1) ENERGY SALES

1.1) Sales within the Distributors' Concession Area

In 2Q11, sales within the concession area, achieved by the distribution segment, totaled 13,404 GWh, an increase of 2.7%.

Sales within the Concession Area - GWh						
	2Q11	2Q10	Var.	1H11	1H10	Var.
Captive Market	9,680	9,761	-0.8%	19,663	19,602	0.3%
TUSD	3,724	3,290	13.2%	7,223	5,911	22.2%
Total	13,404	13,051	2.7%	26,885	25,513	5.4%

Sales to the captive market totaled 9,680 GWh, a decrease of 0.8%.

The energy volume in GWh consumed by free customers in the distributors' operational areas, billed through the Distribution System Usage Tariff (TUSD), rose by 13.2% to 3,724 GWh, reflecting the migration of customers to the free market.

1.1.1) Sales to the Captive Market

Captive Market - GWh						
	2Q11	2Q10	Var.	1H11	1H10	Var.
Residential	3,256	3,187	2.2%	6,716	6,471	3.8%

Total	9,680	9,761	-0.8%	19,663	19,602	0.3%

Note: The captive market sales by distributor tables are attached to this report in item 11.7.

In the captive market, emphasis is given to the growths of the residential and commercial classes, which jointly accounted for 53.6% of total consumption by the distributors' captive consumers:

- **Residential and commercial classes:** up by 2.2% and 3.6%, respectively, negatively impacted by fewer billing days (on average minus 2.4 and 2.1 days, respectively) and lower temperatures in the quarter (specially in June 2011). Excluding these factors, the growth of these classes would have been 6.6% and 7.3% respectively, favored by the accumulated effects of economic growth (increase of income levels, purchasing power of consumers and credit concessions) over recent years.
- **Industrial class:** down by 10.7%, due to the migration of customers to the free market.

1.2) Commercialization and Generation Sales – Excluding Related Parties

	Commercialization and Generation Sales - GWh					
	2Q11	2Q10	Var.	1H11	1H10	Var.
Total	2,882	2,953	-2.4%	5,873	6,015	-2.3%

Note: Exclude sales to related parties and in the CCEE. Considers Furnas (Semesa) and other generation sales outside the group, except Epasa's sales (availability contract).

In 2Q11, commercialization and generation sales moved down by 2.4% to 2,882 GWh, mainly due to the decrease in sales through commercialization's short-term bilateral contracts, effective in 2010. However, the sales to free customers rose, due to the increase in the number of customers in the portfolio this year (from 98 to 130).

2) ECONOMIC-FINANCIAL PERFORMANCE

Net Income	294,083	359,770	-18.3%	759,958	847,633	-10.3%

2.1) Operating Revenue

Gross operating revenue in 2Q11 reached R\$ 4,515 million, representing an increase of 7.0% (R\$ 295 million). Excluding the revenue from building the infrastructure of the concession (which does not affect the results because of the related cost, in the same amount), gross operating revenue would have amounted to 4,265 million, an increase of 7.5% (R\$ 298 million).

Deductions from the operating revenue were R\$ 1,471 million, representing an increase of 8.7% (R\$ 118 million), mainly due to the following upturns: (i) taxes on revenue (R\$ 60 million); (ii) CCC and CDE sector charges (R\$ 54 million); and (iii) amounts related to the R&D and energetic efficiency program (R\$ 13 million). The increase in the deductions from the operating revenue was partially offset by the following downturns: (i) amounts related to Proinfra (R\$ 5 million); and (ii) global reversal reserve - RGR (R\$ 4 million).

Net operating revenue reached R\$ 3,045 million in 2Q11 an increase of 6.2% (R\$ 177 million). Excluding the revenue from building the infrastructure of the concession, net operating revenue would have amounted to 2,794 million, an increase of 6.9% (R\$ 180 million).

The upturn in operating revenue was mainly caused by the following factors:

- Tariff adjustments of the distribution companies;
- Increase of 24.0% (R\$ 63 million) in the gross revenue of TUSD from free customers, mainly due to the migration of captive customers to the free market;
- Additional net revenue, in the amount of R\$ 66 million: (i) from Chapecoense, due to the beginning of

the contract of Foz do Chapecó Hydroelectric Facility in October 2010; (ii) from CPFL Bioenergia, due to the beginning of the operations, in August 2010; and (iii) from Epasa conclusion in January 2011.

The upturn in operating revenue was partially offset by the 0.8% reduction in the sales volume to the captive market.

2.2) Cost of Electric Energy

The cost of electric energy, comprising the purchase of electricity for resale and charges for the use of the distribution and transmission system, amounted to R\$ 1,524 million in 2Q11, representing an increase of 1.0% (R\$ 15 million):

- The cost of electric power purchased for resale in 2Q11 was R\$ 1,216 million, representing a decrease of 0.1% (R\$ 1.4 million), due to the following effects:

(i) Decrease in the cost of energy from Itaipu (R\$ 25.4 million), due to the reduction of 12.7% in the average purchase price, caused by the lower foreign exchange rates, partially offset by the increase of 3.1% (81 GWh) in the volume of purchased energy;

(ii) Decrease in the cost of energy purchased through bilateral contracts (R\$ 13.8 million), caused by the reduction of 9.4% (878 GWh) in the volume of purchased energy, partially offset by the increase of 8.9% in the average purchase price;

(iii) Decrease in the PROINFA cost (R\$ 2.8 million), due to the 51.0% (135 GWh) reduction in the average purchase price, partially offset by the increase of 91.5% in the volume of purchased energy.

Partially offsetting:

(i) Increase in the cost of energy purchased in the short term (R\$ 38.4 million), due to the rise in the average purchase price and to the rise of 131.6% (630 GWh) in the volume of purchased energy;

(ii) Decrease in Pis and Cofins tax credits (R\$ 2.2 million), generated from the energy purchase.

The net reduction of 302 GWh in the volume of purchased energy is due to the increase of purchases within CPFL Group.

- Charges for the use of the transmission and distribution system reached R\$ 309 million in 2Q11, a 5.6% increase (R\$ 16 million), mainly due to the following factors:

(i) Increase in the basic network charges (R\$ 18 million), due to, among other factors, the amounts due by Epasa related to 2010 (R\$ 6 million) – **non-recurring item**;

(ii) Increase in the connection charges (R\$ 5 million);

(iii) Increase in the charges for the use of the distribution system (R\$ 3 million);

(iv) Increase in the system service usage charges - ESS (R\$ 1 million);

(v) Reduction in the Pis and Cofins tax credits (R\$ 3 million), generated from the charges for the use of the transmission and distribution.

Partially offsetting:

(i) Decrease in the reserve energy charges (R\$ 13 million);

(ii) Decrease in Itaipu charges (R\$ 1 million).

2.3) Operating Costs and Expenses

Operating costs and expenses were R\$ 884 million in 2Q11, a 23.8% increase (R\$ 170 million) due to the following factors:

- The PMSO item reached R\$ 455 million in 2Q11, an increase of 45.2% (R\$ 142 million), mainly due to the following factors (that need to be excluded for comparison purposes):

- (i) **Non-recurring** increase on Personnel Expenses due to the Incentivated Retirement Program – *PAI* (R\$ 48 million);

- ü 445 adherences, of wich 130 employees quit immediately and 315 will resign until the end of 2011;

- ü Dismissal costs: R\$ 47.5 million (of which R\$ 10.2 million were accomplished and R\$ 37.3 million were accrued);

ü Benefit: permanent reduction in the wages of this group of employees by 43%, through the review of process and replament criteria;

ü Pay back: 2.5 years.

(ii) Increase in legal and judicial expenses and indemnities of CPFL Paulista, due to the **non-recurring** decrease in 2Q10 regarding to the reversal of the provision related to the liabilities of Pis/Cofins credits on sector charges (R\$ 40 million);

(iii) **Non-recurring** effect related to the provision for contingency of ISS taxes on services, at Enercan (R\$ 10 million);

(iv) Expenses with physical inventory of assets, in accordance with Aneel's Resolution No. 367/09 (R\$ 11 million), in the controlled companies CPFL Paulista (R\$ 5.1 million), CPFL Piratininga (R\$ 2.9 million), CPFL Santa Cruz (R\$ 1.4 million), CPFL Sul Paulista (R\$ 0.6 million), CPFL Leste Paulista (R\$ 0.4 million), CPFL Mococa (R\$ 0.6 million) and CPFL Jaguari (R\$ 0.3 million);

(v) Commercial start-up of Foz do Chapecó Hydroelectric Facility, Baldin Thermoelectric Facility and Epasa - Termonordeste and Termoparaíba Thermoelectric Facilities (R\$ 10 million).

Excluding these effects, PMSO for 2Q11 would have totaled R\$ 377 million and PMSO for 2Q10 would have been R\$ 353 million, an increase of 6.7% (R\$ 24 million), compared to the IGP-M index of 8.6% (for the last 12 months).

The principal factors explaining the variation in PMSO, following the exclusion of the effects already mentioned were:

(i) Personnel expenses, which reported an increase of 7.1% (R\$ 10 million) principally due to the following effects: (i) Collective Bargaining Agreement for 2010 (affecting April and May) and for 2011 (affecting June) (R\$ 8 million); and (ii) business expansion of CPFL Atende (R\$ 2 million);

(ii) Expenses with material, which registered an increase of 12.1% (R\$ 2 million);

(iii) Out-sourced services expenses, which registered an increase of 11.6% (R\$ 13 million) mainly due to the increase in auditing and consulting expenses (R\$ 12 million);

The increase in PMSO was partially offset by the 2.3% decrease in the other operating costs/expenses (R\$ 1 million).

• The Depreciation and Amortization items which represented a net increase of 18.4% (R\$ 31 million), mainly due to the following effects:

(i) Increase at CPFL Geração (R\$ 27 million), mainly due to: (i) the **non-recurring** accounting adjustments in the facilities (R\$ 7 million); and (ii) the commercial start-up of Foz do Chapecó Hydroelectric Facility (R\$ 14 million) and Epasa - Termonordeste and Termoparaíba Thermoelectric Facilities (R\$ 4 million);

- (ii) Increase at CPFL Paulista (R\$ 6 million), mainly due to the new billing system amortization.

The cost of building the infrastructure of the concession (which does not affect the results because of the related revenue, in the same amount), reached R\$ 250 million in 2Q11, representing a decrease of 1.0% (R\$ 3 million). This amount has its counterpart in the “operating revenue”;

2.4) Regulatory Assets and Liabilities

The regulatory assets and liabilities, which are no longer registered, in accordance with the pronouncements issued by the Accounting Pronouncements Committee (CPC) and the international practices (IFRS), represented a revenue of R\$ 3 million in 2Q10 (net of the non-recurring effects related to the recalculation of the 2009 Tariff Adjustment Index - *IRT* - of RGE) and a cost of R\$ 0.6 million in 2Q11 (net amounts). The amounts related to the deferral of the regulatory assets and liabilities will be passed through the tariffs in the next tariff readjustment, through the financial components. The amounts related to the amortization are reflected in the tariffs of each period.

2.5) EBITDA

Based on the above factors, 2Q11 **EBITDA (IFRS)** reached R\$ 815 million, registering a 2.9% increase (R\$ 23 million).

Considering the regulatory assets and liabilities and excluding the non-recurring effects, the **EBITDA (IFRS + Regulatory Assets and Liabilities - Non-recurring effects)** would have totaled R\$ 755 million in 2Q10 and R\$ 877 million in 2Q11, an increase of 16.2% (R\$ 122 million).

2.6) Financial Result

The 2Q11 net financial expense was R\$ 182 million, a 116.4% increase (R\$ 98 million) compared with the net financial expense of R\$ 84 million reported in 2Q10.

The items explaining these changes are as follows:

- Financial Revenues: an increase of 23.2% (R\$ 24 million) from R\$ 102 million in 2Q10 to R\$ 126 million in 2Q11, mainly as a result of the increase in the following items: (i) income from financial investments (R\$ 14 million), due to the increase in the income balance and to the increase in the CDI Interbank rate; (ii) increases and moratorium fines (R\$ 7 million); and (ii) monetary restatements and currency variations (R\$ 6 million).
- Financial Expenses: an increase of 65.4% (R\$ 122 million) from R\$ 186 million in 2Q10 to R\$ 308 million in 2Q11, mainly due to the following factors:
 - (i) Upturn in debt charges (R\$ 62 million) as a result of the increase in the debt balance and the increase in the CDI Interbank rate, from 2.2% in 2Q10 to 2.8% in 2Q11 (R\$ 42 million);
 - (ii) Financial expense related to the commercial start-up of Foz do Chapecó Hydroelectric Facility, Epasa - Termonordeste and Termoparaíba Thermolectric Facilities and Baldin Thermolectric Facility (CPFL Bioenergia) (R\$ 26 million);
 - (iii) Financial update of the Use of Public Assets (UBP) (R\$ 26 million), including the **non-recurring** accounting adjustments related to the UBP re-calculation of the facilities (R\$ 13million);
 - (iv) Increase in the financial expense caused by the **non-recurring** reduction in monetary restatements and currency variations in **2Q10**, due to the monetary update of the liabilities of Pis/Cofins credits on sector charges (R\$ 4 million), being R\$ 16 million related to the provision reversal at CPFL Paulista, partially offset by the R\$ 12 million update at CPFL Piratininga.

2.7) Net Income

Net income (IFRS) in 2Q11 was R\$ 294 million, a decrease of 18.3% (R\$ 66 million).

2Q11 Results | August 10, 2011

Excluding the amount related to the non-controlling shareholders, the net income (IFRS) would have totaled R\$ 288 million, a decrease of 18.9% (R\$ 67 million), compared to the net income of R\$ 355 million in 2Q10.

Considering the regulatory assets and liabilities, including the effects on the financial result, (net of taxes) and excluding the non-recurring effects, the **net income (IFRS + regulatory assets and liabilities – non-recurring effects)** would have totaled R\$ 335 million in 2Q10 and in 2Q11, an increase of 0.2% (R\$ 0.7 million).

3) DEBT

3.1) Financial Debt (Including Hedge)

CPFL Energia's financial debt (including hedge) increased by 52.9% to R\$ 12,386 million in 2Q11. The main contributing factors to the variation in the balance of financial debt were:

- CPFL Brasil, CPFL Geração and Generation Projects: funding (BNDES and other financial institutions), net of amortizations, totaling R\$ 2,312 million, with the following highlights:
 - + Debentures issuances by CPFL Brasil (2nd Issue of R\$ 1,320 million), CPFL Geração (4th Issue of R\$ 680 million), EPASA (2nd Issue of R\$ 204 milhões), ENERCAN (R\$ 53 million) and BAESA (R\$ 9 million), for debt rollover, investments funding and acquisition of Jantus' equity;
 - + Funding of BNDES financing for CPFL Brasil (R\$ 197 million), CPFL Geração (R\$ 80 million), Foz do Chapecó (R\$ 35 million), CPFL Bioenergia (R\$ 18 million) and CPFL Sul Centrais Elétricas (R\$ 7 million);
 - + Funding of BNB financing for Epasa (R\$ 97 milhões);
 - + Funding of working capital by Foz do Chapecó (R\$ 25 million);
 - Amortizations of the principal of Epasa (1st Issue of R\$ 230 million) and BAESA's debentures (R\$ 8 million);

3.2) Total Debt (Financial Debt + Hedge + Debt with the Private Pension Fund)

Total debt, comprising financial debt, hedge (asset/liability) and debt with the private pension fund, amounted to R\$ 12,911 million in 2Q11, growth of 47.1%. The nominal average cost of debt rose from 9.5% p.a. in 2Q10 to 11.4% p.a. in 2Q11, due to the upturn in the CDI interbank rate (from 8.8% to 11.0%), and in the IGP-M (from 5.2% to 8.6%) (accrued rates in the last 12 months). The real average cost remained stable.

As a result of the funding operations and amortizations, there was an increase in the CDI-pegged portion (from 60.0%, in 2Q10, to 68.0%, in 2Q11) and prefixed (from 1.0%, in 2Q10, to 3.5%, in 2Q11), and a decrease in the portion tied to the TJLP-indexed portion (from 32.5%, in 2Q10, to 23.9%, in 2Q11) and the IGP-M/IGP-DI (from 5.3%, in 2Q10, to 4.3%, in 2Q11).

The foreign-currency and TJLP debt would have come to 4.1% and 25.0% of the total, respectively, if banking hedge operations had been excluded. However, as we consider contracted swap operations, which convert the indexation of debt in foreign-currency and TJLP to the CDI, the effective foreign-currency and TJLP debt is 0.3% (all of this possesses a natural hedge) and 23.9%, respectively.

3.3) Adjusted Net Debt

(=) Adjusted Net Debt	(7,938,221)	(6,936,189)	14.4%

Note: (1) Related to the income tax of CPFL Paulista.

In 2Q11, adjusted net debt totaled R\$ 7,938 million, an upturn of 14.4% (R\$ 1,002 million).

The Company closed 2Q11 with a Net Debt / EBITDA ratio of 2.33x. Excluding the balance of the debt of CPFL Bio Formosa (Bio Formosa Thermoelectric Facility), CPFL Bio Buriti (Bio Buriti Thermoelectric Facility), CPFL Bio Pedra (Bio Pedra Thermoelectric Facility) and Santa Clara Wind Farm, which are under construction and have not started generating EBITDA to the group, the Net Debt / EBITDA would have been 2.13x.

3.4) New Funding

In June 2011, the contracting of loans to the controlled companies CPFL Paulista, CPFL Piratininga, CPFL Geração, CPFL Sul Paulista, CPFL Leste Paulista, CPFL Mococa and CPFL Jaguarí were approved, with the provision of security by CPFL Energia.

The financing was contracted through Law 4,131/62, in the total amount of up to R\$ 1,210 million, for a period between 3 and 5 years (amortized only at maturity and with interest paid on a half-yearly basis). The amounts by company are as follows: (i) CPFL Paulista: up to R\$ 740 million; (ii) CPFL Piratininga: up to R\$ 340 million; (iii) CPFL Geração: up to R\$ 100 million; (iv) CPFL Sul Paulista: up to R\$ 8 million; (v) CPFL Leste Paulista: up to R\$ 8 million; (vi) CPFL Mococa: up to R\$ 7 million; and (vii) CPFL Jaguarí: up to R\$ 7 million.

In July 2011, the disbursements for CPFL Paulista and CPFL Piratininga occurred, in the amounts of R\$ 740 million and R\$ 243 million, respectively, with average cost of 100% of CDI.

Operating Revenue

Gross operating revenue in 2Q11 reached R\$ 4,089 million, representing an increase of 6.8% (R\$ 259 million). Excluding the revenue from building the infrastructure of the concession (which does not affect the results because of the related cost, in the same amount), gross operating revenue would have amounted to 3,839 million, an increase of 7.3% (R\$ 262 million).

Deductions from the operating revenue were R\$ 1,429 million, representing an increase of 8.5% (R\$ 111 million), mainly due to the following upturns: (i) taxes on revenue (R\$ 53 million); (ii) CCC and CDE sector charges (R\$ 54 million); and (iii) amounts related to the R&D and energetic efficiency program (R\$ 42 million). The increase in the deductions from the operating revenue was partially offset by the following downturns: (i) amounts related to Proinfa (R\$ 34 million); and (ii) global reversal reserve - RGR (R\$ 3 million).

Net operating revenue reached R\$ 2,661 million in 2Q11 an increase of 5.9% (R\$ 148 million). Excluding the revenue from building the infrastructure of the concession, net operating revenue would have amounted to 2,410 million, an increase of 6.7% (R\$ 151 million).

The upturn in operating revenue was mainly caused by the following factors:

- Tariff adjustments of the distribution companies;
- Increase of 23.5% (R\$ 62 million) in the gross revenue of TUSD from free customers, mainly due to the migration of captive customers to the free market.

The upturn in operating revenue was partially offset by the 0.8% reduction in the sales volume to the captive market.

Cost of Electric Power

The cost of electric energy, comprising the purchase of electricity for resale and charges for the use of the distribution and transmission system, amounted to R\$ 1,534 million in 2Q11, representing an increase of 4.4% (R\$ 65 million):

- The cost of electric power purchased for resale in 2Q11 was R\$ 1,245 million, representing an increase of 5.1% (R\$ 60 million), due to the following effects:

(i) Increase in the cost of energy purchased in the short term (R\$ 39.4 million), due to the rise in the average purchase price and to the rise of 149.5% (577 GWh) in the volume of purchased energy;

(ii) Increase in the cost of energy purchased through bilateral contracts (R\$ 52.1 million), caused by the increase of 11.9% in the average purchase price, partially offset by the reduction of 6.0% (481 GWh) in the volume of purchased energy.

Partially offsetting:

(i) Decrease in the cost of energy from Itaipu (R\$ 25.4 million), due to the reduction of 12.7% in the average purchase price, caused by the lower foreign exchange rates, partially offset by the increase of 3.1% (81 GWh) in the volume of purchased energy;

(ii) Decrease in the PROINFA cost (R\$ 2.8 million), due to the 51.0% (135 GWh) reduction in the average purchase price, partially offset by the increase of 91.5% in the volume of purchased energy.

(iii) Increase in Pis and Cofins tax credits (R\$ 2.9 million), generated from the energy purchase.

• Charges for the use of the transmission and distribution system reached R\$ 288 million in 2Q11, an increase of 1.6% (R\$ 4 million), mainly due to the following factors:

(i) Increase in the basic network charges (R\$ 7 million);

(ii) Increase in the charges for the use of the distribution system (R\$ 7 million);

(iii) Increase in the system service usage charges - ESS (R\$ 2 million);

(iv) Reduction in the Pis and Cofins tax credits (R\$ 3 million), generated from the charges for the use of the transmission and distribution.

Partially offsetting:

(i) Decrease in the reserve energy charges (R\$ 13 million);

(ii) Decrease in the connection charges (R\$ 1 million);

(iii) Decrease in Itaipu charges (R\$ 1 million).

Operating Costs and Expenses

Operating costs and expenses were R\$ 685 million in 2Q11, a 20.0% increase (R\$ 114 million) due to the following factors:

- The PMSO item reached R\$ 366 million in 2Q11, an increase of 44.2% (R\$ 112 million), mainly due to the following factors (that need to be excluded for comparison purposes):

- (i) **Non-recurring** increase on Personnel Expenses due to the Incentivated Retirement Program – *PAI* (R\$ 45 million);

- (ii) Increase in legal and judicial expenses and indemnities of CPFL Paulista, due to the **non-recurring** decrease in **2Q10** regarding to the reversal of the provision related to the liabilities of Pis/Cofins credits on sector charges (R\$ 40 million);

- (iii) Expenses with physical inventory of assets, in accordance with Aneel's Resolution No. 367/09 (R\$ 11 million), in the controlled companies CPFL Paulista (R\$ 5.1 million), CPFL Piratininga (R\$ 2.9 million), CPFL Santa Cruz (R\$ 1.4 million), CPFL Sul Paulista (R\$ 0.6 million), CPFL Leste Paulista (R\$ 0.4 million), CPFL Mococa (R\$ 0.6 million) and CPFL Jaguari (R\$ 0.3 million).

Excluding these effects, PMSO for 2Q11 would have totaled R\$ 310 million and PMSO for 2Q10

2Q11 Results | August 10, 2011

would have been R\$ 293 million, an increase of 5.7% (R\$ 17 million).

The principal factors explaining the variation in PMSO, after excluding the effects already mentioned were:

- (i) Personnel expenses, which reported an increase of 2.4% (R\$ 3 million) principally due to the Collective Bargaining Agreement for 2010 (affecting April and May) and for 2011 (affecting June) (R\$ 7 million), partially offset by reductions in provisions (R\$ 4 million);
- (ii) Expenses with material, which registered an increase of 5.0% (R\$ 1 million);
- (iii) Out-sourced services expenses, which registered an increase of 15.6% (R\$ 14 million) mainly due to the increase in expenses with: (i) auditing and consulting; (ii) assets maintenance; and (iii) delivery and charge of bills.

The increase in PMSO was partially offset by the 8.8% decrease in the other operating costs/expenses (R\$ 1 million).

- The Depreciation and Amortization items which represented a net increase of 5.6% (R\$ 5 million), mainly due to the increase at CPFL Paulista (R\$ 6 million), caused by the new billing system amortization.

The cost of building the infrastructure of the concession (which does not affect the results because of the related revenue, in the same amount), reached R\$ 250 million in 2Q11, representing a decrease of 1.0% (R\$ 3 million). This amount has its counterpart in the “operating revenue”;

Regulatory Assets and Liabilities

The regulatory assets and liabilities, which are no longer registered, in accordance with the pronouncements issued by the Accounting Pronouncements Committee (CPC) and the international practices (IFRS), represented a revenue of R\$ 3 million in 2Q10 (net of the non-recurring effects related to the recalculation of the 2009 Tariff Adjustment Index - *IRT* - of RGE) and a cost of R\$ 0.6 million in 2Q11 (net amounts). The amounts related to the deferral of the regulatory assets and liabilities will be passed through the tariffs in the next tariff readjustment, through the financial components. The amounts related to the amortization are reflected in the tariffs of each period.

EBITDA

Based on the mentioned factors, 2Q11 **EBITDA (IFRS)** reached R\$ 511 million, registering a 4.9% decrease (R\$ 26 million).

Considering the regulatory assets and liabilities and excluding the non-recurring effects, the **EBITDA (IFRS + Regulatory Assets and Liabilities - Non-recurring effects)** would have totaled R\$ 501 million in 2Q10

and R\$ 555 million in 2Q11, an increase of 10.8% (R\$ 54 million).

Financial Result

The 2Q11 net financial expense was R\$ 44 million, a 309.2% increase (R\$ 33 million) compared with the net financial expense of R\$ 11 million reported in 2Q10.

The items explaining these changes are as follows:

- Financial Revenues: an increase of 24.1% (R\$ 18 million) from R\$ 77 million in 2Q10 to R\$ 95 million in 2Q11, mainly as a result of the increase in the income from financial investments (R\$ 18 million), due to the rise in the income balance and to the rise in the CDI Interbank rate.

- Financial Expenses: an increase of 58.9% (R\$ 52 million) from R\$ 88 million in 2Q10 to R\$ 139 million in 2Q11, mainly due to the following factors:

(i) Upturn in debt charges (R\$ 42 million) as a result of the increase in the debt balance and the increase in the CDI Interbank rate, from 2.2% in 2Q10 to 2.8% in 2Q11 (R\$ 22 million);

(ii) Increase in the financial expense caused by the **non-recurring** reduction in monetary restatements and currency variations in **2Q10**, due to the monetary update of the liabilities of Pis/Cofins credits on sector charges (R\$ 4 million), being R\$ 16 million related to the provision reversal at CPFL Paulista, partially offset by the R\$ 12 million update at CPFL Piratininga.

Net Income

Net income (IFRS) in 2Q11 was R\$ 286 million, a decrease of 12.8% (R\$ 42 million).

Considering the regulatory assets and liabilities, including the effects on the financial result, (net of taxes) and excluding the non-recurring effects, the **net income (IFRS + regulatory assets and liabilities – non-recurring effects)** would have totaled R\$ 303 million in 2Q10 and R\$ 301 million in 2Q11, a decrease of 0.5% (R\$ 2 million).

EBITDA

In 2Q11, EBITDA totaled R\$ 52 million, a decrease of 21.9% (R\$ 15 million), mainly due to the reduction in the volume of energy sold.

Net Income

In 2Q11, net income amounted to R\$ 30 million, down by 31.9% (R\$ 14 million), mainly due to the increase in the net financial expenses.

10.3) Generation Segment

Operating Revenue

In 2Q11, gross operating revenue reached R\$ 370 million, representing an increase of 33.7% (R\$ 93 million), while net operating revenue moved up by 34.0% (R\$ 88 million) to R\$ 347 million. The increase in the net operating revenue was chiefly due to the additional revenue, in the amount of R\$ 66 million: (i) from Chapecoense, due to the commercial start-up of Foz do Chapecó Hydroelectric Facility, in October 2010; (ii) from CPFL Bioenergia, due to the beginning of the operations, in August 2010; and (iii) from Epasa (Termonordeste and Termoparaíba Thermoelectric Facilities), due to its conclusion, in January 2011.

Cost of Electric Power

In 2Q11, the cost of electric power increased 26.5% (R\$ 9 million) to R\$ 26 million, chiefly due to the energy acquisition by Epasa, in **2Q10**, to honour the commitments taken, while it had not started the operations of Termonordeste and Termoparaíba Thermoelectric Plants (R\$ 24 million).

Partially offsetting:

(i) Increase in the charges for the use of the transmission system related to Foz do Chapecó Hydroelectric Facility and to Epasa (R\$ 11 million), due to: (i) the commercial start-up of the facilities; and (ii) the amounts due by Epasa related to 2010 (R\$ 6 million) – **non-recurring item**;

(ii) Acquisition of 20 GWh of energy by Foz do Chapecó Hydroelectric Facility and by CPFL Bioenergia (R\$ 2 million).

Operating Costs and Expenses

In 2Q11, operating costs and expenses moved up by 75.6% (R\$ 56 million) to R\$ 130 million, chiefly due to the following factors:

- The PMSO item reached R\$ 59 million in 2Q11, an increase of 101.5% (R\$ 30 million), mainly due to the following factors (that need to be excluded for comparison purposes):

(i) **Non-recurring** increase on Personnel Expenses due to the Incentivated Retirement Program – *PAI* (R\$ 3 million);

(ii) **Non-recurring** effect related to the provision for contingency of ISS taxes on services, at Enercan (R\$ 10 million);

(iii) Commercial start-up of Foz do Chapecó Hydroelectric Facility, Baldin Thermoelectric Facility and Epasa - Termonordeste and Termoparaíba Thermoelectric Facilities (R\$ 10 million).

Excluding these effects, PMSO for 2Q11 would have totaled R\$ 37 million and PMSO for 2Q10 would have been R\$ 29 million, an increase of 25.3% (R\$ 7 million).

The principal factors explaining the variation in PMSO, following the exclusion of the effects already mentioned were:

(i) Personnel expenses, which reached R\$ 9 million, reporting an increase of 6.3% (R\$ 0.6 million) principally due to the Collective Bargaining Agreement for 2010 (affecting April and May) and for 2011 (affecting June);

(ii) Out-sourced services expenses, which reached R\$ 12 million, reporting an increase of 78.1% (R\$ 5 million) mainly due to the following factors: (i) increase in auditing and consulting expenses (R\$ 3 million); and (ii) technical employees reinforcing (R\$ 1.6 million);

(iii) Other operating costs/expenses, which reached R\$ 14 million, reporting an increase of 11.4% (R\$ 1.5 million) mainly due to the increase in the expenses with royalties (R\$ 3 million).

- The Depreciation and Amortization items which represented a net increase of 58.8% (R\$ 26 million), mainly due to: (i) the **non-recurring** accounting adjustments in the facilities (R\$ 7 million); and (ii) the commercial start-up of Foz do Chapecó Hydroelectric Facility (R\$ 14 million) and Epasa - Termonordeste and Termoparaíba Thermoelectric Facilities (R\$ 4 million).

EBITDA

In 2Q11, **EBITDA (IFRS)** was R\$ 262 million, an increase of 34.9% (R\$ 68 million).

Excluding the non-recurring effects, **EBITDA (IFRS – Non-recurring)** would have totaled R\$ 206 million in 2Q10 and R\$ 280 million in 2Q11, an increase of 36.2% (R\$ 75 million).

Financial Result

In 2Q11, net financial expense was R\$ 118 million, up by 87.3% (R\$ 55 million). The items explaining these changes are as follows:

- Financial Revenues: moved from R\$ 12 million in 2Q10 to R\$ 28 million in 2Q11 (R\$ 16 million increase), chiefly due to the upturn in revenue from financial investments (as a result of the increase in the balance of financial investments), and to the upturn in monetary restatements and currency variations;
- Financial Expenses: moved from R\$ 75 million in 2Q10 to R\$ 146 million in 2Q11 (R\$ 71 million increase), chiefly due to the additional expenses related to the commercial start-up of Foz do Chapecó Hydroelectric Facility (R\$ 43 million) and Epasa - Termonordeste and Termoparaíba Thermoelectric Facilities (R\$ 15 million).

Net Income

In 2Q11, **net income (IFRS)** was R\$ 61 million, a decrease of 8.3% (R\$ 5 million).

Excluding the non-recurring effects, the **net income (IFRS – Non-recurring)** would have totaled R\$ 65 million in 2Q10 and R\$ 87 million in 2Q11, an increase of 33.7% (R\$ 22 million).
