PROXY STATEMENT

2004 ANNUAL MEETING OF STOCKHOLDERS

Intellisync Corporation, or the Company, is furnishing this proxy statement and the enclosed proxy in connection with the solicitation of proxies by the Board of Directors of the Company for use at the Annual Meeting of Stockholders to be held on Friday, November 5, 2004, at 9:00 a.m. local time, at the Company's executive offices located at 2550 North First Street, Suite 500, San Jose, California 95131, and at any adjournments thereof, or the Annual Meeting. These materials are being mailed to stockholders on or about October 15, 2004.

Only holders of the Company's common stock as of the close of business on September 15, 2004, or the Record Date, are entitled to vote at the Annual Meeting. Stockholders who hold shares of the Company in street name may vote at the Annual Meeting only if they hold a valid proxy from their broker. As of the Record Date, there were 65,783,251 shares of common stock, par value \$0.001 per share, outstanding.

Edgar Filing: INTELLISYNC CORP - Form DEF 14A

A majority of the outstanding shares of common stock entitled to vote at the Annual Meeting must be present in person or by proxy in order for there to be a quorum at the meeting. Stockholders of record who are present at the meeting in person or by proxy and who abstain from voting, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, will be included in the number of stockholders present at the meeting for purposes of determining whether a quorum is present.

Each stockholder of record is entitled to one vote at the Annual Meeting for each share of common stock held by such stockholder on the Record Date. Stockholders do not have cumulative voting rights. Stockholders may vote their shares by using the proxy card enclosed with this proxy statement. All proxy cards received by the Company which are properly signed and have not been revoked will be voted in accordance with the instructions contained in the proxy cards. If a signed proxy card is received which does not specify a vote or an abstention, the shares represented by that proxy card will be voted for the nominees to the Board of Directors listed on the proxy card and in this proxy statement, for the approval of the amendment of the 2002 Stock Option Plan and for the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending July 31, 2005. The Company is not aware, as of the date hereof, of any matters to be voted upon at the Annual Meeting other than those stated in this proxy statement and the accompanying Notice of Annual Meeting of Stockholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy card gives discretionary authority to the persons named as proxies to vote the shares represented by the proxy card in their discretion.

Under Delaware law, the Company's Restated Certificate of Incorporation and the Company's bylaws, if a quorum exists at the meeting, (a) the nominees for director who receive the greatest number of votes cast will be elected to the Board of Directors; (b) the proposal to approve the amendment of the 2002 Stock Option Plan will be approved if it receives the affirmative vote of the majority of the shares of common stock present or represented and entitled to vote on the proposal at the Annual Meeting; and (c) the proposal to ratify the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending July 31, 2005 will be approved if it receives the affirmative vote of the majority of the shares of common stock present or represented and entitled to vote on the proposal at the Annual Meeting. Abstentions and broker

3

non-votes will have no impact on the election of directors since they have not been voted in favor of or against any nominee, nor will broker non-votes have any effect on the proposals to approve the amendment of the 2002 Stock Option Plan and to ratify the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the fiscal year ending July 31, 2005, since approval of these two proposals is based solely on the number of votes actually cast on these two proposals at the Annual Meeting. However, abstentions will have the effect of a vote against these two proposals at the Annual Meeting.

A stockholder of record may revoke a proxy at any time before it is voted at the Annual Meeting by (a) delivering a proxy revocation or another duly executed proxy bearing a later date to the Secretary of the Company at 2550 North First Street, Suite 500, San Jose, California 95131 or (b) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not revoke a proxy unless the stockholder actually votes in person at the meeting.

The proxy card accompanying this proxy statement is solicited by the Board of Directors of the Company. The Company will pay all of the costs of soliciting proxies. In addition to solicitation by mail, officers, directors and employees of the Company may solicit proxies personally, or by telephone, without receiving additional compensation. The Company has retained InvestorCom, Inc. to assist in the solicitation of proxies in connection with the Annual Meeting. The Company will pay such firm customary fees, expected to be approximately \$5,000 plus expenses. The Company, if requested, will also pay brokers, banks and other fiduciaries who hold shares of Common Stock for beneficial owners for their reasonable out-of-pocket expenses of forwarding these materials to stockholders.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Six directors are to be elected at the Annual Meeting. Each of the nominees set forth below are current directors standing for re-election. Of the nominees for the Annual Meeting, Richard Arnold was elected as a director by the Company's Board of Directors, or the Board, in May 2004 and Said Mohammadioun was elected as a director by the Board in December 2003 following the Company's acquisition of Synchronologic, Inc., of which Mr. Mohammadioun was chief executive officer. If elected, each of the nominees will serve as directors until the Company's Annual Meeting of Stockholders in 2005 and until their successors are elected and qualified. The Board has the authority pursuant to the Company's

Edgar Filing: INTELLISYNC CORP - Form DEF 14A

bylaws to increase or decrease the size of the Board or fill any vacancies which may exist between annual meetings as qualified candidates are identified and agree to serve.

Nominees for election to the Board were recommended as candidates for re-election to the Board by the nominating committee. Certain information with respect to the age and background of each nominee is set forth below. Each nominee has consented to being named in this proxy statement and has agreed to serve if elected. The Board knows of no reason why any nominee should be unable or unwilling to serve. However, if any nominee(s) should for any reason be unable or unwilling to serve, the proxies will be voted for such substitute nominees as the Board may designate.

If a quorum is present and voting, the nominees for directors receiving the highest number of votes will be elected as directors. Abstentions and shares held by brokers that are present, but not voted because the brokers were prohibited from exercising discretionary authority, i.e. broker non-votes, will be counted as present for purposes of determining if a quorum is present.

Board Meetings and Committees

During the fiscal year ended July 31, 2004, the Board held nine meetings. No directors attended fewer than 75 percent of the total number of meetings of the Board or committees of the Board held in the fiscal year ended July 31, 2004 which such directors were eligible to attend.

The Board has an audit committee, a compensation committee, a stock option committee and a nominating committee.

Audit Committee. The audit committee's functions are to: monitor the corporate financial reporting and the internal and external audits of the Company; provide to the Board the results of its examinations and recommendations derived therefrom; outline to the Board improvements made, or to be made, in internal accounting

controls; appoint, compensate and oversee the Company's independent registered public accounting firm; supervise the finance function of the Company (including, among other matters, the Company's investment activities); engage and compensate independent counsel and other advisors as it deems necessary to carry out its duties; to the extent permitted under applicable laws, rules and regulations, and the Company's bylaws and certificate of incorporation, delegate to one or more members of the audit committee the authority to grant pre-approvals of audit services and non-audit services provided such decisions are presented to the full audit committee at regularly scheduled meetings; and provide the Board such additional information and materials as it may deem necessary to make the Board aware of significant financial matters which require the attention of the Board. The audit committee undertakes those specific duties and other responsibilities listed in the audit committee's charter, and such other duties as the Board from time to time may prescribe. See also Report of the Audit Committee of the Board of Directors below. During the fiscal year ended July 31, 2004, the audit committee, members of which consisted of Ms. Berg-Painter and Messrs. Arnold (commencing on

Edgar Filing: INTELLISYNC CORP - Form DEF 14A

his appointment in May 2004), Clair and Praisner, held five meetings. The Board has determined that Michael J. Praisner is the audit committee's financial expert, as defined under Section 407 of the Sarbanes-Oxley Act of 2002 and the rules promulgated by the Securities and Exchange Commission, or SEC, in furtherance of Section 407. The Board has also determined that Ms. Berg-Painter and Messrs. Arnold, Clair and Praisner are each independent of the Company and its management under the rules of the Nasdaq Stock Market.

Compensation Committee. The compensation committee's primary function is to review and approve individual elements of total compensation for the Company's chief executive officer and other executive officers, including base salary, incentive awards, stock grants and any other long-term incentive awards. In addition, as appropriate, the compensation committee reviews and approves employment and other agreements affecting the chief executive officer and other executive officers. Other functions of the compensation committee include the administration and review of the Company's incentive compensation and other equity-based compensation plans. The compensation committee is also primarily responsible for approving all stock option grants greater than 50,000 shares. The members of the compensation committee are Ms. Berg-Painter and Messrs. Arnold (commencing on his appointment in May 2004), Clair and Praisner. During the fiscal year ended July 31, 2004, the compensation committee held two meetings.

Stock Option Committee. The stock option committee consisted of Mr. Hobbs for the fiscal year ended July 31, 2004. The stock option committee held no meetings during the fiscal year and typically takes action by written consent. This committee is primarily responsible for approving all stock option grants of 50,000 shares or fewer to new and continuing employees (other than executive officers). Provided Mr. Hobbs is re-elected as a member of the Board, Mr. Hobbs will continue to serve as the sole member of the stock option committee for the fiscal year ending July 31, 2005.

Nominating Committee. The nominating committee consisted of Ms. Berg-Painter and Messrs. Arnold (commencing on his appointment in May 2004), Clair and Praisner for the fiscal year ended July 31, 2004. The Board has determined that each of the members of the nominating committee is independent of the Company and its management under the rules of the Nasdaq Stock Market. The nominating committee's functions are to identify, evaluate and recommend to the Board candidates to serve as members of the Board, including to fill vacancies, recommend to the Board directors for appointment to its committees, conduct an annual evaluation of the performance of the Board, make recommendations to the Board regarding issues of management succession, periodically review and assess the Company's corporate governance policies in light of the applicable legal requirements and recommend to the Board appropriate modifications, if any, and perform such other duties and responsibilities as may be assigned to the committee by the Board. The nominating committee was established in May 2004. During the fiscal year ended July 31, 2004, the nominating committee held no meetings. Nominees for the Annual Meeting were evaluated at a meeting of the nominating committee held on August 25, 2004.

In evaluating and determining whether to recommend a person as a candidate for election or re-election as a director, the nominating committee's criteria reflects the requirements of rules recently adopted by the Nasdaq Stock Market with respect to independence and the following factors: the needs of the Company with respect to the particular talents and experience of its directors; personal and professional integrity of the candidate; level of education and/or business experience; broad-based business acumen; the level of understanding of the Company's business and industry; strategic thinking and a willingness to share ideas; and diversity of experiences, expertise and background. The nominating committee will use these criteria to evaluate all potential nominees.

7

The nominating committee will consider proposed nominees for director whose names are submitted to it by any stockholder entitled to vote in the election of directors. The nominating committee does not have and has not adopted a formal process for considering nominees of stockholders because it believes that its information consideration process has been adequate. The nominating committee intends to periodically review whether a more formal process should be adopted. Stockholder nominations for director, however, must comply with the notice provisions of the Company's bylaws. Generally, a stockholder nomination for a director must be received at the Company's principal executive offices not less than 120 days in advance of the date that the Company's proxy statement was released to stockholders in connection with the previous year's annual meeting.

Vote Required and Board of Directors Recommendation

If a quorum representing a majority of all outstanding shares of common stock is present and voting, either in person or by proxy, the six nominees for director receiving the highest number of for votes will be elected. Abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum. Abstentions and broker non-votes, on the other hand, will have no effect on the outcome of the vote.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE NOMINEES NAMED ABOVE.

PROPOSAL NO. 2
APPROVAL OF PROPOSED AMENDMENT TO THE COMPANY'S 2002 STOCK OPTION
PLAN TO INCREASE THE NUMBER OF SHARES OF COMMON STOCK
AUTHORIZED FOR ISSUANCE PURSUANT TO STOCK OPTIONS

General

In 2002, the Board unanimously adopted and the stockholders approved the 2002 Stock Option Plan, or the 2002 Plan. As described below, on August 25, 2004 the Board, subject to stockholder approval, approved an amendment to the 2002 Plan to increase by 6,500,000 (from 2,275,000 to 8,775,000) the number of shares of common stock authorized for issuance under the 2002 Plan. As of September 15, 2004, only 493,250 shares were available for future grant under the 2002 Plan. The purpose of this amendment is to ensure that the Company has the flexibility to meet its foreseeable future needs for awards to be granted under the 2002 Plan. Such needs include providing stock options for the purposes of retaining key employees as well as in connection with annual compensation reviews or ordinary course promotions and to new hires as inducement grants. The stockholders are being asked to approve an amendment to the 2002 Plan to increase the number of shares of common stock authorized for issuance under the 2002 Plan by 6,500,000, which shares will be available for future grants. The Board recommends stockholders approve the proposed amendment to the 2002 Plan to increase the number of shares of common stock authorized for issuance pursuant to stock options.

Description of the 2002 Stock Option Plan

The following summary of the 2002 Plan is qualified in its entirety by the specific language of the 2002 Plan, a copy of which, as proposed to be amended, is included as *Appendix A* to this proxy statement.

General. The 2002 Plan is established to attract, retain and reward persons providing services to the Company and to its eligible parent or subsidiary corporations, and to motivate such persons to contribute to the growth and profits of the Company in the future. Options granted under the 2002 Plan may be either incentive stock options, as defined in Section 422 of the Internal Revenue Code, or the Code, or nonqualified stock options. See Summary of Federal Income Tax Consequences of the 2002 Stock Option Plan below for information concerning the tax treatment of both incentive stock options and nonqualified stock options. The 2002 Plan is not a qualified deferred compensation plan under Section 401(a) of the Code, and is not subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Benefits to be granted under the 2002 Plan are not determinable.

Shares Subject to Plan. Options shall be for the purchase of shares of the authorized but unissued, or reacquired (treasury) common stock of the Company. The maximum number of shares of stock which may be issued under the 2002 Plan shall be 8,775,000 shares. In the event that any outstanding option for any reason expires or is terminated or canceled, the shares allocable to the unexercised portion of such option may again be subject to an option grant. Shares issued upon exercise of an option and repurchased by the Company will not increase the number of shares available for issuance under the 2002 Plan.

As of September 15, 2004, no shares had been issued under the 2002 Plan and options to purchase 1,781,750 shares were outstanding, leaving only 493,250 shares available for future grant. Options outstanding on September 15, 2004 have per share exercise prices ranging from \$2.15 to \$4.23, or a weighted average per share exercise price of \$3.33, and expire 10 years from the date of grant of the option (unless exercised or cancelled prior to that time).

If the stockholders approve the 2002 Plan, as amended, options to purchase an aggregate of 6,993,250 shares of common stock would be available for future stock option grants under the 2002 Plan. If the stockholders do not approve the 2002 Plan, as amended, then the 2002 Plan will not be amended at this time.

As of September 15, 2004, the total number of options outstanding was 8,487,097, of which 1,781,750 were issued pursuant to the 2002 Plan, 2,581,527 were issued pursuant to the 2000 Supplemental Stock Option Plan, 975,000 were issued pursuant to a restricted stock grant agreement, 2,624,585 were issued pursuant to the 1993 Stock Option Plan, 479,483 were issued in connection with the Company's acquisition of Synchrologic and the assumption by the Company of options to purchase Synchrologic common stock and 44,752 were issued in connection with the Company's acquisitions of ProxiNet, Inc. and NetMind Technologies, Inc. in prior fiscal years.

Administration. The Board is responsible for administering the Company's stock plans, including the 2002 Plan. The Board may, however, delegate authority to administer the 2002 Plan to one or more committees. Currently,

the 2002 Plan is administered by the stock option committee, which consists of Mr. Hobbs. This committee is primarily responsible for approving all stock option grants of 50,000 shares or fewer to new and continuing employees (other than executive officers), while the compensation committee is primarily responsible for approving all stock option grants greater than 50,000 shares. Any officer of the Company shall have the authority to act on behalf of the Company with respect to any matter, right, obligation, or election which is the responsibility of or which is allocated to the Company herein, provided the officer has apparent authority with respect to such matter, right, obligation, or election. The Board or its committee(s) administer the 2002 Plan pursuant to applicable laws and regulations.

The administrator determines the terms and conditions provided in the 2002 Plan, including the power to terminate or amend the 2002 Plan at any time, subject to the terms of the 2002 Plan and any legal requirements. The administrator determines the number of shares of stock for which each option is granted, the option exercise price of each option, the timing and terms of exercisability and vesting of each option, whether each option is to be treated as an incentive stock option or as a nonqualified stock option and all other terms and conditions of the option. The administrator will interpret the 2002 Plan or the terms of any options granted under the 2002 Plan, and all determinations of the administrator will be final and binding upon all persons bound by the 2002 Plan or holding an option.

Eligibility. Options may be granted only to employees (including officers and directors who are also employees) and directors of the Company or to individuals who are rendering services as consultants of or advisors to the Company. Incentive stock options may be granted only to employees. A director of the Company may only be granted a nonqualified stock option unless the director is also an employee of the Company. An individual who is rendering services as a consultant, advisor, or other independent contractor may only be granted a nonqualified stock option. Eligible persons may be granted more than one option. As of September 15, 2004, approximately 369 employees, officers, consultants, and directors were eligible to participate in the 2002 Plan.

Terms, Conditions and Form of Options. The terms of options granted under the 2002 Plan are determined by the administrator. Each option granted pursuant to the 2002 Plan is evidenced by a written agreement specifying the number of shares of stock covered by the option. This written agreement also specifies other provisions that the administrator may determine. The option may incorporate all or any of the terms of the 2002 Plan by reference and shall comply with and be subject to the following terms and conditions:

Limits on Plan Awards. The 2002 Plan limits the maximum number of shares of common stock that may be subject to awards granted to any one employee under the 2002 Plan during any fiscal year. Subject to adjustment as provided in the 2002 Plan, the maximum number of shares subject to awards that may be granted to any one employee during a fiscal year under the 2002 Plan is 2,275,000. This annual limitation is designed to comply with the Section 162(m) rules requiring that the plan include a limit on the number of shares that may be granted during a specified period.

Option Exercise Price. The option exercise price for each option is established in the sole discretion of the administrator. However, the option exercise price per share, (i) for an incentive stock option, shall not be less than the fair market value, as determined by the administrator, which determination will generally be based upon the closing price on the Nasdaq National Market on the date of grant, of a share of stock, (ii) for a nonqualified stock option, shall not be less than eighty-five percent 85 percent of the fair market value, as determined by the administrator, of a share of stock on the date of the granting of the option. Additionally, no incentive stock option granted to an optionee who at the time the option is granted owns stock possessing more than ten percent of the total combined voting power of all classes of stock of the Company will have an option exercise price per share less than 110 percent of the fair market value, as determined by the administrator, of a share of stock on the date of the granting of the option. The administrator may, however, grant options to participants having exercise prices that are less than the minimum exercise prices set forth above if grants are in compliance with the applicable laws and regulations. As of September 15, 2004, the closing price of a share of our common stock on the Nasdaq National Market was \$2.18.

Exercise Of Options. The administrator determines when options are exercisable, including any vesting requirements and/or performance criteria with respect to the Company or the optionee, and the term of each option. The Company's standard vesting schedule calls for 25 percent of the stock options to be exercisable at the end of the first year, and of the total number of shares each month thereafter. Generally, the optionee must earn the right to exercise the option by continuing to work for the Company, although the plan permits the grant of fully

vested options. An option is exercised by giving written notice of exercise to the Company specifying the number of full shares of common stock to be purchased, and by tendering payment of the purchase price to the Company.

Payment Of Option Exercise Price. Payment of the option exercise price for the number of shares of stock being purchased pursuant to any option shall be made (i) in cash, by check, or cash equivalent; (ii) by tender to the Company of shares of the Company's stock owned by the optionee having a value not less than the aggregate exercise price of the option shares being exercised, provided that in the case of shares acquired from the Company, such shares must have been owned by the optionee for more than six months on the date of tender (or such other period as may be required to avoid the Company's incurring an adverse accounting charge); (iii) by the assignment of the proceeds of a sale of some or all of the shares being acquired upon the exercise of the option (including, without limitation, through an exercise complying with the provisions of Regulation T as promulgated from time to time by the Board of Governors of the Federal Reserve System); (iv) any other method permissible under the applicable laws; or (v) by any combination of the foregoing methods.

Exercise on Termination. If the optionee's employment or consulting relationship with the Company is terminated for any reason other than death or total and permanent disability, options under the 2002 Plan may be exercised within three months (or some other period determined by the administrator) after the date of such termination to the extent the option was vested on the termination date. If an optionee is unable to continue his or her employment or consulting relationship with the Company as a result of his or her disability, options may be exercised within 12 months (or some other period determined by the administrator) after the date of termination and may be exercised to the extent the option was vested on the date of termination. If an optionee dies while working for the Company, or within 30 days after the optionee has ceased to work for the Company, and such optionee has worked for the Company since the date of grant of the option, the option may be exercised within 12 months after the date of death (or some other period determined by the administrator) by the optionee's estate or by a person who inherited the right to exercise the option to the extent the option would have been vested at the date of death.

Option Termination Date. Incentive stock options granted under the 2002 Plan expire 10 years from the date of grant unless a shorter period is provided in the option agreement. Incentive stock options granted to 10 percent stockholders may not have a term of more than five years. Although non-statutory stock options granted under the 2002 Plan may have any term specified by the administrator, the applicable term is generally 10 years.

Nontransferability of Options. Incentive stock options are not transferable by the optionee, other than by will or the laws of descent and distribution, and are exercisable only by the optionee during his or her lifetime or, in the event of death, by a person who acquires the right to exercise the option by bequest or inheritance or by reason of the death of the optionee. The administrator may grant nonqualified stock options having limited transferability.

\$100,000 Limitation Applicable To Incentive Stock Options. Notwithstanding any designation by the administrator of an option as an incentive stock option, to the extent that the aggregate fair market value of shares with respect to which options designated as incentive stock options are exercisable for the first time by any optionee during any calendar year (under all plans of the Company) exceeds \$100,000, such excess options shall be treated as nonqualified stock options. For purposes of this paragraph, incentive stock options shall be taken into account in the order in which they were granted, and the fair market value of the shares subject to an incentive stock option shall be determined as of the date of the grant of such option.

Withholding Taxes. As a condition of the grant, vesting or exercise of an option, the optionee (or in the case of the optionee's death, the person succeeding to the optionee's rights under the option) shall make such arrangements as the administrator may require for the satisfaction of any applicable federal, state, local or foreign withholding tax obligations that may arise in connection with such grant, vesting or exercise of the option and the issuance of shares thereunder. The Company shall not be required to issue any shares under the 2002 Plan until such obligations are satisfied. If the compensation committee allows the withholding or surrender of shares of Company stock to satisfy an optionee's tax withholding obligations under this paragraph, the administrator shall not allow shares to be withheld in an amount that exceeds the minimum statutory withholding rates for federal and state tax purposes, including payroll taxes.

Other Provisions. An award agreement may contain other terms, provisions, and conditions not inconsistent with the 2002 Plan, as may be determined by the administrator.

Transfer of Control; Liquidation. The 2002 Plan provides that in the event of (a) a sale of all or substantially all of the Company's assets, or (b) a merger, consolidation or other capital reorganization or transaction of the Company with or into another corporation, entity or person, the acquiring or successor corporation may assume the Company's rights and obligations under outstanding options or substitute options for the acquiring corporation's stock for such outstanding options. Any unexercised options which are neither assumed or substituted for by the acquiring corporation in connection with the transfer of control, shall terminate and cease to be outstanding effective as of the date of the transfer of control. The administrator may grant options that permit acceleration of vesting upon a change of control of the Company.

In the event of a liquidation or dissolution of the Company, each option will terminate immediately prior to the consummation of such action, unless otherwise determined by the administrator in its sole discretion.

Adjustments Upon Changes in Capitalization. In the event any change, such as a stock split, reverse stock split, stock dividend, combination, recapitalization or reclassification, is made in the Company's capitalization that results in an increase or decrease in the number of issued shares of common stock without receipt of consideration by the Company, appropriate adjustment shall be made in the exercise price of each outstanding option, the number of shares subject to each option, and the annual Section 162(m) limitation on grants to employees, as well as the number of shares available for issuance under the 2002 Plan.

Termination or Amendment of Plan. The administrator may at any time amend, alter, suspend, discontinue, or terminate the 2002 Plan or one or more outstanding options at any time; provided, however, that without the approval of the Company's stockholders, there shall be (a) no increase in the total number of shares of stock covered by the 2002 Plan, (b) no change in the class of persons eligible to receive incentive stock options and (c) no expansion in the class of persons eligible to receive nonqualified stock options. In any event, no amendment, alteration, suspension, discontinuance, or termination (except as otherwise provided in the 2002 Plan) may adversely affect the rights of any optionee under any outstanding stock option grant without his or her consent, unless such amendment is required to enable an option designated as an incentive stock option to qualify as an incentive stock option. Unless terminated earlier, the 2002 Plan will terminate in October 2012.

Summary of Federal Income Tax Consequences of the 2002 Stock Option Plan

The following is a brief summary of the United States federal income tax consequences of transactions under the 2002 Plan based on federal securities and income tax laws in effect as of the date of this proxy statement (which laws could change at any time hereafter, possibly with retroactive effect). This summary is not intended to be exhaustive and does not discuss the tax consequences of a participant's death or provisions of the income tax laws of any municipality, state or other country in which an optionee may reside. This summary does not purport to be complete. The Company advises all optionees to consult their own tax advisors concerning tax implications of option grants and exercises, and the disposition of shares acquired upon such exercise, under the 2002 Plan.

Options granted under the 2002 Plan may be either incentive stock options, as defined in Section 422 of the Code, or nonqualified stock options.

If an option granted under the 2002 Plan is an incentive stock option, the optionee will recognize no income upon grant of the incentive stock option and incur no regular tax liability upon its exercise, although the exercise of an incentive stock option may give rise to alternative minimum tax (see below). The Company will not be allowed a deduction for federal income tax purposes as result of the exercise of an incentive stock option regardless of the applicability of the alternative minimum tax. Upon the sale or exchange of the shares more than two years after grant of the option and more than one year after transfer of the shares to the optionee, any gain will be treated as long-term capital gain. If both of these holding periods are not satisfied (a disqualifying disposition), the optionee will recognize ordinary income equal to the difference between the exercise price and the lower of the fair market value of the stock at the date of the option exercise or the sale price of the stock. The Company will be entitled to a deduction in the same amount as the ordinary income recognized by the optionee. Any gain recognized on such a disqualifying disposition of the shares in excess of the amount treated as ordinary income will be characterized as long-term capital gain if the sale occurs more than one year after exercise of the option or as short-term capital gain if the sale is made earlier. Different tax rules may apply upon a disqualifying disposition if the shares acquired upon exercise of an incentive stock option were unvested (i.e., subject to a repurchase right on the part of the Company at the original purchase price if the optionee ceases to perform services for the Company prior to completion of a specified service period) at the time of exercise, and optionees should consult their own

tax advisors regarding such special rules in that event. The tax rate on long-term capital gains under current federal tax laws is capped at 15 percent for shares held more than one year. Capital losses are allowed in full against capital gains plus \$3,000 of other income.

All other options which do not qualify as incentive stock options are referred to as nonqualified stock options. An optionee will not recognize any taxable income under U.S. tax laws at the time he or she is granted a nonqualified stock option. However, upon its exercise, under U.S. tax laws the optionee will recognize ordinary income for tax purposes measured by the excess of the then fair market value of the shares over the exercise price. In certain circumstances, where the shares are unvested (as defined above) when acquired or where the optionee is an officer, director or 10 percent stockholder of the Company and sale of the shares could give rise to a suit to disgorge profits under Section 16(b) of the Securities Exchange Act of 1934, as amended, the date when taxation occurs and the fair market value of the shares is measured for purposes of determining such ordinary income may be deferred unless the optionee files an election with the Internal Revenue Service under Section 83(b) of the Code. The income recognized at the time of exercise by an optionee who is also an employee of the Company will be subject to income and employment tax withholding by the Company by payment in cash or out of the current earnings paid to the optionee. Upon sale of such shares by the optionee, any difference between the sale price and the fair market value of the shares on the exercise date (or any later applicable

Edgar Filing: INTELLISYNC CORP - Form DEF 14A

measurement date) will be treated as capital gain or loss, and will qualify for long-term capital gain or loss treatment if the shares have been held for more than one year.

Alternative Minimum Tax

As noted above, the exercise of an incentive stock option may subject the optionee to the alternative minimum tax, or AMT. The AMT is calculated for federal tax purposes by applying a tax rate of 26 percent to alternative minimum taxable income up to \$175,000 (\$87,500 for married taxpayers filing separately) and 28 percent to alternative minimum income above such amount. Alternative minimum taxable income for federal tax purposes is equal to (i) taxable income adjusted for certain items, plus (ii) items of tax preference less (iii) an exclusion of \$58,000 for 2004, and \$45,000 thereafter for joint filers, and \$40,250 for 2004, and \$33,750 thereafter, for unmarried individual returns, with the exclusion amount phased out for upper-income taxpayers.

In computing alternative minimum taxable income, shares purchased upon exercise of an incentive stock option are treated as if they had been acquired by the optionee pursuant to a nonqualified option, as described above. Because the AMT rules are complex and their effects depend upon the personal circumstances of each taxpayer, an optionee should consult his or her own tax advisor prior to exercising an incentive stock option.

If an optionee pays AMT as a result of exercising an incentive stock option, the amount of such AMT may be carried forward as a credit against any subsequent year's regular tax in excess of the AMT.

If the stockholders fail to ratify the selection, the audit committee will reconsider whether or not to retain that firm. The following is a brief description of the Company's equity compensation plans that have not been submitted to the Company's stockholders for approval:

2000 Supplemental Stock Option Plan. In March 2000, the Board adopted the 2000 Supplemental Stock Option Plan, or the SSOP. The SSOP provides for granting of nonqualified stock options to purchase shares of common stock to non-executive officers, employees and consultants of the Company. In accordance with the SSOP, the stated exercise price shall not be less than 85 percent of the estimated fair market value of common stock on the date of grant as determined by the Board. The SSOP allows optionees to purchase stock on exercise of options using cash, through a tender of shares or through a same-day sale option exercise program. The SSOP provides that the options shall be exercisable over a period not to exceed ten years. Options generally vest 25 percent 12 months after date of grant and each month thereafter for the next 36 months. The SSOP provides that, in the event of certain change of control transactions involving the Company, outstanding options will be assumed by the Company's acquiror or the Company's acquiror would issue replacement options. If the Company's acquiror did not assume or replace outstanding options, then these options would terminate upon the closing of the transactions. Options available for grant as of July 31, 2004 were approximately 72,513 shares.

Restricted Stock Grant Agreement. In June 2002, the Company granted its new president and chief executive officer, Woodson Hobbs, an option to purchase 1,500,000 restricted shares of common stock at \$0.59 per share (the fair market value on July 14, 2002, the date of the grant). The options may be exercised prior to the options becoming vested, but such shares are subject to repurchase over the option vesting period. If the officer's employment is terminated for any reason, the Company has the right to repurchase any unvested shares. A total of 700,000 shares, conditional upon continued employment, vest 25 percent 12 months after date of grant and each month thereafter for the next 36 months. The remaining 800,000 shares vest in full on June 14, 2009, but the vesting may be accelerated upon achievement of certain performance objectives. The grant provides for acceleration of vesting upon change of control, as more fully described in the Employment Contracts and Termination of Employment and Change of Control Arrangements section. In June 2002, Mr. Hobbs exercised 525,000 shares in exchange for a full recourse, interest-bearing promissory note. The note was paid in full in January 2004.

Compensation Committee Interlocks and Insider Participation

The compensation committee currently consists of Ms. Berg-Painter and Messrs. Arnold, Clair and Praisner. No member of the compensation committee has a relationship that would constitute an interlocking relationship with executive officers or directors of another entity.

Compensation of Directors

Prior to September 30, 2003, all of the Company's directors were reimbursed for their out-of-pocket expenses incurred in executing their responsibilities to the Company, as well as attending board and committee meetings. In addition, non-employee directors received a \$2,000 fee for each board meeting that they attended in person and a fee of \$500 for each audit committee meeting that they attended in person. Directors are also eligible to receive stock option grants.

On September 30, 2003, the Board approved changes to the compensation paid to its directors. Under the modified board fee structure, non-employee directors generally receive a \$1,000 fee for each board meeting or audit committee meeting that they attend in person and a \$500 fee for each board meeting or audit committee that they attend telephonically. In addition, non-employee directors will receive a \$500 fee for each compensation committee meeting that they attend in person or telephonically. The chairman of the audit committee will receive an additional \$500 fee for each meeting that the chairman attends, and the chairman of the compensation committee will receive an additional \$250 fee for each meeting that the chairman attends. The chairman of the board will receive an additional \$500 for each meeting that the chairman attends. Additionally, beginning on February 15, 2004, each non-employee director receives annual cash compensation in the amount of \$20,000, payable quarterly, provided

that the director's service was not terminated at the end of such quarter. In addition, the chairman of the board will receive additional annual cash compensation in the amount of \$15,000, payable quarterly, provided that the director's service was not terminated at the end of such quarter, and

each Board committee chairman will receive additional annual cash compensation in the amount of \$10,000. Due to the distance traveled and expense incurred, Mr. Arnold receives compensation of \$3,000 to cover his travel expenses in lieu of the regular director fee for each board meeting or audit committee meeting that he attends in person.

On September 30, 2003, the Board approved the grant of options to purchase 90,600 shares of common stock to Mr. Clair, 47,200 shares to Mr. Praisner and 29,700 shares to Ms. Berg-Painter, each option to vest pro-rata over a three-year term. The options are exercisable at \$4.76 per share. On June 1, 2004, the Board approved the grant of option to purchase 25,000 shares of common stock to Mr. Arnold. The option is exercisable at \$2.42 per share and vests 25 percent 12 months after date of grant and each month thereafter for the next 36 months.

Additionally, on September 30, 2003, the Board approved personal compensation agreements with Ms. Berg-Painter, Mr. Clair and Mr. Praisner, filed as Exhibits 10.28, 10.26 and 10.17 to the Company's Annual Report on Form 10-K filed for the fiscal year ended July 31, 2003. The personal compensation agreements provide for the cash compensation described above and the acceleration of vesting of options to purchase common stock in the event of a change of control of the Company.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

Woodson Hobbs. The Company entered into an employment agreement with Woodson Hobbs dated June 14, 2002, pursuant to which Mr. Hobbs was engaged as the Company's President and Chief Executive Officer at an initial annual base salary of \$300,000. On September 30, 2003, the compensation committee increased Mr. Hobbs' annual base salary to \$350,000, retroactively effective June 14, 2003. In addition to base compensation, Mr. Hobbs received a signing bonus of \$200,000 upon execution of his employment agreement. Mr. Hobbs was also issued an immediately exercisable restricted stock option to purchase up to 1,500,000 shares of the Company's common stock at \$0.59 per share. The option is fully exercisable from the time of grant, subject to the Company's right to repurchase any unvested shares at the original exercise price in the event of Mr. Hobbs' termination. The option shares vest as follows: 700,000 shares vest over four years, with 25 percent vesting after one year and then vesting monthly thereafter; 400,000 shares vest on the seventh anniversary of the date of grant, with acceleration for meeting certain operating plan criteria, including revenue and net income objectives; and 400,000 shares vest on the seventh anniversary of the date of grant, with acceleration for meeting certain stock price targets. Mr. Hobbs exercised the option with respect to 525,000 shares and paid for the shares by issuing the Company a full recourse promissory note in the aggregate principal amount of \$309,750 with interest accruing at the rate of 4.75 percent per annum. The note was paid in full in January 2004. Mr. Hobbs is entitled to receive pro-rata compensation and benefits for a three-month period if he is subject to an Involuntary Termination (as defined below). If Mr. Hobbs is subject to Involuntary Termination within 12 months following a Change of Control (as defined below), he will be entitled to receive pro-rata compensation and benefits for a six-month period. In addition, upon a Change of Control, all unvested shares of the Company's stock owned or under options held by Mr. Hobbs will vest in full. In addition, the Company will increase any severance amounts payable to Mr. Hobbs to cover any excise tax he may owe if his severance payments are deemed to constitute excess parachute payments under Section 280G of the Internal Revenue Code of 1986, as amended, in connection with a Change of Control. On October 18, 2003, the compensation committee approved the Amendment to Attachment 1 to Employment Agreement amending the definition of Change of Control such that Change of Control means the occurrence of any of the following events:

- (a) Any person (as such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended), excluding existing beneficial owners as of the date of this Letter, is or becomes the beneficial owner (as defined in Section 13d-3 of said Act), directly or indirectly, of securities of the Company representing 50 percent or more of the total voting power represented by the Company's then outstanding voting securities, excluding conversion of any convertible securities issued as of the date of this Agreement;
- (b) The composition of the Board changes during any period of 36 months that follows October 20, 2003, such that individuals who, at the beginning of the period, were members of the Board (the Continuing Directors), cease for any reason to constitute at least a majority thereof; unless at least 50 percent of the Continuing Directors has either (i) approved the election of the new Directors, (ii) if the election of the new Directors is voted on by stockholders, recommended that the stockholders vote for approval, or (iii) otherwise

determined that such change in composition does not constitute a Change of Control, even if the Continuing Directors do not constitute a quorum of the whole Board (it being understood that this requirement shall not be capable of satisfaction unless there is at least one Continuing Director);

- (c) The stockholders of the Company approve a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) at least 50 percent of the total voting power represented by the voting securities of the Company or such surviving entity outstanding immediately after such merger or consolidation, or the

stockholders of the Company approve a plan of complete liquidation of the Company or an agreement for the sale or disposition by the Company of all or substantially all of the Company's assets;

Any other provision of this notwithstanding, the term Change of Control shall not include either of the following events undertaken at the election of the Company:

- (i) Any transaction, the sole purpose of which is to change the state of the Company's incorporation; or
- (ii) A transaction, the result of which is to sell all or substantially all of the assets of the Company to another corporation (the surviving corporation) provided that the surviving corporation is owned directly or indirectly by the stockholders of the Company immediately following such transaction in substantially the same proportions as their ownership of the Company's common stock immediately preceding such transaction.

Clyde Foster. Mr. Foster was issued an immediately exercisable stock option to purchase up to 300,000 shares of the Company's common stock at \$0.34 per share. The option is fully exercisable from the time of grant, subject to the Company's right to repurchase any unvested shares at the original exercise price in the event of Mr. Foster's termination. The option shares originally vested over four years, with 25 percent vesting after 12 months from the date of grant and then vesting monthly thereafter. Mr. Foster also received an additional grant of an option for 100,000 shares of the Company's common stock at \$0.34 per share. The option to purchase 100,000 shares is fully vested as a result of the satisfaction of certain performance milestones. In the event the Company terminates Mr. Foster's employment at any time other than for good reason (as defined in the agreement), then he shall be entitled to receive as a severance six months continuation of his base salary, based upon his base salary as of the date of his employment ceases, and the Company will continue to pay for coverage of the executive under the Company's health, life, dental and other insurance programs for a period of six months, provided that he first sign a comprehensive release of claim in favor of the Company, and that release becomes effective according to its terms. On September 30, 2003, the Board granted Mr. Foster an option to purchase 200,000 shares of the Company's common stock at \$4.76 per share. As of the date of grant, the option shares will vest over four years, with 25 percent vesting after 12 months from the date of grant and then vesting monthly thereafter. On that date, the Board also approved a Change of Control Agreement with Mr. Foster that provides for 12 months acceleration of vesting of Mr. Foster's options in the event of a Change of Control (as defined below).

- (b) The composition of the Board changes during any period of 36 months that follows the date of the change of control agreement, such that individuals who, at the beginning of the period, were members of the Board (the Continuing Directors), cease for any reason to constitute at least a majority thereof; unless at least 50 percent of the Continuing Directors has either (i) approved the election of the new Directors, (ii) if the election of the new Directors is voted on by stockholders, recommended that the stockholders vote for approval, or (iii) otherwise determined that such change in composition does not constitute a Change of Control, even if the Continuing Directors do not constitute a quorum of the

whole Board (it being understood that this requirement shall not be capable of satisfaction unless there is at least one Continuing Director); or

(c) The stockholders of the Company approve a merger or consolidation of the Company with any other corporation, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) at least 50 percent of the total voting power represented by the voting securities of the Company or such surviving entity outstanding immediately after such merger or consolidation, or the stockholders of the Company approve a plan of complete liquidation of the Company or an agreement for the sale or disposition by the Company of all or substantially all of the Company's assets.

The Change of Control Agreements provide that Change of Control shall not include either of the following events undertaken at the election of the Company:

(i) Any transaction, the sole purpose of which is to change the state of the Company's incorporation; or

On March 1, 2004, the Board granted Mr. Mohammadioun an option to purchase an additional 200,000 shares of the Company's common stock at \$3.30 per share. As of the date of the grant, option shares will vest over four years, with 25 percent vesting after 12 months from the date of grant and then vesting monthly thereafter.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and persons who beneficially own more than 10 percent of the Company's common stock, who are collectively referred to as Reporting Persons, to file initial reports of ownership and reports of changes in ownership with the SEC. Reporting Persons are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they filed.

To the Company's knowledge, review of such forms furnished to the Company and written representations from certain reporting persons, the Company believes that during the fiscal year ended July 31, 2004, all reporting persons have complied with all filing requirements applicable to the Company's executive officers, directors and greater than 10 percent stockholders.

REPORT OF THE COMPENSATION COMMITTEE OF THE INTELLISYNC BOARD OF DIRECTORS ON EXECUTIVE COMPENSATION

The following is the report of the compensation committee of the Company, describing the compensation policies and rationale applicable to the Company's executive officers with respect to the compensation paid to such executive officers for the fiscal year ended July 31, 2004. The information contained in the report shall not be deemed to be soliciting material or to be filed with the SEC nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Act, or the Securities Exchange Act of 1934, as amended, or the Exchange Act, except to the extent that the Company specifically incorporates it by reference into such filing.

The committee is responsible for setting and administering the policies governing annual compensation of the executive officers of the Company. In addition, the committee reviews the performance and compensation levels for executive officers, sets base salary levels for executive officers, and is primarily responsible for approving stock option grants greater than 50,000 shares. The members of this committee for the fiscal year ended July 31, 2004 were Ms. Berg-Painter and Messrs. Arnold (who was appointed to the committee in May 2004), Clair and Praisner, who were non-employee directors of the Company for the fiscal year ended July 31, 2004.

Overview

Edgar Filing: INTELLISYNC CORP - Form DEF 14A

The goals of the Company's executive officer compensation policies are to attract, retain and reward executive officers who contribute to the Company's success, to align executive officer compensation with the Company's performance and to motivate executive officers to achieve the Company's business objectives. The Company uses salary, bonuses, incentive cash compensation and option grants to attain these goals. The committee reviews compensation surveys and other data to enable the committee to compare the Company's compensation package with that of similarly-sized high technology companies in the Company's geographic areas.

Salary

Compensation of executive officers, other than for Mr. Hobbs, the Company's president and chief executive officer, are reviewed annually by the committee, and adjustments are made based on individual executive officer performance, scope of responsibilities and levels paid by similarly-sized high technology companies in the applicable geographic area.

Stock Options

The Company strongly believes that equity ownership by executive officers provides incentives to build stockholder value and align the interests of executive officers with the stockholders. The size of an initial option grant to an executive officer has generally been determined with reference to similarly-sized high technology companies in the relevant geographic area for similar positions, the responsibilities and future contributions of the executive officer, as well as recruitment and retention considerations. See also Stock Options Granted in Fiscal Year 2004 above.

Chief Executive Officer Compensation

The committee annually reviews the performance and compensation of Mr. Hobbs. Mr. Hobbs has served as the Company's president and chief executive officer since June 2002. The compensation of Mr. Hobbs is largely based upon the same criteria as that applicable to the other executive officers of the Company although the committee added a number of performance criteria to Mr. Hobbs' option grants not typical of options granted to other executive officers. In addition to base compensation, Mr. Hobbs received a signing bonus of \$200,000 upon execution of his Employment Agreement with the Company in June 2002. Mr. Hobbs was also issued an immediately exercisable restricted stock option to purchase up to 1,500,000 shares of the Company's common stock at \$0.59 per share. The option is fully exercisable from the time of grant, subject to the Company's right to repurchase any unvested shares at the original exercise price in the event of Mr. Hobbs' termination. The option shares vest as follows: 700,000 shares vest over four years, with 25 percent vesting after 12 months from the date of grant and then vesting monthly thereafter; 400,000 shares vest on the seventh anniversary of the date of grant, with acceleration for meeting certain operating plan criteria, including revenue and net income objectives; and 400,000 shares vest on the seventh anniversary of the date of grant, with acceleration for meeting certain stock price targets. Mr. Hobbs exercised the option with respect to 525,000 shares and paid for the shares by issuing the Company a full recourse promissory note in the aggregate principal amount of \$309,750 with interest accruing at the rate of 4.75 percent per annum. The note was fully paid in January 2004. While the chief executive officer makes recommendations about the

28

compensation levels, goals and performance of the other executive officers, he does not participate in discussions regarding his own compensation or performance. On September 30, 2003, the Board agreed to increase Mr. Hobbs' annual salary to \$350,000, retroactive to June 14, 2003, the anniversary of Mr. Hobbs' employment with the Company, based on Mr. Hobbs' performance as chief executive officer.

CERTAIN TRANSACTIONS

The Company has also entered into indemnification agreements with its officers and directors containing provisions that may require the Company, among other things, to indemnify such officers and directors against certain liabilities that may arise by reason of their status or service as directors or officers (other than liabilities arising from willful misconduct of a culpable nature), to advance their expenses incurred as a result of any proceeding against them as to which they could be indemnified, and to obtain directors, and officers' insurance if available on reasonable terms.

The Company's general counsel, Richard Mosher, an employee of the Company, is the son-in-law of Michael Praisner, a member of the Board, chairman of the audit committee and a member of the compensation committee. Additionally, during fiscal 2004, Mr. Mosher was granted options to purchase a total of 25,000 shares of the Company's common stock. Mr. Mosher's employment with the Company pre-dates the election of Mr. Praisner to the Board. Mr. Praisner has not been involved in any decisions regarding Mr. Mosher's compensation or stock option grants.

INTELLISYNC CORPORATION

**2002 STOCK OPTION PLAN,
as amended by the Board of Directors on August 25, 2004**

1. *Purpose.* Intellisync Corporation 2002 Stock Option Plan, as amended (the **2002 Plan**) is established to attract, retain and reward persons providing services to Intellisync Corporation and any successor corporation thereto (collectively referred to as the **Company**), and any Parent and/or Subsidiary (all of whom along with the Company being individually referred to as a **Participating Company** and collectively referred to as the **Participating Company Group**), and to motivate such persons to contribute to the growth and profits of the Participating Company Group in the future. For purposes of the 2002 Plan, a parent corporation and a subsidiary corporation shall be as defined in sections 424(e) and 424(f) of the Internal Revenue Code of 1986, as amended (the **Code**).

Capitalized terms not defined in the text of the 2002 Plan are defined as set forth in Section 15 below.

2. *Administration.* The 2002 Plan shall be administered by the Board of Directors of the Company (the **Board**) and/or by one or more duly appointed committees (collectively, the **Committee**) of the Board having such powers as shall be specified by the Board. The composition of, and authority delegated to, the Committee shall conform to any mandatory requirements of the Applicable Laws. Subsequent references herein to the Board shall also mean the Committee if such Committee has been appointed and, unless the powers of the Committee have been specifically limited, the Committee shall have all of the powers of the Board granted herein, including, without limitation, the power to terminate or amend the 2002 Plan at any time, subject to the terms of the 2002 Plan and any limitations imposed by the Applicable Laws. If permitted by the Applicable Laws, the Board may authorize one or more officers to make awards under the 2002 Plan, within such limits as the Board may specify in connection with such grant of authority.

All questions of interpretation of the 2002 Plan or of any options granted under the 2002 Plan (an **Option**) shall be determined by the Board, and such determinations shall be final and binding upon all persons having an interest in the 2002 Plan and/or any Option. Options may be either incentive stock options as defined in section 422 of the Code (**Incentive Stock Options**) or nonqualified stock options. Any officer of a Participating Company shall have the authority to act on behalf of the Company with respect to any matter, right, obligation, or election which is the responsibility of or which is allocated to the Company herein, provided the officer has apparent authority with respect to such matter, right, obligation, or election.

3. *Eligibility and Consequences of Participation in 2002 Plan.*

Edgar Filing: INTELLISYNC CORP - Form DEF 14A

(a) *Eligibility.* Options may be granted only to employees (including officers and directors who are also employees) and directors of the Participating Company Group or to individuals who are rendering services as consultants of or advisors to the Participating Company Group. The Board shall, in its sole discretion, determine which persons shall be granted Options. A director of the Company may only be granted a nonqualified stock option unless the director is also an employee of the Company. An individual who is rendering services as a consultant, advisor, or other independent contractor may only be granted a nonqualified stock option. Eligible persons may be granted more than one (1) Option.

(b) *Rights as Stockholder.* Until the issuance of the shares following exercise of an Option (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), no right to vote or receive dividends or any other rights as a stockholder shall exist with respect to the shares of Stock subject to an Option.

(c) *No Employment Rights.* The 2002 Plan shall not confer upon any Optionee any right with respect to continuation of an employment or consulting relationship with the Company, nor shall it interfere in any way with such participant's right or the Company's right to terminate the employment or consulting relationship at any time for any reason.

A-1

4. Shares Subject to Options; Limitation on Awards to Employees.

(a) Options shall be for the purchase of shares of the authorized but unissued, or reacquired (treasury) common stock of the Company (the **Stock**), subject to adjustment as provided in Section 9 below. The maximum number of shares of Stock which may be issued under the 2002 Plan shall be eight million seven hundred seventy five thousand (8,775,000) shares. In the event that any outstanding Option for any reason expires or is terminated or canceled, the shares allocable to the unexercised portion of such Option may again be subject to an Option grant.

(b) Subject to adjustment as provided in Section 9 below, the maximum number of shares of Stock that may be subject to Options granted to any one employee for any fiscal year of the Company shall not be more than two million two hundred and seventy five thousand (2,275,000) shares of Stock which may be issued under the 2002 Plan.

5. *Time for Granting Options.* All Options shall be granted, if at all, within ten (10) years from the earlier of the date the 2002 Plan is adopted by the Board or the date the 2002 Plan is duly approved by the stockholders of the Company.

6. *Terms, Conditions and Form of Options.* Subject to the provisions of the 2002 Plan, the Board shall determine for each Option (which need not be identical) the number of shares of Stock for which the Option shall be granted, the option exercise price of the Option, the timing and terms of exercisability and vesting of the Option, whether the Option is to be treated as an Incentive Stock Option or as a nonqualified stock option and all other terms and conditions of the Option not inconsistent with the 2002 Plan. Options granted pursuant to the 2002 Plan shall be evidenced by written agreements specifying the number of shares of Stock covered thereby, in such form as the Board shall from time to time establish, which agreements may incorporate all or any of the terms of the 2002 Plan by reference and shall comply with and be subject to the following terms and conditions:

(a) *Option Exercise Price.* The option exercise price for each Option shall be established in the sole discretion of the Board; provided, however, that (i) the option exercise price per share for an Incentive Stock Option shall be not less than the fair market value, as determined by the Board, of a share of Stock on the date of the granting of the Option, (ii) the option exercise price per share for a nonqualified stock option shall not be less than eighty-five percent (85%) of the fair market value, as determined by the Board, of a share of Stock on the date of the granting of the Option and (iii) no Incentive Stock Option granted to an Optionee who at the time the Option is granted owns stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of a Participating Company within the meaning of section 422(b)(6) of the Code (a **Ten Percent Owner Optionee**) shall have an option exercise price per share less than one hundred ten percent (110%) of the fair market value, as determined by the Board, of a share of Stock on the date of the granting of the Option. Notwithstanding the foregoing, an Option (whether an Incentive Stock Option or a nonqualified stock option) may be granted with an option exercise price lower than the minimum exercise price set forth above if such Option is granted pursuant to an assumption or substitution for another option in a manner qualifying with the provisions of section 424(a) of the Code.

(b) *Exercise Period of Options.* The Board shall have the power to set the time or times within which each Option shall be exercisable or the event or events upon the occurrence of which all or a portion of each Option shall be exercisable, including vesting requirements and/or performance criteria with respect to the Company and/or the Optionee, and the term of each Option; provided, however, that (i) no Option shall be exercisable after the expiration of ten (10) years after the date such Option is granted, and (ii) no Incentive Stock Option granted to a Ten Percent Owner Optionee shall be exercisable after the expiration of five (5) years after the date such Option is granted. The Board shall have the discretion to determine whether and to what extent the vesting of Options shall be tolled during any unpaid leave of absence; provided, however,

that in the absence of such determination, vesting of Options shall be tolled after the thirtieth (30th) calendar day of any such unpaid leave (unless otherwise required by the Applicable Laws). In the event of military leave, vesting shall toll during any unpaid portion of such leave, provided that, upon a Participant's returning from military leave (under conditions that would entitle him or her to protection upon such return under the Uniform Services Employment and Reemployment Rights Act), he or she shall be given vesting credit with respect to Options to the same extent as would have applied had the Optionee continued to provide services to the Company throughout the leave on the same terms as he or she was providing services immediately prior to such leave.

A-2

(c) *Payment of Option Exercise Price.* Payment of the Option exercise price for the number of shares of Stock being purchased pursuant to any Option shall be made (i) in cash, by check, or cash equivalent; (ii) by tender to the Company of shares of the Company's stock owned by the Optionee having a value, as determined by the Board (but without regard to any restrictions on transferability applicable to such stock by reason of federal or state securities laws or agreements with an underwriter for the Company) not less than the aggregate exercise price of the Option shares being exercised, provided that in the case of Shares acquired, directly or indirectly, from the Company, such Shares must have been owned by the Optionee for more than six months on the date of tender (or such other period as may be required to avoid the Company's incurring an adverse accounting charge); (iii) by the assignment of the proceeds of a sale of some or all of the shares being acquired upon the exercise of the Option (including, without limitation, through an exercise complying with the provisions of Regulation T as promulgated from time to time by the Board of Governors of the Federal Reserve System); (iv) any other method permissible under the Applicable Laws, or (v) by any combination of the foregoing methods. The Board may at any time or from time to time, by adoption of or by amendment to either of the standard forms of stock option agreement described in Section 7 below, or by other means, grant Options which do not permit all of the foregoing forms of consideration to be used in payment of the Option exercise price and/or which otherwise restrict one (1) or more forms of consideration. The Company reserves, at any and all times, the right, in the Company's sole and absolute discretion, to establish, decline to approve and/or terminate any program and/or procedures for the exercise of Options by means of an assignment of the proceeds of a sale of some or all of the shares of Stock to be acquired upon such exercise, and the Company may, in its sole discretion, refuse to accept a particular form of consideration at the time of any Option exercise if the Board determines that acceptance of such form is not in the best interests of the Company or its stockholders at such time.

(d) *\$100,000 Limitation Applicable to Incentive Stock Options.* Notwithstanding any designation by the Board of an Option as an Incentive Stock Option, to the extent that the aggregate fair market value of shares with respect to which Options designated as Incentive Stock Options are exercisable for the first time by any Optionee during any calendar year (under all plans of the Company or any Parent or Subsidiary) exceeds \$100,000, such excess Options shall be treated as nonstatutory stock options. For purposes of this paragraph, Incentive Stock Options shall be taken into account in the order in which they were granted, and the fair market value of the shares subject to an Incentive Stock Option shall be determined as of the date of the grant of such Option.

(e) *Withholding Taxes.* As a condition of the grant, vesting or exercise of an option, the optionee (or in the case of the optionee's death, the person succeeding to the optionee's rights under the option) shall make such arrangements as the administrator may require for the satisfaction of any applicable federal, state, local or foreign withholding tax obligations that may arise in connection with such grant, vesting or exercise of the option and the issuance of shares thereunder. The Company shall not be required to issue any shares under the Plan until such obligations are satisfied. If the Compensation Committee allows the withholding or surrender of shares of Company stock to satisfy an optionee's tax withholding obligations under this paragraph, the administrator shall not allow shares to be withheld in an amount that exceeds the minimum statutory withholding rates for federal and state tax purposes, including payroll taxes.

7. Standard Forms of Stock Option Agreement. The Board shall set forth the terms of each Option in a written document (the "Stock Option Agreement"), at the time an Option is granted or as otherwise provided for by this Section 7, the form(s) of which shall be approved from time to time by the Board, including any documents attached to or incorporated into such Option agreement, including, but not limited to, a notice of stock option grant and a form of exercise notice.

(a) *Incentive Stock Options.* Unless otherwise provided for by the Board at the time an Option is granted, an Option designated as an Incentive Stock Option shall comply with and be subject to the terms and conditions set forth in the form of incentive stock option agreement and the Applicable Laws.

(b) *Nonqualified Stock Options.* Unless otherwise provided for by the Board at the time an Option is granted, an Option designated as a Nonqualified Stock Option shall comply with and be subject to the terms and conditions set forth in the form of nonqualified stock option agreement and the Applicable Laws.

(c) *Termination of Options.* The Board shall provide in the applicable form of Option agreement for the treatment of an Option upon termination of the Optionee's service relationship to the Participating Company

in compliance with the Applicable Laws. Notwithstanding the above, unless the Board otherwise provides in the applicable Stock Option Agreement, each Option shall terminate as to those shares in which the Optionee is invested as of the date of termination of his or her service relationship effective immediately upon such date of termination. Similarly, if the Optionee (or other person entitled to exercise the Option) does not exercise the Option to the extent entitled within the time period specified in the option agreement, the Option shall terminate even as to vested shares effective upon the expiration of such period.

8. *Authority to Vary Terms.* The Board shall have the authority from time to time to vary the terms of the forms of Stock Option Agreement either in connection with the grant of an individual Option or in connection with the authorization of a new standard form or forms; provided, however, that the terms and conditions of such revised or amended standard form or forms of Stock Option Agreement shall be in accordance with the terms of the 2002 Plan and the Applicable Laws. Such authority shall include, but not by way of limitation, the authority to grant Options which are immediately exercisable subject to the Company's right to repurchase any unvested shares of Stock acquired by an Optionee on exercise of an Option in the event such Optionee's employment with the Participating Company Group is terminated for any reason, with or without cause.

9. *Effect of Change in Stock Subject to the 2002 Plan.* Subject to any action required under the Applicable Laws by the stockholders of the Company, the number of shares of Stock covered by each outstanding Option, the numbers of Shares set forth in Section 4(b) above, and the number of Shares of Stock that have been authorized for issuance under the 2002 Plan but as to which no Option have yet been granted or that have been returned to the 2002 Plan upon cancellation or expiration of an award, as well as the exercise price per share of outstanding Options, shall be proportionately adjusted for any increase or decrease in the number of issued shares of Stock resulting from a stock split, reverse stock split, stock dividend, combination, recapitalization or reclassification of the Common Stock, or any other increase or decrease in the number of issued shares of Stock effected without receipt of consideration by the Company; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been effected without receipt of consideration. Such adjustment shall be made by the Board, whose determination in that respect shall be final, binding and conclusive. Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares of Stock subject to an Option.

10. *Transfer of Control; Liquidation.* A **Transfer of Control** shall be deemed to have occurred in the event of (a) a sale of all or substantially all of the Company's assets, (b) a merger, consolidation or other capital reorganization or transaction of the Company with or into another corporation, entity or person.

In the event of a Transfer of Control, the Board, in its sole discretion, may arrange with the surviving, continuing, successor, or purchasing corporation or parent corporation thereof, as the case may be (the **Acquiring Corporation**), for the Acquiring Corporation to either assume the Company's rights and obligations under outstanding Options or substitute options for the Acquiring Corporation's stock for such outstanding Options. Any Options which are neither assumed, substituted for by the Acquiring Corporation in connection with the Transfer of Control, nor exercised as of the date of the Transfer of Control, shall terminate and cease to be outstanding effective as of the date of the Transfer of Control. In the event of a liquidation or dissolution of the Company, each Option will terminate immediately prior to the consummation of such action, unless otherwise determined by the Board in its sole discretion.

11. *Provision of Information.* The Company shall comply with any requirements of the Applicable Laws relating to provision of financial or other information about the Company to 2002 Plan participants.

12. *Transferability of Options.* During the lifetime of the Optionee, the Option shall be exercisable only by the Optionee. No Incentive Stock Option shall be assignable or transferable by the Optionee, except by will or by the laws of descent and distribution. Subject to the Applicable Laws, the Board may in its sole discretion, and to the extent reflected in the applicable form of stock option agreement, grant transferable nonstatutory stock options.

13. *Termination or Amendment of the 2002 Plan.* The Board may terminate or amend the 2002 Plan or one or more outstanding Options at any time; provided, however, that without the approval of the Company's stockholders, there shall be (a) no increase in the total number of shares of Stock covered by the 2002 Plan (except by operation of the provisions of Section 9 above), (b) no change in the class of persons eligible to receive Incentive

Stock Options and (c) no expansion in the class of persons eligible to receive nonqualified stock options. In any event, no amendment may adversely affect any then outstanding Option or any unexercised portion thereof, without the consent of the Optionee, unless such amendment is required to enable an Option designated as an Incentive Stock Option to qualify as an Incentive Stock Option.

14. *Conditions Upon Issuance of Shares.* Notwithstanding any other provision of the 2002 Plan or any stock option agreement entered into by the Company pursuant to the 2002 Plan, the Company shall not be obligated, and shall have no liability for failure, to issue or deliver any shares under the 2002 Plan unless such issuance or delivery would comply with the Applicable Laws, with such compliance determined by the Company in consultation with its legal counsel. As a condition to the exercise of an Option, the Company may require the person exercising the award to represent and warrant at the time of any such exercise that the shares are being purchased only for investment and without any present intention to sell or distribute such shares if, in the opinion of counsel for the Company, such a representation is required by law or in the best interests of the Company.

15. *Definitions.* The following definitions apply to terms used in the 2002 Plan:

- (a) *Applicable Laws* means the legal requirements relating to the administration of stock option plans, including under applicable U.S. state corporate laws, U.S. federal and applicable state securities laws, other U.S. federal and state laws, the Code, any Stock Exchange rules or regulations and the applicable laws, rules and regulations of any other country or jurisdiction where Options are granted under the 2002 Plan, as such laws, rules, regulations and requirements shall be in place from time to time.
