ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM TO

Commission file number: 001-31321

NAUTILUS, INC.
(Exact name of Registrant as specified in its charter)

Washington
(State or other jurisdiction of incorporation or organization)
16400 S.E. Nautilus Drive
Vancouver, Washington 98683
(Address of principal executive offices, including zip code)
(360) 859-2900
(Registrant's telephone number, including area code)

94-3002667
(I.R.S. Employer Identification No.)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class
Common Stock, no par value

Name of each exchange on which registered
New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: NAUTILUS, INC. - Form 10-K

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "accelerated filer, large accelerated filer and smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the last sales price (\$2.00) as reported on the New York Stock Exchange as of the last business day of the registrant's most recently completed second fiscal quarter (June 30, 2011) was \$61,493,672.

The number of shares outstanding of the registrant's common stock as of February 29, 2012 was 30,746,836 shares.

Documents Incorporated by Reference

The registrant has incorporated by reference into Part III of this Form 10-K portions of its Proxy Statement for its 2012 Annual Meeting of Shareholders.

PART I

Forward-Looking Statements

This Annual Report on Form 10-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "plan," "expect," "aim," "believe," "project," "intend," "estimate," "will," "should," "could," and other terms of similar meaning typically identify forward-looking statements. The forward-looking statements in this report include, without limitation, the anticipated opportunity for growth in sales of cardio products; plans to continue to be a large direct marketer of strength products; potential continuance of or improvement in consumer credit financing approval rates; the continuance of certain advertising strategies and the impact of such programs on product sales; our new product development strategies; expectations for increased research and development expenses and our plans and expectations regarding borrowing agreements. Forward-looking statements also include any statements related to our expectations regarding future business and financial performance or conditions, anticipated sales growth across markets, distribution channels and product categories, expenses and gross margins, profits or losses, losses from discontinued operation, settlements of warranty obligations, new product introductions, financing and working capital requirements and resources. These forward-looking statements, and others we make from time-to-time, are subject to a number of risks and uncertainties. Many factors could cause actual results to differ materially from those projected in forward-looking statements, including the risks described in Part I, Item 1A of this report. We do not undertake any duty to update forward-looking statements after the date they are made or conform them to actual results or to changes in circumstances or expectations.

Item 1. Business

Unless the context otherwise requires, "Nautilus," "Company," "we," "us," and "our" refer to Nautilus, Inc. and its subsidiaries. All references to 2011, 2010 and 2009 in this report refer to our fiscal years ended on December 31, 2011, 2010 and 2009, respectively.

OVERVIEW

Founded in 1986, Nautilus is a consumer fitness products company headquartered in Vancouver, Washington and incorporated in the State of Washington in January 1993. We are committed to providing innovative, quality solutions to help people achieve a fit and healthy lifestyle. Our principal business activities include designing, developing, sourcing and marketing high-quality cardio and strength fitness products and related accessories for consumer use, primarily in the United States and Canada. Our products are sold under some of the most-recognized brand names in the fitness industry: Nautilus®, Bowflex®, Schwinn®, Schwinn Fitness™ and Universal®.

We market our products through two distinct distribution channels, Direct and Retail, which we consider to be separate business segments. Our Direct business offers products directly to consumers through television advertising, catalogs and the Internet. Our Retail business offers our products through a network of independent retail companies with stores and websites located in the United States and internationally.

During the third quarter of 2009, we committed to a plan for the complete divestiture of our Commercial business with the expectation that the plan's successful completion would improve our overall operating results. Our former Commercial business, now classified as a discontinued operation, offered products to health clubs, schools, hospitals and other organizations. We completed the disposal of the assets of our former Commercial business in April 2011.

BUSINESS STRATEGY

We are focused on developing and marketing consumer fitness equipment and related products to help people enjoy healthier lives. Our products are targeted to meet the needs of a broad range of consumers, including fitness enthusiasts and individuals who are seeking the benefits of regular exercise. We have diversified our business by expanding our portfolio of high-quality fitness equipment into multiple product lines utilizing our well-recognized brand names. Our business strategy focuses exclusively on consumer products, markets and distribution channels.

Our strategies incorporate the individual characteristics of our Direct and Retail businesses. Our Direct business focuses on (i) the development of, or acquisition of rights to, unique products; (ii) the application of creative, cost-effective ways to communicate the benefits of their use; and (iii) making various payment options available to our customers. We are particularly attentive to Direct business metrics that provide feedback regarding the effectiveness of our media marketing programs and attractiveness of third-party consumer financing programs.

Table of Contents

In our Retail business, we strive to develop long-term relationships with key retailers of sports or fitness equipment. The primary objectives of our Retail business are (i) to offer a selection of products at key price-points; and (ii) to utilize the strength of our brands and long-standing customer relationships to secure more floor space with our Retail customers for our products.

Our long-term strategy involves:

- creatively marketing our equipment, both directly to consumers and through our Retail customers, while leveraging our well-known brand names;
- enhancing our product lines by designing fitness equipment that meets or exceeds the high expectations of our customers;
- utilizing our strengths in product engineering to reduce product costs;
- continuing our investment in research and development activities aimed at acquiring or creating new technologies; and
- increasing our international Retail sales and distribution.

PRODUCTS

We market quality cardiovascular and strength fitness products that cover a broad range of price points and features. Our products are designed for home use by individuals with varying exercise needs. From the person who works out occasionally to the serious athlete, we have products that will help them achieve their fitness objectives.

Our Nautilus brand includes a complete line of cardio equipment, including treadmills, specialized cardio, exercise bikes and ellipticals. In late 2011 we launched the CoreBody Reformer™, a new product aimed at the yoga/pilates market, in our Direct channel. Our Nautilus E514 elliptical, launched in 2010, continues to receive high rankings from leading consumer products rating organizations.

Our Bowflex brand represents a highly-regarded line of fitness equipment comprised of both cardio and strength products, including TreadClimber® specialized cardio machines, treadmills, PowerRod® and Revolution® home gyms, and SelectTech® dumbbells. In late 2011 we launched updated models in our popular TreadClimber line.

Our Schwinn brand is known for its popular line of exercise bikes, including the Airdyne®, ellipticals and treadmills. In 2011 we introduced a new indoor cycling bike and a new Airdyne model.

Our Universal brand, one of the oldest and most recognized names in the fitness industry, currently offers a line of kettlebell weights and weight benches. In 2011 we launched a new line of selectorized dumbbells under the Universal brand.

While we offer our full product assortment to our Direct customers through our Internet websites and our catalogs, we generally differentiate the product models offered in our Direct and Retail sales channels. Currently, our Bowflex TreadClimber product line is offered for sale primarily through our Direct sales channel.

Approximately 68% of our revenue in 2011 was derived from sales of consumer cardio products. While we continue to be a leader in the consumer strength product category, we believe the much larger market for cardio products offers us greater opportunity for growth.

BUSINESS SEGMENTS

We conduct our business in two segments, Direct and Retail. For further information, see Note 14, Segment Information, to our consolidated financial statements in Part II, Item 8 of this report.

SALES AND MARKETING

Direct

In our Direct business, we market and sell our products, principally Bowflex cardio and strength products, directly to consumers. While we are, and plan to continue to be, a large direct marketer of strength products in the United States, our advertising emphasis has shifted toward cardio products, especially the Bowflex TreadClimber, as cardio products represent the largest component of the fitness equipment market and a growing part of our business. Sales of cardio products represented 71% of our Direct channel revenues in 2011, compared to 56% in 2010 and 46% in 2009.

Table of Contents

Our marketing efforts are based on an integrated combination of media and direct consumer contact. In addition to television advertising, which ranges in length from 30 seconds to as long as five minutes, we utilize extended 30-minute television infomercials, Internet advertising, product websites, inquiry-response mailings, catalogs and inbound/outbound call centers. Marketing and media effectiveness is measured continuously based on sales inquiries generated, cost-per-lead, conversion rates, return on investment and other performance metrics. Almost all of our Direct customer orders are received either on our Internet websites or through company-owned and third-party call centers.

We committed an increased portion of our television advertising budget to our Bowflex TreadClimber product line during 2011. Currently, our Bowflex TreadClimber product line is sold primarily through our Direct sales channel. We emphasized lower-cost Internet-based advertising for our Bowflex rod-based home gyms during 2011, which is able to capitalize on the extensive consumer product awareness that already exists.

In September 2010, we completed our transition to a new consumer credit program with a new primary third-party financing provider, GE Capital Retail Bank, formerly GE Money Bank ("GE"). The relationship with GE has expanded the ability of our customers to obtain third-party consumer financing for buying our products. In addition, we added one secondary third-party consumer credit financing provider during the third quarter of 2010 and another in early 2011, both of which offer credit to certain qualified consumers whose credit applications have been declined by GE. As a result, combined consumer credit approvals by our primary and secondary U.S. third-party financing providers increased from 15% in 2010 to 25% in 2011.

Retail

In our Retail business, we market and sell a comprehensive line of consumer fitness equipment under the Nautilus, Schwinn, Universal and Bowflex brands. Our products are marketed through a network of retail companies, consisting of sporting goods stores, Internet retailers, large-format and warehouse stores, and, to a lesser extent, smaller specialty retailers and independent bike dealers.

We offer programs that provide price discounts to our Retail customers for ordering container-sized shipments or placing orders early enough in the season to allow for more efficient manufacturing by our Asian suppliers. These programs are designed to reduce our shipping and handling costs, with much of the savings being passed on to our customers. In addition, our Retail customers generally are eligible for other types of sales incentives, including volume discounts and various forms of rebates or allowances, which generally are intended to increase product exposure and availability for consumers, reduce transportation costs, and encourage marketing and promotion of our brands or specific products.

PRODUCT DESIGN AND INNOVATION

Innovation is a vital part of our business, and we continue to expand and diversify our product offerings by leveraging our research and development capabilities. We constantly search for new technologies and innovations that will help us grow our business, either through higher sales or increased production efficiencies. To accomplish this objective, we seek out ideas and concepts both within our company and from outside inventors. In 2011, we introduced 16 new or updated product models.

We rely on financial and engineering models to assist us in assessing the potential operational and economic impacts of adopting new technologies and innovations. If we determine that a third-party technology or innovation concept meets certain technical and financial criteria, we may enter into a licensing arrangement to utilize the technology or, in certain circumstances, purchase the technology for our own use. Our product design and engineering teams also invest considerable effort to improve product design and quality. As a consumer-driven company, we invest from time-to-time in qualitative and quantitative consumer research to help us assess new product concepts, optimal

features and anticipated consumer adoption.

Our research and development expenses were \$3.2 million and \$2.9 million in 2011 and 2010, respectively, as we increased our investment in new product development resources and capabilities in 2011. We expect our research and development expenses to increase in 2012 as we continue to increase our investment in new product development.

SEASONALITY

We expect our sales to vary seasonally. Sales are typically strongest in the first and fourth quarters, followed by the third quarter, and are generally weakest in the second quarter. We believe that various factors, such as the broadcast of network season finales and seasonal weather patterns, influence television viewers and cause our advertising on cable television stations to be less effective in the second quarter than in other periods. In addition, during the spring and summer months, consumers tend to be involved in outdoor activities, including outdoor exercise, which impacts sales of indoor fitness equipment. This seasonality can have a significant effect on our inventory levels, working capital needs and resource utilization.

Table of Contents

MERCHANDISE SOURCING

All of our products are produced by third-party manufacturers, most of whom are the sole source for particular products and substantially all of whom are located in Asia. Lead times for inventory purchases from our Asian suppliers, from order placement to receipt of goods, generally range from approximately two to three months, of which transit time represents three-to-four weeks. The length of our lead times requires us to place advance manufacturing orders based on management forecasts of future demand for our products. We attempt to compensate for our long replenishment lead times by maintaining adequate levels of inventory at our warehousing facilities.

We monitor our suppliers' ability to meet our product needs and we participate in quality assurance activities to reduce the risk of marketing substandard products. Our third-party manufacturing contracts are generally of annual or shorter duration, or manufactured products are sourced on the basis of individual purchase orders. Our manufacturing relationships are non-exclusive, and we are permitted to procure our products from other sources at our discretion. None of our manufacturing contracts include production volume or purchase commitments on the part of either party. Our third-party manufacturers are responsible for the sourcing of raw materials.

LOGISTICS

Our warehousing and distribution facilities are located in Portland, Oregon and Winnipeg, Manitoba. In our Direct business, we strive to maintain inventory levels that will allow us to ship our products shortly after receiving a customer's order. We use common carriers for substantially all of our merchandise shipments to Direct customers.

In our Retail business, we manage our inventory levels to accommodate anticipated seasonal changes in demand. Generally, we maintain higher inventory levels at the ends of the third and fourth quarters to satisfy relatively higher consumer demand in the fourth and first quarters of each year. Many of our Retail customers place orders well in advance of peak periods of consumer demand to ensure an adequate supply for the anticipated selling season. We use various commercial truck lines for our merchandise shipments to Retail customers.

In 2011 approximately one-quarter of our Retail inventory replenishment orders were shipped by our contract manufacturers in Asia directly to our Retail customer locations, typically in large containers. The use of such direct shipments allows us to maintain lower levels of inventory in our warehouses, resulting in lower storage, handling, freight, insurance and other costs.

COMPETITION

The markets for all of our products are highly competitive. We believe the principal competitive factors affecting our business are quality, brand recognition, innovation and pricing. We believe we are well-positioned to compete in markets in which we can take advantage of our strong brand names.

Our products compete directly with those offered by a large number of companies that market consumer fitness equipment and fitness programs. As the use of Internet websites for product sales by traditional retailers has increased, our competitors have become increasingly similar across our Direct and Retail sales channels. Our principal competitors include: Fitness Quest, marketer of Total Fitness[®]-branded products; ICON Health & Fitness, marketer of ProForm[®]- and NordicTrack[®]-branded products; Johnson Health Tech, marketer of Horizon[®]-branded products; Beach Body, marketer of the P90X[®] fitness program; and American Telecast, marketer of Total Gym[®]-branded products. Among our other competitors are marketers of computer-based physical activity products, such as the Nintendo Wii[®] and Microsoft Xbox[®] Kinect[®], and weight management companies, such as Weight Watchers, each of which offers alternative solutions for a fit and healthy lifestyle.

EMPLOYEES

As of February 29, 2012, we had approximately 320 employees, substantially all of whom were full-time. None of our employees are subject to collective bargaining agreements. We have not experienced a material interruption of our operations due to labor disputes.

INTELLECTUAL PROPERTY

Trademarks, patents and other forms of intellectual property are vital to the success of our business and are an essential factor in maintaining our competitive position in the health and fitness industry.

Table of Contents

Trademarks

We own many trademarks including Nautilus®, Bowflex®, PowerRod®, Revolution®, TreadClimber®, SelectTech®, Trimline®, Airdyne®, CoreBody Reformer™ and Universal®. Nautilus is the exclusive licensee under the mark Schwinn® for fitness products. We believe that having distinctive trademarks that are readily identifiable by consumers is an important factor in creating a market for our products, maintaining a strong company identity and developing brand loyalty among our customers. In addition, we have granted licenses to certain third-parties to use the Nautilus, Schwinn and TreadClimber tradenames on commercial fitness products, for which we receive royalty income and expanded consumer awareness of our brands.

Each federally registered trademark is renewable indefinitely if the trademark is still in use at the time of renewal. We are not aware of any material claims of infringement or other challenges to our trademark rights in our major markets.

Patents

We own numerous patents, both issued and pending, and have licenses for the use of patents owned by others, which relate to our products. These patents cover a variety of technologies, some of which are utilized in the following products: TreadClimber specialized cardio machines; variable stride ellipticals; selectorized dumbbells; and recumbent exercise bikes. Nautilus is the exclusive licensee of patents that cover the Bowflex Revolution home gyms. Patent protection for these technologies extends as far as 2020. Expiration of these and other patents could trigger the introduction of similar products by our competitors. None of our material patents expire in 2012.

Building our intellectual property portfolio is an important factor in maintaining our competitive position in the health and fitness equipment industry. We have followed a policy of filing applications for U.S. and non-U.S. patents on utility and design inventions that we deem valuable to our business. We protect our proprietary rights vigorously and take prompt, reasonable actions to prevent counterfeit products and other infringement on our intellectual property.

BACKLOG

Historically, our backlog has not been a significant factor in our business. Our customer order backlog as of December 31, 2011 and 2010 was approximately \$0.6 million and \$3.2 million, respectively.

SIGNIFICANT CUSTOMERS

In 2011 Amazon.com accounted for more than 10 percent of our consolidated net sales. No individual customer accounted for 10 percent or more of our consolidated net sales in 2010.

ENVIRONMENTAL AND OTHER REGULATORY MATTERS

Our operations are subject to various laws and regulations both domestically and abroad. In the United States, federal, state and local regulations impose standards on our workplace and our relationship with the environment. For example, the U.S. Environmental Protection Agency, Occupational Safety and Health Administration and other federal agencies have the authority to promulgate regulations that may impact our operations. In particular, we are subject to legislation placing restrictions on our generation, emission, treatment, storage and disposal of materials, substances and wastes. Such legislation includes: the Toxic Substances Control Act; the Resource Conservation and Recovery Act; the Clean Air Act; the Clean Water Act; the Safe Drinking Water Act; and the Comprehensive Environmental Response and the Compensation and Liability Act (also known as Superfund). We are also subject to the requirements of the Consumer Product Safety Commission and the Federal Trade Commission, in addition to regulations concerning employee health and safety matters.

Our operations and certain disposed components of our former Commercial business expose us to claims related to environmental matters. Although compliance with federal, state, local and international environmental legislation has not had a material adverse effect on our financial condition or results of operations in the past, there can be no assurance that material costs or liabilities will not be incurred in connection with such environmental matters in the future.

AVAILABLE INFORMATION

Our common stock is listed on the New York Stock Exchange and trades under the symbol "NLS." Our principal executive offices are located at 16400 SE Nautilus Drive, Vancouver, Washington 98683, and our telephone number is (360) 859-2900. The Internet address of our corporate website is <http://www.nautilusinc.com>.

Table of Contents

We file annual reports, quarterly reports, current reports, proxy statements and other information with the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended. You can inspect and obtain a copy of our reports, proxy statements and other information filed with the SEC at the offices of the SEC's Public Reference Room at 100 F Street N.E., Washington, D.C. 20549, on official business days during the hours of 10 a.m. to 3 p.m. EST. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room. The SEC maintains an Internet website at <http://www.sec.gov> where you can access copies of most of our SEC filings.

We make our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, available free of charge on our corporate website. In addition, our Code of Business Conduct and Ethics, corporate governance policies, and the charters of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are available on our corporate website. The information presented on our corporate website is not part of this report.

Item 1A. Risk Factors

Nautilus operates in an environment that involves a number of risks and uncertainties. The risks and uncertainties described in this Annual Report on Form 10-K are not the only risks and uncertainties that we face. Additional risks and uncertainties that presently are not considered material or are not known to us, and therefore are not mentioned herein, may impair our business operations. If any of the risks described in this Annual Report on Form 10-K actually occur, our business, operating results and financial position could be adversely affected.

Our revenues and profitability can fluctuate from period to period and are often difficult to predict due to factors beyond our control.

Our results of operations in any particular period may not be indicative of results to be expected in future periods, and have historically been, and are expected to continue to be, subject to periodic fluctuations arising from a number of factors, including:

- Introduction and market acceptance of new products;
- Variations in product selling prices and costs and the mix of products sold;
- Size and timing of Retail customer orders, which, in turn, often depend upon the success of our customers' businesses or specific products;
- Changes in the market conditions for consumer fitness equipment;
- Changes in macroeconomic factors;
- Availability of consumer credit;
- Timing and availability of products coming from our offshore contract manufacturing suppliers;
- Seasonality of markets, which vary from quarter-to-quarter and are influenced by outside factors such as overall consumer confidence and the availability and cost of television advertising time;
- Effectiveness of our media and advertising programs;
- Customer consolidation in our Retail segment, or the bankruptcy of any of our larger Retail customers;
- Restructuring charges;
- Goodwill and other intangible asset impairment charges; and
- Legal and contract settlement charges.

These trends and factors could adversely affect our business, operating results, financial position and cash flows in any particular period.

Intense competition or loss of one or more of our large Retail customers could negatively impact our sales and operating results.

Our products are sold in highly competitive markets with limited barriers to entry. As a result, introduction by competitors of lower-priced or more innovative products could result in a significant decline in our revenues and have a material adverse effect on our operating results, financial position and cash flows.

Additionally, we derive a significant portion of our revenue from a small number of Retail customers. A loss of business from one or more of these large customers, if not replaced with new business, could negatively affect our operating results and cash flow.

We may not be able to obtain sufficient debt financing.

6

Table of Contents

Prior to December 31, 2011, we extended the expiration date of the Loan and Security Agreement with Bank of the West, thereby extending the maturity date of our Increasing Rate Senior Discount Notes to May 2, 2013. We expect to obtain other debt financing prior to the maturity date of the notes and use the proceeds or a portion thereof to pay off the notes. There is no guarantee that we will be able to borrow funds on favorable terms, if at all, or that any amount raised will be sufficient to meet our cash requirements. If we are not able to obtain sufficient debt financing, it could have a material adverse affect on our operating results, financial position and cash flows. For more information regarding our borrowing arrangements, refer to Note 10, Borrowings, to our consolidated financial statements in Part II, Item 8 of this report.

Further decline or weaker than expected recovery in consumer spending likely would negatively affect our product revenues and earnings.

Success of each of our products depends substantially on the amount of discretionary funds available to our customers. Global credit and financial markets have experienced extreme disruptions in the recent past, including severely diminished liquidity and credit availability, declines in consumer confidence, declines in economic growth, increases in unemployment rates and uncertainty about economic stability. There can be no assurance that there will not be further deterioration in these conditions. Further decline or weaker than expected recovery in general economic conditions could further depress consumer spending, especially spending for discretionary consumer products such as ours. Poor economic conditions could in turn lead to substantial decreases in our net sales or have a material adverse effect on our operating results, financial position and cash flows.

Portions of our operating expenses and costs of goods sold are relatively fixed, and we may have limited ability to reduce expenses sufficiently in response to any revenue shortfalls.

Many of our operating expenses are relatively fixed. We may not be able to adjust our operating expenses or other costs sufficiently to adequately respond to any revenue shortfalls. If we are unable to reduce operating expenses or other costs quickly in response to any revenue shortfall, it would negatively impact our operating results, financial condition and cash flows.

If we are unable to anticipate consumer preferences or to effectively develop, market and sell future products, our future revenues and operating results could be adversely affected.

Our future success depends on our ability to effectively develop, market and sell new products that respond to new and evolving consumer preferences. Accordingly, our revenues and operating results may be adversely affected if we are unable to develop or acquire rights to new products that satisfy consumer preferences. In addition, any new products that we market may not generate sufficient revenues to recoup their acquisition, development, production, marketing, selling and other costs.

Our business is affected by seasonality which results in fluctuations in our operating results.

We experience moderate fluctuations in aggregate sales volume during the year. Sales are typically strongest in the first and fourth quarters, followed by the third quarter, and are generally weakest in the second quarter. However, the mix of product sales may vary considerably from time to time as a result of changes in seasonal and geographic demand for particular types of fitness equipment. In addition, our customers may cancel orders, change delivery schedules or change the mix of products ordered with minimal notice. As a result, we may not be able to accurately predict our quarterly sales. Accordingly, our results of operations are likely to fluctuate significantly from period to period.

Government regulatory actions could disrupt our marketing efforts and product sales.

Various international and U.S. federal, state and local governmental authorities, including the Federal Trade Commission and the Consumer Product Safety Commission, regulate our product marketing efforts. Our sales and profitability could be significantly harmed if any of these authorities commence a regulatory enforcement action that interrupts our marketing efforts, results in a product recall or negative publicity, or requires changes in product design.

A significant decline in availability of media time or substantially higher advertising rates may hinder our ability to effectively market our products and may reduce profitability.

We depend on television advertising to market certain products sold directly to consumers. Consequently, a marked increase in the price we must pay for our preferred media time and/or a reduction in its availability may adversely impact our financial performance.

Table of Contents

Our revenues could decline due to changes in credit markets and decisions made by credit providers.

Historically, a significant portion of our Direct sales have been financed for our customers under various programs offered by third- party consumer credit financing sources. Reductions in consumer lending and the availability of consumer credit could limit the number of customers with the financial means to purchase our products. Higher interest rates could increase monthly payments for consumer products financed through one of our monthly payment plans or through other sources of consumer financing. In the past, we have partnered with financial service companies to assist our customers in obtaining financing to purchase our products. Our present agreements with our third party consumer credit financing providers enable certain customers to obtain financing if they qualify for the provider's private label revolving credit card. We cannot be assured that our third party financing providers will continue to provide consumers with access to credit or that credit limits under such arrangements will not be reduced. Such restrictions or reductions in the availability of consumer credit could have a material adverse impact on our results of operations, financial position and cash flows.

If our contract manufacturers experience any delay, disruption or quality control problems in their operations, we could lose market share and revenues, and our reputation may be harmed.

We have outsourced the production of all of our products to third-party manufacturers. We rely on our contract manufacturers to procure components and provide spare parts in support of our warranty and customer service obligations. We generally commit the manufacturing of each product to a single contract manufacturer.

Our reliance on contract manufacturers exposes us to the following risks over which we may have limited control:

- Unexpected increases in manufacturing and repair costs;
- Interruptions in shipments if our contract manufacturer is unable to complete production;
- Inability to completely control the quality of finished products;
- Inability to completely control delivery schedules;
- Changes in our contract manufacturer's business models or operations;
- Potential increases in our negotiated product costs as a result of fluctuations in currency exchange rates;
- Impact of the global market and economic conditions on the financial stability of our contract manufacturers and their ability to operate without requesting earlier payment terms or letters of credit;
- Potential lack of adequate capacity to manufacture all or a part of the products we require; and
- Potential unauthorized reproduction or counterfeiting of our products.

Substantially all of our contract manufacturers are located in Asia, primarily China, and may be subject to disruption by natural disasters, as well as political, social or economic instability. The temporary or permanent loss of the services of any of our primary contract manufacturers could cause a significant disruption in our product supply chain and operations and delays in product shipments.

Our third-party manufacturing contracts are generally of annual or shorter duration, or manufactured products are sourced on the basis of individual purchase orders. There is no assurance that we will be able to maintain our current relationships with these parties or, if necessary, establish future arrangements with other third-party manufacturers on commercially reasonable terms. Further, we cannot assure that their manufacturing and quality control processes will be maintained at a level sufficient to meet our inventory needs or prevent the inadvertent sale of substandard products. While we believe that products manufactured by our current third-party manufacturers could generally be procured from alternative sources, temporary or permanent loss of services from a significant manufacturer could cause disruption in our supply chain and operations.

Our inventory purchases are subject to long lead times, which could negatively impact our sales, cash flows and liquidity.

All of our products are produced by third-party manufacturers, substantially all of which are located in Asia, primarily China. Lead times for inventory purchases from our Asian suppliers, from order placement to receipt of goods, generally range from approximately two to three months, of which transit time represents three-to-four weeks. The length of our lead times requires us to place advance manufacturing orders based on management forecasts of future demand for our products. Due to the length of our lead times, our sales and cash flows may be negatively impacted if we do not have sufficient inventory on hand to meet customer demand for such items. In addition, our liquidity and cash flows may be negatively affected, and inventory obsolescence may increase, if the quantity of products we order exceeds customer demand for such items.

A delay in getting non-U.S.-sourced products through customs in a timely manner could result in reduced sales, canceled sales orders and unanticipated inventory accumulation.

Table of Contents

Most of our imported products are subject to duties or tariffs that affect the cost and quantity of various types of goods imported into the U.S. or our other markets. The countries in which our products are produced or sold may adjust or impose new quotas, duties, tariffs or other restrictions. Further, our business depends on our ability to source and distribute products in a timely manner. As a result, we rely on the free flow of goods through open and operational ports worldwide. Labor disputes at various ports create significant risks for our business, particularly if these disputes result in work slowdowns, lockouts, strikes or other disruptions during our peak importing seasons. Any of these factors could result in reduced sales, canceled sales orders and unanticipated inventory accumulation and have a material adverse effect on our operating results, financial position and cash flows.

Unpredictable events and circumstances relating to our international operations, including our use of non-U.S. manufacturers, could have a material adverse effect on our business.

Substantially all of our products are manufactured outside of the U.S. and a portion of our revenue is derived from sales outside the U.S., primarily in Canada. Accordingly, our future results could be materially adversely affected by a variety of factors pertaining to international trade, including: changes in a specific country's or region's political or economic conditions; trade restrictions; import and export licensing requirements; changes in regulatory requirements; additional efforts to comply with a variety of foreign laws and regulations; and longer payment cycles in certain countries, thus requiring us to finance customer purchases over a longer period than those made in the U.S. In addition, we rely on the performance of our employees located in foreign countries. Our ability to control the actions of these employees may be limited by the laws and regulations in effect in each country. Changes in any of the above factors could have a material adverse effect on our operating results, financial position and cash flows.

Currency exchange rate fluctuations could result in higher costs and reduced margins.

Substantially all of our products are manufactured outside of the U.S. and, therefore, currency exchange rate fluctuations could result in higher costs for our products, or could disrupt the business of independent manufacturers that produce our products, by making their purchases of raw materials more expensive and more difficult to finance. Our future financial results could be significantly affected by the value of the U.S. dollar in relation to the foreign currencies in which we, our customers or our suppliers conduct business. Fluctuations in the Chinese Renminbi exchange rate caused our costs for certain products to increase in 2011, reducing our margins and cash flows. Such fluctuations and cost increases may continue to occur in the future. If we are unable to increase our selling prices to offset such cost increases, or if such increases have a negative impact on sales of our products, our revenues and margins would be reduced and our operating results and cash flows would be negatively impacted. In addition, a portion of our revenue is derived from sales outside the U.S., primarily in Canada. Currency rate fluctuations could make our products more expensive for foreign consumers and reduce our sales, which would negatively affect our operating results and cash flows.

Failure or inability to protect our intellectual property could significantly harm our competitive position.

Protecting our intellectual property is an essential factor in maintaining our competitive position in the health and fitness industry. If we do not, or are unable to, adequately protect our intellectual property, our sales and profitability may be adversely affected. We own numerous patents and trademarks worldwide. However, our efforts to protect our proprietary rights may be inadequate, and applicable laws provide only limited protection.

Trademark infringement or other intellectual property claims relating to our products could increase our costs.

Our industry is susceptible to litigation regarding trademark and patent infringement and other intellectual property rights. We could become a plaintiff or defendant in trademark and patent infringement claims or claims of breach of

license. The prosecution or defense of intellectual property litigation is both costly and disruptive of the time and resources of our management, even if the claim or defense against us is without merit. We could also be required to pay substantial damages or settlement costs to resolve intellectual property litigation or related matters.

We also may not be able to successfully acquire intellectual property rights, protect existing rights, or potentially prevent others from claiming that we have violated their proprietary rights when we launch new products. We could incur substantial costs in defending against such claims even if they are without basis, and we could become subject to judgments or settlements requiring us to pay substantial damages, royalties or other charges.

Future impairments of intangible assets could negatively impact our operating results.

Table of Contents

We had goodwill of \$2.9 million and other intangible assets of \$16.7 million as of December 31, 2011. Any future impairment charges, if significant, could materially and adversely affect our operating results. An unexpected decline in revenue, changes in market conditions, changes in competitive products or technologies or a change in management's intentions regarding utilization of intangible assets could lead to further impairment charges.

We are subject to periodic litigation, product liability risk and other regulatory proceedings which could result in unexpected expense of time and resources.

From time to time, we may be a defendant in lawsuits and regulatory actions relating to our business or the former operations of our discontinued Commercial business segment. Due to the inherent uncertainties of litigation and regulatory proceedings, we cannot accurately predict the ultimate outcome of any such proceedings. An unfavorable outcome could have a material adverse impact on our business, financial condition and results of operations. In addition, any significant litigation in the future, regardless of its merits, could divert management's attention from our operations and may result in substantial legal costs.

We are subject to warranty claims for our products which could result in unexpected expense.

Many of our products carry limited warranties for defects in quality and workmanship. We may experience significant expense as the result of product quality issues, product recalls or product liability claims which may have a material adverse effect on our business. We maintain a warranty reserve for estimated future warranty claims. However, the actual costs of servicing future warranty claims may exceed the reserve and have a material adverse effect on our results of operations, financial condition and cash flows. In addition, we remain contingently liable for product warranty obligations which were transferred to buyers of our Commercial business product lines, if the buyer is unable to fulfill such obligations.

Disruption to our information and communication systems could result in interruptions to our business.

Our business is reliant on information and communication technology, and a substantial portion of our revenues are generated with the support of information and communication systems. The success of our Direct business is heavily dependent on our ability to respond to customer sales inquiries and process sales transactions using our call center communication systems, Internet websites and similar data monitoring and communication systems provided and supported by third-parties. If such systems were to fail, or experience significant or lengthy interruptions in availability or service, our revenues could be materially affected. We also rely on information systems in all stages of our product cycle, from design to distribution, and we use such systems as a method of communication between employees, suppliers and customers. In addition, we use information systems to maintain our accounting records, assist in trade receivables collection and customer service efforts, and forecast operating results and cash flows.

System failures or service interruptions may occur as the result of a number of factors, including: computer viruses; hacking or other unlawful activities by third parties; disasters; equipment, hardware or software failures; cable outages, extended power failures, or our inability or failure to properly protect, repair or maintain our communication and information systems. To mitigate the risk of business interruption, we have in place a disaster recovery program that targets our most critical operational systems. If our disaster recovery system is ineffective, in whole or in part, or efforts conducted by us or third-parties to prevent or respond to system interruptions in a timely manner are ineffective, our ability to conduct operations would be significantly affected. If we do not consider the potential impact of critical decisions related to systems or process design and implementation, this could lead to operational challenges and increase costs. Any of the aforementioned factors could have a material adverse affect on our operating results, financial position and cash flows.

If we are unable to maintain compliance with the continued listing standards of the New York Stock Exchange, we may become subject to delisting proceedings.

Our common stock currently is traded on the New York Stock Exchange (the "NYSE"). The NYSE's continued listing standards require that listed companies maintain either an average global market capitalization of not less than \$50 million over a consecutive 30 trading-day period, or total stockholders' equity of not less than \$50 million. On September 23, 2010, we were notified by the NYSE that we were not in compliance with this requirement for continued listing. On December 3, 2010, we were notified that the NYSE had accepted our plan demonstrating our ability to regain compliance with the continued listing standards within an 18-month period that ends on March 23, 2012. As of February 29, 2012, our market capitalization over the preceding 30 trading-day period was approximately \$75 million, which exceeds the NYSE requirement for continued listing.

If we are unable to maintain compliance with the NYSE continued listing standards, our common stock could be delisted by the NYSE. Delisting could negatively impact us by, among other factors, reducing the volume of trading in our common stock and the number of investors willing or able to hold or acquire our common stock, damaging our reputation and standing with

Table of Contents

suppliers, lenders, customers and sources of consumer financing programs.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Following is a summary of our principal properties as of December 31, 2011:

Location	Primary Function(s)	Owned or Leased
Washington	Corporate headquarters and customer call center	Leased
Oregon	Warehouse and distribution	Leased
Canada	Warehouse, distribution and showroom	Leased
China	Quality assurance office	Leased

Each of our principal properties is used by both our Direct segment and our Retail segment. Our properties generally are well-maintained, adequate and suitable for their intended purposes and we believe our existing properties will meet our operational needs for the foreseeable future. If we require additional warehouse or office space in the future, we believe we will be able to obtain such space on commercially reasonable terms.

Item 3. Legal Proceedings

We are party to various legal proceedings and claims arising from normal business activities. In addition, our tax filings are subject to audit by authorities in the jurisdictions where we conduct business, which may result in assessments of additional taxes. Management believes the Company has adequately provided for obligations that would result from these legal and tax proceedings where it is probable the Company will pay some amounts and the amounts can be reasonably estimated. In some cases, however, it is too early to predict a final outcome. Management believes that the ultimate resolution of these matters will not have a material effect on the Company's financial position, results of operations or cash flows.

Item 4. Mine Safety Disclosures

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market for our Common Stock

Our common stock is listed on the New York Stock Exchange (the "NYSE") and trades under the symbol "NLS." On February 29, 2012, the closing sale price of our common stock was \$2.78 per share, as reported on the NYSE. As of February 29, 2012, there were 57 holders of record of our common stock and approximately 29,000 beneficial shareholders. The following table sets forth the high and low sales prices and dividends paid per common share for each period presented:

Table of Contents

	High	Low	Dividends Paid
2011:			
Quarter 1	\$3.30	\$1.81	—
Quarter 2	3.45	1.58	—
Quarter 3	2.24	1.32	—
Quarter 4	2.20	1.39	—
2010:			
Quarter 1	4.35	1.96	—
Quarter 2	3.63	1.52	—
Quarter 3	2.02	1.27	—
Quarter 4	1.92	1.30	—

Currently, we have no plans to pay dividends on our common stock. Payment of any future dividends, when permitted under our borrowing arrangements, is at the discretion of our Board of Directors, which considers various factors such as our financial condition, operating results, current and anticipated cash needs and future expansion plans.

Equity Compensation Plans

The following table provides information about our equity compensation plans as of December 31, 2011:

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	1,482,917	\$ 8.72	4,080,000
Equity compensation plans not approved by security holders	—	—	—
Total	1,482,917	8.72	4,080,000

For further information regarding our equity compensation plans, refer to Note 12, Stockholders' Equity, to our consolidated financial statements in Part II, Item 8 of this report.

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation

The following discussion and analysis is based upon our financial statements as of the dates and for the periods presented in this section. You should read this discussion and analysis in conjunction with the financial statements and notes thereto found in Part II, Item 8 of this report. All references to the years 2011 and 2010 mean the twelve-month periods ended December 31, 2011 and 2010, respectively. Unless the context otherwise requires, "Nautilus," "we," "us" and "our" refer to Nautilus, Inc. and its subsidiaries. Unless indicated otherwise, all information regarding our operating results pertains to our continuing operations.

Our results of operations may vary significantly from period-to-period. Our revenues typically fluctuate due to the seasonality of our industry, customer buying patterns, product innovation, the nature and level of competition for health and fitness products, our ability to procure products to meet customer demand, the level of spending on, and effectiveness of, our media and advertising programs and our ability to attract new customers and maintain existing sales relationships. In addition, our revenues are highly susceptible to economic factors, including, among other things, the overall condition of the economy and the availability of consumer credit in both the United States and Canada. Our profit margins may vary in response to the aforementioned factors and our ability to manage product costs. Profit margins may also be affected by fluctuations in the costs or availability of materials used to manufacture our products, product warranty costs, higher or lower fuel prices, and changes in costs of other distribution or manufacturing-related services. Our operating profits or losses may also be affected by the efficiency and effectiveness of our organization. Historically, our operating expenses have been influenced by media costs to produce and air television advertisements of our products, facility costs, operating costs of our information and communications systems, product supply chain management, customer support and new product development activities. In addition, our operating expenses have been affected from time-to-time by asset impairment charges, restructuring charges and other significant unusual or infrequent expenses.

As a result of the above and other factors, our period-to-period operating results may not be indicative of future performance. You should not place undue reliance on our operating results and should consider our prospects in light of the risks, expenses and difficulties typically encountered by us and other companies, both within and outside our industry. We may not be able to successfully address these risks and difficulties and, consequently, we cannot assure you of any future growth or profitability. For more information, see our discussion of Risk Factors located at Part I, Item 1A of this report.

OVERVIEW

We are committed to providing innovative, quality solutions to help people achieve a fit and healthy lifestyle. Our principal business activities include designing, developing, sourcing and marketing high-quality cardiovascular and strength fitness products and related accessories for consumer home use, primarily in the United States and Canada. Our products are sold under some of the most recognized brand names in the fitness industry: Nautilus®, Bowflex®, Schwinn®, Schwinn Fitness™ and Universal

We market our products through two distinct distribution channels, Direct and Retail, which we consider to be separate business segments. Our Direct business offers products directly to consumers through television advertising, the Internet and catalogs. Our Retail business offers our products through a network of third-party retailers with stores and websites located in the United States and internationally.

Our net sales in 2011 were \$180.4 million, an increase of \$12.0 million, or 7.1%, compared to net sales of \$168.5 million in 2010, largely due to the continued strong demand for our TreadClimber products. This increase was partially offset by comparably lower sales for home gyms and other strength products. Growth in TreadClimber sales continues to be driven by consumer acceptance, more effective media advertising and improving consumer credit

approval rates.

In September 2010, we completed our transition to a new consumer credit program with a new primary third-party financing provider, GE Capital Retail Bank, formerly GE Money Bank ("GE"). The relationship with GE has expanded the ability of our customers to obtain third-party consumer financing for buying our products. In addition, we added one secondary third-party consumer credit financing provider during the third quarter of 2010 and another in early 2011, both of which offer credit to certain qualified consumers whose credit applications have been declined by GE. As a result of these actions, combined consumer credit approvals by our primary and secondary U.S. third-party financing providers increased from 15% in 2010 to 25% in 2011.

Income from continuing operations was \$2.5 million for 2011, compared to a loss from continuing operations of \$9.8 million for 2010. Diluted income per share from continuing operations for 2011 was \$0.08, compared to diluted loss per share of \$(0.32) for 2010. The significant improvement in results of continuing operations for 2011 was largely attributable to

13

Table of Contents

increased sales and a 13.3% reduction in operating expenses achieved primarily through more cost efficient media advertising expenditures. Selling and marketing expenses as a percent of net sales declined to 30.2% for 2011 from 38.0% for 2010.

During 2011, we allocated a larger portion of our media expenditures toward our TreadClimber product line, compared to 2010. In addition, we began implementing a lower cost Internet-based advertising strategy for our home gyms in 2011, which is designed to capitalize on the extensive product awareness that currently exists among consumers for our Bowflex rod-based home gyms. In 2012, we expect to dedicate the majority of our media advertising budget to TreadClimbers and a new product, CoreBody Reformer, which was launched in November 2011.

Net income, including loss from the discontinued Commercial operation, was \$1.4 million for 2011, an improvement of \$24.3 million over net loss of \$22.8 million for 2010. Diluted net income per share for 2011 was \$0.05, as compared to diluted net loss per share of \$(0.74) for 2010.

RESULTS OF OPERATIONS

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements. An accounting estimate is considered to be critical if it meets both of the following criteria: (i) the estimate requires assumptions about matters that are highly uncertain at the time the accounting estimate is made, and (ii) different estimates reasonably could have been used, or changes in the estimate that are reasonably likely to occur from period to period may have a material impact on the presentation of our financial condition, changes in financial condition or results of operations.

Our critical accounting policies and estimates are discussed below. We have not made any material changes in the methodologies we use in our critical accounting estimates during the past three fiscal years and we do not believe there is a reasonable likelihood that there will be a material change in the future assumptions or estimates we use. However, if our assumptions or estimates change in future periods, the impact on our financial position and operating results could be material.

Sales Discounts and Allowances

Product sales and shipping revenues are reported net of promotional discounts and return allowances. We estimate the revenue impact of retail sales incentive programs based on the planned duration of the program and historical experience. If the amount of our retail sales incentives can be reasonably estimated, we record the impact of such incentives at the later of the time we notify our customer of the sales incentive, or the time of the sale. If actual amounts differ from our estimates, revenue is adjusted.

Our calculation of amounts owed for sales discounts and allowances contains uncertainties because it requires management to make assumptions in interim periods and to apply judgment regarding a number of factors, including estimated future customer inventory purchases and returns.

Goodwill and Intangible Asset Valuation

We evaluate our indefinite-lived intangible assets and goodwill for potential impairment annually or when events or circumstances indicate their carrying value may be impaired. Finite-lived intangible assets, including patents and patent rights, are evaluated for impairment when events or circumstances indicate the carrying value may be impaired. No goodwill or intangible asset impairment charges were recognized in 2011 or 2010.

Our impairment loss calculations contain uncertainties because they require management to make assumptions and to apply judgment in order to estimate future cash flows and asset fair values. Our judgments regarding potential impairment are based on a number of factors including: the timing and amount of anticipated cash flows; market conditions; relative levels of risk; the cost of capital; terminal values; royalty rates; and the allocation of revenues, expenses and assets and liabilities to business segments. Each of these factors can significantly affect the value of our goodwill or indefinite-lived intangible assets and, thereby, could have a material adverse affect on our financial position and results of operations.

Product Warranty Obligations

Our products carry limited defined warranties for defects in materials or workmanship. Our product warranties generally obligate us to pay for the cost of replacement parts, cost of shipping the parts to our customers and, in certain instances,

Table of Contents

service labor costs. At the time of sale, we record a liability for the estimated costs of fulfilling future warranty claims. The estimated warranty costs are recorded as a component of cost of sales, based on historical warranty claim experience and available product quality data. If necessary, we adjust our liability for specific warranty matters when they become known and are reasonably estimable. Our estimates of warranty expenses are based on significant judgment, and the frequency and cost of warranty claims are subject to variation. Warranty expenses are affected by the performance of new products, significant manufacturing or design defects not discovered until after the product is delivered to the customer, product failure rates and variances in expected repair costs.

Uncertainties exist with respect to outstanding warranty obligations of our discontinued Commercial business, as units sold to customers approach end-of-life and settlements are reached with certain customers in connection with our exit from the Commercial business. As of December 31, 2011, our warranty liability included \$0.6 million for future warranty costs of our former commercial business, which represents management's estimate of the probable amount.

Litigation and Loss Contingencies

From time to time, we may be involved in claims, lawsuits and other proceedings. Such matters involve uncertainty as to the eventual outcomes and any losses or gains we may ultimately realize when one or more future events occur or fail to occur. We record expenses for litigation and loss contingencies when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. We estimate the probability of such losses based on the advice of internal and external counsel, outcomes from similar litigation, status of the lawsuits (including settlement initiatives), legislative developments and other factors.

Due to the numerous variables associated with these judgments and assumptions, both the precision and reliability of the resulting estimates of the related loss contingencies are subject to substantial uncertainties. We regularly monitor our estimated exposure to these contingencies and, as additional information becomes known, we may change our estimates accordingly.

Deferred Tax Assets - Valuation Allowance

We account for income taxes based on the asset and liability method, whereby deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. Deferred tax assets and liabilities are measured using the enacted tax rates that are expected to be in effect when the temporary differences are expected to be included, as income or expense, in the applicable tax return. The effect of a change in tax rates on our deferred tax assets and liabilities is recognized in the period of the enactment. A tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained based on the technical merits of the position upon examination, including resolutions of any related appeals or litigation.

We have recorded a valuation allowance to reduce our deferred tax assets to the amount we believe is more likely than not to be realized. As we determined that it is more likely than not that the benefit from our deferred tax assets will not be realized, we have a valuation allowance against net deferred tax assets of \$60.3 million. If our assumptions change and we determine we will be able to realize these deferred tax assets, the tax benefits related to any reversal of the valuation allowance will be accounted for in the period in which we make such determination. Likewise, should we determine that we would be able to realize our deferred tax assets in the future in excess of our recorded amount, an adjustment to the deferred tax assets would increase income in the period such determination was made.

Significant judgments are required in determining tax provisions and evaluating tax positions. Such judgments require us to interpret existing tax law and other published guidance as applied to our circumstances. In particular, our valuation allowance contains uncertainties because management is required to make assumptions and to apply judgment to estimate the future realization of net deferred tax assets. If our financial results or other relevant facts change, thereby impacting the likelihood of realizing the tax benefit of an uncertain tax position, significant judgment

would be applied in determining the effect of the change on our valuation allowance.

COMPARISON OF THE YEARS ENDED DECEMBER 31, 2011 AND 2010

The discussion that follows should be read in conjunction with our consolidated financial statements and the related notes in this report. All comparisons to prior year results are in reference to continuing operations only in each period, unless otherwise indicated.

The following table compares selected financial information in our consolidated statements of operations for the years ended December 31, 2011 and 2010 (in thousands):

	Year Ended December 31,		Change	%	
	2011	2010			Change
Net sales	\$180,412	\$168,450	\$11,962	7.1	%
Cost of sales	101,953	91,704	10,249	11.2	%
Gross profit	78,459	76,746	1,713	2.2	%
Operating expenses:					
Selling and marketing	54,494	64,039	(9,545)	(14.9)	%
General and administrative	17,143	19,371	(2,228)	(11.5)	%
Research and development	3,223	2,905	318	10.9	%
Total operating expenses	74,860	86,315	(11,455)	(13.3)	%
Operating income (loss)	3,599	(9,569)	13,168		
Other income (expense):					
Interest income	65	15	50		
Interest expense	(466)	(140)	(326)		
Other	(11)	464	(475)		
Total other income (expense)	(412)	339	(751)		
Income (loss) before income taxes	3,187	(9,230)	12,417		
Income tax expense	686	588	98		
Income (loss) from continuing operations	2,501	(9,818)	12,319		
Loss from discontinued operation, net of income taxes	(1,081)	(13,023)	11,942		
Net income (loss)	\$1,420	\$(22,841)	\$24,261		

The following table compares the net sales and gross margins of our business segments for the years ended December 31, 2011 and 2010 (in thousands):

	Year Ended December 31,		Change	%	
	2011	2010			Change
Net sales:					
Direct	\$107,061	\$96,668	\$10,393	10.8	%
Retail	68,591	67,789	802	1.2	%
Royalty income	4,760	3,993	767	19.2	%
Total net sales	\$180,412	\$168,450	\$11,962	7.1	%
Gross profit:					
Direct	\$57,655	\$54,041	\$3,614	6.7	%
Retail	16,044	18,711	(2,667)	(14.3)	%
Royalty income	4,760	3,994	766	19.2	%
Total gross profit	\$78,459	\$76,746	\$1,713	2.2	%
Gross margin:					
Direct	53.9	%	55.9	%	(200) basis points

Retail 23.4 % 27.6 % (420) basis points

The following table compares the net sales of our major product lines within each business segment for the years ended December 31, 2011 and 2010 (in thousands):

16

⁽¹⁾ Cardio products include treadclimbers, treadmills, exercise bikes and ellipticals.

⁽²⁾ Strength products include home gyms, selectorized dumbbells, kettlebell weights, weight benches and CoreBody Reformer.

Direct

Net sales of our Direct business were \$107.1 million in 2011, an increase of \$10.4 million, or 10.8%, compared to Direct net sales of \$96.7 million in 2010. Revenues of cardio products in our Direct channel increased by 39.6% in 2011, compared to 2010, primarily due to higher sales of Bowflex TreadClimber products. The increase in Direct sales of cardio products was partially offset by a 26.5% decline in Direct sales of strength products, primarily rod-based home gyms. The decline in sales of rod-based home gyms is attributable in part to the cessation of television advertising for these products, as television ad spending on this mature product category was generating unsatisfactory returns. We have marketed rod-based home gyms through more cost efficient online media since early 2011.

In September 2010, we completed our transition to a new consumer credit program with a new primary third-party financing provider, GE Capital Retail Bank, formerly GE Money Bank ("GE"). The relationship with GE has expanded the ability of our customers to obtain third-party consumer financing for buying our products. In addition, we added one secondary third-party consumer credit financing provider during the third quarter of 2010 and another in early 2011, both of which offer credit to certain qualified consumers whose credit applications have been declined by GE. As a result, combined consumer credit approvals by our primary and secondary U.S. third-party financing providers increased from 15% in 2010 to 25% in 2011. We expect that average consumer credit financing approval rates in 2012 will approximate the 2011 level or improve modestly as we continue to optimize our credit program offerings.

Gross margin of our Direct business was 53.9% in 2011, a decrease of 200 basis points compared to 2010. The comparative decrease in Direct gross margin was primarily attributable to relatively higher warranty costs associated with cardio products, as compared to strength products, increased costs of certain products, largely arising from changes in foreign currency exchange rates, and higher year-over-year sales of in-home assembly services, which are sold at low margins.

Retail

Net sales of our Retail business were \$68.6 million in 2011, an increase of \$0.8 million, or 1.2%, compared to Retail net sales of \$67.8 million in 2010, primarily driven by growth among our e-commerce Retail customers. In 2011, Retail sales of strength products increased by 2.9%, primarily due to higher sales of home gyms, and sales of cardio products increased by 0.2%, compared to 2010.

Gross margin of our Retail business was 23.4% in 2011, a decrease of 420 basis points compared to 2010, primarily due to increased costs of certain products, largely arising from changes in foreign currency exchange rates, and higher supply chain costs, including freight.

Operating Expenses

Operating expenses were \$74.9 million in 2011, a decrease of \$11.5 million, or 13.3%, compared to operating expenses of \$86.3 million in 2010. This reduction was achieved primarily through more effective media advertising, which enabled more

Table of Contents

efficient spending. In addition, general and administrative expenses decreased by \$2.2 million in 2011, compared to 2010.

Selling and Marketing

Selling and marketing expenses were \$54.5 million in 2011, a decrease of \$9.5 million, or 14.9%, compared to 2010. Advertising expense of our Direct business, a component of selling and marketing expenses, in 2011 was \$28.6 million, a decrease of \$12.0 million, or 29.6%, compared to 2010. The comparative decrease in Direct advertising expenses was primarily attributable to management's decision in early 2011 to shift advertising away from the mature home-gym category and to increase the media investment in our TreadClimber product line. Since early 2011, we have marketed home gyms through more cost efficient online media. Lower comparable Direct advertising expenses were offset in part by higher consumer credit financing costs, as a result of sequentially improving consumer credit approval rates, and the availability of additional secondary consumer financing providers in 2011, as compared to 2010.

General and Administrative

General and administrative expenses were \$17.1 million in 2011, a decrease of \$2.2 million, or 11.5%, compared to 2010, primarily due to lower depreciation, personnel and occupancy expenses.

Research and Development

Research and development expenses were \$3.2 million in 2011, an increase of \$0.3 million, or 10.9%, compared to 2010, as we increased our investment in new product development resources and capabilities.

Other Income and Expense

Interest Expense

We incurred interest expense of \$0.5 million in 2011 in connection with our long-term note payable, compared to \$0.1 million in 2010. We have not borrowed under our current financing agreement with Bank of the West, other than to fund our outstanding letters of credit.

Other Expense

Other expense was less than \$0.1 million in 2011, compared to \$0.5 million in 2010, primarily due to changes in foreign currency exchange gains and losses.

Income Tax Expense

Income tax expense was \$0.7 million in 2011, compared to income tax expense of \$0.6 million in 2010, and primarily relates to taxable income generated in Canada and the result of the Company's uncertain tax positions.

We increased our valuation allowances in 2010 to reduce U.S. deferred income tax assets generated during the respective years to the amounts expected, more likely than not, to be realized. As a result, generally we did not recognize U.S. income tax benefits associated with our operating loss in 2010.

Discontinued Operation

Loss from discontinued operation, net of income taxes, was \$1.1 million in 2011, compared to a loss of \$13.0 million in 2010, as we completed the disposal of the assets of our former Commercial business in April 2011. Loss from discontinued operation in 2011 and 2010 was net of reductions of \$0.9 million and \$3.7 million, respectively, in the amount of pre-tax disposal loss previously estimated in connection with the divestiture of our Commercial business. Some expenses may be incurred in 2012 in connection with the settlement of contingencies arising from and directly related to our Commercial business prior to its disposal.

LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2011, we had \$17.4 million of cash and cash equivalents, compared to \$14.3 million as of December 31, 2010. The principal source of this increase in liquidity was cash provided by operating activities of \$4.6 million in 2011, compared to cash used in operating activities of \$10.7 million in 2010. Management believes that sufficient funds will be

Table of Contents

available to meet our expected cash needs for at least the next twelve months, based on cash currently on hand and anticipated cash flows from operations.

Cash provided by operating activities of \$4.6 million in 2011 consisted primarily of income from continuing operations, partially offset by loss from discontinued operation, as adjusted for non-cash items. Cash provided by a \$4.0 million increase in trade payables was more than offset by a \$4.6 million increase in trade receivables and a \$1.3 million increase in inventories.

Cash used in operating activities of \$10.7 million in 2010 consisted primarily of losses from continuing and discontinued operations of \$22.8 million and reductions in trade payables and accrued liabilities of \$12.6 million and \$6.3 million, respectively, partially offset by \$12.4 million from income tax refunds, net of payments, \$7.2 million from the reduction of trade receivables and \$6.3 million from the reduction of inventories. Significant reductions in trade receivables, trade payables and accrued liabilities in 2010 largely resulted from winding down our discontinued Commercial business.

The following table presents comparative cash flows related to trade receivables and inventories for the years ended December 31, 2011 and 2010 (in thousands):

	Year Ended December 31,		
	2011	2010	Change
Trade receivables:			
Collections	\$175,832	\$188,290	\$(12,458)
Sales on account	(180,412)	(181,043)	631
Net cash (used)/provided by trade receivables	\$(4,580)	\$7,247	\$(11,827)
Inventories:			
Shipments	\$78,139	\$81,980	\$(3,841)
Purchases	(79,426)	(75,637)	(3,789)
Net cash (used)/provided by inventories	\$(1,287)	\$6,343	\$(7,630)

Cash used in investing activities of \$0.9 million in 2011 included \$2.5 million used to purchase computer software and production tooling, partially offset by \$1.3 million in proceeds from the sale of portions of our discontinued Commercial business and \$0.4 million from a decrease in the amount of restricted cash collateralizing our outstanding letters of credit.

Cash provided by investing activities of \$11.6 million in 2010 included \$7.3 million in proceeds from the sale of portions of our discontinued Commercial business and \$4.6 million from a decrease in the amount of restricted cash collateralizing our outstanding letters of credit.

Cash used in financing activities in 2011 was less than \$0.1 million for payment of bank financing costs. Cash provided by financing activities in 2010 of \$4.7 million consisted of \$5.0 million in long-term borrowings, partially offset by \$0.3 million paid for financing costs related to our new bank agreement and long-term borrowings.

Financing Arrangements

We have a Loan and Security Agreement (the "Loan Agreement") with Bank of the West, which provides a revolving secured credit line of up to \$15.0 million. The amount available for borrowings varies based upon the total amount of eligible accounts receivable and inventory as of the end of the preceding month. The Loan Agreement is available for working capital, standby letters of credit and general corporate purposes through August 31, 2012, assuming we satisfy certain terms and conditions at the time borrowings are requested. The interest rate on future borrowings, if any, under the Loan Agreement will be based on the bank's Base Rate plus 150 to 225 basis points or LIBOR plus 225

to 325 basis points and our financial condition at the time we elect to borrow (our borrowing rate was 3.01% as of December 31, 2011). The Loan Agreement includes a fee for the unused portion of the credit facility, which will vary depending on our borrowing base availability.

The Loan Agreement is collateralized by substantially all of our assets and contains customary covenants, including minimum current ratio, minimum liquidity, minimum EBITDA (as defined in the Loan Agreement) and limitations on capital expenditures, mergers and acquisitions, indebtedness, liens, dispositions, dividends and investments. The Loan Agreement also contains customary events of default. Upon an event of default, the bank would have the option of accelerating all obligations under the Loan Agreement. Standby letters of credit under the Loan Agreement are treated as a reduction of our available

Table of Contents

borrowing base.

On July 20, 2011, we entered into a Third Amendment (the “Amendment”) of the Loan Agreement. The effect of the Amendment was generally to ease the restrictiveness of certain provisions by increasing our borrowing availability, raising the limitation on our capital expenditures and reducing interest rates applicable to any outstanding amounts. The Amendment, dated effective June 30, 2011, increases the amount of eligible accounts receivable for calculating the borrowing base. Specifically, the Amendment (i) permits up to 40% of total accounts receivable included in the borrowing base to consist of receivables of a specific customer, an increase from the prior limitation of 25%; and (ii) permits accounts receivable of certain customers granted extended payment terms to be included in the borrowing base, subject to certain conditions and limitations. In addition, Bank of the West agreed to increase the limitation on our capital expenditures permitted in any one calendar year from \$1,500,000 to \$3,000,000, and to reduce the interest rate margins applied to amounts outstanding under the Loan Agreement.

As of December 31, 2011, we had no outstanding borrowings and \$3.0 million in standby letters of credit issued under the Loan Agreement. As of December 31, 2011, we were in compliance with the financial covenants of the Loan Agreement.

On September 3, 2010, we entered into a Note Purchase Agreement (the “Purchase Agreement”) with certain entities (collectively, the “Sherborne Purchasers”) under common control of Sherborne Investors GP, LLC and its affiliates (collectively “Sherborne”). Sherborne was formerly our largest shareholder and is controlled by Edward J. Bramson, our former Chairman and Chief Executive Officer, and Craig L. McKibben, a former member of our Board of Directors. Pursuant to the Purchase Agreement, we issued to the Sherborne Purchasers \$6,096,996 in aggregate principal amount at maturity of our Increasing Rate Senior Discount Notes due December 31, 2012 (the “Notes”). The Notes have an original principal amount totaling \$5,000,000 and mature on December 31, 2012. The then-outstanding principal amount of the Notes accretes value at rates equal to 2.5% per annum from September 3, 2010 through February 28, 2011; 6.0% per annum from March 1, 2011 through August 31, 2011; 9.5% per annum from September 1, 2011 through February 29, 2012; 13.0% per annum from March 1, 2012 through August 31, 2012; and 14.5% per annum thereafter. If all the Notes are paid on the original maturity date, the effective rate of interest over the term of the Purchase Agreement would be approximately 8.7% per annum. Prepayment of amounts due under the Notes is permitted under the Purchase Agreement, subject to certain restrictions in both the Purchase Agreement and the Loan Agreement.

The Notes provide for an automatic extension of the maturity date of up to 180 days in the event we extend the expiration date of the Loan Agreement. Subsequent to December 31, 2011, we extended the expiration date of the Loan Agreement to December 31, 2012, thereby extending the maturity date of the Notes to May 2, 2013. As of December 31, 2011, the Notes are classified as long-term.

On July 19, 2011, beneficial interest in the Notes was assigned by the Sherborne Purchasers pro-rata to their respective investors in the manner permitted by the Purchase Agreement. Such assignment was made in connection with the resignation, of Messrs. Bramson and McKibben from their respective positions with Nautilus on May 26, 2011, and the subsequent pro-rata distribution by certain Sherborne-affiliated entities to their respective investors of the common stock of the Company owned by such entities.

The Notes are subordinated to the Loan Agreement. The Purchase Agreement includes certain negative covenants, including restrictions on the incurrence of additional indebtedness, liens, liquidation of assets, capital expenditures, payment of dividends, changes in our business operations and change of control transactions. The Purchase Agreement includes customary events of default, including nonpayment, insolvency, breach of warranty or covenant, cross-default of the Loan Agreement, material adverse changes and other events. Upon the occurrence of an event of default all outstanding obligations under the Notes may be declared due and payable. The accretion rate of the Notes may be increased by 2% per annum during the continuance of an event of default.

Non-Cancelable Contractual Obligations

Our operating cash flows include the effect of certain non-cancelable, contractual obligations. A summary of such obligations as of December 31, 2011, including those related to our discontinued Commercial operation, is as follows (in thousands):

20

Table of Contents

	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Operating lease obligations	\$ 18,229	\$ 2,836	\$ 6,271	\$ 5,589	\$ 3,533
Purchase obligations ⁽¹⁾	10,617	10,617	—	—	—
Minimum royalty obligations	306	306	—	—	—
Total	\$ 29,152	\$ 13,759	\$ 6,271	\$ 5,589	\$ 3,533

Our purchase obligations are comprised primarily of inventory purchase commitments. Because substantially all of ⁽¹⁾ our inventory is sourced from Asia, we have long lead times and therefore need to secure factory capacity from our vendors in advance.

Due to uncertainty with respect to the timing of future cash flows associated with our unrecognized tax benefits at December 31, 2011, we are unable to make reasonably reliable estimates of the timing of any cash settlements with the respective taxing authorities. Therefore, approximately \$5.9 million of unrecognized tax benefits, including interest and penalties on uncertain tax positions, have been excluded from the contractual table above. For further information, refer to Note 11, Income Taxes, to our consolidated financial statements in Part II, Item 8 of this report.

Off-Balance Sheet Arrangements

Prior to its divestiture, our discontinued Commercial business would, from time-to-time, involve a third-party with lease and financing arrangements to assist customers in purchasing products. While most of these financings were without recourse, in certain cases we offered a guarantee or other recourse provisions, whereby a third-party financing provider reviewed customer credit information in evaluating the risk of default prior to extending credit to a customer and we relied on the quality of this review and our own risk assessment in determining whether to proceed with the recourse transaction. As of December 31, 2011, the maximum contingent liability under all recourse provisions was approximately \$0.8 million. For further information, refer to Note 15, Commitments and Contingencies, to our consolidated financial statements in Part II, Item 8 of this report.

In the ordinary course of business, we enter into agreements that require us to indemnify counterparties against third-party claims. These may include: agreements with vendors and suppliers, under which we may indemnify them against claims arising from our use of their products or services; agreements with customers, under which we may indemnify them against claims arising from their use or sale of our products; real estate and equipment leases, under which we may indemnify lessors against third party claims relating to the use of their property; agreements with licensees or licensors, under which we may indemnify the licensee or licensor against claims arising from their use of our intellectual property or our use of their intellectual property; and agreements with parties to debt arrangements, under which we may indemnify them against claims relating to their participation in the transactions.

The nature and terms of these indemnifications vary from contract to contract, and generally a maximum obligation is not stated. We hold insurance policies that mitigate potential losses arising from certain types of indemnifications. Because we are unable to estimate our potential obligation, and because management does not expect these obligations to have a material adverse effect on our consolidated financial position, results of operations or cash flows, no liabilities are recorded at December 31, 2011.

Seasonality

We expect our sales from fitness equipment products to vary seasonally. Sales are typically strongest in the first and fourth quarters, followed by the third quarter, and are generally weakest in the second quarter. We believe that various factors, such as the broadcast of network season finales and seasonal weather patterns, influence television viewers and cause our advertising on cable television stations to be less effective in the second quarter than in other periods. In

addition, during the spring and summer months, consumers tend to be involved in outdoor activities, including outdoor exercise, which impacts sales of indoor fitness equipment. This seasonality can have a significant effect on our inventory levels, working capital needs and resource utilization.

NEW ACCOUNTING PRONOUNCEMENTS

No new accounting pronouncements had a material impact on our consolidated financial position, results of operations or cash flows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Nautilus, Inc.
Vancouver, Washington

We have audited the accompanying consolidated balance sheets of Nautilus, Inc. and subsidiaries (the "Company") as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders' equity and comprehensive income (loss), and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Nautilus Inc. and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(1) SIGNIFICANT ACCOUNTING POLICIES

Organization and Business - Nautilus is a leading designer, developer and marketer of consumer fitness products sold under well-known brand names such as Nautilus®, Bowflex®, Schwinn® and Universal®. As used herein, the term “Nautilus” or “Company” refers to Nautilus, Inc. and subsidiaries, unless the context indicates otherwise. The Company's goal is to develop and market fitness equipment and related products to help people enjoy healthier lives. Nautilus was founded in 1986 and incorporated in the State of Washington in 1993. The Company's headquarters are located in Vancouver, Washington.

The Company markets its products through two reportable segments: Direct and Retail, each representing a distinct marketing distribution channel. The Direct segment offers products directly to consumers through direct advertising, catalogs and the Internet. The Retail segment offers products through a network of independent retail companies with stores located in the United States and Canada, as well as Internet-based merchandising.

The Company's Commercial business, formerly a reportable segment and classified as a discontinued operation beginning in 2009, offered products to health clubs, schools, hospitals and other organizations. On September 25, 2009, the Company committed to a plan for the complete divestiture of its Commercial business. Accordingly, results of operations and certain assets associated with the commercial business have been presented in the consolidated financial statements as discontinued operations for all periods presented.

Basis of presentation - The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and relate to Nautilus, Inc. and its subsidiaries, all of which are wholly-owned, directly or indirectly. Intercompany transactions and balances have been eliminated in consolidation.

Year-end - The Company's fiscal year ends on December 31.

Use of estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses and the disclosure of contingent assets and liabilities in the financial statements. Actual results could differ from those estimates.

Concentrations of risk - Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash held in bank accounts in excess of federally-insured limits and trade receivables. Trade receivables are generally unsecured and therefore collection is affected by the economic conditions in each of the Company's principal markets.

Nautilus relies on third-party contract manufacturers in Asia for substantially all of its products and for certain product engineering support. Business operations could be disrupted by natural disasters, difficulties in transporting products from non-U.S. suppliers, as well as political, social or economic instability in the countries where contract manufacturers or their vendors or customers conduct business. While any such contract manufacturing arrangement could be replaced over time, the temporary loss of the services of any primary contract manufacturer could delay product shipments and cause a significant disruption in the Company's operations.

Nautilus derives a significant portion of its revenues from a small number of its Retail customers. A loss of business from one or more of these large customers, if not replaced with new business, would negatively affect the Company's

operating results and cash flows.

Cash, cash equivalents and restricted cash - All highly liquid investments with remaining maturities of three months or less at purchase are considered to be cash equivalents. Restricted cash consists of bank balances pledged as collateral for outstanding letters of credit.

Inventories - Inventories are stated at the lower of cost or market, with cost determined based on the first-in, first-out method. The Company establishes inventory allowances for excess, slow-moving and obsolete inventory based on inventory levels, expected product life and forecasted sales. Inventories are written down to market value based on historical demand, competitive factors, changes in technology and product lifecycles.

Table of Contents

Property, plant and equipment - Property, plant and equipment is stated at cost, net of accumulated depreciation. Improvements or betterments which add new functionality or significantly extend the life of an asset are capitalized. Expenditures for maintenance and repairs are expensed as incurred. The cost of assets retired, or otherwise disposed of, and the related accumulated depreciation, are removed from the accounts at the time of disposal. Gains and losses resulting from asset sales and dispositions are recognized in the period in which assets are disposed. Depreciation is recognized, using the straight-line method, over the lesser of the estimated useful lives of the assets or, in the case of leasehold improvements, the lease term, including renewal periods if the Company expects to exercise its renewal options. Depreciation on furniture, equipment and information systems is determined based on estimated useful lives, which generally range from three-to-five years.

Goodwill - Goodwill consists of the excess of acquisition costs over the fair values of net assets acquired in business combinations. Nautilus reviews goodwill for impairment in the fourth quarter of each year, or more frequently when events or changes in circumstances indicate that the assets may be impaired. The impairment test is a two-step process. In the first step, the Company compares the carrying value of the related reporting unit to an estimate of the reporting unit's fair value. In the second step, if the carrying value of the reporting unit exceeds its estimated fair value, the estimated fair values of all of the reporting unit's assets and liabilities are determined to establish the amount of the impairment, if any. In the fourth quarter of 2011, the Company adopted Accounting Standards Update No. 2011-08, Testing Goodwill for Impairment ("ASU 2011-08"), which gives companies the option of performing a qualitative assessment that may allow them to avoid performing the first step of the two-step goodwill impairment test.

The Company performed a qualitative assessment of goodwill in the fourth quarter of 2011 and no impairment was indicated. The Company performed the first step of the two-step goodwill test in the fourth quarter of 2010 and no impairment was indicated. For further information regarding goodwill, see Note 6, Goodwill.

Other intangible assets - Finite-lived intangible assets, primarily acquired patents and patent rights, are stated at cost, net of accumulated amortization. The Company recognizes amortization expense for its finite-lived intangible assets on a straight-line basis over the estimated useful lives, which generally range from one to 16 years.

Indefinite-lived intangible assets consist of acquired trademarks. Indefinite-lived intangible assets are stated at cost and are not amortized; instead, they are tested for impairment at least annually. Nautilus reviews indefinite-lived intangible assets for impairment in the fourth quarter of each year, or more frequently when events or changes in circumstances indicate that the assets may be impaired. For further information regarding other intangible assets, see Note 7, Other Intangible Assets.

Impairment of long-lived assets - Long-lived assets, including property, plant and equipment, and finite-lived intangible assets, including patents and patent rights, are evaluated for impairment when events or circumstances indicate the carrying value may be impaired. When such an event or condition occurs, Nautilus estimates the future undiscounted cash flows to be derived from the use and eventual disposition of the asset to determine whether a potential impairment exists. If the carrying value exceeds estimated future undiscounted cash flows, the Company records impairment expense to reduce the carrying value of the asset to its estimated fair value.

Revenue recognition - Direct and Retail product sales and shipping revenues are recorded when products are shipped and title passes to customers. Retail sales to customers are made pursuant to a sales contract that provides for transfer of both title and risk of loss upon our delivery to the carrier. Revenue is recognized net of applicable sales incentives, such as promotional discounts, rebates and return allowances. The Company estimates the revenue impact of incentive programs based on the planned duration of the program and historical experience. If the amount of sales incentives is reasonably estimable, the impact of such incentives is recorded at the later of the time the customer is notified of the sales incentive or the time of the sale. The Company estimates its liability for product returns based on historical

experience and records the expected obligation as a reduction of revenue. If actual return costs differ from previous estimates, the amount of the liability and corresponding revenue are adjusted in the period in which such costs occur.

Taxes collected from customers and remitted to governmental authorities are recorded on a net basis and excluded from revenue. Shipping and handling fees billed to customers are recorded gross and included in both revenue and cost of sales. Many direct business customers finance their purchases through a third-party credit provider, for which Nautilus pays a commission or financing fee to the credit provider. Revenue for such transactions is recognized based on the sales price charged to the customer and the related commission or financing fee is included in selling and marketing expense.

Cost of sales - Cost of sales primarily consists of: inventory costs; royalty costs; employment and occupancy costs of warehouse and distribution facilities, including depreciation of improvements and equipment; transportation expenses; product warranty expenses; distribution information systems expenses; and allocated expenses for shared administrative functions.

Table of Contents

Product warranty obligations - The Company's products carry limited, defined warranties for defects in materials or workmanship which, according to their terms, generally obligate Nautilus to pay the costs of supplying and shipping replacement parts to customers and, in certain instances, pay for labor and other costs to service products. Outstanding product warranty periods range from sixty days to, in limited circumstances, the lifetime of certain product components. The Company records a liability at the time of sale for the estimated costs of fulfilling future warranty claims. If necessary, the Company adjusts its liability for specific warranty-related matters when they become known and are reasonably estimable. Estimated warranty expense is included in cost of sales, based on historical warranty claim experience and available product quality data. Warranty expense is affected by the performance of new products, significant manufacturing or design defects not discovered until after the product is delivered to the customer, product failure rates, and higher or lower than expected repair costs. If warranty expense differs from previous estimates, or if circumstances change such that the assumptions inherent in previous estimates are no longer valid, the amount of product warranty liability is adjusted accordingly.

Uncertainties exist with respect to outstanding warranty obligations of the Company's discontinued Commercial operation, as units sold to customers approach end-of-life and settlements are reached with certain customers in connection with the exit from the commercial business. As of December 31, 2011, the Company's warranty liability included \$0.6 million for future warranty costs of our discontinued Commercial operation, which represents management's estimate of the probable liability. For further information regarding product warranty obligations, see Note 9, Product Warranties.

Litigation and loss contingencies - From time to time, the Company may be involved in various claims, lawsuits and other proceedings. Such litigation involves uncertainty as to the eventual outcomes and losses which may be realized when one or more future events occur or fail to occur. Nautilus records expenses for litigation and loss contingencies when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company estimates the probability of such losses based on the advice of internal and external counsel, the outcomes from similar litigation, the status of the lawsuits (including settlement initiatives), legislative developments and other factors. Due to the numerous variables associated with these judgments and assumptions, both the precision and reliability of the resulting estimates of the related loss contingencies are subject to substantial uncertainties. The Company regularly monitors its estimated exposure to these contingencies and, as additional information becomes known, may change its estimates accordingly. For further information regarding litigation and loss contingencies, see Note 15, Commitments and Contingencies.

Advertising and promotion - Nautilus expenses its advertising and promotion costs as incurred. Production costs of television advertising commercials are recorded as prepaid expenses until the initial broadcast, at which time such costs are expensed. Advertising and promotion costs are included in selling and marketing expenses. Total advertising and promotion expenses were \$28.6 million and \$40.6 million for the years ended December 31, 2011 and 2010, respectively. Prepaid advertising and promotion costs were \$0.8 million as of December 31, 2011 and 2010.

Research and development - Internal research and development costs, which primarily consist of salaries and wages, employee benefits, expenditures for materials, and fees to use licensed technologies, are expensed as incurred. Third party research and development costs for products under development or being researched, if any, are expensed as the contracted work is performed.

Income taxes - Nautilus accounts for income taxes based on the asset and liability method, whereby deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using the enacted tax rates expected to be in effect when the temporary differences are expected to be included, as income or expense, in the applicable tax return. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in the period of the enactment. Valuation allowances are provided

against deferred income tax assets if the Company determines it is more likely than not that such assets will not be realized.

The Company recognizes a tax benefit from an uncertain tax position when it is more likely than not that the position will be sustained based on the technical merits of the position upon examination, including resolutions of any related appeals or litigation.

Foreign currency translation - Nautilus translates the accounts of its non-U.S. subsidiaries into U.S. dollars as follows: revenues, expenses, gains and losses are translated at weighted-average exchange rates during the year; and assets and liabilities are translated at the exchange rate on the balance sheet date. Translation gains and losses are reported in the Company's consolidated balance sheets as a component of accumulated other comprehensive income in stockholders' equity.

Gains and losses arising from foreign currency transactions, including transactions between the Company and its non-U.S. subsidiaries, are recorded as a component of other income (expense) in the Company's consolidated statements of operations.

Table of Contents

Fair value of financial instruments - Financial instruments include cash and cash equivalents, restricted cash, trade receivables, trade payables, long-term note payable, letters of credit and guarantees entered into in the ordinary course of business. The carrying amounts reflected in the Company's consolidated balance sheets approximate fair value due to their market rates of interest and/or short-term maturities.

Stock-based compensation - Nautilus recognizes stock-based compensation expense on a straight-line basis over the applicable vesting period, based on the grant-date fair value of the award. To the extent a stock-based award is subject to performance conditions, the amount of expense recorded in a given period, if any, reflects our assessment of the probability of achieving the performance targets.

Fair value of stock options is estimated using the Black-Scholes-Merton option valuation model; fair value of performance share unit awards is estimated using the binomial valuation model; fair value of restricted stock unit awards is based on the closing market price on the day preceding the grant. Assumptions used in calculating the fair value of stock-option grants in the years ended December 31, 2011 and 2010 were as follows:

	2011		2010	
Dividend yield	—	%	—	%
Risk-free interest rate	1.5	%	2.2	%
Expected life (years)	4.75		4.75	
Expected volatility	92	%	90	%

Expected dividend yield is based on the Company's current expectation that no dividend payments will be made in future periods.

Risk-free interest rate is the U.S. Treasury zero-coupon rate, as of the grant date, for issues having a term approximately equal to the expected life of the stock option.

Expected life is the period of time over which stock options are expected to remain outstanding. The Company calculates expected term based on the average of the sum of the vesting periods and the full contractual term.

Expected volatility is the percentage amount by which the price of Nautilus common stock is expected to fluctuate annually during the estimated expected life for stock options. Expected price volatility is calculated using historical daily closing prices over a period matching the weighted-average expected life, as management believes such changes are the best indicator of future volatility.

The Company estimates future forfeitures, at the time of grant and in subsequent periods, based on historical turnover rates, previous forfeiture experience and changes in the business or key personnel that would suggest future forfeitures may differ from historical data. The Company recognizes compensation expense for only those stock options and stock-based awards that are expected to vest. The Company reevaluates estimated forfeitures each quarter and, if applicable, recognizes a cumulative effect adjustment in the period of the change if the revised estimate of the impact of forfeitures differs significantly from the previous estimate.

Related party transactions - In September 2010, the Company entered into an agreement to borrow \$5.0 million from certain entities under common control of Sherborne Investors GP, LLC and its affiliates (collectively "Sherborne"). At the time, Sherborne was the Company's largest shareholder and was controlled by Edward J. Bramson, the Company's former Chairman and Chief Executive Officer, and Craig L. McKibben, a former member of the Company's Board of Directors. The Company incurred interest expense of \$0.4 million and \$0.1 million with respect to such debt in 2011 and 2010, respectively. The outstanding principal balance of \$5.0 million and accrued interest expense of \$0.5 million and \$0.1 million, respectively, are included in long-term notes payable in the Company's consolidated balance sheets

as of December 31, 2011 and 2010. For further information, see Note 10, Borrowings.

New Accounting Pronouncements - In June 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2011-05, Presentation of Comprehensive Income ("ASU 2011-05"), which revises the manner in which entities present comprehensive income in their financial statements. For public entities, ASU 2011-05 amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Since the requirements of ASU 2011-05 relate only to presentation, its adoption will not have any effect on the Company's financial position, results of

31

Table of Contents

operations or cash flows.

In the fourth quarter of 2011, the Company adopted ASU 2011-08, which gives companies the option of performing a qualitative assessment that may allow them to avoid performing the first step of the two-step goodwill impairment test required under Accounting Standards Topic 350, Intangibles-Goodwill and Other. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, although early adoption is permitted. The adoption of ASU 2011-08 did not have any effect on the Company's financial position, results of operations or cash flows.

(2) DISCONTINUED OPERATION

On September 25, 2009, in light of continuing operating losses in its Commercial business and in order to focus exclusively on managing its Direct and Retail consumer businesses, the Company committed to a plan for the complete divestiture of its Commercial business, which qualified for held-for-sale accounting treatment. The Commercial business is presented as a discontinued operation in the Company's condensed consolidated statements of operations for all periods. Following is a summary of the operating results of the Company's former Commercial business for the years ended December 31, 2011 and 2010 (in thousands):

	2011		2010	
Revenue	\$86		\$12,593	
Operating loss before income taxes	\$(2,011)	\$(16,647)
Disposal gain	946		3,723	
Income tax expense	(16)	(99)
Total loss from discontinued operation	\$(1,081)	\$(13,023)

Disposal of Commercial business assets was completed in April 2011. Revenue for the year ended December 31, 2011 consisted of sales of small quantities of discontinued product and spare parts inventories that were not acquired by buyers of components of the Commercial business. The Company may incur additional expenses in future periods in connection with the settlement of contingencies arising from and directly related to the Commercial business prior to its disposal. For further information regarding contingencies related to the Company's former Commercial business, see Note 15, Commitments and Contingencies.

The following table presents gain or (loss) recognized on completed disposal transactions for the year ended December 31, 2011 (in thousands):

	Previously Estimated Disposal Loss as of 12/31/10	Gain (Loss) on Completed Disposals	Reduction of Previously Estimated Disposal Loss	Disposal Loss Impairment as of 12/31/11
Sales of real property	\$(666)	\$(658)
Adjustments of previously completed disposal transactions	—		938	
Total	\$(666)	\$280	
			\$8	\$—
			938	—
			\$946	\$—

The following table presents gain or (loss) recognized on completed disposal transactions for the year ended December 31, 2010 (in thousands):

Table of Contents

	Previously-Estimated Disposal Loss as of 12/31/09	Gain (Loss) on Completed Disposals	Adjustments to Estimated Disposal Loss	Reduction (Increase) to Previously-Estimated Disposal Loss	Disposal Loss Impairment as of 12/31/10
Sale of commercial equipment manufacturing operation	\$ (6,212)	\$(3,967)		\$ 2,245	
Sale of commercial equipment manufacturing facility	(1,268)	(706)		562	
Sale of European commercial business operations	(1,618)	(1,109)		509	
Other completed disposals	(724)	(459)		265	
Adjustments of previously completed disposal transactions	—	364		364	
Remaining assets held-for-sale as of December 31, 2010	(444)	—	\$(222)	(222)	\$(666)
Total	\$ (10,266)	\$(5,877)	\$(222)	\$ 3,723	\$(666)

As of December 31, 2010, assets held-for-sale of the commercial business discontinued operation and related disposal loss impairments were as follows (in thousands):

Carrying value, before impairment adjustment	Real Property \$958
Disposal loss impairment	(666)
Assets of discontinued operation held-for-sale, net	\$292

The following table summarizes liabilities for exit costs related to discontinued operations, included in "Accrued liabilities" and "Other long-term liabilities" in the Company's consolidated balance sheets (in thousands):

	Severance and Benefits	Facilities and Other Leases	Total Liabilities
Balance as of January 1, 2010	\$ 321	\$1,454	\$1,775
Accruals	1,460	1,355	2,815
Payments	(1,305)	(649)	(1,954)
Balance as of December 31, 2010	476	2,160	2,636
Accruals	175	217	392
Payments	(476)	(448)	(924)
Balance as of December 31, 2011	\$ 175	\$1,929	\$2,104

(3) TRADE RECEIVABLES

Changes in the Company's allowance for doubtful trade receivables in the years ended December 31, 2011 and 2010 were as follows (in thousands):

2011	2010
------	------

Edgar Filing: NAUTILUS, INC. - Form 10-K

Balance, January 1	\$ 301	\$ 4,160
Charges to bad debt expense	156	486
Writeoffs, net of recoveries	(157)	(4,345)
Balance, December 31	\$ 300	\$ 301

Writeoffs, net of recoveries, in 2010 primarily consisted of uncollectible trade receivables of the Company's Commercial business discontinued operation.

Table of Contents

(4) INVENTORIES

Inventories, net of valuation allowances, as of December 31, 2011 and 2010 consisted of the following (in thousands):

	December 31,	
	2011	2010
Finished goods	\$9,832	\$8,533
Parts and components	1,769	1,814
Total inventories	\$11,601	\$10,347

Valuation allowances were \$1.0 million and \$1.1 million as of December 31, 2011 and 2010, respectively, and related primarily to excess parts inventories.

(5) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment as of December 31, 2011 and 2010 consisted of the following (in thousands):

	Estimated Useful Life (in years)	December 31,	
		2011	2010
Leasehold improvements	5 to 20	\$2,557	\$2,588
Computer equipment	3 to 5	36,872	38,033
Machinery and equipment	3 to 5	4,759	6,703
Furniture and fixtures	5	666	955
Work in progress ¹	N/A	1,937	101
Total cost		46,791	48,380
Accumulated depreciation		(42,386)	(44,585)
Total property, plant and equipment, net		\$4,405	\$3,795

¹ Work in progress includes internal use software development and production tooling construction in progress.

Depreciation expense was \$1.6 million and \$4.5 million in 2011 and 2010, respectively.

(6) GOODWILL

No goodwill is assigned to the Retail reporting unit. Changes in goodwill of the Direct reporting unit in the years ended December 31, 2011 and 2010 were as follows (in thousands):

	Goodwill
Balance, January 1, 2010	\$2,794
Currency exchange rate adjustment	137
Balance, December 31, 2010	2,931
Currency exchange rate adjustment	(58)
Balance, December 31, 2011	\$2,873

(7) OTHER INTANGIBLE ASSETS

Intangible assets as of December 31, 2011 and 2010 consisted of the following (in thousands):

Table of Contents

	Estimated Useful Life (in years)	December 31,	
		2011	2010
Indefinite life trademarks	N/A	\$9,052	\$9,052
Patents	1 to 16	18,154	18,154
Total cost		27,206	27,206
Accumulated amortization - patents		(10,490)	(8,432)
Total other intangible assets, net		\$16,716	\$18,774

Amortization expense for intangible assets was \$2.1 million for each of the years ended December 31, 2011 and 2010. Amortization expense for intangible assets is expected to be approximately \$2.1 million for each of the years 2012 through 2013 and \$2.0 million in 2014, with the remaining \$1.5 million amortized over the six-year period from 2015 through 2020.

(8) ACCRUED LIABILITIES

Accrued liabilities as of December 31, 2011 and 2010 consisted of the following (in thousands):

	December 31,	
	2011	2010
Exit costs of discontinued operation	\$796	\$1,107
Payroll and benefits	2,389	1,954
Royalties	821	753
Legal and professional fees	825	488
Other	2,387	2,743
Total accrued liabilities	\$7,218	\$7,045

(9) PRODUCT WARRANTIES

Changes in the Company's product warranty liability in the years ended December 31, 2011 and 2010 were as follows (in thousands):

	2011	2010
Balance, January 1	\$3,935	\$8,379
Accruals	1,789	1,417
Adjustments	(660)	(1,166)
Payments	(3,047)	(4,695)
Balance, December 31	\$2,017	\$3,935

Product warranty payments in 2011 and 2010 primarily relate to retained obligations of the Company's discontinued Commercial operation. Product warranty liability adjustments in 2011 and 2010 primarily relate to the assignment of certain outstanding Commercial warranty obligations to the buyers of certain components of our former Commercial business. As of December 31, 2011 and 2010, total outstanding obligations of the Company's discontinued Commercial operation included in product warranty liability were \$0.6 million and \$2.9 million, respectively.

(10) BORROWINGS

The Company has a Loan and Security Agreement (the "Loan Agreement") with Bank of the West, which provides a revolving secured credit line of up to \$15.0 million. The amount available for borrowings varies based upon the total amount of eligible accounts receivable and inventory as of the end of the preceding month. The Loan Agreement is available for working capital, standby letters of credit and general corporate purposes through August 31, 2012, assuming the Company satisfies certain terms and conditions at the time borrowings are requested. The interest rate on future borrowings, if any, under the Loan Agreement will be based on the bank's Base Rate plus 150 to 225 basis points or LIBOR plus 225 to 325 basis points and the Company's financial condition at the time it elects to borrow (the Company's borrowing rate was 3.01% as of December 31, 2011). The Loan Agreement includes a fee for the unused portion of the credit facility, which will vary depending on the Company's

Table of Contents

borrowing base availability.

The Loan Agreement is collateralized by substantially all of the Company's assets and contains customary covenants, including minimum current ratio, minimum liquidity, minimum EBITDA (as defined in the Loan Agreement) and limitations on capital expenditures, mergers and acquisitions, indebtedness, liens, dispositions, dividends and investments. The Loan Agreement also contains customary events of default. Upon an event of default, the bank would have the option of accelerating all obligations under the Loan Agreement. Standby letters of credit under the Loan Agreement are treated as a reduction of the Company's available borrowing base.

On July 20, 2011, the Company and Bank of the West entered into a Third Amendment (the "Amendment") of the Loan Agreement. The effect of the Amendment is generally to ease the restrictiveness of certain provisions by increasing the borrowing availability, raising the limitation on capital expenditures and reducing interest rates applicable to any outstanding amounts. The Amendment, dated effective as of June 30, 2011, increases the amount of eligible accounts receivable for calculating the borrowing base. Specifically, the Amendment (i) permits up to 40% of total accounts receivable included in the borrowing base to consist of receivables of a specific customer, an increase from the prior limitation of 25%; and (ii) permits accounts receivable of certain customers granted extended payment terms to be included in the borrowing base, subject to certain conditions and limitations. In addition, the Company and Bank of the West agreed to increase the limitation on the Company's capital expenditures permitted in any one calendar year from \$1,500,000 to \$3,000,000, and to reduce the interest rate margins applied to amounts outstanding under the Loan Agreement.

As of December 31, 2011, the Company had no outstanding borrowings and \$3.0 million in standby letters of credit issued under the Loan Agreement. As of December 31, 2011, the Company was in compliance with the financial covenants of the Loan Agreement.

On September 3, 2010, the Company entered into a Note Purchase Agreement (the "Purchase Agreement") with certain entities (collectively, the "Sherborne Purchasers") under common control of Sherborne Investors GP, LLC and its affiliates (collectively "Sherborne"). Sherborne was formerly the Company's largest shareholder and is controlled by Edward J. Bramson, the Company's former Chairman and Chief Executive Officer, and Craig L. McKibben, a former member of the Company's Board of Directors.

Pursuant to the Purchase Agreement, the Company issued to the Sherborne Purchasers \$6,096,996 in aggregate principal amount at maturity of its Increasing Rate Senior Discount Notes due December 31, 2012 (the "Notes"). The Notes have an original principal amount totaling \$5,000,000. The outstanding principal amount of the Notes accretes value at rates equal to 2.5% per annum from September 3, 2010 through February 28, 2011; 6.0% per annum from March 1, 2011 through August 31, 2011; 9.5% per annum from September 1, 2011 through February 29, 2012; 13.0% per annum from March 1, 2012 through August 31, 2012; and 14.5% per annum thereafter. If all the Notes are paid on the original maturity date, the effective rate of interest over the term of the Purchase Agreement would be approximately 8.7% per annum, which is the rate at which interest expense is accrued by the Company. Prepayment of amounts due under the Notes is permitted under the Purchase Agreement, subject to certain restrictions in both the Purchase Agreement and the Loan Agreement.

The Notes provide for an automatic extension of the maturity date of up to 180 days in the event we extend the expiration date of the Loan Agreement. Subsequent to December 31, 2011, the Company extended the expiration date of the Loan Agreement to December 31, 2012, thereby extending the maturity date of the Notes to May 2, 2013. As of December 31, 2011, the Notes are classified as long-term.

On July 19, 2011, beneficial interest in the Notes was assigned by the Sherborne Purchasers pro-rata to their respective investors in the manner permitted by the Purchase Agreement. Such assignment was made in connection with the resignation, of Messrs. Bramson and McKibben from their respective positions with Nautilus on May 26, 2011, and the subsequent pro-rata distribution by certain Sherborne-affiliated entities to their respective investors of the common stock of the Company owned by such entities.

The Notes are subordinated to the Loan Agreement. The Purchase Agreement includes certain negative covenants, including restrictions on the incurrence of additional indebtedness, liens, liquidation of assets, capital expenditures, payment of dividends, changes in the Company's business operations and change of control transactions. The Purchase Agreement includes customary events of default, including nonpayment, insolvency, breach of warranty or covenant, cross-default of the Loan Agreement, material adverse changes and other events. Upon the occurrence of an event of default all outstanding obligations under the Notes may be declared due and payable. The accretion rate of the Notes may be increased by 2% per annum during the continuance of an event of default.

(11) INCOME TAXES

Table of Contents

Income (loss) from continuing operations before income taxes in the years ended December 31, 2011 and 2010 consisted of the following (in thousands):

	2011	2010
United States	\$2,876	\$(11,077)
Non-U.S.	311	1,847
Total income (loss) from continuing operations before income taxes	\$3,187	\$(9,230)

Income tax expense for continuing operations in the years ended December 31, 2011 and 2010 consisted of the following (in thousands):

	2011	2010
Current:		
U.S. federal	\$172	\$(349)
U.S. state	26	26
Non-U.S.	77	656

Non-current deferred income tax liabilities	(1,434)	(1,008)
Net deferred income tax liability	\$(2,124)	\$(1,716)

Following is a reconciliation of the U.S. statutory federal income tax rate with the Company's effective income tax rate for continuing operations in years ended December 31, 2011 and 2010:

Table of Contents

	2011		2010	
U.S. statutory income tax rate	35.0	%	35.0	%
State tax, net of U.S. federal tax benefit	5.2		2.2	
Nondeductible incentive stock option expense	—		0.2	
Non-U.S. income taxes	2.1		13.1	
Effect of double taxation dividend received	—		(13.6))
Nondeductible operating expenses	(1.8))	(0.1))
Research and development credit	(2.6))	—	
Change in deferred tax measurement rate	(0.3))	0.3	
Change in uncertain tax positions	13.0		(1.0))
Valuation allowance	(29.0))	(40.4))
Other	(0.1))	(2.1))
Effective income tax rate	21.5	%	(6.4))%

Nautilus must periodically evaluate the potential realization of its deferred income tax assets and, if necessary, record a valuation allowance to reduce the net carrying value of such assets to the amount expected to be realized. In 2011 and 2010 Nautilus concluded that cumulative taxable losses in recent years indicated a valuation allowance against its deferred income tax assets was required. If and when a review of objective evidence indicates that some or all of the Company's valuation allowance is no longer appropriate, release of the valuation allowance would be recognized as an income tax benefit to continuing operations in the period in which such assessment is made. The amount of valuation allowance offsetting the Company's deferred income tax assets was \$60.3 million and \$59.6 million as of December 31, 2011 and 2010, respectively.

Nautilus has net operating loss, capital loss and income tax credit carryforwards in various jurisdictions, all of which are fully offset by valuation allowances and are available to offset future taxable income, if any. The timing and manner in which the Company is permitted to utilize its net operating loss carryforwards may be limited by Internal Revenue Code Section 382, Limitation on Net Operating Loss Carry-forwards and Certain Built-in-Losses Following Ownership Change.

As of December 31, 2011, the Company had the following income tax carryforwards (in millions):

	Amount	Expires in
Net operating loss carryforwards:		
Federal	\$79.0	2029 - 2031
State	106.3	2012 - 2031
Germany	11.4	Indefinite
Switzerland	18.6	2012 - 2018
China	3.7	2012 - 2014
Italy	2.5	2013 - 2016
Federal capital loss carryforward	11.3	2013
Income tax credit carryforwards:		
Federal	2.6	2018 - 2031
State	0.4	2018 - 2022

Under accounting guidance, an uncertain tax position represents the Company's expected treatment of a tax position taken in a filed tax return, or planned to be taken in a future tax return, that has not been reflected in measuring income tax expense for financial reporting purposes. Following is a reconciliation of gross unrecognized tax benefits from uncertain tax positions (excluding the impact of penalties and interest) in the years ended December 31, 2011 and 2010 (in thousands):

Table of Contents

	2011	2010
Balance, January 1	\$3,342	\$3,249
Increases due to tax positions taken in previous periods	1,017	52
Decreases due to tax positions taken in previous periods	—	(75)
Increases due to tax positions taken in the current period	73	125
Decreases due to settlements with taxing authorities	—	—
Decreases due to lapse of statute of limitations	(56)	(9)
Balance, December 31	\$4,376	\$3,342

Of the \$4.4 million of gross unrecognized tax benefits from uncertain tax positions outstanding as of December 31, 2011, \$2.1 million would, if recognized, affect the Company's effective tax rate.

The Company recognizes tax-related interest and penalties as a component of income tax expense. The Company had a cumulative liability for interest and penalties related to uncertain tax positions as of December 31, 2011 and 2010 of \$1.6 million and \$1.2 million, respectively.

The Company's U.S. federal income tax returns for 2003 through 2011 are open to review by the U.S. Internal Revenue Service. The Company's state income tax returns for 2005 through 2011 are open to review, depending on the respective statute of limitation in each state. In addition, the Company files income tax returns in several non-U.S. jurisdictions with varying statutes of limitation.

As of December 31, 2011, the Company believes it is reasonably likely that, within the next 12 months, \$0.9 million of previously unrecognized tax benefits related to certain U.S. and foreign filing positions will be recognized, primarily as reductions to income tax expense, as statutes of limitation expire.

(12) STOCKHOLDERS' EQUITY**Common Stock**

As of December 31, 2011, the Company had 75.0 million authorized shares of common stock, no par value, of which 30.7 million shares were issued and outstanding and 1.5 million shares were reserved for future issuance under our equity compensation plans.

2005 Long-Term Incentive Plan

In 2005 Nautilus shareholders approved the 2005 Long-Term Incentive Plan (the "2005 Plan") to enhance the Company's ability to attract and retain highly qualified personnel and align the long-term interests of participants with those of the shareholders. The 2005 Plan, which is administered by the Company's Compensation Committee of the Board of Directors, authorizes the Company to grant various types of stock-based awards including: stock options, stock appreciation rights, restricted stock, stock units and performance stock grants. Stock options granted under the 2005 Plan shall not have an exercise price less than the fair market value of the Company's common shares on the date of the grant. The exercise price of an option or stock appreciation right may not be reduced without shareholder approval. Stock options generally vest over four years of continuous service, commencing on the date of grant. Stock options granted after the adoption of the 2005 Plan have a seven-year contractual term. Stock options granted under the preceding plan expire after ten years.

Upon its adoption, there were approximately 4.0 million shares available for issuance under the 2005 Plan. The number of shares available for issuance is increased by any shares of common stock which were previously reserved for issuance under the Company's preceding stock option plan, and were not subject to grant on June 6, 2005, or as to which the stock based compensation award is forfeited on or after June 6, 2005. The number of shares available for issuance is reduced by (i) two shares for each share delivered in settlement of any stock appreciation rights, for each share of restricted stock, and for each stock unit or performance unit award, and (ii) one share for each share delivered

in settlement of a stock option award. In no event shall more than 1.0 million aggregate shares of common stock subject to stock options, stock appreciation rights, restricted stock or performance stock unit awards be granted to any one participant in any one year under the 2005 Plan. As of December 31, 2011, 4.1 million shares remained available for future grant under the 2005 Plan.

Stock Options

Stock option activity in the years ended December 31, 2011 and 2010 was as follows (in thousands, except exercise price and

40

Table of Contents

contractual life):

	Total Shares	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value (\$000s)
Options outstanding, January 1, 2010	1,414	\$10.50		
Granted	258	2.73		
Forfeited, cancelled or expired	(472)	10.34		
Exercised	—	—		
Options outstanding, December 31, 2010	1,200	8.80	4.3	\$22
Vested and expected to vest, as of December 31, 2010	1,171	8.88	4.3	22
Options outstanding, January 1, 2011	1,200	8.80		
Granted	124	2.69		
Forfeited, cancelled or expired	(287)	6.52		
Exercised	(3)	1.68		
Options outstanding, December 31, 2011	1,034	8.72	3.2	18
Vested and expected to vest, as of December 31, 2011	1,032	8.73	3.2	18

Aggregate intrinsic value in the above table represents the aggregate amount, for all options, by which closing share prices exceed the exercise price of the stock options. This value will fluctuate in the future based on the fair market value of our common stock.

Stock option expense was less than \$0.1 million in 2011 and \$0.4 million in 2010, primarily included in general and administrative expense. The weighted average grant-date fair values of stock options granted during 2011 and 2010 were \$1.86 and \$1.89, respectively. As of December 31, 2011, the unamortized compensation expense for unvested stock options totaled approximately \$0.3 million, which is expected to be recognized over a weighted average period of 2.0 years.

Stock options outstanding as of December 31, 2011 were as follows: (in thousands, except contractual life and exercise price):

Range of Exercise Prices	Number Outstanding	Options Outstanding		Options Exercisable	
		Weighted Average Remaining Contractual Life (Years)	Weighted- Average Exercise Price	Number of Options Exercisable	Weighted- Average Exercise Price
\$0.95 - \$2.53	210	4.5	\$2.05	86	\$2.03
\$2.97 - \$3.40	207	4.6	2.99	56	3.02
\$4.15 - \$6.61	218	2.8	4.63	181	4.62
\$9.53 - \$16.10	267	1.8	14.91	267	14.91
\$17.36 - \$27.72	132	2.1	22.39	132	22.39
\$0.95 - \$27.72	1,034	3.2	8.72	722	11.25

Restricted Stock Units

On April 21, 2011, the Company granted to an executive an award of 59,000 restricted stock units with an average grant date fair value of \$2.97 per share. The restricted stock units vest equally over a period of four years, with 14,750 units vesting each year on the anniversary date of the grant.

On May 30, 2011, the Company granted to an executive an award of 316,206 restricted stock units with an average grant date fair value of \$2.53 per share. The restricted stock units vest over four years, with 93,874 units vesting after one year and 6,176 units vesting each month thereafter for 36 consecutive months.

No restricted stock unit activity occurred and no compensation expense was incurred in 2010. Restricted stock unit compensation expense in 2011 was \$0.2 million, included in general and administrative expense. Following is a summary of

Table of Contents

restricted stock unit activity in the year ended December 31, 2011 (in thousands, except fair value per share):

	Restricted Stock Units	Weighted Average Grant Date Fair Value per Share
Restricted stock units outstanding, January 1, 2011	—	\$ —
Granted	375	2.60
Restricted stock units outstanding, December 31, 2011	375	2.60

Performance Stock Units

In April 2010 the Company granted 146,000 performance stock unit awards to key members of its executive team. The performance stock unit awards are subject to both time-based vesting (one-third annually over three years) and achievement of a stock price target of two times the grant date price. If, over the three-year period, the stock price does not close at or above two times the grant date price over any 20 of 30 consecutive days, the entire award is forfeited. Compensation expense for the 2010 performance stock unit grant is recognized over the estimated requisite service period based on the number of performance stock units ultimately expected to vest. Performance stock unit compensation expense was \$0.1 million in each of the years 2011 and 2010, primarily included in general and administrative expense.

Following is a summary of performance stock unit activity in the years ended December 31, 2011 and 2010 (in thousands, except fair value per share):

	Performance Stock Units	Weighted Average Grant Date Fair Value per Share
Performance stock units outstanding, January 1, 2010	—	\$ —
Granted	146	2.32
Performance stock units outstanding, December 31, 2010	146	2.32
Cancelled	(73)	2.32
Performance stock units outstanding, December 31, 2011	73	2.32

The Company receives income tax deductions as a result of the exercise of certain stock options and vesting of restricted stock units and performance stock units.

(13) INCOME (LOSS) PER SHARE

Basic income (loss) per share was computed using the weighted average number of common shares outstanding. For the computation of diluted income (loss) per share, the number of basic weighted average shares outstanding was increased by dilutive potential common shares related to stock-based compensation, as determined by the treasury stock method. The weighted average numbers of shares outstanding used to compute income (loss) per share were as follows:

	As of December 31,		
(Number of shares in thousands)	2011	2010	
Basic weighted average shares outstanding	30,746	30,744	
Dilutive potential common shares	30	—	(1)
Diluted weighted average shares outstanding	30,776	30,744	

(1) Dilutive potential shares omitted due to net loss

26

The weighted average numbers of shares outstanding listed in the table below were anti-dilutive and excluded from the computation of diluted income (loss) per share, primarily because the average market price did not exceed the exercise price. These shares may be dilutive potential common shares in the future.

42

Table of Contents

(Number of shares in thousands)	As of December 31,	
	2011	2010
Stock options	1,114	1,253
Performance stock units	89	—
Restricted stock units	217	—

(14) SEGMENT INFORMATION

The Company has two reportable segments - Direct and Retail. Contribution is the measure of profit or loss used by the Company's chief operating decision maker and is defined as net sales less product costs and directly attributable expenses. Directly attributable expenses include selling and marketing expenses, general and administrative expenses, and research and development expenses that are directly related to segment operations. Segment assets are those directly assigned to an operating segment's operations, primarily accounts receivable, inventories and intangible assets. Unallocated assets primarily include shared information technology infrastructure, distribution centers, corporate headquarters, prepaids, deferred taxes and other assets. Capital expenditures directly attributable to the Direct and Retail segments were not significant in 2011 or 2010.

Following is summary information by reportable segment for the years ended December 31, 2011 and 2010 (in thousands):

	Year Ended December 31,	
	2011	2010
Net sales:		
Direct	\$ 107,061	\$ 96,668
Retail	68,591	67,789

Unallocated corporate	229	401
Total depreciation and amortization expense	\$3,815	\$6,627

Net sales outside of the United States, primarily in Canada, represented approximately 9% and 10% of consolidated net sales

43

Table of Contents

for the years ended December 31, 2011 and 2010, respectively.

(15) COMMITMENTS AND CONTINGENCIES

Operating Leases

The Company leases property and equipment under non-cancelable operating leases which, in the aggregate, extend through 2019. Many of these leases contain renewal options and provide for rent escalations and payment of real estate taxes, maintenance, insurance and certain other operating expenses of the properties. Rent expense under all operating leases was \$3.3 million and \$3.9 million in 2011 and 2010, respectively.

As of December 31, 2011, future minimum lease payments under non-cancelable operating leases, reduced for sublease income, are as follows (in thousands):

2012	\$2,836
2013	3,275
2014	2,996
2015	2,776
2016	2,813
Thereafter	3,533
Total minimum non-cancelable lease payments, net	\$18,229

Guarantees, Commitments and Off-Balance Sheet Arrangements

As of December 31, 2011 and 2010, the Company had approximately \$3.0 million and \$3.2 million, respectively, in standby letters of credit with certain vendors with expiration dates through November 2012.

The Company has long lead times for inventory purchases and, therefore, must secure factory capacity from its vendors in advance. As of December 31, 2011, the Company had approximately \$10.6 million in non-cancelable market-based purchase obligations, all of which were for inventory purchases expected to be received in 2012.

In the ordinary course of business, the Company enters into agreements that require it to indemnify counterparties against third-party claims. These may include: agreements with vendors and suppliers, under which the Company may indemnify them against claims arising from use of their products or services; agreements with customers, under which the Company may indemnify them against claims arising from their use or sale of the Company's products; real estate and equipment leases, under which the Company may indemnify lessors against third-party claims relating to the use of their property; agreements with licensees or licensors, under which the Company may indemnify the licensee or licensor against claims arising from their use of the Company's intellectual property or the Company's use of their intellectual property; and agreements with parties to debt arrangements, under which the Company may indemnify them against claims relating to their participation in the transactions.

The nature and terms of these indemnification obligations vary from contract to contract, and generally a maximum obligation is not stated within the agreements. The Company holds insurance policies that mitigate potential losses arising from certain types of indemnification obligations. Management does not deem these obligations to be significant to the Company's financial position, results of operations or cash flows and, therefore, no related liabilities were recorded as of December 31, 2011.

Guarantees, Commitments and Contingencies of Discontinued Operation

Prior to its divestiture, the Company's discontinued Commercial business would, from time-to-time, use third-party lease and financing arrangements to assist customers in purchasing products. While these arrangements generally were without recourse to Nautilus, in certain cases the Company offered a guarantee or other recourse provisions. The maximum contingent liability under all such recourse provisions was approximately \$0.8 million as of December 31, 2011.

The Company retained certain warranty obligations in connection with its discontinued Commercial operation and remains contingently liable for certain product warranty obligations which were assumed by buyers of its Commercial business product lines to the extent a buyer fails to fulfill its assumed obligations. Uncertainties exist with respect to these warranty obligations, as units previously sold to customers approach end-of-life and settlements are reached with certain customers in connection with the Company's exit from its discontinued Commercial operation. As of December 31, 2011, the Company's warranty

Table of Contents

liability included \$0.6 million for estimated future warranty costs of its discontinued Commercial operation.

Legal Matters

The Company is party to various legal proceedings arising from normal course business activities. In addition, the Company's tax filings are subject to audit by authorities in the jurisdictions where it conducts business, which may result in assessments of additional taxes. Management believes it has adequately provided for obligations that would result from these legal and tax proceedings. Management believes that the ultimate resolution of these matters will not have a material effect on the Company's financial position, results of operations or cash flows.

(16) SUPPLEMENTARY INFORMATION - QUARTERLY RESULTS OF OPERATIONS (unaudited)

The following table summarizes the Company's unaudited quarterly financial data for 2011 and 2010 (in thousands, except per share amounts):

	Quarter Ended				Total

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

MANAGEMENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Disclosure Controls and Procedures

As of December 31, 2011, we conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Acting Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer and Acting Principal Financial Officer concluded as of December 31, 2011 that our disclosure controls and procedures were effective.

Management's Report On Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as such term is defined in Rule 13a-15(f) under the Exchange Act. This rule defines internal control over financial reporting as a process designed by, or under the supervision of, the company's principal executive officer and principal financial officer, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP. Our internal control over financial reporting includes those policies and procedures that:

• Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;

• Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and

• Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management's Assessment

Nautilus' management, including our Chief Executive Officer and Acting Principal Financial Officer, evaluated the effectiveness of our internal control over financial reporting based on the criteria established in Internal Control - Integrated Framework, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2011.

This Annual Report on Form 10-K does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to an exemption for smaller reporting companies under Section 989G of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Changes In Internal Control Over Financial Reporting

46

Table of Contents

There were no changes in our internal control over financial reporting that occurred during the three months ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

Given the timing of the event, the following information is included in this Form 10-K pursuant to Item 1.01 of Form 8-K "Entry into a Material Definitive Agreement" in lieu of filing a Form 8-K.

On March 12, 2012, we and Bank of the West entered into a Fourth Amendment (the "Loan Amendment") of the Credit Agreement by and between the Company and Bank of the West, dated as of March 8, 2010, as amended (the "Loan Agreement"). Under the Loan Agreement, Bank of the West provides us with up to \$15.0 million in revolving credit, which is available for working capital, standby letters of credit and general corporate purposes through August 31, 2012, assuming we satisfy certain terms and conditions at the time borrowings are requested. Pursuant to the Loan Amendment, the maturity date of the Loan Agreement was extended from August 31, 2012 to December 31, 2012.

Additionally, on September 3, 2010, we issued to certain entities under common control of Sherborne Investors GP, LLC and its affiliates \$6,096,996 in aggregate principal amount at maturity of our Increasing Rate Senior Discount Notes due December 31, 2012 (the "Notes"). The maturity date of the Notes is automatically extended up to 180 days in the event we extend the maturity date of the Loan Agreement. As a result of the Loan Amendment, the maturity date of the Notes was automatically extended from December 31, 2012 to May 2, 2013.

The foregoing description of the Loan Amendment does not purport to be complete and is qualified in its entirety by reference to the full text of the Amendment, attached hereto as Exhibit 10.45.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this item will be set forth under the captions Election of Directors, Section 16(a) Beneficial Ownership Reporting Compliance, Executive Officers and Information Concerning the Board of Directors in our Proxy Statement for our 2012 Annual Meeting of Shareholders to be filed with the SEC by April 30, 2012 (“Proxy Statement”). If the Proxy Statement is not filed with the SEC by April 30, 2012, such information will be included in an amendment to this Annual Report on Form 10-K filed by April 30, 2012.

Item 11. Executive Compensation

The information required by this item will be set forth under the caption Executive Compensation in our Proxy Statement. If the Proxy Statement is not filed with the SEC by April 30, 2012, such information will be included in an amendment to this Annual Report on Form 10-K filed by April 30, 2012.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item is included under the caption Stock Ownership in our Proxy Statement. If the Proxy Statement is not filed with the SEC by April 30, 2012, such information will be included in an amendment to this Annual Report on Form 10-K filed by April 30, 2012.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item is included under the caption Information Concerning the Board of Directors in our Proxy Statement. If the Proxy Statement is not filed with the SEC by April 30, 2012, such information will be included in an amendment to this Annual Report on Form 10-K filed by April 30, 2012.

Item 14. Principal Accounting Fees and Services

The information required by this item is included under the caption Appointment of Registered Independent Public Accounting Firm for 2011 in our Proxy Statement. If the Proxy Statement is not filed with the SEC by April 30, 2012, such information will be included in an amendment to this Annual Report on Form 10-K filed by April 30, 2012.
