Narrative disclosure to summary compensation table

The Compensation Committee (the "Committee") of our Board of Directors generally has the responsibility of administering our executive compensation program. On occasion, the full Board takes such responsibility. The Committee reviews and, as appropriate, makes recommendations to the full Board regarding the base salaries and annual cash bonuses for executive officers, and administers our Stock Incentive Plans, including the grants of stock options.

Compensation philosophy and objectives

Our principal executive compensation policy, which is endorsed by the Committee, is to provide a compensation program that will attract, motivate and retain persons of high quality and will support a long-standing internal culture of loyalty and dedication to the interests of the Company and our stockholders. In administering the executive compensation program, the Committee is mindful of the following principles and guidelines, which are supported by the full Board:

Base salaries for executive officers should be competitive.

A sufficient portion of annual compensation should be at risk in order to align the interests of executives with those of our stockholders.

The variable part of annual compensation should reflect both individual and corporate performance.

As a person's level of responsibility increases, a greater portion of total compensation should be at risk and include more stock-based compensation to provide executives long-term incentives, and help to align further the interests of executives and stockholders in the enhancement of stockholder value.

Executive officer compensation has three primary components: base salary, bonuses granted under our bonus incentive plan, and stock-based awards granted pursuant to our 2014 Stock Incentive Plan. In addition, executive officers receive certain benefits that are generally available to all salaried employees. We do not have any defined benefit pension plans, non-qualified deferred compensation arrangements, or supplemental retirement plans for our

executive officers.

For each executive officer, the Committee determines the appropriate level for each compensation component based in part, but not exclusively, on its view of competitive market factors, internal equity and consistency, and other considerations deemed relevant, such as rewarding extraordinary performance. Our Executive Chairman and Chief Executive Officer provide the Committee with recommendations for executive officers other than himself, which the Committee reviews and approves for submission to the Board of Directors as submitted or with revisions, if any. We have not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid compensation, between cash and non-cash compensation, or among different forms of non-cash compensation, and have not sought to formally benchmark our compensation against that of our peers.

Base salary

Salaries for executive officers are based on a review of salaries for similar positions requiring similar qualifications in similar industries. In recommending executive officer salaries, the Compensation Committee has approved the use by management of information from salary surveys.

The Committee determines executive officer base salaries so as to be competitive with amounts paid to executives performing similar functions in comparable-size, non-durable manufacturing companies. The amount of each executive's annual increase in base salary, if any, is based on a number of largely subjective factors, including changes in the individual's duties and responsibilities, the personal performance of such executive officer, the performance of the Company, cost-of-living increases, and such other factors as the Committee deems appropriate, including the individual's overall mix between fixed and variable compensation and between cash and stock-based compensation.

The Executive Chairman and Chief Executive Officer annually assesses the performance of all other executive officers and recommends salary increases to the Committee based on a number of factors such as performance evaluations, comparative data and other relevant factors. The Committee then reviews the Executive Chairman and Chief Executive Officer's recommendations, considers Company performance and financial condition, and approves, or recommends to the Board of Directors for approval, the increases for any other officer of the Company.

In 2014, the Committee engaged a compensation consultant in connection with its evaluation of Mr. Tu's compensation program and reviewed a market analysis for base, variable, and long term compensation. Based upon this analysis, Mr. Tu's annual base salary was increased from \$120,000 to \$250,000 effective January 1, 2014. In 2013, Mr. Hilliard's annual base salary was increased from \$180,000 to \$200,000 upon his appointment to President and Chief Operating Officer effective April 30, 2013, and Mr. Lamanna's annual base salary was increased to \$150,000 upon his appointment to Chief Financial Officer effective July 8, 2013.

In May of 2009, the Company's executive officers at that time agreed to accept 10 percent voluntary salary reductions for the remainder of the 2009 calendar year in exchange for a restricted stock grant. The salary reductions were extended through December 31, 2010. The number of restricted shares of common stock issued to each executive officer was equal to the dollar value of the individual's salary reduction divided by the closing price per share of our common stock on May 29, 2009, December 30, 2009, and January 3, 2011. Mr. Hilliard received 4,251 of such restricted shares of common stock. Pursuant to the terms of the restricted stock grants, Mr. Hilliard's restricted shares of common stock vested effective May 23, 2014 when the closing stock price of our common stock was \$5.70 per share. The value of this common stock is not included in the Summary compensation table in 2014, as the value of such grants was included in the respective period of the grant.

Bonus incentive plan

In 2013, there was no bonus incentive plan in place.

For 2014, a bonus incentive plan was established for all employees, including executive management. Mr. Tu was eligible for an incentive payment of up to 50 percent of his 2014 salary, to be determined by the Board of Directors based upon the financial results of 2014, as well as Mr. Tu's individual performance for the year. Mr. Hilliard was eligible for an incentive payment of up to 50 percent of his 2014 salary, with 70 percent based on net income of the government products/R&D services business and 30 percent based on the Company's total net operating income relative to the 2014 operating plan, as well as Mr. Hilliard's individual performance for the year. Mr. Lamanna was eligible for a bonus payout of up to 25 percent of his 2014 salary. His bonus was based upon the Company's net operating income relative to its 2014 operating plan, as well as his individual performance based upon his established key performance indicators.

On March 9, 2015, the Board approved bonus payments of \$125,000, or approximately 50 percent of salary, for Mr. Tu and \$90,000, or 45 percent of salary, for Mr. Hilliard for 2014, which took into account the factors set forth in the Company's bonus incentive plan as described above.

Discretionary bonuses

The Committee may from time to time award a discretionary annual cash bonus to executive officers, in the amounts and based on the factors determined by the Committee. The bonus awards may be based on an executive officer's individual performance or on the overall success of the Company, or both.

For 2013, Mr. Tu received an \$80,000 discretionary bonus in recognition of his strong leadership during the year in establishing a clear mission, vision, and values for the Company. Mr. Lamanna received a \$20,000 discretionary bonus for playing an instrumental role in the sale of the pool product line in November 2013.

Stock options

The Committee believes that employee equity ownership provides significant motivation to executive officers to maximize value for the Company's stockholders and, therefore; periodically grants time-based stock options under the Company's Stock Incentive Plans at the then current market price. On May 6, 2014, the Board approved the Energy Focus, Inc. 2014 Stock Incentive Plan (the "2014 Plan"). The 2014 Plan was approved by the stockholders at our annual meeting on July 15, 2014, after which no further awards could be issued under the Energy Focus, Inc. 2008 Incentive Stock Plan (the "2008 Plan"). The Compensation Committee administers both stock incentive plans. Stock options will only have value if the Company's stock price increases over the exercise price.

The Compensation Committee grants options to executive officers after consideration of recommendations from the Executive Chairman and Chief Executive Officer. Recommendations for options are based upon the relative position, responsibilities, and previous and expected contributions of each officer, previous option grants to such officers and customary levels of option grants for the respective position in other comparable companies. The exercise price for stock options is equal to the fair market value of our common stock on the grant date. Stock options generally vest over a four-year period with 25 percent vesting one year from the date of grant and the remaining 75 percent vesting equally on a monthly basis over the remaining 36 months, or over a three-year period with 33 percent vesting one year from the date of grant and the remaining 67 percent vesting equally on a monthly basis over the remaining 24 months. Options expire 10 years from the date of grant. Generally, upon a Change in Control (as defined in the 2008 Plan), all stock options granted will immediately vest, and all restrictions on restricted shares granted to the Company's employees and independent directors will lapse. Under the 2014 Plan, upon a Change of Control (as defined in such plan) all outstanding unvested stock options become fully vested and exercisable if not assumed, or substituted with a new award, by the successor to the Company and, if such awards are assumed or substituted by the successor to the Company, they become fully exercisable and vested if the option holder's employment is terminated (other than a termination for cause) within two years following a Change of Control. If an option holder's employment is terminated

within two years after a Change of Control for any reason other than death, retirement, disability or termination for cause, each outstanding stock option that is vested following such termination will remain exercisable until the earlier of the third anniversary of termination or the expiration of the term of the stock option.

Section 162(m)

Section 162(m) of the Internal Revenue Code (“IRC Sec. 162(m)”) generally disallows a tax deduction to public corporations for compensation in excess of \$1 million paid to a company’s Chief Executive Officer, or to any of the company’s other three most highly compensated executive officers (other than the Chief Financial Officer), for any fiscal year. IRC Sec. 162(m) generally exempts qualifying performance-based compensation from the deduction limit if certain conditions are met. In determining base salary, benefits, perquisites and other compensation, the Committee considers tax deductibility. However, a more important goal of the Committee is to offer compensation that is competitive within our peer group. For 2014, we believe the compensation paid to each of our named executive officers is fully deductible under IRC Sec. 162(m).

Employment agreements with named executive officers

We do not have employment agreements with any of our current executive officers.

Compensation of directors

We use a combination of cash and stock-based awards to attract and retain qualified candidates to serve on our Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties, as well as the skill level required.

The following table sets forth the annual cash compensation for non-employee directors:

Annual Retainer	\$20,000
Additional Annual Retainers:	
Compensation Committee Chairman	5,000
Audit and Finance Committee Chairman	7,000

Under the terms of our 2008 Plan, on the first business day following the conclusion of each regular annual meeting of the Company's stockholders, each non-employee director who was not elected to the Board for the first time at such meeting and who will continue serving as a member of the Board of Directors received an option to purchase 1,500 shares of common stock. These options have an exercise price equal to the fair market value of the stock on the date of grant, become exercisable monthly over the 12-month period following the date of grant, and expire the day before the tenth anniversary of the grant date or 12 months after termination of service on the Board. The 2014 Plan does not contain an automatic grant provision for non-employee directors; however, the Board of Directors unanimously approved a resolution on July 15, 2014 to provide for an automatic grant on the first business day following the conclusion of each regular annual meeting of the Company's stockholders for each non-employee director who was not elected to the Board for the first time at such meeting and who will continue serving as a member of the Board of Director. The option is granted for 5,000 shares for each eligible director, has an exercise price equal to the fair market value of the stock on the date of grant, becomes exercisable monthly over the 12-month period following the date of grant, and expires the day before the tenth anniversary of the grant date or 12 months after termination of service on the Board. The options under both plans vest if a Change in Control occurs with respect to the Company during the optionee's service, as defined by the applicable plan. The Board, at its discretion, may grant options to newly elected directors and additional grants to other directors.

The following table summarizes the total compensation paid to non-employee directors for the year ended December 31, 2014:
