NOTE 1 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited interim condensed consolidated financial statements include the results of Truett-Hurst, Inc. (the “Company”) and its majority owned subsidiary H.D.D. LLC (the “LLC”). They have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with general instructions for quarterly reports filed on Form 10-Q and Article 8 of Regulation S-X. The Company consolidates the financial results of the LLC and records a noncontrolling interest representing the portion of equity ownership in the LLC that is not attributable to the Company.

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for audited financial statements. The accompanying unaudited condensed consolidated financial statements were prepared on the same basis as the audited financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2017, and, in the opinion of management, these financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results of the interim periods presented. The operating results for the interim period presented are not necessarily indicative of the results expected for the full fiscal year. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Annual Report on Form 10-K for the fiscal year ended June 30, 2017 filed with the Securities and Exchange Commission (“SEC”) on October 13, 2017.

Quantities or results referred to as “to date” or “as of this date” mean as of or to December 31, 2017, unless otherwise specifically noted. References to “FY” or “fiscal year” refer to the fiscal year ending on June 30 of the designated year.

Critical Accounting Policies and Estimates

There have been no material changes to the critical accounting policies and estimates previously disclosed in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2017.

In the six months ended December 31, 2017, the Company adopted these Accounting Standard Updates (ASUs):

- ASU 2015-11: Inventory (Topic 330)
- ASU No. 2015-17: Income Taxes (Topic 740)
- ASU No. 2016-09: Improvements to Employee Share-Based Payment Accounting (Topic 718)
- ASU No. 2016-15: Statement of Cash Flows (Topic 230)

None of these ASUs had a material impact on the Company’s condensed consolidated financial statements.

Reclassifications

## Edgar Filing: Truett-Hurst, Inc. - Form 10-Q

Certain prior period amounts in the condensed consolidated financial statements and notes thereto have been reclassified to conform to the current period presentation. These reclassifications had no effect on the reported condensed consolidated results of operations.

### Accounting Pronouncements Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (the “FASB”) issued ASU 2014-09: Revenue from Contracts with Customers (Topic 606). The guidance in this update, along with amendments issued in 2015 and 2016,

supersedes the revenue recognition requirements in Topic 605, Revenue Recognition, and most industry-specific guidance. The underlying principle is to recognize revenue when promised goods or services are transferred to customers, in an amount that reflects the consideration that is expected to be received for those goods or services. This accounting standard update, as amended, will be effective to reporting periods beginning after December 15, 2017. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized in retained earnings as of the date of adoption (“modified retrospective basis”). The Company is in the process of evaluating its revenue arrangements and the anticipated effect.

In February 2016, the FASB issued ASU No. 2016-02: Leases (Topic 842). The standard includes a lessee accounting model that recognizes two types of leases – finance and operating leases. It requires that a lessee recognize on the balance sheet assets and liabilities for leases with lease terms of more than 12 months. The amendment is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the impact of this ASU.

Accounts payable as of December 31, 2017 reflect the seasonality associated with the 2017 harvest, specifically, grape procurement, barrel purchases, acquisition of new winery equipment for the leased space within the custom crush facility, and increased production activities.

## NOTE 5 – BORROWINGS

The Company's indebtedness is comprised primarily of bank loans including lines of credit and long term debt.

## Lines of Credit

In July 2016, the Company's capital equipment line of credit matured and automatically converted into a \$0.3 million term loan with a 48-month amortization schedule and a 3.95% interest rate.

In July 2017, the Company's capital equipment line of credit matured and automatically converted into a \$0.3 million term loan with a 36-month amortization schedule and a 4.25% interest rate.

On August 17, 2017, the Company completed the renewal process of its revolving line of credit with Bank of the West. The Company chose not to request a new equipment purchase line of credit note from the lender. In addition, the Company chose not to extend the maturity date of the foreign exchange note. The credit facility, which matures on July 31, 2018, consists of a revolving line of credit with a maximum commitment of \$10.0 million which accrues interest at 2.25% above the London Interbank Offered Rate ("LIBOR"). In the fiscal year 2016, the credit facility also included (a) a capital equipment line with a maximum commitment of \$0.5 million which carried an interest rate of 2.25% above floating One-Month LIBOR, and (b) a foreign exchange facility with a maximum commitment of \$0.1

million which allowed the Company's bank to enter into any spot or forward transaction to purchase or sell a foreign currency. The Company did not use the foreign exchange facility during the six months ended December 31, 2017.

The credit facility is secured by a pledge of substantially all of the Company's assets and is supported by guaranties from certain LLC members with significant ownership positions. The bank borrowings contain usual and customary covenants, including, among others, limitations on incurrence of senior indebtedness, the making of loans and advances, investments, acquisitions, and capital expenditures, the incurrence of liens, and the consummation of mergers and asset sales. The credit facility maintains the minimum current assets to current liabilities ratio covenant (measured quarterly) and the maximum debt to effective tangible net worth ratio covenant (measured quarterly). When the line of credit was renewed on August 17, 2017, the previous debt service coverage ratio (measured quarterly on a trailing 12-month basis) was replaced with a minimum quarterly EBITDA covenant. The Company was out of compliance with the minimum EBITDA covenant on its revolving line of credit for the quarters ended September 30, 2017 and December 31, 2017, but received waivers in October 2017 and February 2018, respectively, for those periods from the Company's lender. If the Company was unable to obtain the necessary waivers and the debt was accelerated, it would have a material adverse effect on the financial condition and future operating performance, and the Company would be required to limit activities. The Company was in compliance with all other covenants at December 31, 2017.

## Leases

The Company leases wine production space within a custom crush facility located in Santa Rosa, California. The lease commenced on April 15, 2017 and ends on June 15, 2018. The initial 14-month term may be renewed for additional periods as agreed to by both parties.

The Company has two lease agreements for administrative office space. Both are three-year leases with an end date of October 31, 2019. One of these leases contains three one-year renewal options with adjustment to market rates.

Lease payments for these facilities were \$0.1 million and \$0.2 million for the three and six months ended December 31, 2017, respectively, compared to \$0.09 million and \$0.2 million for the same periods in FY17.

Future lease commitments are:

## Supply Contracts

The Company enters into short and long term contracts with third-parties and related party growers to supply a portion of its future grape and bulk wine inventory requirements. The grape commitments for the fiscal year 2018 were received in the first and second quarters of fiscal year 2018. In fiscal year 2017, the Company did not extend a large contract for the purchase of bulk wine to future years. Future minimum grape and bulk wine inventory purchase commitments are as follows:

Years ending June 30,	Third-Party (in thousands)	Related Parties	Total
2018	\$1,390	\$ —	\$1,390
2019	2,552	—	2,552
2020	1,927	—	1,927
2021	50	—	50
2022	51	—	51
Total	\$5,970	\$ —	\$5,970

At December 31, 2017, total future purchase commitments for finished goods were approximately \$5.0 million and are expected to be fulfilled during fiscal years 2018 through 2020.

## Production &amp; Storage

The Company enters into various contracts with third-party service providers for grape crushing, wine storage and bottling. The costs are recorded in the period for which the service is provided. The actual costs related to custom crush services are based on volume. The Company's current contracts for custom crush services cover the 2017 harvest. The current bottling contract requires a minimum of 120,000 cases at \$2.85 per case to be bottled in a one year period. The monthly average percentage of the Company's bulk wine stored at a related-party storage facility was 64% and 51% for the three and six months ended December 31, 2017, respectively.

## Litigation

From time to time, the Company may be subject to various litigation matters arising in the ordinary course of business. Other than discussed below, the Company is not aware of any current pending legal matters or claims, individually or in the aggregate, that are expected to have a material adverse impact on the Company's condensed consolidated financial position, results of operations, or cash flows.

In January 2016, Mendocino Wine Group (“MWG”) filed a complaint against Phillip Hurst and the LLC alleging breach of fiduciary duty, interference with contract, and interference with economic advantage. On November 10, 2016, the Sonoma County Superior Court granted MWG’s Motion to Consolidate the Hurst/LLC case with a second complaint MWG filed against a law firm for legal malpractice and breach of fiduciary duty. On November 20, 2017, the Sonoma County Superior Court granted Phillip Hurst and the LLC’s Motion for Summary Judgment to dismiss the breach of fiduciary duty claim. MWG has dismissed the other two causes of action. The plaintiff, MWG, has until February 2018 to appeal the Court’s decision.

The results for the six months ended December 31, 2016 include payments totaling \$1.0 million and a net gain of \$0.8 million related to the settlement of certain litigation and termination of a leased facility.

#### Exchange and Tax Receivable Agreement

The Company has an exchange agreement with the existing owners of the LLC, several of whom are directors and/or officers. Under the exchange agreement, each LLC member (and certain permitted transferees thereof) may (subject to the terms of the exchange agreement), exchange their LLC Units for shares of Class A common stock of the Company on a one-for-one basis, subject to customary conversion rate adjustments for stock splits, stock dividends

(Unaudited)

and reclassifications, or for cash, at the Company’s election. In connection with the exchange agreement, the Company has a tax receivable agreement (“TRA”) with the LLC members. The agreement provides for the payment from time to time, as “corporate taxpayer,” to holders of LLC Units of 90% of the amount of the benefits, if any, that the corporate taxpayer is deemed to realize as a result of (i) increases in tax basis resulting from the exchange of LLC Units and (ii) certain other tax benefits related to the Company entering into the agreement, including tax benefits attributable to payments under the agreement. These payment obligations are obligations of the corporate taxpayer and not of the LLC. The term of the agreement will continue until all such tax benefits have been utilized or expired, unless the corporate taxpayer exercises its right to terminate the agreement for an amount based on the agreed payments remaining to be made under the agreement or the corporate taxpayer breaches any of its material obligations under the agreement in which case all obligations will generally be accelerated and due as if the corporate taxpayer had exercised its right to terminate the agreement. In addition, the tax receivable agreement provides that upon certain mergers, asset sales, or other forms of business combinations, substantial payment obligations to the founding LLC members and affiliates will accelerate.

Indemnification

From time to time the Company enters into certain types of contracts that contingently require it to indemnify various parties against claims from third-parties. Historically, the Company has not been required to make payments under these obligations, and no liabilities have been recorded at June 30, 2017 and December 31, 2017 for these obligations on the condensed consolidated balance sheets.

NOTE 7 – STOCK-BASED COMPENSATION

Equity Incentive Plan

The Company has granted restricted stock awards, stock options and restricted stock units to employees, directors and non-employees under its 2012 Stock Incentive Plan. As of December 31, 2017, the 2012 Plan has 1.0 million shares reserved for issuance and a total of 0.3 million shares available to be issued.

#### NOTE 8 – FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The carrying amount reflected in the condensed consolidated balance sheets of financial assets and liabilities are all categorized as Level 1. They include cash and cash equivalents, accounts receivable, accounts payable and accrued expenses, which approximated their fair values due to the short-term nature of these financial assets and liabilities. The carrying amount of the Company's debt approximates its fair value based on prevailing interest rates and time to maturity.

In October 2012, the Company executed an interest rate swap obligation that was measured using observable inputs such as the LIBOR and ten-year Treasury interest rates, and therefore has been categorized as Level 2. This

derivative is not designated as a hedging instrument and has been recorded at fair value on the condensed consolidated balance sheets. Changes in the fair value of this instrument have been recognized in the condensed consolidated statements of operations in other expense. The maturity date of the swap is May 31, 2022. At June 30, 2017 and December 31, 2017, the interest rate swap balance was \$0.01 million and \$0.03 million, respectively for both the fair value and the Level 2 value. The balance for the interest rate swap is included in other current assets on the condensed consolidated balance sheets.

NOTE 9 – INCOME TAXES

For the six months ended December 31, 2017, the Company recorded income tax expense of \$0.001 million and had an effective tax rate of less than 1%. The Company has net operating loss (“NOL”) carryforwards available to offset fiscal year 2018 taxable income. The utilization of the NOL carryforwards may be subject to substantial annual limitations due to ownership change provisions under Section 382 of the Internal Revenue Code of 1986, as amended, and similar state provisions. The annual limitations may result in the expiration of NOL’s before they can be utilized by the Company.

The Company's effective tax rate is a function of:

- A rate benefit attributable to the fact that the LLC operates as a limited liability company which is not subject to federal or state income tax. Accordingly, a portion of the earnings are not subject to corporate level taxes.
- Operating losses for the periods or utilization of net operating loss carryforwards.
- Recording a full valuation allowance against net deferred tax assets as the Company has determined that it is more likely than not that the future tax benefits would not be realized. The Company did not record a deferred tax asset during the three and six months ended December 31, 2017.

There were no unrecognized tax benefits at December 31, 2017 and the Company did not incur any income tax related interest expense or penalties related to uncertain tax positions.

NOTE 10 – SIGNIFICANT CUSTOMER INFORMATION, SEGMENT REPORTING AND GEOGRAPHIC INFORMATION

The Company’s primary reporting segments are identified as wholesale and direct to consumer.

Wholesale sales include the retail exclusive brand label model and other brands sold through the three-tier distribution system. Direct to consumer sales occur through the Company’s tasting rooms, wine clubs, and winery websites. Operating and other expenses are not allocated between operating segments; therefore, operating and net income (loss) information for the respective segments is not available. In addition, discrete financial information related to segment specific assets is not available. Sales and cost of sales are reported by segment.

The following tables reflect net sales, cost of sales and gross profit by segment for continuing operations for each of the three and six months ended December 31, 2017 and 2016, respectively:

Three Months Ended December 31,

## NOTE 11 – SUBSEQUENT EVENTS

The Company was out of compliance with the minimum EBITDA covenant on its revolving line of credit for the quarter ended December 31, 2017, but received a waiver in February 2018 for that period from the Company's lender. If the Company was unable to obtain the necessary waivers and the debt was accelerated, it would have a material adverse effect on the financial condition and future operating performance, and the Company would be required to limit activities.

The Company has evaluated all subsequent event activity through the issue date of these condensed consolidated financial statements and concluded that, other than the items discussed above, no additional subsequent events have occurred that would require recognition in the condensed consolidated financial statements or disclosure in the notes to the condensed consolidated financial statements.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other parts of this Quarterly Report on Form 10-Q contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements, other than statements of historical fact, regarding strategy, future operations, financial position, prospects, plans, opportunities, and objectives constitute "forward-looking statements." The words "may," "will," "expect," "plan," "anticipate," "believe," "estimate," "potential," or "continue" and similar types of expressions identify such statements, although not all forward-looking statements contain these identifying words. These statements are based upon information that is currently available to the Company and management's current expectations, speak only as of the date hereof, and are subject to risks and uncertainties. The Company expressly disclaims any obligation, except as required by federal securities laws, or undertaking to update or revise any forward-looking statements contained herein to reflect any change or expectations with regard thereto or to reflect any change in events, conditions, or circumstances on which any such forward-looking statement is based, in whole or in part. The Company's actual results may differ materially from the results discussed in or implied by such forward-looking statements. Important factors that could cause such differences include, but are not limited to, a reduction in the supply of grapes and bulk wine available to the Company; significant competition; any change in the Company's relationships with retailers which could harm the Company's business; the Company may not achieve or maintain profitability in the future; the loss of key employees; a reduction in the Company's access to, or an increase in the cost of, the third-party services the Company uses to produce its wine; credit facility restrictions on the Company's current and future operations; and failure to protect, or infringement of, trademarks and proprietary rights; these factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. Risks that may affect the Company's operating results include, but are not limited to, those discussed in the "Risk Factors" section of its Annual Report on Form 10-K for fiscal year 2017 filed with the SEC on October 13, 2017. Readers should carefully review the risk factors described in the Annual Report on Form 10-K for fiscal year 2017 and in other documents that the Company files from time to time with the SEC.

The unaudited interim condensed consolidated financial statements include the results of the Company and its subsidiary, the LLC, and have been prepared in accordance with GAAP for interim financial information and with the general instructions for quarterly reports filed on Form 10-Q and Article 8 of Regulation S-X. The disclosures do not include all the information necessary for audited financial statements in accordance with GAAP. These unaudited interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes contained in the Annual Report on Form 10-K for the fiscal year ended June 30, 2017 filed with the SEC on October 13, 2017. In the opinion of the Company's management, all adjustments, which include normal recurring adjustments, considered necessary for a fair presentation have been included. All intercompany transactions and balances have been eliminated. Unless otherwise indicated, the notes to the unaudited condensed consolidated financial statements relate to the discussion of the Company's continuing operations. The Company's condensed consolidated financial statements reflect all of the Company's accounts, including those of its controlled subsidiary and the portion of equity in a consolidated subsidiary that is not attributable to the Company, directly or indirectly, is presented as noncontrolling interests.

### OVERVIEW OF BUSINESS

#### General

The Company is a holding company incorporated as a Delaware corporation and its sole asset is a controlling equity interest in the LLC. Unless the context suggests otherwise, references in this report to "Truett-Hurst," the "Company," "we," "us" and "our" refer to Truett-Hurst, Inc. and its consolidated subsidiary. Truett-Hurst consolidates the financial results of

the LLC and records a noncontrolling interest for the economic interest in the LLC it does not own. The Company's amended and restated certificate of incorporation authorizes two classes of common stock, Class A common stock and Class B common stock.

Quantities or results referred to as "to date" or "as of this date" mean as of or to December 31, 2017, unless otherwise specifically noted. References to "FY" or "fiscal year" refer to the fiscal year ending on June 30th of the

designated year. For example, “FY17” and “fiscal year 2017” each refer to the fiscal year ended June 30, 2017. This Quarterly Report on Form 10-Q references certain trademarks and registered trademarks which may be trademarks or registered trademarks of their respective owners.

The Company produces and sells premium, super-premium, and ultra-premium wines made generally from grapes purchased from California-based growers. In addition, the Company purchases semi-finished bulk wine under contract and opportunistically on the spot market. On a more limited basis, the Company also purchases finished goods from both foreign and domestic producers. The Company is headquartered in Sonoma County, California with a tasting room in the Dry Creek Valley. The Company owns its tasting rooms and winery in the Dry Creek Valley and leases space for wine production within a custom crush facility located in Santa Rosa, California. The wines include Pinot Noir, Chardonnay, Sauvignon Blanc, Zinfandel, Petite Sirah, Merlot, and Cabernet Sauvignon and are sold across a number of price points through two distinct distribution channels: three-tier and direct to consumer. The business model is a combination of direct to consumer sales, traditional three-tier brand sales and retail exclusive brand sales. The Company owns, designs and develops its brands, including those developed and sold on a retailer exclusive basis. The Company’s brands are differentiated and marketed through innovative packaging and label designs.

Wines in the three-tier channel are sold to distributors with programs available to the broad market or to specific retailers on an exclusive basis. The traditional three-tier distribution business consists of sales of VML, Healdsburg Ranches, Colby Red, Bradford Mountain, and Dearly Beloved branded wines. Through the retail exclusive brand model, the Company works with retail partners to develop innovative brands which are intended to resonate with their customers and are intended to increase store traffic and expand exclusive brand sales. The retail exclusive model allows the Company to own the brands it creates, which the Company believes differentiates it from the traditional private label model, and allows it the option of expanding the brands into national and international markets, thereby increasing sales and building the brand equity. The direct to consumer channel consists of sales of products produced by the Company through its tasting rooms, wine clubs and its winery websites.

In October 2017, the Company executed an Endorsement Agreement with Weight Watchers International, Inc. (“WW”) to jointly produce the first premium low-calorie range of wines under the brand Cense ([www.censewines.com](http://www.censewines.com)). The first Cense wine, a New Zealand Sauvignon Blanc, was launched in late October 2017 through the Company’s direct to consumer business and in an exclusive arrangement with a major national retailer. The second Cense wine, a California Rosé, was launched in late January 2018 through the same channels. Weight Watchers is promoting the Cense wines with various forms of public relations and media outreach, their eCRM platform and its website.

On October 8, 2017, and for several days thereafter, significant wildfires broke out in Napa, Sonoma, and surrounding counties in Northern California. Certain of the Company’s inventory, primarily juice pressed from grapes picked during the 2017 harvest and maintained at outside production and storage facilities, may be subject to smoke taint and spoilage. The amount of spoilage, if any, cannot be reasonably estimated at this time. However, the Company is working with its insurance carrier and believes that any loss of inventory related to the fires is substantially covered under the Company’s insurance policies. No spoilage has been detected to date, but during the barrel aging process, there is a possibility some smoke taint of the wine may develop.

The October 2017 Northern California wildfires also negatively impacted the Company’s direct to consumer business as its tasting rooms were closed for several days during the fires and experienced a significant drop in customers and sales of the Company’s higher margin flagship brands throughout the remainder of the quarter ended December 31, 2017. The impact of the fires was partially offset by increased online promotions and sales of discounted labels.

## Strategic Objectives

There are three primary categories into which the Company sells its wine: premium (\$12 - \$14 per bottle retail price), super-premium (\$15 - \$24 per bottle retail price), and ultra-premium (\$25 - \$49 per bottle retail price). The Company believes it can benefit from growth at the premium and above price points and continue to grow the business relying on its competitive strengths: its experienced and knowledgeable team; its relationships with the world's top wine distributors and retailers; and its innovative approach to distribution and brand development. The Company intends to grow by:

- Developing innovative retail exclusive products that meet the needs of wine retailers. The Company has a reputation for developing innovative retail exclusive brands and working with retailer partners on unique programs to support sales of those products. With branding expertise, the Company intends to continue innovation and build its market share with global wine retailers who are focused on increasing their profitability through retail exclusive offerings.
- Growing the customer base to include additional major U.S. retail chains. The Company is actively pursuing relationships with the largest retail chains in the United States.
- Expanding the direct to consumer business. The wine clubs continue to grow due to growing consumer awareness of the brands from targeted public relations, exciting wine club events and advertising. The direct to consumer business generally generates higher gross margins and the Company intends to continue building this distribution channel in order to further growth.
- Marketing to key international markets. During FY14, the Company completed an agreement with the Trialto Wine Group, LTD, based in Vancouver, Canada, creating a national partnership to distribute the Truett-Hurst family of brands throughout Canada. The Company also continues to review selective brand development and distribution opportunities in other international markets.
- Developing new ways to engage customers and to distribute products. The Company continues to be discovery-oriented in its approach and is always looking for new innovations in and approaches to the global wine market. The Company believes that traditional wine marketing, to some degree, has stymied creativity and believes the innovative branding expertise allows the Company to rapidly capitalize on evolving customer demands.

## RESULTS OF OPERATIONS

### Factors Affecting Operating Results

Net sales are affected by advertising, discounts and promotions, merchandising, packaging and in the wholesale segment, the availability of display space at retailers, all of which have a significant impact on consumers' buying decisions. Continued growth of net sales and profits is expected to depend, substantially, on the continued popularity of the Company's new and existing brands, its ability to effectively manage sales channels, and its ability to maintain sufficient product supply to meet expected growth in demand.

Cost of sales for the wholesale and direct to consumer segments includes wine-related inputs, such as grapes and semi-finished bulk wine, bottling materials, such as bottles, capsules, corks and labeling materials, labor and overhead expenses including inbound and outbound freight, storage and barrel depreciation.

## Comparison of the Three and Six Months Ended December 31, 2017 and 2016

The following table compares the Company's financial results by reporting segment:

Three Months Ended December 31, (dollars in thousands)						
	Wholesale		Direct to Consumer		Total	
	2017	2016	2017	2016	2017	2016
Net Sales	\$3,898	\$3,951	\$1,803	\$1,786	\$5,701	\$5,737
Cost of Sales	3,174	3,064	684	636	3,858	3,700
Gross Profit	\$724	\$887	\$1,119	\$1,150	\$1,843	\$2,037
Gross Profit %	18.6 %	22.4 %	62.1 %	64.4 %	32.3 %	35.5 %

  

Six Months Ended December 31, (dollars in thousands)						
	Wholesale		Direct to Consumer		Total	
	2017	2016	2017	2016	2017	2016
Net Sales	\$8,676	\$8,461	\$3,215	\$3,161	\$11,891	\$11,622
Cost of Sales	6,804	6,603	1,199	1,153	8,003	7,756
Gross Profit	\$1,872	\$1,858	\$2,016	\$2,008	\$3,888	\$3,866
Gross Profit %	21.6 %	22.0 %	62.7 %	63.5 %	32.7 %	33.3 %

For the three months ended December 31, 2017, net sales decreased \$0.03 million or 1% and consolidated gross profit margin decreased from 35.5% to 32.3%, compared to the same period during the prior year. The decrease in gross profit during the quarter ended December 31, 2017 was primarily due to an increase in cost of sales which is attributable to inventory reserves recorded for the quarter, and an increase in depletion allowances which contributed to lower net sales. For the six months ended December 31, 2017, net sales increased \$0.3 million or 2%; however, consolidated gross profit decreased slightly from 33.3% to 32.7% compared to the same period during the prior year as a result of inventory reserves.

Net sales for the six months ended December 31, 2017 increased over the prior year despite the falloff from a significant customer that is undergoing a change in its inventory procurement process. Volumes related to this customer declined 46% from the prior year period. But for this decline, the Company's net sales would have increased by 13% instead of the reported 2%. In FY18 Q3, the Company received orders from this customer totaling approximately 15,000 cases, which helped to ameliorate the Q1 and Q2 declines.

Wholesale net sales decreased 1% for the three months ended December 31, 2017 due to the increase in depletion allowances for the quarter. In contrast, wholesale net sales for the six months ended December 31, 2017 increased by 3% due to higher sales in the broadmarket and sales to one large retailer during the first quarter.

Direct to consumer net sales increased 1% for the three months ended December 31, 2017, and 2% for the six months ended December 31, 2017. Despite the slight net sales increases, the October 2017 Northern California wildfires negatively impacted the Company's direct to consumer business as its tasting rooms were closed for several days

during the fires and experienced a significant drop in customers and sales of the Company's higher margin flagship brands throughout the remainder of the quarter ended December 31, 2017. The gross profit percentages decreased as a result of a change in the mix between discounted online sales and higher margin tasting room sales. The Company continues its efforts to grow the channel through wine club and tasting room sales, as well as special offers presented via email and online to wine club members and others.

International sales were \$0.2 million and \$0.3 million for the three and six months ended December 31, 2017, respectively, compared to \$0.2 million and \$0.5 million for the same periods in FY17.

Sales discounts and depletion allowances are recorded as a reduction of sales at the time of sale. For the three and six months ended December 31, 2017, sales discounts and depletion allowances totaled \$1.4 million and \$2.3 million, respectively, compared to \$1.3 million and \$2.2 million, respectively, for the same periods in FY17.

### Sales and Marketing

Sales and marketing expenses consist primarily of personnel costs, advertising and other costs for marketing and promoting the Company's products. Advertising costs are expensed as incurred and were \$0.3 million and \$0.2 million for the three and six months ended December 31, 2017, respectively, compared to \$0.1 million and \$0.2 million for the same periods in FY17.

Sales and marketing expenses consist of the following:

	Three Months Ended December 31, (dollars in thousands)				Six Months Ended December 31, (dollars in thousands)			
	2017	2016	Increase (Decrease)	% Change	2017	2016	Increase (Decrease)	% Change
Sales and marketing	\$1,479	\$1,380	\$ 99	7.2 %	\$2,933	\$2,604	\$ 329	12.6 %
Percentage of net sales	25.9 %	24.1 %	1.8 %		24.7 %	22.4 %	2.3 %	

Sales and marketing expenses increased by 7.2% and 12.6% for the three and six months ended December 31, 2017, respectively, compared to the same periods last fiscal year. The increase was largely due to the hiring of additional sales personnel, advertising and promotions along with selling expenses.

The amounts billed to customers for shipping and handling are recorded as sales and reported as the costs are incurred for shipping and handling as a sales and marketing expense. For the three and six months ended December 31, 2017 and December 31, 2016 shipping costs were \$0.2 million and \$0.4 million, respectively, compared to \$0.3 million and \$0.5 million for the same periods in FY17.

### General and Administrative

General and administrative expenses include the costs associated with personnel, professional fees, insurance and other expenses related to administrative and compliance functions. General and administrative expenses consist of the following:

	Three Months Ended December 31, (dollars in thousands)				Six Months Ended December 31, (dollars in thousands)			
	2017	2016	Increase (Decrease)	% Change	2017	2016	Increase (Decrease)	% Change
General and administrative	\$953	\$706	\$ 247	35.0 %	\$1,743	\$1,518	\$ 225	14.8 %

Percentage of net sales	16.7%	12.3%	4.4	%	14.7	%	13.1	%	1.6	%

General and administrative expense for the three and six months ended December 31, 2017 increased compared to the same periods in fiscal year 2017 both in terms of absolute dollars and measured as a percentage of net sales. The increase was primarily due to increases in outside services.

#### Interest Expense

Interest and loan fee amortization was \$0.2 million for six months ended December 31, 2017 and December 31, 2016.

## LIQUIDITY AND CAPITAL RESOURCES

## General

The Company's primary sources of available cash are from operations, bank borrowings and equity offerings. The Company's primary cash needs are to fund working capital requirements (primarily inventory), capital expenditures for barrels and other equipment to facilitate production, repay indebtedness (interest and principal payments) and for other operating expenses. The Company is currently able to borrow against working capital assets (accounts receivable and inventory) by utilizing an asset based bank loan.

	December 31, 2017	June 30, 2017	Increase (Decrease)	% Change
	(dollars in thousands)			
Working capital	\$11,006	\$13,002	\$ (1,996 )	-15.4 %
Cash and cash equivalents	\$261	\$783	\$ (522 )	(66.7 )%

The Company had approximately \$1.7 million of availability under its revolving credit facility as of December 31, 2017, compared to \$3.0 million as of June 30, 2017. During the second quarter of fiscal year 2018, the Company's average borrowings outstanding under its revolving credit facility were \$7.9 million compared to average borrowings of \$5.5 million in the prior year.

The weighted average interest rate on the line of credit was 3.59% and 2.85% for the three months ended December 31, 2017 and December 31, 2016, respectively. The weighted average interest rate on the line of credit was 3.56% and 2.80% for the six months ended December 31, 2017 and December 31, 2016, respectively.

On August 17, 2017, the Company renewed its revolving line of credit with Bank of the West. The Company chose not to request a new equipment purchase line of credit note from the lender. In addition, the Company chose not to extend the maturity date of the foreign exchange note. The credit facility, which matures on July 31, 2018, consists of a revolving line of credit with a maximum commitment of \$10.0 million which accrues interest at 2.25% above LIBOR. In the prior fiscal year, the credit facilities also included (a) a capital equipment line with a maximum commitment of \$0.5 million which carries an interest rate of 2.25% above floating one-month LIBOR, and (b) a foreign exchange facility with a maximum commitment of \$0.1 million which allows the Company's bank to enter into any spot or forward transaction to purchase or sell a foreign currency. The Company did not use the foreign exchange facility during the six months ended December 31, 2017 and December 30, 2016.

The outstanding balances on the Company's lines of credit are:

	December 31, 2017	June 30, 2017
	(in thousands)	
Lines of Credit		
Revolving line of credit	\$8,275	\$ 6,963
Equipment line of credit	—	327

Total lines of credit	\$8,275	\$ 7,290
-----------------------	---------	----------

Bank borrowings are collateralized by substantially all of the Company's assets and are supported by guaranties from certain LLC members with significant ownership positions. Availability on the revolving line of credit is subject to a monthly borrowing base and compliance with certain covenants, including, without limitation, a minimum current assets to current liabilities ratio (measured quarterly), and a debt to effective tangible net worth ratio (measured quarterly).

When the line of credit was renewed on August 17, 2017, the previous debt service coverage ratio (measured quarterly on a trailing 12-month basis) was replaced with a minimum quarterly EBITDA covenant. The Company was out of compliance with the minimum EBITDA covenant on its revolving line of credit for the quarter ended December 31, 2017 and September 30, 2017, but received waivers in February 2018 and October 2017, respectively, for those periods from the Company's lender. If the Company was unable to obtain the necessary waivers and the debt was accelerated, it would have a material adverse effect on the financial condition and future operating performance, and

the Company would be required to limit activities. The Company was in compliance with all other covenants at December 31, 2017.

In July 2016, the previous minimum EBITDA covenant was replaced with a minimum debt service coverage ratio (measured quarterly on a trailing 12-month basis). The Company was out of compliance with the debt service coverage ratio for the quarters ended June 30, 2017, March 31, 2017, and December 31, 2016, but received waivers for those periods from the Company's lender. The Company was in compliance with all other covenants during those prior year periods.

In July 2017, the capital equipment line of credit from FY16 matured and converted to a \$0.3 million term loan with a 36-month amortization schedule and a 4.25% interest rate. In July 2016, the capital equipment line of credit from FY15 was converted to a \$0.3 million term loan with a 48-month amortization schedule and a 3.95% interest rate.

The Company believes that its cash position, net cash provided by operating activities in coming periods, and the current lines of credit will be adequate to finance working capital and operations needs for at least the next twelve months. The Company may, however, require additional liquidity as it continues to execute its business strategy. In addition, if the Company faces unanticipated cash needs, its existing cash and cash equivalents and available borrowings may be insufficient, if, for example, the Company is unable to comply with covenants contained in the Bank's line of credit agreement and the Bank does not agree to waive noncompliance with such covenants. The Company cannot assure that its business will generate sufficient cash flow from operations or that future borrowings will be available in amounts sufficient enough to enable the Company to repay its indebtedness when due or to fund other liquidity needs. The Company anticipates that to the extent that it requires additional liquidity, it will be funded through the incurrence of indebtedness, additional equity financings, or a combination of these potential sources of liquidity, although no assurance can be given that such forms of capital will be available at all, or if available, on terms acceptable to the Company.

## Cash Flows

	Six Months Ended December 31, (in thousands)			Increase (Decrease)
	2017	2016		
Net cash provided by operating activities	\$11	\$1,712	\$ (1,701 )	
Net cash (used in) investing activities	\$(1,546)	\$(384 )	\$ (1,162 )	
Net cash provided by (used in) financing activities	\$1,013	\$(5,345)	\$ 6,358	

## Operating Activities

For the six months ended December 31, 2017, net cash provided by operating activities was \$0.01 million which was a decrease of \$1.7 million compared to the same period last fiscal year. The changes in cash flows provided by operating activities are attributable to higher inventory and accounts receivable investment levels partially offset by increased accounts payable and accrued expenses.

## Investing Activities

For the six months ended December 31, 2017, cash used in investing activities increased by \$1.2 million compared to the same period of last fiscal year. This is a result of an increase in acquisition of property and equipment.

#### Financing Activities

Financing activities, which consisted entirely of net new borrowings from bank financing of \$1.0 million for the six months ended December 31, 2017, an increase of \$6.3 million over the same period of the prior year. During the six months ended December 31, 2016, the Company paid down its line of credit in the amount of \$5.4 million.

## Contractual Obligations and Commitments

### Financing Agreements

The Company's indebtedness is comprised primarily of bank loans including lines of credit and long term debt.

### Lines of Credit

See discussion under "Liquidity and Capital Resources" above.

### Long Term Debt

Long term debt consists of various notes payable to a bank secured by specific property and/or equipment. The total outstanding principal balance on all the notes as of December 31, 2017 was \$3.0 million. The interest rates and maturity dates of the notes are described in Note 5 - "Borrowings" of the condensed consolidated financial statements of this Quarterly Report on Form 10-Q.

### Capital Lease

In June 2017, the Company entered into a \$0.07 million, 72-month capital lease related to wine production equipment. The future lease commitments are approximately \$0.015 million per year for fiscal years 2018 through 2023.

## Concentration of Credit Risk and Off-Balance Sheet Arrangements

The Company's cash is held in highly rated credit institutions. Although the Company tries to limit the amount of credit exposure with any one financial institution, the Company does in the normal course of business, maintain cash balances in excess of federally insured limits.

Accounts receivable consists primarily of trade receivables from customers. The Company reviews accounts receivable regularly and makes estimates for an allowance when there is doubt as to the collectability of individual balances. The Company's accounts receivable credit risk is not concentrated within any one geographic area. The Company has national distribution agreements with multi-state distributors and these distributors make up a significant amount of the accounts receivable; however, the Company believes the accounts receivable credit risk is limited. The Company has not experienced any material charge offs.

### Off-Balance Sheet Arrangements

The Company does not have off-balance sheet risks related to foreign exchange contracts, option contracts or other foreign hedging arrangements.

The Company enters into short and long term contracts with third-parties and related party growers to supply a portion of its future grape and bulk wine inventory requirements. The grape commitments for the FY18 were received during the first quarter. The Company did not extend a large contract for the purchase of bulk wine to future years. Future minimum grape and bulk wine inventory purchase commitments are as follows:

Related

Years ending June 30,	Third-Party	Parties	Total
	(in thousands)		
2018	\$1,390	\$	—\$1,390
2019	2,552		— 2,552
2020	1,927		— 1,927
2021	50		— 50
2022	51		— 51
Total	\$5,970	\$	—\$5,970

At December 31, 2017, total future purchase commitments for finished goods total approximately \$5.0 million and are expected to be fulfilled during fiscal years 2018 through 2020.

#### Production & Storage

The Company enters into various contracts with third-party service providers for grape crushing, wine storage and bottling. The costs are recorded in the period for which the service is provided. The actual costs related to custom crush services are based on volume. The Company's current contracts for custom crush services cover the 2017 harvest. The current bottling contract requires a minimum of 120,000 cases at \$2.85 per case to be bottled in a one year period. The monthly average percentage of the Company's bulk wine stored at a related-party storage facility was 64% and 51% for the three and six months ended December 31, 2017, respectively.

On October 8, 2017, and for several days thereafter, significant wildfires broke out in Napa, Sonoma, and surrounding counties in Northern California. Certain of the Company's inventory, primarily juice pressed from grapes picked during the 2017 harvest and maintained at outside production and storage facilities, may have been subject to smoke taint and spoilage. The amount of spoilage, if any, cannot be reasonably estimated at this time. However, the Company is working with its insurance carrier and believes that any loss of inventory related to the fires is substantially covered under the Company's insurance policies. No spoilage has been detected to date, but during the barrel aging process, there is a possibility some smoke taint of the wine may develop. Additionally, there may be future negative impacts on the Company's outside production and operating arrangements, including bottling and warehousing of case goods.

#### Leases

The Company leases space for wine production within a custom crush facility located in Santa Rosa, California. The lease, which relates to the 2017 harvest, commenced April 15, 2017 and terminates on June 15, 2018. The initial 14-month term may be renewed for additional periods as agreed to by both parties. The future lease commitments as presented below include amounts for this lease. In addition, pursuant to the terms of the lease and related winery facilities agreement, the Company is obligated to pay variable processing fees based on the tonnage of grapes crushed in the facility.

The Company has two lease agreements for administrative office space. Both are three leases with an end date of October 31, 2019. One of these leases contains three one-year renewal options with adjustment to market rates.

Lease payments for these facilities were \$0.1 million and \$0.02 million for three and six months ended December 31, 2017, respectively, compared to \$0.09 million and \$0.2 million for the same periods in fiscal year 2017.

Future lease commitments are:

Years ending June 30, (in thousands)	
2018 (remaining six months)	\$91
2019	90
2020	31
Total future rent payments	\$212

Effects of Inflation and Changing Prices

The results of operations and financial condition have not been materially affected by inflation and changing prices; however, as agricultural commodities, grape and bulk wine prices experience certain levels of variability. The Company intends to pass along rising costs through increased selling prices, subject to normal competitive conditions. There can be no assurances, however, that the Company will be able to pass along rising costs through increased selling prices effectively.

### Critical Accounting Policies and Estimates

There have been no material changes to the critical accounting policies and estimates previously disclosed in the Annual Report on Form 10-K for the fiscal year ended June 30, 2017.

### Accounting Pronouncements

See Note 1 of the condensed consolidated financial statements of this Quarterly Report on Form 10-Q for the summary of accounting pronouncements.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Truett Hurst is a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and is not required to provide the information required under this Item.

## ITEM 4. CONTROLS AND PROCEDURES

### Management's Report on Internal Controls over Financial Reporting

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the Company's management has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934, as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective and provide reasonable assurance, as of the end of the period covered by this report, that information required to be disclosed by the Company in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and were effective to provide reasonable assurance that such information is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate, to allow timely discussions regarding required disclosure.

### Changes to Internal Controls over Financial Reporting

There have been no changes in the Company's internal controls over financial reporting during the quarter ended December 31, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

### Limitations on the Effectiveness of Controls

A control system, no matter how well designed and operated, cannot provide absolute assurance due to its inherent limitations: it is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human or other failures. A control system also can be circumvented in various ways, including, without limitation, by collusion or improper management override. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of such limitations, disclosure controls and internal control over financial reporting cannot prevent or detect all misstatements, including, without limitation, unintentional errors or fraud. Because these inherent limitations are known features of the financial reporting process, it is possible to design and implement process safeguards to reduce such risk, however, such risk cannot be completely eliminated. As such, management, including the Chief Executive Officer and Chief Financial Officer, does not expect that the Company's disclosure controls or internal controls over financial reporting will prevent or detect all misstatements, including without limitation, unintentional

errors and fraud.

## PART II – OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

The Company may be subject to various litigation matters arising in the ordinary course of business from time to time. Other than the matters discussed below, the Company is not aware of any current pending legal matters or claims, individually or in the aggregate, that are expected to have a material adverse impact on our consolidated financial position, results of operations, or cash flows.

In January 2016, Mendocino Wine Group (“MWG”) filed a complaint against Phillip Hurst and the LLC alleging breach of fiduciary duty, interference with contract, and interference with economic advantage. On November 10, 2016, the Sonoma County Superior Court granted MWG’s Motion to Consolidate the Hurst/LLC case with a second complaint MWG filed against a law firm for legal malpractice and breach of fiduciary duty. On November 20, 2017, the Sonoma County Superior Court granted Phillip Hurst and the LLC’s Motion for Summary Judgment to dismiss the breach of fiduciary duty claim. MWG has dismissed the other two causes of action. The plaintiff, MWG, has until February 2018 to appeal the Court’s decision.

The results for the six months ended December 31, 2016 include payments totaling \$1.0 million and a net gain of \$0.8 million related to the settlement of certain litigation and termination of a leased facility.

### ITEM 1A. RISK FACTORS

There have been no material changes in information regarding our risk factors as described in Item 1A of our Form 10-K as filed with the SEC on October 13, 2017, except that we have updated the risk factor concerning restrictive covenants included within the terms of the Company’s current bank loans and added a risk factor concerning the Company’s ability to repay indebtedness, as set forth below:

The terms of the Company’s current bank loans may restrict current and future operations, which could adversely affect the Company’s ability to respond to changes in its business and to manage its operations.

The Company’s bank loans include a number of customary restrictive covenants that could impair the Company’s financing and operational flexibility and make it difficult to react to market conditions and satisfy ongoing capital needs and unanticipated cash requirements. The bank loans contain usual and customary covenants, including, without limitation:

- limitation on incurring senior indebtedness;
- limitation on making loans and advances;

- limitation on investments, acquisitions and capital expenditures;
- limitation on liens, mergers and sales of assets;
- minimum current assets to current liabilities ratio;
- maximum debt to effective tangible net worth ratio; and
- minimum quarterly EBITDA.

The Company's ability to comply with the covenants and other terms of its bank loans will depend on future operating performance and, in addition, may be affected by events beyond the Company's control, and the Company may not meet them. If the Company fails to comply with such covenants and terms, it would be required to obtain waivers from its lenders or agree with the lenders to an amendment of the facility's terms to maintain compliance under such facility. The Company was out of compliance with EBITDA-based covenants on its revolving line of credit for the last five fiscal quarters, including the second fiscal quarter ended December 31, 2017. If the Company is unable to obtain any necessary waivers and the debt is accelerated, it would have a material adverse effect on the financial condition and future operating performance, and the Company may be required to limit activities.

Our business and financial condition would be adversely affected if we are unable to generate sufficient cash flow to fund our operations or repay maturing debt or obtain alternative financing on commercially reasonable terms.

We generally do not intend to reserve funds to retire existing debt upon maturity, which includes \$10.0 million line of credit maturing on July 31, 2018. We cannot assure that our business will generate sufficient cash flow from operations or that future borrowings will be available to us in amounts sufficient to enable us to repay our indebtedness when due or to fund other liquidity needs. If any refinancing is done at higher interest rates, the increased interest expense could adversely affect our cash flow. Any such refinancing could also impose tighter financial ratios and other covenants that restrict our ability to take actions that could otherwise be in our best interest, such as funding new development activity. If we cannot repay or otherwise service our indebtedness, we may have to take actions such as selling assets, seeking additional equity or reducing or delaying capital and operating expenditures. Any such action, if necessary, may not be effected on commercially reasonable terms or at all. Our line of credit restricts our ability to sell assets and use the proceeds from such sales.
