This compares to an approximately \$1.5 million unrealized non-cash loss on three previously disclosed interest rate swap arrangements for the third quarter of 2006. Excluding these non-cash items, net income would have been \$6.7 million, or \$0.33 per share, basic and diluted for third quarter 2007 as compared to \$3.6 million, or \$0.25 per share, basic and diluted for the third quarter of 2006.

Excluding these non-cash items, net income would have been \$18.8 million, or \$1.14 per share, basic and diluted for nine months ended

Management Commentary:

CEO Harry Vafias commented: "During the third quarter of 2007, we were able to achieve a strong quarter in our financial and operational performance as a result of the charter rates secured by our fleet under our period charters. We also took delivery of two vessels that we had previously announced to acquire further expanding our fleet to 36 vessels during the third quarter. Additionally, we are pleased to have announced during the third quarter the renewals of charters for eleven of our vessels at higher rates, which emphasize our strong relationships with major international operators in the LPG industry. In this context, we have already secured 86% of our fleet under period contracts for 2008 and 45% for 2009. We believe that the outlook for the handy size LPG sector will remain positive over the next two to three years, thereby providing opportunities for further fixtures at higher rates and in turn increasing our voyage revenues and thus our profitability.

Finally, we have declared our eighth consecutive dividend of 18.75 cents per share, and since we went public in October 2005 we have declared aggregate dividends of \$1.50 per share. We believe that our emphasis on fleet growth and securing our vessels on profitable time and bare boat charters will further enable us to reward our shareholders in the long term.

CFO Andrew Simmons commented: We are pleased to announce that we have managed to strengthen the company's financial structure with our cash resources having increased from \$11.1 million at the end of third quarter of 2006 to \$67.5 million at the end of third quarter of 2007, due in part to the successful follow on equity offering we undertook in July of 2007. In addition, at the end of third quarter 2007, our net debt to capitalization stood at 17.8% down from 49.2% at the end of second quarter 2007. Hence, we believe that we have significant capacity to continue with our fleet expansion strategy as and when opportunities arise in the future, whilst at the same time continuing our policy of a well structured financial position.

Quarterly Dividend:

At today's meeting, the Company's Board of Directors declared a quarterly cash dividend of \$0.1875 per common share, payable on November 30, 2007 to shareholders of record on November 23, 2007.

This is the eighth consecutive quarterly dividend since the company went public in October 2005. Since then, STEALTHGAS has declared quarterly dividends aggregating \$1.50 per common share.

Completion of Follow-on Offering:

In July 2007, the Company concluded a follow-on offering of 7,660,105 shares of common stock, including 460,105 over-allotment shares, resulting in net proceeds, after deducting the underwriting discounts and commissions and the estimated offering expenses, of approximately \$129.6 million. The shares were sold to the public at a price of \$18.00 per share. The final number of shares offered represented an increase of 1,660,105,000 shares from the originally proposed offering size.

Citigroup Global Markets Inc. and Cantor Fitzgerald & Co. acted as the joint bookrunning managers in the offering. Johnson Rice & Company L.L.C., Morgan Keegan & Company, Inc., DVB Capital Markets LLC and Scotia Capital (USA) Inc. acted as co-managers.

The Company has used a portion and intends to use the remaining net proceeds of the offering to pay the remaining balance of the purchase price for five LPG carriers which it had previously agreed to acquire (all of which have now been delivered to the Company), repay outstanding indebtedness incurred to acquire certain vessels in its current fleet, and for general corporate purposes.

Fleet Developments:

As previously announced, the Company has agreements to acquire three additional LPG carriers, the M/V Gas Sophie , a 1995 built 3,500 cbm Fully Pressurized (F.P.) LPG carrier, the M/V Gas Haralambos, a 2007 built 7,000 cbm Fully Pressurized (F.P.) LPG carrier to be delivered in the fourth quarter of 2007 and the M/V Gas Premiership , a 2001 built, 7,200 cbm Fully Pressurized (F.P.) LPG carrier with expected delivery in February 2008. Once these acquisitions are completed, the Company s fleet will be composed of 39 LPG carriers with a total capacity of 171,629 cubic meters (cbm).

Edgar Filing: StealthGas Inc. - Form 6-K

- 1) Average number of vessels is the number of vessels that constituted our fleet for the relevant period, as measured by the sum of the number of days each vessel was a part of our fleet during the period divided by the number of calendar days in that period.
- 2) Total calendar days are the total days the vessels were in our possession for the relevant period including off-hire days associated with major repairs, drydockings or special or intermediate surveys.
- 3) Total voyage days for fleet reflect the total days the vessels were in our possession for the relevant period net of off-hire days associated with major repairs, drydockings or special or intermediate surveys.
- 4) Fleet utilization is the percentage of time that our vessels were available for revenue generating voyage days, and is determined by dividing voyage days by fleet calendar days for the relevant period.
- 5) Total time charter days for fleet are the number of voyage days the vessels in our fleet operated on time charters for the relevant period.
- 6) Total spot market charter days for fleet are the number of voyage days the vessels in our fleet operated on spot market charters for the relevant period.
- 7) Time charter equivalent, or TCE, is a measure of the average daily revenue performance of a vessel on a per voyage basis. Our method of calculating TCE is consistent with industry standards and is determined by dividing voyage revenues (net of voyage expenses) by voyage days for the relevant time period. Voyage expenses primarily consist of port, canal and fuel costs that are unique to a particular voyage, which would otherwise be paid by the charterer under a time charter contract, as well as commissions. TCE is a standard shipping industry performance measure used primarily to compare period-to-period changes in a shipping company's performance despite changes in the mix of charter types (i.e., spot charters, time charters and bareboat charters) under which the vessels may be employed between the periods.
- 8) Vessel operating expenses, which include crew costs, provisions, deck and engine stores, lubricating oil, insurance, maintenance and repairs is calculated by dividing vessel operating expenses by fleet calendar days for the relevant time period.
- 9) Total operating expenses, or TOE, is a measurement of our total expenses associated with operating our vessels. TOE is the sum of vessel operating expenses and general and administrative expenses. Daily TOE is calculated by dividing TOE by fleet calendar days for the relevant time period.

Adjusted EBITDA Reconciliation:

Adjusted EBITDA represents net earnings before interest, taxes, depreciation, amortization and amortization of fair value of acquired time charters. Adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations, as determined by the accounting standards generally accepted in the United States of America, and our calculation of Adjusted EBITDA may not be comparable to that reported by other companies in the shipping or other industries.

Adjusted EBITDA is included herein because it is a basis upon which we assess our financial performance and liquidity position and because we believe that it presents useful information to investors regarding a company's ability to service and/or incur indebtedness.
