ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934 FOR THE FISCAL YEAR ENDED DECEMBER 31, 2014

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

COMMISSION FILE NUMBER: 001-35657

Altisource Residential Corporation
(Exact name of registrant as specified in its charter)
MARYLAND 46-0633510
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

c/o Altisource Asset Management Corporation
402 Strand Street
Frederiksted, United States Virgin Islands 00840-3531
(Address of principal executive office)

(340) 692-1055
(Registrant's telephone number, including area code)

(340) 692-1055
(Registrant's telephone number, including area code)
Securities registered pursuant to Section 12(b) of the Act:
(Title of Each Class) (Name of exchange on which registered)
Common stock, par value \$0.01 per share New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None.

Indicate by check if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes
No

Indicate by check if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes
No

Edgar Filing: Altisource Residential Corp - Form 10-K

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer

Non-Accelerated Filer (Do not check if a smaller reporting company) Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of common stock held by non-affiliates of the registrant was \$836.2 million, based on the closing share price as reported on the New York Stock Exchange on June 30, 2014 and the assumption that all directors and executive officers of the registrant and their families are affiliates. This determination of affiliate status is not necessarily a conclusive determination for any other purpose.

As of February 19, 2015, 57,203,211 shares of our common stock were outstanding.

Special note on forward-looking statements

Our disclosure and analysis in this Annual Report on Form 10-K contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, which we refer to as the "Securities Act," and Section 21E of the Securities Exchange Act of 1934, as amended, which we refer to as the "Exchange Act." In some cases, you can identify forward-looking statements by the use of forward-looking terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," or "potential" or the negative of these and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions.

The forward-looking statements contained in this report reflect our current views about future events and are subject to numerous known and unknown risks, uncertainties, assumptions and changes in circumstances that may cause our actual results to differ significantly from those expressed in any forward-looking statement. Factors that may materially affect such forward-looking statements include, but are not limited to:

- our ability to implement our business strategy;
- our ability to make distributions to our stockholders;
- our ability to acquire assets for our portfolio;
- the impact of changes to the supply of, value of and the returns on sub-performing and non-performing loans;
- our ability to convert loans to rental properties generating attractive returns;
- our ability to predict our costs;
- our ability to effectively compete with our competitors;
- our ability to apply the proceeds from financing activities to target assets in a timely manner;
- changes in interest rates and the market value of the collateral underlying our sub-performing and non-performing loan portfolios or acquired properties;
- our ability to obtain and access financing arrangements on favorable terms, or at all;
- our ability to maintain adequate liquidity;
- our ability to retain our engagement of AAMC;
- the failure of Altisource to effectively perform its obligations under various agreements with us;
- the failure of our servicers to effectively perform their servicing obligations;
- our failure to maintain qualification as a REIT;
- our failure to maintain our exemption from registration under the Investment Company Act;
- the impact of adverse real estate, mortgage or housing markets;
- the impact of adverse legislative or regulatory tax changes; and
- general economic and market conditions.

While forward-looking statements reflect our good faith beliefs, assumptions and expectations, they are not guarantees of future performance. Such forward-looking statements speak only as of their respective dates, and we assume no obligation to update them to reflect changes in underlying assumptions or factors, new information or otherwise. For a further discussion of these and other factors that could cause our future results to differ materially from any forward-looking statements contained herein, please refer to the section "Item 1A. Risk factors."

(table of contents)

Part I

Item 1. Business

Overview

Altisource Residential Corporation is a Maryland REIT focused on acquiring, owning and managing single-family rental properties throughout the United States. We acquire our single-family rental properties primarily through the acquisition of sub-performing and non-performing loan portfolios, which is a differentiated approach that we believe strategically positions us to take advantage of market opportunities better than market participants that are solely focused on real estate-owned, or “REO,” acquisitions. We conduct substantially all of our activities through our operating partnership, Altisource Residential, L.P., and its subsidiaries.

On December 21, 2012 we became a stand-alone publicly traded company with an initial capital contribution of \$100.0 million. We have a long-term service agreement with Altisource, a leading provider of real estate and mortgage portfolio management, asset recovery and customer relationship management services. We also have servicing agreements with three separate servicers. We believe that our relationship with Altisource and access to its nationwide renovation and property management vendor network enables us to competitively bid on large sub-performing or non-performing residential mortgage loan portfolios with assets dispersed throughout the United States.

We are managed by AAMC. We rely on AAMC for administering our business and performing certain of our corporate governance functions. AAMC also provides portfolio management services in connection with our acquisition of sub-performing and non-performing loans and single-family residential properties. AAMC was formed on March 15, 2012 as a wholly owned subsidiary of Altisource and was spun off from Altisource into a stand-alone publicly traded company concurrently with our separation from Altisource.

Our Business Strategy

Overview

We believe our business model provides us with operating capabilities that are difficult to replicate and positions us to capitalize on substantial single-family rental and non-performing loan market opportunities. Specifically, we believe our differentiated acquisition strategy focused on purchasing non-performing mortgage loans, our multifaceted loan resolution methodologies through our mortgage loan servicers and our access to an established, nationwide renovation and property management infrastructure provide us with multiple avenues of value creation that will help us to achieve our business objective of generating attractive risk-adjusted returns for our stockholders.

Acquisition Strategy

We expect to continue to acquire single-family rental properties primarily through our acquisition of sub-performing and non-performing mortgage loan portfolios. Based on the experience of AAMC’s management team, we believe that the distressed loan channel gives us a cost advantage over other acquisition channels such as foreclosure auctions and REO acquisitions because:

• we believe there are fewer participants in the sub-performing and non-performing loan marketplace than in the foreclosure auction and other REO acquisition channels due to the large size of portfolios offered for sale on an “all or none” basis and the required operational infrastructure involved in servicing loans and managing single-family rental properties throughout the United States. We believe the relatively lower level of competition for sub-performing and

non-performing loans provides buyers with the opportunity for a relatively lower cost to ultimately acquire single-family rental properties relative to foreclosure auctions or other REO acquisition channels; and we believe that we will be able to purchase residential mortgage loans at a lower price than REO properties because sellers of such loans will be able to avoid paying costs typically associated with home sales, such as broker commissions and closing costs of up to 10% of gross proceeds of the sale. We believe this will motivate the sellers to accept a lower price for the sub-performing and non-performing loans than they would if selling REO.

1

(table of contents)

Multifaceted Loan Resolution Methodologies

Through our mortgage servicers, including Ocwen, we seek to employ various loan resolution methodologies with respect to our residential mortgage loans, including loan modification, collateral resolution and collateral disposition. To help us achieve our business objective, we intend to focus on (1) converting a portion of our sub-performing and non-performing loans to performing status and (2) managing the foreclosure process and timelines with respect to the remainder of those loans.

Our preferred resolution methodology is to modify the sub-performing and non-performing loans. Once successfully modified, we expect that certain borrowers will refinance their loans with other lenders or we will sell the modified loans after establishing a payment history at or near the estimated value of the underlying property, potentially generating attractive returns for us. We believe modification followed by refinancing or sale generates near-term cash flows, provides the highest possible economic outcome for us and is a socially responsible business strategy because it keeps more families in their homes. We expect a significant portion of our residential mortgage loans will enter into foreclosure or result in our acquisition of the property via alternative resolution such as deed-in-lieu of foreclosure, ultimately becoming REO that we can convert into single-family rental properties which we believe will generate long-term returns for our stockholders. If an REO property does not meet our rental investment criteria, we expect to engage in REO liquidation to dispose of the property and generate cash for reinvestment in other acquisitions and dividend distributions. We believe that the optionality provided by our multifaceted resolution approach enables us to bid on large portfolios in an effective manner as all loans may not be amenable to a single resolution strategy.

Access to Established Nationwide Property Management Infrastructure

We believe that our 15-year master services agreement with Altisource allows us to operate and manage single-family rental properties with efficiency and predictability. This efficiency and predictability is driven by Altisource's technology and global workforce. Altisource has developed a nationwide operating infrastructure enabled by technology and standardized and centrally managed processes. It also has a global back office organization that qualifies vendors, solicits the appropriate vendors to perform requested work, assigns the work to the vendor with the best possible combination of cost and delivery capabilities, verifies that the vendor's work is complete and pays the vendor. This technology and organizational infrastructure allows Altisource to provide services which we believe provide us with the following competitive advantages:

our management of single-family rental properties using Altisource's nationwide vendor network is not dependent upon scale; accordingly, unlike many of our competitors, we do not require a critical size of single-family rental properties in a geographic area to attain operating efficiencies;

sub-performing and non-performing loan portfolios typically contain properties that are geographically dispersed, requiring a cost-effective nationwide property management system; we believe we are positioned to bid effectively on portfolios with large geographic dispersion;

Altisource's rental marketing strategy is specifically designed to advertise listings across popular industry-focused websites, utilizing their high organic and paid search rankings to generate large volumes of prospective tenants;

our contracted relationships with nationwide manufacturers and material suppliers, who are also used by Altisource, enable us to manage the ordering and delivery of flooring, appliances, paint, fixtures and lighting for all renovation and unit turn work (i.e. work associated with turnover from one tenant to the next);

We have direct access to Altisource's inspection and estimating application which is utilized by the third-party general contracting vendors to identify required renovation work and prepare detailed scopes of work to provide a consistent end product. In addition, this application catalogs major HVAC systems, appliances and construction materials, which can enable more accurate forecasting of long term maintenance requirements; and

Ongoing tenant management services are coordinated through an internal "24x7" customer service center.

AAMC works directly with Altisource's vendor management team on our behalf, and AAMC's construction management team often interfaces with the general contractors and vendors to maintain relationships with the vendor network. Through AAMC's team, we coordinate with Altisource and its personnel as well as the vendor network to establish a collective approach to the renovation management, maintenance, repair and materials supply chain to create a unified look and feel for the REO properties that we rent, own or acquire upon resolution of our mortgage loans. We believe AAMC's experience and these coordinated efforts with Altisource provide it with the capabilities to replicate Altisource's vendor network, if necessary, which our competitors may not be able to do without substantial efforts and expense.

Although our master services agreement and other support agreements with Altisource are not exclusive arrangements, we believe that these relationships and our direct access to a large vendor network through Altisource provide us with significant competitive advantages over third parties with respect to acquiring and maintaining sub-performing and non-performing loans

2

(table of contents)

and single-family rental properties. We expect to hold single-family rental property assets over the long-term with a focus on developing brand and franchise value.

We also believe that the forecasted growth for the single-family rental marketplace, in combination with our projected asset management and acquisition costs and our ability to acquire assets nationwide, provides us with a significant opportunity to establish ourselves as a leading, externally-managed residential REIT.

Existing Portfolio

In 2014 we completed the acquisition of an aggregate of 7,326 residential mortgage loans, substantially all of which were non-performing, and 237 REO properties having an aggregate unpaid principal balance (“UPB”) of approximately \$1.9 billion and an aggregate market value of underlying properties of \$1.8 billion. The aggregate purchase price for these acquisitions was \$1.2 billion. In 2013 we completed the acquisition of an aggregate of 8,491 residential mortgage loans, substantially all of which were non-performing, and 40 REO properties having an aggregate UPB of approximately \$2.2 billion and an aggregate market value of underlying properties of \$1.8 billion. The aggregate purchase price for these acquisitions was \$1.2 billion.

During the years ended December 31, 2014 and 2013, we completed the acquisition of the following portfolios of non-performing residential mortgage loans.

Date acquired	Portfolios Acquired		
	Number of loans acquired	Fair value of underlying property (in millions)	UPB (in millions)
Year ended December 31, 2013	8,531	\$1,795.2	\$2,219.3
January 2, 2014	650	93.6	120.8
January 28, 2014	66	7.0	7.3
January 31, 2014	3,421	791.7	987.8
February 28, 2014	70	8.2	8.0
May 1, 2014	664	126.6	153.0
June 27, 2014	1,116	375.3	328.2
July 10, 2014	46	5.0	6.9
July 31, 2014	1,243	315.7	260.3
October 24, 2014	159	31.6	42.9
December 23, 2014	127	15.1	16.0
Totals	16,093	(1) \$3,565.0	\$4,150.5

Includes 40 REOs purchased in 2013, 190 REOs purchased in May 2014, and 46 REOs purchased in October (1)2014. Excludes the portfolio of 879 re-performing loans acquired in June 2014, the majority of which were subsequently sold in October 2014.

Throughout this report, all unpaid principal balance and market value amounts for the portfolios we have acquired are provided as of the applicable “cut-off” date for each transaction unless otherwise indicated. We refer to the assets underlying our completed acquisitions as our “Existing Portfolio.” The Existing Portfolio does not include assets acquired as REO. As defined in this report, our “Existing Portfolio” does not include the 102 re-performing mortgage loans having an aggregate UPB of approximately \$18.4 million and an aggregate market value of underlying properties of approximately \$22.5 million as of December 31, 2014, which are considered “Mortgage loans held for sale.”

Our sub-performing and non-performing mortgage loans become REO properties when we obtain legal title to the property upon completion of foreclosure. Additionally, some of the portfolios we purchase may, from time to time, contain a small number of residential mortgage loans that have already been converted to REO.

As of December 31, 2014, we had 3,960 REO properties, consisting of 3,349 REO properties held for use and 611 held for sale. Of the 3,349 REO properties held for use, 336 properties had been rented, 197 were being listed for rent and 254 were in varying stages of renovation in preparation for rent. With respect to the remaining 2,562 REO properties held for use, we will make a final determination whether each property meets its rental profile after (a) applicable state redemption periods have expired, (b) the foreclosure sale has been ratified, (c) we have recorded the deed for the property, (d) utilities have been activated and (e) we have secured access for interior inspection. A majority of the REO properties are subject to state

3

(table of contents)

regulations which require us to await the expiration of a redemption period before a foreclosure can be finalized. We include these redemption periods in our pricing which generally reduces the price we pay for the mortgage loans. Once the redemption period expires, we immediately proceed to record the new deed, take possession of the property, activate utilities, and start the inspection process in order to make a final determination on whether to rent or liquidate the property. If an REO property meets our rental investment criteria, we determine the extent of renovations that are needed to generate an optimal rent and maintain consistency of renovation specifications for future branding. If it is determined that the REO property will not meet our rental investment criteria, the property is listed for sale, in some instances after renovations are made to optimize the sale proceeds. As of December 31, 2013, we had 246 REO properties held for use. Of these properties, 14 had been rented, 11 were being listed for rent and 18 were in various stages of renovation. With respect to the remaining 203 REO properties at December 31, 2013, we were in the process of determining whether these properties would meet our rental profile. Additionally, 16 REO properties owned as of December 31, 2013 were held for sale.

The remainder of our Existing Portfolio consists of a diversified pool of sub-performing and non-performing residential mortgage loans with the underlying properties located across the United States. The aggregate purchase price of our Existing Portfolio for acquisitions completed through December 31, 2014 was 67% of the aggregate market value, as determined by the most recent BPO provided by the applicable seller for each property in the respective portfolio as of its cut-off date. We cannot assure you that the BPOs accurately reflected the actual market value of the related property at the purported time or accurately reflect such market value today.

As of December 31, 2014 the aggregate carrying value of our Existing Portfolio was \$2.0 billion (which does not include the carrying value of our REO properties of an additional \$624.6 million). The carrying value of mortgage loans is based on our asset manager's proprietary pricing model. The significant unobservable inputs used in the fair value measurement of our mortgage loans are discount rates, forecasts of future home prices, alternate resolution probabilities and foreclosure timelines. Significant changes in any of these inputs in isolation could result in a significant change to the fair value measurement. For a more complete description of the fair value measurements and the factors that may significantly affect the carrying value of our assets, please see Note 4 to our consolidated financial statements.

The table below provides a summary of the sub-performing and non-performing residential mortgage loans in our Existing Portfolio based on the respective UPB and respective market values of underlying properties as of December 31, 2014 (\$ in thousands):

Location	Loan count	UPB	Market value of underlying properties (1)	Weighted average market LTV (2)	
Alabama	58	\$8,479	\$7,404	174.4	%

Total mortgage loans	10,963	\$2,935,961	\$2,693,525	131.6	%

Market value is based on the most recent BPO provided to us by the applicable seller for each property in the respective portfolio as of its cut-off date or an updated BPO received since the acquisition was completed.

- (1) Although we performed diligence on a representative sample of the properties to confirm the accuracy of the BPOs provided by the sellers, we cannot assure you that the BPOs set forth in this table accurately reflected the actual market value of the related property at the purported time or accurately reflect such market value today.
- (2) Weighted average loan to value (LTV) is based on the loan to value weighted by unpaid principal balance for each state.

As of December 31, 2014, the 15 states with the highest concentration of loans accounted for 8,724 loans (80% of our Existing Portfolio), with an aggregate UPB of \$2.5 billion (87% of our Existing Portfolio) as of the respective cut-off dates, with the remainder dispersed among 34 other states, one territory and the District of Columbia.

(table of contents)

As set forth in the chart below, approximately 93% of the residential mortgage loans in our Existing Portfolio were 60 days or more delinquent as of December 31, 2014.

Our Strengths

Depth of Management Experience in Mortgage Servicing

We believe the experience of our management team allows us to capitalize on the servicing capabilities of our third party servicers and ensure cost effective servicing of our acquired residential mortgage loan portfolios. We have directed and will continue to direct our mortgage servicers to employ various loan resolution methodologies with respect to our residential mortgage loans, including loan modification, collateral resolution and collateral disposition. To help us achieve our business objective, we instruct our mortgage servicers to focus on (1) converting a portion of our sub-performing and non-performing loans to performing status and (2) managing the foreclosure process and timelines with respect to the remainder of those loans.

Importantly, by modifying as many loans as possible, we seek to keep more families in their homes because of our efforts.

Through 2014, we had exclusively engaged Ocwen to service the residential mortgage loans in our portfolio. Given the recent challenges and regulatory scrutiny faced by Ocwen, we have engaged additional alternate servicers to service our loans. We have begun to move certain loans to these new servicers to diversify our servicing options. However, a substantial number of the loans we own continue to be serviced by Ocwen. It is possible, even as we transfer all or a portion of our mortgage loan portfolio to such other servicers, the alternate servicers may not be able to service our loans or resolve our non-performing loans as well as Ocwen has serviced our portfolio. In any event, if for any reason, our mortgage servicers, including Ocwen, are unable to service these loans at the level and/or the cost that we anticipate, or if we fail to pay or otherwise default under the servicing agreements, causing one or more mortgage servicers cease to act as its servicer, alternate qualified servicers may not be readily available on favorable terms, or at all, which could have a material adverse effect on us.

Relationship with Altisource and its Nationwide Property Management Infrastructure

We believe that we are strategically positioned to operate single-family rental properties across the United States at an attractive cost structure, with the support of Altisource's nationwide vendor network, which provides services in 208 major markets across the United States.

In 2014, Altisource's vendor network completed an average of approximately 400,000 inspection, maintenance and repair orders per month. This vendor network infrastructure has been developed over many years, and we believe this infrastructure would be difficult and expensive for our competitors and/or new market participants to replicate. We believe, therefore, that our existing relationships with Altisource and its vendor network, as described above in "Access to Established Nationwide Property Management Infrastructure," gives us a distinct advantage as it allows us to bid on large attractive portfolios regardless of geography at an attractive cost structure. We also believe that AAMC's established relationships with the Altisource network management team and our ongoing experience with the service providers in Altisource's vendor network who know our renovation, maintenance and repair standards would likely provide us with an advantage over others in replicating and/or acquiring this nationwide property management infrastructure, if necessary.

(table of contents)

Other Services Provided by Altisource

In addition to the Altisource master services agreement, we also have a trademark license agreement with Altisource that provides us with a non-exclusive, non-transferable, non-sublicensable, royalty free license to use the name “Altisource.” We also have a support services agreement with Altisource to provide services to us in such areas as human resources, vendor management operations, corporate services, risk management, quality assurance, consumer psychology, treasury, finance and accounting, legal, tax and compliance. Although the support services agreement has enabled us to grow our business, AAMC is in the process of internalizing the support services that had been provided to us by Altisource through its direct employment of the 26 employees that currently are providing these services to us through the support services agreement.

Expertise of Our Manager

The senior management team of our Manager includes individuals with significant experience in the real estate, mortgage, housing and asset management markets. Throughout their careers, these executives have managed various real estate-related businesses and executed structured real estate and financing transactions through multiple market cycles. AAMC has also internally developed a valuation model that uses proprietary historical data to evaluate and project the performance of residential mortgage loans. We believe that AAMC’s asset evaluation process and the experience and judgment of its executive management team in identifying, assessing, valuing and acquiring new residential mortgage loans will help us to appropriately value the portfolios at the time of purchase.

Our Investment Process

Our underwriting analysis for acquiring sub-performing and non-performing loan portfolios on a national basis relies on extensive analysis of the target portfolio’s characteristics, and the use of our proprietary model in determining future cash flows and returns from various resolution methodologies. We estimate our resolution timelines using advanced modeling techniques. We use regression-based models to determine the expected probabilities of different loan resolutions, including modification, rental and liquidation. We also use an extensive due diligence process to validate data accuracy, compliance with laws, and enforceability of liens among other factors.

The following graphic outlines our process for assessing sub-performing and non-performing portfolio investment opportunities:

Our Financing Strategy

We intend to continue to finance our investments with leverage, the level of which may vary based upon the particular characteristics of our portfolio and on market conditions. To the extent available at the relevant time, our financing sources may include bank credit facilities, warehouse lines of credit, structured financing arrangements and repurchase agreements, among

(table of contents)

others. We may also seek to raise additional capital through public or private offerings of debt or equity securities, depending upon market conditions. For additional information on our financing arrangements, see “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations–Liquidity and Capital Resources.”

Investment Committee and Investment Policy

Substantially all of our investment activities are conducted by AAMC on our behalf pursuant to the asset management agreement. Our principal objective is to generate attractive risk-adjusted returns for our stockholders over the long-term through dividends and capital appreciation.

Our Board of Directors has adopted a broad investment policy designed to facilitate the management of our capital and assets and the maintenance of an investment portfolio profile that meets our objectives. Our manager has established an investment committee, whose role is to act in accordance with the investment policy and guidelines approved by our Board of Directors for the investment of our capital. As part of an overall investment portfolio strategy, the investment policy provides that we can purchase or sell non-performing or sub-performing residential mortgage loans, residential mortgage backed securities and real estate owned assets. We are also authorized to offer leases on acquired single-family residential real estate. The investment policy may be modified by our Board of Directors without the approval of our stockholders.

The objective of the investment policy is to oversee our efforts to achieve a return on assets consistent with our business objective and to maintain adequate liquidity to meet financial covenants and regular cash requirements.

The investment committee is authorized to finance our investment positions through repurchase agreements, warehouse lines of credit, securitized debt and other financing arrangements provided such agreements are negotiated with counterparties approved by the investment committee. We are also permitted to hedge our interest rate exposure on our financing activities through the use of interest rate swaps, forwards, futures and options, subject to prior approval from the investment committee.

Investment Committee Approval of Counterparties

The investment committee is authorized to consider and approve:

- the financial soundness of institutions with which we plan to transact business and make recommendations with respect thereto;
- our risk exposure limits with respect to the dollar amounts of total exposure with a given institution; and
- investment accounts and trading accounts to be opened with banks, broker-dealers and financial institutions.

Investment Committee Guidelines

The activities of our investment committee are subject to the following guidelines:

- no investment will be made that would cause us or any of our subsidiaries to fail to qualify as a REIT for U.S. federal income tax purposes;
- no investment will be made that would cause us to be required to register as an investment company under the Investment Company Act of 1940; and
- until appropriate investments can be identified, we may invest available cash in interest-bearing and short-term investments that are consistent with (a) our intention to qualify as a REIT and (b) our exemption from registration as an investment company under the Investment Company Act of 1940.

Broad Investment Policy Risks

Our investment policy is very broad and, therefore, our investment committee and AAMC have great latitude in determining the types of assets that are proper investments for us, as well as the individual investment decisions. In the future, AAMC may make investments with lower rates of return than those anticipated under current market conditions and/or may make investments with greater risks to achieve those anticipated returns. Our Board of Directors will periodically review our investment policy and our investment portfolio but will not review or approve each proposed investment by AAMC unless it falls outside our previously approved investment policy or constitutes a related party transaction.

In addition, in conducting periodic reviews, our Board of Directors will rely primarily on information provided to it by AAMC. Furthermore, AAMC may use complex strategies. Transactions entered into by AAMC may be costly, difficult or impossible to unwind by the time they are reviewed by our Board of Directors. In addition, we may change our investment policy and

(table of contents)

targeted asset classes at any time without the consent of our stockholders, and this could result in our making investments that are different in type from, and possibly riskier, than our current investments or the investments currently contemplated. Changes in our investment strategy, investment policy and targeted asset classes may increase our exposure to interest rate risk, counterparty risk, default risk and real estate market fluctuations, which could materially and adversely affect us.

Our Manager and the Asset Management Agreement

Under our asset management agreement with AAMC, which we refer to as the “asset management agreement,” AAMC is responsible for, among other duties: (1) performing and administering all our day-to-day operations, (2) defining investment criteria in our Investment Policy in cooperation with our Board of Directors, (3) sourcing, analyzing and executing asset acquisitions, including our acquisition of sub-performing and non-performing residential mortgage loan portfolios and related financing activities, (4) analyzing sales of properties, (5) overseeing Altisource’s renovation, leasing and property management of our single-family rental properties, (6) overseeing servicing of our residential mortgage loan portfolios, (7) performing asset management duties and (8) performing corporate governance and other management functions, including financial, accounting and tax management services. AAMC provides us with a management team and appropriate support personnel who have substantial sub-performing and non-performing loan portfolio experience. AAMC’s management also has significant corporate governance experience that enables us to manage our business and organizational structure efficiently. AAMC has agreed not to provide the same or substantially similar services to any other party so long as the company and the operating partnership have on hand an average of \$50,000,000 in capital available for investment over the previous two fiscal quarters.

Incentive Management Fee

Under the asset management agreement, we pay AAMC quarterly incentive management fees as follows:

- 2% of all cash available for distribution by us to our stockholders and to AAMC as incentive management fees, which we refer to as “available cash,” until the aggregate amount per share of available cash for the quarter (based on the average number of shares of our common stock outstanding during the quarter), which we refer to as the “quarterly per share distribution amount,” exceeds \$0.161, then
- i. 15% of all additional available cash for the quarter until the quarterly per share distribution amount exceeds \$0.193, then
- ii. 25% of all additional available cash for the quarter until the quarterly per share distribution amount exceeds \$0.257, and thereafter
- iii. 50% of all additional available cash for the quarter;
- iv.

in each case set forth in clauses (i) through (iv), as such amounts may be appropriately adjusted from time to time to take into account the effect of any stock split, reverse stock split or stock dividend.

We will distribute any quarterly distribution to our stockholders after the application of the incentive management fee payable to AAMC.

In the event of the payment of any dividend of cash from capital transactions by us, each of the thresholds described above shall be reduced by an amount equal to the applicable threshold multiplied by a fraction (i) the numerator of which shall be the amount of distributions of available cash that are deemed to be cash from capital transactions that a hypothetical holder of one share of common stock has received with respect to such share of common stock, during the period since December 21, 2012 through the date of such payment, and (ii) denominator of which shall be \$12.74 (as such amount may be appropriately adjusted from time to time to take into account the effect of any stock split, reverse stock split or stock dividend); provided that in no event shall such fraction be greater than 1.

Notwithstanding the foregoing, in the case of cash dividends from capital transactions, no incentive management fee will be paid to AAMC in respect of such dividends unless and until a hypothetical holder of one share of common stock has received with respect to such share of common stock, during the period from December 21, 2012 through the date of payment, cash dividends from capital transactions in an aggregate amount equal to \$12.74 (as such amount may be appropriately adjusted from time to time to take into account the effect of any stock split, reverse stock split or stock dividend).

The asset management agreement defines “capital transactions” to include various financing transactions and sales and other dispositions of assets, but not sales and other dispositions in the ordinary course of business. A sale or disposition is treated for this purpose as being in the ordinary course of business unless it involves, in a single transaction or series of related transactions, assets that have an aggregate value in excess of 50% of the aggregate value of all assets held by us and our

9

(table of contents)

subsidiaries on a consolidated basis immediately prior to the consummation of such transaction or, in the case of a series of related transactions, the first such transaction.

Expense Reimbursement

We are required to reimburse AAMC for the (i) direct and indirect expenses AAMC incurs or payments it makes on our behalf, including, but not limited to, the allocable compensation and routine overhead expenses of all employees and staff of AAMC and (ii) all other reasonable operating and overhead expenses AAMC incurs related to the asset management services it provides to us. We do not reimburse AAMC for any compensation paid to its Directors.

Termination

We may terminate the asset management agreement without cause upon the determination of at least two-thirds of our independent directors that (i) there has been unsatisfactory performance by AAMC that is materially detrimental to us, or (ii) the compensation payable to AAMC under the asset management agreement is unreasonable, unless AAMC agrees to compensation that at least two-thirds of our independent directors determine is reasonable.

AAMC may terminate the asset management agreement without cause by providing written notice to us no later than 180 days prior to December 21 of any year during the initial term or a renewal term, and the asset management agreement will terminate on the December 21 following the delivery of such notice.

We will be required to pay AAMC a termination fee in the event that the asset management agreement is terminated as a result of (i) a termination of AAMC by us without cause, (ii) a termination by AAMC as a result of our becoming regulated as an “investment company” under the Investment Company Act, or (iii) a termination by AAMC if we default in the performance of any material term of the asset management agreement (subject to a notice and cure period).

The termination fee will be equal to three times the average annual incentive management fee earned by AAMC during the prior 24-month period immediately preceding the date of termination, calculated as of the end of the fiscal quarter completed prior to the date of termination. In the event the asset management agreement is terminated: (1) the Ocwen servicing agreement, the support services agreement and the trademark license agreement will terminate within 30 days; and (2) if the asset management agreement is terminated without cause by us, the Altisource master services agreement may be terminated at Altisource’s sole discretion.

If the asset management agreement were terminated by AAMC our financial position and future prospects for revenues and growth could be materially adversely affected.

Manager’s Management of the Operating Partnership

General

Substantially all of our assets are and will be held by, and substantially all of our operations will be conducted through, the operating partnership, either directly or through its subsidiaries or trusts for its benefit. Altisource Residential GP, LLC, which we refer to as the “general partner,” is the sole general partner of the operating partnership. We own 100% of the membership interests in the general partner. We also own 100% of the limited partnership interests of the operating partnership. We do not intend to list any operating partnership interests on any exchange or any national market system. The provisions of the limited partnership agreement are described below.

The general partner is managed by AAMC through our asset management agreement with AAMC. Except as otherwise expressly provided in the limited partnership agreement and subject to the rights of holders of any class or

series of operating partnership interests, all management powers over the business and affairs of the operating partnership are exclusively vested in AAMC through its management of us and the general partner, subject to the oversight of our Board of Directors. No limited partner, in its capacity as a limited partner, has any right to participate in or exercise control or management power over the operating partnership's business and affairs other than through our Board of Directors' oversight of AAMC's executive officers who manage our business and that of the general partner. With limited exceptions, the general partner, through its management by AAMC, may execute, deliver and perform agreements and transactions on behalf of the operating partnership without the approval or consent of any limited partner.

10

(table of contents)

Terms of the Limited Partnership Agreement

Capital Contributions, Profits and Losses and Distributions

Neither the general partner nor the limited partner is required to make any additional capital contribution to the operating partnership, although we intend to contribute funds generally from equity offerings, repurchase facilities or securitization financings into the operating partnership in order to (a) make additional acquisitions of portfolios of sub-performing and non-performing residential mortgage loans and other single-family rental properties, (b) pay servicing fees and other related expenses for the residential mortgage loans we acquire;(c) conduct the renovation, leasing and property management services for assets that become single-family rental properties and (d) general corporate purposes.

The profits and losses of the operating partnership shall be allocated in proportion to the capital contributions of the partners of the operating partnership.

At the time or times determined by the general partner, the general partner may cause the operating partnership to distribute any cash held by it which is not reasonably necessary for the operation of the operating partnership. If the general partner determines that cash will be distributed, the cash available for distribution will be distributed to us, as the limited partner of the operating partnership since we are the contributor of all the funds in the operating partnership's capital account.

Restrictions on Transfer of Partnership Interests; Withdrawals

Any partner of the operating partnership may transfer all or any part of its interest in the operating partnership only with the consent of the general partner. Because we are the only limited partner and control the general partner, we do not expect to transfer our limited partnership interests for the foreseeable future.

No partner may withdraw from the operating partnership except pursuant to an amendment to the limited partnership agreement signed by all of the partners. The withdrawal of the limited partner, and admission of a new or substitute limited partner, as applicable, will be effective as of the date of any such amendment. Upon the withdrawal of any partner, the withdrawing partner shall, to the extent permitted by Delaware Revised Uniform Limited Partnership Act, or "DRULPA," be entitled to payment of the balance of its capital account, and shall have no further right, interest or obligation of any kind whatsoever as a partner in the operating partnership. We do not intend to withdraw as a partner of the operating partnership for the foreseeable future.

Amendments; Admission of Additional Partners

Without our approval as the limited partner, the general partner may amend, and may amend and restate, the limited partnership agreement. The general partner may admit additional limited partners to the operating partnership. The admission of additional limited partners to the operating partnership may be accomplished by the amendment, or the amendment and restatement, of the limited partnership agreement without our consent, and, if required by DRULPA, the filing of an appropriate amendment of the operating partnership's certificate of formation.

NewSource Investment

On December 21, 2012, we entered into a subscription agreement to invest \$18.0 million in the non-voting preferred stock of NewSource Reinsurance Company Ltd., which we refer to as "NewSource," an insurance and reinsurance company focused on real estate related insurance products in Bermuda. AAMC simultaneously entered into a

subscription agreement to invest \$2.0 million to acquire 100% of the common stock and voting rights of NewSource. On October 17, 2013, we and AAMC invested the full amount of our respective subscriptions in NewSource, and on December 2, 2013, NewSource became registered as a licensed reinsurer with the Bermuda Monetary Authority (“BMA”).

Additionally, on November 18, 2013, NewSource entered into a management agreement with AAMC to provide asset management and corporate governance services and in November 2013 entered into a management agreement with Marsh IAS Management Services (Bermuda) Ltd. to administer its day-to-day business activities and operations.

NewSource commenced reinsurance activities during the second quarter of 2014, and generated approximately \$5.0 million of title reinsurance premiums during 2014. However, in December 2014, NewSource determined that the economics of the initial business activities did not warrant the continuation of its initial reinsurance quota share agreement with an unrelated third party.

(table of contents)

NewSource therefore transferred all of the risk of claims and future losses underwritten to an unrelated third party for a price of \$3.2 million.

NewSource is continuing to evaluate its real estate related insurance and reinsurance strategy and considering related opportunities. There is no assurance that NewSource will be able to develop or grow its business strategy or operations, or engage in insurance and reinsurance activities at all.

Policies with Respect to Certain Other Activities

We intend to raise additional funds through equity offerings, repurchase facilities, securitization financings or other debt arrangements, the retention of cash flow (subject to REIT distribution requirements), or a combination of these methods. In the event that our Board of Directors determines to raise additional equity capital, it has the authority, without stockholder approval, to issue additional common stock or preferred stock in any manner and on such terms and for such consideration as it deems appropriate, at any time, subject to compliance with NYSE listing requirements.

In addition, we have borrowed and intend to continue to borrow money to finance or refinance the acquisition of sub-performing and non-performing residential mortgage loans and single-family properties and for general corporate purposes. Our investment policy, the assets in our portfolio, the decision to use leverage and the appropriate level of leverage will be based on AAMC's assessment of a variety of factors, including our historical and projected financial condition, liquidity and results of operations, financing covenants, the cash flow generation capability of assets, the availability of credit on favorable terms, our outlook for borrowing costs relative to the unlevered yields on our assets, maintenance of our REIT qualification, applicable law and other factors, as AAMC and/or our Board of Directors may deem relevant from time to time. Our decision to use leverage will be at AAMC's discretion and will not be subject to the approval of our stockholders. We are not restricted by our governing documents in the amount of leverage that we may use.

As of the date of this report, we do not intend to invest in the securities of other REITs, other entities engaged in real estate activities or securities of other issuers for the purpose of exercising control over such entities. We do not intend that our investments in securities will require us to register as an investment company under the Investment Company Act, and we would intend to divest such securities before any such registration would be required. We do not intend to underwrite securities of other issuers.

Our Board of Directors may change any of these policies without prior notice to, or the consent of our stockholders.

REIT Qualification

We elected and qualified to be taxed as a REIT under Sections 856 through 859 of the Internal Revenue Code of 1986, or the "Code," beginning with our taxable year ended December 31, 2013, and we currently expect to maintain this status for the foreseeable future. Our qualification as a REIT depends upon our ability to meet on a continuing basis, through actual investment and operating results, various complex requirements under the Code relating to, among other things, the sources of our gross income, the composition and values of our assets, our distribution levels and the diversity of ownership of our common shares. We believe that we are organized in conformity with the requirements for qualification and taxation as a REIT under the Code, and that our manner of operation enables us to meet the requirements for qualification and taxation as a REIT. As a REIT, we generally are not subject to U.S. federal income tax on our REIT taxable income we distribute to our stockholders.

Even though we elected to be taxed as a REIT, we are subject to some U.S. federal, state and local taxes on our income or property. A portion of our business is expected to be conducted through, and a portion of our income is

expected to be earned in, one or more taxable REIT subsidiaries, each of which we refer to as a “TRS.” In general, a TRS may hold assets and engage in activities that the REIT cannot hold, may choose not to hold to maintain REIT compliance and cannot engage in directly. Additionally, a TRS may engage in any real estate or non-real estate related business. A TRS is subject to U.S. federal, state and local corporate income taxes. To maintain our REIT election, at the end of each quarter no more than 25% of the value of a REIT’s assets may consist of stock or securities of one or more TRSs. If our TRS generates net income, our TRS can declare dividends to us which will be included in our taxable income and necessitate a distribution to our stockholders. Conversely, if we retain earnings at the TRS level, no distribution is required, and we can increase stockholders’ equity of the consolidated entity. As discussed under “Item 1A. Risk Factors—Risks Related to Our Qualification as a REIT”, the combination of the requirement to maintain no more than 25% of our assets in the TRS coupled with the effect of TRS dividends on our income tests creates compliance complexities for us in the maintenance of our qualified REIT status.

(table of contents)

Exemption from Investment Company Act

We rely on the exception from the Investment Company Act of 1940, as amended, or the “Investment Company Act,” set forth in Section 3(c)(5)(C) of the Investment Company Act which excludes from the definition of investment company “any person who is not engaged in the business of issuing redeemable securities, face-amount certificates of the installment type or periodic payment plan certificates, and who is primarily engaged in one or more of the following businesses... (C) purchasing or otherwise acquiring mortgages and other liens on and interests in real estate.” The SEC Staff generally requires that, for the exception provided by Section 3(c)(5)(C) to be available, at least 55% of an entity’s assets be comprised of mortgages and other liens on and interests in real estate, also known as “qualifying interests,” and at least another 25% of the entity’s assets must be comprised of additional qualifying interests or real estate-type interests (with no more than 20% of the entity’s assets comprised of miscellaneous assets). We believe that our \$18.0 million investment in NewSource does not meet the definition of “qualifying interest.” Any significant acquisition by us of non-real estate assets without the acquisition of substantial real estate assets could cause us to meet the definitions of an “investment company.” If we are deemed to be an investment company, we could be required to dispose of our NewSource investment or a portion thereof, potentially at a loss, in order to qualify for the 3(c)(5)(C) exception. We may also be required to register as an investment company if we are unable to dispose of the disqualifying assets, which could have a material adverse effect on us. See “Item 1A. Risk Factors—Risks Related to Our Structure—We could be materially and adversely affected if we are deemed to be an investment company under the Investment Company Act.”

Employees

We do not currently have any employees and do not expect to have any employees in the foreseeable future. Currently, services necessary for our business are provided by individuals who are employees of AAMC and our service providers. Each of our executive officers is an employee or officer or both, of AAMC, and they are paid by AAMC. As of December 31, 2014, AAMC had nine full-time employees and had an additional 26 dedicated support personnel provided to us by Altisource through its support services agreement with us.

Competition

We face competition from various sources for the acquisition of sub-performing and non-performing residential mortgage loans. Our competition includes other REITs, hedge funds, private equity funds and partnerships. To effectively compete, we will rely upon AAMC's management team and their substantial industry expertise which we believe provides us with a competitive advantage and helps us assess the investment risks and determine appropriate pricing. We expect our integrated approach of acquiring sub-performing and non-performing residential mortgage loans and converting them to rental properties will enable us to compete more effectively for attractive investment opportunities. However, we cannot assure you that we will be able to achieve our business goals or expectations due to the competitive pricing and other risks that we face. Our competitors may have greater resources and access to capital and higher risk tolerances than we have, may be able to pay higher prices for sub-performing and non-performing residential mortgage loans than we can or may be willing to accept lower returns on investment. As the inventory of available sub-performing and non-performing residential mortgage loans and REO will fluctuate, the competition for assets and financing may increase.

We also face significant competition in the single-family rental market from other real-estate companies, including REITs, investment companies, partnerships and developers. To effectively manage rental yield and occupancy levels, we will rely upon the ability of AAMC's management team to supervise the renovation, yield management and property management services on our acquired properties. Despite these efforts, some of our competitors' single-family rental properties may be of better quality, or in more desirable locations than our properties or have leasing terms more favorable than we offer. In addition, our ability to compete and meet our return objectives depends

upon, among other factors, trends of the national and local economies, the financial condition and liquidity of current and prospective tenants, availability and cost of capital, taxes and governmental regulations. Given the significant competition, complexity of the market, changing financial and economic conditions and evolving single-family tenant demographics and demands, we cannot assure you that we will be successful in acquiring or managing single-family rental properties that satisfy our return objectives.

(table of contents)

Environmental Matters

As an owner of real estate, we are subject to various federal, state and local environmental laws, regulations and ordinances and also could be liable to third parties resulting from environmental contamination or noncompliance with environmental laws at our properties. Environmental laws can impose liability on an owner or operator of real property for the investigation and remediation of contamination at or migrating from such real property without regard to whether the owner or operator knew of or was responsible for the presence of the contaminants. The costs of any required investigation or cleanup of these substances could be substantial. The liability is generally not limited under such laws and could exceed the property's value and the aggregate assets of the liable party. The presence of contamination or the failure to remediate contamination at our properties also may expose us to third-party liability for personal injury or property damage or adversely affect our ability to sell, lease or renovate the real estate or to borrow using the real estate as collateral. These and other risks related to environmental matters are described in more detail in "Item 1A. Risk Factors."

Government Approval

Outside of routine business filings, we do not believe it is necessary to obtain any government approval to operate our business.

Governmental Regulations

We do not believe there are any governmental regulations that will materially affect the conduct of our business.

Available Information

We file Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other information with the Securities and Exchange Commission which we refer to as the "SEC." These filings are available to the public over the Internet at the SEC's website at <http://www.sec.gov>. You may also read and copy any document we file at the SEC's public reference room located at 100 F Street, N.E., Washington, DC 20549. Please call the SEC at 1 800-SEC-0330 for further information on the public reference room.

Our principal Internet address is <http://www.altisourceresi.com>, and we encourage investors to use it as a way of easily finding information about us. We promptly make available on this website, free of charge, the reports that we file with or furnish to the SEC along with corporate governance information including our Corporate Governance Guidelines, our Code of Business Conduct and Ethics and select press releases. The contents of our website are available for informational purposes only and shall not be deemed incorporated by reference in this report.

(table of contents)

Item 1A. Risk factors

The following risk factors and other information included in this Annual Report on Form 10-K should be carefully considered. If any of the following risks actually occur, our business, operating results and financial condition could be materially adversely affected.

Risks Related to Our Business

We have a limited operating history. If we are unable to implement our business strategy as planned, we will be materially and adversely affected.

We commenced operations approximately two years ago, and our business model is relatively untested and evolving. Businesses like ours that have a limited operating history present substantial business and financial risks and may suffer significant losses. As a result we cannot predict our results of operations, financial condition and cash flows. We only began to generate residential rental revenue during 2013. In addition, our financial results have been largely attributable to purchasing non-performing loan and other rental-related assets at a discount, and the rates of such acquisitions may be uneven over periods of time and unpredictable due to market conditions, limited financial resources or other constraints.

Our results for prior periods are not necessarily indicative of our results for any future period, and we may not have sufficient additional capital to implement our business model. Moreover, we expect that it will take time to determine success from loan resolution efforts and it could take as long as 24 months, and in some cases longer, for a significant portion of loans in any given portfolio to be converted into single-family rental properties or an underlying property to be liquidated or sold. Accordingly, if we are not able to generate sufficient cash flows from our loan modification and refinancing or other activities, we may not have cash available for distribution to our stockholders for an extended period of time. There can be no assurance that our business will remain profitable or that our profitability will be sustainable. The earnings potential of our business is unproven, and our limited operating history makes it difficult to evaluate our prospects. We may not be able to implement our business strategy as planned, which could materially and adversely affect us.

We are an early entrant in an emerging industry, and the long-term viability of our investment strategy on an institutional scale is unproven.

Large-scale institutional investment in single-family residential homes for rent is a relatively recent phenomenon that has emerged out of the mortgage and housing crisis that began in late 2007. Prior to that time, single-family rental homes were generally not viewed as viable assets for investment on a large scale by institutional investors. Consequently, the long-term viability of the single-family rental property investment strategy on an institutional scale has not yet been proven. As an early entrant in this emerging industry, we are subject to the risk that single-family rental properties may not prove to be a viable long-term investment strategy on an institutional scale for a permanent capital vehicle. If it turns out that this investment strategy is not a viable one, we would be materially and adversely affected and we may not be able to sustain the growth of our assets and our operations that we seek.

Our failure to raise equity capital and/or obtain adequate debt financing could adversely affect our ability to increase our portfolio, manage our existing assets and generate shareholder returns.

Our success has been, and will be, largely dependent on our ability to raise equity capital and obtain debt financing to increase our portfolio, manage our existing assets and generate attractive shareholder returns. We require significant financial resources to maintain our obligations under our debt facilities and to continue to acquire portfolios of mortgage loans and REO properties. If we are unable to continue to raise equity capital, or leverage our portfolio

through repurchase facilities and/or securitizations, our current portfolio and cash from operations may become inadequate to meet our financial obligations.

We use leverage as a component of our financing strategy in an effort to enhance our returns. We can provide no assurance that we will be able to timely access all funds available under our financing arrangements or obtain other debt or equity financing on favorable terms or at all. To qualify as a REIT, we will be required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain, each year to our stockholders. As a result, our ability to retain earnings to fund acquisitions, property renovations or other capital expenditures will be limited.

Limited availability of credit may have an adverse effect on our ability to obtain financing on favorable terms, thereby increasing financing costs and/or requiring us to accept financing with increasing restrictions. Our long-term ability to grow through additional investments will be limited if we cannot obtain additional debt or equity financing.

(table of contents)

We may not be able to successfully operate our business or generate sufficient operating cash flows to make or sustain distributions to our stockholders.

There can be no assurance that we will be able to successfully operate our business or generate sufficient cash to make distributions to our stockholders. Our ability to make or sustain distributions to our stockholders depends on many factors, including the availability of attractive risk-adjusted investment opportunities that satisfy our investment strategy and our success in identifying and consummating such opportunities on favorable terms, the success of our loan resolution efforts, the ability of borrowers to refinance our loans with other lenders, our ability to sell modified loans on favorable terms, the availability of short-term and long-term financing on favorable terms, length of time required to convert a distressed loan into a single-family rental property, the level and expected movement of home prices, the occupancy rates and rent levels of properties, the restoration, maintenance, marketing and other operating costs, the level and volatility of interest rates, conditions in the financial, real estate, housing and mortgage markets and the economy, as to which no assurance can be given. We cannot assure you that we will be able to make investments with attractive risk-adjusted returns or will not seek investments with greater risk to obtain the same level of returns or that the value of our investments in the future will not decline substantially. Existing and future government regulations may result in additional costs or delays, which could adversely affect the implementation of our investment strategy.

We have leveraged our investments and expect to continue to do so, which may materially and adversely affect our return on our investments and may reduce cash available for distribution to our stockholders.

To the extent available, we intend to continue to leverage our investments through borrowings, the level of which may vary based on the particular characteristics of our investment portfolio and on market conditions. We have leveraged certain of our investments to date through our repurchase agreements. When we enter into any repurchase agreement, we sell securities or residential mortgage loans to lenders (i.e., repurchase agreement counterparties) and receive cash from the lenders. The lenders are obligated to resell the same assets back to us at the end of the term of the transaction. Because the cash we receive from the lender when we initially sell the assets to the lender is less than the value of those assets, if the lender defaults on its obligation to resell the same assets back to us we could incur a loss on the transaction. In addition, repurchase agreements generally allow the counterparties, to varying degrees, to determine a new market value of the collateral to reflect current market conditions or for other reasons. If such counterparty determines that the value of the collateral has decreased, it may initiate a margin call and require us to either post additional collateral to cover such decrease or repay a portion of the outstanding borrowing. Should this occur, in order to obtain cash to satisfy a margin call, we may be required to liquidate assets at a disadvantageous time, which could cause us to incur further losses. In the event we are unable to satisfy a margin call, our counterparty may sell the collateral, which may result in significant losses to us. Our repurchase agreements generally require us to comply with various financial covenants, including those relating to tangible net worth, profitability and our ratio of total liabilities to tangible net worth, and to maintain minimum amounts of cash or cash equivalents sufficient to maintain a specified liquidity position. We expect any future repurchase agreements or other financing arrangements will have similar provisions. In the event that we are unable to satisfy these requirements, we could be forced to sell additional investments at a loss which could materially and adversely affect us.

Our repurchase agreements to finance sub-performing and non-performing loans are complex and difficult to manage. In part, this is due to the fact that our residential mortgage loan portfolios and single-family rental properties that will collateralize these repurchase agreements do not produce consistent cash flows and require specific activities to be performed at specific points in time in order to preserve value. Our inability to comply with the terms and conditions of these agreements could materially and adversely impact us. In addition, our outstanding repurchase agreements contain, and we expect any future repurchase agreements will contain, events of default, including payment defaults, breaches of financial and other covenants and/or certain representations and warranties, cross-defaults, servicer termination events, guarantor defaults, bankruptcy or insolvency proceedings and other events of default customary

for these types of agreements. The remedies for such events of default are also customary for these types of agreements and include the acceleration of the outstanding principal amount, requirements that we repurchase loans collateralizing the financing, the liquidation by the lender of the assets then subject to the agreements and the avoidance of other repurchase transactions with us. Because our financing agreements will typically contain cross-default provisions, a default that occurs under any one agreement could allow the lenders under our other agreements to also declare a default. Any losses we incur on our repurchase agreements could materially and adversely affect us.

We have utilized repurchase facilities and securitization transactions to finance our portfolio and may in the future utilize other sources of borrowings, including bank credit facilities, warehouse lines of credit and structured financing arrangements, among others, each of which has similar risks to repurchase agreement financing and securitizations, including, but not limited to, covenant compliance, events of default, acceleration and margin calls. The percentage of leverage we employ, which could increase substantially in the future, varies depending on assets in our portfolios, our available capital, our ability to obtain and

(table of contents)

access financing arrangements with lenders and the lenders' and rating agencies' estimate of the stability of our investment portfolio's cash flow. There can be no assurance that new sources of financing will be available to us in the future or that existing sources of financing will continue to be available to us. Our governing documents contain no limitation on the amount of debt we may incur. Our return on our investments and cash available for distribution to our stockholders may be reduced to the extent that changes in market conditions increase the cost of our financing relative to the income that can be derived from the investments acquired. Our debt service payments will reduce cash flow available for distribution to stockholders. We may not be able to meet our debt service obligations and, to the extent that we cannot, we risk the loss of some or all of our assets to foreclosure or sale to satisfy the obligations.

If and when non-recourse long-term financing structures become available to us and are utilized, such structures expose us to risks which could result in losses to us.

We may use securitization and other non-recourse long-term financing for our investments if, and to the extent, available. In such structures, our lenders typically have only a claim against the assets included in the securitizations rather than a general claim against us as an entity. Prior to any such financing, we seek to finance our investments with relatively short-term facilities until a sufficient portfolio is accumulated. Conditions in the capital markets may make the issuance of any such securitization less attractive to us. While we intend to retain the unrated equity component of securitizations and, therefore, still have exposure to any investments included in such securitizations, our inability to enter into such securitizations may increase our overall exposure to risks associated with direct ownership of such investments, including the risk of default.

Our inability to refinance any short-term facilities would also increase our risk because borrowings thereunder would likely be recourse to us as an entity. If we are unable to obtain and renew short-term facilities or to consummate securitizations to finance our investments on a long-term basis, we may be required to seek other forms of potentially less attractive financing or to liquidate assets at an inopportune time or price.

Failure of Altisource to effectively perform its obligations under various agreements with us including the master services agreement, could materially and adversely affect us.

Both AAMC and we have engaged Altisource to provide services. If for any reason Altisource is unable to perform the services described under these agreements at the level and/or the cost that we anticipate, qualified alternate service providers may not be readily available on favorable terms, or at all, which could adversely affect AAMC's performance under the asset management agreement with us. Altisource's failure to perform the services under these agreements with AAMC or us or our inability to retain qualified alternate service providers to replace and/or supplement Altisource could have a material adverse effect on us.

Failure of our third party mortgage servicers to effectively perform its servicing obligations under our servicing agreements could have a material adverse effect on us.

We are contractually obligated to service the residential mortgage loans that we acquire. We do not have any employees, servicing platform, licenses or technical resources necessary to service our acquired loans. Consequently, we have engaged mortgage servicers to service the non-performing and sub-performing loans we acquire. Through 2014, we had exclusively engaged Ocwen to service the residential mortgage loans in our portfolio.

Ocwen has been and is subject to a number of pending regulatory investigations, inquiries, requests for information and legal proceedings that could result in adverse regulatory or other actions against Ocwen. As a result of these various difficulties faced by Ocwen, its debt and servicer ratings have been downgraded. Given the recent challenges and regulatory scrutiny faced by Ocwen, we have engaged additional alternate servicers to service our loans. We have begun to move certain loans to these new servicers to diversify its servicing service providers. However, a substantial

number of the loans we own continue to be serviced by Ocwen. It is possible, even as we transfers all or a portion of our mortgage loan portfolio to such other servicers, the alternate servicers may not be able to service our loans or resolve our non-performing loans. If for any reason, our mortgage servicers are unable to service these loans at the level and/or the cost that we anticipate, or if we fail to pay or otherwise default under the servicing agreements, and our mortgage servicers cease to act as our servicers, alternate servicers may not be readily available on favorable terms, or at all, which could have a material adverse effect on us

We may incur significant costs in renovating our properties, and we may underestimate the costs or amount of time necessary to complete restorations.

Before renting a property, we perform a detailed assessment, with an on-site review of the property, to identify the scope of renovation to be completed. Beyond customary repairs, we may undertake improvements designed to optimize overall property appeal and increase the value of the property. We expect that nearly all of our rental properties will require some level of

(table of contents)

renovation immediately upon their acquisition or in the future following expiration of a lease or otherwise. We may acquire properties that we plan to extensively renovate and restore. In addition, in order to reposition properties in the rental market, we will be required to make ongoing capital improvements and may need to perform significant renovations and repairs from time to time. Consequently, we are exposed to the risks inherent in property renovation, including potential cost overruns, increases in labor and materials costs, delays by contractors in completing work, delays in the timing of receiving necessary work permits and certificates of occupancy and poor workmanship. If our assumptions regarding the cost or timing of renovations across our properties prove to be materially inaccurate, it may be more difficult or take significantly more time than anticipated to develop and grow our single-family rental portfolio, which could materially and adversely affect us.

Difficulties in selling REO properties and/or single-family rental properties could limit our flexibility and/or harm our liquidity.

Federal tax laws may limit our ability to earn a gain on the sale of our properties if we are found to have held or acquired the properties with the intent to resell, and this limitation may adversely affect our willingness to sell single-family rental properties under favorable conditions or if necessary for funding purposes. We typically contribute properties that will not meet our rental profile to our taxable REIT subsidiary in order to sell and generate gains or losses at the taxable REIT subsidiary upon such sales. In addition, our REO properties that we intend to sell can at times be difficult to dispose of quickly or at favorable prices. These potential difficulties in selling real estate in our markets may limit our ability to either sell properties that we deem unsuitable for rental or change or reduce the single-family rental properties in our portfolio promptly in response to changes in economic or other conditions. Our failure to sell or delays in selling our REO properties could potentially cause a strain on our liquidity, and we may be forced to reduce prices and/or continue to hold such REO properties, without leverage which could materially and adversely affect our financial condition.

A significant portion of the residential mortgage loans that we acquire are, or may become, sub-performing or non-performing loans, which increases our risk of loss.

We acquire distressed residential mortgage loans where the borrower has failed to make timely payments of principal and/or interest. As part of the residential mortgage loan portfolios we purchase, we also may acquire performing loans that are or subsequently become sub-performing or non-performing. Under current market conditions, it is likely that many of these loans will have current loan-to-value ratios in excess of 100%, meaning the amount owed on the loan exceeds the value of the underlying real estate. Further, the borrowers on such loans may be in economic distress and/or may have become unemployed, bankrupt or otherwise unable or unwilling to make payments when due. Even though we typically pay less than the amount owed on these loans to acquire them, if actual results are different from our assumptions in determining the price for such loans, we may incur significant losses. There are no limits on the percentage of sub-performing or non-performing loans we may hold. Any loss we incur may be significant and could materially and adversely affect us.

Many of our assets may be illiquid, and this lack of liquidity could significantly impede our ability to vary our portfolio in response to changes in economic and other conditions or to realize the value at which such assets are carried if we are required to dispose of them.

The distressed residential mortgage loans we acquire are generally illiquid. Illiquidity may result from the absence of an established market for the distressed residential mortgage loans, as well as legal or contractual restrictions on their resale, refinancing or other disposition. Such restrictions would interfere with subsequent sales of such loans or adversely affect the terms that could be obtained upon any disposition thereof.

Residential mortgage loan modification and refinance programs, future legislative action, and other actions and changes may materially and adversely affect the supply of, value of and the returns on sub-performing and non-performing loans.

Our business model is dependent on the acquisition of a steady supply of sub-performing and nonperforming loans, the success of our loan modification and other resolution efforts and the conversion of a significant portion of those loans to REO. The number of sub-performing and non-performing loans available for purchase may be reduced by uncertainty in the lending industry and the governmental sector and/or as a result of general economic improvement. Lenders may choose to delay foreclosure proceedings, renegotiate interest rates or refinance loans for borrowers who face foreclosure. In recent years, the federal government has instituted a number of programs aimed at assisting at-risk homeowners and reducing the number of properties going into foreclosure or going into non-performing status.

For example, the U.S. Government, through the Federal Reserve, the Federal Housing Administration or “FHA” and the Federal Deposit Insurance Corporation or “FDIC” has implemented a number of federal programs designed to assist homeowners, including (i) the Home Affordable Modification Program or “HAMP”, which provides homeowners with

(table of contents)

assistance in avoiding defaults on residential mortgage loans, (ii) the Hope for Homeowners Program or “H4H Program”, which allows certain distressed borrowers to refinance their residential mortgage loans into FHA-insured loans in order to avoid residential mortgage loan foreclosures and (iii) the Home Affordable Refinance Program which allows borrowers who are current on their mortgage payments to refinance and reduce their monthly mortgage payments without new mortgage insurance, up to an unlimited loan-to-value ratio for fixed-rate mortgages. HAMP, the H4H Program and other loss mitigation programs may involve, among other things, the modification of residential mortgage loans to reduce the principal amount of the loans (through forbearance and/or forgiveness) and/or the rate of interest payable on the loans and/or to extend the payment terms of the loans. These loan modification programs, future legislative or regulatory actions including possible amendments to the bankruptcy laws which result in the modification of outstanding residential mortgage loans as well as changes in the requirements necessary to qualify for refinancing residential mortgage loans, may materially and adversely affect the value of, and the returns on, our portfolio of sub-performing and non-performing loans.

Other governmental actions may affect our business by hindering the pace of foreclosures. In recent periods, there has been a backlog of foreclosures, due to a combination of volume constraints and legal actions, including those brought by the U.S. Department of Justice, or the “DOJ,” HUD, State Attorneys General, the office of the Comptroller of the Currency, or the “OCC,” and the Federal Reserve Board against mortgage servicers alleging wrongful foreclosure practices. Financial institutions have also been subjected to regulatory restrictions and limitations on foreclosure activity by the FDIC. Legal claims brought or threatened by the DOJ, HUD and 49 State Attorneys General against residential mortgage servicers and an enforcement action threatened by the OCC against residential mortgage servicers have both produced large settlements. A portion of the funds from each settlement will be directed to homeowners seeking to avoid foreclosure through mortgage modifications, and servicers are required to adopt specified measures to reduce mortgage obligations in certain situations. It is expected that the settlements will help many homeowners avoid foreclosures that would otherwise have occurred in the near-term. It is also possible that other residential mortgage servicers will agree to similar settlements. These developments will reduce the number of homes in the process of foreclosure and decrease the supply of properties that meet our investment criteria.

In addition, the U.S. Congress and numerous state legislatures have considered, proposed or adopted legislation to constrain foreclosures, or may do so in the future. The Dodd-Frank Act also created the Consumer Financial Protection Bureau, or “CFPB,” which supervises and enforces federal consumer protection laws as they apply to banks, credit unions and other financial companies, including mortgage servicers. It remains uncertain as to whether any of these CFPB or other related measures will have a significant impact on foreclosure volumes or what the timing or extent of that impact would be. If foreclosure volumes were to decline significantly, we may experience difficulty in finding target assets at attractive prices, which would materially and adversely affect us. Also, the number of families seeking rental housing might be reduced by such legislation, reducing rental housing demand for properties in our markets.

We may be, or may become, subject to the regulation of various states, including licensing requirements and consumer protection statutes. Our failure to comply with any such laws, if applicable to us, would adversely affect our ability to implement our business strategy, which could materially and adversely affect us.

Certain jurisdictions require licenses to purchase, hold, enforce or sell residential mortgage loans. In the event that any such licensing requirement is applicable to us and we are not able to obtain such licenses in a timely manner or at all, our ability to implement our its business strategy could be adversely affected, which could materially and adversely affect us.

Certain jurisdictions require a license to purchase, hold, enforce or sell residential mortgage loans. We currently own our loans in Delaware statutory trusts with a nationally-chartered bank as the trustee. Therefore, we do not hold any such licenses. Because we have contributed our acquired sub-performing and non-performing residential mortgage

loans to wholly-owned trusts whose trustee is a nationally-chartered bank, we may be exempt from state licensing requirements. However, there is no assurance that we will ever seek or be required to obtain such licenses or, if obtained, that we will be able to maintain them. Our failure to obtain or maintain such licenses could restrict our ability to invest in loans in these jurisdictions if such licensing requirements become applicable. If our subsidiaries obtain the required licenses, any trust holding loans in the applicable jurisdictions may transfer such loans to such subsidiaries, resulting in these loans being held by a state-licensed entity. There can be no assurance that we will be able to obtain the requisite licenses in a timely manner or at all or in all necessary jurisdictions, or that the use of the trusts will reduce the requirement for licensing, any of which could limit our ability to invest in residential mortgage loans in the future and have a material adverse effect on us.

The supply of sub-performing and non-performing loans may decline over time as a result of higher credit standards for new loans and/or general economic improvement and the prices for sub-performing and non-performing loans may increase, which could materially and adversely affect us.

(table of contents)

Over the last several years, there has been an increase in supply of sub-performing and non-performing loans available for sale. However, in response to the economic crisis, the origination of jumbo, subprime, Alt-A and second lien residential mortgage loans has dramatically declined as lenders have increased their standards of credit-worthiness in originating new loans and fewer homeowners may go into sub-performing or non-performing status on their residential mortgage loans. In addition, the prices at which sub-performing and non-performing loans can be acquired may increase from time to time, or permanently, due to the entry of new participants into the distressed loan marketplace or a lower supply of sub-performing and non-performing loans in the marketplace. For these reasons, along with the general improvement in the economy, the supply of sub-performing and non-performing residential mortgage loans that we may acquire may decline over time and could materially and adversely affect us.

Competition in identifying and acquiring non-performing loans could adversely affect our ability to implement our business strategy, which could materially and adversely affect us.

We face competition from various sources for investment opportunities in sub-performing and non-performing loans including REITs, hedge funds, private equity funds, partnerships and developers. Some third-party competitors have substantially greater financial resources and access to capital than we do and may be able to accept more risk than it can. Competition from these companies may reduce the number of attractive sub-performing and non-performing loan investment opportunities available to us or increase the bargaining power of asset owners seeking to sell, which would increase the prices for sub-performing and non-performing loans. If such events occur, our ability to implement our business strategy could be adversely affected, which could materially and adversely affect us. Given the existing competition, complexity of the market and requisite time needed to make such investments, no assurance can be given that we will be successful in acquiring investments that generate attractive risk-adjusted returns. Furthermore, there is no assurance that such investments, once acquired, will perform as expected.

Our inability to promptly foreclose upon defaulted residential mortgage loans could increase our costs and/or diminish our expected return on investments.

Our ability to seek alternative resolutions for the underlying properties and, in certain cases, where appropriate, promptly foreclose upon defaulted residential mortgage loans plays a critical role in our valuation of the assets in which we invest and our expected return on those investments. We expect the timeline to convert acquired loans into single-family rental properties will vary significantly by loan. Certain of our acquired loans may already be in foreclosure proceedings, in which case conversion could be as soon as three to six months following acquisition, but in other cases conversion could take up to 24 months or longer. There are a variety of factors that may inhibit our ability, through our mortgage servicers, to foreclose upon a residential mortgage loan and get access to the real property within the timelines modeled as part of our valuation process. These factors include, without limitation: state foreclosure timelines and deferrals associated therewith (including with respect to litigation, bankruptcy and statute of limitations); unauthorized occupants living in the property; federal, state or local legislative action or initiatives designed to provide homeowners with assistance in avoiding residential mortgage loan foreclosures and that serve to delay the foreclosure process; HAMP and similar programs that require specific procedures to be followed to explore the refinancing of a residential mortgage loan prior to the commencement of a foreclosure proceeding; and continued declines in real estate values and sustained high levels of unemployment that increase the number of foreclosures and place additional pressure on the already overburdened judicial and administrative systems.

In addition, certain issues, including “robo-signing,” have been identified throughout the mortgage industry that relate to affidavits used in connection with the residential mortgage loan foreclosure process. A substantial portion of our investments are, and in the future may be, sub-performing and non-performing residential mortgage loans, many of which are already subject to foreclosure proceedings at the time of purchase. There can be no assurance that similar practices have not been followed in connection with residential mortgage loans that are already subject to foreclosure

proceedings at the time of purchase. To the extent we determine that any of the loans we acquire are impacted by these issues, we may be required to re-commence the foreclosure proceedings relating to such loans, thereby resulting in additional delay that could have the effect of increasing our costs and/or diminishing our expected return on our investments. The uncertainty surrounding these issues could also result in legal, regulatory or industry changes to the foreclosure process as a whole, any or all of which could lengthen the foreclosure process and negatively impact our business.

We may be materially and adversely affected by risks affecting borrowers or the single-family rental properties in which our investments may be concentrated at any given time, as well as from unfavorable changes in the related geographic regions.

Our assets are not subject to any geographic diversification or concentration limitations. Entities that sell distressed mortgage loan portfolios may group the portfolios by location or other metrics that could result in a concentration of our portfolio by geography, single-family rental property characteristics and/or borrower demographics. Such concentration could increase the risk of loss to us if the particular concentration in our portfolio is subject to greater risks or undergoing adverse developments.

(table of contents)

In addition, adverse conditions in the areas where the properties securing our investments are located (including business layoffs or downsizing, industry slowdowns, changing demographics, oversupply, reduced demand and other factors) may have an adverse effect on the value of our investments. As of December 31, 2014, approximately 21% of our portfolio by UPB was concentrated in California and approximately 18% of our portfolio by UPB was concentrated in Florida. A material decline in the demand for single-family housing or rentals in these or other areas where we own assets may materially and adversely affect us. Lack of diversification can increase the correlation of non-performance and foreclosure risks among our investments.

Short-term leases of residential property expose us more quickly to the effects of declining market rents.

We anticipate that a majority of our leases to tenants of single-family rental properties will be for a term of two years or less. As these leases permit the residents to leave at the end of the lease term without penalty, we anticipate our rental revenues will be affected by declines in market rents more quickly than if our leases were for longer terms. Short-term leases may result in high turnover, resulting in additional cost to renovate and maintain the property and lower occupancy levels. Because we have a limited operating history, our tenant turnover rate and related cost estimates may be less accurate than if we had more operating data upon which to base these estimates.

We may be unable to secure funds for future tenant or other capital improvements, which could limit our ability to attract or replace tenants.

When we acquire or otherwise take title to single-family properties or when tenants fail to renew their leases or otherwise vacate their space, we will be required to expend funds for property restoration and leasing commissions in order to lease the property. If we have not established reserves or set aside sufficient funds for such expenditures, we may have to obtain financing from other sources, as to which no assurance can be given. We may also have future financing needs for other capital improvements to restore our properties. If we need to secure financing for capital improvements in the future but are unable to secure such financing on favorable terms or at all, we may be unable or unwilling to make capital improvements or may choose to defer such improvements. If this happens, our properties may suffer from a greater risk of obsolescence or a decline in value, or a greater risk of decreased cash flow as a result of fewer potential tenants being attracted to the property or existing tenants not renewing their leases. If we do not have access to sufficient funding in the future, we may not be able to make necessary capital improvements to our properties, and our properties' ability to generate revenue may be significantly impaired.

Our revenue and expenses are not directly correlated, and, because a large percentage of our costs and expenses are fixed and some variable expenses may not decrease over time, we may not be able to adapt our cost structure to offset any declines in our revenue.

Many of the expenses associated with our business, such as acquisition costs, restoration and maintenance costs, home owners' association, or "HOA," fees, personal and real property taxes, insurance, compensation and other general expenses are fixed and would not necessarily decrease proportionally with any decrease in revenue. Our assets also will likely require a significant amount of ongoing capital expenditure. Our expenses, including capital expenditures, will be affected by, among other things, any inflationary increases, and cost increases may exceed the rate of inflation in any given period. Certain expenses, such as HOA fees, taxes, insurance and maintenance costs are recurring in nature and may not decrease on a per-unit basis as our portfolio grows through additional property acquisitions. By contrast, our revenue is affected by many factors beyond our control, such as the availability and price of alternative rental housing and economic conditions in our markets. As a result, we may not be able to fully, or even partially, offset any increase in our expenses with a corresponding increase in our revenues. In addition, state and local regulations may require us to maintain our properties, even if the cost of maintenance is greater than the potential benefit.

Fair values of our mortgage loans are imprecise and may materially and adversely affect our operating results and credit availability, which, in turn, would materially and adversely affect us.

The values of our mortgage loans may not be readily determinable. We measure the fair value of our mortgage loans monthly, but the fair value at which our mortgage loans are recorded may not be an indication of their realizable value. Ultimate realization of the value of a mortgage loan depends to a great extent on economic and other conditions that are beyond our control. Further, fair value is only an estimate based on good faith judgment of the price at which a mortgage loan can be sold since market prices of mortgage loans can only be determined by negotiation between a willing buyer and seller. In certain cases, our estimation of the fair value of our mortgage loans includes inputs provided by third-party dealers and pricing services, and valuations of certain securities or other assets in which we invest are often difficult to obtain and are subject to judgments that may vary among market participants. Changes in the estimated fair values of our mortgage loans are directly charged or credited to earnings for the period. If we were to liquidate a particular mortgage loan, the realized value may be more than or less than the amount at which such mortgage loan was recorded. We could be materially and adversely affected by

(table of contents)

negative determinations that reduce the fair value of our mortgage loans, and such valuations may fluctuate over short periods of time.

We value the properties underlying our mortgage loans and recognize unrealized gains in each period when our mortgage loans are transferred to real estate owned. The fair value of our residential properties is estimated using broker price opinions, or “BPOs,” provided by third-party brokers. BPOs are subject to the judgments of the particular broker formed by visiting the property, assessing general home values in the area, reviewing comparable listings and reviewing comparable completed sales. These judgments may vary among brokers and may fluctuate over time based on housing market activities and the influx of additional comparable listings and sales. Our results could be materially and adversely affected if the judgments used by the brokers prove to be incorrect or inaccurate.

Challenges to the MERS® System could materially and adversely affect us.

MERSCORP, Inc. is a privately held company that maintains an electronic registry, referred to as the MERS System, which tracks servicing rights and ownership of loans in the United States. Mortgage Electronic Registration Systems, Inc. or “MERS,” a wholly owned subsidiary of MERSCORP, Inc., can serve as a nominee for the owner of a residential mortgage loan and in that role initiate foreclosures and/or become the mortgagee of record for the loan in local land records. We may choose to use MERS as a nominee. The MERS System is widely used by participants in the mortgage finance industry. Several legal challenges have been made disputing MERS’s legal standing to initiate foreclosures and/or act as nominee in local land records. These challenges could negatively affect MERS’s ability to serve as the mortgagee of record in some jurisdictions. In addition, where MERS is the mortgagee of record, it must execute assignments of mortgages, affidavits and other legal documents in connection with foreclosure proceedings. As a result, investigations by governmental authorities and others into the servicer foreclosure process deficiencies described under “—Our inability to promptly foreclose upon defaulted residential mortgage loans could increase our cost of doing business and/or diminish our expected return on investments” may impact MERS. Failures by MERS to apply prudent and effective process controls and to comply with legal and other requirements in the foreclosure process could pose operational, reputational and legal risks that may materially and adversely affect us.

AAMC utilizes analytical models and data in connection with the valuation of our investments, and any incorrect, misleading or incomplete information used in connection therewith would subject us to potential risks.

Given the complexity of our investments and strategies, AAMC must rely heavily on models and data, including analytical models (both proprietary models developed by AAMC and those supplied by third parties) and information and data supplied by third parties. Models and data are used to value investments or potential investments and also in connection with performing due diligence on our investments. In the event models and data prove to be incorrect, misleading or incomplete, any decisions made in reliance thereon expose us to potential risks. For example, by relying on incorrect models and data, especially valuation models, we may be induced to buy certain investments at prices that are too high, to sell certain other investments at prices that are too low or to miss favorable opportunities altogether.

Our accounting and other management systems and resources may not be adequately prepared to meet the financial reporting and other requirements we are subject to as a stand-alone reporting public company.

We are subject to reporting and other obligations under the Exchange Act, as amended. Under the Sarbanes-Oxley Act of 2002, or the “Sarbanes-Oxley Act,” we are required to maintain effective disclosure controls and procedures. To comply with these requirements, we may need to implement additional financial and management controls, reporting systems and procedures. We have incurred, and expect to incur, additional annual expenses for the purpose of addressing these requirements, and these expenses may be significant. If we are unable to implement additional

controls, reporting systems, information technology systems and procedures in a timely and effective fashion, our ability to comply with our financial reporting requirements and other rules that apply to reporting companies under the Exchange Act could be impaired. Any failure to achieve and maintain effective internal controls could have a material adverse effect on us. We are also required to comply with Section 404 of the Sarbanes-Oxley Act which requires annual management assessments of the effectiveness of our internal control over financial reporting and a report thereon by our independent registered public accounting firm. These reporting and other obligations may place significant demands on our management, administrative and operational resources, including accounting systems and resources.

Changes in global economic and capital market conditions, including periods of generally deteriorating occupancy and real estate industry fundamentals, may materially and adversely affect us.

There are risks to the ownership of real estate and real estate related assets, including decreases in residential property values, changes in global, national, regional or local economic, demographic and real estate market conditions as well as other factors

(table of contents)

particular to the locations of our investments. A prolonged recession and a slow recovery could materially and adversely affect us as a result of, among other items, the following:

- joblessness or unemployment rates that adversely affect the local economy;
- an oversupply of or a reduced demand for single-family rental properties for rent;
- a decline in employment, or lack of employment growth;
- the inability or unwillingness of residents to pay rent increases or fulfill their lease obligations;
- a decline in rental rate which may be accentuated since we expect to have rent terms of two years or less;
- rent control or rent stabilization laws or other laws regulating housing that could prevent us from raising rents to offset increases in operating costs;
- changes in interest rates, availability and terms of debt financing; and
- economic conditions that could cause an increase in our operating expenses such as increases in property taxes, utilities and routine maintenance.

These conditions could also adversely impact the financial condition and liquidity of the renters that will occupy our real estate properties and, as a result, their ability to pay rent to us.

Suboptimal economics of real estate related insurance activities, or a failure to commence and/or grow the business of NewSource could adversely impact our investment in NewSource.

We have invested \$18.0 million in the non-voting preferred stock of NewSource. Despite the commencement in 2014 of NewSource's title reinsurance business operations, NewSource determined that the economics of the initial business activities did not warrant the continuation of its initial reinsurance quota share agreement with an unrelated third party. NewSource therefore transferred all of the risk of claims and future losses underwritten to an unrelated third party for a price of \$3.2 million.

NewSource is continuing to evaluate its real estate related insurance and reinsurance strategy and considering related opportunities. There is no assurance that NewSource will be able to develop or grow its business strategy or operations, or engage in insurance and reinsurance activities at all. In any such event, the business model for NewSource would become challenged or the growth of NewSource would become hampered, which would adversely affect the economics of our investment in NewSource and/or NewSource's ability to pay its preferred dividend to us and/or generate shareholder returns.

Inflation or deflation may adversely affect our results of operations and cash flows.

Increased inflation could have an adverse impact on interest rates, property management expenses and general and administrative expenses, as these costs could increase at a rate higher than our rental and other revenue. Conversely, deflation could lead to downward pressure on rents and other sources of income without an accompanying reduction in our expenses. Accordingly, inflation or deflation may adversely affect our results of operations and cash flows.

Changes in applicable laws or noncompliance with applicable law could materially and adversely affect us.

As an owner of real estate, we are required to comply with numerous federal, state and local laws and regulations, some of which may conflict with one another or be subject to limited judicial or regulatory interpretations. These laws and regulations may include zoning laws, building codes, landlord-tenant laws and other laws generally applicable to business operations. Noncompliance with laws or regulations could expose us to liability.

Lower revenue growth or significant unanticipated expenditures may result from our need to comply with changes in (i) laws imposing remediation requirements and potential liability for environmental conditions existing on properties

or the restrictions on discharges or other conditions, (ii) rent control or rent stabilization laws or other residential landlord-tenant laws or (iii) other governmental rules and regulations or enforcement policies affecting the rehabilitation, use and operation of our single-family rental properties including changes to building codes and fire and life-safety codes.

In addition, NewSource has registered as a Class 3A Bermuda insurance company and is subject to regulation and supervision in Bermuda by the BMA. Changes in Bermuda insurance statutes, regulations and policies could result in restrictions on NewSource's ability to pursue its business plans, issue reinsurance policies, distribute funds and execute its investment strategy. In addition, NewSource may become subject to regulation and supervision by insurance authorities in any other jurisdictions in which it operates. Failure to comply with or to obtain appropriate authorizations and/or exemptions under any applicable laws could result in restrictions on NewSource's ability to do business or certain activities that are regulated in one or more of the jurisdictions in which it operates and could subject NewSource to fines and other sanctions, which could have a material

(table of contents)

adverse effect on NewSource's business and its ability to pay the dividend on our preferred stock. As a result, the value of our investment in NewSource could decline.

Competition could limit our ability to lease single-family rental properties or increase or maintain rents.

Our single-family rental properties, when acquired, will compete with other housing alternatives to attract residents, including rental apartments, condominiums and other single-family homes available for rent as well as new and existing condominiums and single-family homes for sale. Our competitors' single-family rental properties may be of better quality, in a more desirable location or have leasing terms more favorable than we can provide. In addition, our ability to compete and generate favorable returns depends upon, among other factors, trends of the national and local economies, the financial condition and liquidity of current and prospective renters, availability and cost of capital, taxes and governmental regulations. Given significant competition, we cannot assure you that we will be successful in acquiring or managing single-family rental properties that generate favorable returns.

If rents in our markets do not increase sufficiently to keep pace with rising costs of operations, our operating results and cash available for distribution will decline.

The success of our business model will substantially depend on conditions in the single-family rental property market in our geographic markets. Our asset acquisitions are premised on assumptions about, among other things, occupancy and rent levels. If those assumptions prove to be inaccurate, our operating results and cash available for distribution will be lower than expected, potentially materially. Rental rates and occupancy levels have benefited in recent periods from macroeconomic trends affecting the U.S. economy and residential real estate and mortgage markets in particular, including:

- a tightening of credit that has made it more difficult to finance a home purchase, combined with efforts by consumers generally to reduce their exposure to credit;
- economic and employment conditions that have increased foreclosure rates; and
- reduced real estate values that challenged the traditional notion that homeownership is a stable investment.

If the current trend favoring renting rather than homeownership reverses, the single-family rental market could decline.

The single-family rental market is currently significantly larger than in historical periods. We do not expect the favorable trends in the single-family rental market to continue indefinitely. Eventually, a strengthening of the U.S. economy and job growth, together with the large supply of foreclosed single-family rental properties, the current availability of low residential mortgage rates and government sponsored programs promoting home ownership, may contribute to a stabilization or reversal of the current trend that favors renting rather than homeownership. In addition, we expect that as investors increasingly seek to capitalize on opportunities to purchase undervalued housing properties and convert them to productive uses, the supply of single-family rental properties will decrease and the competition for tenants will intensify. A softening of the rental property market in our markets would adversely affect our operating results and cash available for distribution, potentially materially.

Single-family rental properties that are subject to foreclosure or short-sales are subject to risks of theft, vandalism or other damage that could impair their value.

When a single-family rental property is subject to foreclosure, it is possible that the homeowner may cease to maintain the property adequately, or that the property may be abandoned by the homeowner and become susceptible to theft or vandalism. Lack of maintenance, theft and vandalism can substantially impair the value of the property. To the extent we initiate foreclosure proceedings, some of our properties could be impaired.

Contingent or unknown liabilities could materially and adversely affect us.

Our acquisition activities are subject to many risks. We may acquire properties that are subject to unknown or contingent liabilities, including liabilities for or with respect to liens attached to properties, unpaid real estate taxes, utilities or HOA charges for which a prior owner remains liable, clean-up or remediation of environmental conditions or code violations, claims of vendors or other persons dealing with the acquired properties and tax liabilities, among other things. In each case, our acquisition may be without any, or with only limited, recourse with respect to unknown or contingent liabilities or conditions. As a result, if any such liability were to arise relating to our properties, or if any adverse condition exists with respect to our properties that is in excess of our insurance coverage, we might have to pay substantial sums to settle or cure it, which could materially and adversely affect us. The properties we acquire may also be subject to covenants, conditions or restrictions that restrict the use or ownership of such properties, including prohibitions on leasing or requirements to obtain the approval of

24

(table of contents)

HOAs prior to leasing. We may not discover such restrictions during the acquisition process and such restrictions may adversely affect our ability to operate such properties as we intend.

The costs and amount of time necessary to secure possession and control of a newly acquired property may exceed our assumptions, which would delay our receipt of revenue from, and return on, the property.

Upon acquiring a property, we may have to evict occupants who are in unlawful possession before we can secure possession and control of the property. The holdover occupants may be the former owners or tenants of a property, or they may be squatters or others who are illegally in possession. Securing control and possession from these occupants can be both costly and time-consuming. If these costs and delays exceed our expectations, our financial performance may suffer because of the increased expenses incurred or the unexpected delays in turning the properties into revenue-producing rental properties.

Poor tenant selection and defaults by our tenants may materially and adversely affect us.

Our success will depend, in large part, upon our ability to attract and retain qualified tenants for our properties. This will depend, in turn, upon our ability to screen applicants, identify good tenants and avoid tenants who may default. We will inevitably make mistakes in our selection of tenants, and we may rent to tenants whose default on our leases or failure to comply with the terms of the lease or HOA regulations could materially and adversely affect us. For example, tenants may default on payment of rent, make unreasonable and repeated demands for service or improvements, make unsupported or unjustified complaints to regulatory or political authorities, make use of our properties for illegal purposes, damage or make unauthorized structural changes to our properties which may not be fully covered by security deposits, refuse to leave the property when the lease is terminated, engage in domestic violence or similar disturbances, disturb nearby residents with noise, trash, odors or eyesores, fail to comply with HOA regulations, sub-let to less desirable individuals in violation of our leases or permit unauthorized persons to live with them. The process of evicting a defaulting tenant from a family residence can be adversarial, protracted and costly. Furthermore, some tenants facing eviction may damage or destroy the property. Damage to our properties may significantly delay re-leasing after eviction, necessitate expensive repairs or impair the rental revenue or value of the property. In addition, we will incur turnover costs associated with re-leasing the properties, such as marketing expense and brokerage commissions, and will not collect revenue while the property is vacant. Although we will attempt to work with tenants to prevent such damage or destruction, there can be no assurance that we will be successful in all or most cases. Such tenants will not only cause us not to achieve our financial objectives for the properties in which they live, but may subject us to liability, and may damage our reputation with our other tenants and in the communities where we do business.

Eminent domain could lead to material losses on our investments.

It is possible that governmental authorities may exercise eminent domain to acquire land on which our properties are built in order to build roads or other infrastructure. Any such exercise of eminent domain would allow us to recover only the fair value of the affected properties, which we believe may be interpreted to be substantially less than the actual value of the property. Several cities are also exploring proposals to use eminent domain to acquire residential loans to assist borrowers to remain in their homes, potentially reducing the supply of single-family properties for sale in our markets. Any of these events can cause a material loss to us.

A significant uninsured property or liability loss could have a material adverse effect on us.

We will carry commercial general liability insurance and property insurance with respect to our single-family rental properties on terms we consider commercially reasonable. There are, however, certain types of losses (such as losses arising from acts of war or earthquake) that are not insured, in full or in part, because they are either uninsurable or the

cost of insurance makes it economically impractical. If an uninsured property loss or a property loss in excess of insured limits were to occur, we could lose our capital invested in a single-family rental property or group of rental properties as well as the anticipated future revenues from such single-family rental property or group of properties. If an uninsured liability to a third party were to occur, we would incur the cost of defense and settlement with or court ordered damages to that third party. A significant uninsured property or liability loss could materially and adversely affect us.

A significant number of our single-family rental properties may be part of home owners' associations. We and our renters will be subject to the rules and regulations of such home owners' associations which may be arbitrary or restrictive and violations of such rules may subject us to additional fees and penalties and litigation which may be costly.

A significant number of our single-family rental properties, when acquired, may be subject to HOAs which are private entities that regulate the activities of and levy assessments on properties in a residential subdivision. Some of the HOAs that will govern our single-family rental properties may enact onerous or arbitrary rules that restrict our ability to renovate, market or

(table of contents)

lease our single-family rental properties or require us to renovate or maintain such properties at standards or costs that are in excess of our planned operating budgets. Such rules may include requirements for landscaping, limitations on signage promoting a property for lease or sale or the use of specific construction materials to be used in renovations. Some HOAs also impose limits on the number of property owners who may rent their homes which, if met or exceeded, may cause us to incur additional costs to sell the affected single-family rental property and opportunity costs of lost rental income. Furthermore, many HOAs impose restrictions on the conduct of occupants of homes and the use of common areas, and we may have renters who violate these HOA rules for which we may be liable as the property owner. Additionally, the boards of directors of the HOAs that will govern our single-family rental properties may not make important disclosures or may block our access to HOA records, initiate litigation, restrict our ability to sell, impose assessments or arbitrarily change the HOA rules. We may be unaware of or unable to review or comply with certain HOA rules before acquiring a single-family rental property, and any such excessively restrictive or arbitrary regulations may cause us to sell such property, if possible, prevent us from renting such property or otherwise reduce our cash flow from such property. Any of the above-described occurrences may materially and adversely affect us.

We rely on information supplied by prospective tenants in managing our business.

We rely on information supplied to us by prospective tenants in their rental applications as part of our due diligence process to make leasing decisions, and we cannot be certain that this information is accurate. In particular, we rely on information submitted by prospective tenants regarding household income, tenure at current job, number of children and size of household. Moreover, these applications are submitted to us at the time we evaluate a prospective tenant, and we do not require tenants to provide us with updated information during the terms of their leases, notwithstanding the fact that this information can, and frequently does, change over time. Even though this information is not updated, we will use it to evaluate the overall average credit characteristics of our portfolio over time. If tenant-supplied information is inaccurate or our tenants' creditworthiness declines over time, we may make poor leasing decisions and our portfolio may contain more credit risk than we believe.

We are subject to the risks of securities laws liability and related civil litigation.

We may be subject to risk of securities litigation and derivative actions from time to time as a result of being publicly traded. For example, in January 2015, a purported shareholder filed a derivative action against the members of our Board of Directors, us and AAMC in connection with our asset management agreement with AAMC. For more information concerning this matter, please see "Item 3. Legal Proceedings." While we and our Board of Directors deny the allegations of wrongdoing against us in the actions initiated against us, there can be no assurance as to the ultimate outcome or timing of their resolution. The range of possible resolutions could include determinations and judgments against us or settlements that could require substantial payments by us, including the costs of defending such investigations and suits, which could have a material adverse effect on our financial condition, results of operations and cash flows. An adverse resolution of any future lawsuits or claims against us could have an adverse effect on our business, financial condition and/or operating results.

We likely will incur costs due to litigation, including but not limited to, class actions, tenant rights claims and consumer demands.

There are numerous tenants' rights and consumer rights organizations throughout the country. As we grow in scale, we may attract attention from some of these organizations and become a target of legal demands or litigation. Many such consumer organizations have become more active and better funded in connection with mortgage foreclosure-related issues and displaced home ownership. Some of these organizations may shift their litigation, lobbying, fundraising and grass roots organizing activities to focus on landlord-tenant issues as more entities engage in the single-family rental property market. Additional actions that may be targeted at us include eviction proceedings and other landlord-tenant disputes, challenges to title and ownership rights (including actions brought by prior owners alleging wrongful foreclosure by their lender or servicer) and issues with local housing officials arising from the condition or

maintenance of a single-family rental property. While we intend to conduct our rental business lawfully and in compliance with applicable landlord-tenant and consumer laws, such organizations might work in conjunction with trial and pro bono lawyers in one state or multiple states to attempt to bring claims against us on a class action basis for damages or injunctive relief. We cannot anticipate what form such legal actions might take or what remedies they may seek. Any of such claims may result in a finding of liability that may materially and adversely affect us.

Additionally, these organizations may lobby local county and municipal attorneys or state attorneys general to pursue enforcement or litigation against us or may lobby state and local legislatures to pass new laws and regulations to constrain our business operations. If they are successful in any such endeavors, they could directly limit and constrain our business operations and impose on us significant litigation expenses, including settlements to avoid continued litigation or judgments for damages or injunctions. Any of the above-described occurrences may materially and adversely affect us.

(table of contents)

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we, through AAMC, Altisource or our mortgage servicers, may acquire and store sensitive data on our network, such as our proprietary business information and personally identifiable information of our prospective and current tenants. The secure processing and maintenance of this information is critical to our business strategy. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, regulatory penalties, disruption to our operations and the services we provide to customers or damage our reputation, which could materially and adversely affect us.

We may incur substantial costs due to environmental contamination or non-compliance.

Under various federal, state and local environmental and public health laws, regulations and ordinances, we may be required, regardless of knowledge or responsibility, to investigate and remediate the effects of hazardous or toxic substances or petroleum product releases at our single-family rental properties (including in some cases, asbestos-containing construction materials, lead-based paints, contaminants migrating from offsite sources and natural substances such as methane, mold and radon gas) and may be held liable under these laws or common law to a governmental entity or to third parties for property, personal injury or natural resources damages and for investigation and remediation costs incurred as a result of the contamination. These damages and costs may be substantial and may exceed any insurance coverage we may have for such events, which could materially and adversely affect us. The presence of such substances or the failure to properly remediate the contamination may adversely affect our ability to borrow against, sell or rent the affected single-family rental property. In addition, some environmental laws create or allow a government agency to impose a lien on the contaminated site in favor of the government for damages and costs it incurs as a result of the contamination, which may also adversely affect our ability to borrow against, sell or rent the affected single-family rental property.

Our properties will be subject to property and other taxes that may increase over time.

We will be responsible for property taxes for our single-family rental properties, when acquired which may increase as tax rates change and properties are reassessed by taxing authorities. If we fail to pay any such taxes, the applicable taxing authorities may place a lien on the property and the property may be subject to a tax sale. Increases in property taxes would also adversely affect our yield from rental properties. Any such occurrence may materially and adversely affect us.

Risks Related to Our Management and Our Relationships

We could have conflicts with AAMC and our Directors or management could have conflicts of interest due to their relationship with AAMC, which may be resolved in a manner adverse to us.

We have engaged, and expect to continue to engage, in a substantial amount of business with AAMC. Conflicts may arise between AAMC and us because of our ongoing agreement with AAMC and because of the nature of our respective businesses.

Prior to his stepping down from the Board of Directors in January 2015, our former Chairman was also the Chairman of AAMC, Altisource and Ocwen. As a result, he had obligations to us as well as to these other entities, which could

have resulted in conflicts of interest with respect to matters potentially or actually involving or affecting us and AAMC, Altisource or Ocwen, as the case may be. Our former Chairman also currently has substantial investments in AAMC, Altisource and Ocwen, and certain of our other officers own stock or options in one or more of AAMC, Altisource and Ocwen. Such ownership interests may have created or appeared to create conflicts of interest with respect to matters potentially or actually involving or affecting us and AAMC, Altisource and Ocwen, as the case may be.

Each of our executive officers is also an executive officer of AAMC and has interests in our relationship with AAMC that may be different than the interests of our stockholders. As a result, they may have obligations to us and AAMC and could have conflicts of interest with respect to matters potentially or actually involving or affecting us and AAMC. In particular, these individuals have a direct interest in the financial success of AAMC which may encourage these individuals to support strategies in furtherance of the financial success of AAMC that could potentially adversely impact us.

27

(table of contents)

We follow policies, procedures and practices to avoid potential conflicts with respect to our dealings with AAMC, including, where necessary, certain of our officers recusing themselves from discussions on, and approvals of transactions with AAMC). We also manage potential conflicts of interest through oversight by independent members of our Board of Directors (independent directors constitute a majority of our Board of Directors), and we will seek to manage these potential conflicts through dispute resolution and other provisions of our agreements with AAMC. Although we continue to seek ways to lessen many of these conflicts of interest, there can be no assurance that such measures will be effective, that we will be able to resolve all conflicts with AAMC, or that the resolution of any such conflicts will be no less favorable to us than if we were dealing with a third party that had none of the connections we have with AAMC.

Our Board of Directors has approved a very broad investment policy and guidelines for AAMC and will not review or approve each investment decision. We may change our investment policy and guidelines without stockholder consent, which may materially and adversely affect the market price of our common stock and our ability to make distributions to our stockholders.

AAMC is authorized to follow a very broad investment policy and, therefore, has great latitude in determining the types of assets that are proper investments for us, as well as the individual investment decisions. In the future, AAMC may make investments with lower rates of return than those anticipated under current market conditions and/or may make investments with greater risks to achieve those anticipated returns. Our Board of Directors will periodically review our investment policy and our investment portfolio but will not review or approve each proposed investment by AAMC unless it falls outside the scope of our previously approved investment policy or constitutes a related party transaction. In addition, in conducting periodic reviews, our Board of Directors will rely primarily on information provided to it by AAMC. Furthermore, AAMC may use complex strategies. Transactions entered into by AAMC may be costly, difficult or impossible to unwind by the time they are reviewed by our Board of Directors. In addition, we may change our investment policy and targeted asset classes at any time without the consent of our stockholders, and this could result in our making investments that are different in type from, and possibly riskier than, our current investments or the investments currently contemplated. Changes in our investment policy and targeted asset classes may increase our exposure to interest rate risk, counterparty risk, default risk and real estate market fluctuations, which could materially and adversely affect us.

We depend on AAMC as our Manager. We may not be able to retain our exclusive engagement of AAMC under certain circumstances, which could materially and adversely affect us. Termination of AAMC by us without cause is difficult and costly and our agreements with Ocwen and Altisource may simultaneously terminate or be terminated, as applicable.

Our success is dependent upon our relationships with and the performance of AAMC and its key personnel. Key personnel may leave AAMC, may become distracted by adverse financial or operational issues in connection with AAMC's business and other activities or may fail to perform for any reason. AAMC has agreed not to provide the same or substantially similar services to any other party so long as we have on hand an average of \$50 million in capital available for investment over the previous two fiscal quarters. Notwithstanding the foregoing, AAMC may engage in any other business or render similar or different services to others, including, without limitation, the direct or indirect sponsorship or management of other investment based accounts or commingled pools of capital, however structured, having an investment strategy similar to ours, so long as its services to us are not impaired thereby. In the event AAMC provides its services to a competitor, it may be difficult for us to secure a suitable replacement to AAMC on favorable terms or at all or maintain our engagement of AAMC. In the event that the asset management agreement is terminated for any reason or AAMC is unable to retain its key personnel, it may also be difficult for us to secure a suitable replacement to AAMC on favorable terms, or at all. We are unable to terminate the asset management agreement during the first two years of its term except "for cause" as defined therein. In the event we terminate the asset management agreement without cause or AAMC terminates the asset management agreement due

to our default in the performance of any material term of the asset management agreement, we will be required to pay a significant termination fee equal to three times the average annual incentive management fee earned by AAMC during the prior 24-month period immediately preceding the date of termination. Furthermore, if the asset management agreement expires or is earlier terminated, the Ocwen services agreement and the Altisource support agreement and trademark license agreement automatically terminate; and if the asset management agreement is terminated without cause, then Altisource has the right to terminate its master services agreement with us. The occurrence of any of the above described events could materially and adversely affect us.

Our directors have the right to engage or invest in the same or similar businesses as ours.

Our directors may have other investments and business activities in addition to their interest in, and responsibilities to, us. Under the provisions of our Charter and our bylaws (the "Bylaws"), our directors have no duty to abstain from exercising the right to engage or invest in the same or similar businesses as ours or employ or otherwise engage any of the other directors. If any of our directors who are also directors, officers or employees of any or any other company acquires knowledge of a

(table of contents)

corporate opportunity or is offered a corporate opportunity outside of his capacity as one of our directors, then our Bylaws provide that such director will be permitted to pursue that corporate opportunity independently of us, so long as the director has acted in good faith. Our Bylaws provide that, to the fullest extent permitted by law, such a director will be deemed to have satisfied his fiduciary duties to us and will not be liable to us for pursuing such a corporate opportunity independently of us. This may create conflicts of interest between us and certain of our directors and result in less than favorable treatment of us and our stockholders. As of this date, none of our Directors is directly involved as a director, officer or employee of a business that competes with us, but there can be no assurance that will remain unchanged in the future.

Risks Related to Our Qualification as a REIT

Failure to qualify as a REIT could materially and adversely affect us.

We made an election to be treated as a REIT for U.S. federal income tax purposes beginning with the year ended December 31, 2013. However, we cannot assure you that we will remain qualified as a REIT. Moreover, our qualification and taxation as a REIT will depend upon our ability to meet on a continuing basis, through actual operating results, certain qualification tests set forth in the federal income tax laws. Accordingly, no assurance can be given that our actual results of operations for any particular taxable year will satisfy such requirements. If we fail to qualify as a REIT in any taxable year, we will face serious tax consequences that will substantially reduce the funds available for distribution to our stockholders because:

- we would not be allowed a deduction for dividends paid to stockholders in computing our taxable income;
- we could be subject to the federal alternative minimum tax to a greater extent and possibly increased state and local taxes; and
- unless we are entitled to relief under certain federal income tax laws, we could not re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT. In addition, if we fail to qualify as a REIT, we will no longer be required to make distributions.

As a result of all these factors, our failure to qualify as a REIT could impair our ability to expand our business and raise capital, and it could materially and adversely affect us and the market price of our common stock.

Our tax position with respect to the accrual of interest and market discount income with respect to distressed mortgage loans involves risk.

We do not accrue interest income or market discount on defaulted or delinquent loans when certain criteria are satisfied. The criteria generally relate to whether those amounts are uncollectible or of doubtful collectability. If the Internal Revenue Service were to challenge this position successfully, we could be subject to entity level excise tax as a result of “deficiency dividends” that we may be required to pay to our stockholders at the time of such an adjustment to our income in order to maintain our qualification as a REIT.

Compliance with REIT requirements may cause us to forego otherwise attractive opportunities which may hinder or delay our ability to meet our investment objectives and reduce your overall return.

To qualify as a REIT, we are required at all times to satisfy certain tests relating to, among other things, the sources of our income, the nature and diversification of our assets, our financing, hedging and investment strategies, the ownership of our stock and amounts we distribute to our stockholders. Compliance with the REIT requirements may preclude us from certain financing or hedging strategies or cause us to forego otherwise attractive opportunities which may hinder or delay our ability to meet our investment objectives and reduce your overall return. For example, we may be required to pay distributions to stockholders at disadvantageous times or when we do not have funds readily

available for distribution.

Compliance with REIT requirements may force us to liquidate otherwise attractive investments, which could materially adversely affect us.

To qualify as a REIT, at the end of each calendar quarter, at least 75% of our assets must consist of qualified real estate assets, cash, cash items and government securities. In addition, no more than 25% of the value of our assets may be represented by securities of one or more taxable REIT subsidiaries. Except for securities that qualify for purposes of the 75% asset test above and investments in our qualified REIT subsidiaries and our taxable REIT subsidiaries, our investment in the value of any one issuer's securities may not exceed 5% of the value of our total assets, and we may not own more than 10% of the total vote or value of the outstanding securities of any one issuer, except, in the case of the 10% value test, certain "straight debt" securities. In order to satisfy these requirements, we may be forced to liquidate otherwise attractive investments, potentially at a loss, which could materially and adversely affect us.

29

(table of contents)

Failure to make required distributions would subject us to federal corporate income tax.

We intend to continue to operate in a manner so as to qualify as a REIT for federal income tax purposes. In order to qualify as a REIT, we generally are required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain, each year to our stockholders. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under the Code.

The IRS may deem the gains from sales of our properties to be subject to a 100% prohibited transaction tax.

From time to time, we may be forced to sell properties that do not meet our investment objectives or we may need to sell properties or other assets to satisfy our REIT distribution requirements, to satisfy other REIT requirements or for other purposes. The IRS may deem one or more sales of our properties to be “prohibited transactions.” If the IRS takes the position that we have engaged in a “prohibited transaction” (i.e., if we sell a property held by us primarily for sale in the ordinary course of our trade or business), the gain we recognize from such sale would be subject to a 100% tax. The Code sets forth a safe harbor for REITs that wish to sell property without risking the imposition of the 100% tax; however, there is no assurance that we will be able to qualify for the safe harbor. We do not intend to hold property for sale in the ordinary course of business; however, there is no assurance that our position will not be challenged by the IRS especially if we make frequent sales or sales of property in which we have short holding periods.

The “taxable mortgage pool” rules may increase the taxes that we or our stockholders may incur, and may limit the manner in which we effect future securitizations.

Securitizations by us or our subsidiaries could result in the creation of taxable mortgage pools for U.S. federal income tax purposes, resulting in “excess inclusion income.” As a REIT, so long as we own 100% of the equity interests in a taxable mortgage pool, we generally would not be adversely affected by the characterization of the securitization as a taxable mortgage pool. Certain categories of stockholders, however, such as non-U.S. stockholders eligible for treaty or other benefits, stockholders with net operating losses, and certain tax-exempt U.S. stockholders that are subject to unrelated business income tax, could be subject to increased taxes on a portion of their dividend income from us that is attributable to the excess inclusion income. In the case of a stockholder that is a REIT, a regulated investment company, or RIC, common trust fund or other pass-through entity, our allocable share of our excess inclusion income could be considered excess inclusion income of such entity. In addition, to the extent that our stock is owned by tax-exempt “disqualified organizations,” such as certain government-related entities and charitable remainder trusts that are not subject to tax on unrelated business income, we may incur a corporate level tax on a portion of any excess inclusion income. Because this tax generally would be imposed on us, all of our stockholders, including stockholders that are not disqualified organizations, generally would bear a portion of the tax cost associated with the classification of us or a portion of our assets as a taxable mortgage pool. A RIC, or other pass-through entity owning our stock in record name will be subject to tax at the highest U.S. federal corporate tax rate on any excess inclusion income allocated to their owners that are disqualified organizations. Moreover, we could face limitations in selling equity interests in these securitizations to outside investors, or selling any debt securities issued in connection with these securitizations that might be considered to be equity interests for tax purposes. Finally, if we were to fail to maintain our REIT qualification, any taxable mortgage pool securitizations would be treated as separate taxable corporations for U.S. federal income tax purposes that could not be included in any consolidated U.S. federal income tax return. These limitations may prevent us from using certain techniques to maximize our returns from securitization transactions.

In the future, we could be required to sell assets, borrow funds or raise equity capital to fund our distributions or to make a portion of our distributions in the form of a taxable stock distribution.

Our Board of Directors has the sole discretion to determine the timing, form and amount of any distributions to our stockholders, and the amount of such distributions may be limited. In the future, we could be required to sell assets, borrow funds or raise equity capital to fund our distributions or to make a portion of our distributions in the form of a taxable stock distribution. Our Board of Directors will make determinations regarding distributions based upon various factors, including our historical and projected financial condition, liquidity and results of operations, financing covenants, maintenance of our REIT qualification, applicable law and other factors, as our Board of Directors may deem relevant from time to time. To the extent that we are required to sell assets in adverse market conditions or borrow funds at unfavorable rates, we could be materially and adversely affected. To the extent we may have to raise equity capital, we may be unable to do so at attractive prices, on a timely basis or at all, which could adversely affect our ability to make distributions to our stockholders.

(table of contents)

Even if we qualify as a REIT, we may be subject to tax liabilities that could materially and adversely affect us.

Even if we qualify for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets, including taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes. In addition, we could, in certain circumstances, be required to pay an excise tax or penalty tax (which could be significant in amount) in order to utilize one or more of the relief provisions under the Code to maintain our qualification as a REIT. In order to meet the REIT qualification requirements or to avert the imposition of a 100% tax that applies to certain gains derived by a REIT from sales of “dealer property,” we may also move or hold some of our assets or conduct activities through a TRS. In addition, if we lend money to a TRS, the TRS may be unable to deduct all or a portion of the interest paid to us, which could result in an even higher corporate level tax liability. Any of these taxes would decrease cash available for distribution to our stockholders.

Furthermore, the Code imposes a 100% tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm’s length basis. We will structure our transaction with any TRS on terms that we believe are arm’s length to avoid incurring the 100% excise tax described above. There can be no assurances, however, that we will be able to avoid application of the 100% tax. Any such additional tax liabilities would have an adverse effect on us.

Generally, ordinary dividends payable by REITs do not qualify for reduced U.S. federal income tax rates.

The maximum U.S. federal income tax rate for “qualifying dividends” payable by U.S. corporations to individual U.S. stockholders is 23.8%, including the 3.8% Medicare tax. However, ordinary dividends payable by REITs are generally not eligible for the reduced rates and generally are taxed at ordinary income rates (the maximum individual rate being 39.6%).

We may be subject to legislative or regulatory tax changes that could materially and adversely affect us.

At any time, the federal income tax laws or regulations governing REITs or the administrative interpretations of those laws or regulations may be amended. We cannot predict when or if any new federal income tax law, regulation or administrative interpretation or any amendment to any existing federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective and any such law, regulation or interpretation may take effect retroactively. We and our stockholders could be materially and adversely affected by any such change in or any new, federal income tax law, regulation or administrative interpretation.

Risks Related to Our Organization and Structure

Our rights and the rights of our stockholders to take action against our directors and officers are limited, which could limit your recourse in the event of actions not in your best interests.

Under Maryland law, generally, a director will not be liable if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in the best interests of the corporation and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our Charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- active and deliberate dishonesty that is established by a final judgment and is material to the cause of action.

Our Charter and Bylaws provide for indemnification of our directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our Bylaws require us to indemnify each director and

officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to advance the defense costs incurred by our directors and officers. As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist absent the current provisions in our Charter and Bylaws or that might exist with other companies.

Our Charter may limit or otherwise discourage a takeover or business combination that could otherwise benefit our stockholders.

Our Charter, with certain exceptions, authorizes our Board of Directors to take such actions as are necessary and desirable to preserve our qualification as a REIT. Unless exempted by our Board of Directors, no person may own more than 9.8% in value or number of shares, whichever is more restrictive, of our outstanding shares of common or capital stock. A person that did not acquire more than 9.8% of our outstanding shares of common or capital stock may become subject to our Charter restrictions if

31

(table of contents)

repurchases by us cause such person's holdings to exceed 9.8% of our outstanding shares of common or capital stock. Any attempt to own or transfer shares of our common stock in excess of the ownership limit without the consent of our Board of Directors will be void or will result in those shares being transferred to a charitable trust, and the person who acquired such excess shares will not be entitled to any distributions thereon or to vote those excess shares. Our 9.8% ownership limitation may have the effect of delaying, deferring or preventing a change in control of us including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price for our stockholders. Our Board of Directors may also, without stockholder approval, amend our Charter to increase or decrease the aggregate number of our shares or the number of shares of any class or series that we have the authority to issue and to classify or reclassify any unissued shares of our common or preferred stock, and set the preferences, rights and other terms of the classified or reclassified shares. As a result, our Board of Directors may authorize the issuance of additional shares or establish a series of common or preferred stock that may have the effect of delaying or preventing a change in control, including transactions at a premium over the market price of our shares, even if stockholders believe that a change in control is in their interest. These provisions, along with the restrictions on ownership and transfer contained in our Charter and certain provisions of Maryland law described below, could discourage unsolicited acquisition proposals or make it more difficult for a third party to gain control of us, which could adversely affect the market price of our common stock.

Certain provisions of Maryland law could inhibit changes in control, preventing our stockholders from realizing a potential premium over the market price of our stock in a proposed acquisition.

Certain provisions of the Maryland General Corporate Law, or "MGCL," may have the effect of deterring a third party from making a proposal to acquire us or impeding a change in control under circumstances that otherwise could provide the holders of our common stock with the opportunity to realize a premium over the then-prevailing market price of our common stock. Subject to limitations, the "business combination" provisions of the MGCL that prohibit certain business combinations (including a merger, consolidation, share exchange, or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities) between us and an "interested stockholder" or an affiliate thereof for five years after the most recent date on which the stockholder becomes an interested stockholder. An "interested stockholder" is defined generally as any person who beneficially owns 10% or more of our outstanding voting stock or an affiliate or associate of ours who was the beneficial owner of 10% or more of our then outstanding voting stock within the last two years. After the five-year prohibition, any business combination between us and an interested stockholder generally must be recommended by our Board of Directors and approved by the affirmative vote of at least (1) 80% of the votes entitled to be cast by holders of outstanding shares of our voting stock; and (2) two-thirds of the votes entitled to be cast by holders of voting stock of the corporation (excluding the shares held by the interested stockholder or its affiliate the business combination is to be effected). These super-majority vote requirements do not apply if our common stockholders receive a minimum price, as described under Maryland law, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares. These provisions of the MGCL do not apply, however, to business combinations that are approved or exempted by a Board of Directors prior to the time that the interested stockholder becomes an interested stockholder. Pursuant to the statute, our Board of Directors has by resolution exempted business combinations between us and any other person. There is no assurance that our Board of Directors will not supersede this resolution in the future.

The "control share" provisions of the MGCL provide that "control shares" (generally defined as shares which, when aggregated with other shares controlled by the stockholder entitle the stockholder to exercise one of three increasing ranges of voting power in electing directors) of a Maryland corporation acquired in a "control share acquisition" (defined as the acquisition of ownership or control of "control shares") have no voting rights except to the extent approved by our stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter (excluding the control shares in question).

Our Bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of shares of our stock. There can be no assurance that this provision will not be amended or eliminated at any time in the future. The “unsolicited takeover” provisions of the MGCL permit our Board of Directors, without stockholder approval to implement certain provisions if we have a class of equity securities registered under the Exchange Act and at least three independent directors (which we have). These provisions may have the effect of inhibiting a third party from making an acquisition proposal for us or of delaying, deferring or preventing a change in control of us under the circumstances that otherwise could provide the holders of shares of common stock with the opportunity to realize a premium over the then current market price. Our Charter contains a provision whereby we have elected to be subject to the provisions of Title 3, Subtitle 8 of the MGCL allowing vacancies on our Board of Directors to be filled only by the affirmative vote of the remaining directors in office.

(table of contents)

We could be materially and adversely affected if we are deemed to be an investment company under the Investment Company Act.

We rely on the exception from the Investment Company Act set forth in Section 3(c)(5)(C) of the Investment Company Act, which excludes from the definition of investment company “any person who is not engaged in the business of issuing redeemable securities, face-amount certificates of the installment type or periodic payment plan certificates, and who is primarily engaged in one or more of the following businesses... (C) purchasing or otherwise acquiring mortgages and other liens on and interests in real estate.” The SEC Staff generally requires that, for the exception provided by Section 3(c)(5)(C) to be available, at least 55% of an entity’s assets be comprised of mortgages and other liens on and interests in real estate, also known as “qualifying interests,” and at least another 25% of the entity’s assets must be comprised of additional qualifying interests or real estate-type interests (with no more than 20% of the entity’s assets comprised of miscellaneous assets). We believe that our \$18.0 million investment in NewSource does not meet the definition of “qualifying interest.” Any significant acquisition by us of non-real estate assets without the acquisition of substantial real estate assets could cause us to meet the definitions of an “investment company.” If we are deemed to be an investment company, we could be required to dispose of our NewSource investment or a portion thereof, potentially at a loss, in order to qualify for the 3(c)(5)(C) exception. We may also be required to register as an investment company if we are unable to dispose of the disqualifying assets, which could have a material adverse effect on us.

In August 2011, the SEC issued a concept release which indicated that the SEC is reviewing whether issuers who own certain mortgage related investments which rely on the exception from registration under Section 3(c)(5)(C), should continue to be allowed to rely on such exception from registration. We cannot provide you with any assurance that the outcome of the SEC’s review will not require us to register under the Investment Company Act. If we are determined to be an investment company, and we fail to qualify for this exception from registration as an investment company or the SEC determines that companies that engage in businesses similar to ours are no longer able to rely on this exception, we may be required to register as an investment company under the Investment Company Act.

Registration under the Investment Company Act would require us to comply with a variety of substantive requirements that impose, among other things:

- limitations on capital structure;
- restrictions on specified investments;
- restrictions on leverage or senior securities;
- restrictions on unsecured borrowings;
- prohibitions on transactions with affiliates;
- compliance with reporting, record keeping, voting, proxy disclosure and other rules and regulations that would significantly increase our operating expenses.

If we were required to register as an investment company but failed to do so, we could be prohibited from engaging in our business, and criminal and civil actions could be brought against us. Registration with the SEC as an investment company would be costly, would subject us to a host of complex regulations and would divert attention from the conduct of our business, which could materially and adversely affect us. In addition, if we purchase or sell any real estate assets to avoid becoming an investment company under the Investment Company Act, our net asset value, the amount of funds available for investment and our ability to pay distributions to our stockholders could be materially adversely affected.

Risks Related to Our Common Stock

The market price and trading volume of our common stock may be volatile and may be affected by market conditions beyond our control.

The price at which our common stock trades has fluctuated, and may continue to fluctuate, significantly. The market price of our common stock may fluctuate in response to many things, including but not limited to:

- variations in our actual or anticipated results of operations, liquidity or financial condition;
- changes in, or the failure to meet, our financial estimates or those of securities analysts;
- the amount and timing of any cash distributions;
- actions or announcements by our competitors;
- potential conflicts of interest, or the discontinuance of our strategic relationships, with AAMC, Altisource and Ocwen;
- actual or anticipated accounting problems;
- adverse market reaction to any increased indebtedness we incur in the future;

(table of contents)

regulatory actions;
changes in the market outlook for the real estate, mortgage or housing markets;
technology changes in our business;
changes in interest rates that lead purchasers of our common stock to demand a higher yield;
future equity issuances by us, or share resales by our stockholders, or the perception that such issuances or resales may occur;
actions by our stockholders;
speculation in the press or investment community;
general market, economic and political conditions, including an economic slowdown or dislocation in the global credit markets;
failure to maintain the listing of our common stock on the New York Stock Exchange;
failure to qualify or maintain our qualification as a REIT;
failure to maintain our exemption from registration under the Investment Company Act;
changes in accounting principles;
passage of legislation or other regulatory developments that adversely affect us or our industry; and
departure of AAMC's, and therefore our, key personnel.

The market prices of securities of public REITs have experienced fluctuations that often have been unrelated or disproportionate to the operating results of these companies. These market fluctuations could result in extreme volatility in the market price of our common stock.

Furthermore, our small size and different investment characteristics may not continue to appeal to our investor base, and they may seek to dispose of large amounts of our common stock. There is no assurance that there will be sufficient buying interest to offset those sales, and, accordingly, the market price of our common stock could be depressed and/or experience periods of high volatility.

The availability and timing of cash distributions is uncertain.

We are generally required to distribute to our stockholders at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain, each year in order for us to qualify as a REIT under the Code, which requirement we currently intend to satisfy through quarterly cash distributions of all or substantially all of our REIT taxable income in such year, subject to certain adjustments. We have not established a minimum distribution payment level, and our ability to make distributions may be adversely affected by a number of factors, including the risk factors described in this Annual Report.

Our Board of Directors, in its sole discretion, will determine the amount and timing of any distributions. In making such determinations, our Board of Directors will consider all relevant factors, including, without limitation, the amount of cash available for distribution, capital expenditures and general operational requirements. Our Board of Directors will also consider our ability to successfully modify and refinance or sell distressed loans or convert them into performing single-family rental properties, and the timing thereof, and our historical and projected financial condition, liquidity and results of operations, any financing covenants, maintenance of our REIT qualification, applicable law and such other factors as our Board of Directors may deem relevant from time to time. We intend over time to make regular quarterly distributions to holders of our common stock. However, we bear all expenses incurred by our operations, and the funds generated by our operations, after deducting these expenses, may not be sufficient to cover desired levels of distributions to our stockholders. In addition, our Board of Directors, in its discretion, may retain any portion of such cash in excess of our REIT taxable income for working capital. We cannot assure you how long it may take to generate sufficient available cash flow to fund distributions, nor can we assure you that sufficient cash will be available to make distributions to you. With a limited operating history, we cannot predict the amount of distributions you may receive, and we may be unable to make, maintain or increase distributions over time. There are

many factors that can affect the availability and timing of cash distributions to stockholders. Because we may receive rents and income from our properties at various times during our fiscal year, distributions paid may not reflect our income earned in that particular distribution period. The amount of cash available for distribution will be affected by many factors, including, without limitation, the amount of time it takes for us to deploy the net proceeds from this offering into our target assets, the amount of income we will earn from those investments, the amount of our operating expenses and many other variables. Actual cash available for distribution may vary substantially from our expectations.

While we intend to fund the payment of quarterly distributions to our stockholders entirely from distributable cash flows, in the future we could be required to sell assets, borrow funds or raise equity to make distributions to our stockholders, which, if not available on favorable terms, or at all, may require us to eliminate or otherwise reduce such distributions or to make a portion of such distributions in the form of a taxable stock distribution. In the event we are unable to consistently fund future quarterly

(table of contents)

distributions to our stockholders entirely from distributable cash flows, the market price of our common stock may be negatively impacted.

The incurrence or issuance of debt, which ranks senior to our common stock upon our liquidation, and future issuances of equity or equity-related securities, which would dilute the holdings of our existing common stockholders and may be senior to our common stock for the purposes of making distributions, periodically or upon liquidation, may negatively affect the market price of our common stock.

We have incurred debt and may in the future incur or issue additional debt or issue equity or equity-related securities. Upon our liquidation, lenders and holders of our debt and holders of our preferred stock will receive a distribution of our available assets before common stockholders. Any future incurrence or issuance of debt will increase our interest cost and could adversely affect our results of operations and cash flows. We are not required to offer any additional equity securities to existing common stockholders on a preemptive basis. Therefore, additional issuances of common stock, directly or through convertible or exchangeable securities (including limited partnership interests in our operating partnership), warrants or options, will dilute the holdings of our existing common stockholders and such issuances, or the perception of such issuances, may reduce the market price of our common stock. Our preferred stock, if issued, would likely have a preference on distribution payments, periodically or upon liquidation, which could eliminate or otherwise limit our ability to make distributions to common stockholders. Because our decision to incur or issue debt or issue equity or equity-related securities in the future will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing, nature or success of our future capital raising efforts. Thus, common stockholders bear the risk that our future incurrence or issuance of debt or issuance of equity or equity-related securities will adversely affect the market price of our common stock.

An increase in market interest rates may have an adverse effect on the market price of our common stock and our ability to make distributions to our stockholders.

One of the factors that investors may consider in deciding whether to buy or sell shares of our common stock is our distribution rate as a percentage of our share price, relative to market interest rates. If market interest rates increase, prospective investors may demand a higher distribution rate on shares of our common stock or seek alternative investments paying higher distributions or interest. As a result, interest rate fluctuations and capital market conditions can adversely affect the market price of our common stock. For instance, if interest rates rise without an increase in our distribution rate, the market price of shares of our common stock could decrease because potential investors may require a higher distribution yield on shares of our common stock as market rates on our interest-bearing instruments such as bonds rise. In addition, to the extent we have variable rate debt, rising interest rates would result in increased interest expense on our variable rate debt, thereby adversely affecting our results of operations and cash flows and our ability to make distributions to our stockholders.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties

Our principal executive offices are c/o Altisource Asset Management Corporation, 402 Strand Street, Frederiksted, St. Croix, United States Virgin Islands 00840-3531 where AAMC subleases approximately 2,000 square feet from Ocwen under a sublease expiring June 30, 2017. The annual rent under the sublease was \$40,000 per year until June 30, 2014 and continues at \$45,000 per year until the termination date of the lease, plus one-half of the lease-related operating expenses and leasehold improvements. We do not currently own any real property that we use as office space. AAMC currently is seeking new, larger space in St. Croix to further increase its staff to manage our business.

For information concerning our Existing Portfolio of residential mortgage loans and REO properties (including our single-family rental properties), see “Item 1. Business–Existing Portfolio.” The following table sets forth a summary of our single-family properties as of December 31, 2014 (\$ in thousands):

35

(table of contents)

- (1) The carrying value of an asset is based on historical cost which generally consists of the market value at the time of foreclosure sale plus renovation costs, net of any accumulated depreciation.
- (2) Weighted average age is based on the age weighted by carrying value for each state.

Item 3. Legal Proceedings

From time to time, we may be involved in various claims and legal actions arising in the ordinary course of business. As of December 31, 2014, we were not a party to, and our properties were not subject to, any pending or threatened legal proceedings that individually or in the aggregate, are expected to have a material impact on our financial condition, results of operations or cash flows. Subsequent to December 31, 2014, the following legal proceedings were commenced with respect to us:

On January 15, 2015, a shareholder derivative action was filed in the Circuit Court of Maryland for Baltimore City by a purported shareholder under the caption *The Police Retirement System of Saint Louis v. Erbey, et al.*, 24-C-15-000223. The action names as defendants William C. Erbey and each of the members of our Board of Directors and alleges that Mr. Erbey and our directors breached fiduciary duties in connection with the asset management agreement among us, Altisource Residential, L.P. and AAMC. The action also names Altisource Residential, L.P. and AAMC as defendants and alleges that AAMC aided and abetted the purported breaches of fiduciary duty and has been unjustly enriched by the asset management agreement. The complaint also names us as a nominal defendant. The plaintiff seeks, among other things, an order declaring that Mr. Erbey and the director defendants have breached their fiduciary duties, an order declaring that Mr. Erbey and AAMC have been unjustly enriched, an order declaring that the asset management agreement is unenforceable and directing our Board of Directors to terminate the asset management agreement, damages, disgorgement by Mr. Erbey and AAMC of allegedly wrongful profits, changes to our corporate governance and an award of attorney's and other fees and expenses. We believe the complaint is without merit. At this time, we are not able to predict the ultimate outcome of this matter, nor can we estimate the range of possible loss, if any.

On December 24, 2014, a shareholder derivative action was filed in the United States District Court for the Southern District of Florida by a purported shareholder of Ocwen under the caption *Sokolowski v. Erbey, et al.*, 14-cv-8160-1. The action named the directors of Ocwen as defendants and alleged, among other things, various breaches of fiduciary duties by the directors of Ocwen. On February 11, 2015, plaintiff filed an amended complaint naming the directors of Ocwen as defendants and also naming Altisource, Home Loan Servicing Solutions, AAMC and us as alleged aiders and abettors of the purported breaches of fiduciary duties. The amended complaint alleges that the directors of Ocwen breached their fiduciary duties by, among other things, allegedly failing to exercise oversight over Ocwen's compliance with applicable laws, rules and regulations; failing to exercise oversight responsibilities with respect to the accounting and financial reporting processes of Ocwen; failing to prevent conflicts of interest and allegedly improper related party transactions; failing to adhere to Ocwen's code of conduct and corporate governance guidelines; selling personal holdings of Ocwen stock on the basis of material adverse inside information; and disseminating allegedly false and misleading statements regarding Ocwen's compliance with regulatory obligations and allegedly self-dealing transactions with related companies. Plaintiff claims that as a result of the alleged breaches of fiduciary duties, Ocwen has suffered damages including settlements with regulatory agencies in excess of \$2 billion, injury to its reputation and corporate goodwill, and exposure to governmental investigations and securities and consumer class action lawsuits. In addition to the derivative claims, the plaintiff also alleges an individual claim that Ocwen's 2014 proxy statement allegedly contained untrue statements of material fact and failed to disclose material information in violation of federal securities laws. The plaintiff seeks, among other things, an order requiring the defendants to repay to Ocwen unspecified amounts by which Ocwen has been damaged or will be damaged, an award of an unspecified amount of exemplary damages, changes to Ocwen's corporate governance, and an award of attorney's and other fees and expenses. We believe the claims against us in the matter are without merit. At this time, we are not able to predict the ultimate outcome of this matter, nor can we estimate the range of possible loss, if any.

Management does not believe that we have incurred an estimable, probable or material loss by reason of any of the above actions.

Item 4. Mine safety disclosures

Not applicable.

Part II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

Our common stock has been listed on the New York Stock Exchange under the symbol "RESI" since December 13, 2012. The following table sets forth the high and low close of day sales prices for our common stock as reported by the New York Stock Exchange and dividend declared per share for the periods indicated:

Quarter ended	2014			2013		
	High	Low	Dividend	High	Low	Dividend
March 31	\$34.81	\$26.72	\$0.48	\$20.51	\$15.35	\$—
June 30	31.57	25.16	0.45	20.00	16.03	—
September 30	26.49	23.19	0.55	22.98	16.88	0.10
December 31	25.13	18.54	0.55	31.90	22.50	0.25

The number of holders of record of our common stock as of February 19, 2015 was 64. The number of beneficial stockholders is substantially greater than the number of holders as a large portion of our stock is held through brokerage firms. Information regarding securities authorized for issuance under equity compensation plans is set forth in Note 10 to the consolidated financial statements.

Dividends

We will pay dividends at the sole and absolute discretion of our Board of Directors in light of conditions then existing including our earnings, taxable income, financial condition, liquidity, capital requirements, the availability of capital, applicable REIT and legal restrictions, general overall economic conditions and other factors. We are restricted by the terms of our repurchase agreements from paying dividends greater than our REIT taxable income in a calendar year.

In order to qualify as a REIT, we are required to distribute dividends, other than capital gain dividends, to our shareholders in an amount at least equal to the sum of 90% of our REIT taxable income (computed without regard to our deduction for dividends paid and our net capital gains) and 90% of the net income after tax, if any, from foreclosure property, less the sum of specified items of non-cash income that exceeds a percentage of our income.

During 2014, cash dividends on common stock totaled \$2.03 per share, or an aggregate of \$116.0 million. When we realize gains on sales of assets, a portion of our dividends may be characterized as long term capital gains. The dividends paid in 2014 represented \$1.08 of ordinary income and \$0.95 of long-term capital gain for income tax purposes. The aggregate minimum distribution to shareholders required to maintain our REIT status was \$104.2 million in 2014. The 2014 distributions included a cash dividend of \$0.08 per share of common stock intended to satisfy the distribution requirement for 2013 and was treated as a 2013 distribution for REIT qualification purposes. During 2013, cash dividends on common stock totaled \$0.35 per share, all of which represented ordinary income for income tax purposes. In 2013 the aggregate minimum distribution to shareholders required to maintain our REIT status was \$16.0 million.

Performance Graph

The following stock price performance graph compares the performance of our common stock to the S&P 500 and the Russell 2000. The stock price performance graph assumes an investment of \$100 in our common stock and the two indices on December 13, 2012 and further assumes the reinvestment of all dividends. Stock price performance is not necessarily indicative of future results.

Index	For the period from December 13, 2012 to December 31,		
	2012	2013	2014
Altisource Residential Corporation	\$105.60	\$203.07	\$145.20
S&P 500	100.47	130.22	145.05
Russell 2000	103.05	141.18	146.17
NAREIT FTSE All Equity REITs (1)	102.63	101.81	125.68

(1) NAREIT FTSE All Equity REITs performance is reported historically on a monthly basis and therefore the total return has been calculated from November 30, 2012.

The performance graph above is being furnished as part of this Annual Report solely in accordance with the requirement under Rule 14a-3(b)(9) to furnish the Company's stockholders with such information and, therefore, is not deemed to be filed, or incorporated by reference in any filing, by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934.

Item 6. Selected Financial Data

The following table sets forth selected financial data which is derived from our audited consolidated financial statements (\$ in thousands, except per share data). The historical results presented below may not be indicative of our future performance and do not necessarily reflect what our financial position would have been had we operated as a separate, stand-alone entity since inception. The data should be read in conjunction with our consolidated financial statements and notes thereto, included elsewhere in this report, and “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.”

	Year ended December 31, 2014	Year ended December 31, 2013	June 7, 2012 (Inception) to December 31, 2012

Item 7. Management's discussion and analysis of financial condition and results of operations

Overview

We are a Maryland REIT focused on acquiring and managing single-family rental properties primarily by acquiring portfolios of sub-performing and non-performing residential mortgage loans throughout the United States. We believe that the events affecting the housing and mortgage market in recent years have created a significant rental demand for single-family properties and have created a large supply of distressed mortgage loans for sale in the market. We therefore believe we have an opportunity to acquire single-family properties through the acquisition of sub-performing and non-performing loan portfolios at attractive valuations. We expect our integrated approach of acquiring sub-performing and non-performing residential mortgage loans and converting them to rental properties will enable us to compete more effectively for attractive investment opportunities. While we focus on acquiring our rental properties through the acquisition of distressed mortgage loans, we also may consider purchasing rental properties through other avenues, including, without limitation, through the purchase of REO, residential mortgage-backed securities, clean-up calls and other distressed assets.

During the year ended December 31, 2014, we completed the acquisition of an aggregate of 7,326 residential mortgage loans, substantially all of which were non-performing, and 237 REO properties having an aggregate unpaid principal balance (“UPB”) of approximately \$1.9 billion and an aggregate market value of underlying properties of approximately \$1.8 billion. The aggregate purchase price for these acquisitions was approximately \$1.2 billion.

On June 27, 2014, we acquired 879 re-performing mortgage loans with an aggregate market value of underlying properties of \$271.1 million for an aggregate purchase price of \$144.6 million. During October 2014, we sold 770 of these re-performing mortgage loans.

In 2013, we acquired portfolios consisting of an aggregate of 8,491 residential mortgage loans and 40 REO properties, substantially all of which were non-performing, having an aggregate UPB of approximately \$2.2 billion and an aggregate market value of underlying properties of \$1.8 billion. The aggregate purchase price for these portfolios was \$1.2 billion.

40

(table of contents)

During 2014 and 2013, we modified an aggregate of 619 mortgage loans, converted an aggregate of 3,908 mortgage loans into REO properties and disposed of an aggregate of 946 mortgage loans through short sale, refinancing or other liquidation events.

Following the above-referenced transactions, as of December 31, 2014, our portfolio consisted of 10,963 residential mortgage loans, substantially all of which were non-performing, having an aggregate UPB of approximately \$2.9 billion and an aggregate market value of underlying properties of \$2.7 billion. We also owned 3,960 REO properties with an aggregate carrying value of \$624.6 million, of which 3,349 were held for use and 611 were held for sale. Of the 3,349 REO properties held for use, 336 properties had been rented and were occupied by tenants, 197 were being listed for rent and 254 were in varying stages of renovation. With respect to the remaining 2,562 REO properties held for use, we will make a final determination whether each property meets our rental profile after (a) applicable state redemption periods have expired, (b) the foreclosure sale has been ratified, (c) we have recorded the deed for the property, (d) utilities have been activated and (e) we have secured access for interior inspection. We also owned 102 re-performing mortgage loans held for sale having an aggregate UPB of approximately \$18.4 million and an aggregate market value of underlying properties of approximately \$22.5 million as of December 31, 2014.

To date, we have acquired our non-performing and re-performing mortgage loans through direct acquisitions from institutions such as banks, HUD and private equity funds.

We are externally managed by AAMC, an asset management company that provides portfolio management and corporate governance services to investment vehicles. We conduct substantially all of our operations, and make substantially all of our investments, through our operating partnership and its subsidiaries. One of our subsidiaries is the sole general partner of the operating partnership, and we are the sole limited partner.

Observations on Current Market Opportunities

We believe there is currently a significant market opportunity to acquire single-family rental properties through the distressed loan channel and expect the supply of non-performing loans, sub-performing loans, properties in foreclosure and REO to remain steady over the next two years as GSEs, HUD, banks and other mortgage lenders seek to dispose of their distressed inventories. We continue to see substantial volumes of distressed residential mortgage loan portfolios offered for sale by banks, HUD, GSEs and private equity funds, among others. We believe that the distressed loan channel gives us a cost advantage over other acquisition channels such as foreclosure auctions and REO acquisitions, involves less competition and positions us to be selected as the buyer of diverse portfolios of such loans since we are not geographically constrained. Our preferred resolution methodology is to modify the sub-performing and non-performing loans. We believe modification followed by refinancing generates near-term cash flows, provides the highest possible economic outcome for us and is a socially responsible business strategy because it keeps more families in their homes.

Metrics Affecting Our Consolidated Results

Revenues

Our revenues primarily consist of the following:

- i. Net realized gain on mortgage loans. We record net realized gains, including the reclassification of previously accumulated net unrealized gains, upon the liquidation of a loan which may consist of short sale, third party sale of the underlying property, refinancing or full debt pay-off of the loan. We expect the timeline to liquidate loans will vary significantly by loan, which could result in fluctuations in revenue recognition and operating performance from

period to period. Additionally, the proceeds from loan liquidations may vary significantly depending on the resolution methodology. We generally expect to collect proceeds of loan liquidations in cash and, thereafter, have no continuing involvement with the asset.

Net unrealized gains from the conversion of loans to REO. Upon conversion of loans to REO, we mark the properties to the most recent market value. The difference between the carrying value of the asset at the time of conversion and the most recent market value, based on BPOs, is recorded in our statement of operations as net unrealized gain on mortgage loans. We expect the timeline to convert acquired loans into REO will vary

- ii. significantly by loan, which could result in fluctuations in our revenue recognition and our operating performance from period to period. The factors that may affect the timelines to foreclose upon a residential mortgage loan include, without limitation, state foreclosure timelines and deferrals associated therewith; unauthorized parties occupying the property; federal, state or local legislative action or initiatives designed to provide homeowners with assistance in avoiding residential mortgage

(table of contents)

loan foreclosures and continued declines in real estate values and/or sustained high levels of unemployment that increase the number of foreclosures and which place additional pressure and/or delays on the already overburdened judicial and administrative proceedings.

Net unrealized gains from the change in fair value of loans. After our sub-performing and non-performing mortgage loans are acquired, the fair value of each loan is adjusted in each subsequent reporting period as the loan proceeds to a particular resolution (i.e., modification, or conversion to real estate owned). As a loan approaches resolution, the resolution timeline for that loan decreases and costs embedded in the discounted cash flow model for loan servicing, foreclosure costs and property insurance are incurred and removed from future expenses. The shorter resolution timelines and reduced future expenses each increase the fair value of the loan. The increase in the value of the loan is recognized in net unrealized gain on mortgage loans in our consolidated statements of operations. The exact nature of resolution will be dependent on a number of factors that are beyond our control, including borrower willingness to pay, property value, availability of refinancing, interest rates, conditions in the financial markets, the regulatory environment and other factors.

Net realized gain on real estate. REO properties that do not meet our investment criteria are sold out of our taxable REIT subsidiary. The realized gain or loss recognized in financial statements reflects the net amount of realized and unrealized gains on sold REOs from the time of acquisition to sale completion.

As a greater number of our REO properties are renovated and deemed suitable for rental, we expect a greater portion of our revenues will be rental revenues. We believe the key variables that will affect our rental revenues over the long term will be average occupancy and rental rates. We anticipate that a majority of our leases of single-family rental properties to tenants will be for a term of two years or less. As these leases permit the residents to leave at the end of the lease term without penalty, we anticipate our rental revenues will be affected by declines in market rents more quickly than if our leases were for longer terms. Short-term leases may result in high turnover, which involves expenses such as renovation costs and leasing expenses, or reduced rental revenues.

Although we seek to lease the majority of REO properties we acquire on foreclosure, we also sell the properties that do not meet our rental investment criteria. The real estate market and home prices will determine proceeds from any sale of real estate. In addition, while we seek to track real estate price trends and estimate the effects of those trends on the valuations of our portfolios of residential mortgage loans, future real estate values are subject to influences beyond our control.

Expenses

Our expenses primarily consist of rental property operating expenses, depreciation and amortization, real estate selling cost and impairment, mortgage loan servicing, interest expense, general and administrative expenses, expense reimbursement, incentive management fees. Rental property operating expenses are expenses associated with our ownership and operation of rental properties including expenses such as Altisource's property management fees, expenses towards repairs, utility expenses on vacant properties, turnover costs, property taxes, insurance and HOA dues. Depreciation and amortization is a non-cash expense associated with the ownership of real estate and generally remains relatively consistent each year in relation to our asset levels since we depreciate our properties on a straight-line basis over a fixed life. Real estate selling cost and impairment represents our estimate for the costs to be incurred to sell a property and an amount that represents the carrying amount over the estimated fair value less costs to sell. Mortgage loan servicing costs are primarily for servicing fees, foreclosure fees and advances of residential property insurance. Interest expense consists of the costs to borrow money in connection with our debt financing of our portfolios. General and administrative expenses consist of the costs related to the general operation and overall administration of our business. Expense reimbursement consists primarily of employee salaries of AAMC in direct correlation to the services they provide on our behalf and other personnel costs and corporate overhead. The incentive management fees consist of compensation due to AAMC, based on the amount of cash available for distribution to our

stockholders for each period.

Other factors affecting our consolidated results

We expect our results of operations to be affected by various factors, many of which are beyond our control, including the following:

42

(table of contents)

Acquisitions

Our operating results will depend on our ability to source sub-performing and non-performing loans, as well as other residential mortgage loans and REO property assets. We believe that there is currently a large supply of sub-performing and non-performing mortgage loans available to us for acquisition. We believe the available supply provides for a steady acquisition pipeline of assets since we plan on targeting just a small percentage of the population.

Generally, we expect that our residential mortgage loan portfolio may grow at an uneven pace, as opportunities to acquire distressed residential mortgage loans may be irregularly timed and may at times involve large portfolios of loans, and the timing and extent of our success in acquiring such loans cannot be predicted. In addition, for any given portfolio of loans that we agree to acquire, we typically acquire fewer loans than originally expected, as certain loans may be resolved prior to the closing date or may fail to meet our diligence standards. Although the number of unacquired loans typically constitutes a relatively small portion of a particular portfolio, in certain cases, the number of loans we do not acquire could be a significant portion of a particular portfolio. In any case where we do not acquire the full portfolio, appropriate adjustments are made to the applicable purchase price.

Financing

Our ability to grow our business is dependent on the availability of adequate financing including additional equity financing, debt financing or both in order to meet our objectives. We intend to leverage our investments with debt, the level of which may vary based upon the particular characteristics of our portfolio and on market conditions. To the extent available at the relevant time, our financing sources may include bank credit facilities, warehouse lines of credit, structured financing arrangements and repurchase agreements, among others. We may also seek to raise additional capital through public or private offerings of debt or equity securities, depending upon market conditions. To qualify as a REIT under the Code, we will need to distribute at least 90% of our taxable income each year to our stockholders. This distribution requirement limits our ability to retain earnings and thereby replenish or increase capital to support our activities.

Our taxable income is triggered primarily by material changes in the economic status of loans, such as a sale of the loan, modification of the loan from a non-performing status to a performing status or conversion of the loan to REO. We expect to convert our taxable gains on REO dispositions and loan modifications to cash gains, which can be used to fund the distribution requirements from the corresponding taxable gains. Distribution requirements from our taxable gains on the remaining loans that we expect to convert to rental properties can be funded through a higher advance rate on the increased value when a property becomes rented.

(1) Excludes mortgage loans held for sale.

(2) Subsequent to the foreclosure sale, we may be notified that the foreclosure sale was invalidated for certain reasons.

In addition, as of December 31, 2014, 207 of our mortgage loans were on trial modification plans, compared to 197 mortgage loans on trial modification plans as of September 30, 2014.

Portfolio size

The size of our investment portfolio will also be a key revenue driver. Generally, as the size of our investment portfolio grows, the amount of revenue we expect to generate will increase. A growing investment portfolio, however, will drive increased expenses including possibly higher servicing fees, property management fees to Altisource and fees payable to AAMC. We may also incur additional interest expense if we incur additional debt to finance the purchase of our assets.

Results of operations

The following sets forth discussion of our results of operations for the years ended December 31, 2014 and 2013. We had no substantial revenues or expenses for the period from June 7, 2012 (Inception) through December 31, 2012. Accordingly, we have not presented comparative results for the period from Inception to December 31, 2012. We purchased our first portfolio of sub-performing and non-performing residential mortgage loans in February 2013. Our results of operations for the periods presented are not indicative of our expected results in future periods.

(table of contents)

Fiscal year ended December 31, 2014 compared to fiscal year ended December 31, 2013

Rental revenues

Rental revenues increased to \$1.6 million for the year ended December 31, 2014 from \$36,000 for the year ended December 31, 2013. The number of leased properties increased to 336 leased properties at December 31, 2014 from 14 at December 31, 2013. We expect to generate increasing rental revenues as we continue to renovate, list and rent additional residential rental properties. Our rental revenues will depend primarily on occupancy levels and rental rates for our residential rental properties. Because our lease terms generally are expected to be two or fewer years, our occupancy levels and rental rates will be highly dependent on localized residential rental markets, our ability to manage maintenance and upkeep costs and our renters' desire to remain in our properties.

Net unrealized gain on mortgage loans

Our net unrealized gains on mortgage loans increased to \$350.8 million for the year ended December 31, 2014 from \$61.1 million for the year ended December 31, 2013. These increases were primarily related to an increase in the number of loans for which unrealized gains were estimated and the continued discounts at which we have been able to acquire non-performing loans into our portfolio. The net unrealized gains for the year ended December 31, 2014 and 2013 can be broken down into the following two components:

First, we recognized unrealized gains driven by a material change in loan status of \$124.9 million for the year ended December 31, 2014 compared to \$8.3 million for the year ended December 31, 2013. During the year ended December 31, 2014 and 2013, we converted 3,682 and 226 mortgage loans to REO status, respectively. Upon conversion of these mortgage loans to REO, we marked these properties to the most recent market value, less estimated selling costs in the case of REO properties held for sale; and

Second, we recognized \$225.9 million in unrealized gains for the year ended December 31, 2014 from the net increase in the fair value of loans during the period compared to \$52.8 million for the year ended December 31, 2013. Adjustments to the fair value of loans after acquisition represent, among other factors, a reduction in the time remaining to complete the foreclosure process due to the passage of time since acquisition and a reduction in future foreclosure expenses to the extent we have already incurred them. The reduction in time remaining to complete the foreclosure is driven by the completion of activities in the foreclosure process after we acquired the loans. This reduction in timeline results in reduced carrying costs and reduced future expenses for the loans, each of which increases the fair value of the loans. The increase in the value of the loans is recognized in net unrealized gain on mortgage loans in our consolidated statements of operations.

Through our acquisitions, the number of sub-performing and non-performing loans in our Existing Portfolio has grown from 8,054 loans at December 31, 2013 to 10,963 loans at December 31, 2014. The fair value of mortgage loans is based on a number of factors which are difficult to predict and may be subject to positive or adverse changes in value depending on the financial condition of borrowers, as well as geographic, economic, market and other conditions. Therefore, we may experience unrealized losses or additional unrealized gains on our mortgage loans in the future.

Net realized gain on mortgage loans

Net realized gain on mortgage loans increased to \$55.8 million for the year ended December 31, 2014 from \$10.5 million for the year ended December 31, 2013, primarily due to our disposition of mortgage loans through loan sales, refinancings, short sales and foreclosure sales. We disposed of 735 mortgage loans in the year ended December 31, 2014 and 211 mortgage loans in the year ended December 31, 2013, primarily from short sales and foreclosure sales.

Net realized gain on re-performing mortgage loans

Net realized gain on re-performing mortgage loans were \$2.8 million for the year ended December 31, 2014, during which we disposed of 770 re-performing loans. We did not dispose of any re-performing loans in 2013.

45

(table of contents)

Net realized gain on real estate

Net realized gain on real estate was \$9.5 million for the year ended December 31, 2014, during which we disposed of 221 residential properties. We disposed of four residential properties during the year ended December 31, 2013, resulting in no meaningful gains or losses on such dispositions.

Interest income

Interest income increased to \$2.9 million for the year ended December 31, 2014 from \$0.7 million for the year ended December 31, 2013, primarily related to the accretion of \$2.6 million into interest income with respect to our re-performing loans that were acquired during 2014.

Residential property operating expenses

We incurred \$26.0 million of residential property operating expenses for the year ended December 31, 2014 compared to \$0.8 million for the year ended December 31, 2013. We expect to incur increasing residential property operating expenses as we convert more mortgage loans to, and own more residential properties. Our residential property operating expenses will be dependent primarily on residential property taxes and insurance, property management fees and repair and maintenance expenditures.

Real estate depreciation and amortization

We incurred \$1.1 million of real estate depreciation and amortization for the year ended December 31, 2014 compared to a nominal amount of real estate depreciation and amortization for the year ended December 31, 2013. We expect to incur increasing real estate depreciation and amortization as we convert more mortgage loans to, and own more residential rental properties. Real estate depreciation and amortization are non-cash expenditures which generally are not expected to be indicative of the market value or condition of our residential rental properties.

Real estate selling costs and impairment

Real estate selling costs of REO held for sale were \$13.9 million for the year ended December 31, 2014 compared to \$0.2 million for the year ended December 31, 2013. We also recognized \$7.9 million impairment of our REO for the year ended December 31, 2014 compared to \$0 impairment for the year ended December 31, 2013. We record residential properties held for sale at the lower of either the carrying amount of REO or its estimated fair value less estimated selling costs. If the carrying amount exceeds the estimated fair value, as adjusted, we record impairment equal to the amount of such excess.

Mortgage loan servicing costs

We incurred \$68.2 million of mortgage loan servicing costs, primarily for servicing fees, foreclosure fees and advances of residential property insurance, for the year ended December 31, 2014 compared to \$10.4 million for the year ended December 31, 2013. We incur mortgage loan servicing and foreclosure costs as our mortgage servicers provide servicing for our loans and pay for advances relating to property insurance that are made to protect our investment in mortgage loans. Our loan servicing costs could be higher in a given period if the number of mortgage loans in our portfolio increases.

Interest expense

We incurred \$35.8 million of interest expense for the year ended December 31, 2014 related to borrowings under our repurchase agreements (including amortization of deferred financing costs) compared to \$4.6 million for the year ended December 31, 2013. The interest rate under our repurchase agreements is subject to change, based on changes in the relevant index. Market interest rates are currently at historically low levels, and any increase in market interest rates will cause our contractual interest expense to increase. We also expect our interest expense to increase as our debt increases to fund and/or leverage our ownership of existing and additional portfolios.

General and administrative expenses

General and administrative expenses increased to \$7.0 million for the year ended December 31, 2014 from \$4.2 million for the year ended December 31, 2013, primarily due to an increase in professional fees and acquisition costs related to our acquisitions of mortgage loan portfolios and due to an increase of litigation-based expenses.

(table of contents)

Related party general and administrative

We incurred \$77.0 million of related party general and administrative expenses for the year ended December 31, 2014 compared to \$12.5 million for the year ended December 31, 2013. The increase in 2014 included \$67.9 million in management incentive fees for the year ended December 31, 2014, which were due to AAMC under the asset management agreement compared to \$4.9 million for the year ended December 31, 2013. The remaining increase in related party general and administrative expenses related to increased expense reimbursements to AAMC for salaries and benefits attributable to AAMC's hiring of additional personnel to provide services on behalf of our business.

Other income

Other income was \$2.5 million for the year ended December 31, 2014, primarily reflecting \$2.2 million of dividends we received from NewSource pursuant to the terms of our preferred stock investment.

Liquidity and capital resources

As of December 31, 2014, we had cash and cash equivalents of \$66.2 million compared to \$116.0 million as of December 31, 2013. Our liquidity reflects our ability to meet our current obligations (including our operating expenses and, when applicable, retirement of, and margin calls relating to, our financing arrangements) and make distributions to our stockholders. We are required to distribute at least 90% of our taxable income each year to our stockholders to qualify as a REIT under the Internal Revenue Code. This distribution requirement limits our ability to retain earnings and thereby replenish or increase capital to support our activities.

We were initially funded with \$100.0 million on December 21, 2012. Since our separation, our primary sources of liquidity have been proceeds from equity offerings, borrowings under our repurchase agreements and securitization financings, interest payments we receive from our portfolio of assets, cash generated from loan liquidations and cash generated from our rental portfolio. We expect our existing business strategy will require additional debt and/or equity financing. Our manager continues to explore a variety of financing sources to support our growth, including, but not limited to, debt financing through bank warehouse lines of credit, additional and/or amended repurchase agreements, term financing, securitization transactions and additional debt or equity offerings. Based on our current borrowing capacity, leverage ratio, and anticipated additional debt financing transactions, we believe that these sources of liquidity will be sufficient to enable us to meet anticipated short-term (one year) liquidity requirements, including paying expenses on our existing loan portfolio, funding distributions to our stockholders, paying fees to AAMC under the asset management agreement and general corporate expenses. However, there can be no assurance as to how much additional financing capacity such efforts will produce, what form the financing will take or that such efforts will be successful. If we are unable to renew, replace or expand our sources of financing, our business, financial condition, liquidity and results of operations may be materially and adversely affected.

To date, we have conducted the following equity offerings, repurchase facilities and securitization transactions:

Equity Offerings

We have completed three public equity offerings with aggregate net proceeds of approximately \$1.1 billion. On May 1, 2013, we completed a public offering of 17,250,000 shares of common stock at \$18.75 per share and received net proceeds of approximately \$309.5 million. On October 1, 2013, we completed our second public offering of 17,187,000 shares of common stock at \$21.00 per share and received net proceeds of \$349.4 million. On January 22, 2014, we completed our third public offering of 14,200,000 shares of common stock at \$34.00 per share and received net proceeds of approximately \$467.6 million.

Repurchase Facilities

On March 22, 2013, September 12, 2013 and September 23, 2013, we entered into three separate repurchase agreements to finance the acquisition and ownership of residential mortgage loans and REO properties. The maximum aggregate funding available under these repurchase agreements initially was \$425.0 million. We subsequently increased the aggregate funding capacity under each repurchase agreement as follows:

Credit Suisse (“CS”) is the lender on the repurchase agreement entered into on March 22, 2013 (the “CS repurchase agreement”). The CS Repurchase Agreement was amended on April 21, 2014 to initially increase the aggregate maximum borrowing capacity from \$100.0 million to \$200.0 million. The maturity date of the CS repurchase

(table of contents)

agreement was also extended to April 20, 2015, subject to an additional one-year extension with the approval of the lender. On June 11, 2014, we further amended the CS repurchase agreement to increase the aggregate maximum borrowing capacity from \$200.0 million to \$375.0 million, subject to certain sublimits, for the period from June 11, 2014 through October 11, 2014. In October 2014, we further extended the temporary increase with CS in order to enable us to complete a securitization of the non-performing mortgage loans comprising the increased capacity. Following the securitization of these loans, on December 23, 2014, we further amended the CS repurchase agreement and entered into a securities repurchase agreement with Credit Suisse to obtain additional financing on the bonds issued by us in our securitizations. This December 2014 amendment increased our aggregate maximum borrowing capacity under the CS repurchase agreement to \$225.0 million. We are in discussions with CS to renew the repurchase agreement. No assurance can be provided that we will be able to renew this facility on reasonable terms, on a timely basis or at all.

Deutsche Bank (“DB”) is the lender on the repurchase agreement dated September 12, 2013 (the “DB repurchase agreement”). The DB repurchase agreement was amended on December 18, 2013, has an aggregate funding capacity of \$250.0 million and matures on March 11, 2016. The DB repurchase agreement includes a provision that, beginning in the nineteenth month, we will not be able to finance mortgage loans in excess of amounts outstanding under the facility at the end of the eighteenth month.

Wells Fargo (“Wells”) is the lender under the repurchase agreement dated September 23, 2013 (the “Wells repurchase agreement”). The Wells repurchase agreement was amended on December 23, 2013 to initially increase the aggregate maximum borrowing capacity from \$200.0 million to \$400.0 million. On June 25, 2014, we further amended the Wells repurchase agreement to increase the aggregate maximum borrowing capacity from \$400.0 million to \$1.0 billion, subject to certain sublimits. On December 31, 2014, we further amended the Wells repurchase agreement to reduce the aggregate maximum borrowing capacity from \$1.0 billion to \$750 million to reflect the securitization of a significant portion of our non-performing loans that previously had been financed under the Wells repurchase agreement. The maturity date of the Wells repurchase agreement was March 23, 2015. However, on February 20, 2015, we exercised our option to extend the termination date of this facility to March 23, 2016. We are in discussions with Wells to renew the repurchase agreement. No assurance can be provided that we will be able to renew this facility on reasonable terms, on a timely basis or at all. In the event we cannot renew the agreement, the advance rate will be reduced by 10% after the first 90 days of the extension term and we will not be entitled to draw additional funds under the facility.

Following all of the amendments described above, the maximum aggregate funding available to us under these repurchase agreements as of December 31, 2014 was \$1.2 billion, subject to certain sublimits, eligibility requirements and conditions precedent to each funding. As of December 31, 2014, an aggregate of \$1.0 billion was outstanding under our repurchase agreements. All obligations under each of these repurchase agreements are fully guaranteed by us.

Under the terms of each repurchase agreement, as collateral for the funds we draw thereunder, subject to certain conditions, the operating partnership will sell to the applicable lender equity interests in the Delaware statutory trust subsidiary that owns the applicable underlying mortgage assets on our behalf, or the trust will directly sell such underlying mortgage assets. In the event the lender determines the value of the collateral has decreased, the lender has the right to initiate a margin call and require us to post additional collateral or to repay a portion of the outstanding borrowings. The price paid by the lender for each underlying mortgage asset we finance under the applicable repurchase agreement is subject to agreement between the lender and us and is based on a percentage of the market value of the underlying mortgage asset and depends on its delinquency status. Our cost of borrowing under the repurchase agreements generally corresponds to LIBOR, or the lender interest at the lender’s cost of funds plus a margin. We are also required to pay certain other customary fees, administrative costs and expenses to maintain and administer the repurchase agreements.

The repurchase agreements require us to maintain various financial and other covenants, including maintaining a minimum adjusted tangible net worth, a maximum ratio of indebtedness to adjusted tangible net worth and specified levels of unrestricted cash. In addition, the repurchase agreements contain customary events of default.

We are currently in compliance with the covenants and other requirements with respect to our repurchase agreements. We monitor our banking partners' ability to perform under the repurchase agreements and have concluded there is currently no reason to doubt that they will continue to perform under the repurchase agreements as contractually obligated.

The following table sets forth data with respect to our repurchase agreements as of and for the three months ended December 31, 2014 and December 31, 2013 (\$ in thousands):

48

(table of contents)

	Three months ended December 31, 2014	Three months ended December 31, 2013
Balance at end of period	\$1,015,000	\$602,382
Maximum month-end balance outstanding during the period	1,112,883	602,382
Weighted average quarterly balance	1,055,776	364,665

As amended, the three repurchase agreements provide for the lenders to finance our portfolio at advance rates (or purchase prices) ranging from 40% to 80% of the “asset value” of the mortgage loans and REO properties. Under these repurchase agreements, the “asset value” generally is an amount that is based on the market value of the mortgage loan or REO property. We believe these are typical market terms which are designed to provide protection for the lender to collateralize its advances to us in the event the collateral declines in value. Under each of the repurchase agreements, if the carrying value of the collateral declines beyond certain limits, we would have to either (a) provide additional collateral or (b) repurchase certain assets under the agreement to maintain the applicable advance rate.

The increase in amounts outstanding under our repurchase agreements from December 31, 2013 to December 31, 2014 relate primarily to funds we drew down under a repurchase facility in January 2014, April 2014, June 2014, and July 2014 to complete our acquisitions of portfolios of mortgage loans and REO properties, net of amounts paid down with the proceeds from the issuance of the bonds issued in the securitizations we completed in the third and fourth quarters of 2014 as describe below in “-Securitizations”. Our overall advance rate under the repurchase agreements declined slightly from 59.9% at December 31, 2013 to 55.8% at December 31, 2014, although the aggregate dollar amount of funding increased. We do not collateralize any of our repurchase facilities with cash.

Securitizations

On November 25, 2014, we completed a securitization transaction in which ARLP Securitization Trust, Series 2014-2 (“ARLP 2014-2”) issued \$270.8 million in Class A Notes (the “Class A Notes”) and \$234.0 million in Class M Notes (the “Class M Notes”). We retained \$95.8 million of the Class A Notes and all of the Class M Notes in our taxable REIT subsidiary (“TRS”). The Class A Notes and the Class M Notes are secured solely by the non-performing mortgage loans and REO properties of ARLP 2014-2 and not by any of our other assets. The assets of ARLP 2014-2 are the only source of repayment and interest on the Class A Notes and the Class M Notes. The Class A Notes and the Class M Notes mature on January 26, 2054, and we do not guaranty any of the obligations of ARLP 2014-2 under the terms of the Indenture governing the notes or otherwise. As of December 31, 2014, the book value of the underlying securitized assets held by ARLP 2014-2 was \$333.0 million. In February 2015, we sold \$50.7 million of the retained Class A Notes to an unrelated third party.

On September 25, 2014, we completed a securitization transaction in which ARLP Securitization Trust, Series 2014-1 (“ARLP 2014-1”) issued \$150.0 million in Class A Notes (the “Class A Notes”) and \$32.0 million in Class M Notes (the “Class M Notes”). The Class A Notes and the Class M Notes are secured solely by the non-performing mortgage loans and REO properties of ARLP 2014-1 and not by any of our other assets. The assets of ARLP 2014-1 are the only source of repayment and interest on the Class A Notes and the Class M Notes. The Class A Notes and the Class M Notes mature on September 25, 2044, and we do not guaranty any of the obligations of ARLP 2014-1 under the terms of the Indenture governing the notes or otherwise. As of December 31, 2014, the book value of the underlying securitized assets held by ARLP 2014-1 was \$212.7 million.

As described above in “-Repurchase Agreements”, we used a portion of the proceeds of the securitizations to repurchase the non-performing loans from the repurchase facilities, as such non-performing loans were used to collateralize the securitization trusts.

We retained all of the Class M Notes issued by ARLP 2014-1 in our TRS. On September 30, 2014, pursuant to a master repurchase agreement, the TRS sold \$15.0 million of the Class M Notes to NewSource, an entity in which we own 100% of the outstanding preferred stock and in which AAMC owns 100% of the outstanding common stock, for a purchase price of \$15.0 million. The master repurchase agreement required the TRS to repurchase the Class M Notes from NewSource at a 5.0% yield on December 28, 2014, with the parties having the option to extend the master repurchase agreement for an additional 89 day period. On December 26, 2014, the parties agreed to extend the agreement to March 27, 2015. In no event can the master repurchase agreement be extended beyond September 29, 2015.

(table of contents)

Cash flows

We report and analyze our cash flows based on operating activities, investing activities and financing activities. The following table sets forth the changes in our cash flows (\$ in thousands):

	Year ended December 31, 2014	Year ended December 31, 2013	Change	
Net cash used in operating activities	\$(173,621)(22,563)\$(151,058)
Net cash used in investing activities	(974,920)(1,206,230)231,310)
Net cash provided by financing activities	1,098,719	1,244,776	(146,057)
Total cash flows	\$(49,822)\$15,983	\$(65,805)

The decrease in net cash used in operating activities for the year ended December 31, 2014 and 2013 consisted primarily of related party mortgage loan servicing costs including servicing fees, foreclosure fees and advances of residential property insurance on delinquent loans, interest expense, professional fees, acquisition costs and expense reimbursements to our manager for salaries and benefits.

The change in net cash used in investing activities for the year ended December 31, 2014 consisted primarily of investments in non-performing and re-performing loan portfolios, partly offset by proceeds from the disposition of loans. The change in net cash used in investing activities for the year ended December 31, 2013 consisted primarily of investments in non-performing loan portfolios. During periods in which we purchase a significant number of mortgage loans and conduct substantial renovations of residential real estate, our cash used in investing activities is generally expected to exceed cash provided by investing activities.

The change in net cash provided by financing activities for the year ended December 31, 2014 consisted primarily of the net proceeds from the issuance of common stock, payment of dividends and net borrowings under repurchase agreements and other secured borrowings. The change in net cash provided by financing activities for the year ended December 31, 2013 consisted primarily of the net proceeds from the issuance of common stock and net borrowings under repurchase agreements. Net cash related to financing activities will generally consist of the incurrence by us of debt, repayment of debt previously incurred by us, payment of dividends and issuance of common stock.

Off-balance sheet arrangements

We have no off-balance sheet arrangements as of December 31, 2014.

Off-balance sheet arrangements

We had no off-balance sheet arrangements as of December 31, 2013 or 2012.

Contractual obligations

The following table sets forth a summary regarding our known contractual obligations based on the current principal outstanding and contractual terms of the debt obligations, including current interest rates, at December 31, 2014 (\$ in thousands):

	Total	Amount due during the years ending December 31,			Thereafter
		2015	2016 - 2017	2018 - 2019	
Borrowings (1)	\$1,354,656	\$237,044	\$792,956	\$—	\$324,656

Edgar Filing: Altisource Residential Corp - Form 10-K

Interest (2)	433,663	37,707	28,226	23,087	344,643
	\$1,788,319	\$274,751	\$821,182	\$23,087	\$669,299

(1) Does not consider the expected redemption dates for secured notes. The securitized assets are the only source of repayment for the secured notes and are expected to provide funding for these liabilities (see Note 7).

(2) Assumes interest rates as of December 31, 2014 remain in effect for the remaining term of the borrowings. Actual payments could vary.

(table of contents)

The table above does not include amounts due under the asset management agreement as those obligations do not have fixed and determinable payments.

We enter into certain contracts that contain a variety of indemnification obligations. The maximum potential future payment amount we could be required to pay under these indemnification obligations is unlimited. We have not incurred any costs to defend lawsuits or settle claims related to these indemnification obligations. As a result, the estimated fair value of these agreements is minimal. Accordingly, we recorded no liabilities for these agreements as of December 31, 2014 or 2013.

Recent accounting pronouncements

See Item 8 - Consolidated Financial Statements and Supplementary Data - Note 1, "Organization and basis of presentation - Recently issued accounting standards."

Critical accounting judgments

Accounting standards require information in financial statements about the risks and uncertainties inherent in significant estimates, and the application of generally accepted accounting principles involves the exercise of varying degrees of judgment. Certain amounts included in or affecting our financial statements and related disclosures must be estimated requiring us to make certain assumptions with respect to values or conditions that cannot be known with certainty at the time our consolidated financial statements are prepared. These estimates and assumptions affect the amounts we report for our assets and liabilities and our revenues and expenses during the reporting period and our disclosure of contingent assets and liabilities at the date of our consolidated financial statements. Actual results may differ significantly from our estimates and any effects on our business, financial position or results of operations resulting from revisions to these estimates are recorded in the period in which the facts that give rise to the revision become known.

We consider our critical accounting judgments to be those used in the determination of the reported amounts and disclosure related to the following:

Income taxes

We believe that we have complied and will continue to comply with the provisions of the federal income tax code applicable to REITs beginning for the year ended December 31, 2013 and have elected REIT status with the filing of our 2013 income tax return. Accordingly, we believe that we will not be subject to federal income tax beginning in the year ended December 31, 2013 on the portion of our REIT taxable income that is distributed to our stockholders as long as certain asset, income and share ownership tests are met. If after electing to be taxed as a REIT, we subsequently fail to qualify as a REIT in any taxable year, we generally will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four taxable years following the year during which qualification is lost.

Our TRSs will be subject to federal and state income taxes. Income taxes are provided for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted rates expected to apply to taxable income in the years in which management expects those temporary differences to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period in which the change occurs. Subject to our judgment, we reduce a deferred tax asset by a valuation allowance if it is "more likely than not" that the entire deferred tax asset will not be realized. Tax

laws are complex and subject to different interpretations by the taxpayer and respective governmental taxing authorities. Significant judgment is required in evaluating tax positions, and we recognize tax benefits only if it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authority.

Mortgage loans

Upon the acquisition of sub-performing and non-performing mortgage loans, we record the assets at fair value which is the purchase price we paid for the loans on the acquisition date. The sub-performing and non-performing mortgage loans are subsequently accounted for at fair value under the fair value option election with unrealized gains and losses recorded in current period earnings. We have concluded that accounting for these sub-performing and non-performing mortgage loans at fair value timely reflect the results of our investment performance.

(table of contents)

We determine the purchase price for our sub-performing and non-performing mortgage loans at the time of acquisition by using a discounted cash flow valuation model and considering alternate loan resolution probabilities including modification, liquidation or conversion to rental property. Observable inputs to the model include current interest rates, loan amounts, status of payments and property types. Unobservable inputs to the model include discount rates, forecast of future home prices, alternate loan resolution probabilities, resolution timelines and the value of underlying properties.

After our sub-performing and non-performing mortgage loans are acquired, the fair value of each loan is adjusted in each subsequent reporting period as the loan proceeds to a particular resolution (i.e., modification, or conversion to real estate owned). As a loan approaches resolution, the resolution timeline for that loan decreases and costs embedded in the discounted cash flow model for loan servicing, foreclosure costs and property insurance are incurred and removed from future expenses. The shorter resolution timelines and reduced future expenses each increase the fair value of the loan. The increase in the value of the loan is recognized in net unrealized gain on mortgage loans in our consolidated statements of operations.

We also recognize unrealized gains and losses in the fair value of the sub-performing and non-performing loans in each reporting period when our mortgage loans are transferred to real estate owned. The transfer to real estate owned occurs when we have obtained legal title to the property upon completion of the foreclosure. The fair value of these assets at the time of transfer to real estate owned is estimated using BPOs. BPOs are subject to judgments of a particular broker formed by visiting a property, assessing general home values in an area, reviewing comparable listings and reviewing comparable completed sales. These judgments may vary among brokers and may fluctuate over time based on housing market activities and the influx of additional comparable listings and sales. Our results could be materially and adversely affected if the judgments used by a broker prove to be incorrect or inaccurate.

AAMC's capital markets group determines the fair value of sub-performing and non-performing mortgage loans monthly and has developed procedures and controls governing the valuation process relating to these assets. The capital markets group reports to our Investment Committee, a committee of our Chief Executive Officer and our Chairman that oversees and approves the valuations. The capital markets group also monitors the valuation model for performance against actual results which is reported to the Investment Committee and used to continuously improve the model.

Loans held for sale

Loans held for sale, which consist of re-performing residential mortgage loans acquired from others, are recorded at the lower of cost or fair value. We do not originate loans. During 2014, Residential decided to sell certain re-performing loans and as such they were reclassified as loans held for sale from loans held for investment.

Acquired distressed re-performing residential mortgage loans that have evidence of deteriorated credit quality at the time of acquisition are accounted for in accordance with the provisions of ASC Topic 310-30, Receivables - Loans and Debt Securities Acquired with Deteriorated Credit Quality. Under ASC 310-30, acquired loans may be aggregated and accounted for as a pool of loans if the loans being aggregated have common risk characteristics. A pool is accounted for as a single asset with a single composite interest rate and an aggregate expectation of cash flows. Under ASC Topic 310-30, we estimate cash flows expected to be collected, adjusted for expected prepayments and defaults. At each balance sheet date, we evaluate the pool of loans to determine whether the present value derived using the effective interest rate has decreased and, if so, recognize a provision for loan loss. For any significant increases in cash flows expected to be collected, we adjust the amount of accretable yield recognized on a prospective basis over the pool's remaining life.

Real estate impairment

With respect to residential rental properties classified as held for use, we perform an impairment analysis using estimated cash flows if events or changes in circumstances indicate that the carrying value may be impaired, such as prolonged vacancy, identification of materially adverse legal or environmental factors, changes in expected ownership period or a decline in market value to an amount less than cost. This analysis is performed at the property level. These cash flows are estimated based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for rental properties, competition for customers, changes in market rental rates, costs to operate each property and expected ownership periods.

If the carrying amount of a held for use asset exceeds the sum of its undiscounted future operating and residual cash flows, an impairment loss is recorded for the difference between estimated fair value of the asset and the carrying amount. We generally estimate the fair value of assets held for use by using BPOs. In some instances, appraisal information may be available and is used in addition to BPOs.

(table of contents)

Residential properties, net

Upon the acquisition of real estate, generally through completion of foreclosure, we record the residential property at fair value as of the acquisition date as a component of real estate owned based on information obtained from a BPO, a full appraisal or the price given in a current contract of sale of the property. After a short evaluation period, we perform property renovations to maximize the value of the property for our rental strategy. Such expenditures are part of our initial investment in a property and, therefore, are classified as investing activities in our consolidated statement of cash flows. Subsequently, the residential property, including any renovations that improve or extend the life of the asset, is accounted for at cost. The cost basis is depreciated using the straight-line method over an estimated useful life of three to 27.5 years based on the nature of the components. Interest and other carrying costs incurred during the renovation period are capitalized until the property is ready for its intended use. Expenditures for ordinary maintenance and repairs are charged to expense as incurred.

Expenditures directly related to successful leasing efforts such as lease commissions are included in deferred leasing and financing costs, net and are stated at amortized cost. Such expenditures are part of our operations and, therefore, are classified as operating activities in our consolidated statement of cash flows. Capitalized leasing costs are amortized on a straight-line basis over the lease term of the respective leases which generally are from one to two years.

Residential properties are classified either as held for use or held for sale. Residential properties are classified as real estate and related assets held for sale when sale of the assets has been formally approved and is expected to occur in the next twelve months. We record residential properties held for sale at the lower of the carrying amount or estimated fair value less costs to sell. The impairment loss is the amount by which the carrying amount exceeds the estimated fair value less costs to sell.

Rental revenues

Minimum contractual rents from leases are recognized on a straight-line basis over the terms of the leases in rental revenues. Therefore, actual amounts billed in accordance with the lease during any given period may be higher or lower than the amount of rental revenue recognized for the period. Straight-line rental revenue commences when the customer takes control of the leased premises. Deferred rents receivable, net represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with lease agreements. Contingent rental revenue is accrued when the contingency is removed. Termination fee income is recognized when the customer has vacated the rental property, the amount of the fee is determinable and collectability is reasonably assured.

Rents receivable, net and deferred rents receivable, net are reduced by an allowance for amounts that become uncollectible. We regularly evaluate the adequacy of our allowance for doubtful accounts. The evaluation takes into consideration the aging of accounts receivable, our analysis of customer personal profile and review of past due account balances. Rents receivable, net and deferred rents receivable, net are written-off when we have deemed that the amounts are uncollectible.

(table of contents)

Non-GAAP measures - Estimated REIT taxable income

Estimated REIT taxable income is a measure that we use in connection with monitoring our compliance with certain REIT requirements. Estimated REIT taxable income should not be considered as an alternative to net income or net income per share as indicators of our operating performance.

The following table is a reconciliation of U.S. GAAP net income to estimated REIT taxable income (\$ in thousands):

	U.S. GAAP Year ended December 31, 2014	Adjustments ⁽¹⁾ Year ended December 31, 2014	Tax Year ended December 31, 2014
Revenues:			
Rental revenues	\$1,564	\$—	\$1,564
Net unrealized gain on mortgage loans	350,822	(135,576)) 215,246
Net realized gains	68,019	(25,473)) 42,546
Interest income, advance recoveries and other	2,893	12,858	15,751
Total revenues	423,298	(148,191)) 275,107
Expenses:			
Residential property operating expenses including depreciation	27,085	(4,762)) 22,323
Mortgage loan servicing costs	68,181	(49,384)) 18,797
General, administrative and other	139,134	(20,910)) 118,224
Total expenses	234,400	(75,056)) 159,344
Estimated income before income taxes	\$188,898	\$(73,135)) \$115,763

(1) Adjustments between GAAP earnings and estimated taxable REIT income primarily represent temporary timing differences in the recognition of revenue and expense items, as provided above.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. The primary market risks that we are currently exposed to are real estate risk and interest rate risk. A substantial portion of our investments are, and we expect will continue to be, comprised of non-performing loans and rental properties. The primary driver of the value of both these asset classes is the fair value of the underlying real estate.

Real Estate Risk

Residential property values are subject to volatility and may be affected adversely by a number of factors, including, but not limited to: national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions (such as an oversupply of housing); construction quality, age and design; demographic factors; and retroactive changes to building or similar codes. Decreases in property values could cause us to suffer losses.

Interest Rate Risk

We will be exposed to interest rate risk from our (a) acquisition and ownership of residential mortgage loans and (b) debt financing activities. Interest rate risk is highly sensitive to many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors beyond our control. Changes in interest rates may affect the fair value of the residential mortgage loans and real estate underlying our portfolios as well as our financing interest rate expense.

We currently do not intend to hedge the risk associated with the residential mortgage loans and real estate underlying our portfolios. However, although we have not yet done so, we may undertake risk mitigation activities with respect to our debt financing interest rate obligations. We expect that our debt financing will at times be based on a floating rate of interest calculated on a fixed spread over the relevant index, as determined by the particular financing arrangement. A significantly rising interest rate environment could have an adverse effect on the cost of our financing. To mitigate this risk, we may use

(table of contents)

derivative financial instruments such as interest rate swaps and interest rate options in an effort to reduce the variability of earnings caused by changes in the interest rates we pay on our debt.

These derivative transactions will be entered into solely for risk management purposes, not for investment purposes. When undertaken, these derivative instruments likely will expose us to certain risks such as price and interest rate fluctuations, timing risk, volatility risk, credit risk, counterparty risk and changes in the liquidity of markets. Therefore, although we expect to transact in these derivative instruments purely for risk management, they may not adequately protect us from fluctuations in our financing interest rate obligations.

We currently borrow funds on our repurchase facilities at variable rates using secured financings. At December 31, 2014, we had \$1.0 billion of variable rate debt outstanding not protected by interest rate hedge contracts. The estimated aggregate fair market value of this debt was \$1.0 billion. If the weighted average interest rate on this variable rate debt had been 100 basis points higher or lower, the annual interest expense would increase or decrease by \$10.2 million, respectively.

Item 8. Consolidated Financial Statements and Supplementary Data

See index to consolidated financial statements.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation required by the 1934 Act, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) of the 1934 Act, as of December 31, 2014. Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of December 31, 2014, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the 1934 Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and to provide reasonable assurance that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosures.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) of the 1934 Act. Management has assessed the effectiveness of our internal control over financial reporting as of December 31, 2014 based on criteria established in Internal Control-Integrated Framework issued in 2013 by the Committee of Sponsoring Organizations of the Treadway Commission. As a result of this assessment, management concluded that, as of December 31, 2014, our internal control over financial reporting was effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that 1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the issuer; 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally

accepted accounting principles, and that receipts and expenditures of the issuer are being made only in accordance with authorizations of management and directors of the issuer; and 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the issuer's assets that could have a material effect on the financial statements.

The effectiveness of our internal control over financial reporting as of December 31, 2014 has been audited by Deloitte & Touche LLP, an independent registered certified public accounting firm, as stated in their report that appears herein.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Altisource Residential Corporation:

We have audited the internal control over financial reporting of Altisource Residential Corporation and subsidiaries (the "Company") as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2014 of the Company and our report dated March 2, 2015 expressed an unqualified opinion on those consolidated financial statements and financial statement schedules and included an explanatory paragraph related to the significant related party transactions with Altisource Asset Management Corporation, Altisource Portfolio Solutions S.A., and Ocwen Financial Corporation and the potential implications to the Company should the related parties be unable to perform under their respective agreements or in the event that these arrangements are terminated.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended December 31, 2014 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Controls

Our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives as specified above. Management does not expect, however, that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

Item 9B. Other Information

None.

Part III

We will file a definitive Proxy Statement for our 2015 Annual Meeting of Stockholders, which we refer to as the “2015 Proxy Statement,” with the Securities and Exchange Commission, pursuant to Regulation 14A, not later than 120 days after December 31, 2014. Accordingly, certain information required by Part III has been omitted under General Instruction G(3) to Form 10-K. Only those sections of the 2015 Proxy Statement that specifically address the items set forth herein are incorporated by reference.

Item 10. Directors, Executive Officers and Corporate Governance

The information required by Item 10 is hereby incorporated by reference from our 2015 Proxy Statement under the captions “Election of Directors,” “Section 16(a) Beneficial Ownership Reporting Compliance” and “Code of Ethics.”

Item 11. Executive Compensation

The information required by Item 11 is hereby incorporated by reference from our 2015 Proxy Statement under the captions “Executive Compensation” and “Director Compensation.”

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by Item 12 is hereby incorporated by reference from our 2015 Proxy Statement under the caption “Security Ownership of Certain Beneficial Owners and Management.”

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by Item 13 is hereby incorporated by reference from our 2015 Proxy Statement under the captions “Transactions with Related Persons” and “Information Regarding the Board of Directors and Corporate Governance.”

Item 14. Principal Accountant Fees and Services

The information required by Item 14 is hereby incorporated by reference from our 2015 Proxy Statement under the captions “Independent Registered Public Accounting Firm Fees” and “Pre-Approval Policy and Procedures.”

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Altisource Residential Corporation:

We have audited the accompanying consolidated balance sheets of Altisource Residential Corporation and subsidiaries (the "Company") as of December 31, 2014 and 2013, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years ended December 31, 2014 and December 31, 2013 and for the period from June 7, 2012 (date of inception) to December 31, 2012. Our audits also included the financial statement schedules listed in the Index at Item 15. These financial statements and financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Altisource Residential Corporation and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for the years ended December 31, 2014 and December 31, 2013 and for the period from June 7, 2012 (date of inception) to December 31, 2012, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects the information set forth therein.

As discussed in Notes 1 and 9 of the consolidated financial statements, the Company has significant related party transactions with Altisource Asset Management Corporation, Altisource Portfolio Solutions, and Ocwen Financial Corporation. Note 9 also discusses the potential implications to the Company should the related parties be unable to perform under their respective agreements or in the event that these arrangements are terminated.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 2, 2014 expressed an unqualified opinion on the Company's internal control over financial reporting.

Altisource Residential Corporation
Notes to Consolidated Financial Statements
December 31, 2014

1. Organization and basis of presentation

Altisource Residential Corporation is a Maryland REIT focused on acquiring, owning and managing single-family rental properties throughout the United States. We acquire our rental properties primarily through the acquisition of sub-performing and non-performing mortgage loan portfolios, which is a differentiated approach that we believe strategically positions us to take advantage of market opportunities better than market participants that are solely focused on real estate-owned (“REO”) acquisitions. We conduct substantially all of our activities through our wholly owned subsidiary Altisource Residential, L.P.

On December 21, 2012 we became a stand-alone publicly traded company with an initial capital contribution of \$100 million. We have a long-term service agreement with Altisource, a leading provider of real estate and mortgage portfolio management, asset recovery and customer relationship management services. We also have servicing agreements with three separate servicers.

We are managed by Altisource Asset Management Corporation (“AAMC”). We rely on AAMC for administering our business and performing certain of our corporate governance functions. AAMC also provides portfolio management services in connection with our acquisition and management of sub-performing and non-performing loans and REO properties. AAMC was formed on March 15, 2012 as a wholly owned subsidiary of Altisource and was spun off from Altisource into a stand-alone publicly traded company concurrently with our separation from Altisource.

Since we commenced operations, we have completed three public equity offerings with aggregate net proceeds of approximately \$1.1 billion. On March 22, 2013, September 12, 2013 and September 23, 2013, we entered into three separate repurchase agreements to finance the acquisition and ownership of residential mortgage loans and REO properties. The maximum aggregate funding available under these repurchase agreements initially was \$425.0 million. We subsequently increased the aggregate funding capacity under each repurchase agreement as follows:

Credit Suisse (“CS”) is the lender on the repurchase agreement entered into on March 22, 2013, (the “CS repurchase agreement”). The CS Repurchase Agreement was amended on April 21, 2014 to initially increase the aggregate maximum borrowing capacity from \$100.0 million to \$200.0 million. The maturity date of the CS repurchase agreement was also extended to April 20, 2015, subject to an additional one-year extension with the approval of the lender. On June 11, 2014, we further amended the CS repurchase agreement to increase the aggregate maximum borrowing capacity from \$200.0 million to \$375.0 million, subject to certain sublimits, for the period from June 11, 2014 through October 11, 2014. In October 2014, we further extended the temporary increase with CS in order to enable us to complete a securitization of the non-performing mortgage loans comprising the increased capacity. . . Following the securitization of these loans, on December 23, 2014, we further amended the CS repurchase agreement and entered into a securities repurchase agreement with Credit Suisse to obtain additional financing on the bonds issued by us in our securitizations. This December 2014 amendment increased our aggregate maximum borrowing capacity under the CS repurchase agreement to \$225.0 million. We are in discussions with CS to renew the repurchase agreement. No assurance can be provided that we will be able to renew this facility on reasonable terms, on a timely basis or at all.

Deutsche Bank (“DB”) is the lender on the repurchase agreement dated September 12, 2013 (the “DB repurchase agreement”). The DB repurchase agreement was amended on December 18, 2013, has an aggregate funding capacity of \$250.0 million and matures on March 11, 2016. The DB repurchase agreement includes a provision that, beginning in the nineteenth month, we will not be able to finance mortgage loans in excess of amounts outstanding under the

facility at the end of the eighteenth month.

Wells Fargo (“Wells”) is the lender under the repurchase agreement dated September 23, 2013 (the “Wells repurchase agreement”). The Wells repurchase agreement was amended it on December 23, 2013 to initially increase the aggregate maximum borrowing capacity from \$200.0 million to \$400.0 million. On June 25, 2014, we further amended the Wells repurchase agreement to increase the aggregate maximum borrowing capacity from \$400.0 million to \$1.0 billion, subject to certain sublimits. On December 31, 2014, we further amended the Wells repurchase agreement to reduce the aggregate maximum borrowing capacity from \$1.0 billion to \$750.0 million to reflect the securitization of a significant portion of our non-performing loans that previously had been financed under the Wells repurchase agreement. The maturity date of the Wells repurchase agreement was March 23, 2015. However, on

F-8

(table of contents)

February 20, 2015, we exercised our option to extend the termination date of this facility to March 23, 2016. We are in discussions with Wells to further extend the repurchase agreement with an ability to obtain additional funding. No assurance can be provided that we will be able to renew this facility on reasonable terms, on a timely basis or at all. In the event we cannot renew the agreement, the advance rate will be reduced by 10% after the first 90 days of the extension term and we will not be entitled to draw additional funds under the facility.

Following all of the amendments described above, the maximum aggregate funding available to us under these repurchase agreements as of December 31, 2014 was \$1.2 billion, subject to certain sublimits, eligibility requirements and conditions precedent to each funding. As of December 31, 2014, an aggregate of \$1.0 billion was outstanding under our repurchase agreements. All obligations under each of these repurchase agreements are fully guaranteed by us.

On November 25, 2014, we completed a securitization transaction in which ARLP Securitization Trust, Series 2014-2 ("ARLP 2014-2") issued \$270.8 million in Class A Notes (the "Class A Notes") with a weighted yield of approximately 3.85% and \$234.0 million in Class M Notes (the "Class M Notes"). No interest will be paid on any Class M Notes while any Class A Notes remain outstanding. We retained \$95.8 million of the Class A Notes and all of the Class M Notes in our taxable REIT subsidiary ("TRS"). The Class A Notes and Class M Notes are secured solely by the non-performing mortgage loans and REO properties of ARLP 2014-2 and not by any of our other assets. The assets of ARLP 2014-2 are the only source of repayment and interest on the Class A Notes and the Class M Notes. The Class A Notes and the Class M Notes mature on January 26, 2054, and we do not guaranty any of the obligations of ARLP 2014-2 under the terms of the Indenture governing the notes or otherwise. As of December 31, 2014, the book value of the underlying securitized assets held by ARLP 2014-2 was \$333.0 million.

On September 25, 2014, we completed a securitization transaction in which ARLP Securitization Trust, Series 2014-1 ("ARLP 2014-1") issued \$150.0 million in Class A Notes (the "Class A Notes") with a weighted yield of approximately 3.47% and \$32.0 million in Class M Notes (the "Class M Notes") with a weighted yield of 4.25%. The Class A Notes and the Class M Notes are secured solely by the non-performing mortgage loans and REO properties of ARLP 2014-1 and not by any of our other assets. The assets of ARLP 2014-1 are the only source of repayment and interest on the Class A Notes and the Class M Notes. The Class A Notes and the Class M Notes mature on September 25, 2044, and we do not guaranty any of the obligations of ARLP 2014-1 under the terms of the Indenture governing the notes or otherwise. As of December 31, 2014, the book value of the underlying securitized assets held by ARLP 2014-1 was \$212.7 million.

We retained all of the Class M Notes issued by ARLP 2014-1 in our TRS. On September 30, 2014, pursuant to a master repurchase agreement, the TRS sold \$15.0 million of the Class M Notes to NewSource Reinsurance Company Ltd, ("NewSource"), an entity in which we own 100% of the outstanding preferred stock and in which AAMC owns 100% of the outstanding common stock, for a purchase price of \$15.0 million. The master repurchase agreement required the TRS to repurchase the Class M Notes from NewSource at a 5.0% yield on December 28, 2014, subject to the parties' option to extend the master repurchase agreement for an additional 89 day period. On December 26, 2014, the parties agreed to extend the agreement to March 27, 2015. In no event can the master repurchase agreement be extended beyond September 29, 2015.

We ceased to be a development stage enterprise in the second quarter of 2013.

Basis of presentation and use of estimates

The accompanying audited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States which we refer to as "U.S. GAAP." All wholly owned subsidiaries are included and all intercompany accounts and transactions have been eliminated. The preparation of consolidated

financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ materially from those estimates.

F-9

(table of contents)

Recently issued accounting standards

In January 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-04, Troubled Debt Restructurings by Creditors. It provides that a repossession or foreclosure has occurred, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, the amendment requires disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in mortgage loans collateralized by residential real estate property that are in the process of foreclosure. The amended guidance may be applied using either a prospective transition method or a modified retrospective transition method and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2014, with early adoption permitted. We do not expect this amendment to have a significant effect on our financial position or results of operations.

In May 2014, the FASB issued ASU 2014-09 Revenue from Contracts with Customers. ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 may be applied using either a full retrospective or a modified retrospective approach and is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016, and early adoption is not permitted. We do not expect this amendment to have a significant effect on our financial position or results of operations.

2. Summary of significant accounting policies

Cash equivalents

We consider highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Comprehensive income

Because comprehensive income (loss) equals net income (loss), separate statements of comprehensive income (loss) are not presented as part of our consolidated financial statements.

Concentration of credit risk

We maintain our cash and cash equivalents at banking institutions. Certain account balances exceed FDIC insurance coverage and, as a result, there is a concentration of credit risk related to amounts on deposit in excess of FDIC insurance coverage.

Earnings per share

Basic earnings per share is computed by dividing net income (loss) by the weighted average common stock outstanding during the period. Diluted earnings per share is computed by dividing net income (loss) by the weighted average common stock outstanding for the period plus the dilutive effect of stock options and restricted stock outstanding using the treasury stock method and if converted method, respectively.

Expense reimbursement and incentive management fee

Our asset manager's primary business is asset management. In its role as our asset manager, AAMC incurs indirect costs (e.g. payroll and overhead) related to managing our business which are contractually reimbursable by us. AAMC allocates indirect costs to us as incurred by estimating the percentage of time spent for our benefit.

The incentive management fee we pay to our Manager is based on the quarterly cash available for distribution to our stockholders. Pursuant to our asset management agreement, our Manager's incentive management fee structure entitles it to receive a share of our cash flow available for distribution to our stockholders. If we do not generate taxable income that is distributable to our stockholders, then we will not be required to pay incentive management fees.

F-10

(table of contents)

Fair value of financial instruments

We designate fair value measurements into three levels based on the lowest level of substantive input used to make the fair value measurement. Those levels are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Income taxes

We believe that we have complied and will continue to comply with the provisions of the federal income tax code applicable to REITs beginning for the year ended December 31, 2013 and elected REIT status upon filing of our 2013 income tax return. Accordingly, we believe that we will not be subject to federal income tax beginning in the year ended December 31, 2013 and going forward on the portion of our REIT taxable income that is distributed to our shareholders as long as certain asset, income and share ownership tests are met. If after electing to be taxed as a REIT, we subsequently fail to qualify as a REIT in any taxable year, we generally will not be permitted to qualify for treatment as a REIT for federal income tax purposes for the four taxable years following the year during which qualification is lost.

Our TRSs will be subject to federal and state income taxes. Income taxes are provided for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted rates expected to apply to taxable income in the years in which management expects those temporary differences to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period in which the change occurs. Subject to our judgment, we reduce a deferred tax asset by a valuation allowance if it is "more likely than not" that some or all of the deferred tax asset will not be realized. Tax laws are complex and subject to different interpretations by the taxpayer and respective governmental taxing authorities. Significant judgment is required in evaluating tax positions, and we recognize tax benefits only if it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authority.

Mortgage loans

Upon the acquisition of mortgage loans, we record the assets at fair value which is the purchase price we paid for the loans on the acquisition date. Mortgage loans are subsequently accounted for at fair value under the fair value option election with unrealized gains and losses recorded in current period earnings. We have concluded that mortgage loans accounted for at fair value timely reflect the results of our investment performance.

We determine the purchase price for mortgage loans at the time of acquisition by using a discounted cash flow valuation model and considering alternate loan resolution probabilities including modification, liquidation or conversion to rental property. Observable inputs to the model include current interest rates, loan amounts, status of payments and property types. Unobservable inputs to the model include discount rates, forecast of future home prices, alternate loan resolution probabilities, resolution timelines and the value of underlying properties.

After mortgage loans are acquired, the fair value of each loan is adjusted in each subsequent reporting period as the loan proceeds to a particular resolution (i.e., modification, or conversion to real estate owned). As a loan approaches resolution, the resolution timeline for that loan decreases and costs embedded in the discounted cash flow model for loan servicing, foreclosure costs and property insurance are incurred and removed from future expenses. The shorter resolution timelines and reduced future expenses each increase the fair value of the loan. The increase in the value of the loan is recognized in net unrealized gain on mortgage loans in our consolidated statements of operations.

We also recognize unrealized gains and losses in the fair value of the loans in each reporting period when our mortgage loans are transferred to real estate owned. The transfer to real estate owned occurs when we have obtained title to the property through completion of the foreclosure process. The fair value of these assets at the time of transfer to real estate owned is estimated using BPOs.

(table of contents)

AAMC's capital markets group determines the fair value of mortgage loans monthly and has developed procedures and controls governing the valuation process relating to these assets. The capital markets group reports to our Investment Committee, a committee of our Chief Executive Officer and our Chairman that oversees and approves the valuations. The capital markets group also monitors the valuation model for performance against actual results which is reported to the Investment Committee and used to continuously improve the model.

Loans held for sale

Loans held for sale, which consist of re-performing residential mortgage loans acquired from others, are recorded at the lower of cost or fair value. We do not originate loans. During 2014, management decided to sell certain re-performing loans and as such they were reclassified as loans held for sale from loans held for investment.

Real estate impairment

With respect to residential rental properties classified as held for use, we perform an impairment analysis using estimated cash flows if events or changes in circumstances indicate that the carrying value may be impaired, such as prolonged vacancy, identification of materially adverse legal or environmental factors, changes in expected ownership period or a decline in market value to an amount less than cost. This analysis is performed at the property level. These cash flows are estimated based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for rental properties, competition for customers, changes in market rental rates, costs to operate each property and expected ownership periods.

If the carrying amount of a held for use asset exceeds the sum of its undiscounted future operating and residual cash flows, an impairment loss is recorded for the difference between estimated fair value of the asset and the carrying amount. We generally estimate the fair value of assets held for use by using BPOs. In some instances, appraisal information may be available and is used in addition to BPOs.

Residential properties

Upon the acquisition of real estate, generally through the completion of foreclosure, we record the residential property at fair value as of the acquisition date as a component of real estate owned based on information obtained from a broker's price opinion, a full appraisal or the price given in a current contract of sale of the property. After a short evaluation period, we perform property renovations to maximize the value of the property for our rental strategy. Such expenditures are part of our initial investment in a property and, therefore, are classified as investing activities in our consolidated statement of cash flows. Subsequently, the residential property, including any renovations that improve or extend the life of the asset, are accounted for at cost. The cost basis is depreciated using the straight-line method over an estimated useful life of three to 27.5 years based on the nature of the components. Interest and other carrying costs incurred during the renovation period are capitalized until the property is ready for its intended use. Expenditures for ordinary maintenance and repairs are charged to expense as incurred.

Expenditures directly related to successful leasing efforts such as lease commissions are included in deferred leasing and financing costs, net and are stated at amortized cost. Such expenditures are part of our operations and, therefore, are classified as operating activities in our consolidated statement of cash flows. Capitalized leasing costs are amortized on a straight-line basis over the lease term of the respective leases which generally are from one to 2 years.

Residential properties are classified either as held for use or held for sale. Residential properties are classified as real estate and related assets held for sale when sale of the assets has been formally approved and is expected to occur in the next twelve months. We record residential properties held for sale at the lower of the carrying amount or estimated fair value less costs to sell. The impairment loss is the amount by which the carrying amount exceeds the estimated

fair value less costs to sell.

Residential rental revenues

Minimum contractual rents from leases are recognized on a straight-line basis over the terms of the leases in residential rental revenues. Therefore, actual amounts billed in accordance with the lease during any given period may be higher or lower than the amount of rental revenue recognized for the period. Straight-line rental revenue commences when the customer takes control of the leased premises. Deferred rents receivable, net represents the amount by which straight-line rental revenue exceeds rents currently billed in accordance with lease agreements. Contingent rental revenue is accrued when the contingency is removed. Termination fee income is recognized when the customer has vacated the rental property, the amount of the fee is determinable and collectability is reasonably assured.

F-12

(table of contents)

Rents receivable, net and deferred rents receivable, net are reduced by an allowance for amounts that become uncollectible. We regularly evaluate the adequacy of our allowance for doubtful accounts. The evaluation takes into consideration the aging of accounts receivable and our analysis of customer personal profile and review past due account balances. Rents receivable, net and deferred rents receivable, net are written-off when we have deemed that the amounts are uncollectible.

Restricted cash

Restricted cash represents cash deposits that are legally restricted or held by third parties on our behalf, such as escrows and reserves for debt service established pursuant to certain of our repurchase agreements.

Unconsolidated affiliates

We account for our investment in NewSource using the cost method because we do not exercise significant influence over NewSource. As a result, we recognize preferred dividend income from this investment when received.

3. Mortgage loans

During the year ended December 31, 2014, Residential acquired an aggregate of 8,441 mortgage loans and REO properties, consisting of the following:

Acquisitions of non-performing residential mortgage loans

During the year ended December 31, 2014, we acquired an aggregate of 7,326 residential mortgage loans, substantially all of which were non-performing, and 237 REO properties having an aggregate UPB of approximately \$1.9 billion and an aggregate market value of underlying properties of \$1.8 billion. The aggregate purchase price for these acquisitions was \$1.2 billion.

Acquisition of re-performing residential mortgage loans

On June 27, 2014, we acquired 879 re-performing mortgage loans with an aggregate market value of underlying properties of \$271.1 million for an aggregate purchase price of \$144.6 million. Under ASC 310-30, acquired loans may be aggregated and accounted for as a pool of loans if the loans being aggregated have common risk characteristics. A pool is accounted for as a single asset with a single composite interest rate and an aggregate expectation of cash flows. These 879 re-performing residential mortgage loans were determined to have common risk characteristics and have been accounted for as a single loan pool. Under ASC 310-30, we estimate cash flows expected to be collected, adjusted for expected prepayments and defaults expected to be incurred over the life of the loan pool. We determine the excess of the loan pool's contractually required principal and interest payments over the expected cash flows as an amount that should not be accreted, the nonaccretable yield. The difference between expected cash flows and the present value of the expected cash flows is referred to as the accretable yield, which represents the amount that is expected to be recorded as interest income over the remaining life of the loan pool. For the year ended December 31, 2014, we recognized no provision for loan loss and no adjustments to the amount of the accretable yield. For the year ended December 31, 2014, we accreted \$2.6 million into interest income with respect to our re-performing loans. As of December 31, 2014, these re-performing loans, having a UPB of \$18.4 million and a carrying value of \$12.5 million, were held for sale. During October 2014, we sold an aggregate of 934 re-performing loans to an unrelated third party for an aggregate purchase price of \$164 million.

Edgar Filing: Altisource Residential Corp - Form 10-K

The following tables present information regarding the estimates of the contractually required payments and the cash flows expected to be collected as of the date of the acquisition and changes in the balance of the accretable yield (\$ in thousands):

Contractually required principal and interest	\$ 325,000	
Non-accretable yield	(96,263)
Expected cash flows to be collected	228,737	
Accretable yield	(84,728)
Fair value at the date of acquisition	\$ 144,009	

F-13

(table of contents)

Accretable Yield	Year ended December 31, 2014
Balance at the beginning of the period	\$84,728
Loans sold	(74,478)
Accretion	(2,610)
Balance at the end of the period	\$7,640

Since the commencement of our operations, we have engaged in the acquisition of the following portfolios of non-performing and re-performing residential mortgage loans:

Portfolios We Agreed to Acquire				Acquisitions Completed in 2014		Acquisitions Completed in 2013	
Date of agreement in principle	Number of loans	Fair value of underlying property (in millions)	Date acquisition closed	Number of loans acquired	Fair value of underlying property (in millions)	Number of loans acquired	Fair value of underlying property (in millions)

(1) Includes one REO.

(2) Includes five REOs.

(3) Includes 34 REOs.

(4) Includes 190 REOs.

(5) Includes 46 REOs.

(6) This acquisition consisted of a portfolio of re-performing loans.

During the year ended December 31, 2014, we recognized \$3.1 million for due diligence costs related to these and other transactions in both general and administrative expense and related party general and administrative expense. During the year ended December 31, 2013, we expensed \$3.5 million for due diligence costs.

Generally, we expect that our residential mortgage loan portfolio may grow at an uneven pace, as opportunities to acquire distressed residential mortgage loans may be irregularly timed and may involve large portfolios of loans, and the timing and extent of our success in acquiring such loans cannot be predicted. In addition, for any given portfolio of loans that we agree to acquire, we typically acquire fewer loans than originally expected, as certain loans may be resolved prior to the closing date or may fail to meet our diligence standards. The number of unacquired loans typically constitutes a relatively small portion of a

F-14

(table of contents)

particular portfolio. In some cases, the number of loans we do not acquire could be significant. In any case where we do not acquire the full portfolio, appropriate adjustments are made to the applicable purchase price.

Throughout this report, all unpaid principal balance and market value amounts for the portfolios we have acquired are provided as of “cut-off date” for each transaction unless otherwise indicated. The “cut-off date” for each acquisition is a date shortly before the closing used to identify the final loans being purchased and the related unpaid principal balance, market value of underlying properties and other characteristics of the loans.

Transfer of mortgage loans to real estate owned

During the year ended December 31, 2014 and 2013, we transferred an aggregate of 3,682 and 226 mortgage loans, respectively, to REO at an aggregate fair value based on broker price opinions ("BPOs"), of \$587.3 million and \$31.0 million, respectively. Such transfers occur when the foreclosure sale is complete. In connection with these transfers to REO, we recorded \$124.9 million and \$8.3 million, respectively, in net unrealized gains on mortgage loans.

Dispositions

During the year ended December 31, 2014 and 2013, we disposed of 735 and 211 mortgage loans, respectively, primarily through short sales, refinancing and foreclosure sales. In connection with these dispositions, we recorded \$55.8 million and \$10.5 million, respectively, of net realized gains on mortgage loans. During October 2014, we sold 934 re-performing loans to an unrelated third party and recognized a gain of \$2.8 million. The sale included 770 loans from the re-performing mortgage loans held for sale, purchased in the second quarter of 2014, and 164 loans that have transitioned to re-performing status from prior non-performing loan acquisitions that have a clean pay history of at least six months.

4. Real estate assets, net

Acquisitions

During the year ended December 31, 2014, we acquired 237 REO properties as part of our portfolio acquisitions. During the year ended December 31, 2013, we acquired 40 REO properties. The aggregate purchase price attributable to these acquired REO properties was \$34.1 million for the year ended December 31, 2014 and was \$6.2 million for the year ended December 31, 2013.

Real estate held for use

As of December 31, 2014, we had 3,349 REO properties held for use. Of these properties, 336 had been rented, 197 were being listed for rent and 254 were in varying stages of renovation. We generally rent our REO properties under non-cancelable leases with a term of one year. Future minimum rental revenues under leases existing for the 336 properties that were rented as of December 31, 2014 are approximately \$3.6 million for 2015 and approximately \$0.6 million for 2016. With respect to the remaining 2,562 REO properties, we will make a final determination whether each property meets our rental profile after (a) applicable state redemption periods have expired, (b) the foreclosure sale has been ratified, (c) we have recorded the deed for the property, (d) utilities have been activated and (e) we have secured access for interior inspection. A majority of the REO properties are subject to state regulations which require us to await the expiration of a redemption period before a foreclosure can be finalized. We include these redemption periods in our portfolio pricing which generally reduces the price we pay for the mortgage loans. Once the redemption period expires, we immediately proceed to record the new deed, take possession of the property, activate utilities, and start the inspection process in order to make our final determination. As of December 31, 2013, we had 246 REO properties held for use. Of these properties, 14 had been rented, 11 were being listed for rent and 18 were in various

stages of renovation. With respect to the remaining 203 REO properties, we were in the process of determining whether these properties would meet our rental profile. If a REO property meets our rental profile, we determine the extent of renovations that are needed to generate an optimal rent and maintain consistency of renovation specifications for future branding. If we determine that the REO property will not meet our rental profile, we list the property for sale, in certain instances after renovations are made to optimize the sale proceeds.

F-15

(table of contents)

Real estate held for sale

As of December 31, 2014, we classified 611 REO properties having an aggregate carrying value of \$92.2 million as real estate held for sale as they do not meet our residential rental property investment criteria. As of December 31, 2013, we had 16 REO properties having an aggregate carrying value of \$1.2 million held for sale. None of these REO properties have any operations; therefore, we are not presenting discontinued operations related to these properties.

Dispositions

During the year ended December 31, 2014, we disposed of 221 residential properties and recorded \$9.5 million of net realized gains on real estate. We disposed of four residential properties during the year ended December 31, 2013. There were no significant gains or losses on the dispositions in 2013.

5. Unconsolidated affiliates

On October 17, 2013, we invested \$18.0 million in the non-voting preferred stock of NewSource, a title insurance and reinsurance company in Bermuda. We are eligible to receive a 12% annual non-cumulative preferred dividend on our investment. We account for our investment in NewSource using the cost method because we do not exercise significant influence over NewSource. As a result, we recognize preferred dividend income from this investment when received. We received preferred dividends of \$2.2 million in 2014.

6. Fair value of financial instruments

The following table sets forth the fair value of financial assets and liabilities by level within the fair value hierarchy as of December 31, 2014 and December 31, 2013 (\$ in thousands):

	Level 1 Quoted prices in active markets	Level 2 Observable inputs other than Level 1 prices	Level 3 Unobservable inputs
December 31, 2014			
Recurring basis (assets)

-------------------------------------	-----	-----------	-----

F-16

(table of contents)

We have not transferred any assets from one level to another level during the year ended December 31, 2014 or 2013.

The carrying values of our cash and cash equivalents, restricted cash, related party receivables, accounts payable and accrued liabilities, related party payables and investment in NewSource are equal to or approximate fair value. The fair value of mortgage loans is estimated using our asset manager's proprietary pricing model. The fair value of transfers of mortgage loans to real estate owned is estimated using BPOs. The fair value of re-performing mortgage loans held for sale is estimated using the present value of the future estimated principal and interest payments of the loan, with the discount rate used in the present value calculation representing the estimated effective yield of the loan. The fair value of the repurchase agreements is estimated using the income approach based on credit spreads available to us currently in the market for similar floating rate debt. The fair value of other secured borrowings is estimated using observable market data.

The following table sets forth the changes in our level 3 assets that are measured at fair value on a recurring basis (\$ in thousands):

	Year ended December 31, 2014	Year ended December 31, 2013
Mortgage loans		
Beginning balance	\$1,207,163	\$—
Investment in mortgage loans	1,122,408	1,213,811
Net unrealized gain on mortgage loans	350,822	61,092
Net realized gain on mortgage loans	55,766	10,482
Mortgage loan dispositions and payments	(235,743) (53,680
Real estate tax advances to borrowers	36,842	6,472
Reclassification of realized gains on real estate sold from unrealized gains	9,054	—
Transfer of real estate owned to mortgage loans	8,400	—
Transfer of mortgage loans to real estate owned	(595,668) (31,014
Ending balance at December 31	\$1,959,044	\$1,207,163
Net unrealized gain on mortgage loans held at the end of the period	\$222,034	\$61,092

There was no corresponding activity for level 3 assets for the year ended December 31, 2012 because we did not own any such assets at that time.

The following table sets forth the fair value of our non-performing mortgage loans, the related unpaid principal balance and market value of underlying properties by delinquency status as of December 31, 2014 and December 31, 2013 (\$ in thousands):

	Number of loans	Carrying value	Unpaid principal balance	Market value of underlying properties
December 31, 2014				
Current	670	\$107,467	\$159,731	\$160,654
30	109	15,424	22,629	24,046
60	57	7,921	11,624	12,510
90	2,286	361,434	569,930	544,709
Foreclosure	7,841	1,466,798	2,172,047	1,951,606
Mortgage loans	10,963	\$1,959,044	\$2,935,961	\$2,693,525
December 31, 2013				
Current	238	\$31,649	\$60,051	\$52,506

Edgar Filing: Altisource Residential Corp - Form 10-K

30	26	2,087	4,492	3,763
60	23	3,376	5,683	4,738
90	1,555	245,024	419,836	355,451
Foreclosure	6,212	925,027	1,609,546	1,310,439
Mortgage loans	8,054	\$1,207,163	\$2,099,608	\$1,726,897

The following table sets forth the carrying value of our re-performing mortgage loans held for sale, the related unpaid principal balance and market value of underlying properties by delinquency status as of December 31, 2014.

F-17

(table of contents)

	Number of loans	Carrying value	Unpaid principal balance	Market value of underlying properties
December 31, 2014				
Current	68	\$8,317	\$11,938	\$15,154
30	6	1,118	1,667	2,004
60	4	359	644	670
90	24	2,741	4,149	4,624
Mortgage loans held for sale	102	\$12,535	\$18,398	\$22,452

The significant unobservable inputs used in the fair value measurement of our mortgage loans are discount rates, forecasts of future home prices, alternate loan resolution probabilities, resolution timelines and the value of underlying properties. Significant changes in any of these inputs in isolation could result in a significant change to the fair value measurement. A decline in the discount rate in isolation would increase the fair value. A decrease in the housing pricing index in isolation would decrease the fair value. Individual loan characteristics such as location and value of underlying collateral affect the loan resolution probabilities and timelines. An increase in the loan resolution timeline in isolation would decrease the fair value. A decrease in the value of underlying properties in isolation would decrease the fair value. The following table sets forth quantitative information about the significant unobservable inputs used to measure the fair value of our mortgage loans as of December 31, 2014 and December 31, 2013:

Input	December 31, 2014	December 31, 2013
Equity discount rate	15.0%	15.0%
Debt to asset ratio	65.0%	55.0%
Cost of funds	3.5% over 1 month LIBOR	3.5% over 1 month LIBOR
Annual change in home pricing index	-0.1% to 7.6%	-0.3% to 7.6%
Loan resolution probabilities — modification	0% to 44.7%	0% to 22.3%
Loan resolution probabilities — rental	0% to 100.0%	0% to 100.0%
Loan resolution probabilities — liquidation	0% to 100.0%	0% to 100.0%
Loan resolution timelines (in years)	0.1 to 5.3	0.1 - 5.8
Value of underlying properties	\$3,000 - \$5,300,000	\$3,000 - \$3,550,000

7. Borrowings

Repurchase Agreements

Our operating partnership and certain of its Delaware Statutory Trust subsidiaries, as applicable, have entered into master repurchase agreements with major financial institutions. The purpose of these repurchase agreements is to finance the acquisition and ownership of mortgage loans and REO properties in our portfolio. We have effective control of the assets associated with these agreements and therefore have concluded these are financing arrangements. As of December 31, 2014, the weighted average annualized interest rate on borrowings under our repurchase agreements was 3.05%, excluding amortization of deferred financing costs. The following table sets forth data with respect to our repurchase agreements as of December 31, 2014 and December 31, 2013 (\$ in thousands):

(table of contents)

	Maximum borrowing capacity	Book value of collateral	Amount outstanding
December 31, 2014			
CS repurchase agreement due April 20, 2015	\$225,000	\$332,618	\$222,044
Wells repurchase agreement due March 23, 2015	750,000	1,036,409	569,509
DB repurchase agreement due March 11, 2016	250,000	450,532	223,447
	\$1,225,000	\$1,819,559	\$1,015,000
December 31, 2013			
CS repurchase agreement due April 21, 2014	\$100,000	\$166,350	\$85,364
Wells repurchase agreement due March 23, 2015	\$400,000	\$634,234	\$398,602
DB repurchase agreement due March 11, 2016	\$250,000	\$205,328	\$118,416
	\$750,000	\$1,005,912	\$602,382

Under the terms of each repurchase agreement, as collateral for the funds drawn thereunder, subject to certain conditions, our operating partnership will sell to the applicable lender equity interests in the Delaware statutory trust subsidiary that owns the applicable underlying mortgage assets on our behalf, or the trust will directly sell such underlying mortgage assets. In the event the lender determines the value of the collateral has decreased, the lender has the right to initiate a margin call and require us, or the applicable trust subsidiary, to post additional collateral or to repay a portion of the outstanding borrowings. The price paid by the lender for each mortgage asset we finance under the repurchase agreements is based on a percentage of the market value of the mortgage asset and may depend on its delinquency status. With respect to funds drawn under the repurchase agreements, our applicable subsidiary is required to pay the lender interest based on LIBOR or at the lender's cost of funds plus a spread calculated based on the type of applicable mortgage assets collateralizing the funding, as well as certain other customary fees, administrative costs and expenses to maintain and administer the repurchase agreements. We do not collateralize any of our repurchase facilities with cash.

The repurchase agreements require us to maintain various financial and other covenants, including maintaining a minimum adjusted tangible net worth, a maximum ratio of indebtedness to adjusted tangible net worth and specified levels of unrestricted cash. In addition, the repurchase agreements contain customary events of default. We are restricted by the terms of our repurchase agreements from paying dividends greater than our REIT taxable income in a calendar year.

We are currently in compliance with the covenants and other requirements with respect to the repurchase agreements. We monitor our banking partners' ability to perform under the repurchase agreements and have concluded there is currently no reason to doubt that they will continue to perform under the repurchase agreements as contractually obligated. For additional information on the repurchase agreements, please see Note 1, "Organization and basis of presentation."

Other Secured Debt

On November 25, 2014, we completed a securitization transaction in which ARLP 2014-2 issued \$270.8 million in Class A Notes with a weighted yield of approximately 3.85% and \$234.0 million in Class M Notes. No interest will be paid on any Class M Notes while any Class A Notes remain outstanding. We retained \$95.8 million of the Class A Notes and all of the Class M Notes in our TRS. The Class A Notes and Class M Notes are secured solely by the non-performing mortgage loans and REO properties of ARLP 2014-2 and not by any of our other assets. The assets of ARLP 2014-2 are the only source of repayment and interest on the Class A Notes and the Class M Notes. The Class A Notes and the Class M Notes mature on January 26, 2054, and we do not guaranty any of the obligations of ARLP 2014-2 under the terms of the Indenture governing the notes or otherwise. As of December 31, 2014, the book value of the underlying securitized assets held by ARLP 2014-2 was \$333.0 million.

On September 25, 2014, we completed a securitization transaction in which ARLP 2014-1 issued \$150.0 million in Class A Notes with a weighted yield of approximately 3.47% and \$32.0 million in Class M Notes with a weighted yield of 4.25%. The Class A Notes and Class M Notes are secured solely by the non-performing mortgage loans and REO properties of ARLP 2014-1 and not by any of our other assets. The assets of ARLP 2014-1 are the only source of repayment and interest on the Class A Notes and the Class M Notes. The Class A Notes and the Class M Notes mature on September 25, 2044, and we do not guaranty any of the obligations of ARLP 2014-1 under the terms of the Indenture governing the notes or otherwise. As of December 31, 2014, the book value of the underlying securitized assets held by ARLP 2014-1 was \$212.7 million.

F-19

(table of contents)

We retained all of the Class M Notes issued by ARLP 2014-1 in our TRS. On September 30, 2014, pursuant to a master repurchase agreement, the TRS sold \$15.0 million of the Class M Notes to NewSource for a purchase price of \$15.0 million. The master repurchase agreement required the TRS to repurchase the Class M Notes from NewSource at a 5.0% yield on December 28, 2014, with the parties having the option to extend the master repurchase agreement for an additional 89 day period. On December 26, 2014, the parties agreed to extend the agreement to March 27, 2015. In no event can the master repurchase agreement be extended beyond September 29, 2015.

The following table sets forth data with respect to these notes as of December 31, 2014 (\$ in thousands):

	Interest Rate	December 31, 2014
ARLP Securitization Trust, Series 2014-1		
ARLP 2014-1 Class A Notes due September 25, 2044 ⁽¹⁾	3.47	% \$150,000
ARLP 2014-1 Class M Notes due September 25, 2044 ⁽²⁾	4.25	% 32,000
ARLP Securitization Trust, Series 2014-2		
ARLP 2014-2 Class A Notes due January 26, 2054 ⁽³⁾	3.85	% 269,820
ARLP 2014-2 Class M Notes due January 26, 2054	—	% 234,010
ARNS, Inc.		
Securities sold under agreement to repurchase due March 27, 2015	5.00	% 14,991
Elimination of ARLP 2014-1 Class M Notes due to ARNS, Inc.		(32,000)
Elimination of ARLP 2014-2 Class A Notes due to ARNS, Inc.		(95,729)
Elimination of ARLP 2014-2 Class M Notes due to ARNS, Inc.		(234,010)
Total		\$339,082

(1) The expected redemption date for the Class A Notes is September 25, 2017.

(2) The expected redemption date for the Class M Notes is September 25, 2018.

(3) The expected redemption date for the Class A Notes is November 27, 2017.

8. Commitments and contingencies

Litigation, claims and assessments

From time to time, we may be involved in various claims and legal actions arising in the ordinary course of business. As of December 31, 2014, we were not a party to, and our properties were not subject to, any pending or threatened legal proceedings that individually or in the aggregate, are expected to have a material impact on our financial condition, results of operations or cash flows. Subsequent to December 31, 2014, the following legal proceedings were commenced with respect to us:

On January 15, 2015, a shareholder derivative action was filed in the Circuit Court of Maryland for Baltimore City by a purported shareholder under the caption *The Police Retirement System of Saint Louis v. Erbey, et al.*, 24-C-15-000223. The action names as defendants William C. Erbey and each of the members of our Board of Directors and alleges that Mr. Erbey and our directors breached fiduciary duties in connection with the asset management agreement among us, Altisource Residential, L.P. and AAMC. The action also names Altisource Residential, L.P. and AAMC as defendants and alleges that AAMC aided and abetted the purported breaches of fiduciary duty and has been unjustly enriched by the asset management agreement. The complaint also names us as a nominal defendant. The plaintiff seeks, among other things, an order declaring that Mr. Erbey and the director defendants have breached their fiduciary duties, an order declaring that Mr. Erbey and AAMC have been unjustly enriched, an order declaring that the asset management agreement is unenforceable and directing our Board of Directors to terminate the asset management agreement, damages, disgorgement by Mr. Erbey and AAMC of allegedly wrongful profits, changes to our corporate governance and an award of attorney's and other fees and expenses. We believe the complaint is without merit. At this time, we are not able to predict the ultimate outcome of

this matter, nor can we estimate the range of possible loss, if any.

F-20

(table of contents)

On December 24, 2014, a shareholder derivative action was filed in the United States District Court for the Southern District of Florida by a purported shareholder of Ocwen under the caption Sokolowski v. Erbey, et al., 14-cv-8160-1. The action named the directors of Ocwen as defendants and alleged, among other things, various breaches of fiduciary duties by the directors of Ocwen. On February 11, 2015, plaintiff filed an amended complaint naming the directors of Ocwen as defendants and also naming Altisource, Home Loan Servicing Solutions, AAMC and us as alleged aiders and abettors of the purported breaches of fiduciary duties. The amended complaint alleges that the directors of Ocwen breached their fiduciary duties by, among other things, allegedly failing to exercise oversight over Ocwen's compliance with applicable laws, rules and regulations; failing to exercise oversight responsibilities with respect to the accounting and financial reporting processes of Ocwen; failing to prevent conflicts of interest and allegedly improper related party transactions; failing to adhere to Ocwen's code of conduct and corporate governance guidelines; selling personal holdings of Ocwen stock on the basis of material adverse inside information; and disseminating allegedly false and misleading statements regarding Ocwen's compliance with regulatory obligations and allegedly self-dealing transactions with related companies. Plaintiff claims that as a result of the alleged breaches of fiduciary duties, Ocwen has suffered damages including settlements with regulatory agencies in excess of \$2 billion, injury to its reputation and corporate goodwill, and exposure to governmental investigations and securities and consumer class action lawsuits. In addition to the derivative claims, the plaintiff also alleges an individual claim that Ocwen's 2014 proxy statement allegedly contained untrue statements of material fact and failed to disclose material information in violation of federal securities laws. The plaintiff seeks, among other things, an order requiring the defendants to repay to Ocwen unspecified amounts by which Ocwen has been damaged or will be damaged, an award of an unspecified amount of exemplary damages, changes to Ocwen's corporate governance, and an award of attorney's and other fees and expenses. We believe the claims against us in the matter are without merit. At this time, we are not able to predict the ultimate outcome of this matter, nor can we estimate the range of possible loss, if any.

Management does not believe that we have incurred an estimable, probable or material loss by reason of any of the above actions.

9. Related-party transactions

Asset Management Agreement with AAMC

Upon completion of our separation and AAMC's separation from Altisource on December 21, 2012, we entered into a 15-year asset management agreement with AAMC. Pursuant to the asset management agreement, AAMC designs and implements our business strategy, administers our business activities and day-to-day operations and provides corporate governance services, subject to oversight by our Board of Directors. AAMC is responsible for, among other duties: (1) performing and administering all of our day-to-day operations, (2) determining investment criteria through our Investment Policy in cooperation with our Board of Directors, (3) sourcing, analyzing and executing asset acquisitions, including our acquisition of sub-performing and non-performing residential mortgage loan portfolios and related financing activities, (4) analyzing and performing sales of properties, (5) overseeing Altisource's renovation, leasing and property management of our single-family rentals, (6) overseeing Ocwen's servicing of our residential mortgage loan portfolios, (7) performing asset management duties and (8) performing corporate governance and other management functions, including financial, accounting and tax management services.

AAMC provides us with a management team and appropriate support personnel who have substantial sub-performing and non-performing loan portfolio experience. AAMC's management also has significant corporate governance experience that enables us to manage our business and organizational structure efficiently. AAMC has agreed not to provide the same or substantially similar services to any other party so long as we and our operating partnership have on hand an average of \$50.0 million in capital available for investment over the previous two fiscal quarters. Notwithstanding the foregoing, AAMC may engage in any other business or render similar or different services to

others including, without limitation, the direct or indirect sponsorship or management of other investment based accounts or commingled pools of capital, however structured, having investment objectives similar to those of us or our operating partnership, so long as its services to us and our operating partnership are not impaired thereby.

Incentive Management Fee

Under the asset management agreement, we pay AAMC a quarterly incentive management fee as follows:

- 2% of all cash available for distribution by us to our stockholders and to AAMC as incentive management fee,
- (i) which we refer to as “available cash,” until the aggregate amount per share of available cash for the quarter (based on the average number of shares of our common stock outstanding during the quarter), which we refer to as the “quarterly per share distribution amount,” exceeds \$0.161, then

F-21

(table of contents)

- (ii) 15% of all additional available cash for the quarter until the quarterly per share distribution amount exceeds \$0.193, then
- (iii) 25% of all additional available cash for the quarter until the quarterly per share distribution amount exceeds \$0.257, and thereafter
- (iv) 50% of all additional available cash for the quarter.

in each case set forth in clauses (i) through (iv), as such amounts may be appropriately adjusted from time to time to take into account the effect of any stock split, reverse stock split or stock dividend.

We distribute any quarterly distribution to our stockholders after the application of the incentive management fee payable to AAMC.

Expense Reimbursement

We are required to reimburse AAMC on a monthly basis for the (i) direct and indirect expenses AAMC incurs or payments it makes on our behalf, including, but not limited to, the allocable compensation and routine overhead expenses of all employees and staff of AAMC and (ii) all other reasonable operating and overhead expenses AAMC incurs related to the asset management services it provides to us.

Termination

We may terminate the asset management agreement without cause upon the determination of at least two-thirds of our independent directors that (i) there has been unsatisfactory performance by AAMC that is materially detrimental to us, or (ii) the compensation payable to AAMC under the asset management agreement is unreasonable, unless AAMC agrees to compensation that at least two-thirds of our independent directors determine is reasonable.

AAMC may terminate the asset management agreement without cause by providing written notice to us no later than 180 days prior to December 21 of any year during the initial term or a renewal term, and the asset management agreement will terminate effective on the December 21 next following the delivery of such notice.

We will be required to pay AAMC a termination fee in the event that the asset management agreement is terminated as a result of (i) a termination by us without cause, (ii) a termination by AAMC as a result of our becoming regulated as an "investment company" under the Investment Company Act, or (iii) a termination by AAMC if we default in the performance of any material term of the asset management agreement (subject to a notice and cure period).

The termination fee will be equal to three times the average annual incentive management fee earned by AAMC during the prior 24-month period immediately preceding the date of termination, calculated as of the end of the most recently completed fiscal quarter prior to the date of termination.

If the asset management agreement were terminated by AAMC, our financial position and future prospects for revenues and growth could be materially adversely affected.

Agreements with Altisource

We have engaged Altisource to provide services for us as detailed below. If for any reason Altisource is unable to perform the services described under these agreements at the level and/or the cost that we anticipate, alternate service providers may not be readily available on favorable terms, or at all which could adversely affect our performance. Altisource's failure to perform the services under these agreements with AAMC or us could have a material adverse effect on us.

Master Services Agreement

Under the master services agreement, Altisource provides property management, leasing and renovation management services associated with the single-family rental properties we acquire upon conversion of residential mortgage loans that continue to be sub-performing or non-performing. The agreement provides for an initial term of 15 years, which term will automatically renew for successive two-year terms unless either party sends a notice of non-renewal to the other party at least nine months before the completion of the initial or renewal term, as applicable. AAMC works directly with Altisource's vendor management team on our behalf, and AAMC's construction management team often interfaces with the general contractors and vendors to maintain relationships with the vendor network. Through AAMC's team, we coordinate with Altisource and its personnel as well as the vendor network to establish a collective approach to the renovation management, maintenance, repair and materials supply

F-22

(table of contents)

chain. We believe AAMC's experience and these coordinated efforts with Altisource provide it with the capabilities to replicate Altisource's vendor network, if necessary.

The total fees incurred by us under this agreement will be dependent upon the property management, leasing and renovation management services required on an asset-specific basis and will vary significantly based upon the location and condition of the asset as well as current market conditions and tenant turnover.

In the event our asset management agreement with AAMC is terminated without cause by us, the master services agreement with Altisource may be terminated at its sole discretion.

Support Services Agreement

Under the support services agreement, Altisource may provide services to us in such areas as human resources, vendor management operations, corporate services, risk management, quality assurance, consumer psychology, treasury, finance and accounting, legal, tax, compliance and other support services where we may need assistance and support. The support services agreement provides generally that Altisource will undertake to provide the support services in a manner generally consistent with the manner and level of care with which such service, if any, was performed or provided prior to our separation from Altisource. The support services agreement extended for two years after the separation and automatically renews every year thereafter, but may be terminated earlier under certain circumstances including a default. The fees for all support services provided pursuant to the support services agreement are based on the fully-allocated cost of providing the service. "Fully-allocated cost" means the all-in cost of providing such service, including direct charges and allocable amounts reflecting compensation and benefits, technology expenses, occupancy and equipment expense and third-party payments (but not taxes incurred in connection therewith).

Although the support services agreement has enabled us to grow our business, AAMC is in the process of internalizing the support services that had been provided to us by Altisource through its direct employment of the 26 employees that currently are providing these services to us through the support services agreement.

The total fees incurred by us under this agreement are dependent upon our business activity and the level of services required in connection therewith. In the event our asset management agreement with AAMC expires or is terminated, the support services agreement will terminate within 30 days.

Tax Matters Agreement

The tax matters agreement with Altisource sets out each party's rights and obligations with respect to deficiencies and refunds, if any, of Luxembourg, U.S. federal, state, local or other foreign taxes for periods before and after our separation from Altisource and related matters such as the filing of tax returns and the conduct of IRS and other audits. In general, under this agreement, we are responsible for taxes attributable to our business incurred after the separation, and Altisource is responsible for taxes attributable to our business incurred prior to the separation.

Trademark License Agreement

Under the trademark license agreement, Altisource granted us a non-exclusive, non-transferable, non-sublicensable, royalty free license to use the name "Altisource." The agreement has no specified term and may be terminated by either party upon 30 days' written notice, with or without cause. In the event that this agreement is terminated, all rights and licenses granted thereunder, including, but not limited to, the right to use "Altisource" in our name will terminate.

In the event our asset management agreement with AAMC expires or is terminated, the trademark license agreement will terminate within 30 days.

Agreements with Ocwen

Servicing Agreement

Under the servicing agreement, Ocwen services our acquired residential mortgage loans and provides loan modification, assisted deed-in-lieu, assisted deed-for-lease and other loss mitigation programs. The agreement provides for an initial term of 15 years. In the event our asset management agreement with AAMC expires or is terminated, the servicing agreement will terminate within 30 days. Through 2014, we had exclusively engaged Ocwen to service the residential mortgage loans in our portfolio.

F-23

(table of contents)

Ocwen has been and is subject to a number of pending regulatory investigations, inquiries, requests for information and legal proceedings that could result in adverse regulatory or other actions against Ocwen. As a result of these various difficulties faced by Ocwen, its debt and servicer ratings have been downgraded. Given the recent challenges and regulatory scrutiny faced by Ocwen, we have engaged additional alternate servicers to service our loans. We have begun to move certain loans to these new servicers to diversify our servicing options. However, a substantial number of the loans we own continue to be serviced by Ocwen. It is possible, even as we transfer all or a portion of our mortgage loan portfolio to such other servicers, the alternate servicers may not be able to service our loans or resolve our non-performing loans. If for any reason, our mortgage servicers are unable to service these loans at the level and/or the cost that we anticipate, or if we fail to pay or otherwise default under the servicing agreements, and our mortgage servicers cease to act as our servicers, alternate servicers may not be readily available on favorable terms, or at all, which could have a material adverse effect on us..

The total fees incurred by us under this agreement are dependent upon the number and type of acquired residential mortgage loans that Ocwen services pursuant to the terms of the agreement.

Aircraft Time Sharing Agreement with Ocwen

On October 8, 2013, we entered into an Aircraft Time Sharing Agreement, or the "Timeshare Agreement," with Ocwen pursuant to which Ocwen will make its corporate plane available to us for business-related travel from time to time. Under the Time Sharing Agreement, Ocwen agreed to provide us, on a time sharing basis, access to its plane in consideration of our reimbursement to Ocwen of the sum of its direct expenses of operating the plane plus an additional charge equal to 100% of such expenses. The amounts actually charged to us in any period will directly correlate to our use of the aircraft in each period, which will vary depending on our needs and business use.

Our Consolidated Statements of Operations included the following significant related party transactions (\$ in thousands):

	Year ended December 31, 2014	Counter-party	Consolidated Statements of Operations location
Residential property operating expenses	\$21,612	Ocwen/Altisource	Residential property operating expenses
Mortgage loan servicing costs	65,363	Ocwen	Mortgage loan servicing costs
Due diligence and unsuccessful deal costs	1,815	Altisource	Related party general and administrative expenses
Other general and administrative expenses	1,196	Altisource	Related party general and administrative expenses
Expense reimbursements	6,070	AAMC	Related party general and administrative expenses
Management incentive fee	67,949	AAMC	Related party general and administrative expenses
Dividend income	2,160	NewSource	Other income
Interest expense	156	NewSource	Interest expense
	Year ended December 31, 2013	Counter-party	Consolidated Statements of Operations location
Residential property operating expenses	\$767	Ocwen/Altisource	Residential property operating expenses
Mortgage loan servicing costs	9,335	Ocwen	Mortgage loan servicing costs

Edgar Filing: Altisource Residential Corp - Form 10-K

Due diligence and unsuccessful deal costs	2,059	Altisource	Related party general and administrative expenses
Other general and administrative expenses	181	Altisource	Related party general and administrative expenses
Expense reimbursements	5,411	AAMC	Related party general and administrative expenses
Management incentive fee	4,880	AAMC	Related party general and administrative expenses
	June 7, 2012 (inception) to December 31, 2012	Counter-party	Consolidated Statements of Operations location
Expense reimbursements	42	AAMC	Related party general and administrative expenses

On September 30, 2014, pursuant to a master repurchase agreement, our TRS sold \$15.0 million of the Class M Notes to NewSource for a purchase price of \$15.0 million. The master repurchase agreement requires the TRS to repurchase the Class M Notes from NewSource at a 5.0% yield on December 28, 2014, with the parties having the option to extend the master repurchase agreement for an additional 89 day period. In no event can the master repurchase agreement be extended beyond September 29, 2015.

(table of contents)

During the year ended December 31, 2013, we acquired a portfolio from Ocwen of non-performing first lien residential mortgage loans having aggregate market value of underlying properties of \$94 million. The aggregate purchase price for this portfolio was \$64 million.

10. Share-based payments

Stock options

On December 21, 2012, as part of our separation transaction from Altisource, we issued stock options under the 2012 Conversion Option Plan and 2012 Special Conversion Option Plan to holders of Altisource stock options to purchase shares of our common stock in a ratio of one share of our common stock to every three shares of Altisource common stock. The options were granted as part of our separation to employees of Altisource and/or Ocwen solely to give effect to the exchange ratio in the separation, and we do not include share-based compensation expense related to these options in our consolidated statements of operations because they are not related to our incentive compensation.

The following table sets forth the activity of our outstanding options:

	Number of options	Weighted average exercise price per share
June 7, 2012 (Inception)	—	\$—
Granted	1,019,424	2.09
December 31, 2012	1,019,424	2.09
Exercised	(61,736)) 1.97
Forfeited or canceled	(47,929)) 9.08
December 31, 2013	909,759	1.73
Exercised	(666,409)) 1.39
Canceled	(1,584)) 2.32
December 31, 2014 ^{(1), (2)}	241,766	\$2.69

(1) The outstanding options as of December 31, 2014 had a weighted average remaining life of 5.0 years with total intrinsic value of \$4.0 million.

(2) We have 204,805 options exercisable as of December 31, 2014 with a weighted average exercise price of \$2.28, weighted average remaining life of 4.8 years and intrinsic value of \$3.5 million. Of these exercisable options, none had exercise prices higher than the market price of our common stock as of December 31, 2014.

Restricted stock

Our directors each receive annual grants of restricted stock equal to \$45,000 based on the market value of our common stock at the time of the annual stockholders meeting. This restricted stock vests and is issued after a one-year service period subject to each director attending at least 75% of the Board and committee meetings. No dividends are paid on the shares until the award is issued. During the year ended December 31, 2014 and 2013, we granted 8,245 and 16,355 shares of stock, respectively, pursuant to our 2013 Director Equity Plan with weighted average grant date fair value per share of \$27.28 and \$18.47, respectively.

We recorded \$0.2 million and \$0.2 million of compensation expense related to these grants for the year ended December 31, 2014 and 2013, respectively. As of December 31, 2014 and 2013, we had \$0.1 million and \$0.1 million, respectively, of unrecognized share-based compensation cost remaining with respect to the director grants to be recognized over a weighted average remaining estimated term of 0.4 years and 0.4 years.

(table of contents)

The following table sets forth the activity of our restricted stock:

	Number of shares	Weighted average grant date fair value
December 31, 2012	—	\$—
Granted	16,355	18.47
Vested ⁽¹⁾	(4,265) 18.71
December 31, 2013	12,090	18.50
Granted	8,245	27.28
Vested ⁽¹⁾	(12,090) 18.50
December 31, 2014	8,245	\$27.28

(1) The vesting date fair value of restricted stock that vested during the year ended December 31, 2014 and 2013 was \$0.3 million and \$0.1 million, respectively.

The following table sets forth the number of shares of common stock reserved for future issuance:

	December 31, 2014
Stock options outstanding	241,766
Possible future issuances under director compensation plan	75,400
	317,166

As of December 31, 2014, we had 142,807,788 remaining shares of common stock authorized to be issued under our charter.

11. Income taxes

As a REIT, we must meet certain organizational and operational requirements including the requirement to distribute at least 90% of our annual REIT taxable income excluding capital gains to our stockholders. As a REIT, we generally will not be subject to federal income tax to the extent we distribute our REIT taxable income to our stockholders and provided we satisfy the REIT requirements including certain asset, income, distribution and stock ownership tests. If we fail to qualify as a REIT, and do not qualify for certain statutory relief provisions, we will be subject to U.S. federal, state and local income taxes and may be precluded from qualifying as a REIT for the subsequent four taxable years following the year in which we lost our REIT qualification.

Based on our 2014 taxable income of \$115.8 million, which includes net capital gains of \$54.4 million, the aggregate minimum distribution to stockholders required to maintain our REIT status was \$55.3 million in 2014. Dividends declared and paid per share of common stock aggregated \$2.03 for the year ended December 31, 2014, or \$116.0 million. These distributions included a cash dividend paid on March 10, 2014 of \$0.08 per share of common stock, or \$4.5 million, which was intended to satisfy the requirement that a REIT must distribute at least 90% of its annual REIT taxable income to its stockholders and was treated as a 2013 distribution for REIT qualification purposes.

Our consolidated financial statements include the operations of our taxable REIT subsidiary ("TRS"), which is subject to federal, state and local income taxes on its taxable income. From inception through December 31, 2014, the TRS operated at a cumulative taxable loss, which resulted in our recording a deferred tax asset with a corresponding valuation allowance.

We recorded state income tax expense on our consolidated operations for the year ended December 31, 2014. As a REIT, we may also be subject to federal taxes if we engage in certain types of transactions.

As of December 31, 2014 and 2013, we did not accrue interest or penalties associated with any unrecognized tax benefits, nor was any interest expense or penalty recognized during the year ended December 31, 2014 and 2013. We recorded nominal state and local tax expense on income and property for the year ended December 31, 2014. Our subsidiaries and we remain subject to tax examination for the period from inception to December 31, 2014.

F-26

(table of contents)

12. Earnings per share

The following table sets forth the components of diluted earnings per share (in thousands, except share and per share amounts):

	Year ended December 31, 2014	Year ended December 31, 2013	June 7, 2012 (inception) to December 31, 2012	
Numerator				
Net income (loss)	\$ 188,853	\$ 39,596	\$(89)
Denominator				
Weighted average common stock outstanding – basic	56,247,376	23,734,869	7,810,708	(1)
Stock options using the treasury method	335,275	879,005	—	
Restricted stock	5,486	7,122	—	
Weighted average common stock outstanding – diluted	56,588,137	24,620,996	7,810,708	(1)
Earnings (loss) per basic share	\$3.36	\$1.67	\$(0.01)
Earnings (loss) per diluted share	\$3.34	\$1.61	\$(0.01)

(1) Shares weighted by period outstanding since the separation on December 21, 2012.

Because we incurred a net loss for the period from March 15, 2012 (inception) to December 31, 2012, basic and diluted earnings per share are equivalent. For the period from March 15, 2012 (inception) to December 31, 2012 there were 276,100 stock options excluded from the calculation of diluted earnings per share because inclusion would have been anti-dilutive, which shares are weighted by period outstanding since the separation on December 21, 2012.

13. Segment information

Our primary business is the acquisition and ownership of single-family rental assets. Our primary sourcing strategy is to acquire these assets by purchasing sub-performing and non-performing mortgage loans. As a result, we operate in a single segment focused on the resolution of sub-performing and non-performing mortgages and ownership of rental residential properties.

Edgar Filing: Altisource Residential Corp - Form 10-K

(1) The aggregate cost for federal income tax purposes is \$625.7 million as of December 31, 2014.

Altisource Residential Corporation
Schedule IV - Mortgage Loans on Real Estate
December 31, 2013
(\$ in thousands)

Description (face value of loan)	Loan count	Interest rate	Maturity	Carrying amount of mortgages (1)	Principal amount of loans subject to delinquent principal or interest
\$0-49,999	299	2.000% - 15.875%	01/01/2009 - 04/01/2053	\$6,059	\$7,802
\$50,000-99,999	1,289	0.000% - 16.125%	07/01/2001 - 01/01/2054	59,773	82,009
\$100,000-149,999	1,971	1.000% - 13.600%	03/28/2008 - 04/01/2057	152,536	216,612
\$150,000-199,999	1,665	1.375% - 13.950%	05/01/2010 - 11/01/2053	176,448	260,658
\$200,000-249,999	1,458	1.500% - 11.960%	06/01/2009 - 01/01/2057	193,891	296,390
\$250,000+	4,281	1.000% - 12.950%	08/01/2010 - 01/01/2054	1,370,337	1,878,506
Total ⁽²⁾⁽³⁾	10,963			\$1,959,044	\$2,741,977

(1) The carrying value of an asset is based on our fair value model. The significant unobservable inputs used in the fair value measurement of our mortgage loans are discount rates, forecasts of future home prices, alternate loan resolution probabilities, resolution timelines and the value of underlying properties. Significant changes in any of these inputs in isolation could result in a significant change to the fair value measurement. The substantial majority

of the mortgage loans are significantly delinquent and have varying monthly payment requirements. For a more complete description of the fair value measurements and the factors that may significantly affect the carrying value of our assets, please see Note 4 to our consolidated financial statements.

(2) The aggregate cost for federal income tax purposes is \$1,823.3 million as of December 31, 2014.
