NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2018 (UNAUDITED)

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc., a Maryland corporation, together with its subsidiaries (“we”, “our”, “us” or “the Company”) operates as a real estate investment trust (“REIT”) deriving its income primarily from real estate rental operations. The Company owns and operates 115 manufactured home communities containing approximately 20,700 developed home sites as of September 30, 2018. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (“S&F”), conducts manufactured home sales to residents and prospective residents in its communities. Inherent in the operations of manufactured home communities are site vacancies. S&F was established to fill these vacancies and enhance the value of the communities. The Company also owns a portfolio of REIT securities which the Company generally limits to no more than approximately 20% of its undepreciated assets. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the “Code”) and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2017.

Use of Estimates

In preparing the consolidated financial statements in accordance with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from these estimates and assumptions.

Reclassifications

Certain amounts in the financial statements for the prior periods have been reclassified to conform to the statement presentation for the current periods.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its variable rate debt. The Company attempts to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company entered into various interest rate swap agreements that have had the effect of fixing interest rates relative to specific mortgage loans. As of September 30, 2018, these agreements have expired and the Company does not have any interest rate swap agreements in effect.

Recently Adopted Accounting Pronouncements

In May 2017, the FASB issued ASU No. 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." ASU 2017-09 clarifies which changes to the terms or conditions of a share based payment award are subject to the guidance on modification accounting under FASB Accounting Standards Codification Topic 718. Entities would apply the modification accounting guidance unless the value, vesting requirements and classification of a share based payment award are the same immediately before and after a change to the terms or conditions of the award. ASU No. 2017-09 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company adopted this standard effective January 1, 2018, and it did not have a material impact on our financial position, results of operations or cash flows.

In February 2017, the FASB issued ASU No. 2017-05, "Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets." ASU 2017-05 provides guidance for recognizing gains and losses from the transfer of nonfinancial assets and in-substance non-financial assets in contracts with non-customers, unless other specific guidance applies. The standard requires a company to derecognize nonfinancial assets once it transfers control of a distinct nonfinancial asset or distinct in substance nonfinancial asset. Additionally, when a company transfers its controlling interest in a nonfinancial asset, but retains a noncontrolling ownership interest, the company is required to measure any non-controlling interest it receives or retains at fair value. The guidance requires companies to recognize a full gain or loss on the transaction. As a result of the new guidance, the guidance specific to real estate sales in ASC

360-20 will be eliminated. As such, sales and partial sales of real estate assets will now be subject to the same derecognition model as all other nonfinancial assets. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018, and it did not have a material impact on our financial position, results of operations or cash flows.

In November 2016, the FASB issued ASU 2016-18 “Statement of Cash Flows (Topic 230): Restricted Cash.” ASU 2016-18 requires inclusion of restricted cash and restricted cash equivalents with cash and cash equivalents when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018. The Company’s restricted cash consists of amounts primarily held in deposit for tax, insurance and repair escrows held by lenders in accordance with certain debt agreements. Restricted cash is included in Prepaid Expenses and Other Assets on the Consolidated Balance Sheets. Changes in restricted cash are reported on the Consolidated Statements of Cash Flows as operating, investing or financing activities based on the nature of the underlying activity.

The following table reconciles beginning of period and end of period balances of cash, cash equivalents and restricted cash for the periods shown:

	9/30/18	12/31/17	9/30/17	12/31/16
Cash and Cash Equivalents	\$8,879,883	\$23,242,090	\$14,840,944	\$4,216,592
Restricted Cash	5,893,932	4,649,159	5,225,725	5,132,897
Cash, Cash Equivalents And Restricted Cash	\$14,773,815	\$27,891,249	\$20,066,669	\$9,349,489

In August 2016, the FASB issued ASU No. 2016-15, “Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments.” ASU 2016-15 makes eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017. The Company adopted this standard effective January 1, 2018, and it did not have a material impact on our financial position, results of operations or cash flows.

In January 2016, the FASB issued ASU 2016-01, “Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities.” ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost. ASU 2016-01 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2017. The Company adopted this standard effective January 1, 2018. The Company previously classified its marketable securities as available-for-sale and carried at fair value with unrealized holding gains and losses excluded from earnings and reported as a separate component of Shareholders’ Equity until realized. The change in the unrealized net holding gains (losses) was reflected in the Company’s Comprehensive Income (Loss). As a result of adoption, these securities will continue to be measured at fair value; however, the change in the unrealized net holding gains and losses is now recognized through net income. As of January 1, 2018, unrealized net holding gains of \$11,519,582 were reclassified to beginning retained earnings to recognize the unrealized gains previously recorded in “accumulated other comprehensive income” on our consolidated balance sheets. For the three and nine months ended September 30, 2018, the Company recorded a decrease of \$10,487,430 and \$19,762,579, respectively, in the fair value of these marketable securities, which are included in “Other Investment Income (Loss), net” on our Consolidated Statements of Income (Loss).

In May 2014, the FASB issued ASU 2014-09 “Revenue from Contracts with Customers (Topic 606)” (ASC 606). The objective of this amendment is to establish a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying this amendment, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. This amendment applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. An entity should apply the amendments using either the full retrospective approach or retrospectively with a cumulative effect of initially applying the amendments recognized at the date of initial application. In July 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The Company adopted this standard effective January 1, 2018. For transactions in the scope of ASU 2014-09, we recognize revenue when control of goods or services transfers to the customer, in the amount that we expect to receive for the transfer of goods or provision of services. The adoption of ASU 2014-09 did not result in any change to our accounting policies for revenue recognition. Accordingly, retrospective application to prior periods or a cumulative catch-up adjustment was unnecessary.

Our primary source of revenue is generated from lease agreements for our sites and homes. Resident leases are generally for one-year or month-to-month terms, and are renewable by mutual agreement from us and the resident, or in some cases, as provided by jurisdictional statute. The lease component of these agreements is accounted for under ASC 840 “Leases.” The non-lease components of our lease agreements consist primarily of utility reimbursements, which are accounted for with the site lease as a single lease under ASC 840.

Sales of manufactured homes is recognized under ASC 605 “Revenue Recognition” since these homes are not permanent fixtures or improvements to the underlying real estate. In accordance with the core principle of ASC 606, we recognize revenue from home sales at the time of closing when control of the home transfers to the customer. After closing of the sale transaction, we have no remaining performance obligation.

Interest income is primarily from notes receivables for the previous sales of manufactured homes and is not in the scope of ASU 2014-09. These sales were recorded upon completion of our performance obligations.

Dividend and other investment income are from our investments in marketable securities and are presented separately but are not in the scope of ASU 2014-09.

Other income is recognized under ASC 605 “Revenue Recognition” and primarily consists of brokerage commissions for arranging for the sale of a home by a third party, service and marketing agreements with cable providers, and in 2017 included an upfront oil and gas bonus payment. This income is recognized when the transactions are completed and our performance obligations have been fulfilled.

As of September 30, 2018 and December 31, 2017, the Company had notes receivable of \$28,094,814 and \$24,066,567, respectively. Notes receivables are presented as a component of Notes and Other Receivables, net on our Consolidated Balance Sheets. These receivables represent balances owed to us for previously completed performance obligations for sales of manufactured homes. Due to the nature of our revenue from contacts with customers, we do not have material contract assets or liabilities that fall under the scope of ASC 606.

Other Recent Accounting Pronouncements

In August 2018, the Securities and Exchange Commission adopted the final rule under SEC Release No. 33-10532, “Disclosure Update and Simplification”, amending certain disclosure requirements that were redundant, duplicative, overlapping, outdated or superseded. In addition, the amendments expanded the disclosure requirements on the analysis of stockholders’ equity for interim financial statements. Under the amendments, an analysis of changes in each caption of stockholders’ equity presented in the balance sheet must be provided in a note or separate statement. The analysis should present a reconciliation of the beginning balance to the ending balance of each period for which a statement of comprehensive income is required to be filed. The Company anticipates its first presentation of changes in stockholders’ equity will be included in its Form 10-Q for the quarter ending March 31, 2019.

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments.” ASU 2016-13 requires that entities use a new forward looking “expected loss” model that generally will result in the earlier recognition of allowance for credit losses. The measurement of expected credit losses is based upon historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. ASU No. 2016-13 is effective for annual reporting periods, including interim reporting periods within those periods, beginning after December 15, 2019. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "Leases." ASU 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. The standard requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. ASU 2016-02 will be effective for annual reporting periods beginning after December 15, 2018. Early adoption is permitted. In July 2018, the FASB issued ASU No. 2018-11, "Leases (Topic 842) – Targeted Improvements." ASU No. 2018-11 provides a new transition method and practical expedients, including to the need to separate contract components as required by ASU 2016-02. Under ASU 2018-11, an entity applying the new lease accounting standard may record a cumulative adjustment to the opening balance of retained earnings in the period of adoption, instead of having to restate comparative results, as initially required. Additionally, ASU No. 2018-11 provide lessors with a practical expedient, by class of underlying asset, to not separate non-lease components from the associated lease component and, instead, to account for those components as a single component if the non-lease components otherwise would be accounted for under the new revenue guidance if both 1. the timing and pattern of transfer of the non-lease component(s) and associated lease component are the same (instead of the timing and pattern of revenue recognition, as proposed); and 2. the lease component, if accounted for separately, would be classified as an operating lease. The Company is currently evaluating the potential impact these standards may have on the consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 2 – NET INCOME (LOSS) PER SHARE

Basic Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average shares outstanding for the period. Diluted Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. For the three and nine months ended September 30, 2018, employee stock options to purchase 2,227,600 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive. For the three and nine months ended September 30, 2017, employee stock options to purchase 1,778,100 shares of common stock were excluded from the computation of Diluted Net Income (Loss) per Share as their effect would be anti-dilutive.

On June 14, 2018, the shareholders approved and ratified an amendment and restatement (and renaming) of the Company's Amended and Restated 2013 Incentive Award Plan (formerly 2013 Stock Option and Stock Award Plan) (the Plan). The amendment and restatement made two substantive changes: (1) provide an additional 2,000,000 common shares for future grant of option awards, restricted stock awards, or other stock-based awards; and (2) allow for the issuance of other stock-based awards.

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$394,168 and \$1,247,722 have been recognized for the three and nine months ended September 30, 2018, respectively, and \$328,002 and \$998,059 for the three and nine months ended September 30, 2017, respectively.

On April 2, 2018, the Company granted options to purchase 540,000 shares of common stock to forty participants. The grant date fair value of these options amounted to \$1,100,933. These grants vest over one year. Compensation costs for grants issued to a participant who is of retirement age is recognized at the time of the grant.

On July 9, 2018, the Company granted options to purchase 40,000 shares of common stock to four participants. The grant date fair value of these options amounted to \$94,732. These grants vest over one year.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants during the nine months ended September 30, 2018 and 2017:

	2018	2017
Dividend yield	4.78 %	5.80 %
Expected volatility	25.82 %	26.30 %
Risk-free interest rate	2.74 %	2.37 %
Expected lives	10	10
Estimated forfeitures	-0-	-0-

The weighted-average fair value of options granted during the nine months ended September 30, 2018 and 2017 was \$2.06 and \$1.81 per share, respectively.

As of September 30, 2018, there were options outstanding to purchase 2,227,600 shares. There were 1,986,500 shares available for grant under the Plan. During the nine months ended September 30, 2018, eight participants exercised options to purchase a total of 128,500 shares of common stock at a weighted-average exercise price of \$10.78 per share for total proceeds of \$1,385,000. NOTE 8 - FAIR VALUE MEASUREMENTS

In accordance with ASC 820-10, Fair Value Measurements and Disclosures, the Company measures certain financial assets and liabilities at fair value on a recurring basis, including marketable securities. The fair value of these financial assets and liabilities was determined using the following inputs at September 30, 2018 and December 31, 2017:

In addition to the Company's investments in marketable securities, the Company is required to disclose certain information about the fair values of its other financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Marketable Securities have quoted market prices and traded in active markets and are therefore classified in Level 1 of the fair value hierarchy.

The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of September 30, 2018, the fair value of Fixed Rate Mortgages Payable amounted to \$315,928,372 and the carrying value of Fixed Rate Mortgages Payable amounted to \$316,808,161.

NOTE 9 – CONTINGENCIES, COMMITMENTS AND OTHER MATTERS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation will have a material adverse effect on the financial position or results of operations.

The Company has an agreement with 21st Mortgage Corporation (“21st Mortgage”) under which 21st Mortgage can provide financing for home purchasers in the Company’s communities. The Company does not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, the Company has agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. This agreement may be terminated by either party with 30 days written notice. As of September 30, 2018, the total loan balance under this agreement was approximately \$3.0 million. Additionally, 21st Mortgage previously made loans to purchasers in certain communities we acquired. In conjunction with these acquisitions, the Company has agreed to purchase from 21st Mortgage each repossessed home, if those purchasers default on their loans. The purchase price ranges from 55% to 100% of the amount under each such loan, subject to certain adjustments. As of September 30, 2018, the total loan balance owed to 21st Mortgage with respect to homes in these acquired communities was approximately \$3.3 million. Although this agreement is still active, this program is not being utilized by the Company’s new customers as a source of financing.

S&F entered into a Chattel Loan Origination, Sale and Servicing Agreement (“COP Program”) with Triad Financial Services, effective January 1, 2016. Neither the Company, nor S&F, receive referral fees or other cash compensation under the agreement. Customer loan applications are initially submitted to Triad for consideration by Triad’s portfolio of outside lenders. If a loan application does not meet the criteria for outside financing, the application is then considered for financing under the COP Program. If the loan is approved under the COP Program, then it is originated by Triad, assigned to S&F and then assigned by S&F to the Company. Included in Notes and Other Receivables is approximately \$14,066,000 of loans that the Company acquired under the COP Program as of September 30, 2018.

NOTE 10 - SUPPLEMENTAL CASH FLOW INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in the Company's annual report on Form 10-K for the year ended December 31, 2017.

The Company is a self-administered, self-managed Real Estate Investment Trust ("REIT") with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities which includes leasing manufactured home spaces on an annual or month-to-month basis to residential manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. ("S&F"), sells and finances the sale of manufactured homes to qualified residents and prospective residents of our communities.

As of September 30, 2018, the Company owned and operated 115 manufactured home communities containing approximately 20,700 developed home sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana, Michigan and Maryland.

The Company earns income from the operation of its manufactured home communities, leasing of manufactured homesites, the rental of manufactured homes, the sale and finance of manufactured homes, the brokering of home sales, and appreciation in the values of the manufactured home communities and vacant land owned by the Company. The Company also invests in marketable securities of other REITs which the Company generally limits to no more than approximately 20% of its undepreciated assets.

The Company believes that its capital structure, which allows for the ownership of assets using a balanced combination of equity obtained through the issuance of common stock, preferred stock and debt, will enhance shareholder returns as the properties appreciate over time.

The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. This has resulted in increased occupancy rates and improved operating results. For the nine months ended September 30, 2018, total income increased 14% from the prior year period and Community Net Operating Income (“NOI”), as defined below, increased 14%. Same property occupancy, which includes communities owned and operated as of January 1, 2017, increased by 40 basis points to 83.2% over the prior year period. Year to date, same property NOI increased 7.5% over the prior year period. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. There is no assurance that the Company can continue to buy existing manufactured home communities that meet the requirements of the business plan or that the demand for rental homes will continue in the future.

Sales of manufactured homes performed exceptionally well during the third quarter of 2018, increasing by 67% over the prior year period. Year to date, sales increased 34%. Demand for housing remains healthy, due to improvements in the economy, sustained wage and job growth and still favorable interest rates. Conventional single-family home prices continue their rise supported by low inventories and increasing sales. As household formation strengthens and for-sale inventory remains limited, a large share of housing demand will be looking at alternative forms of housing. Our property type offers substantial comparative value that should result in increased demand.

The macro-economic environment and current housing fundamentals continue to favor home rentals. Rental homes in a manufactured home community allow the resident to obtain the efficiencies of factory-built housing and the amenities of community living for less than the cost of other forms of affordable housing. We continue to see strong demand for rental homes. We have added an additional 608 rental homes during the first nine months of 2018. This brings the total number of rental homes to approximately 6,200 rental homes, or 30.0% of total sites. Occupied rental homes represent approximately 33.9% of total occupied sites at quarter end. Occupancy in rental homes continues to be strong and is at 93.3% as of September 30, 2018. We compare favorably with other types of rental housing, including apartments, and we will continue to allocate capital to rental home purchases, as demand dictates. We anticipate adding a total of approximately 800 rental homes in 2018.

During the nine months ended September 30, 2018, the Company acquired three all-age communities in Indiana containing a total of 803 homesites on 289 acres for an aggregate purchase price of approximately \$24,000,000.

The following is a summary of the communities acquired as of September 30, 2018:

Community	Date of Acquisition	State	Number of Sites	Purchase Price	Number of Acres	Occupancy at Acquisition	
Camelot Village and Red Bud Estates	May 30, 2018	IN	669	\$20,500,000	231	91	%
Summit Village	August 31, 2018	IN	134	3,500,000	58	60	%
Total as of September 30, 2018			803	\$24,000,000	289	86	%

See PART I, Item 1 – Business in the Company’s annual report on Form 10-K for the year ended December 31, 2017 for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities, challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company’s financial condition and results of operations are based upon the Company’s Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company’s Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our Annual Report on Form 10-K for the year ended December 31, 2017.

Supplemental Measures

In addition to the results reported in accordance with GAAP, management's discussion and analysis of financial condition and results of operations include certain non-GAAP financial measures that in management's view of the business we believe are meaningful as they allow the investor the ability to understand key operating details of our business both with and without regard to certain accounting conventions or items that may not always be indicative of recurring annual cash flow of the portfolio. These non-GAAP financial measures as determined and presented by us may not be comparable to related or similarly titled measures reported by other companies, and include Community NOI, Funds from Operations ("FFO"), Core Funds from Operations ("Core FFO") and Normalized Funds from Operations ("Normalized FFO").

We define Community NOI as rental and related income less community operating expenses such as real estate taxes, repairs and maintenance, community salaries, utilities, insurance and other expenses. We believe that Community NOI is helpful to investors and analysts as a direct measure of the actual operating results of our manufactured home communities, rather than our Company overall. Community NOI should not be considered a substitute for the reported results prepared in accordance with GAAP. Community NOI should not be considered as an alternative to net income (loss) as an indicator of our financial performance, or to cash flows as a measure of liquidity; nor is it indicative of funds available for our cash needs, including our ability to make cash distributions.

The Company's Community NOI for the three and nine months ended September 30, 2018 and 2017 is calculated as follows:

	Three Months Ended		Nine Months Ended	
	9/30/18	9/30/17	9/30/18	9/30/17
Rental and Related Income	\$28,728,078	\$25,854,623	\$84,236,326	\$75,678,939
Less: Community Operating Expenses	13,288,715	12,317,856	38,758,711	35,669,793
Community NOI	\$15,439,363	\$13,536,767	\$45,477,615	\$40,009,146

We also assess and measure our overall operating results based upon an industry performance measure referred to as Funds from Operations ("FFO"), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts ("NAREIT"), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America ("U.S. GAAP"), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, and impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds from Operations ("Core FFO"), as FFO, excluding acquisition costs, costs of early extinguishment of debt, change in the fair value of marketable securities and costs associated with the Redemption of Preferred Stock. We define Normalized Funds from Operations ("Normalized FFO"), as Core FFO, excluding gains and losses realized on marketable securities investments and certain one-time charges. FFO, Core FFO and Normalized FFO should be considered as supplemental measures of operating performance used by REITs. FFO, Core FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. However, other REITs may use different methodologies to calculate FFO, Core FFO and Normalized FFO and, accordingly, our FFO, Core FFO and Normalized FFO may not be comparable to all other REITs. The items excluded from FFO, Core FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as alternatives to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity.

The reconciliation of the Company's U.S. GAAP Net Loss to the Company's FFO, Core FFO and Normalized FFO for the three and nine months ended September 30, 2018 and 2017 are calculated as follows:

	Three Months Ended		Nine Months Ended

Changes In Results Of Operations

Rental and Related Income increased 11% from \$25,854,623 for the three months ended September 30, 2017 to \$28,728,078 for the three months ended September 30, 2018. Rental and Related Income increased 11% from \$75,678,939 for the nine months ended September 30, 2017 to \$84,236,326 for the nine months ended September 30, 2018. These increases were primarily due to the acquisitions made during 2017 and 2018, as well as increases in rental rates and same property occupancy and additional rental homes. The Company has been raising rental rates by approximately 3% to 5% annually at most communities. Same property occupancy has increased 40 basis points from 82.8% as of September 30, 2017 to 83.2% at quarter-end. Occupied rental homes increased 15% from approximately 5,000 homes at September 30, 2017 to 5,800 homes at September 30, 2018.

Community Operating Expenses increased 8% from \$12,317,856 for the three months ended September 30, 2017 to \$13,288,715 for the three months ended September 30, 2018. Community Operating Expenses increased 9% from \$35,669,793 for the nine months ended September 30, 2017 to \$38,758,711 for the nine months ended September 30, 2018. These increases were primarily due to the acquisitions made during 2017 and 2018, and the harsh 2018 winter.

Community NOI increased 14% from \$13,536,767 for the three months ended September 30, 2017 to \$15,439,363 for the three months ended September 30, 2018. Community NOI increased 14% from \$40,009,146 for the nine months ended September 30, 2017 to \$45,477,615 for the nine months ended September 30, 2018. These increases were primarily due to the acquisitions during 2017 and 2018, and increases in rental rates, occupancy and rental homes. The Company's Operating Expense Ratio (defined as Community Operating Expenses divided by Rental and Related Income) improved from 47.6% for the three months ended September 30, 2017 to 46.3% for the three months ended September 30, 2018. The Company's Operating Expense Ratio improved from 47.1% for the nine months ended September 30, 2017 to 46.0% for the nine months ended September 30, 2018. Many recently acquired communities have deferred maintenance requiring higher than normal expenditures in the first few years of ownership. Because most of the community expenses consist of fixed costs, as occupancy rates increase, these expense ratios are expected to continue to improve. Since the Company has the ability to increase its rental rates annually, increasing costs due to inflation and changing prices have generally not had a material effect on revenues and income from continuing operations.

Sales of manufactured homes increased 67% from \$2,830,314 for the three months ended September 30, 2017 to \$4,719,036 for the three months ended September 30, 2018. Sales of manufactured homes increased 34% from \$8,272,395 for the nine months ended September 30, 2017 to \$11,105,302 for the nine months ended September 30, 2018. The Company has seen a 21% increase in the number of homes sold from 169 homes sold for the nine months ended September 30, 2017 to 204 homes sold for the nine months ended September 30, 2018. Cost of sales of manufactured homes amounted to \$3,512,705 and \$2,215,767 for the three months ended September 30, 2018 and 2017, respectively. Cost of sales of manufactured homes amounted to \$8,406,701 and \$6,465,665 for the nine months ended September 30, 2018 and 2017, respectively. The gross profit percentage was 26% and 22% for the three months ended September 30, 2018 and 2017, respectively. The gross profit percentage was 24% and 22% for the nine months ended September 30, 2018 and 2017, respectively. Selling expenses, which includes salaries, commissions, advertising and other miscellaneous expenses, amounted to \$1,024,188 and \$836,939 for the three months ended September 30, 2018 and 2017, respectively. Selling expenses amounted to \$2,913,504 and \$2,461,780 for the nine months ended September 30, 2018 and 2017, respectively. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses less interest on the financing of inventory) amounted to \$69,963 or 1% of total sales and \$319,996 or 11% of total sales for the three months ended September 30, 2018 and 2017, respectively. Loss from the sales operations amounted to \$650,924 or 6% of total sales and \$1,046,985 or 13% of total sales for the nine months ended September 30, 2018 and 2017, respectively. Many of the costs associated with sales, such as salaries, and to an extent, advertising and promotion, are fixed.

The U.S. homeownership rate was 64.4% in the third quarter of 2018, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. The conventional single-family housing market has strengthened, and conventional home prices continue their rise. The inherent affordability of our property type becomes more and more apparent which should result in increased demand. The Company continues to be optimistic about future sales and rental prospects given the fundamental need for affordable housing. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of our communities.

General and Administrative Expenses increased 9% from \$2,354,054 for the three months ended September 30, 2017 to \$2,559,023 for the three months ended September 30, 2018. General and Administrative Expenses increased 14% from \$7,190,665 for the nine months ended September 30, 2017 to \$8,200,261 for the nine months ended September 30, 2018. These increases were primarily due to an increase in personnel and personnel costs. Additionally, for the nine months ended September 30, 2018, there was a one-time payroll expenditure of \$525,000 for two employees. General and Administrative expenses without this one-time payroll expenditure as a percentage of gross revenue (Total Income plus Interest, Dividend and Other Income) was 6.9% and 7.3% for the three and nine months ended September 30, 2018, respectively, compared to 7.5% and 7.8% for the three and nine months ended September 30, 2017, respectively. Personnel costs also increased due to an increase in our stock price which increased the fair value of stock options granted. The weighted-average fair value of options granted increased from \$1.81 per share for the nine months ended September 30, 2017 to \$2.06 for the nine months ended September 30, 2018. Additionally, for the nine months ended September 30, 2018, the entire compensation cost of \$204,000 for an employee of retirement age was recognized at the time of grant.

Depreciation Expense increased 15% from \$6,980,113 for the three months ended September 30, 2017 to \$8,051,627 for the three months ended September 30, 2018. Depreciation Expense increased 16% from \$20,260,556 for the nine

months ended September 30, 2017 to \$23,410,519 for the nine months ended September 30, 2018. This increase was primarily due to the acquisitions and the increase in rental homes during 2017 and 2018.

Interest Income increased 10% from \$510,358 for the three months ended September 30, 2017 to \$563,549 for the three months ended September 30, 2018. Interest Income increased 6% from \$1,479,495 for the nine months ended September 30, 2017 to \$1,569,955 for the nine months ended September 30, 2018. These increases were primarily due to an increase in the average balance of notes receivable. The average balance at September 30, 2018 and 2017 was approximately \$25.3 million and \$20.7 million, respectively.

Dividend Income increased 31% from \$2,068,198 for the three months ended September 30, 2017 to \$2,704,255 for the three months ended September 30, 2018. Dividend Income increased 33% from \$5,715,038 for the nine months ended September 30, 2017 to \$7,603,575 for the nine months ended September 30, 2018. These increases were primarily due to the increase in the average balance of marketable securities from \$120.5 million at September 30, 2017 to \$131.9 million at September 30, 2018. Dividends received from our marketable securities investments were at a weighted average yield of approximately 8.2% and 7.1% at September 30, 2018 and 2017, respectively, and continue to meet our expectations. It is the Company's intent to hold these marketable securities long-term.

Other Investment Income (Loss), net decreased from income of \$466,521 for the three months ended September 30, 2017 to a loss of \$10,487,430 for the three months ended September 30, 2018. Other Investment Income (Loss), net decreased from income of \$1,518,289 for the nine months ended September 30, 2017 to a loss of \$19,742,472 for the nine months ended September 30, 2018. These changes were primarily due to the change in fair value of the marketable securities portfolio. On January 1, 2018, the Company adopted ASU 2016-01, which requires changes in the fair value of our marketable securities to be recorded in current period earnings. Previously, changes in the fair value of marketable securities were recognized in "Accumulated Other Comprehensive Income" on our Consolidated Balance Sheets. As a result, on January 1, 2018 the Company recorded an increase to beginning retained earnings of \$11,519,582 to recognize the unrealized gains previously recorded in "Accumulated Other Comprehensive Income" on our Consolidated Balance Sheets. As of September 30, 2018, the Company had total net unrealized losses of \$8,242,997 in its REIT securities portfolio. The total change in fair value of marketable securities for the three months ended September 30, 2018 was a decrease of \$10,487,430. The total change in fair value of marketable securities for the nine months ended September 30, 2018 was a decrease of \$19,762,579.

Interest Expense, including Amortization of Financing Costs, increased 10% from \$3,871,046 for the three months ended September 30, 2017 to \$4,247,855 for the three months ended September 30, 2018. The balance of financing on our inventory increased from \$625,000 at September 30, 2017 to \$15.8 million at September 30, 2018. The interest rate on this financing is approximately 7%. Interest Expense remained relatively stable for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. The weighted average interest rate on our mortgages payable decreased from 4.3% at September 30, 2017 to 4.2% at September 30, 2018, not including the effect of unamortized debt issuance costs.

Changes in Financial Condition

Total Investment Property and Equipment increased 8% or \$60,447,877 during the nine months ended September 30, 2018. The Company purchased three communities and added 608 rental homes to its communities. The Company's occupancy rate on its rental homes portfolio increased 30 basis points and was 93.3% at September 30, 2018 as compared to 93.0% at December 31, 2017.

Marketable Securities decreased 2% or \$2,032,432 during the nine months ended September 30, 2018. This decrease was due to a net decrease in the fair value of \$19,762,579 and sales with a cost basis of \$248,568, offset by purchases of \$17,978,715.

Mortgages Payable, net of unamortized debt issuance costs, increased 3% or \$8,524,323 during the nine months ended September 30, 2018. The increase was primarily due to a new mortgage of \$13,442,000 and amortization expense of \$407,800, partially offset by principal payments of \$5,094,625 and cost of the new mortgage of \$230,852.

Loans Payable, net of unamortized debt issuance costs, increased 3% or \$2,326,635 during the nine months ended September 30, 2018. This increase was primarily due to an increase of \$13.6 million on our revolving credit facilities for the purchase of inventory and other loans payable, partially offset by a decrease of \$11.3 million on our margin loan.

Liquidity and Capital Resources

The Company's focus is on real estate investments, including investment in rental homes. Additionally, the Company invests in marketable debt and equity securities of other REITs. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real estate when more favorable risk adjusted returns are not available. The Company generally limits its marketable securities investments to no more than approximately 20% of its undepreciated assets.

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory and rental homes, investment in marketable securities of other REITs, financing of manufactured home sales and payments of expenses relating to real estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on

income from its real estate investments and marketable securities portfolio, the sale of real estate investments and marketable securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company may sell marketable securities from its investment portfolio, borrow on its unsecured credit facility or lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets. The Company intends to continue to increase its real estate investments. Our business plan includes acquiring communities that yield in excess of our cost of funds and then investing in physical improvements, including adding rental homes onto otherwise vacant sites. There is no guarantee that any of these additional opportunities will materialize or that the Company will be able to take advantage of such opportunities. The growth of our real estate portfolio depends on the availability of suitable properties which meet the Company's investment criteria and appropriate financing. Competition in the market areas in which the Company operates is significant. To the extent that funds or appropriate communities are not available, fewer acquisitions will be made.

The Company continues to strengthen its capital and liquidity positions. On January 22, 2018, the Company issued 2,000,000 shares of its new 6.375% Series D Cumulative Redeemable Preferred Stock ("Series D Preferred Stock") at an offering price of \$25.00 per share in an underwritten registered public offering. The Company received net proceeds from the sale of these 2,000,000 shares, after deducting the underwriting discount and other estimated offering expenses, of approximately \$48.2 million and is using and plans to use the net proceeds of the offering for general corporate purposes, which may include the purchase of manufactured homes for sale or lease to customers, expansion of its existing communities, potential acquisitions of additional properties and possible repayment of indebtedness on a short-term basis.

The Company also raised \$24,217,210 from the issuance of common stock in the DRIP during the nine months ended September 30, 2018, which included Dividend Reinvestments of \$2,925,207. Dividends paid on the common stock for the nine months ended September 30, 2018 were \$19,786,349, of which \$2,925,207 were reinvested. Dividends paid on the Series B Preferred shares, the Series C Preferred shares and the Series D Preferred shares for the nine months ended September 30, 2018 totaled \$14,927,062.

Net Cash provided by Operating Activities amounted to \$24,727,484 and \$29,183,016 for the nine months ended September 30, 2018 and 2017, respectively. As of September 30, 2018, the Company had Cash and Cash Equivalents of \$8.9 million, Marketable Securities of \$130.9 million, encumbered by \$25.8 million in margin loans, \$6.0 million available on its revolving line of credit for the financing of home sales, approximately \$12.7 million available on its revolving credit facilities for the financing of inventory purchases, and \$15 million available on its unsecured revolving credit facility, with an additional \$75 million potentially available pursuant to an accordion feature.

The Company owns 115 communities, of which 70 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings and registered direct placements of its preferred stock.

As of September 30, 2018, the Company had total assets of \$868,504,952 and total liabilities of \$415,391,383. The Company's net debt (net of unamortized debt issuance costs and cash and cash equivalents) to total market capitalization as of September 30, 2018 was approximately 31% and the Company's net debt, less securities to total market capitalization as of September 30, 2018 was approximately 20%. The Company believes that it has the ability to meet its obligations and to generate funds for new investments.
