SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE EXCHANGE ACT

For the transition period from _____ to _____

Commission File Number: 0-51176

KENTUCKY FIRST FEDERAL BANCORP

(Exact name of registrant as specified in its charter)

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

United States of America 61-1484858
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

J16 West Main Street, Frankfort, Kentucky 40601

(Address of principal executive offices)(Zip Code)

(502) 223-1638

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past ninety days:

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definition of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer		Accelerated filer
Non-Accelerated filer	(Do not check if a smaller reporting company)	Smaller Reporting Company
		Emerging Growth Company

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: At November 9, 2017, the latest practicable date, the Corporation had 8,444,515 shares of \$.01 par value common stock outstanding.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2017

(unaudited)

The Kentucky First Federal Bancorp (“Kentucky First” or the “Company”) was incorporated under federal law in March 2005, and is the mid-tier holding company for First Federal Savings and Loan Association of Hazard, Hazard, Kentucky (“First Federal of Hazard”) and Frankfort First Bancorp, Inc. (“Frankfort First”). Frankfort First is the holding company for First Federal Savings Bank of Kentucky, Frankfort, Kentucky (“First Federal of Kentucky”). First Federal of Hazard and First Federal of Kentucky (hereinafter collectively the “Banks”) are Kentucky First’s primary operations, which consist of operating the Banks as two independent, community-oriented savings institutions.

In December 2012, the Company acquired CKF Bancorp, Inc., a savings and loan holding company which operated three banking locations in Boyle and Garrard Counties in Kentucky. In accounting for the transaction the assets and liabilities of CKF Bancorp were recorded on the books of First Federal of Kentucky in accordance with accounting standard ASC 805, Business Combinations.

1. Basis of Presentation

The accompanying unaudited consolidated financial statements, which represent the consolidated balance sheets and results of operations of the Company, were prepared in accordance with the instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles. However, in the opinion of management, all adjustments (consisting of only normal recurring adjustments) which are necessary for a fair presentation of the consolidated financial statements have been included. The results of operations for the three-month period ended September 30, 2017, are not necessarily indicative of the results which may be expected for an entire fiscal year. The consolidated balance sheet as of June 30, 2017 has been derived from the audited consolidated balance sheet as of that date. Certain information and note disclosures normally included in the Company’s annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Form 10-K annual report for 2017 filed with the Securities and Exchange Commission.

Principles of Consolidation - The consolidated financial statements include the accounts of the Company, Frankfort First, and its wholly-owned banking subsidiaries, First Federal of Hazard and First Federal of Kentucky (collectively hereinafter “the Banks”). All intercompany transactions and balances have been eliminated in consolidation.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2017

(unaudited)

New Accounting Standards:

FASB ASC 606 - In May 2014, FASB issued ASU 2014-09, Revenue from Contracts with Customers, and subsequently issued several amendments to the standard. The core principle of ASU 2014-09 is that entities should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additional disclosures are required to provide information regarding the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. As amended, ASU 2014-09 becomes effective for annual periods and interim periods within those annual periods beginning after December 15, 2017, or the fiscal year beginning July 1, 2018, with respect to the Company. Management is finalizing its assessment of impact of the effects of ASU 2014-09, as amended, on the Company's financial statements and disclosures. We do not expect the new standard or any of the amendments to result in a material change from our current accounting for revenue, because the majority of the Company's financial instruments are outside of the scope of Topic 606. Management will continue to evaluate the impact, if any, of any additional guidance that is forthcoming.

FASB ASC 825 - In January 2016, the FASB issued an update ASU No. 2016-01, Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this update: 1) Require equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. 2) Simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. 3) Eliminate the requirement to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet. 4) Require entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. 5) Require an entity to present separately in other comprehensive income the portion of the total change in fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. 6) Require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements. 7) Clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. The amendments in this update become effective for annual periods and interim periods within those annual periods beginning after December 15, 2017, or the fiscal year beginning July 1, 2018, with respect to the Company. Management is finalizing its assessment of impact of the effects of adopting the new guidance on the consolidated financial statements, but it is not expected to have a material impact. However, a fair value estimate on a

loan portfolio would consider exit price.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2017

(unaudited)

New Accounting Standards (continued)

FASB ASC 718 - In March 2016, the FASB issued ASU No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Shared-Based Payment Accounting. The amendments are intended to improve the accounting for employee shared-based payments and affects all organizations that issue share-based payment awards to their employees. Several aspects of the accounting for share-based payment award transactions are simplified, including the income tax consequences, the classification of awards as either equity or liabilities, and the classification on the statement of cash flows. The amendments in this update became effective July 1, 2017, with respect to the Company and, as expected, it did not have a material impact of the consolidated financial statements.

FASB ASC 326 - In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The final standard will change estimates for credit losses related to financial assets measured at amortized cost such as loans, held-to-maturity debt securities, and certain other contracts. For estimating credit losses, the FASB is replacing the incurred loss model with an expected loss model, which is referred to as the current expected credit loss (CECL) model. The Company will now use forward-looking information to enhance its credit loss estimates. The amendment requires enhanced disclosures to aid investors and other users of financial statements to better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of our portfolio. The largest impact to the Company will be on its allowance for loan and lease losses, although the ASU also amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. The standard is effective public companies for annual periods and interim periods within those annual periods beginning after December 15, 2019, or in the Company's case the fiscal year beginning July 1, 2020. ASU 2016-13 will be applied through a cumulative effect adjustment to retained earnings (modified-retrospective approach), except for debt securities for which an other-than-temporary impairment had been recognized before the effective date. A prospective transition approach is required for these debt securities. We have formed a functional committee that is assessing our data and system needs and are evaluating the impact of adopting the new guidance. We expect to recognize a one-time cumulative effect adjustment to the allowance for loan losses as of the beginning of the first reporting period in which the new standard is effective, but cannot yet determine the magnitude of any such one-time adjustment or the overall impact of the new guidance on the consolidated financial statements. However, the Company does expect ASU 2016-13 to add complexity and costs to its current credit loss evaluation process.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2017

(unaudited)

New Accounting Standards (continued)

FASB ASC 230 - In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. The amendments in ASU 2016-15 provide guidance on the following eight specific cash flow issues:

1. Debt Prepayment or Debt Extinguishment Costs;
2. Settlement of Zero-Coupon Debt Instruments or Other Debt Instruments with Coupon Interest Rates That Are Insignificant in Relation to the Effective Interest Rate of the Borrowing;
3. Contingent Consideration Payments Made after a Business Combination;
4. Proceeds from the Settlement of Insurance Claims;
5. Proceeds from the Settlement of Corporate-Owned Life Insurance Policies, including Bank-Owned Life Insurance Policies;
6. Distributions Received from Equity Method Investees;
7. Beneficial Interests in Securitization Transactions; and
8. Separately Identifiable Cash Flows and Application of the Predominance Principle.

The amendments are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. Management is finalizing its assessment of impact of the effects of adopting the new guidance on the consolidated financial statements, but it is not expected to have a material impact.

FASB ASC 310 – In March 2017, the FASB issued ASU No. 2017-08, *Receivables- Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*. The amendments in this update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The amendments in this update more closely align the amortization period of premiums and discounts to expectations incorporated in market pricing on the underlying securities, which, in turn, are expected to more closely align interest

income recorded on bonds held at a premium or a discount with the economics of the underlying instrument. For public business entities, the amendments in this update are effective for fiscal years, and the interim periods within those fiscal years, beginning after December 15, 2018. Changes resulting from the amendments in this update should be recognized on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. Additionally, in the period of adoption, an entity should provide disclosures about a change in accounting principle. We have determined that this guidance will have an immaterial impact on the Company's financial statements and have elected to adopt the guidance.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2017

(unaudited)

Reclassifications - Certain amounts presented in prior periods have been reclassified to conform to the current period presentation. Such reclassifications had no impact on prior years' net income or shareholders' equity.

2. Earnings Per Share

Diluted earnings per share is computed taking into consideration common shares outstanding and dilutive potential common shares to be issued or released under the Company's share-based compensation plans. The factors used in the basic and diluted earnings per share computations follow:

	Three months ended September 30,	
(in thousands)	2017	2016
Net income allocated to common shareholders, basic and diluted	\$280	\$297
	Three months ended September 30,	
	2017	2016
Weighted average common shares outstanding, basic and diluted	8,359,607	8,335,931

There were no stock option shares outstanding for the three month periods ended September 30, 2017 and 2016.

Kentucky First Federal Bancorp**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

September 30, 2017

(unaudited)

3. Investment Securities

The following table summarizes the amortized cost and fair value of securities available-for-sale and securities held-to-maturity at September 30, 2017 and June 30, 2017, the corresponding amounts of gross unrealized gains recognized in accumulated other comprehensive income and gross unrecognized gains and losses:

<i>(in thousands)</i>	September 30, 2017			
	Amortized cost	Gross unrealized/ unrecognized gains	Gross unrealized/ unrecognized losses	Estimated fair value
Available-for-sale Securities				
Agency mortgage-backed: residential	\$ 69	\$ 1	\$ --	\$ 70
Held-to-maturity Securities				
Agency mortgage-backed: residential	\$ 1,368	\$ 42	\$ 8	\$ 1,402
<i>(in thousands)</i>	June 30, 2017			
	Amortized cost	Gross unrealized/ unrecognized gains	Gross unrealized/ unrecognized losses	Estimated fair value
Available-for-sale Securities				
Agency mortgage-backed: residential	\$ 70	\$ 1	\$ --	\$ 71
Held-to-maturity Securities				
Agency mortgage-backed: residential	\$ 1,487	\$ 45	\$ 9	\$ 1,523

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

At September 30, 2017, the Company's debt securities consist of mortgage-backed securities, which do not have a single maturity date. The amortized cost and fair value of held-to-maturity debt securities are shown by contractual maturity. Securities not due at a single maturity date are shown separately.

(in thousands)	September 30, 2017	
	Amortized Cost	Fair Value
Held-to-maturity Securities		
Agency mortgage-backed: residential	\$1,368	\$1,402

Our pledged securities (including overnight and time deposits in other financial institutions) totaled \$2.2 million and \$2.3 million at September 30 and June 30, 2017, respectively.

We evaluated securities in unrealized loss positions for evidence of other-than-temporary impairment, considering duration, severity, financial condition of the issuer, our intention to sell or requirement to sell. Those securities were agency bonds, which carry a very limited amount of risk. Also, we have no intention to sell nor feel that we will be compelled to sell such securities before maturity. Based on our evaluation, no impairment has been recognized through earnings.

4. Loans receivable (continued)

The following table presents the balance in the allowance for loan losses and the recorded investment in loans by portfolio class and based on impairment method as of September 30, 2017. The recorded investment in loans excludes accrued interest receivable and deferred loan costs, net due to immateriality. There were no impaired loans at September 30, 2017, that had a related specific allowance.

Troubled Debt Restructurings:

A Troubled Debt Restructuring (“TDR”) is the situation where the Bank grants a concession to the borrower that the Banks would not otherwise have considered due to the borrower’s financial difficulties. All TDRs are considered “impaired.” At September 30, 2017 and June 30, 2017, the Company had \$1.7 million and \$1.5 million of loans classified as TDRs, respectively. Of the TDRs at September 30, 2017, approximately 15.9% were related to the borrower’s completion of Chapter 7 bankruptcy proceedings with no reaffirmation of the debt to the Banks.

(unaudited)

4. Loans receivable (continued)

The following table summarizes TDR loan modifications that occurred during the three months ended September 30, 2017 and 2016, and their performance, by modification type:

(in thousands)	Troubled Debt Restructurings Performing to Modified Terms	Troubled Debt Restructurings Not Performing to Modified Terms	Total Troubled Debt Restructurings
Three months ended September 30, 2017			
Residential real estate:			
Terms extended	\$ 314	\$ --	\$ 314

The Company had no TDRs during the three months ended September 30, 2016. The Company had no allocated specific reserves to customers whose loan terms had been modified in troubled debt restructurings as of September 30, 2017 or at June 30, 2017. The Company had no commitments to lend on loans classified as TDRs at September 30, 2017 or June 30, 2017.

Four TDRs with a carrying value of \$136,000 defaulted during the three-month period ended September 30, 2017. The properties were taken into REO and sold. There were no TDRs that defaulted during the three-month period ended September 30, 2016.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis is performed on an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above-described process are considered to be pass rated loans. Loans listed that are not rated are included in groups of homogeneous loans and are

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

evaluated for credit quality based on performing status. See the aging of past due loan table above. As of September 30, 2017, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

(in thousands)	Pass	Special Mention	Substandard	Doubtful	Not rated
Residential real estate:					
One- to four-family	\$--	\$ 4,569	\$ 9,998	\$ --	\$181,930
Multi-family	14,686	--	381	--	--

Home equity	6,744	93	16	--	--
Automobile	42	--	--	--	--
Unsecured	396	--	4	--	--
	\$60,129	\$ 6,230	\$ 11,729	\$--	\$181,943

Purchased Credit Impaired Loans:

The Company purchased loans during fiscal year 2013 for which there was, at acquisition, evidence of deterioration of credit quality since origination and it was probable, at acquisition, that all contractually required payments would not be collected. The carrying amount of those loans, net of a purchase credit discount of \$388,000 at September 30, 2017 and June 30, 2017, respectively, is as follows:

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

(in thousands)	September 30, 2017	June 30, 2017
One- to four-family residential real estate	\$ 1,502	\$ 1,676
Nonresidential real estate	--	--
Outstanding balance	\$ 1,502	\$ 1,676

Kentucky First Federal Bancorp**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

September 30, 2017

(unaudited)

4. Loans receivable (continued)

Accretable yield, or income expected to be collected on loans purchased during fiscal year 2013, is as follows

(in thousands)	Three months ended September 30, 2017	Three months ended September 30, 2016
Balance at beginning of period	\$ 720	\$ 981
Accretion of income	(22)	(46)
Reclassifications from nonaccretable difference	-	-
Disposals, net of recoveries	1	-
Balance at end of period	\$ 699	\$ 935

For those purchased loans disclosed above, the Company made no increase in allowance for loan losses for the year ended June 30, 2017, nor for the three-month period ended September 30, 2017. Neither were any allowance for loan losses reversed during those periods.

5. Disclosures About Fair Value of Assets and Liabilities

ASC topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in active markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that reflect a reporting entity's own assumptions and are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Securities

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics. Level 2 securities include agency mortgage-backed securities and FHLMC stock.

September 30, 2017

(unaudited)

5. Disclosures About Fair Value of Assets and Liabilities (continued)

Impaired Loans

At the time a loan is considered impaired, it is evaluated for loss based on the fair value of collateral securing the loan if the loan is collateral dependent. If a loss is identified, a specific allocation will be established as part of the allowance for loan losses such that the loan's net carrying value is at its estimated fair value. Impaired loans carried at fair value generally receive specific allocations of the allowance for loan losses. For collateral-dependent loans, fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Other Real Estate

Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

Financial assets measured at fair value on a recurring basis are summarized below:

(in thousands)	Fair Value Measurements Using

5. Disclosures About Fair Value of Assets and Liabilities (continued)

Assets measured at fair value on a non-recurring basis are summarized below:

(in thousands)	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
September 30, 2017				
Loans				
One- to four-family	\$70	-	-	\$ 70
June 30, 2017				
Other real estate owned, net				
One- to four-family	\$103	-	-	\$ 103
Land	79	-	-	79

There were no impaired loans, which were measured using the fair value of the collateral for collateral-dependent loans, at September 30, 2017, and June 30, 2017. There was no specific provision made for the three month periods ended September 30, 2017 or 2016.

Other real estate owned measured at fair value less costs to sell, had carrying amounts of \$182,000 at June 30, 2017. Other real estate owned was not written down during the three months ended September 30, 2017 and 2016.

Kentucky First Federal Bancorp**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

September 30, 2017

(unaudited)

5. Disclosures About Fair Value of Assets and Liabilities (continued)

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at September 30, 2017 and June 30, 2017:

September 30, 2017	Fair Value (in thousands)	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Loans:				
One- to four-family	\$ 70	Sales comparison approach	Adjustments for differences between comparable sales	-23.5% to 13.8% (-1.5%)
June 30, 2017	Fair Value (in thousands)	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Foreclosed and repossessed assets:				
One- to four-family	\$ 103	Sales comparison approach	Adjustments for differences between comparable sales	-3.6% to 45.8% (9.5%)
Land	\$ 79	Sales comparison approach	Adjustments for differences between comparable sales	3.5% to 6.6% (5.0%)

The following is a disclosure of the fair value of financial instruments, both assets and liabilities, whether or not recognized in the consolidated balance sheet, for which it is practicable to estimate that value. For financial instruments where quoted market prices are not available, fair values are based on estimates using present value and other valuation methods.

The methods used are greatly affected by the assumptions applied, including the discount rate and estimates of future cash flows. Therefore, the fair values presented may not represent amounts that could be realized in an exchange for certain financial instruments.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

September 30, 2017

(unaudited)

5. Disclosures About Fair Value of Assets and Liabilities (continued)

The following methods were used to estimate the fair value of all other financial instruments at September 30, 2017 and June 30, 2017:

Cash and cash equivalents, interest-bearing deposits and time deposits in other financial institutions: The carrying amounts presented in the consolidated statements of financial condition for cash and cash equivalents are deemed to approximate fair value.

Held-to-maturity securities: For held-to-maturity securities, fair value is estimated by using pricing models, quoted price of securities with similar characteristics, which is level 2 pricing for the other securities.

Loans: The loan portfolio has been segregated into categories with similar characteristics, such as one- to four-family residential, multi-family residential and nonresidential real estate. These loan categories were further delineated into fixed-rate and adjustable-rate loans. The fair values for the resultant loan categories were computed via discounted cash flow analysis, using current interest rates offered for loans with similar terms to borrowers of similar credit quality. For loans on deposit accounts and consumer and other loans, fair values were deemed to equal the historic carrying values. The fair values of the loans does not necessarily represent an exit price.

Loans receivable represents the Company's most significant financial asset, which is in Level 3 for fair value measurements. A third party provides financial modeling for the Company and results are based on assumptions and factors determined by management.

Federal Home Loan Bank stock: It is not practicable to determine the fair value of FHLB stock due to restrictions placed on its transferability.

Accrued interest receivable: The carrying amount is the estimated fair value.

Deposits: The fair value of NOW accounts, passbook accounts, and money market deposits are deemed to approximate the amount payable on demand. Fair values for fixed-rate certificates of deposit have been estimated using a discounted cash flow calculation using the interest rates currently offered for deposits of similar remaining maturities.

Federal Home Loan Bank advances: The fair value of these advances is estimated using the rates currently offered for similar advances of similar remaining maturities or, when available, quoted market prices.

Advances by borrowers for taxes and insurance and accrued interest payable: The carrying amount presented in the consolidated statement of financial condition is deemed to approximate fair value.

Commitments to extend credit: For fixed-rate and adjustable-rate loan commitments, the fair value estimate considers the difference between current levels of interest rates and committed rates. The fair value of outstanding loan commitments at September 30, 2017 and June 30, 2017, was not material.

(unaudited)

6. Accumulated Other Comprehensive Income (Loss)

The Company's accumulated other comprehensive income is comprised solely of unrealized gains and losses on available-for-sale securities. The following is a summary of the accumulated other comprehensive income balances, net of tax:

	Three months ended September 30, 2017
Beginning balance	\$ 1
Current year change	--
Ending balance	\$ 1

Accumulated other comprehensive income (loss) components and related tax effects for the periods indicated were as follows:

(in thousands)		Three months ended September 30, 2017	2016
Unrealized holding gains (losses) on available-for-sale securities	\$ 1	\$ (8)	
Tax effect	--	(3)	
Net-of-tax amount	\$ 1	\$ (5)	

7. Subsequent Events

Subsequent to September 30, 2017, the former President/CEO and a current director of First Federal Savings Bank of Kentucky passed away. Mr. Garland was covered under the bank-owned life insurance program operated as part of the overall employee benefits program, which has been in place for many years. As a result of the passing of this director, the Bank will be receiving the insurance proceeds on the policies maintained for the director in the amount of approximately \$1.2 million. Because the cash value of the policies pertaining to Mr. Garland totaled \$792,000 at September 30, 2017, the Company expects to recognize income of approximately \$370,000.

Kentucky First Federal Bancorp

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Discussion of Financial Condition Changes from June 30, 2017 to September 30, 2017

Assets: At September 30, 2017, the Company's assets totaled \$304.5 million, a decrease of \$4.0 million, or 1.3%, from total assets at June 30, 2017. This decrease was attributed primarily to decreases in loans and cash and cash equivalents.

Cash and cash equivalents: Cash and cash equivalents decreased \$4.5 million or 34.8% to \$8.3 million at September 30, 2017.

Time deposits in other financial institutions: Time deposits in other financial institutions increased by \$2.7 million or 64.9% to \$6.9 million at September 30, 2017, as we seek to employ liquidity at the highest earning level possible.

Investment securities: At September 30, 2017 our securities portfolio consisted of mortgage-backed securities. Investment securities decreased \$120,000 or 7.7% to \$1.4 million at September 30, 2017.

Loans: Loans receivable, net, decreased by \$2.4 million or 0.9% to \$255.9 million at September 30, 2017. Management continues to look for high-quality loans to add to its portfolio and will continue to emphasize loan originations to the extent that it is profitable, prudent and consistent with our interest rate risk strategies.

Non-Performing and Classified Loans: At September 30, 2017, the Company had non-performing loans (loans 90 or more days past due or on nonaccrual status) of approximately \$7.1 million, or 2.8% of total loans (including loans purchased in the acquisition), compared to \$6.8 million or 2.6%, of total loans at June 30, 2017. The Company's allowance for loan losses totaled \$1.6 million and \$1.5 million at both September 30, 2017 and June 30, 2017, respectively. The allowance for loan losses at September 30, 2017, represented 22.9% of nonperforming loans and 0.6% of total loans (including loans purchased in the acquisition), while at June 30, 2017, the allowance represented 22.5% of nonperforming loans and 0.6% of total loans.

The Company had \$11.8 million in assets classified as substandard for regulatory purposes at September 30, 2017, including loans (\$11.0 million) and real estate owned (“REO”) (\$777,000), including loans acquired in the CKF Bancorp transaction. Classified loans as a percentage of total loans (including loans acquired) was 4.3% and 4.5% at September 30, 2017 and June 30, 2017, respectively. Of substandard loans, 95.1% were secured by real estate on which the Banks have priority lien position.

Kentucky First Federal Bancorp**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS (continued)**Discussion of Financial Condition Changes from June 30, 2017 to September 30, 2017 (continued)

The table below shows the aggregate amounts of our assets classified for regulatory purposes at the dates indicated:

(dollars in thousands)	September 30, 2017	June 30, 2017
Substandard assets	\$ 11,849	\$ 12,087
Doubtful assets	--	--
Loss assets	--	--
Total classified assets	\$ 11,849	\$ 12,087

At September 30, 2017, the Company's real estate acquired through foreclosure represented 6.6% of substandard assets compared to 3.0% at June 30, 2017. During the three months ended September 30, 2017, the Company sold property with a carrying value of \$245,000 for \$294,000, while during the year ended June 30, 2017, property with a carrying value of \$780,000 was sold for \$816,000. During the three months ended September 30, 2017, the Company made no loans to facilitate the purchase of its other real estate owned by qualified borrowers, while for the fiscal year ended June 30, 2017, \$254,000 in loans to facilitate an exchange were made. The Company defers recognition of any gain on loans to facilitate an exchange until the proper time in the future according to ASC topic 360, Property, Plant and Equipment. Loans to facilitate the sale of other real estate owned, which were included in substandard loans, totaled \$247,000 and \$346,000 at September 30, 2017 and June 30, 2017, respectively.

Kentucky First Federal Bancorp**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS (continued)**Discussion of Financial Condition Changes from June 30, 2017 to September 30, 2017 (continued)

The following table presents the aggregate carrying value of REO at the dates indicated:

	September 30, 2017		June 30, 2017	
	Num ber	Net Carrying Value	Num ber	Net Carrying Value
Single family, non-owner occupied	6	\$ 777	6	\$ 330
Building lot	1	--	2	28
Total REO	7	\$ 777	8	\$ 358

At September 30, 2017 and June 30, 2017, the Company had \$4.6 million and \$6.2 million of loans classified as special mention, respectively (including loans acquired in the CKF Bancorp transaction on December 31, 2012.) This category includes assets which do not currently expose us to a sufficient degree of risk to warrant classification, but do possess credit deficiencies or potential weaknesses deserving our close attention. The decrease in loans classified as special mention from June 30, 2017 to the recently-ended quarter was due to improved financial condition of borrowers previously included in the special mention category.

Liabilities: Total liabilities decreased \$3.9 million, or 1.6% to \$237.4 million at September 30, 2017, primarily as a result of a decrease in FHLB advances, which decreased \$9.6 million or 17.1% to \$46.2 million at September 30, 2017. Short-term advances were repaid as the Company received loan repayments and additional retail deposits. Deposits increased \$5.3 million or 2.9% and totaled \$188.2 million at quarter end.

Shareholders' Equity: At September 30, 2017, the Company's shareholders' equity totaled \$67.1 million, a decrease of \$36,000 or 0.1% from the June 30, 2017 total. The change in shareholders' equity was primarily associated with net profits for the period less dividends paid on common stock.

Kentucky First Federal Bancorp

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Discussion of Financial Condition Changes from June 30, 2017 to September 30, 2017 (continued)

The Company paid dividends of \$363,000 or 129.6% of net income for the three month period just ended. On July 6, 2017, the members of First Federal MHC for the sixth time approved a dividend waiver on annual dividends of up to \$0.40 per share of Kentucky First Federal Bancorp common stock. The Board of Directors of First Federal MHC applied for approval of another waiver. The Federal Reserve Bank of Cleveland has notified the Company that it did not object to the waiver of dividends paid by the Company to First Federal MHC, and, as a result, First Federal MHC will be permitted to waive the receipt of dividends for quarterly dividends up to \$0.10 per common share through the third calendar quarter of 2018. Management believes that the Company has sufficient capital to continue the current dividend policy without affecting the well-capitalized status of either subsidiary bank. Management cannot speculate on future dividend levels, because various factors, including capital levels, income levels, liquidity levels, regulatory requirements and overall financial condition of the Company are considered before dividends are declared. However, management continues to believe that a strong dividend is consistent with the Company's long-term capital management strategy. See "Risk Factors" in Part II, Item 1A, of the Company's Annual Report on Form 10-K for the year ended June 30, 2017 for additional discussion regarding dividends.

Comparison of Operating Results for the Three Month Periods Ended September 30, 2017 and 2016

General

Net income totaled \$280,000 for the three months ended September 30, 2017, a decrease of \$17,000 or 5.7% from net income of \$297,000 for the same period in 2016.

Net Interest Income

Net interest income before provision for loan losses decreased \$28,000 or 1.1% to \$2.4 million for the three month period just ended. Interest income increased by \$112,000, or 4.1%, to \$2.9 million, while interest expense increased

\$140,000 or 42.7% to \$468,000 for the three months ended September 30, 2017.

Kentucky First Federal Bancorp

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Comparison of Operating Results for the Three Month Periods Ended September 30, 2017 and 2016 (continued)

Interest income on loans increased \$77,000 or 2.9% to \$2.8 million, due primarily to an increase in the average volume of the loan portfolio. The average balance of the loan portfolio increased \$16.3 million or 6.8% to \$257.8 million for the three month period ended September 30, 2017, while the rate earned on the loan portfolio decreased 16 basis points to 4.30%. Interest income on mortgage-backed securities decreased \$13,000 or 52.0% to \$12,000 for the quarterly period just ended due to lower interest rate and volume of asset level. Interest income from interest-bearing deposits and other increased \$51,000 or 75.0% to \$119,000 for the quarter just ended primarily as a result of an increase in the average rate earned on those assets which increased 107 basis points to 2.4% compared to the period a year ago.

Interest expense on deposits increased \$47,000 or 19.0% to \$294,000 for the three months ended September 30, 2017, while interest expense on borrowings increased \$93,000 or 114.8% to \$174,000 for the same period. The increase in interest expense on deposits was attributed primarily to an increase in the average rate paid on deposits, which increased 11 basis points to 65 basis points for the recently ended quarter. The average balance of deposits decreased \$2.7 million or 1.5% to \$181.0 million for the most recent period. The increase in interest expense on borrowings was attributed to both higher average outstanding balances quarter to quarter as well as higher interest rate levels. The average balance of borrowings outstanding increased \$15.2 million or 43.3% to \$50.4 million for the recently ended three month period, while the average rate paid on borrowings increased 46 basis points to 138 basis points for the most recent period.

Net interest spread decreased from 3.60% for the prior year quarterly period to 3.35% for the quarter ended September 30, 2017.

Provision for Losses on Loans

The Company recorded no provision for losses on loans during the three months ended September 30, 2017, compared to a provision of \$4,000 for the three months ended September 30, 2016. There can be no assurance that the loan loss allowance will be adequate to absorb unidentified losses on loans in the portfolio, which could adversely affect the

Company's results of operations.

Non-interest Income

Non-interest income decreased \$28,000 or 16.7% to \$140,000 for the quarter ended September 30, 2017, compared to the prior year quarter, primarily because of decreased gain on the sale of REO. Net gain on sale of REO decreased \$30,000 to \$43,000 for the recently ended quarter compared to the prior year.

Kentucky First Federal Bancorp

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Comparison of Operating Results for the Three Month Periods Ended September 30, 2017 and 2016 (continued)

Non-interest Expense

-

Non-interest expense decreased \$10,000 or 0.5% and totaled \$2.2 million for the three months ended September 30, 2017, primarily due to a decrease in FDIC insurance expense, which resulted from changes in the FDIC assessment methodology. FDIC insurance premiums for the three months ended September 30, 2017 decreased \$37,000 or 61.7% to \$23,000. In addition to the decrease in FDIC insurance premiums, expenses associated with occupancy and equipment and auditing and accounting also decreased. Occupancy and equipment expense decreased \$24,000 or 13.2% to \$158,000 for the period, while auditing and accounting decreased \$13,000 or 16.5% to \$66,000 for the period. Somewhat offsetting the decreases in these expenses were increased costs associated with other non-interest expense, employee compensation and benefits, and foreclosure and OREO expenses. Other non-interest expense increased \$29,000 or 10.7% primarily due to higher costs for data transmission and communication as well as higher loan costs. Employee compensation and benefits increased \$25,000 or 1.9% to \$1.4 million for the quarter just ended due to higher employee compensation due to a higher number of full-time equivalent personnel quarter-to-quarter and higher ESOP compensation, which was due to higher average trading price of our Company's stock. Foreclosure and OREO expenses, net increased \$13,000 or 61.9% and totaled \$34,000 for the recently ended period.

Federal Income Tax Expense

Federal income taxes expense totaled \$135,000 for the three months ended September 30, 2017, compared to \$160,000 in the prior year period. The effective tax rates were 32.5% and 35.0% for the three-month periods ended September 30, 2017 and 2016, respectively.

Kentucky First Federal Bancorp

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

This item is not applicable as the Company is a smaller reporting company.

ITEM 4: Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report, and have concluded that the Company's disclosure controls and procedures were effective for the purpose of ensuring that the information required to be disclosed in the reports that the Company files or submits under the Exchange Act with the Securities and Exchange Commission (the "SEC") (1) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Based upon their evaluation, the Company's Chief Executive Officer and Chief Financial Officer have also concluded that there were no significant changes during the quarter ended September 30, 2017 in the Company's internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
