Note 1 - Organization and Summary of Significant Accounting Policies:

Value Line, Inc. ("Value Line" or "VLI", and collectively with its subsidiaries, the "Company") is incorporated in the State of New York. The name "Value Line" as used to describe the Company, its products, and its subsidiaries, is a registered trademark of the Company. The Company's primary business is producing investment periodicals and related publications and making available copyright data including certain Value Line trademarks and Value Line Proprietary Ranking System information to *third* parties under written agreements for use in *third* party managed and marketed investment products. The Company maintains a significant investment in the EULAV Asset Management LLC ("EAM") from which it received a non-voting revenues interest and a non-voting profits interest. EAM was established to provide investment management services to the Value Line Mutual Funds ("Value Line Funds" or the "Funds").

The Consolidated Condensed Balance Sheets as of *July 31, 2018* and *April 30, 2018*, which have been derived from the unaudited interim Consolidated Condensed Financial Statements and the audited Consolidated Financial Statements, respectively, were prepared following the interim reporting requirements of the Securities and Exchange Commission ("SEC"). In the opinion of management, the accompanying Unaudited Interim Consolidated Condensed Financial Statements contain all adjustments (consisting of normal recurring accruals except as noted below) considered necessary for a fair presentation. This report should be read in conjunction with the audited financial statements and footnotes contained in the Company's Annual Report on Form *10-K* for the fiscal year ended *April 30, 2018* filed with the SEC on *July 26, 2018* (the "Form *10-K*"). Results of operations covered by this report *may not* be indicative of the results of operations for the entire year.

Use of Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results *may* differ from those estimates.

Principles of Consolidation:

The Company follows the guidance in the Financial Accounting Standards Board's ("FASB") Topic *810* "Consolidation" to determine if it should consolidate its investment in a variable interest entity ("VIE"). A VIE is a legal entity in which either (i) equity investors do *not* have sufficient equity investment at risk to enable the entity to finance its activities independently or (ii) the equity holders at risk lack the obligation to absorb losses, the right to receive residual returns or the right to make decisions about the entity's activities that most significantly affect the entity's economic performance. A holder of a variable interest in a VIE is required to consolidate the entity if it is determined

that it has a controlling financial interest in the VIE and is therefore the primary beneficiary. The determination of a controlling financial interest in a VIE is based on a qualitative assessment to identify the variable interest holder, if any, that has (i) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance, and (ii) either the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the VIE. The accounting guidance requires the Company to perform an ongoing assessment of whether the Company is the primary beneficiary of a VIE and the Company has determined it is *not* the primary beneficiary of a VIE (see Note 3).

In accordance with FASB's Topic 810, the assets, liabilities, and results of operations of subsidiaries in which the Company has a controlling interest have been consolidated. All significant intercompany accounts and transactions have been eliminated in consolidation. On *December 23, 2010*, the Company completed the Restructuring Transaction and deconsolidated the related affiliates in accordance with FASB's Topic 810. As part of the Restructuring Transaction, the Company received a significant non-voting revenues interest (excluding distribution revenues) and a significant non-voting profits interest in the new entity, EULAV Asset Management, a Delaware statutory trust ("EAM" or "EAM Trust"). The Company relied on the guidance in FASB's ASC Topics 323 and 810 in its determination *not* to consolidate its investment in EAM and to account for such investment under the equity method of accounting. The Company reports the amount it receives for its non-voting revenues and non-voting profits interests as a separate line item below operating income in the Consolidated Condensed Statements of Income.

Revenue Recognition:

Depending upon the product, subscription fulfillment for Value Line periodicals and related publications is available in print or digitally, via internet access. The length of a subscription varies by product and offer received by the subscriber. Generally, subscriptions are offered as annual subscriptions. Subscription revenues, net of discounts, are recognized ratably on a straight line basis when the product is served to the client over the life of the subscription. Accordingly, the amount of subscription fees to be earned by fulfilling subscriptions after the date of the balance sheets are shown as unearned revenue within current and long-term liabilities.

Copyright data revenues are derived from providing certain Value Line trademarks and the Value Line Proprietary Ranking System information to *third* parties under written agreements for use in selecting securities for *third* party marketed products, including unit investment trusts, annuities and exchange traded funds ("ETFs"). The Company earns asset-based copyright data fees as specified in the individual agreements. Revenue is recognized monthly over the term of the agreement and, because it is asset-based, will fluctuate as the market value of the underlying portfolio increases or decreases in value.

Investment in Unconsolidated Entities:

The Company accounts for its investment in its unconsolidated entity, EAM, using the equity method of accounting in accordance with FASB's ASC 323. The equity method is an appropriate means of recognizing increases or decreases measured by GAAP in the economic resources underlying the investments. Under the equity method, an investor recognizes its share of the earnings or losses of an investee in the periods for which they are reported by the investee in its financial statements rather than in the period in which an investee declares a dividend or distribution. An investor adjusts the carrying amount of an investment for its share of the earnings or losses recognized by the investee.

The Company's "interests" in EAM, the investment adviser to and the sole member of the distributor of the Value Line Funds, consist of a "non-voting revenues interest" and a "non-voting profits interest" in EAM as defined in the EAM Trust Agreement. The non-voting revenues interest entitles the Company to receive a range of 41% to 55%, based on the amount of EAM's adjusted gross revenues, excluding EULAV Securities' distribution revenues ("Revenues Interest"). The non-voting profits interest entitles the Company to receive 50% of EAM's profits, subject to certain limited adjustments as defined in the EAM Trust Agreement ("Profits Interest"). The Revenues Interest and at least 90% of the Profits Interest are to be distributed each quarter to all interest holders of EAM, including Value Line. Subsequent to the Restructuring Date, the Company's Revenues Interest in EAM excludes participation in the service and distribution fees of EAM's subsidiary EULAV Securities. The Company reflects its non-voting revenues and non-voting profits interests in EAM as non-operating income under the equity method of accounting subsequent to the Restructuring Transaction. Although the Company does *not* have control over the operating and financial policies of EAM, pursuant to the EAM Trust Agreement, the Company has a contractual right to receive its share of EAM's revenues and profits.

Recent Accounting Pronouncements:

In *February 2016*, the FASB issued ASU 2016-02, Leases (Topic 842) ("ASU 2016-02"). The core principle of Topic 842 requires that a lessee should recognize the assets and liabilities on the balance sheet and disclose key information about leasing arrangements. The amendments in ASU 2016-2 are effective for fiscal years beginning after *December 15, 2018*, including interim periods within those fiscal years. The guidance is required to be adopted at the earliest period presented using a modified retrospective approach. The adoption of ASU 2016-02 will *not* have a material impact on our consolidated condensed financial statements and related disclosures.

In *August 2016*, the FASB issued Accounting Standards Update No. 2016-15, Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force) ("ASU 2016-15"). The amendments in ASU 2016-15 address *eight* specific cash flow issues and apply to all entities that are required to present a statement of cash flows under ASC Topic 230, Statement of Cash Flows. The amendments in ASU 2016-15 are effective for public business entities for fiscal years beginning after *December 15, 2017*, and interim periods within those fiscal years. The Company has adopted ASU 2016-15 in the *first* quarter of fiscal 2019. As a result, it has reclassified, within the Consolidated Condensed Statement of Cash Flows, \$2.3 million and \$2.1 million, for the *three* months ended *July 31, 2018* and *July 31, 2017*, respectively, of EAM non-voting revenues interest and profits interest, from operating activities to investing activities.

In *May 2014*, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)", which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. In addition,

ASU No. 2014-09 requires disclosures of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. ASU No. 2014-09 supersedes most existing U.S. GAAP revenue recognition principles, and it permits the use of either the retrospective or cumulative effect transition method. ASU No. 2014-09 is effective for annual reporting periods beginning after *December 15, 2017*, including interim periods within those annual periods. The Company has adopted ASU No. 2014-09 in the *first* quarter of fiscal 2019, which does *not* have a material impact on the Company's consolidated condensed financial statements and related disclosures.

In *November 2016*, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)". This ASU requires that the reconciliation of the beginning-of-period and end-of-period amounts shown in the statement of cash flows include cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. ASU No. 2016-18 is effective for annual reporting periods beginning after *December 15, 2017*, including interim periods within those annual periods. The Company has adopted ASU No. 2016-18 in the *first* quarter of fiscal 2019, which does *not* have a material impact on the Company's consolidated condensed financial statements and related disclosures.

On *June 21, 2018*, the United States Supreme Court reversed the 1992 ruling in *Quill*, which protected firms mailing items by common carrier into a state where it had *no* physical presence from having to collect sales tax in such state. The Company is evaluating the impact of the 2018 ruling (*South Dakota vs. Wayfair*) on its operations.

Valuation of Securities:

The Company's securities classified as cash equivalents and available-for-sale consist of shares of money market funds that invest primarily in short-term U.S. Government securities and investments in equities including ETFs and are valued in accordance with the requirements of the Fair Value Measurements Topic of the FASB's ASC 820. The securities classified as available-for-sale reflected in the Consolidated Condensed Balance Sheets are valued at market and unrealized gains and losses, net of applicable taxes, are reported as a separate component of shareholders' equity. Realized gains and losses on sales of the securities classified as available-for-sale are recorded in earnings as of the trade date and are determined on the identified cost method.

The Company classifies its securities available-for-sale as current assets to properly reflect its liquidity and to recognize the fact that it has liquid assets available-for-sale should the need arise.

Market valuations of securities listed on a securities exchange and ETF shares are based on the closing sales prices on the last business day of each month. The market value of the Company's fixed maturity U.S. Government debt securities is determined utilizing publicly quoted market prices. Cash equivalents consist of investments in money market funds that invest primarily in U.S. Government securities valued in accordance with rule 2a-7 under the 1940 Act.

The Fair Value Measurements Topic of FASB's ASC defines fair value as the price that the Company would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market for the investment. The Fair Value Measurements Topic established a *three*-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the information that market participants would use in pricing the asset or liability, including assumptions about risk. Examples of risks include those inherent in a particular valuation technique used to measure fair value such as the risk inherent in the inputs to the valuation technique. Inputs are classified as observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the factors market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The *three*-tier hierarchy of inputs is summarized in the *three* broad levels listed below.

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Company’s own assumptions in determining the fair value of investments)

The following summarizes the levels of fair value measurements of the Company’s investments:

(\$ in thousands)	As of July 31, 2018			
	Level 1	Level 2	Level 3	Total
Cash equivalents	\$4,084	\$ -	\$ -	\$4,084
Securities available-for-sale	18,870	-	-	18,870
	\$22,954	\$ -	\$ -	\$22,954

(\$ in thousands)	As of April 30, 2018			
	Level 1	Level 2	Level 3	Total
Cash equivalents	\$4,982	\$ -	\$ -	\$4,982
Securities available-for-sale	17,844	-	-	17,844
	\$22,826	\$ -	\$ -	\$22,826

The Company had *no* other financial instruments such as futures, forwards and swap contracts. For the periods ended *July 31, 2018* and *April 30, 2018*, there were *no* Level 2 nor Level 3 investments. The Company does *not* have any liabilities subject to fair value measurement.

Advertising expenses:

The Company expenses advertising costs as incurred.

Income Taxes:

The Company computes its income tax provision in accordance with the Income Tax Topic of the FASB's ASC. Deferred tax liabilities and assets are recognized for the expected future tax consequences of events that have been reflected in the Consolidated Financial Statements. Deferred tax liabilities and assets are determined based on the differences between the book values and the tax bases of particular assets and liabilities, using tax rates currently in effect for the years in which the differences are expected to reverse. The Company adopted the provisions of ASU 2015-17, Income taxes (Topic 740) during the *first* quarter of fiscal 2018 and continues to classify all deferred taxes as long-term liabilities on the Consolidated Condensed Balance Sheets.

The Income Tax Topic of the FASB's ASC establishes for all entities, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. As of *July 31, 2018*, management has reviewed the tax positions for the years still subject to tax audit under the statute of limitations, evaluated the implications, and determined that there is *no* material impact to the Company's financial statements.

Earnings per share:

Earnings per share are based on the weighted average number of shares of common stock and common stock equivalents outstanding during each period. Any shares that are reacquired during the period are weighted for the portion of the period that they are outstanding. The Company does *not* have any potentially dilutive common shares from outstanding stock options, warrants, restricted stock, or restricted stock units.

Cash and Cash Equivalents:

For purposes of the Consolidated Condensed Statements of Cash Flows, the Company considers all cash held at banks and short term liquid investments with an original maturity of less than *three* months to be cash and cash equivalents. As of *July 31, 2018* and *April 30, 2018*, cash equivalents included \$4,084,000 and \$4,982,000, respectively, for amounts invested in money market mutual funds that invest in short term U.S. government securities.

Note 2 - Investments:

Securities Available-for-Sale:

Investments held by the Company and its subsidiaries are classified as securities available-for-sale in accordance with FASB's ASC 320, Investments - Debt and Equity Securities. All of the Company's securities classified as available-for-sale were readily marketable or had a maturity of *twelve* months or less and are classified as current assets on the Consolidated Condensed Balance Sheets.

Equity Securities:

Equity securities classified as available-for-sale on the Consolidated Condensed Balance Sheets, consist of ETFs held for dividend yield that attempt to replicate the performance of certain equity indexes and ETFs that hold preferred shares primarily of financial institutions.

As of *July 31, 2018* and *April 30, 2018*, the aggregate cost of the equity securities classified as available-for-sale, which consist of investments in the SPDR Series Trust S&P Dividend ETF (SDY), First Trust Value Line Dividend Index ETF (FVD), INVESCO Financial Preferred ETF (PGF), Select Utilities Select Sector SPDR ETF (XLU), First Trust Value Line 100 ETF (FVL) and Proshares Trust S&P 500 Dividend Aristocrats ETF (NOBL) was \$8,385,000, and the fair value was \$9,917,000 and \$9,379,000, respectively.

There were *no* sales or proceeds from sales of equity securities during the *three* months ended *July 31, 2018* or *July 31, 2017*. The increase in gross unrealized gains on equity securities classified as available-for-sale of \$538,000, net of deferred taxes of \$113,000 was included in Shareholders' Equity on the Consolidated Condensed Balance Sheet at *July 31, 2018*. The increase in gross unrealized gains on equity securities classified as available-for-sale of \$152,000, net of deferred taxes of \$54,000 was included in Shareholders' Equity on the Consolidated Condensed Balance Sheet at *July 31, 2017*.

The changes in the value of equity securities investments are recorded in Other Comprehensive Income in the Consolidated Condensed Financial Statements. Realized gains and losses are recorded as of the trade date in the Consolidated Condensed Statements of Income when securities are sold, mature or are redeemed. As of *July 31, 2018* and *April 30, 2018*, accumulated other comprehensive income included unrealized gains of \$1,532,000 and \$994,000, net of deferred taxes of \$322,000 and \$209,000, respectively.

The carrying value and fair value of securities available-for-sale at *July 31, 2018* were as follows:

Equity Method Investment:

As of *July 31, 2018* and *April 30, 2018*, the Company's investment in EAM Trust, on the Consolidated Condensed Balance Sheets was *\$58,331,000* and *\$58,233,000*, respectively.

The value of VLI's investment in EAM at *July 31, 2018* and *April 30, 2018* reflects the fair value of contributed capital of *\$55,805,000* at inception which included *\$5,820,000* of cash and liquid securities in excess of working capital requirements contributed to EAM's capital account by VLI, plus VLI's share of non-voting revenues and non-voting profits from EAM less distributions, made quarterly to VLI by EAM, during the period subsequent to its initial investment through the dates of the Consolidated Condensed Balance Sheets.

It is anticipated that EAM will have sufficient liquidity and earn enough profit to conduct its current and future operations so the management of EAM will *not* need additional funding.

The Company monitors its Investment in EAM Trust for impairment to determine whether an event or change in circumstances has occurred that *may* have a significant adverse effect on the fair value of the investment. Impairment indicators of an impairment could include, but are *not* limited to the following: (a) a significant deterioration in the earnings performance, asset quality, or business prospects of the investee, (b) a significant adverse change in the regulatory, economic, or technological environment of the investee, (c) a significant adverse change in the general market condition of the industry in which the investee operates, or (d) factors that raise significant concerns about the investee's ability to continue as a going concern such as negative cash flows, working capital deficiencies, or noncompliance with statutory capital and regulatory requirements. EAM did *not* record any impairment losses for its assets during the fiscal years 2019 or 2018.

Note 3 - Variable Interest Entity

The Company retained a non-voting revenues interest and a 50% non-voting profits interest in EAM, which was formed, as a result of the Restructuring Transaction on *December 23, 2010*, to carry on the asset management and mutual fund distribution businesses formerly conducted by the Company. EAM is considered to be a VIE. The Company makes its determination for consolidation of EAM as a VIE based on a qualitative assessment of the purpose and design of EAM, the terms and characteristics of the variable interests in EAM, and the risks EAM is designed to originate and pass through to holders of variable interests. Other than EAM, the Company does *not* have an interest in any other VIEs.

The Company has determined that it does *not* have a controlling financial interest in EAM because it does *not* have the power to direct the activities of EAM that most significantly impact its economic performance. Value Line does *not* hold any voting stock of EAM and it does *not* have any involvement in the day-to-day activities or operations of EAM. Although the EAM Trust Agreement provides Value Line with certain consent rights and contains certain restrictive covenants related to the activities of EAM, these are considered to be protective rights and therefore Value Line does *not* maintain control over EAM.

In addition, although EAM is expected to be profitable, there is a risk that it could operate at a loss. While all of the profit interest shareholders in EAM are subject to variability based on EAM's operations risk, Value Line's non-voting revenues interest in EAM is a preferred interest in the revenues of EAM, rather than a profits interest in EAM, and Value Line accordingly believes it is subject to proportionately less risk than other holders of the profits interests.

The Company has *not* provided any explicit or implicit financial or other support to EAM other than what was contractually agreed to in the EAM Trust Agreement. Value Line has *no* obligation to fund EAM in the future and, as a result, has *no* exposure to loss beyond its initial investment and any undistributed revenues and profits interests retained in EAM. The following table presents the total assets of EAM, the maximum exposure to loss due to involvement with EAM, as well as the value of the assets and liabilities the Company has recorded on its Consolidated Condensed Balance Sheets for its interest in EAM.

Note 5 - Employees' Profit Sharing and Savings Plan:

Substantially all employees of the Company and its subsidiaries are members of the Value Line, Inc. Profit Sharing and Savings Plan (the "Plan"). In general, this is a qualified, contributory plan which provides for a discretionary annual Company contribution which is determined by a formula based on the salaries of eligible employees and the amount of consolidated net operating income as defined in the Plan. For the *three* months ended *July 31, 2018* and *July 31, 2017*, the estimated profit sharing plan contributions, which are included as expenses in salaries and employee benefits in the Consolidated Condensed Statements of Income, were \$107,000 in both years.

Note 6 - Comprehensive Income:

The FASB's ASC Comprehensive Income topic requires the reporting of comprehensive income in addition to net income from operations. Comprehensive income is a more inclusive financial reporting methodology that includes disclosure of certain financial information that otherwise would *not* be recognized in the calculation of net income.

As of *July 31, 2018* and *July 31, 2017*, the Company held equity securities consisting primarily of ETFs with high relative dividend yields that are classified as securities available-for-sale on the Consolidated Condensed Balance

Note 7 - Related Party Transactions:

Investment Management (overview):

The Company has substantial non-voting revenues and non-voting profits interests in EAM, the asset manager to the Value Line Mutual Funds. Accordingly, the Company *no* longer reports this operation as a separate business segment, although it still maintains a significant interest in the cash flows generated by this business and will receive non-voting revenues and non-voting profits interests forward, as discussed below.

Total assets in the Value Line Funds managed and/or distributed by EAM at *July 31, 2018*, were \$2.66 billion, 7% above total assets of \$2.49 billion in the Value Line Funds managed and/or distributed by EAM at *July 31, 2017*.

The Company's non-voting revenues and non-voting profits interests in EAM entitle it to receive quarterly distributions in a range of 41% to 55% of EAM's revenues (excluding distribution revenues) from EAM's mutual fund and separate account business and 50% of the residual profits of EAM (subject to temporary increase in certain limited circumstances). The Voting Profits Interest Holders will receive the other 50% of residual profits of EAM. Distribution is *not* less than 90% of EAM's profits payable each fiscal quarter under the provisions of the EAM Trust Agreement. Value Line's percent share of EAM's revenues is calculated each fiscal quarter. The applicable recent non-voting revenues interest percentage for the *first* quarter of fiscal 2019 was 50.3%.

EAM Trust - VLI's non-voting revenues and non-voting profits interests:

The Company holds non-voting revenues and non-voting profits interests in EAM which entitle the Company to receive from EAM an amount ranging from 41% to 55% of EAM's investment management fee revenues from its mutual fund and separate accounts business. EAM currently has *no* separately managed account fees. The Company recorded income from its non-voting revenues interest and its non-voting profits interests in EAM as follows:

	Three Months Ended July 31,	
(\$ in thousands)	2018	2017
Non-voting revenues interest in EAM	\$1,968	\$1,978
Non-voting profits interest in EAM	303	158
	\$2,271	\$2,136

At July 31, 2018, the Company's investment in EAM includes a receivable of \$2,279,000 representing the quarterly distribution of the non-voting revenues share and non-voting profits share.

Transactions with Parent:

During the *three* months ended July 31, 2018 and July 31, 2017, the Company was reimbursed \$73,000 and \$70,000, respectively, for payments it made on behalf of and for services the Company provided to the Parent Company, Arnold Bernhard and Co., Inc. ("Parent"). There were *no* receivables from the Parent on the Consolidated Condensed Balance Sheets at July 31, 2018 and April 30, 2018.

The Company is a party to a tax-sharing arrangement with the Parent which allocates the tax liabilities of the *two* Companies between them. The Company didn't make any federal tax payments to the Parent during the *three* months ended July 31, 2018 or July 31, 2017.

As of *July 31, 2018*, the Parent owned *89.11%* of the outstanding shares of common stock of the Company.

Note 8 - Federal, State and Local Income Taxes:

In accordance with the requirements of the Income Tax Topic of the FASB's ASC, the Company's provision for income taxes includes the following:

(\$ in thousands)	Three Months Ended July 31,	
	2018	2017
Current tax expense:		
Federal	\$734	\$1,319
State and local	88	79
Current tax expense	822	1,398
Deferred tax expense (benefit):		
Federal	-	(186)
State and local	(271)	(30)
Deferred tax expense (benefit):	(271)	(216)
Income tax provision	\$551	\$1,182

On *December 22, 2017* H.R. 1, originally known as the Tax Cuts and Jobs Act, (the "Tax Act") was enacted. The Tax Act lowers the U.S. federal income tax rate ("Federal Tax Rate") from *35%* to *21%* effective *January 1, 2018*. Accordingly, the Company computed Federal income tax expense for the fiscal quarter ended *July 31, 2018*

using the Federal Tax Rate of 21%. The 21% Federal Tax Rate applies to the fiscal year ending *April 30, 2019* and each year thereafter.

The overall effective income tax rates, as a percentage of pre-tax ordinary income for the three months ended July 31, 2018 and July 31, 2017 were 15.07% and 34.80%, respectively. The decline in the overall effective tax rate during the quarter ended July 31, 2018 is primarily a result of a decline in Federal Tax Rate and a decrease in the state and local allocation factors on the deferred tax on the unrealized gain from deconsolidation of EAM. In fiscal 2018 the U.S. statutory federal corporate income tax rate was reduced

from 35% to 21% on the Company's long-term deferred tax liabilities, resulting in a tax benefit of 54.51% of pre-tax income for the *twelve* months ended *April 30, 2018*, primarily attributable to the effect on the long-term deferred tax liability. The Company re-calculated its net deferred tax assets and liabilities using the Federal Tax Rate under the Tax Act. The effect of the re-calculation was reflected entirely in the *third* quarter ended *January 31, 2018* (the period that included the enactment date) and was allocated directly to both current and deferred income tax expenses from continuing operations. The Company's annualized overall effective tax rate fluctuates due to a number of

factors, in addition to the new tax law, including but *not* limited to an increase or decrease in the ratio of items that do *not* have tax consequences to pre-tax income, the Company's geographic profit mix between tax jurisdictions, taxation method adopted by each locality, new interpretations of existing tax laws and rulings and settlements with tax authorities.

Deferred income taxes, a liability, are provided for temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities.

The tax effect of temporary differences giving rise to the Company's long-term deferred tax liability are as follows:

	July 31, 2018	April 30, 2018
(\$ in thousands)		
Federal tax liability (benefit):

Deferred non-cash post-employment compensation	36	(45)
Depreciation and amortization	10	15
Other	(107)	(47)
Total state and local tax liabilities	966	1,222
Deferred tax liability, long-term	\$11,573	\$11,714

At the end of each interim reporting period, the Company estimates the effective income tax rate to apply for the full fiscal year. The Company uses the effective income tax rate determined to provide for income taxes on a year-to-date basis and reflects the tax effect of any tax law changes and certain other discrete events in the period in which they occur.

The provision for income taxes differs from the amount of income tax determined by applying the applicable U.S. statutory income tax rate to pretax income as a result of the following:

	Three Months Ended July 31,	
	2018	2017
U.S. statutory federal tax rate	21.00%	35.00%
Increase (decrease) in tax rate from:		
State and local income taxes, net of federal income tax benefit	-5.70 %	0.73 %
Effect of dividends received deductions	-0.27 %	-0.37 %
Domestic production tax credit	-	-0.65 %
Other, net	0.04 %	0.09 %
Effective income tax rate	15.07%	34.80%

The Company believes that, as of *July 31, 2018*, there were *no* material uncertain tax positions that would require disclosure under GAAP.

The Company is included in the consolidated federal income tax return of the Parent, and files combined income tax returns with the Parent on a unitary basis in certain states. The Company has a tax sharing agreement which requires it to make tax payments to the Parent equal to the Company's liability/(benefit) as if it filed a separate return.

The Company's federal income tax returns (included in the Parent's consolidated returns) and state and city tax returns for fiscal years ended *2014* through *2017*, are subject to examination by the tax authorities, generally for *three* years after they are filed with the tax authorities. The Company is presently engaged in a federal tax audit for the fiscal year ended *April 30, 2015* and does *not* expect it to have a material effect on the financial statements.

The Company has adopted the provisions of the Statement of Position 98-1 (SOP 98-1), "Accounting for the Costs of Computer Software Developed for Internal Use". SOP 98-1 requires companies to capitalize as long-lived assets many of the costs associated with developing or purchasing software for internal use and amortize those costs over the software's estimated useful life in a systematic and rational manner.

The Company did *not* incur and did *not* capitalize expenditures related to the development of software for internal use during the *three* months ended *July 31, 2018* or *July 31, 2017*. Total amortization expenses during the *three* months ended *July 31, 2018* and *July 31, 2017*, were \$44,000 and \$165,000, respectively.

Note 11 - Treasury Stock and Repurchase Program:

On *September 19, 2012*, the Company's Board of Directors approved a share repurchase program authorizing the repurchase of shares of the Company's common stock up to an aggregate purchase price of *\$3,000,000*. The repurchases *may* be made from time to time on the open market at prevailing market prices, in negotiated transactions off the market, in block purchases or otherwise. The repurchase program *may* be suspended or discontinued at any time at the Company's discretion and has *no* set expiration date.

Note 12 - Lease Commitments:

On *November 30, 2016*, Value Line, Inc., received consent from the landlord at 551 Fifth Avenue, New York, NY to the terms of a new sublease agreement between Value Line, Inc. and ABM Industries, Incorporated ("ABM" or the "Sublandlord") commencing on *December 1, 2016*. Pursuant to the agreement Value Line leased from ABM 24,726 square feet of office space located on the *second* and *third* floors at 551 Fifth Avenue, New York, NY ("Building" or "Premises") beginning on *December 1, 2016* and ending on *November 29, 2027*. Base rent under the sublease agreement is *\$1,126,000* per annum during the *first* year with an annual increase in base rent of 2.25% scheduled for each subsequent year, payable in equal monthly installments on the *first* day of each month, subject to customary concessions in the Company's favor and pass-through of certain increases in utility costs and real estate taxes over the base year. The Company provided a security deposit represented by a letter of credit in the amount of *\$469,000* in *October 2016*, which is scheduled to be reduced to *\$305,000* on *September 30, 2021* and fully refunded after the sublease ends. This Building became the Company's new corporate office facility. The Company is required to pay for certain operating expenses associated with the Premises as well as utilities supplied to the Premises. The sublease terms provide for a significant decrease (23% initially) in the Company's annual rental expenditure taking into account free rent for the *first six* months of the sublease. Sublandlord provided Value Line a work allowance of *\$417,000*

which accompanied with the *six* months free rent worth \$563,000 was applied against the Company's obligation to pay rent at our NYC headquarters, delaying the actual rent payments until *November 2017*.

On *February 29, 2016*, the Company's subsidiary VLDC and Seagis Property Group LP (the "Landlord") entered into a lease agreement, pursuant to which VLDC has leased *24,110* square feet of warehouse and appurtenant office space located at *205 Chubb Ave., Lyndhurst, NJ* ("Warehouse") beginning on *May 1, 2016* and ending on *April 30, 2024* ("Lease"). Base rent under the Lease is *\$192,880* per annum payable in equal monthly installments on the *first* day of each month and will gradually increase to *\$237,218* in fiscal *2024*, subject to customary increases based on operating costs and real estate taxes. The Company provided a security deposit in cash in the amount of *\$32,146*, which will be fully refunded after the lease term expires. The lease is a net lease requiring the Company to pay for certain operating expenses associated with the Warehouse as well as utilities supplied to the Warehouse.

The total amount of the base rent payments is being charged to expense on the straight-line method over the term of the lease.

Future minimum payments, exclusive of potential increases in real estate taxes and operating cost escalations, under operating leases for office space, with remaining terms of *one* year or more, are as follows:

Fiscal Years Ended April 30,	(\$ in thousands)
2020	1,399

Cautionary Statement Regarding Forward-Looking Information

This report contains statements that are predictive in nature, depend upon or refer to future events or conditions (including certain projections and business trends) accompanied by such phrases as “believe”, “estimate”, “expect”, “anticipate”, “will”, “intend” and other similar or negative expressions, that are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995, as amended. Actual results for Value Line, Inc. (“Value Line” or “the Company”) may differ materially from those projected as a result of certain risks and uncertainties, including but not limited to the following:

- maintaining revenue from subscriptions for the Company's digital and print published products;
- changes in market and economic conditions, including global financial issues;
- protection of intellectual property rights;
- dependence on non-voting revenues and non-voting profits interests in EULAV Asset Management, a Delaware statutory trust (“EAM” or “EAM Trust”), which serves as the investment advisor to the Value Line Funds and engages in related distribution, marketing and administrative services;
- fluctuations in EAM's assets under management due to broadly based changes in the values of equity and debt securities, redemptions by investors and other factors, and the effect these changes may have on the valuation of EAM's intangible assets;
- generating future revenues or collection of receivables from significant customers;
- dependence on key personnel;
- competition in the fields of publishing, copyright data and investment management;
- the impact of government regulation on the Company's and EAM's businesses;
- availability of free or low cost investment data through discount brokers or generally over the internet;
- terrorist attacks, cyber attacks and natural disasters;
- other risks and uncertainties, including but not limited to the risks described in Item 1A, “Risk Factors” of the Company's Annual Report on Form 10-K for the year ended April 30, 2018 and in Part II, Item 1A of this Quarterly Report on Form 10-Q for the period ended July 31, 2018; and other risks and uncertainties arising from time to time.

These factors are not necessarily all of the important factors that could cause actual results to differ materially from those expressed in any of our forward-looking statements. Other unknown or unpredictable factors which may involve external factors over which we may have no control or changes in our plans, strategies, objectives, expectations or intentions, which may happen at any time at our discretion, could also have material adverse effects on future results. In light of these risks and uncertainties, current plans, anticipated actions, and future financial conditions and results may differ from those expressed in any forward-looking information contained herein.

In this report, “Value Line,” “we,” “us,” “our” refers to Value Line, Inc. and the “Company” refers to Value Line and its subsidiaries unless the context otherwise requires.

Executive Summary of the Business

The Company's core business is producing investment periodicals and their underlying research and making available copyright data, including certain proprietary Ranking System and other proprietary information, to third parties under written agreements for use in third-party managed and marketed investment products and for other purposes. Value Line markets under well-known brands including *Value Line*®, the *Value Line* logo®, *The Value Line Investment Survey*®, *Smart Research*, *Smarter Investing*™ and *The Most Trusted Name in Investment Research*®. The name "Value Line" as used to describe the Company, its products, and its subsidiaries, is a registered trademark of the Company. Effective December 23, 2010, EULAV Asset Management Trust ("EAM") was established to provide the investment management services to the Value Line Funds, institutional and individual accounts and provide distribution, marketing, and administrative services to the Value Line® Mutual Funds ("Value Line Funds"). The Company maintains a significant investment in EAM from which it receives payments in respect of its non-voting revenues and non-voting profits interests.

The Company's target audiences within the investment research field are individual investors, colleges, libraries, and investment management professionals. Individuals come to Value Line for complete research in one package. Institutional licensees consist of corporations, financial professionals, colleges, and municipal libraries. Libraries and universities offer the Company's detailed research to their patrons and students. Investment management professionals use the research and historical information in their day-to-day businesses. The Company has a dedicated department that solicits institutional subscriptions.

Payments received for new and renewal subscriptions and the value of receivables for amounts billed to retail and institutional customers are recorded as unearned revenue until the order is fulfilled. As the orders are fulfilled, the Company recognizes revenue in equal installments over the life of the particular subscription. Accordingly, the subscription fees to be earned by fulfilling subscriptions after the date of a particular balance sheet are shown on that balance sheet as unearned revenue within current and long-term liabilities.

The investment periodicals and related publications (retail and institutional) and fees from copyright data including the proprietary Ranking System information and other proprietary information consolidate into one segment called Publishing.

Asset Management and Mutual Fund Distribution Businesses

The business of EAM is managed by its trustees each owning 20% of the voting profits interest in EAM and by its officers subject to the direction of the trustees. The Company's non-voting revenues and non-voting profits interests in EAM entitle it to receive a range of 41% to 55% of EAM's revenues (excluding distribution revenues) from EAM's mutual fund and separate account business and 50% of the residual profits of EAM (subject to temporary increase in certain limited circumstances). The Voting Profits Interest Holders will receive the other 50% of residual profits of EAM. Distribution is not less than 90% of EAM's profits payable each fiscal quarter under the provisions of the EAM Trust Agreement.

Pursuant to the EAM Declaration of Trust, the Company granted EAM the right to use the Value Line name for all existing Value Line Funds and agreed to supply the Value Line proprietary Ranking System information to EAM without charge or expense.

Business Environment

The economic upturn, which had been an understated affair throughout its long tenure, really hit its stride in the second calendar quarter of this year, with the nation's gross domestic product climbing by an impressive 4.2%. Underpinning this strong outcome were healthy contributions from consumer spending, exports, and nonresidential fixed investment.

Meanwhile, this stellar performance is likely to mark the high point for this venerable business expansion. However, any moderation in growth probably will be gradual and measured, with such strong underlying fundamentals as rising consumer confidence, healthy job growth, and durable levels of business and consumer activity combining to keep growth in the 3.0%-3.5% range for the remainder of this calendar year. Further solid improvement, most likely on the order of 2.5%-3.0%, would seem reasonable to expect in 2019.

This recent buildup in momentum seems likely to continue, in some degree at least, as this decade concludes. Of course, few expansions continue without interruption, and this one figures to be no exception. So, although we do not see a recession on the horizon, at this time, given the absence of excesses on the demand or inflation fronts, there are risks to our forecast that should not be ignored. Key among these would be the failure of fiscal initiatives or monetary policy adjustments to keep the economic ball rolling without inviting major overheating. Other risks would be a breakdown in our business relationships with China and the European Union, or escalating political headwinds at home, which could bring about unwanted fiscal changes.

Results of Operations for the Three Months Ended July 31, 2018 and July 31, 2017

Net income	\$3,104	\$2,215	40.1	%
Earnings per share	\$0.32	\$0.23	39.1	%

During the three months ended July 31, 2018, the Company's net income of \$3,104,000, or \$0.32 per share, was \$889,000 or 40.1% above net income of \$2,215,000, or \$0.23 per share, for the three months ended July 31, 2017. The largest factor in the increase was the January 1, 2018 reduction in the U.S. statutory federal corporate income tax rate from 35% to 21%. Income from operations of \$1,270,000 during the three months ended July 31, 2018 was 9.0% above income from operations of \$1,165,000. During the three months ended July 31, 2018 there were 9,689,334 average common shares outstanding as compared to 9,703,580 average common shares outstanding during the three months ended July 31, 2017.

Total operating revenues

Copyright data fees	1,679	1,474	13.9	%
Total publishing revenues	\$8,971	\$8,914	0.6	%

Within investment periodicals and related publications, subscription sales orders are derived from print and digital products. The following chart illustrates the changes in the sales orders associated with print and digital subscriptions.

Sources of subscription sales

	Three Months Ended July 31,			
	2018		2017	
	Print	Digital	Print	Digital
New Sales	15.8 %	14.9 %	16.2 %	15.9 %
Conversion and Renewal Sales	84.2 %	85.1 %	83.8 %	84.1 %
Total Gross Sales	100.0 %	100.0 %	100.0 %	100.0 %

During the three months ended July 31, 2018 new sales of print and digital publications decreased as a percent of the total gross print and digital sales as a result of a decrease in new sales orders.

(\$ in thousands)	As of July 31,	As of April 30,	As of July 31,	Change	
	2018	2018	2017	July-18 vs.	July-18 vs.
				Apr-18	July-17

Edgar Filing: VALUE LINE INC - Form 10-Q

Unearned subscription revenue (current and long term liabilities)	\$24,129	\$25,525	\$24,845	-5.5%	-2.9	%
---	----------	----------	----------	-------	------	---

Unearned subscription revenue as of July 31, 2018 is 2.9% below July 31, 2017 and is 5.5% below April 30, 2018. The decline from April 30, 2018, reflects both the timing of advertising for order generation and the fact that April 30th is the usual annual peak. A certain amount of variation is to be expected due to the volume of new orders and timing of renewal orders, direct mail campaigns and large Institutional Sales orders.

Investment periodicals and related publications revenues

Investment periodicals and related publications revenues of \$7,292,000 decreased 2.0%, for the three months ended July 31, 2018, as compared to the prior fiscal year. The Company continued its efforts to attract new subscribers through various marketing channels, primarily direct mail, e-mail, and by the efforts of our sales personnel. Total product line circulation at July 31, 2018 was 1.7% below total product line circulation at July 31, 2017. The Company has been successful in growing revenues from investment periodicals within the institutional market.

Total print circulation at July 31, 2018 was 2.6% above total print circulation at July 31, 2017. Print publication revenues of \$3,393,000 decreased 1.9% for the three months ended July 31, 2018 as compared to the prior fiscal year. Total digital circulation at July 31, 2018 was 7.5% below total digital circulation at July 31, 2017. However, digital publications revenues of \$3,899,000 during the three months ended July 31, 2018 were only 2.0% below the prior fiscal year, as higher-priced subscriptions were generally retained.

The Value Line proprietary Ranking System information (the “Ranking System”), a component of the Company’s flagship product, *The Value Line Investment Survey*, is also utilized in the Company’s copyright data business. The Ranking System is made available to EAM for specific uses without charge. The Ranking System is designed to be predictive over a six to twelve month period. For the six month period ended July 31, 2018, the combined Ranking System “Rank 1 & 2” stocks’ increase of 1.4% compared favorably to the S&P 500 Index’s decrease of 0.3% during the comparable period. For the twelve month period ended July 31, 2018, the combined Ranking System “Rank 1 & 2” stocks’ increase of 14.8% outperformed the S&P 500 Index’s increase of 14.0% during the comparable period.

Value Line serves primarily individual and professional investors in stocks, who pay, primarily on annual subscription plans, for basic services or as much as \$100,000 or more annually for comprehensive premium quality research, not obtainable elsewhere. The ongoing goal of adding new subscribers has led us to experiment with varying terms for our reliable, proprietary research including a period of intensive promotion of “starter” services and publications.

Copyright data fees

During the three months ended July 31, 2018, copyright data fees revenues of \$1,679,000 were 13.9% above the prior fiscal year. At July 31, 2018, total third party sponsored assets were \$4.4 billion, as compared to \$3.9 billion in assets at July 31, 2017. The largest of the individual ETFs active under Value Line’s copyright data program has again earned a five star Morningstar rating.

Investment management fees and services – (unconsolidated)

The Company has a substantial non-voting revenues and non-voting profits interests in EAM, the asset manager to the Value Line Mutual Funds. Accordingly, the Company does not report this operation as a separate business segment, although it maintains a significant interest in the cash flows generated by this business and will receive ongoing payments in respect of its non-voting revenues and non-voting profits interests.

Total assets in the Value Line Funds managed and/or distributed by EAM at July 31, 2018, were \$2.66 billion, which is \$170 million, or 7%, above total assets of \$2.49 billion in the Value Line Funds managed and/or distributed by EAM at July 31, 2017. The increase reflects successful investment selection capturing market appreciation, offset by net redemptions in eight of the eleven Value Line Funds over the twelve month period ended July 31, 2018.

Shares of Value Line Strategic Asset Management Trust (“SAM”) and Value Line Centurion Fund (“Centurion”) are within certain variable annuity and variable life insurance contracts issued by The Guardian Insurance & Annuity Company, Inc. (“GIAC”); new contracts of this type are no longer sold.

Value Line Mutual Funds

Total EAM managed net assets	\$2,669	\$2,485	7.4	%

The Value Line Fund shareholders are provided a money market fund investment managed by Federated Government Obligations Fund.

As of July 31, 2018, four of six Value Line equity and hybrid mutual funds, excluding SAM and Centurion, held an overall four or five star rating by Morningstar, Inc.

Several of the Value Line Funds have received national recognition. The Value Line Mid-Cap Focused Fund, the Value Line Small Cap Opportunities Fund and the Value Line Capital Appreciation Fund have been named “Category Kings” in *The Wall Street Journal* in multiple months in calendar 2017 and 2018.

EAM Trust - Results of operations before distribution to interest holders

The overall results of EAM’s investment management operations during the three months ended July 31, 2018, before interest holder distributions, included total investment management fees earned from the Value Line Funds of \$4,109,000, 12b-1 fees and other fees of \$1,704,000 and other income of \$71,000 which included dividend, interest

and licensing fees income. For the same period, total investment management fee waivers were \$111,000 and 12b-1 fee waivers for four Value Line Funds were \$159,000. During the three months ended July 31, 2018, EAM's net income was \$606,000 after giving effect to Value Line's non-voting revenues interest of \$1,968,000, but before distributions to voting profits interest holders and to the Company in respect of its 50% non-voting profits interest.

The overall results of EAM's investment management operations during the three months ended July 31, 2017, before interest holder distributions, included total investment management fees earned from the Value Line Funds of \$3,958,000, 12b-1 fees and other fees of \$1,549,000 and other income of \$55,000 which included dividend, interest and licensing fees income. For the same period, total investment management fee waivers were \$154,000 and 12b-1 fee waivers for four Value Line Funds were \$235,000. During the three months ended July 31, 2017, EAM's net income was \$316,000 after giving effect to Value Line's non-voting revenues interest of \$1,978,000, but before distributions to voting profits interest holders and to the Company in respect of its 50% non-voting profits interest.

As of July 31, 2018, three of the Value Line Funds have all or a portion of the 12b-1 fees being waived, and one fund has partial investment management fee waivers in place. Although, under the terms of the EAM Declaration of Trust, the Company no longer receives or shares in the revenues from 12b-1 distribution fees, the Company could benefit from the fee waivers to the extent that the resulting reduction of expense ratios and enhancement of the performance of the Value Line Funds attracts new assets.

The Value Line equity and hybrid funds assets represent 81.0%, variable annuity funds issued by GIAC represent 14.9%, and fixed income fund assets represent 4.1%, respectively, of total fund assets under management (“AUM”) as of July 31, 2018. At July 31, 2018, equity, hybrid and GIAC variable annuities AUM increased by 7.9% and fixed income AUM decreased by 9.8% as compared to the prior fiscal year.

EAM - The Company's non-voting revenues and non-voting profits interests

The Company holds non-voting revenues and non-voting profits interests in EAM which entitle the Company to receive from EAM an amount ranging from 41% to 55% of EAM's investment management fee revenues from its mutual fund and separate accounts business, and 50% of EAM's net profits, not less than 90% of which is distributed in cash every fiscal quarter. The applicable recent non-voting revenues interest percentage for the first quarter of fiscal 2019 was 50.3%.

The Company recorded income from its non-voting revenues interest and its non-voting profits interest in EAM as follows:

	Three Months Ended July 31,			
(\$ in thousands)	2018	2017	Change	
Non-voting revenues interest	\$1,968	\$1,978	-0.5	%
Non-voting profits interest	303	158	91.8	%
	\$2,271	\$2,136	6.3	%

Operating expenses

	Three Months Ended July 31,			
(\$ in thousands)	2018	2017	Change	
Advertising and promotion	\$920	\$795	15.7	%
Salaries and employee benefits	4,479	4,500	-0.5	%
Production and distribution	1,315	1,395	-5.7	%
Office and administration	987	1,059	-6.8	%
Total expenses	\$7,701	\$7,749	-0.6	%

Expenses within the Company are categorized into advertising and promotion, salaries and employee benefits, production and distribution, office and administration.

Operating expenses of \$7,701,000 for the three months ended July 31, 2018 were comparable to those during the three months ended July 31, 2017.

Advertising and promotion

During the three months ended July 31, 2018, advertising and promotion expenses of \$920,000 increased \$125,000 or 15.7% as compared to the prior fiscal year primarily due to a \$141,000 increase in media marketing expenses and institutional sales promotion. During the three months ended July 31, 2018 sales commissions were comparable to the prior fiscal year. Direct mail expenses were slightly below those during the three months ended July 31, 2017.

Salaries and employee benefits

During the three months ended July 31, 2018 salaries and employee benefits of \$4,479,000 were comparable to the prior fiscal year.

Production and distribution

During the three months ended July 31, 2018 production and distribution expenses of \$1,315,000 decreased 5.7% below the prior fiscal year. During the three months ended July 31, 2018 a decrease of \$121,000 was attributable to a decline in amortization of internally developed software costs related to digital security and product production software. During the three months ended July 31, 2018 the decrease in production costs was partially offset by a \$33,000 increase in production support of the Company's website, maintenance of the Company's publishing and application software and operating systems and web "framework".

Office and administration

During the three months ended July 31, 2018 office and administrative expenses of \$987,000 decreased 6.8% below the prior fiscal year. The decrease was primarily a result of a decline in hardware and software maintenance costs due to an upgrade of production equipment in fiscal 2018 which resulted in lower costs in the first quarter of fiscal 2019.

Income from Securities Transactions, net

During the three months ended July 31, 2018 and July 31, 2017, the Company's income from securities transactions, net, primarily derived from dividend income, was \$114,000 and \$96,000, respectively. Proceeds from maturities and sales of government debt securities classified as available-for-sale during the three months ended July 31, 2018 and July 31, 2017, were \$1,637,000 and \$1,394,000, respectively. There were no sales, or gains or losses from sales of equity securities during the three months ended July 31, 2018 or July 31, 2017.

Concentration

During the three months ended July 31, 2018, 18.7% of total publishing revenues of \$8,971,000 were derived from a single customer.

Lease Commitments

On November 30, 2016, Value Line, Inc. received consent from the landlord at 551 Fifth Avenue, New York, NY to the terms of a new sublease agreement between Value Line, Inc. and ABM Industries, Incorporated commencing on December 1, 2016. Pursuant to the agreement Value Line leased from ABM 24,726 square feet of office space located on the second and third floors at 551 Fifth Avenue, New York, NY (“Building” or “Premises”) beginning on December 1, 2016 and ending on November 29, 2027. Base rent under the sublease agreement is \$1,126,000 per annum during the first year with an annual increase in base rent of 2.25% scheduled for each subsequent year, payable in equal monthly installments on the first day of each month, subject to customary concessions in the Company’s favor and pass-through of certain increases in utility costs and real estate taxes over the base year. The Company provided a security deposit represented by a letter of credit in the amount of \$469,000 in October 2016, which is scheduled to be reduced to \$305,000 on September 30, 2021 and fully refunded after the sublease ends. This Building became the Company’s new corporate office facility. The Company is required to pay for certain operating expenses associated with the Premises as well as utilities supplied to the Premises. The sublease terms provide for a significant decrease (23% initially) in the Company’s annual rental expenditure taking into account free rent for the first six months of the sublease. Sublandlord provided Value Line a work allowance of \$417,000 which accompanied with the six months free rent worth \$563,000 was applied against the Company’s obligation to pay rent at our NYC headquarters, delaying the actual rent payments until November 2017.

On February 29, 2016, the Company’s subsidiary VLDC and Seagis Property Group LP (the “Landlord”) entered into a lease agreement, pursuant to which VLDC has leased 24,110 square feet of warehouse and appurtenant office space located at 205 Chubb Ave., Lyndhurst, NJ (“Warehouse”) beginning on May 1, 2016 and ending on April 30, 2024 (“Lease”). Base rent under the Lease is \$192,880 per annum payable in equal monthly installments on the first day of each month and will gradually increase to \$237,218 in fiscal 2024, subject to customary increases based on operating costs and real estate taxes. The Company provided a security deposit in cash in the amount of \$32,146, which will be fully refunded after the lease term expires. The lease is a net lease requiring the Company to pay for certain operating expenses associated with the Warehouse as well as utilities supplied to the Warehouse.

Effective income tax rate

The overall effective income tax rates, as a percentage of pre-tax ordinary income for the three months ended July 31, 2018 and July 31, 2017 were 15.07% and 34.80%, respectively. The decline in the overall effective tax rate during the quarter ended July 31, 2018 is primarily a result of a decline in Federal Tax Rate and a decrease in the state and local allocation factors on the deferred tax on the unrealized gain from deconsolidation of EAM.

In fiscal 2018 the U.S. statutory federal corporate income tax rate was reduced from 35% to 21% on the Company's long-term deferred tax liabilities, resulting in a tax benefit of 54.51% of pre-tax income for the twelve months ended April 30, 2018, primarily attributable to the effect on the long-term deferred tax liability. The Company re-calculated its net deferred tax assets and liabilities using the Federal Tax Rate under the Tax Act. The effect of the re-calculation was reflected entirely in the third quarter ended July 31, 2018 (the period that included the enactment date) and was allocated directly to both current and deferred income tax expenses from continuing operations.

The Company's annualized overall effective tax rate fluctuates due to a number of factors, in addition to the new tax law, including but not limited to an increase or decrease in the ratio of items that do not have tax consequences to pre-tax income, the Company's geographic profit mix between tax jurisdictions, taxation method adopted by each locality, new interpretations of existing tax laws and rulings and settlements with tax authorities.

Liquidity and Capital Resources

The Company had working capital, defined as current assets less current liabilities, of \$2,617,000 as of July 31, 2018 and working capital of \$1,690,000 as of April 30, 2018. These amounts include short term unearned revenue of \$18,878,000 and \$19,717,000 reflected in total current liabilities at July 31, 2018 and April 30, 2018, respectively. Cash and short term securities were \$23,862,000 and \$23,785,000 as of July 31, 2018 and April 30, 2018, respectively.

The Company's cash and cash equivalents include \$4,084,000 and \$4,982,000 at July 31, 2018 and April 30, 2018, respectively, invested primarily in Money Market Funds at brokers, which operate under Rule 2a-7 of the 1940 Securities and Exchange Act and invest primarily in short term U.S. government securities.

Cash from operating activities

The Company had cash inflows from operating activities of \$1,512,000 during the three months ended July 31, 2018 compared to cash inflows from operations of \$2,978,000 during the three months ended July 31, 2017. The decrease in cash inflows from fiscal 2018 to fiscal 2019 was primarily attributable to the timing of payments for federal state and local income taxes, and a smaller decline in unearned prepaid revenues, partially offset by the timing of prepaid expenses.

Cash from investing activities

The Company's cash outflows from investing activities of \$574,000 during the three months ended July 31, 2018, were below cash outflows from investing activities of \$1,438,000 for the three months ended July 31, 2017. During fiscal 2019, the Company continued to invest in fixed income securities. During the three months ended July 31, 2018, the Company invested \$2,123,000 in fixed income securities and \$5,000 in property and equipment as compared to \$2,386,000 and \$230,000, respectively, in fiscal 2018.

Cash from financing activities

During the three months ended July 31, 2018, the Company's cash outflows from financing activities were \$1,887,000 and compared to cash outflows from financing activities of \$1,788,000 for the three months ended July 31, 2017. Cash outflows for financing activities included \$46,000 and \$40,000 for the repurchase of 2,286 and 2,353 shares of the Company's common stock under the September 19, 2012 board approved common stock repurchase program, during fiscal years 2019 and 2018, respectively. Quarterly dividend payments of \$0.19 per share during the three months ended July 31, 2018 aggregated \$1,841,000 as compared to \$1,748,000 aggregated quarterly dividend payments of \$0.18 per share during the three months ended July 31, 2017.

On July 19, 2018, the Board of Directors of Value Line declared a quarterly dividend of \$0.19 per share. At July 31, 2018 there were 9,689,334 common shares outstanding as compared to 9,709,580 common shares outstanding at July 31, 2017. The Company expects financing activities to continue to include use of cash for dividend payments and common share repurchases for the foreseeable future.

Management believes that the Company's cash and other liquid asset resources used in its business together with the future cash flows from operations and from the Company's non-voting revenues and non-voting profits interests in EAM will be sufficient to finance current and forecasted liquidity needs for the next twelve months. Management does not anticipate making any borrowings during the next twelve months. As of July 31, 2018, retained earnings and liquid assets were \$46,165,000 and \$23,862,000, respectively.

Seasonality

Our publishing revenues are comprised of subscriptions which are generally annual subscriptions, paid in advance. Our cash flows from operating activities are minimally seasonal in nature, primarily due to the timing of customer payments made for orders and subscription renewals.

Off-balance sheet arrangements

We are not a party to any off-balance sheet arrangements, other than operating leases entered into in the ordinary course of business.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) (“ASU 2016-02”). The core principle of Topic 842 requires that a lessee should recognize the assets and liabilities on the balance sheet and disclose key information about leasing arrangements. The amendments in ASU 2016-2 are effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The guidance is required to be adopted at the earliest period presented using a modified retrospective approach. The adoption of ASU 2016-02 will not have a material impact on our consolidated condensed financial statements and related disclosures.

In August 2016, the FASB issued Accounting Standards Update No. 2016-15, Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force) (“ASU 2016-15”). The amendments in ASU 2016-15 address eight specific cash flow issues and apply to all entities that are required to present a statement of cash flows under ASC Topic 230, Statement of Cash Flows. The amendments in ASU 2016-15 are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company has adopted ASU 2016-15 in the first quarter of fiscal 2019. As a result, it has reclassified, within the Consolidated Condensed Statement of Cash Flows, \$2.3 million and \$2.1 million, for the three months ended July 31, 2018 and July 31, 2017, respectively, of EAM non-voting revenues interest and profits interest, from operating activities to investing activities.

In May 2014, the FASB issued ASU No. 2014-09, “Revenue from Contracts with Customers (Topic 606)”, which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services. In addition, ASU No. 2014-09 requires disclosures of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. ASU No. 2014-09 supersedes most existing U.S. GAAP revenue recognition principles, and it permits the use of either the retrospective or cumulative effect transition method. ASU No. 2014-09 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual periods. The Company has adopted ASU No. 2014-09 in the first quarter of fiscal 2019, which does not have a material impact on the Company's consolidated condensed financial statements and related disclosures.

In November 2016, the FASB issued ASU No. 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)". This ASU requires that the reconciliation of the beginning-of-period and end-of-period amounts shown in the statement of cash flows include cash, cash equivalents and amounts generally described as restricted cash or restricted cash equivalents. ASU No. 2016-18 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual periods. The Company has adopted ASU No. 2016-18 in the first quarter of fiscal 2019, which does not have a material impact on the Company's consolidated condensed financial statements and related disclosures.

On June 21, 2018, the United States Supreme Court reversed the 1992 ruling in *Quill*, which protected firms mailing items by common carrier into a state where it had no physical presence from having to collect sales tax in such state. The Company is evaluating the impact of the 2018 ruling (*South Dakota vs. Wayfair*) on its operations.

Critical Accounting Estimates and Policies

The Company prepares its Consolidated Condensed Financial Statements in accordance with generally accepted accounting principles as in effect in the United States (U.S. “GAAP”). The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. The Company bases its estimates on historical experience and on various other assumptions that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent, and the Company evaluates its estimates on an ongoing basis. Actual results may differ from these estimates under different assumptions or conditions. The Company believes the following critical accounting policies reflect the significant judgments and estimates used in the preparation of its Consolidated Condensed Financial Statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market Risk Disclosures

The Company's Consolidated Condensed Balance Sheet includes a substantial amount of assets whose fair values are subject to market risks. The Company's market risks are primarily associated with interest rates and equity price risk. The following sections address the significant market risks associated with the Company's investment activities.

Interest Rate Risk

The Company's strategy has been to acquire debt securities with low credit risk. Despite this strategy management recognizes and accepts the possibility that losses may occur. To limit the price fluctuation in these securities from interest rate changes, the Company's management invests primarily in short-term obligations maturing within one year.

The fair values of the Company's fixed maturity investments will fluctuate in response to changes in market interest rates. Increases and decreases in prevailing interest rates generally translate into decreases and increases in fair values of those instruments. Additionally, fair values of interest rate sensitive instruments may be affected by prepayment options, relative values of alternative investments, and other general market conditions.

Fixed income securities consist of certificates of deposits and securities issued by federal, state and local governments within the United States. As of July 31, 2018 and April 30, 2018 the aggregate cost of fixed income securities classified as available-for-sale were \$8,955,000 and \$8,468,000, respectively, and fair value was \$8,953,000 and \$8,465,000, respectively.

The following table summarizes the estimated effects of hypothetical increases and decreases in interest rates on assets that are subject to interest rate risk. It is assumed that the changes occur immediately and uniformly to each category of instrument containing interest rate risks. The hypothetical changes in market interest rates do not reflect what could be deemed best or worst case scenarios. Variations in market interest rates could produce significant changes in the timing of repayments due to prepayment options available. For these reasons, actual results might differ from those reflected in the table.

Investments in securities with fixed maturities	\$8,465	\$8,668	\$8,628	\$8,688	\$8,608
---	---------	---------	---------	---------	---------

Management regularly monitors the maturity structure of the Company's investments in debt securities in order to maintain an acceptable price risk associated with changes in interest rates.

Equity Price Risk

The carrying values of investments subject to equity price risks are based on quoted market prices as of the balance sheet dates. Market prices are subject to fluctuation and, consequently, the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the issuer, the relative price of alternative investments and general market conditions. Furthermore, amounts realized in the sale of a particular security may be affected by the relative quantity of the security being sold.

The Company's equity investment strategy has been to acquire equity securities across a diverse industry group. The portfolio consists primarily of ETFs and select common stock holdings of blue chip companies with a concentration on large capitalization companies with high relative dividend yields. In order to maintain liquidity in these securities, the Company's policy has been to invest in and hold in its portfolio, no more than 5% of the approximate average daily trading volume in any one issue. Additionally, the Company may purchase and hold non-leveraged ETFs whose performance inversely corresponds to the market value changes of investments in other ETF securities held in the equity portfolio for dividend yield.

As of July 31, 2018 and April 30, 2018, the aggregate cost of the equity securities classified as available-for-sale, which consist of investments in the SPDR Series Trust S&P Dividend ETF (SDY), First Trust Value Line Dividend Index ETF (FVD), INVESCO Financial Preferred ETF (PGF), Select Utilities Select Sector SPDR ETF (XLU), First Trust Value Line 100 ETF (FVL) and Proshares Trust S&P 500 Dividend Aristocrats ETF (NOBL) was \$8,385,000 and the fair value was \$9,917,000 and \$9,379,000, respectively.

Item 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports filed with the SEC is recorded, processed, summarized and reported (a) within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Principal Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

The Company's management has evaluated, with the participation of the Company's Principal Executive Officer and Principal Financial Officer, the effectiveness of the Company's disclosure controls and procedures, (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

The registrant's Principal Executive Officer and Principal Financial Officer have determined that there have been no changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal (b) quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.
