

Coeur Mining, Inc.
Form 10-Q
April 26, 2017
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended March 31, 2017

OR

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____
Commission file number 001-08641

COEUR MINING, INC.
(Exact name of registrant as specified in its charter)

Delaware	82-0109423
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

104 S. Michigan Ave., Suite 900 Chicago, Illinois	60603
(Address of principal executive offices)	(Zip Code)
(312) 489-5800	

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.) Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The Company has 300,000,000 shares of common stock, par value of \$0.01, authorized of which 181,449,038 shares were issued and outstanding as of April 24, 2017.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

NOTE 1 - BASIS OF PRESENTATION

The interim condensed consolidated financial statements of Coeur Mining, Inc. and its subsidiaries (collectively, “Coeur” or the “Company”) are unaudited. In the opinion of management, all adjustments and disclosures necessary for the fair presentation of these interim statements have been included. The results reported in these interim statements may not be indicative of the results which will be reported for the year ending December 31, 2017. The condensed consolidated December 31, 2016 balance sheet data was derived from audited consolidated financial statements. Accordingly, these unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016 (the “2016 10-K”).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Recent Accounting Standards

In January 2017, the FASB issued ASU 2017-01, “Business Combinations (Topic 805) - Clarifying the Definition of a Business,” which clarifies the definition of a business to assist entities in the evaluation of acquisitions and disposals of assets or businesses. These changes become effective for the Company’s fiscal year beginning January 1, 2018. The Company is currently evaluating the potential impact of implementing these changes on the Company’s consolidated financial position, results of operations, and cash flows.

In November 2016, the FASB issued ASU 2016-18, “Statement of Cash Flows (Topic 230) - Restricted Cash,” which will require entities to show the changes in the total of cash, cash equivalents, restricted cash and restricted cash equivalents in the statement of cash flows. These changes become effective for the Company’s fiscal year beginning January 1, 2018. The Company is currently evaluating the potential impact of implementing these changes on the Company’s consolidated financial position, results of operations, and cash flows.

In August 2016, the FASB issued ASU 2016-15, “Statement of Cash Flows (Topic 230) - Classification of Certain Cash Receipts and Cash Payments,” which provides guidance on presentation and classification of certain cash receipts and payments in the statement of cash flows. These changes become effective for the Company’s fiscal year beginning January 1, 2018. The Company is currently evaluating this standard and does not expect this ASU to materially impact the Company’s consolidated net income, financial position or cash flows.

In March 2016, the FASB issued ASU 2016-09, “Improvements to Employee Share-Based Payment Accounting,” which amends several aspects of the accounting for share-based payment transaction, including income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. These changes became effective for the Company’s fiscal year beginning January 1, 2017, and the Company’s adoption had no impact on the Company’s consolidated financial position, results of operations, and cash flows.

In February 2016, the FASB issued ASU 2016-02, “Leases,” which will require lessees to recognize assets and liabilities for the rights and obligations created by most leases on the balance sheet. These changes become effective for the Company’s fiscal year beginning January 1, 2019. Modified retrospective adoption for all leases existing at, or entered into after, the date of initial application, is required with an option to use certain transition relief. The Company is currently evaluating the potential impact of implementing these changes on the Company’s consolidated financial position, results of operations, and cash flows.

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers”, which has subsequently been amended several times. The new standard provides a five-step approach to be applied to all contracts with customers and also requires expanded disclosures about revenue recognition. These changes become effective for the Company’s fiscal year beginning January 1, 2018. The Company has substantially completed its analysis of the new standard and reviewed potential impacts from timing of when control is transferred to customers, variable consideration on concentrate sales and classification of refining fees. The Company does not expect this ASU to materially impact the Company’s consolidated net income, financial position or cash flows.

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory," which provides a revised, simpler measurement for inventory to be measured at the lower of cost and net realizable value. These changes become effective for the Company's fiscal year beginning January 1, 2018. The Company is currently evaluating the potential impact of implementing these changes on the Company's consolidated financial position, results of operations, and cash flows.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

NOTE 3 – SEGMENT REPORTING

The Company's operating segments include the Palmarejo complex, Rochester, Kensington, Wharf, and San Bartolomé mines. All operating segments are engaged in the discovery, mining, and production of gold and/or silver. Other includes the Endeavor silver stream, La Preciosa project, other royalties and mineral interests, strategic equity investments, corporate office, elimination of intersegment transactions, and other items necessary to reconcile to consolidated amounts. The Company eliminated Coeur Capital as a standalone reportable segment in the first quarter of 2017 and has classified the operating performance, segment assets, and capital expenditures of the Endeavor silver stream and other remaining non-core assets in Other. All prior period amounts have been adjusted to conform to the current presentation.

Financial information relating to the Company's segments is as follows (in thousands):

NOTE 4 – RECLAMATION

Reclamation and mine closure costs are based principally on legal and regulatory requirements. Management estimates costs associated with reclamation of mining properties. On an ongoing basis, management evaluates its estimates and assumptions, and future expenditures could differ from current estimates.

Changes to the Company's asset retirement obligations for operating sites are as follows:

In thousands	Three months ended March 31,	
	2017	2016
Asset retirement obligation - Beginning	\$97,380	\$82,072
Accretion	2,338	1,960
Additions and changes in estimates	—	251
Settlements	(478)	(309)
Asset retirement obligation - Ending	\$99,240	\$83,974

The Company has accrued \$2.0 million and \$1.9 million at March 31, 2017 and December 31, 2016, respectively, for reclamation liabilities related to former mining activities, which are included in Reclamation.

NOTE 5 – STOCK-BASED COMPENSATION

The Company has stock incentive plans for executives and eligible employees. Stock awards include performance shares, restricted stock and stock options. Stock-based compensation expense for the three months ended March 31, 2017 and 2016 was \$3.3 million and \$2.9 million, respectively. At March 31, 2017, there was \$12.2 million of

unrecognized stock-based compensation cost which is expected to be recognized over a weighted-average remaining vesting period of 1.8 years.

9

Edgar Filing: Coeur Mining, Inc. - Form 10-Q

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

The following table summarizes the grants awarded during the three months ended March 31, 2017:

Grant date	Restricted stock	Grant date fair value of restricted stock	Stock options	Grant date fair value of stock options	Performance shares	Grant date fair value of performance shares
January 18, 2017	236,581	\$ 11.47	—	\$ —	316,213	\$ 11.58
March 7, 2017	539,858	\$ 7.60	14,820	\$ 3.91	—	\$ —

The following options and stock appreciation rights were exercisable during the three months ended March 31, 2017:

Award Type	Number of Exercised Units	Weighted Average Exercised Price	Number of Exercisable Units	Weighted Average Exercisable Price
Stock options	—	\$	— 425,850	\$ 14.29
Stock appreciation rights	—	\$	— 42,152	\$ 14.14

NOTE 6 – RETIREMENT SAVINGS PLAN

The Company has a 401(k) retirement savings plan that covers all eligible U.S. employees. Eligible employees may elect to contribute up to 75% of base salary, subject to ERISA limitations. The Company generally makes matching contributions equal to 100% of the employee's contribution up to 4% of the employee's salary. The Company may also provide an additional contribution based on an eligible employee's salary. Total plan expenses recognized for the three months ended March 31, 2017 and 2016 were \$2.1 million and \$1.0 million, respectively, due to timing of Company contributions. In addition, the Company has a deferred compensation plan for employees whose benefits under the 401(k) plan are limited by federal regulations.

NOTE 7 - OTHER, NET

Other, net consists of the following:

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

The Company's effective tax rate is impacted by recurring and nonrecurring items. These items include foreign exchange rates on deferred tax balances, uncertain tax positions, and the full valuation allowance on the deferred tax assets relating to losses in the United States and certain foreign jurisdictions. During the first quarter of 2017, foreign exchange increased income and mining tax expense by \$5.6 million, predominately due to the strength of the Mexican peso. Additionally, the Company recognized \$1.8 million income and mining tax expense from the sale of the Joaquin project. Also during the first quarter, favorable operating results at Palmarejo contributed to higher income and mining tax expense. The Company's consolidated effective income and mining tax rate is a function of the combined effective tax rates and foreign exchange rates in the jurisdictions in which it operates. Variations in the jurisdictional mix of income and loss and foreign exchange rates result in significant fluctuations in our consolidated effective tax rate. A valuation allowance is provided for deferred tax assets for which it is more likely than not that the related tax benefits will not be realized. The Company analyzes its deferred tax assets and, if it is determined that the Company will not realize all or a portion of its deferred tax assets, it will record or increase a valuation allowance. Conversely, if it is determined that the Company will ultimately be more likely than not able to realize all or a portion of the related benefits for which a valuation allowance has been provided, all or a portion of the related valuation allowance will be reduced. There are a number of factors that impact the Company's ability to realize its deferred tax assets. For additional information, please see the sections titled "Risk Factors" set forth in the 2016 10-K.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. The statute of limitations remains open from 2012 forward for the U.S. federal jurisdiction and from 2008 forward for certain other foreign jurisdictions. As a result of statutes of limitation that will begin to expire within the next 12 months in various jurisdictions and possible settlements of audit-related issues with taxing authorities in various jurisdictions with respect to which none of the issues are individually significant, the Company believes that it is reasonably possible that the total amount of its net unrecognized income tax benefits will decrease between \$2.5 million and \$3.5 million in the next 12 months.

At March 31, 2017 and December 31, 2016, the Company had \$18.7 million and \$19.6 million of total gross unrecognized tax benefits, respectively. If recognized, these unrecognized tax benefits would positively impact the Company's effective income tax rate. The Company's continuing practice is to recognize potential interest and/or penalties related to unrecognized tax benefits as part of its income tax expense. At March 31, 2017 and December 31, 2016, the amount of accrued income-tax-related interest and penalties was \$8.7 million and \$8.7 million, respectively.

NOTE 9 – NET INCOME (LOSS) PER SHARE

Basic net income (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share reflects the potential dilution that would occur if securities or other contracts to issue common stock were exercised or converted into common stock.

For the three months ended March 31, 2017 and 2016, 1,368,685 and 3,321,424 of common stock equivalents, respectively, related to equity-based awards were not included in the diluted per share calculation as the shares would be antidilutive.

The 3.25% Convertible Senior Notes ("Convertible Notes") were not included in the computation of diluted net income (loss) per share for the three months ended March 31, 2016 because there is no excess value upon conversion over the principal amount of the Convertible Notes. The outstanding Convertible Notes were redeemed in the third quarter of 2016.

NOTE 10 – FAIR VALUE MEASUREMENTS

In thousands	Three months ended March 31,	
	2017	2016
Rochester net smelter returns (“NSR”) royalty obligation	\$(1,200)	\$(2,249)
Palmarejo royalty obligation embedded derivative	—	(4,878)
Silver and gold options	—	(1,568)
Fair value adjustments, net	\$(1,200)	\$(8,695)

Accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), secondary priority to quoted prices in inactive markets or observable inputs (Level 2), and the lowest priority to unobservable inputs (Level 3).

The following table presents the Company’s financial assets and liabilities measured at fair value on a recurring basis (at least annually) by level within the fair value hierarchy. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement:

In thousands	Fair Value at March 31, 2017			
	Total	Level 1	Level 2	Level 3
Assets:				
Equity securities	\$3,796	\$3,517	\$—	\$ 279
Other derivative instruments, net	614	—	614	—
	\$4,410	\$3,517	\$614	\$ 279
Liabilities:				
Rochester NSR royalty obligation	9,277	—	—	9,277
Other derivative instruments, net	4	—	4	—
	\$9,281	\$—	\$4	\$ 9,277
In thousands	Fair Value at December 31, 2016			
	Total	Level 1	Level 2	Level 3
Assets:				
Equity securities	\$4,488	\$4,209	\$—	\$ 279
Liabilities:				
Rochester NSR royalty obligation	9,287	—	—	9,287
Other derivative instruments, net	762	—	762	—
	\$10,049	\$—	\$762	\$ 9,287

The Company’s investments in equity securities are recorded at fair market value in the financial statements based primarily on quoted market prices. Such instruments are classified within Level 1 of the fair value hierarchy. Quoted market prices are not available for certain equity securities; these securities are valued using pricing models, which require the use of observable and unobservable inputs, and are classified within Level 3 of the fair value hierarchy. The Company’s other derivative instruments, net, relate to concentrate and certain doré sales contracts valued using pricing models, which require inputs that are derived from observable market data, including contractual terms, forward market prices, yield curves, credit spreads, and other unobservable inputs. The model inputs can generally be verified and do not involve significant management judgment. Such instruments are classified within Level 2 of the fair value hierarchy.

The fair value of the Rochester NSR royalty obligation was estimated based on observable market data including contractual terms, forward silver and gold prices, yield curves, and credit spreads, as well as the Company’s current

mine plan which is considered a significant unobservable input. Therefore, the Company has classified this obligation as Level 3 financial liabilities. Based on current mine plans, 1.6 years was used to estimate the fair value of the Rochester NSR royalty obligation at March 31, 2017.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

No assets or liabilities were transferred between fair value levels in the three months ended March 31, 2017. The following tables present the changes in the fair value of the Company's Level 3 financial assets and liabilities for the three months ended March 31, 2017:

In thousands	Three Months Ended March 31, 2017			Balance at the end of the period
	Balance at the beginning of the period	Revaluation	Settlements	
Assets:				
Equity securities	\$279	\$ —	\$ —	\$ 279
Liabilities:				
Rochester NSR royalty obligation	\$9,287	\$ 1,200	\$ (1,210)	\$9,277

The fair value of financial assets and liabilities carried at book value in the financial statements at March 31, 2017 and December 31, 2016 is presented in the following table:

In thousands	March 31, 2017				
	Book Value	Fair Value	Level 1	Level 2	Level 3
Liabilities:					
7.875% Senior Notes due 2021 ⁽¹⁾	\$176,114	\$184,279	\$ —	-\$184,279	\$ —

(1) Net of unamortized debt issuance costs and premium received of \$1.9 million.

In thousands	December 31, 2016				
	Book Value	Fair Value	Level 1	Level 2	Level 3
Liabilities:					
7.875% Senior Notes due 2021 ⁽¹⁾	\$175,991	\$184,373	—	\$184,373	—

(1) Net of unamortized debt issuance costs and premium received of \$2.0 million.

The fair value of the 7.875% Senior Notes due 2021 (the "Senior Notes") was estimated using quoted market prices.

NOTE 11 – DERIVATIVE FINANCIAL INSTRUMENTS

Palmarejo Gold Production Royalty

In January 2009, the Company's subsidiary, Coeur Mexicana, S.A. de C.V. ("Coeur Mexicana"), entered into a gold production royalty agreement with a subsidiary of Franco-Nevada Corporation that covered 50% of the life of mine production from the Palmarejo mine and legacy adjacent properties. The royalty transaction included a minimum obligation of 4,167 gold ounces per month and terminated upon delivery of 400,000 gold ounces, which occurred in July 2016.

The price volatility associated with the minimum royalty obligation was considered an embedded derivative. The Company was required to recognize the change in fair value of the remaining minimum obligation due to changing gold prices. For the three months ended March 31, 2016, the mark-to-market adjustment associated with the change was a loss of \$4.9 million. Payments on the royalty obligation decreased the carrying amount of the minimum obligation and the derivative liability. For the three months ended March 31, 2016, realized loss on settlement of the liability was \$3.0 million. The mark-to-market adjustments and realized losses are included in Fair value adjustments, net.

Provisional Silver and Gold Sales

The Company enters into sales contracts with third-party smelters and refiners which, in some cases, provide for a provisional payment based upon preliminary assays and quoted metal prices. The provisionally priced sales contracts contain an embedded derivative that is required to be separated from the host contract for accounting purposes. The host contract is the receivable recorded at the forward price at the time of sale. The embedded derivatives do not

qualify for hedge accounting and are marked to market through earnings each period until final settlement. Changes in silver and gold prices resulted in provisional pricing mark-to-market gains of \$1.4 million and \$0.6 million in the three months ended March 31, 2017 and 2016, respectively.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

At March 31, 2017, the Company had the following provisionally priced sales that settle as follows:

In thousands except average prices and notional ounces	2017	Thereafter
Provisional silver sales contracts	\$1,403	\$ —
Average silver price	\$17.74	\$ —
Notional ounces	79,084	—
Provisional gold sales contracts	\$35,849	\$ —
Average gold price	\$1,211	\$ —
Notional ounces	29,603	—

Silver and Gold Options

During three months ended March 31, 2016, the Company had realized losses of \$1.6 million, from settled contracts.

At March 31, 2017, the Company had no outstanding gold and silver options contracts.

The following summarizes the classification of the fair value of the derivative instruments:

In thousands	March 31, 2017			
	Prepaid expenses and other	Accrued liabilities and other	Current portion of royalty obligation	Non-current portion of royalty obligation
Provisional silver and gold sales contracts	\$614	\$ 4	\$ —	\$ —
In thousands	December 31, 2016			
	Prepaid expenses and other	Accrued liabilities and other	Current portion of royalty obligation	Non-current portion of royalty obligation
Provisional silver and gold sales contracts	—762	—	—	—

The following represent mark-to-market gains (losses) on derivative instruments for the three months ended March 31, 2017 and 2016 (in thousands):

Financial statement line	Derivative	Three months ended March 31,	
		2017	2016
Revenue	Provisional silver and gold sales contracts	\$1,372	\$566
Fair value adjustments, net	Palmarejo gold production royalty	—	(4,878)
Fair value adjustments, net	Silver and gold options	—	(1,568)
		\$1,372	\$(5,880)

Credit Risk

The credit risk exposure related to any derivative instrument is limited to the unrealized gains, if any, on outstanding contracts based on current market prices. To reduce counter-party credit exposure, the Company enters into contracts with institutions management deems credit worthy and limits credit exposure to each institution. The Company does not anticipate non-performance by any of its counterparties.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

NOTE 12 – INVESTMENTS

Equity Securities

The Company makes strategic investments in equity securities of silver and gold exploration and development companies. These investments are classified as available-for-sale and are measured at fair value in the financial statements with unrealized gains and losses recorded in Other comprehensive income (loss).

At March 31, 2017

In thousands	Cost	Gross Unrealized Losses	Gross Unrealized Gains	Estimated Fair Value
Kootenay Silver, Inc.	\$2,167	\$ —	\$ —	\$ 2,167
Rockhaven Resources Ltd	514	(64)	—	450
Silver Bull Resources, Inc.	131	—	356	487
Other	193	—	499	692
Equity securities	\$3,005	\$ (64)	\$ 855	\$ 3,796

At December 31, 2016

In thousands	Cost	Gross Unrealized Losses	Gross Unrealized Gains	Estimated Fair Value
Kootenay Silver, Inc.	\$2,645	\$ —	\$ —	\$ 2,645
Silver Bull Resources, Inc.	233	—	783	1,016
Other	229	—	598	827
Equity securities	\$3,107	\$ —	\$ 1,381	\$ 4,488

The Company performs a quarterly assessment on each of its equity securities with unrealized losses to determine if the security is other than temporarily impaired. The Company recorded a pre-tax other-than-temporary impairment loss of \$0.1 million in the three months ended March 31, 2017, and no impairment loss in the three months ended March 31, 2016, in Other, net. The following table summarizes unrealized losses on equity securities for which other-than-temporary impairments have not been recognized and the fair values of those securities, aggregated by the length of time the individual securities have been in a continuous unrealized loss position, at March 31, 2017:

In thousands	Less than twelve months	Twelve months or more	Total
	Unrealized Losses	Unrealized Losses	Unrealized Losses
Equity securities	\$(64)	\$ 450	\$ —
			—\$(64)

Restricted Assets

The Company, under the terms of its self-insurance and bonding agreements with certain banks, lending institutions and regulatory agencies, is required to collateralize certain portions of its obligations. The Company has collateralized these obligations by assigning certificates of deposit that have maturity dates ranging from three months to a year to the applicable institutions or agencies. At March 31, 2017 and December 31, 2016, the Company held certificates of deposit and cash under these agreements of \$19.0 million and \$17.6 million, respectively. The ultimate timing of the release of the collateralized amounts is dependent on the timing and closure of each mine and repayment of the obligation. In order to release the collateral, the Company must seek approval from certain government agencies responsible for monitoring the mine closure status. Collateral could also be released to the extent the Company is able to secure alternative financial assurance satisfactory to the regulatory agencies. The Company believes there is a reasonable probability that the collateral will remain in place beyond a twelve-month period and has therefore

classified these investments as long-term.

On or after February 1, 2017, the Company may redeem some or all of the Senior Notes at the applicable redemption prices set forth in the Indenture for the Senior Notes, together with accrued and unpaid interest.

Lines of Credit

At March 31, 2017, the Company's subsidiary that holds the San Bartolomé mine had an available line of credit for \$12.0 million that matures in June 30, 2018, bearing interest at 6.0% per annum, which is secured by machinery and equipment. There was no outstanding balance at March 31, 2017.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

Capital Lease Obligations

From time to time, the Company acquires mining equipment under capital lease agreements. In the three months ended March 31, 2017, the Company entered into new lease financing arrangements primarily for diesel generators at Kensington and mining equipment at Rochester. All capital lease obligations are recorded, upon lease inception, at the present value of future minimum lease payments.

Coeur Mining, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements

NOTE 19 – COMMITMENTS AND CONTINGENCIES

Labor Union Contract

The Company maintains a labor agreement with Sindicato de Trabajadores Mineros de la Empresa Manquiri S.A. at the San Bartolomé mine in Bolivia. The San Bartolomé mine labor agreement, which became effective January 28, 2010, is currently active and does not have a fixed term. At March 31, 2017, approximately 10% of the Company's global labor force was covered by this collective bargaining agreement. The Company cannot predict whether this agreement will be renewed on similar terms or at all, whether future labor disruptions will occur or, if disruptions do occur, how long they will last.

Rochester Production Royalty

Effective January 2014, Coeur Rochester is obligated to pay a 3.4% net smelter returns royalty on up to 39.4 million silver equivalent ounces produced and sold from a portion of the Rochester mine, payable on a quarterly basis. For each calendar quarter, the royalty is payable on the actual sales prices received, less refining and related costs, of gold and silver produced and sold from the applicable portions of the Rochester mine. Changes in silver and gold prices and the Company's mine plan result in the recognition of mark-to-market gains or losses in Fair value adjustments, net. At March 31, 2017, a total of 15.9 million silver equivalent ounces remain outstanding under the obligation.

Palmarejo Gold Stream

Effective August 2016, Coeur Mexicana sells 50% of Palmarejo gold production (excluding production from the recently acquired Paramount properties) to a subsidiary of Franco-Nevada Corporation under a gold stream agreement for the lesser of \$800 or spot price per ounce. Previously, Coeur Mexicana received a \$22.0 million deposit toward future deliveries under the gold stream agreement.

Bolivian Temporary Restriction on Mining above 4,400 Meters

In October 2009, the Bolivian state-owned mining organization, COMIBOL, announced by resolution that it was temporarily suspending mining activities above the elevation of 4,400 meters above sea level while stability studies of Cerro Rico mountain are undertaken. The Company holds rights to mine above this elevation under valid contracts with COMIBOL. The stability studies have been completed and officially submitted to the Bolivian mining technical authorities. Accordingly, the COMIBOL suspension has expired in accordance with the terms of the resolution. The Company is not currently mining above the 4,400 meter level.

If COMIBOL decides to affirmatively adopt a new resolution to restrict access above the 4,400 meter level, the Company may need to further write down the carrying value of the asset. While a portion of the Company's proven and probable reserves relate to material above the 4,400 meter level at San Bartolomé, so long as operations remain suspended, there is a risk that silver may not be produced from this material at expected levels or at all, particularly given the remaining anticipated mine life of this asset. It is also uncertain if any new mining or investment policies or shifts in political attitude may affect mining in Bolivia.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis ("MD&A") provides information that management believes is relevant to an assessment and understanding of the consolidated financial condition and results of operations of Coeur Mining, Inc. and its subsidiaries (collectively the "Company", "our", or "we"). We use certain non-GAAP financial performance measures in our MD&A. For a detailed description of non-GAAP financial performance measures, please see "Non-GAAP Financial Performance Measures" at the end of this item.

We provide certain operational and financial data on a silver equivalent basis, converting gold to silver at a 60:1 ratio of silver ounces to gold ounces unless otherwise noted. We also provide realized silver equivalent data determined by average spot silver and gold prices during the relevant period.

Overview

We are a gold and silver producer with mines located in the United States, Mexico, and Bolivia and exploration projects in the United States and Mexico. The Palmarejo complex, Rochester, Kensington, Wharf, and San Bartolomé mines constitute our principal sources of revenue. The Company also owns the Endeavor silver stream.

The Company's strategy is to discover, acquire, develop and operate low-cost silver and gold mines that produce long-term cash flow, provide opportunities for growth through continued exploration, and generate superior and sustainable returns for stockholders. Management focuses on maximizing net cash flow through identifying and implementing revenue enhancement opportunities, reducing operating and non-operating costs, exercising consistent capital discipline, and efficient working capital management.

First Quarter Highlights

• Production of 9.2 million silver equivalent ounces, consisting of 3.9 million silver ounces and 88,218 gold ounces

• Sales of 11.1 million silver equivalent ounces, consisting of 4.5 million silver ounces and 110,874 gold ounces

• Net income of \$18.7 million (\$0.10 per share) and adjusted net income of \$7.0 million (\$0.04 per share) (see "Non-GAAP Financial Performance Measures")

• Costs applicable to sales were \$11.39 per silver equivalent ounce (\$10.64 per average spot silver equivalent ounce) and \$788 per gold equivalent ounce (see "Non-GAAP Financial Performance Measures")

• All-in sustaining costs were \$15.01 per silver equivalent ounce (\$13.65 per average spot silver equivalent ounce) (see "Non-GAAP Financial Performance Measures")

• Operating cash flow of \$55.3 million and adjusted EBITDA of \$56.6 million (see "Non-GAAP Financial Performance Measures")

• Sold the Joaquin silver-gold exploration project for consideration of \$27.4 million and retained a 2.0% NSR royalty

• Cash and cash equivalents of \$210.0 million at March 31, 2017

Consolidated Financial Results

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Net Income (Loss)

Net income was \$18.7 million (\$0.10 per share) compared to a Net loss of \$20.4 million (\$0.14 per share). The increase in Net income is primarily due to a \$21.1 million gain on the sale of the Joaquin project, higher silver and gold production, higher average realized silver prices, lower all-in sustaining costs per silver equivalent ounce, and lower interest expense, partially offset by lower average realized gold prices and higher general and administrative and exploration expense.

Revenue

Metal sales increased due to higher silver and gold production, a reduction in metal inventory and a 16% increase in average realized silver prices. The Company sold 4.5 million silver ounces and 110,874 gold ounces, compared to sales of 3.5 million silver ounces and 79,091 gold ounces. Gold contributed 62% of sales and silver contributed 38%, compared to 64% of sales from gold and 36% from silver. Royalty revenue was lower due to the Company's divestiture of several non-core royalty assets in 2016.

Costs Applicable to Sales

Costs applicable to sales increased due to higher silver and gold ounces sold. For a complete discussion of costs applicable to sales, see Results of Operations below.

Amortization

Amortization increased \$12.1 million, or 43%, primarily due to higher silver and gold ounces sold, partially offset by higher amortizable mining properties and equipment at Rochester and Kensington.

Expenses

General and administrative expenses increased 22% due to higher compensation and professional service costs.

Exploration expense increased \$3.5 million, due to the Company's expansion of drilling activities at Palmarejo, Kensington and Rochester as well as regional exploration with a focus on projects in Nevada and Chihuahua, Mexico. Pre-development, reclamation, and other expenses increased 9% to \$4.6 million as a result of additional work at La Preciosa.

Other Income and Expenses

Non-cash fair value adjustments, net, were a loss of \$1.2 million compared to a loss of \$8.7 million, primarily due to the termination of the Palmarejo gold production royalty (in the third quarter of 2016) and the lesser impact of changes in future metal prices on the Rochester 3.4% NSR royalty obligation.

Interest expense (net of capitalized interest of \$0.4 million) decreased to \$3.6 million from \$11.1 million, primarily due to the repayment of the Term Loan, redemption of \$200.8 million of Senior Notes and termination of the Palmarejo gold production royalty obligation in July 2016.

Other, net increased by \$19.8 million, primarily due to a \$21.1 million pre-tax gain on the sale of the Joaquin project in Argentina.

Income and Mining Taxes

During the first quarter of 2017, the Company reported estimated income and mining tax expense of approximately \$11.0 million resulting in an effective tax rate of 37.2%. This compares to estimated income and mining tax expense of \$2.1 million for an effective tax rate of 11.5% during the first quarter of 2016.

The following table summarizes the components of the Company's income (loss) before tax and income and mining tax (expense) benefit:

	Three months ended March 31,			
	2017		2016	
In thousands	Income (loss) before tax	Tax (expense) benefit	Income (loss) before tax	Tax (expense) benefit

Argentina	(328)	1,124	(1,015)	1,543
Mexico	8,650	(9,923)	(7,509)	17
Bolivia	471	(31)	2,047	(1,570)
Other jurisdictions	202	(252)	(2,452)	(1,564)
	\$29,709	\$(11,046)	\$(18,290)	\$(2,106)

The Company's effective tax rate is impacted by recurring and nonrecurring items. These items include foreign exchange rates on deferred tax balances, uncertain tax positions, and the full valuation allowance on the deferred tax assets relating to losses in the United States and certain foreign jurisdictions. During the first quarter of 2017, foreign exchange increased income and mining tax expense by \$5.6 million, predominately due to the strength of the Mexican peso. Additionally, the Company recognized \$1.8 million income and mining tax expense from the sale of the Joaquin project. Also during the first quarter, favorable operating results at Palmarejo contributed to higher income and mining tax expense. The Company's consolidated effective income and mining tax rate is a function of the combined effective tax rates and foreign exchange rates in the jurisdictions in which it operates. Variations in the jurisdictional mix of income and loss and foreign exchange rates result in significant fluctuations in our consolidated effective tax rate.

A valuation allowance is provided for deferred tax assets for which it is more likely than not that the related benefits will not be realized. The Company analyzes its deferred tax assets and if it is determined that the Company will not realize all or a portion of its deferred tax assets, it will record or increase a valuation allowance. Conversely, if it is determined that the Company will ultimately be able to realize all or a portion of the related benefits for which a valuation allowance has been provided, all or a portion of the related valuation allowance will be reduced. There are a number of risk factors that could impact the Company's ability to realize its deferred tax assets.

2017 Outlook

The Company is maintaining its full-year 2017 production and related cost guidance. Exploration expense is expected to increase \$6 million to \$29 - \$31 million to accelerate the expansion of Kensington's Jualin deposit, offset by a \$6 million decrease in underground capital development at Kensington, resulting in expected capital expenditures of \$109 - \$129 million.

Results of Operations

The Company produced 3.9 million ounces of silver and 88,218 ounces of gold in the three months ended March 31, 2017, compared to 3.4 million ounces of silver and 78,072 ounces of gold in the three months ended March 31, 2016. Silver production increased 17% due to higher mill throughput and grade at Palmarejo and timing of leach pad recoveries at Rochester. Gold production increased 13% due to higher mill throughput, grade and recovery at Palmarejo, partially offset by lower grade at Kensington.

Costs applicable to sales were \$11.39 per silver equivalent ounce (\$10.64 per average spot silver equivalent ounce) and \$788 per gold equivalent ounce in the three months ended March 31, 2017 compared to \$12.36 per silver equivalent ounce (\$11.28 per average spot silver equivalent ounce) and \$728 per gold equivalent ounce in the three months ended March 31, 2016. Costs applicable to sales per silver equivalent ounce decreased 8% in the three months ended March 31, 2017 due to lower unit costs at Palmarejo, partially offset by higher unit costs at San Bartolomé. Costs applicable to sales per gold equivalent ounce increased 8% in the three months ended March 31, 2017 due to higher unit costs at Kensington.

All-in sustaining costs were \$15.01 per silver equivalent ounce (\$13.65 per average spot silver equivalent ounce) in the three months ended March 31, 2017, compared to \$16.28 per silver equivalent ounce (\$13.71 per average spot silver equivalent ounce) in the three months ended March 31, 2016. The 8% decrease in all-in sustaining costs per silver equivalent ounce in 2017 was primarily due to lower costs applicable to sales per consolidated silver equivalent ounce and lower sustaining capital, partially offset by higher general and administrative and exploration expense. Palmarejo

	Three months ended March 31,	
	2017	2016
Tons milled	360,383	346,533
Silver ounces produced	1,530,983	1,313,369
Gold ounces produced	30,792	27,168
Silver equivalent ounces produced	3,378,068	3,113,449
Costs applicable to sales per silver equivalent oz ⁽¹⁾	\$9.71	\$ 12.36
Costs applicable to sales per average spot silver equivalent oz ⁽¹⁾	\$8.89	\$ 10.74

(1) See Non-GAAP Financial Performance Measures.

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Silver equivalent production increased 86% due to higher mill throughput, silver and gold grades and gold recoveries. Metal sales were \$77.7 million, or 38% of Coeur's metal sales, compared with \$29.8 million, or 21% of Coeur's metal sales. Costs applicable to sales per ounce decreased 21% as a result of higher production, lower waste tons mined and favorable currency exchange rates. Amortization increased to \$20.2 million compared to \$7.3 million, primarily due to higher production from Guadalupe and Independencia. Capital expenditures were \$6.2 million as the Company continues underground development at Guadalupe and Independencia.

Rochester

Three months
ended March 31,
2017 2016

Tons placed	3,513,708	3,374,459
Silver ounces produced	1,127,322	1,289,903
Gold ounces produced	10,356	10,460
Silver equivalent ounces produced	1,748,682	2,556,503
Costs applicable to sales per silver equivalent oz ⁽¹⁾	\$ 12.56	\$ 12.64
Costs applicable to sales per average spot silver equivalent oz ⁽¹⁾	\$ 11.80	\$ 11.20

(1) See Non-GAAP Financial Performance Measures.

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Silver equivalent production increased 12% due to timing of recoveries, partially offset by lower tons placed and lower silver and gold grades. Metal sales were \$39.0 million, or 19% of Coeur's metal sales, compared with \$30.0 million, or 20% of Coeur's metal sales. Costs applicable to sales per silver equivalent ounce were generally consistent at \$12.56 per silver equivalent ounce. Amortization increased to \$5.8 million compared to \$5.3 million due to higher silver production and amortizable mining properties and equipment. Capital expenditures increased to \$10.6 million compared to \$3.3 million due to the stage IV leach pad expansion.

Kensington

Three months
ended March
31,
2017 2016

Tons milled	165,895	159,360
Gold ounces produced	26,197	31,974
Costs applicable to sales/oz ⁽¹⁾	\$ 885	\$ 772

(1) See Non-GAAP Financial Performance Measures.

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Gold production decreased 18% due to lower grades mined as a result of mine sequencing, partially offset by higher mill throughput. Metal sales were \$38.0 million, or 18% of Coeur's metal sales, compared to \$35.7 million, or 24% of Coeur's metal sales. Costs applicable to sales per ounce were 15% higher, primarily due to lower production and higher diesel, contract services and other mining costs. Amortization was \$9.2 million compared to \$8.3 million due to higher amortizable mining properties and equipment. Capital expenditures decreased to \$5.5 million compared to \$8.1 million, due to less underground mine development.

Wharf

Three months
ended March
31,
2017 2016

Tons placed	1,292,984	1,663
Gold ounces produced	20,873	20,970
Silver ounces produced	20,065	21,980
Gold equivalent ounces produced ⁽¹⁾	21,207	21,186
Costs applicable to sales per gold equivalent oz ⁽¹⁾	\$ 662	\$ 669

(1) See Non-GAAP Financial Performance Measures.

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Gold equivalent production remained comparable at 21,207 gold equivalent ounces. Metal sales were \$30.3 million, or 15% of Coeur's metal sales, compared to \$27.9 million, or 19% of Coeur's metal sales. Costs applicable to sales per gold equivalent ounce remained comparable at \$662 per gold equivalent ounce. Amortization was \$3.1 million compared to \$4.1 million due to higher life of mine reserves. Capital expenditures were \$0.9 million compared to \$1.4

million.

29

San Bartolomé

	Three months ended March 31,	
	2017	2016
Tons milled	384,267	407,806
Silver ounces produced	1,214,507	1,381,913
Costs applicable to sales/oz ⁽¹⁾	\$ 15.87	\$ 12.64

(1) See Non-GAAP Financial Performance Measures.

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Silver production decreased 12% due to drought conditions. Silver sales were \$20.6 million, or 10% of Coeur's metal sales, compared with \$21.3 million, or 15% of Coeur's metal sales. Costs applicable to sales per ounce increased due to lower production and higher mining and processing costs. Amortization was \$1.4 million compared to \$1.8 million due to lower production. Capital expenditures were \$0.4 million compared to \$0.5 million.

Endeavor Silver Stream

	Three months ended March 31,	
	2017	2016
Tons milled	45,340	86,863
Silver ounces produced	39,941	115,310
Costs applicable to sales/oz ⁽¹⁾	7.22	5.35

(1) See Non-GAAP Financial Performance Measures.

Three Months Ended March 31, 2017 compared to Three Months Ended March 31, 2016

Silver production at Endeavor decreased due to lower mining and mill throughput rates. Costs applicable to sales per ounce increased due to the impact of higher silver prices on the Company's silver price sharing agreement with the Endeavor mine operator. Amortization was \$0.1 million compared to \$0.8 million due to lower production and lower amortizable mining properties.

Liquidity and Capital Resources

Cash Provided by Operating Activities

Net cash provided by operating activities for the three months ended March 31, 2017 and 2016 was \$55.3 million and \$6.6 million, respectively, and was impacted by the following key factors:

	Three months ended March 31,	
	2017	2016
Consolidated silver equivalent ounces sold	11,126,185	8,274,952
Average realized price per consolidated silver equivalent ounce ⁽¹⁾	\$ 18.53	\$ 17.72
Costs applicable to sales per consolidated silver equivalent ounce ⁽¹⁾	(11.93)	(12.27)
Operating margin per consolidated silver equivalent ounce	\$6.60	\$ 5.45

(1) See Non-GAAP Financial Performance Measures.

In thousands	Three months ended March 31,	
	2017	2016
Cash flow before changes in operating assets and liabilities	\$43,827	\$23,253
Changes in operating assets and liabilities:		
Receivables	13,106	3,481
Prepaid expenses and other	(4,299)	1,279
Inventories	14,292	(7,822)
Accounts payable and accrued liabilities	(11,655)	(13,574)
CASH PROVIDED BY OPERATING ACTIVITIES	\$55,271	\$6,617

Cash provided by operating activities increased \$48.7 million for the three months ended March 31, 2017 compared to the three months ended March 31, 2016 due to higher silver equivalent ounces sold, higher average realized prices, lower costs applicable to sales per consolidated silver equivalent ounce and favorable working capital adjustments. Metal sales for three months ended March 31, 2017 increased \$59.5 million, \$53.1 million due to higher silver equivalent ounces sold and \$6.4 million due to higher average realized prices. The \$11.4 million working capital decrease in the three months ended March 31, 2017 was primarily due to the reduction of precious metal inventory and the collection of accounts receivable, compared to the \$16.6 million working capital increase in the three months ended March 31, 2016 due to an increase in ore on leach pads and the payment of accrued interest, payroll, and other benefits, partially offset by the collection of accounts receivable.

Cash Used in Investing Activities

Net cash used in investing activities in the three months ended March 31, 2017 was \$1.5 million compared to \$18.6 million in the three months ended March 31, 2016, primarily due to proceeds from the sale of the Joaquin project, net of a retained 2.0% NSR, and sale of equity securities. The Company had capital expenditures of \$24.0 million in the three months ended March 31, 2017 compared with \$22.2 million in the three months ended March 31, 2016. Capital expenditures in both periods primarily related to underground development at Palmarejo and Kensington.

Cash Used in Financing Activities

Net cash used in financing activities in the three months ended March 31, 2017 was \$6.5 million compared to \$15.4 million in the three months ended March 31, 2016. The Company's Palmarejo gold production royalty obligation terminated July 2016 and Coeur Mexicana now sells 50% of Palmarejo gold production for the lesser of \$800 or spot price per ounce under a gold stream agreement. In addition, the Company had higher tax withholdings on vested stock-based compensation awards during three months ended March 31, 2017.

Other Liquidity Matters

We believe that our liquidity and capital resources from U.S. operations are adequate to fund our U.S. operations and corporate activities. The Company has asserted indefinite reinvestment of earnings from its Mexican operations as determined by management's judgment about and intentions concerning the future operations of the Company. The Company does not believe that the amounts reinvested will have a material impact on liquidity.

In order to reduce future cash interest payments, and/or amounts due at maturity or upon redemption, from time to time we may repurchase certain of our debt securities for cash or in exchange for other securities, which may include secured or

31

unsecured notes or equity, in each case in open market or privately negotiated transactions. We regularly engage in conversations with our bondholders and evaluate any such transactions in light of prevailing market conditions, liquidity requirements, contractual restrictions, and other factors. The amounts involved may be significant and any such transactions may occur at a substantial discount to the debt securities' face amount. For additional information, please see the section titled "Risk Factors" included in Item 1A.

Critical Accounting Policies and Accounting Developments

Please see Note 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES contained in the Company's Form 10-K for the year ended December 31, 2016 (the "2016 10-K") for the Company's critical accounting policies and estimates.

Non-GAAP Financial Performance Measures

Non-GAAP financial measures are intended to provide additional information only and do not have any standard meaning prescribed by generally accepted accounting principles (“GAAP”). These measures should not be considered in isolation or as a substitute for performance measures prepared in accordance with GAAP.

Adjusted Net Income (Loss)

Management uses Adjusted net income (loss) to evaluate the Company’s operating performance, and to plan and forecast its operations. The Company believes the use of Adjusted net income (loss) reflects the underlying operating performance of our core mining business and allows investors and analysts to compare results of the Company to similar results of other mining companies. Management’s determination of the components of Adjusted net income (loss) are evaluated periodically and are based, in part, on a review of non-GAAP financial measures used by mining industry analysts. The tax effect of adjustments are based on statutory tax rates and the Company’s tax attributes, including the impact through the Company’s valuation allowance. The combined effective rate of tax adjustments may not be consistent with the statutory tax rates or the Company’s effective tax rate due to jurisdictional tax attributes and related valuation allowance impacts which may minimize the tax effect of certain adjustments and may not apply to gains and losses equally. Adjusted net income (loss) is reconciled to Net income (loss) in the table below:

In thousands except per share amounts	Three months ended	
	March 31,	
	2017	2016
Net income (loss)	\$18,663	\$(20,396)
Fair value adjustments	1,200	8,695
Impairment of marketable securities	121	—
Write-downs	—	4,446
Gain on sale of Joaquin project	(21,138)	—
(Gain) loss on sale of assets and securities	2,066	(1,085)
Transaction costs	—	380
Foreign exchange loss (gain)	4,268	(1,124)
Tax effect of adjustments ⁽¹⁾	1,807	(1,375)
Adjusted net income (loss)	\$6,987	\$(10,459)
Adjusted net income (loss) per share - Basic	\$0.04	\$(0.06)
Adjusted net income (loss) per share - Diluted	\$0.04	\$(0.06)

For the three months ended March 31, 2017, tax effect of adjustments of \$1.8 million (14%) is primarily related to (1) a taxable gain on the sale of the Joaquin project. For the three months ended March 31, 2016, tax effect of adjustments of \$1.4 million (-11%) is primarily related to the tax benefit from fair value adjustments.

EBITDA and Adjusted EBITDA

Management uses EBITDA to evaluate the Company's operating performance, to plan and forecast its operations, and assess leverage levels and liquidity measures. The Company believes the use of EBITDA reflects the underlying operating performance of our core mining business and allows investors and analysts to compare results of the Company to similar results of other mining companies. Adjusted EBITDA is a measure used in the Company's Senior Notes indenture to determine our ability to make certain payments and incur additional indebtedness. EBITDA and Adjusted EBITDA do not represent, and should not be considered an alternative to, Net income (Loss) or Cash Flow from Operations as determined under GAAP. Other companies may calculate Adjusted EBITDA differently and those calculations may not be comparable to our presentation. Adjusted EBITDA is reconciled to Net income (loss) in the table below:

	Three months ended March 31,	
In thousands except per share amounts	2017	2016
Net income (loss)	\$ 18,663	\$(20,396)
Interest expense, net of capitalized interest	3,586	11,120
Income tax provision (benefit)	11,046	2,106
Amortization	40,104	27,964
EBITDA	73,399	20,794
Fair value adjustments, net	1,200	8,695
Impairment of equity securities	121	—
Foreign exchange (gain) loss	(1,349)	164
Gain on sale of Joaquin project	(21,138)	—
(Gain) loss on sale of assets and securities	2,066	(1,085)
Transaction costs	—	380
Asset retirement obligation accretion	2,390	2,060
Inventory adjustments and write-downs	(104)	1,944
Write-downs	—	4,446
Adjusted EBITDA	\$56,585	\$37,398
Costs Applicable to Sales and All-in Sustaining Costs		

Management uses Costs applicable to sales ("CAS") and All-in sustaining costs ("AISC") to evaluate the Company's current operating performance and life of mine performance from discovery through reclamation. We believe these measures assist analysts, investors and other stakeholders in understanding the costs associated with producing silver and gold, assessing our operating performance and ability to generate free cash flow from operations and sustaining production. These measures may not be indicative of operating profit or cash flow from operations as determined under GAAP. Management believes converting the benefit from selling gold into silver equivalent ounces best allows management, analysts, investors and other stakeholders to evaluate the operating performance of the Company. Other companies may calculate CAS and AISC differently as a result of reflecting the benefit from selling non-silver metals as a by-product credit rather than converting to silver equivalent ounces, differences in the determination of sustaining capital expenditures, and differences in underlying accounting principles and accounting frameworks such as in International Financial Reporting Standards.

Cautionary Statement Concerning Forward-Looking Statements

This report contains numerous forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) relating to the Company’s gold and silver mining business, including statements regarding strategies to produce long-term cash flow, provide opportunities for growth through continued exploration, and generate superior and sustainable returns for stockholders, maximizing net cash flow, reducing operating and non-operating costs, demonstrating consistent capital discipline, efficient management of working capital, tax positions, anticipated expenses, efforts to mitigate risks associated with gold and silver price and foreign currency fluctuations and the adequacy of liquidity and capital resources. Such forward-looking statements are identified by the use of words such as “believes,” “intends,” “expects,” “hopes,” “may,” “should,” “plan,” “projected,” “contemplates,” “anticipates” or similar words. Actual results could differ materially from those projected in the forward-looking statements. The factors that could cause actual results to differ materially from those projected in the forward-looking statements include (i) the risk factors set forth in the “Risk Factors” section of the 2016 10-K, and the risks and uncertainties discussed in this MD&A, (ii) the risks and hazards inherent in the mining business (including risks inherent in developing large-scale mining projects, environmental hazards, industrial accidents, weather or geologically related conditions), (iii) changes in the market prices of gold and silver and a sustained lower price environment, including any resulting impact on cash flows, (iv) the uncertainties inherent in the Company’s production, exploratory and developmental activities, including risks relating to permitting and regulatory delays, ground conditions and grade variability, (v) any future labor disputes or work stoppages (involving the Company and its subsidiaries or third parties), (vi) the uncertainties inherent in the estimation of gold and silver reserves and mineralized material, (vii) changes that could result from the Company’s future acquisition of new mining properties or businesses, (viii) the loss of access to any third-party smelter to which the Company markets silver and gold, (ix) the effects of environmental and other governmental regulations, (x) the risks inherent in the ownership or operation of or investment in mining properties or businesses in foreign countries, (xi) the political risks and uncertainties associated with operations in Bolivia; and (xii) the Company’s ability to raise additional financing necessary to conduct its business, make payments or refinance its debt. Readers are cautioned not to put undue reliance on forward-looking statements. The Company disclaims any intent or obligation to update publicly these forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to various market risks as a part of its operations and engages in risk management strategies to mitigate these risks. The Company continually evaluates the potential benefits of engaging in these strategies based on current market conditions. The Company does not actively engage in the practice of trading derivative instruments for profit. Additional information about the Company's derivative financial instruments may be found in Note 11 -- Derivative Financial Instruments in the notes to the consolidated financial statements. This discussion of the Company's market risk assessments contains "forward looking statements". For additional information regarding forward-looking statements and risks and uncertainties that could impact the Company, please refer to Item 2 of this Report - Cautionary Statement Concerning Forward-Looking Statements. Actual results and actions could differ materially from those discussed below.

Gold and Silver Price

Gold and silver prices may fluctuate widely due to numerous factors such as U.S. dollar strength or weakness, demand, investor sentiment, inflation or deflation, and global mine production. The Company's profitability and cash flow may be significantly impacted by changes in the market price of gold and silver.

Gold and Silver Hedging

To mitigate the risks associated with gold and silver price fluctuations, the Company may enter into option contracts to hedge future production. The Company had no outstanding gold and silver option contracts at March 31, 2017.

Provisional Silver and Gold Sales

The Company enters into sales contracts with third-party smelters and refiners which, in some cases, provide for a provisional payment based upon preliminary assays and quoted metal prices. The provisionally priced sales contracts contain an embedded derivative that is required to be separated from the host contract. Depending on the difference between the price at the time of sale and the final settlement price, embedded derivatives are recorded as either a derivative asset or liability. The embedded derivatives do not qualify for hedge accounting and, as a result, are marked to the market gold and silver price at the end of each period from the provisional sale date to the date of final settlement. The mark-to-market gains and losses are recorded in earnings. Changes in silver and gold pricing resulted in provisional pricing mark-to-market gains of \$1.4 million in the three months ended March 31, 2017.

At March 31, 2017, the Company had outstanding provisionally priced sales of 0.1 million ounces of silver and 29,603 ounces of gold at prices of \$17.74 and \$1,211, respectively. A 10% change in realized silver price would cause revenue to vary by \$0.1 million and a 10% change in realized gold price would cause revenue to vary by \$3.6 million.

Foreign Currency

The Company operates, or has mineral interests, in several foreign countries including Australia, Bolivia, Chile, Mexico, Argentina, Ecuador, and New Zealand, which exposes it to foreign currency exchange rate risks. Foreign currency exchange rates are influenced by world market factors beyond the Company's control such as supply and demand for U.S. and foreign currencies and related monetary and fiscal policies. Fluctuations in local currency exchange rates in relation to the U.S. dollar may significantly impact profitability and cash flow.

Foreign Exchange Hedging

To manage foreign currency risk, the Company may enter into foreign exchange forward and/or option contracts when the Company believes such contracts would be beneficial. The Company had no outstanding foreign exchange contracts at March 31, 2017.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures

As of the end of the period covered by this quarterly report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which by their nature, can provide only reasonable assurance regarding management's control objectives. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events. Based upon the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective and operating to provide reasonable assurance that information required to be disclosed by it in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Management's Report on Internal Control Over Financial Reporting

Based on an evaluation by the Company's Chief Executive Officer and Chief Financial Officer, such officers concluded

that there was no change in the Company's internal control over financial reporting during the three months ended March 31, 2017 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

Item 1. Legal Proceedings

For a discussion of legal proceedings, see Note 19 -- Commitments and Contingencies in the notes to the Consolidated Financial Statements included herein.

Item 1A. Risk Factors

Item 1A -- Risk Factors of the 2016 10-K sets forth information relating to important risks and uncertainties that could materially adversely affect the Company's business, financial condition or operating results. Additional risks and uncertainties

that the Company does not presently know or that it currently deems immaterial also may impair our business operations.

Item 4. Mine Safety Disclosures

Information pertaining to mine safety matters is reported in accordance with Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act in Exhibit 95.1 attached to this Form 10-Q.

Item 5. Other Information

In accordance with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, and the Company's insider trading policy, Casey M. Nault, the Company's Senior Vice President, General Counsel & Secretary entered into a selling plan effective March 6, 2017. Under the selling plan, between May 1, 2017 and November 30, 2017, Mr. Nault will sell a total of 60,000 shares of the Company's common stock so long as the market price of the common stock is higher than a minimum threshold price specified in the plan. Rule 10b5-1 permits an insider to implement a written prearranged trading plan entered into at a time when the insider is not aware of any material nonpublic information about the Company and allows the insider to trade on a one-time or regularly scheduled basis regardless of any

material nonpublic information about the Company thereafter received by the insider.
