Item 7.01. Regulation FD Disclosure.

As previously disclosed, on April 16, 2014, Chemtura Corporation (“Chemtura” or the “Company”) entered into a Stock and Asset Purchase Agreement (“SAPA”) with Platform Specialty Products Corporation (“Platform”). As provided in the SAPA, Chemtura has agreed to sell its agrochemicals business, Chemtura AgroSolutions, to Platform in exchange for \$950 million in cash, 2 million shares of common stock of Platform and the assumption of certain liabilities by Platform. The transaction is subject to customary purchase price adjustments, closing conditions and regulatory approvals and is expected to close in the second half of 2014.

Under the terms of the SAPA, Chemtura will retain most of the property, plant and equipment used to manufacture products for the Chemtura AgroSolutions business and will continue to manufacture products for Platform under several supply agreements with minimum terms of two to four years.

Chemtura has evaluated the transaction and determined that it has met the criteria to report the assets and liabilities of the Chemtura AgroSolutions business that form part of the transaction under the SAPA as assets held for sale as of April 16, 2014.

Chemtura has further evaluated whether the Chemtura AgroSolutions transaction met the criteria to be presented as a discontinued operation under the provisions of ASC 205-20-45. Due to the significance of the gross cash flows associated with the post-closing supply agreements with Platform, Chemtura has concluded that the Chemtura AgroSolutions business does not meet the criteria to be presented as a discontinued operation. As a result, Chemtura will continue to present the results of operations of the Chemtura AgroSolutions business as one of its segments and continue to reflect the business in Chemtura’s net income from continuing operations.

As Chemtura will not treat Chemtura AgroSolutions as a discontinued operation, it will not restate its historic financial statements for the transaction. Following the closing of the transaction, the Company will provide investors with additional disclosures to assist in making comparisons of actual results to prior periods. Those disclosures will include what would have been the stranded costs associated with the Chemtura AgroSolutions business. Stranded costs are expenses that have been incurred in the support of the Chemtura AgroSolutions business that do not directly transfer to Platform under the terms of the SAPA, cease to be incurred upon the sale, or are related to the performance of the supply agreements (the “Stranded Costs”). Chemtura has computed those Stranded Costs for the last five quarters (which are subject to further review):

Quarter Ended		in millions (Unaudited)
March 31, 2013	\$	4
June 30, 2013		4
September 30, 2013		4
December 31, 2013		3
Year 2013	\$	15
March 31, 2014	\$	4

In connection with the sale of our Chemtura AgroSolutions business, we have incurred \$7 million and \$11 million for the second quarter of 2014 and for the six-month period ended June 30, 2014, respectively, in fees and other expenses related directly to this transaction that will be reported under our Corporate segment.
