Item 7.01 Regulation FD Disclosure.

As previously reported by Entravision Communications Corporation (the “Company”) on its Form 8-K filed with the Securities and Exchange Commission (“SEC”) on December 1, 2017, on November 30, 2017, the Company entered into a new Credit Agreement by and among the Company, Bank of America, N.A., as Administrative Agent, RBC Capital Markets, as Syndication Agent, Wells Fargo Bank, National Association, as Documentation Agent, and the other lenders party thereto (the “New Credit Agreement”), and the Company terminated that certain credit agreement dated as of May 31, 2013 and as amended as of August 1, 2017, among the Company, other persons party thereto designated as a credit party, Antares Capital LP (as assignee of General Electric Capital Corporation) as agent for the lenders, and the lenders and the other parties thereto (the “Former Credit Agreement”). The New Credit Agreement contains a definition of “Consolidated EBITDA” that excludes revenue related to the Company’s participation in the auction for broadcast spectrum recently conducted by the Federal Communications Commission (the “Spectrum Auction”) and related expenses, as compared to the definition of “Consolidated Adjusted EBITDA” under the Former Credit Agreement which included such items.

As previously reported by the Company, including in its most recent Quarterly Report on Form 10-Q filed with the SEC on November 9, 2017, the Company recognized revenue of \$263.9 million related to its participation in the Spectrum Auction (the “Spectrum Auction Revenue”) during the Company’s third quarter of 2017. The Company anticipates that future investor communications which present the Non-GAAP financial measure Consolidated Adjusted EBITDA will exclude the Spectrum Auction Revenue and related expenses in the period or periods for which it may relate, consistent with the definition in the New Credit Agreement. A presentation of Consolidated Adjusted EBITDA for the three and nine month periods ended September 30, 2017 based on the definition used in the New Credit Agreement is furnished herewith as Exhibit 99.1, together with the reconciliations to the most directly comparable GAAP financial measure.

As previously reported by the Company, the Company currently expects to generate revenue from agreements associated with the Company’s television stations’ spectrum usage rights from a variety of sources. The Spectrum Auction Revenue recognized in the third quarter of 2017 was a significant amount totaling \$263.9 million, and we do not currently anticipate that in the foreseeable future there will be another transaction of a similar nature to the Spectrum Auction or another transaction that generates net revenue from the monetization of spectrum assets in similarly significant amounts.
