## TELEFÓNICA GROUP

### Financial Highlights

**The sound results recorded in the second quarter consolidate the Group's strong performance since the start of the year. First-half results were in line with growth targets for the year, both at Group and regional level. The Company reiterates all its financial objectives for 2008.**

**Accesses increased sharply in all businesses and regions, to over 245 million** at the end of June 2008 (+15.2% year-on-year), with particularly strong growth in wireless (+19.0%), broadband (+25.1%) and pay TV (+57.4%) accesses.

### **Acceleration in organic growth<sup>1</sup> rates (excluding capital gains), further strengthening Telefónica's distinctive profile:**

Organic<sup>1</sup> revenue growth remained solid at 6.7% in the first half of the year, underscoring the high value of the Group's diversification. Telefónica Latinoamérica is the main growth driver, contributing 4.3 percentage points in the half-year.

Organic<sup>1</sup> growth (excluding capital gains) in operating income before depreciation and amortization (OIBDA) picked up notably in the second quarter, standing at 12.0% in the first half of the year (+8.2% to March). This performance reflects the Company's capacity to control costs and maximise efficiency and the positive results obtained in Latin America (contributing 5.5 percentage points to organic growth in consolidated OIBDA).

The organic OIBDA margin<sup>1</sup>, excluding capital gains, continues to rise, up 1.8 percentage points year-on-year to 38.2% for the half-year period.

Operating income (OI) rose 24.0% in organic terms excluding capital gains<sup>1</sup> during the six-month period, up 6.8 percentage points above the first quarter growth rate.

Operating Cash Flow grew 12.9% year-on-year in organic terms excluding capital gains<sup>1</sup>.

**Net income reached 3,593 million euros for the half-year period (-6.2% year-on-year), with year-on-year growth of 29.0% in like-for-like terms<sup>2</sup>:**

**Basic earnings per share were 0.767 euros for the six-month period, with a year-on-year growth of 32.1% in like-for-like terms<sup>2</sup>.**

Reported revenues rose 1.2% compared to the first half of 2007.

Reported OIBDA dropped 1.3%, while OI rose 0.7%, due to the impact of capital gains on the sale of Airwave recorded in the first half of 2007, changes in the consolidation perimeter and the negative impact from foreign exchange rates. Excluding the impact from capital gains (Airwave and Sogecable) in both periods, the rise in OIBDA and operating income would be 8.9% and 20.6%, respectively.

<sup>1</sup> Assuming constant exchange rates and including the consolidation of TVA in January-June 2007 and Telemig in

April-June 2007.  
Excluding the consolidation of Airwave in January-March 2007 and Endemol in January-June 2007. In revenues, the impact in Telefónica España of the new model for the public use telephone service (-67.9 million euros) is included. In OIBDA and OI, the impact of sales of assets (Airwave and Sogecable) in both periods is excluded.

- <sup>2</sup> Excluding the impact of sale of assets (Airwave y Sogecable) in both periods.
-

**Financial strength, with a 1,311 million euros decrease in debt since December 2007 and net financial debt plus commitments/OIBDA of 2.2 times, in line with the Company's objectives.**

**High cash flow generation, with operating cash flow (OIBDA-CapEx) of 7,673 million euros for the six-month period.**

**The high cash flow generated in the European region (5,299 million euros) is strengthened by the growing contribution of our Latin American operations (2,332 million euros).**

**Free cash flow per share** was 0.731 euros for the first half of 2008 vs. 0.725 euros in the same period last year.

**Continued focus on shareholder returns, with a 67.6% execution of the share buyback programme in less than seven months:**

Net purchases of shares from the start of the year to 17 July 2008 totalled 67.6 million. The programme's aim is to repurchase 100 million shares before year end.

#### **TELEFÓNICA ESPAÑA:**

**The Company strengthened in its market leadership, with 47.0 million accesses (+3.9% year-on-year) and high commercial activity in the second quarter of the year.**

Telefónica remains leading the **broadband** market growth, with an **estimated market share of over 57%**.

**Retail broadband Internet accesses stood at over 5.0 million (+18.3% year-on-year), with a solid broadband ARPU performance (-3.4% year-on-year).**

**Imagenio customers number over 575,000, up 27.9% compared to June 2007.**

**The strong growth in mobile contract customers (+10.4%) pushed the customer base to 23.2 million lines (+5.1% year-on-year).**

**Churn was tightly controlled in broadband, pay TV and mobile telephony, especially in the mobile contract users segment, which remained at similar levels to the first half of 2007 at 1.1%.**

**Within the current operating environment, the Company achieved solid results, leveraging on its differential profile in the market:**

In like-for-like terms,<sup>3</sup> **revenues grew 2.1% in the six-month period**, underpinned by higher wireline Internet and broadband revenues (+10.0%) and the steady rise in wireless data revenues (+15.8%).

OIBDA rose sharply in the quarter (+12.8%), to reach a **year-on-year growth of 9.5% in the six-month period. The margin rose 3.7 percentage points to 50.1%**.

#### **TELEFÓNICA LATINOAMÉRICA:**

**In the midst of robust market growth in all Latin American countries, Telefónica increased its customer base to 147.9 million accesses in that region (+21.4%):**

**The mobile telephony business continues to grow steadily, consolidating the upward trends in year-on-year growth of accesses following the acquisition of Telemig (+27.1% vs. +23.0% in the first quarter of 2008).** Organic<sup>4</sup> net adds for the six-month period were up 23.2% on the prior year, driven by the higher number of new customers and controlled churn.

<sup>3</sup> Including the impact in Telefónica España of the new model for

public use  
telephone  
service  
(-67.9 million  
euros in the  
period from  
January to  
June 2007).

<sup>4</sup> Including  
Telemig in  
April June 2007.

---

Despite the substantial rise in the number of customers, **outgoing mobile ARPU rose 3.0% in constant euros in organic<sup>4</sup> terms in the first half of 2008**, reflecting the success of policies to stimulate phone use.

**Retail broadband Internet accesses totalled over 5.5 million (+26.1%), with a strong recovery in net adds in the second quarter (+43.4% compared to the first quarter of 2008) to 490,000 in the six-month period. Pay TV customers reached 1.4 million and the number of fixed telephony accesses<sup>5</sup> rose 1.9% year-on-year.**

**The average revenue per fixed telephone access rose 3.5% in constant euros**, reflecting the shift in operations toward a greater weight of packaged products.

**Significant organic growth<sup>6</sup> in revenue (+12.2% in the first half of 2008) and strong organic<sup>6</sup> OIBDA growth (up 15.8% in the first six months of the year compared to +11.8% in the first quarter)**, driven by the sharp rise in the mobile business and a considerable improvement by fixed operators:

Mobile revenue continues its strong year-on-year growth in the majority of operations, driven by the good performance of outgoing traffic revenues.

The growing contribution of Internet and TV revenue (18.0% of the six-month total; +3.4 percentage points) helped drive growth in fixed operator revenues, while margins have stabilised with respect to the first quarter of the year.

**The OIBDA margin stood at 36.4%**, up 1.2 percentage points year-on-year, due to the greater scale and efficiency improvements.

#### **TELEFÓNICA EUROPE:**

**High commercial activity during the first half of the year, driven by the mobile business, with net adds of 1.3 million customers (+13.5%), to reach 43.8 million total accesses at June 2008 (+9.8%).**

The continued focus on higher-value segments allowed to increase the mobile customer base in the **United Kingdom by 5.0% year-on-year (18.7 million customers)**. Postpay net adds in the first half of the year were **2.2 times those of the prior year**, leveraging churn containment.

**Second-quarter mobile net adds in Germany amounted to 568,374 (+52.0% year-on-year; +6.0% quarter-on-quarter)**, bringing the customer base to 13.6 million lines (+17.5% year-on-year).

**In the Czech Republic, the mobile postpay customer base grew steadily (+14.1%) while the loss of fixed accesses was contained.**

**Revenues continue to record solid organic<sup>7</sup> growth (+6.2% in the six-month period)**, with a strong rise in the **UK (+11.8% in local currency in the six-month period)** and **revenue growth acceleration in Germany (+3.8% in the second quarter compared to +1.5% in the first quarter of 2008)**.

**OIBDA rose 4.0% in like for like<sup>8</sup> terms in the first half of the year, with an OIBDA margin of 27.2%, maintained vs. the first half of 2007, due to the greater commercial activity (mobile and ADSL).**

<sup>5</sup> The Group's accesses were reclassified with effect from 31 December 2006, with all fixed

wireless accesses now included in fixed telephone access. Until December 2007 these accesses were included, depending on the country, in the total number of wireless or fixed accesses. After 1 January 2008, fixed wireless accesses include fixed wireless public telephones (PUT).

- 6 Assuming constant exchange rates and including the consolidation of TVA in January-June 2007 and Telemig in April-June 2007.
- 7 Assuming constant exchange rates and excluding the consolidation of Airwave in the first quarter of 2007.
- 8 Assuming constant exchange rates and excluding the consolidation of Airwave in the first quarter of 2007. Capital gain from the sale of Airwave in 2007 is also excluded, as well as gains related to the real estate sale in the Czech Republic in 2008, restructuring and similar charges and

the result of the application of provisions made in respect of potential contingencies deriving from the past disposal of shareholdings, once these risks had dissipated or had not materialized.
