CSP INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
THREE AND SIX MONTHS ENDED MARCH 31, 2013 AND 2012

Organization and Business

CSP Inc. was founded in 1968 and is based in Billerica, Massachusetts. To meet the diverse requirements of its industrial, commercial and defense customers worldwide, CSP Inc. and its subsidiaries (collectively “CSPI” or the “Company”) develop and market IT integration solutions and high-performance cluster computer systems. The Company operates in two segments, its Systems segment and its Service and System Integration segment.

1. Basis of Presentation

The accompanying consolidated financial statements have been prepared by the Company, without audit, and reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. All adjustments were of a normal recurring nature. Certain information and footnote disclosures normally included in the annual financial statements, which are prepared in accordance with accounting principles generally accepted in the United States, have been condensed or omitted. Accordingly, the Company believes that although the disclosures are adequate to make the information presented not misleading, the unaudited financial statements should be read in conjunction with the footnotes contained in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2012.

2. Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates under different assumptions or conditions.

3. Earnings Per Share of Common Stock

Basic net income per common share is computed by dividing net income available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted net income per common share reflects the maximum dilution that would have resulted from the assumed exercise and share repurchase related to dilutive stock options and is computed by dividing net income by the assumed weighted average number of common shares outstanding.

We are required to present earnings per share, or EPS, utilizing the two class method because we had outstanding, non-vested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents, which are considered participating securities.

Basic and diluted earnings per share computations for the Company's reported net income attributable to common stockholders are as follows:

	For the three months ended		For the six months ended	
	March 31, 2013	March 31, 2012	March 31, 2013	March 31, 2012
	(Amounts in thousands except per share data)			
Net income	\$ 740	\$ 442	\$ 855	\$ 903
Less: Net income attributable to nonvested common stock	16	8	17	15
Net income attributable to common stockholders	\$ 724	\$ 434	\$ 838	\$ 888
Weighted average total shares outstanding – basic	3,448	3,425	3,437	3,417
Less: weighted average non-vested shares outstanding	73	62	68	57
Weighted average number of common shares outstanding – basic	3,375	3,363	3,369	3,360
Potential common shares from non-vested stock awards and the assumed exercise of stock options	49	38	47	38
Weighted average common shares outstanding – diluted	3,424	3,401	3,416	3,398
Net income per share – basic	\$ 0.21	\$ 0.13	\$ 0.25	\$ 0.26
Net income per share – diluted	\$ 0.21	\$ 0.13	\$ 0.25	\$ 0.26

All anti-dilutive securities, including certain stock options, are excluded from the diluted income per share computation. For the three months ended March 31, 2013 and 2012, 183,000 and 195,000 options, respectively, were excluded from the diluted income per share calculation because their inclusion would have been anti-dilutive. For the six months ended March 31, 2013 and 2012, 190,000 and 200,000 options, respectively, were excluded from the diluted income per share calculation because their inclusion would have been anti-dilutive.

4. Inventories

Inventories consist of the following:

	March 31, 2013	September 30, 2012
	(Amounts in thousands)	
Raw materials	\$1,185	\$941
Work-in-process	636	1,407
Finished goods	2,695	3,928
Total	\$4,516	\$6,276

Finished goods includes inventory that has been shipped, but for which all revenue recognition criteria has not been met, of approximately \$0.6 million and \$1.4 million as of March 31, 2013 and September 30, 2012, respectively.

Total inventory balances in the table above are shown net of reserves for obsolescence of approximately \$4.5 million and \$4.4 million as of March 31, 2013 and September 30, 2012, respectively.

5. Accumulated Other Comprehensive Income (Loss)

The components of accumulated other comprehensive loss are as follows:

	March 31, 2013	September 30, 2012
	(Amounts in thousands)	
Cumulative effect of foreign currency translation	\$(2,289)	\$(2,273)
Additional minimum pension liability	(4,339)	(4,339)
Accumulated other comprehensive loss	\$(6,628)	\$(6,612)

6. Pension and Retirement Plans

The Company has defined benefit and defined contribution plans in the United Kingdom, Germany and the U.S. In the United Kingdom and Germany, the Company provides defined benefit pension plans and defined contribution plans for the majority of its employees. In the U.S., the Company provides benefits through supplemental retirement plans to certain current and former employees. The domestic supplemental retirement plans have life insurance policies which are not plan assets but were purchased by the Company as a vehicle to fund the costs of the plan. Domestically, the Company also provides for officer death benefits through post-retirement plans to certain officers. All of the Company's defined benefit plans are closed to newly hired employees and have been for the two years ended September 30, 2012 and for the six months ended March 31, 2013.

The Company funds its pension plans in amounts sufficient to meet the requirements set forth in applicable employee benefits laws and local tax laws. Liabilities for amounts in excess of these funding levels are accrued and reported in the consolidated balance sheets.

Our pension plan in the United Kingdom is the only plan with plan assets. The plan assets consist of an investment in a commingled fund which in turn comprises a diversified mix of assets including corporate equity securities, government securities and corporate debt securities.

The components of net periodic benefit costs related to the U.S. and international plans are as follows:

	For the Three Months Ended March 31,					
	Foreign	2013 U.S.	Total	Foreign	2012 U.S.	Total
	(Amounts in thousands)					
Pension:

Edgar Filing: CSP INC /MA/ - Form 10-Q

Capital expenditures	117	116	25	37	178	295
Depreciation and amortization	48	81	14	79	174	222

12

Profit (loss) from operations consists of sales less cost of sales, engineering and development, selling, general and administrative expenses but is not affected by either non-operating charges/income or by income taxes. Non-operating charges/income consists principally of investment income and interest expense. All intercompany transactions have been eliminated.

The following table lists customers from which the Company derived revenues in excess of 10% of total revenues for the three and six-month periods ended March 31, 2013, and 2012.

	For the three months ended,				For the six months ended			
	March 31, 2013		March 31, 2012		March 31, 2013		March 31, 2012	
	Amount	% of Revenues	Amount	% of Revenues	Amount	% of Revenues	Amount	% of Revenues
	(dollars in millions)							
Customer A	\$4.8	18 %	\$5.8	30 %	\$7.4	16 %	\$10.3	26 %
Customer B	\$5.9	23 %	\$1.5	8 %	\$11.0	23 %	\$6.7	17 %
Customer C	\$0.2	1 %	\$2.2	12 %	\$1.0	2 %	\$3.4	9 %
Customer D	\$3.0	12 %	\$0.2	1 %	\$4.2	9 %	\$0.8	2 %

8. Fair Value Measures

Assets and Liabilities measured at fair value on a recurring basis are as follows:

	Fair Value Measurements Using				
	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Balance	Gain or (loss)
	As of March 31, 2013 (Amounts in thousands)				
Assets:					
Money Market funds	\$3,500	\$—	\$—	\$3,500	\$—
Total assets measured at fair value	\$3,500	\$—	\$—	\$3,500	\$—
	As of September 30, 2012 (Amounts in thousands)				
Assets:					
Money Market funds	\$3,498	\$—	\$—	\$3,498	\$—
Total assets measured at fair value	\$3,498	\$—	\$—	\$3,498	\$—

These assets are included in cash and cash equivalents in the accompanying consolidated balance sheets. All other monetary assets and liabilities are short-term in nature and approximate their fair value. The Company did not have any transfers between Level 1, Level 2 or Level 3 measurements.

The Company had no liabilities measured at fair value as of March 31, 2013 or September 30, 2012. The Company had no assets or liabilities measured at fair value on a non recurring basis as of March 31, 2013 or September 30, 2012.

9. Dividend

On December 10, 2012, the Company's board of directors declared a cash dividend of \$0.20 per share which was paid on December 28, 2012 to stockholders of record as of December 20, 2012, the record date.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The discussion below contains certain forward-looking statements related to, among others, but not limited to, statements concerning future revenues and future business plans. In addition, forward-looking statements include statements in which we use words such as "expect," "believe," "anticipate," "intend," or similar expressions. Although we believe the expectations reflected in such forward-looking statements are based on reasonable assumptions, we cannot assure you that these expectations will prove to have been correct, and actual results may vary from those contained in such forward-looking statements.

Markets for our products and services are characterized by rapidly changing technology, new product introductions and short product life cycles. These changes can adversely affect our business and operating results. Our success will depend on our ability to enhance our existing products and services and to develop and introduce, on a timely and cost effective basis, new products that keep pace with technological developments and address increasing customer requirements. The inability to meet these demands could adversely affect our business and operating results.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates, including those related to uncollectible receivables, inventory valuation, income taxes, deferred compensation and retirement plans, estimated selling prices used for revenue recognition and contingencies. We base our estimates on historical performance and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. A description of our critical accounting policies is contained in our Annual Report on Form 10-K for the fiscal year ended September 30, 2012 in the "Critical Accounting Policies" section of Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results of Operations

Overview of the six months ended March 31, 2013 Results of Operations

Overview:

Revenue increased by approximately \$6.6 million, or 16%, to \$46.7 million for the six months ended March 31, 2013 versus \$40.1 million for the six months ended March 31, 2012. This increase in sales volume resulted in our operating income and net income being consistent with the prior-year six-month period, despite a decrease in overall gross profit margin, which decreased from 24% for the six months ended March 31, 2012 to 21% for the six months ended March 31, 2013. Operating profit was approximately \$1.4 million for both six-month periods ended March 31 in fiscal 2013 and 2012. Net income was \$0.9 million for both six-month periods. The decrease in gross profit margin was due to the company having realized approximately \$3.0 million in royalty revenue in the prior year six-month period compared to \$0.8 million in the current year six-month period.

Edgar Filing: CSP INC /MA/ - Form 10-Q

The following table details our results of operations in dollars and as a percentage of sales for the six months ended March 31, 2013 and 2012:

	March 31, 2013	% of sales		March 31, 2012	% of sales	
	(Dollar amounts in thousands)					
Sales	\$46,693	100	%	\$40,122	100	%
Costs and expenses:						
Cost of sales	36,749	79	%	30,584	76	%
Engineering and development	824	2	%	857	2	%
Selling, general and administrative	7,725	16	%	7,248	19	%
Total costs and expenses	45,298	97	%	38,689	97	%

	Systems	Service and System Integration	Total	% increase (decrease)
--	---------	--------------------------------------	-------	-----------------------------

Edgar Filing: CSP INC /MA/ - Form 10-Q

Increase (Decrease)					
Product	\$1,128	\$6,435	\$7,563	28	%
Services	(2,148)	1,156	(992)	(8)%
Total	\$(1,020)	\$7,591	\$6,571	16	%
% increase (decrease)	(22)%	21	%	16	%

15

As shown above, total revenues increased by approximately \$6.6 million, or 16%, for the six months ended March 31, 2013 compared to the six months ended March 31, 2012. Revenue in the Systems segment decreased for the current year six-month period versus the prior year six-month period by approximately \$1.0 million, while revenues in the Service and System Integration segment increased by approximately \$7.6 million.

Product revenues increased by approximately \$7.6 million, or 28%, for the six months ended March 31, 2013 compared to the comparable period of the prior fiscal year. Product revenues in the Service and System Integration segment increased by approximately \$6.4 million while in the Systems segment product revenue increased by approximately \$1.1 million for the six-month period ended March 31, 2013 versus the six month period ended March 31, 2012.

In the US division of the Service and System Integration segment, product sales increased by approximately \$9.2 million, offset by decreases in the German division of approximately \$2.0 million and in the UK division of approximately \$0.8 million.

In the US division, the increase was due in part to sales to new customers (customers to which no sales were made in the prior year), which totaled approximately \$3.7 million for the six months ended March 31, 2013. In addition, sales increased to three large existing customers in the IT hosting vertical by an aggregate of approximately \$5.7 million.

In Germany, the \$2.0 million decrease in product revenue included an unfavorable foreign currency impact of approximately \$0.2 million, therefore on a volume basis in constant dollars the decrease was approximately \$1.8 million. This sales volume decrease was driven by decreased sales to the division's largest customer, a large UK-based wireless carrier. The decrease in product sales in the UK division was the result of weaker demand from our UK customer base in the current-year six month period versus the prior year six month period.

The increase in product revenues in the Systems segment of approximately \$1.1 million was due largely to an increase in sales to our Japanese defense department customer of approximately \$1.3 million, and a decrease of \$0.4 million in sales of parts, components and spares to existing US defense department customers.

As shown in the table above, service revenues decreased by approximately \$1.0 million, or 8%. This decrease was made up of an decrease in the Systems segment of \$2.1 million and an increase in the Service and System Integration segment of approximately \$1.2 million. The decrease in the Systems segment service revenue was due to lower royalty income recorded in the six months ended March 31, 2013 which was approximately \$0.8 million versus \$3.0 million for the six months ended March 31, 2012. The increase in service revenues in the Service and System Integration segment was due to an increase in the German division, where service revenue increased by approximately \$0.5 million, and an increase in service revenues of approximately \$0.5 million in the US division. In Germany, the increase in sales volume was driven by increased service revenues to the German division's largest customer, a UK-based wireless carrier. The increase in service revenue in the US division of the segment was primarily from higher third party maintenance revenue for the six months ended March 31, 2013 versus the six months ended March 31, 2012.

Our sales by geographic area, based on the location to which the products were shipped or services rendered, are as follows:

For the six months ended,					
March 31,		March 31,		\$ Increase	%
2013	%	2012	%	(Decrease)	Increase
					(Decrease)

Edgar Filing: CSP INC /MA/ - Form 10-Q

(Dollar amounts in thousands)

Americas	\$ 29,689	64	%	\$ 21,918	55	%	\$ 7,771	35	%
Europe	14,673	31	%	17,321	43	%	(2,648)	(15)	%
Asia	2,331	5	%	883	2	%	1,448	164	%
Totals	\$ 46,693	100	%	\$ 40,122	100	%	\$ 6,571	16	%

The increase in Americas revenue for the six months ended March 31, 2013 versus the six months ended March 31, 2012 was primarily the result of the fluctuations described above in the Systems segment where combined product and service sales to US customers decreased by an aggregate \$2.6 million while in the US division of the Service and System Integration segment, sales to customers in the Americas were greater by approximately \$10.2 million.

The decrease in sales in Europe was primarily the result of the lower sales described above from the German and UK divisions of the Service and System Integration segment, which made up \$2.1 million of the decrease, while Europe sales from the US division of the Service and System Integration segment decreased by approximately \$0.5 million. The increase in Asia sales was the result of the increase in sales to our existing customer that supplies a large Japanese defense program (see discussion above).

Cost of Sales and Gross Margins

The following table details our cost of sales and gross profit margins by operating segment for the six months ended March 31, 2013 and 2012:

	Systems		Service and System Integration		Total		% of Total
(Dollar amounts in thousands)							
For the Six Months Ended March 31, 2013:							
Product	\$979		\$27,921		\$28,900	79	%
Services	127		7,722		7,849	21	%
Total	\$1,106		\$35,643		\$36,749	100	%
% of Total	3	%	97	%	100	%	
% of Sales	30	%	83	%	79	%	
Gross Margins:							
Product	62	%	13	%	17	%	
Services	88	%	28	%	34	%	
Total	70	%	17	%	21	%	
For the Six Months Ended March 31, 2012:							
Product	\$1,077		\$22,298		\$23,375	76	%
Services	127		7,082		7,209	24	%
Total	\$1,204		\$29,380		\$30,584	100	%
% of Total	4	%	96	%	100	%	
% of Sales	26	%	83	%	76	%	
Gross Margins:

Total	74	%	17	%	24	%	
Increase (decrease)							
Product	\$(98)	\$5,623		\$5,525	24	%
Services	—		640		640	9	%
Total	\$(98)	\$6,263		\$6,165	20	%
% Increase (decrease)	(8)%	21	%	20	%	
% of Sales	4	%	—	%	3	%	
Gross Margins:							
Product	36	%	(1)%	3	%	
Services	(8)%	2	%	(10)%	
Total	(4)%	—	%	(3)%	

Total cost of sales increased by approximately \$6.2 million when comparing the six months ended March 31, 2013 versus the six months ended March 31, 2012. This increase in cost of sales was due to the overall increase in sales as discussed previously, however whereas sales increased by 16%, cost of sales increased by 20%. The resulting lower gross profit margin ("GPM") of 21% for the six months ended March 31, 2013 versus 24% for 2012 was primarily attributable to a greater proportion of Systems segment revenue (12%) for the six months ended March 31, 2012 versus the six months ended March 31, 2013 (8%).

In the Service and System Integration segment, the overall GPM was 17% for the six months ended March 31, 2013 and also 17% for the prior year six-month period. Product GPM in the segment decreased from 14% for the six months ended March 31, 2012, to 13% for the six months ended March 31, 2013, while the segment's service GPM increased from 26% to 28%. The product GPM decrease was due to a less favorable product mix in the current year six-month period versus the prior year. Prior year product sales included more networking and data security products as opposed to sales of servers and other lower margin products in the current year six-month period particularly in the German division. The increase in service GPM in the Service and System Integration segment from 26% for the six-month period ended March 31, 2012 to 28% for the six months ended March 31, 2013 was due primarily to higher utilization of in-house service engineers in providing billable services in Germany, and higher third-party maintenance revenue for the current year six-month period versus that of the prior year.

In the Systems segment, the overall GPM decreased from 74% to 70% as shown in the table above. This was because in the current year six month period, royalty revenue, which carries a 100% GPM, made up a much lower percentage (22%) of total Systems segment revenue versus the prior year six-month period, wherein royalty revenue was 64% of total Systems segment revenue.

Engineering and Development Expenses

The following table details our engineering and development expenses by operating segment for the six months ended March 31, 2013 and 2012:

	For the six months ended,					
	March 31, 2013	% of Total	March 31, 2012	% of Total	\$ Decrease	% Decrease
(Dollar amounts in thousands)						
By Operating Segment:						
Systems	\$824	100 %	\$857	100 %	\$(33)	(4)%
Service and System Integration	—	—	—	—	—	—
Total	\$824	100 %	\$857	100 %	\$(33)	(4)%

As shown in the table above, engineering and development expenses did not vary significantly for the for the six months ended March 31, 2013 versus the six-month period ended March 31, 2012, as approximately the same amount of resources were expended in both six-month periods.

Selling, General and Administrative

The following table details our selling, general and administrative ("SG&A") expense by operating segment for the six months ended March 31, 2013 and 2012:

	For the six months ended,					
	March 31, 2013	% of Total	March 31, 2012	% of Total	\$ Increase (Decrease)	% Increase (Decrease)
(Dollar amounts in thousands)						
By Operating Segment:						
Systems	\$1,984	26 %	\$2,178	30 %	\$(194)	(9)%
Service and System Integration	5,741	74 %	5,070	70 %	671	13 %

Edgar Filing: CSP INC /MA/ - Form 10-Q

Total	\$7,725	100	%	\$7,248	100	%	\$477	7	%
-------	---------	-----	---	---------	-----	---	-------	---	---

SG&A expenses increased in the Service and System Integration segment by approximately \$0.7 million as shown above, due primarily to higher commissions and bonus expense, primarily due to the higher GP, and operating profit, plus higher sales salary expenses for additional headcount and promotions within the US division. In the Systems segment, SG&A expenses decreased by approximately \$0.2 million from lower retirement plan expenses of \$0.2 million and lower bonus of \$0.3 million offset by expenses incurred for legal and consulting expenses in connection with a proxy contest initiated by a shareholder, of \$0.3 million.

Other Income/Expenses

The following table details our other income (expense) for the six months ended March 31, 2013 and 2012:

	For the six months ended,		
	March 31,	March 31,	Increase
	2013	2012	
	(Amounts in thousands)		
Interest expense	\$(43)	\$(43)	\$—
Interest income	18	16	2
Foreign exchange gain	5	(26)	31
Gain on sale of fixed assets	17	—	17
Other income (expense), net	37	(17)	54
Total other income (expense), net	\$34	\$(70)	\$104

Other income (expense), net, for the six month periods ended March 31, 2013 and 2012 was not significant nor was the change from the prior year six month period to that of the current year.

Overview of the three months ended March 31, 2013 Results of Operations

Overview:

Revenue increased by approximately \$6.8 million, or 36%, to \$25.8 million for the three months ended March 31, 2013 versus \$19.0 million for the three months ended March 31, 2012. This increase in sales volume resulted in our operating income and net income increasing significantly compared with the prior-year three-month period, despite a decrease in overall gross profit margin, which decreased from 25% for the three months ended March 31, 2012 to 22% for the three months ended March 31, 2013. The decrease in gross profit margin was due to the company having realized approximately \$2.0 million in royalty revenue in the prior year three-month period compared to no royalty revenue in the current year three-month period.

For the three months ended March 31, 2013, we had an operating profit of approximately \$1.2 million versus an operating profit of approximately \$0.7 million for the three months ended March 31, 2012, for an increase of approximately \$0.6 million. For the three months ended March 31, 2013, net income was approximately \$0.7 million versus net income of approximately \$0.4 million for the three months ended March 31, 2012, for an increase of approximately \$0.3 million.

Edgar Filing: CSP INC /MA/ - Form 10-Q

The following table details our results of operations in dollars and as a percentage of sales for the three months ended March 31, 2013 and 2012:

	March 31, 2013	% of sales		March 31, 2012	% of sales	
(Dollar amounts in thousands)						
Sales	\$25,823	100	%	\$19,029	100	%
Costs and expenses:						
Cost of sales	20,056	78	%	14,314	75	%

Services	(1,998)		1,380		(618)	(9)	%
Total	\$273		\$6,521		\$6,794	36	%
% increase	12	%	39	%	36	%	

21

As shown above, total revenues increased by approximately \$6.8 million, or 36%, for the three months ended March 31, 2013 compared to the three months ended March 31, 2012. Revenue in the Systems segment increased for the current year three-month period versus the prior year three-month period by approximately \$0.3 million, while revenues in the Service and System Integration segment increased by approximately \$6.5 million.

Product revenues increased by approximately \$7.4 million, or 61%, for the three months ended March 31, 2013 compared to the comparable period of the prior fiscal year. Product revenues in the Service and System Integration segment increased by approximately \$5.1 million while in the Systems segment product revenue increased by approximately \$2.3 million for the three-month period ended March 31, 2013 versus the three-month period ended March 31, 2012.

In the US division of the Service and System Integration segment, product sales increased by approximately \$5.9 million, offset by decreases in sales in this segment's German division of approximately \$0.2 million and in the UK division of approximately \$0.6 million.

In the US division, sales increased to three large existing customers in the IT hosting vertical by an aggregate of approximately \$5.2 million and by approximately \$1.0 million to one of the largest customers in the education vertical.

In Germany, the \$0.2 million decrease in product revenue was due to slightly lower shipments among the existing large customer base. The decrease in product sales in the UK division was the result of weaker demand from our UK customer base in the current-year quarter versus the prior-year quarter.

The increase in product revenues in the Systems segment of approximately \$2.3 million was due to increased sales to our Japanese defense department customer.

As shown in the table above, service revenues decreased by approximately \$0.6 million, or 9%. This decrease was made up of a decrease in the Systems segment of \$2.0 million and an increase in the Service and System Integration segment of approximately \$1.4 million. The decrease in the Systems segment service revenue was due to the absence of royalty revenue recorded in the three months ended March 31, 2013 while for the three months ended March 31, 2012, royalty revenue was \$2.0 million. The increase in service revenues in the Service and System Integration segment was due to an increase in the German division, of approximately \$0.9 million, an increase in the US division of approximately \$0.4 million and an increase in the UK division of approximately \$0.1 million. In Germany, the increase in sales volume was driven by increased service revenues to the German division's largest customer, a UK-based wireless carrier. The increase in service revenue in the US division of the segment was from higher third party maintenance revenue for the quarter ended March 31, 2013 versus the quarter ended March 31, 2012 and an increase in professional service contract revenue.

Our sales by geographic area, based on the location to which the products were shipped or services rendered, are as follows:

	For the three months ended,				\$ Increase	% Increase
	March 31, 2013	%	March 31, 2012	%		
	(Dollar amounts in thousands)					
Americas	\$14,747	57	% \$10,104	53	% \$4,643	46
Europe	8,922	35	% 8,856	47	% 66	1
Asia	2,154	8	% 69	—	% 2,085	3,022
Totals	\$25,823	100	% \$19,029	100	% \$6,794	36

The increase in Americas revenue for the three months ended March 31, 2013 versus the three months ended March 31, 2012 was primarily the result of the fluctuations described above in the US division of the Service and System Integration segment, sales to customers in the Americas were greater by approximately \$6.5 million, while in the Systems segment combined product and service sales to US customers decreased by an aggregate 2.0 million.

The increase in Asia sales was the result of the increase in sales to our existing customer that supplies a large Japanese defense program (see discussion above).

Cost of Sales and Gross Margins

The following table details our cost of sales and gross profit margins by operating segment for the three months ended March 31, 2013 and 2012:

	Systems		Service and System Integration		Total		% of Total
(Dollar amounts in thousands)							
For the Three Months Ended March 31, 2013:							
Product	\$962		\$14,714		\$15,676	78	%

% of Sales	24	%	(2)%	3	%	
Gross Margins:							
Product	72	%	1	%	8	%	
Services	(25)%	5	%	(16)%	
Total	(24)%	2	%	(3)%	

Total cost of sales increased by approximately \$5.7 million when comparing the three months ended March 31, 2013 versus the three months ended March 31, 2012. This increase in cost of sales was due to the overall increase in sales as discussed previously, however whereas sales increased by 36%, cost of sales increased by 40%. The resulting lower GPM of 22% for the three months ended March 31, 2013 versus 25% for the three months ended March 31, 2012, was primarily attributable to a greater proportion of Systems Segment revenue (12%) for the three months

ended March 31, 2012 versus the three months ended March 31, 2013 (10%). Also, within the Systems segment, the GPM was 86% for the three months ended March 31, 2012, versus 62% for the three months ended March 31, 2012. This was because in the prior year quarter, we realized approximately \$2.0 million in royalty revenue which carries a 100% GPM, versus no royalty revenue in the current year quarter.

In the Service and System Integration segment, the overall GPM was 18% for the three months ended March 31, 2013 versus 16% for the prior year three-month period. Product GPM in the segment increased from 13% for the three months ended March 31, 2012, to 14% for the three months ended March 31, 2013, while the segment's service GPM increased from 24% to 29%. The product GPM increase was due to a more favorable product mix in the current year three-month period versus the prior year. The increase in service GPM in the Service and System Integration segment was due primarily to higher utilization of in-house service engineers in providing billable services in Germany and higher TPM revenue in the US..

Engineering and Development Expenses

The following table details our engineering and development expenses by operating segment for the three months ended March 31, 2013 and 2012:

	For the three months ended,					
	March 31, 2013	% of Total	March 31, 2012	% of Total	\$ Decrease	% Decrease
(Dollar amounts in thousands)						
By Operating Segment:						
Systems	\$380	100	% \$474	100	% \$(94)	(20)%
Service and System Integration	—	—	—	—	—	—
Total	\$380	100	% \$474	100	% \$(94)	(20)%

The \$0.1 million decrease in engineering and development expenses displayed above was due to lower engineering consulting and materials expenditures in connection with the development of the next generation of products in the Systems segment.

Selling, General and Administrative

The following table details our selling, general and administrative (“SG&A”) expense by operating segment for the three months ended March 31, 2013 and 2012:

	For the three months ended,					
	March 31, 2013	% of Total	March 31, 2012	% of Total	\$ Increase (Decrease)	% Increase (Decrease)
(Dollar amounts in thousands)						
By Operating Segment:						
Systems	\$1,106	27	% \$1,126	32	% \$(20)	(2)%
Service and System Integration	3,059	73	% 2,446	68	% 613	25 %
Total	\$4,165	100	% \$3,572	100	% \$ 593	17 %

The increase in SG&A expense in the Service & System Integration segment was the result of an increase in commission expense of approximately \$0.3 million, due to the higher gross profit in the current-year period versus the prior year, higher salary and fringe expense of approximately \$0.1 million a due to headcount increases, and higher bad debt expense of approximately \$0.1 million. These increase were all within the US division of the segment.

Other Income/Expenses

The following table details our other income (expense) for the three months ended March 31, 2013 and 2012:

	For the three months ended,		Increase
	March 31,	March 31,	(Decrease)
	2013	2012	
	(Amounts in thousands)		
Interest expense	\$(21)	\$(21)	\$—
Interest income	4	11	(7)
Foreign exchange gain (loss)	(7)	(12)	5
Other income (expense), net	(1)	(14)	\$13
Total other income (expense), net	\$(25)	\$(36)	11

Other income (expense), net, for the three month periods ended March 31, 2013 and 2012 was not significant nor was the change from the prior year three-month period to that of the current year.

Income Taxes

Income Tax Provision

The Company recorded income tax expense of approximately \$0.5 million for the quarter ended March 31, 2013, reflecting an effective income tax rate of 38% for the period compared to income tax expense of approximately \$0.2 million for the quarter ended March 31, 2012, which reflected an effective tax rate of 30%. For the six months ended March 31, 2013 the Company recorded income tax expense of approximately \$0.6 million reflecting an effective income tax rate of 40% versus income tax expense of \$0.5 million for the six months ended March 31, 2012, which reflected an effective tax rates of 34% .

In assessing the realizability of deferred tax assets, we considered our taxable future earnings and the expected timing of the reversal of temporary differences. Accordingly, we have recorded a valuation allowance which reduces the gross deferred tax asset to an amount that we believe will more likely than not be realized. We maintained a substantial valuation allowance against our United Kingdom deferred tax assets as we have experienced cumulative losses and do not have any indication that the operation will be profitable in the future to an extent that will allow us to utilize much of our net operating loss carryforwards. To the extent that actual experience deviates from our assumptions, our projections would be affected and hence our assessment of realizability of our deferred tax assets may change.

Liquidity and Capital Resources

Our primary source of liquidity is our cash and cash equivalents, which decreased by \$5.2 million to \$15.3 million as of March 31, 2013 from \$20.5 million as of September 30, 2012. At March 31, 2013, cash equivalents consisted of money market funds which totaled \$3.5 million.

Significant uses of cash for the six months ended March 31, 2013 included an increase in accounts receivable of approximately \$8.3 million, payment of dividends of approximately \$0.7 million and an increase in other assets of approximately \$0.8 million. Significant sources of cash included net income of approximately \$0.9 million, collection of officer's life insurance receivable of approximately \$2.2 million and reduction in inventories of approximately \$1.7 million.

Cash held by our foreign subsidiaries located in Germany and the United Kingdom totaled approximately \$5.1 million as of March 31, 2013 and \$9.8 million as of September 30, 2012. This cash is included in our total cash and cash equivalents reported above. We consider this cash to be permanently reinvested into these foreign locations because repatriating it would result in unfavorable tax consequences. Consequently, it is not available for activities that would require it to be repatriated to the U.S.

If cash generated from operations is insufficient to satisfy working capital requirements, we may need to access funds through bank loans or other means. There is no assurance that we will be able to raise any such capital on terms acceptable to us, on a timely basis or at all. If we are unable to secure additional financing, we may not be able to complete development or enhancement of products, take advantage of future opportunities, respond to competition or continue to effectively operate our business.

Based on our current plans and business conditions, management believes that the Company's available cash and cash equivalents, the cash generated from operations and availability on our lines of credit will be sufficient to provide for the Company's working capital and capital expenditure requirements for the foreseeable future.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2013. Our chief executive officer, our chief financial officer, and other members of our senior management team supervised and participated in this evaluation. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company’s management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based on the evaluation of our disclosure controls and procedures as of March 31, 2013, the Company’s chief executive officer and chief financial officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Controls over Financial Reporting

During the period covered by this report, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
