Notes to Financial Statements

December 31, 2015 and 2014

(1) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(c) Custodian of Investments

TD Ameritrade Trust Corporation is the trustee and custodian of all Plan assets.

(d) Plan Administration

Home Federal Savings Bank (the Company) is the administrator of the Plan. Alliance Benefit Group (ABG) performs the participant accounting.

(e) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

(f) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(g) Benefits

Benefits are recorded when paid.

(1) Summary of Significant Accounting Policies (Continued)

(h) Change in Accounting Policy

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. The ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The ASU is effective for public business entities for fiscal years beginning after December 15, 2015, and all other entities for fiscal years beginning after December 15, 2016, with early adoption permitted. The ASU is retrospectively applied. The Plan has elected to early adopt the ASU.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured at fair value. Plans will continue to disaggregate investments that are measured at fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements should be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt Parts I and II.

(i) Subsequent Events

There were no subsequent events requiring adjustment to the financial statements or disclosure through June 15, 2016, the date that the Plan's financial statements were issued.

(2) Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for more complete information.

(a) General

The Plan is a defined contribution plan, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan includes 401(k) provisions, which allow participants to direct the Company to contribute a portion of their compensation to the Plan on a pretax and Roth basis through payroll deductions. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Company employees who have attained the age of 18 are eligible to participate in the Plan, subject to entry dates. However, part-time, temporary, or seasonal employees (employees whose regularly scheduled service is less than 1,000 hours of service per computation period); leased employees; and reclassified employees are not entitled to participate in the Plan.

(b) Funding Policy

Participants have the ability to contribute up to 50% of their monthly compensation on a pretax and Roth basis to the Plan. Participant contributions are subject to the Internal Revenue Service (IRS) maximum annual limits of \$18,000 and \$17,500 during 2015 and 2014, respectively. The Company matches 25% of each participant's contribution not in excess of 8% of the participant's annual salary. Participants over the age of 50 were allowed to contribute an additional \$6,000 and \$5,500 as a "catch-up" contribution during 2015 and 2014, respectively, as allowed by current tax law.

The Company may, in its sole discretion, contribute to the Plan an amount to be determined from year to year (the Non-Elective Contribution). Such contributions would be allocated to the accounts of participants in the ratio that each participant's compensation for the plan year bears to the total compensation of all participants for the plan year. There were no such contributions during 2015 or 2014.

New employees are automatically enrolled in the Plan on the first of the month following 30 days of employment unless the employee elects not to participate (Automatic Enrollment Provision). Automatic contributions for these new employees are initially deducted at a rate of 4% of the employee's compensation and are increased in 1% increments on January 1 of each year up to a maximum total contribution of 12%. The Company matches 25% of these automatic contributions not in excess of 8% of the participant's annual salary. The employee has the right at any time to decline participation in the Plan or change the amount of the automatic contribution up to the maximum allowed 50% of their monthly compensation.

The Plan allows for rollover contributions to be made to the Plan by eligible participants. These rollover contributions are eligible distributions from other tax-qualified plans or individual retirement accounts or annuities that participants elect to have invested in the Plan either by a direct rollover to the Plan or by a distribution followed by a contribution within sixty days of receipt.

(2) Description of the Plan (Continued)

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant contributions or account balances, as defined. Participants may elect to have their contributions invested in the funds listed in the Plan's provisions as they choose and may generally also transfer their balances daily among these funds.

(d) Vesting

Participants are immediately vested in their contributions and the actual earnings thereon.

Employer contributions are subject to a three-year cliff vesting.

Forfeited amounts totaled \$5,387 and \$8,418 for 2015 and 2014, respectively, which will be used to reduce future employer match obligations or plan fees. Forfeitures of \$9,173 and \$26,333 were used to reduce current year employer contributions for 2015 and 2014, respectively.

(e) Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years, except loans used to purchase a primary residence, which may have a term up to 15 years. All loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate or prime rate plus 1%. Principal and interest payments must be made monthly.

SAVINGS AND PROFIT SHARING PLAN**

(2) Description of the Plan (Continued)

(g) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, changes in the values of investment securities will occur in the near term that could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

At December 31, 2015 and 2014, approximately 4% and 5% of the Plan's net assets were invested in the common stock of HMN Financial, Inc, respectively. The underlying value of the HMN Financial, Inc. common stock is entirely dependent upon the performance of HMN Financial, Inc. and the market's evaluation of such performance. It is at least reasonably possible that changes in the fair value of HMN Financial, Inc. common stock in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

(h) Distributions

Upon termination of employment for any reason, the vested portion of the participant's account balance becomes fully payable. Distributions are paid in cash in either one lump sum or under installments.

(i) Participating Employers

The Company is a member of a controlled group of corporations as defined in Section 414(b) of the IRC. All members of the controlled group participated in the Plan.

(j) Costs and Expenses

Asset management fees ranging between 9 and 137 basis points are assessed annually on average net asset values and are deducted from the individual funds. In addition, accounting and administrative fees totaling \$16,074 and \$16,534 were paid in 2015 and 2014, respectively.

(3) Plan Termination

The Company, by action of its board of directors, may terminate the Plan. All participants at the time of such termination shall be 100% vested in their account balances and shall be entitled to a benefit equal to the value of their accounts as determined as of the valuation date following termination.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets
- b. Quoted prices for identical or similar assets or liabilities in inactive markets
- c. Inputs other than quoted prices that are observable for the asset or liability
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs that are unobservable inputs for the asset or liability.

Valuation levels are not necessarily an indication of the risk associated with investing in those securities.

The following is a description of the valuation methodologies used for assets held and carried at fair value:

Cash equivalents – Valued at stated value, which approximates fair value.

Stable value collective trust fund – A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

(4) Fair Value Measurements (Continued)

Common stock – Valued daily based on unadjusted quoted prices from national exchanges.

Mutual funds – Valued daily based on unadjusted quoted prices from national exchanges and commonly used third-party services.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Cash equivalents	\$20,482	—	—	\$20,482

Mutual funds	12,587,608	—	—	12,587,608
Total assets in the fair value hierarchy	13,345,577	—	—	13,345,577
Investments measured at net asset value ^(a)	—	—	—	1,059,021
Investments measured at fair value	\$13,345,577	—	—	\$14,404,598

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

SAVINGS AND PROFIT SHARING PLAN**

Notes to Financial Statements

December 31, 2015 and 2014

(4) Fair Value Measurements (Continued)

For the years ended December 31, 2015 and 2014, the Plan held no assets in which significant unobservable inputs (Level 3) were used in determining fair value. The Plan did not have any transfers between Levels 1 and 2 during the periods.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014, respectively. There are not participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	\$977,684	n/a	Daily	12 months

December 31,	Fair Value	Unfunded	Redemption	Redemption

2014	Commitments	Frequency	Notice Period
		(if Currently Eligible)	
Stable value			
collective trust	\$1,059,021 n/a	Daily	12 months
fund			

(5) Income Tax Status

The Company adopted a Volume Submitter Profit Sharing Plan with CODA which received a favorable opinion letter from the Internal Revenue Service on September 30, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since relying on the volume submitter opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Notes to Financial Statements

December 31, 2015 and 2014

(6) Party in Interest Transactions

The Plan engages in investment transactions involving the acquisition or disposition of HMN Financial, Inc. common stock. HMN Financial, Inc. is the holding company of Home Federal Savings Bank and is a party in interest. Also, certain Plan investments are shares of mutual funds managed by TD Ameritrade. TD Ameritrade is the trustee of the Plan as defined by the Summary Plan Document and is a party in interest. In addition, certain Plan investments are shares of mutual funds managed by ABG. ABG is appointed as the third-party record-keeper of the Plan as defined by the Summary Plan Document and is a party in interest. These transactions are covered by an exemption from the “prohibited transactions” provisions of ERISA and the IRC.

(7) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 and 2014 to Form 5500:

	2015	2014
