**Report of Independent Registered Public Accounting Firm**

Foot Locker 401(k) Plan Administrator:

We have audited the accompanying statements of net assets available for benefits of the Foot Locker 401(k) Plan (the Plan ) as of December 31, 2004 and 2003, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental Schedule H, line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**FOOT LOCKER 401(k) PLAN**

Notes to Financial Statements  
December 31, 2004 and 2003

**(1) Description of Plan**

The following description of the Foot Locker 401(k) Plan (the *Plan*) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Board of Directors of Foot Locker, Inc. (the *Company*) appointed Matrix Capital Trust Services as the trustee of the Plan. Merrill Lynch is the investment advisor, BISYS is the recordkeeper and OppenheimerFunds provides investment management services to the Plan.

**(a) General**

The Plan is a defined contribution plan covering generally all U.S. employees of the Company and its affiliates that adopt the Plan, with the exception of the employees whose primary place of employment is in Puerto Rico. Eligible employees are those who have attained age twenty-one and completed one year of service consisting of at least 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (*ERISA*). The Plan became effective as of January 1, 1996.

**(b) Contributions**

The Plan provides for automatic revocable enrollment in the Plan at a contribution rate of 2% of pre-tax annual compensation for participants who meet the eligibility requirements. The maximum allowable salary reduction contribution by a participant is 25% of pre-tax annual compensation, as defined in the Plan document. Participants may elect to change their contribution rate and salary reduction agreement as often as daily. In accordance with the Tax Reform Act of 1986, the maximum amount that a participant may contribute under the Plan is \$13,000 for 2004 and \$12,000 for 2003. Participants may also roll over certain amounts representing distributions from other qualified retirement plans prior to becoming eligible to participate in the Plan. However, additional contributions cannot be made until the completion of one year of service. For any participant who (i) has completed 1,000 hours of service during the Plan year and is actively employed by the Company on the last day of the Plan year or (ii) during the Plan year, has died, has become disabled or retired on or after normal retirement age, the Company also contributes 25% of such participant's pre-tax contributions to the Plan up to the first 4% of the participant's compensation earned during the Plan year. Matching contributions, at the Company's option, are made either in shares of the Company's common stock (*Foot Locker Shares*) or in cash to be invested in Foot Locker Shares, to be held in the Foot Locker Stock Fund. Matching contributions for 2004 and 2003 were made entirely in Foot Locker Shares and were recorded at fair market value on the date of the Plan's year-end. Additional contributions may be made at the discretion of the Company and are subject to certain limitations. No additional contributions were made for 2004 and 2003. Participants who have attained the age of 50 may make catch-up contributions of up to \$3,000 in 2004 and up to \$2,000 in 2003, as defined by the Plan. These contributions are not eligible for matching contributions by the Company. In March 2005 and 2004, the Plan reimbursed certain participants for excess amounts contributed to the Plan during 2004 and 2003, respectively.

**FOOT LOCKER 401(k) PLAN**

Notes to Financial Statements  
December 31, 2004 and 2003

**(c) Participant Accounts**

Each participant's account is credited with (a) the participant's contributions and allocations of the Company's matching contribution and (b) Plan net earnings, and reduced by (c) Plan net losses (including maintenance fees paid by the participant) and (d) loan initiation fees, when applicable. Allocations are based on participant's salary deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

**(d) Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's regular and discretionary matching contributions and earnings thereon is over a five-year period; a participant vests 20% per year beginning after the first year of vesting service and is fully vested after five years of vesting service.

**(e) Investment Options**

Participants may change their investment options daily. Each participant may direct his or her contributions to the following funds in 1% increments:

Oppenheimer Champion Income Fund Participant's assets are invested in a mutual fund with a portfolio of high-yield, lower-rated fixed-income securities as a primary goal. The fund secondarily seeks capital growth when consistent with its primary objective. Securities include lower-grade bonds and notes of corporate issuers, foreign corporate and government bonds and structured notes. The fund is designed to seek high current income and capital growth.

Oppenheimer Quest Balanced Fund Participant's assets are invested in a mutual fund that mainly invests in undervalued U.S. common stocks, preferred stocks and securities convertible into common stock issued by U.S. Corporations, corporate and government bonds, notes and other debt securities for investment income, which can be below investment grade. The fund's primary objective is to seek capital growth and investment income.

Oppenheimer Quest Opportunity Value Fund Participant's assets are invested in a mutual fund with a diversified portfolio of stocks, bonds and cash equivalents, although it focuses primarily on stocks. The fund's design is similar to the Quest Balanced Fund. The fund is designed to seek growth of capital.

Oppenheimer Capital Appreciation Fund Participant's assets are invested in a mutual fund with a portfolio of common stock of growth companies. Growth companies may be newer companies or established companies of any capitalization range, which may appreciate in value over the long-term. The fund is designed to seek capital appreciation.

**(f) Participant Loans**

Participants may borrow from their fund accounts once each year a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their total vested account balance (excluding matching contributions). At any time only one loan may be outstanding per participant. Loan transactions are treated as transfers between the investment funds and the participant loans fund. Loan terms range up to 5 years, or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a rate of interest equal to the prime rate on the date of the loan distribution. Principal and interest is paid ratably through regular payroll deductions. Participant loans totaling \$1,435,353 were outstanding at December 31, 2004, bearing interest rates ranging from 4.00% to 8.50%.

**(g) Payment of Benefits**

Participants are eligible for a distribution upon termination of service, death, disability or retirement. A participant will receive a lump-sum amount equal to the fair market value of the participant's vested interest in his or her account. A participant may elect to have any investment in the Foot Locker Stock Fund and vested Company matching contributions distributed in either cash or Foot Locker Shares.

Participants are eligible for a distribution due to financial hardship under certain conditions. The amount of a hardship withdrawal may not exceed the cost associated with the financial hardship in addition to any mandatory federal income tax withholding, state and local income taxes or penalties incurred.

**(h) Expenses of Administering the Plan**

To the extent expenses of administering the Plan are not paid using forfeitures, the expenses are paid by the Company and therefore are not included in the accompanying financial statements.

**(i) Forfeitures**

Forfeitures are allocated as of the last day of the Plan year. Forfeitures are used to pay for administrative expenses of the Plan and then to reduce future matching contributions. In 2004 and 2003 all administrative expenses were paid from forfeited non-vested accounts. At December 31, 2004 and 2003, forfeited non-vested accounts totaled \$323,502 and \$205,983, respectively, which will be used to pay future administrative expenses of the Plan.

**(2) Summary of Accounting Principles**

**(a) Basis of Accounting**

The financial statements of the Plan are prepared using the accrual method of accounting.

**FOOT LOCKER 401(k) PLAN**

Notes to Financial Statements  
December 31, 2004 and 2003

**(2), Continued**

**(b) *Use of Estimates***

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**(c) *Investment Valuation and Income Recognition***

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Foot Locker Shares are valued at the quoted market price as determined by the Foot Locker Stock Fund. Participant loans are valued at their outstanding cost balances, which approximates fair value. Loan interest income is allocated to the investment fund from which the amount is borrowed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**(d) *Payment of Benefits***

Benefits are recorded when paid.

**(3) Plan Amendment**

In May 2004, the Company purchased approximately 350 Footaction stores from Footstar, Inc. Effective May 7, 2004, the Plan was amended to allow each Footaction employee who was eligible to participate under the Footstar 401(k) Plan (the "Footstar Plan") on May 1, 2004 to immediately become a participant of the Plan. Hours of service were credited with regard to the Footaction employee's prior hours of service with Footstar, Inc.

**(4) Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

**(5) Tax Status**

The Company received a favorable determination letter from the Internal Revenue Service with respect to the qualification of the Plan dated October 15, 2002. The Company believes that the Plan currently is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

**FOOT LOCKER 401(k) PLAN**

Notes to Financial Statements  
December 31, 2004 and 2003

**(6) Concentrations of Risks and Uncertainties**

The Plan offers a number of investment options including the Foot Locker Shares. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of the Foot Locker Stock Fund, which invests in the securities of a single issuer.

**(7) Investments**

The following investments represent five percent or more of the Plan's net assets at December 31, 2004 and 2003:

	December 31,

Notes to Financial Statements  
December 31, 2004 and 2003

**(8) Related Party Transactions**

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. Certain Plan investments are shares of various mutual funds which are owned and managed by Oppenheimer Funds, who has been designated as the investment manager. The Plan invests in common stock of the Company and issues loans to participants, which are secured by the balances in the participants' accounts. The Cash Management Trust primarily consists of a cash account that is used to facilitate the Trustee in purchasing shares of the Company's common stock. These transactions qualify as party-in-interest transactions.
