### KINGSWAY INCREASES NET INCOME BY 52%

**Toronto, Ontario (May 4, 2005)** Kingsway Financial Services Inc. (TSE:KFS, NYSE:KFS) today announced financial results in **Canadian dollars** for the first quarter ended March 31, 2005. The Company has decided to defer its change to U.S. dollar reporting until the end of 2005.

#### Q1 2005 compared to Q1 2004

Diluted earnings per share increased 49% to a quarterly record 82 cents (US\$0.67)

Income before income taxes increased 72% to \$55.6 million (US\$45.4 million)

Net income increased 52% to \$46.8 million (US\$38.1 million)

Combined ratio improved to 96.3%

Underwriting profit increased 82% to a record \$18.9 million (US\$15.4 million)

Annualized return on equity of 22.6%

Book value per share increased 13% to \$15.09 (US\$12.47) from Q1 2004

Net income increased by 52% to \$46.8 million (US\$38.1 million), compared to \$30.8 million (US\$23.4 million) in the first quarter of last year. Return on equity (annualized) was 22.6% in the quarter compared to 16.9% in the same quarter last year. The combined ratio improved to 96.3% compared to 98.2% in the same quarter last year, producing a record quarterly underwriting profit of \$18.9 million (US\$15.4 million). Diluted earnings per share increased 49% to a quarterly record of 82 cents (US\$0.67) for the quarter, compared to 55 cents (US\$0.41) for the first quarter of 2004.

We are extremely pleased with the positive start that we have made to 2005, said Bill Star, President & Chief Executive Officer. Each of our operating subsidiaries produced an underwriting profit for the quarter which, together with increased investment income, led to our record quarterly earnings. During the quarter we were pleased with the favourable development on our year-end unpaid claims, but nevertheless continued to increase our balance sheet provisions for unpaid claims. We continue to hold firm on our premium rate levels which have led to reduced volume of business in certain of our markets. Our rate levels remain adequate to generate targeted underwriting margins and competition in most of our markets is rational, which bodes well for our financial results for the foreseeable future.

**Premium Growth**

During the first quarter of 2005, gross premiums written were \$643.6 million (US\$524.6 million), compared with \$710.4 million (US\$538.4 million) in the first quarter last year. In the quarter, U.S. operations represented 74% of gross premiums written, compared with 77% in the first quarter last year. Trucking, non-standard automobile and commercial automobile premiums represented 27%, 31% and 20%, respectively, of gross premiums written in the first quarter compared with 28%, 36% and 17%, respectively, last year.

**Premium Growth continued**

Gross premiums written from U.S. operations decreased 12% to \$479.0 million (US\$390.3 million) compared with \$545.8 million (US\$413.7 million) last year. Gross premiums written from Canadian operations were \$164.6 million (US\$134.3 million) for the quarter, compared to \$164.6 million (US\$124.7 million) in Q1 last year.

Net premiums written decreased 16% to \$571.8 million (US\$466.0 million) compared with \$684.1 million (US\$518.4 million) for the first quarter of last year. The quota share reinsurance treaties entered into in the second quarter of 2004 reduced net premiums written by \$49.2 million (US\$40.8 million) in the current quarter. Net premiums earned decreased 13% to \$510.1 million (US\$415.8 million) for the quarter, compared with \$584.8 million (US\$442.9 million) for the first quarter last year. The quota share treaties reduced net premiums earned by \$50.2 million (US\$41.6 million) in the first quarter of 2005. Without the quota share treaties, net premiums earned would have decreased 4% compared to the first quarter of last year which was before entering into the treaties.

For U.S. operations, net premiums earned decreased 17% to \$356.7 million (US\$290.8 million) compared with \$429.7 million (US\$325.3 million) in the first quarter of 2004. Net premiums earned from Canadian operations decreased by 1% to \$153.4 million (US\$125.0 million) compared with \$155.1 million (US\$117.6 million) last year. The quota share treaties reduced the net premiums earned by \$32.1 million (US\$26.6 million) and \$18.1 million (US\$15.0 million) for the U.S. operations and Canadian operations, respectively.

**Underwriting Profit & Combined Ratio**

A significant portion of the Company's operations and net assets are denominated in U.S. dollars whereas the Company reports in Canadian dollars. During 2004 and 2005, the Canadian dollar has fluctuated significantly against the U.S. dollar thereby affecting the comparability of results. The Company has decided to defer its change to U.S. dollar reporting until the end of 2005 in order to present complete financial statements and Management's Discussion and Analysis for the current year and for all prior periods included in the Annual Report. The Company believes that this will allow shareholders to more fully understand the Company's historical and current operating trends, results and financial position.

The supplementary information contained in this press release contains selected financial information expressed in U.S. dollars. For the quarter to March 31, 2005 net income and earnings per share increased by 63% to US\$38.1 million and US\$0.67 respectively. Book value per share grew by 22% from a year ago to US\$12.47.

### PRESIDENT'S MESSAGE TO SHAREHOLDERS

Dear Shareholders:

On behalf of the Board of Directors, I am pleased to report our financial results in Canadian dollars for the three months ended March 31, 2005. The Company has decided to defer its change to U.S. dollar reporting until the end of 2005.

For the three months ended March 31, 2005, net income increased 52% to \$46.8 million (US\$38.1 million) compared to Q1 2004, diluted earnings per share increased 49% to a quarterly record 82 cents (US\$0.67) compared to 55 cents (US\$0.41) in Q1 2004. Our annualized return on equity for the quarter was 22.6% compared to 16.9% for the first quarter last year. The combined ratio for the quarter improved to 96.3% compared to 98.2% in 2004 producing a record quarterly underwriting profit of \$18.9 million (US\$15.4 million) an increase of 82% over the same period last year. At the end of the quarter, our book value per share was at \$15.09 (US\$12.47), an increase of 13% from Q1 2004 and the fair value of our investment portfolio, including cash, increased to \$3.2 billion (US\$2.7 billion) or \$56.83 (US\$46.98) per common share.

We are extremely pleased with the positive start that we have made to 2005. Each of our operating subsidiaries produced an underwriting profit for the quarter which, together with increased investment income, led to our record quarterly earnings. During the quarter we were pleased with the favourable development on our year-end unpaid claims, but nevertheless continued to increase our balance sheet provisions for unpaid claims.

#### Outlook

The recent profitability of the property and casualty industry in Canada and the United States has generally led to improved financial strength. Overall industry pricing appears adequate, and we expect that low interest rates will lead to a period of sustained underwriting discipline. We continue to hold firm on our premium rate levels which have led to reduced volume of business in certain of our markets. Our rate levels remain adequate to generate targeted underwriting margins and competition in most of our markets is rational, which bodes well for our financial results for the foreseeable future.

We will continue to build a well diversified distribution platform with a focus on specialty insurance products, whilst enforcing our strategy of disciplined underwriting and prudent investing in order to maximize book value per share. Our first quarter results delivered an annualized return on equity of 22.6% for shareholders, and accordingly, I am pleased to announce that the Board of Directors has declared a quarterly dividend of 5 cents per common share, payable on June 30, 2005 to shareholders of record on June 15, 2005.

Sincerely,

/s/ William G. Star

**Management's Discussion and Analysis**  
**For the Period Ended March 31, 2005 and 2004**  
**(In thousands of Canadian dollars)**

The following management's discussion and analysis (MD&A) should be read in conjunction with the Company's unaudited interim consolidated financial statements for the first quarter of fiscal 2005 and 2004; with the MD&A set out on pages 16 to 54 in the Company's 2004 Annual Report, including the section on risk factors; and with the notes to the interim consolidated financial statements for the first quarter of fiscal 2005 and the notes to the audited consolidated financial statements for fiscal 2004 set out on pages 62 to 74 of the Company's 2004 Annual Report.

In the third quarter of 2004, the Company indicated that it was its intention to convert its financial statements to U.S. dollar reporting during the first quarter of 2005. The Company has decided to defer its change to U.S. dollar reporting until the end of 2005 in order to present complete financial statements and Management's Discussion and Analysis for the current year and for all prior periods included in the Annual Report. The Company believes that this will allow shareholders to more fully understand the Company's historical and current operating trends, results and financial position. Unless otherwise indicated, all amounts are in Canadian dollars and have been derived from financial statements prepared in accordance with Canadian generally accepted accounting principles (GAAP).

**Non-GAAP Measures**

The Company uses both GAAP and certain non-GAAP measures to assess performance. Securities regulators require that companies caution readers about non-GAAP measures that do not have a standardized meaning under GAAP and are unlikely to be comparable to similar measures used by other companies. Kingsway, like many insurance companies, analyzes performance based on underwriting ratios such as combined, expense and loss ratios. These terms are defined in the glossary of terms section beginning on page 79 of the 2004 Annual Report. The Company also uses investment portfolio per share information which is calculated based on the fair value of the investment portfolio divided by the number of issued and outstanding common shares.

**For the three months ended March 31, 2005 and 2004**

*Gross Premiums Written.* During the first quarter of 2005, gross premiums written decreased to \$643.6 million (US\$524.6 million), compared with \$710.4 million (US\$538.4 million) in the first quarter last year. In the quarter, U.S. operations represented 74% of gross premiums written, compared with 77% in the first quarter last year. Trucking, non-standard automobile and commercial automobile premiums represented 27%, 31% and 20%, respectively, of gross premiums written in the first quarter compared with 28%, 36% and 17%, respectively, last year. Gross premiums written from U.S. operations decreased 12% to \$479.0 million (US\$390.3 million) compared with \$545.8 million (US\$413.7 million) last year. Gross premiums written from Canadian operations were \$164.6 million (US\$134.3 million) for the quarter, compared to \$164.6 million (US\$124.7 million) in Q1 last year. Gross premiums written from Alberta decreased 38% to \$22.6 million (US\$18.5 million) in the first quarter of 2005 compared to \$36.8 million (US\$27.9 million) last year.

*Net Premiums Written.* Net premiums written decreased 16% to \$571.8 million (US\$466.0 million) compared with \$684.1 million (US\$518.4 million) for the first quarter of last year. Net premiums written from the U.S. operations decreased 18% to \$432.1 million (US\$352.1 million) compared with \$527.1 million (US\$399.5 million) last year. Net premiums written from the Canadian operations decreased 11% to \$139.7 million (US\$113.9 million) compared with \$157.0 million (US\$118.9 million) in the first quarter of last year. The quota share reinsurance treaties entered into in the second quarter of 2004 reduced net premiums written by \$49.2 million (US\$40.8 million) in the current quarter.

*Net Premiums Earned.* Net premiums earned decreased 13% to \$510.1 million (US\$415.8 million) for the quarter, compared with \$584.8 million (US\$442.9 million) for the first quarter last year. The quota share treaties reduced net premiums earned by \$50.2 million (US\$41.6 million) in the first quarter of 2005. Without the quota share treaties, net premiums earned would have decreased 4% compared to the first quarter of last

year which was before entering into the treaties. For U.S. operations, net premiums earned decreased 17% to \$356.7 million (US\$290.8 million) compared with \$429.7 million (US\$325.3 million) in the first quarter of 2004. Net premiums earned from Canadian operations decreased by 1% to \$153.4 million (US\$125.0 million) compared with \$155.1 million (US\$117.6 million) last year. The quota share treaties reduced the net premiums earned by \$32.1 million (US\$26.6 million) and \$18.1 million (US\$15.0 million) for the U.S. operations and Canadian operations, respectively.

*Investment Income.* Investment income increased 21% to \$27.1 million (US\$22.1 million) compared with \$22.3 million (US\$16.9 million) for the first quarter of 2004.

*Net Realized Gains.* Net realized gains amounted to \$17.1 million (US\$14.0 million) compared with \$6.8 million (US\$5.1 million) in the first quarter of 2004. Net realized gains include adjustments to the carrying value for declines in market value considered other than temporary of \$2.5 million (\$nil in Q1 2004) in the quarter on investments still held.

*Claims Incurred.* The claims ratio for the first three months of 2005 was 68.6%, compared to 72.2% last year. The claims ratio for the U.S. operations was 67.9% compared with 72.2% for the first three months of 2004. The claims ratio for the Canadian operations was 70.2% compared to 72.4% in the first quarter of last year. The claims ratio for the first quarter of 2004 was increased by 1.1% as a result of changes in estimated unpaid claims for prior accident years. In addition, improved pricing and loss trends contributed to a lower claims ratio in the first quarter of 2005.

*Underwriting Expenses.* The combined ratio of 96.3% for the first quarter produced a record quarterly underwriting profit of \$18.9 million (US\$15.4 million), compared with the combined ratio of 98.2% and \$10.4 million (US\$8.0 million) underwriting profit reported in the first quarter of 2004. For the quarter, the U.S. operations combined ratio improved to 96.0% (98.2% Q1 last year) and the Canadian operations also improved to 96.9% (98.4% Q1 last year). The improvement in the combined ratio is a result of the improvement in the claims ratio for both the U.S. and Canadian operations.

*Interest Expense.* Interest expense in the first quarter of 2005 was \$7.3 million, compared to \$6.9 million for the first quarter of 2004 reflecting the increase in interest rates in the U.S. and the increase in the debt levels during the first quarter of 2005 as compared to Q1 2004.

Diluted earnings per share were 82 cents (US\$0.67) for the quarter compared to 55 cents (US\$0.41) for the first quarter of 2004.

*Book Value Per Share and Return on Equity.* Book value per share increased by 13% to \$15.09 (US\$12.47) from \$13.39 (US\$10.22) as at March 31, 2004. Our annualized return on equity was 22.6% for the first quarter of 2005 compared to 16.9% for the same quarter last year.

*Balance Sheet.* Total assets as at March 31, 2005 were \$4.4 billion (US\$3.6 billion). The investment portfolio, including cash increased 2% to \$3,178.1 million (US\$2,627.4 million), compared to \$3,104.5 million (US\$2,582.8 million) as at December 31, 2004. Net unrealized gains on the investment portfolio were \$29.1 million (52 cents per share outstanding) at March 31, 2005, as compared to \$73.7 million (\$1.31 cents per share outstanding) at the end of 2004. Net unrealized gains on the common shares portfolio were \$50.3 million (89 cents per share) at March 31, 2005 compared to \$67.6 million (\$1.20 per share) at the end of 2004.

At March 31, 2005 24% of the fixed income portfolio matures in less than one year and 59% matures after one year and in less than five years. However, should interest rates increase this could have a negative impact on the market value of our fixed income portfolio.

Unearned premiums as at March 31, 2005 grew to \$822.3 million (US\$679.8 million), an increase of 8% over the \$762.5 million (US\$634.3 million) at the end of 2004. The Company reported favourable development in the provision for unpaid claims occurring prior to December 31, 2004 of approximately \$5.0 million (US\$4.1 million). During the quarter, provisions for unpaid claims were increased by 2% to \$2,071.4 million (US\$1,712.4 million) compared to \$2,030.4 million (US\$1,689.2 million) at the end of 2004

## Edgar Filing: KINGSWAY FINANCIAL SERVICES INC - Form 6-K

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles using the same accounting policies as were used for the Company's consolidated financial statements for the year ended December 31, 2004. These interim consolidated financial statements do not contain all disclosures required by generally accepted accounting principles and accordingly should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2004 as set out on pages 55 to 74 of the Company's 2004 Annual Report. The results of the operations for the interim periods are not necessarily indicative of the full-year results.

### 2. Stock-based compensation

As reported on pages 63 of the Company's 2004 Annual Report, effective January 1, 2003 the Company adopted on a prospective basis the fair-value method of accounting for stock-based compensation awards granted to employees and non-employee directors. During the first quarter 2005, the Company recorded \$502,000 of stock-based compensation expense included in employee compensation expense.

For stock options granted in years prior to 2003, the Company must provide the following pro forma disclosures of net income and earnings per share as if the Company had measured the additional compensation element of stock options granted based on the fair value on the date of grant. Such proforma disclosure follows:

	<b>Three months ended March 31,</b>	
	<b>2005</b>	<b>2004</b>
Net income		
As reported	\$46,758	\$30,768
Pro forma	46,676	30,243
Basic earnings per share		
As reported	\$ 0.83	\$ 0.55
Pro forma	0.83	0.54
Diluted earnings per share		
As report	\$ 0.82	\$ 0.55
Pro forma	0.82	0.54

The per share weighted average fair value of options granted during 2005 and 2004 was \$3.58 and \$3.79, respectively. The fair value of the options granted was estimated at the date of grant using a Black-Scholes option pricing model with the following weighted average assumptions:

Page 26 of 32

**KINGSWAY FINANCIAL SERVICES INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
For the three months ended March 31, 2005 and 2004  
(Unaudited tabular amounts in thousands of Canadian dollars)**

### 2. Stock-based compensation continued:

	<b>As at March 31</b>	
	<b>2005</b>	<b>2004</b>
Risk-free interest rate	3.53%	3.49%
Dividend yield	1.02%	0.00%
Volatility of the expected market price of the Company's common shares	22.5%	30.3%
Expected option life (in years)	3.9 years	4.7 years

The Black-Scholes option valuation model was developed for use in estimating fair value of traded options which have no vesting restrictions and are fully transferable. As the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the above pro forma adjustments are not necessarily a reliable single measure of the fair value of the Company's employee stock options.

### 3. Segmented information

The Company provides property and casualty insurance and other insurance related services in three reportable segments, Canada, the United States and corporate and other insurance related services. The Company's Canadian and United States segments include transactions with the Company's reinsurance subsidiaries. At the present time, other insurance related services are not significant. Results for the Company's operating segments are based on the Company's internal financial reporting systems and are consistent with those followed in the preparation of the consolidated financial statements.
