contributions, related to the application of the Basic and Alternative Plans of Service. Vivo - RJ, Vivo - RS and Vivo - DF had their authorizations extended by Act No. 54324 of November 28, 2005; No. 59121 of June 20, 2006; and No. 59120 of June 20, 2006, respectively.

The subsidiary's business and the services it may provide are regulated by the National Telecommunications Agency (ANATEL), the regulator for telecommunications services, in accordance with Law No. 9472 of July 16, 1997 and respective regulations, decrees, decisions and complementary plans.

On February 22, 2006, the General Shareholders' Meeting approved the absorption of shares of Tele Centro Oeste Celular Participações S/A ("TCO") to be converted into a wholly-owned subsidiary of Vivo Participações S/A and the merger of Tele Sudeste Celular Participações S/A ("TSD"), Tele Leste Celular Participações S/A ("TLE") and Celular "CRT" Participações S/A ("CRTPart") into the Company, as described in the Notice of a Material Fact dated December 4, 2005.

The results of the merged companies for the period from January 1 through February 22, 2006 are posted to the Company's results as established in the merger protocol.

Auction of share fractions

On April 19 and 24, 2006 auctions were held on the Sao Paulo Stock Exchange – BOVESPA to place again on the "Free Float" market 641,766 shares (310,366 common shares under code VIVO3 and 331,400 preferred shares under code VIVO4), corresponding to the fractions determined in the exchange of shares of Tele Sudeste Celular Participações S/A, Tele Centro Oeste Celular Participações S/A, Tele Leste Celular Participações S/A and Celular "CRT" Participações S/A for shares of Vivo Participações S/A resulting from the corporate restructuring approved by the Special Shareholders' Meeting of February 22, 2006. The amounts determined on the sale are at the disposal of the holders of these share fractions at any branch of Banco ABN Amro Real S/A, the depositary entity of the book-entry shares of Vivo Participações S/A.

Corporate restructuring

At the Special Shareholders' Meeting held on October 31, 2006, the merger by the wholly-owned subsidiary Global Telecom S/A of the other wholly-owned subsidiaries of Vivo Participações S/A, namely Telergipe Celular S/A, Tebahia Celular S/A, Telerj Celular S/A, Telest Celular S/A, Celular "CRT" S/A, Telesp Celular S/A and Tele Centro Oeste Celular Participações S/A, as well as of the latter's subsidiaries Telegoias Celular S/A, Telemat Celular S/A, Telems Celular S/A, Teleron Celular S/A, Teleacre Celular S/A and Norte Brasil Telecom S/A was approved.

The implementation of the Corporate Restructuring was meant to simplify the corporate and operational structure, by unifying the general business management of the operating companies, which were concentrated in a single operating company controlled by the Company, optimizing synergies between the companies involved, following the process which began with the corporate restructuring approved at the special shareholders' meetings held on February 22, 2006. Similarly and simultaneously with the Corporate Restructuring implementation, the name of Global Telecom S/A was changed into Vivo S/A ("Vivo").

The merger of the subsidiaries were previously approved by the National Telecommunications Agency (ANATEL) on July 25, 2006 by the Act No. 59867, published in the Federal Official Gazette (DOU) on July 27, 2006.

By virtue of the fact that the Corporate Restructuring did not directly involve Vivo Participações S/A, and was restricted to its subsidiaries, the company's capital and shareholders' equity as well as its shareholding structure and the rights derived from the shares it issued did not undergo any change.

Acquisitions - Telpart Participações S.A., Telemig Participações S.A. and Tele Norte Participações S.A.

On August 02, 2007, in accordance with the terms of the Instruction CVM no. 358, of January 03, 2002, the Company celebrated a stock purchase agreement with Telpart Participações S.A. Telemig Participações is the controlling shareholder of Telemig Celular S.A. ("Telemig Celular"), which is the SMP provider in Area 4 of Region 1 of the General Plan of Authorizations of SMP, that covers the State of Minas Gerais, and to Tele Norte Participações is the controlling shareholder of the Amazônia Celular S.A. (" Amazônia Celular "), which is the mobile service provider of SMP in the Area 8 of the Region 1 of the General Plan of Authorizations of SMP, that embraces States of Amazonas, Roraima, Amapá, Pará and Maranhão.

The ratification of the sale and purchase agreement was approved by the general meetings of shareholders of the Company and of Telpart. The conclusion of the Acquisition ("Closing ") is subjected to certain conditions precedent set forth in the stock purchase agreement, including, without limitation, the approval for the "National Agency for Telecommunications- ANATEL", the Brazilian Communications regulator. The Acquisition was submitted to "Conselho Administrativo de Direito Econômico- CADE", the Brazilian Antitrust Commission.

The price agreed in the stock purchase agreement is of R\$1,213,100,000.00 (the " purchasing price "), that corresponds to: (i) R\$1,093,090,107.00 for the shares held by Telemig Participações in Telpart, represented R\$14.21 per lot of 1,000 common shares of Telemig Participações and R\$6.39 per lot of 1,000 preferred shares of Telemig Participações and, (ii) R\$120,009,893.00 for the shares held by Tele Norte Participações owned by Telpart, represented by R\$1.85 per lot of 1,000 common shares of Tele Norte Participações and R\$0.66 per lot of 1,000 preferred shares of Tele Norte Participações. The Purchase Prices to be paid by Vivo Participações implies R\$2,488.29 for common share of Telemig Celular and of R\$56.72 for lot of 1,000 common shares of the Amazônia Celular. The references to the Purchase Price regarding each type of shares relate to the prices for lots of 1,000 shares, in order to be consistent with the form such shares are currently trade in market (except with respect to Telemig Celular shares, which are traded on a per share basis).

From the execution of the stock purchase agreement until the date of the Closing, the Purchased Price will accrue by the Brazilian daily – CDI rate and will be subject to certain adjustments as contemplated in the stock purchase agreement. Moreover, the prices for share mentioned before will be further adjusted to reflect the result of ongoing reverse split processes approved at shareholders' meeting of Telemig Participações, Tele Norte Participações and Amazônia Celular all held on July 12, 2007.

Acquisition of a spectrum in Tender 001/2007/SPV-ANATEL

On September 25, 2007, the Company, through its subsidiary VIVO S.A. (Vivo") was the winning bidder of the Band L lots, except for lot 16 (area of Londrina-PR) and of lot 20 (North of Brazil), after the opening of the proposals of prices carried through in that date in the headquarters of the ANATEL. Band L comprises lots in the frequency range from 1895 to 1900 Mhz and from 1975 to 1980 Mhz, with 5 + 5 Mhz width, in all the regions served by the SMP. Accordingly, Vivo managed to complete its last coverage gap and will be soon operating in the whole Brazilian territory.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

In order to achieve this benchmark, Vivo offered 50.60% average premium over the minimum price set in the auction call notice. Vivo's offering was around R\$ 169.7 million for all Band L lots acquired. However, pursuant to the rules provided for in the auction call notice, the price to be paid refers to the remaining term of the pre-existing authorizations for each lot acquired, which term is always counted as from the date of execution of the Term of Authorization referring to this bidding process. Therefore, the price to be paid by Vivo shall be around R\$ 85.3 million, with a down payment of 10% (R\$ 8.5 million). Such down payment is to be made at the time of the execution of the Terms of Authorization and the balance will be payable in 6 annual installments, with a grace period of 3 years, adjusted to the general price index (IGP-DI) rate plus 1% monthly. Even on September 30, 2007, Vivo had not signed the term related of authorization.

26. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONSOLIDATED)

a) Considerations on risks

The main market risks that the Company and its subsidiary are exposed to are:

Credit risk: deriving from possible difficulties in collecting the amounts related to telecommunications services rendered to its clients and to sales of handsets to its dealers, as well as the risk related to short-term investments and amounts receivable from swap transactions.

Interest rate risk: deriving from a portion of the debt and from long positions of derivatives contracted at floating rates, and involving the risk of an increase in financial expenses due to an unfavorable change in interest rates (mainly LIBOR, TJLP and CDI).

Exchange rate risk: the possibility that Company and its subsidiary incur losses as a result of exchange rate variations that increase the liability balances of foreign currency loans and financing.

The Company and its subsidiary adopt an active position concerning the management of the various risks to which they are exposed, by means of a set of comprehensive initiatives, procedures and operating policies, thus mitigating the risks inherent to their activities.

Credit Risk

The credit risk involved in the rendering of telecommunications services is minimized by a strict control of the client base and active management of customers' default, by means of clear policies regarding the sale of post-paid telephones. As of September 30, 2007, the subsidiary had 81% of its customer base comprising customers of the prepaid system, which requires the prior loading and consequently entails no credit risk.

The credit risk in the sale of handsets is managed by a conservative credit policy, by means of modern management methods, including the application of "credit scoring" techniques, analysis of financial statements and information,

and consultation to commercial data bases, as well as the automatic control of sales release integrated with the distribution module of SAP's ERP software.

The company and its subsidiary are also subject to credit risk originating from its financial investments and amounts receivable from swap transactions. The Company and its subsidiary act in a manner so as to diversify this exposure among various world-class financial institutions.

Interest rate risk

The Company and its subsidiary are exposed to the risk of increased interest rates, especially those associated with the cost of the Interbank deposit certificates (CDI), in connection with payables related to derivative transactions (currency hedge) and by loans denominated in Reais. As a way to minimize this exposure, the Company contracted swap transactions in Reais, from CDI to fixed-interest rates, in a total reference value of R\$1,704 million. The balance of financial investments, indexed to the CDI, also neutralizes this effect partially.

Furthermore, the Company and its subsidiary are also exposed to the risk of fluctuation of the Long-term interest rate (TJLP), in connection with the loans obtained from BNDES. These transactions amounted to R\$688,490 (principal) as of September 30, 2007 (R\$106,967 as of June 30, 2007). The Company and its subsidiary have no transactions with derivatives contracted to cover the TJLP risk.

On September 30, 2007, the subsidiary had US\$52,480 (US\$232,480 thousand as of June 30, 2007) referring to the loans and financings involving floating foreign interest rates (LIBOR), that are protected against fluctuation in interest rates (LIBOR) by means of derivatives (interest rate swap).

Exchange rate risk

The Company and its subsidiary have contracted financial transactions with derivatives so as to protect themselves against exchange rate fluctuations affecting their loans and other liabilities in foreign currencies. The instruments generally used are swap and forward contracts.

The table below summarizes the net exposure of the Company and its subsidiaries to the exchange rate factor as of September 30, 2007:

	US\$	€	¥
Loans and financing	(354,993)	-	(50,251,999)
Loans and financing - UMBNDES (a)	(6,848)	-	-
Derivative instruments	360,825	-	50,251,999
Other liabilities	(33,604)	(27,004)	-
Total (insufficient coverage)	(34,620)	(27,004)	-

(a) UMBNDES is a monetary unit conceived by BNDES, composed of a basket of foreign currencies, main currency being the US dollar, and for this reason the Company and its subsidiary consider it in their analysis of the risk coverage against exchange rate fluctuations.

Transactions with derivatives

The Company and its subsidiary record gains and losses on derivative contracts as financial income or expenses, net.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

The table below shows an estimate of the book value and the market value of the loans and financing, as well as of the transactions with derivatives:

	Book value	Market value	Unrealized gain (loss)
Loans and financing	(4,038,419)	(4,023,235)	15,184
Derivative instruments	(507,587)	(508,502)	(915)
Other liabilities	(132,204)	(132,204)	-
Total	(4,678,210)	(4,663,941)	14,269

b) Market value of financial instruments

The market value of loans and financing, as well as of swap contracts, was established on the basis of discounted cash flow, by using projections of interest rates available.

Market values are calculated at a specific time based on available information and own evaluation methodology. Consequently, the indicated estimates do not necessarily represent market realizable values. Use of different assumptions may significantly affect estimates.

27. POST-EMPLOYMENT BENEFIT PLANS

The Company and its subsidiary, together with other companies belonging to the former Telebras System, sponsor private pension plans and medical assistance plans for retired employees, administered by the Sistel Social Security Foundation - SISTEL, as follows:

a) PBS-A: multi-sponsored defined benefit plan, designed for participants already assisted as of January 31, 2000.

b) PBS-Telesp Celular, PBS-TCO, PBS Tele Sudeste and PBS Tele Leste Celular: defined retirement benefit plans sponsored individually by the Company.

The contributions to the PBS plans are determined on the basis of actuarial studies prepared by independent actuaries, in accordance with standards in force in Brazil. The costing determination system is that of capitalization and the contribution due by sponsors is 13.5% on their participating employees' salaries, of which 12% are designed for the costing of the PBS plans and 1.5% to the PAMA plan. For the nine-month periods ended September 30, 2007, contributions to these plans amounted to R\$9.

c) PAMA: multi-sponsored medical assistance plan for retired employees and their dependents, at shared cost.

d) TCP Prev and TCO Prev Plans: Individual plans - defined contribution and variable contribution - instituted by SISTEL in August 2000. In both plan types the Company supports participants' death or disability risk amounts, while in the TCO Prev plan some participants originally enrolled with the PBS-TCO plan are entitled to lifelong retirement benefits (paid-up benefit), besides the benefits of defined contribution. The contributions of the Company to the TCP Prev and TCO Prev plans are equal to those of participants, ranging between 1% and 8% of the contribution salary, according to percentage chosen by participant. For the nine-month periods ended September 30, 2007, contributions to these plans amounted to R\$6,012.

In civil suit No. 04/081.668-0, brought by ASTEL against the SISTEL Social Security Foundation, in which besides SISTEL also Telefonica and Telesp Celular are summoned, various claims are made, which we summarize as follows:

i) that Sistel be prohibited from charging retired employees and other participants any contributions to PAMA - Medical Assistance Plan for Retirees, the same being subject only to a "small participation in actual use"; such

participation is limited to 1% of the assisted person's monthly income; ii) that SISTEL enroll again with PAMA, without any restrictions, the retirees and assisted persons who had their enrollment suspended due to non-payment, as well as those who did not stand the pressure and requested cancellation of their enrolment with PAMA or enrolled with the PCE (Special Coverage Plan), as they wish, also without any restriction; iii) that SISTEL reassess the economic needs of PAMA, including the amounts of sponsors Telefonica's and Telesp Celular's monthly contributions; iv) that sponsors' contributions be calculated on the basis of the payroll of all their employees, as per previous by-laws provision, and not on the basis of the percentage on the payroll of active participants in PBS; v) that Sistel re-establishes the accreditation of all hospitals, clinics and laboratories that were canceled; vi) that a review be carried out of the accounting distribution of equity, so as to attribute to PAMA the amounts corresponding to the reducing factor of the supplementary contributions, as described above, while Sistel is prohibited, as long as this review is not carried out, to perform any splitting of the net equity of PBS-A plan or any other plan administered by the entity; vii) that Sistel and sponsors refund the "transfer of equity of the main substrate designed for guaranteeing PBS-2 and PAMA, illegally transferred to Visão Telesp and Visão Prev Plans of Telesp Celular"; viii) granting of advance relief in relation to items "i", "ii" and "v".

The subsidiary by means of its actuarial consultant made a study of the impacts described above, and concluded that the change in costing, as claimed by ASTEL, would represent an increase in subsidiary's provisions in the amount of R\$1,331, on September 30, 2007

Based on their legal advisors' and tax consultants' opinions, management believes that there is, at this moment, there is no risk to be paid, and as of September 30, 2007 the likelihood of loss is classified as "possible".

e) Benefit Plans Visão Celular- Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular: defined contribution individual plans, established by Sistel in August, 2000. Company's contributions to Visão Celular plans is equal to those of participants, ranging between 0% and 9% of contribution salary, according to participant's choice. For the nine-month period ended September 30, 2007, contributions to these plans amounted to R\$4,603.

f) Defined benefit plan: "CRT" sponsored defined benefit pension plans (founding member benefit plan and alternative benefit plan), which were managed by Fundação dos Empregados da Companhia Riograndense de Telecomunicações - FCRT.

On December 21, 2001, "CRT" and Brasil Telecom S/A, sponsors of FCRT, signed a statement of commitment with a view to completely canceling any link between the sponsors, by the withdrawal of "CRT" as a sponsor, with the guarantee that this withdrawal be made strictly in accordance with applicable legislation and respecting participants' rights, which was approved by the Supplementary Pension Department at December 30, 2003.

In spite of the fact that existing legislation permits that contributions of sponsors and participants be discontinued, "CRT" continued paying its contributions from January 2002 to December 2003 in order to safeguard and preserve participants' rights, until CRT's actual withdrawal from FCRT.

For the actuarial evaluation of the plans, the methodology for withdrawal of sponsor, established by Resolution MPAS CPC No. 06/88, was used.

Reserves were individually evaluated on the basis of the methodology determined by said Resolution for each category (assisted persons and retirees, imminent active risks and non-imminent active risks).

As of October 2004, "CRT" has been passing on to Sistel, as agreed with FCRT. On July 31, 2007, "CRT" repassed R\$20.001 to the FCRT, finishing its participation to this plan of benefits, disentailing thus of any obligations and future contingencies.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

On February 02, 2007, the process for transferring the administration of Sistel Social Security Foundation plans to Visão Prev - Society of Supplementary Pension was approved, as follows: PBS Telesp Celular, TCPPrev, PBS Tele Centro Oeste Celular, TCOPrev, PBS Telesudeste Celular, Visão Telerj Celular, Visão Telest Celular, PBS Teleleste Celular, Visão Telebahia Celular, Visão Telergipe Celular and Visão Celular CRT.

OPERATING EXPENSES

Strict control over manageable costs.

The growth of 0.3% in **Human Resources** in 3Q07 over 3Q06 is due to the adjustment provided for the Collective Union Agreement in November 2006, attenuated by a reduction in the labor count occurred in previous quarters. The same cost, when compared to 2Q07, recorded 8.3% reduction arising out of the result of the same reduction in the labor count and the reduction in severance payments.

By eliminating the effects of termination of the B&K program, the services costs would be reduced by 4.4% in relation to 3Q06.

The increase of 17.4% in the **cost of services rendered** in 3Q07, when compared to 3Q06, is due to the 27.8% increase in interconnection costs arising out of the termination of the partial Bill&Keep system, the increase in expenses with third-party services, in addition to an increase resulting from the provision for losses from roaming services. When compared to 2Q07, it recorded an increase of 2.8% also due to the increase in interconnection costs, besides the variation in expenses with property rental, partially offset by a reduction in the expenses with third-party services, especially public utilities and plant maintenance.

The **cost of goods sold** increased by 14.3% in 3Q07 over 3Q06, especially due to an increased number of gross activations which accounted for 29.5% growth. In relation to 2Q07, even with less commercial activity, the additions and exchanges in GSM technology, in both segments, recorded in an increase higher than the 6.7% recorded in the cost of goods sold.

In 3Q07, **selling expenses** increased by 4.5% in relation to 3Q06, as a result of the increase in third-party expenses (publicity and advertising, in addition to agency and commissions), due to the larger number of activations, being offset by a constant

reduction in expenses with the provision for bad debt. When compared to 2Q07, it remained stable, especially due to the reduction in the provision for bad debt.

45.6% reduction in the PDD in relation to the same period of the previous year.

The **Provision for Bad Debt – PDD** in 3Q07 was of R\$ 80.4 million, representing 1.7% of the total gross revenue, a 45.6% reduction in relation to the same period of the previous year, which was R\$ 147.8 million, representing 3.7% of the gross revenue. When compared to 2Q07, which recorded R\$ 101.2 million, the reduction was of 20.6%. This result evidences the strict control exercised over new customers and on debt collection.

General and administrative expenses increased by 41.3% in 3Q07 in relation to 3Q06, due, mainly, to the increase in expenses with third-party services, especially technical assistance, partially offset by a reduction in expenses with consulting and regular services due to efficiency gains. When compared to 2Q07, it represents a reduction of 1.4% arising out of the reduction in third-party services, especially data processing and plant maintenance.

Other Operating Revenue / Expenses recorded an expense of R\$ 10.8 million. The variation in relation to 3Q06 arises from the increase in the expenses with taxes, duties and contributions, in addition to a reduction in the revenue from recovered expenses, partially diluted by the increase in the revenue from commercial incentives. When compared to 2Q07, the 56.5% is due to an increase in revenues from recovered expenses and commercial incentives, partially impacted by the increase in taxes, duties and contributions and a reduction in revenues from penalties.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization expenses recorded reductions of 7.1% and 1.8% when compared to 3Q06 and 2Q07, respectively, due to the end of the useful life of the assets along the periods.
