CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and is subject to the safe harbor created by those sections. We intend to identify forward-looking statements in this report by using words such as “believes,” “intends,” “expects,” “may,” “will,” “should,” “plan,” “projected,” “contemplates,” “anticipates,” “estimates,” “predicts,” “potential,” “continue” terminology. These statements are based on our beliefs as well as assumptions we made using information currently available to us. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Because these statements reflect our current views concerning future events, these statements involve risks, uncertainties, and assumptions. Actual future results may differ significantly from the results discussed in the forward-looking statements. These risks include changes in demand for our products, changes in the level of operating expenses, our ability to expand our network of customers, changes in general economic conditions that impact consumer behavior and spending, product supply, the availability, amount, and cost of capital to us and our use of such capital, and other risks discussed in this report. Additional risks that may affect our performance are discussed below under “Risk Factors Associated with Our Business.”

PART I

ITEM 1. DESCRIPTION OF BUSINESS

As used in this Annual Report, “we”, “us”, “our”, “True Drinks”, “Company” or “our Company” refers to True Drinks Holdings, Inc. and all of its subsidiaries, unless the context requires otherwise. We are a holding company and conduct no operating business, except through our subsidiaries.

Overview

True Drinks, Inc. was formed on January 19, 2012 in Delaware to create and commercialize all-natural, vitamin-enhanced drinks. Our primary business is the development, marketing, sale and distribution of our flagship product, AquaBall™ Naturally Flavored Water, a vitamin-enhanced, naturally flavored water drink packaged in our patented stacking spherical bottles. We distribute AquaBall™ nationally through select retail channels, such as grocery stores, mass merchandisers, drug stores and online. We also market and distribute Bazi® All Natural Energy, a liquid nutritional supplement drink, which is currently distributed online and through our existing database of customers.

On June 7, 2012, True Drinks, Inc., Bazi Acquisition Sub Inc. (“Merger Sub”), a Delaware corporation and a wholly-owned subsidiary of Bazi International, Inc. (“Bazi Intl.”), and Bazi Intl. entered into an agreement and tax-free plan of merger (the “Merger Agreement”), wherein Merger Sub merged with and into the Company and True Drinks continued as the surviving corporation (the “Merger”). As a result of the Merger, True Drinks became a wholly-owned subsidiary of the Company. The Merger closed on October 15, 2012 (the “Closing Date”). As a result of Merger, True Drinks, Inc.’s former shareholders owned approximately 95.5% of the combined post-Merger entity via shares of Series A Convertible Preferred Stock (“Series A Preferred”) issued as part of the Merger. The Company subsequently changed its name from “Bazi International, Inc.” to “True Drinks Holdings, Inc.” The Merger was accounted for as a public company “reverse merger,” and, as such, the consolidated financial statements reported herein reflect the operations of True Drinks, Inc. within the capital structure of Bazi Intl. Bazi Intl. was originally incorporated in the state of Nevada in January 2001.

True Drinks, Inc., formerly named GT Beverage Company, Inc., was originally incorporated in the state of Delaware in January 2012. True Drinks acquired GT Beverage Company, LLC on March 31, 2012 in a business combination, primarily to acquire the use of a spherical bottle patent held by GT Beverage Company, LLC.

Recent Developments

Note Offering

On June 20, 2013 the Company commenced a private offering of: (i) convertible promissory notes (the “Notes”) in the aggregate principal amount of up to \$3.3 million; and (ii) and five-year warrants to purchase shares of the Company’s Common Stock at an exercise price of \$1.10 per share (the “Warrants”) to certain accredited investors. During the year ended December 31, 2013, the Company issued Notes in the aggregate principal amount of \$3,126,000, which amount included \$600,000 issued as consideration for the exchange of the outstanding principal and accrued interest of certain promissory notes previously issued by the Company. All outstanding principal and interest were either repaid or converted into equity- see below discussion under Term Loan and Note Conversion.

License Agreement

In August 2013, the Company signed an extension of its licensing agreement with Marvel Characters B.V. to extend the expiration date from December 31, 2013 to December 31, 2015 (the “Marvel Agreement”). The Marvel Agreement allows True Drinks to use a range of different Marvel characters on AquaBall™ packaging in exchange for a royalty payment, paid quarterly, equal to 5% of the proceeds from the sale of AquaBalls™ adorned with Marvel characters in the United States and Canada. The Marvel Agreement has a total royalty guarantee of \$150,000 over the term of the agreement.

Creation of Series B Convertible Preferred Stock

On November 22, 2013, the Company filed the Certificate of Designation, Preferences, Rights and Limitations of the Series B Convertible Preferred Stock (the “Certificate of Designation”) with the Nevada Secretary of State, designating 2.75 million shares of the Company's Preferred Stock as Series B Convertible Preferred Stock (“Series B Preferred”). Each share of Series B Preferred has a stated value of \$4.00 per share (“Stated Value”), and accrues annual dividends equal to 5% of the Stated Value, payable by the Company in quarterly installments, in either cash or shares of Common Stock. Pursuant to certain terms and conditions in the Certificate of Designation, each share of Series B Preferred is convertible, at the option of the holder, into that number of shares of Common Stock equal to the Stated Value, divided by \$0.25 per share (the “Conversion Shares”). The Company also has the option to require conversion of the Series B Preferred into Conversion Shares in the event: (i) there are sufficient authorized shares of Common Stock reserved as Conversion Shares; (ii) the Conversion Shares are registered under the Securities Act of 1933, as amended, or the Conversion Shares are freely tradable, without restriction, under Rule 144 of the Securities Act; (iii) the daily trading volume of the Company's Common Stock, multiplied with the closing price, equals at least \$250,000 for 20 consecutive trading days; and (iv) the average closing price of the Company's Common Stock is at least \$0.62 per share for 10 consecutive trading days.

Series B Offering

On November 25, 2013, the Company commenced a private offering of up to 2.0 million shares of Series B Preferred for \$4.00 per share (“Purchase Price”), and five-year warrants (the “Warrants”), exercisable for \$0.30 per share (the “Exercise Price”), to purchase that number of shares of the Company's Common Stock equal to 35% of the Purchase Price, divided by the Exercise Price (the “Series B Offering”). As of the date hereof, the Company and certain accredited investors entered into Securities Purchase Agreements to purchase 2.0 million shares of Series B Preferred, and Warrants to purchase approximately 9.3 million shares of Common Stock.

Term Loan and Note Conversion

Edgar Filing: True Drinks Holdings, Inc. - Form 10-K

On November 29, 2013, the Company executed a Loan and Security Agreement and other ancillary documents for a \$2.0 million term loan from Avid Bank (the "Bank") (the "Term Loan"), which Term Loan accrues interest at a rate of prime plus 2.75% and matures on November 29, 2015. The Company's repayment of the Term Loan is secured by a continuing security interest in substantially all of the Company's assets. Proceeds from the Term Loan, together with a portion of the proceeds from the Series B Offering were used to repay certain Notes issued, totaling approximately \$2.5 million in principal and accrued interest (the "Note Repayment").

Table of Contents

In addition to the Note Repayment, holders of the remaining Notes issued during the Note Offering agreed to cancel Notes totaling \$739,706 in principal and accrued interest in exchange for 205,476 shares of Series B Preferred and Warrants to purchase 862,995 shares of Common Stock for \$0.30 per share, on substantially the same terms offered in the Series B Offering (the "Note Conversion").

On November 29, 2013, the Company repaid approximately \$400,000 in principal and accrued interest and fees from previous notes. In addition to the repayment, holders of previous notes agreed to cancel Notes totaling \$235,729 in principal and accrued interest in exchange for 58,947 shares of Series B Preferred and Warrants to purchase 275,075 shares of Common Stock for \$0.30 per share, on substantially the same terms offered in the Series B Offering.

Our History

Bazi Intl. Prior to Merger with True Drinks, Inc.

Bazi Intl. was formed in 2001, under the name "Instanet, Inc." In August 2010, we changed our name to Bazi International, Inc. Until January 18, 2010, our principal channel of distribution was through a multilevel distributor network, which we terminated in January 2010 in favor of a retail and direct-to-consumer, online sales model. Bazi Intl. continued to distribute Bazi® online and through our existing database of customers, but as a result of the termination of our multilevel distributor model, most of our top distributors ended their relationship with the Company during the first quarter of 2010, causing sales of Bazi® to decrease throughout 2011 and into 2012. As a result, Bazi Intl. began suffering from a lack of sufficient capital necessary to adequately market Bazi® and support the Company's existing retail and distribution partners.

True Drinks, Inc. Prior to Merger with the Bazi Intl.

True Drinks, Inc. (formerly GT Beverage Company, Inc.) was formed on January 19, 2012 to develop, market and sell AquaBall™ Naturally Flavored Water. In February and March of 2012, True Drinks, Inc. acquired GT Beverage Company, LLC. GT Beverage Company, LLC was formed in May 2008 to create and commercialize its Sportastic® brand sports drink, sold in round plastic bottles with registered trade dresses such as baseball and soccer designs. However, in January 2012, GT Beverage Company, LLC ceased its sports drink operations. In April 2012, True Drinks began packaging and selling AquaBall™ Naturally Flavored Water in its patented interlocking round plastic bottles, with depictions of characters from major entertainment companies, as permitted by licensing agreements with these companies.

Market Overview

Our products are characterized as functional beverages, or drink products with specific health benefits in its formulation of ingredients. Our flagship product, AquaBall™ Naturally Flavored Water is a healthy hydration alternative to current beverages positioned towards children, and competes in the kids' food market segment. Functional beverages are growing at an aggressive rate, largely due to consumer demand for healthier alternatives to typical carbonated soft drinks. The shift away from carbonated soft drinks to healthier, functional drinks is reflected in the fact that sales of carbonated soft drinks have been flat since 2004, yet functional beverage sales have grown almost \$20.0 billion over the same period to \$30.6 billion in annual sales. Market research firm Zenith International estimates that global per capita consumption of functional beverages increased 25% from 2010 to 2013.

The kids foods market segment is projected to grow 40% from \$10 billion in 2010 to \$14 billion by 2015 according to Packaged Facts, a leading publisher of market research in the food, beverage and consumer packaged good sectors. Beverages are the second highest performing product within the kids foods market segment. In 2010, 40% of the kids food market contained some "better-for-you" element. Packaged Foods forecasts that the next several years

will bring tremendous growth in the sales and development of food and beverage products marketed and designed for children. As a result, we are currently positioning AquaBall™ as a healthy, safe, naturally flavored water drink for kids.

Our Products

We market and distribute products that move away from high sugar, high calorie and nutritionally deficient beverages to healthful, natural alternatives. Our mission is to bring integrity back to the beverage industry and that honesty applies to every drop in every bottle. Our goal is to create and deliver beverages for families that encourage improved health, while being clear about what our products contain (and what they don't).

AquaBall™ Naturally Flavored Water

Our flagship product, AquaBall™ Naturally Flavored Water, is a naturally flavored water beverage, enhanced with vitamins B3, B5, B6, B12 and C. AquaBall™ does not contain high fructose corn syrup, artificial flavors, or artificial colors. Unlike high sugar and high calorie beverages marketed toward children, AquaBall™ is sweetened with stevia, an all-natural sweetener, allowing the AquaBall™ to provide a zero-sugar, zero-calorie alternative to juice and soda for kids. The main component of the marketing vision behind the AquaBall™ brand is our licensing agreements with Disney Consumer Products, Inc. ("Disney") and Marvel Entertainment ("Marvel"), allowing each AquaBall™ to prominently feature various Disney and Marvel characters. Both Disney and Marvel characters have an established reputation of high retail sales of licensed products, giving each AquaBall™ the presence associated with these brands.

Each AquaBall™ is packaged in our patented 12 ounce stackable, spherical PET bottle, and wrapped with colorful, eye-catching labels featuring popular Disney characters and various Marvel Superheroes. AquaBall™ currently comes in fruit punch, grape, orange and berry flavors and is sold in mass-market retailers throughout the United States. AquaBall™ is also available for purchase online at <http://www.theaquaball.com>. During the year ended December 31, 2013, AquaBall™ sales accounted for approximately 90% of the Company's total revenues.

Bazi®

Bazi® All Natural Energy, is a liquid nutritional drink packed with eight different super fruits, including the Chinese jujube and seven other superfruits, plus 12 vitamins. The proprietary formula contains the following fruits: jujube fruit, blueberry, pomegranate, goji berry, chokeberry, raspberry, acai and sea buckthorn. Additionally, Bazi® contains 12 vitamins including vitamins A, C, E and B-complex. In August, 2011, BioEnergy Ribose was added to Bazi® enhancing the products energy delivery system. During the year ended December 31, 2013, Bazi® sales accounted for approximately 10% of the Company's total revenues.

Manufacturing and Distribution

Manufacturing

We use a limited number of third parties to supply and manufacture our products. We have co-packing agreements with 7-Up Bottling in Modesto, California, Precision Formulations in Dallas, Texas, and Adirondack Beverages in Scotia, New York to package up to 4.0 million™ cases per year. Bazi® has been manufactured by Arizona Packaging and Production since 2007.

Retail Distribution

We utilize a direct-to-retailer distribution strategy to key national accounts for sales of AquaBall™ Naturally Flavored Water, including distribution to Rite-Aid, Toys R Us, Inc., Harris Teeter Supermarkets, Polar Beverages, Value Merchandisers, and stores under the Safeway, Inc. and The Kroger Company brands nationwide. We also distribute AquaBall™ through regional distributors throughout the United States. We are actively seeking additional

retail and convenience accounts, and we plan to explore alternative markets for AquaBall™ in the upcoming year such as schools, sports venues, fast food restaurants, dollar store and club store channels. Additionally, our licensing agreement with Disney Consumer Products, Inc. and Marvel Entertainment allows us to work with Disney and Marvel's dedicated sales teams who, in turn, work with top retailers to assist us with securing shelf-space for AquaBall™ and accomplishing our long-term sales objectives.

Online Sales

The Company's ecommerce platform allows current and future consumers to purchase AquaBall™ Naturally Flavored Water and Bazi® Energy Shot by visiting our webpages, <http://www.theaquaball.com> and <http://www.drinkbazi.com>. We drive traffic to relevant landing pages and micro sites through digital marketing campaigns and promotions, as well as a variety of social media marketing efforts.

Sales and Marketing

The Company's sales and marketing efforts are directed from our corporate offices in Irvine, California, utilizing our own staff, as well as outside resources retained to build market awareness and shelf placement of our products. The Company manages key national accounts through our in-house national sales team. Most notably, the Company will begin distributing AquaBall™ Naturally Flavored Water to all RiteAid locations in June 2014.

Our sales teams work to secure national distribution with these customers through multiple avenues including joint sales meetings with Disney and Marvel sales personnel dedicated to these national accounts. The Company sales team also manages our national broker networks. The networks focus on areas such as regional grocery chains and the convenience store channel.

As of December 31, 2013, the Company was not dependent upon any major customers.

Source and Availability of Raw Materials

We utilize a variety of suppliers to purchase raw materials for the AquaBall™ Naturally Flavored Water during the year ended December 31, 2013.

During 2013, we relied significantly on one supplier for 100% of our purchases of certain raw materials for Bazi®. Bazi, Inc. has sourced these raw materials from this supplier since 2007 and does not anticipate any issues with the supply of these raw materials.

We own the formulas for both AquaBall™ Naturally Flavored Water and Bazi® Energy Shot, and we believe that our purchasing requirements can be readily met from alternative sources, if necessary.

Competition

The industries in which we operate are highly competitive. AquaBall™ Naturally Flavored Water competes most directly with other beverages marketed directly to children. We also compete with other manufacturers of functional beverages, and with manufacturers of more traditional beverages, such as juice and soda.

Our primary competition for AquaBall™ is in the \$1.2 billion market for products marketed directly to children, including CapriSun®, Tum-E Yummies, Belly Washers, Tummy Ticklers, Kool-aid and others. General competition in the beverage industry includes products owned by multinational corporations with significant financial resources, including Vitamin Water, owned by Coca-Cola, and Sobe and Propel, both owned by Pepsi Co. Bazi® competitors include Steaz®, Guayaki Yerba Mate, POM Wonderful®, as well as sports and energy drinks including Gatorade®, Red Bull®, 5-Hour Energy®, RockStar®, Monster®, Powerade®, Accelerade® and All Sport®. Indirect competition for the AquaBall™ and Bazi® includes soft drinks and juice products, such as Sunny Delight® and other fruit drinks. These competitors can use their resources and scale to rapidly respond to competitive pressures and changes in consumer preferences by introducing new products, reducing prices or increasing promotional activities. Many of our competitors have longer operating histories and have substantially greater financial and other resources than we

do. They therefore have the advantage of established reputations, brand names, track records, back office and managerial support systems and other advantages that we cannot duplicate in the near future. Moreover, many competitors, by virtue of their longevity and capital resources, have established lines of distribution to which we do not have access, and are not likely to duplicate in the near term, if ever.

Intellectual Property

We rely on the AquaBall™ patent, AquaBall™ and Bazi® trademarks and licensing agreements to market our products and make them stand out among our competitors.

Patents and Trademarks

We were granted the patent for AquaBall™'s stackable, spherical drink container in 2009, via GT Beverage Company, LLC, who we purchased on March 31, 2012. We maintain trademark protection for AquaBall™ and have federal trademark registration for Bazi®. This trademark registration is protected for a period of ten years and then is renewable thereafter if still in use.

Licensing Agreements

We entered into a three-year licensing agreement with Disney Consumer Products, Inc. ("Disney") and an 18-month licensing agreement with Marvel Characters, B.V. ("Marvel") (the "Licensing Agreements") in 2012. Each Licensing Agreement allows us to feature popular Disney and Marvel characters on AquaBall™ Naturally Flavored Water, allowing AquaBall™ to stand out among other beverages marketed towards children. Under the terms and conditions of the Licensing Agreements, we work with the Disney and Marvel teams to create colorful, eye-catching labels that surround the entire spherical shape of each AquaBall™. Once the label designs are approved, we work with Disney and Marvel to set retail calendars, rotating the placement of different AquaBall™ designs over the course of the year. The terms of the Disney Licensing Agreement stipulates a royalty rate of 4% on the sales of AquaBall™ Naturally Flavored Water adorned with Disney characters, paid quarterly, with a total royalty guarantee of \$231,600 over the term of the agreement which has a term ending date of March 31, 2015. In addition, the Company is required to spend 1% of sales on advertising and promotional opportunities. The Company is required to make common marketing fund contributions totaling \$96,188 over the life of the agreement.

The terms of the Marvel Licensing Agreement stipulates a royalty rate of 5% on the sales of AquaBall™ Naturally Flavored Water adorned with Marvel characters, paid quarterly. The Company recently extended its agreement with Marvel through the end of 2015. The total royalty guarantee for the period from January 1, 2014 through December 31, 2015 is \$150,000.

Government Regulations

General

Our operations are affected by extensive laws, governmental regulations, administrative determinations, court decisions and enforcement policies. These requirements exist at the federal, state and local levels in the United States, including laws and regulations pertaining to:

the formulation, manufacturing, packaging, labeling, holding, storage, distribution, advertising and sale of our products; and

product claims and advertising, including direct claims and advertising by us, as well as claims and advertising by independent distributors, for which we may be held responsible.

Table of Contents

The formulation, manufacturing, packaging, labeling, holding, storage, distribution, advertising, and sale of our products is subject to regulation by one or more federal agencies, including the Food and Drug Administration (“FDA”), the Federal Trade Commission (“FTC”), the Consumer Product Safety Commission (“CPSC”), the Occupational Safety and Health Administration (“OSHA”), the Department of Agriculture (“USDA”) and the Environmental Protection Agency (“EPA”). These activities are also regulated by various agencies of the states and localities in which our products are sold. Pursuant to the Federal Food, Drug, and Cosmetic Act (“FDCA”), the FDA regulates the processing, formulation, safety, manufacture, packaging, labeling, holding, sale, and distribution of foods and nutritional supplements (including vitamins, minerals, amino acids, herbs, and botanicals). The FTC has jurisdiction to regulate the advertising of these products. The CPSC is charged with protecting the public from risks of serious injury or death associated with the use of consumer products. Nutritional supplements are among the over 15,000 types of consumer products under CPSC’s jurisdiction. When consumers complain to the CPSC about alleged harm stemming from ingestion of vitamins and other nutritional supplement, CPSC may contact the entity concerned, inform it of the nature of the complaint, and invite a response. CPSC has conducted several recalls of iron-containing dietary supplements that do not comply with the child-resistant packaging requirement. The OSHA is charged with protecting workplace safety. Nutritional supplement companies must maintain a safe workplace and may from time to time be subject to queries from OSHA if manufacturing methods or procedures raise a question of worker safety. The USDA has jurisdiction over animal food and animal feed, including regulatory control over the harvesting of animal-based source materials, including animal-derived proteins, and animal-derived gelatin capsules, used in the making of dietary supplements. The EPA regulates dietary supplement compliance with standards established under the Clean Air Act, the Clean Water Act, the Occupational Safety and Health Act, and the Pollution Prevention Act as they affect the use, maintenance, and disposal of substances used in and facilities used for the manufacture of nutritional supplements.

Bazi® All Natural Energy falls under some additional regulations as a nutritional supplement. The FDCA has been amended several times with respect to nutritional supplements, in particular by the Dietary Supplement Health and Education Act of 1994 (“DSHEA”), which established a new framework governing the composition, safety, labeling and marketing of nutritional supplements. Nutritional supplements are defined as vitamins, minerals, herbs, other botanicals, amino acids and other dietary substances for human use to supplement the diet, as well as concentrates, metabolites, constituents, extracts or combinations of such dietary ingredients. Generally, under DSHEA, dietary ingredients that were on the market prior to October 15, 1994, may be used in nutritional supplements without notifying the FDA. New dietary ingredients, consisting of dietary ingredients that were not marketed in the United States before October 15, 1994, are subject to a FDA pre-market new dietary ingredient notification requirement unless the ingredient has been present in the food supply as an article used for food without being chemically altered. A new dietary ingredient notification must provide the FDA with evidence of a history of use or other evidence of safety establishing that use of the dietary ingredient will reasonably be expected to be safe. A new dietary ingredient notification must be submitted to the FDA at least 75 days before the initial marketing of the new dietary ingredient. There is no certainty that the FDA will accept any particular evidence of safety for any new dietary ingredient. The FDA’s refusal to accept such evidence could prevent the marketing of such dietary ingredients.

The FDA issued a consumer warning in 1996, followed by proposed regulations in 1997, covering nutritional supplements that contain ephedra or its active substance, ephedrine alkaloids. We have never produced or sold products containing ephedra. In February 2004, the FDA issued a final regulation declaring nutritional supplements containing ephedra under the FDCA because they present an unreasonable risk of illness or injury under the conditions of use recommended or suggested in labeling, or if no conditions of use are suggested or recommended in labeling, under ordinary conditions of use. The rule took effect on April 12, 2004, and bans the sale of nutritional supplement products containing ephedra. Similarly, the FDA issued a consumer advisory in 2002 with respect to nutritional supplements that contain the ingredient Kava, and the FDA is currently investigating adverse effects associated with ingestion of this ingredient. We have never produced or sold any products containing Kava.

Table of Contents

DSHEA permits statements of nutritional support to be included in labeling for nutritional supplements without FDA premarket approval. These statements must be submitted to the FDA within 30 days of marketing and must bear a label disclosure that “This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.” These statements may describe a benefit related to a nutrient deficiency disease, the role of a nutrient or nutritional ingredient intended to affect the structure or function in humans, the documented mechanism by which a nutrient or dietary ingredient acts to maintain such structure or function, the general well-being from consumption of a nutrient or dietary ingredient, but may not expressly or implicitly represent that a nutritional supplement will diagnose, cure, mitigate, treat or prevent a disease. An entity that uses a statement of nutritional support in labeling must possess scientific evidence substantiating that the statement is truthful and not misleading. If the FDA determines that a particular statement of nutritional support is an unacceptable drug claim or an unauthorized version of a disease claim for a food product, or if the FDA determines that a particular claim is not adequately supported by existing scientific data or is false or misleading, we would be prevented from using the claim.

In addition, DSHEA provides that so-called “third-party literature,” e.g., a reprint of a peer-reviewed scientific publication linking a particular nutritional ingredient with health benefits, may be used in connection with the sale of a nutritional supplement to consumers without the literature being subject to regulation as labeling. Such literature must not be false or misleading; the literature may not promote a particular manufacturer or brand of nutritional supplement; the literature must present a balanced view of the available scientific information on the nutritional supplement; if displayed in an establishment, the literature must be physically separate from the nutritional supplement; and the literature may not have appended to it any information by sticker or any other method. If the literature fails to satisfy each of these requirements, we may be prevented from disseminating it with our products, and any dissemination could subject our products to regulatory action as an illegal drug. Moreover, any written or verbal representation by us that would associate a nutrient in a product that we sell with an effect on a disease will be deemed evidence of an intent to sell the product as an unapproved new drug, a violation of the FDCA.

On August 25, 2007 the FDA adopted the final regulations for large manufactures of a standard originally proposed in March 2003 of the current Good Manufacturing Practices guidelines (“cGMPs”) for the manufacturing, packing, holding and distributing dietary ingredients and nutritional supplements. The new regulations require nutritional supplements to be prepared, packaged, and held in compliance with strict rules, and require quality control provisions that may mandate redundant testing of product ingredients at each separate stage of manufacture and are intended to ensure that products are accurately labeled and don’t contain adulterants and contaminants. While the rule allowed for medium and small manufacturers to have until 2009 and 2010, respectively, to comply with the cGMPs, most of our contract manufacturers did not qualify as small or medium. As a result, many of our contract manufacturers began following the proposed cGMPs or even pharmaceutical cGMPs well before the final rule was published.

The FDA has broad authority to enforce the provisions of the FDCA applicable to nutritional supplements, including powers to issue a public warning letter to an entity, to publicize information about illegal products, to request a recall of illegal products from the market, and to request the Department of Justice to initiate a seizure action, an injunction action, or a criminal prosecution in the United States courts. The regulation of nutritional supplements may increase or become more restrictive in the future.

In 2004, legislation was introduced in both houses of Congress that imposed substantial new regulatory requirements for dietary supplements. These bills did not pass and are no longer pending, but we believe the 2004 proposed legislation evidences a continuing effort to further regulate dietary supplements.

On April 12, 2004, the FDA adopted a new test for determining when a nutritional supplement is adulterated. Under this test, the FDA may declare a nutritional supplement adulterated (i.e., to present an unreasonable risk of illness or injury) if it finds any benefit provided by the supplement outweighed by a risk of illness or injury. The new

risk/benefit test is ill-defined and can be interpreted to permit FDA to hold a wide range of nutritional supplements adulterated. It is possible that FDA might hold more nutritional supplements adulterated in the future, reducing the nutritional ingredients available for use in our products.

The FTC exercises jurisdiction over the advertising of nutritional supplements. In recent years, the FTC has instituted numerous enforcement actions against nutritional supplement companies for deceptive advertising based on those companies' alleged failure to possess competent and reliable scientific evidence in support of claims made in advertising.

The FTC may monitor our advertising and could request all evidence in support of our advertising claims, which evidence is required to be kept by us in advance of advertising. Discerning what constitutes "competent and reliable scientific evidence" involves, to a degree, a subjective assessment of the relative level, degree, quality, and quantity of scientific evidence and its acceptance in the scientific community as proof of the advertising statement. It is therefore possible that we may think evidence we have as sufficient but the FTC may deem the evidence inadequate. We believe we are in material compliance with applicable federal, state and local rules.

On December 9, 2006, President Bush signed the Dietary Supplement & Nonprescription Drug Consumer Protection Act into law. The legislation requires manufacturers of dietary supplement and over-the-counter products to notify the FDA when they receive reports of serious adverse events. We already have an internal adverse event reporting system that has been in place for several years. In December 2008 the FDA submitted Guidance for implementing the regulations for comment, this guidance, when finalized, will represent the current thinking of the Food and Drug Administration on this topic, which we would intend to fully comply with.

We believe that current and reasonably foreseeable governmental regulation will have minimal impact on our business.

Research and Development

No expenses were recorded on research and development for the year ended December 31, 2013. We are working with certain third parties on the development of possible future products, but these projects are funded by the respective third parties. During 2012, we developed our AquaBall™ proprietary formula along with Wild Flavors, Inc., an independent third party contracted by the Company. We launched distribution and sales of the AquaBall™ in June 2012. The AquaBall™ did not require FDA or other regulatory approval. Following the initial launch of the AquaBall™, we continued research and development efforts to add more flavors to the AquaBall™ line, and modify the AquaBall™ into a zero sugar, zero calorie product. We launched the zero sugar, zero calorie line in early 2013, as well as new flavors, such as strawberry lemonade and berry.

During 2006, Bazi® was developed and was launched in January 2007. This product did not require FDA or other regulatory approval. During 2009, new ingredients and production methods were researched to integrate into existing products or new products. As of 2012, Bazi® is now sold solely online and is sold in 12, 24, 36, 48 and 144 packs.

Employees

We had eight full-time employees and one part-time employee as of December 31, 2013.

Compliance with Environmental Laws

In California, we are required to collect redemption values from our retail customers and to remit such redemption values to the State of California Department of Resources Recycling and Recovery based upon the number of cans and bottles of certain carbonated and non-carbonated products sold. In certain other states where our products are sold, we are also required to collect deposits from our customers and to remit such deposits to the respective jurisdictions based upon the number of cans and bottles of certain carbonated and non-carbonated products sold in such states.

Available Information

As a public company, we are required to file our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements on Schedule 14A and other information (including any amendments) with the Securities and Exchange Commission (the “SEC”). You may read and copy such material at the SEC’s Public Reference Room located at 100 F Street, N.E., Washington, D.C. 20549, on official business days during the hours of 10:00 a.m. to 3:00 p.m. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. You can also find the Company’s SEC filings at the SEC’s website at <http://www.sec.gov>.

Our Internet address is www.truedrinks.com. Information contained on our website is not part of this annual report on Form 10-K. Our SEC filings (including any amendments) will be made available free of charge on www.truedrinks.com, as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC.

ITEM 1A. RISK FACTORS

We are subject to various risks that could have a negative effect on the Company and its financial condition. These risks could cause actual operating results to differ from those expressed in certain “forward looking statements” contained in this Annual Report on Form 10-K as well as in other communications.

Risks Related to the Company

We have a history of operating losses and, despite consummation of recent financings, may continue to experience liquidity problems.

We have not been profitable since inception. We had a net loss of \$7,122,135 for the year ending December 31, 2013. Although we have recently consummated equity and debt financings resulting in gross proceeds of \$12,032,000, we may require additional capital to execute our business and marketing plan, and continue as a going concern. Our history of losses may impair our ability to obtain necessary financing on favorable terms or at all. It may also impair our ability to attract investors if we attempt to raise additional capital by selling additional debt or equity securities in a private or public offering.

We may need to raise additional funds to our fund operations, which cannot be assured and may result in substantial dilution to our existing shareholders.

To date, our operating funds have been provided primarily from sales of our Common Stock, preferred stock, promissory notes and, to a lesser degree, cash flow provided by sales of our products. We used \$5,391,888 of cash for operations in the year ended December 31, 2013. If our business operations do not result in increased product sales, and we are otherwise unable to secure short-term working capital, our business viability, financial position, results of operations and cash flows will be adversely affected. We cannot predict the terms upon which we could raise such capital or if any capital would be available at all, and what dilution will be caused to the existing shareholders.

We may not be able to satisfy recently incurred debt obligations when due.

We recently received a \$2.0 million term loan (the “Term Loan”) from Avid Bank that matures on November 29, 2015. Additionally, we are required to maintain, with Avid Bank, a balance of unrestricted cash and cash equivalents of at least \$1.0 million, measured on a monthly basis, as well as an Asset Coverage Ratio of 1.5 which consists of cash, cash equivalents, and net eligible accounts receivable.

If we are unable to successfully execute our business and marketing plan, we may not achieve profitability, and may not be able to satisfy our obligations under the Term Loan when due, or otherwise satisfy the debt covenants. We may seek additional financing to satisfy our obligations, which financing may not be available on a timely basis, on terms that are acceptable or at all. Failure to meet our obligations under the Term Loan, including paying off the Term Loan when it becomes due and payable or satisfying the debt covenants, would result in a default in the Term Loan, which default would have a material adverse affect our business, results of operations and financial condition, and therefore threaten our financial viability.

Our operations are now dependent on the business of True Drinks, and our ability to achieve positive cash flow under our new business plan is uncertain.

As a result of the merger between True Drinks, Inc. and a subsidiary of Bazi Intl. in October 2012 (the “Merger”), our continued operations are now dependent on the business of True Drinks. True Drinks’ ability to achieve positive cash flow resulting from its new business plan is uncertain, as True Drinks’ only product line, the AquaBall™, was launched in June 2012. Although True Drinks generated revenues of approximately \$2.4 million from the sale of the AquaBall™ in 2013, there can be no guarantee that the Company will continue to grow revenue or achieve positive cash flow in the future.

Our licensing agreements with Disney Consumer Products, Inc. and Marvel Characters, B.V. are critical components of the marketing of the AquaBall™ line, and there is no guarantee the licensing agreements will be renewed at the end of each agreement’s term.

We currently have licensing agreements with Disney Consumer Products, Inc. (the “Disney Agreement”) and Marvel Characters, B.V. (the “Marvel Agreement”) that allow us to place popular Disney and Marvel characters on labels of AquaBall™ Naturally Flavored Water. As AquaBall™ was recently launched in June 2012, the use of these characters, including Disney Princesses and Spider-Man, is critical to making the AquaBall™ stand out among our competitors. Although these licensing agreements have varying terms, both the Disney Agreement and Marvel Agreement expire in 2015. There is no guarantee we will be able to renew these agreements upon expiration, nor are we able to guarantee that we will have licensing agreements with other companies when the Disney Agreement and Marvel Agreement expire.

Our limited operating history makes it difficult to evaluate our prospects.

We have a limited operating history on which to evaluate our business and prospects. Our current flagship product, the AquaBall™, was formulated and introduced to the public for sale in 2012. Our other product, Bazi®, has had limited market success. There can be no assurance that we will achieve significant sales as a result of us focusing our sales efforts on the AquaBall™ product, or that our new sales model will be successful.

We also may not be successful in addressing our other operating challenges, such as developing brand awareness and expanding our market presence through retail sales and our direct-to-consumer and online sales strategy. Our prospects for profitability must be considered in light of our evolving business model. These factors make it difficult to assess our prospects.

We are affected by extensive laws, governmental regulations, administrative determinations, court decisions and similar constraints, which can make compliance costly and subject us to enforcement actions by governmental agencies.

The formulation, manufacturing, packaging, labeling, holding, storage, distribution, advertising and sale of our products are affected by extensive laws, governmental regulations and policies, administrative determinations, court decisions and similar constraints at the federal, state and local levels, both within the United States and in any country where we conduct business. There can be no assurance that we or our independent distributors will be in compliance with all of these regulations. A failure by us or our distributors to comply with these laws and regulations could lead to governmental investigations, civil and criminal prosecutions, administrative hearings and court proceedings, civil and criminal penalties, injunctions against product sales or advertising, civil and criminal liability for the Company and/or its principals, bad publicity, and tort claims arising out of governmental or judicial findings of fact or conclusions of law adverse to the Company or its principals. In addition, the adoption of new regulations and policies or changes in the interpretations of existing regulations and policies may result in significant new compliance costs or

discontinuation of product sales, and may adversely affect the marketing of our products, resulting in decreases in revenues.

Table of Contents

Our ability to increase sales is dependent on growing in our existing markets as well as expanding into new markets in other countries. As we expand into foreign markets, we will become subject to different political, cultural, exchange rate, economic, legal and operational risks. We may invest significant amounts in these expansions with little success.

We currently are focusing our marketing efforts in the United States and, to a lesser extent, Canada. We believe that our future growth will come from both the markets that we are currently operating in and other international markets. We do not have any history of international expansion, and therefore have no assurance that any efforts will result in increased revenue. Additionally, we may need to overcome significant regulatory and legal barriers in order to sell our products, and we cannot give assurance as to whether our distribution method will be accepted. These markets may require that we reformulate our product to comply with local customs and laws. However, there is no guarantee that the reformulated product will be approved for sale by these regulatory agencies or attract local distributors.

We face substantial uncertainties in executing our business plan.

Successfully executing our business plan will require us to attain certain objectives to which no assurance can be given that we will be successful in our efforts. We believe that, in order to execute our business plan and achieve the sales growth, we are anticipating we must, among other things, successfully recruit additional personnel in key positions, develop a larger distribution network and establish a broader customer base and increase awareness of our brand name. In order to implement any of these initiatives, we will be required to materially increase our operating expenses, which may require additional working capital. If we are unable to secure additional working capital, we will be unable to accomplish our objectives, and if we are unable to accomplish one or more of these objectives, our business may fail.

We are currently dependent on a limited number of independent suppliers and manufacturers of our products, which may affect our ability to deliver our products in a timely manner. If we are not able to ensure timely product deliveries, potential distributors and customers may not order our products, and our revenues may decrease.

We rely entirely on a limited number of third parties to supply and manufacture our product. These third party manufacturers may be unable to satisfy our supply requirements, manufacture our products on a timely basis, fill and ship our orders promptly, provide services at competitive costs or offer reliable products and services. The failure to meet any of these critical needs would delay or reduce product shipment and adversely affect our revenues, as well as jeopardize our relationships with our independent distributors and customers. In the event any of our third party manufacturers were to become unable or unwilling to continue to provide us with products in required volumes and at suitable quality levels, we would be required to identify and obtain acceptable replacement manufacturing sources. There is no assurance that we would be able to obtain alternative manufacturing sources on a timely basis. Additionally, all our third party manufacturers source the raw materials for our products, and if we were to use alternative manufacturers we may not be able to duplicate the exact taste and consistency profile of the product from the original manufacturer. An extended interruption in the supply of our products would result in decreased product sales and our revenues would likely decline.

We are dependent on our third party manufacturers to supply our products in the compositions we require, and we do not independently analyze our products. Any errors in our product manufacturing could result in product recalls, significant legal exposure, and reduced revenues and the loss of distributors.

Although we require our manufacturers to verify the accuracy of the contents of our products, we do not have the expertise or personnel to monitor the production of products by these third parties. We rely exclusively, without independent verification, on certificates of analysis regarding product content provided by our third party suppliers and limited safety testing by them. We cannot be assured that these outside manufacturers will continue to supply

products to us reliably in the compositions we require. Errors in the manufacture of our products could result in product recalls, significant legal exposure, adverse publicity, decreased revenues, and loss of distributors and endorsers.

Table of Contents

We face significant competition from existing suppliers of products similar to ours. If we are not able to compete with these companies effectively, we may not be able to achieve profitability.

We face intense competition from numerous resellers, manufacturers and wholesalers of liquid nutrition drinks similar to ours, including retail, online and mail order providers. We consider the significant competing products in the U.S. market for the AquaBall™ to be Tum-E Yummies, Capri-Sun, Bug Juice, and other alternatives marketed towards children, and for Bazi® to be Red Bull®, Monster®, RockStar®, 5 Hour Energy® and Steaz®. Most of our competitors have longer operating histories, established brands in the marketplace, revenues significantly greater than ours and better access to capital than us. We expect that these competitors may use their resources to engage in various business activities that could result in reduced sales of our products. Companies with greater capital and research capabilities could re-formulate existing products or formulate new products that could gain wide marketplace acceptance, which could have a depressive effect on our future sales. In addition, aggressive advertising and promotion by our competitors may require us to compete by lowering prices because we do not have the resources to engage in marketing campaigns against these competitors, and the economic viability of our operations likely would be diminished.

Adverse publicity associated with our products or ingredients, or those of similar companies, could adversely affect our sales and revenues.

Adverse publicity concerning any actual or purported failure of our Company to comply with applicable laws and regulations regarding any aspect of our business could have an adverse effect on the public perception of our Company. This, in turn, could negatively affect our ability to obtain financing, endorsers and attract distributors or retailers for the AquaBall™ and/or Bazi®, which would have a material adverse effect on our ability to generate sales and revenues.

Our distributors' and customers' perception of the safety and quality of our products or even similar products distributed by others can be significantly influenced by national media attention, publicized scientific research or findings, product liability claims and other publicity concerning our products or similar products distributed by others. Adverse publicity, whether or not accurate, that associates consumption of our products or any similar products with illness or other adverse effects, will likely diminish the public's perception of our products. Claims that any products are ineffective, inappropriately labeled or have inaccurate instructions as to their use, could have a material adverse effect on the market demand for our products, including reducing our sales and revenues.

Our products may not meet health and safety standards or could become contaminated.

We have adopted various quality, environmental, health and safety standards. We do not have control over all of the third parties involved in the manufacturing of our products and their compliance with government health and safety standards. Even if our products meet these standards they could otherwise become contaminated. A failure to meet these standards or contamination could occur in our operations or those of our bottlers, distributors or suppliers. This could result in expensive production interruptions, recalls and liability claims. Moreover, negative publicity could be generated from false, unfounded or nominal liability claims or limited recalls. Any of these failures or occurrences could negatively affect our business and financial performance.

The sale of our products involves product liability and related risks that could expose us to significant insurance and loss expenses.

We face an inherent risk of exposure to product liability claims if the use of our products results in, or is believed to have resulted in, illness or injury. Most of our products contain combinations of ingredients, and there is little long-term experience with the effect of these combinations. In addition, interactions of these products with other

products, prescription medicines and over-the-counter drugs have not been fully explored or understood and may have unintended consequences. While our third party manufacturers perform tests in connection with the formulations of our products, these tests are not designed to evaluate the inherent safety of our products.

-13-

Table of Contents

Although we maintain product liability insurance, it may not be sufficient to cover all product liability claims and such claims that may arise, could have a material adverse effect on our business. The successful assertion or settlement of an uninsured claim, a significant number of insured claims or a claim exceeding the limits of our insurance coverage would harm us by adding further costs to our business and by diverting the attention of our senior management from the operation of our business. Even if we successfully defend a liability claim, the uninsured litigation costs and adverse publicity may be harmful to our business.

Any product liability claim may increase our costs and adversely affect our revenues and operating income. Moreover, liability claims arising from a serious adverse event may increase our costs through higher insurance premiums and deductibles, and may make it more difficult to secure adequate insurance coverage in the future. In addition, our product liability insurance may fail to cover future product liability claims, which, if adversely determined, could subject us to substantial monetary damages.

The success of our business will depend upon our ability to create brand awareness.

The market for functional beverages and nutraceuticals is already highly competitive, with many well-known brands leading the industry. Our ability to compete effectively and generate revenue will be based upon our ability to create awareness of our products distinct from those of our competitors. It is imperative that we are able to convey to consumers the fact that our products are not just functional beverages but are also nutraceuticals. However, advertising and packaging and labeling of such products will be limited by various regulations. Our success will be dependent upon our ability to convey to consumers that our products are superior to those of our competitors.

We must continue to develop and introduce new products to succeed.

The functional beverage and nutritional supplement industry is subject to rapid change. New products are constantly introduced to the market. Our ability to remain competitive depends on our ability to enhance existing products, continue to develop and manufacture new products in a timely and cost effective manner, to accurately predict market transitions, and to effectively market our products. Our future financial results will depend to a great extent on the successful introduction of several new products. We cannot be certain that we will be successful in selecting, developing, manufacturing and marketing new products or in enhancing existing products.

The success of new product introductions depends on various factors, including the following:

- proper new product selection;
- successful sales and marketing efforts;
- timely delivery of new products;
- availability of raw materials;
- pricing of raw materials;
- regulatory allowance of the products; and
- customer acceptance of new products.

We may from time to time write off obsolete inventories resulting in higher expenses and consequently greater net losses.

As we sometimes produce product adorned with characters on a promotional schedule, over production of a certain character set could result in write-downs of our inventories. A change in ingredients or labeling requirements could also result in the obsolescence of certain inventory. Write-downs of this type could make it more difficult for us to achieve profitability. We did not incur a write-down against inventory for the year ended December 31, 2013.

Table of Contents

Product returns could require us to incur significant additional expenses, which would make it difficult for us to achieve profitability.

We have not established a reserve in our financial statements for product returns. However, we may experience product returns as we shift our focus to the AquaBall™ line of products and expand our market presence nationwide. We will continue to analyze our returns to determine if a reserve is necessary. If our reserves prove to be inadequate, we may incur significant expenses for product returns. As we gain more operating experience, we may need to establish a reserve for product returns.

If we are not able to adequately protect our intellectual property, then we may not be able to compete effectively and we may not be profitable.

Our existing proprietary rights may not afford remedies and protections necessary to prevent infringement, reformulation, theft, misappropriation and other improper use of our products by competitors. We own the formulations contained in our products and the patent for the AquaBall™ bottle. We consider this patent and these product formulations our critical proprietary property, which must be protected from competitors. We do not have any patents for our product formulations because we do not believe they are necessary to protect our proprietary rights. Although trade secret, trademark, copyright and patent laws generally provide such protection and we attempt to protect ourselves through contracts with manufacturers of our products, we may not be successful in enforcing our rights. In addition, enforcement of our proprietary rights may require lengthy and expensive litigation. We have attempted to protect some of the trade names and trademarks used for our products by registering them with the U.S. Patent and Trademark Office, but we must rely on common law trademark rights to protect our unregistered trademarks. Common law trademark rights do not provide the same remedies as are granted to federally registered trademarks, and the rights of a common law trademark are limited to the geographic area in which the trademark is actually used. Our inability to protect our intellectual property could have a material adverse impact on our ability to compete and could make it difficult for us to achieve a profit.

Compliance with changing corporate governance regulations and public disclosures may result in additional risks and exposures.

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002 and new regulations from the SEC, have created uncertainty for public companies such as ours. These laws, regulations, and standards are subject to varying interpretations in many cases and as a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies. This could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. As a result, our efforts to comply with evolving laws, regulations, and standards have resulted in, and are likely to continue to result in, increased expenses and significant management time and attention.

Loss of key personnel could impair our ability to operate.

Our success depends on hiring, retaining and integrating senior management and skilled employees. We are currently dependent on certain current key employees, specifically Lance Leonard, our Chief Executive Officer, and Kevin Sherman, our Chief Marketing Officer, who are vital to our ability to grow our business and achieve profitability. As with all personal service providers, our officers can terminate their relationship with us at will. Our inability to retain these individuals may result in our reduced ability to operate our business.

A limited trading market currently exists for our securities, and we cannot assure you that an active market will ever develop, or if developed, will be sustained.

There is currently a limited trading market for our securities on the OTCQB marketplace. An active trading market for our Common Stock may not develop. Consequently, we cannot assure you when and if an active-trading market in our shares will be established, or whether any such market will be sustained or sufficiently liquid to enable holders of shares of our Common Stock to liquidate their investment in our company. If an active public market should develop in the future, the sale of unregistered and restricted securities by current shareholders may have a substantial impact on any such market.

The price of our securities could be subject to wide fluctuations and your investment could decline in value.

The market price of the securities of a company such as ours with little name recognition in the financial community and without significant revenues can be subject to wide price swings. The market price of our securities may be subject to wide changes in response to quarterly variations in operating results, announcements of new products by us or our competitors, reports by securities analysts, volume trading, or other events or factors. In addition, the financial markets have experienced significant price and volume fluctuations for a number of reasons, including the failure of certain companies to meet market expectations. These broad market price swings, or any industry-specific market fluctuations, may adversely affect the market price of our securities.

Companies that have experienced volatility in the market price of their stock have been the subject of securities class action litigation. If we were to become the subject of securities class action litigation, it could result in substantial costs and a significant diversion of our management's attention and resources.

Because our Common Stock may be classified as "penny stock," trading may be limited, and the share price could decline. Moreover, trading of our Common Stock, if any, may be limited because broker-dealers would be required to provide their customers with disclosure documents prior to allowing them to participate in transactions involving our Common Stock. These disclosure requirements are burdensome to broker-dealers and may discourage them from allowing their customers to participate in transactions involving our Common Stock.

We have issued preferred stock with rights senior to our Common Stock, and may issue additional preferred stock in the future, in order to consummate a merger or other transaction necessary to continue as a going concern.

Our Articles of Incorporation authorizes the issuance of up to 5,000,000 shares of preferred stock, par value \$0.001 per share (the "Preferred Stock"), without shareholder approval and on terms established by our directors, of which 2,750,000 shares have been designated as Series B Convertible Preferred Stock. We may issue additional shares of Preferred Stock in order to consummate a financing or other transaction, in lieu of the issuance of Common Stock. The rights and preferences of any such class or series of Preferred Stock would be established by our board of directors in its sole discretion and may have dividend, voting, liquidation and other rights and preferences that are senior to the rights of the Common Stock.

You should not rely on an investment in our Common Stock for the payment of cash dividends.

Because of our significant operating losses and because we intend to retain future profits, if any, to expand our business, we have never paid cash dividends on our Common Stock and do not anticipate paying any cash dividends in the foreseeable future. You should not make an investment in our Common Stock if you require dividend income. Any return on investment in our Common Stock would only come from an increase in the market price of our stock, which is uncertain and unpredictable.

Additional risks may exist since we became public through a "reverse merger."

Because we became public by means of a "reverse merger," we may not be able to attract the attention of major brokerage firms. Securities analysts of major brokerage firms may not provide coverage of us since there is little incentive to brokerage firms to recommend the purchase of our Common Stock. We cannot assure you that brokerage firms will want to conduct any secondary offerings on behalf of the Company in the future.

ITEM 2. PROPERTIES

Facilities

We are headquartered in Irvine, California and lease our office on a one-year lease. Total rent expense for the year ended December 31, 2013 was approximately \$46,000. Total remaining payments on the lease through July 31, 2014 are approximately \$14,728.

Insurance

We maintain commercial general liability, including product liability coverage, and property insurance. Our policy provides for a general liability limit of \$2.0 million per occurrence, and \$10 million annual aggregate umbrella coverage.

ITEM 3. LEGAL PROCEEDINGS

From time to time, claims are made against the Company in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur. In the opinion of management, the resolution of these matters, if any, will not have a material adverse impact on the Company's financial position or results of operations.

On July 1, 2011, a lawsuit was filed in the United States District Court, the Southern District of Ohio, Cincinnati Division, against GT Beverage Company, LLC ("GT LLC") by Dominion Liquid Technologies, LLC. The lawsuit alleges that GT LLC breached terms of a 2010 co-packing agreement, which governed the relationship between the parties. As of February 2013, Dominion amended its complaint to add the Company as a defendant in the case. Dominion is seeking monetary damages in an amount exceeding \$800,000. GT LLC has filed its answer denying all of Dominion's claims and expects to vigorously defend the suit. A trial will likely be set in the second quarter of 2014.

At March 28, 2014, there were 34,451,822 shares of our Common Stock outstanding, and approximately 221 shareholders of record of our Common Stock. At March 28, 2014, there were no shares of our Series A Convertible Preferred Stock outstanding, and 2,082,870 shares of our Series B Preferred outstanding, held by approximately 38 shareholders of record.

Dividends

We did not declare any dividends for the year ended December 31, 2013. Our Board of Directors does not intend to distribute dividends in the near future. Instead, we plan to retain any earnings to finance the development and expansion of our business. The declaration, payment and amount of any future dividends will be made at the discretion of the Board of Directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors as the Board of Directors considers relevant. There is no assurance that future dividends will be paid, and if dividends are paid, there is no assurance with respect to the amount of any such dividend.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with our financial statements, including the notes thereto contained in this Annual Report. This discussion contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of a variety of certain factors, including those set forth under "Risk Factors Associated with Our Business" and elsewhere in this Annual Report.

Critical Accounting Policies and Estimates

Discussion and analysis of our financial condition and results of operations are based upon financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates; including those related to collection of receivables, inventory obsolescence, sales returns and non-monetary transactions such as stock and stock options issued for services. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition

In accordance with ASC Topic 605 (Staff Accounting Bulletin 104 "Revenue Recognition in Financial Statements"), revenue is recognized at the point of shipment, at which time title is passed. Net sales include sales of products, sales of marketing tools to independent distributors and freight and handling charges. With the exception of retail customers, we receive the net sales price from all of our orders in the form of cash or credit card payment prior to shipment. Retail customers with approved credit have been extended payment terms of net 30 days, with a few exceptions.

Allowance for Doubtful Accounts

We estimate losses on receivables based on known troubled accounts and historical experience of losses incurred. Based on our estimations, we recorded an allowance for doubtful accounts of approximately \$210,000 as of December 31, 2013.

Inventory Valuation

Inventories are stated at the lower of cost or market on a first-in first-out basis. Inventory is periodically reviewed and obsolete inventories are written off. No inventory was written off as obsolete for the period ended December 31, 2013.

Stock Based Compensation

The Company recognizes the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards in accordance with ASC Topic 718, which requires compensation costs related to share-based transactions, including employee stock options, to be recognized in the financial statements

based on fair value, and the SEC's Staff Accounting Bulletin No. 107 ("SAB 107") interpreting ASC Topic 718 and the valuation of share-based payments for public companies. The Company records compensation expense on a straight-line basis. The fair value of options granted are estimated at the date of grant using a Black-Scholes option pricing model with assumptions for the risk-free interest rate, expected life, volatility, dividend yield and forfeiture rate.

Intangible Assets

Intangible assets consists of the direct costs incurred for application fees and legal expenses associated with trademarks on the Company's products, customer first, and the estimated value of GT Beverage Company, LLC's interlocking spherical bottle patent acquired on March 31, 2012. The Company's intangible assets, are amortized over their estimated useful remaining lives. The Company evaluates the useful lives of its intangible assets annually and adjusts the lives according to the expected useful life. No impairment was deemed necessary as of December 31, 2013.

Goodwill

Goodwill represents the future economic benefits arising from other assets acquired that are individually identified and separately recognized. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but are tested for impairment at least annually.

Results of Operations Results of Operations – Fiscal Years Ended December 31, 2013 and 2012

Net Sales

Net sales for the year ended December 31, 2013 were \$2,649,473 compared to \$1,021,908 during the same period in 2012, an increase of 159%. This increase in net sales is attributable to 2013 being the second year of sales of AquaBall™ Naturally Flavored Water. Our 0-calorie, 0-sugar formula was in the market for 10 months as compared to just 7 months of sales of our 30-calorie AquaBall in 2012. A large portion of the increase in sales arose from increased distribution in the grocery channel.

The percentage that each product category represented of our net sales is as follows:

Product Category	Year Ended December 31, 2013	% of Sales
AquaBall™	90	%
Bazi®	10	%

Gross Profit

Gross profit for the year ended December 31, 2013 was \$521,762, as compared to \$272,379 for the year ended December 31, 2012. Gross profit as a percentage of revenue (gross margin) during the year ended December 31, 2013 was 20%. This figure was affected by the high costs of our raw materials due to the low volume of product manufactured during the year. The Company's costs related to the production of our product is declining due to lower production expenses, and our freight charges on incoming shipments of raw materials are declining on a per-case basis.

Sales, General and Administrative Expense

Sales, general and administrative expenses were \$5,925,895 for the year ended December 31, 2013 as compared to \$3,273,227 for the year ended December 31, 2012. This increase is primarily due to the Company's launch of its new zero calorie, sugar free formula of AquaBall™ in the first three months of 2013 and increases in costs for shipping

orders to customers, increased payroll-related expenses, stock-based compensation and loan origination fees related to bridge financing.

Interest Expense

Interest expense for the year ended December 31, 2013 was \$1,824,074 as compared to \$119,942 for the year ended December 31, 2012. The increase was due to the Company's use of convertible note financing beginning in the fourth quarter of 2012, as well as the recording of shares issued and lender's fees in connection with the issuance of the convertible notes being recorded to interest expense, and the commencement of the Offering in June 2013. In the first nine months of 2012, the Company was funded through equity financing resulting in no interest expenses being recorded. This figure includes \$1,332,543 in accretion of the debt discount on notes payable created by the embedded conversion feature of the notes and the warrants issued with the notes to investors.

Table of Contents

Net Loss

Our net loss for the year ended December 31, 2013 was \$7,122,135 as compared to a net loss of \$3,119,343 for the year ended December 31, 2012. On a per share basis, our loss was \$0.26 and \$0.14 per share for the years ended December 31, 2013 and December 31, 2012, respectively.

Liquidity and Capital Resources

Our auditors have included a paragraph in their report on our consolidated financial statements, included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, indicating that there is substantial doubt as to the ability of the Company to continue as a going concern. The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplates continuation of the Company as a going concern. For the year ended December 31, 2013, the Company incurred a net loss of \$7,122,135. At December 31, 2013, the Company has negative working capital of \$478,068 and an accumulated deficit of \$10,241,478. Although, during the year ended December 31, 2013, the Company has raised approximately \$12,032,000 resulting from the sale of convertible promissory notes, shares of Series B Convertible Preferred Stock ("Series B Preferred"), and a term loan from Avid Bank, additional capital may be necessary to advance the marketability of the Company's products to the point at which the Company can sustain operations. Management's plans are to continue to contain expenses, expand distribution and sales of its AquaBall™ Naturally Flavored Water as rapidly as economically possible, and raise capital through equity and debt offerings in the event additional capital is necessary to execute the Company's business plan and achieve profitability from continuing operations. The accompanying consolidated financial statements do not include any adjustments that might result in the event the Company is unsuccessful in its plans.

The Company has financed its operations through sales of equity and, to a lesser degree, cash flow provided by sales of AquaBall™. Despite recent sales of debt securities and preferred stock as described below, funds generated from sales of our Common Stock and cash flow provided by AquaBall™ sales may be insufficient to fund our operating requirements for the next twelve months. As a result we may require additional capital to continue operating as a going concern. No assurances can be given that we will be successful.

Series B Offering

On November 25, 2013, the Company commenced a private offering of up to 2.0 million shares of Series B Preferred for \$4.00 per share ("Purchase Price"), and Warrants, exercisable for \$0.30 per share (the "Exercise Price"), to purchase that number of shares of the Company's Common Stock equal to 35% of the Purchase Price, divided by the Exercise Price. As of the date hereof, the Company and certain accredited investors entered into Securities Purchase Agreements to purchase approximately 2.0 million shares of Series B Preferred, and Warrants to purchase approximately 9.3 million shares of Common Stock.

Term Loan and Note Conversion

On November 29, 2013, the Company executed a Loan and Security Agreement and other ancillary documents for a \$2.0 million term loan from Avid Bank (the "Bank") (the "Term Loan"), which Term Loan accrues interest at a rate of prime plus 2.75% and matures on November 29, 2015. The Company's repayment of the Term Loan is secured by a continuing security interest in substantially all of the Company's assets. Proceeds from the Term Loan, together with a portion of the proceeds from the Series B Offering were used to repay certain Notes issued during the Note Offering, totaling approximately \$2.5 million in principal and accrued interest (the "Note Repayment").

In addition to the Note Repayment, holders of the remaining Notes issued during the Note Offering agreed to cancel Notes totaling \$739,706 in principal and accrued interest in exchange for 205,476 shares of Series B Preferred and Warrants to purchase 862,995 shares of Common Stock for \$0.30 per share, on substantially the same terms offered in the Series B Offering (the "Note Conversion").

On November 29, 2013, the Company repaid approximately \$400 thousand in principal and accrued interest and fees from previous notes. In addition to the repayment, holders of previous notes agreed to cancel Notes totaling \$235,729 in principal and accrued interest in exchange for 58,947 shares of Series B Preferred and Warrants to purchase 275,075 shares of Common Stock for \$0.30 per share, on substantially the same terms offered in the Series B Offering.

Table of Contents

Note Offering

On June 20, 2013 the Company commenced a private offering of: (i) convertible promissory notes (the “Notes”) in the aggregate principal amount of up to \$3.3 million; and (ii) and five-year warrants to purchase shares of the Company’s Common Stock at an exercise price of \$1.10 per share (the “Warrants”) to certain accredited investors (the “Note Offering”). During the year ended December 31, 2013, the Company issued Notes in the aggregate principal amount of \$3,126,000, which amount included \$600,000 issued as consideration for the exchange of the outstanding principal and accrued interest of certain promissory notes previously issued by the Company. As of November 29, 2013, all Notes issued during the Offering were either paid in full as a result of the Note Repayment, or exchanged for shares of Series B Preferred and Warrants in connection with the Note Conversion.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A smaller reporting company is not required to provide the information required by this item.

ITEM 8. FINANCIAL STATEMENTS

The audited consolidated financial statements of True Drinks, Inc., including the notes thereto, together with the report thereon of Squar, Milner, Peterson, Miranda & Williamson, LLP, independent registered public accounting firm, are included in this annual report on Form 10-K as a separate section beginning on page F-1.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act) that are designed to ensure that information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that this information is accumulated and communicated to our management, including our principal executive and financial officers, to allow timely decisions regarding required disclosure.

Our management, with the participation and supervision of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective based on our material weakness in the form of lack of segregation of duties, which stems from our early stage status and limited capital resources to hire additional financial and administrative staff.

(b) Management's Annual Report on Internal Control over Financial Reporting.

Section 404(a) of the Sarbanes-Oxley Act of 2002 requires that management document and test the Company's internal control over financial reporting and include in this Annual Report on Form 10-K a report on management's assessment of the effectiveness of our internal control over financial reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based upon the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our internal control over financial reporting was not effective based on the material weakness indicated below:

We lack segregation of duties, which stems from our early stage status and limited capital resources to hire additional financial and administrative staff.

Our plan to remediate this material weakness, subject to monetary constraints, is to hire additional personnel and/or utilize outside consultants to provide an acceptable level of segregation of duties.

This Annual Report on Form 10-K does not include an attestation report of the Company's registered public accounting firm regarding internal control over financing reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to a provision in the Dodd-Frank Financial Reform Act that exempts public companies with market capitalization not exceeding \$75 million from having to comply with that provision of the Sarbanes-Oxley Act.

(c) Changes in internal controls over financial reporting.

The Company's Chief Executive Officer and Chief Financial Officer have determined that there have been no changes, in the Company's internal control over financial reporting during the period covered by this report identified in connection with the evaluation described in the above paragraph that have materially affected, or are reasonably likely to materially affect, Company's internal control over financial reporting.

Directors hold office until the next annual meeting of stockholders following their election unless they resign or are removed as provided in the bylaws. Our officers serve at the discretion of our Board of Directors.

The following is a summary of our executive officers' and directors' business experience.

Executive Officers

Lance Leonard, Chief Executive Officer and Director. Mr. Leonard has 22 years of consumer product experience. He began his career in 1990 with M&M/Mars working in the confection division holding a series of sales and management roles within the United States. In 2000, he joined Nestle where he managed both national account teams and division sales including leading the Costco wholesale National Account team. He was appointed Western Zone Manager for Nestle Waters in 2006 where he had responsibility for all sales and marketing in 17 western states. In 2009, Mr. Leonard was appointed Director of Global Customers at Nestle Waters where he helped develop their go-to-market strategies in emerging markets and was responsible for managing one billion dollars in global sales. Mr. Leonard left Nestle to become the Chief Executive Officer of True Drinks, Inc. on July 16, 2012, and was appointed to the Board in October 2012. He is a native of California and received his Bachelor's degree from California State University, Fresno.

Daniel Kerker, Chief Financial Officer. Mr. Kerker is a professional with over 15 years experience in finance and accounting in both private and public entities. He spent seven years as Director of Finance at Anheuser-Busch Sales of Los Angeles, an Anheuser-Busch-owned distributor with over \$200 million in annual sales, leaving in 2010. Prior to joining True Drinks, Inc., Mr. Kerker spent two years working as interim CFO for Environmental Packaging Technologies in Houston, Texas, and Regeneca, Inc. in Irvine, California. Mr. Kerker became Chief Financial Officer of True Drinks on March 1, 2012. Mr. Kerker earned a Bachelors of Science in Finance from California State University, Northridge and an MBA in Finance from UCLA's Anderson School of Management, where he was a Harold M. Williams Fellow for graduating at the top of his class and won the J. Fred Preston Award for Achievement in Finance.

Kevin Sherman, Chief Marketing Officer. Mr. Sherman has served as the Chief Marketing Officer, managing the brand development of AquaBall™ Naturally Flavored Water since he joined the Company in October 2012. Prior to joining True Drinks, Mr. Sherman was the Vice President Strategy and Network Development and President of Retail for Bazi, Inc. He was instrumental in the development of Bazi's All-Natural formula and spearheaded the concept of

all-natural energy. Prior to Bazi, Mr. Sherman served as the Senior Manager of Network Development of Product Partners LLC from May 2008 to May 2009, chief operating officer of Hand & Associates from January 2008 to May 2008, and as the director of development and principal of Holy Innocents School from August 2007 to December 2007. Mr. Sherman also served as the principal of Saints Peter and Paul School from January 2004 to August 2007.

Board of Directors

Timothy Lane, Chairman. Mr. Lane was appointed to the Board in October 2012 and is well known for his accomplishments as chief executive officer of PepsiCo Restaurants International for Asia and the Middle East (KFC, Pizza Hut and Taco Bell), including directing KFC's introduction into China where it holds the lead market position. At PepsiCo, Mr. Lane guided the company from 250 stores generating losses to a 2,500-store network generating \$2.5 billion in revenue and over \$200 million in profits within six years. He began his tenure at PepsiCo in 1981 as Director of Business Planning, quickly rising through the ranks to become president of KFC International, Asia by 1989 and chief executive officer of the company's restaurants in Asia and the Middle East by 1994. Mr. Lane is also Co-Founder of The Afghanistan Reconstruction Company, LLC. In this capacity, he established the first privately owned bank in Afghanistan in partnership with Asian Development Bank and ING. In Afghanistan, he was also responsible for: rebuilding a significant portion of the Kabul-Kandahar road for USAID; successfully completing the new US Embassy complex in Kabul; and forming a successful partnership to build, own and operate the first 4-star hotel in the region, Hyatt Regency Kabul. Mr. Lane served as CEO and president of Holiday Inn Worldwide, a hotel group and division of Bass PLC consisting of 2,300 hotels generating \$8 billion in revenue. He began his career as a management consultant for Touche, Ross and Company before joining Masonite Corporation, where he served as general manager of its West Coast fabricating division. He also served as assistant to the chairman at Consolidated Packaging Company. Mr. Lane is presently managing director for Everest Advisors, a venture capital advisory firm. Mr. Lane received a Bachelor of Science in accounting from the University of Dayton and an MBA from the University of Chicago.

The Board believes Mr. Lane's accomplishments as Chief Executive Officer of PepsiCo Restaurants International, specifically the growth sustained during his tenure, provide the Company with invaluable leadership as we implement our business plan to expand distribution of our products.

Louis Imbrogno, Director. Mr. Imbrogno was appointed to the Board in October 2012 and was Senior Vice President of Worldwide Technical Operations for PepsiCo North America and PepsiCo Beverages International and was responsible for Pepsi-Cola's worldwide beverage quality, concentrate operations, research and development and contract manufacturing. In this global role, Mr. Imbrogno reported directly to the heads of Pepsi-Cola North America and PepsiCo Beverages International. Mr. Imbrogno oversaw the companies' worldwide concentrate manufacturing operations, which supply PepsiCo's bottlers with concentrate for making beverages. He was also responsible for the research and development organization, which drives innovation within Pepsi's beverage portfolio and ensures product quality from raw materials to finished beverage. In 40 years with PepsiCo, he served in a variety of field operating assignments and staff positions. A native of New York, Mr. Imbrogno graduated from Westchester Community College and received a degree from the Wharton Executive program.

As we continue to expand manufacturing and distribution of the AquaBall™, the Board believes Mr. Imbrogno's experience with beverage quality control during his tenure with PepsiCo Beverages International and Pepsi-Cola North America provide the Company with experience necessary to implement and maintain effective quality control procedures for our product lines.

Carl Wistreich, Director. Mr. Wistreich, an entrepreneur, was appointed to the Board in October 2012 and was previously the owner and chief executive of L&B Truck Services Inc., a truck dealership group providing truck service, sales and parts throughout New England. Prior to purchasing the company, Mr. Wistreich was a Senior Vice President at C&S Wholesale Grocers, Inc., the largest distributor of food and related products to grocery stores in the U.S. with over \$20 billion in sales. During his career with C&S, Mr. Wistreich played key roles in the acquisition of several substantial companies and the negotiation of major supply agreements with retailers aggregating over \$15 billion in revenue, including the acquisition of Fleming Companies and Grand Union. In his various executive capacities at C&S, Mr. Wistreich oversaw the sales and customer relations functions, held P&L and oversight

responsibility for divisions generating over \$3 billion in revenue with over 2,000 employees, acted as general counsel, and oversaw the human resources department. Prior to C&S, Mr. Wistreich was a corporate attorney with Skadden, Arps, Slate, Meagher & Flom, a major international law firm. While at Skadden Arps, he represented various corporate clients in a wide variety of transactions, including merger transactions and tender offers, spin-offs, corporate financings/restructurings, equity and debt offerings, and SEC disclosure. Additionally, Mr. Wistreich presently serves on the advisory board of directors of BI-LO Holding, LLC and AFN, Inc. Mr. Wistreich holds a J.D. degree from New York Law School, graduating magna cum laude, and a B.A. from Colgate University.

The Board believes Mr. Wistreich's corporate transactional experience allow him to provide the Company with valuable guidance as we implement our business plan and build a long-term capital structure.

Table of Contents

Scot Cohen, Director. Mr. Cohen was appointed to the Board in March 2013 and is the Founder and Managing Partner of V3 Capital Partners, a private investment firm focused on early-stage companies primarily in the consumer products industry, and Co-Manager of Red Fortune Fund, a private equity fund based in Hong Kong. Mr. Cohen also is the Founder of Petro River Oil LLC and Chairman of Petro River Oil Corp, a publicly traded oil and gas producer with assets in Kansas and Oklahoma, and Petro Spring, a global oil and gas technology solutions provider. Prior to creating V3 Capital Partners, Mr. Cohen was the Founder and Managing Partner at Iroquois Capital Opportunity Fund, a special situations private equity investment fund, and a Co-Founder of Iroquois Capital, a hedge fund with investments in small and micro-cap private and public companies. Mr. Cohen is active in philanthropic activities with numerous charities including the Jewish Enrichment Council and is a Founder and the Chairman of the National Foundation for Veteran Redeployment, a 501(c)3 non-profit organization whose mission is to help unemployed veterans prepare for and enter new careers in the oil and gas industry. Mr. Cohen holds a Bachelor of Science degree from Ohio University in 1991.

The Board believes Mr. Cohen's success with multiple private investment firms, his extensive contacts within the investment community and financial expertise will assist the Company's efforts to raise capital to fund the continued implementation of the Company's business plan.

Lance Leonard, Chief Executive Officer and Director. See above.

The Board believes Mr. Leonard's extensive experience in the food and beverage industry, particularly his experience with organizational design, allow him to uniquely contribute to the Company's short-term and long-term business plan.

There have been no events under any bankruptcy act, no criminal proceedings and no judgments or injunctions material to the evaluation of the ability and integrity of any director or nominee during the past ten years.

BOARD OF DIRECTORS

Attendance at Meetings

The Board held two meetings, and acted three times by unanimous written consent during the year ended December 31, 2013. Each director attended all meetings of the Board in 2013. We have no formal policy with respect to the attendance of Board members at annual meetings of shareholders but encourage all incumbent directors and director nominees to attend each annual meeting of shareholders.

Board Charters

The Board has adopted a charter with respect to its governance, which includes consideration of director nominees.

Section 16(a) Beneficial Ownership Reporting Compliances

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and beneficial owners of more than 10% of the Company's Common Stock to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations that no other reports were required, during the fiscal year ended December 31, 2013, all Section 16(a) filing requirements were complied with in a timely manner, except for the inadvertent failure by Carl Wistreich to timely report two transactions on Form 4 and by Louis Imbrogno to timely report one transaction on Form 4.

Code of Ethics

We have adopted a Code of Ethics that applies to all of our directors, officers and employees, which is filed as an exhibit to this Annual Report.

- (1) The Company uses a Black-Scholes option-pricing model (the "Black-Scholes Model") to estimate the fair value of the stock option grant. The use of a valuation model requires the company to make certain assumptions with respect to selected model inputs. Expected volatility was calculated based on the historical volatility of the company's stock price. In the future the average expected life will be based on the contractual term of the option and expected employee exercise and post-vesting employment termination behavior. Currently it is based on the simplified approach provided by SAB 107. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of the grant. The following were the factors used in the Black Sholes Model to calculate the compensation expense:

Employment Agreements

Effective July 15, 2012, the Company appointed Lance Leonard as its Chief Executive Officer and Daniel Kerker as its Chief Financial Officer. Mr. Leonard is employed as the Chief Executive Officer of True Drinks, Inc., our wholly owned subsidiary. The Company assumed the Employment Agreement that True Drinks entered into with Mr. Leonard on July 16, 2012 (the "Leonard Agreement") effective October 15, 2012. The term of the Leonard Agreement is for a period of three years, which shall extend automatically for successive one-year periods unless either party terminates the Leonard Agreement. Mr. Leonard shall receive a base salary in an annual amount of \$250,000 and shall be eligible to receive annual bonuses, which, subject to certain conditions, shall be (a) \$75,000 for the first year, (b) \$125,000 for the second year and (c) \$175,000 for the third year of Mr. Leonard's employment. Mr. Leonard shall also be entitled to earn stock option compensation equal to a total of 122,869,500 shares of the Company's Common Stock over the term of the agreement. Mr. Leonard's employment may be terminated during the nine month period following the effective date of the Leonard Agreement at any time, in the sole discretion of the Company, and may thereafter be terminated for "Performance Cause", if the Company consistently fails to meet reasonable performance expectations, or for "Cause", if Mr. Leonard (a) is convicted of any fraud or embezzlement, (b) commits acts of dishonesty, gross negligence or willful misconduct or (c) violates any law or regulation relating to the business operations of the Company that may have a material adverse effect on the Company. If the Company terminates Mr. Leonard's employment for reasons other than for Cause, the Company shall pay a severance in an amount equal to one year of Mr. Leonard's base salary, and, if the Leonard Agreement is terminated within nine months of its effective date, Mr. Leonard's base salary for the remainder of such nine month period.

Mr. Kerker is employed as the Chief Financial Officer of True Drinks. The Company assumed the Employment Agreement that True Drinks entered into with Mr. Kerker on March 1, 2012 (the “Kerker Agreement”) effective October 15, 2012. The term of the Kerker Agreement is for a period of three years, which shall extend automatically for successive one-year periods unless the Kerker Agreement is terminated by either party. Mr. Kerker shall receive a base salary of \$12,500 per month until the earlier of September 1, 2012 or the Company achieving \$1,000,000 in monthly gross sales, in which case the base salary shall be increased (a) to \$15,000 per month, or (b) if the Company achieves \$2,000,000 in monthly gross sales, to \$16,250 per month. Mr. Kerker shall also receive an annual bonus as approved by the Board and shall be entitled to earn stock option compensation to acquire a total of 43,004,325 shares of the Company’s Common Stock over the term of the agreement. Mr. Kerker’s employment may be terminated for “Cause”, if Mr. Kerker (a) is convicted of any fraud or embezzlement, (b) after written notice, willfully breaches or habitually neglects his duties and responsibilities, (c) commits acts of dishonesty, gross negligence or willful misconduct or (d) violates any law or regulation relating to the business operations of the Company that may have a material adverse effect on the Company. If the Company terminates Mr. Kerker’s employment for reasons other than for Cause, the Company shall pay a severance in an amount equal to six months of Mr. Kerker’s base salary.

Other than as set forth above, there are no arrangements or understandings between our executive officers and any other person pursuant to which they were appointed as officers. Neither of the Incoming Officers has a family relationship that is required to be disclosed under Item 401(d) of Regulation S-K.

Director Compensation

Pursuant to the Company’s Director Compensation Plan, non-employee directors (“Outside Directors”) shall receive (a) a \$30,000 annual cash retainer, payable in equal quarterly installments, (b) additional committee retainers as determined by the Board and (c) reimbursement for expenses related to Board meeting attendance and committee participation. The Chairman of the Board also receives an additional \$20,000 annual retainer. Directors that are also employees of the Company do not receive additional compensation for serving on the Board.

The following table discloses certain information concerning the compensation of the Company’s non-employee directors for the year ended December 31, 2013:

Equity Compensation Plan Information

2013 Stock Incentive Plan. The 2013 Stock Incentive Plan (the “2013 Plan”) was adopted by the Company’s Board of Directors on December 31, 2013. The 2013 Plan reserves for issuance 20.0 million shares of Common Stock for issuance to all employees (including, without limitation, officers and directors who are also employees) of the Company or any subsidiary of the Company (each a “Subsidiary”), any non-employee director, consultants and independent contractors of the Company or any Subsidiary, and any joint venture partners (including, without limitation, officers, directors and partners thereof) of the Company or any Subsidiary. Awards under the 2013 Plan may be made in the form of: (i) incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, once the 2013 Plan has been approved by a majority of the Company’s stockholders; (ii) stock options that do not qualify as incentive stock options; and/or (iii) awards of shares that are subject to certain restrictions specified in the 2013 Plan.

No issuances were made under the 2013 Plan during the year ended December 31, 2013.

Stock Option Exercises and Stock Vested

There were no options exercised by the Named Executive Officers or Directors during the year ended December 31, 2013.

Post-Employment Compensation, Pension Benefits, Nonqualified Deferred Compensation

There were no post-employment compensation, pension or nonqualified deferred compensation benefits earned by the Named Executive Officers during the year ended December 31, 2013.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDERS MATTERS

As of March 28, 2014, we had two classes of voting stock outstanding: (i) Common Stock; and (ii) Series B Preferred. The following tables sets forth information regarding shares of Series B Preferred and Common Stock beneficially owned as of March 28, 2014 by:

- (i) Each of our officers and directors;
- (ii) All officer and directors as a group; and
- (iii) Each person known by us to beneficially own five percent or more of the outstanding shares of our Series B Preferred and Common Stock. Percent ownership is calculated based on 2,082,870 shares of Series B Preferred and 34,451,822 shares Common Stock outstanding at March 28, 2014.

- (1) Each of the Company's officers was excluded from this table, as none of our officers hold shares of Series B Preferred. Unless otherwise indicated, the address for each stockholder is 18552 MacArthur Blvd., Suite 325, Irvine, CA 92612.
- (2) Subject to the limitations in the Certificate of Designation, each share of Series B Preferred is convertible into that number of shares of Common Stock equal to the Stated Value, divided by the Conversion Price, as defined in the Certificate of Designation. As of March 28, 2014, the Conversion Price was \$0.25.
- (3) Pursuant to the Certificate of Designation, shares of Series B Preferred may not be converted or exercised, as applicable, to the extent that the holder and its affiliates would own more than 9.99% of the Company's outstanding Common Stock after such conversion. The Certificate of Designation also entitles each share of Series B Preferred to vote, on an as converted basis, along with the Common Stock; provided, however, that the Series B Preferred may not be voted to the extent that the holder and its affiliates would control more than 9.99% of the Company's voting power.
- (4) Beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting or investment power with respect to securities.
- (5) Includes 153,750 shares of Series B Preferred directly held by V3 Capital Partners and 12,500 shares directly held by the Scot Jason Cohen Foundation. Mr. Cohen is the Managing Partner of V3 Capital Partners and is an officer of the Scot Jason Cohen Foundation.

(12) Pursuant to the Certificate of Designation, shares Series B Preferred may not be converted or exercised, as applicable, to the extent that the holder and its affiliates would own more than 9.99% of the Company's outstanding Common Stock after such conversion. The Certificate of Designation also entitles each share of Series B Preferred to vote, on an as converted basis, along with the Common Stock; provided, however, that the Series B Preferred may not be voted to the extent that the holder and its affiliates would control more than 9.99% of the Company's voting power.

Although the percentage ownership for each stockholder reflects the limitations in the Certificate of Designation, the securities reported in this table show the number of shares of Common Stock that would be issuable upon full conversion of the Series B Preferred and full exercise of warrants held by each stockholder. Therefore, the actual number of shares of Common Stock beneficially owned by each stockholder, after giving effect to the limitations in the Certificate of Designation, is less than the number of securities reported herein.

(13) Comprised of 2,000,000 shares issuable upon conversion of 125,000 shares of Series B Preferred and 583,334 shares issuable pursuant to warrants, each of which are presently exercisable or which become exercisable within 60 days of March 28, 2014.

ITEM 13. CERTAIN RELATIONSHIPS, RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

On May 11, 2012, the Company loaned Environmental Packaging Technologies, Inc. ("EPT") the sum of \$150,000 in exchange for a 50-day promissory note. The promissory note accrues interest at ten percent (10%) per annum and included a ten percent (10%) of principal fee payable to the Company. The Company sent EPT a notice of default on October 18, 2012 demanding payment of the original principal amount of \$150,000, accrued interest of \$6,575 and the ten percent fee in the amount of \$15,000. The Company's former chairman and current investor is the chairman of EPT. The Company received payment of all outstanding principal, fees and interest in August 2013.

Our Board of Directors approved this arrangement.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
True Drinks, Inc.
Irvine, California

We have audited the accompanying consolidated balance sheets of True Drinks, Inc. as of December 31, 2013 and 2012 and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company was not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of True Drinks, Inc. as of December 31, 2013 and 2012 and the consolidated results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1, the accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As of and for the year ended December 31, 2013, the Company incurred a net loss of \$7,122,135, has negative working capital of \$478,068, and an accumulated deficit of \$10,241,478. A significant amount of additional capital will be necessary to advance the marketability of the Company's products to the point at which the Company can sustain operations. These conditions, among others, raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding these matters are also described in Note 1. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

TRUE DRINKS HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Overview

True Drinks, Inc. (the "Company", "us", "True Drinks" or "we") was formed on January 19, 2012 in Delaware to create and commercialize all-natural, vitamin-enhanced drinks. Our primary business is the development, marketing, sale and distribution of our flagship product, AquaBall™ Naturally Flavored Water, a vitamin-enhanced, naturally flavored water drink packaged in our patented stacking spherical bottles. We distribute AquaBall™ nationally through select retail channels, such as grocery stores, mass merchandisers, drug stores and online. We also market and distribute Bazi® All Natural Energy, a liquid nutritional supplement drink, which is currently distributed online and through our existing database of customers.

On June 7, 2012, True Drinks, Inc., Bazi Acquisition Sub Inc. ("Merger Sub"), a Delaware corporation and a wholly-owned subsidiary of Bazi International, Inc. ("Bazi Intl."), and Bazi Intl. entered into an agreement and tax-free plan of merger (the "Merger Agreement"), wherein Merger Sub merged with and into the Company and True Drinks continued as the surviving corporation (the "Merger"). As a result of the Merger, True Drinks became a wholly-owned subsidiary of the Company. The Merger closed on October 15, 2012 (the "Closing Date"). As a result of Merger, True Drinks, Inc.'s former shareholders owned approximately 95.5% of the combined post-Merger entity via shares of Series A Convertible Preferred Stock ("Series A Preferred") issued as part of the Merger. The Company subsequently changed its name from "Bazi International, Inc." to "True Drinks Holdings, Inc." The Merger was accounted for as a public company "reverse merger," and, as such, the consolidated financial statements reported herein reflect the operations of True Drinks, Inc. within the capital structure of Bazi Intl.

Bazi Intl. was originally incorporated in the state of Nevada in January 2001. True Drinks, formerly named GT Beverage Company, Inc., was originally incorporated in the state of Delaware in January 2012. True Drinks acquired GT Beverage Company, LLC on March 31, 2012 in a business combination, primarily to acquire the use of a spherical bottle patent held by GT Beverage Company, LLC.

Our principal place of business is 18552 MacArthur Boulevard, Suite 325, Irvine, California, 92612. Our telephone number is (949) 203-2500. Our corporate website address is <http://www.truedrinks.com>. Our common stock, par value \$0.001 ("Common Stock"), is currently listed for quotation on the OTCQB marketplace ("OTCQB") under the symbol TRUU.

Reverse Stock Split

On January 18, 2013, we amended our Articles of Incorporation to create a 100 to 1 reverse split of our Common Stock. Accordingly, our authorized Common Stock decreased from 4,000,000,000 to 40,000,000 shares and our issued and outstanding Common Stock decreased from 133,733,469 to 1,337,335 shares. As a result of the reverse stock split, all previously reported share amounts, including options in the accompanying consolidated financial statements and related notes have been retrospectively restated back to October 15, 2012 (date of the Merger) to reflect the reverse split.

Recent Developments

Note Offering. On June 20, 2013 the Company commenced a private offering of: (i) convertible promissory notes (the "Notes") in the aggregate principal amount of up to \$3.3 million; and (ii) and five-year warrants to purchase shares

of the Company's Common Stock at an exercise price of \$1.10 per share (the "Warrants") to certain accredited investors (the "Note Offering"). During the year ended December 31, 2013, the Company issued Notes in the aggregate principal amount of \$3,126,000, which amount included \$600,000 issued as consideration for the exchange of the outstanding principal and accrued interest of certain promissory notes previously issued by the Company. All outstanding principal and interest were either repaid or converted into equity- see below discussion under Term Loan and Note Conversion.

Table of Contents

License Agreement. In August 2013, the Company signed an extension of its licensing agreement with Marvel Characters B.V. to extend the expiration date to December 31, 2015 (the "Marvel Agreement"). The Marvel Agreement allows True Drinks to use a range of different Marvel characters on AquaBall™ packaging in exchange for a royalty payment, paid quarterly, equal to 5% of the proceeds from the sale of AquaBalls™ adorned with Marvel characters in the United States and Canada. The Marvel Agreement has a total royalty guarantee of \$150,000 over the term of the agreement.

Creation of Series B Convertible Preferred Stock. On November 22, 2013, the Company filed the Certificate of Designation, Preferences, Rights and Limitations of the Series B Convertible Preferred Stock (the "Certificate of Designation") with the Nevada Secretary of State, designating 2.75 million shares of the Company's Preferred Stock as Series B Convertible Preferred Stock ("Series B Preferred"). Each share of Series B Preferred has a stated value of \$4.00 per share ("Stated Value"), and accrues annual dividends equal to 5% of the Stated Value, payable by the Company in quarterly installments, in either cash or shares of Common Stock. Pursuant to certain terms and conditions in the Certificate of Designation, each share of Series B Preferred is convertible, at the option of the holder, into that number of shares of Common Stock equal to the Stated Value, divided by \$0.25 per share (the "Conversion Shares"). The Company also has the option to require conversion of the Series B Preferred into Conversion Shares in the event: (i) there are sufficient authorized shares of Common Stock reserved as Conversion Shares; (ii) the Conversion Shares are registered under the Securities Act of 1933, as amended, or the Conversion Shares are freely tradable, without restriction, under Rule 144 of the Securities Act; (iii) the daily trading volume of the Company's Common Stock, multiplied with the closing price, equals at least \$250,000 for 20 consecutive trading days; and (iv) the average closing price of the Company's Common Stock is at least \$0.62 per share for 10 consecutive trading days.

Series B Offering. On November 25, 2013, the Company commenced a private offering of up to 2.0 million shares of Series B Preferred for \$4.00 per share ("Purchase Price"), and five-year warrants (the "Warrants"), exercisable for \$0.30 per share (the "Exercise Price"), to purchase that number of shares of the Company's Common Stock equal to 35% of the Purchase Price, divided by the Exercise Price (the "Series B Offering"). As of the date hereof, the Company and certain accredited investors entered into Securities Purchase Agreements to purchase 2.0 million shares of Series B Preferred, and Warrants to purchase approximately 9.3 million shares of Common Stock.

Term Loan and Note Conversion. On November 29, 2013, the Company executed a Loan and Security Agreement and other ancillary documents for a \$2.0 million term loan from Avid Bank (the "Bank") (the "Term Loan"), which Term Loan accrues interest at a rate of prime plus 2.75% and matures on November 29, 2015. The Company's repayment of the Term Loan is secured by a continuing security interest in substantially all of the Company's assets. Proceeds from the Term Loan, together with a portion of the proceeds from the Series B Offering were used to repay certain Notes issued, totaling approximately \$2.5 million in principal and accrued interest (the "Note Repayment").

In addition to the Note Repayment, holders of the remaining Notes issued during the Note Offering agreed to cancel Notes totaling \$739,706 in principal and accrued interest in exchange for 205,476 shares of Series B Preferred and Warrants to purchase 862,995 shares of Common Stock for \$0.30 per share, on substantially the same terms offered in the Series B Offering (the "Note Conversion").

On November 29, 2013, the Company repaid approximately \$400,000 in principal and accrued interest and fees from previous notes. In addition to the repayment, holders of previous notes agreed to cancel Notes totaling \$235,729 in principal and accrued interest in exchange for 58,947 shares of Series B Preferred and Warrants to purchase 275,075 shares of Common Stock for \$0.30 per share, on substantially the same terms offered in the Series B Offering.

Table of Contents

Basis of Presentation and Going Concern

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplates continuation of the Company as a going concern. For the year ended December 31, 2013, the Company incurred a net loss of \$7,122,135. At December 31, 2013, the Company has negative working capital of \$478,068 and an accumulated deficit of \$10,241,478. A significant amount of additional capital will be necessary to advance the marketability of the Company's products to the point at which the Company can sustain operations. These conditions, among others, raise substantial doubt about the Company's ability to continue as a going concern. Management's plans are to continue to raise capital through equity and debt offerings, and to expand sales as rapidly as economically viable. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Principles of Consolidation

The accompanying financial statements include the accounts of the Company and its wholly owned subsidiaries True Drinks, Inc., Bazi, Inc. and GT Beverage Company, LLC. All inter-company accounts and transactions have been eliminated in the preparation of these consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates made by management include, among others, provision for losses on accounts receivable, allowances for obsolete and slow moving inventory, stock compensation, deferred tax asset valuation allowances, and the realization of long-lived and intangible assets, including goodwill. Actual results could differ from those estimates.

Revenue Recognition

In accordance with Staff Accounting Bulletin ("SAB") No. 104 "Revenue Recognition in Financial Statements", revenue is recognized at the point of shipment, at which time title is passed. Net sales include sales of products, slotting fees, discounts and freight and handling charges. With approved credit, we provide wholesale customers payment terms of up to net 30 days. Amounts received for unshipped merchandise are recorded as customer deposits and are included in accrued expenses.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less, to be cash equivalents. The Company maintains cash with high credit quality financial institutions. At certain times, such amounts may exceed Federal Deposit Insurance Corporation ("FDIC") insurance limits. The Company has not experienced any losses on these amounts. At December 31, 2013 and 2012, the Company had no cash equivalents.

Restricted Cash

The Company had \$133,065 and \$81,270 in restricted cash with a financial institution securing a letter of credit at December 31, 2013 and 2012, respectively. The letter of credit matures in August 2015 and was issued as part of contractual obligations related to one of our licensing agreements with Disney Consumer Products, Inc.

Accounts Receivable

We maintain an allowance for doubtful accounts, which is analyzed on a periodic basis to ensure that it is adequate to the best of management's knowledge. Management develops an estimate of the allowance for doubtful accounts receivable based on its own judgment as to the likelihood of ultimate payment. Although the Company expects to collect amounts due, actual collections may differ from these estimated amounts. The allowance was approximately \$210,000 and \$54,000 at December 31, 2013 and December 31, 2012, respectively.

Concentrations

The Company has no significant off-balance sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains the majority of its cash balances with two financial institutions. There are funds in excess of the federally insured amount, or that are subject to credit risk, and the Company believes that the financial institutions are financially sound and the risk of loss is minimal.

We utilize a variety of suppliers to purchase raw materials for the AquaBall™ Naturally Flavored Water during the year ended December 31, 2013.

During 2013, we relied significantly on one supplier for 100% of our purchases of certain raw materials for Bazi®. Bazi, Inc. has sourced these raw materials from this supplier since 2007 and does not anticipate any issues with the supply of these raw materials.

During 2012, the Company relied significantly on one supplier for 100% of its purchases of AquaBall™ Naturally Flavored Water held for sale. During the year ended December 31, 2013, the Company began production of AquaBall™ with two additional suppliers. The Company owns the formula for both the AquaBall™ and Bazi®, and management believes that its purchasing requirements can be readily met from alternative sources.

A significant portion of our revenue comes from sales of the AquaBall™ Naturally Flavored Water. Following the consummation of the Merger in October 2012, sales of Bazi® accounted for 1% of our total revenue. Before the Merger, the Company's revenues consisted of sales of AquaBall™. For the year ended December 31, 2013 and 2012, sales of AquaBall™ accounted for 90% and 99% of the Company's total revenue, respectively.

Fair Value Matters

The Company does not have any assets or liabilities carried at fair value on a recurring or non-recurring basis.

The Company's financial instruments consist of cash, accounts receivable, accounts payable and accrued expenses, and notes payable. Management believes that the carrying amount of these financial instruments approximates their fair values, due to their relatively short-term nature.

Inventory

Inventory is stated at the lower of cost or market on a FIFO (first-in first-out) basis. Provision is made to reduce excess or obsolete inventory to the estimated net realizable value. The Company purchases for resale a vitamin-enhanced flavored water beverage and a liquid dietary supplement.

Management reviews the carrying value of inventory in relation to its sales history and industry trends to determine an estimated net realizable value. Changes in economic conditions or customer demand could result in obsolete or slow moving inventory that cannot be sold or must be sold at reduced prices and could result in an inventory reserve. No inventory reserves were considered necessary as of December 31, 2013 or 2012.

Inventory is comprised of the following:

	December 31, 2013	December 31, 2012
Purchased materials	\$ 659,835	\$ 473,383
Finished goods	396,921	359,491

\$	1,056,756	\$	832,874
----	-----------	----	---------

Table of Contents

Property and Equipment

Property and equipment are stated at cost. The Company provides for depreciation of property and equipment using the straight-line method based on estimated useful lives of between three and ten years. Property and equipment is not significant to the consolidated financial statements as of or for the years ended December 31, 2013 and 2012.

Long-Lived Assets

The Company reviews its long-lived assets for impairment whenever changes in circumstances indicate that the carrying amount of an asset may not be recoverable. For purposes of evaluating the recoverability of long-lived assets, the recoverability test is performed using undiscounted net cash flows estimated to be generated by the asset. An impairment was not deemed necessary in 2013 or 2012.

Intangible Assets

Intangible assets consists of the direct costs incurred for application fees and legal expenses associated with trademarks on the Company's products, customer list, and the estimated value of GT Beverage Company, LLC's interlocking spherical bottle patent acquired on March 31, 2012. The Company's intangible assets, are amortized over their estimated remaining useful lives. The Company evaluates the useful lives of its intangible assets annually and adjusts the lives according to the expected useful life. No impairment was deemed necessary as of December 31, 2013 or December 31, 2012.

Goodwill

Goodwill represents the future economic benefits arising from other assets acquired that are individually identified and separately recognized. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but are tested for impairment at least annually.

Income Taxes

The Company accounts for income taxes in accordance with FASB Accounting Standards Codification 740 ("ASC Topic 740"), formerly Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("SFAS 109"). Under the asset and liability method of ASC Topic 740, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

Stock-Based Compensation

Total stock-based compensation expense, for all of the Company's stock-based awards recognized for the year ended December 31, 2013 and 2012 was \$794,165 and \$163,055, respectively.

The Company uses a Black-Scholes option-pricing model (the "Black-Scholes Model") to estimate the fair value of the stock option and warrants. The use of a valuation model requires the Company to make certain assumptions with respect to selected model inputs. Expected volatility is calculated based on the historical volatility of the Company's stock price over the contractual term of the option. The expected life is based on the contractual term of the option and expected employee exercise and post-vesting employment termination behavior. Currently it is based on the simplified approach provided by SAB 107. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of the grant (see Note 4).

Shares, warrants and options issued to non-employees for services are accounted for at fair value, based on the fair value of instrument issued or the fair value of the services received, whichever is more readily determinable.

Derivative Instruments

A derivative is an instrument whose value is “derived” from an underlying instrument or index such as a future, forward, swap, option contract, or other financial instrument with similar characteristics, including certain derivative instruments embedded in other contracts (“embedded derivatives”) and for hedging activities. As a matter of policy, the Company does not invest in financial derivatives or engage in hedging transactions. However, the Company has entered into complex financing transactions that involve financial instruments containing certain features that have resulted in the instruments being deemed derivatives or containing embedded derivatives. The Company may engage in other similar complex debt transactions in the future, but not with the intention to enter into derivative instruments. Derivatives and embedded derivatives, if applicable, are measured at fair value using the binomial lattice- (“Binomial Lattice”) pricing model and marked to market and reflected on our consolidated statement of operations as other (income) expense at each reporting period. However, such new and/or complex instruments may have immature or limited markets. As a result, the pricing models used for valuation of derivatives often incorporate significant estimates and assumptions, which may impact the level of precision in the financial statements. Furthermore, depending on the terms of a derivative or embedded derivative, the valuation of derivatives may be removed from the financial statements upon conversion of the underlying instrument into some other security.

Net Loss Per Share

Earnings per share require presentation of both basic earnings per common share and diluted earnings per common share. Since the Company has a net loss for all periods presented, common stock equivalents are not included in the weighted average calculation since their effect would be anti-dilutive. At December 31, 2013 and 2012, the Company had 72,900,080 and 4,755,183 shares of common stock equivalents outstanding, respectively.

Research and Development

Research and development costs are expensed as incurred.

Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet effective accounting pronouncements and has concluded that there are no recently issued, but not yet effective pronouncements that may have a material impact on the Company’s future financial statements.

NOTE 2 – BUSINESS ACQUISITIONS

The Company did not engage in any business combination activity during the year ended December 31, 2013. During the year ended December 31, 2012, the Company completed two business combinations accounted for under the acquisition (purchase) method pursuant to ASC 805.

GT Beverage Company, LLC

On March 31, 2012, the Company completed the acquisition of GT Beverage by issuing 292,690 shares of Common Stock in exchange for all of the outstanding membership interests of GT Beverage. The primary purpose of the acquisition was to take advantage of GT Beverages’ patented spherical bottle for use in the Company’s product AquaBall™ Naturally Flavored Water. These 292,690 shares of Common Stock were exchanged for 292,690 shares of the Company Series A Preferred Stock in connection with the Merger. GT Beverage had no sales or significant operations from January 1, 2012 through March 31, 2012, and, accordingly, as a predecessor entity, GT Beverage has not provided audited financial statements for the three-months ended March 31, 2012.

Table of Contents

The acquisition date fair value was \$2,926,900 for the purchase of GT Beverage's outstanding member interests. The \$2,926,900 consisted of 292,690 shares of the Company's Common Stock with an estimated fair value of \$2,926,900. The acquisition of GT Beverage has been accounted for using the acquisition method. Assets acquired and liabilities assumed were recorded at their estimated fair values as of the acquisition date. The fair values of identifiable intangible assets were based on valuations using the income approach and estimates provided by management. The excess of the purchase price over the tangible assets, identifiable intangible assets and assumed liabilities was recorded as goodwill. The allocation of the purchase price is based upon a valuation of certain assets acquired and liabilities assumed. The purchase price allocation was as follows:

	Amount
Property and equipment	\$ 26,396
Patent for spherical bottle (useful life of 11.3 years)	1,600,000
Goodwill	2,414,642
Total assets acquired	4,041,038
Accounts payable, accrued expenses and other current liabilities	(1,114,138)
Total liabilities assumed	(1,114,138)
Total allocation of purchase price consideration	\$ 2,926,900

The useful life of the intangible asset was based upon the patterns in which the economic benefits related to the patent are expected to be realized, and the patent will be amortized on a basis reflecting those economic patterns.

The Company incurred \$107,000 of legal costs related to this transaction, which has been recorded as general and administrative expense during the year ended December 31, 2012.

As noted above, there were no significant operations of GT Beverage from January 1, 2012 through March 31, 2012 and, accordingly, the pro forma financial information required by ASC 805 is not applicable.

Bazi International, Inc.

On October 15, 2012, the Company completed the acquisition of 100% of Bazi Intl., by exchanging shares of Company Common Stock for Bazi Intl. shares of voting convertible preferred stock. Bazi Intl.'s results of operations are reflected in the Company's consolidated statements of operations from the acquisition date of October 15, 2012 through December 31, 2012.

The Company is considered the accounting acquiror due to its majority ownership, control of the board of directors, and officer positions held post acquisition. Accordingly, the acquisition has been accounted for as a public company reverse merger. Bazi Intl. was not a public company shell, as defined by the SEC, therefore the acquisition (purchase) method of accounting under ASC 805 has been used and the Company's capital structure has been restated to reflect the capital structure of Bazi Intl at the acquisition date.

Table of Contents

The acquisition date estimated fair value was \$727,805, consisting of 1,192,335 shares of the Company's Common Stock with an estimated fair value of \$727,805. The acquisition of Bazi Intl. has been accounted for using the acquisition method. Assets acquired and liabilities assumed were recorded at their estimated fair values as of the acquisition date. The fair values of identifiable intangible assets were based on valuations using the income approach and estimates provided by management. The excess of the purchase price over the tangible assets, identifiable intangible assets and assumed liabilities was recorded as goodwill. The allocation of the purchase price is based upon a valuation of certain assets acquired and liabilities assumed. The purchase price allocation was as follows:

	Amount
Cash	\$ 5,646
Inventory	47,000
Customer List (useful life of 2 years)	100,000
Goodwill	1,059,860
Total assets acquired	1,212,506
Accounts payable, accrued expenses and other current liabilities	(484,701)
Total liabilities assumed	(484,701)
Total allocation of purchase price consideration	\$ 727,805

The useful life of the intangible asset (customer list) was based upon the patterns in which the economic benefits related to the customer list are expected to be realized, and the customer list will be amortized on a basis reflecting those economic patterns.

The Company incurred \$138,000 of legal costs related to this transaction, which has been recorded as general and administrative expense during the year ended December 31, 2012.

The unaudited pro forma information presented in the following table summarizes the Company's consolidated results of operations for the year ended December 31, 2012, as if the acquisition of Bazi Intl. had occurred on January 1, 2012. The pro forma financial information is presented for comparative purposes only and is not necessarily indicative of the results of operations that actually would have been achieved if the acquisition had taken place at the beginning of 2012, nor is it intended to be a projection of future results.

	Pro Forma (Unaudited) Year Ended December 31, 2012

Net loss	\$	(5,001,653)
Basic net loss per share	\$	(0.22)

NOTE 3 – SHAREHOLDERS' EQUITY

The holders of Common Stock are entitled to receive, when and as declared by the Board of Directors, dividends payable either in cash, in property or in shares of Common Stock of the Company. Dividends have no cumulative rights and dividends will not accumulate if the Board of Directors does not declare such dividends.

The holders of Series A Preferred stock are entitled to receive, when and as declared by the Board of Directors, dividends payable either in cash, in property or in shares of the Common Stock of the Company, in an amount equal to the aggregate amount of the dividend to which such shares of Series A Preferred would have been entitled had such share been converted into shares of Common Stock. The holders of Series A Preferred vote together with holders of Common Stock on an as-converted basis. On January 18, 2013, upon the filing of the Amendment to the Articles of Incorporation, the Company converted 1,544,565 shares of Series A Preferred issued to former True Drinks

shareholders into 25,304,017 post-split shares of the Company's Common Stock. In November 2013, the Company filed a Certificate of Elimination with the State of Nevada to eliminate the Series A Preferred Stock.

Table of Contents

Each share of Series B Preferred has a stated value of \$4.00 per share (“Stated Value”) and accrues annual dividends equal to 5% of the Stated Value, payable by the Company in quarterly installments, in either cash or shares of Common Stock. Each share of Series B Preferred is convertible, at the option of the holder, into that number of shares of Common Stock equal to the Stated Value, divided by \$0.25 per share (the “Conversion Shares”). The Company also has the option to require the conversion of the Series B Preferred into Conversion Shares in the event: (i) there are sufficient authorized shares of Common Stock reserved as Conversion Shares; (ii) the Conversion Shares are registered under the Securities Act of 1933, as amended (the “Securities Act”), or the Conversion Shares are freely tradable, without restriction, under Rule 144 of the Securities Act; (iii) the daily trading volume of the Company’s Common Stock, multiplied with the closing price, equals at least \$250,000 for 20 consecutive trading days; and (iv) the average closing price of the Company’s Common Stock is at least \$0.62 per share for 10 consecutive trading days.

In January 2012, the Company formed and issued founders shares of its Common Stock to certain individuals and entities totaling 854,500 shares. As of the merger with Bazi Intl. on October 15, 2012, these shares were converted into 854,500 shares of the Company’s Series A Preferred shares.

In February and March 2012, the Company issued 163,000 shares of its Common Stock to certain accredited investors pursuant to subscription agreements in exchange for a total of \$1,625,000. As of the merger with Bazi Intl. on October 15, 2012, these shares were exchanged for 163,000 shares of the Company’s Series A Preferred shares.

On April 1, 2012, the Company completed the acquisition of the ownership interest in GT Beverage Company, LLC in exchange for 292,690 shares of its Common Stock. As of the merger with Bazi Intl. on October 15, 2012, these shares were exchanged for 292,690 shares of the Company’s Series A Preferred shares.

Between April and June 2012, the Company issued 186,875 shares of its Common Stock to certain accredited investors pursuant to subscription agreements in exchange for a total of \$1,574,982 in cash. In June 2012, the Company issued 15,000 shares of its Common Stock for services provided to the Company valued at \$150,000 based on the fair value of the Company’s stock. As of the merger with Bazi Intl. on October 15, 2012, these shares were exchanged for 15,000 shares of the Company’s Series A Preferred shares.

In July 2012, the Company issued 17,500 shares of its Common Stock to certain accredited investors pursuant to subscription agreements in exchange for a total of \$175,000 in cash. As of the merger with Bazi Intl. on October 15, 2012, these shares were exchanged for 17,500 shares of the Company’s Series A Preferred shares.

In October 2012 (pre-merger), the Company issued 15,000 shares of its Common Stock for services provided to the Company valued at \$15,000 based on the fair value of the Company’s stock. As of the merger with Bazi Intl. on October 15, 2012, these shares were exchanged for 15,000 shares of the Company’s Series A Preferred shares.

On October 15, 2012, the Company issued 1,192,335 shares of its Common Stock to the holders of 100% of the outstanding shares of Bazi International, Inc. pursuant to the Merger with Bazi Intl.

Between October and December 2012 (post-merger), the Company issued 145,000 shares of its Common Stock to certain accredited investors in connection with bridge loans made to the Company. Such loans have short-term maturities of approximately 4 months. The Company expensed the fair value of the common stock issued of approximately \$108,000 to interest expense immediately. (See Note 7).

Between January and September 2013, the Company issued 268,800 shares of its Common Stock as offering costs relating to bridge loans made to the Company. Such loans have short-term maturities of approximately four months. The Company expensed the fair value of the Common Stock issued of \$209,090 to interest expense during the year ended December 31, 2013.

In March 2013, the Company issued 38,250 shares of its Common Stock in connection with two consulting agreements. The Company expensed the fair value of the Common Stock issued of \$38,250 to consulting expense.

Between April and May 2013, the Company issued a total of 860,821 shares of its Common Stock to holders of \$860,818 in outstanding convertible notes payable, lenders fees and accrued interest upon receiving conversion notices on the underlying notes.

Between July and August 2013, the Company issued 76,364 shares of its Common Stock in connection with two consulting agreements. The Company expensed the fair value of the Common Stock issued of \$84,000 to consulting expense.

In November 2013, the Company issued 1,495,000 shares of its Series B Preferred Stock to certain accredited investors pursuant to subscription agreements in exchange for a total of \$5,980,000 in cash less cash fees of \$496,854. The investors also received Warrants to purchase 6,976,667 shares of the Company's Common Stock for \$0.30 per share. The Company also issued 1,235,867 warrants to Merriman Capital in connection with the investment. The total value of all such Warrants, \$1,117,163, was recorded against Additional Paid In Capital.

In November 2013, the Company issued 264,423 shares of its Series B Preferred Stock to holders of \$975,434 in outstanding convertible notes payable, lenders fees and accrued interest upon receiving conversion notices on the underlying notes. In addition, investors received Warrants to purchase 1,138,070 shares of the Company's Common Stock for \$0.30 per share. The total value of these Warrants, \$151,774, was recorded against Additional Paid In Capital. In addition, \$64,970 of liability associated with a derivative on certain of the notes was recorded to Additional Paid In Capital.

In December 2013, the Company issued 17,500 shares of its Series B Preferred Stock to certain directors on its Board of Directors in exchange for \$70,000 in outstanding board fees. In addition, the directors also received Warrants to purchase 81,667 shares of the Company's Common Stock for \$0.30 per share.

NOTE 4 – STOCK OPTIONS AND WARRANTS

Warrants

A summary of the Company's warrant activity for the years ended December 31, 2013 and 2012 is presented below:

	Warrants Outstanding	Weighted Average Exercise Price

Non-Qualified Stock Options

In 2013, the Company granted 245,739 stock options pursuant to an option agreement with one employee. The grant date fair value of the options granted during the year ended December 31, 2013 was \$0.35 per share for a total of \$86,009 to be expensed over the vesting periods of the options. Such fair values were estimated using the Black-Scholes stock option pricing model and the following weighted average assumptions.

	2013	
Expected life	2.5 years	
Estimated volatility	75.0	%
Risk-free interest rate	0.65	%
Dividends	-	

The weighted average estimated fair value per share of the stock options at grant date was \$0.35 during the year ended December 31, 2013. The expected life of options granted is based on the “simplified method” described in ASC 718-10 due to changes in the vesting terms and the contractual life of current option grants. Assumed volatility is based on the historical volatility of companies within the similar industry. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for periods corresponding to the expected term of the options.

Stock option activity during the years ended December 31, 2013 and 2012 is summarized as follows:

	Number of Shares	Weighted-Average Exercise Price
Options outstanding at January 19, 2012	-	\$ -
Exercised	-	-
Granted	3,870,387	0.69
Forfeited	-	-

NOTE 5 – INTANGIBLE ASSETS

The Company has incurred costs to trademark eight of its current products and marketing nomenclatures. During the year, the Company purchased a patent in relation to the purchase of GT Beverage, and also assumed the trademarks of Bazi Intl. Patents and trademarks are being amortized over the lesser of their remaining life or 15 years.

Intangible assets are:

	December 31, 2013	December 31, 2012
Patents and trademarks	\$ 1,706,849	\$ 1,706,849
Accumulated amortization	(305,392)	(114,215)
	\$ 1,401,457	\$ 1,592,634

Amortization expense for the year ended December 31, 2013 and 2012 was \$191,177 and \$114,216, respectively. For these assets, amortization expense over the next five years is expected to be as follows:

	Patent and trademark amortization
2014	\$ 168,042
2015	145,172
2016	141,177
2017	141,177
2018	141,177
2019 and thereafter	664,712
	\$ 1,401,457

NOTE 6 – INCOME TAXES

The Company does not have significant income tax expense or benefit for the year ended December 31, 2013 or 2012. Tax net operating loss carryforwards have resulted in a net deferred tax asset with a 100% valuation allowance applied against such asset at December 31, 2013 and 2012. Such tax net operating loss carryforwards (“NOL”) approximated \$10.2 million and \$3.1 million at December 31, 2013 and 2012, respectively. Some or all of such NOL may be limited by Section 382 of the Internal Revenue Code.

The income tax effect of temporary differences between financial and tax reporting and net operating loss carryforwards gives rise to a deferred tax asset at December 31, 2013 and 2012 as follows:

	2013	2012
Deferred tax asset –NOL’s	\$ 3,800,000	\$ 1,160,000
Less valuation allowance	(3,800,000)	(1,160,000)
Net deferred tax asset	\$ -	\$ -

At December 31, 2013 approximately \$10,200,000 of net operating loss carryforwards for federal and state income tax purposes were available to offset future taxable income through the year 2033, of which these net operating losses will begin to expire in the year 2032. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization

of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become realizable. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the history of the Company and projections for future taxable income over the periods in which the deferred tax assets are realizable, management believes it is not more likely than not that the Company will realize the benefits of these deductible differences and therefore a full valuation allowance against the deferred tax assets has been established.

F-17

Table of Contents

As a result of the Merger with Bazi Intl. on October 15, 2012, the Company may have access to utilize a portion of the net operating loss carryforwards of Bazi Intl., which, in total, were approximately \$25 million at the time of the Merger. The Company is uncertain as of the timing of this filing as to the portion of the Bazi net operating loss carryforwards that may be limited by Section 382 of the Internal Revenue Code.

The Tax Reform Act of 1986 contains provisions that limit the utilization of net operating loss and tax credit carryforwards if there has been a change of ownership as described in Section 382 of the Internal Revenue Code. Such an analysis has not been performed by the Company to determine the impact of these provisions on the Company's net operating losses, though management believes the impact would be minimal, if any. A limitation under these provisions would reduce the amount of losses available to offset future taxable income of the Company.

In June 2006, the Financial Accounting Standards Board ("FASB") issued ASC Topic 740 (formerly Interpretation No. 48, "Accounting for Uncertainties in Income Taxes, an interpretation of SFAS No. 109, Accounting for Income Taxes". ASC 740 prescribes a recognition threshold and measurement attribute for the recognition and measurement of tax positions taken or expected to be taken on income tax returns. ASC Topic 740 also provides guidance on de-recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, and accounting for interest and penalties associated with tax positions.

Based on management's assessment of ASC Topic 740, management concluded that the Company does not have any uncertain tax positions as of December 31, 2013. There have been no income tax related interest or penalties assessed or recorded and if interest and penalties were to be assessed, the Company would charge interest and penalties to income tax expense. It is not anticipated that unrecognized tax benefits would significantly increase or decrease within 12 months of the reporting date. The Company and its subsidiaries file income tax returns in the U.S. and various state jurisdictions and there are open statutes of limitations for taxing authorities to audit the Company's tax returns from 2008 through the current year.

NOTE 7 – DEBT

Note Offering

On June 20, 2013 the Company commenced a private offering of: (i) Notes in the aggregate principal amount of up to \$3.3 million; and (ii) Warrants to certain accredited investors (the "Note Offering"). During the year ended December 31, 2013, the Company issued Notes in the aggregate principal amount of \$3,126,000, which amount included \$600,000 issued as consideration for the exchange of the outstanding principal and accrued interest of certain promissory notes previously issued by the Company. As additional consideration to investors and as consideration for offering costs, the Company issued 2,438,243 Warrants to purchase the Company's common stock, in addition to the 600,000 Warrants issued with the May Notes. As of November 29, 2013, all Notes issued during the Offering were either paid in full as a result of the Note Repayment, or exchanged for shares of Series B Preferred and Warrants in connection with the Note Conversion.

Each Note accrued interest at a rate of 12% per annum, and was set to mature on November 29, 2013. Each Note was convertible, at the option of the holder thereof into that number of shares of the Company's Common Stock, equal to the outstanding principal balance of the Note, plus accrued but unpaid interest, divided by \$2.00. The Notes contained "anti-dilution" protection, such that if the Company were to conduct a qualifying equity transaction, the conversion price of the Notes would be the lower of \$2.00 or 90% of the price of the qualifying equity transaction. Management determined that the embedded conversion feature was a derivative liability and recorded a debt discount of \$324,603 based on the estimated fair value of the derivative liability. Such amount was determined by a third-party valuation firm using a Monte Carlo simulation and is being amortized into interest expense over the term of the note. Each Note was also accompanied by Warrants to purchase a number of shares of the Company's Common Stock equal to 75% of

the aggregate principal amount of the Notes divided by the lower of \$1.10 or the price of a qualifying equity transaction. Under ASC 815, management determined that each Warrant's price-protection feature is also a derivative liability and recorded a debt discount of \$1,007,940 based on the estimated fair value of the derivative liability. This amount is being amortized into interest expense over the term of the note.

In November 2013, each Note was either repaid or converted into the Company's Series B Offering. A total of \$2,508,716 was repaid in principal and accrued interest. The remaining Notes totaling \$739,706 was converted into Company's Series B Offering.

Bridge Financing

Between October and December 2012, the Company consummated the sale of senior secured convertible notes (“Bridge Notes”) to a limited number of accredited investors, resulting in net proceeds to the Company of \$725,000. As additional consideration for the purchase of the Bridge Notes, each investor received 5,000 shares of the Company’s Common Stock per \$25,000 of principal amount purchased. Each Bridge Note has a term of 120 days, and accrues interest at 9% per annum. A fee of 10% was added to each Bridge Note, as a lender’s fee. The principal, interest and lender’s fee are convertible, at the option of the holder, into shares of the Company’s Common Stock at a price of \$1.00 per share. The Company has repaid \$125,000 in principal, \$12,500 in fees, and \$4,830 in interest to certain holders of the Bridge Notes. In April and May 2013, Bridge Notes in the aggregate principal amount, plus accrued interest, of \$376,222 were converted into 376,225 shares of the Company’s Common Stock. The maturities on the outstanding Bridge Notes was extended through November 29, 2013.

In December 2012, the Company issued promissory notes to certain investors, resulting in net proceeds to the Company of \$47,000. These promissory notes have a term of 30 days, and included a lender’s fee of 10%. These promissory notes were repaid in full in January 2013.

In January 2013, we completed a private placement, wherein we issued an aggregate principal amount of \$660,000 in unsecured convertible promissory notes (the “January Notes”) to certain purchasers. As additional consideration for the purchase of the January Notes, each purchaser received 5,000 post-split shares of the Company’s Common Stock per \$25,000 of principal amount purchased. The January Notes have a term of 120 days and accrue interest at a rate of 9% per annum. At maturity, the holders of the January Notes have the right to convert all principal and accrued but unpaid interest into shares of Common Stock at a conversion price equal to \$1.00 per share. In May 2013, the maturity date of certain January Notes in the aggregate principal amount of \$500,000 was extended to November 29, 2013, and the remaining balance of the January Notes, totaling \$180,568 of principal and accrued interest, were converted into 180,568 shares of the Company’s Common Stock.

In February and March 2013, we completed a private placement, wherein we issued unsecured convertible promissory notes in the aggregate principal amount of \$389,000 (the “March Notes”) to certain purchasers. As additional consideration for the purchase of the March Notes, each purchaser received 5,000 shares of the Company’s Common

Stock per \$25,000 of principal amount purchased. The March Notes mature on November 29, 2013 and accrue interest at a rate of 9% per annum. Pursuant to the terms of the March Notes, each note is convertible into shares of the Company's Common Stock at a conversion price equal to \$1.00 per share. In May 2013, March Notes in the aggregate principal amount, plus accrued interest, of \$234,543 were converted into 234,543 shares of the Company's Common Stock.

In April 2013, we completed a private placement, wherein we issued unsecured convertible promissory notes in the aggregate principal amount of \$195,000 (the “April Notes”) to certain purchasers. As additional consideration for the purchase of the April Notes, each purchaser received 5,000 shares of the Company’s Common Stock per \$25,000 of principal amount purchased. The April Notes mature on November 29, 2013 and accrue interest at a rate of 9% per annum. Pursuant to the terms of the April Notes, the April Notes are convertible into shares of the Company’s Common Stock at a conversion price equal to \$1.00 per share. In May 2013, April Notes totaling \$69,484 of principal and accrued interest were converted into 69,485 shares of the Company’s Common Stock.

In May 2013, we completed a private placement, wherein we issued unsecured promissory notes in the aggregate principal amount of \$600,000 (the “May Notes”) and unsecured convertible promissory notes in the aggregate principal amount of \$150,000 (the “Convertible May Notes”) to certain purchasers. As additional consideration for the purchase of the Convertible May Notes, each purchaser received 5,000 shares of the Company’s Common Stock per \$25,000 of principal amount purchased.

The May Notes matured on August 6, 2013 and accrued interest at a rate of 12% per annum. In connection with, and as further consideration for the purchase of the May Notes, the Company issued a total of 600,000 5-year warrants to purchase shares of the Company’s Common Stock at a price of \$1.10 per share to the purchasers. The Convertible May Notes mature on November 29, 2013 and accrue interest at a rate of 9% per annum. Each Convertible May Note is convertible into shares of the Company’s Common Stock at a conversion price equal to \$1.00 per share. In June 2013, the May Notes were converted into the Notes from the Offering initiated in June, 2013.

In November 2013, the Company repaid \$397,473 in outstanding principal, lender’s fees and interest on its outstanding convertible notes. In addition, \$235,778 of outstanding principal, lender’s fees and interest on its outstanding convertible notes were converted into the Company’s Series B Offering.

Term Loan

In November 2013, the Company secured a commercial term loan in the amount of \$2.0 million from Avid Bank. The loan has a term of 2 years, accrues interest at 2.75% above prime, is secured against virtually all of the Company’s assets, and requires an Asset Coverage Ratio of assets to outstanding principal of 1.5.

NOTE 8 – COMMITMENTS AND CONTINGENCIES

The Company has entered in a number of consulting agreements with various consultants. Termination of any of these agreements could result in termination fees.

The Company leases its office in Irvine, California on a one-year lease. Total rent expense for the year ended December 31, 2013 was approximately \$46,000. Total remaining payments on the lease through July 31, 2013 are approximately \$14,728.

The Company maintains employment agreements with certain key management. The agreements provide for minimum base salaries, eligibility for stock options, performance bonuses and severance payments.

Legal Proceedings

From time to time, claims are made against the Company in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur. In the opinion of management, the resolution of these matters, if any, will not have a material adverse impact on the Company’s financial position or results of operations.

On July 1, 2011, a lawsuit was filed in the United States District Court, the Southern District of Ohio, Cincinnati Division, against GT Beverage Company, LLC (“GT LLC”) by Dominion Liquid Technologies, LLC. The lawsuit alleges that GT LLC breached terms of a 2010 co-packing agreement, which governed the relationship between the parties. As of February 2013, Dominion amended its complaint to add the Company as a defendant in the case. Dominion is seeking monetary damages in an amount exceeding \$800,000. GT LLC has filed its answer denying all of Dominion’s claims and expects to vigorously defend the suit. A trial will likely be set in the second quarter of 2014.

NOTE 9 – FAIR VALUE MEASUREMENTS

The application of fair value measurements may be on a recurring or nonrecurring basis depending on the accounting principles applicable to the specific asset or liability or whether management has elected to carry the item at its estimated fair value. FASB ASC 820-10-35 specifies a hierarchy of valuation techniques based on whether the inputs to those techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when estimating fair value.

The Company assesses its recurring fair value measurements as defined by FASB ASC 810. Liabilities measured at estimated fair value on a recurring basis include derivative liabilities. Transfers between fair value classifications occur when there are changes in pricing observability levels. Transfers of financial liabilities among the levels occur at the beginning of the reporting period. There were no transfers between Level 1, Level 2 and/or Level 3 during the year ended December 31, 2013. The Company had no Level 1 or 2 fair value measurements during 2013.

The following table presents the estimated fair value of financial liabilities measured at estimated fair value on a recurring basis included in the Company's financial statements as of December 31, 2013:

		Level 1	Level 2	Level 3
		Quoted	Internal	Internal
		market	Models	models with
		prices in	with	significant
	Total	active	significant	unobservable
	carrying	market	observable	market
	value	parameters	market	parameters
Derivative liabilities	\$1,619,021	\$–	\$–	\$ 1,619,021

The following table presents the changes in recurring fair value measurements included in net loss for the year ended December 31, 2013:

	Recurring Fair Value Measurements Changes in Fair Value Included in Net Loss For the Year Ended December 31, 2013		
	Revenues	Expenses	Total
Derivative liabilities	\$1,361,597	\$–	\$1,361,597

NOTE 10 – RELATED PARTY TRANSACTIONS

On May 11, 2012, the Company loaned Environmental Packaging Technologies, Inc. (“EPT”) the sum of \$150,000 in exchange for a 50-day promissory note. The promissory note accrued interest at 10% per annum and includes a fee equal to 10% of principal balance of the note, payable to the Company. True Drinks’ former chairman and current investor is the chairman for EPT. In July and August 2013, the Company was repaid all principal, interest and fees in connection with the promissory note from EPT.

Our Board of Directors approved of this arrangement.

NOTE 11 – LICENSING AGREEMENTS

We entered into a three-year licensing agreement with Disney Consumer Products, Inc. (“Disney”) and an 18-month licensing agreement with Marvel Characters, B.V. (“Marvel”) (the “Licensing Agreements”) in 2012. Each Licensing Agreement allows us to feature popular Disney and Marvel characters on AquaBall™ Naturally Flavored Water, allowing AquaBall™ to stand out among other beverages marketed towards children. Under the terms and conditions of the Licensing Agreements, we work with the Disney and Marvel teams to create colorful, eye-catching labels that surround the entire spherical shape of each AquaBall™. Once the label designs are approved, we work with Disney and Marvel to set retail calendars, rotating the placement of different AquaBall™ designs over the course of the year.

The terms of the Disney Licensing Agreement stipulates a royalty rate of 4% on the sales of AquaBall™ Naturally Flavored Water adorned with Disney characters, paid quarterly, with a total royalty guarantee of \$231,600 over the term of the agreement which has a term ending date of March 31, 2015. In addition, the Company is required to spend 1% of sales on advertising and promotional opportunities. The Company is required to make common marketing fund contributions totaling \$96,188 over the life of the agreement.

In August 2013, the Company signed an extension of its licensing agreement with Marvel Characters B.V. to extend the expiration date from December 31, 2013 to December 31, 2015 (the “Marvel Agreement”). The Marvel Agreement allows True Drinks to use a range of different Marvel characters on AquaBall™ packaging in exchange for a royalty payment, paid quarterly, equal to 5% of the proceeds from the sale of AquaBalls™ adorned with Marvel characters in the United States and Canada. The Marvel Agreement has a total royalty guarantee of \$150,000 over the term of the agreement.
