Form 10-Q
August 08, 2014

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the quarterly period ended June 30, 2014

or

Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the transition period from _____ to _____

Commission file number 000-22673

Sirona Dental Systems, Inc.

(Exact name of registrant as specified in its charter)

Delaware

11-3374812

Edgar Filing: SIRONA DENTAL SYSTEMS, INC. - Form 10-Q

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

**30-30 47th Avenue, Suite 500, Long Island City,
New York**

11101

(Address of principal executive offices)

(Zip Code)

(718) 482-2011

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Edgar Filing: SIRONA DENTAL SYSTEMS, INC. - Form 10-Q

As of July 31, 2014, the number of shares outstanding of the Registrant's Common Stock, par value \$.01 per share, was 57,763,784.

FORWARD-LOOKING STATEMENTS

This Form 10-Q Quarterly Report contains forward-looking statements that involve risk and uncertainties. All statements, other than statements of historical facts, included in this report regarding the Company, its financial position, products, business strategy and plans and objectives of management of the Company for future operations, are forward-looking statements. When used in this report, words such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “objectives,” “plans” and similar expressions, or the negatives thereof or variations thereon or comparable terminology as they relate to the Company, its products or its management, identify forward-looking statements. Such forward-looking statements are based on the beliefs of the Company’s management, as well as assumptions made by and information currently available to the Company’s management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of various factors, including, but not limited to, those contained in the “Risk Factors” set forth in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended September 30, 2013. All forward looking statements speak only as of the date of this Report and are expressly qualified in their entirety by the cautionary statements included in this report. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events other than required by law.

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. GENERAL

The Company and its Operations

Sirona Dental Systems, Inc. (“Sirona,” the “Company,” “we,” “us,” and “our” refer to Sirona Dental Systems, Inc. and its consolidated subsidiaries) is the leading global manufacturer of high-quality, technologically-advanced dental equipment, and is focused on developing, manufacturing, and marketing innovative systems and solutions for dentists around the world. We offer a broad range of products across all major segments of the dental technology market including CEREC and our other CAD/CAM systems, digital intra oral and 2D and 3D panoramic imaging systems, treatment centers, and instruments. The Company acquired Schick Technologies, Inc. (“Schick”) in 2006, in a transaction accounted for as a reverse acquisition (the “Exchange”), further expanding our global presence and product offerings and strengthening our research and development capabilities. Sirona has served equipment dealers and dentists worldwide for more than 130 years. The Company’s headquarters is located in Long Island City, New York with its primary facility located in Bensheim, Germany, as well as other support, manufacturing, assembling, and sales and service facilities located around the globe.

Basis of Presentation

These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”). Preparation of the interim financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions related to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as at the reporting date and the reported amounts of revenues and expenses for the interim period. Actual results could differ from those estimates. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. However, the Company believes that the disclosures are adequate to make the information not misleading. The year-end consolidated financial data was derived from the audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP. These consolidated financial statements should be read in conjunction with the Consolidated Financial Statements and the Notes thereto included in the Company’s Annual Report on Form 10-K for

the fiscal year ended September 30, 2013.

In the opinion of management, all adjustments considered necessary to present fairly the Company's financial position as of June 30, 2014, and the results of operations and cash flows for the nine months ended June 30, 2014 and 2013, respectively, as applicable to interim periods have been made. The results of operations for the nine months ended June 30, 2014 are not necessarily indicative of the operating results for the full fiscal year or future periods.

All amounts are reported in millions of U.S. Dollars (\$), except per share amounts or as otherwise disclosed.

Fiscal Year

The Company's fiscal year is October 1 to September 30.

Principles of Consolidation

The consolidated financial statements include, after eliminating inter-company transactions and balances, the accounts of Sirona Dental Systems, Inc. and its subsidiaries. The Company applies the equity method of accounting for investments in associated companies over which the Company has significant influence but does not have effective control.

2. ACCOUNTING STANDARDS ISSUED

Changes to accounting principles generally accepted in the United States ("U.S. GAAP") are established by the Financial Accounting Standards Board ("FASB") in the form of Accounting Standards Updates ("ASUs"). The Company considers the applicability and impact of all ASUs. ASUs not listed below were assessed and determined

Table of Contents

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

to be either (i) not applicable, (ii) are expected to have a minimal impact on our consolidated financial statements, or (iii) their adoption had an immaterial impact on our consolidated financial statements.

Adopted

There were no ASUs adopted during the current period, which had a material impact on our consolidated financial statements.

Not Yet Adopted

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, which provides updated guidance on revenue recognition principles that will supersede most current conceptual and industry-specific revenue recognition guidance and thus enhance comparability of revenue recognition practices across entities, industries, jurisdictions, and capital markets. The key principle of this updated guidance is that entities should recognize revenue to depict the transfer of goods or services to customers at an amount reflecting the consideration expected in exchange for those goods or services. The new guidance prescribes a five-step analysis of transactions to determine how and when to recognize revenue. In addition, the new guidance provides for capitalization of certain costs of obtaining or fulfilling a contract with a customer as well as enhanced disclosure requirements to enable a better understanding of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. ASU 2014-09 is effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2016, which corresponds to the Company's fiscal year beginning October 1, 2017, with early adoption not permitted. The new guidance permits the use of either a retrospective or cumulative effect transition method. We have not yet selected a transition method and are evaluating the expected impact of adoption on our consolidated financial statements.

3. EMPLOYEE SHARE-BASED COMPENSATION

ASC 718, *Compensation – Stock Compensation*, requires that all share based compensation arrangements, including grants of stock option awards to employees, be recognized based on the estimated fair value of the share-based payment award.

Equity Incentive Plan

Stock options, restricted stock shares, restricted stock units (“RSU”), and performance-based stock units (“PSU”) have been issued to employees, directors, and consultants under the Company’s 2006 Equity Incentive Plan (“2006 Plan”). The 2006 Plan provides for granting in total up to 4,550,000 stock options, incentive stock, restricted stock shares, RSU’s, and PSU’s. The 2006 Plan received stockholder approval at the Company’s Annual Meeting of Stockholders held on February 27, 2007, and was amended on February 25, 2009. To cover the exercise of options and vesting of RSU’s and PSU’s, the Company generally issues new shares from its authorized but unissued share pool. As of June 30, 2014, 501,037 shares were available for future grant under the 2006 Plan.

Restricted and Performance-Based Stock Units

In the nine months ended June 30, 2014, the Company granted 161,835 RSU’s and 43,466 PSU’s with an average value of \$67.81, representing the average of closing prices of the Company’s common stock at grant dates.

RSU’s and PSU’s generally vest in annual tranches over a period of three to four years. The PSU’s were granted to certain Company executives and vest three years from the date of the grant provided the Company achieves performance targets specified in the grant. RSU’s and PSU’s do not have voting rights or rights to dividends prior to vesting. The value of each RSU and PSU grant is determined by the closing price at the date of grant. Share-based compensation expense for the entire award is recognized straight-line over the service period of the last separately vesting tranche of the award.

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(UNAUDITED)

Stock Options

In the nine months ended June 30, 2014, the Company granted 224,565 stock options with a weighted average exercise price of \$67.77 and weighted average fair value of \$21.28 at the grant date. Grants generally vest over four years. All grants expire ten years after the date of the grant.

The fair value of options granted under the 2006 Plan were estimated using the Black-Scholes option pricing model using assumptions in the following table. The exercise price is equal to the fair market value of Sirona's stock at the grant date. Expected volatility is based on the Company's historical stock price volatility. The risk-free rate is based on the U.S. Treasury yield curve in effect at the day of grant and has a term equal to the expected life of the option. The expected life represents the period of time the options are expected to be outstanding based on anticipated grantee behavior. The expected dividend yield is based on the Company's history of not paying regular dividends in the past and the Company's current intention not to pay dividends in the foreseeable future.

Black-Scholes Assumptions	Nine months ended June 30, 2014	Year ended September 30, 2013
Expected Volatility	33.27%	38.23%
Risk-free rate	1.35%	0.70%
Expected term	5 years	5 years
Expected dividends	-	-

Compensation Costs

The following table summarizes compensation expense charged to income for stock-based compensation and additional information for the three and nine months ended June 30, 2014:

Compensation Expense	Three months ended		Nine months ended	
	June 30,		June 30,	
<i>(In millions)</i>	2014	2013	2014	2013
Compensation expense ^{(1), (2)}	\$ 2.8	\$ 2.3	\$ 9.2	\$ 10.7

⁽¹⁾ For the first nine months of fiscal year 2014, this included a compensation charge of \$0.9 for share-based awards in connection with the CFO Transition.

⁽²⁾ For the first nine months of fiscal year 2013, this includes a compensation charge of \$3.8 for the modification of share based awards in connection with the Transition Agreement for the former CEO and Chairman.

<i>thereof vested and exercisable</i>	<i>1,193,383</i>	

4. NET OTHER OPERATING INCOME (LOSS)

The components of net other operating income (loss) for the periods under report are as follows:

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(UNAUDITED)

Net Other Operating Income (Loss)	Three months ended		Nine months ended	
	June 30,		June 30,	
<i>(In millions)</i>	2014	2013	2014	2013
Income resulting from the amortization of the deferred income related to the Patterson exclusivity payment	\$ 2.5	\$ 2.5	\$ 7.5	\$ 7.5
Gain from patent infringement settlement ⁽¹⁾	-	-	-	4.4
Other miscellaneous gain (loss) ⁽²⁾	1.9	-	1.9	-
Net other operating income (loss)	\$ 4.4	\$ 2.5	\$ 9.4	\$ 11.9

⁽¹⁾ The gain from patent infringement settlement for the nine months ended June 30, 2013, represents amounts received for past lost profits in an out-of-court settlement of a patent defense suit in the normal course of business.

⁽²⁾ The other miscellaneous gain for the three months ended June 30, 2014, represents a gain on disposal of certain business assets.

5. DERIVATIVE INSTRUMENTS AND HEDGING STRATEGIES

Our operations are exposed to market risks from changes in foreign currency exchange rates and interest rates. In the normal course of business, these risks are managed through a variety of strategies, including the use of derivatives.

Interest Rate Risk

The Company is exposed to interest rate risk associated with fluctuations in the interest rates on its variable interest rate debt. In order to manage this risk, the Company enters into interest rate swap agreements, when appropriate, based upon market conditions.

Foreign Currency Exposure

Although the U.S. Dollar is Sirona's reporting currency, it conducts its business in many currencies, and its local functional currency varies depending on the country of operation, which exposes the Company to market risk associated with foreign currency exchange rate movements. The Company hedges certain foreign currency transaction exposure through foreign exchange forward contracts.

Cash Flow Hedges

Interest Rate

The Company uses interest rate swaps to convert a portion of its debt's variable interest rate to a fixed interest rate. Interest rate swaps have been established for 100% of the interest for the Facility A Term Loan under the Senior Facilities Agreement until November 2016. The interest rate swaps fix the LIBOR element of interest payable on 100% of the principal amount of the Facility A Term Loan for defined three month interest periods over the entire term of the loan. The defined interest rates fixed for each three month interest period range from 1.270% to 1.285%. Settlement of the swaps is required on a quarterly basis. These swaps are designated as hedging instruments under ASC 815. These instruments were immaterial for all periods under report. The Company enters into interest rate swap contracts infrequently as they are only used to manage interest rate risk on long-term debt instruments.

Foreign Currency

The Euro is the functional currency for many of Sirona's subsidiaries, including its primary sales and manufacturing operations in Germany. During the periods under review, the U.S. Dollar/Euro exchange rate fluctuated significantly, thereby impacting Sirona's financial results. In order to hedge portions of the transactional

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(UNAUDITED)

exposure to fluctuations in exchange rates, based on forecasted and firmly-committed cash flows, Sirona enters into foreign exchange forward contracts (currently: USD, AUD, and JPY). These forward foreign currency contracts are intended to reduce short-term effects of changes in exchange rates. The Company enters into forward contracts that are considered to be economic hedges but which are not considered hedging instruments under ASC 815. As of June 30, 2014, these contracts had notional amounts totaling \$59 million. These agreements are relatively short-term (generally not exceeding six months).

The fair value carrying amount of the Company's derivative instruments at June 30, 2014 is described in Note 12 Fair Value Measurements.

The following tables summarize the impact of gains and losses from the fair value changes of the Company's derivative instruments reported in our condensed consolidated statements of income for the periods under report:

6. INCOME TAXES

For the first nine months of fiscal year 2014, an estimated effective tax rate of 23.5% has been applied. The income tax provision for the first nine months ended June 30, 2014, was \$ 41.4 million. For the first nine months of fiscal year 2013, a 24.0% estimated effective tax rate was applied. Additionally, a tax expense was recorded for \$2.2 million from a non-cash remeasurement of deferred tax assets and liabilities resulting from a local trade tax rate increase at our principal German operations, which was enacted and was effective in the first quarter of fiscal year 2013. Excluding this amount, the effective tax rate for fiscal year 2013 was 23.7%.

The Company's effective tax rate may vary significantly from period to period, and can be influenced by many factors. These factors include, but are not limited to, changes to statutory tax rates in the jurisdictions where the Company has operations, changes in the mix of earnings amongst jurisdictions with differing statutory tax rates (including as a result of business acquisitions and dispositions), changes in the valuation of deferred tax assets and liabilities, the results of audits and examinations of previously filed tax returns, tax planning initiatives, tax characteristics of income, as well as the timing and deductibility of expenses for tax purposes. The Company's effective tax rate differs from the U.S. federal statutory rate of 35% primarily as a result of lower statutory tax rates on foreign earnings at the Company's operations outside of the United States. The distribution of lower-taxed foreign earnings to the U.S. would generally increase the Company's effective tax rate.

With limited exception, the Company and its subsidiaries are no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by taxing authorities for tax returns filed with respect to periods prior to fiscal year 2009.

The Company makes no provision for deferred U.S. income taxes on undistributed foreign earnings because as of June 30, 2014, it remained management's intention to continue to indefinitely reinvest such earnings

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(UNAUDITED)

in foreign operations. In making this determination, the Company also evaluates its expected cash requirements in the United States. These earnings relate to ongoing operations and, as of June 30, 2014, the approximate amount of undistributed foreign earnings amounted to \$521 million. Because of the availability of U.S. foreign tax credits as well as other factors, it is not practicable to determine the income tax liability that would be payable if such earnings were not reinvested indefinitely.

7. INCOME PER SHARE

The computation of basic and diluted income per share is as follows:

Income per Share	Three months ended June 30,		Nine months ended June 30,	
<i>(In millions, except share and per share amounts)</i>	2014	2013	2014	2013
Net income attributable to Sirona Dental Systems, Inc. common shareholders	\$ 51.5	\$ 40.6	\$ 133.0	\$ 110.6
Weighted average shares outstanding - basic	55,362,620	55,002,236	55,251,782	55,053,713
Dilutive effect of stock-based compensation ⁽¹⁾	875,456	1,218,665	949,576	1,276,339
Weighted average shares outstanding - diluted	56,238,076	56,220,901	56,201,358	56,330,052
Net income per share				
Basic	\$ 0.93	\$ 0.74	\$ 2.41	\$ 2.01
Diluted	\$ 0.92	\$ 0.72	\$ 2.37	\$ 1.96

⁽¹⁾ There were no stock options excluded from the computation of diluted earnings per share for the periods under report.

8. SEGMENT REPORTING

The following tables reflect the results of the Company's reportable segments under the Company's management reporting system. The segment performance measure used to monitor segment performance is gross profit ("Segment Performance Measure") excluding the impact of the acquisition of control of the Sirona business by Sirona Holdings Luxco S.C.A. ("Luxco") – the former controlling shareholder, a Luxembourg-based holding entity owned by funds managed by Madison Dearborn Partners ("MDP"); Beecken Petty O'Keefe and management of Sirona through a leveraged buyout transaction on June 30, 2005 (the "MDP Transaction"); and the Exchange. This measure is considered by management to better reflect the performance of each segment as it eliminates the need to allocate centrally incurred costs and significant purchase accounting impacts that the Company does not believe are representative of the performance of the segments. Furthermore, the Company monitors performance geographically by region. As the Company manages its business on both a product and a geographical basis, U.S. GAAP requires segmental disclosure based on product information.

Reconciliation of the Results of the Segment Performance Measure to the Consolidated Statements of Income

The following table provides a reconciliation of the total results of operations of the Company's business segments under management reporting to the consolidated financial statements. The differences shown between management reporting and U.S. GAAP for the three and nine months ended June 30, 2014 and 2013 are due to the impact of purchase accounting and certain other corporate items. These effects are not included in the segment performance measure as the Company does not believe these to be representative of the performance of each segment.

Concentration of Revenue

A substantial portion of our revenue comes from two distributors accounting for more than 10% of revenues. Patterson Companies, Inc. ("Patterson") and Henry Schein, Inc. ("Henry Schein") accounted for revenues and accounts receivable for the three and nine months ended June 30, 2014 compared to the three and nine months ended June 30, 2013 as shown in the table below. These revenues were earned across all segments, with a significant portion of revenues with Patterson being earned in the CAD/CAM and Imaging segments. No other customer accounted for more than 10% of revenues.

Translation adjustment	(0.1)	0.1	0.1	0.1
Balance at end of the period	\$ 9.1	\$ 9.7	\$ 9.1	\$ 9.7

12. FAIR VALUE MEASUREMENTS

The Company applies the provisions of ASC 820, *Fair Value Measurements and Disclosures*, for assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities that are required to be recorded or disclosed at fair value, the Company considers the principal or most advantageous market in which it would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions, and the credit risk of the Company and counterparties to the arrangement.

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. A financial instrument's categorization within the fair value hierarchy is based

Table of Contents

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

upon the lowest level of input that is available and significant to the fair value measurement. ASC 820 establishes and prioritizes the following three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

Assets/Liabilities Measured at Fair Value on a Recurring Basis

The following table presents the Company's assets and liabilities measured at fair value on a recurring basis for the periods under report:

Assets and Liabilities Measured at Fair Value - Recurring Basis

	June 30,			
	2014			
	Quoted	Significant	Significant	Total

Business Combination-related liabilities	-	-	(14.3)	(14.3)
Total	\$ 123.2	\$ (0.5)	\$ (14.3)	\$ 108.4

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(UNAUDITED)

Assets and Liabilities Measured at Fair Value - Recurring Basis	September 30,			Total
	2013 Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
<i>(In millions)</i>		Foreign Exchange		
Assets				
Cash Equivalents (money market funds)	\$ 31.3	\$ -	\$ -	\$ 31.3
Derivative Assets	-	0.9	-	0.9
Liabilities				
Derivative Liabilities	-	(0.1)	-	(0.1)
Business Combination-related liabilities	-	-	(13.4)	(13.4)
Total	\$ 31.3	\$ 0.8	\$ (13.4)	\$ 18.7

The change in the fair value of the business acquisition-related liabilities was \$0.9 million for the period under report, and a total for all acquisitions of \$0.4 million and \$1.1 million was recorded in other income (expense) in the income statement for the three and nine months ended June 30, 2014, respectively.

In the Company's June 30, 2014 and September 30, 2013 Condensed Consolidated Balance Sheet, derivative assets and derivative liabilities are classified as prepaid expenses and other current assets and accrued liabilities and deferred income, respectively.

The Company did not elect the fair value option for any other eligible financial instruments.

Fair Value of Financial Instruments

Financial instruments consist of cash, cash equivalents, accounts receivable, accounts payable, foreign currency forward contracts, interest rate swaps, and certain liabilities related to business acquisitions primarily resulting from earn-out features. The carrying amounts of cash, cash equivalents, accounts receivable and accounts payable approximate their respective fair values because of the short maturity and nature of these items. The fair value of the foreign currency forward contracts and interest rate swaps is determined by the estimated cash flows of those contracts and swaps. The fair values of the acquisition-related liabilities are based on discounted valuations of commercial assumptions made by Company management of stipulations governed in the underlying purchase agreements.

MANAGEMENT’S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

INTRODUCTION

Except as otherwise indicated or unless context otherwise requires, the terms “Sirona”, the “Company”, “we”, “us”, and “our” refer to Sirona Dental Systems, Inc. and its consolidated subsidiaries.

Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to provide the reader of our financial statements with a narrative, from the perspective of our management, on our business, financial condition, results of operations, liquidity, and certain other factors that may affect our future results. Unless expressly stated otherwise, the comparisons presented in this MD&A refer to the same period in the prior year.

Our MD&A should be read in conjunction with the Condensed Consolidated Financial Statements included elsewhere in this report and the MD&A included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2013. Actual results and the timing of certain events may differ significantly from those projected in forward-looking statements due to a number of factors, including those set forth in “Operations Review” in this Item and elsewhere in this Report.

Certain revenue information is presented on a constant currency basis (“Constant Currency”). This information is a non-GAAP financial measure. Sirona supplementally presents this revenue information because it believes doing so facilitates a comparison of its operating results from period to period without regard to changes resulting solely from

fluctuations in currency rates. Because of the historical predominance of the Euro to its operations, Sirona calculates Constant Currency revenue growth by comparing current-period revenues to prior-period revenues with both periods converted at the U.S. Dollar/Euro average foreign exchange rate for each month of the current period. Currently, our Constant Currency calculation does not adjust for fluctuations in any other currency, most importantly the Japanese Yen, Chinese Yuan Renminbi, Australian Dollar, and Brazilian Real.

All amounts in this section are reported in millions of U.S. Dollars (\$), except as otherwise disclosed.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

EXECUTIVE OVERVIEW OF SIRONA'S BUSINESS AND PERFORMANCE

Business

Sirona is the leading global manufacturer of high-quality, technologically-advanced dental equipment, and is focused on developing, manufacturing, and marketing innovative systems and solutions for dentists around the world. The Company is uniquely positioned to benefit from several trends in the global dental industry, such as technological innovation, increased use of CAD/CAM systems in restorative dentistry, the shift to digital imaging, favorable demographic trends, and growing patient focus on dental health and cosmetic appearance. The Company's headquarters is in Long Island City, New York, and its largest facility is located in Bensheim, Germany.

Sirona has a long tradition of innovation in the dental industry. The Company introduced the first dental electric drill approximately 130 years ago, the first dental X-ray unit approximately 100 years ago, the first dental computer-aided design/computer-aided manufacturing (CAD/CAM) system 28 years ago, and numerous other significant innovations in dentistry. Sirona continues to make significant investments in research and development ("R&D"), and its track record of innovative and profitable new products continues today. Sirona has the broadest product portfolio in the industry and is capable of fully outfitting and integrating a dental practice.

The majority of our revenues derive from the manufacture and sale of dental equipment. In addition, we also provide sales and after-sales service support to dentists and distributors through our growing sales and service infrastructure.

Sirona manages its commercial operations on both a product and geographic basis and maintains four segments: 1) Dental CAD/CAM Systems, 2) Imaging Systems, 3) Treatment Centers, and 4) Instruments. Products from each category are marketed in all geographical sales regions.

The Company's business has grown substantially in the past several years, driven by numerous high-tech product introductions, a continued expansion of its global sales and service infrastructure, strong relationships with key distribution partners, namely Patterson and Henry Schein, and an international dealer network.

Current Performance at a Glance

The following is a synopsis of our performance for the nine months ended June 30, 2014:

Revenue: For the nine months ended June 30, 2014, we reported revenue growth of 7.1%. On a Constant Currency basis, total revenues were up 3.9% over a strong first nine months in fiscal year 2013, where revenues grew 11.4% Constant Currency. We continue to experience solid growth in demand for our CAD/CAM and Imaging products. Instruments is the strongest growing segment so far this year benefitting from our new state-of-the-art manufacturing facility in Bensheim, Germany. Treatment Centers saw a slight decline in demand against a very strong prior year with the last edition of the M1+. Geographically, growth was mainly driven by the U.S. and increased success of our expanded international sales and services infrastructure, led by Japan and China.

Operating Income: Gross profit increased by \$ 33.7 million, representing a slight improvement in gross profit margins to 54.7% (*prior year period: 54.5%*). We continue to invest in the expansion of our sales and service infrastructure in key markets and in research and development for new products and services. Overall, SG&A expenses increased \$ 13.1 million, while R&D expenses increased \$ 3.2 million. Operating income grew \$14.9 million, or 9.0%, compared to the same period last year.

Net Income: Net income attributable to Sirona shareholders was \$ 133.0 million, an increase of \$22.4 million, or 20.3%, over the prior year.

Cash Position: At June 30, 2014, the Company had cash and cash equivalents of \$297.0 million and total debt of \$79.5 million, resulting in net cash of \$217.5 million, or an increase of \$51.2 million compared to September 30, 2013.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Significant Factors Affecting Our Operating Performance

Foreign Currency Fluctuations

Although the U.S. Dollar is Sirona's reporting currency, it conducts its business in many currencies, and its functional currencies vary depending on the country of operation. For the nine months ended June 30, 2014, Sirona's revenues denominated in Euro, U.S. Dollar, and a number of other currencies (most importantly: Japanese Yen, Chinese Yuan Renminbi, Australian Dollar, and Brazilian Real) represented approximately 42%, 35%, and 23%, respectively. Sirona's operating expenses denominated in Euro, U.S. Dollar, and a number of other currencies represented approximately 67%, 17%, and 16%, respectively. Fluctuations in exchange rates impact Sirona's financial results. The major influencing factor is the U.S. Dollar/Euro exchange rate. During the periods under review, the U.S. Dollar/Euro exchange rate has fluctuated significantly. Between October 1, 2012 and June 30, 2014, the U.S. Dollar/Euro exchange rate used to calculate items included in Sirona's financial statements varied from a low of \$1.271 to a high of \$1.3956. The average exchange rate for the three and nine months ended June 30, 2014, was \$1.3715 and \$1.3675 respectively and varied from \$1.3598 to \$1.3807 and from \$1.3497 to \$1.3826 respectively. For the three and nine months ended June 30, 2013, an average exchange rate converting Euro denominated revenues into U.S. Dollars of \$1.3059 and \$1.30786 was applied respectively.

Although Sirona does not apply hedge accounting for foreign currency derivatives, it has entered into foreign exchange forward contracts to help mitigate foreign currency exposure. As of June 30, 2014, these contracts had notional amounts totaling \$59 million. As these agreements are relatively short-term (generally not exceeding six months) and do not cover all underlying exposures, continued fluctuation in exchange rates could materially affect Sirona's results of operations.

Loans made to Sirona under the Senior Facilities Agreement entered into on November 14, 2011, are denominated in the functional currency of the respective borrowers. See "Liquidity and Capital Resources" for a discussion of our Senior Facilities Agreement. However, intra-group loans and other intra-group monetary assets and liabilities are denominated in the functional currency of only one of the parties to the agreements. Where intra-group loans are of a

long-term investment nature, the potential fluctuations in exchange rates are reflected within other comprehensive income, whereas exchange rate fluctuations for short-term intra-group loans and other short-term intra-group transactions are recorded in the consolidated statements of income. These fluctuations may be significant in any period due to changes in exchange rates, especially between the Euro and the U.S. Dollar.

The MDP Transaction and the Exchange

The assets and liabilities acquired in the MDP Transaction and the Exchange were partially stepped up to fair value, and a related deferred tax liability was recorded. The excess of the total purchase price over the fair value of the net assets acquired, including IPR&D, which were expensed at the date of closing of the MDP Transaction and the Exchange, was allocated to goodwill and is subject to periodic impairment testing.

Sirona's cost of goods sold, R&D, SG&A expense and operating results have been and will continue to be materially affected by depreciation and amortization costs resulting from the step-up to fair value of Sirona's assets and liabilities.

For more detailed information concerning factors affecting our operating results, please refer to "Significant Factors that Affect Sirona's Results of Operations" in the MD&A section of our Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Revenue

For the three months ended June 30, 2014, revenue was \$ 299.7 million, an increase of \$ 16.5 million, or 5.8% (*increased 2.5% Constant Currency*). The strengthening of the Euro had a favorable impact on our reported revenue growth across all segments; whereas the weakening of other major currencies (such as Australian Dollar, Brazilian Real, Japanese Yen, etc.) had a negative impact on revenue growth for which no adjustment is made in our Constant Currency measure. Revenue developed by segment and geographically as follows:

By *segment*:

CAD/CAM Systems (*increased 6.2% - up 3.5% Constant Currency*): Revenue growth was driven by international markets, benefiting from new-user demand for our best-in-class products. The U.S. faced a difficult year-over-year comparison due to the successful Omnicam trade-up program in the third quarter of Fiscal 2013.

Imaging Systems (*increased 8.9% - up 6.1% Constant Currency*): Revenue growth was driven by increasing demand for our intraoral and Orthophos product lines, particularly in the U.S.

Treatment Centers (*decreased 4.7% - down 9.3% Constant Currency*): Our Treatment Center segment also faced a challenging year-over-year comparison due to strong revenues in the prior year in connection with the IDS in Cologne, Germany.

Instruments (*increased 14.0% - up 8.9% Constant Currency*): Revenue growth was driven by international markets, especially in the hygiene and traditional business.

Geographically:

U.S. (*increased 8.2%*): U.S. revenues continued to benefit from strong demand for our Imaging products.

International Markets (*increased 4.7% - decreased 0.3% Constant Currency*): Germany, our second largest individual market, faced a challenging year-over-year comparison due to very strong sales in connection with the IDS in March 2013, mainly offset by strong sales growth in other international markets.

Cost of Goods Sold and Gross Profit

Cost of Goods Sold

For the three months ended June 30, 2014, cost of goods sold was \$ 132.1 million, an increase of \$ 0.4 million, or 0.3%. Cost of goods sold as a percentage of sales decreased to 44.1% (*prior year period: 46.5%*). Improvements in product, regional, and channel mix combined with cost reductions to more than offset the headwinds resulting from a strengthening Euro and weakening of other currencies such as the Australian Dollar, Brazilian Real, Japanese Yen, and Russian Ruble.

Cost of goods sold included amortization and depreciation expense resulting from the step-up to fair values of tangible and intangible assets of \$8.2 million (*prior year period: \$9.7 million*). Excluding these amounts, cost of goods sold as a percentage of revenue was 41.3% (*prior year period: 43.0%*).

Gross Profit

Sirona uses gross profit, excluding the impacts of the MDP Transaction and the Exchange, to monitor segment performance. For the three months ended June 30, 2014, gross profit was \$ 167.6 million, an increase of \$ 16.1 million, or 10.6%. Excluding the above amounts in cost of goods sold, gross profit as a percentage of revenue was 58.7% (*prior year period: 57.0%*). The increase in the gross profit margin was mainly due to improvements in product, regional, and channel mix combined with cost reductions, more than offsetting the abovementioned headwinds from foreign exchange effects that cut across all segments.

By segment, gross profit developed in the three months ended June 30, 2014, compared to the three months ended June 30, 2013 as follows:

CAD/CAM Systems: Segment gross profit benefited from increased unit growth in both chair-side and inLab revenues. The increase in gross profit margin was mainly driven by product and regional mix and a higher share of new-user sales versus trade ups.

Table of Contents

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Imaging Systems: Segment gross profit and gross profit margin benefited from an increase in direct sales and a more favorable product mix. Price concessions in certain international markets were partially offset by cost reductions.

Treatment Centers: Segment gross profit was driven by the tough year-over-year comparison due to the positive impact from strong sales in connection with the IDS in March 2013. The less favorable impact of product and regional mix was not offset by productivity gains and distribution efficiencies achieved during the period.

Instruments: Segment gross profit was above the prior year due to the increase in general sales levels, especially in the hygiene category. The increase in gross profit margin was mainly driven by product and regional mix.

Selling, General, and Administrative

For the three months ended June 30, 2014, SG&A expense was \$ 88.1 million, an increase of \$ 8.3 million, or 10.4%.

The increase in SG&A expense was primarily driven by the general increase in sales volume, selling costs related to the introduction of new products, continuing investment in the expansion of our sales and service infrastructure in growth markets, and to a lesser extent from foreign currency effects.

SG&A expense for the three months ended June 30, 2014 included:

\$2.9 million of other non-cash share-based compensation expense, and \$0.6 million of amortization and depreciation resulting from the step-up to fair values of tangible and intangible assets.

SG&A expense for the three months ended June 30, 2013 included:

\$2.2 million of other non-cash share-based compensation expense, and

\$0.6 million of amortization and depreciation resulting from the step-up to fair values of tangible and intangible assets.

Excluding the above amounts, as a percentage of revenue, SG&A expense was 28.2 % (*prior year period: 27.2 %*).

Research and Development

R&D expense for the three months ended June 30, 2014, was \$ 16.6 million, an increase of \$ 0.9 million, or 5.7%.

The increase was mostly driven by the strengthening of the Euro. As a percentage of revenue, R&D expense was 5.5% (*prior year period: 5.5%*).

Net Other Operating Income (Loss)

Net other operating income (loss) for the three months ended June 30, 2014, compared to the three months ended June 30, 2013 was as follows:

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS****OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

	Three months ended June 30, 2014 2013	
Net Other Operating Income (Loss)		
<i>(In millions)</i>		
Income resulting from the amortization of the deferred income related to the Patterson exclusivity payment	\$2.5	\$2.5
Other miscellaneous gain (loss) ⁽¹⁾	1.9	-
Net other operating income (loss)	\$4.4	\$2.5

⁽¹⁾ The other miscellaneous gain for the three months ended June 30, 2014, represents a gain on disposal of certain business assets.

Gain (Loss) on Foreign Currency Transactions and Derivative Instruments***Foreign Currency Transactions***

The gain on foreign currency transactions for the three months ended June 30, 2014 amounted to \$ 2.2 million (*prior year period: loss of \$ 4.5 million*). The components of these results are as follows:

	Three months ended June 30, 2014 2013	
Gain (Loss) on Foreign Currency Transactions		
<i>(In millions)</i>		
Unrealized non-cash foreign exchange gain (loss) from translation adjustment of deferred income related to the Patterson exclusivity payment	\$(0.3)	\$0.9
Unrealized non-cash foreign exchange gain (loss) on short-term intra-group loans	(0.4)	0.8
Gain (loss) on other foreign currency transactions ⁽¹⁾	2.9	(6.2)
Gain (Loss) on Foreign Currency Transactions	\$2.2	\$(4.5)

(1) For the nine months ended June 30, 2014 and 2013, the gain (loss) on other foreign currency transactions related to the revaluation of short-term assets and liabilities and realized transactions, both of which were primarily impacted by the fluctuations between the Yen/Euro, Euro/U.S. Dollar, and Real/Euro exchange rates.

Derivative Instruments

For the three months ended June 30, 2014, the loss on derivative instruments was \$ 0.5 million (*prior year period: gain of \$ 0.9 million*). In both periods, the results related to foreign currency hedges.

Income Tax Provision

For the three months ended June 30, 2014, Sirona recorded a profit before income taxes of \$ 67.7 million (*prior year period: \$ 53.8 million*), an income tax provision of \$ 15.9 million (*prior year period: \$ 12.9 million*), and an estimated effective tax rate applied for the quarter of 23.5% (*prior year period: 24.0%*). The estimated effective tax rate is primarily driven by the expected mix of earnings across different jurisdictions.

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Revenue

Revenue for the nine months ended June 30, 2014, was \$ 881.1 million, an increase of \$ 58.2 million, or 7.1% (*increased 3.9% Constant Currency*). The strengthening of the Euro had a favorable impact on our reported revenue growth across all segments; whereas the weakening of other major currencies (such as Australian Dollar, Brazilian Real, Japanese Yen, etc.) had a negative impact on revenue growth for which no adjustment is made in our Constant Currency measure. Revenue developed by segment and geographically as follows:

By *segment*:

CAD/CAM Systems (*increased 7.2% - up 4.5% Constant Currency*): Segment revenue growth was mainly driven by new-user demand in the U.S. and Germany, as well as strength in international markets, where we continue to expand our sales and service infrastructure.

Imaging Systems (*increased 7.9% - up 5.4% Constant Currency*): Sales growth was driven by our intra-oral and Orthophos product lines, particularly in the U.S. Internationally, Imaging Systems faced a difficult year-over-year comparison due to the strong demand in connection with the IDS in Fiscal 2013.

Treatment Centers (*increased 0.5% - down 3.8% Constant Currency*): Sales decreased Constant Currency mainly due to the challenging year-over-year comparison with strong demand in connection with the IDS in March 2013 and the M1+ last edition program in the prior year. Demand for our Sinius treatment center continued to be robust.

Instruments (*increased 17.1% - up 12.2% Constant Currency*): Sales growth was mostly driven by other international markets and Germany, increasingly utilizing our new manufacturing facility.

Geographically:

U.S. (*increased 8.6%*): Revenues were exceptionally strong and benefited from strong demand for our Imaging and CAD/CAM products.

International Markets (*increased 6.4% - increased 1.8% Constant Currency*): Revenues in Germany faced a challenging year-over-year comparison due to strong sales in connection with the IDS in March 2013. Sales growth

in other international markets was particularly driven by strong performance in Japan and China.

Excluding foreign currency fluctuations, revenue growth was mainly volume and product-mix driven. Prices in general remained stable, with the exception of pricing concessions in certain markets within the Imaging product lines.

Cost of Goods Sold and Gross Profit

Cost of Goods Sold

For the nine months ended June 30, 2014, cost of goods sold was \$ 399.3 million, an increase of \$ 24.5 million, or 6.5%. Cost of goods sold as a percentage of sales decreased slightly to 45.3% (*prior year period: 45.5%*). Improvements in product, regional, and channel mix combined with cost reductions and lower step-up amortization to more than offset the negative effects on margins resulting from a strengthening Euro and weakening of other currencies such as the Japanese Yen, Australian Dollar, Brazilian Real, and Russian Ruble.

Cost of goods sold included amortization and depreciation expense resulting from the step-up to fair values of tangible and intangible assets of \$25.2 million (*prior year period: \$27.9 million*). Excluding these amounts, cost of goods sold as a percentage of revenue was 42.4% (*prior year period: 42.1%*).

Gross Profit

Sirona uses gross profit, excluding the impacts of the MDP Transaction and the Exchange, to monitor segment performance. For the nine months ended June 30, 2014, gross profit was \$ 481.8 million, an increase of \$ 33.7 million, or 7.5%. Excluding the above amounts in cost of goods sold gross profit as a percentage of revenue was 57.6% (*prior year period: 57.9%*). The slight decrease in gross profit margin, excluding the impacts of the MDP Transaction and the Exchange, was mainly due to the abovementioned headwinds from foreign exchange effects that cut across all segments, despite improvements in product, regional, and channel mix as well as cost reductions.

Table of Contents

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

By segment, gross profit developed in the nine months ended June 30, 2014 compared to the nine months ended June 30, 2013 as follows:

CAD/CAM Systems: Segment gross profit benefited from the strong increase in sales; however, gross profit margin was below the prior year. The favorable impacts of product and channel mix on the segment gross profit margin were more than offset by negative foreign currency effects.

Imaging Systems: Segment gross profit benefited from a strong increase in sales; whereas, gross profit margin was driven by product mix within the extra-oral and intra-oral product lines. Price concessions for the extra-oral product lines in certain international markets were partly offset by cost reductions.

Treatment Centers: The slight decrease in gross profit margin was due to negative foreign currency effects, despite positive product mix and productivity gains .

Instruments: Segment gross profit increased due to higher sales levels; however, gross profit margin was below the prior-year level. The decrease in gross profit margin was mainly driven by increased sales in the price-volume category, production inefficiencies, and foreign currency impacts, partly offset by increased sales in the hygiene category.

Selling, General, and Administrative

For the nine months ended June 30, 2014, SG&A expense was \$ 263.3 million, an increase of \$ 13.1 million, or 5.2%.

The increase in SG&A expense was primarily driven by the general increase in sales volume, selling costs related to the introduction of new products, and continuing investment in the expansion of our sales and service infrastructure in growth markets.

SG&A expenses for the nine months ended June 30, 2014 included:

other non-cash share-based compensation expense in the amount of \$9.2 million, \$2.7 million for the CFO Transition, and amortization and depreciation resulting from the step-up to fair values of tangible and intangible assets of \$1.8 million.

SG&A expense for the nine months ended June 30, 2013 included:

other non-cash share-based compensation expense in the amount of \$10.4 million, \$7.3 million for the Transition Agreement with the former Chairman and CEO, which included a \$3.8 million non-cash charge for the modification of share-based awards, and amortization and depreciation resulting from the step-up to fair values of tangible and intangible assets of \$1.8 million.

Excluding the above amounts, as a percentage of revenue, SG&A expense was 28.3% (*prior year period: 28.0%*).

Research and Development

R&D expense for the nine months ended June 30, 2014, was \$ 48.1 million, an increase of \$ 3.2 million, or 7.1%.

The increase was mainly driven by the timing of projects and foreign exchange rate fluctuations. As a percentage of revenue, R&D expense was 5.5% (*prior year period: 5.5%*).

Net Other Operating Income

Net other operating income for the nine months ended June 30, 2014, compared to the nine months ended June 30, 2013 was as follows:

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS****OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

	Nine months ended June 30, 2014 2013	
Net Other Operating Income (Loss)		
<i>(In millions)</i>		
Income resulting from the amortization of the deferred income related to the Patterson exclusivity payment	\$ 7.5	\$ 7.5
Gain (loss) from patent infringement settlement ⁽¹⁾	-	4.4
Other miscellaneous gain (loss) ⁽²⁾	1.9	-
Net other operating income (loss)	\$ 9.4	\$ 11.9

⁽¹⁾ The gain from patent settlement for the nine months ended June 30, 2013, represents amounts received for past lost profits in an out-of-court settlement of a patent defense suit in the normal course of business.

⁽²⁾ The other miscellaneous gain for the nine months ended June 30, 2014, represents a gain on disposal of certain business assets.

Gain (Loss) on Foreign Currency Transactions and Derivative Instruments

Foreign Currency Transactions

The gain on foreign currency transactions for the nine months ended June 30, 2014 amounted to \$ 1.6 million (*prior year period: loss of \$ 10.5 million*). The components of these results are as follows:

	Nine months ended June 30, 2014 2013	
Gain (Loss) on Foreign Currency Transactions		
<i>(In millions)</i>		
Unrealized non-cash foreign exchange gain (loss) from translation adjustment of deferred income related to the Patterson exclusivity payment	\$ 0.5	\$ 0.6
Unrealized non-cash foreign exchange gain (loss) on short-term intra-group loans	0.8	(2.5)
Gain (loss) on other foreign currency transactions ⁽¹⁾	0.3	(8.6)

Gain (Loss) on Foreign Currency Transactions

\$ 1.6 \$ (10.5)

(1) For the nine months ended June 30, 2014 and 2013, the gain (loss) on other foreign currency transactions related to the revaluation of short-term assets and liabilities and realized transactions, both of which were primarily impacted by the fluctuations between the Yen/Euro, Euro/U.S. Dollar, and Real/Euro exchange rates.

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Derivative Instruments

The loss of \$ 1.4 million on derivative instruments for the nine months ended June 30, 2014 (*prior year period: loss of \$ 0.3 million*). In both periods, these amounts related to unrealized non-cash gains and losses on foreign currency hedges.

Income Tax Provision

For the nine months ended June 30, 2014, Sirona recorded a profit before income taxes of \$ 176.1 million (*prior year period: \$ 150.5 million*), an income tax provision of \$ 41.4 million (*prior year period: \$ 38.3 million*), and an estimated effective tax rate applied for the first nine months of 23.5% (*prior year period: 24.0%, which excludes the effect from the local German tax rate increase described below*). The income tax provision as of June 30, 2013, included the effect from a local trade tax increase at our principal German operations, which was enacted in and effective beginning in the first quarter of fiscal year 2013. This tax rate change resulted in a tax expense of \$2.2 million, primarily from a non-cash remeasurement of deferred tax assets and liabilities. Excluding this amount, the effective tax rate in fiscal year 2013 was 23.7%. The estimated effective tax rate is primarily driven by the expected mix of earnings across different countries.

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY AND CAPITAL RESOURCES

Summary

Historically, Sirona's principal uses of cash, apart from operating requirements (including research and development efforts), have been for interest payments, debt repayment, and acquisitions. Operating capital expenditures typically are approximately equal to operating depreciation (excluding any effects from the increased amortization and depreciation expense resulting from the step-up to fair values of Sirona's and Schick's assets and liabilities required under purchase accounting). These expenditures may temporarily exceed operating depreciation for larger-scale infrastructure and other investment activities that the Company may undertake from time to time. The Company also uses cash for occasional purchases of treasury shares pursuant to stock repurchase programs.

At June 30, 2014, the Company had cash and cash equivalents of \$297.0 million and total debt of \$79.5 million, resulting in net cash of \$217.5 million. We believe our ability to generate cash from operating activities is one of our fundamental strengths. The near-term outlook for our business remains strong, and we expect to continue generating significant cash flows from operations throughout the remainder of fiscal 2014. The Company typically does not raise capital through issuance of stock; instead, we use debt financing to lower our overall cost of capital and increase our return on shareholders' equity. We believe that our operating cash flows, available cash, and available but unused revolving credit facilities, in combination, provide us with the necessary financial flexibility to fund our working capital needs, research and development efforts, and anticipated capital expenditures for the foreseeable future.

We have significant operations outside of the U.S. and earn a significant portion of our consolidated operating income and income before taxes through our foreign subsidiaries. Cash and cash equivalents of \$ 144.1 million held by our foreign subsidiaries generally are not subject to restrictions prohibiting such amounts from being available in the United States. The distribution of lower-taxed foreign earnings to the United States, however, would generally increase our effective tax rate. It is management's intention to continue to indefinitely reinvest such earnings in foreign operations.

Debt Financing

On November 14, 2011, the Company entered into a senior facilities agreement (the “Senior Facilities Agreement”) with Sirona Dental Systems, Inc. and all significant subsidiaries of Sirona as original borrowers and original guarantors, and as of November 16, 2011, Sirona fully repaid its obligations under the Prior Senior Facilities Agreement. Initial borrowings under the Senior Facilities Agreement were used to retire the outstanding borrowings under the Company's previous credit facilities. Please see “Senior Facilities Agreement” within this section for a complete description of this Senior Facilities Agreement.

The Senior Facilities Agreement contains restrictive covenants that limit Sirona’s ability to make loans, to incur additional indebtedness, and to make disposals, subject to agreed exceptions. The Company has agreed to certain financial debt covenants in relation to the financing. The covenants stipulate that the Company must maintain certain ratios in respect of consolidated total net debt to consolidated adjusted EBITDA (“Consolidated Adjusted EBITDA”). If the Company breaches any of the covenants, the loans will become repayable on demand.

The financial covenants require that the Company maintain a debt coverage ratio (“Debt Cover Ratio”) of consolidated total net debt to Consolidated Adjusted EBITDA, determined on the basis of the last twelve months, of no more than 3.00 to 1. The Company is required to determine its compliance with the covenants as of September 30 and March 31. As of March 31, 2014, the most recent period for which this ratio was calculated, the Company was in compliance:

Table of Contents**SIRONA DENTAL SYSTEMS, INC.****AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS****OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Covenants Ratios	March 31, 2014	September 30, 2013
<i>(In millions, except for ratio amounts)</i>		
Consolidated Total Net Debt	\$ (176.8)	\$ (163.4)
Consolidated Adjusted EBITDA	\$ 298.3	\$ 294.7
Debt Cover Ratio ⁽¹⁾	N/A	N/A
<i>as set by covenants (less than or equal to)</i>	3.00	3.00

⁽¹⁾ Not meaningful in the absence of net debt.

Cash Flows

The following table summarizes our cash flows from operating, investing, and financing activities for each of the periods under report:

Cash Flows	Nine months ended		Change	
	June 30, 2014	2013	absolute	%
<i>(In millions, except for percent amounts)</i>				
Net cash provided by (used in) OPERATING activities	\$ 130.5	\$ 160.1	\$ (29.6)	(18.5%)
Net cash provided by (used in) INVESTING activities	(62.5)	(70.5)	8.0	11.3%
Net cash provided by (used in) FINANCING activities	(13.1)	(34.2)	21.1	61.7%
Increase (decrease) in cash during the period	\$ 54.9	\$ 55.4	\$ (0.5)	(0.9%)

Net Cash Provided by (Used in) Operating Activities

Net cash provided by operating activities represents net cash from operations, returns on investments, and payments for interest and taxation.

Net cash provided by operating activities was \$130.5 million for the nine months ended June 30, 2014 (*prior year period: \$160.1 million*), or a decrease of \$29.6 million despite an increase of \$22.4 million in net income.

Influencing factors on operating cash flows were:

In the first nine months of fiscal 2014, the favorable adjustments to reconcile net income to net operating cash flow decreased by \$25.6 million over the prior-year period. Driving factors for this decrease were:

- o \$11.0 million less favorable adjustments from derivative instrument and foreign currency transactions due to a swing to a net gain from a larger net loss in the prior year,

- o \$11.5 million less favorable impacts from net deferred taxes. In the prior year, the acquisition of a technology company and the trade tax increase at our primary facility in Bensheim, Germany, both resulted in favorable adjustments.

- o In fiscal 2014, the gain on the sale of business assets resulted in an unfavorable impact of \$1.9 million in the other adjustments.

- o The remaining changes only had a minor impact on the decrease in net cash provided by operating activities.

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

In the first nine months of fiscal 2014, the unfavorable effect of changes in assets and liabilities increased by \$26.5 million over the prior-year period. The factors for this increase were:

The higher increase of receivables and inventories by \$40.7 million in the current year, which was primarily driven by the \$47.7 million increase in receivables. The increase in receivables was due to a higher concentration of revenues later in the current-year quarter versus earlier in the prior-year quarter as well as a shift to customers with longer payment terms.

Changes in trade accounts payable and other assets and liabilities were \$6.7 million more favorable compared to the prior year. This development reflects the timing of supplier payments and the effects of the prior-year acquisition of a technology company.

Changes in current income tax liabilities resulted in \$7.5 million less unfavorable adjustments in the current year due to the timing of income tax payments.

Net Cash Provided by (Used in) Investing Activities

Net cash used in investing activities represents cash used for capital expenditures in the normal course of operating activities, financial investments, acquisitions, asset disposals, and divestitures.

Net cash used in investing activities was \$62.5 million for the nine months ended June 30, 2014 (*prior year period: \$70.5 million*), or a decrease of \$8.0 million.

The primary contributors to the investing cash outflow in the nine months ended June 30, 2014 were:

- the acquisition of the main administrative building in Bensheim, Germany for \$26.7 million,
- the completion of the expansion of the new instruments manufacturing facility in Bensheim, Germany,
- the sale of certain business assets for \$11.5 million, and
- capital expenditures in the course of normal operating activities.

For the nine months ended June 30, 2013, net cash used in investing activities represented:

- the acquisition of a technology company for \$35.0 million, and
- capital expenditures in the course of normal operating activities.

Net Cash Provided by (Used in) Financing Activities

Net cash used in financing activities was \$13.1 million for the nine months ended June 30, 2014 (*prior year period: \$34.2 million*) for the nine months ended June 30, 2013, or a decrease of \$21.1 million. The year-over-year decrease was mainly driven by \$21.2 million fewer purchases of treasury shares in the first nine months of 2014, \$0.9 million higher proceeds and \$2.4 million higher tax effects from shares issued under share based compensation plans.

Capital Resources

Senior Facilities Agreement

On November 14, 2011, the Company entered into the Senior Facilities Agreement with Sirona Dental Systems, Inc. and all significant subsidiaries of Sirona as original borrowers and original guarantors. As of November 16, 2011, Sirona fully repaid its obligations under the Prior Senior Facilities Agreement. Initial borrowings under the Senior Facilities Agreement were used to retire the outstanding borrowings under the Company's previous credit facilities.

The Senior Facilities Agreement includes: (1) a term loan in an aggregate principal amount of \$75 million ("Facility A Term Loan") available to Sirona or Sirona Dental, as borrower; (2) a 120 million Euro revolving credit facility ("Revolving Facility B") available to Sirona Dental Systems GmbH and Sirona Dental Services GmbH, as initial borrowers; and (3) a \$100 million revolving credit facility ("Revolving Facility C") available to Sirona or Sirona Dental, as initial borrowers. The Revolving Facility B is available for borrowing in Euro or any other freely available currency agreed to by the facility agent. The facilities are made available on an unsecured basis. Subject to certain limitations, each European guarantor guarantees the performance of each European borrower, except itself, and each U.S. guarantor guarantees the performance of each U.S. borrower, except itself.

SIRONA DENTAL SYSTEMS, INC.

AND SUBSIDIARIES

MANAGEMENT'S DISCUSSION AND ANALYSIS

OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Of the amount borrowed under the Facility A Term Loan, 30% is due on November 16, 2015, and the balance is due on November 16, 2016. The loans under the Senior Facilities Agreement bear interest of EURIBOR, for Euro-denominated loans, and LIBOR for the other loans, plus an initial margin of 160, 85 and 110 basis points for the Facility A Term Loan, Revolving Facility B and Revolving Facility C, respectively.

The Senior Facilities Agreement contains a margin ratchet. Pursuant to this provision, which applies from March 31, 2012 onwards, the applicable margin varies depending on the Company's leverage multiple (i.e. the ratio of consolidated total net debt to consolidated adjusted EBITDA as defined in the Senior Facilities Agreement) between 160 basis points and 215 basis points for the Facility A Term Loan, 85 basis points and 140 basis points for the Revolving Facility B, and 110 basis points and 165 basis points for the Revolving Facility C.

The Senior Facilities Agreement contains restrictive covenants that limit Sirona's ability to make loans, to incur additional indebtedness, and to make disposals, subject to agreed-upon exceptions. The Company has agreed to certain financial debt covenants in relation to the financing. The covenants stipulate that the Company must maintain certain ratios in respect of consolidated total net debt to consolidated adjusted EBITDA. If the Company breaches these covenants, the loans will become repayable on demand.

On November 16, 2011, Sirona entered into 5-year payer interest rate swaps to fully hedge its 3-month LIBOR exposure for the Facility A Term Loan. The terms of the swap reflect the term structure of the underlying loan. The effective nominal interest rate is 1.2775% plus the applicable margin. Settlement of the swaps is required on a quarterly basis.

Debt issuance costs of \$2.8 million were incurred in relation to the financing in November 2011 and have been capitalized as deferred charges and are amortized using the effective interest method over the term of the loans.

As of June 30, 2014 and September 30, 2013, the Facility A Term Loan was fully drawn to the amount of \$75.0 million. The Revolving Facilities B and C remained undrawn as of June 30, 2014 and September 30, 2013.

ACCOUNTING STANDARDS ISSUED BUT NOT YET ADOPTED

Please see Note 2 to the unaudited condensed consolidated financial statements for any discussions of recently issued accounting standards that have not yet been adopted.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to the Company's market risk as reported under Part II, Item 7A in its Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer (principal executive officer) and chief financial officer (principal financial officer), evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934), as of June 30, 2014. Based upon this evaluation, our chief executive officer and chief financial officer concluded that, as of June 30, 2014, the Company's disclosure controls and procedures are effective. Our disclosure controls and procedures are designed to ensure that information relating to the Company, including our consolidated subsidiaries, that is required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Commission's rules and forms, and is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

No change in our internal control over financial reporting (as defined in rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the quarter ended June 30, 2014, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

There are currently no material legal proceedings pending.

ITEM 1A. RISK FACTORS

There are no material changes from risk factors as previously disclosed by the Company in Part I, Item 1A of its Annual Report on Form 10-K for the fiscal year ended September 30, 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

The number and average price of shares repurchased during the three months ended June 30, 2014 are set forth in the table below:

Issuer Purchase of Equity Securities

<i>(In millions, except share and per share amounts)</i>	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program ⁽¹⁾	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Programs
April 1 - April 30, 2014	-	\$ -	-	\$ 82.2
May 1 - May 31, 2014	35,845	75.02	35,845	79.5
June 1 - June 30, 2014	76,126	78.63	76,126	73.5
Total purchases in the period	111,971		111,971	

⁽¹⁾ In May 2013, the Company's Board of Directors announced a stock repurchase program (the "2013 Program") to purchase up to an additional aggregate of \$100 million of its common stock in open market or privately-negotiated transactions effective through June 2016. The Company is not obligated to acquire any particular amount of common stock and may suspend the program at any time at its discretion without prior notice.
