Media Release

Credit Suisse Group reports underlying\* pre-tax profit of CHF 2.2 billion and underlying net income of CHF 1.6 billion; underlying return on equity 18.8%

Including fair value losses of CHF 617 million, CHF 467 million after tax, on own debt and stand-alone derivatives relating to own funding liabilities, pre-tax profit was CHF 1.6 billion and net income CHF 1.1 billion, return on equity of 13.4%

Net new assets totalled CHF 19.1 billion; very strong capital position with a tier 1 ratio of 18.2%

- Private Banking pre-tax income of CHF 0.9 billion with net new assets of CHF 18.0 billion
- Investment Banking pre-tax income of CHF 1.3 billion; strong fixed income and solid equity sales and trading results; solid underwriting and advisory results; continued positive market share momentum
- Asset Management pre-tax income of CHF 172 million; building fee-based revenues, net new assets of CHF 4.5 billion
- Overall strong, high-quality operating results, evidencing continued client momentum and market share gains across businesses
- Credit Suisse continued to build on an already very high capital position; tier 1 ratio of 18.2%, Core tier 1 ratio of 13.0%, announced two transactions to create up to 70% of its maximum potential issuance of high-trigger contingent capital suggested under the proposed Swiss regulations and capital requirements by 2019; deferred tax assets reduced by CHF 0.8 billion
- During 1Q11 Credit Suisse continued to work closely with regulators to help build a more stable financial system. In line with its expectations, regulatory trends show progress in developing a more level playing field for the global banking industry

Zurich, April 27, 2011 Credit Suisse reported underlying core results as follows: pre-tax income of 2.2 billion, net income of CHF 1.6 billion on net revenue of CHF 8.4 billion and return on equity of 18.8%. This excludes fair value losses of CHF 617 million (CHF 467 million after tax) on own debt and stand-alone derivatives relating to own funding liabilities. Net income attributable to shareholders was CHF 1.1 billion in 1Q11 on net revenues of CHF 8.2 billion and a return on equity attributable to shareholders of 13.4%. Diluted earnings per share were

Media Release

April 27, 2011

Page 2/7

CHF 0.90 and the tier 1 ratio was 18.2% as of the end of 1Q11. The weakening of the average rate of the US dollar and euro against the Swiss franc adversely affected results in 1Q11 compared to the previous year period.

Brady W. Dougan, Chief Executive Officer, said: "With an underlying return on equity of 18.8% we have provided further evidence that our business model generates stable, high-quality earnings. In a quarter marked by significant market uncertainty, we have maintained our strong momentum with clients, gaining market share and generating CHF 19.1 billion net new assets. At the same time, we have continued to work with regulators to help build a more robust financial system, spearheading the creation of a market for contingent convertible capital. I am convinced that clients and investors will recognize that, by being an early adopter of new regulatory requirements, Credit Suisse is extremely well positioned and will be better placed to create significant value for them."

Commenting on Private Banking, he said: "We achieved a good performance in Private Banking with continued positive client momentum and inflow of assets. This is the result of our longstanding efforts to build a multi-shore business and a comprehensive advisory process in Wealth Management, where we achieved an excellent result with CHF 15.7 billion in net new assets."

Commenting on Investment Banking, he said: "Our Investment Bank continues to win market share with strong fixed income and solid equity sales and trading results as well as a solid performance in underwriting and advisory. The environment for fixed income trading improved in the first quarter and we are particularly pleased that the investment in this part of our business has begun to show a material impact on our performance. We also maintained our strong position in equity sales and trading. Our pipeline in underwriting and advisory remains strong and we are well positioned to capture increases in issuance levels and M&A activity."

Commenting on Asset Management, he said: "In Asset Management we continue to successfully execute our strategy including our acquisitions such as Hedging-Griffo in Brazil and our stake in York Capital. There has been continued improvement in investment performance, performance fees have continued to grow and we believe there is further upside potential. We are also pleased with our steady quarterly net asset inflows."

Commenting on the regulatory environment, he said: "In light of the financial crisis, banks need to embrace a stronger capital regime and with Basel III we have the framework to allow for consistent capital treatment globally. In 2010 the Swiss Expert Commission made proposals on how the Swiss large banks could address the too-big-to-fail issue. We support the Expert Commission's proposals and believe they can be implemented without a large impact on our competitive position under Basel III. We are encouraged that measures proposed by regulators outside of Switzerland suggest that progress toward a more level playing field is being made."

Commenting on the outlook, he said: "We expect the market environment to remain constructive. We also expect clients to remain active with an increased appetite for higher return assets and comprehensive advisory services. However, the macroeconomic recovery continues to be gradual and impacted by external and market events. Nonetheless, we have substantial momentum across all of our client based businesses and we remain well prepared to continue to capitalize on our improved market position."

\*Includes the results of the three segments and the Corporate Center, but does not include noncontrolling interests without significant economic interest.

\*\*Excluding fair value losses of CHF 617 million (CHF 467 million after tax) on own debt and stand-alone derivatives relating to own funding liabilities.

## Segment Results

## Private Banking

Private Banking, which comprises the Wealth Management Clients and Corporate & Institutional Clients businesses, reported income before taxes of CHF 855 million in 1Q11, down 4% compared to 1Q10. Net revenues were stable at CHF 2,896 million. This reflected 13% higher transaction-based revenues from an increase in client activity, offset by 5% lower recurring commissions and fees and a 3% lower net interest income. The decline in recurring commissions and fees was mainly from lower investment product management fees, primarily due to the positive impact from a change in estimate for prior-year fee accruals in 1Q10. Total operating expenses increased, reflecting slightly higher compensation and benefits, mainly from increased headcount. Provision for credit losses remained on a low level of CHF 12 million.

The Wealth Management Clients business reported income before taxes of CHF 623 million in 1Q11, down 8% compared to 1Q10, as stable net revenues and lower provision for credit losses were outweighed by slightly higher operating expenses. Net revenues reflected 4% lower net interest income and 5% lower recurring commissions and fees. This was offset by 11% higher transaction-based revenues, driven by higher brokerage and product issuing fees from an increased client activity, higher foreign exchange income from client transactions and revenues from integrated solutions. The gross margin of 118 basis points decreased 3 basis points from the prior year quarter as a lower margin related to recurring commissions and fees and net interest income was only partially offset by a higher transaction-based margin.

---

Media Release

April 27, 2011

Page 4/7

The Corporate & Institutional Clients business, an important provider of financing for the Swiss economy, reported strong income before taxes of CHF 232 million, up 8% from 1Q10. A 6% increase in net revenues was accompanied by stable operating expenses and no provision for credit losses. Revenues were driven by a strong increase in transaction-based revenues.

#### Investment Banking

Investment Banking reported pre-tax income of CHF 1,343 million, down 25% compared to 1Q10 and up 141% from 4Q10. Net revenues of CHF 4,929 million were down 6% from 1Q10 and were up 42% from 4Q10. In US dollars, net revenues were 8% higher compared to 1Q10 and 49% higher compared to 4Q10, while pre-tax income was 15% lower compared to 1Q10 and 154% higher compared to 4Q10.

Net revenues included strong fixed income and solid equity sales and trading results, reflecting our franchise build-out, an improved market environment, an increase in client trading volumes and continued market share momentum. Our underwriting and advisory results were solid although lower than the seasonally strong 4Q10. Results reflected fair value losses on Credit Suisse vanilla debt and debit valuation adjustments (DVA) relating to certain structured note liabilities. Compensation and benefits of CHF 2,408 million in 1Q11 were higher than 1Q10, reflecting primarily higher social security taxes relating to share award deliveries in 1Q11. The average one-day, 99% risk management value-at-risk (VaR) was CHF 93 million in 1Q11, compared to CHF 104 million in 4Q10.

#### Asset Management

Asset Management reported pre-tax income of CHF 172 million, up 4% compared to 1Q10 and down 4% compared to 4Q10. Net revenues were down 6% from 1Q10 and 4% from 4Q10. Net revenues before investment-related gains and securities purchased from our money market funds were CHF 431 million, up 9% compared to 1Q10, reflecting improved results in diversified investments, alternative investments and traditional investments. Operating expenses of CHF 419 million were down 10% compared to 1Q10 with lower compensation and benefits, general and administrative and commission expenses. Assets under management were CHF 436 billion, up 2% compared to 4Q10, with positive market performance and net new assets.

#### Net New Assets

Private Banking recorded net new assets of CHF18.0 billion. The Wealth Management Clients business contributed net new assets of CHF 15.7 billion. Corporate & Institutional Clients contributed net new assets of CHF 2.3 billion. Compared to the end of 1Q10, assets under management were up 1.3%, reflecting net new assets and positive equity and bond market movements, mostly offset by adverse foreign exchange-related movements, mainly from the weakening of the euro and the US dollar during this period.

Asset Management reported net new assets of CHF 4.5 billion in 1Q11, including net inflows of CHF 3.9 billion in traditional investments, as inflows in multi-asset class solutions, equities and fixed income were partially offset by outflows from Swiss advisory and net inflows of CHF 0.6 billion in alternative investments, as inflows in real estate and commodities and exchange traded funds (ETFs) were mostly offset by private equity realizations and outflows in hedge funds. Compared to 1Q10, assets under management were stable with net new assets and positive market performance offset by adverse foreign exchange-related movements.

Media Release

April 27, 2011

Page 5/7

Credit Suisse Group's total assets under management were CHF 1,282.4 billion, stable compared to 1Q10 and up CHF 29 billion, or 2.3%, compared to the end of 4Q10, reflecting net new assets and positive market performance.

#### Segment Results in CHF million

		1Q11	4Q10	1Q10	Change in % vs. 4Q10	Change in % vs. 1Q10

#### Capital and liquidity

Credit Suisse's capital position remains very high. The tier 1 ratio was 18.2% as of the end of 1Q11, compared to 17.2% as of the end of 4Q10 and 16.4% as of the end of 1Q10. Core tier 1 ratio was 13.0% as of the end of 1Q11 compared to 12.2% at the end of 4Q10. Our total shareholders' equity increased CHF 0.8 billion to CHF 34.1 billion as of the end of 1Q11 from CHF 33.3 billion as of the end of 4Q10. Net deferred tax assets decreased CHF 0.8 billion. Risk-weighted assets decreased 3% to CHF 212.2 billion as of the end of 1Q11.

Credit Suisse Group has worked closely with its primary regulator, FINMA, and the Swiss National Bank to agree the terms of two landmark buffer capital transactions, announced in February, to fulfil what will be required of large Swiss banks under proposed Swiss capital adequacy regulations. With these transactions Credit Suisse Group has already secured more than 70% of its maximum potential issuance of high-trigger contingent capital suggested under the proposed Swiss regulations.

#### Collaboration revenues

Revenues from the collaboration between Private Banking, Investment Banking and Asset Management were CHF 1.1 billion for 1Q11 or 14.1% of net revenues.

Edgar Filing: CREDIT SUISSE AG - Form 6-K

\*Excluding fair value losses of CHF 617 million (CHF 467 million after tax) on own debt and stand-alone derivatives relating to own funding liabilities.

#### Credit Suisse AG

Credit Suisse AG is one of the world's leading financial services providers and is part of the Credit Suisse group of companies (referred to here as 'Credit Suisse'). As an integrated bank, Credit Suisse offers clients its combined expertise in the areas of private banking, investment banking and asset management. Credit Suisse provides advisory services, comprehensive solutions and innovative products to companies, institutional clients and high-net-worth private clients globally, as well as to retail clients in Switzerland. Credit Suisse is headquartered in Zurich and operates in over 50 countries worldwide. The group employs approximately 50,100 people. The registered shares (CSGN) of Credit Suisse's parent company, Credit Suisse Group AG, are listed in Switzerland and, in the form of American Depositary Shares (CS), in New York. Further information about Credit Suisse can be found at [www.credit-suisse.com](http://www.credit-suisse.com).

#### Cautionary statement regarding forward-looking information and non-GAAP information

This press release contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, objectives or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements except as may be required by applicable securities laws. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
  - market and interest rate fluctuations and interest rate levels;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of continued slow economic recovery in the US or other developed countries in 2011 and beyond;
- the direct and indirect impacts of continuing deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by credit rating agencies in respect of sovereign issuers, structured credit products or other credit-related exposures;
  - the ability of counterparties to meet their obligations to us;
- the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations;
  - political and social developments, including war, civil unrest or terrorist activity;
- the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations;
  - operational factors such as systems failure, human error, or the failure to implement procedures properly;
- actions taken by regulators with respect to our business and practices in one or more of the countries in which we conduct our operations;

Edgar Filing: CREDIT SUISSE AG - Form 6-K

- the effects of changes in laws, regulations or accounting policies or practices;
- competition in geographic and business areas in which we conduct our operations;
  - the ability to retain and recruit qualified personnel;
  - the ability to maintain our reputation and promote our brand;
  - the ability to increase market share and control expenses;
    - technological changes;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate acquired businesses successfully, and divestitures, including the ability to sell non-core assets;
  - the adverse resolution of litigation and other contingencies;
  - the ability to achieve our cost efficiency goals and cost targets; and
  - our success at managing the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, as well as the information set forth in our Annual Report 2010 under IX – Additional information – Risk Factors.

This press release contains non-GAAP financial information. Information needed to reconcile such non-GAAP financial information to the most directly comparable measures under GAAP can be found in the Credit Suisse Financial Release 1Q11.

Cautionary statement regarding forward-looking and non-GAAP information

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve inherent risks and uncertainties, and we might not be able to achieve the predictions, forecasts, projections and other outcomes we describe or imply in forward-looking statements.

A number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions we express in these forward-looking statements, including those we identify in "Risk Factors" in our Annual Report on Form 20-F for the fiscal year ended December 31, 2010 filed with the US Securities and Exchange Commission, and in other public filings and press releases. We do not intend to update these forward-looking statements except as may be required by applicable laws.

This presentation contains non-GAAP financial information. Information needed to reconcile such non-GAAP financial information to the most directly comparable measures under GAAP can be found in Credit Suisse Group's first quarter report 2011.

 (180)  
 Impact from  
 stronger  
 Swiss franc

§ Higher brokerage and product issuing fees,  
 including stronger demand for structured products,  
 reflecting increased client activity

§ Mainly reflects gain from change in estimate for fee  
 accruals that benefited 1Q10

§ Low fee level continues to reflect risk-averse asset  
 mix

§ Mainly reflects reduction in average deposit  
 volumes (FX-related) and lower margins

§ Ongoing impact from low interest rate environment  
 Net revenues in CHF m

Strengthening of Swiss franc negatively  
 impacted pre-tax income by CHF 130 m

Adverse foreign exchange impact masks underlying  
 growth trend in Wealth Management

Wealth Management - Net interest income in CHF m  
2008

Quarterly average

939

880

2009

2010

§ Interest income suffered due to a FX rate-driven decrease  
in average deposit volumes and a continued roll-over of  
the portfolio at a low reinvestment rate

§ Scenario analysis:

– a roll-off at current low rates would lead to approx.

CHF 20 m reduction in quarterly revenues

– a 100 bp parallel shift in major interest rates would lead  
to approx. CHF 75 to 100 m additional quarterly  
revenues over time

927

937

1Q11

Note: Scenario analysis assumes stable volumes

Corporate & Institutional Clients business continues to  
deliver strong results

Solid  
underwriting  
and advisory  
results

- § Strong debt underwriting revenues, driven by continued strength in high yield issuance volumes
  - § Solid results in equity underwriting and advisory, although lower compared to the seasonally strong 4Q10, driven by lower industry-wide issuance volumes and completed M&A activity
    - § Revenues continued to be solid reflecting an increase in client volumes
    - § Sustained strong market share positions across key businesses
  - § Record revenues in Derivatives and stable results in Cash Equities and Prime Services
- Solid equity  
sales and  
trading  
results
- § Strong revenues reflecting franchise build-out, market share gains, increased client activity and an improved market environment from 4Q10
    - § Strong results in Securitized Products, Rates and Credit
  - § Impact of sales force expansion continues to materialize, with further opportunity to capitalize on increasing client volumes

funded

§ Well prepared for Basel 3 liquidity and funding requirements

– Excess short-term (30 days) liquidity of CHF 119 bn represents a ratio of 127% under Swiss regulation; approach similar to the Basel 3 "Liquidity coverage ratio (LCR)"

– Basel 3 "Net Stable Funding Ratio (NSFR)" (1-year) estimated at around 94%, with future funding plans projected to raise the ratio to over 100% by 2013

§ Regulatory leverage ratio at 4.7% (vs. 4.2% at 1Q10)

§ Funding spreads remain amongst the tightest of the peer group

§ Already completed more than 40% of CHF 16 bn long-term debt funding plan for year 2011

Delivering  
client-focused  
franchise  
Balanced and  
high quality  
results  
Further  
strengthened  
our capital  
position

§ Underlying results: pre-tax income of CHF 2.2 bn, net income of CHF 1.6 bn and  
after-tax return on equity of 19%

§ Net new assets of CHF 19 bn

§ Basel 2 tier 1 capital ratio of 18.2% and core tier 1 ratio of 13.0%

§ Executed more than 70% of required high trigger Contingent Capital

§ Shareholders' equity up 2% (CHF 0.8 bn) and deferred tax assets down 9% (CHF 0.8 bn)

§ Strong liquidity and funding position as competitive advantage

§ Global regulatory trends indicating emergence of a more level playing field

Private Banking with strong inflows and improved transaction revenues offsetting decline in  
net interest income

Investment Banking with record first quarter revenues (in USD) driven by continued market  
share momentum and beneficial impact of client flow-sales expansion

Asset Management with solid inflows and higher quality results reflecting increased fee-  
based revenues and reduced expenses

- § Cash Equities and Prime Services largely unaffected by Basel 3
  - § Focus on derivatives flow businesses, where Basel 3 has limited impact
  - § Continue to improve M&A and underwriting market share
    - § Lock in #1 position within financial sponsors
    - § Business largely unaffected by Basel 3 changes
  - § Maintain leadership in RMBS and High-Yield products, where returns are expected to be good also under Basel 3
  - § Continue to build capital-efficient scale in Rates and FX client-flow capabilities
    - § Exit wind-down businesses  
(pre-tax loss of CHF 0.5 bn in 2010 and 120 m in 1Q11)
    - § Product re-pricing or enhanced market share as industry adjusts to increased capital requirements
    - § Portfolio focus on scaleable capital-efficient and client-focused businesses
    - § Continued cost discipline with further benefit from efficiency gains and the integrated banking model

Commercial mortgage exposure reduction in Investment Banking

---

Developed market lending

§ Corporate loan portfolio 76% is investment grade, and is mostly (92%) accounted for on a fair value basis

§ Fair value is a forward looking view which balances accounting risks, matching treatment of loans and hedges

§ Loans are carried at an average mark of approx. 99% with average mark of 97% in non-investment grade portfolio

§ Continuing good performance of individual credits: limited specific provisions during the quarter

Unfunded  
commitments

Loans

Hedges

CHF bn

Emerging market lending

§ Well-diversified by name and evenly spread between EMEA, Americas and Asia and approx. 25% accounted for on a fair value basis

§ Emerging market loans are carried at an average mark of approx. 95%

§ No significant provisions during the quarter

Note: Average mark data is net of fair value discounts and credit provisions

Slide 46

Investment Banking loan book

Wealth Management Clients: CHF 134 bn

§ Portfolio remains geared towards mortgages (CHF 90 bn) and securities-backed lending (CHF 37 bn)

§ Lending is based on well-proven, conservative standards

§ Residential real-estate: Prices continue to rise in most regions while rents are moving sluggishly; Prices have reached considerable levels in lake Geneva region, partially in the Zurich-Zug area and major tourist spots; Some risk of major price falls only conceivable in those regions

Corporate & Institutional Clients: CHF 53 bn

§ Over 64% collateralized by mortgages and securities

§ Counterparties mainly Swiss corporates incl. real-estate industry

§ Sound credit quality with relatively low concentrations;

§ Portfolio quality improved in line with continued recovery of Swiss economy

§ Ship finance portfolio (CHF 6 bn) remains under special focus due to increased risk level caused by overcapacity in the market

§ Commercial real-estate: Prices moving sideways for office and retail spaces; outlook raised from negative to stable for both office and retail space due to quick recovery of the economy from cycle downturn; higher price potential for central and prime locations
