Pioneer Tax Advantaged Balanced Trust

LETTER TO SHAREOWNERS 11/30/04

Dear Shareowner,

High energy prices and rising interest rates caused concern among investors during the third quarter of 2004. As oil prices touched \$50 per barrel for the first time, many consumers, faced with high priced gasoline and anticipating a winter of hefty heating bills, responded by holding back on spending. Consumers account for the bulk of the nation's economic activity, and retail sales over the summer were erratic. Beyond soaring energy costs, which have the effect of a tax increase on individuals and businesses, the slack job creation data of the last few months also undermined confidence in the economic outlook. The markets in general fell during the third quarter. Continued unsettled conditions in Iraq and the ever present specter of terrorism also weighed on investors' minds. Overseas, global markets were fairly stable, after stumbling earlier in the year.

But the fuzzy economic picture was good news for bond investors. Despite three hikes in short-term interest rates, the first increases in four years, bond prices rose and yields fell over the period. Longer-term Treasury securities were the strongest performers, with corporate bonds, including high-yield issues, also delivering favorable returns. Lower long-term rates were also

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

beneficial to the housing and mortgage industries. Behind the rally in bonds lies investor skepticism about the strength and durability of the current economic recovery. A slowing recovery leading to an easing of inflationary pressures may convince the Federal Reserve Board to slow the pace of future rate increases. Less inflation would also mean better real returns for bond holders.

Pioneer believes that the economy will continue to expand in 2005, but at a more measured tempo. After an extended period of cutting costs and bolstering balance sheets, many corporations are financially stronger than they have been in some time. And although short-term interest rates have risen, they are still relatively low and do not appear to be a barrier for companies needing to borrow for expansion. Equity valuations now appear better aligned with earnings prospects than was the case a year ago, when prices ran ahead of profit expectations. Therefore, steady but moderate expansion in corporate profits has the potential to drive stock prices higher.

As always, thank you for your investment in Pioneer Municipal High Income Trust.

Respectfully,

/s/ Osbert M. Hood

Call 1-800-225-6292 or visit www.pioneerfunds.com for the most recent month-end performance results. Current performance may be lower or higher than the performance data quoted.

Performance data shown represents past performance. Past performance is no guarantee of future results. Investment return and market price will fluctuate, and your shares may trade below net asset value ("NAV"), due to such factors as interest rate changes, and the perceived credit quality of borrowers.

Total investment return does not reflect broker sales charges or commissions. All performance is for common shares of the Trust.

Closed-end funds, unlike open-end funds, are not continuously offered. Once issued, shares of closed-end funds are sold in the open market through a stock exchange and frequently trade at prices lower than their NAV. NAV is total assets less total liabilities, which includes preferred shares, divided by the number of common shares outstanding.

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

When NAV is lower than market price, dividends are assumed to be reinvested at the greater of NAV or 95% of the market price. When NAV is higher, dividends are assumed to be reinvested at market price.

The performance table and graph do not reflect the deduction of fees and taxes that a shareowner would pay on Trust distributions or the redemption of Trust shares.

Index comparison begins January 31, 2004. The Lehman Brothers Municipal Bond Index is a widely recognized, unmanaged measure of approximately 15,000 municipal bonds. Bonds in the Index have a minimum credit rating of BBB, were part of at least a \$50 million issuance made within the past five years and have a maturity of at least two years. S&P 500 Index is an unmanaged measure of 500 widely held common stocks listed on the New York Stock Exchange and the over-the-counter market. Index returns are calculated monthly, assume reinvestment of dividends and, unlike Trust returns, do not reflect any fees, expenses or sales charges. You cannot invest directly in the Index.

PORTFOLIO MANAGEMENT DISCUSSION 11/30/04

The first annual report for Pioneer Tax Advantaged Balanced Trust covers the period since the Trust's inception on January 28, 2004 through November 30, 2004. In the report, David Eurkus, portfolio manager for the Trust's fixed-income portion, and Walter Hunnewell, Jr., portfolio manager for the Trust's equity portion, discuss the investment process, strategy and outlook.

Q: How did the Trust perform during the period?

A: Since inception, Pioneer Tax Advantaged Balanced Trust returned 6.09% at net asset value and 11.26% at market price. As of November 30, 2004, the Trust was selling at a discount of market price to net asset value of 12.4%. The Trust's net asset value return reflects the expenses associated with the start-up costs of the Trust. From February 1, 2004, through November 30, 2004, the Lehman Brothers Municipal Bond Index returned 2.63%, while the S&P 500 Index returned 5.29%. The Trust's relatively strong performance occurred mostly during the second half of the reporting period when market interest rates declined and bond prices rose, and the stock market rebounded from its lows of 2004.

The performance data quoted represents past performance, which is no guarantee of future results. Investment return and principal value will fluctuate, and shares, when redeemed, may be worth more or less than their original cost.

Q: What was the environment like during the period?

A: Early in the period, the strength of the economic rebound raised concerns that inflation and interest rates might move higher. In that environment, there was a significant sell-off in the bond market, which pushed bond prices down and yields up. Equity markets also declined, as investors worried that higher interest rates would erode corporate profits and, ultimately, have a negative impact on stock prices.

As the fiscal year progressed, however, reports associated with the economy indicated that the rapid pace of growth had shifted to a slower but steady

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

rate. Despite this slight softening in the economic expansion, the Federal Reserve tightened monetary policy, boosting the federal funds rate on four occasions, each time by 0.25%. (The federal funds rate is the rate banks charge each other for overnight loans.) The Fed's policy had relatively little effect on market interest rates, which trended down. The favorable

4

Pioneer Tax Advantaged Balanced Trust

interest-rate environment was positive for both the bond and stock markets. In the fixed-income area, bond prices rose; and in the equity market, stock prices went up.

Q: What were the principal strategies used in managing the Trust?

A: Municipal securities accounted for 52% of the Trust's assets at period-end. In the fixed-income portion of the Trust, we primarily emphasized high-quality, investment-grade bonds; however, we also took advantage of our ability to invest up to 15% of fixed-income assets in below investment-grade securities, which helped boost the Trust's income stream. At the end of the period, the credit quality breakdown of fixed-income assets was: AAA (23.8%); AA (17.3%); A (23.1%); BBB (21.9%); and BB and lower (13.9%).

Fixed-income assets were mainly concentrated in insured bonds (22.6%) and revenue bonds (77.4%). With revenue bonds, interest and principal are derived from the particular asset the bond was issued to finance. For example, a bond issued to finance a utility would be paid from the fees the utility charges its customers. Only 1.2% of fixed-income assets were in general obligation bonds, which are backed by the taxing power of the municipality that issues them. In terms of industry exposure, fixed-income assets were invested in health care (28.9%), housing (1.0%), pollution control (1.4%), transportation (6.0%), water and sewer (5.1%), among others.

During the period, short-term interest rates declined, but long-term rates remained relatively high. The historically low short-term rates enabled the Trust to borrow funds inexpensively to invest in additional long-term municipal bonds. This leveraging strategy helped augment the Trust's income. At the end of the fiscal period on November 30, 2004, about 32% of the fixed-income portion of the Trust was leveraged, giving a boost to performance. About 60% of the Trust's leverage has been hedged for five years.

At period-end approximately 47% of the Trust's assets were invested in equities, with 27% in common stocks and 20% in preferred stocks. We sought companies with long-term records of dividend payouts in the highest yielding areas of the market, such as financials (40.6% of equity net assets) and utilities (28.5% of equity net assets). We also invested in telecommunications (6.4% of equity net assets), consumer staples (5.8% of equity net assets), materials (5.7% of equity net assets), health care (4.6% of equity

(continued)

net assets) and energy (3.8% of equity net assets). The energy and utilities sectors were the strongest performing areas of the market, and the Trust's investments in Duke Energy and Southern were significant contributors to performance. The Trust's return was also enhanced by Bank of America, one of our largest common equity holdings, as well as positions in Lyondell Chemical and Eastman Chemical, which paid attractive dividends and were well positioned to take advantage of the improving economy. The Trust's tobacco holdings posted impressive returns; however, to manage risk only 2.3% of net assets were invested in tobacco over the period.

Q: What detracted from performance?

A: In the first few months of the period, performance was held back when bond prices declined and yields rose because investors were concerned about the prospects for higher inflation and rising interest rates. Later on, however, when it became clear that the economic expansion would proceed at a moderate pace and interest rates would remain relatively low, bond prices rose, benefiting the Trust's return.

On the equity side, our investments in the pharmaceutical industry (2.1% of net assets) detracted from results. We had a position in Merck that lost value when it removed from the market its COX-II pain relief drug Vioxx. We took advantage of the downturn in Merck's stock price to add to our position in the company. In our opinion, Merck remains a solid pharmaceutical company with the potential to maintain its record of consistent dividend payouts.

Q: What is your outlook over the next several months?

A: As we look ahead to 2005, we expect the current economic backdrop of moderate growth and relatively low interest rates to continue. We believe this type of environment should be positive for the high quality municipal bonds in the portfolio. It should also be supportive of our equity investments, which emphasize well established companies that continue to benefit from improving business prospects.

Pioneer Tax Advantaged Balanced Trust

NOTES TO FINANCIAL STATEMENTS 11/30/04

1. Organization and Significant Accounting Policies

Pioneer Tax Advantaged Balanced Trust (the "Trust") was organized as a Delaware business trust on October 16, 2003. Prior to commencing operations on January 28, 2004, the Trust had no operations other than matters relating to its organization and registration as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, and the sale and issuance to Pioneer Funds Distributor, Inc., an affiliate of Pioneer Investment Management, Inc. ("PIM"), the Trust's investment adviser, a wholly owned indirect subsidiary of UniCredito Italiano S.p.A. (UniCredito Italiano), of 6,981 shares of beneficial interest at an aggregate purchase price of \$100,003. PIM has paid all the Trust's organizational expenses. The investment objective of the Trust is to provide a high level of total after-tax return, including attractive tax-advantaged income.

The Trust may invest in municipal securities with a broad range of maturities and credit ratings, including both investment grade and below investment grade municipal securities. The Trust may also invest in common stocks and preferred securities that pay tax-qualified dividends. In addition, the Trust may invest in other securities, including debt instruments, real estate investment trusts ("REITS") and equity securities, that generate income taxable at ordinary income rates, rather than long-term capital gain rates.

The Trust invests in below investment grade (high yield) debt securities. Debt securities rated below investment grade are commonly referred to as "junk bonds" and are considered speculative. These securities involve greater risk of loss, are subject to greater price volatility, and are less liquid, especially during periods of economic uncertainty or change, than higher rated debt securities.

The Trust's financial statements have been prepared in conformity with U.S. accounting principles generally accepted in the United States of America that require the management of the Trust to, among other things, make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income, expenses and gains and losses on investments during the reporting period. Actual results could differ from those estimates. The following is a summary of significant

25

Pioneer Tax Advantaged Balanced Trust

accounting policies followed by the Trust in preparation of its financial statements, which are consistent with those generally accepted in the investment company industry:

A. Security Valuation

Security transactions are recorded as of trade date. Debt securities are valued at prices supplied by independent pricing services, which consider such factors as Treasury spreads, yields, maturities and ratings. Valuations may be supplemented by dealers and other sources, as required. Equity securities are valued at the last sale price on the principal exchange where they are traded. The value of interest rate swaps are determined by obtaining dealer quotations. Securities for which market quotations are not readily available are valued at their fair values as determined by, or under the direction of, the Board of Trustees. The Trust may also use the fair value of a security, including a non U.S. security, when the closing market price on the principal exchange where the security is traded no longer accurately reflects the value of the security as of the close of the exchange. As of November 30, 2004, the Trust had no fair valued securities.

Dividend income is recorded on the ex-dividend date, except that certain dividends from foreign securities where the ex-dividend date may have passed are recorded as soon as the Trust becomes aware of the ex-dividend data in the exercise of reasonable diligence. Discount and premium on debt securities are accreted or amortized daily, respectively, on an effective yield to maturity basis and are included in interest income. Interest income, including income on interest bearing cash accounts, is recorded on an accrual basis. Temporary cash investments are valued at amortized cost.

Gains and losses on sales of investments are calculated on the identified cost method for both financial reporting and federal income tax purposes.

B. Federal Income Taxes

It is the Trust's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income and net realized capital gains, if any, to its shareowners. Therefore, no federal income tax provision is required.

26

Pioneer Tax Advantaged Balanced Trust

The amounts and characterizations of distributions to shareowners for financial reporting purposes are determined in accordance with federal income tax rules. Therefore, the source of the Trust's distributions may be shown in the accompanying financial statements as either from or in excess of net investment income or net realized gain on investment transactions, or from paid-in capital, depending on the type of book/tax differences that may exist.

At November 30, 2004, the Trust reclassified \$329,251 to decrease undistributed net investment income and to decrease accumulated net realized

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

loss on investments. The reclassification has no impact on the net asset value of the Trust and presents the Trust's capital accounts on a tax basis.

At November 30, 2004, the Trust had a capital loss carryforward of \$6,830,525 which will expire in 2012 if not utilized.

The tax character of current year distributions paid to common and preferred shareowners during the period ended November 30, 2004 was as follows:

2004	

Distributions paid from:	
Tax-Exempt income	\$ 9,413,848
Ordinary income	8,165,700
Long-term capital gain	-

	\$17,579,548
	=====

The following shows the components of distributable earnings on a federal income tax basis at November 30, 2004.

2004	

Undistributed tax-exempt income	\$ 475,326
Undistributed ordinary income	412,584
Capital loss carryforward	(6,830,525)
Unrealized appreciation	15,371,827

Total	\$9,429,212
	=====

27

Pioneer Tax Advantaged Balanced Trust

NOTES TO FINANCIAL STATEMENTS 11/30/04

(continued)

The difference between book basis and tax basis unrealized appreciation is primarily attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities.

C. Automatic Dividend Reinvestment Plan

All common shareowners automatically participate in the Automatic Dividend Reinvestment Plan (the "Plan"), under which participants receive all dividends and capital gain distributions (collectively, "dividends") in full

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

and fractional common shares of the Trust in lieu of cash. Shareowners may elect not to participate in the Plan. Shareowners not participating in the Plan receive all dividends and capital gain distributions in cash. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notifying Mellon Investor Services LLC, the agent for shareowners in administering the Plan (the "Plan Agent"), in writing prior to any dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Whenever the Trust declares a dividend on common shares payable in cash, participants in the Plan will receive the equivalent in common shares acquired by the Plan Agent either (i) through receipt of additional unissued but authorized common shares from the Trust or (ii) by purchase of outstanding common shares on the New York Stock Exchange or elsewhere. If, on the payment date for any dividend, the net asset value per common share is equal to or less than the market price per share plus estimated brokerage trading fees ("market premium"), the Plan Agent will invest the dividend amount in newly issued common shares. The number of newly issued common shares to be credited to each account will be determined by dividing the dollar amount of the dividend by the net asset value per common share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance does not exceed 5%. If, on the payment date for any dividend, the net asset value per common share is greater than the market value ("market discount"), the Plan Agent will invest the dividend amount in common shares acquired in open-market purchases. There are no brokerage charges with respect to newly issued common shares. However, each participant will pay a pro rata share of brokerage trading fees incurred with

28

Pioneer Tax Advantaged Balanced Trust

respect to the Plan Agent's open-market purchases. Participating in the Plan does not relieve shareowners from any federal, state or local taxes which may be due on dividends paid in any taxable year. Shareowners holding Plan shares in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan.

2. Management Agreement

PIM manages the Trust's portfolio. Management fees are calculated daily at the annual rate of 0.60% of the Trust's average daily managed assets. "Managed assets" is the average daily value of the Trust's total assets minus the sum of the Trust's liabilities, which liabilities exclude debt related to leverage, short-term debt and the aggregate liquidation preference of any outstanding preferred shares. At November 30, 2004, \$292,664 was payable to PIM related to management fees.

In addition, under PIM's management and administration agreements, certain other services and costs are paid by the Trust. PIM has retained Princeton Administrators, L.P., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, to provide certain administrative services to the Trust on its behalf. The Trust pays Princeton Administrators, L.P. a monthly fee at an annual rate of 0.07% of the average daily value of the Trust's managed assets up to \$500 million and 0.03% for average daily managed assets in excess of \$500 million, subject to a minimum monthly fee of \$10,000.

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

Also, PIM has agreed for the first three years of the Trust's investment operations to limit the Trust's total annual expenses [excluding offering costs for common and preferred shares, interest expense, the cost of defending or prosecuting any claim or litigation to which the Trust is a party (together with any amount in judgment or settlement), indemnification expenses or taxes incurred due to the failure of the Trust to qualify as a regulated investment company under the Code or any other non-recurring or non-operating expenses] to 0.80% of the Trust's average daily managed assets. The dividend on any preferred shares is not an expense. Under the agreement, PIM may subsequently recover reimbursed expenses within three years of being incurred from the Trust if the Trust's total expenses are less than 0.80% of average managed assets. For the period ended, November 30, 2004, the Trust's expenses were not reduced under such arrangements.

29

Pioneer Tax Advantaged Balanced Trust

NOTES TO FINANCIAL STATEMENTS 11/30/04

(continued)

3. Transfer Agents

Pioneer Investment Management Shareholder Services, Inc. ("PIMSS"), a wholly owned indirect subsidiary of UniCredito Italiano, through a sub-transfer agency agreement with Mellon Investor Services LLC, provides substantially all transfer agent and shareowner services related to the Trust's common shares at negotiated rates. Deutsche Bank Trust Company Americas is the transfer agent, registrar, dividend paying agent and redemption agent with respect to the Trust's Auction Market Preferred Shares ("AMPS"). The Trust pays Deutsche Bank Trust Company Americas an annual fee, as is agreed to from time to time by the Trust and Deutsche Bank Trust Company Americas, for providing such services.

4. Interest Rate Swaps

The Trust may enter into interest rate swap transactions to attempt to protect itself from increasing dividend or interest expense on its leverage resulting from increasing short-term interest rates. The cost of leverage may rise with an increase in interest rates, generally having the effect of lower yields and potentially lower dividends to common shareowners. Interest rate swaps can be used to "lock in" the cost of leverage and reduce the negative impact that rising short-term interest rates would have on the Trust's leveraging costs.

An interest rate swap is an agreement between two parties, which involves exchanging floating rate and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of net interest payments between the parties. For financial reporting purposes, the Trust records the net receivable or payable for the net interest expected to be received or paid as net realized gains or losses from interest rate swaps in the Statement of Operations. During the term of the swap, changes in the value of the swap are recognized as unrealized gains and losses by "marking-to-market" to reflect the market value of the swap. When the swap is terminated, the Trust will record a realized gain or loss equal to the difference, if any, between the proceeds from (or cost of) the closing contract and the cost basis of the contract. The Trust is exposed to credit risk in the event of non-performance by the other party to the interest rate swap. However, the Trust does not anticipate non-performance by any counterparty.

30

31

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

Pioneer Tax Advantaged Balanced Trust

Under the terms of the agreement entered into by the Trust, the Trust receives a floating rate of interest and pays a fixed rate of interest for the term. Details of the swap agreement outstanding as of November 30, 2004 were as follows:

Counterparty	Termination Date	Notional Amount (000)	Fixed Rate	Floating Rate	Unrealized Appreciation
UBS AG	Sept. 1, 2009	\$106,000	2.855%	1 month BMA	\$963,116

5. Trust Shares

There are an unlimited number of common shares of beneficial interest authorized. Of the 28,706,981 common shares of beneficial interest outstanding at November 30, 2004, PIM owned 6,981 shares.

Transactions in common shares of beneficial interest for the period January 28, 2004 (commencement of investment operations) to November 30, 2004 were as follows:

Shares issued in connection with initial public offering	25,600,000
Shares issued from underwriters' over-allotment option exercised	3,100,000

Net increase in shares outstanding	28,700,000
Shares outstanding at beginning of period	6,981

Shares outstanding at end of period	28,706,981

Offering costs of \$851,752 incurred in connection with the Trust's offering of common shares have been charged to paid-in capital.

The Trust may classify or reclassify any unissued common shares of beneficial interest into one or more series of preferred shares of beneficial interest. On April 12, 2004, the Trust reclassified and issued 7,050 shares of common shares into three series of Auction Market Preferred Shares ("AMPS") as follows: Series T7 - 2,350, Series F7 - 2,350 and Series TH28 - 2,350. Offering costs of \$253,194 and underwriting discounts of \$1,762,500 have been charged to paid-in capital.

Dividends on Series T7 AMPS and Series F7 AMPS are cumulative at a rate which is reset every seven days based on the results of an auction. Dividends on

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

Series TH28 AMPS are also cumulative at a

31

Pioneer Tax Advantaged Balanced Trust

NOTES TO FINANCIAL STATEMENTS 11/30/04

(continued)

rate reset every 28 days based on the results of an auction. Dividend rates ranged from 1.05% to 2.09% during the period from April 12, 2004 to November 30, 2004.

The Trust may not declare dividends or make other distributions on its common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding preferred shares would be less than 200%.

The AMPS are redeemable at the option of the Trust, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared. The AMPS are also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Trust as set forth in the Agreement and Declaration of Trust are not satisfied.

The holders of AMPS have voting rights equal to the holders of the Trust's common shares (one vote per share) and will vote together with holders of the common shares as a single class. However, holders of AMPS are also entitled to elect two of the Trust's Trustees. In addition, the Investment Company Act of 1940, as amended, requires that along with approval by shareowners that might otherwise be required, the approval of the holders of a majority of any outstanding preferred shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the preferred shares and (b) take any action requiring a vote of security holders, including, among other things, changes in the Trust's subclassification as a closed-end investment company or changes in its fundamental investment restrictions.

6. Subsequent Events

Subsequent to November 30, 2004 the Board of Trustees of the Trust declared two dividends from undistributed net investment income of \$0.0687 per common share one payable December 31, 2004 and one January 19, 2005 to common shareowners of record on December 13, 2004 and December 31, 2004, respectively.

For the period December 1, 2004 to December 31, 2004, dividends declared on preferred stock totaled \$339,787 in aggregate for the three outstanding preferred share series.

PIONEER FUNDS

APPROVAL OF AUDIT, AUDIT-RELATED, TAX AND OTHER SERVICES PROVIDED BY THE INDEPENDENT AUDITOR

SECTION I - POLICY PURPOSE AND APPLICABILITY

The Pioneer Funds recognizes the importance of maintaining the independence of their outside auditors. Maintaining independence is a shared responsibility involving Pioneer Investment Management, Inc ("PIM"), the audit committee and the independent auditors.

The Funds recognizes that a Fund's independent auditors: 1) possess knowledge of the Funds, 2) are able to incorporate certain services into the scope of the audit, thereby avoiding redundant work, cost and disruption of Fund personnel and processes, and 3) have expertise that has value to the Funds. As a result, there are situations where it is desirable to use the Fund's independent auditors for services in addition to the annual audit and where the potential for conflicts of interests are minimal. Consequently, this policy, which is intended to comply with Rule 210.2-01(C) (7), sets forth guidelines and procedures to be followed by the Funds when retaining the independent audit firm to perform audit, audit-related tax and other services under those circumstances, while also maintaining independence.

Approval of a service in accordance with this policy for a Fund shall also constitute approval for any other Fund whose pre-approval is required pursuant to Rule 210.2-01(c) (7) (ii).

In addition to the procedures set forth in this policy, any non-audit services that may be provided consistently with Rule 210.2-01 may be approved by the Audit Committee itself and any pre-approval that may be waived in accordance with Rule 210.2-01(c) (7) (i) (C) is hereby waived.

Selection of a Fund's independent auditors and their compensation shall be determined by the Audit Committee and shall not be subject to this policy.

(f) If greater than 50 percent, disclose the percentage of hours expended on the principal accountant's engagement to audit the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons other than the principal accountant's full-time, permanent employees.

(g) Disclose the aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for each of the last two fiscal years of the registrant.

The Fund's independent auditor, Ernst & Young LLP ("E&Y"), recently has advised the Securities and Exchange Commission, the Public Company Accounting Oversight Board, and the Audit Committee of the Fund's Board of Trustees that certain non-audit work performed by E&Y's China affiliate has raised questions regarding E&Y's independence with respect to its performance of audit services for the Fund. In July 2004, E&Y became aware that member firms in China ("E&Y China") provided certain tax services to offices of UniCredito Italiano, S.p.A. ("UCI"), a member of the Fund's Investment Company Complex. The services included receipt and disbursement of monies transferred to E&Y China by UCI in payment of individual expatriate income taxes due on returns prepared by E&Y China for certain UCI employees located in China from October 1998 to May 2003. E&Y became auditors of the Fund in May 2002. These expatriate tax services were discontinued in May 2003. The fees received by E&Y China for all such services totaled \$3,685.

The Fund's Audit Committee and E&Y have discussed the matter, including the nature of the services provided, the personnel involved in providing the services and the fees received by E&Y for performing the services. The Committee continues to review the facts and circumstances surrounding the matter, including the issue of whether the monies transferred for employees' taxes were de facto monies due the employees for tax payments rather than monies belonging to UCI. E&Y has informed the Audit Committee that based on its internal reviews and the de minimis nature of the services provided and fees received, it does not believe its independence with respect to the Fund has been impaired.

Edgar Filing: PIONEER TAX ADVANTAGED BALANCED TRUST - Form N-CSR

Aggregate Non-Audit Fees

The aggregate non-audit fees for the Trust and affiliates, as previously defined, totaled \$19,000 in 2004.

(h) Disclose whether the registrant's audit committee of the board of trustees has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Non-Audit Services

Beginning with non-audit service contracts entered into on or after May 6, 2003, the effective date of the new SEC pre-approval rules, the Trusts audit committee is required to pre-approve services to affiliates defined by SEC rules to the extent that the services are determined to have a direct impact on the operations or financial reporting of the Trust. For the year ended November 30, 2004, there were no services provided to an affiliate that required the Trusts audit committee pre-approval.

The Trust's audit committee of the Board of Trustees has considered whether the provision of non-audit services that were rendered to the Affiliates (as defined) that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.
