in volume and the variation in the costs of fuels. In 9M18, cost of goods sold totaled R\$ 54,050 million, an 18% increase in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 544 million (+1%), mainly due to higher expenses of R\$ 29 million with the consolidation of results of ICONIC, the lubricants joint venture with Chevron, which began operations in December 2017. Excluding this effect, SG&A expenses would have been 4% lower year-over-year, due to: (i) lower expenditures with marketing programs, (ii) reduced expenditures with strategic consultancies, (iii) adherence to the Special Tax Regulation Program amnesty (*Programa Especial de Regularização Tributária* PERT) in 3Q17, and (iv) lower maintenance expenses. These effects were partially compensated by the increase in freight expenditures, in line with higher sales volume and the increased costs of diesel. In relation to 2Q18, SG&A expenses, rose 1%, the result of higher expenditures with freight, again in line with higher sale volumes and increased expenses with maintenance, partially offset by lower expenses with marketing programs and reduced provisions for doubtful debts. In 9M18, SG&A expenses totaled R\$ 1,634 million, 7% higher than 9M17. Excluding expenses with ICONIC, SG&A expenses were flat in relation to 9M17.

Adjusted EBITDA Total of R\$ 497 million (-47%), impacted by the more favorable fuel costs and the opportunities for importing in 3Q17 and the impact of R\$ 24 million from inventory loss due to the truckers' strike and the booking of inventory at average cost. These effects were partially attenuated by the higher sales volume and the greater than normal disposal of assets, in 3Q18 amounting to R\$ 13 million. In relation to 2Q18, Adjusted EBITDA increased 24%, due to: (i) the gradual recovery in margins, (ii) higher sales volume, (iii) the positive variation in the costs of fuels, and (iv) asset disposals in 3Q18 amounting to R\$ 13 million. In 9M18, Adjusted EBITDA at Ipiranga was R\$ 1,484 million, a decrease of 32% in relation to the same period in 2017.

Investments A total of R\$ 253 million was invested in the period and mainly allocated to maintenance and expansion of the service station and franchise network. Out of total investments, R\$ 90 million were applied in property, plant and equipment and in intangible assets, R\$ 102 million in contractual assets with clients (exclusive rights) and R\$ 61 million for financing clients and rental advances, net of repayments. Ipiranga ended 3Q18 with 8,018 service stations (+3%), a net addition of 204 service stations over the past 12 months. In 9M18, investments amounted to R\$ 674 million.

Operational performance Specialty chemicals sales volume reported a 7% reduction on an annualized basis, due to the high comparative base in 3Q17. The domestic market fell 8%, principally in the agro-chemical and distribution segments. Specialty chemicals sales volume to export markets declined 5%, due to lower exports to Argentina, in spite of the greater sales volume in the United States. On the other hand, commodity sales rose 18% in relation to 3Q17, reflecting the stronger demand for these products domestically. In relation to 2Q18, total sales volume was up 6%, with increases both in commodity volume as well as specialty chemical volume. In 9M18, sales volume totaled 579 thousand tons, a reduction of 2% in relation to the same period in 2017.

Net revenues Total of R\$ 1,368 million (+33%), due to a 25% devaluation of the Real in relation to the US Dollar (equivalent to R\$ 0.79/US\$) and an average price 9% higher in US Dollars, the result of increased year-over-year costs of raw materials, principally ethylene, in spite of lower sales volume and the higher share of commodities in the sales mix. In relation to 2Q18, net revenues increased 16%, due to higher sales volume and a 10% devaluation in the Real in relation to the US Dollar (equivalent to R\$ 0.35/US\$). In 9M18, net revenues amounted to R\$ 3,548 million, 25% greater than 9M17.

Cost of goods sold Total of R\$ 1,038 million (+26%), due to: (i) the 25% devaluation of the Real against the US Dollar, (ii) the increase in costs of raw materials, mainly ethylene on a year-on-year comparative basis, and (iii) the costs related to the startup of the new unit in Texas. Compared with 2Q18, the cost of goods sold rose 13%, reflecting the increase in sales volume, the 10% devaluation in the Real against the US Dollar, in addition to higher costs in the USA, with the startup of the new plant. In 9M18, the cost of goods sold amounted to R\$ 2,784 million, a growth of 22% in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 194 million (+12%), due to: (i) greater expenses with variable compensation, (ii) greater expenditures in the United States with the startup of the new plant, and (iii) the impact of the Real's devaluation on expenses in the international operations. In relation to 2Q18, SG&A expenses increased 9%, mainly due to higher logistical expenses, reflecting higher sales volume, the sales mix, as well as greater expenditures with the international units affected by the impact of devaluation of the Real. In 9M18, SG&A expenses amounted to R\$ 538 million, and year-over-year improvement of 11% relative to the same period in 2017.

EBITDA Oxitenos EBITDA amounted to R\$ 173 million (+135%) due to the higher average exchange rate given the 25% devaluation of the Real against the US Dollar and the higher unitary margins in US Dollars. The results of 3Q18 consider an impairment at Oxiteno Andina of R\$ 7 million as a consequence of the adverse political and economic scenario at Venezuela. In relation to 2Q18, EBITDA increased 43% due to higher sales volume and a 10% devaluation in relation to the US Dollar. In 9M18, EBITDA was R\$ 346 million, a growth of 58% in relation to 9M17.

Investments Investment in the period was R\$ 107 million, mainly allocated to the new specialty chemicals plant in the United States and maintenance of the production facilities. Investments in 9M18 were R\$ 397 million.

Operational performance The bottled segment recorded a decline of 3% when compared to the same period in 2017, lower than the 4% decline in the LPG market as a whole. The bulk segment registered a decline of 1% in volume due to fewer business days in the quarter. In relation to 2Q18, sales volume rose 1%, with an increase of 6% in the bulk segment, reflecting seasonal factors between periods and the impacts from the truckers' strike in 2Q18. In 9M18, Ultragaz sales volume was 1,304 thousand tons, a reduction of 1% in relation to 9M17, in line with the 1% reduction in the LPG market.

Net revenues Total of R\$ 1,870 million (+19%) mainly due to pass-through of readjusted LPG costs, despite the reduced volume of sales in the period. In relation to 2Q18, net revenues increased 6%, reflecting higher sales volume and pass-through of cost readjustments in LPG, with the bulk segment taking a greater share of the sales mix. In 9M18, net revenues amounted to R\$ 5,261 million, 20% greater than 9M17.

Cost of goods sold Total of R\$ 1,625 million (+25%), principally due to readjustments in LPG costs. In relation to 2Q18, the cost of goods sold increased by 5% due to greater sales volume and readjustments in LPG costs. In 9M18, cost of goods sold amounted to R\$ 4,601 million, a growth of 25% in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 145 million (-10%), due to: (i) lower expenses with strategic consultancies, (ii) lower provisions for doubtful debts, (iii) lower marketing expenditures, and (iv) lower freight expenditures, reflecting the migration of clients from delivery CIF to FOB. In relation to 2Q18, SG&A expenses increased 8%, mainly due to the non-recurring effect of the reevaluation of the provision for estimated losses in 2Q18 with the reversal of R\$ 9 million. In 9M18, SG&A expenses totaled R\$ 411 million, 13% less than the same period in 2017.

EBITDA Total of R\$ 159 million (0%) due to initiatives adopted for reducing costs and expenses, thus neutralizing the impact on results of lower sales volume. In relation to 2Q18, Ultragaz's EBITDA rose 7% due to higher sales volume and the greater share of bulk in the overall sales mix. In 9M18, EBITDA ex-fine imposed following the rejection of the proposed acquisition of Liquigás in 1Q18, totaled R\$ 424 million, a growth of 8% in relation to 9M17.

Investments Ultragaz invested R\$ 54 million, allocated mainly to clients in the bulk segment, gas bottles and IT with a focus on the strategy of differentiation and innovation. In 9M18, investments totaled R\$ 171 million.

¹ *Monthly average*

Operational performance Ultracargo's average storage rose 5% in relation to 3Q17 due to increased ethanol handling at the Suape and Santos port terminals, despite the reduced handling of fuels at the Suape and Itaqui terminals. Compared with 2Q18, average storage at the terminals fell 3%, due to reduced fuel and ethanol handling activity in Suape, but partially offset by more intensive ethanol operations in Santos. In 9M18, Ultracargo's average storage increased by 6% in relation to 9M17.

Net revenues Total of R\$ 124 million in 3Q18 (+11%), driven by increased average storage and by higher average prices. In relation to 2Q18, net revenues fell 2% due to lower average storage in the quarter. In 9M18, net revenues totaled R\$ 367 million, 15% higher than 9M17.

Cost of services provided Total of R\$ 62 million (+12%), due to greater expenditures in Santos due to the partial resumption in operations at the terminal. In relation to 2Q18, the cost of services provided rose by 2% due to greater expenditures with maintenance. In 9M18, the cost of services provided amounted to R\$ 182 million, an increase of 14% in relation to 9M17.

Sales, general and administrative expenses (SG&A) Total of R\$ 31 million (+13%), due to higher payroll expenses and consultancies for new projects. In relation to 2Q18, SG&A increased 29%, influenced by a non-recurring credit of R\$ 8 million in 2Q18, with the recovery of an improperly charged port management fee. In 9M18, SG&A expenses amounted to R\$ 83 million, year-over-year 3% greater.

EBITDA Total of R\$ 44 million (+10%) due to higher average storage in the period and higher average prices at the terminals. In relation to 2Q18, EBITDA fell 19%, due to the receipt of non-recurring credits amounting to R\$ 8 million in 2Q18, as mentioned above, and lower activity in the period. In 9M18, Ultracargo's EBITDA amounted to R\$ 139 million, a growth of 58% in relation to 9M17.

Investments Ultracargo invested R\$ 36 million in the period, mainly allocated to expansion at the Itaqui terminal and maintenance and modernization of terminal safety systems and processes. In 9M18, investments amounted to R\$ 86 million.

Operational performance Extrafarma ended 3Q18 with 414 stores, 77 openings and 29 closures in the past 12 months, equivalent to an increase of 13%. At the end of 3Q18, still maturing stores (up to three years of operations) represented 53% of the store network compared with 51% in 3Q17, reflecting the accelerated expansion of the network. In relation to 2Q18, Extrafarma opened 21 new stores and closed 13, as a result of a higher churn ratio specifically in this quarter.

Gross Revenue Total of R\$ 515 million (+3%), due to the growth of 9% in retail sales, a reflection of the higher number of stores and the annual readjustment in medicine prices. These effects were attenuated by the non-recurring impact of the replacement of the retailing system in June and temporarily affected operations during the stabilization phase. In relation to 2Q18, gross revenue declined 8% largely due to the non-recurring effects of the aforementioned IT migration in the retailing system. In 9M18, Extrafarma's gross revenue was R\$ 1,615 million, 11% higher than the same period for 2017.

Cost of goods sold and gross profit Cost of goods sold totaled R\$ 346 million (+7%), due to improving sales and the annual readjustment in medicine prices. Gross profit was R\$ 143 million (-4%), principally due to the substitution of the retailing system, which impacted sales, and by more intensive promotional activities and the network's more extensive geographical coverage. In relation to 2Q18, the cost of goods sold and the gross profit recorded a reduction of 6% and 11% respectively, due to a reduction in sales and lower trade marketing funds from industries in the period. In 9M18, the cost of goods sold amounted to R\$ 1,073 million and gross profit R\$ 456 million, 15% and 4% more than 9M17, respectively.

Sales, general and administrative expenses (SG&A) Total of R\$ 178 million (+13%), reflecting the higher number of stores. Excluding the effect of new stores, SG&A expenses fell by 4% on an annual comparative basis. This was mainly the result of initiatives implemented for improving productivity and reducing expenses, particularly payroll, logistics and card fees. In relation to 2Q18, SG&A expenses fell 3% due to lower expenses with payroll, publicity and advertising and logistics, in spite of a higher average number of stores. In 9M18, SG&A expenses were R\$ 531 million, 16% higher than 9M17.

EBITDA Total of R\$ 24 million negative compared to R\$ 7 million in 3Q17, due to: (i) the non-recurring effects relating to the substitution of the retailing system and the investments write-off given the higher churn ratio, with an impact on results of R\$ 26 million, and (ii) the greater number of new and still-maturing stores. Excluding the non-recurring effects, EBITDA would have been R\$ 2 million in 3Q18. In relation to 2Q18, EBITDA fell due to non-recurring effects already mentioned stabilization of the retailing system and investments write-off. In 9M18, Extrafarma's EBITDA was R\$ 31 million negative, compared with an EBITDA of R\$ 20 million in 9M17.

Investments Extrafarma invested R\$ 29 million, allocated largely to the opening of new stores and IT, in order to enhance the shopping experience and operational excellence. In 9M18, Extrafarma invested R\$ 68 million.

Net revenues Total of R\$ 23,834 million (+17%) due to growth in revenues at all the businesses. In relation to 2Q18, net revenues increased 5%, the result of higher revenues at Ipiranga, Oxitenio e Ultragaz. In 9M18, net revenues amounted to R\$ 67,231 million, 16% higher than the same period in 2017.

Adjusted EBITDA Total of R\$ 850 million (-30%) and reflecting lower EBITDA at Ipiranga and Extrafarma, and higher EBITDA at Oxitenio, Ultragaz e Ultracargo. Compared with 2Q18, Adjusted EBITDA increased by 18% due to a higher EBITDA at Ipiranga, Oxitenio and Ultragaz. In 9M18, Adjusted EBITDA amounted to R\$ 2,076 million, 29% less than 9M17, impacted by the fine following the rejection of the Liquigás acquisition.

Depreciation and amortization³ Total of R\$ 296 million (+6%) reflecting the investments made over the past 12 months. Compared with 2Q18, total costs and expenses with depreciation and amortization rose 2%. In 9M18, depreciation and amortization totaled R\$ 885 million, a growth of 2% in relation to 9M17.

Financial results Ultrapar reported net debt on September 30, 2018 of R\$ 9.2 billion (2.9x LTM Adjusted EBITDA) compared with R\$ 6.8 billion on September 30, 2017 (1.7x LTM Adjusted EBITDA). The increased leverage mainly reflects lower EBITDA LTM and higher working capital in the period, despite the practically stable investment amount compared to the same period of the previous year. Ultrapar's net financial expenses were R\$ 59 million, R\$ 62 million less than when compared with 3Q17, due to: (i) the decline in the Interbank Rate (CDI) year-over-year despite the increase in net debt, (ii) the depreciation in Ultrapar's shares relative to the subscription warrant (issued in association with Extrafarma), and (iii) the effects of currency variations in the periods. In relation to 2Q18, net finance expenses fell R\$ 6 million, principally due to the effects of currency variations in the periods under review, partially

compensated by lower depreciation of Ultrapar's shares relative to the subscription warrant. In 9M18, net financial expenses amounted to R\$ 230 million, a decrease of 35% compared to 9M17.

Net earnings Total of R\$ 323 million (-41%), due to lower EBITDA, despite the reduction in financial expenses. In relation to 2Q18, net earnings increased 34%, principally due to higher EBITDA. In 9M18, net income amounted to R\$ 637 million, 44% less than 9M17. Excluding the effects of the fine, net earnings would have been R\$ 826 million in 9M18.

Operational cash flow Total of R\$ 1,443 million in 9M18, compared with R\$ 1,368 million in 9M17, due to lower tax payments, reflecting lower earnings and greater use of credits for compensating taxes, offset by higher investments in working capital, the result of insurance reimbursements during 2017.

MINUTES OF THE MEETING OF THE BOARD OF DIRECTORS (11/2018)

Date, Time and Location:

November 7, 2018, at 2:30 p.m., at the Company's headquarters, located at Av. Brigadeiro Luís Antônio, nº 1343, 9th floor, in the City and State of São Paulo.

Attendance:

(i) Members of the Board of Directors herein signed; (ii) Mr. Paulo Guilherme Aguiar Cunha, as Chairman Emeritus of the Board of Directors; and (iii) the member of the Fiscal Board, Mr. Flávio Cesar Maia Luz, in relation to the item number 1 of the agenda.

Agenda and decisions:

1. After having analyzed and discussed the performance of the Company in the third quarter of this fiscal year, were approved the financial statements of the Company.
2. The Directors discussed the integrated strategic planning of the Company and its subsidiaries.
3. The Directors approved, pursuant article 28, item p of the Company's Bylaws, the 8th (eighth) issuance, by Ipiranga Produtos de Petróleo S.A. (Ipiranga), wholly-owned subsidiary of the Company, of simple debentures, non-convertible into shares, unsecured, with additional personal guarantee, in 02 (two) series (First Series and Second Series and, together, Series) for private placement to Vert Companhia Securitizadora (Debentureholder or Securitization Company, Issuance and Debentures, respectively), with the following characteristics and main conditions, that will be detailed and regulated in the Indenture:
 - (a) **Total Amount of the Issuance:** The total issuance amount is up to R\$ 900,000,000.00 (nine hundred million Reais), on the Issuance date. The amount may be reduced, up to the final demand of the respective Certificates of Agribusiness Receivables (CRA) to which the Debentures will be linked, as provided in item c below, without the need for a General Meeting of Debenture Holders or a new corporate approval by Ipiranga and/or by the Company;
 - (b) **Quantity of Series:** The Issuance will be divided into two Series, and the total amount of the Issuance will be allocated among the Series according to the demand of the Debenture. The amount

may be canceled, up to the final demand of the respective CRA to which the Debentures will be linked, as provided in item c below, without the need for a General Meeting of Debenture Holders or a new corporate approval by Ipiranga and/or by the Company;

- (c) **Binding to the Issuance of CRA:** After the subscription of the Debentures, acquisitions by Securitization Company, considering the fiduciary regime established by the Securitization Company, all amounts due to the Securitization Company as a consequence of the Debentures shall be bound, respectively, to the 1st (first) and the 2nd (second) series of the twentieth issuance of CRA of the Securitization Company, in the scope of securitization of credits of the agribusiness, as provided by Law 11,076, Law n.º 9.514, of November 20, 1997, as amended, CVM Instruction 400, CVM Instruction nº 600, of August 1, 2018 and in terms of the *Securitization Term of Credit Rights of Agribusiness for the issuance of Real Estate Receivable of Agribusiness of the 1st and 2nd Series of the 20th Issuance of Vert Companhia Securitizadora* ;
- (d) **Adjustment of the Unit Par Value:** The unit par value of the Debentures of First Series will not be subject to monetary adjustment. The unit par value of the Second-Series Debentures shall be adjusted, as from the date of payment of the Second-Series Debenture, by the IPCA index, as per calculation to be described in the Indenture;
- (e) **Amortization of the Debentures:** The unit par value of the Debentures will be fully redeemed by Ipiranga, in a single tranche at the final maturity dates, except in case of early maturity, redemption offer, optional or mandatory early redemption of the Debentures, pursuant to the indenture of the Issuance;
