Edgar Filing: Zumiez Inc - Form 10-K

Securities registered pursuant to Section 12(b) of the Act: Common Stock

Name of each exchange on which registered: The Nasdaq Global Select Market

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☐

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the last 90 days. Yes ☐ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes ☐ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

☐ Large accelerated filer	☐ Accelerated filer
☐ Non-accelerated filer	☐ Smaller reporting company
☐ Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark if the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes ☐ No ☐

The aggregate market value of the voting and non-voting stock held by non-affiliates of the registrant as of the last business day of the second fiscal quarter, August 3, 2018, was \$456,572,006. At March 11, 2019, there were 25,520,923 shares outstanding of common stock.

DOCUMENTS INCORPORATED BY REFERENCE

The information required by Part III of this report is incorporated by reference from the Registrant's definitive proxy statement, relating to the Annual Meeting of Shareholders scheduled to be held June 5, 2019, which definitive proxy statement will be filed not later than 120 days after the end of the fiscal year to which this report relates.

FORM 10-K

PART I.

This Form 10-K contains forward-looking statements. These statements relate to our expectations for future events and future financial performance. Generally, the words “anticipates,” “expects,” “intends,” “may,” “should,” “plans,” “believes,” “predicts,” “potential,” “continue” and similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties, and future events and circumstances could differ significantly from those anticipated in the forward-looking statements. These statements are only predictions. Actual events or results may differ materially. Factors which could affect our financial results are described in Item 1A below and in Item 7 of Part II of this Form 10-K. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Moreover, neither we nor any other person assume responsibility for the accuracy and completeness of the forward-looking statements. We undertake no duty to update any of the forward-looking statements after the date of this report to conform such statements to actual results or to changes in our expectations.

We use a fiscal calendar widely used by the retail industry that results in a fiscal year consisting of a 52- or 53-week period ending on the Saturday closest to January 31. Each fiscal year consists of four 13-week quarters, with an extra week added to the fourth quarter every five or six years. Fiscal 2019 will be the 52 week period ending February 1, 2020. Fiscal 2018 was the 52 week period ending February 2, 2019. Fiscal 2017 was the 53 week period ending February 3, 2018. Fiscal 2016 was the 52 week period ending January 28, 2017. Fiscal 2015 was the 52 week period ending January 30, 2016. Fiscal 2014 was the 52 week period ending January 31, 2015.

“Zumiez,” the “Company,” “we,” “us,” “its,” “our” and similar references refer to Zumiez Inc. and its wholly-owned subsidiaries.

Item 1. BUSINESS

Zumiez Inc., including its wholly-owned subsidiaries, is a leading specialty retailer of apparel, footwear, accessories and hardgoods for young men and women who want to express their individuality through the fashion, music, art and culture of action sports, streetwear and other unique lifestyles. Zumiez Inc. was formed in August 1978 and is a Washington State corporation.

At February 2, 2019, we operated 707 stores; 608 in the United States (“U.S.”), 50 in Canada, 41 in Europe and 8 in Australia. We operate under the names Zumiez, Blue Tomato and Fast Times. Additionally, we operate ecommerce websites at zumiez.com, zumiez.ca, blue-tomato.com and fasttimes.com.au.

We acquired Blue Tomato during fiscal 2012. Blue Tomato is one of the leading European specialty retailers of apparel, footwear, accessories and hardgoods. We acquired Fast Times Skateboarding (“Fast Times”) during fiscal 2016. Fast Times is an Australian specialty retailer of skateboards, hardware, apparel and footwear.

We employ a sales strategy that integrates our stores with our ecommerce platform to serve our customers. There is significant interaction between our store sales and our ecommerce sales channels and we believe that they are utilized in tandem by our customers. Our selling platforms bring the look and feel of an independent specialty shop through a distinctive store environment and high-energy sales personnel. We seek to staff our stores with store associates who are knowledgeable users of our products, which we believe provides our customers with enhanced customer service and supplements our ability to identify and react quickly to emerging trends and fashions. We design our selling platforms to appeal to teenagers and young adults and to serve as a destination for our customers. We believe that our distinctive selling platforms concepts and compelling economics will provide continued opportunities for growth in both new and existing markets.

We believe that our customers desire authentic merchandise and fashion that is rooted in the fashion, music, art and culture of action sports, streetwear and other unique lifestyles to express their individuality. We strive to keep our merchandising mix fresh by continuously introducing new brands, styles and categories of product. Our focus on a diverse collection of brands allows us to quickly adjust to changing fashion trends. We believe that our strategic mix of apparel, footwear, accessories and hardgoods, including skateboards, snowboards, bindings, components and other equipment, allows us to strengthen the potential of the brands we sell and helps to affirm our credibility with our customers. In addition, we supplement our merchandise mix with a select offering of private label apparel and products as a value proposition that we believe complements our overall merchandise selection.

Over our 40-year history, we have developed a corporate culture based on a passion for serving our customers through the lens of action sports, streetwear and other unique lifestyles. We have increased our store count from 551 as of the end of fiscal 2013 to 707 as of the end of fiscal 2018, representing a compound annual growth rate of 5.1%; increased net sales from \$724.3 million in fiscal 2013 to \$978.6 million in fiscal 2018, representing a compound annual growth rate of 6.2%; and been profitable in every fiscal year of our 40-year history.

Competitive Strengths

We believe that the following competitive strengths differentiate us from our competitors and are critical to our continuing success.

Attractive Lifestyle Retailing Concept. We target a large population of young men and women, many of whom we believe are attracted to action sports, streetwear and other unique lifestyles and desire to express their personal independence and style through the apparel, footwear and accessories they wear and the equipment they use. We believe we have developed a brand image that our customers view as consistent with their attitudes, fashion tastes and identity that should allow us to benefit and differentiates us in our market.

Differentiated Merchandising Strategy. We have created a highly differentiated retailing concept by offering an extensive selection of current and relevant lifestyle brands encompassing apparel, footwear, accessories and hardgoods. The breadth of merchandise offered through our sales channels exceeds that offered by many of our competitors and includes some brands and products that are available only from us. Many of our customers desire to update their wardrobes and equipment as fashion trends evolve or the season dictates, providing us the opportunity to shift our merchandise selection seasonally. We believe that our ability to quickly recognize changing brand and style preferences and transition our merchandise offerings allows us to continually provide a compelling offering to our customers.

Deep-rooted Culture. We believe our culture and brand image enable us to successfully attract and retain high quality employees who are passionate and knowledgeable about the products we sell. We place great emphasis on customer service and satisfaction, and we have made this a defining feature of our corporate culture. To preserve our culture, we strive to promote from within and we provide our employees with the knowledge and tools to succeed through our comprehensive training programs and the empowerment to manage their stores to meet localized customer demand.

Distinctive Customer Experience. We strive to provide a convenient shopping environment that is appealing and clearly communicates our distinct brand image. We seek to integrate our store and digital shopping experiences to serve our customers whenever, wherever and however they choose to engage with us. We seek to attract knowledgeable sale associates who identify with our brand and are able to offer superior customer service, advice and product expertise. We believe that our distinctive shopping experience enhances our image as a leading source for apparel and equipment for action sports, streetwear and other unique lifestyles.

Disciplined Operating Philosophy. We have an experienced senior management team. Our management team has built a strong operating foundation based on sound retail principles that underlie our unique culture. Our philosophy emphasizes an integrated combination of results measurement, training and incentive programs, all designed to drive sales productivity to the individual store associate level. Our comprehensive training programs are designed to provide our employees with the knowledge and tools to develop leadership, communication, sales, and operational expertise. We believe that our merchandising team immersion in the lifestyles we represent, supplemented with feedback from our customers, store associates, and omni-channel leadership, allows us to consistently identify and react to emerging fashion trends. We believe that this, combined with our inventory planning and allocation processes and systems, helps us better manage markdown and fashion risk.

High-Impact, Integrated Marketing Approach. We seek to build relationships with our customers through a multi-faceted marketing approach that is designed to integrate our brand images with the lifestyles we represent. Our marketing efforts focus on reaching our customers in their environment and feature extensive grassroots marketing events, as well as the Zumiez STASH loyalty program. Our marketing efforts incorporate local sporting and music event promotions, interactive contest sponsorships that actively involve our customers with our brands and products and various social network channels. Events and activities such as these provide opportunities for our customers to develop a strong identity with our culture and brands. Our STASH loyalty program allows us to learn more about our customer and serve their needs better. We believe that our ability to interact with our customer through STASH, and our immersion in the lifestyles we represent, allows us to build credibility with our customers and gather valuable feedback on evolving customer preferences.

Growth Strategy

We intend to expand our presence as a leading specialty retailer of action sports, streetwear, and other unique lifestyles by:

Continuing to Generate Sales Growth through Existing Channels. We seek to maximize our comparable sales by continuing to integrate our store and online shopping experiences and offering our customers a broad and relevant selection of brands and products, including a unique customer experience through each interaction with our brand.

Enhancing our Brand Awareness through Continued Marketing and Promotion. We believe that a key component of our success is the brand exposure that we receive from our marketing events, promotions, and activities that embody the unique lifestyles of our customers. These are designed to assist us in increasing brand awareness in our existing markets and expanding into new markets by strengthening our connection with our target customer base. We also use our STASH loyalty program to increase brand engagement and enhance brand creditability. We believe that our marketing efforts have also been successful in generating and promoting interest in our product offerings. In addition, we use our ecommerce presence to further increase our brand awareness. We plan to continue to expand our integrated marketing efforts by promoting more events and activities in our existing and new markets. We also benefit from branded vendors' marketing.

Opening or Acquiring New Store Locations. We believe our brand has appeal that provides select store expansion opportunities throughout the U.S. and Canada, as well as greater ability to expand in Europe and Australia. During the last three fiscal years, we have opened or acquired 65 new stores consisting of 13 stores in fiscal 2018, 19 stores in fiscal 2017 and 33 stores in fiscal 2016. We have successfully opened or acquired stores in diverse markets throughout the U.S. and internationally, which we believe demonstrates the portability and growth potential of our concepts. To take advantage of what we believe to be a compelling economic store model, we plan to open approximately 13 new stores in fiscal 2019, including stores in our existing markets and in new markets internationally. The number of anticipated store openings may increase or decrease due to market conditions and other factors.

Merchandising and Purchasing

Our goal is to be viewed by our customers as the definitive source of merchandise for their unique lifestyles across all channels in which we operate. We believe that the breadth of merchandise that we offer our customers, which includes apparel, footwear, accessories, and hardgoods, exceeds that offered by many other specialty stores at a single location, and makes us a single-stop purchase destination for our target customers.

We seek to identify fashion trends as they develop and to respond in a timely manner with a relevant product assortment. We strive to keep our merchandising mix fresh by continuously introducing new brands or styles in response to the evolving desires of our customers. Our merchandise mix may vary by region, country and season, reflecting the preferences and seasons in each market.

We believe that offering an extensive selection of current and relevant brands in sports, fashion, music and art is integral to our overall success. No single third-party brand that we carry accounted for more than 12.4%, 8.5% and 7.3% of our net sales in fiscal 2018, 2017 and 2016. We believe that our strategic mix of apparel, footwear, accessories and hardgoods allows us to strengthen the potential of the brands we sell and affirms our credibility with our customers.

We believe that our ability to maintain an image consistent with the unique lifestyles of our customers is important to our key vendors. Given our scale and market position, we believe that many of our key vendors view us as an important retail partner. This position helps ensure our ability to procure a relevant product assortment and quickly respond to the changing fashion interests of our customers. Additionally, we believe we are presented with a greater variety of products and styles by some of our vendors, as well as certain specially designed items that we exclusively distribute. We supplement our merchandise assortment with a select offering of private label products across many of our product categories. Our private label products complement the branded products we sell, and some of our private label brands allow us to cater to the more value-oriented customer. For fiscal 2018, 2017 and 2016, our private label merchandise represented 13.1%, 16.8% and 20.2% of our net sales.

We have developed a disciplined approach to buying and a dynamic inventory planning and allocation process to support our merchandise strategy. We utilize a broad vendor base that allows us to shift our merchandise purchases as required to react quickly to changing consumer demands and market conditions. We manage the purchasing and allocation process by reviewing branded merchandise lines from new and existing vendors, identifying emerging fashion trends and selecting branded merchandise styles in quantities, colors and sizes to meet inventory levels established by management. We coordinate inventory levels in connection with individual stores' sales strength, our promotions and seasonality. We utilize a localized fulfillment strategy to fulfill the majority of our ecommerce orders through our stores to reduce shipping time and enhance customer experience.

Our merchandising staff remains in tune with the fashion, music, art and culture of action sports, streetwear and other unique lifestyles by participating in action sports, attending relevant events and concerts, watching related programming and reading relevant publications and social network channels. In order to identify evolving trends and fashion preferences, our staff spends considerable time analyzing sales data, gathering feedback from our stores and customers, shopping in key markets and soliciting input from our vendors.

We source our private label merchandise from primarily foreign manufacturers around the world. We have cultivated our private label sources with a view towards high quality merchandise, production reliability and consistency of fit. We believe that our knowledge of fabric and production costs combined with a flexible sourcing base enables us to source high-quality private label goods at favorable costs.

Stores

Store Locations. At February 2, 2019, we operated 707 stores in the following locations:

United States and Puerto Rico - 608 Stores

Alabama		Indiana		Nebraska		Rhode	
	4		10		3	Island	2
Alaska		Iowa		New Hampshire		South	
	3		4		6	Carolina	4
Arizona		Kansas		New Jersey		South	
	12		3		19	Dakota	2

The following table shows the number of stores (excluding temporary stores that we operate from time to time for special or seasonal events) opened, acquired and closed in each of our last three fiscal years:

	Stores	Stores	Stores	Total Number of
Fiscal Year	Opened	Acquired	Closed	Stores End of Year
2018	13	—	4	707

Edgar Filing: Zumiez Inc - Form 10-K

2017	19	—	6	698
2016	28	5	6	685

Store Design and Environment. We design our stores to create a distinctive and engaging shopping environment that we believe resonates with our customers. Our stores feature an industrial look, dense merchandise displays, lifestyle focused posters and signage and popular music, all of which are consistent with the look and feel of an independent specialty shop. Our stores are designed to encourage our customers to shop for longer periods of time, to interact with each other and our store associates and to visit our stores more frequently. Our stores are constructed and finished to allow us to efficiently shift merchandise displays throughout the year as the season dictates. At February 2, 2019, our stores averaged approximately 2,931 square feet. All references in this Annual Report on Form 10-K to square footage of our stores refers to gross square footage, including retail selling, storage and back-office space.

Expansion Opportunities and Site Selection. In selecting a location for a new store, we target high-traffic locations with suitable demographics and favorable lease terms. We generally locate our stores in areas in which other teen and young adult-oriented retailers have performed well. We focus on evaluating the market specific competitive environment for potential new store locations. We seek to diversify our store locations regionally and by caliber of mall or shopping area. For mall locations, we seek locations near busy areas of the mall such as food courts, movie theaters, game stores and other popular teen and young adult retailers.

Store Management, Operations and Training. We believe that our success is dependent in part on our ability to attract, train, retain and motivate qualified employees at all levels of our organization. We have developed a corporate culture that we believe empowers the individual store managers to make store-level business decisions and consistently rewards their success. We are committed to improving the skills and careers of our workforce and providing advancement opportunities for employees.

We believe we provide our managers with the knowledge and tools to succeed through our comprehensive training programs and the flexibility to manage their stores to meet customer demands. While general guidelines for our merchandise assortments, store layouts and in-store visuals are provided by our home offices, we give our managers substantial discretion to tailor their stores to the individual market and empower them to make store-level business decisions. We design group training programs for our managers to improve both operational expertise and supervisory skills.

Our store associates generally have an interest in the fashion, music, art and culture of the action sports lifestyle and are knowledgeable about our products. Through our training, evaluation and incentive programs, we seek to enhance the productivity of our store associates. These programs are designed to promote a competitive, yet fun, culture that is consistent with the unique lifestyles we seek to promote.

Marketing and Advertising

We seek to reach our target customer audience through a multi-faceted marketing approach that is designed to integrate our brand image with the lifestyles we represent. Our marketing efforts focus on reaching our customers in their environment, and feature extensive grassroots marketing events, which give our customers an opportunity to experience and participate in the lifestyles we offer. Our grassroots marketing events are built around the demographics of our customer base and offer an opportunity for our customers to develop a strong identity with our brands and culture.

We have a customer loyalty program, the Zumiez STASH, which allows members to earn points for purchases or performance of certain activities. The points can be redeemed for a broad range of rewards, including product and experiential rewards. Our marketing efforts also incorporate local sporting and music event promotions, advertising in magazines popular with our target market, interactive contest sponsorships that actively involve our customers with our brands and products, the Zumiez STASH, catalogs and various social network channels. We believe that our immersion in action sports, streetwear and other unique lifestyles allows us to build credibility with our target audience and gather valuable feedback on evolving customer preferences.

Distribution and Fulfillment

Timely and efficient distribution of merchandise to our stores is an important component of our overall business strategy. Domestically, our distribution center is located in Corona, California. At this facility, merchandise is inspected, allocated to stores and distributed to our stores and customers. Each store is typically shipped merchandise five times a week, providing our stores with a steady flow of new merchandise. We utilize a localized fulfillment strategy in which we use our domestic store network to provide fulfillment services for the vast majority of online customer purchases.

Internationally, we operate a distribution center located in Delta, British Columbia, Canada to distribute merchandise to our Canadian stores. We operate a distribution and ecommerce fulfillment center located in Graz, Austria that supports our Blue Tomato operations in Europe. We also operate a distribution and ecommerce fulfillment center located in Melbourne, Australia to support our Fast Times operations in Australia.

Management Information Systems

Our management information systems provide integration of store, online, merchandising, distribution, financial and human resources functions. The systems include applications related to point-of-sale, inventory management, supply chain, planning, sourcing, merchandising and financial reporting. We continue to invest in technology to align these systems with our business requirements and to support our continuing growth.

Competition

The teenage and young adult retail apparel, hardgoods, footwear and accessories industry is highly competitive. We compete with other retailers for vendors, customers, suitable store locations and qualified store associates, management personnel, online marketing content, social media engagement and ecommerce traffic. In the softgoods market, which includes apparel, footwear and accessories, we currently compete with other teenage and young adult focused retailers. In addition, in the softgoods market we compete with independent specialty shops, department stores, vendors that sell their products directly to the retail market, non-mall retailers and ecommerce retailers. In the hardgoods market, which includes skateboards, snowboards, bindings, components and other equipment, we compete directly or indirectly with the following categories of companies: other specialty retailers, such as local snowboard and skate shops, large-format sporting goods stores and chains, vendors who sell their products directly to the retail market and ecommerce retailers.

Competition in our sector is based on, among other things, merchandise offerings, store location, price, and the ability to identify with the customer. We believe that our ability to compete favorably with our competitors is due to our differentiated merchandising strategy, compelling store environment and deep-rooted culture.

Seasonality

Historically, our operations have been seasonal, with the largest portion of net sales and net income occurring in the third and fourth fiscal quarters, reflecting increased demand during the back-to-school and winter holiday selling seasons. During fiscal 2018, approximately 57% of our net sales occurred in the third and fourth quarters combined. As a result of this seasonality, any factors negatively affecting us during the last half of the year, including unfavorable economic conditions, adverse weather or our ability to acquire seasonal merchandise inventory, could have a material adverse effect on our financial condition and results of operations for the entire year. Our quarterly results of operations may also fluctuate based upon such factors as the timing of certain holiday seasons, the popularity of seasonal merchandise offered, the timing and amount of markdowns, competitive influences and the number and timing of new store openings, remodels and closings.

Trademarks

The “Zumiez”, “Blue Tomato” and “Fast Times” trademarks and certain other trademarks, have been registered, or are the subject of pending trademark applications, with the U.S. Patent and Trademark Office and with the registries of certain foreign countries. We regard our trademarks as valuable and intend to maintain such marks and any related registrations and vigorously protect our trademarks. We also own numerous domain names, which have been registered with the Corporation for Assigned Names and Numbers.

Employees

At February 2, 2019, we employed approximately 2,500 full-time and approximately 6,600 part-time employees globally. However, the number of part-time employees fluctuates depending on our seasonal needs and generally increases during peak selling seasons, particularly the back-to-school and the winter holiday seasons. None of our employees are represented by a labor union and we believe that our relationship with our employees is positive.

Financial Information about Segments

See Note 17, “Segment Reporting,” in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K, for information regarding our segments, product categories and certain geographical information.

Available Information

Our principal website address is www.zumiez.com. We make available, free of charge, our proxy statement, annual report to shareholders, annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with or furnished to the Securities and Exchange Commission (“SEC”) at <http://ir.zumiez.com>. Information available on our website is not incorporated by reference in, and is not deemed a part of, this Form 10-K. The SEC maintains a website that contains electronic filings by Zumiez and other issuers at www.sec.gov. In addition, the public may read and copy any materials Zumiez files with the SEC at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

Item 1A. RISK FACTORS

Investing in our securities involves a high degree of risk. The following risk factors, issues and uncertainties should be considered in evaluating our future prospects. In particular, keep these risk factors in mind when you read “forward-looking” statements elsewhere in this report. Forward-looking statements relate to our expectations for future events and time periods. Generally, the words “anticipates,” “expects,” “intends,” “may,” “should,” “plans,” “believes,” “predicts,” “potential,” “continue” and similar expressions identify forward-looking statements. Forward-looking statements involve risks and uncertainties, and future events and circumstances could differ significantly from those anticipated in the forward-looking statements. Any of the following risks could harm our business, operating results or financial condition and could result in a complete loss of your investment. Additional risks and uncertainties that are not yet identified or that we currently think are immaterial may also harm our business and financial condition in the future.

Failure to anticipate, identify and respond to changing fashion trends, customer preferences and other fashion-related factors could have a material adverse effect on us.

Customer tastes and fashion trends in our market are volatile and tend to change rapidly. Our success depends on our ability to effectively anticipate, identify and respond to changing fashion tastes and consumer preferences, and to translate market trends into appropriate, saleable product offerings in a timely manner. If we are unable to successfully anticipate, identify or respond to changing styles or trends and misjudge the market for our products or any new product lines, including adequately anticipating the correct mix and trends of our private label merchandise, our sales may be lower than predicted and we may be faced with a substantial amount of unsold inventory or missed opportunities. In response to such a situation, we may be forced to rely on markdowns or promotional sales to dispose of excess or slow-moving inventory, which could have a material adverse effect on our results of operations.

We may be unable to compete favorably in the highly competitive retail industry, and if we lose customers to our competitors, our sales could decrease.

The teenage and young adult retail apparel, footwear, accessories and hardgoods industry is highly competitive. We compete with other retailers for vendors, teenage and young adult customers, suitable store locations, qualified store associates, management personnel, online marketing content, social media engagement and ecommerce traffic. Some of our competitors are larger than we are and have substantially greater financial and marketing resources, including advanced ecommerce market capabilities. Additionally, some of our competitors may offer more options for free and/or expedited shipping for ecommerce sales. Direct competition with these and other retailers may increase significantly in the future, which could require us, among other things, to lower our prices and could result in the loss of our customers. Current and increased competition could have a material adverse effect on our business, results of operations and financial condition.

U.S. and global economic and political uncertainty, coupled with cyclical economic trends in retailing, could have a material adverse effect on our results of operations.

Our retail market historically has been subject to substantial cyclicity. As the U.S. and global economic and political conditions change, the trends in discretionary consumer spending become unpredictable and discretionary consumer spending could be reduced due to uncertainties about the future. When disposable income decreases or discretionary consumer spending is reduced due to a decline in consumer confidence, purchases of apparel and related products may decline. Uncertainty in the U.S. and global economies and political environment could have a material adverse impact on our results of operations and financial position.

In response to a decline in disposable income and consumer confidence, we believe the “value” message has become more important to consumers. As a retailer that sells approximately 85% branded merchandise, this trend may negatively affect our business, as we generally will have to charge more than vertically integrated private label retailers or we may be forced to rely on promotional sales to compete in our market which could have a material adverse effect on our financial position.

A decrease in consumer traffic could cause our sales to be less than expected.

We depend heavily on generating customer traffic to our stores and websites. This includes locating many of our stores in prominent locations within successful shopping malls. Sales at these stores are derived, in part, from the volume of traffic in those malls. Our stores benefit from the ability of a mall's "anchor" tenants, generally large department stores and other area attractions, to generate consumer traffic in the vicinity of our stores and the continuing popularity of malls as shopping destinations. In addition, some malls that were in prominent locations when we opened our stores may cease to be viewed as prominent. If this trend continues or if the popularity of mall shopping continues to decline generally among our customers, our sales may decline, which would impact our results of operations. Furthermore, we depend on generating increased traffic to our ecommerce business and converting that traffic into sales. This requires us to achieve expected results from our marketing and social media campaigns, accuracy of data analytics, reliability of our website, network and transaction processing and a high-quality online customer experience. Our sales volume and customer traffic in our stores and on our websites generally could be adversely affected by, among other things, economic downturns, competition from other ecommerce retailers, non-mall retailers and other malls, increases in gasoline prices, fluctuations in exchange rates in border or tourism-oriented locations and the closing or decline in popularity of other stores in the malls in which we are located. An uncertain economic outlook could curtail new shopping mall development, decrease shopping mall and ecommerce traffic, reduce the number of hours that shopping mall operators keep their shopping malls open or force them to cease operations entirely. A reduction in consumer traffic to our stores or websites could have a material adverse effect on our business, results of operations and financial condition.

Our growth strategy depends on our ability to grow customer engagement in our current markets and expand into new markets, which could strain our resources and cause the performance of our existing business to suffer.

Our growth largely depends on our ability to optimize our customer engagement in our current trade areas and operate successfully in new geographic markets. However, our ability to open stores in new geographic markets, including international locations, is subject to a variety of risks and uncertainties, and we may be unable to open new stores as planned or have access to desirable lease space, and any failure to successfully open and operate in new markets could have a material adverse effect on our results of operations. We intend to continue to open new stores in future years, while remodeling a portion of our existing store base such that we have the optimum number of stores in any given trade area. The expansion into new markets may present competitive, merchandising, hiring and distribution challenges that are different from those currently encountered in our existing markets. In addition, our proposed expansion will place increased demands on our operational, managerial and administrative resources. These increased demands could cause us to operate our business less effectively, which in turn could cause deterioration in the financial performance of our individual stores and our overall business. In addition, successful execution of our growth strategy may require that we obtain additional financing, and we may not be able to obtain that financing on acceptable terms or at all.

Failure to successfully integrate any businesses that we acquire could have an adverse impact on our results of operations and financial performance.

We may, from time to time, acquire businesses, such as our acquisition of Blue Tomato and Fast Times. We may experience difficulties in integrating any businesses we may acquire, including their stores, websites, facilities, personnel, financial systems, distribution, operations and general operating procedures, and any such acquisitions may also result in the diversion of our capital and our management's attention from other business issues and opportunities. If we experience difficulties in integrating acquisitions or if such acquisitions do not provide the benefits that we expect to receive, we could experience increased costs and other operating inefficiencies, which could have an adverse effect on our results of operations and overall financial performance.

Our plans for international expansion include risks that could have a negative impact on our results of operations.

We plan to continue to open new stores in the Canadian, European and Australian markets. We may continue to expand internationally into other markets, either organically or through additional acquisitions. International markets may have different competitive conditions, consumer tastes and discretionary spending patterns than our existing U.S. market. As a result, operations in international markets may be less successful than our operations in the U.S. Additionally, consumers in international markets may not be familiar with us or the brands we sell, and we may need to build brand awareness in the markets. Furthermore, we have limited experience with the legal and regulatory environments and market practices in new international markets and cannot guarantee that we will be able to penetrate or successfully operate in these new international markets. We also expect to incur additional costs in complying with applicable foreign laws and regulations as they pertain to both our products and our operations. Accordingly, for the reasons noted above, our plans for international expansion include risks that could have a negative impact on our results of operations.

Our sales and inventory levels fluctuate on a seasonal basis. Accordingly, our quarterly results of operations are volatile and may fluctuate significantly.

Our quarterly results of operations have fluctuated significantly in the past and can be expected to continue to fluctuate significantly in the future. Our sales and profitability are typically disproportionately higher in the third and fourth fiscal quarters of each fiscal year due to increased sales during the back-to-school and winter holiday shopping seasons. Sales during these periods cannot be used as an accurate indicator of annual results. As a result of this seasonality, any factors negatively affecting us during the last half of the year, including unfavorable economic conditions, adverse weather or our ability to acquire seasonal merchandise inventory, could have a material adverse effect on our financial condition and results of operations for the entire year. In addition, in order to prepare for the back-to-school and winter holiday shopping seasons, we must order and keep in stock significantly more merchandise than we carry during other times of the year. Any unanticipated decrease in demand for our products during these peak shopping seasons could require us to sell excess inventory at a substantial markdown, which could have a material adverse effect on our business, results of operations and financial condition.

Our quarterly results of operations are affected by a variety of other factors, including:

- the timing of new store openings and the relative proportion of our new stores to mature stores;
- whether we are able to successfully integrate any new stores that we acquire and the presence of any unanticipated liabilities in connection therewith;
- fashion trends and changes in consumer preferences;
- calendar shifts of holiday or seasonal periods;
- changes in our merchandise mix;
- timing of promotional events;
- general economic conditions and, in particular, the retail sales environment;
- actions by competitors or mall anchor tenants;
- weather conditions;
- the level of pre-opening expenses associated with our new stores; and
- inventory shrinkage beyond our historical average rates.

If our information systems fail to function effectively our operations could be disrupted and our financial results could be harmed.

If our information systems do not work effectively, this could adversely impact the promptness and accuracy of our transaction processing, financial accounting and reporting, and our ability to manage our business and properly forecast operating results and cash requirements. Further, we may suffer loss of critical data and interruptions or delays in our operations. Additionally, we rely on third-party service providers for certain information systems functions. If a service provider fails to provide the data quality, communications capacity, security or services we require, the failure could interrupt our services and could have a material adverse effect on our business, financial condition and results of operations.

If the security of our data is breached we may be subjected to adverse publicity, litigation and significant expenses.

Information systems are susceptible to an increasing threat of continually evolving cybersecurity risks. We maintain security systems, devices and activity monitoring to prevent unauthorized access to our network, systems and databases containing confidential, proprietary and personally identifiable information. Nevertheless, if unauthorized parties gain access to our networks, systems or databases, they may be able to steal, publish, delete or modify confidential information. In such circumstances, we could be held liable to our customers or other parties or be subject to regulatory or other actions for breaching privacy rules and we may be exposed to reputation damage and loss of customers' trust and business. This could result in costly investigations and litigation, civil or criminal penalties and adverse publicity that could adversely affect our financial condition, results of operations and reputation. Actual or anticipated attacks may cause us to incur increasing costs, including costs to deploy additional resources, train employees and engage third-parties. Further, the regulatory environment surrounding information security, cybersecurity and privacy is increasingly demanding. If we are unable to comply with the new and changing security standards, we may be subject to fines, restrictions and financial exposure, which could adversely affect our retail operations.

Significant fluctuations and volatility in the cost of raw materials, global labor, shipping and other costs related to the production of our merchandise may have a material adverse effect on our business, results of operations and financial conditions.

Increases in the cost of raw materials, global labor costs, freight costs and other shipping costs in the production and transportation of our merchandise can result in higher costs for this merchandise. The costs for these products are affected by weather, consumer demand, government regulation, speculation on the commodities market and other factors that are generally unpredictable and beyond our control. Our gross profit and results of operations could be adversely affected to the extent that the selling prices of our products do not increase proportionately with the increases in the costs of raw materials. Increasing labor costs and oil-related product costs, such as manufacturing and transportation costs, could also adversely impact gross profit. Additionally, significant changes in the relationship between carrier capacity and shipper demand could increase transportation costs, which could also adversely impact gross profit.

Most of our merchandise is produced by foreign manufacturers; therefore, the availability, quality and costs of our merchandise may be negatively affected by risks associated with international trade and other international conditions.

Most of our merchandise is produced by manufacturers around the world. Some of these facilities are located in regions that may be affected by natural disasters, political instability or other conditions that could cause a disruption in trade. Trade restrictions such as increased tariffs or quotas, or both, could also increase the cost and reduce the supply of merchandise available to us. Any reduction in merchandise available to us or any increase in its cost due to tariffs, quotas or local issues that disrupt trade could have a material adverse effect on our results of operations. This includes costs to comply with regulatory developments regarding the use of "conflict minerals," certain minerals originating from the Democratic Republic of Congo and adjoining countries, which may affect the sourcing and

availability of raw materials used by manufacturers and subject us to increased costs associated with our products, processes or sources of our inputs. Our business could be adversely affected by disruptions in the supply chain, such as strikes, work stoppages or port closures.

Fluctuations in foreign currency exchange rates could impact our financial condition and results of operations.

We are exposed to foreign currency exchange rate risk with respect to our sales, profits, assets and liabilities denominated in currencies other than the U.S. dollar. As a result, the fluctuation in the value of the U.S. dollar against other currencies could have a material adverse effect on our results of operations, financial condition and cash flows. Upon translation, operating results may differ materially from expectations. As we continue to expand our international operations, our exposure to exchange rate fluctuations will increase. Tourism spending may be affected by changes in currency exchange rates, and as a result, sales at stores with higher tourism traffic may be adversely impacted by fluctuations in currency exchange rates. Further, although the prices charged by vendors for the merchandise we purchase are primarily denominated in U.S. dollars, a decline in the relative value of the U.S. dollar to foreign currencies could lead to increased merchandise costs, which could negatively affect our competitive position and our results of operations.

Our business could be adversely affected by increased labor costs, including costs related to an increase in minimum wage and health care.

Labor is one of the primary components in the cost of operating our business. Increased labor costs, whether due to competition, unionization, increased minimum wage, state unemployment rates, health care, or other employee benefits costs may adversely impact our operating profit. A considerable amount of our store team members are paid at rates related to the federal or state minimum wage and any changes to the minimum wage rate may increase our operating expenses. Furthermore, inconsistent increases in state and or city minimum wage requirements limit our ability to increase prices across all markets and channels. Additionally, we are self-insured with respect to our health care coverage in the U.S. and do not purchase third party insurance for the health insurance benefits provided to employees with the exception of pre-defined stop loss coverage, which helps limit the cost of large claims. There is no assurance that future health care legislation will not adversely impact our results or operations.

Our business could suffer if a manufacturer fails to use acceptable labor and environmental practices.

We do not control our vendors or the manufacturers that produce the products we buy from them, nor do we control the labor and environmental practices of our vendors and these manufacturers. The violation of labor, safety, environmental and/or other laws and standards by any of our vendors or these manufacturers, or the divergence of the labor and environmental practices followed by any of our vendors or these manufacturers from those generally accepted as ethical in the U.S., could interrupt, or otherwise disrupt, the shipment of finished products to us or damage our reputation. Any of these, in turn, could have a material adverse effect on our reputation, financial condition and results of operations. In that regard, most of the products we sell are manufactured overseas, primarily in Asia, Mexico and Central America, which may increase the risk that the labor and environmental practices followed by the manufacturers of these products may differ from those considered acceptable in the U.S.

Additionally, our products are subject to regulation of and regulatory standards set by various governmental authorities with respect to quality and safety. These regulations and standards may change from time to time. Our inability to comply on a timely basis with regulatory requirements could result in significant fines or penalties, which could adversely affect our reputation and sales. Issues with the quality and safety of merchandise we sell, regardless of our culpability, or customer concerns about such issues, could result in damage to our reputation, lost sales, uninsured product liability claims or losses, merchandise recalls and increased costs.

If we fail to develop and maintain good relationships with vendors, or if a vendor is otherwise unable or unwilling to supply us with adequate quantities of their products at acceptable prices, our business and financial performance could suffer.

Our business is dependent on developing and maintaining good relationships with a large number of vendors to provide our customers with an extensive selection of current and relevant brands. In addition to maintaining our large

number of current vendor relationships, each year we are identifying, attracting and launching new vendors to provide a diverse and unique product assortment. We believe that we generally are able to obtain attractive pricing and terms from vendors because we are perceived as a desirable customer, and deterioration in our relationship with our vendors could have a material adverse effect on our business.

However, there can be no assurance that our current vendors or new vendors will provide us with an adequate supply or quality of products or acceptable pricing. Our vendors could discontinue selling to us, raise the prices they charge, sell through direct channels or allow their merchandise to be discounted by other retailers. There can be no assurance that we will be able to acquire desired merchandise in sufficient quantities on terms acceptable to us in the future. In addition, certain vendors sell their products directly to the retail market and therefore compete with us directly and other vendors may decide to do so in the future. There can be no assurance that such vendors will not decide to discontinue supplying their products to us, supply us only less popular or lower quality items, raise the prices they charge us or focus on selling their products directly.

In addition, a number of our vendors are smaller, less capitalized companies and are more likely to be impacted by unfavorable general economic and market conditions than larger and better capitalized companies. These smaller vendors may not have sufficient liquidity during economic downturns to properly fund their businesses and their ability to supply their products to us could be negatively impacted. Any inability to acquire suitable merchandise at acceptable prices, or the loss of one or more key vendors, could have a material adverse effect on our business, results of operations and financial condition.

Our business is susceptible to weather conditions that are out of our control, including the potential risks of unpredictable weather patterns and any weather patterns associated with naturally occurring global climate change, and the resultant unseasonable weather could have a negative impact on our results of operations.

Our business is susceptible to unseasonable weather conditions. For example, extended periods of unseasonably warm temperatures during the winter season or cool weather during the summer season (including any weather patterns associated with global warming and cooling) could render a portion of our inventory incompatible with those unseasonable conditions. These prolonged unseasonable weather conditions could have a material adverse effect on our business and results of operations.

Our omni-channel strategy may not have the return we anticipate, which could have an adverse effect on our results of operations.

We are executing an omni-channel strategy to enable our customers to shop wherever, whenever and however they choose to engage with us. Our omni-channel strategy may not deliver the results we anticipate or may not adequately anticipate changing consumer trends, preferences and expectations. We will continue to develop additional ways to execute our superior omni-channel experience and interact with our customers, which requires significant investments in IT systems and changes in operational strategy, including localization, online and in-store point of sale systems, order management system, and transportation management system. If we fail to effectively integrate our store and ecommerce shopping experiences, effectively scale our IT structure or we do not realize the return on our investments that we anticipate our operating results could be adversely affected. Our competitors are also investing in omni-channel initiatives. If our competitors are able to be more effective in their strategy, it could have an adverse effect on our results of operations. If our omni-channel strategy fails to meet customer expectations related to functionality, timely delivery, or customer experience, our business and results of operations may be adversely affected. Additionally, to manage the anticipated growth of our operations and personnel, we will need to continue to improve our operational and financial systems, transaction processing, procedures and controls, and in doing so could incur substantial additional expenses that could impact our financial results.

If we lose key executives or are unable to attract and retain the talent required for our business, our financial performance could suffer.

Our performance depends largely on the efforts and abilities of our key executives. If we lose the services of one or more of our key executives, we may not be able to successfully manage our business or achieve our growth objectives. Furthermore, as our business grows, we will need to attract and retain additional qualified personnel in a timely manner and we may not be able to do so.

Failure to meet our staffing needs could adversely affect our ability to implement our growth strategy and could have a material impact on our results of operations.

Our success depends in part upon our ability to attract, motivate and retain a sufficient number of qualified employees who understand and appreciate our culture and brand and are able to adequately represent this culture. Qualified individuals of the requisite caliber, skills and number needed to fill these positions may be in short supply in some areas and the employee turnover rate in the retail industry is high. Our business depends on the ability to hire and retain qualified technical and support roles for procurement, distribution, ecommerce and back office functions. Competition for qualified employees in these areas could require us to pay higher wages to attract a sufficient number of suitable employees.

If we are unable to hire and retain store managers and store associates capable of consistently providing a high level of customer service, as demonstrated by their enthusiasm for our culture and knowledge of our merchandise, our ability to open new stores may be impaired and the performance of our existing and new stores could be materially adversely affected. We are also dependent upon temporary personnel to adequately staff our operations particularly during busy periods such as the back-to-school and winter holiday seasons. There can be no assurance that we will receive adequate assistance from our temporary personnel, or that there will be sufficient sources of temporary personnel. If we are unable to hire qualified temporary personnel, our results of operations could be adversely impacted.

Although none of our employees are currently covered by collective bargaining agreements, we cannot guarantee that our employees will not elect to be represented by labor unions in the future, which could increase our labor costs and could subject us to the risk of work stoppages and strikes. Any such failure to meet our staffing needs, any material increases in employee turnover rates, any increases in labor costs or any work stoppages, interruptions or strikes could have a material adverse effect on our business or results of operations.

A decline in cash flows from operations could have a material adverse effect on our business and growth plans.

We depend on cash flow from operations to fund our current operations and our growth strategy, including the payment of our operating leases, wages, store operation costs and other cash needs. If our business does not generate sufficient cash flow from operating activities, and sufficient funds are not otherwise available to us from borrowings under our credit facility or from other sources, we may not be able to pay our operating lease expenses, grow our business, respond to competitive challenges or fund our other liquidity and capital needs, which could have a material adverse effect on our business.

The terms of our secured credit agreement impose certain restrictions on us that may impair our ability to respond to changing business and economic conditions, which could have a significant adverse impact on our business. Additionally, our business could suffer if our ability to acquire financing is reduced or eliminated.

We maintain a secured credit agreement with Wells Fargo Bank, N.A., which provided us with a senior secured credit facility ("credit facility") of up to \$35.0 million. The credit facility contains various representations, warranties and restrictive covenants that, among other things and subject to specified circumstances and exceptions, restrict our ability to incur indebtedness (including guarantees), grant liens, make investments, pay dividends or distributions with respect to capital stock, make prepayments on other indebtedness, engage in mergers, dispose of certain assets or change the nature of their business. The credit facility contains certain financial maintenance covenants that generally require us to have net income after taxes of at least \$5.0 million on a trailing four-quarter basis and a quick ratio of 1.25:1.0 at the end of each fiscal quarter. These restrictions could (1) limit our ability to plan for or react to market conditions or meet capital needs or otherwise restrict our activities or business plans; and (2) adversely affect our ability to finance our operations, strategic acquisitions, investments or other capital needs or to engage in other business activities that would be in our interest.

The credit facility contains certain affirmative covenants, including reporting requirements such as delivery of financial statements, certificates and notices of certain events, maintaining insurance, and providing additional guarantees and collateral in certain circumstances. The credit facility includes customary events of default including non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations or warranties, cross-default to other material indebtedness, bankruptcy and insolvency events, invalidity or impairment of guarantees or security interests, material judgments and change of control. Additionally, we cannot be assured that our borrowing relationship with our lenders will continue or that our lenders will remain able to support their commitments to us in the future. If our lenders fail to do so, then we may not be able to secure alternative financing on commercially reasonable terms, or at all.

Our business could suffer with the closure or disruption of our home office or our distribution centers.

In the U.S., we rely on a single distribution center located in Corona, California to receive, store and distribute the vast majority of our merchandise to our domestic stores. Internationally, we operate a combined distribution and ecommerce fulfillment center located in Graz, Austria that supports our Blue Tomato ecommerce and store operations in Europe. We operate a distribution center located in Delta, British Columbia, Canada to distribute our merchandise to our Canadian stores. We operate a distribution and fulfillment center located in Melbourne, Australia to distribute our merchandise to our Australian stores. Additionally, we are headquartered in Lynnwood, Washington. As a result, a natural disaster or other catastrophic event that affects one of the regions where we operate these centers or our home office could significantly disrupt our operations and have a material adverse effect on our business, results of operations and financial condition.

The effects of war, acts of terrorism, threat of terrorism, or other types of mall violence, could adversely affect our business.

Most of our stores are located in shopping malls. Any threat of terrorist attacks or actual terrorist events, or other types of mall violence, such as shootings in malls, particularly in public areas, could lead to lower consumer traffic in shopping malls. In addition, local authorities or mall management could close shopping malls in response to security concerns. Mall closures, as well as lower consumer traffic due to security concerns, could result in decreased sales. Additionally, the threat, escalation or commencement of war or other armed conflict elsewhere, could significantly diminish consumer spending, and result in decreased sales. Decreased sales could have a material adverse effect on our business, financial condition and results of operations.

Our inability or failure to protect our intellectual property or our infringement of other's intellectual property could have a negative impact on our operating results.

We believe that our trademarks and domain names are valuable assets that are critical to our success. The unauthorized use or other misappropriation of our trademarks or domain names could diminish the value of the Zumiez, Blue Tomato, or Fast Times brands, our store concepts, our private label brands or our goodwill and cause a decline in our net sales. Although we have secured or are in the process of securing protection for our trademarks and domain names in a number of countries outside of the U.S., there are certain countries where we do not currently have or where we do not currently intend to apply for protection for certain trademarks. Also, the efforts we have taken to protect our trademarks may not be sufficient or effective. Therefore, we may not be able to prevent other persons from using our trademarks or domain names outside of the U.S., which also could adversely affect our business. We are also subject to the risk that we may infringe on the intellectual property rights of third parties. Any infringement or other intellectual property claim made against us, whether or not it has merit, could be time-consuming, result in costly litigation, cause product delays or require us to pay royalties or license fees. As a result, any such claim could have a material adverse effect on our operating results.

Our operations expose us to the risk of litigation, which could lead to significant potential liability and costs that could harm our business, financial condition or results of operations.

We employ a substantial number of full-time and part-time employees, a majority of whom are employed at our store locations. As a result, we are subject to a large number of federal, state and foreign laws and regulations relating to employment. This creates a risk of potential claims that we have violated laws related to discrimination and harassment, health and safety, wage and hour laws, criminal activity, personal injury and other claims. We are also subject to other types of claims in the ordinary course of our business. Some or all of these claims may give rise to litigation, which could be time-consuming for our management team, costly and harmful to our business.

In addition, we are exposed to the risk of class action litigation. The costs of defense and the risk of loss in connection with class action suits are greater than in single-party litigation claims. Due to the costs of defending against such litigation, the size of judgments that may be awarded against us, and the loss of significant management time devoted to such litigation, we cannot provide assurance that such litigation will not disrupt our business or impact our financial results.

We are involved, from time to time, in litigation incidental to our business including complaints filed by investors. This litigation could result in substantial costs, and could divert management's attention and resources, which could harm our business. Risks associated with legal liability are often difficult to assess or quantify, and their existence and magnitude can remain unknown for significant periods of time.

Failure to comply with federal, state, local or foreign laws and regulations, or changes in these laws and regulations, could have an adverse impact on our results of operations and financial performance.

Our business is subject to a wide array of laws and regulations including those related to employment, trade, consumer protection, transportation, occupancy laws, health care, wage laws, employee health and safety, taxes, privacy, health information privacy, identify theft, customs, truth-in-advertising, securities laws, unsolicited commercial communication and environmental issues. Our policies, procedures and internal controls are designed to comply with foreign and domestic laws and regulations, such as those required by the Sarbanes-Oxley Act of 2002 and the U.S. Foreign Corrupt Practices Act. Although we have policies and procedures aimed at ensuring legal and regulatory compliance, our employees or vendors could take actions that violate these laws and regulations. Any violations of such laws or regulations could have an adverse effect on our reputation, results of operations, financial condition and cash flows. Furthermore, changes in the regulations, the imposition of additional regulations, or the enactment of any new legislation, particularly in the U.S. and Europe, could adversely affect our results of operations or financial condition.

Fluctuations in our tax obligations and effective tax rate may result in volatility in our operating results.

We are subject to income taxes in many domestic and foreign jurisdictions. In addition, our products are subject to import and excise duties and/or sales, consumption or value-added taxes in many jurisdictions. We record tax expense based on our estimates of future payments, which include reserves for estimates of probable settlements of domestic and foreign tax audits. At any one time, many tax years are subject to audit by various taxing jurisdictions. There can be no assurance as to the outcome of these audits which may have an adverse effect to our business. In addition, our effective tax rate may be materially impacted by changes in tax rates and duties, the mix and level of earnings or losses by taxing jurisdictions, or by changes to existing accounting rules or regulations. Changes to foreign or domestic tax laws could have a material impact on our financial condition, results of operations or cash flows.

We may fail to meet analyst expectations, which could cause the price of our stock to decline.

Our common stock is traded publicly and various securities analysts follow our financial results and issue reports on us. These reports include information about our historical financial results as well as the analysts' estimates of our future performance. The analysts' estimates are based upon their own independent opinions and can be different from our estimates or expectations. If our operating results are below the estimates or expectations of public market analysts and investors, our stock price could decline.

The reduction of total outstanding shares through the execution of a share repurchase program of common stock may increase the risk that a group of shareholders could form a group to become a controlling shareholder.

A share repurchase program may be conducted from time to time under authorization made by our Board of Directors. We do not have a controlling shareholder, nor are we aware of any shareholders that have formed a "group" (defined as when two or more persons agree to act together for the purposes of acquiring, holding, voting or otherwise

disposing of the equity securities of an issuer). The reduction of total outstanding shares through the execution of a share repurchase program of common stock may increase the risk that a group of shareholders could form a group to become a controlling shareholder.

A controlling shareholder would have significant influence over, and may have the ability to control, matters requiring approval by our shareholders, including the election of directors and approval of mergers, consolidations, sales of assets, recapitalizations and amendments to our articles of incorporation. Furthermore, a controlling shareholder may take actions with which other shareholders do not agree, including actions that delay, defer or prevent a change of control of the company and that could cause the price that investors are willing to pay for the company's stock to decline.

Item 1B.UNRESOLVED STAFF COMMENTS

None.

Item 2.PROPERTIES

All of our stores are occupied under operating leases and encompassed approximately 2.1 million total square feet at February 2, 2019.

We own approximately 356,000 square feet of land in Lynnwood, Washington on which we own a 63,071 square foot home office. Additionally, we lease 14,208 square feet of office space in Schladming, Austria for our European home office.

We own a 168,450 square foot building in Corona, California that serves as our domestic warehouse and distribution center.

We lease 17,168 square feet of a distribution facility in Delta, British Columbia, Canada that supports our store operations in Canada. We lease a 90,826 square feet distribution and ecommerce fulfillment center in Graz, Austria that supports our Blue Tomato ecommerce and store operations in Europe. We lease a 10,010 square feet distribution and ecommerce fulfillment center in Melbourne, Australia that supports our Fast Times ecommerce and store operations in Australia.

Item 3.LEGAL PROCEEDINGS

We are involved from time to time in litigation incidental to our business. We believe that the outcome of current litigation is not expected to have a material adverse effect on our results of operations or financial condition.

See Note 10, "Commitments and Contingencies," in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K, for additional information related to legal proceedings.

Item 4.MINE SAFETY DISCLOSURES

Not applicable.

PART II

Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND
ISSUER PURCHASES OF EQUITY SECURITIES

Market Information

Our common stock is traded on the Nasdaq Global Select Market under the symbol "ZUMZ." At February 2, 2019, there were 25,521,082 shares of common stock outstanding. The following table sets forth the high and low sales prices for our common stock on the Nasdaq Global Select Market.

Fiscal 2018	High	Low
First Fiscal Quarter (February 4, 2018—May 5, 2018)	\$26.30	\$18.55
Second Fiscal Quarter (May 6, 2018—August 4, 2018)	\$31.55	\$20.25
Third Fiscal Quarter (August 5, 2018—November 3, 2018)	\$32.70	\$21.16
Fourth Fiscal Quarter (November 4, 2018—February 2, 2019)	\$25.67	\$17.57

Fiscal 2017	High	Low
First Fiscal Quarter (January 29, 2017—April 29, 2017)	\$21.75	\$15.90
Second Fiscal Quarter (April 30, 2017—July 29, 2017)	\$18.60	\$11.60
Third Fiscal Quarter (July 30, 2017—October 28, 2017)	\$20.10	\$11.43
Fourth Fiscal Quarter (October 29, 2017—February 3, 2018)	\$24.45	\$16.90

Performance Measurement Comparison

The following graph shows a comparison for total cumulative returns for Zumiez, the Nasdaq Composite Index and the Nasdaq Retail Trade Index during the period commencing on February 1, 2014 and ending on February 2, 2019. The comparison assumes \$100 was invested on February 1, 2014 in each of Zumiez, the Nasdaq Composite Index and the Nasdaq Retail Trade Index, and assumes the reinvestment of all dividends, if any. The comparison in the following graph and table is required by the SEC and is not intended to be a forecast or to be indicative of future Company common stock performance.

	2/1/14	1/31/15	1/30/16	1/28/17	2/3/18	2/2/19
Zumiez	100.00	173.28	84.15	87.59	95.49	116.82
NASDAQ Composite	100.00	114.30	115.10	141.84	189.26	187.97
NASDAQ Retail Trade	100.00	112.78	142.83	174.47	261.97	289.77

Holders of the Company's Capital Stock

We had approximately 12 shareholders of record as of March 11, 2019.

Dividends

No cash dividends have been declared on our common stock to date nor have any decisions been made to pay a dividend in the foreseeable future. Payment of dividends is evaluated on a periodic basis.

Recent Sales of Unregistered Securities

None

Issuer Purchases of Equity Securities

The following table presents information of our common stock made during the thirteen weeks ended February 2, 2019 (in thousands, except average price paid per share):

Period	Total Number of Shares	Average Price Paid per Share	Total Number of	Dollar Value of
			Shares Purchased	Shares that May
			as Part of Publicly	Yet be Repurchased
			Announced Plans	Under the Plans
Period	Purchased	Paid per Share	or Programs (1)	or Programs (1)
November 4, 2018—December 1, 2018	—	\$ —	—	\$ —
December 2, 2018—January 5, 2019 (2)	2	19.02	—	—
January 6, 2019—February 2, 2019	—	—	—	—
Total	2		—	

(1) The share repurchase program is conducted under authorizations made from time to time by our Board of Directors. In December 2018, our Board of Directors authorized us to repurchase up to \$75.0 million of our common stock. This program is expected to continue through February 1, 2020, unless the time period is extended or shortened by the Board of Directors. At February 3, 2019, there remains \$75.0 million available for share repurchase under the current share repurchase program.

(2) During the thirteen weeks ended February 2, 2019, 1,703 shares were purchased by us in order to satisfy employee tax withholding obligations upon the vesting of restricted stock. These shares were not acquired pursuant to any publicly announced purchase plan or program.

Item 6. SELECTED FINANCIAL DATA

The following selected consolidated financial information has been derived from our audited Consolidated Financial Statements. The data should be read in conjunction with our Consolidated Financial Statements and the notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere herein.

	Fiscal 2018 (1)	Fiscal 2017 (2)	Fiscal 2016	Fiscal 2015 (3)	Fiscal 2014 (4)
Statement of Operations Data					
(in thousands, except per share data):					
Net sales	\$978,617	\$ 927,401	\$ 836,268	\$ 804,183	\$ 811,551

Total store square footage (7)					
(in thousands)	2,072	2,041	2,009	1,935	1,770
Average square footage per store (8)	2,931	2,924	2,932	2,941	2,936
Net sales per square foot (9)	\$474	\$ 456	\$ 420	\$ 427	\$ 473

(1) Fiscal 2018 was a 52-week period. Included in the results for fiscal 2018 is \$8.7 million in benefit from the impact of U.S. federal tax legislation.

- (2) Fiscal 2017 was a 53-week period. All other fiscal year presented are 52-week periods. Included in the results for fiscal 2017 is \$10.3 million of net sales related to the additional week in the 53-week fiscal year, \$3.8 million in net sales related to the recognition of deferred revenue due to changes in our STASH loyalty program estimated redemption rate and \$3.4 million in our provision for income taxes due to a valuation allowance against our deferred tax assets in Austria.
- (3) Included in the results for fiscal 2015 is \$1.2 million for the exit costs associated with the closure of our Kansas fulfillment center, \$0.6 million for the expense associated with the incentive payments in conjunction with our acquisition of Blue Tomato and an expense of \$0.9 million of amortization of intangible assets.
- (4) Included in the results for fiscal 2014 is \$6.4 million for the expense associated with the incentive payments in conjunction with our acquisition of Blue Tomato and an expense of \$2.3 million of amortization of intangible assets.
- (5) See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—General” for more information about how we compute comparable sales.
- (6) Net sales per store represents net sales, including ecommerce sales, for the period divided by the average number of stores open during the period. For purposes of this calculation, the average number of stores open during the period is equal to the sum of the number of stores open as of the end of each month during the fiscal year divided by the number of months in the fiscal year.
- (7) Total store square footage includes retail selling, storage and back office space at the end of the fiscal year.
- (8) Average square footage per store is calculated based on the total store square footage at the end of the fiscal year, including retail selling, storage and back office space, of all stores open at the end of the fiscal year.
- (9) Net sales per square foot represents net sales, including ecommerce sales, for the period divided by the average square footage of stores open during the period. For purposes of this calculation, the average square footage of stores open during the period is equal to the sum of the total square footage of the stores open as of the end of each month during the fiscal year divided by the number of months in the fiscal year.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this document. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those discussed in "Item 1A Risk Factors." See the cautionary note regarding forward-looking statements set forth at the beginning of Part I of the Annual Report on Form 10-K.

Fiscal 2018—A Review of This Past Year

In fiscal 2018, we continued to see strong sales results and have now seen positive comparable sales for ten consecutive quarters driven by key brands and fashion trends in the market, as well as our unique brand experience. Our focus remains centered on the customer; including launching over 100 new brands during fiscal 2018 and each of the preceding 5 years. Consistently providing our customers with new choices and uniqueness in our product offering is essential to our success and provides us with growth drivers for the future. The full year comparable sales for fiscal 2018 increased 5.6% on top of comparable sales growth of 5.9% in fiscal 2017. Total net sales growth was 5.5%, despite the benefit of the 53rd week in the prior year. Operating margins increased from the prior year due primarily to leverage of our occupancy costs, reduction in inventory shrinkage and product margin improvements. We added 5 new stores in North America in fiscal 2018, which was down from 12 new stores added in fiscal 2017, as we get closer to our target store count. During fiscal 2018 we also added 7 new Blue Tomato stores in Europe and 1 new Fast Times store in Australia and continue to have meaningful expansion opportunities in these areas.

As a leading lifestyle retailer, we continue to differentiate ourselves through our distinctive brand offering and diverse product selection, as well as the unique customer experience across all of our platforms. We have made investments over several years to integrate the digital and physical channels creating a seamless shopping experience for our customer, which we believe is critical for our long-term financial performance. We are continuing to deliver our online orders in North America from our stores, which has provided significant improvements in the speed of delivery to our customers and the overall experience. In-store fulfillment is a key part of strategy that we believe will drive long term market share by leveraging the strengths of our store sales team, providing better and faster service to customers, improving product margins, providing additional selling opportunities, and utilizing one cost structure to serve the customer.

The following table shows net sales, operating profit, operating margin and diluted earnings per share for fiscal 2018 compared to fiscal 2017. Fiscal 2018 diluted earnings per share results include \$8.7 million in benefit from the impact of U.S. federal tax legislation or \$0.35 per share. Fiscal 2017 results include \$10.3 million of net sales related to the additional week in the 53-week period, \$3.8 million in net sales related to the recognition of deferred revenue due to changes in our STASH loyalty program estimated redemption rate, and \$3.4 million in our provision for income taxes due to a valuation allowance against our deferred tax assets in Austria.

	Fiscal 2018 (1)	Fiscal 2017	% Change	
Net sales (in thousands)	\$978,617	\$927,401	5.5	%
Operating profit (in thousands)	\$61,078	\$48,760	25.3	%
Operating margin	6.2	5.2		%
Diluted earnings per share	\$1.79	\$1.08	65.7	%

(1)Fiscal 2018 was a 52-week period and fiscal 2017 was a 53-week period.

The increase in net sales was driven primarily by a 5.6% comparable sales increase and the net addition of 9 stores (13 new stores offset by 4 store closures). The increase in comparable sales was driven by an increase in transactions and an increase in dollars per transaction. Dollars per transaction increased due to an increase in average unit retail, partially offset by a decrease in units per transaction. Operating margin increased in fiscal 2018 compared to fiscal 2017 primarily as a result of gross margin improvements.

Fiscal 2019—A Look At the Upcoming Year

We are entering 2019 with ten consecutive quarters of positive comparable sales growth behind us and strong brand and fashion trends in the business. In 2019, our focus will be on continued execution of our core culture and brand strategies as well as strategic investments centered on long-term quality growth. These investments will be largely focused on enhancing the customer experience and creating operational efficiencies to drive operating margin expansion. As we reach our targeted number of stores in North America, we expect that total store count growth in fiscal 2019 in the region will continue to moderate. In Europe and Australia, however, we continue to believe we have growth opportunities and we are planning 8 new stores in fiscal 2019, consistent with fiscal 2018.

In fiscal 2019, we expect our cost structure will grow at a slower rate than 2018, primarily tied to the leveraging of our store costs and expense initiatives across the organization. We anticipate inventory levels per square foot will grow roughly in-line with sales growth. Excluding any possible share buy-backs, we expect cash, short-term investments and working capital to increase, and do not anticipate any new long-term borrowings during the year. Long-term, we aim to grow sales annually and grow operating profit at a faster rate than sales by focusing on the changing consumer environment while managing our cost structure.

General

Net sales constitute gross sales, net of actual and estimated returns and deductions for promotions, and shipping revenue. Net sales include our store sales and our ecommerce sales. We record the sale of gift cards as a current liability and recognize revenue when a customer redeems a gift card. Additionally, the portion of gift cards that will not be redeemed (“gift card breakage”) is recognized based on our historical redemption rate in proportion to the pattern of rights exercised by the customer.

We report “comparable sales” based on net sales beginning on the first anniversary of the first day of operation of a new store or ecommerce business. We operate a sales strategy that integrates our stores with our ecommerce platform. There is significant interaction between our store sales and our ecommerce sales channels and we believe that they are utilized in tandem to serve our customers. Therefore, our comparable sales also include our ecommerce sales. Changes in our comparable sales between two periods are based on net sales of store or ecommerce business which were in operation during both of the two periods being compared and, if a store or ecommerce business is included in the calculation of comparable sales for only a portion of one of the two periods being compared, then that store or ecommerce business is included in the calculation for only the comparable portion of the other period. Any increase or decrease less than 25% in square footage of an existing comparable store, including remodels and relocations within the same mall, or temporary closures less than seven days does not eliminate that store from inclusion in the calculation of comparable sales. Any store or ecommerce business that we acquire will be included in the calculation of comparable sales after the first anniversary of the acquisition date. Current year foreign exchange rates are applied to both current year and prior year comparable sales to achieve a consistent basis for comparison. There may be variations in the way in which some of our competitors and other apparel retailers calculate comparable sales. As a result, data herein regarding our comparable sales may not be comparable to similar data made available by our competitors or other retailers.

Cost of goods sold consists of branded merchandise costs and our private label merchandise costs including design, sourcing, importing and inbound freight costs. Our cost of goods sold also includes shrinkage, buying, occupancy, ecommerce fulfillment, distribution and warehousing costs (including associated depreciation) and freight costs for store merchandise transfers. This may not be comparable to the way in which our competitors or other retailers compute their cost of goods sold. Cash consideration received from vendors is reported as a reduction of cost of goods sold if the inventory has sold, a reduction of the carrying value of the inventory if the inventory is still on hand, or a reduction of selling, general and administrative expense if the amounts are reimbursements of specific, incremental and identifiable costs of selling the vendors’ products.

With respect to the freight component of our ecommerce sales, amounts billed to our customers are included in net sales and the related freight cost is charged to cost of goods sold.

Selling, general and administrative expenses consist primarily of store personnel wages and benefits, administrative staff and infrastructure expenses, freight costs for merchandise shipments from the distribution centers to the stores, store supplies, depreciation on fixed assets at our home office and stores, facility expenses, training expenses and advertising and marketing costs. Credit card fees, insurance, public company expenses, legal expenses, amortization of intangibles, and other miscellaneous operating costs are also included in selling, general and administrative expenses. This may not be comparable to the way in which our competitors or other retailers compute their selling, general and administrative expenses.

Key Performance Indicators

Our management evaluates the following items, which we consider key performance indicators, in assessing our performance:

Net sales. Net sales constitute gross sales, net of sales returns and deductions for promotions, and shipping revenue. Net sales includes comparable sales and new store sales for all our store and ecommerce businesses. We consider net sales to be an important indicator of our current performance. Net sales results are important to achieve leveraging of our costs, including store payroll and store occupancy. Net sales also have a direct impact on our operating profit, cash and working capital.

Gross profit. Gross profit measures whether we are optimizing the price and inventory levels of our merchandise. Gross profit is the difference between net sales and cost of goods sold. Any inability to obtain acceptable levels of initial markups or any significant increase in our use of markdowns could have an adverse effect on our gross profit and results of operations.

Operating profit. We view operating profit as a key indicator of our success. Operating profit is the difference between gross profit and selling, general and administrative expenses. The key drivers of operating profit are net sales, gross profit, our ability to control selling, general and administrative expenses and our level of capital expenditures affecting depreciation expense.

Diluted earnings per share. Diluted earnings per share is based on the weighted average number of common shares and common share equivalents outstanding during the period. We view diluted earnings per share as a key indicator of our success in increasing shareholder value.

Results of Operations

The following table presents selected items on the consolidated statements of income as a percent of net sales:

	Fiscal 2018	Fiscal 2017	Fiscal 2016
Net sales	100.0%	100.0%	100.0%
Cost of goods sold	65.7 %	66.6 %	67.1 %
Gross profit	34.3 %	33.4 %	32.9 %
Selling, general and administrative expenses	28.1 %	28.2 %	28.1 %
Operating profit	6.2 %	5.2 %	4.8 %
Interest and other income (expense), net	0.2 %	0.0 %	0.0 %
Earnings before income taxes	6.4 %	5.2 %	4.8 %
Provision for income taxes	1.8 %	2.3 %	1.7 %
Net income	4.6 %	2.9 %	3.1 %

Fiscal 2018 Results Compared With Fiscal 2017

Net Sales

Fiscal 2018 was a 52-week period and fiscal 2017 was a 53-week period. Net sales for fiscal 2017 include an additional week of sales, whereas comparable sales are calculated using the comparable sales for the comparable 52-week period.

29

Net sales were \$978.6 million for fiscal 2018 compared to \$927.4 million for fiscal 2017, an increase of \$51.2 million or 5.5%. The increase reflected a \$50.4 million increase due to comparable sales and a \$12.3 million increase due to the net addition of 9 stores (made up of 5 new stores in North America, 7 new stores in Europe, and 1 new store in Australia offset by 4 store closures), partially offset by a decrease of \$9.1 million related to the additional week in the 53-week period and calendar shift in fiscal 2017. By region, North America sales increased \$41.6 million or 5.0% and other international sales increased \$9.6 million or 9.7% during fiscal 2018 compared to fiscal 2017.

The 5.6% increase in comparable sales was primarily driven by an increase in comparable transactions and an increase in dollars per transaction. Dollars per transaction increased due to an increase in average unit retail, partially offset by a decrease in units per transaction. Comparable sales were primarily driven by an increase in men's apparel followed by footwear, women's apparel, and accessories partially offset by a decrease in hardgoods. For information as to how we define comparable sales, see "General" above.

Gross Profit

Gross profit was \$335.9 million for fiscal 2018 compared to \$309.9 million for fiscal 2017, an increase of \$26.1 million, or 8.4%. As a percentage of net sales, gross profit increased 90 basis points in fiscal 2018 to 34.3%. The increase was primarily driven by 50 basis points of leverage in our store occupancy costs, 40 basis points due to lower inventory shrinkage, and 20 basis points due to higher product margin, partially offset by 20 basis points in higher shipping costs.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses were \$274.9 million for fiscal 2018 compared to \$261.1 million for fiscal 2017, an increase of \$13.7 million, or 5.3%. SG&A expenses as a percent of net sales decreased 10 basis points in fiscal 2018 to 28.1%. The decrease was primarily driven by 40 basis points impact of leverage in our store costs partially offset by 20 basis points in corporate costs.

Net Income

Net income for fiscal 2018 was \$45.2 million, or \$1.79 per diluted share, compared with net income of \$26.8 million, or \$1.08 per diluted share, for fiscal 2017. Our effective income tax rate for fiscal 2018 was 27.5% compared to 44.6% for fiscal 2017. The decrease in the effective tax rate for fiscal 2018 compared to fiscal 2017 was primarily related to a decrease of \$8.7 million related to the changes in U.S. federal tax legislation that decreased the U.S. federal statutory rate from 35.0% to 21.0% effective January 1, 2018, as well as fiscal 2017 included an additional \$3.4 million or 7.0% related to the valuation allowance against our deferred tax assets in Austria.

Fiscal 2017 Results Compared With Fiscal 2016

Net Sales

Fiscal 2017 was a 53-week period and fiscal 2016 was a 52-week period. Net sales for fiscal 2017 include an additional week and comparable sales are calculated using the comparable sales for the comparable 53-week period.

Net sales were \$927.4 million for fiscal 2017 compared to \$836.3 million for fiscal 2016, an increase of \$91.1 million or 10.9%. The increase reflected a \$48.6 million increase due to comparable sales and a \$23.6 million increase due to the net addition of 13 stores (made up of 12 new stores in North America, 5 new stores in Europe, and 2 new stores in Australia offset by 6 store closures). Net sales include \$10.3 million related to the additional week in the 53-week period and a \$6.3 million increase due to changes in foreign currency rates. By region, North America sales increased \$73.9 million or 9.8% and other international sales increased \$17.2 million or 20.8% during fiscal 2017 compared to fiscal 2016.

The 5.9% increase in comparable sales was primarily driven by an increase in comparable transactions partially offset by a decrease in dollars per transaction. Dollars per transaction decreased due to a decrease in units per transaction partially offset by an increase in average unit retail. Comparable sales were primarily driven by an increase in men's apparel followed by women's apparel. These increases were partially offset by decreases in comparable sales primarily in accessories followed by hardgoods and then footwear. For information as to how we define comparable sales, see "General" above.

Gross Profit

Gross profit was \$309.9 million for fiscal 2017 compared to \$275.0 million for fiscal 2016, an increase of \$34.9 million, or 12.7%. As a percentage of net sales, gross profit increased 50 basis points in fiscal 2017 to 33.4%. The increase was primarily driven by an 80 basis point impact due to leveraging of our store occupancy costs, 30 basis points related to the recognition of deferred revenue due to changes in our STASH loyalty program estimated redemption rate and 20 basis points on product margin. These were partially offset by 60 basis points in higher inventory shrinkage and 10 basis points due to higher annual incentive compensation.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses were \$261.1 million for fiscal 2017 compared to \$235.3 million for fiscal 2016, an increase of \$25.9 million, or 11.0%. SG&A expenses as a percent of net sales increased by 10 basis points in fiscal 2017 to 28.2%. The increase was primarily driven by 60 basis points from higher annual incentive compensation partially offset by 50 basis points due to the leverage of store costs.

Net Income

Net income for fiscal 2017 was \$26.8 million, or \$1.08 per diluted share, compared with net income of \$25.9 million, or \$1.04 per diluted share, for fiscal 2016. Our effective income tax rate for fiscal 2017 was 44.6% compared to 35.6% for fiscal 2016. The increase in the effective tax rate for fiscal 2017 compared to fiscal 2016 was primarily related to \$3.4 million or 7.0% from the valuation allowance against our deferred tax assets in Austria.

Seasonality and Quarterly Results

As is the case with many retailers of apparel and related merchandise, our business is subject to seasonal influences. As a result, we have historically experienced, and expect to continue to experience, seasonal and quarterly fluctuations in our net sales and operating results. Our net sales and operating results are typically lower in the first and second quarters of our fiscal year, while the back-to-school and winter holiday periods in our third and fourth fiscal quarters historically have accounted for the largest percentage of our annual net sales. Quarterly results of operations may also fluctuate significantly as a result of a variety of factors, including the timing of store openings and the relative proportion of our new stores to mature stores, fashion trends and changes in consumer preferences, calendar shifts of holiday or seasonal periods, changes in merchandise mix, timing of promotional events, general economic conditions, competition and weather conditions.

Edgar Filing: Zumiez Inc - Form 10-K

The following table sets forth selected unaudited quarterly consolidated statements of income data. The unaudited quarterly information has been prepared on a basis consistent with the audited consolidated financial statements included elsewhere herein and includes all adjustments that we consider necessary for a fair presentation of the information shown. This information should be read in conjunction with our audited consolidated financial statements and the notes thereto. The operating results for any fiscal quarter are not indicative of the operating results for a full fiscal year or for any future period and there can be no assurance that any trend reflected in such results will continue in the future.

Comparable sales increase	1.8	%	4.7	%	7.9	%	7.5	%

Liquidity and Capital Resources

Our primary uses of cash are for operational expenditures, inventory purchases and capital investments, including new stores, store remodels, store relocations, store fixtures and ongoing infrastructure improvements. Additionally, we may use cash for the repurchase of our common stock. Historically, our main source of liquidity has been cash flows from operations.

The significant components of our working capital are inventories and liquid assets such as cash, cash equivalents, current marketable securities and receivables, reduced by accounts payable and accrued expenses. Our working capital position benefits from the fact that we generally collect cash from sales to customers the same day or within several days of the related sale, while we typically have longer payment terms with our vendors.

At February 2, 2019 and February 3, 2018, cash, cash equivalents and current marketable securities were \$165.3 million and \$121.9 million. Working capital, the excess of current assets over current liabilities, was \$234.1 million at the end of fiscal 2018, an increase of 30.1% from \$179.9 million at the end of fiscal 2017. The increase in cash, cash equivalents and current marketable securities in fiscal 2018 was due primarily to cash provided by operating activities of \$65.3 million, partially offset by \$21.0 million of capital expenditures primarily related to the opening of 9 new stores and 23 remodels and relocations.

The following table summarizes our cash flows from operating, investing and financing activities (in thousands):

	Fiscal 2018	Fiscal 2017	Fiscal 2016
Total cash provided by (used in)			
Operating activities	\$65,319	\$65,514	\$48,458
Investing activities	(36,398)	(63,970)	(51,515)
Financing activities	120	1,273	(20,077)
Effect of exchange rate changes on cash and cash equivalents	(660)	977	218
Increase (decrease) in cash and cash equivalents	\$28,381	\$3,794	\$(22,916)

Operating Activities

Net cash provided by operating activities decreased by \$0.2 million in fiscal 2018 to \$65.3 million from \$65.5 million in fiscal 2017. Net cash provided by operating activities increased by \$17.0 million in fiscal 2017 to \$65.5 million from \$48.5 million in fiscal 2016. Our operating cash flows result primarily from cash received from our customers, offset by cash payments we make for inventory, employee compensation, store occupancy expenses and other operational expenditures. Cash received from our customers generally corresponds to our net sales. Because our customers primarily use credit cards or cash to buy from us, our receivables from customers settle quickly. Changes to our operating cash flows have historically been driven primarily by changes in operating income, which is impacted by changes to non-cash items such as depreciation, amortization and accretion, deferred taxes, and changes to the components of working capital.

Investing Activities

Net cash used in investing activities was \$36.4 million in fiscal 2018 related to \$21.0 million of capital expenditures primarily for new store openings and existing store remodels or relocations and \$15.4 million in net purchases of marketable securities. Net cash used in investing activities was \$64.0 million in fiscal 2017 related to \$39.9 million in net purchases of marketable securities and \$24.1 million of capital expenditures primarily for new store openings and existing store remodels or relocations. Net cash used in investing activities was \$51.5 million in fiscal 2016 related to \$25.7 million in net purchases of marketable securities, \$20.4 million of capital expenditures primarily for new store openings and existing store remodels or relocations and \$5.4 million for the acquisition of Fast Times (net of cash acquired).

Financing Activities

Net cash provided by financing activities in fiscal 2018 was \$0.1 million related to \$0.9 million in proceeds from issuance of stock-based awards partially offset by \$0.2 million in payments on tax withholding obligation upon vesting of restricted stock and \$0.5 million of net payments on revolving credit facilities. Net cash provided by financing activities in fiscal 2017 was \$1.3 million related to \$0.8 million of net proceeds on revolving credit facilities and \$0.7 million in proceeds from issuance of stock-based awards partially offset by \$0.2 million in payments on tax withholding obligation upon vesting of restricted stock. Net cash used in financing activities in fiscal 2016 was \$20.1 million related to \$21.6 million cash paid for repurchase of common stock and \$0.2 million in payments on tax withholding obligation upon vesting of restricted stock partially offset by \$1.0 million in proceeds from issuance and exercises of stock-based award and \$0.6 million of net proceeds on revolving credit facilities.

Sources of Liquidity

Our most significant sources of liquidity continue to be funds generated by operating activities and available cash, cash equivalents and current marketable securities. We expect these sources of liquidity and available borrowings under our revolving credit facility will be sufficient to meet our foreseeable cash requirements for operations and planned capital expenditures for at least the next twelve months. Beyond this time frame, if cash flows from operations are not sufficient to meet our capital requirements, then we will be required to obtain additional equity or debt financing in the future. However, there can be no assurance that equity or debt financing will be available to us when we need it or, if available, that the terms will be satisfactory to us and not dilutive to our then-current shareholders.

As of February 2, 2019, we maintained a secured credit agreement with Wells Fargo Bank, N.A., which provided us with a senior secured credit facility (“credit facility”) of up to \$35.0 million. The credit facility is available for working capital and other general corporate purposes. The credit facility provides for the issuance of standby letters of credit in an amount not to exceed \$17.5 million outstanding at any time and with a term not to exceed 365 days. The commercial line of credit provides for the issuance of commercial letters of credit in an amount not to exceed \$10.0 million and with terms not to exceed 120 days. The credit facility will mature on December 7, 2021. The credit facility is secured by a first-priority security interest in substantially all of the personal property (but not the real property) of the borrowers and guarantors. Amounts borrowed under the credit facility bear interest at an adjusted LIBOR rate plus a margin of 1.25% per annum. There were no borrowings or open commercial letters of credit outstanding under the secured credit facility at February 2, 2019.

Capital Expenditures

Our capital requirements include construction and fixture costs related to the opening of new stores and remodel and relocation expenditures for existing stores. Future capital requirements will depend on many factors, including the pace of new store openings, the availability of suitable locations for new stores and the nature of arrangements negotiated with landlords. In that regard, our net investment to open a new store has varied significantly in the past due to a number of factors, including the geographic location and size of the new store, and is likely to vary significantly in the future.

During fiscal 2018, we spent \$21.0 million on capital expenditures, which consisted of \$15.6 million of costs related to investment in 9 new stores and 23 remodeled or relocated stores, \$2.5 million associated with improvements to our websites and the Customer Engagement Suite and \$2.9 million in other improvements.

During fiscal 2017, we spent \$24.1 million on capital expenditures, which consisted of \$18.3 million of costs related to investment in 19 new stores and 20 remodeled or relocated stores, \$3.2 million associated with improvements to our websites and the Customer Engagement Suite and \$2.6 million in other improvements.

During fiscal 2016, we spent \$20.4 million on capital expenditures, which consisted of \$16.1 million of costs related to investment in 28 new stores and 14 remodeled or relocated stores, \$2.3 million associated with improvements to our websites and the Customer Engagement Suite and \$2.0 million in other improvements.

In fiscal 2019, we expect to spend approximately \$21 million to \$23 million on capital expenditures, a majority of which will relate to leasehold improvements and fixtures for the approximately 14 new stores we plan to open in fiscal 2019 and remodels or relocations of existing stores, as well as improvements to our websites and the Customer Engagement Suite. There can be no assurance that the number of stores that we actually open in fiscal 2019 will not be different from the number of stores we plan to open, or that actual fiscal 2019 capital expenditures will not differ from this expected amount.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with U.S. GAAP. In connection with the preparation of our consolidated financial statements, we are required to make assumptions and estimates about future events, and apply judgments that affect the reported amounts of assets, liabilities, revenue, expenses and the related disclosures. We base our assumptions, estimates and judgments on historical experience, current trends and other factors that we believe to be relevant at the time our consolidated financial statements are prepared. On a regular basis, we review the accounting policies, assumptions, estimates and judgments to ensure that our consolidated financial statements are presented fairly and in accordance with U.S. GAAP. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material.

Our significant accounting policies are discussed in Note 2, “Summary of Significant Accounting Policies,” in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K. We believe that the following accounting estimates are the most critical to aid in fully understanding and evaluating our reported financial results, and they require our most difficult, subjective or complex judgments, resulting from the need to make estimates about the effect of matters that are inherently uncertain.

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
Valuation of Merchandise Inventories		
We value our inventory at the lower of average cost or net realizable value through the establishment of write-down and inventory loss reserves.	Our write-down reserve contains uncertainties because the calculation requires management to make assumptions based on the current rate of sales, the age and profitability of inventory and other factors.	We have not made any material changes in the accounting methodology used to calculate our write-down and shrinkage reserves in the past three fiscal years. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates we use to calculate our inventory reserves. However, if actual results are not consistent with our estimates, we may be exposed to losses or gains that could be material. A 10% decrease in the sales price of our inventory at February 2, 2019 would have decreased net income by \$0.1 million in fiscal 2018. A 10% increase in actual physical inventory shrinkage rate at February 2, 2019 would have decreased net income by \$0.4 million in fiscal 2018.
Our write-down reserve represents the excess of the carrying value over the amount we expect to realize from the ultimate sales or other disposal of the inventory. Write-downs establish a new cost basis for our inventory. Subsequent changes in facts or circumstances do not result in the restoration of previously recorded write-downs or an increase in that newly established cost basis.	Our shrinkage reserve contains uncertainties because the calculation requires management to make assumptions and to apply judgment regarding a number of factors, including historical percentages that can be affected by changes in merchandise mix and changes in actual shrinkage trends.	
Our inventory loss reserve represents anticipated physical inventory losses (“shrinkage reserve”) that have occurred since the last physical inventory.		
Valuation of Long-Lived Assets		
We review the carrying value of our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such asset or asset group may not be recoverable.	Events that may result in an impairment include the decision to close a store or facility or a significant decrease in the operating performance of a long-lived asset group. Our impairment calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flows and asset fair values, including	We do not believe there is a reasonable likelihood that there will be a material change in the estimates or assumptions we use to calculate long-lived asset impairment losses. However, if actual results are not consistent with our estimates and assumptions, our operating results could be adversely affected. Declines in projected cash flow of the assets could result in

Recoverability of assets to be held and used is determined by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered impaired, the impairment recognized is measured by comparing the projected discounted cash flow of the asset to the asset carrying value.

The actual economic lives of our fixed assets may be different from our estimated useful lives, thereby resulting in a different carrying value. These evaluations could result in a change in the depreciable lives of these assets and therefore our depreciation expense in future periods.

forecasting future sales, gross profit and operating expenses. In addition to historical results, current trends and initiatives, and long-term macro-economic and industry factors are qualitatively considered. Additionally, management seeks input from store operations related to local economic conditions, including the impact of closures of selected co-tenants who occupy the mall.

Our fixed assets accounting methodology contains uncertainties because it requires management to make estimates with respect to the useful lives of our fixed assets that we believe are reasonable.

impairment.

Although management believes that the current useful life estimates assigned to our fixed assets are reasonable, factors could cause us to change our estimates, thus affecting the future calculation of depreciation.

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
Revenue Recognition		
Revenue is recognized upon purchase at our retail store locations. For our ecommerce sales, revenue is recognized upon shipment to the customer. Revenue is recorded net of sales returns and deductions for promotions.	Our revenue recognition accounting methodology contains uncertainties because it requires management to make assumptions regarding future sales returns and the amount and timing of gift cards projected to be redeemed by gift card recipients. Our estimate of the amount and timing of sales returns and gift cards to be redeemed is based primarily on historical experience.	We have not made any material changes in the accounting methodology used to measure future sales returns in the past three fiscal years.
Revenue is not recorded on the sale of gift cards. We record the sale of gift cards as a current liability and recognize revenue when a customer redeems a gift card. Additionally, the portion of gift cards that will not be redeemed (“gift card breakage”) is recognized in proportion of the patterns used by the customer based on our historical redemption patterns.	Our estimate of the amount and timing of sales returns and gift cards to be redeemed is based primarily on historical experience.	The adoption of ASC 606 resulted in a change in methodology for our gift card breakage for fiscal 2018. This change in methodology did not have a material impact on the financial statements.
		We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions we use to recognize revenue. However, if actual results are not consistent with our estimates or assumptions, we may be exposed to losses or gains that could be material.
		A 10% increase in our sales return reserve at February 2, 2019 would have decreased net income by \$0.2 million in fiscal 2018.
Accounting for Income Taxes		
As part of the process of preparing the consolidated financial statements, income taxes are estimated for each of the jurisdictions in which we operate. This process involves estimating actual current tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included on the consolidated balance sheets. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.	Significant judgment is required in evaluating our tax positions and determining our provision for income taxes. During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. For example, our effective tax rates could be adversely affected by earnings being lower than anticipated in jurisdictions where we have lower statutory rates and higher than anticipated in jurisdictions	Although management believes that the income tax related judgments and estimates are reasonable, actual results could differ and we may be exposed to losses or gains that could be material.
		At February 2, 2019 and February 3, 2018, we had valuation allowances on our deferred tax assets of \$5.2 million and \$3.6 million, respectively. Significant changes in performance or estimated taxable income may result in a change to our valuation allowance.

We regularly evaluate the likelihood of realizing the benefit for income tax positions we have taken in various federal, state and foreign filings by considering all relevant facts, circumstances and information available to us. If we believe it is more likely than not that our position will be sustained, we recognize a benefit at the largest amount that we believe is cumulatively greater than 50% likely to be realized.

where we have higher statutory rates.

The assessment of whether we will realize the value of our deferred tax assets requires estimates and judgments related to amount and timing of future taxable income. Actual results may differ from those estimates.

Upon income tax audit, any unfavorable tax settlement generally would require use of our cash and may result in an increase in our effective income tax rate in the period of resolution. A favorable tax settlement may be recognized as a reduction in our effective income tax rate in the period of resolution.

Additionally, changes in the relevant tax, accounting and other laws, regulations, principles and interpretations may adversely affect financial results.

Description	Judgments and Uncertainties	Effect If Actual Results Differ From Assumptions
Accounting for Contingencies		
We are subject to various claims and contingencies related to lawsuits, insurance, regulatory and other matters arising out of the normal course of business. We accrue a liability if the likelihood of an adverse outcome is probable and the amount is estimable. If the likelihood of an adverse outcome is only reasonably possible (as opposed to probable), or if an estimate is not determinable, we provide disclosure of a material claim or contingency.	Significant judgment is required in evaluating our claims and contingencies, including determining the probability that a liability has been incurred and whether such liability is reasonably estimable. The estimated accruals for claims and contingencies are made based on the best information available, which can be highly subjective.	Although management believes that the contingency related judgments and estimates are reasonable, our accrual for claims and contingencies could fluctuate as additional information becomes known, thereby creating variability in our results of operations from period to period. Additionally, actual results could differ and we may be exposed to losses or gains that could be material.
Goodwill and Indefinite-lived Intangible Assets		
We assess goodwill and indefinite-lived intangible assets for impairment on an annual basis or more frequently if indicators of impairment arise. We perform this analysis at the reporting unit level.	The goodwill and indefinite-lived intangible assets impairment tests require management to make assumptions and judgments.	Based on the results of our annual impairment test for goodwill and indefinite-lived intangible assets, no impairment was recorded. As of November 4, 2018, the most recent impairment assessment date, the estimated fair value of our Blue Tomato reporting unit exceeded the carrying value by 9.7%. As of February 2, 2019, the Blue Tomato reporting unit had \$43.2 million of goodwill. The remaining reporting units had a fair value substantially in excess of the carrying value. If actual results are not consistent with our estimates or assumptions, or there are significant changes in any of these estimates, projections and assumptions, could have a material effect of the fair value of these assets in future measurement periods and result in an impairment, which could materially affect our results of operations.
We have an option to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If we choose not to perform the qualitative test or we determine that it is more likely than not that the fair value of the reporting unit is less than the carrying amount, we perform a quantitative two-step impairment test. The first step compares the carrying value of the reporting unit to its estimated fair value, which is based on the perspective of a market-participant. If the fair value of the reporting unit is lower than the carrying value, then a second	Our quantitative goodwill analysis of fair value is determined using a combination of the income and market approaches. Key assumptions in the income approach include estimating future cash flows, long-term growth rates and weighted average cost of capital. Our ability to realize the future cash flows used in our fair value calculations is affected by factors such as changes in economic conditions, operating performance and our business strategies. Key assumptions in the market approach include identifying companies and transactions	

step is performed to quantify the amount of the impairment.

with comparable business factors, such as earnings growth, profitability, business and financial risk.

We test our indefinite-lived intangible assets by comparing the carry value to the estimated fair value. An impairment loss is recorded for the amount in which the carrying value exceeds the estimated fair value.

The fair value of the trade names and trademarks is determined using the relief from royalty method, which requires assumptions including forecasting future sales, discount rates and royalty rates.

Contractual Obligations and Commercial Commitments

There were no material changes outside the ordinary course of business in our contractual obligations during fiscal 2018. The following table summarizes the total amount of future payments due under our contractual obligations at February 2, 2019 (in thousands):

	Total	Fiscal 2019	Fiscal 2020 and Fiscal 2021	Fiscal 2022 and Fiscal 2023	Thereafter
Operating lease obligations (1)	\$391,301	\$69,293	\$ 127,326	\$ 100,658	\$ 94,024
Purchase obligations (2)	216,587	214,866	1,721	—	—
Total	\$607,888	\$284,159	\$ 129,047	\$ 100,658	\$ 94,024

- (1) Amounts do not include contingent rent and real estate taxes, insurance, common area maintenance charges and other executory costs obligations. See Note 10, “Commitments and Contingencies,” in the Notes to Consolidated Financial Statements found in Part IV Item 15 of the Form 10-K, for additional information related to our operating leases.
- (2) We have an option to cancel these commitments with no notice prior to shipment, except for certain private label, packaging supplies and international purchase orders in which we are obligated to repay contractual amounts upon cancellation.

Off-Balance Sheet Arrangements

At February 2, 2019, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K.

Impact of Inflation/Deflation

We do not believe that inflation has had a material impact on our net sales or operating results for the past three fiscal years. However, substantial increases in costs, including the price of raw materials, labor, energy and other inputs used in the production of our merchandise or the potential change in regulatory environment, could have a significant impact on our business and the industry in the future. Additionally, while deflation could positively impact our merchandise costs, it could have an adverse effect on our average unit retail price, resulting in lower sales and operating results.

Recent Accounting Pronouncements

See Note 2, “Summary of Significant Accounting Policies,” in the Notes to Consolidated Financial Statements found in Part IV Item 15 of this Form 10-K.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

Our earnings are affected by changes in market interest rates as a result of our short-term and long-term marketable securities, which are primarily invested in state and local municipal securities and variable-rate demand notes, which have long-term nominal maturity dates but feature variable interest rates that reset at short-term intervals. If our current portfolio average yield rate decreased by 10% in fiscal 2018, our net income would have decreased by \$0.2 million. This amount is determined by considering the impact of the hypothetical yield rates on our cash, cash

equivalents, short-term marketable securities and assumes no changes in our investment structure.

During different times of the year, due to the seasonality of our business, we may borrow under our revolving credit facility. To the extent we borrow under this revolving credit facility, we are exposed to the market risk related to changes in interest rates. At February 2, 2019, we had no borrowings outstanding under the secured revolving credit facility.

Foreign Exchange Rate Risk

Our international subsidiaries operate with functional currencies other than the U.S. dollar, including the Canadian dollar, Euro, Australian dollar and Swiss franc. Therefore, we must translate revenues, expenses, assets and liabilities from functional currencies into U.S. dollars at exchange rates in effect during, or at the end of, the reporting period. As a result, the fluctuation in the value of the U.S. dollar against other currencies affects the reported amounts of revenues, expenses, assets and liabilities. Assuming a 10% change in foreign exchange rates in fiscal 2018 our net income would have decreased or increased by \$0.7 million. As we expand our international operations, our exposure to exchange rate fluctuations will continue to increase. To date, we have not used derivatives to manage foreign currency exchange risk.

We import merchandise from foreign countries. As a result, any significant or sudden change in the financial, banking or currency policies and practices of these countries could have a material adverse impact on our financial position, results of operations and cash flows.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Information with respect to this item is set forth in “Index to the Consolidated Financial Statements,” found in Part IV Item 15 of this Form 10-K.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Securities Exchange Act Rule 13a-15(e)). Based on this evaluation, our CEO and CFO concluded that, as of February 2, 2019, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting. There has been no change in our internal control over financial reporting (as defined in Securities Exchange Act Rule 13a-15(f)) during the quarter ended February 2, 2019 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management’s Annual Report on Internal Control over Financial Reporting. The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934. The Company’s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

This process includes policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements, and can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Furthermore, because of changes in conditions, the effectiveness of internal control may vary over time.

The Company's management, with the participation of the Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of February 2, 2019. Management's assessment was based on criteria described in the Internal Control—Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that the Company's internal control over financial reporting was effective as of February 2, 2019.

The effectiveness of the Company's internal control over financial reporting as of February 2, 2019 has been audited by Moss Adams LLP, the Company's independent registered public accounting firm, as stated in their report, which is included below.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of

Zumiez Inc.

Opinion on Internal Control over Financial Reporting

We have audited Zumiez Inc.'s (the "Company") internal control over financial reporting as of February 2, 2019, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of February 2, 2019, based on criteria established in Internal Control - Integrated Framework (2013) issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheets of Zumiez Inc. as of February 2, 2019 and February 3, 2018, the related consolidated statements of income, comprehensive income, changes in shareholders' equity, and cash flows for each of the three years in the period ended February 2, 2019, and the related notes (collectively referred to as the "consolidated financial statements") and our report dated March 18, 2019 expressed an unqualified opinion on those consolidated financial statements.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting included in Item 9A. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART III

Item 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information regarding our directors and nominees for directorship is presented under the headings “Election of Directors,” in our definitive proxy statement for use in connection with our 2019 Annual Meeting of Shareholders (the “Proxy Statement”) that will be filed within 120 days after our fiscal year ended February 2, 2019 and is incorporated herein by this reference thereto. Information concerning our executive officers is set forth under the heading “Executive Officers” in our Proxy Statement, and is incorporated herein by reference thereto. Information regarding compliance with Section 16(a) of the Exchange Act, our code of conduct and ethics and certain information related to the Company’s Audit Committee, Compensation Committee and Governance Committee is set forth under the heading “Corporate Governance” in our Proxy Statement, and is incorporated herein by reference thereto.

Item 11. EXECUTIVE COMPENSATION

Information regarding the compensation of our directors and executive officers and certain information related to the Company’s Compensation Committee is set forth under the headings “Executive Compensation,” “Director Compensation,” “Compensation Discussion and Analysis,” “Report of the Compensation Committee of the Board of Directors” and “Compensation Committee Interlocks and Insider Participation” in our Proxy Statement, and is incorporated herein by this reference thereto.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS, AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS

Information with respect to security ownership of certain beneficial owners and management is set forth under the headings “Security Ownership of Certain Beneficial Owners and Management” and “Equity Compensation Plan Information” in our Proxy Statement, and is incorporated herein by this reference thereto.

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information regarding certain relationships and related transactions and director independence is presented under the heading “Corporate Governance” in our Proxy Statement, and is incorporated herein by this reference thereto.

Item 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information concerning principal accounting fees and services is presented under the heading “Fees Paid to Independent Registered Public Accounting Firm for Fiscal 2018 and 2017” in our Proxy Statement, and is incorporated herein by this reference thereto.

PART IV

Item 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES

(a)(1) Consolidated Financial Statements

(2) Consolidated Financial Statement Schedules:

All financial statement schedules are omitted because the required information is presented either in the consolidated financial statements or notes thereto, or is not applicable, required or material.

(3) Exhibits included or incorporated herein:

See Exhibit Index.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of

Zumiez Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Zumiez Inc. (the “Company”) as of February 2, 2019 and February 3, 2018, the related consolidated statements of income, comprehensive income, changes in shareholders’ equity, and cash flows for each of the three years in the period ended February 2, 2019, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as of February 2, 2019, and the consolidated results of its operations and its cash flows for each of the three years in the period ended February 2, 2019, in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (“PCAOB”), the Company’s internal control over financial reporting as of February 2, 2019, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 18, 2019 expressed an unqualified opinion on the Company’s internal control over financial reporting.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures to respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Moss Adams LLP

Seattle, Washington

March 18, 2019

We have served as the Company’s auditor since 2006.

ZUMIEZ INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Business and Basis of Presentation

Nature of Business—Zumiez Inc., including its wholly-owned subsidiaries, (“Zumiez”, the “Company,” “we,” “us,” “its” and “our”) is a leading specialty retailer of apparel, footwear, accessories and hardgoods for young men and women who want to express their individuality through the fashion, music, art and culture of action sports, streetwear and other unique lifestyles. At February 2, 2019, we operated 707 stores; 608 in the United States (“U.S.”), 50 in Canada, 41 in Europe and 8 in Australia. We operate under the names Zumiez, Blue Tomato and Fast Times. Additionally, we operate ecommerce websites at zumiez.com, zumiez.ca, blue-tomato.com and fasttimes.com.au.

Fiscal Year—We use a fiscal calendar widely used by the retail industry that results in a fiscal year consisting of a 52- or 53-week period ending on the Saturday closest to January 31. Each fiscal year consists of four 13-week quarters, with an extra week added to the fourth quarter every five or six years. The fiscal years ended February 2, 2019 and January 28, 2017 were 52-week periods. The fiscal year ended February 3, 2018 was a 53-week period.

Basis of Presentation—The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”). The consolidated financial statements include the accounts of Zumiez Inc. and its wholly-owned subsidiaries. All significant intercompany transactions and balances are eliminated in consolidation.

2. Summary of Significant Accounting Policies

Use of Estimates—The preparation of financial statements in conformity with U.S. GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements as well as the reported amounts of revenues and expenses during the reporting period. These estimates can also affect supplemental information disclosed by us, including information about contingencies, risk and financial condition. Actual results could differ from these estimates and assumptions.

Fair Value of Financial Instruments—We disclose the estimated fair value of our financial instruments. Financial instruments are generally defined as cash, evidence of ownership interest in an entity or a contractual obligation that both conveys to one entity a right to receive cash or other financial instruments from another entity and imposes on the other entity the obligation to deliver cash or other financial instruments to the first entity. Our financial instruments, other than those presented in Note 11, “Fair Value Measurements,” include cash and cash equivalents, receivables, payables and other liabilities. The carrying amounts of cash and cash equivalents, receivables, payables and other liabilities approximate fair value because of the short-term nature of these instruments. Our policy is to present transfers into and transfers out of hierarchy levels as of the actual date of the event or change in circumstances that caused the transfer.

Cash and Cash Equivalents—We consider all highly liquid investments with original maturity of three months or less when purchased to be cash equivalents.

Concentration of Risk—We maintain our cash and cash equivalents in accounts with major financial institutions in the form of demand deposits, money market accounts, and corporate debt securities. Deposits in these financial institutions may exceed the amount of federal deposit insurance provided on such deposits.

Marketable Securities—Our marketable securities primarily consist of U.S treasury and government agency securities, corporate debt securities, state and local municipal securities and variable-rate demand notes. Variable-rate demand

notes are considered highly liquid. Although the variable-rate demand notes have long-term nominal maturity dates, the interest rates generally reset weekly. Despite the long-term nature of the underlying securities of the variable-rate demand notes, we have the ability to quickly liquidate these securities, which have an embedded put option that allows the bondholder to sell the security at par plus accrued interest.

Investments are considered to be impaired when a decline in fair value is determined to be other-than-temporary. If the cost of an investment exceeds its fair value, we evaluate information about the underlying investment that is publicly available such as analyst reports, applicable industry data and other pertinent information and assess our intent and ability to hold the security. For fixed-income securities, we also evaluate whether we have plans to sell the security or it is more likely than not we will be required to sell the security before recovery. The investment would be written down to its fair value at the time the impairment is deemed to have occurred and a new cost basis is established. Future adverse changes in market conditions, poor operating results of underlying investments or other factors could result in losses that may not be reflected in an investment's current carrying value, possibly requiring an impairment charge in the future.

Inventories—Merchandise inventories are valued at the lower of cost or net realizable value. The cost of merchandise inventories are based upon an average cost methodology. Merchandise inventories may include items that have been written down to our best estimate of their net realizable value. Our decisions to write-down our merchandise inventories are based on their current rate of sale, the age of the inventory, the profitability of the inventory and other factors. The inventory related to this reserve is not marked up in subsequent periods. The inventory reserve includes inventory whose net realizable value is below cost and an estimate for inventory shrinkage. Shrinkage refers to a reduction in inventory due to shoplifting, employee theft and other matters. We estimate an inventory shrinkage reserve for anticipated losses at February 2, 2019 and February 3, 2018 in the amounts of \$4.6 million and \$5.1 million.

Fixed Assets—Fixed assets primarily consist of leasehold improvements, fixtures, land, buildings, computer equipment, software and store equipment. Fixed assets are stated at cost less accumulated depreciation utilizing the straight-line method over the assets' estimated useful lives. The useful lives of our major classes of fixed assets are as follows:

Leasehold improvements	Lesser of 10 years or the term of the lease
Fixtures	3 to 7 years
Buildings, land and building and land improvements	15 to 39 years
Computer equipment, software, store equipment & other	3 to 5 years

The cost and related accumulated depreciation of assets sold or otherwise disposed of is removed from fixed assets and the related gain or loss is recorded in selling, general and administrative expenses on the consolidated statements of income.

Asset Retirement Obligations—An asset retirement obligation (“ARO”) represents a legal obligation associated with the retirement of a tangible long-lived asset that is incurred upon the acquisition, construction, development or normal operation of that long-lived asset. Our AROs are associated with leasehold improvements that, at the end of a lease, we are contractually obligated to remove in order to comply with certain lease agreements. The ARO balance at February 2, 2019 and February 3, 2018 is \$3.0 million and \$2.8 million and is recorded in other liabilities and other long-term liabilities on the consolidated balance sheets and will be subsequently adjusted for changes in fair value. The associated estimated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and depreciated over its useful life.

Valuation of Long-Lived Assets—We review the carrying value of long-lived assets or asset groups (defined as a store, corporate facility or distribution center) for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. Recoverability of assets to be held and used is determined by a comparison of the carrying amount of an asset or asset group to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered impaired, the impairment recognized is measured by comparing the fair value

of the assets or asset group to the carrying values. The estimation of future cash flows from operating activities requires significant judgments of factors that include forecasting future sales, gross profit and operating expenses. In addition to historical results, current trends and initiatives, long-term macro-economic and industry factors are qualitatively considered. Additionally, management seeks input from store operations related to local economic conditions. Impairment charges are included in selling, general and administrative expenses on the consolidated statements of income.

Goodwill—Goodwill represents the excess of purchase price over the fair value of acquired tangible and identifiable intangible net assets. We test goodwill for impairment on an annual basis or more frequently if indicators of impairment are present. We perform our annual impairment measurement test on the first day of the fourth quarter. Events that may trigger an early impairment review include significant changes in the current business climate, future expectations of economic conditions, declines in our operating results of our reporting units, or an expectation that the carrying amount may not be recoverable.

We have an option to test goodwill for impairment by first performing a qualitative assessment to determine whether it is more likely than not that the fair value of the reporting unit is less than the carrying amount. If we choose not to perform the qualitative test or we determine that it is more likely than not that the fair value of the reporting unit is less than the carrying amount, we perform a quantitative two-step impairment test. The first step compares the carrying value of the reporting unit to its estimated fair value, which is based on the perspective of a market-participant. If the fair value of the reporting unit is lower than the carrying value, then a second step is performed to quantify the amount of the impairment. The second step includes estimating the fair value of the reporting unit by taking the net assets of the reporting unit as if the reporting unit had been acquired in a business combination. Then, the implied fair value of the reporting unit's goodwill is compared to the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, we recognize an impairment loss in an amount equal to the excess, not to exceed the carrying amount.

We generally determine the fair value of each of our reporting units based on a combination of the income approach and the market valuation approaches. Key assumptions in the income approach include estimating future cash flows, long-term growth rates and weighted average cost of capital. Our ability to realize the future cash flows used in our fair value calculations is affected by factors such as changes in economic conditions, operating performance and our business strategies. Key assumptions in the market approaches include identifying companies and transactions with comparable business factors, such as earnings growth, profitability, business and financial risk.

Intangible Assets—Our intangible assets consist of trade names and trademarks with indefinite lives and certain definite-lived intangible assets. We test our indefinite-lived intangible assets for impairment on an annual basis, or more frequently if indicators of impairment are present. We test our indefinite-lived assets by estimating the fair value of the asset and comparing that to the carrying value, an impairment loss is recorded for the amount that carrying value exceeds the estimated fair value. The fair value of the trade names and trademarks is determined using the relief from royalty method. This method assumes that the trade name and trademarks have value to the extent that their owner is relieved of the obligation to pay royalties for the benefits received from them. The assumptions used in this method requires management judgment and estimates in forecasting future revenue growth, discount rates, and royalty rates.

Definite-lived intangible assets, which consist of developed technology, customer relationships and non-compete agreements, are amortized using the straight-line method over their estimated useful lives. Additionally, we test the definite-lived intangible assets when facts and circumstances indicate that the carrying values may not be recoverable. We first assess the recoverability of our definite-lived intangible assets by comparing the undiscounted cash flows of the definite-lived asset less its carrying value. If the undiscounted cash flows are less than the carrying value, we then determine the estimated fair value of our definite-lived asset by taking the estimated future operating cash flows derived from the operation to which the asset relates over its remaining useful life, using a discounted cash flow analysis and comparing it to the carrying value. Any impairment would be measured as the difference between the carrying amount and the estimated fair value. Changes in any of these estimates, projections and assumptions could have a material effect of the fair value of these assets in future measurement periods and result in an impairment which could materially affect our results of operations.

Deferred Rent, Rent Expense and Tenant Allowances—We lease our stores and certain corporate and other operating facilities under operating leases. A majority of our leases provide for ongoing co-tenancy requirements or early cancellation clauses that would further lower rental rates, or permit lease terminations, or both, in the event that co-tenants cease to operate for specific periods or if certain sales levels are not met in specific periods. Most of the store leases require payment of a specified minimum rent and a contingent rent based on a percentage of the store's net sales in excess of a specified threshold, as well as real estate taxes, insurance, common area maintenance charges and other executory costs. Most of the lease agreements have defined escalating rent provisions, which are straight-lined over the term of the related lease. We recognize rent expense over the term of the lease, plus the construction period prior to occupancy of the retail location. For certain locations, we receive tenant allowances and report these amounts as a liability, which is amortized as a reduction to rent expense over the term of the lease.

Claims and Contingencies—We are subject to various claims and contingencies related to lawsuits, insurance, regulatory and other matters arising out of the normal course of business. We accrue a liability if the likelihood of an adverse outcome is probable and the amount is estimable. If the likelihood of an adverse outcome is only reasonably possible (as opposed to probable), or if an estimate is not determinable, we provide disclosure of a material claim or contingency.

Revenue Recognition—Revenue is recognized upon purchase at our retail store locations. For our ecommerce sales, revenue is recognized when control passes to the customer upon shipment. Taxes collected from our customers are recorded on a net basis. We accrue for estimated sales returns by customers based on historical return experience. The allowance for sales returns at February 2, 2019 and February 3, 2018 was \$3.3 million and \$2.6 million, respectively. We record the sale of gift cards as a current liability and recognize revenue when a customer redeems a gift card. The current liability for gift cards at February 2, 2019 and February 3, 2018 was \$4.3 and \$6.4 million, respectively. Additionally, the portion of gift cards that will not be redeemed ("gift card breakage") is recognized in proportion of the patterns used by the customer based on our historical redemption patterns. For the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017, we recorded net sales related to gift card breakage income of \$1.5 million, \$1.1 million and \$1.1 million, respectively.

Loyalty Program— We have a customer loyalty program, the Zumiez STASH, which allows members to earn points for purchases or performance of certain activities. The points can be redeemed for a broad range of rewards, including product and experiential rewards. Points earned for purchases are recorded as a current liability and a reduction of net sales based on the relative fair value of the points at the time the points are earned and estimated redemption rates. Revenue is recognized upon redemption of points for rewards. Points earned for the performance of activities are recorded as a current liability based on the estimated cost of the points and as marketing expense when redeemed. The deferred revenue related to our customer loyalty program at February 2, 2019 and February 3, 2018 was \$2.1 million and \$1.6 million, respectively.

Cost of Goods Sold—Cost of goods sold consists of branded merchandise costs and our private label merchandise costs including design, sourcing, importing and inbound freight costs. Our cost of goods sold also includes shrinkage, buying, occupancy, ecommerce fulfillment, distribution and warehousing costs (including associated depreciation) and freight costs for store merchandise transfers. Cash consideration received from vendors is reported as a reduction of cost of goods sold if the inventory has sold, a reduction of the carrying value of the inventory if the inventory is still on hand, or a reduction of selling, general and administrative expense if the amounts are reimbursements of specific, incremental and identifiable costs of selling the vendors' products.

Shipping Revenue and Costs—We include shipping revenue related to ecommerce sales in net sales and the related freight cost is charged to cost of goods sold.

Selling, General and Administrative Expense—Selling, general and administrative expenses consist primarily of store personnel wages and benefits, administrative staff and infrastructure expenses, freight costs for merchandise shipments from the distribution centers to the stores, store supplies, depreciation on fixed assets at the home office and

stores, facility expenses, training expenses, advertising and marketing costs. Credit card fees, insurance, public company expenses, legal expenses, amortization of intangibles assets and other miscellaneous operating costs are also included in selling, general and administrative expenses.

Advertising—We expense advertising costs as incurred, except for catalog costs, which are expensed once the catalog is mailed. Advertising expenses are net of sponsorships and vendor reimbursements. Advertising expense was \$12.2 million, \$10.8 million and \$10.0 million for the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017, respectively.

Stock-Based Compensation—We account for stock-based compensation by recording the estimated fair value of stock-based awards granted as compensation expense over the vesting period, net of estimated forfeitures. Stock-based compensation expense is attributed using the straight-line method. We estimate forfeitures of stock-based awards based on historical experience and expected future activity. The fair value of restricted stock awards and units is measured based on the closing price of our common stock on the date of grant. The fair value of stock option grants is estimated on the date of grant using the Black-Scholes option pricing model.

Common Stock Share Repurchases—We may repurchase shares of our common stock under authorizations made from time to time by our Board of Directors. Under applicable Washington State law, shares repurchased are retired and not presented separately as treasury stock on the consolidated financial statements. Instead, the value of repurchased shares is deducted from retained earnings.

Income Taxes—We use the asset and liability method of accounting for income taxes. Using this method, deferred tax assets and liabilities are recorded based on the differences between the financial reporting and tax basis of assets and liabilities. The deferred tax assets and liabilities are calculated using the enacted tax rates and laws that we expect to be in effect when the differences are expected to reverse. We routinely evaluate the likelihood of realizing the benefit of our deferred tax assets and may record a valuation allowance if, based on all available evidence, it is determined that it is more likely than not that all or some portion of the deferred tax benefit will not be realized. The valuation allowance on our deferred tax assets was \$5.2 million at February 2, 2019 and \$3.6 million at February 3, 2018.

We regularly evaluate the likelihood of realizing the benefit of income tax positions that we have taken in various federal, state and foreign filings by considering all relevant facts, circumstances and information available. If we believe it is more likely than not that our position will be sustained, we recognize a benefit at the largest amount that we believe is cumulatively greater than 50% likely to be realized. Interest and penalties related to income tax matters are classified as a component of income tax expense. Unrecognized tax benefits are recorded in other long-term liabilities on the consolidated balance sheets.

Our tax provision for interim periods is determined using an estimate of our annual effective rate, adjusted for discrete items, if any, that are taken into account in the relevant period. As the fiscal year progresses, we periodically refine our estimate based on actual events and earnings by jurisdiction. This ongoing estimation process can result in changes to our expected effective tax rate for the full fiscal year. When this occurs, we adjust the income tax provision during the quarter in which the change in estimate occurs so that our year-to-date provision equals our expected annual rate.

Earnings per Share—Basic earnings per share is based on the weighted average number of common shares outstanding during the period. Diluted earnings per share is based on the weighted average number of common shares and common share equivalents outstanding during the period. The dilutive effect of stock options and restricted stock is applicable only in periods of net income. Common share equivalents included in the computation represent shares issuable upon assumed exercise of outstanding stock options, employee stock purchase plan funds held to acquire stock and non-vested restricted stock. Potentially anti-dilutive securities not included in the calculation of diluted earnings per share are options to purchase common stock where the option exercise price is greater than the average market price of our common stock during the period reported.

Foreign Currency Translation—Assets and liabilities denominated in foreign currencies are translated into U.S. dollars, the reporting currency, at the exchange rate prevailing at the balance sheet date. Revenue and expenses denominated in foreign currencies are translated into U.S. dollars at the monthly average exchange rate for the period and the

translation adjustments are reported as an element of accumulated other comprehensive (loss) income on the consolidated balance sheets.

Segment Reporting—We identify our operating segments according to how our business activities are managed and evaluated. Our operating segments have been aggregated and are reported as one reportable segment based on the similar nature of products sold, production, merchandising and distribution processes involved, target customers and economic characteristics.

Recent Accounting Standards—In August 2018, the Financial Accounting Standards Board (“FASB”) issued a new standard over customer’s accounting for implementation costs incurred in a cloud computing arrangement that is a service contract. The standard requires implementation costs incurred in a hosting arrangement that is a service contract be accounted for in accordance with ASC 350-40. The new standard is effective for annual periods beginning after December 15, 2019, with early adoption permitted. We are currently evaluating the impact of this standard on our consolidated financial statements.

In January 2017, the FASB issued a new standard simplifying the test for goodwill impairment. The standard eliminates Step 2 from the goodwill impairment test. The standard requires entities perform the goodwill impairment test by comparing the fair value of a reporting unit to its carrying amount and recognize the impairment charge for the amount by which the carrying amount exceeds the reporting unit’s fair value, not to exceed the total goodwill allocated to that reporting unit. The new standard is effective for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019, with early adoption permitted. We do not expect this standard to have any impact on our consolidated financial statements.

In February 2016, the FASB issued a comprehensive standard related to lease accounting to increase transparency and comparability among organizations. The standard requires the recognition of right-of-use assets and lease liabilities on the balance sheet and disclosure of key information about leasing arrangements. In July 2018, the FASB issued an update that allows companies an additional optional transition method to recognize a cumulative effect adjustment to the opening balance of retained earnings recorded at the beginning of the period of adoption. The new standard is effective for the fiscal year beginning after December 15, 2018.

We will adopt this standard for the fiscal year beginning February 3, 2019, using the optional transition method. We expect to elect the package of practical expedients available upon adoption that allows us (1) to not reassess whether expired or existing contracts contain leases, (2) to not reassess lease classification for existing leases, and (3) to not reassess initial direct costs for existing leases.

We are finalizing the adoption of this standard, which includes the implementation of a lease accounting system, as well as updating business processes and internal controls over financial reporting. All of our 707 retail store locations at the time of adoption are subject to operating lease arrangements. We expect the impact to our consolidated balance sheet will be material, with right-of-use assets and operating lease liabilities of greater than \$300.0 million. We do not expect this standard to have a material impact on our consolidated statement of income or cash flows.

In January 2016, the FASB issued a new standard related primarily to accounting for equity investments, financial liabilities where the fair value option has been elected, and the presentation and disclosure requirements for financial instruments. There will no longer be an available-for-sale classification for equity securities and therefore, no changes in fair value will be reported in other comprehensive (loss) income for equity securities with readily determinable fair values. We adopted this standard for the fiscal year ended February 2, 2019 and it did not have a material impact on

our consolidated financial statements.

In May 2014, the FASB issued a comprehensive new revenue recognition standard codified under ASC 606. The new standard allowed for a full retrospective approach to transition or a modified retrospective approach. This guidance was effective for fiscal years beginning after December 15, 2017. On February 4, 2018, we adopted this standard using the modified retrospective approach. Results at February 2, 2019 and for the year ended February 2, 2019 are presented under ASC 606, while results at February 3, 2018 and January 28, 2017 and for the year ended February 3, 2018 and January 28, 2017 continue to be reported in accordance with our historical accounting under ASC Topic 605, Revenue Recognition.

The adoption of ASC 606 resulted in a change to the timing of revenue recognition on ecommerce sales from delivery to shipment and the timing of revenue recognition on gift card breakage from remote to in proportion to the

patterns of rights exercised by our customers. We recorded an increase to retained earnings of \$2.1 million, net of \$0.6 million in taxes, as of February 4, 2018 due to the cumulative effect of adopting ASC 606. The cumulative effect resulted in a decrease in other liabilities of \$3.1 million and inventory of \$0.4 million, as well as \$0.4 million decrease in our deferred tax assets and \$0.2 million increase in income taxes payable. The impact of adopting ASC 606 was not material to the condensed consolidated financial statements for the year ended February 2, 2019.

We elected to use the practical expedients to account for shipping and handling costs that occur after the customer obtains control of the goods as fulfillment costs. We accrue the expense of shipping and handling costs when product is shipped. We also elected to exclude from net sales the tax amounts collected from our customers to be remitted to governmental authorities.

3. Revenue

The following table disaggregates net sales by geographic region (in thousands):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
United States	\$814,153	\$774,193	\$710,976
Canada	55,184	53,569	42,843
Europe	101,149	91,729	79,067
Australia	8,131	7,910	3,382
Net sales	\$978,617	\$927,401	\$836,268

4. Cash, Cash Equivalents and Marketable Securities

The following tables summarize the estimated fair value of our cash, cash equivalents and marketable securities and the gross unrealized holding gains and losses (in thousands):

	February 2, 2019			
	Gross		Gross	
		Unrealized	Unrealized	Estimated
	Amortized	Holding	Holding	Fair
	Cost	Gains	Losses	Value
Cash and cash equivalents:				
Cash	\$26,336	\$ —	\$ —	\$26,336
Money market funds	3,689	—	—	3,689
Corporate debt securities	22,397	—	—	22,397
Total cash and cash equivalents	52,422	—	—	52,422
Marketable securities:				
U.S. treasury and government agency securities	4,326	2	—	4,328
Corporate debt securities	55,122	98	(8)	55,212
State and local government securities	51,462	13	(43)	51,432
Variable-rate demand notes	1,940	—	—	1,940

Total marketable securities	\$112,850	\$ 113	\$ (51)	\$112,912
-----------------------------	-----------	--------	----------	-----------

59

	February 3, 2018				
	Gross		Gross		
	Unrealized		Unrealized		Estimated
	Amortized	Holding	Holding		Fair
	Cost	Gains	Losses		Value
Cash and cash equivalents:					
Cash	\$21,911	\$ —	\$ —		\$ 21,911
Money market funds	2,130	—	—		2,130
Total cash and cash equivalents	24,041	—	—		24,041
Marketable securities:					
State and local government securities	68,620	9	(130)		68,499
Variable-rate demand notes	29,365	—	—		29,365
Total marketable securities	\$97,985	\$ 9	\$ (130)		\$ 97,864

All of our available-for-sale debt securities have an effective maturity date of two years or less and may be liquidated, at our discretion, prior to maturity.

The following tables summarize the gross unrealized holding losses and fair value for investments in an unrealized loss position, and the length of time that individual securities have been in a continuous loss position (in thousands):

	February 2, 2019							
	Less Than Twelve Months		12 Months or Greater		Total			
	Unrealized		Unrealized		Unrealized		Unrealized	
	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses	Fair Value	Losses
Marketable securities:								
Corporate debt securities	\$14,523	\$ (8)	\$—	\$ —	\$14,523	\$ (8)		
State and local government securities	26,986	(20)	9,548	(23)	36,534	(43)		
Total marketable securities	\$41,509	\$ (28)	\$9,548	\$ (23)	\$51,057	\$ (51)		

	February 3, 2018				12 Months or Greater				Total			
	Less Than Twelve Months				Unrealized				Unrealized			
	Fair Value		Losses		Fair Value		Losses		Fair Value		Losses	
Marketable securities:												
State and local government securities	\$53,655	\$ (129)			\$610	\$ (1)			\$54,265	\$ (130)		
Total marketable securities	\$53,655	\$ (129)			\$610	\$ (1)			\$54,265	\$ (130)		

We did not record a realized loss for other-than-temporary impairments during the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017.

5. Receivables

Receivables consisted of the following (in thousands):

	February 2,	February 3,
	2019	2018
Credit cards receivable	\$ 10,813	\$ 9,743
Vendor receivable	3,065	3,497
Insurance receivable	1,076	843
Tenant allowances receivable	675	678
Income tax receivable	201	1,008
Other receivables	1,946	1,258
Receivables	\$ 17,776	\$ 17,027

6. Fixed Assets

Fixed assets consisted of the following (in thousands):

	February 2,	February 3,
	2019	2018
Leasehold improvements	\$ 186,431	\$ 183,424
Fixtures	88,543	88,267
Buildings, land and building and land improvements	28,189	28,160
Computer equipment, software, store equipment and other	35,253	35,782
Fixed assets, at cost	338,416	335,633
Less: Accumulated depreciation	(217,913)	(206,781)
Fixed assets, net	\$ 120,503	\$ 128,852

Depreciation expense on fixed assets is recognized on our consolidated income statement as follows (in thousands):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Cost of goods sold	\$ 1,284	\$ 985	\$ 1,049
Selling, general and administrative expenses	24,844	25,246	25,843
Depreciation expense	\$ 26,128	\$ 26,231	\$ 26,892

Impairment of Long-Lived Assets—We recorded \$1.7 million, \$1.6 million and \$1.9 million of impairment of long-lived assets in selling, general and administrative expenses on the consolidated statements of income for the years ended

February 2, 2019, February 3, 2018 and January 28, 2017.

7. Goodwill and Intangible Assets

The following tables summarize the changes in the carrying amount of goodwill (in thousands):

Balance as of January 28, 2017	\$56,001
Effects of foreign currency translation	6,911
Balance as of February 3, 2018	62,912
Effects of foreign currency translation	(4,099)
Balance as of February 2, 2019	\$58,813

There was no impairment of goodwill for the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017.

The following table summarizes the gross carrying amount, accumulated amortization and the net carrying amount of intangible assets (in thousands):

	February 2, 2019		Intangible Assets, Net
	Gross Carrying Amount	Accumulated Amortization	
Intangible assets not subject to amortization:			
Trade names and trademarks	\$ 15,147	\$ —	\$ 15,147
Intangible assets subject to amortization:			
Developed technology	3,437	3,437	—
Customer relationships	2,546	2,546	—
Non-compete agreements	218	105	113
Total intangible assets	\$ 21,348	\$ 6,088	\$ 15,260

	February 3, 2018		Intangible Assets, Net
	Gross Carrying Amount	Accumulated Amortization	
Intangible assets not subject to amortization:			
Trade names and trademarks	\$ 16,525	\$ —	\$ 16,525
Intangible assets subject to amortization:			
Developed technology	3,743	3,743	—
Customer relationships	2,774	2,774	—
Non-compete agreements	239	68	171
Total intangible assets	\$ 23,281	\$ 6,585	\$ 16,696

There was no impairment of intangible assets for the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017.

Amortization expense of intangible assets for each of the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017 was \$0.1 million. Amortization expense of intangible assets is recorded in selling, general and administrative expense on the consolidated statements of income.

8. Other Liabilities

Other liabilities consisted of the following (in thousands):

	February 2, 2019	February 3, 2018
Accrued indirect taxes	\$ 6,373	\$ 7,121
Accrued payables	5,626	5,497
Unredeemed gift cards	4,279	6,410
Allowance for sales returns	3,304	2,563

Deferred revenue	2,167	2,565
Other current liabilities	1,745	2,711
Other liabilities	\$ 23,494	\$ 26,867

9. Revolving Credit Facilities and Debt

On December 7, 2018, the Company entered into a secured credit agreement with Wells Fargo Bank, N.A., which provided us with a senior secured credit facility (“credit facility”) of up to \$35.0 million. The secured revolving credit facility is available for working capital and other general corporate purposes. The senior secured credit facility provides for the issuance of standby letters of credit in an amount not to exceed \$17.5 million outstanding at any time and with a term not to exceed 365 days. The commercial line of credit provides for the issuance of commercial letters of credit in an amount not to exceed \$10.0 million and with terms not to exceed 120 days. The amount of borrowings available at any time under our credit facility is reduced by the amount of standby

and commercial letters of credit outstanding at that time. The credit facility replaces our asset-based revolving credit agreement (“ABL Facility”) with Wells Fargo Bank, N.A., which provided for a senior secured revolving credit facility of up to \$100 million, subject to a borrowing base, with a letter of credit sub-limit of \$10 million, which was entered into on February 5, 2016 and was to mature on February 5, 2021. All obligations under the credit facility are joint and several with Zumiez Services and guaranteed by certain of our subsidiaries. The credit facility is secured by a first-priority security interest in substantially all of the personal property (but not the real property) of the borrowers and guarantors. Amounts borrowed under the credit facility bear interest at an adjusted LIBOR rate plus a margin of 1.25% per annum.

The credit facility contains various representations, warranties and restrictive covenants that, among other things and subject to specified circumstances and exceptions, restrict our ability to incur indebtedness (including guarantees), grant liens, make investments, pay dividends or distributions with respect to capital stock, make prepayments on other indebtedness, engage in mergers, dispose of certain assets or change the nature of their business. The credit facility contains certain financial maintenance covenants that generally require the Registrant to have net income after taxes of at least \$5.0 million on a trailing four-quarter basis and a quick ratio of 1.25:1.0 at the end of each fiscal quarter. The credit facility contains certain affirmative covenants, including reporting requirements such as delivery of financial statements, certificates and notices of certain events, maintaining insurance, and providing additional guarantees and collateral in certain circumstances. The credit facility includes customary events of default including non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations or warranties, cross-default to other material indebtedness, bankruptcy and insolvency events, invalidity or impairment of guarantees or security interests, material judgments and change of control.

There were no borrowings outstanding under the credit facility at February 2, 2019 or the ABL Facility at February 3, 2018. We had no open commercial letters of credit outstanding under our secured revolving credit facility or ABL Facility at February 2, 2019 or February 3, 2018, respectively.

Additionally, we terminated our revolving lines of credit with UniCredit Bank Austria and Commerzbank Germany during fiscal 2018. At February 2, 2019, we had no available lines of credit or borrowings outstanding. At February 3, 2018, we had available lines of credit up to 20.5 million Euro (\$25.6 million) and \$0.9 million in borrowings outstanding at February 3, 2018.

10. Commitments and Contingencies

Operating Leases—Total rent expense is as follows (in thousands):

	Fiscal Year Ended		
	February		
	2, 2019	February 3, 2018	January 28, 2017
Minimum rent expense	\$79,761	\$ 77,443	\$ 73,888
Contingent rent expense	3,901	3,337	2,618
Total rent expense (1)	\$83,662	\$ 80,780	\$ 76,506

(1) Total rent expense does not include real estate taxes, insurance, common area maintenance charges and other executory costs, which were \$40.9 million, \$41.6 million and \$41.3 million for the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017.

Future minimum lease payments at February 2, 2019 are as follows (in thousands):

Edgar Filing: Zumiez Inc - Form 10-K

Fiscal 2019	\$69,293
Fiscal 2020	66,364
Fiscal 2021	60,962
Fiscal 2022	55,155
Fiscal 2023	45,503
Thereafter	94,024
Total (1)	\$391,301

(1) Amounts in the table do not include contingent rent and real estate taxes, insurance, common area maintenance charges and other executory costs obligations.

Purchase Commitments—At February 2, 2019 and February 3, 2018, we had outstanding purchase orders to acquire merchandise from vendors of \$216.6 million and \$208.5 million, respectively. We have an option to cancel these commitments with no notice prior to shipment, except for certain private label, packaging supplies and international purchase orders in which we are obligated to repay contractual amounts upon cancellation.

Litigation—We are involved from time to time in claims, proceedings and litigation arising in the ordinary course of business. We have made accruals with respect to these matters, where appropriate, which are reflected in our consolidated financial statements. For some matters, the amount of liability is not probable or the amount cannot be reasonably estimated and therefore accruals have not been made. We may enter into discussions regarding settlement of these matters, and may enter into settlement agreements, if we believe settlement is in the best interest of our shareholders.

A putative class action, Alexia Herrera, on behalf of herself and all other similarly situated, v. Zumiez Inc., was filed against us in the Eastern District Court of California, Sacramento Division under case number 2:16-cv-01802-SB in August 2016. Alexandra Bernal filed the initial complaint and then in October 2016 added Alexia Herrera as a named plaintiff and Alexandra Bernal left the case. The putative class action lawsuit against us alleges, among other things, various violations of California's wage and hour laws, including alleged violations of failure to pay reporting time. In May 2017 we moved for judgment on the pleadings in that plaintiff's cause of action for reporting-time pay should fail as a matter of law as the plaintiff and the other putative class members did not "report for work" with respect to certain shifts on which the plaintiff's claims are based. In August 2017, the court denied the motion. However, in October 2017 the district court certified the order denying the motion for judgment on the pleadings for immediate interlocutory review by the United States Court of Appeals for the Ninth Circuit. We then filed a petition for permission to appeal the order denying the motion for judgment on the pleadings with the United States Court of Appeals for the Ninth Circuit, which petition was then granted in January 2018. Our opening appellate brief was filed on June 6, 2018 and the plaintiff's answering appellate brief was filed August 6, 2018. Our reply brief to the Plaintiff's answering appellate brief was filed on September 26, 2018 and oral arguments are scheduled to be held on February 4, 2019. Given the current status of this case, we are unable to express a view regarding the ultimate outcome or, if the outcome is adverse, to estimate an amount, or range, of reasonably possible loss. We have defended this case vigorously and will continue to do so.

Insurance Reserves—We use a combination of third-party insurance and self-insurance for a number of risk management activities including workers' compensation, general liability and employee-related health care benefits. We maintain reserves for our self-insured losses, which are estimated based on actuarial based analysis of historical claims experience. The self-insurance reserve at for both February 2, 2019 and February 3, 2018 was \$2.1 million.

11. Fair Value Measurements

We apply the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

- Level 1—Quoted prices in active markets for identical assets or liabilities;
- Level 2—Quoted prices for similar assets or liabilities in active markets or inputs that are observable; and
- Level 3—Inputs that are unobservable.

Edgar Filing: Zumiez Inc - Form 10-K

The following tables summarize assets measured at fair value on a recurring basis (in thousands):

	February 2, 2019		
	Level 1	Level 2	Level 3
Cash equivalents:			
Money market funds	\$3,689	\$—	\$ —
Corporate debt securities	22,397		
Marketable securities:			
Treasury and agency securities	—	4,328	—
Corporate debt securities	—	55,212	—
State and local government securities	—	51,432	—
Variable-rate demand notes	—	1,940	—
Long-term other assets:			
Money market funds	1,404	—	—
Total	\$27,490	\$112,912	\$ —

	February 3, 2018		
	Level 1	Level 2	Level 3
Cash equivalents:			
Money market funds	\$2,130	\$—	\$—
Marketable securities:			
State and local government securities	—	68,499	—
Variable-rate demand notes	—	29,365	—
Long-term other assets:			
Money market funds	1,437	—	—
Equity investments	—	—	151
Total	\$3,567	\$97,864	\$151

The Level 2 marketable securities primarily include state and local municipal securities, corporate debt securities and variable-rate demand notes. Fair values are based on quoted market prices for similar assets or liabilities or determined using inputs that use readily observable market data that are actively quoted and can be validated through external sources, including third-party pricing services, brokers and market transactions. We review the pricing techniques and methodologies of the independent pricing service for Level 2 investments and believe that its policies adequately consider market activity, either based on specific transactions for the security valued or based on modeling of securities with similar credit quality, duration, yield and structure that were recently traded. We monitor security-specific valuation trends and we make inquiries with the pricing service about material changes or the absence of expected changes to understand the underlying factors and inputs and to validate the reasonableness of the pricing.

Assets measured at fair value on a nonrecurring basis include items such as long-lived assets resulting from impairment, if deemed necessary. There were no material assets measured at fair value on a nonrecurring basis for the fiscal years ended February 2, 2019 and February 3, 2018.

12. Stockholders' Equity

Share Repurchase—In December 2015, our Board of Directors authorized us to repurchase up to \$70.0 million of our common stock. This program was expired as of January 28, 2017. In December 2018, our Board of Directors authorized us to repurchase up to \$75.0 million of our common stock. This program is expected to continue through February 1, 2020, unless the time period is extended or shortened by the Board of Directors. At February 3, 2019, there is \$75.0 million available for share repurchase under the current share repurchase program.

Accumulated Other Comprehensive (Loss) Income—The component of accumulated other comprehensive (loss) income and the adjustments to other comprehensive (loss) income for amounts reclassified from accumulated other comprehensive (loss) income into net income is as follows (in thousands):

	Foreign currency translation adjustments	Net unrealized gains (losses) on available-for- sale investments	Accumulated other comprehensive income (loss)
Balance at January 30, 2016	\$ (15,136)	\$ (111)	\$ (15,247)
Other comprehensive loss, net (1)	(1,338)	97	(1,241)
Balance at January 28, 2017	\$ (16,474)	\$ (14)	\$ (16,488)
Other comprehensive income, net (1)	16,583	(60)	16,523
Balance at February 3, 2018	\$ 109	\$ (74)	\$ 35
Other comprehensive loss, net (1)	(9,379)	120	(9,259)
Balance at February 2, 2019	\$ (9,270)	\$ 46	\$ (9,224)

(1) Other comprehensive (loss) income before reclassifications is net of taxes of less than \$0.1 million for the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017 for both net unrealized gains (losses) on available-for-sale investments and accumulated other comprehensive (loss) income. Foreign currency translation adjustments are not adjusted for income taxes as they relate to permanent investments in our international subsidiaries.

13. Equity Awards

General—We maintain several equity incentive plans under which we may grant incentive stock options, nonqualified stock options, stock bonuses, restricted stock awards, restricted stock units and stock appreciation rights to employees (including officers), non-employee directors and consultants.

Stock-Based Compensation—Total stock-based compensation expense is recognized on our consolidated income statements as follows (in thousands):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Cost of goods sold	\$ 1,130	\$ 1,001	\$ 928
Selling, general and administrative expenses	4,741	4,031	3,650
Total stock-based compensation expense	\$ 5,871	\$ 5,032	\$ 4,578

At February 2, 2019, there was \$7.9 million of total unrecognized compensation cost related to unvested stock options and restricted stock. This cost has a weighted-average recognition period of 1.2 years.

Restricted Equity Awards —The following table summarizes the activity of restricted stock awards and restricted stock units, collectively defined as “restricted equity awards” (in thousands, except grant date weighted-average fair value):

		Grant Date	
		Weighted-	
	Restricted Equity	Average Fair	Intrinsic
	Awards	Value	Value
Outstanding at January 30, 2016	286	\$ 30.32	
Granted	301	\$ 19.06	
Vested	(128)	\$ 29.54	
Forfeited	(17)	\$ 25.78	
Outstanding at January 28, 2017	442	\$ 23.05	
Granted	290	\$ 17.20	
Vested	(183)	\$ 22.67	
Forfeited	(25)	\$ 19.56	
Outstanding at February 3, 2018	524	\$ 20.11	
Granted	262	\$ 23.94	
Vested	(217)	\$ 20.85	
Forfeited	(25)	\$ 20.70	
Outstanding at February 2, 2019	544	\$ 21.63	\$13,684

The following table summarizes additional information related to restricted equity awards activity (in thousands):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Vest date fair value of restricted stock vested	\$4,627	\$ 3,116	\$ 2,404

Stock Options—We had 0.3 million stock options outstanding at February 2, 2019 with a grant date weighted average exercise price of \$23.06. We had 0.3 million stock options outstanding at February 3, 2018 with a grant date weighted average exercise price of \$22.82 and 0.2 million stock options outstanding at January 28, 2017 with a grant date weighted average exercise price of \$25.61.

Employee Stock Purchase Plan—We offer an Employee Stock Purchase Plan (“ESPP”) for eligible employees to purchase our common stock at a 15% discount of the lesser of fair market value of the stock on the first business day or the last business day of the offering period, subject to maximum contribution thresholds. The number of shares issued under our ESPP was less than 0.1 million for each of the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017.

14. Income Taxes

The components of earnings before income taxes are (in thousands):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
United States	\$68,276	\$ 54,397	\$ 35,456
Foreign	(5,946)	(5,994)	4,768
Total earnings before income taxes	\$62,330	\$ 48,403	\$ 40,224

The components of the provision for income taxes are (in thousands):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Current:			
Federal	\$ 14,374	\$ 14,514	\$ 13,350
State and local	3,481	2,477	2,338
Foreign	1,079	1,328	1,187
Total current	18,934	18,319	16,875
Deferred:			
Federal	(1,186)	2,598	(1,855)
State and local	(443)	237	(266)
Foreign	(180)	447	(434)
Total deferred	(1,809)	3,282	(2,555)
Provision for income taxes	\$ 17,125	\$ 21,601	\$ 14,320

The reconciliation of the income tax provision at the U.S. federal statutory rate to our effective income tax rate is as follows:

	Fiscal Year Ended			
	February 2, 2019	February 3, 2018	January 28, 2017	
U.S. federal statutory tax rate	21.0%	33.7 %	35.0 %	
State and local income taxes, net of federal effect	4.1	3.9	3.1	
Change in valuation allowance	3.0	7.0	—	
Foreign earnings, net	(0.3)	0.6	(2.3)	
Other	(0.3)	(0.6)	(0.2)	
Effective tax rate	27.5 %	44.6 %	35.6 %	

On December 22, 2017, the U.S. Tax Cuts and Jobs Act, a significant modification of existing U.S. federal tax legislation, was enacted which reduced our U.S. federal tax rate from 35.0% to 21.0%, effective January 1, 2018. The statutory tax rate for fiscal 2018 and fiscal 2017 reflects the change in tax rate. The decrease in rate resulted in a decrease in our provision for income taxes of \$8.7 million and \$0.5 million for fiscal years ended February 2, 2019, February 3, 2018, respectively.

The components of deferred income taxes are (in thousands):

	February 2, 2019	February 3, 2018
Deferred tax assets:		
Deferred rent	\$ 11,037	\$ 11,968
Net operating losses	11,480	9,809
Employee benefits, including stock-based compensation	2,050	1,757
Accrued liabilities	1,341	1,586
Inventory	1,148	981

Edgar Filing: Zumiez Inc - Form 10-K

Other	1,130	721
Total deferred tax assets	28,186	26,822
Deferred tax liabilities:		
Property and equipment	(8,328)	(9,813)
Goodwill and other intangibles	(8,706)	(8,355)
Other	(708)	(903)
Total deferred tax liabilities	(17,742)	(19,071)
Net valuation allowances	(5,185)	(3,577)
Net deferred tax assets	\$ 5,259	\$ 4,174

At February 2, 2019 and February 3, 2018, we had foreign net operating loss carryovers that could be utilized to reduce future years' tax liabilities of \$46.1 million and \$39.1 million, respectively. The tax-effected foreign net operating loss carryovers were \$11.5 million and \$9.8 million at February 2, 2019 and February 3, 2018, respectively. The net operating loss carryovers have an indefinite carryforward period and currently will not expire.

At February 2, 2019 and February 3, 2018, we had valuation allowances on our deferred tax assets of \$5.2 million and \$3.6 million, respectively, due to the uncertainty of the realization of certain deferred tax assets related to foreign net operating loss carryovers.

We file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. Our U.S. federal income tax returns are no longer subject to examination for years before fiscal 2017 and with few exceptions, we are no longer subject to U.S. state examinations for years before fiscal 2014. We are no longer subject to examination for all foreign income tax returns before fiscal 2013.

15. Earnings per Share, Basic and Diluted

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Fiscal Year Ended		
	February 2, 2019	February 3, 2018	January 28, 2017
Net income	\$45,205	\$ 26,802	\$ 25,904
Weighted average common shares for basic earnings per share	24,936	24,679	24,727
Dilutive effect of stock options and restricted stock	276	199	181
Weighted average common shares for diluted earnings per share	25,212	24,878	24,908
Basic earnings per share	\$1.81	\$ 1.09	\$ 1.05
Diluted earnings per share	\$1.79	\$ 1.08	\$ 1.04

Total anti-dilutive common stock options not included in the calculation of diluted earnings per share were 0.1 million, 0.3 million and 0.2 million for the fiscal years ended February 2, 2019, February 3, 2018 and January 28, 2017, respectively.

16. Related Party Transactions

The Zumiez Foundation is a charitable based nonprofit organization focused on meeting various needs of the under-privileged. Our Chairman of the Board is also the President of the Zumiez Foundation. We committed charitable contributions to the Zumiez Foundation of \$0.9 million, \$0.8 million and \$0.7 million for the fiscal years ended February 2, 2019, February 3, 2018, and January 28, 2017, respectively. We have accrued charitable contributions payable to the Zumiez Foundation of \$0.8 million and \$0.7 million at February 2, 2019 and February 3, 2018, respectively.

17. Segment Reporting

Our operating segments have been aggregated and are reported as one reportable segment based on the similar nature of products sold, production, merchandising and distribution processes involved, target customers and economic characteristics.

The following table is a summary of product categories as a percentage of merchandise sales:

	Fiscal Year Ended					
	February 2, 2019			January 28, 2018		
Men's Apparel	41	%	41	%	37	%
Accessories	17	%	18	%	20	%
Footwear	17	%	16	%	18	%
Women's Apparel	14	%	14	%	13	%
Hardgoods	11	%	11	%	12	%
Total	100	%	100	%	100	%

The following tables present summarized geographical information (in thousands):

	Fiscal Year Ended		
	February 2, 2019		January 28, 2018
Net sales (1):			
United States	\$ 814,153	\$ 774,193	\$ 710,976
Foreign	164,464	153,208	125,292
Total net sales	\$ 978,617	\$ 927,401	\$ 836,268

	February 2, 2019	February 3, 2018
Long-lived assets:		
United States	\$ 100,509	\$ 105,821
Foreign	27,174	29,873
Total long-lived assets	\$ 127,683	\$ 135,694

(1) Net sales are allocated based on the location in which the sale was originated. Store sales are allocated based on the location of the store and ecommerce sales are allocated to the U.S. for sales on zumiez.com and to foreign for sales on zumiez.ca, blue-tomato.com and fasttimes.com.au.

EXHIBIT INDEX

- 3.1 Articles of Incorporation. [Incorporated by reference to Exhibit 3.1 to the Company's Registration Statement on Form S-1 (file No. 333-122865)]
- 3.2 Bylaws, as amended and restated May 21, 2014 and Amendment No.1, dated as of May 21, 2015, to Bylaws of Zumiez Inc. (as previously Amended and Restated as of May 21, 2014 [Incorporated by reference to Exhibit 3.2 to the Company's Current Report on Form 8-K filed on May 23, 2014 and Exhibit to the Company's Form 8-K filed on May 22, 2015])
- 4.1 Form of Common Stock Certificate of Zumiez Inc. [Incorporated by reference to Exhibit 4.1 to the Company's Registration Statement on Form S-1 (file No. 333-122865)]
- 10.15 Zumiez Inc. 2005 Equity Incentive Plan, as amended and restated effective May 27, 2009. [Incorporated by reference from Exhibit 10.15 to the Form 8-K filed by the Company on June 1, 2009]
