THE CATO CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS ENDED MAY 3, 2014 AND MAY 4, 2013

NOTE 1 - GENERAL:

The condensed consolidated financial statements have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the “Company”), and all amounts shown as of and for the periods ended May 3, 2014 and May 4, 2013 are unaudited. In the opinion of management, all adjustments considered necessary for a fair statement have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K/A for the fiscal year ended February 1, 2014. Amounts as of February 1, 2014 have been derived from the audited balance sheet, but do not include all disclosures required by accounting principles generally accepted in the United States of America.

During the fourth quarter of 2013, the Company discovered that it had improperly netted purchases and sales activity for investments within cash flows related to investing activities in prior periods. In addition, the Company had also improperly classified the premiums and amortization of premiums on those investments in cash flows related to investing activities when it should have been in cash flows related to operating activities. The Condensed Consolidated Statement of Cash Flows for the three months ended May 3, 2014 has been revised to correct the presentation of the amounts, which resulted in a decrease to Net cash provided by operating activities and a corresponding decrease to Net cash provided (used) in investing activities of \$1.4 million dollars. The revision is not deemed material to the prior period consolidated financial statements.

On May 20, 2014, the Board of Directors maintained the quarterly dividend at \$0.30 per share.

NOTE 2 - EARNINGS PER SHARE:

ASC 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share (“EPS”) on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. While the Company’s certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company’s allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

The Company has aggregated its retail operating segments based on the aggregation criteria outlined in ASC 280-10, which states that two or more operating segments may be aggregated into a single reportable segment if aggregation is consistent with the objective and basic principles of ASC 280-10 if the segments have similar economic characteristics, similar product, similar production processes, similar clients and similar methods of distribution.

The Company's retail operating segments have similar economic characteristics and similar operating, financial and competitive risks. They are similar in nature of product, as they all offer women's apparel, shoes and accessories. FOR THE THREE MONTHS ENDED MAY 3, 2014 AND MAY 4, 2013****NOTE 6 – STOCK BASED COMPENSATION:**

As of May 3, 2014, the Company had three long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The 2013 Incentive Compensation Plan and 2004 Amended and Restated Incentive Compensation Plan are for the granting of various forms of equity-based awards, including restricted stock and stock options for grant, to officers, directors and key employees. Effective May 23, 2013, shares for grant were no longer available under the 2004 Amended and Restated Incentive Compensation Plan.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plans as of May 3, 2014:

	1987 Plan	2004 Plan	2013 Plan	Total

THE CATO CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS ENDED MAY 3, 2014 AND MAY 4, 2013

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at May 3, 2014, February 1, 2014 and May 4, 2013. The state, municipal and corporate bonds have contractual maturities which range from 12 days to 12.6 years. The U.S. Treasury Notes and Certificates of Deposit have contractual maturities which range from 4 months to 1.4 years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income.

Additionally, at May 3, 2014, the Company had \$0.4 million of privately managed funds, \$0.6 million of corporate equities and a single auction rate security ("ARS") of \$3.1 million which continues to fail its auction, and deferred compensation plan assets of \$3.6 million. At February 1, 2014, the Company had \$0.4 million of privately managed funds, \$0.6 million of corporate equities, a single ARS of \$3.1 million and deferred compensation plan assets of \$3.0 million. At May 4, 2013, the Company had \$0.5 million of privately managed funds, \$0.5 million of corporate equities, a single ARS of \$3.5 million and deferred compensation plan assets of \$2.4 million. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets.

Level 1 category securities are measured at fair value using quoted active market prices. Level 2 investment securities include corporate and municipal bonds for which quoted prices may not be available on active exchanges for identical instruments. Their fair value is principally based on market values determined by management with assistance of a third party pricing service. Since quoted prices in active markets for identical assets are not available, these prices are determined by the pricing service using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics, among other factors.

The ARS of \$3,450,000 par value was issued by the Wake County, NC Industrial Facilities & Pollution Control Financing Authority. The security is an obligation of Duke Energy Progress and has a credit rating of A. The Company has collected all interest payments when due since the security was purchased and continues to expect that it will receive all interest due on the security in full and on a timely basis in the future.

The Company's failed ARS is recorded at \$3,139,500 which approximates fair value using Level 3 inputs. Because there is no active market for this particular ARS, its fair value was analyzed through the use of a discounted cash flow analysis and observations from previous trades. The terms used in the analysis were based on management's estimate of the timing of future liquidity, which assumes that the security will be called or refinanced by the issuer or settled with a broker dealer prior to maturity. The discount rates used in the discounted cash flow analysis were based on market rates for similar liquid tax exempt securities with comparable ratings and maturities. Due to the uncertainty

surrounding the timing of future liquidity, the Company also considered a liquidity/risk value reduction. In estimating the fair value of this ARS, the Company also considered recent trading activity, the financial condition and near-term prospects of the issuer, the probability that the Company will be unable to collect all amounts due according to the contractual terms of the security and whether the security has been downgraded by a rating agency. The Company's valuation is sensitive to market conditions and management's judgment and can change significantly based on the assumptions used.

The Company's privately managed funds consist of two types of funds. The privately managed funds cannot be redeemed at net asset value at a specific date without advance notice. As a result, the Company has classified the investments as Level 3.

Deferred compensation plan assets consist of life insurance policies. These life insurance policies are valued based on the cash surrender value of the insurance contract, which is determined based on such factors as the fair value of the underlying assets and discounted cash flow and are therefore classified within level 3 of the valuation hierarchy. The level 3 liability associated with the life insurance policies represents a deferred compensation obligation, the value of which is tracked via underlying insurance funds. These funds are designed to mirror existing mutual funds and money market funds that are observable and actively traded. Cash surrender values are provided by third parties and reviewed for reasonableness by the Company.

NOTE 8 – RECENT ACCOUNTING PRONOUNCEMENTS:

In the first quarter of fiscal 2014, the Company adopted new accounting guidance which eliminates diversity in practice on the presentation of unrecognized tax benefits when a net operating loss, a similar tax loss, or tax credit carry forward exists at the reporting date. The new guidance had no impact on the Company's consolidated results of operations or cash flows.

CRITICAL ACCOUNTING POLICIES:

The Company’s accounting policies are more fully described in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s Annual Report on Form 10-K/A for the fiscal year ended February 1, 2014. As disclosed in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the preparation of the Company’s financial statements in conformity with generally accepted accounting principles in the United States (“GAAP”) requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company’s financial statements include the allowance for doubtful accounts, inventory shrinkage, the calculation of potential asset impairment, workers’ compensation, general and auto insurance liabilities, reserves relating to self-insured health insurance, and uncertain tax positions.

The Company’s critical accounting policies and estimates are discussed with the Audit Committee.

RESULTS OF OPERATIONS (CONTINUED):

Comparison of First Quarter of 2014 with 2013

Total retail sales for the first quarter were \$282.5 million compared to last year's first quarter sales of \$267.2 million, a 5.7% increase. Same-store sales increased 3.0% in the first quarter of fiscal 2014 due to a better Easter season and warmer weather in April. Same store sales includes stores that have been open more than 15 months. Stores that have been relocated or expanded are also included in the same store sales calculation after they have been open more than 15 months. The method of calculating same store sales varies across the retail industry. As a result, our same store sales calculation may not be comparable to similarly titled measures reported by other companies. E-commerce sales were less than 1% of sales for the first quarter of fiscal 2014 and are not included in the same-store sales calculation. There were no e-commerce sales for the first quarter of fiscal 2013. Total revenues, comprised of retail sales and other revenue (principally finance charges and late fees on customer accounts receivable and layaway fees), were \$284.7 million for the first quarter ended May 3, 2014, compared to \$269.7 million for the first quarter ended May 4, 2013. The Company operated 1,324 stores at May 3, 2014 compared to 1,307 stores at the end of last year's first quarter. For the first three months of fiscal 2014 the Company opened six new stores and closed two stores. The Company currently expects to open approximately 64 stores, relocate 13 stores and close approximately 17 stores in fiscal 2014.

Credit revenue of \$1.5 million represented 0.5% of total revenues in the first quarter of fiscal 2014, compared to 2013 credit revenue of \$1.6 million or 0.6% of total revenues. Credit revenue decreased for the most recent comparable period due to lower finance charge income and lower late fee income from sales under the Company's proprietary credit card. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses include principally bad debt expense, payroll, postage and other administrative expenses, and totaled \$1.0 million in the first quarter of 2014, compared to last year's first quarter expenses of \$1.1 million. The decrease was primarily due to lower bad debt expense, administrative expenses and payroll expense.

Other revenue, a component of total revenues, was \$2.3 million for the first quarter of fiscal 2014, compared to \$2.5 million for the prior year's comparable first quarter. Other revenue consists primarily of credit revenue and layaway charges. The overall decrease resulted primarily from lower finance charges, late fees and layaway charges.

Cost of goods sold was \$164.4 million, or 58.2% of retail sales for the first quarter of fiscal 2014, compared to \$156.9 million, or 58.7% of retail sales in the first quarter of fiscal 2013. The overall decrease in cost of goods sold as a percent of retail sales for the first quarter of 2014 resulted primarily from the leveraging of merchandise costs due to decreased markdowns, partially offset by higher distribution and freight costs. Cost of goods sold includes merchandise costs (net of discounts and allowances), buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy expenses include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold exclusive of depreciation) increased by 7.1% to \$118.1 million for the first quarter of fiscal 2014 compared to \$110.3 million in the first quarter of fiscal 2013. Gross margin as presented may not be comparable to those of other entities.

CONDITION AND RESULTS OF OPERATIONS (CONTINUED)**

RESULTS OF OPERATIONS (CONTINUED):

Selling, general and administrative expenses ("SG&A") primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees and bad debts. SG&A expenses increased 13.6% to \$67.5 million, or 23.9% of retail sales for the first quarter of fiscal 2014, compared to \$59.4 million, or 22.2% of retail sales in the first quarter of fiscal 2013. The increase was primarily attributable to higher incentive-based compensation expenses due to a better performance over the incentive based compensation threshold.

Depreciation expense was \$5.5 million, or 1.9% of retail sales for the first quarter of fiscal 2014, compared to \$5.4 million, or 2.0% of retail sales for the first quarter of fiscal 2013.

Interest and other income was \$0.7 million, or 0.3% of retail sales for the first quarter of fiscal 2014, compared to \$0.9 million, or 0.3% of retail sales for the first quarter of fiscal 2013.

Income tax expense was \$18.2 million or 6.4% of retail sales for the first quarter of fiscal 2014, compared to \$18.0 million, or 6.7% of retail sales for the first quarter of fiscal 2013. The 2014 quarter increase resulted from a slightly higher effective tax rate, partially offset by lower pre-tax income. The effective income tax rate for the first quarter of fiscal 2014 was 37.7% compared to 36.8% for the first quarter of 2013. The increase in the 2014 first quarter tax rate is due primarily to less benefit from Work Opportunity Tax Credit.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK:

The Company has consistently maintained a strong liquidity position. Cash provided by operating activities during the first three months of fiscal 2014 was \$54.1 million as compared to \$47.7 million in the first three months of fiscal 2013. These amounts enable the Company to fund its regular operating needs, capital expenditure program, cash dividend payments and share repurchases. In addition, the Company maintains a \$35.0 million unsecured revolving

credit facility for short-term financing of seasonal cash needs. There were no outstanding borrowings on this facility at May 3, 2014, February 1, 2014 and May 4, 2013.

Cash provided by operating activities for the first three months of fiscal 2014 was primarily generated by earnings adjusted for depreciation and changes in working capital. The increase of \$6.4 million for the first three months of fiscal 2014 as compared to the first three months of fiscal 2013 was primarily due to a decrease in inventory.

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations and borrowings available under its revolving credit agreement, will be adequate to fund the Company's regular operating requirements, expected capital expenditures, dividends and share repurchases for fiscal 2014 and the next 12 months.

At May 3, 2014, the Company had working capital of \$249.9 million compared to \$269.6 million at February 1, 2014 and \$250.4 million at May 4, 2013. Additionally, the Company had \$1.0 million invested in privately managed investment funds and other miscellaneous equities at May 3, 2014, February 1, 2014 and May 4, 2013 which are included in Other assets on the Condensed Consolidated Balance Sheets.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK (CONTINUED):

At May 3, 2014, February 1, 2014 and May 4, 2013, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$35.0 million less the balance of revocable credits discussed below. The revolving credit agreement is committed until August 2015. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of May 3, 2014. There were no borrowings outstanding under the credit facility as of May 3, 2014, February 1, 2014 and May 4, 2013.

At May 3, 2014, February 1, 2014 and May 4, 2013, the Company had approximately \$0.6 million, \$0.4 million and \$2.3 million, respectively, of outstanding revocable letters of credit relating to purchase commitments.

Expenditures for property and equipment totaled \$7.4 million in the first three months of fiscal 2014, compared to \$5.6 million in last year's first three months. The expenditures for the first three months of 2014 were primarily for the development of six new stores, additional investments in new technology and home office renovations. For the full fiscal 2014 year, the Company expects to invest approximately \$44.5 million for capital expenditures to open approximately 64 new stores, relocate approximately 13 stores, upgrade merchandise systems and complete home office renovations.

Net cash used in investing activities totaled \$6.0 million in the first three months of fiscal 2014 compared to \$6.4 million used in the comparable period of 2013. The decrease was due primarily to a decrease in purchases of short-term investments, partially offset by lower sales of short-term investments and an increase in capital expenditures.

Net cash used in financing activities totaled \$48.1 million in the first three months of fiscal 2014 compared to \$7.0 million used in the comparable period of 2013. The increase was primarily due to an increase in share repurchases and dividends paid.

On May 20, 2014, the Board of Directors maintained the quarterly dividend at \$0.30 per share.

As of May 3, 2014, the Company had 278,913 shares remaining in open authorizations under its share repurchase program. On May 20, 2014, the Board of Directors increased, by 2 million, the authorization to purchase shares.

The Company does not use derivative financial instruments.

The Company's investment portfolio was primarily invested in corporate bonds and tax-exempt and taxable governmental debt securities held in managed accounts with underlying ratings of A or better at May 3, 2014, February 1, 2014 and May 4, 2013. The state, municipal and corporate bonds have contractual maturities which range from 12 days to 12.6 years. The U.S. Treasury Notes and Certificates of Deposit have contractual maturities which range from 4 months to 1.4 years. These securities are classified as available-for-sale and are recorded as Short-term investments, Restricted investments and Other assets on the accompanying Condensed Consolidated Balance Sheets. These assets are carried at fair value with unrealized gains and losses reported net of taxes in Accumulated other comprehensive income.
