UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_  
Commission File No. 1-13881

MARRIOTT INTERNATIONAL, INC.  
(Exact name of registrant as specified in its charter)

Delaware 52-2055918  
(State or other jurisdiction of (IRS Employer  
incorporation or organization) Identification No.)

10400 Fernwood Road, Bethesda, Maryland 20817  
(Address of principal executive offices) (Zip Code)  
(301) 380-3000  
(Registrant’s telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company) Smaller Reporting Company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 346,988,137 shares of Class A Common Stock, par value \$0.01 per share, outstanding at July 25, 2018.

MARRIOTT INTERNATIONAL, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BASIS OF PRESENTATION

The condensed consolidated financial statements present the results of operations, financial position, and cash flows of Marriott International, Inc. and subsidiaries (referred to in this report as “we,” “us,” “Marriott,” or “the Company”). In order to make this report easier to read, we also refer throughout to (i) our Condensed Consolidated Financial Statements as our “Financial Statements,” (ii) our Condensed Consolidated Statements of Income as our “Income Statements,” (iii) our Condensed Consolidated Balance Sheets as our “Balance Sheets,” (iv) our Condensed Consolidated Statements of Cash Flows as our “Statements of Cash Flows,” (v) our properties, brands, or markets in the United States (“U.S.”) and Canada as “North America” or “North American,” and (vi) our properties, brands, or markets in our Caribbean and Latin America, Europe, and Middle East and Africa regions as “Other International,” and together with those in our Asia Pacific segment, as “International.” In addition, references throughout to numbered “Footnotes” refer to the numbered Notes in these Notes to Condensed Consolidated Financial Statements, unless otherwise noted.

These Financial Statements have not been audited. We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with U.S. generally accepted accounting principles (“GAAP”). The financial statements in this report should be read in conjunction with the consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (“2017 Form 10-K”). Certain terms not otherwise defined in this Form 10-Q have the meanings specified in our 2017 Form 10-K.

Preparation of financial statements that conform with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements, the reported amounts of revenues and expenses during the reporting periods, and the disclosures of contingent liabilities. Accordingly, ultimate results could differ from those estimates.

The accompanying Financial Statements reflect all normal and recurring adjustments necessary to present fairly our financial position as of June 30, 2018 and December 31, 2017, the results of our operations for the three and six months ended June 30, 2018 and June 30, 2017, and cash flows for the six months ended June 30, 2018 and June 30, 2017. Interim results may not be indicative of fiscal year performance because of seasonal and short-term variations. We have eliminated all material intercompany transactions and balances between entities consolidated in these Financial Statements.

The accompanying Financial Statements also reflect our adoption of several new accounting standards. See the “New Accounting Standards Adopted” caption below for additional information.

New Accounting Standards Not Yet Adopted

Accounting Standards Update (“ASU”) 2016-02 “Leases” (Topic 842). ASU 2016-02 introduces a lessee model that brings substantially all leases onto the balance sheet. Under the new standard, a lessee will recognize on its balance sheet a lease liability and a right-of-use asset for most leases, including operating leases. The new standard will also distinguish leases as either finance leases or operating leases. This distinction will affect how leases are measured and presented in the income statement and statement of cash flows. The standard is effective for us beginning in our 2019 first quarter and requires the use of a modified retrospective transition method. We are still assessing the potential impact that ASU 2016-02 will have on our financial statements and disclosures, but we expect that it will have a material effect on our Balance Sheets.

Table of Contents

New Accounting Standards Adopted

ASU 2016-18 “Restricted Cash” (Topic 230). ASU 2016-18 requires companies to include restricted cash with cash and cash equivalents when reconciling beginning and ending amounts shown on the statement of cash flows. We adopted ASU 2016-18 in the 2018 first quarter using the retrospective transition method, and accordingly, we revised prior period amounts, as shown in the “Statements of Cash Flows” table below.

ASU 2016-16 “Accounting for Income Taxes: Intra-Entity Transfers of Assets Other than Inventory” (Topic 740). ASU 2016-16 requires companies to recognize the income tax effects of intercompany sales of assets other than inventory when the transfer occurs. We adopted ASU 2016-16 in the 2018 first quarter using the modified retrospective transition method and recorded an adjustment of \$372 million for the cumulative effect to retained earnings at January 1, 2018.

ASU 2016-15 “Classification of Certain Cash Receipts and Cash Payments” (Topic 230). ASU 2016-15 specifies how certain cash receipts and payments are to be classified in the statement of cash flows and primarily impacts our presentation of cash outflows for commercial paper. Under ASU 2016-15, we are required to attribute a portion of the payments to accreted interest and classify that portion as cash outflows for operating activities. We adopted ASU 2016-15 in the 2018 first quarter using the retrospective transition method, and accordingly, we revised prior period amounts, as shown in the “Statements of Cash Flows” table below.

ASU 2016-01 “Recognition and Measurement of Financial Assets and Financial Liabilities” (Topic 825). ASU 2016-01 eliminates the available-for-sale classification for equity investments and requires companies to measure equity investments at fair value and recognize any changes in the fair value in net income. We adopted ASU 2016-01 in the 2018 first quarter using the modified retrospective transition method and recorded a cumulative-effect adjustment of \$4 million to retained earnings at January 1, 2018.

ASU 2014-09 “Revenue from Contracts with Customers” (Topic 606). ASU 2014-09 and several related ASUs (collectively referred to as “ASU 2014-09”) supersede the revenue recognition requirements in Topic 605, Revenue Recognition, as well as most industry-specific guidance, and provide a principles-based, comprehensive framework in Topic 606, Revenue Recognition. ASU 2014-09 also specifies the accounting for certain costs to obtain or fulfill a contract with a customer and provides enhanced disclosure requirements. We adopted ASU 2014-09 in the 2018 first quarter using the full retrospective transition method. See Footnote 2. Revenues for disclosures required by ASU 2014-09, including our revenue recognition accounting policies.

When we adopted ASU 2014-09, we applied the following expedients and exemptions, which are allowed by the standard, to our prior period Financial Statements and disclosures:

• We used the transaction price at the date of contract completion for our contracts that had variable consideration and were completed before January 1, 2018.

We considered the aggregate effect of all contract modifications that occurred before January 1, 2016 when: (1) identifying satisfied and unsatisfied performance obligations; (2) determining the transaction price; and (3) allocating the transaction price to the satisfied and unsatisfied performance obligations.

We did not: (1) disclose the amount of the transaction price that we allocated to remaining performance obligations; or (2) include an explanation of when we expect to recognize the revenue allocated to remaining performance obligations.

The cumulative effect of adopting ASU 2014-09 was a decrease in 2016 retained earnings of \$264 million.

The following tables present the effect of the adoption of ASUs 2014-09, 2016-15, and 2016-18 on our 2017 Financial Statements. Throughout this report, our 2017 financial results reflect the “As Adjusted” amounts shown in the tables below.

## 2. REVENUES

## Disaggregation of Revenues

The following tables present our revenues disaggregated by major revenue stream for the three and six months ended June 30, 2018 and June 30, 2017.

	Three Months Ended June 30, 2018				
(\$ in millions)	North American Full-Service	North American Limited-Service	Asia Pacific	Other International	Total
Gross fee revenues	\$345	\$ 250	\$ 110	\$ 128	\$833
Contract investment amortization	(7 )	(3 )	(1 )	(2 )	(13 )
Net fee revenues	338	247	109	126	820
Owned, leased, and other revenue	140	37	48	178	403
Cost reimbursement revenue	2,878	604	111	303	3,896
Total segment revenue	\$3,356	\$ 888	\$ 268	\$ 607	\$5,119
Unallocated corporate					227
Total revenue					\$5,346
	Three Months Ended June 30, 2017

Total revenue						\$10,123

## Performance Obligations

For our managed hotels, we have performance obligations to provide hotel management services and a license to our hotel system intellectual property for the use of our brand names. As compensation for such services, we are generally entitled to receive base fees, which are a percentage of the revenues of hotels, and incentive fees, which are generally based on a measure of hotel profitability. Both the base and incentive management fees are variable consideration, as the transaction price is based on a percentage of revenue or profit, as defined in each contract. We recognize base management fees on a monthly basis over the term of the agreement as those amounts become payable. We recognize incentive management fees on a monthly basis over the term of the agreement based on each property's financial results, as long as we do not expect a significant reversal due to projected future hotel performance or cash flows in future periods.

For our franchised hotels, we have a performance obligation to provide franchisees and operators a license to our hotel system intellectual property for use of certain of our brand names. As compensation for such services, we are typically entitled to initial application fees and ongoing royalty fees. Our ongoing royalty fees represent variable consideration, as the transaction price is based on a percentage of certain revenues of the hotels, as defined in each contract. We recognize royalty fees on a monthly basis over the term of the agreement as those amounts become payable. Initial application and relicensing fees are fixed consideration payable upon submission of a franchise application or renewal and are recognized on a straight-line basis over the initial or renewal term of the franchise agreements.

Under our management and franchise agreements, we are entitled to be reimbursed for certain costs we incur on behalf of the managed, franchised, and licensed properties, with no added mark-up. These costs primarily consist of payroll and related expenses at managed properties where we are the employer of the employees at the properties, and include certain operational and administrative costs as provided for in our contracts with the owners. We are entitled to reimbursement in the period we incur the related reimbursable costs, which we recognize within the "Cost reimbursement revenue" caption of our Income Statements.

Under our management and franchise agreements, hotel owners and franchisees participate in certain centralized programs and services, such as marketing, sales, reservations, and insurance programs. We operate these programs and services for the benefit of our hotel owners. We do not operate these programs and services to generate a profit over the contract term, and accordingly, when we recover the costs that we incur for these programs and services from our hotel owners, we do not seek a mark-up. The amounts we charge for these programs and services are generally based on sales or other variable metrics and are payable on a monthly basis. We recognize revenue within the "Cost reimbursement revenue" caption of our Income Statements when the amounts may be billed to hotel owners, and we recognize expenses within the "Reimbursed expenses" caption as they are incurred. This pattern of recognition results in temporary timing differences between the costs incurred for centralized programs and services and the related reimbursement from hotel owners in our operating and net income. Over the long term, these programs and services are not designed to impact our economics, either positively or negatively. In addition, proceeds from the sale of our interest in Avendra that we expend for the benefit of our hotel owners are included in "Reimbursed expenses."

Table of Contents

We provide hotel design and construction review quality assurance (“Global Design”) services to our managed and franchised hotel owners, generally during the period prior to a hotel’s opening or during the period a hotel is converting to a Marriott brand (the “pre-opening period”). As compensation for such services, we may be entitled to receive a one-time fixed fee that is payable during the pre-opening period of the hotel. As these services are not a distinct performance obligation, we recognize the fees on a straight-line basis over the initial term of the management or franchise agreement within the “Owned, leased, and other revenue” caption of our Income Statements.

At our owned and leased hotels, we have performance obligations to provide accommodations and other ancillary services to hotel guests. As compensation for such goods and services, we are typically entitled to a fixed nightly fee for an agreed upon period and additional fixed fees for any ancillary services purchased. These fees are generally payable at the time the hotel guest checks out of the hotel. We generally satisfy the performance obligations over time, and we recognize the revenue from room sales and from other ancillary guest services on a daily basis, as the rooms are occupied and we have rendered the services.

Under our Loyalty Programs, we have a performance obligation to provide or arrange for the provision of goods or services for free or at a discount to Loyalty Program members in exchange for the redemption of points earned from past activities. We operate our Loyalty Programs as cross-brand marketing programs to participating properties. Our management and franchise agreements require that properties reimburse us for a portion of the costs of operating the Loyalty Programs, including costs for marketing, promotion, communication with, and performing member services for Loyalty Program members, with no added mark-up. We receive contributions on a monthly basis from managed, franchised, owned, and leased hotels based on a portion of qualified spend by Loyalty Program members. We recognize these contributions into revenue as the points are redeemed and we provide the related service. The amount of revenue we recognize upon point redemption is impacted by our estimate of the “breakage” for points that members will never redeem. We estimate such amounts based on our historical experience and expectations of future member behavior. We recognize revenue net of the redemption cost within our “Cost reimbursement revenue” caption of our Income Statements, as our performance obligation is to facilitate the transaction between the Loyalty Program member and the managed or franchised property or program partner. We recognize all other Loyalty Program costs as incurred in our “Reimbursed expenses” caption.

We have multi-year agreements for our co-brand credit cards associated with our Loyalty Programs. Under these agreements, we have performance obligations to provide a license to the intellectual property associated with our brands and marketing lists (“Licensed IP”) to the financial institutions that issue the credit cards, to arrange for the redemption of Loyalty Program points as discussed in the preceding paragraph, and to provide free night certificates to cardholders. We receive fees from these agreements, including fixed amounts that are primarily payable at contract inception, and variable amounts that are paid to us monthly over the term of the agreements, based on: (1) the number of free night certificates issued and redeemed; (2) the number of Loyalty Program points purchased; and (3) the volume of cardholder spend. We allocate those fees among the performance obligations, including the Licensed IP, our Loyalty Program points, and free night certificates provided to cardholders based on their estimated standalone selling prices. The estimation of the standalone selling prices requires significant judgments based upon generally accepted valuation methodologies regarding the value of our Licensed IP, the amount of funding we will receive, and the number of Loyalty Program points and free night certificates we will issue over the term of the agreements. We base our estimates of these amounts on our historical experience and expectation of future cardholder behavior. We recognize the portion of the Licensed IP revenue that meets the sales-based royalty criteria as the credit cards are used and the remaining portion of the Licensed IP revenue on a straight-line basis over the contract term. In our Income Statements, we primarily recognize Licensed IP revenue in the “Franchise fees” caption, and we recognize a portion in the “Cost reimbursement revenue” caption. We recognize the revenue related to the Loyalty Program points as discussed in the preceding paragraph. We recognize the revenue related to the free night certificates when the related service is provided. If the free night certificate redemption involves a managed or franchised property, we recognize revenue net of the redemption cost, as our performance obligation is to facilitate the transaction between the Loyalty Program member and the managed or franchised property.

## Table of Contents

### Contract Balances

We generally receive payments from customers as we satisfy our performance obligations. We record a receivable when we have an unconditional right to receive payment and only the passage of time is required before payment is due. We record deferred revenue when we receive payment, or have the unconditional right to receive payment, in advance of the satisfaction of our performance obligations related to franchise application and relicensing fees, Global Design fees, credit card branding license fees, and our Loyalty Programs.

Current and noncurrent deferred revenue increased by \$74 million, to \$759 million at June 30, 2018 from \$685 million at December 31, 2017, primarily as a result of our revenue recognition activity described above in the “Performance Obligations” caption. The increase was primarily attributable to a \$79 million increase related to our credit card branding licenses.

Our current and noncurrent Loyalty Program liability increased by \$551 million, to \$5,491 million at June 30, 2018 from \$4,940 million at December 31, 2017, primarily reflecting an increase in points earned and consideration from our credit card agreements, partially offset by revenue recognized. We recognized revenue related to our Loyalty Programs that was previously deferred of \$533 million in the 2018 second quarter, \$431 million in the 2017 second quarter, \$956 million in the 2018 first half, and \$855 million in the 2017 first half.

### Costs incurred to obtain and fulfill contracts with customers

We incur certain costs to obtain and fulfill contracts with customers, which we capitalize and amortize on a straight-line basis over the initial, non-cancellable term of the contract. We classify incremental costs of obtaining a contract with a customer in the “Contract acquisition costs and other” caption of our Balance Sheets, the related amortization in the “Contract investment amortization” caption of our Income Statements, and the cash flow impact in the “Contract acquisition costs” caption of our Statements of Cash Flows. We classify certain direct costs to fulfill a contract with a customer in the “Other noncurrent assets” caption of our Balance Sheets, and the related amortization in the “Owned, leased, and other-direct” caption of our Income Statements.

We had capitalized costs to fulfill contracts with customers of \$307 million at June 30, 2018 and \$295 million at December 31, 2017.

### Practical Expedients and Exemptions

We do not disclose the amount of variable consideration that we expect to recognize in future periods in the following circumstances:

- (1) if we recognize the revenue based on the amount invoiced for services performed;
- (2) for sales-based or usage-based royalty promised in exchange for a license of intellectual property; or
- (3) if the consideration is allocated entirely to a wholly unsatisfied promise to transfer a distinct service that forms part of a single performance obligation, and the terms of the consideration relate specifically to our efforts to transfer, or to a specific outcome from transferring the service.

We are required to collect certain taxes and fees from customers on behalf of governmental agencies and remit these back to the applicable governmental agencies on a periodic basis. We do not include these taxes in determining the transaction price.

## 3. ACQUISITIONS AND DISPOSITIONS

### Acquisitions

In the 2018 second quarter, we purchased the Sheraton Grand Phoenix, a North American Full-Service property that we manage, for \$255 million.

Table of Contents

## Dispositions

In the 2018 second quarter, we sold two North American Full-Service properties — The Tremont Chicago Hotel at Magnificent Mile and Le Centre Sheraton Montreal Hotel — and two Asia Pacific properties — The Westin Denarau Island Resort and The Sheraton Fiji Resort. We recognized total gains of \$67 million in the “Gains and other income, net” caption of our Income Statements.

In the 2018 second quarter, we sold our interest in three equity method investments, whose assets included a plot of land in Italy, the W Hotel Mexico City, and the Royal Orchid Sheraton Hotel & Towers in Bangkok, and we recognized total gains of \$42 million in the “Gains and other income, net” caption of our Income Statements. Also in the 2018 second quarter, an equity method investee sold The Ritz-Carlton Toronto, and we recorded our share of the gain, \$10 million, in the “Equity in earnings” caption of our Income Statements.

In the 2018 first quarter, we sold two Caribbean and Latin America properties — The Sheraton Buenos Aires Hotel & Convention Center and Park Tower, A Luxury Collection Hotel, Buenos Aires. We recognized total gains of \$53 million in the “Gains and other income, net” caption of our Income Statements.

## 4. EARNINGS PER SHARE

The table below presents the reconciliation of the earnings and number of shares used in our calculations of basic and diluted earnings per share:

(in millions, except per share amounts)	Three Months		Six Months	
	Ended		Ended	
	June 30,	June 30,	June 30,	June 30,
	2018	2017	2018	2017
Computation of Basic Earnings Per Share				
Net income	\$ 610	\$ 489	\$ 1,008	\$ 860
Shares for basic earnings per share	353.4	378.5	355.9	381.7
Basic earnings per share	\$ 1.73	\$ 1.29	\$ 2.83	\$ 2.25
Computation of Diluted Earnings Per Share				
Net income	\$ 610	\$ 489	\$ 1,008	\$ 860
Shares for basic earnings per share	353.4	378.5	355.9	381.7
Effect of dilutive securities				
Share-based compensation	3.9	4.5	4.4	4.8
Shares for diluted earnings per share	357.3	383.0	360.3	386.5
Diluted earnings per share	\$ 1.71	\$ 1.28	\$ 2.80	\$ 2.23

## 5. SHARE-BASED COMPENSATION

We recorded share-based compensation expense of \$51 million in the 2018 second quarter and \$47 million in the 2017 second quarter, \$93 million for the 2018 first half, and \$95 million for the 2017 first half. Deferred compensation costs for unvested awards totaled \$269 million at June 30, 2018 and \$168 million at December 31, 2017.

## RSUs and PSUs

We granted 1.4 million restricted stock units (“RSUs”) during the 2018 first half to certain officers, and key employees, and those units vest generally over four years in equal annual installments commencing one year after the grant date. We also granted 0.1 million performance-based RSUs (“PSUs”) in the 2018 first half to certain executive officers, which are earned, subject to continued employment and the satisfaction of certain performance conditions based on achievement of pre-established targets for RevPAR Index, room openings, and/or net administrative expense over, or at the end of, a three-year performance period. RSUs, including PSUs, granted in the 2018 first half had a weighted average grant-date fair value of \$133.

Table of Contents

## 6. INCOME TAXES

Our effective tax rate decreased to 23.3 percent for the 2018 second quarter from 31.7 percent for the 2017 second quarter, primarily due to the reduction of the U.S. federal tax rate under the Tax Cuts and Jobs Act of 2017 (the “2017 Tax Act”) and increased earnings in jurisdictions with lower tax rates. The decrease was partially offset by tax expense related to the gains on dispositions in the 2018 second quarter, the 2017 release of a tax reserve due to the favorable settlement of a tax position, and the current period’s provisional estimate of tax for global intangible low-taxed income (“GILTI”) under the 2017 Tax Act.

Our effective tax rate decreased to 22.4 percent for the 2018 first half from 28.9 percent for the 2017 first half, primarily due to the reduction of the U.S. federal tax rate under the 2017 Tax Act, increased earnings in jurisdictions with lower tax rates, and the release of tax reserves due to the completion of certain examinations. The decrease was partially offset by tax expense related to the gains on dispositions, tax expense incurred for uncertain tax positions relating to legacy-Starwood operations, increased state income tax due to a change in our position regarding the future remittance of a portion of the accumulated earnings of non-U.S. subsidiaries, the current period’s provisional estimate of tax for GILTI under the 2017 Tax Act, and the 2017 release of a tax reserve due to the favorable settlement of a tax position.

We paid cash for income taxes, net of refunds, of \$489 million in the 2018 first half and \$201 million in the 2017 first half, an increase of \$288 million primarily due to taxes paid for the 2017 gain on sale of our interest in Avendra.

## Tax Cuts and Jobs Act of 2017

Although we have not completed our accounting for the effects of the 2017 Tax Act, we have where possible made reasonable estimates of the 2017 Tax Act’s effects on our existing deferred tax balances and the Transition Tax, as described below. In cases where we have not been able to make reasonable estimates of the impact of the 2017 Tax Act, as described below, we continue to account for those items based on our existing accounting under ASC 740, Income Taxes, and the provisions of the tax laws that were in effect immediately before enactment of the 2017 Tax Act. In all cases, we will continue to refine our calculations as we complete additional analyses on the application of the law. As we complete our analysis, collect and prepare necessary data, and interpret any additional regulatory guidance, we may adjust the provisional amounts that we have recorded during a measurement period of up to one year from the enactment of the 2017 Tax Act that could materially impact our provision for income taxes, which could in turn materially affect our tax obligations and effective tax rate, in the periods in which we make such adjustments.

Reduction of U.S. federal corporate tax rate. The 2017 Tax Act reduced the U.S. federal corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. In 2017, we made a reasonable estimate of the net impact of the corporate tax rate reduction on our deferred tax assets and liabilities, which did not change in the 2018 first half. However, our estimate could change as we complete our analyses of all impacts of the 2017 Tax Act, including, but not limited to, the state tax effect of adjustments made to federal temporary differences.

Deemed Repatriation Transition Tax. The Transition Tax is a new one-time tax on previously untaxed earnings and profits (“E&P”) of certain of our foreign subsidiaries accumulated post-1986 through year-end 2017. In addition to U.S. federal income taxes, the deemed repatriation of such E&P may result in additional state income taxes in some of the U.S. states in which we operate. In the 2018 first half, we reduced our Transition Tax provisional estimate and recorded a benefit of \$5 million, resulting in a net provisional estimated federal and state Transition Tax of \$740 million. This adjustment resulted from changes to E&P as a result of completing an IRS audit. Our total Transition Tax estimate could continue to change as we finalize our analysis of untaxed post-1986 E&P, amounts held in cash or other specified assets, and as audits of federal income taxes are completed.

The 2017 Tax Act does not provide for additional income taxes for any remaining undistributed foreign earnings not subject to the Transition Tax, or for any additional outside basis differences inherent in foreign entities, as these amounts continue to be indefinitely reinvested in those foreign operations. Substantially all our unremitted foreign earnings that have not been previously taxed have now been subjected to U.S. taxation under the Transition Tax. In the 2018 first half, we recorded a state tax expense of \$27 million relating to our plan to remit a portion of

Table of Contents

the accumulated earnings of non-U.S. subsidiaries in the future. This estimate could change as we complete additional analyses of the impacts of the 2017 Tax Act.

State net operating losses and valuation allowances. We must assess whether our state net operating loss valuation allowances are affected by various aspects of the 2017 Tax Act. As discussed above, we have recorded provisional amounts related to state income taxes for certain portions of the 2017 Tax Act, but we have not completed our analysis for the states where we have net operating loss carryovers and valuation allowances. Because we have not yet completed our determination of the need for, or any change in, any valuation allowance, we have not yet recorded any change to valuation allowances.

Other provisions. The 2017 Tax Act also included a new provision designed to tax GILTI. Under GAAP, we may make an accounting policy election to either (1) treat any taxes on GILTI inclusions as a current-period expense when incurred (the “period cost method”) or (2) factor such amounts into our measurement of our deferred taxes (the “deferred method”). We have not yet adopted either accounting policy because we have not completed our analysis of this provision. We recorded a current provision for GILTI tax related to current-year operations in our estimated annual effective tax rate. Because we are still evaluating the GILTI provisions and performing our analysis of future taxable income that is subject GILTI, we have not provided for additional GILTI tax on deferred items.

## 7. COMMITMENTS AND CONTINGENCIES

### Guarantees

We present the maximum potential amount of our future guarantee fundings and the carrying amount of our liability for our debt service, operating profit, and other guarantees for which we are the primary obligor at June 30, 2018 in the following table:

(\$ in millions) Guarantee Type	Maximum Potential Amount of Future Fundings	Recorded Liability for Guarantees
Debt service	\$ 128	\$ 76
Operating profit	229	110
Other	10	2
	\$ 367	\$ 188

### Contingent Purchase Obligations

Times Square EDITION. In the 2018 second quarter, the owner of the Times Square EDITION sold the property, and the lenders terminated our contingent purchase agreement.

Sheraton Grand Chicago. We granted the owner a one-time right, exercisable in 2022, to require us to purchase the leasehold interest in the land and the hotel for \$300 million in cash (the “put option”). If the owner exercises the put option, we have the option to purchase, at the same time the put transaction closes, the underlying fee simple interest in the land for an additional \$200 million in cash. We accounted for the put option as a guarantee, and our recorded liability at June 30, 2018 was \$57 million.

Table of Contents

## 8. LONG-TERM DEBT

We provide detail on our long-term debt balances, net of discounts, premiums, and debt issuance costs, in the following table at the end of the 2018 second quarter and year-end 2017:

(\$ in millions)	At Period End	
	June 30, 2018	December 31, 2017
Senior Notes:		
Series K Notes, interest rate of 3.0%, face amount of \$600, maturing March 1, 2019 (effective interest rate of 4.4%)	\$599	\$ 598
Series L Notes, interest rate of 3.3%, face amount of \$350, maturing September 15, 2022 (effective interest rate of 3.4%)	348	348
Series M Notes, interest rate of 3.4%, face amount of \$350, maturing October 15, 2020 (effective interest rate of 3.6%)	348	348
Series N Notes, interest rate of 3.1%, face amount of \$400, maturing October 15, 2021 (effective interest rate of 3.4%)	397	397
Series O Notes, interest rate of 2.9%, face amount of \$450, maturing March 1, 2021 (effective interest rate of 3.1%)	448	447
Series P Notes, interest rate of 3.8%, face amount of \$350, maturing October 1, 2025 (effective interest rate of 4.0%)	345	345
Series Q Notes, interest rate of 2.3%, face amount of \$750, maturing January 15, 2022 (effective interest rate of 2.5%)	744	744
Series R Notes, interest rate of 3.1%, face amount of \$750, maturing June 15, 2026 (effective interest rate of 3.3%)	743	743
Series S Notes, interest rate of 6.8%, face amount of \$324, matured May 15, 2018 (effective interest rate of 1.7%)	—	330
Series T Notes, interest rate of 7.2%, face amount of \$181, maturing December 1, 2019 (effective interest rate of 2.3%)	192	197
Series U Notes, interest rate of 3.1%, face amount of \$291, maturing February 15, 2023 (effective interest rate of 3.1%)	291	291
Series V Notes, interest rate of 3.8%, face amount of \$318, maturing March 15, 2025 (effective interest rate of 2.8%)	336	337
Series W Notes, interest rate of 4.5%, face amount of \$278, maturing October 1, 2034 (effective interest rate of 4.1%)	292	292
Series X Notes, interest rate of 4.0%, face amount of \$450, maturing April 15, 2028 (effective interest rate of 4.2%)	443	—
Commercial paper	3,079	2,371
Credit Facility	—	—
Capital lease obligations	168	171
Other	218	279
	\$8,991	\$ 8,238
Less: Current portion of long-term debt	(616 )	(398 )
	\$8,375	\$ 7,840

We paid cash for interest, net of amounts capitalized, of \$144 million in the 2018 first half and \$123 million in the 2017 first half.

We are party to a multicurrency revolving credit agreement (the “Credit Facility”) that provides for up to \$4,000 million of aggregate effective borrowings to support our commercial paper program and general corporate needs, including working capital, capital expenditures, share repurchases, letters of credit, and acquisitions. Borrowings under the Credit Facility generally bear interest at LIBOR (the London Interbank Offered Rate) plus a spread, based on our public debt rating. We also pay quarterly fees on the Credit Facility at a rate based on our public debt rating. While

any outstanding commercial paper borrowings and/or borrowings under our Credit Facility generally have short-term maturities, we classify the outstanding borrowings as long-term based on our ability and intent to refinance the outstanding borrowings on a long-term basis. The Credit Facility expires on June 10, 2021. See the “Cash Requirements and Our Credit Facility” caption later in this report in the “Liquidity and Capital Resources” section of Item 2 below for further information on our Credit Facility and available borrowing capacity at June 30, 2018.

Table of Contents

In the 2018 second quarter, we issued \$450 million aggregate principal amount of 4.000 percent Series X Notes due April 15, 2028 (the “Series X Notes”). We will pay interest on the Series X Notes on April 15 and October 15 of each year, commencing on October 15, 2018. We received net proceeds of approximately \$443 million from the offering of the Series X Notes, after deducting the underwriting discount and estimated expenses. We expect to use these proceeds for general corporate purposes, which may include working capital, capital expenditures, acquisitions, stock repurchases, or repayment of outstanding commercial paper or other borrowings.

#### 9. FAIR VALUE OF FINANCIAL INSTRUMENTS

We believe that the fair values of our current assets and current liabilities approximate their reported carrying amounts. We present the carrying values and the fair values of noncurrent financial assets and liabilities that qualify as financial instruments, determined under current guidance for disclosures on the fair value of financial instruments, in the following table:

(\$ in millions)	June 30, 2018		December 31, 2017	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Senior, mezzanine, and other loans	\$ 121	\$ 108	\$ 142	\$ 130
Total noncurrent financial assets	\$ 121	\$ 108	\$ 142	\$ 130
Senior Notes	\$(4,927)	\$(4,810 )	\$(5,087)	\$(5,126 )
Commercial paper	(3,079 )	(3,079 )	(2,371 )	(2,371 )
Other long-term debt	(207 )	(205 )	(217 )	(221 )
Other noncurrent liabilities	(165 )	(165 )	(178 )	(178 )
Total noncurrent financial liabilities	\$(8,378)	\$(8,259 )	\$(7,853)	\$(7,896 )

See the “Fair Value Measurements” caption of Footnote 2. Summary of Significant Accounting Policies of our 2017 Form 10-K for more information on the input levels we use in determining fair value.

## 11. BUSINESS SEGMENTS

We are a diversified global lodging company with operations in the following reportable business segments:  
 North American Full-Service, which includes our Luxury and Premium brands located in the U.S. and Canada;  
 North American Limited-Service, which includes our Select brands located in the U.S. and Canada; and  
 Asia Pacific, which includes all brand tiers in our Asia Pacific region;

The following operating segments do not meet the applicable accounting criteria for separate disclosure as reportable business segments: Caribbean and Latin America, Europe, and Middle East and Africa. We present these operating segments together as “Other International” in the tables below.

We evaluate the performance of our operating segments using “segment profits” which is based largely on the results of the segment without allocating corporate expenses, income taxes, indirect general, administrative, and other expenses, or merger-related costs and charges. We assign gains and losses, equity in earnings or losses from our joint ventures, and direct general, administrative, and other expenses to each of our segments. “Other unallocated corporate” represents a portion of our revenues, including license fees we receive from our credit card programs and fees from vacation ownership licensing agreements, general, administrative, and other expenses, merger-related costs and charges, equity in earnings or losses, and other gains or losses that we do not allocate to our segments. Beginning in the 2018 first quarter, “Other unallocated corporate” also includes revenues and expenses for our Loyalty Programs, and we reflected this change in the prior period amounts shown in the tables below.

Our President and Chief Executive Officer, who is our chief operating decision maker, monitors assets for the consolidated company but does not use assets by operating segment when assessing performance or making operating segment resource allocations.

## Segment Revenues

(\$ in millions)	Three Months		Six Months	
	Ended		Ended

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

We make forward-looking statements in Management’s Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report based on the beliefs and assumptions of our management and on information currently available to us. Forward-looking statements include information about our possible or assumed future results of operations, which follow under the headings “Business and Overview,” “Liquidity and Capital Resources,” and other statements throughout this report preceded by, followed by, or that include the words “believes,” “expects,” “anticipates,” “intends,” “plans,” “estimates,” or similar expressions.

Any number of risks and uncertainties could cause actual results to differ materially from those we express in our forward-looking statements, including the risks and uncertainties we describe below and other factors we describe from time to time in our periodic filings with the U.S. Securities and Exchange Commission (the “SEC”). We therefore caution you not to rely unduly on any forward-looking statement. The forward-looking statements in this report speak only as of the date of this report, and we undertake no obligation to update or revise any forward-looking statement, whether due to new information, future developments, or otherwise.

In addition, see the “Item 1A. Risk Factors” caption in the “Part II-OTHER INFORMATION” section of this report.

**BUSINESS AND OVERVIEW**

We are a worldwide operator, franchisor, and licensor of hotel, residential, and timeshare properties in 130 countries and territories under 30 brands at the end of the 2018 second quarter. Under our business model, we typically manage or franchise hotels, rather than own them. We discuss our operations in the following reportable business segments: North American Full-Service, North American Limited-Service, and Asia Pacific. Our Europe, Middle East and Africa, and Caribbean and Latin America operating segments do not individually meet the criteria for separate disclosure as reportable segments.

We earn base management fees and in many cases incentive management fees from the properties that we manage, and we earn franchise fees on the properties that others operate under franchise agreements with us. In most markets, base management and franchise fees typically consist of a percentage of property-level revenue, or certain property-level revenue in the case of franchise fees, while incentive management fees typically consist of a percentage of net house profit after a specified owner return. In our Middle East and Africa and Asia Pacific regions, incentive management fees typically consist of a percentage of gross operating profit without adjustment for a specified owner return. Net house profit is calculated as gross operating profit (house profit) less non-controllable expenses such as insurance, real estate taxes, and capital spending reserves.

## Table of Contents

Our emphasis on long-term management contracts and franchising tends to provide more stable earnings in periods of economic softness, while adding new hotels to our system generates growth, typically with little or no investment by the Company. This strategy has driven substantial growth while minimizing financial leverage and risk in a cyclical industry. In addition, we believe minimizing our capital investments and adopting a strategy of recycling our investments maximizes and maintains our financial flexibility.

We remain focused on doing the things that we do well; that is, selling rooms, taking care of our guests, and making sure we control costs both at company-operated properties and at the corporate level (“above-property”). Our brands remain strong due to our skilled management teams, dedicated associates, superior guest service with an emphasis on guest and associate satisfaction, significant distribution, our Loyalty Programs (Marriott Rewards and The Ritz-Carlton Rewards, and Starwood Preferred Guest, which we refer to collectively as “Loyalty Programs”), multichannel reservation systems, and desirable property amenities. We strive to effectively leverage our size and broad distribution.

We, along with owners and franchisees, continue to invest in our brands by means of new, refreshed, and reinvented properties, new room and public space designs, and enhanced amenities and technology offerings. We address, through various means, hotels in our system that do not meet our standards. We continue to enhance the appeal of our proprietary, information-rich, and easy-to-use websites, and of our associated mobile smartphone applications, through functionality and service improvements.

Our profitability, as well as that of owners and franchisees, has benefited from our approach to property-level and above-property productivity. Managed properties in our system continue to maintain very tight cost controls. We also control above-property costs, some of which we allocate to hotels, by remaining focused on systems, processing, and support areas.

### Acquisition of Starwood Hotels & Resorts Worldwide

On September 23, 2016 (the “Merger Date”), we completed the acquisition of Starwood Hotels & Resorts Worldwide, LLC, formerly known as Starwood Hotels & Resorts Worldwide, Inc. (“Starwood”), through a series of transactions (the “Starwood Combination”), after which Starwood became an indirect wholly-owned subsidiary of the Company.

### Performance Measures

We believe Revenue per Available Room (“RevPAR”), which we calculate by dividing room sales for comparable properties by room nights available for the period, is a meaningful indicator of our performance because it measures the period-over-period change in room revenues for comparable properties. RevPAR may not be comparable to similarly titled measures, such as revenues. We also believe occupancy and average daily rate (“ADR”), which are components of calculating RevPAR, are meaningful indicators of our performance. Occupancy, which we calculate by dividing occupied rooms by total rooms available, measures the utilization of a property’s available capacity. ADR, which we calculate by dividing property room revenue by total rooms sold, measures average room price and is useful in assessing pricing levels.

For properties located in countries that use currencies other than the U.S. dollar, comparisons to the prior year period are on a constant U.S. dollar basis. We calculate constant dollar statistics by applying exchange rates for the current period to the prior comparable period.

We define our comparable properties as our properties that were open and operating under one of our brands since the beginning of the last full calendar year (since January 1, 2017 for the current period) and have not, in either the current or previous year: (i) undergone significant room or public space renovations or expansions, (ii) been converted between company-operated and franchised, or (iii) sustained substantial property damage or business interruption.

We also believe company-operated house profit margin, which is the ratio of property-level gross operating profit to total property-level revenue, is a meaningful indicator of our performance because this ratio measures our overall ability as the operator to produce property-level profits by generating sales and controlling the operating

## Table of Contents

expenses over which we have the most direct control. House profit includes room, food and beverage, and other revenue and the related expenses including payroll and benefits expenses, as well as repairs and maintenance, utility, general and administrative, and sales and marketing expenses. House profit does not include the impact of management fees, furniture, fixtures and equipment replacement reserves, insurance, taxes, or other fixed expenses.

### Business Trends

Our 2018 first half results reflected a year-over-year increase in the number of properties in our system, favorable demand for our brands in many markets around the world, and economic growth. For the three months ended June 30, 2018, comparable worldwide systemwide RevPAR increased 3.8 percent to \$124.53, ADR increased 2.1 percent on a constant dollar basis to \$162.94, and occupancy increased 1.3 percentage points to 76.4 percent, compared to the same period a year ago. For the six months ended June 30, 2018, comparable worldwide systemwide RevPAR increased 3.7 percent to \$118.07, ADR increased 1.8 percent on a constant dollar basis to \$161.42, and occupancy increased 1.3 percentage points to 73.1 percent, compared to the same period a year ago.

In North America, RevPAR increased in the 2018 first half, driven by higher transient and group demand. RevPAR growth was partially constrained by new lodging supply in certain markets.

In our Asia Pacific region in the 2018 first half, RevPAR grew in most markets, particularly Greater China, India, Japan, and Singapore, led by strong leisure demand. Our Europe region experienced higher demand in the 2018 first half, led by strong transient business in most countries and demand from the World Cup, partially constrained by slower growth in the U.K. and Spain. In our Middle East and Africa region, RevPAR increased on strong growth in Egypt, offset somewhat by geopolitical instability and supply growth in other markets. RevPAR grew across our Caribbean and Latin America region, led by higher ADR in South America and the Caribbean.

For our company-operated properties, we continue to focus on enhancing property-level house profit margins and making productivity improvements. In the 2018 first half compared to the 2017 first half at comparable properties, worldwide company-operated house profit margins increased by 60 basis points. International company-operated house profit margins increased by 100 basis points, and North American company-operated house profit margins increased by 30 basis points, primarily reflecting cost savings initiatives, including synergy savings from the Starwood Combination, and RevPAR growth.

### System Growth and Pipeline

During the 2018 first half, we added 242 properties (38,192 rooms) while 45 properties (9,468 rooms) exited our system, increasing our total properties to 6,717 (1,286,725 rooms). Approximately 44 percent of added rooms are located outside North America, and 12 percent of the room additions are conversions from competitor brands. Since the end of the 2017 second quarter, we added 512 properties (82,025 rooms), while 85 properties (16,954 rooms) exited our system.

At the end of the 2018 second quarter, we had approximately 466,000 rooms in our development pipeline, which includes hotel rooms under construction, hotel rooms under signed contracts, and approximately 41,500 hotel rooms approved for development but not yet under signed contracts. Nearly half of the rooms in our development pipeline are outside North America.

Table of Contents

## Properties and Rooms

At June 30, 2018, we operated, franchised, and licensed the following properties and rooms:

	Managed		Franchised/Licensed		Owned/Leased		Other <sup>(1)</sup>		Total	
	Properties	Rooms	Properties	Rooms	Properties	Rooms	Properties	Rooms	Properties	Rooms
North American Full-Service	416	184,878	691	200,374	9	5,275	—	—	1,116	390,527

## CONSOLIDATED RESULTS

The following discussion presents an analysis of our consolidated results of operations for the 2018 second quarter compared to the 2017 second quarter and for the 2018 first half compared to the 2017 first half. We recast our 2017 results to reflect our adoption of ASU 2014-09.

## Fee Revenues

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30, 2018	June 30, 2017	Change 2018 vs. 2017	June 30, 2018	June 30, 2017	Change 2018 vs. 2017
Base management fees	\$300	\$285	\$15 5 %	\$573	\$549	\$24 4 %
Franchise fees	475	408	67 16 %	892	763	129 17 %
Incentive management fees	176	155	21 14 %	331	295	36 12 %
Gross fee revenues	951	848	103 12 %	1,796	1,607	189 12 %

Contract investment amortization	(13 )	(12 )	1	8 %	(31 )	(23 )	8	35%
Net fee revenues	\$938	\$ 836	\$102	12%	\$1,765	\$1,584	\$181	11%

Second Quarter

The \$15 million increase in base management fees primarily reflected \$10 million of RevPAR growth and \$7 million of unit growth.

The \$67 million increase in franchise fees primarily reflected \$32 million of higher branding fees, driven by higher fees from our co-brand credit card agreements, \$23 million from unit growth, and \$10 million from RevPAR growth.

Table of Contents

The \$21 million increase in incentive management fees primarily reflected higher net house profits at managed hotels.  
First Half

The \$24 million increase in base management fees primarily reflected \$19 million of RevPAR growth and \$13 million of unit growth, partially offset by \$8 million from properties that converted from managed to franchised.

The \$129 million increase in franchise fees primarily reflected \$65 million of higher branding fees, driven by higher fees from our co-brand credit card agreements, \$41 million from unit growth, \$16 million from RevPAR growth, and \$8 million from properties that converted from managed to franchised.

The \$36 million increase in incentive management fees primarily reflected higher net house profits at managed hotels, \$7 million from net favorable foreign exchange rates, and \$4 million from unit growth in our Asia Pacific segment.

The \$8 million increase in contract investment amortization primarily reflected \$6 million of higher contract write-offs related to terminated contracts.

## Owned, Leased, and Other

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30, 2018	June 30, 2017	Change 2018 vs. 2017	June 30, 2018	June 30, 2017	Change 2018 vs. 2017
Owned, leased, and other revenue	\$423	\$ 448	\$(25) (6)%	\$829	\$ 876	\$(47) (5)%
Owned, leased, and other - direct expenses	334	350	(16 ) (5)%	670	706	(36 ) (5)%
	\$89	\$ 98	\$(9 ) (9)%	\$159	\$ 170	\$(11) (6)%

## Second Quarter

Owned, leased, and other revenue, net of direct expenses decreased by \$9 million, primarily due to \$21 million of lower owned and leased profits attributable to properties sold and a \$5 million unfavorable variance with the business interruption insurance proceeds recorded in the 2017 second quarter, partially offset by \$8 million of net stronger results at our remaining owned and leased properties.

## First Half

Owned, leased, and other revenue, net of direct expenses decreased by \$11 million, primarily due to \$44 million of lower owned and leased profits attributable to properties sold and a \$5 million unfavorable variance with the business interruption insurance proceeds recorded in the 2017 second quarter, partially offset by \$22 million of higher termination fees and \$11 million of net stronger results at our remaining owned and leased properties.

## Cost Reimbursements

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30, 2018	June 30, 2017	Change vs. 2017	June 30, 2018	June 30, 2017	Change vs. 2017
Cost reimbursement revenue	\$3,985	\$3,927	\$58 1 %	\$7,758	\$7,663	\$95 1 %
Reimbursed expenses	3,979	3,791	188 5 %	7,814	7,487	327 4 %
	\$6	\$ 136	\$(130) (96)%	\$(56 )	\$ 176	\$(232) (132)%

Cost reimbursement revenue, net of reimbursed expenses, decreased by \$130 million for the 2018 second quarter compared to the 2017 second quarter, and decreased by \$232 million for the 2018 first half compared to the 2017 first half, primarily due to our Loyalty Programs. Cost reimbursement revenue, net of reimbursed expenses, varies due to temporary timing differences between the costs we incur for centralized programs and services and the related reimbursements we receive from hotel owners and franchisees. Over the long term, our centralized programs and services are not designed to impact our economics, either positively or negatively.

Table of Contents

## Other Operating Expenses

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30, 2018	June 30, 2017	Change vs. 2017	June 30, 2018	June 30, 2017	Change vs. 2017
Depreciation, amortization, and other	\$58	\$ 71	\$(13) (18)%	\$112	\$ 122	\$(10) (8)%
General, administrative, and other	217	234	(17 ) (7)%	464	446	18 4%
Merger-related costs and charges	18	21	(3 ) (14)%	52	72	(20 ) (28)%

## Second Quarter

Depreciation, amortization, and other expenses decreased by \$13 million, primarily due to a favorable variance with the \$12 million of amortization expense recorded in the 2017 second quarter related to purchase accounting revisions for the Starwood Combination.

General, administrative, and other expenses decreased by \$17 million, primarily due to administrative cost savings largely due to synergies associated with the Starwood Combination.

## First Half

Depreciation, amortization, and other expenses decreased by \$10 million, primarily reflecting lower depreciation from sold properties.

General, administrative, and other expenses increased by \$18 million, primarily due to the company-funded supplemental retirement savings plan contributions in 2018, which we described in the "Liquidity and Capital Resources" section in Part II, Item 7 of our 2017 Form 10-K, partially offset by \$19 million in net lower other expenses driven by administrative cost savings largely due to synergies associated with the Starwood Combination.

Merger-related costs and charges decreased by \$20 million, primarily due to lower employee termination costs.

## Non-Operating Income (Expense)

(\$ in millions)	Three Months Ended				Six Months Ended			
	June 30, 2018	June 30, 2017	Change vs. 2017		June 30, 2018	June 30, 2017	Change vs. 2017	
Gains and other income, net	\$114	\$ 25	\$89 356%		\$173	\$ 25	\$148 592%	
Interest expense	(85 )	(73 )	12 16%		(160 )	(143 )	17 12%	
Interest income	6	8	(2 ) (25)%		11	15	(4 ) (27)%	
Equity in earnings	21	12	9 75%		34	23	11 48%	

## Second Quarter

Gains and other income, net increased by \$89 million primarily due to the gains on our property sales (\$67 million) and the gains on the sales of our interest in three equity method investments (\$42 million) described in Footnote 3.

Acquisitions and Dispositions, partially offset by an unfavorable variance with the 2017 gain on the sale of the Charlotte Marriott City Center (\$24 million).

Interest expense increased by \$12 million, primarily due to higher commercial paper interest rates and borrowings.

Equity in earnings increased by \$9 million, primarily due to our share of the gain on an equity method investee's sale of a property (\$10 million).

## First Half

Gains and other income, net increased by \$148 million, primarily due to the gains on our property sales (\$120 million) and the gains on the sales of our interest in three equity method investments (\$42 million) described in Footnote 3.

Acquisitions and Dispositions, partially offset by an unfavorable variance with the 2017 gain on the sale of the Charlotte Marriott City Center (\$24 million).

Table of Contents

Interest expense increased by \$17 million, primarily due to higher commercial paper interest rates and borrowings, partially offset by \$7 million of lower interest on Senior Notes maturities, net of issuances.

Equity in earnings increased by \$11 million, primarily for the same reason described in the preceding "Second Quarter" discussion.

**Income Taxes**

On December 22, 2017, the U.S. government enacted the 2017 Tax Act, which significantly changes how the U.S. taxes corporations. As discussed below and in Footnote 6. Income Taxes, our accounting for the 2017 Tax Act is not yet complete as we continue to refine our calculations, collect necessary information, and monitor developing interpretations. As we complete our analysis of the 2017 Tax Act, collect and prepare necessary data, and interpret any additional regulatory guidance, we may adjust the provisional amounts that we have recorded during a measurement period of up to one year from the enactment of the 2017 Tax Act, which could materially impact our provision for income taxes in the periods in which we make such adjustments. Although we are not yet able to quantify all impacts of the 2017 Tax Act on our 2018 and future results, we believe that the overall impact of the 2017 Tax Act on our future financial results will be positive.

**Reduction of U.S. federal corporate tax rate.** The 2017 Tax Act reduced the U.S. federal corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. In 2017, we made a reasonable estimate of the net impact of the corporate tax rate reduction on our deferred tax assets and liabilities, which did not change in the 2018 first half. However, our estimate could change as we complete our analyses of all impacts of the 2017 Tax Act, including, but not limited to, the state tax effect of adjustments made to federal temporary differences.

**Deemed Repatriation Transition Tax.** The Transition Tax is a new one-time tax on previously untaxed E&P of certain of our foreign subsidiaries accumulated post-1986 through year-end 2017. In addition to U.S. federal income taxes, the deemed repatriation of such E&P under the 2017 Tax Act may result in additional state income taxes in some of the U.S. states in which we operate. Our total Transition Tax estimate, which we discuss in Footnote 6. Income Taxes, could continue to change as we finalize our analysis of untaxed post-1986 E&P, amounts held in cash or other specified assets, and as audits of federal income taxes are completed.

**State net operating losses and valuation allowances.** We must assess whether various aspects of the 2017 Tax Act affect our state net operating loss valuation allowances. As discussed in Footnote 6. Income Taxes, we have recorded provisional amounts related to state income taxes for certain portions of the 2017 Tax Act, but we have not completed our analysis for the states where we have net operating loss carryovers and valuation allowances. Because we have not yet completed our determination of the need for, or any change in, any valuation allowance, we have not yet recorded any change to valuation allowances.

**Other provisions.** We included a current provision for GILTI tax related to current-year operations in our estimated annual effective tax rate. We continue to evaluate the provisions in the 2017 Tax Act and their potential impact on future results.

The 2018 first half impact of the 2017 Tax Act, and other changes affecting our provision for income taxes, are discussed below.

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30,	June 30,	Change 2018	June 30,	June 30,	Change 2018
	2018	2017	vs. 2017	2018	2017	vs. 2017
Provision for income taxes	\$(186)	\$(227 )	\$(41) (18)%	\$(290)	\$(350 )	\$(60) (17)%

Table of Contents

## Second Quarter

Provision for income taxes decreased by \$41 million, primarily due to the reduction of the U.S. federal tax rate under the 2017 Tax Act (\$63 million) and a shift in earnings to lower tax jurisdictions (\$16 million). The decrease was partially offset by an increase in tax expense related to the gains from dispositions (\$19 million), the 2017 release of a tax reserve due to the favorable settlement of a tax position (\$12 million), and the current period's provisional estimate of tax for GILTI under the 2017 Tax Act (\$8 million).

## First Half

Provision for income taxes decreased by \$60 million, primarily due to the reduction of the U.S. federal tax rate under the 2017 Tax Act (\$100 million), the release of tax reserves due to the completion of certain examinations (\$34 million), lower operating income (\$25 million), and a shift in earnings to lower tax jurisdictions (\$13 million). The decrease was partially offset by tax expense related to the gains from dispositions (\$33 million), tax expense incurred for uncertain tax positions relating to legacy-Starwood operations (\$30 million), state tax expense due to a change in our position regarding the future remittance of a portion of the accumulated earnings of non-U.S. subsidiaries (\$27 million), the current period's provisional estimate of tax for GILTI under the 2017 Tax Act (\$15 million), and the 2017 release of a tax reserve due to the favorable settlement of a tax position (\$12 million).

## BUSINESS SEGMENTS

The following discussion presents an analysis of the operating results of our reportable business segments: North American Full-Service, North American Limited-Service, and Asia Pacific, for the 2018 second quarter compared to the 2017 second quarter and for the 2018 first half compared to the 2017 first half. See Footnote 11. Business Segments for other information about each segment, including revenues and a reconciliation of segment profits to net income.

## North American Full-Service

Since the end of the 2017 second quarter, across our North American Full-Service segment, we added 60 properties (13,622 rooms), and 17 properties (4,940 rooms) left our system.

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30, 2018	June 30, 2017	Change 2018 vs. 2017	June 30, 2018	June 30, 2017	Change 2018 vs. 2017
Segment revenues	\$3,356	\$3,277	\$79 2%	\$6,655	\$6,517	\$138 2%
Segment profits	\$394	\$375	\$19 5%	\$671	\$677	\$(6 ) (1)%

## Second Quarter

North American Full-Service segment profits increased by \$19 million, primarily due to the following:

- \$16 million of higher base management and franchise fees, primarily reflecting \$8 million from RevPAR growth and \$6 million from unit growth;

- \$12 million of higher incentive management fees, primarily driven by higher net house profits;

- \$23 million of lower owned, leased, and other revenue, net of direct expenses, primarily reflecting \$17 million of lower owned and leased profits from properties sold and a \$5 million unfavorable variance with the business interruption insurance proceeds recorded in the 2017 second quarter;

- \$2 million of lower gains and other income, net, primarily due to a \$24 million unfavorable variance with the gain on the sale of a property in 2017, partially offset by the \$22 million gain on the sale of two properties in 2018;

- \$11 million of higher equity in earnings, primarily due to our \$10 million share of the gain on an equity method investee's sale of a property; and

Table of Contents

- \$6 million of lower cost reimbursement revenue, net of reimbursed expenses.

## First Half

North American Full-Service segment profits decreased by \$6 million, primarily due to the following:

- \$36 million of lower cost reimbursement revenue, net of reimbursed expenses;
- \$25 million of higher base management and franchise fees, primarily reflecting \$12 million from RevPAR growth and \$11 million from unit growth;
- \$13 million of higher incentive management fees, primarily driven by higher net house profits;
- \$27 million of lower owned, leased, and other revenue, net of direct expenses, primarily reflecting \$40 million of lower owned and leased profits from properties sold and a \$5 million unfavorable variance with the business interruption insurance proceeds recorded in the 2017 second quarter, partially offset by \$17 million of higher termination fees;
- Unchanged gains and other income, net, primarily due to the same reasons described in the preceding “Second Quarter” discussion; and
- \$9 million of higher equity in earnings, primarily due to the change described in the preceding “Second Quarter” discussion.

## North American Limited-Service

Since the end of the 2017 second quarter, across our North American Limited-Service segment, we added 281 properties (34,322 rooms), and 28 properties (3,224 rooms) left our system.

(\$ in millions)	Three Months Ended			Six Months Ended		
	June 30, 2018	June 30, 2017	Change 2018 vs. 2017	June 30, 2018	June 30, 2017	Change 2018 vs. 2017
Segment revenues	\$888	\$836	\$52 6%	\$1,649	\$1,577	\$72 5%
Segment profits	\$252	\$243	\$9 4%	\$434	\$430	\$4 1%

## Second Quarter

North American Limited-Service segment profits increased by \$9 million, primarily due to the following:

- \$21 million of higher base management and franchise fees, primarily reflecting \$15 million from unit growth; and
- \$13 million of lower cost reimbursement revenue, net of reimbursed expenses.

## First Half

North American Limited-Service segment profits increased by \$4 million, primarily due to the following:

- \$37 million of higher base management and franchise fees, primarily reflecting \$26 million from unit growth and \$9 million from RevPAR growth; and
- \$34 million of lower cost reimbursement revenue, net of reimbursed expenses.

## Asia Pacific

Since the end of the 2017 second quarter, across our Asia Pacific segment, we added 85 properties (19,309 rooms), and eight properties (2,959 rooms) left our system.

Table of Contents

	Three Months Ended			Six Months Ended		
	June 2018	June 2017	Change 2018 vs. 2017	June 2018	June 2017	Change 2018 vs. 2017
(\$ in millions)	30,	30,		30,	30,	
Segment revenues	\$268	\$252	\$16 6 %	\$543	\$493	\$50 10%
Segment profits	\$140	\$73	\$67 92%	\$252	\$167	\$85 51%

**Second Quarter**

Asia Pacific segment profits increased by \$67 million, primarily due to the following:

- \$55 million of higher gains and other income, net, primarily reflecting the \$45 million gain on the sale of two properties and \$9 million from the gain on the sale of our interest in an equity method investment; and

- \$1 million of higher cost reimbursement revenue, net of reimbursed expenses.

**First Half**

Asia Pacific segment profits increased by \$85 million, primarily due to the following:

- \$13 million of higher base management and franchise fees, primarily reflecting \$6 million from unit growth and \$6 million from RevPAR growth;

- \$19 million of higher incentive management fees primarily driven by higher net house profits, \$5 million from favorable foreign exchange rates, and \$4 million from unit growth;

- \$54 million of higher gains and other income, net, primarily due to the same reasons described in the preceding “Second Quarter” discussion; and

- \$5 million of lower cost reimbursement revenue, net of reimbursed expenses.

**SHARE-BASED COMPENSATION**

We award: (1) restricted stock units (“RSUs”) of our common stock; (2) stock appreciation rights (“SARs”) for our common stock; (3) stock options to purchase our common stock; and (4) deferred stock units. We also issue performance-based RSUs (“PSUs”) to named executive officers and some of their direct reports. See Footnote 5. Share-Based Compensation for more information.

**NEW ACCOUNTING STANDARDS**

See Footnote 1. Basis of Presentation for information on our anticipated adoption of recently issued accounting standards.

**LIQUIDITY AND CAPITAL RESOURCES****Cash Requirements and Our Credit Facility**

We are party to a multicurrency revolving credit agreement (the “Credit Facility”) that provides for up to \$4,000 million of aggregate effective borrowings to support our commercial paper program and general corporate needs, including working capital, capital expenditures, share repurchases, letters of credit, and acquisitions. Borrowings under the Credit Facility generally bear interest at LIBOR (the London Interbank Offered Rate) plus a spread, based on our public debt rating. We also pay quarterly fees on the Credit Facility at a rate based on our public debt rating. While any outstanding commercial paper borrowings and/or borrowings under our Credit Facility generally have short-term maturities, we classify the outstanding borrowings as long-term based on our ability and intent to refinance the outstanding borrowings on a long-term basis. The Credit Facility expires on June 10, 2021.

The Credit Facility contains certain covenants, including a single financial covenant that limits our maximum leverage (consisting of the ratio of Adjusted Total Debt to Consolidated Earnings Before Interest Expense, Taxes, Depreciation, and Amortization (“EBITDA”), each as defined in the Credit Facility) to not more than 4 to 1. Our outstanding public debt does not contain a corresponding financial covenant or a requirement that we maintain

Table of Contents

certain financial ratios. We currently satisfy the covenants in our Credit Facility and public debt instruments, including the leverage covenant under the Credit Facility, and do not expect the covenants will restrict our ability to meet our anticipated borrowing and guarantee levels or increase those levels should we decide to do so in the future. We believe the Credit Facility and our access to capital markets, together with cash we expect to generate from operations, remain adequate to meet our short-term and long-term liquidity requirements, finance our long-term growth plans, meet debt service, and fulfill other cash requirements.

We issue commercial paper in the U.S. We do not have purchase commitments from buyers for our commercial paper; therefore, our ability to issue commercial paper is subject to market demand. We reserve unused capacity under our Credit Facility to repay outstanding commercial paper borrowings if the commercial paper market is not available to us for any reason when outstanding borrowings mature. We do not expect that fluctuations in the demand for commercial paper will affect our liquidity, given our borrowing capacity under the Credit Facility.

At June 30, 2018, our available borrowing capacity amounted to \$1,281 million and reflected borrowing capacity of \$915 million under our Credit Facility and our cash balance of \$366 million. We calculated that borrowing capacity by taking \$4,000 million of effective aggregate bank commitments under our Credit Facility and subtracting \$3,085 million of outstanding commercial paper (there being no outstanding letters of credit under our Credit Facility).

We monitor the status of the capital markets and regularly evaluate the effect that changes in capital market conditions may have on our ability to execute our announced growth plans. We expect to continue meeting part of our financing and liquidity needs primarily through commercial paper borrowings, issuances of Senior Notes, and access to long-term committed credit facilities. If conditions in the lodging industry deteriorate, or if disruptions in the capital markets take place as they did in the immediate aftermath of both the 2008 worldwide financial crisis and the events of September 11, 2001, we may be unable to place some or all of our commercial paper on a temporary or extended basis and may have to rely more on borrowings under the Credit Facility, which we believe will be adequate to fund our liquidity needs, including repayment of debt obligations, but which may carry a higher cost than commercial paper. Since we continue to have ample flexibility under the Credit Facility's covenants, we expect that undrawn bank commitments under the Credit Facility will remain available to us even if business conditions were to deteriorate markedly.

Our financial objectives include diversifying our financing sources, optimizing the mix and maturity of our long-term debt, and reducing our working capital. At the end of the 2018 second quarter, our long-term debt had a weighted average interest rate of 3.1 percent and a weighted average maturity of approximately 5.4 years. The ratio of fixed-rate long-term debt to total long-term debt was 0.6 to 1.0 at the end of the 2018 second quarter.

Cash, cash equivalents, and restricted cash totaled \$403 million at June 30, 2018, a decrease of \$26 million from year-end 2017, primarily reflecting purchase of treasury stock (\$1,673 million), capital expenditures (\$388 million), dividend payments (\$262 million), and financing outflows for employee share-based compensation withholding taxes (\$101 million). The following cash inflows partially offset these cash outflows: net cash provided by operating activities (\$1,129 million), higher commercial paper borrowings (\$707 million), net cash proceeds from dispositions discussed in Footnote 3. Acquisitions and Dispositions (\$424 million), long-term debt issuances, net of repayments (\$56 million), distributions from equity method investments (\$53 million), and loan collections, net of advances (\$16 million). Both periods presented in our Statements of Cash Flows reflect changes resulting from our adoption of ASUs 2014-09, 2016-15, and 2016-18.

Our ratio of current assets to current liabilities was 0.5 to 1.0 at the end of the 2018 second quarter. We minimize working capital through cash management, strict credit-granting policies, and aggressive collection efforts. We also have significant borrowing capacity under our Credit Facility should we need additional working capital.

We made capital expenditures of \$388 million in the 2018 first half and \$104 million in the 2017 first half, an increase of \$284 million, primarily reflecting the acquisition of the Sheraton Grand Phoenix, improvements to our worldwide systems, and higher spending on several owned and leased properties. We expect spending on capital expenditures and other investments will total approximately \$800 million to \$900 million for the 2018 full year,

Table of Contents

including loan advances, equity and other investments, contract acquisition costs, and various capital expenditures (including approximately \$225 million for maintenance capital spending).

Over time, we have sold hotels, both completed and under development, subject to long-term management agreements. The ability of third-party purchasers to raise the debt and equity capital necessary to acquire such properties depends in part on the perceived risks in the lodging industry and other constraints inherent in the capital markets. We monitor the status of the capital markets and regularly evaluate the potential impact of changes in capital market conditions on our business operations. In the Starwood Combination, we acquired various hotels and joint venture interests in various hotels, many of which we have sold or are seeking to sell, and we recently acquired the Sheraton Grand Phoenix, which we expect to renovate and sell subject to a long-term management agreement. We also expect to continue making selective and opportunistic investments to add units to our lodging business, which may include new construction, loans, guarantees, and noncontrolling equity investments.

Share Repurchases

We purchased 6.2 million shares of our common stock during the 2018 second quarter at an average price of \$136.20 per share. As of June 30, 2018, 20.4 million shares remained available for repurchase under Board approved authorizations. For additional information, see “Issuer Purchases of Equity Securities” in Part II, Item 2.

Dividends

Our Board of Directors declared the following quarterly cash dividends in 2018: (1) \$0.33 per share declared on February 9, 2018 and paid March 30, 2018 to shareholders of record on February 23, 2018 and (2) \$0.41 per share declared on May 4, 2018 and paid June 29, 2018 to shareholders of record on May 18, 2018.

Contractual Obligations and Off-Balance Sheet Arrangements

As of the end of the 2018 second quarter, there have been no significant changes to our “Contractual Obligations” table, “Other Commitments” table, or “Letters of Credit” paragraph in Part II, Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” of our 2017 Form 10-K, other than those described below.

Total debt increased \$753 million to \$8,991 million at June 30, 2018 from \$8,238 million at December 31, 2017, reflecting the issuance of our Series X Notes and higher commercial paper borrowings, partially offset by the maturity of our Series S Notes. See Footnote 8. Long-Term Debt for more information on our total debt at June 30, 2018.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect reported amounts and related disclosures. We have discussed those policies and estimates that we believe are critical and require the use of complex judgment in their application in our 2017 Form 10-K. Since the date of our 2017 Form 10-K, we have made no material changes to our critical accounting policies or the methodologies or assumptions that we apply under them, other than those described below.

Loyalty Programs. After the adoption of ASU 2014-09, our accounting for our loyalty programs revenue continues to be a critical accounting policy. Critical estimates include breakage of hotel points, credit card points, and free night certificates, the volume of points and free night certificates that will be issued under our co-brand credit card agreements, the amount of consideration to which we will be entitled under our co-brand credit card agreements, and the stand-alone selling prices of goods and services provided under our co-brand credit card agreements.

See the “Performance Obligations” caption of Footnote 2. Revenues for additional information related to these critical accounting policies and estimates.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk has not materially changed since December 31, 2017.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, we evaluated, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”). Management necessarily applied its judgment in assessing the costs and benefits of those controls and procedures, which by their nature, can provide only reasonable assurance about management’s control objectives. You should note that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and we cannot assure you that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. Based upon this evaluation, our Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective and operating to provide reasonable assurance that we record, process, summarize, and report the information we are required to disclose in the reports that we file or submit under the Exchange Act within the time periods specified in the rules and forms of the SEC, and to provide reasonable assurance that we accumulate and communicate such information to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions about required disclosure.

Internal Control Over Financial Reporting

We made no changes in internal control over financial reporting during the 2018 second quarter that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

**PART II – OTHER INFORMATION**

**Item 1. Legal Proceedings**

From time to time, we are subject to legal proceedings and claims in the ordinary course of business, including adjustments proposed during governmental examinations of the various tax returns we file. While management presently believes that the ultimate outcome of these proceedings, individually and in aggregate, will not materially harm our financial position, cash flows, or overall trends in results of operations, legal proceedings are inherently uncertain, and unfavorable rulings could, individually or in aggregate, have a material adverse effect on our business, financial condition, or operating results.

**Item 1A. Risk Factors**

**Risks and Uncertainties**

We are subject to various risks that could have a negative effect on us or on our financial condition. You should understand that these risks could cause results to differ materially from those we express in forward-looking statements contained in this report or in other Company communications. Because there is no way to determine in advance whether, or to what extent, any present uncertainty will ultimately impact our business, you should give equal weight to each of the following:

Our industry is highly competitive, which may impact our ability to compete successfully with other hotel properties and home and apartment sharing services for guests. We operate in markets that contain many competitors. Each of our hotel brands competes with major hotel chains and home and apartment sharing services in national and international venues, and with independent companies in regional markets. Our ability to remain competitive and attract and retain business and leisure travelers depends on our success in distinguishing the quality, value, and efficiency of our lodging products and services, including our Loyalty Programs, direct booking channels, and consumer-facing technology platforms and services, from those offered by others. If we cannot compete successfully in these areas, our operating margins could contract, our market share could decrease, and our earnings could decline. Further, new lodging supply in individual markets could have a negative impact on the hotel industry and hamper our ability to increase room rates or occupancy in those markets.

Economic downturns could impact our financial results and growth. Weak economic conditions in one or more parts of the world, changes in oil prices and currency values, potential disruptions in national, regional, or global economies generally and the travel business in particular that might result from changing governmental policies in areas such as trade, travel, immigration, healthcare, and related issues, political instability in some areas, and the uncertainty over how long any of these conditions could continue, could have a negative impact on the lodging industry. Because of such uncertainty, we continue to experience weakened demand for our hotel rooms in some markets. Our future financial results and growth could be further harmed or constrained if economic or these other conditions worsen. U.S. government travel is also a significant part of our business, and this aspect of our business could suffer due to U.S. federal spending cuts, or government hiring restrictions and any further limitations that may result from presidential or congressional action or inaction.

**Risks Relating to Our Integration of Starwood**

The continued diversion of resources and management's attention to the integration of Starwood could still adversely affect our day-to-day business. While the integration of Starwood is well underway, it places a significant burden on our management and internal resources and will continue to do so for some time. The diversion of management's attention away from day-to-day business concerns and any difficulties we encounter as the integration process continues could adversely affect our financial results.

Some of the anticipated benefits of combining Starwood and Marriott may still not be realized. We decided to acquire Starwood with the expectation that the Starwood Combination would result in various benefits, including, among other things, operating efficiencies. Although we have already achieved some of those anticipated benefits,

## Table of Contents

others remain subject to several uncertainties, including whether we can continue to effectively and efficiently integrate the Starwood business.

Integration could also take longer than we anticipate and involve unexpected costs. Disruptions of each legacy company's ongoing businesses, processes, and systems could adversely affect the combined company. We also may still encounter difficulties harmonizing our different reservations and other systems, Loyalty Programs and other business practices as the integration process continues. Because of these or other factors, we cannot assure you when or that we will be able to fully realize additional benefits from the Starwood Combination in the form of eliminating duplicative costs, or achieving other operating efficiencies, cost savings, or benefits, or that difficulties encountered with our harmonization efforts will not have adverse effects on our business or reputation.

Program changes associated with our integration efforts could have a negative effect on guest preference or behavior. Our integration efforts involve significant changes to certain of our guest programs and services, including our Loyalty Programs, co-branded credit card arrangements and consumer-facing technology platforms and services. While we believe such changes will enhance these programs and services for our guests and drive guest preference and satisfaction, these changes remain subject to various uncertainties, including whether the changes could be negatively perceived by certain guests and consumers, could affect guest preference or could alter reservation, spending or other guest or consumer behavior, all of which could adversely affect our market share, reputation, business, financial condition, or results of operations.

### Risks Relating to Our Business

#### Operational Risks

Premature termination of our management or franchise agreements could hurt our financial performance. Our hotel management and franchise agreements may be subject to premature termination in certain circumstances, such as the bankruptcy of a hotel owner or franchisee, or a failure under some agreements to meet specified financial or performance criteria that are subject to the risks described in this section, which we fail or elect not to cure. Some courts have also applied agency law principles and related fiduciary standards to managers of third-party hotel properties, including us (or have interpreted hotel management agreements to be "personal services contracts"). Property owners may assert the right to terminate management agreements even where the agreements provide otherwise, and some courts have upheld such assertions about our management agreements and may do so in the future. If terminations occur for these or other reasons, we may need to enforce our right to damages for breach of contract and related claims, which may cause us to incur significant legal fees and expenses. Any damages we ultimately collect could be less than the projected future value of the fees and other amounts we would have otherwise collected under the management or franchise agreement. A significant loss of agreements due to premature terminations could hurt our financial performance or our ability to grow our business.

Our lodging operations are subject to global, national, and regional conditions. Because we conduct our business on a global platform, changes in global and regional economies and governmental policies impact our activities. In recent years, decreases in travel resulting from weak economic conditions and the heightened travel security measures resulting from the threat of further terrorism have hurt our business. Our future performance could be similarly affected by the economic and political environment in each of our operating regions, the resulting unknown pace of both business and leisure travel, and any future incidents or changes in those regions.

The growing significance of our operations outside of the U.S. makes us increasingly susceptible to the risks of doing business internationally, which could lower our revenues, increase our costs, reduce our profits, disrupt our business, or damage our reputation. More than a third of the rooms in our system are located outside of the U.S. and its territories. We expect that our international operations, and resulting revenues, will continue to grow. This increasingly exposes us to the challenges and risks of doing business outside the U.S., many of which are outside of our control, and which could reduce our revenues or profits, increase our costs, result in significant liabilities or sanctions, disrupt our business, or damage our reputation. These challenges include: (1) compliance with complex and changing laws, regulations and government policies that may impact our operations, such as foreign ownership restrictions, import and export controls, and trade restrictions; (2) compliance with U.S. and foreign laws that affect the activities of companies abroad, such as competition laws, cybersecurity and privacy laws, currency regulations,

Table of Contents

and other laws affecting dealings with certain nations; (3) the difficulties involved in managing an organization doing business in many different countries; (4) uncertainties as to the enforceability of contract and intellectual property rights under local laws; (5) rapid changes in government policy, political or civil unrest, acts of terrorism, or the threat of international boycotts or U.S. anti-boycott legislation; and (6) currency exchange rate fluctuations, which may impact the results and cash flows of our international operations.

Any failure by our international operations to comply with anti-corruption laws or trade sanctions could increase our costs, reduce our profits, limit our growth, harm our reputation, or subject us to broader liability. We are subject to restrictions imposed by the U.S. Foreign Corrupt Practices Act (the “FCPA”) and anti-corruption laws and regulations of other countries applicable to our operations, such as the UK Bribery Act. Anti-corruption laws and regulations generally prohibit companies and their intermediaries from making improper payments to government officials or other persons to receive or retain business. These laws also require us to maintain adequate internal controls and accurate books and records. Due to the Starwood Combination, we now have more properties in countries outside of the U.S., including in many parts of the world where corruption is common, and our compliance with anti-corruption laws may potentially conflict with local customs and practices. The compliance programs, internal controls and policies we maintain and enforce to promote compliance with applicable anti-bribery and anti-corruption laws may not prevent our associates, contractors or agents from acting in ways prohibited by these laws and regulations. We are also subject to trade sanctions administered by the Office of Foreign Assets Control and the U.S. Department of Commerce. Our compliance programs and internal controls also may not prevent conduct that is prohibited under these rules. The U.S. may impose additional sanctions at any time against any country in which or with whom we do business. Depending on the nature of the sanctions imposed, our operations in the relevant country could be restricted or otherwise adversely affected. Any violations of anti-corruption laws and regulations or trade sanctions could result in significant civil and criminal penalties, reduce our profits, disrupt or have a material adverse effect on our business, damage our reputation, or result in lawsuits being brought against the Company or its officers or directors. In addition, the operation of these laws or an imposition of further restrictions in these areas could increase our cost of operations, reduce our profits or cause us to forgo development opportunities, or cease operations in certain countries, that would otherwise support growth.

Exchange rate fluctuations and foreign exchange hedging arrangements could result in significant foreign currency gains and losses and affect our business results. We earn revenues and incur expenses in foreign currencies as part of our operations outside of the U.S. Accordingly, fluctuations in currency exchange rates may significantly increase the amount of U.S. dollars required for foreign currency expenses or significantly decrease the U.S. dollars we receive from foreign currency revenues. We are also exposed to currency translation risk because the results of our non-U.S. business are generally reported in local currency, which we then translate to U.S. dollars for inclusion in our consolidated financial statements. As a result, changes between the foreign exchange rates and the U.S. dollar affect the amounts we record for our foreign assets, liabilities, revenues and expenses, and could have a negative effect on our financial results. We expect that our exposure to foreign currency exchange rate fluctuations will grow as the relative contribution of our non-U.S. operations increases. We enter into foreign exchange hedging agreements with financial institutions to reduce exposures to some of the principal currencies in which we receive management and franchise fees, but these efforts may not be successful. These hedging agreements also do not cover all currencies in which we do business, do not eliminate foreign currency risk entirely for the currencies that they do cover, and involve costs and risks of their own in the form of transaction costs, credit requirements and counterparty risk. Some of our management agreements and related contracts require us to make payments to owners if the hotels do not achieve specified levels of operating profit. Some of our contracts with hotel owners require that we fund shortfalls if the hotels do not attain specified levels of operating profit. We may not be able to recover any fundings of such performance guarantees, which could lower our profits and reduce our cash flows.

Our new programs and new branded products may not be successful. We cannot assure you that recently launched or newly acquired brands, such as EDITION, AC Hotels by Marriott in the Americas, Protea Hotels, Moxy, Delta Hotels, and those we acquired as a result of the Starwood Combination, our investments in PlacePass and the joint venture with Alibaba, our recently announced pilot of a homesharing offering in London, or any other new programs or products we may launch in the future, will be accepted by hotel owners, potential franchisees, or

Table of Contents

the traveling public or other guests. We also cannot be certain that we will recover the costs we incurred in developing or acquiring the brands or any new programs or products, or that those brands, programs, or products will be successful. In addition, some of our new or newly acquired brands involve or may involve cooperation and/or consultation with one or more third parties, including some shared control over product design and development, sales and marketing, and brand standards. Disagreements with these third parties could slow the development of these new brands and/or impair our ability to take actions we believe to be advisable for the success and profitability of such brands.

Risks relating to natural or man-made disasters, contagious disease, terrorist activity, and war could reduce the demand for lodging, which may adversely affect our revenues. So called “Acts of God,” such as hurricanes, earthquakes, tsunamis, floods, wildfires, and other natural disasters, such as 2017 hurricanes Harvey, Irma, and Maria, that caused severe damage in Houston, the Florida Keys, Puerto Rico, the U.S. Virgin Islands, and many other Caribbean islands, recent earthquakes, volcanic activity in Hawaii and Bali, and man-made disasters in recent years as well as the potential spread of contagious diseases such as MERS (Middle East Respiratory Syndrome), Zika virus, and Ebola in locations where we own, manage, or franchise significant properties and areas of the world from which we draw a large number of guests, could cause a decline in business or leisure travel and reduce demand for lodging. Actual or threatened war, terrorist activity, political unrest, or civil strife, such as recent events in Las Vegas, Fort Lauderdale, Orlando, Barcelona, Berlin, Brussels, London, Manchester, Paris, Turkey, Ukraine and Russia, the Middle East, and other geopolitical uncertainty could have a similar effect. Any one or more of these events may reduce the overall demand for hotel rooms and corporate apartments or limit the prices that we can obtain for them, both of which could adversely affect our profits. If a terrorist event were to involve one or more of our branded properties, demand for our hotels in particular could suffer, which could further hurt our revenues and profits.

Disagreements with owners of hotels that we manage or franchise may result in litigation or delay implementation of product or service initiatives. Consistent with our focus on management and franchising, we own very few of our lodging properties. The nature of our responsibilities under our management agreements to manage each hotel and enforce the standards required for our brands under both management and franchise agreements may be subject to interpretation and will from time to time give rise to disagreements, which may include disagreements over the need for or payment for new product, service or systems initiatives, the timing and amount of capital investments, and reimbursement for certain system initiatives and costs. Such disagreements may be more likely when hotel returns are weaker. We seek to resolve any disagreements to develop and maintain positive relations with current and potential hotel owners and joint venture partners, but we cannot always do so. Failure to resolve such disagreements has resulted in litigation, and could do so in the future. If any such litigation results in an adverse judgment, settlement, or court order, we could suffer significant losses, our profits could be reduced, or our future ability to operate our business could be constrained.

Our business depends on the quality and reputation of our company and our brands, and any deterioration could adversely impact our market share, reputation, business, financial condition, or results of operations. Events that may be beyond our control could affect the reputation of one or more of our properties or more generally impact the reputation of our brands. Many other factors also can influence our reputation and the value of our brands, including service, food quality and safety, availability and management of scarce natural resources, supply chain management, diversity, human rights, and support for local communities. Reputational value is also based on perceptions, and broad access to social media makes it easy for anyone to provide public feedback that can influence perceptions of us, our brands and our hotels, and it may be difficult to control or effectively manage negative publicity, regardless of whether it is accurate. While reputations may take decades to build, negative incidents can quickly erode trust and confidence, particularly if they result in adverse mainstream and social media publicity, governmental investigations or penalties, or litigation. Negative incidents could lead to tangible adverse effects on our business, including consumer boycotts, lost sales, disruption of access to our websites and reservation systems, loss of development opportunities, or associate retention and recruiting difficulties. Any decline in the reputation or perceived quality of our brands or corporate image could affect our market share, reputation, business, financial condition, or results of operations.

Table of Contents

If our brands, goodwill or other intangible assets become impaired, we may be required to record significant non-cash charges to earnings. As of June 30, 2018, we had \$17.5 billion of goodwill and other intangible assets. We review goodwill and indefinite-lived intangible assets for impairment annually or whenever events or circumstances indicate impairment may have occurred. Estimated fair values of our brands or reporting units could change if, for example, there are changes in the business climate, unanticipated changes in the competitive environment, adverse legal or regulatory actions or developments, changes in guests' perception and the reputation of our brands, or changes in interest rates, operating cash flows, or market capitalization. Because of the significance of our goodwill and other intangible assets, any future impairment of these assets could require material non-cash charges to our results of operations, which could have a material adverse effect on our financial condition and results of operations.

Actions by our franchisees and licensees could adversely affect our image and reputation. We franchise and license many of our brand names and trademarks to third parties for lodging, timeshare, residential, and our credit card programs. Under the terms of their agreements with us, our franchisees and licensees interact directly with guests and other third parties under our brand and trade names. If these franchisees or licensees fail to maintain or act in accordance with applicable brand standards; experience operational problems, including any data breach involving guest information; or project a brand image inconsistent with ours, our image and reputation could suffer. Although our franchise and license agreements provide us with recourse and remedies in the event of a breach by the franchisee or licensee, including termination of the agreements under certain circumstances, it could be expensive or time consuming for us to pursue such remedies. We also cannot assure you that in every instance a court would ultimately enforce our contractual termination rights or that we could collect any awarded damages from the defaulting franchisee or licensee.

Collective bargaining activity could disrupt our operations, increase our labor costs, or interfere with the ability of our management to focus on executing our business strategies. A significant number of associates at our managed, leased, and owned hotels are covered by collective bargaining agreements. If relationships with those associates or the unions that represent them become adverse, the properties we operate could experience labor disruptions such as strikes, lockouts, boycotts, and public demonstrations. Collective bargaining agreements representing approximately half of our organized associates in the U.S. have expired or are expiring in 2018 and are in the process of being renegotiated. Labor disputes, which are generally more likely when collective bargaining agreements are being renegotiated, could harm our relationship with our associates, result in increased regulatory inquiries and enforcement by governmental authorities, and deter guests. Further, adverse publicity related to a labor dispute could harm our reputation and reduce customer demand for our services.

Labor regulation and the negotiation of new or existing collective bargaining agreements could lead to higher wage and benefit costs, changes in work rules that raise operating expenses, legal costs, and limitations on our ability or the ability of our third-party property owners to take cost saving measures during economic downturns. We do not have the ability to control the negotiations of collective bargaining agreements covering unionized labor employed by our third-party property owners and franchisees. Increased unionization of our workforce, new labor legislation, or changes in regulations could disrupt our operations, reduce our profitability or interfere with the ability of our management to focus on executing our business strategies.

Damage to, or losses involving, properties that we own, manage, or franchise may not be covered by insurance, or the cost of such insurance could increase. Marriott requires comprehensive property and liability insurance policies for our managed, leased, and owned properties with coverage features and insured limits that we believe are customary. We require managed hotel owners to procure such coverage or we procure such coverage on their behalf. We also require our franchisees to maintain similar levels of insurance. Market forces beyond our control may nonetheless limit the scope of the insurance coverage we or our franchisees can obtain, or our or their ability to obtain coverage at reasonable rates. Certain types of losses, generally of a catastrophic nature, such as earthquakes, hurricanes and floods, terrorist acts, or liabilities that result from breaches in the security of our information systems, may result in high deductibles, low limits, or may be uninsurable or the cost of obtaining insurance may be unacceptably high. As a result, we and our franchisees may not be successful in obtaining insurance without increases in cost or decreases in coverage levels. For example, in 2018 substantial increases in property insurance costs occurred due to the severe and widespread damage caused by the 2017 Atlantic hurricane season and other natural disasters. In addition, in the event

of a substantial loss, the insurance coverage we or our

45

---

## Table of Contents

franchisees carry may not be sufficient to pay the full market value or replacement cost of any lost investment or in some cases could result in certain losses being totally uninsured. As a result, we could lose some or all of any capital that we have invested in a property, as well as the anticipated future revenue from the property, and we could remain obligated for guarantees, debt, or other financial obligations for the property.

### Development and Financing Risks

While we are predominantly a manager and franchisor of hotel properties, our hotel owners depend on capital to buy, develop, and improve hotels, and our hotel owners may be unable to access capital when necessary. Both we and current and potential hotel owners must periodically spend money to fund new hotel investments, as well as to refurbish and improve existing hotels. The availability of funds for new investments and improvement of existing hotels by our current and potential hotel owners depends in large measure on capital markets and liquidity factors, over which we exert little control. Obtaining financing on attractive terms may be constrained by the capital markets for hotel and real estate investments. In addition, owners of existing hotels that we franchise or manage may have difficulty meeting required debt service payments or refinancing loans at maturity.

Our growth strategy depends upon third-party owners/operators, and future arrangements with these third parties may be less favorable. Our growth strategy for adding lodging facilities entails entering into and maintaining various arrangements with property owners. The terms of our management agreements and franchise agreements for each of our lodging facilities are influenced by contract terms offered by our competitors, among other things. We cannot assure you that any of our current arrangements will continue or that we will be able to enter into future collaborations, renew agreements, or enter into new agreements in the future on terms that are as favorable to us as those that exist today.

Our ability to grow our management and franchise systems is subject to the range of risks associated with real estate investments. Our ability to sustain continued growth through management or franchise agreements for new hotels and the conversion of existing facilities to managed or franchised Marriott brands is affected, and may potentially be limited, by a variety of factors influencing real estate development generally. These include site availability, financing, planning, zoning and other local approvals, and other limitations that may be imposed by market and submarket factors, such as projected room occupancy and rate, changes in growth in demand compared to projected supply, territorial restrictions in our management and franchise agreements, costs of construction, and demand for construction resources.

Our development and renovation activities expose us to project cost, completion, and resale risks. We occasionally develop, or acquire and renovate, hotel and residential properties, both directly and through partnerships, joint ventures, and other business structures with third parties. As demonstrated by the impairment charges that we recorded in 2014 and 2015 in connection with our development and construction of three EDITION hotels and residences, our ongoing involvement in the development of properties presents a number of risks, including that: (1) any future weakness in the capital markets may limit our ability, or that of third parties with whom we do business, to raise capital for completion of projects that have commenced or for development of future properties; (2) properties that we develop or renovate could become less attractive due to decreases in demand for hotel and residential properties, market absorption or oversupply, with the result that we may not be able to sell such properties for a profit or at the prices or selling pace we anticipate, potentially requiring additional changes in our pricing strategy that could result in further charges; (3) construction delays or cost overruns, including those due to a shortage of skilled labor, lender financial defaults, or so called "Acts of God" such as earthquakes, hurricanes, floods, or fires may increase overall project costs or result in project cancellations; and (4) we may be unable to recover development costs we incur for any projects that we do not pursue to completion.

Our owned properties and other real estate investments subject us to numerous risks. Although we had relatively few owned and leased properties at the end of the 2018 second quarter, such properties are subject to the risks that generally relate to investments in real property. Although we have sold many properties in recent years and we are actively pursuing additional sales, equity real estate investments can be difficult to sell quickly, and we may not be able to do so at prices we find acceptable or at all. Moreover, the investment returns available from equity investments in real estate depend in large part on the amount of income earned and capital appreciation generated by the related properties, and the expenses incurred. A variety of other factors also affect income from

Table of Contents

properties and real estate values, including governmental regulations, insurance, zoning, tax and eminent domain laws, interest rate levels, and the availability of financing. For example, new or existing real estate zoning or tax laws can make it more expensive and/or time-consuming to develop real property or expand, modify, or renovate hotels. When interest rates increase, the cost of acquiring, developing, expanding, or renovating real property increases and real property values may decrease as the number of potential buyers decreases. Similarly, as financing becomes less available, it becomes more difficult both to acquire and to sell real property. Finally, under eminent domain laws, governments can take real property, sometimes for less compensation than the owner believes the property is worth. Despite our asset-light strategy, our real estate properties could be impacted by any of these factors, resulting in a material adverse impact on our results of operations or financial condition. If our properties do not generate revenue sufficient to meet operating expenses, including needed capital expenditures, our income could be adversely affected. Development and other investing activities that involve our co-investment with third parties may result in disputes and may decrease our ability to manage risk. We have from time to time invested, and may continue to invest, in partnerships, joint ventures, and other business structures involving our co-investment with third parties. These investments generally include some form of shared control over the development of the asset or operations of the business and create added risks, including the possibility that other investors in such ventures could become bankrupt or otherwise lack the financial resources to meet their obligations, could have or develop business interests, policies, or objectives that are inconsistent with ours, could take action without our approval (or, conversely, prevent us from taking action without our partner's approval), or could make requests contrary to our policies or objectives. Should a venture partner become bankrupt we could become liable for our partner's share of the venture's liabilities. Actions by a co-venturer might subject the assets owned by the venture or partnership to additional risk, such as increased project costs, project delays, or operational difficulties following project completion. These risks may be more likely to occur in difficult business environments. We cannot assure you that our investments through partnerships or joint ventures will be successful despite these risks.

Risks associated with development and sale of residential properties associated with our lodging properties or brands may reduce our profits. We participate, through licensing agreements or directly or through noncontrolling interests, in the development and sale of residential properties associated with our brands, including residences and condominiums under many of our luxury and premium brand names and trademarks. Such projects pose further risks beyond those generally associated with our lodging business, which may reduce our profits or compromise our brand equity, including risks that (1) weakness in residential real estate and demand generally may reduce our profits and could make it more difficult to convince future hotel development partners of the value added by our brands; (2) increases in interest rates, reductions in mortgage availability or the tax benefits of mortgage financing or residential ownership generally, or increases in the costs of residential ownership could prevent potential customers from buying residential products or reduce the prices they are willing to pay; and (3) residential construction may be subject to warranty and liability claims or claims related to purchaser deposits, and the costs of resolving such claims may be significant.

Some hotel openings in our development pipeline and approved projects may be delayed or not result in new hotels, which could adversely affect our growth prospects. We report a significant number of hotels in our development pipeline, including hotels under construction and under signed contracts, as well as hotels approved for development but not yet under contract. The eventual opening of such pipeline hotels and, in particular the approved hotels that are not yet under contract, is subject to numerous risks, including in some cases the owner's or developer's ability to obtain adequate financing or governmental or regulatory approvals. Competition for skilled construction labor and disruption in the supply chain for materials could cause construction timelines for pipeline hotels to lengthen. Accordingly, we cannot assure you that all of our development pipeline will result in new hotels entering our system, or that those hotels will open when we anticipate.

If we incur losses on loans or loan guarantees that we have made to third parties, our profits could decline. At times, we make loans for hotel development or renovation expenditures when we enter into or amend management or franchise agreements. From time to time we also provide third-party lenders with financial guarantees for the timely repayment of all or a portion of debt related to hotels that we manage or franchise, generally subject to an

Table of Contents

obligation that the owner reimburse us for any fundings. We could suffer losses if hotel owners or franchisees default on loans that we provide or fail to reimburse us for loan guarantees that we have funded.

If owners of hotels that we manage or franchise cannot repay or refinance mortgage loans secured by their properties, our revenues and profits could decrease and our business could be harmed. The owners of many of our managed or franchised properties have pledged their hotels as collateral for mortgage loans that they entered into when those properties were purchased or refinanced. If those owners cannot repay or refinance maturing indebtedness on favorable terms or at all, the lenders could declare a default, accelerate the related debt, and repossess the property. Such sales or repossessions could, in some cases, result in the termination of our management or franchise agreements and eliminate our anticipated income and cash flows, which could negatively affect our results of operations.

**Technology, Information Protection, and Privacy Risks**

A failure to keep pace with developments in technology could impair our operations or competitive position. The lodging industry continues to demand the use of sophisticated technology and systems, including those used for our reservation, revenue management, property management, human resources and payroll systems, our Loyalty Programs, and technologies we make available to our guests and for our associates. These technologies and systems must be refined, updated, and/or replaced with more advanced systems on a regular basis, and our business could suffer if we cannot do that as quickly or effectively as our competitors or within budgeted costs and time frames. We also may not achieve the benefits that we anticipate from any new technology or system, and a failure to do so could result in higher than anticipated costs or could impair our operating results.

An increase in the use of third-party Internet services to book online hotel reservations could adversely impact our business. Some of our hotel rooms are booked through Internet travel intermediaries such as Expedia.com<sup>®</sup>, Priceline.com<sup>®</sup>, Booking.com<sup>™</sup>, Travelocity.com<sup>®</sup> and Orbitz.com<sup>®</sup>, as well as lesser-known online travel service providers. These intermediaries initially focused on leisure travel, but now also provide offerings for corporate travel and group meetings. Although our Best Rate Guarantee and Member Rate programs have helped limit guest preference shift to intermediaries and greatly reduced the ability of intermediaries to undercut the published rates at our hotels, intermediaries continue to use a variety of aggressive online marketing methods to attract guests, including the purchase, by certain companies, of trademarked online keywords such as “Marriott” from Internet search engines such as Google<sup>®</sup>, Bing<sup>®</sup>, Yahoo<sup>®</sup>, and Baidu<sup>®</sup> to steer guests toward their websites (a practice that has been challenged by various trademark owners in federal court). Although we have successfully limited these practices through contracts with key online intermediaries, the number of intermediaries and related companies that drive traffic to intermediaries’ websites is too large to permit us to eliminate this risk entirely. Our business and profitability could be harmed if online intermediaries succeed in significantly shifting loyalties from our lodging brands to their travel services, diverting bookings away from our direct online channels, or through their fees, increase the overall cost of Internet bookings for our hotels. In addition, if we fail to reach satisfactory agreements as our contracts with intermediaries come up for periodic renewal, our hotels might no longer appear on their websites and we could lose business as a result. Intermediaries could also shift business away from us to other brands if other brands offer more attractive commissions to the intermediary.

We are exposed to risks and costs associated with protecting the integrity and security of company, associate, and guest data. Our businesses process, use, and transmit large volumes of company, associate and guest data, including credit card numbers and other personal information in various information systems that we maintain and in systems maintained by third parties, including our owners, franchisees and licensees, as well as our service providers, in areas such as human resources outsourcing, website hosting, and various forms of electronic communications. The integrity and protection of that guest, associate, and company data is critical to our business. If that data is inaccurate or incomplete, we could make faulty decisions.

Our guests and associates also have a high expectation that we, as well as our owners, franchisees, licensees, and service providers, will adequately protect their personal information. The information, security, and privacy requirements imposed by laws and governmental regulation and the requirements of the payment card industry are also increasingly demanding, in the U.S., the European Union, Asia, and other jurisdictions where we operate. Our systems and the systems maintained or used by our owners, franchisees, licensees, and service providers may not be

Table of Contents

able to satisfy these changing legal and regulatory requirements and associate and guest expectations, or may require significant additional investments or time to do so.

Cyber-attacks could have a disruptive effect on our business. Efforts to hack or breach security measures, failures of systems or software to operate as designed or intended, viruses, “ransomware” or other malware, operator error, or inadvertent releases of data may materially impact our information systems and records and those of our owners, franchisees, licensees, or service providers. Our reliance on computer, Internet-based and mobile systems and communications and the frequency and sophistication of efforts by hackers to gain unauthorized access or prevent authorized access to such systems have greatly increased in recent years. A significant theft, loss, loss of access to, or fraudulent use of guest, associate, or company data could adversely impact our reputation and could result in remedial and other expenses, fines, or litigation. Breaches in the security of our information systems or those of our owners, franchisees, licensees, or service providers or other disruptions in data services could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits, and negative publicity, resulting in tangible adverse effects on our business, including consumer boycotts, lost sales, litigation, loss of development opportunities, or associate retention and recruiting difficulties, all of which could affect our market share, reputation, business, financial condition, or results of operations. The techniques used to obtain unauthorized access, disable or degrade service, or sabotage information systems change frequently, can be difficult to detect for long periods of time, and can be difficult to assess or remediate even once detected, which could magnify the severity of these adverse effects. In addition, although we carry cyber/privacy liability insurance that is designed to protect us against certain losses related to cyber risks, that insurance coverage may not be sufficient to cover all losses or all types of claims that may arise in connection with cyber-attacks, security breaches, and other related breaches. Furthermore, in the future such insurance may not be available to us on commercially reasonable terms, or at all.

Changes in privacy and data security laws could increase our operating costs, increase our exposure to fines and litigation, and adversely affect our ability to market our products effectively. We are subject to numerous laws, regulations, and contractual obligations designed to protect personal information, including in the European Union, Asia, and other jurisdictions. Non-U.S. data privacy and data security laws, various U.S. federal and state laws, credit card industry security standards, and other information privacy and security standards are all applicable to us. Compliance with changes in applicable data privacy laws and regulations and contractual obligations may increase our operating costs, increase our exposure to fines and litigation in the event of alleged non-compliance, and adversely affect our reputation.

Additionally, we rely on a variety of direct marketing techniques, including email marketing, online advertising, and postal mailings. Any further restrictions in laws such as the CANSPAM Act, and various U.S. state laws, or new federal laws on marketing and solicitation or international privacy, e-privacy, and anti-spam laws that govern these activities could adversely affect the continuing effectiveness of email, online advertising, and postal mailing techniques and could force further changes in our marketing strategy. If this occurs, we may not be able to develop adequate alternative marketing strategies, which could impact the amount and timing of our sales of certain products. We also obtain access to potential guests and customers from travel service providers or other companies with whom we have substantial relationships, and we market to some individuals on these lists directly or by including our marketing message in the other company’s marketing materials. If access to these lists were to be prohibited or otherwise restricted, our ability to develop new guests and customers and introduce them to our products could be impaired.

Any disruption in the functioning of our reservation systems, as part of our integration of Starwood or otherwise, could adversely affect our performance and results. We manage global reservation systems that communicate reservations to our branded hotels that individuals make directly with us online, through our mobile apps, through our telephone call centers, or through intermediaries like travel agents, Internet travel websites, and other distribution channels. The cost, speed, accuracy and efficiency of our reservation systems are critical aspects of our business and are important considerations for hotel owners when choosing our brands. Our business may suffer if we fail to maintain, upgrade, or prevent disruption to our reservation systems. In addition, the risk of disruption in the functioning of our global reservation systems could increase with the anticipated systems

Table of Contents

integration that is part of our integration of Starwood. Disruptions in or changes to our reservation systems could result in a disruption to our business and the loss of important data.

Other Risks

Changes in laws and regulations could reduce our profits or increase our costs. We are subject to a wide variety of laws, regulations, and policies in jurisdictions around the world, including those for financial reporting, taxes, healthcare, cybersecurity, privacy, climate change, and the environment. Changes to such laws, regulations, or policies could reduce our profits. We also anticipate that many of the jurisdictions where we do business will continue to review taxes and other revenue raising measures, and any resulting changes could impose new restrictions, costs, or prohibitions on our current practices or reduce our profits. In particular, governments may revise tax laws, regulations, or official interpretations in ways that could significantly impact us, and other modifications could reduce the profits that we can effectively realize from our operations or could require costly changes to those operations or the way in which they are structured.

Uncertainties in the interpretation and application of the 2017 Tax Cuts and Jobs Act could materially affect our tax obligations and effective tax rate. On December 22, 2017, the U.S. enacted the 2017 Tax Act, which significantly affected U.S. tax law by changing how the U.S. imposes income tax on multinational corporations. The 2017 Tax Act requires complex computations not previously required by U.S. tax law. As such, the application of accounting guidance for such items is currently uncertain. Further, compliance with the 2017 Tax Act and the accounting for such provisions require preparation and analysis of information not previously required or regularly produced. In addition, the U.S. Department of Treasury has broad authority to issue regulations and interpretative guidance that may significantly impact how we will apply the law and impact our results of operations in future periods. Accordingly, further regulatory or GAAP accounting guidance for the 2017 Tax Act, our further analysis on the application of the law, and refinement of our initial estimates and calculations could materially change our current provisional estimates of the impact of the 2017 Tax Act in our Financial Statements, which could in turn materially affect our tax obligations and effective tax rate.

If we cannot attract and retain talented associates, our business could suffer. We compete with other companies both within and outside of our industry for talented personnel. If we cannot recruit, train, develop, and retain sufficient numbers of talented associates, we could experience increased associate turnover, decreased guest satisfaction, low morale, inefficiency, or internal control failures. Insufficient numbers of talented associates could also limit our ability to grow and expand our businesses. A shortage of skilled labor could also result in higher wages that would increase our labor costs, which could reduce our profits.

Delaware law and our governing corporate documents contain, and our Board of Directors could implement, anti-takeover provisions that could deter takeover attempts. Under the Delaware business combination statute, a shareholder holding 15 percent or more of our outstanding voting stock could not acquire us without Board of Director consent for at least three years after the date the shareholder first held 15 percent or more of the voting stock. Our governing corporate documents also, among other things, require supermajority votes for mergers and similar transactions. In addition, our Board of Directors could, without shareholder approval, implement other anti-takeover defenses, such as a shareholder rights plan.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Unregistered Sale of Securities

None.

(b) Use of Proceeds

None.

Table of Contents

## (c) Issuer Purchases of Equity Securities

(in millions, except per share amounts)

Period	Total Number of Shares Purchased	Average Price per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs <sup>(1)</sup>	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs <sup>(1)</sup>
April 1, 2018 - April 30, 2018	1.5	\$ 134.62	1.5	25.1
May 1, 2018 - May 31, 2018	2.6	\$ 136.78	2.6	22.5
June 1, 2018 - June 30, 2018	2.1	\$ 136.58	2.1	20.4

On November 9, 2017, we announced that our Board of Directors increased our common stock repurchase <sup>(1)</sup> authorization by 30 million shares. As of June 30, 2018, 20.4 million shares remained available for repurchase under Board approved authorizations. We repurchase shares in the open market and in privately negotiated transactions.

## Item 6. Exhibits

We have not filed as exhibits certain instruments defining the rights of holders of the long-term debt of Marriott pursuant to Item 601(b)(4)(iii) of Regulation S-K promulgated under the Exchange Act, because the amount of debt authorized and outstanding under each such instrument does not exceed 10 percent of the total assets of the Company and its consolidated subsidiaries. The Company agrees to furnish a copy of any such instrument to the Commission upon request.

Exhibit No.	Description	Incorporation by Reference (where a report is indicated below, that document has been previously filed with the SEC and the applicable exhibit is incorporated by reference thereto)
