NOTES TO CONDENSED INTERIM FINANCIAL STATEMENTS

For the six months ended 30 September 2009

1. BASIS OF PREPARATION

These unaudited condensed consolidated interim financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”).

The unaudited condensed consolidated interim financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the annual consolidated financial statements of the Company and its subsidiaries (the “Group”) for the year ended 31 March 2009.

2. SIGNIFICANT ACCOUNTING POLICIES

The unaudited condensed consolidated interim financial statements have been prepared under the historical cost basis, except for financial assets at fair value through profit or loss, investment properties and buildings, which are stated at fair values.

The accounting policies and basis of preparation adopted in the preparation of these unaudited condensed consolidated interim financial statements are consistent with those used in the preparation of the Group’s annual financial statements for the year ended 31 March 2009 and in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, HKASs and Interpretations (“Int”)) issued by HKICPA, except that the Group has in the current period applied, for the first time the following new and revised HKFRSs:

HKFRS 1 and HKAS 27 Amendments	Amendments to HKFRS 1 First-time Adoption of HKFRSs and HKAS 27 Consolidated and Separate Financial Statements — Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate
HKFRS 2 Amendments	Amendments to HKFRS 2 Share-based Payment — Vesting Conditions and Cancellations
HKFRS 7 Amendments	Amendments to HKFRS 7 Financial Instruments: Disclosure — Improving Disclosures
HKFRS 8	Operating Segments
HKAS 1 (Revised)	Presentation of Financial Statements
HKAS 23 (Revised)	Borrowing Costs
HKAS 32 and HKAS 1 Amendments	Amendments to HKAS 32 Financial Instruments: Presentation and HKAS 1 Presentation of Financial Statements — Puttable Financial Instruments and Obligations Arising on Liquidation
HK International Financial Reporting Interpretations Committee (“IFRIC”) — Int 9 and HKAS 39 Amendments	Amendments to HK(IFRIC) — Int 9 Reassessment of Embedded Derivatives and HKAS 39 Financial Instruments: Recognition and Measurement — Embedded Derivatives
HK(IFRIC) — Int 13	Customer Loyalty Programmes
HK(IFRIC) — Int 15	Agreements for the Construction of Real Estate
HK(IFRIC) — Int 16	Hedges of a Net Investment in a Foreign Operation

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Apart from the above, the HKICPA has issued Improvements to HKFRSs* in October 2008 which sets out amendments to a number of HKFRSs primarily with a view to removing inconsistencies and clarifying wordings. Except for the amendments to HKFRS 5 which is effective for annual periods on or after 1 July 2009, other amendments are effective for annual periods beginning on or after 1 January 2009 although there are separate transitional provisions for each standard.

* Improvements to HKFRSs contains amendments to HKFRS 5, HKFRS 7, HKAS 1, HKAS 8, HKAS 10, HKAS 16, HKAS 18, HKAS 19, HKAS 20, HKAS 23, HKAS 27, HKAS 28, HKAS 29, HKAS 31, HKAS 34, HKAS 36, HKAS 38, HKAS 39, HKAS 40 and HKAS 41.

Except for HKAS 1 (Revised), HKFRS 8 and amendments to HKAS 40 giving rise to new accounting policies and additional disclosure as further described below, the adoption of the new interpretations and amendments has had no significant effect on these condensed consolidated interim financial statements.

HKAS 1 (Revised) prohibits the presentation of items of income and expenses, which are “non-owner changes in equity”, in the statement of changes in equity. These items have to be presented separately from owner changes in equity and shown in a performance statement. The Group has elected to present two performance statements including an income statement and a statement of comprehensive income. The interim financial information has been prepared under the revised disclosure requirements.

HKFRS 8 replaces HKAS 14 Segment Reporting. It requires a “management approach” under which segment information is presented on the same basis as that used for internal reporting purposes. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The adoption of this standard did not have any material impact on the disclosure of segment information.

As a result of the amendments to HKAS 40, investment property which is under construction will be carried at fair value at the earlier of when the fair value first becomes reliably measurable and the date of completion of the property. Any gain or loss will be recognised in profit or loss. Previously such property was carried at cost until the construction was completed at which time it was fair valued with any gain or loss being recognised in profit or loss. This amendment is applied prospectively. As a result of this amendment, the Group has reclassified HK\$171 million from properties under development to investment properties under construction. The Group has concluded that the fair value of its investment properties under construction cannot be measured reasonably, therefore, the Group’s investment properties under construction continue to be measured at cost until construction is completed.

3. SEGMENT INFORMATION

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

The Group has two reportable operating segments. The Group’s operating businesses are structured and managed separately according to the nature of the operations and the product perspectives. Each of the Group’s reportable operating segments represents a strategic business unit that are subject to risks and returns that are different from the other reportable operating segment. Summary details of the reportable operating segments are as follows:

- (i) Pearls and jewelry — Purchasing, processing, assembling, merchandising, wholesale distribution of pearls and jewelry products; and
- (ii) Property development and investment — Development, sales and leasing of properties.

12.

TRADE AND OTHER RECEIVABLES

The Group allows an average credit period of 60 days to its trade customers. The carrying amounts of the trade and other receivables are considered a reasonable approximation of fair value as these financial assets which are measured at amortised cost, are expected to be paid within a short timescale, such that the time value of money impact is not significant.

Included in trade and other receivables of the Group are trade receivables of HK\$93,634,000 (unaudited) (31 March 2009: HK\$98,649,000) and their ageing analysis after credit period is as follows:

19. CONTINGENT LIABILITIES

As at 30 September 2009, the Group had contingent liabilities relating to guarantees in respect of mortgage facilities for certain purchasers amounting to approximately HK\$41.6 million (unaudited) (31 March 2009: HK\$52.2 million). This represented the guarantees in respect of mortgage facilities granted by a PRC bank related to the mortgage loans arranged for certain purchasers of the Group's properties. Pursuant to the terms of the guarantees, upon default in mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principal together with accrued interest and penalty owed by the defaulted purchasers to the bank. The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon issuance of real estate ownership certificates to the purchasers.

The fair value of the guarantees is not significant and the Group considers that in case of default in payments, the net realisable value of the related properties will be sufficient to cover the repayment of the outstanding mortgage principal together with accrued interest and penalty and therefore no provision has been made as at 30 September 2009 and 31 March 2009 in the financial statements for the guarantees.

20. COMPARATIVE AMOUNTS

Certain comparative amounts have been re-classified to conform to the current period's presentation.

BUSINESS REVIEW

Pearl Operations

The global economic downturn triggered by the United States financial and credit crisis in second half of 2008 has badly hit the Hong Kong economy. Merchandise exports, including re-exports, declined by 17% and 14% for first two quarters of 2009 and the third quarter of 2009, respectively, as compared to the same periods in 2008. Though there are signs that demand for export has ceased to worsen, however, the future development of global economy, particularly in the luxury product market, is still hard to predict. Persistent high unemployment rates were posted in the United States and Europe, in which our major customers operate. We anticipate the economies of the United States and Europe will take longer to stabilise and recover. Customers remain cautious about increasing their levels of inventory, which adversely affects demands for products in our Pearl Operation. With the difficult business environment for Pearl Operation, we will continue to monitor the effects of the financial crisis in the markets where we operate and to adopt appropriate business and financial management policies in order to capture business growth opportunities when the economy improves.

Real Estate Operations

The fiscal stimulus programs initiated by the Chinese government creating additional liquidity of RMB4,000 billion have produced results. China's gross domestic product ("GDP"), according to the National Bureau of Statistics of China, grew by 7.7% in first three quarters of 2009. The Chinese government has also introduced measures to stabilise the real estate market, such as lowering the required minimum amount of down payment and exemption of stamp duty and business tax on certain property transactions. In response to tightening financial and credit markets, the People's Bank of China has reduced the one year base lending rate from 7.47% to 5.31%.

As a result of the implementation of the stimulus measures, signs of stabilisation in economic conditions emerge, illustrated by the upward growth trend of quarterly GDPs and fixed asset investments during the first three quarters in 2009. China is well-positioned to maintain economic growth during the current global financial crisis. Our promoting activities for China Pearls and Jewellery Project ("CP&J Project") have also borne fruits, revenue of our Real Estate Operations increased by 51% from HK\$21.5 million for the six months ended 30 September 2008 to HK\$32.4 million for the six months ended 30 September 2009. We anticipate the performance of real estate sector in the PRC will improve provided that the global economic conditions would not worsen further and that no macroeconomic measures would be taken to restrict the growth in the real estate sector. We continue to hold an optimistic view on the real estate market in China in the medium to longer term.

FINANCIAL REVIEW

The Group has two main business segments during the period. One business segment is in the purchasing, processing, assembling, merchandising and wholesale distribution of pearls and jewelry products (the "Pearl Segment") while the other is in property development and investment (the "Property Segment").

Revenue and Gross Profit

(i)

Pearl Segment

Net sales attributable to our Pearl Segment decreased by HK\$74.3 million, or 39.0%, from HK\$190.4 million for the six months ended 30 September 2008 to HK\$116.1 million for the six months ended 30 September 2009 due to the decrease in market demand worldwide, as a result of the current global economic contraction and recession.

Gross profit decreased by HK\$26.5 million or 36.9%, from HK\$71.9 million for the six months ended 30 September 2008 to HK\$45.4 million for the six months ended 30 September 2009. Such decrease was primarily attributable to the decrease in net sales in our overall market due to the global economic downturn. Gross profit margin attributable to our Pearl Segment increased from 37.8% for the six months ended 30 September 2008 to 39.1% for the six months ended 30 September 2009. The increase in gross profit margin was primarily a result of the lower cost of pearls sourced from the PRC caused by slackened demand.

(ii)

Property Segment

For the six months ended 30 September 2009, the Property Segment recorded a total revenue of HK\$32.4 million (six months ended 30 September 2008: HK\$21.5 million) including the sales of properties in CP&J Project and rental income from the investment properties.

Income from the sales of properties in CP&J Project increased more than a double from HK\$9.1 million for the six months ended 30 September 2008 to HK\$20.1 million for the six months ended 30 September 2009. To improve sales, preferential discounts were offered to investors who purchased the shops in large numbers during the current period, resulting in a decrease in a gross margin from 67% for the six months ended 30 September 2008 to 26% for the six months ended 30 September 2009.

Rental income maintained at HK\$12.4 million for both the six months ended 30 September 2008 and 2009. Rental income amounting to HK\$9.2 million (six months ended 30 September 2008: HK\$8.7 million) and HK\$3.2 million (six months ended 30 September 2008: HK\$3.7 million) were from the properties of CP&J Project and other properties in Hong Kong and the PRC respectively.

Selling and Administrative Expenses (the "S&A expenses")

(i)

Pearl Segment

S&A expenses slightly increased by HK\$0.8 million, or 2.0% from HK\$39.9 million for the six months ended 30 September 2008 to HK\$40.7 million for the six months ended 30 September 2009. The increase was primarily due to an increase of HK\$4.0 million in share based payment for share options granted under staff incentive scheme. This increase was partially offset by a decrease of HK\$1.6 million in provision for doubtful debts and a decrease of HK\$0.8 million in the marketing expenses.

(ii)

Property Segment

S&A expenses decreased by HK\$15.6 million, or 81.3% from HK\$19.2 million for the six months ended 30 September 2008 to HK\$3.6 million for the six months ended 30 September 2009. The decrease was mainly due to a decrease of HK\$4.5 million in advertising and promotion costs associated with CP&J Project and the write-back of allowance for doubtful debts of HK\$5.5 million.

Net unrealised loss on financial assets at fair value through profit or loss

Under a volatile stock market, net unrealised loss on financial assets (listed equity investments in Hong Kong) amounted to HK\$1.4 million was recorded for the six months ended 30 September 2009 against net unrealised loss amounted to HK\$5.2 million for the six months ended 30 September 2008. The Group did not hold any derivative or structured financial products as at the date hereof.

Profit/(Loss) attributable to shareholders

The Group recorded a profit attributable to shareholders of HK\$20.2 million for the six months ended 30 September 2009 against a loss attributable to shareholders of HK\$21.7 million for the six months ended 30 September 2008. The significant loss for the six months ended 30 September 2008 was primarily due to the decrease in fair value of the investment properties of HK\$115.1 million. No similar devaluation was made in the current period.

Liquidity and capital resources

At 30 September 2009, the Group's total shareholders' funds amounted to HK\$1,137.8 million (31 March 2009: HK\$1,113.7 million). At 30 September 2009, the Group had working capital of HK\$301.6 million (31 March 2009: HK\$351.6 million). With the committed banking facilities in place and cash on hand, the Group has adequate financial resources to meet our anticipated future liquidity requirements. Cash and cash equivalents amounted to HK\$559.0 million (31 March 2009: HK\$462.8 million) and accounted for 54% (31 March 2009: 49%) of Group's total current assets at 30 September 2009. Current ratio decreased from 1.6 at 31 March 2009 to 1.4 at 30 September 2009.

At 30 September 2009, the Group's total secured bank loans were HK\$203.4 million (31 March 2009: HK\$192.1 million) which was mainly associated with CP&J Project. Gearing ratio, represents the ratio of total bank borrowings to total equity attributable to shareholders, was 0.18 as at 30 September 2009 (31 March 2009: 0.17).

At 30 September 2009, the Group had available bank facilities of HK\$353.4 million (31 March 2009: HK\$392.1 million) with various banks of which HK\$203.4 million (31 March 2009: HK\$192.1 million) has been drawn and HK\$150.0 million (31 March 2009: HK\$200.0 million) remained unutilised. The Group does not currently use any derivatives to manage our interest rate risk.

For the six months ended 30 September 2009, most of the Group's transactions were denominated in US dollars, Hong Kong dollars and Renminbi. Since the Hong Kong dollar remains pegged to the US dollar within a defined range, the Group has not been exposed to any significant foreign exchange risk, and therefore had not adopted any hedging measures. The Group has subsidiaries engaging in business in the PRC, with most of its transactions dominated in Renminbi. Since the Group obtains Renminbi through revenue and bank loans in the PRC for the settlement of liabilities in Renminbi, the Group was not exposed to any significant exchange risk on Renminbi.

PROSPECTS

Following the introduction of stimulus measures initiated by various governments, global economic contraction began to ease. There are signs of recovery in some economic sectors. The economy in China has taken the lead in the recovery; based on recently released data, China's GDP growth in 2009 is expected to meet the targeted 8%. However, there are still uncertainties and mixed signals in the global economy such as the persistent high unemployment rate in the United States and the latest news on Dubai World which have impacts on the consumer spending that may adversely affect our sales and profit.

Looking forward, we will continue to strengthen our operation and management and closely monitor the market trend and development. We are equipped to carry out timely and appropriate business and financial management policies to capture any opportunities when the economic conditions improve.

During the six months ended 30 September 2009, the Company has complied with the code provisions set out in the Code on Corporate Governance Practices (the "CG Code") contained in Appendix 14 of the Listing Rules except for code provisions A.2.1 and A.4.1.

According to code provision A.2.1, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Cheng Chung Hing assumes both roles during the reporting period up to 31 August 2009, the reasons were set out in the Corporate Governance Report contained in the Company's Annual Report for the year of 2008/2009. The separation of roles and division of responsibilities between the chairman and the chief executive officer are now clearly established.
