NOTE 1 – PRESENTATION

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at June 30, 2013, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2012 audited financial statements. The results of operations for the period ended June 30, 2013 is not necessarily indicative of the operating results for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification of Financial Statement Accounts

Certain amounts in the June 30, 2012, financial statements have been reclassified to conform to the presentation in the June 30, 2013 financial statements.

Recent Accounting Pronouncements

Management has considered all recent accounting pronouncements issued since the last audit of our financial statements. The Company's management believes that these recent pronouncements will not have a material effect on the Company's financial statements.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. During the six (6) months ended June 30, 2013, the Company realized a net operating loss of \$246,913 and has incurred an accumulated deficit of \$12,725,521. The ability of the Company to continue as a going concern is dependent on the Company's successful execution of its new business strategy which is in large part contingent on obtaining adequate capital. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plan is to obtain such resources for the Company by obtaining capital from investors sufficient to meet its minimal operating expenses while seeking equity and/or debt financing. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 – INVENTORY

Our inventories are stated at the lower of cost or market using the average costing method, which approximates the first-in, first-out (FIFO) cost method of accounting. Inventories acquired in connection with our Caldwell acquisition were valued at acquisition at their fair market value based on an independent appraisal. Company management continually monitors the current salability and net realizable value of inventories. Inventories are adjusted for estimated obsolescence and written down to net realizable value based upon estimates of future demand and market conditions.

During the six (6) months ended June 30, 2012, Company management determined that the carrying value of a portion of the inventory acquired in the Caldwell and Pro Line Sports acquisition, which were recorded at the fair market value at the time of acquisition, exceeded its net realizable value.

On April 5, 2013, the Company entered into an Asset Purchase Agreement with its former controlling shareholder (see discussion under Note 4). The Agreement, among other things, provides for the exchange of all operating assets, including inventory, related to the golf products business. The new operating business, discussed below under Note 4, is not a reseller of goods and therefore does not possess inventory held for resale. Accordingly, the stated value of inventory at June 30, 2013, is zero.

NOTE 4 – ASSET PURCHASE AGREEMENT BETWEEN FEEL GOLF COMPANY, INC. AND LEE MILLER; STOCK PURCHASE OF INTELLIGENT LIVING, INC.

Asset Purchase Agreement

The Miller Family Trust, with Lee Miller as their Trustee, held majority voting power of Feel Golf Company, Inc., until April 5th, 2013. The Trust held 4,680,000 of Class A Preferred Shares. Under the terms of the Asset Purchase Agreement dated April 5th, 2013, by and among Feel Golf Products, Inc (Buyer; a company wholly owned by Lee Miller) and Feel Golf Company, Inc. (Seller), the Miller Family Trustee agreed to retire 4,673,400 shares of their Class “A” Preferred held in Feel Golf Co., Inc. The Miller Family Trust retained 6,600 of the Class A Preferred and concurrently agreed to convert the 6,600 balance of the Class A Preferred Shares (500:1 conversion) into 3,300,000 common shares in Feel Golf Co., Inc. In turn Feel Golf’s Co. Inc, new Board of Directors agreed, in consideration and for the retirement of the Miller Family Trust Class A Preferred shares, to sell certain golf related assets and certain liabilities to a newly formed private corporation, called Feel Golf Products, Inc. This new Company is owned by Mr. Miller and assumes approximately \$850,000 of debt formerly held by the Feel Golf Co., Inc, the public company (See Form 8 K filed April 9, 2013)

The effects on net income or loss as a result of the exchange of the Feel Golf Company’s operating assets for the assumption of liabilities and the assumption of shareholder loans by its former preferred shareholder, as well as the former shareholder’s redemption of preferred stock and corresponding paid in capital, is summarized as follows:

Quarter ended	Debts assumed by former preferred shareholder	Preferred stock and additional paid in capital redeemed	Total proceeds realized	Less: assets exchanged	Gain (loss) on exchange	Total net income (loss)
6/30/2013	977,243	3,747,762	4,725,005	(598,675)	4,126,329	3,989,690

Acquisition and Share Exchange Agreement

On April 9, 2013, the shareholders of Intelligent Living, Inc., a Florida corporation, entered into an Acquisition and Share Exchange Agreement with Feel Golf Company, Inc , for the transfer of all of the issued and outstanding capital stock of the Company, in exchange for 35,714,286 shares of FGC Common Stock representing consideration of \$500,000 based on the closing price of FGC Common Stock on March 20, 2013 (Form 8K filed on April 9, 2013).

Effective April 9, 2013, the Company became a wholly owned subsidiary of Feel Golf Company, Inc (see Form 8k dated April 9,2013), and accompanying consolidated pro forma financial statements of Feel Golf Company, Inc. and Subsidiary for the quarter ended March 31, 2013, the years ended December 31, 2012 and December 31, 2011, for additional information.

As a result of the transaction, effective April 9, 2013, Feel Golf Company’s financial statements are reported consolidated basis, for the quarter ended June 30, 2013.

Note 2-Deferred taxes

ASC 740 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Through December 31, 2012, in the Company's opinion, it is uncertain whether they will generate sufficient taxable income in the future to fully utilize the net deferred tax asset. Through year ended December 31, 2012, a full valuation allowance equal to the deferred tax asset was recorded.

The filed Federal and state income tax returns of Feel Golf Company, Inc., reported tax net operating losses through December 31, 2012 totaling \$4,077,021. Total cumulative actual and estimated tax net operating loss carry forwards, through December 31, 2012, are summarized as follows:

Year	Federal Amount	California	Florida
Cumulative through December 31, 2010	\$ 2,156,260	\$ 2,156,260	—
Year ended December 31, 2011	1,921,561	1,920,761	—
Year ended December 31, 2012	663,429	—	663,429
Total	\$ 4,741,070	\$ 4,077,021	\$ 663,429

Through December 31, 2012, as noted above, for financial reporting purposes, a cumulative deferred tax asset was reserved in full by a valuation allowance equal to the calculated net tax benefit.

Permanent tax difference

The net gain reported of \$4,126,329 is materially the result of the preferred stock redemption by operation of the Asset Purchase Agreement dated April 5, 2013, and represents the amounts charged as compensation expense during years ended December 31, 2010 and December 31, 2011, related to preferred stock awards received by the former preferred shareholder and officer. These awards were credited to paid in capital. For Federal and state income tax purposes, these amounts were not deducted, and therefore were treated as Permanent Differences for tax purposes. Correspondingly, under the Tax Benefit Rule, the reporting of the gain on retirement or redemption should not give rise to Federal or state taxable income.

NOTE 5 – RELATED PARTY TRANSACTIONS

Over the course of the Company's history loans for operating purposes have been made to the Company by the CEO of the Company. The related party notes due to officers total \$-0- at June 30, 2013 and \$886,856 at December 31, 2012, respectively. These notes carry interest rates of 7% to 15% and have balloon payments that were due in full on December 31, 2012. One loan is considered a commercial loan under the Uniform Commercial Code and is secured by a UCC blanket lien on the Company's assets. The secured loan totals approximately \$756,000 as of March 31, 2013. The other loans are unsecured. For the three (3) months ended June 30, 2013, the Company accrued \$-0- in interest expense on these loans.

On April 5, 2013, the Company entered into an Asset Purchase Agreement with its former controlling shareholder, which, among other things, provided for the assumption of the related party notes due to officers (discussed above under Note 4). As a result of the debt assumption, the carrying value at June 30, 2013 of notes due to officers is zero.

NOTE 6 – CONVERTIBLE DEBENTURES

Beginning on March 19, 2010 through June 30, 2013 the Company has entered into multiple convertible debenture agreements with third parties. These debentures carry interest at 8 to 15% per annum, are due in full starting on March 19, 2012, and are collateralized by 600,000 shares of the Company's common stock held in escrow. At the option of the holder, and with legal opinion, outstanding principal and unpaid interest balance is convertible into shares of the Company's common stock. The conversion price is the higher of a) 40-50% of the average of the three to twenty lowest or average intraday or closing prices for the Company's stock during the previous 10 to 15 trading days or b) \$0.0001. The Company entered into three (3) forbearance agreements caused by the Company's outstanding note repayment default with three (3) of their convertible note holders that grants a conversion default rate of \$0.0001. (See Form 8K filed February 20, 2013)

The total outstanding convertible principal amount as of this period is \$1,383,062.

In accordance with ASC 470, the Company has analyzed the beneficial nature of the conversion terms of these debentures and determined that a beneficial conversion feature (BCF) exists. The Company calculated the value of the BCF using the intrinsic method based on the stock price on the day of commitment, the discount as agreed to in the debenture, and the number of convertible shares. The combined value of the BCF for the debentures entered into during the six (6) months ended June 30, 2013 is \$707,692. The BCF has been recorded as a discount to the debenture payable and to Additional Paid-in Capital.

During the six (6) months ended June 30, 2013, the Company recognized \$96,725 in amortization of current and previous BCF. This amount has been recorded as interest expense in accordance with ASC 470.

NOTE 7 - STOCKHOLDERS' EQUITY

Company Overview

Our financial statements for the six (6) months ended June 30, 2013 and 2012 reflect net income and net losses of \$3,718,879 and \$(683,535), respectively. This is based on gross revenues of \$40,312 and \$362,809 for the six (6) months ended June 30, 2013 and 2012, respectively. Included in our net loss are various non-cash expenses related to depreciation, embedded beneficial conversion features included in our convertible notes payable, and a reserve for inventory obsolesce. Absent these large, non-cash expenses our net income and net operating losses for the six (6) months ended June 30, 2013 and 2012 would have been \$3,838,026 and \$(461,526) respectively.

Plan of Operation

On February 11, 2011, we acquired Pro Line Sports, a distributor of golf ball retrievers and accessories. While we had historically focused solely on golf clubs and golf grips, we intended to focus on golf grips, wedges, and Pro Lines product lines into the future. Unfortunately, due to continuing differences between the Buyer and Seller and continuous law suits Feel Golf decided via mediation on April 25, 2012 to rescind the acquisition and the parties agreed. The two Companies as of the settlement date are now separate entities. (Form 8-K filed May 4, 2012)

As a result of the strain that the continuous lawsuits have brought on our ability to operate profitably, and thereby to raise sufficient capital to fund the Company's growth plan, the Company had no choice but to cease operating as a golf products distributor, which led to the resignation of Lee Miller, and the stock acquisition of Intelligent Living, Inc.

As a result of the foregoing events, the Company is now a health care company engaged in the development of wellness related software and the future operation of Wellness centers. Intelligent Living Inc. operates as a development stage company focused on the age management and wellness markets. Its markets include exercise, nutrition, supplements, mental acuity testing through our newly acquired subsidiary, Mind 360 (see subsequent events), and training and hormone replacement therapy.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Disclosure and control procedures are also designed to ensure that such information is accumulated and communicated to management, including the chief executive officer and principal accounting officer, to allow timely decisions regarding required disclosures. As of the end of the period covered by this quarterly report, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and principal accounting officer, of the effectiveness of the design and operation of our disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, management is required to apply its reasonable judgment. Based on the evaluation described above, our management, including our principal executive officer and principal accounting officer, have concluded that, as of June 30, 2013, our disclosure controls and procedures were not effective due to a lack of adequate segregation of duties and the absence of an audit committee.

Remediation of Material Weaknesses in Internal Control over Financial Reporting

In order to remedy our existing internal control deficiencies, and as our finances allow, we will hire additional accounting staff.

Changes in Internal Control over Financial Reporting

Management has evaluated whether any changes in our internal control over financial reporting as of June 30, 2013 were made. Based on its evaluation, management, including the chief executive officer and principal accounting officer, has concluded that there has been no change in our internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
