Prospect Capital Announces Pricing of \$225 Million of 4.95% Convertible Notes due 2022

NEW YORK, Apr. 6, 2017 (GLOBE NEWSWIRE) -- Prospect Capital Corporation (NASDAQ: PSEC) (“Prospect”, “our”, or “we”) announced today the pricing of \$225 million in aggregate principal amount of senior unsecured 4.95% Convertible Notes Due 2022 (the “Notes”).

The Notes will be convertible into shares of Prospect’s common stock based on an initial conversion rate of 100.2305 shares of Prospect’s common stock per \$1,000 principal amount of Notes, which is equivalent to an initial conversion price of approximately \$9.98 per share of common stock, representing a 10% conversion premium over the last reported sale price of Prospect’s common stock on April 5, 2017 which was \$9.07 per share. The conversion price for the Notes will not be reduced for monthly cash dividends paid to common shares at or below the rate of \$0.08333 per share, subject to anti-dilution and other adjustments.

The Notes will mature on July 15, 2022, unless previously converted, repurchased or redeemed in accordance with their terms. Interest on the Notes will be payable semi-annually in arrears on January 15 and July 15 of each year, commencing on July 15, 2017. The Notes will be general unsecured obligations of Prospect, will rank equally in right of payment with Prospect’s existing and future senior unsecured debt, and will rank senior in right of payment to any potential subordinated debt, should any be issued in the future.

Prospect expects to use a portion of the net proceeds from the sale of the Notes to repurchase from time to time a portion of its 5.375% Convertible Senior Notes due 2017 (the “2017 Notes”) and its 5.75% Convertible Senior Notes due 2018 (the “2018 Notes”). As of April 4, 2017, the estimated asset coverage of the 2017 Notes and the 2018 Notes was 4701% and 3044%, respectively, accounting solely for the issuance of Prospect Capital InterNotes®. Prospect’s most recently approved net asset value was as of December 31, 2016. The asset coverage ratio is the amount of our total assets, less all our liabilities and indebtedness not represented by senior securities (as defined in the Investment Company Act of 1940), divided by the amount of such 2017 Notes or 2018 Notes, as applicable. Accordingly, we advise you that our actual asset coverage ratio may differ materially from these estimates, which are given only as of April 4, 2017, as a result of the completion of our financial closing procedures, final adjustments and other developments, including changes in the businesses to whom we have made loans. This information is inherently uncertain. Prospect intends to use the remainder of the net proceeds of the offering to invest in high quality short term debt investments, and/or make long term investments in accordance with its investment objective. The Notes have no restrictions related to the type and security of assets in which Prospect might invest.

Goldman, Sachs & Co. served as the sole underwriter for the offering.
