Note 1. Organization and Interim Financial Statements

Prospect Energy Corporation (the "Prospect Energy" or the "Company"), a Maryland corporation, was organized on April 13, 2004 and is a closed-end investment company that has filed an election to be treated as a business development company under the Investment Company Act of 1940 (the "1940 Act"). On July 27, 2004, the Company completed its initial public offering and sold 7,000,000 shares of common stock at a price of \$15.00 per share, less underwriting discounts and commissions totaling \$1.05 per share. On August 27, 2004, an additional 55,000 shares were issued for a price of \$15.00 per share, less underwriting discounts and commissions of \$1.05 per share in connection with the exercise of an over-allotment option with respect to the offering.

Prospect Energy focuses primarily on investments in energy companies and will invest, under normal circumstances, at least 80.0% of its net assets (including the amount of any borrowings for investment purposes) in these companies. At March 31, 2006, 89.5% of its net assets were invested in energy companies with the remainder invested in U.S. government and money market securities. Prospect Energy is a non-diversified company within the meaning of the 1940 Act. Prospect Energy concentrates on making investments in energy companies having annual revenues of less than \$250.0 million and in transaction sizes of less than \$100.0 million. In most cases, these companies are privately held or have thinly traded public equity.

The accompanying financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-Q. Accordingly, certain information and footnote disclosures normally included in audited financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the audited financial statements that were included in the Company's Form 10-K for the year ended June 30, 2005.

In the opinion of management, all adjustments (consisting primarily of normal recurring adjustments) have been made that are necessary to present fairly the financial position of the Company. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for a full year.

Note 2. Significant Accounting Policies

The preparation of financial statements in conformity with Generally Accepted Accounting Principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported period. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

The following are significant accounting policies consistently applied by Prospect Energy:

Investments:

(a) Security transactions are recorded on a trade-date basis.

(b) Valuation:

(1) Investments for which market quotations are readily available are valued at such market quotations.

(2) Short-term investments which mature in 60 days or less, such as U.S. Treasury bills, are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between the principal amount due at maturity and cost. Short-term securities which mature in more than 60 days are valued at current market quotations by an independent pricing service or at the

mean between the bid and ask prices obtained from at least two brokers or dealers (if available, or otherwise by a principal market maker or a primary market dealer). Investments in money market mutual funds are valued at their net asset value as of the close of business on the day of valuation.

(3) It is expected that most of the investments in the Company's portfolio will not have readily available market values. Debt and equity securities whose market prices are not readily available are valued at fair value, with the assistance of an independent valuation service, using a valuation policy and a consistently applied valuation process which is under the direction of our board of directors.

The factors that may be taken into account in fairly valuing investments include, as relevant, the portfolio company's ability to make payments, its estimated earnings and projected discounted cash flows, the nature and realizable value of any collateral, the financial environment in which the portfolio company operates, comparisons to securities of similar publicly traded companies and other relevant factors. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of these investments may differ significantly from the values that would have been used had a ready market existed for such investments, and any such differences could be material.

As part of the fair valuation process, the Audit Committee reviews the preliminary evaluations prepared by the independent valuation firm engaged by the Board of Directors, as well as management's valuation recommendations. Management and the independent valuation firm respond to the preliminary evaluation to reflect comments provided by the Audit Committee. The Audit Committee reviews the final valuation report and management's valuation recommendations and makes a recommendation to the Board of Directors based on its analysis of the methodologies employed and the various weights that should be accorded to each portion of the valuation as well as factors that the independent valuation firm and management may not have included in their evaluation processes. The Board of Directors then evaluates the Audit Committee recommendations and undertakes a similar analysis to determine the fair value of each investment in the portfolio in good faith.

(c) Realized gains or losses on the sale of investments are calculated using the specific identification method.

(d) Interest income, adjusted for amortization of premium and accretion of discount, is recorded on an accrual basis.

(e) Dividend income is recorded on the ex-dividend date.

(f) Loan origination, facility, commitment, consent and other advance fees received by us on loan agreements or other investments are accreted into income over the term of the loan.

Federal and State Income Taxes:

Prospect Energy has elected to be treated as a regulated investment company and intends to continue to comply with the requirements of the Internal Revenue Code of 1986 (the "Code"), applicable to regulated investment companies. Prospect Energy is required to distribute at least 90% of its investment company taxable income and currently intends to distribute or retain through a deemed distribution all of its investment company taxable income and net capital gain to shareholders; therefore, we have made no provision for income taxes.

The character of income and gains that we will distribute is determined in accordance with income tax regulations that may differ from GAAP.

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount, if any, to be paid as a dividend is approved by the board of directors each quarter and is generally based upon management's estimate of our earnings for the quarter. Net realized capital gains, if any, are distributed at least annually.

Consolidation:

As an investment company, Prospect Energy only consolidates subsidiaries which are also investment companies. At March 31, 2006, Prospect Energy did not have any consolidated subsidiaries.

Guarantees and Indemnification Agreements:

The Company follows FASB Interpretation Number 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others." (FIN 45). FIN 45 elaborates on the disclosure requirements of a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also requires a guarantor to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing certain guarantees. FIN 45 did not have a material effect on the financial statements. Refer to Note 3 for further discussion of guarantees and indemnification agreements.

Note 3. Portfolio Investments

As required by the 1940 Act, we classify our investments by level of control. As defined in the 1940 Act, control investments are those where there is the ability or power to exercise a controlling influence over the management or policies of a company. Control is generally viewed to exist when a company or individual owns 25% or more of the voting securities of an investee company. Affiliated investments and affiliated companies are defined by a lesser degree of influence and are deemed to exist through ownership of an amount greater than 5% but less than 25% of the voting securities of the investee company. The Company owns 100% of the outstanding common equity shares of Gas Solutions Holdings, Inc. (GSHI) and therefore, has a controlling interest. Additionally, the company has acquired a 51% controlling interest in Worcester Energy Company, Inc. The company has no other controlled or affiliated investments.

GSHI has indemnified Prospect Energy against any legal action arising from its investment in Gas Solutions, LP. Prospect Energy has incurred approximately \$0.090 million, \$0.733 million and \$0.760 million in fees associated with this legal action for the three months ended March 31, 2006, for the nine months ended March 31, 2006 and for the twelve months ended June 30, 2005, respectively. GSHI has reimbursed Prospect Energy \$1.173 million as of March 31, 2006. Prospect Energy has no receivable from GSHI and \$0.201 million as of March 31, 2006 and June 30, 2005, respectively. The \$1.173 million reimbursement is reflected as dividend income, controlled entities on the accompanying statement of operations for the three months ended March 31, 2006, for the nine months ended March 31, 2006 and the twelve months ended June 30, 2005, respectively.

The Company provided a limited indemnity to Citibank Texas, N.A. related to Citibank's term loan to GSHI. The limited indemnity requires us to indemnify Citibank for up to \$12.0 million if it realizes losses on the term loan resulting only from potential legal claims that might or could be asserted by certain third parties. This limited indemnity was backed by segregated funds in Prospect Energy's account valued at \$12.9 million. During the quarter ended December 31, 2005 and June 30, 2005, \$9.6 million and \$3.3 million of previously segregated funds were released to the Company, respectively. These reductions reflected a waiver of the segregated funds requirement due to the developments related to legal claims and prior payments by GSHI to Citibank Texas, N.A., respectively.

On December 6, 2004, DGP served Prospect Energy with a complaint filed November 30, 2004 in the U.S. District for the Southern District of Texas, Galveston Division. DGP alleges that DGP was defrauded and that Prospect Energy breached its fiduciary duty to DGP and tortiously interfered with DGP's contract to purchase Gas Solutions, Ltd. (a subsidiary of our portfolio company, GSHI) in connection with Prospect Energy's alleged agreement in September 2004 to loan DGP funds with which DGP intended to buy Gas Solutions, Ltd. for approximately \$26 million. The complaint seeks relief not limited to \$100 million. We believe that the DGP complaint is frivolous and without merit, and intend to defend the matter vigorously. On November 30, 2005, U.S. Magistrate Judge John R. Froeschner of the U.S. District Court for the Southern District of Texas, Galveston Division, issued a recommendation that the court grant Prospect Energy's Motion for Summary Judgment dismissing all claims by DGP. On February 21, 2006 the U.S. District Judge Samuel Kent of the U.S. District Court

for the Southern District of Texas, Galveston Division issued an order granting Prospect Energy's Motion for Summary Judgment dismissing all claims by Dallas Gas Partners, L.P., against Prospect Energy Corporation. DGP has appealed this decision.

Note 4. Organizational and Offering Expenses

A portion of the net proceeds of our initial public offering and the subsequent exercise of the over-allotment option was used for organizational and offering expenses of \$0.125 million and \$1.386 million, respectively. Organizational expenses were expensed as incurred. Offering expenses were charged against paid-in capital in excess of par. All organizational and offering expenses were borne by Prospect Energy.

Note 5. Related Party Agreements and Transactions

Investment Advisory Agreement

Prospect Energy has entered into an Investment Advisory Agreement with Prospect Capital Management LLC (the "Investment Adviser") under which the Investment Adviser, subject to the overall supervision of Prospect Energy's board of directors, will manage the day-to-day operations of, and provide investment advisory services to, Prospect Energy. For providing these services the Investment Adviser will receive a fee from Prospect Energy, consisting of two components--a base management fee and an incentive fee. The base management fee will be calculated at an annual rate of 2.00% on Prospect Energy's gross assets (including amounts borrowed). The base management fee is payable quarterly in arrears based on the average value of Prospect Energy's gross assets at the end of the two most recently completed calendar quarters and appropriately adjusted for any share issuances or repurchases during the current calendar quarter. Base management fees for any partial month or quarter are appropriately pro rated.

The incentive fee has two parts. The first part, the income incentive fee, is calculated and payable quarterly in arrears based on Prospect Energy's pre-incentive fee net investment income for the immediately preceding calendar quarter. For this purpose, pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees (other than fees for providing managerial assistance), such as commitment, origination, structuring, diligence and consulting fees and other fees that Prospect Energy receives from portfolio companies) accrued during the calendar quarter, minus Prospect Energy's operating expenses for the quarter (including the base management fee, expenses payable under the Administration Agreement described below, and any interest expense and dividends paid on any issued and outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature (such as original issue discount, debt instruments with payment in kind interest and zero coupon securities), accrued income that we have not yet received in cash. Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Pre-incentive fee net investment income, expressed as a rate of return on the value of Prospect Energy's net assets at the end of the immediately preceding calendar quarter, is compared to a "hurdle rate" of 1.75% per quarter (7% annualized). However, our Investment Adviser has voluntarily agreed that for each fiscal quarter after January 1, 2005, the quarterly hurdle rate will be equal to the greater of (a) 1.75% and (b) a percentage equal to the sum of the daily average of the "quoted treasury rate" for each month in the immediately preceding two quarters plus 0.50%. "Quoted treasury rate" means the yield to maturity (calculated on a semi-annual bond equivalent basis) at the time of computation for Five Year U.S. Treasury notes with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H). These calculations will be appropriately pro rated for any period of less than three months and adjusted for any share issuances or repurchases during the current quarter. The voluntary agreement by the Investment Adviser that the hurdle rate be fluctuating for each fiscal quarter after January 1, 2005 (as discussed above) may be terminated by the Investment Adviser at any time upon 90 days' prior notice. The net investment income used to calculate this part of the incentive fee is also included in the amount of the gross assets used to calculate the 2% base management fee. Prospect Energy pays the Investment Adviser an income incentive fee with respect to Prospect Energy's pre-incentive fee net investment income in each calendar quarter as follows: (1) no incentive fee in any calendar quarter in which Prospect Energy's pre-incentive fee net investment income does not exceed the hurdle rate; (2) 100% of Prospect Energy's pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 125% of the quarterly hurdle rate in any calendar quarter (8.75% annualized assuming a 7% annualized hurdle rate); and (3) 20% of the amount of Prospect Energy's pre-incentive fee net investment income, if any, that exceeds 125% of

the quarterly hurdle rate in any calendar quarter (8.75% annualized assuming a 7% annualized hurdle rate). These calculations are appropriately pro rated for any period of less than three months and adjusted for any share issuances or repurchases during the current quarter. The investment adviser also has voluntarily agreed to cause 30% of any incentive fee that it is paid and that is not otherwise held in escrow to be invested in shares of our common stock through an independent trustee.

The second part of the incentive fee, the capital gains incentive fee, is determined and payable in arrears as of the end of each calendar year (or upon termination of the Investment Advisory Agreement, as of the termination date), and equals 20.0% of Prospect Energy's realized capital gains for the calendar year, if any, computed net of all realized capital losses and unrealized capital depreciation at the end of such year. In determining the capital gains incentive fee payable to the Investment Adviser, Prospect Energy calculates the aggregate realized capital gains, aggregate realized capital losses and aggregate unrealized capital depreciation, as applicable, with respect to each of the investments in its portfolio. For this purpose, aggregate realized capital gains, if any, equals the sum of the differences between the net sales price of each investment, when sold, and the original cost of such investment since inception. Aggregate realized capital losses equal the sum of the amounts by which the net sales price of each investment, when sold, is less the original cost of such investment since inception. Aggregate unrealized capital depreciation equals the sum of the difference, if negative, between the valuation of each investment as of the applicable date and the original cost of such investment. At the end of the applicable period, the amount of capital gains that serves as the basis for Prospect Energy's calculation of the capital gains incentive fee equals the aggregate realized capital gains less aggregate realized capital losses and less aggregate unrealized capital depreciation with respect to its portfolio of investments. If this number is positive at the end of such period, then the capital gains incentive fee for such period is equal to 20% of such amount, less the aggregate amount of any capital gains incentive fees paid in respect of its portfolio in all prior periods.

The Investment Advisory fees were \$0.521 million, \$0.485 million, \$1.554 million, \$1.317 million and \$1.808 million for the three months ended March 31, 2006, for the three months ended March 31, 2005, for the nine months ended March 31, 2006, for the nine months ended March 31, 2005 and for the twelve months ended June 30, 2005, respectively. The Income Incentive fees were \$0.533 million, none, \$1.041 million, none and none for the three months ended March 31, 2006, for the three months ended March 31, 2005, for the nine months ended March 31, 2006, for the nine months ended March 31, 2005 and for the twelve months ended June 30, 2005, respectively. . At March 31, 2006 the Company owed the Investment Adviser \$0.533 million in income incentive fees. Also, the Company was owed \$0.005 million for legal costs and miscellaneous expenses that it paid on behalf of the Investment Adviser.

Administration Agreement

Prospect Energy has also entered into an Administration Agreement with Prospect Administration, LLC (□Prospect Administration□) under which Prospect Administration, among other things, provides administrative services and facilities for Prospect Energy. Prospect Administration has engaged Vastardis Fund Services LLC (formerly, EOS Fund Services LLC) to serve as sub-administrator of Prospect Energy. For providing these services, Prospect Energy reimburses Prospect Administration for Prospect Energy's allocable portion of overhead incurred by Prospect Administration in performing its obligations under the Administration Agreement, including rent, the fees of the sub-administrator for services provided with respect to Prospect Energy and Prospect Energy's allocable portion of the compensation of its chief compliance officer and chief financial officer and their respective staffs. Prospect Administration also provides on Prospect Energy's behalf managerial assistance to those portfolio companies to which Prospect Energy is required to provide such assistance. Prospect Administration is a wholly owned subsidiary of the Investment Adviser.

The Company reimbursed Prospect Administration \$0.082 million, \$0.126 million, \$0.225 million, \$0.295 million and \$0.266 million for the three months ended March 31, 2006, for the three months ended March 31, 2005, for the nine months ended March 31, 2006, for the nine months ended March 31, 2005 and for the twelve months ended June 30, 2005, respectively, for services it provided to Prospect Energy at cost. The Company also reimbursed Prospect Administration for certain expenses which Prospect Administration initially funded on behalf of the Company. At March 31, 2006, the Company was owed \$0.028 million for tax compliance fees and miscellaneous expenses that it paid on behalf of Prospect Administration.

Managerial Assistance

As a business development company, we offer, and must provide upon request, managerial assistance to certain of our portfolio companies. This assistance could involve, among other things, monitoring the operations of our portfolio companies, participating in board and management meetings, consulting with and advising officers of portfolio companies and providing other organizational and financial guidance. The company received \$0.071 million, \$0.148 and \$0.077 million for the three months ended March 31, 2006, the nine months ended March 31, 2006, and for the twelve months ended June 30, 2005, respectively, of these assistance fees from GSHI. These fees are paid to the Investment Adviser.

Note 6. Financial Highlights

The following is a schedule of financial highlights for the three and nine months ended March 31, 2006 and for the twelve months ended June 30, 2005:

	For the three months ended March 31, 2006	For the three months ended March 31, 2005	For the nine months ended March 31, 2006	For the nine months ended March 31, 2005	For the twelve months ended June 30, 2005
Per share data (1):					
Net asset value at beginning of period	\$ 14.69	\$ 13.74	\$ 14.59	\$ (0.01)	\$ (0.01)
Proceeds from initial public offering				13.95	13.95
Costs related to the initial public offering			0.01	(0.21)	(0.21)
Share issuances related to dividend reinvestment	0.02		0.02		
Net investment income	0.30	0.06	0.79	0.17	0.34
Net unrealized appreciation	0.10	0.06	0.18	0.06	0.90
Dividends declared and paid	(0.30)	(0.12)	(0.78)	(0.22)	(0.38)
Net asset value at end of period	\$ 14.81	\$ 13.74	\$ 14.81	\$ 13.74	\$ 14.59
Per share market value at end of period					
	\$ 16.44	\$ 12.90	\$ 16.44	\$ 12.90	\$ 12.60
Total return based on market value (2)	11.08%	8.54%	37.35%	(12.46%)	(13.46%)
Total return based on net asset value (2)	3.00%	0.88%	7.13%	(6.88%)	7.40%
Shares outstanding at end of period	7,061,940	7,055,100	7,061,940	7,055,100	7,055,100
Ratio/supplemental data:					
Net assets at end of period (in thousands)	\$ 104,602	\$ 96,927	\$ 104,602	\$ 96,927	\$ 102,967
Annualized ratio of operating expenses to average net assets	7.27%	5.51%	6.96%	5.11%	5.52%
Annualized ratio of operating income to average net assets	8.13%	1.82%	7.12%	1.68%	8.50%

(1) Financial highlights as of March 31, 2006 and June 30, 2005 are based on 7,061,940 shares and 7,055,100 shares outstanding, respectively. Share issuances of 6,840 shares occurred on March 31, 2006.

- (2) Total return based on market value is based on the change in market price per share between the opening and ending market prices per share in each period and assumes that dividends are reinvested in accordance with Prospect Energy's dividend reinvestment plan. Total return based on net asset value is based upon the change in net asset value per share between the opening and ending net asset values per share in each period and assumes that dividends are reinvested in accordance with Prospect Energy's dividend reinvestment plan. The total return is not annualized.

Note 7. Litigation

The Company is a defendant in two legal actions arising out of its activities. While predicting the outcome of litigation is inherently very difficult, and the ultimate resolution, range of possible loss and possible impact on operating results cannot be reliably estimated, management believes, based upon its understanding of the facts and the advice of legal counsel, that it has meritorious defenses for both actions. We continue to defend both of these actions vigorously, and believe that resolution of these actions will not have a materially adverse effect on the Company's financial position.

On December 6, 2004, DGP served Prospect Energy with a complaint filed November 30, 2004 in the U.S. District for the Southern District of Texas, Galveston Division. DGP alleges that DGP was defrauded and that Prospect Energy breached its fiduciary duty to DGP and tortiously interfered with DGP's contract to purchase Gas Solutions, Ltd. (a subsidiary of our portfolio company, GSHI) in connection with Prospect Energy's alleged agreement in September 2004 to loan DGP funds with which DGP intended to buy Gas Solutions, Ltd. for approximately \$26 million. The complaint seeks relief not limited to \$100 million. We believe that the DGP complaint is frivolous and without merit, and intend to defend the matter vigorously. On November 30, 2005, U.S. Magistrate Judge John R. Froeschner of the U.S. District Court for the Southern District of Texas, Galveston Division, issued a recommendation that the court grant Prospect Energy's Motion for Summary Judgment dismissing all claims by DGP. On February 21, 2006 the U.S. District Judge Samuel Kent of the U.S. District Court for the Southern District of Texas, Galveston Division issued an order granting Prospect Energy's Motion for Summary Judgment dismissing all claims by Dallas Gas Partners, L.P., against Prospect Energy Corporation. DGP has appealed this decision.

On April 7, 2005 a former officer of the Company filed a complaint with the Occupational Safety and Health Administration of the Department of Labor (OSHA) alleging discrimination, retaliation, infliction of emotional distress and other claims. This officer seeks economic reinstatement and other relief. On September 15, 2005, OSHA issued findings, including an order dismissing this complaint. The complainant has filed written objections to the order and had a hearing before an Administrative Law Judge on March 16, 2006. On May 5, 2006, the Administrative Law Judge issued a Decision and Order granting Summary Decision and dismissing the Complaint. The Company does not believe that these claims, even if ultimately resolved against the Company, would be material. The Company believes the complaint is frivolous and without merit and intends to defend itself vigorously.

Note 8. Revolving Credit Agreement

On February 21, 2006, Prospect Energy entered into a \$20.0 million senior secured revolving credit facility (the Credit Facility) with Bank of Montreal as administrative agent and Harris Nesbitt Corp. as sole lead arranger and sole book runner. The Credit Facility supplements the Company's equity capital and provides funding for additional portfolio investments. All amounts borrowed under the Credit Facility will mature, and all accrued and unpaid interest thereunder will be due and payable within six months of the date of the borrowing; the Credit Facility has a termination date of August 21, 2006.

The Company had no borrowings outstanding as of March 31, 2006.

Note 9. Subsequent Events

On April 20, 2006, Prospect Energy conducted its first borrowing of \$13.0 million from its Credit Facility.

On April 20, 2006, Prospect Energy invested \$5.5 million in senior secured debt of Charlevoix Energy Trading, LLC, and received a net profit interest as part of the investment.

On April 24, 2006, Prospect Energy invested \$6.3 million and committed \$3.0 million for \$9.3 million total in senior secured debt of Iron Horse Coild Tubing, Inc., and also received equity as part of the investment.

On April 25, 2006, Prospect Energy invested \$8.0 million in senior secured debt of Central Illinois Energy, LLC.

On April 27, 2006, Prospect Energy conducted its second borrowing of \$3.5 million from its Credit Facility.

On May 9, 2006, Prospect Energy invested \$3.5 million in senior secured debt of Conquest Cherokee LLC, and also received an overriding royalty interest as part of the investment.

From April 1, 2006 to May 10, 2006, Prospect Energy invested an additional \$1.1 million in senior secured debt of Worcester Energy Company, Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This quarterly report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause the results of Prospect Energy Corporation to differ materially from those expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including any projections of revenue, expenses, earnings or losses from operations or investments, or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. The risks, uncertainties and assumptions referred to above include risks that are described from time to time in our Securities and Exchange Commission, or the "SEC", reports filed before this report.

The forward-looking statements included in this quarterly report represent our estimates as of the date of this quarterly report. We specifically disclaim any obligation to update these forward-looking statements in the future. Some of the statements in this quarterly report constitute forward-looking statements, which relate to future events or our future performance or financial condition. Such forward-looking statements contained in this quarterly report involve risks and uncertainties.

We use words such as "anticipates," "believes," "expects," "future," "intends" and similar expressions to identify forward-looking statements. Our actual results could differ materially from those projected in the forward-looking statements for any reason. We caution you that forward-looking statements of this type are subject to uncertainties and risks, many of which cannot be predicted or quantified.

The following analysis of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes thereto contained elsewhere in this Form 10-Q.

Overview

Prospect Energy was incorporated under the Maryland General Corporation Law in April 2004. We have elected to be treated as a business development company under the 1940 Act. Accordingly, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities of private or thinly traded public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We will typically invest under normal circumstances, at least 80.0% of net assets in energy companies.

We completed our initial public offering on July 27, 2004. As of March 31, 2006, we continue to pursue our investment strategy and 89.5% of our net assets are invested in energy companies, with the remainder invested in U.S. government and money market securities.

We invest in companies in the energy industry, most of which have relatively short or no operating histories. These companies are and will be subject to all of the business risk and uncertainties associated with any new business enterprise, including the risk that these companies may not reach their investment objective and the value of our investment in them may decline substantially or fall to zero.

Our portfolio generated an annualized current yield of 18.0 % and 21.8% as of March 31, 2006 and as of June 30, 2005, respectively, across all our long-term debt and equity investments. This yield includes interest from all of our long-term investments as well as dividends from GSHI and Unity Virginia Holdings. We expect this number to decline over time as we become fully invested. Monetization of, or dividends from, other equity positions that we hold is not included in this yield estimate.

Critical Accounting Policies

In determining the fair value of our portfolio investments at March 31, 2006, the Audit Committee considered valuations from the independent valuation firm and from management having an aggregate range of \$93.6 million to \$96.7 million.

Results of Operations

A comparison of the results to the quarter and nine months ended March 31, 2005 may not necessarily be meaningful as our portfolio was largely invested in cash equivalents from our initial IPO in July of 2004. Accordingly, references and comparisons are made against our previous quarter ended December 31, 2005 in addition to the quarter and nine months ended March 31, 2005.

Investment Activity

We completed our sixth full quarter of operations since completion of our initial public offering on July 30, 2004, with approximately 1.9% of our net assets invested in an obligation of the Federal Home Loan Bank; 89.5%, or about \$93.6 million, in ten long-term portfolio investments and 8.3% in two money market funds. The remaining 0.3% represents other assets in excess of liabilities.

Long-Term Portfolio Investments

On February 1, 2006, we converted the \$0.5 million of redeemable preferred equity in Unity Virginia Holdings, LLC to additional subordinated secured debt.

On February 9, 2006, we provided \$6.9 million of senior secured debt financing to Genesis Coal Corporation ("Genesis"), a coal production company based in Prestonsburg, Kentucky. Genesis is led by Jerry Tackett and David Stetson, who have significant experience in the Appalachian coal business. Genesis holds leases on approximately 4,700 mineral acres with approximately 10 million recoverable tons of low to medium sulfur coal reserves in Floyd County, Kentucky. The majority of this coal is located underground. Genesis has separate fixed-price multi-year contracts for a majority of its production with a major electric utility and a major coal producer and marketer. Our funding is being utilized to acquire non-management shareholder interests, to acquire additional mining equipment, and to increase production rates.

On February 15, 2006, we provided \$3.0 million of senior secured debt and a \$0.2 million preferred equity investment in Appalachian Energy Holdings, LLC. ("AEH"), an energy services company based in Charleston, West Virginia. AEH is led by R. William West, who has more than 30 years of experience in natural resource related construction, equipment fleet management, and services. AEH is an energy services business focused on acquiring and expanding small and medium-sized energy services companies in the fragmented Appalachian region. AEH provides services to customers in the coal, natural gas, and oil industries. Existing lines of business include tree clearance, road construction, excavation, drill site preparation, pipeline construction, and reclamation. Prospect's capital, along with external equity, is being used by AEH to acquire East Cumberland, LLC, and C&S Oilfield and Pipeline Construction, LLC.

During the three months ended March 31, 2006, we provided an additional \$2.8 million of senior secured debt to Worcester Energy Company, Inc. (WECO). WECO is using this as operational funding for ongoing activities. We

have retained a controlling interest in WECO as part of this additional funding.

GSHI owns and operates a major gas gathering and processing system in the East Texas Field in Gregg, Upshur, Rusk and Smith counties, Texas. This system consists of two processing facilities (the Longview Plant and the Chapel Hill Plant) and approximately 1,000 miles of associated gathering and transportation pipelines. GSHI controls the only independent gathering system in the East Texas Field serving all of the approximately 4,000 currently operating wells in the region. GSHI completed construction and started operation of the 22.5 mile Exxon Hawkins NGL Pipeline connecting the Exxon Hawkins gas plant to GSHI on June 6, 2005. Deliveries for 2005 averaged 650 barrels per day and are expected to exceed 1,000 barrels per day in 2006. The Agreement with Exxon Gas & Power Marketing Company ("Exxon") is effective as of June 30, 2004 and has a term of seven years with an annual renewal provision thereafter. Under the agreement, Exxon is to deliver a specified minimum number of barrels of natural gas liquids in the first five years and to pay a transportation, treating and fractionation fee which includes a capital recovery component. After five years or delivery of the specified minimum number of barrels, whichever comes first, the fee decreases to a base transportation, treating and fractionation rate for the remainder of the contract term. Total capital expenditures for 2005 were approximately \$3.5 million of which \$3.25 million was related to the construction of the Exxon Hawkins NGL Pipeline. GSHI continued to perform according to expectation and benefited from a strong commodity price environment, generating operating earnings of approximately \$13.1 million in 2005.

Prospect Energy's investment in GSHI is comprised of \$18.4 million in subordinated secured debt ("Subordinated Debt") and 100% common equity shares (\$12.3 million). The Subordinated Debt matures on December 22, 2011. The loan is paid in equal quarterly installments of \$876,190 beginning December 31, 2006 and bears interest at 18%. Interest paid in 2005 was \$3.312 million or \$828,000 quarterly. Amounts outstanding on the Subordinated Debt at December 31, 2005 were \$18.4 million. Additionally, on December 22, 2004, GSHI entered into a \$12.5 million senior secured term loan ("Senior Debt") with Citibank Texas, N.A. (formerly known as First American Bank, SSB). The Senior Debt matures on December 22, 2010. The loan is paid in equal quarterly installments of \$543,479 beginning on June 30, 2005 and bears interest at LIBOR plus 225 basis points. Interest paid on the Senior Debt in 2005 was \$682,875 and amounts outstanding at December 31, 2005 were \$10.869 million.

During the nine months ended March 31, 2006, we had one repayment of debt in entirety. On December 29, 2005, Miller Petroleum, Inc. repaid \$3.2 million that was originally due August 21, 2006. We have retained our equity interest in Miller Petroleum, Inc.

Investment Income

We generate revenue in the form of interest income on the debt securities that we own, dividend income on any common or preferred stock that we own, and capital gains or losses on any debt or equity securities that we acquire in portfolio companies and subsequently sell. Our investments, if in the form of debt securities, will typically have a term of one to ten years and bear interest at a fixed or floating rate. To the extent achievable, we will seek to collateralize our investments by obtaining security interests in our portfolio companies' assets. We also may acquire minority or majority equity interests in our portfolio companies, which may pay cash or in-kind dividends on a recurring or otherwise negotiated basis. In addition, we may generate revenue in other forms including commitment, origination, structuring or due diligence fees, and possibly consultation fees. Any such fees generated in connection with our investments are recognized as earned.

21

Investment income, which consists of interest income, dividend income, and origination fee accretion totaled \$4.0 million for the quarter ended March 31, 2006 compared to \$3.9 million for the quarter ended December 31, 2005 and \$1.8 million for the quarter ended March 31, 2005. As well, investment income totaled \$11.1 million for the nine month ended March 31, 2006 compared to \$5.0 million for the nine months ended March 31, 2005. The remaining investment income during the three months ended March 31, 2006 was generated primarily from investments in short-term Federal Home Loan Bank Discount Notes and cash equivalents.

Operating Expenses

Our primary operating expenses consist of investment advisory fees, legal and professional fees and other operating and overhead-related expenses. These expenses include our allocable portion of overhead under the Administration Agreement with Prospect Administration under which Prospect Administration provides administrative services and facilities for Prospect Energy. Our investment advisory fees compensate our

Investment Adviser for its work in identifying, evaluating, negotiating, closing and monitoring our investments. We bear all other costs and expenses of our operations and transactions in accordance with our Administration Agreement with Prospect Administration.

Operating expenses totaled \$1.9 million for the quarter ended March 31, 2006 as compared to \$1.9 million for the quarter ended December 31, 2005 and \$1.3 million for the quarter ended March 31, 2005. As well, operating expenses totaled \$5.5 million for the nine months ended March 31, 2006 compared to \$3.8 million for the nine months ended March 31, 2005. The base management fee totaled \$0.5 million for the quarter ended March 31, 2006 compared to \$0.5 million for the quarter ended December 31, 2005 and \$0.5 million for the quarter ended March 31, 2005. As well, the base management fee totaled \$1.6 million for the nine months ended March 31, 2006 compared to \$1.3 million for the nine months ended March 31, 2005. The current quarter is the second quarter where an income incentive fee has been earned by the Investment Adviser. The fee totaled \$0.5 million as compared to \$0.5 million in the prior quarter. Legal and professional fees began to stabilize during the three months ended March 31, 2006, as litigation related costs began to decrease.

Net Investment Income, Net Unrealized Appreciation and Net Increase in Stockholders' Equity Resulting from Operations

Prospect Energy's net investment income totaled \$2.1 million for the quarter ended March 31, 2006 compared to \$2.0 million for the quarter ended December 31, 2005 and \$0.4 million for the quarter ended March 31, 2005. As well, net investment income totaled \$5.6 million for the nine months ended March 31, 2006 compared to \$1.2 million for the nine months ended March 31, 2005. Net investment income represents the difference between investment income and operating expenses and is directly impacted by the items described above. Net unrealized appreciation totaled \$0.8 million for the quarter ended March 31, 2006 compared to \$0.5 million for the quarter ended December 31, 2005 and \$0.4 million for the quarter ended March 31, 2005, primarily as a result of the increase in fair value of our investment in GSHI. As well, net unrealized appreciation totaled \$1.4 million for the nine months ended March 31, 2006 compared to \$0.4 million for the nine months ended March 31, 2005. Net increase in stockholders' equity resulting from operations represents the sum of the returns generated from net investment income, realized gains (losses) and from unrealized appreciation (depreciation).

Financial Condition, Liquidity and Capital Resources

The Company's liquidity and capital resources were generated primarily from the remaining net proceeds of its initial public offering as well as from cash flows from operations. We generated \$97.0 million in cash from the net proceeds of our initial offering. We used cash flows in operating activities totaling (\$3.2) million for the nine months ended March 31, 2006 compared to (\$82.6) million for the nine months ended March 31, 2005. We declared and paid dividends totaling \$5.5 million for the nine months ended March 31, 2006 compared to \$1.6 million for the nine months ended March 31, 2005. In the future, we may also fund a portion of our investments through borrowings from banks, issuances of senior securities or secondary offerings. We may also securitize a portion of our investments in mezzanine or senior secured loans or other assets. Our objective is to put in place such borrowings in order to expand our portfolio. Our primary use of funds will be investments in portfolio companies and cash distributions to holders of our common stock.

At March 31, 2006, we held no cash in the segregated account maintained in conjunction with a limited indemnity issued to Citibank Texas, N.A. (formerly First American Bank, SSB). The limited indemnity with Citibank required us to indemnify Citibank for up to \$12.0 million for any losses it realizes on its term loan to GSHI resulting only from potential legal claims that might or could be asserted by certain third parties. This limited indemnity was backed by the funds in the segregated account. During the quarter ended December 31, 2005 and June 30, 2005, \$9.6 million and \$3.3 million of previously segregated funds were released to the Company, respectively. These reductions reflected a waiver of the segregated funds requirement due to the developments related to legal claims and prior payments by GSHI to Citibank Texas, N.A., respectively.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are subject to financial market risks, including changes in interest rates, equity price risk and some of the loans in our portfolio may have floating rates. To date, a significant, but declining, percentage of our assets have been and are invested in short-term U.S. Treasury bills. We may hedge against interest rate fluctuations by using

standard hedging instruments such as futures, options and forward contracts subject to the requirements of the 1940 Act. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of higher interest rates with respect to our portfolio of investments. During the three and nine months ended March 31, 2006 and the twelve months ended June 30, 2005, we did not engage directly in hedging activities.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, Prospect Energy carried out an evaluation, under the supervision and with the participation of Prospect Energy's management, including Prospect Energy's chief executive officer and chief financial officer, of the effectiveness of the design and operation of Prospect Energy's disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, as of April 27, 2006, the chief executive officer and the chief financial officer have concluded that Prospect Energy's current disclosure controls and procedures are effective in timely alerting them of material information relating to Prospect Energy that is required to be disclosed by Prospect Energy in the reports it files or submits under the Securities Exchange Act of 1934.

Internal Control Over Financial Reporting

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting, as such responsibility is defined in Rule 13a-15(f) of the Securities Exchange Act of 1934, and for performing an assessment of the effectiveness of internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Prospect Energy's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

23

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

There have been no changes in Prospect Energy's internal control over financial reporting that occurred during the nine months ended March 31, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is a defendant in two legal actions arising out of its activities. While predicting the outcome of litigation is inherently very difficult, and the ultimate resolution, range of possible loss and possible impact on operating results cannot be reliably estimated, management believes, based upon its understanding of the facts and the advice of legal counsel, that it has meritorious defenses for both actions. We continue to defend both of these actions vigorously, and believe that resolution of these actions will not have a materially adverse effect on the Company's financial position.

On December 6, 2004, DGP served Prospect Energy with a complaint filed November 30, 2004 in the U.S. District for the Southern District of Texas, Galveston Division. DGP alleges that DGP was defrauded and that Prospect Energy breached its fiduciary duty to DGP and tortiously interfered with DGP's contract to purchase Gas Solutions, Ltd. (a subsidiary of our portfolio company, GSHI) in connection with Prospect Energy's alleged agreement in September 2004 to loan DGP funds with which DGP intended to buy Gas Solutions, Ltd. for approximately \$26 million. The complaint seeks relief not limited to \$100 million. We believe that the DGP complaint is frivolous and without merit, and intend to defend the matter vigorously. On November 30, 2005, U.S. Magistrate Judge John R. Froeschner of the U.S. District Court for the Southern District of Texas, Galveston Division, issued a recommendation that the court grant Prospect Energy's Motion for Summary Judgment dismissing all claims by DGP. On February 21, 2006 the U.S. District Judge Samuel Kent of the U.S. District Court for the Southern District of Texas, Galveston Division issued an order granting Prospect Energy's Motion for Summary Judgment dismissing all claims by Dallas Gas Partners, L.P., against Prospect Energy Corporation. DGP has appealed this decision.

On April 7, 2005 a former officer of the Company filed a complaint with the Occupational Safety and Health Administration of the Department of Labor (OSHA) alleging discrimination, retaliation, infliction of emotional distress and other claims. This officer seeks economic reinstatement and other relief. On September 15, 2005, OSHA issued findings, including an order dismissing this complaint. The complainant has filed written objections to the order and had a hearing before an Administrative Law Judge on March 16, 2006. On May 5, 2006, the Administrative Law Judge issued a Decision and Order granting Summary Decision and dismissing the Complaint. The Company does not believe that these claims, even if ultimately resolved against the Company, would be material. The Company believes the complaint is frivolous and without merit and intends to defend itself vigorously.

We are not aware of any other material pending legal proceeding, and no such material proceedings are known to be contemplated, to which we are a party or of which any of our property is subject.

Item 2. Unrealized Sales of Equity Securities and Use of Proceeds.

Not Applicable

Item 3. Defaults Upon Senior Securities.

Not Applicable.

24

Item 4. Submission of Matters to a Vote of Security Holders.

Not Applicable.

Item 5. Other Information.

Not Applicable

Item 6. Exhibits

Exhibit

No.	Description of Exhibit
31.1	Certification of Chief Executive Officer Pursuant to Rule 13a-14(a)/15d-14(a)
31.2	Certification of Chief Financial Officer Pursuant to Rule 13a-14(a)/15d-14(a)
32.1	Certification of Chief Executive Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. 1350

32.2 Certification of Chief Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, 18 U.S.C. 1350
