Con-way Inc.
Form 10-Q
August 03, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the transition period from ___ to ___

COMMISSION FILE NUMBER: 1-05046

Con-way Inc.
(Exact name of registrant as specified in its charter)

Delaware 94-1444798
(State or other jurisdiction of (I.R.S. Employer Identification No.)
incorporation or organization)

2211 Old Earhart Road, Suite 100, Ann Arbor, MI 48105
(Address of principal executive offices) (Zip code)

Registrant's telephone number, including area code: (734) 994-6600

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Edgar Filing: Con-way Inc. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Number of shares of Common Stock, \$0.625 par value,
outstanding as of July 31, 2012: 55,937,588

CON-WAY INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

1. Principal Accounting Policies

Organization

Con-way Inc. and its consolidated subsidiaries (“Con-way”) provide transportation, logistics and supply-chain management services for a wide range of manufacturing, industrial and retail customers. Con-way’s business units operate in regional and transcontinental less-than-truckload and full-truckload freight transportation, contract logistics and supply-chain management, multimodal freight brokerage, and trailer manufacturing. As more fully discussed in Note 3, “Segment Reporting,” for financial reporting purposes, Con-way is divided into four reporting segments: Freight, Logistics, Truckload and Other.

Basis of Presentation

These interim financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. for interim financial information and Rule 10-01 of Regulation S-X, and should be read in conjunction with Con-way’s 2011 Annual Report on Form 10-K. Accordingly, significant accounting policies and other disclosures normally provided have been reduced or omitted.

In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, including normal recurring adjustments, necessary to present fairly Con-way’s financial position, results of operations and cash flows for the periods presented. Results for the interim periods presented are not necessarily indicative of annual results.

Earnings per Share (“EPS”)

Basic EPS is computed by dividing net income by the weighted-average common shares outstanding during the period. Diluted EPS is calculated as follows:

| (Dollars in thousands except per share data) | Three Months Ended | | Six Months Ended | |
|---|--------------------|------------|------------------|------------|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Numerator: | | | | |
| Net income | \$41,800 | \$29,422 | \$67,446 | \$36,344 |
| Denominator: | | | | |
| Weighted-average common shares outstanding | 55,809,358 | 55,413,243 | 55,756,540 | 55,227,528 |
| Stock options and nonvested stock | 630,487 | 722,822 | 620,658 | 711,802 |
| | 56,439,845 | 56,136,065 | 56,377,198 | 55,939,330 |
| Diluted Earnings per Share: | \$0.74 | \$0.52 | \$1.20 | \$0.65 |
| Anti-dilutive securities excluded from the computation of diluted EPS | 1,721,576 | 2,004,579 | 1,813,188 | 2,004,579 |

New Accounting Standards

As of June 30, 2012, there are no material new accounting standards that have been issued but not yet adopted by Con-way.

Reclassifications

Certain amounts in the prior-period financial statements have been reclassified to conform to the current-period presentation, including the presentation of revenue equipment acquired through partial non-monetary exchanges and the resulting effect on previously reported capital expenditures and proceeds from sales of property and equipment.

2. Goodwill and Intangible Assets

Goodwill

The following table shows the changes in the gross carrying amounts of goodwill attributable to each applicable segment:

| (Dollars in thousands) | Logistics | Truckload | Other | Total |
|---|-----------|------------|-------|------------|
| Balance at December 31, 2010 | | | | |
| Goodwill | \$55,374 | \$464,598 | \$727 | \$520,699 |
| Accumulated impairment losses | (48,236) | (134,813) | — | (183,049) |
| | 7,138 | 329,785 | 727 | 337,650 |
| Change in foreign currency exchange rates | 66 | — | — | 66 |
| Balances at December 31, 2011 | | | | |
| Goodwill | 55,440 | 464,598 | 727 | 520,765 |
| Accumulated impairment losses | (48,236) | (134,813) | — | (183,049) |
| | 7,204 | 329,785 | 727 | 337,716 |
| Change in foreign currency exchange rates | 104 | — | — | 104 |
| Balances at June 30, 2012 | | | | |
| Goodwill | 55,544 | 464,598 | 727 | 520,869 |
| Accumulated impairment losses | (48,236) | (134,813) | — | (183,049) |
| | \$7,308 | \$329,785 | \$727 | \$337,820 |

Intangible Assets

Definite-lived intangible assets are amortized on a straight-line basis over their estimated useful lives. In the second quarter and first six months of 2012, amortization expense related to intangible assets was \$0.8 million and \$1.6 million, respectively, compared to \$0.8 million and \$1.6 million in the same periods of 2011.

Intangible assets consisted of the following:

| (Dollars in thousands) | June 30, 2012 | | December 31, 2011 | |
|------------------------|-----------------------|--------------------------|-----------------------|--------------------------|
| | Gross Carrying Amount | Accumulated Amortization | Gross Carrying Amount | Accumulated Amortization |
| Customer relationships | \$27,635 | \$15,308 | \$27,570 | \$13,619 |

Estimated amortization expense for the next five years is presented in the following table:

(Dollars in thousands)

| | |
|------------------------------|---------|
| Year ending December 31: | |
| Remaining six months of 2012 | \$1,330 |
| 2013 | 2,356 |
| 2014 | 2,356 |
| 2015 | 2,356 |
| 2016 | 2,356 |
| 2017 | 1,571 |

3. Segment Reporting

Con-way discloses segment information in the manner in which the business units are organized for making operating decisions, assessing performance and allocating resources. For the periods presented, Con-way is divided into the following four reporting segments:

Freight. The Freight segment consists of the operating results of the Con-way Freight business unit, which provides regional, inter-regional and transcontinental less-than-truckload freight services throughout North America.

Logistics. The Logistics segment consists of the operating results of the Menlo Worldwide Logistics business unit, which develops contract-logistics solutions, including the management of complex distribution networks and supply-chain engineering and consulting, and also provides multimodal freight-brokerage services.

Truckload. The Truckload segment consists of the operating results of the Con-way Truckload business unit, which provides asset-based full-truckload freight services throughout North America.

Other. The Other reporting segment consists of the operating results of Road Systems, a trailer manufacturer, and certain corporate activities for which the related income or expense has not been allocated to other reporting segments.

Financial Data

Management evaluates segment performance primarily based on revenue and operating income (loss). Accordingly, investment income, interest expense, and other non-operating items are not reported in segment results. Corporate expenses are generally allocated based on measurable services provided to each segment, or for general corporate expenses, based on segment revenue. Inter-segment revenue and related operating income (loss) have been eliminated to reconcile to consolidated revenue and operating income. Transactions between segments are generally based on negotiated prices.

| (Dollars in thousands) | Three Months Ended | | Six Months Ended | |

4. Fair-Value Measurements

Assets and liabilities reported at fair value are classified in one of the following three levels within the fair-value hierarchy:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data

Level 3: Unobservable inputs that are not corroborated by market data

Financial Assets Measured at Fair Value on a Recurring Basis

The following table summarizes the valuation of financial instruments within the fair-value hierarchy:

| (Dollars in thousands) | June 30, 2012 | | | |
|-------------------------------|-------------------|----------|-----------|---------|
| | Total | Level 1 | Level 2 | Level 3 |
| Cash equivalents | \$424,049 | \$84,076 | \$339,973 | \$— |
| Current marketable securities | 5,000 | — | 5,000 | — |
| Other marketable securities | 5,185 | — | — | 5,185 |
| (Dollars in thousands) | December 31, 2011 | | | |
| | Total | Level 1 | Level 2 | Level 3 |
| Cash equivalents | \$398,450 | \$84,872 | \$313,578 | \$— |
| Current marketable securities | 13,255 | — | 13,255 | — |
| Other marketable securities | 5,354 | — | — | 5,354 |

Cash equivalents consist of short-term interest-bearing instruments (primarily commercial paper, certificates of deposit and money-market funds) with maturities of three months or less at the date of purchase. Current marketable securities consist of variable-rate demand notes.

Money-market funds reflect their published net asset value and are classified as Level 1 instruments. Commercial paper, certificates of deposit and variable-rate demand notes are generally valued using published interest rates for instruments with similar terms and maturities, and accordingly, are classified as Level 2 instruments. At June 30, 2012, the weighted-average remaining maturity of the cash equivalents was less than one month. Based on their short maturities, the carrying amount of the cash equivalents approximates their fair value.

Con-way holds one auction-rate security, which is valued with an income approach that utilizes a discounted cash flow model. The following table summarizes the change in fair values of Con-way's auction-rate security, which was valued using Level 3 inputs:

| (Dollars in thousands) | Auction-rate security |
|------------------------------|-----------------------|
| Balance at December 31, 2010 | \$6,039 |
| Unrealized loss | (10) |
| Partial redemption | (675) |
| Balance at December 31, 2011 | \$5,354 |
| Unrealized loss | (94) |
| Partial redemption | (75) |
| Balance at June 30, 2012 | \$5,185 |

5. Employee Benefit Plans

In the periods presented, employees of Con-way and its subsidiaries in the U.S. were covered under several retirement benefit plans, including defined benefit pension plans, defined contribution retirement plans and a postretirement medical plan. See Note 10, "Employee Benefit Plans," of Item 8, "Financial Statements and Supplementary Data," in Con-way's 2011 Annual Report on Form 10-K for additional information concerning its employee benefit plans, including changes to its defined contribution retirement plans.

Defined Benefit Pension Plans

As a result of plan amendments in previous years, no additional benefits accrue under these plans and already-accrued benefits will not be adjusted for future increases in compensation. The following table summarizes the components of net periodic benefit expense (income) for Con-way's domestic defined benefit pension plans:

| (Dollars in thousands) | Qualified Pension Plans | | | |
|---------------------------------------|-------------------------|------------|------------------|------------|
| | Three Months Ended | | Six Months Ended | |
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Interest cost on benefit obligation | \$17,582 | \$17,685 | \$35,084 | \$35,655 |
| Expected return on plan assets | (21,095) | (21,426) | (42,206) | (42,968) |
| Amortization of net loss | 4,893 | 2,534 | 9,723 | 5,273 |
| Net periodic benefit expense (income) | \$1,380 | \$(1,207) | \$2,601 | \$(2,040) |

| (Dollars in thousands) | Non-Qualified Pension Plans | | | |
|-------------------------------------|-----------------------------|---------|------------------|---------|
| | Three Months Ended | | Six Months Ended | |
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Interest cost on benefit obligation | \$863 | \$957 | \$1,719 | \$1,894 |
| Amortization of net loss | 242 | 182 | 523 | 339 |
| Net periodic benefit expense | \$1,105 | \$1,139 | \$2,242 | \$2,233 |

Con-way expects to contribute \$51.4 million to its Qualified Pension Plans in 2012. Through June 30, 2012, Con-way contributed \$11.9 million and in July 2012, contributed \$31.1 million to its Qualified Pension Plans. Con-way's estimate of its 2012 contributions is subject to change based on variations in interest rates, asset returns, Pension Protection Act ("PPA") requirements and other factors. In July 2012, the Moving Ahead for Progress in the 21st Century Act ("MAP-21") became law. Among other things, this legislation alters how PPA minimum funding requirements are determined. For 2012, MAP-21 reduced Con-way's PPA minimum funding requirements for its defined benefit pension plans; however, Con-way does not expect to change its 2012 planned contributions.

Defined Contribution Retirement Plans

Con-way's expense for the defined contribution retirement plans was \$12.7 million and \$25.6 million in the second quarter and first six months of 2012, respectively, compared to \$8.8 million and \$17.8 million in the same periods of 2011. In the periods presented, Con-way's contributions included cash and Con-way common stock. From January 2009 through June 2011, the common stock contributions were made with repurchased common stock (also referred to as treasury stock). In the first six months of 2011, Con-way used 461,151 shares of treasury stock to fund \$17.3 million of contributions. Effective in July 2011, Con-way's contributions were in the form of cash, rather than in treasury stock.

Postretirement Medical Plan

The following table summarizes the components of net periodic benefit expense for the postretirement medical plan:

| (Dollars in thousands) | Three Months Ended | | Six Months Ended | |
|------------------------|--------------------|-------|------------------|-------|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Service cost | \$417 | \$316 | \$840 | \$721 |

Edgar Filing: Con-way Inc. - Form 10-Q

| | | | | | |
|--------------------------------------|---------|---------|---------|---------|---|
| Interest cost on benefit obligation | 1,138 | 1,125 | 2,159 | 2,246 | |
| Amortization of prior service credit | (301 |) (303 |) (603 |) (606 |) |
| Net periodic benefit expense | \$1,254 | \$1,138 | \$2,396 | \$2,361 | |

6. Share-Based Compensation

Under terms of its share-based compensation plans, Con-way grants various types of share-based compensation awards to employees and directors. In addition to the awards described in Note 11, "Share-Based Compensation," of Item 8, "Financial Statements and Supplementary Data," in Con-way's 2011 Annual Report on Form 10-K, the plans also provide for awards in the form of performance-share plan units ("PSPUs"). The PSPUs vest three years from the grant date if certain performance criteria are achieved. The number of shares the award recipients ultimately receive depends upon the achievement of certain performance criteria and can range from 0% to 200% of the grant target. PSPUs are subject to forfeiture if an award recipient leaves Con-way during the three-year period. The PSPUs are valued at the market price of Con-way's common stock at the date of the award, reduced by the present value of the dividends not received during the three-year vesting period. The amount of expense recorded each period is based on Con-way's current estimate of the number of shares that will ultimately vest.

At June 30, 2012 and December 31, 2011, Con-way had recognized accrued liabilities for cash-settled Stock Appreciation Rights ("SARs") of \$5.3 million and \$3.1 million, respectively, using a weighted-average fair value per SAR of \$14.96 and \$10.85, respectively.

The following expense was recognized for share-based compensation:

| | Three Months Ended | | Six Months Ended | |
|---------------------------------------|--------------------|---------|------------------|---------|
| | June 30, | | June 30, | |
| (Dollars in thousands) | 2012 | 2011 | 2012 | 2011 |
| Salaries, wages and employee benefits | \$4,767 | \$4,406 | \$9,829 | \$9,169 |
| Deferred income tax benefit | (1,853) | (1,732) | (3,818) | (3,576) |
| Net share-based compensation expense | \$2,914 | \$2,674 | \$6,011 | \$5,593 |

7. Income Taxes

Con-way recognized a tax provision of \$22.9 million in the second quarter of 2012 and \$16.0 million in the same quarter of 2011. In the first six months of 2012, Con-way recognized a tax provision of \$38.7 million, compared with \$30.5 million in 2011. The 2012 first-half tax provision reflects a \$2.5 million benefit for discrete adjustments, including \$4.2 million of benefit in the second quarter for the release of reserves due to the expiration of the statute of limitations on uncertain tax positions, partially offset by a \$2.5 million second-quarter charge for a proposed Internal Revenue Service ("IRS") audit adjustment. The 2011 first-half tax provision reflects \$5.3 million of charges for discrete adjustments, including a \$5.9 million first-quarter charge due to the matter discussed below under "Audit Settlement." Excluding the effect of various discrete tax adjustments, the second-quarter effective tax rate increased to 38.9% in 2012 from 37.7% in 2011. For the first half of the year, the effective tax rate increased to 38.8% in 2012 from 37.6% in 2011. The rates in 2012 increased from 2011 primarily due to a 2011 benefit associated with a now-expired fuel-related tax credit.

Other accounts receivable in the consolidated balance sheets include income tax receivables of \$12.1 million and \$4.8 million at June 30, 2012 and December 31, 2011, respectively.

Audit Settlement

In 2011, Con-way settled a disputed issue with the IRS that arose in the 2005 to 2007 audit cycle. This issue primarily related to the treatment and character of certain payments Con-way made to retirees and former employees of Menlo Worldwide Forwarding, Inc. and its subsidiaries ("MWF") since the 2004 sale of MWF to United Parcel Service, Inc. Con-way and the IRS agreed in the settlement to re-characterize a portion of these payments as capital losses. The

re-characterized portion may not be deducted and may be used only to offset capital gains.

8. Commitments and Contingencies

Purchase Obligations

In connection with its outsourcing initiative, Con-way entered into agreements with third-party service providers in the first quarter of 2010. Payments to the third-party providers are estimated to be \$232 million between 2012 and 2016, when the agreements are expected to expire. The payments under the terms of the agreements are subject to change depending on the quantities and types of services consumed. The estimated payments reflect amounts based on projections of services expected

to be consumed. The contracts also contain provisions that allow Con-way to terminate the contract at any time; however, Con-way would be required to pay additional fees if termination is for causes other than the failure of the service providers to perform. If Con-way had elected, for convenience, to terminate the contract for the outsourced information-technology services at December 31, 2011, the termination fee would have been approximately \$34 million, compared to approximately \$28 million if Con-way elects to terminate the contract on December 31, 2012.

Legal Matters

Con-way is a defendant in various legal matters incidental to its businesses. It is the opinion of management that the ultimate outcome of these actions will not have a material effect on Con-way's financial position, results of operations or cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Introduction

Management's Discussion and Analysis of Financial Condition and Results of Operations (referred to as "Management's Discussion and Analysis") is intended to assist in a historical and prospective understanding of Con-way's financial condition, results of operations and cash flows, including a discussion and analysis of the following:

- Overview of Business
- Results of Operations
- Liquidity and Capital Resources
- Critical Accounting Policies and Estimates
- Forward-Looking Statements

Overview of Business

Con-way provides transportation, logistics and supply-chain management services for a wide range of manufacturing, industrial and retail customers through three primary business units: Con-way Freight, Menlo Worldwide Logistics and Con-way Truckload. These business units operate in regional and transcontinental less-than-truckload and full-truckload freight transportation, contract logistics and supply-chain management, and multimodal freight brokerage. For financial reporting purposes, Con-way is divided into four reporting segments:

• **Freight.** The Freight segment consists of the operating results of the Con-way Freight business unit, which provides regional, inter-regional and transcontinental less-than-truckload freight services throughout North America.

• **Logistics.** The Logistics segment consists of the operating results of the Menlo Worldwide Logistics business unit, which develops contract-logistics solutions, including the management of complex distribution networks and supply-chain engineering and consulting, and also provides multimodal freight-brokerage services.

• **Truckload.** The Truckload segment consists of the operating results of the Con-way Truckload business unit, which provides asset-based full-truckload freight services throughout North America.

• **Other.** The Other reporting segment consists of the operating results of Road Systems, a trailer manufacturer, and certain corporate activities for which the related income or expense has not been allocated to other reporting segments.

Con-way Freight primarily transports shipments utilizing a network of freight service centers combined with a fleet of company-operated line-haul and pickup-and-delivery tractors and trailers. Menlo Worldwide Logistics manages the logistics functions of its customers and primarily utilizes third-party transportation providers for the movement of customer shipments. Con-way Truckload primarily transports shipments using a fleet of company-operated long-haul tractors and trailers.

Con-way's primary business-unit results generally depend on the number, weight and distance of shipments transported, the prices received on those shipments or services and the mix of services provided to customers, as well as the fixed and variable costs incurred by Con-way in providing the services and the ability to manage those costs under changing circumstances. Due to Con-way Freight's cost structure, sudden or severe changes in shipment volumes can have a negative impact on management's ability to manage costs.

Con-way's primary business units are affected by the timing and degree of fluctuations in fuel prices and their ability to recover incremental fuel costs through fuel-surcharge programs and/or cost-recovery mechanisms, as more fully discussed in Item 3, "Quantitative and Qualitative Disclosures About Market Risk – Fuel."

Results of Operations

The overview below provides a high-level summary of Con-way's results of operations for the periods presented and is intended to provide context for the remainder of the discussion on reporting segments. Refer to "Reporting Segment Review" below for more complete and detailed discussion and analysis.

| (Dollars in thousands except per share amounts) | Three Months Ended | | Six Months Ended | |
|---|--------------------|-------------|------------------|-------------|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Revenues | \$1,446,096 | \$1,348,549 | \$2,812,257 | \$2,594,176 |
| Operating expenses | 1,365,953 | 1,288,384 | 2,676,424 | 2,497,315 |
| Operating income | 80,143 | 60,165 | 135,833 | 96,861 |
| Other non-operating expense | 15,446 | 14,721 | 29,714 | 30,056 |
| Income before income tax provision | 64,697 | 45,444 | 106,119 | 66,805 |
| Income tax provision | 22,897 | 16,022 | 38,673 | 30,461 |
| Net income | \$41,800 | \$29,422 | \$67,446 | \$36,344 |
| Diluted earnings per share | \$0.74 | \$0.52 | \$1.20 | \$0.65 |

Overview

Con-way's consolidated revenue for the second quarter of 2012 increased 7.2% from the second quarter of 2011 and, in the first half of 2012, increased 8.4% from the same prior-year period. The increase in revenue reflects higher revenue at all reporting segments.

Con-way's consolidated operating income for the second quarter increased 33.2% to \$80.1 million in 2012 from \$60.2 million in 2011. In the year-to-date periods, operating income increased 40.2% to \$135.8 million in 2012 from \$96.9 million in 2011. For the periods presented, increased operating income at Freight and Truckload reflect improved margins. Logistics also reported higher operating income in the second quarter and first six months of 2012.

Con-way's second-quarter and year-to-date effective tax rates in 2012 were 35.4% and 36.4%, respectively. In the second quarter and first half of 2011, the effective tax rates were 35.3% and 45.6%, respectively. Both years included discrete tax adjustments that affected the effective tax rate, as more fully discussed in Note 7, "Income Taxes," of Item 1, "Financial Statements." Excluding the discrete tax adjustments, the second-quarter and year-to-date effective tax rates in 2012 were 38.9% and 38.8%, respectively, compared to 37.7% and 37.6%, respectively, in 2011. The rates in 2012 increased from 2011 primarily due to a 2011 benefit associated with a now-expired fuel-related tax credit.

Cost-Reduction Actions

In response to economic conditions, in March 2009, Con-way announced several employee-related measures to reduce costs and conserve cash, as detailed in Item 7, "Management's Discussion and Analysis - Results of Operations - Overview," in Con-way's 2011 Annual Report on Form 10-K. For the periods presented, Con-way's comparative expenses were affected by the reinstatement of certain contributions to the defined contribution retirement plan in the fourth quarter of 2011. One of the suspended benefits, matching contributions to the defined contribution retirement plan, has not been reinstated. Any potential reinstatement of Con-way's matching contributions is based on a number of considerations.

Reporting Segment Review

For the discussion and analysis of segment operating results, management utilizes revenue before inter-segment eliminations. Management believes that revenue before inter-segment eliminations, combined with the detailed operating expense information, provides the most meaningful analysis of segment results. Revenue before inter-segment eliminations is reconciled to revenue from external customers in Note 3, "Segment Reporting," of Item 1, "Financial Statements."

Freight

The following table compares operating results, operating margins, and the percentage change in selected operating statistics of the Freight reporting segment:

| (Dollars in thousands) | Three Months Ended | | Six Months Ended | | |
|---|--------------------|-----------|------------------|-------------|---|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 | |
| Revenue before inter-segment eliminations | \$878,524 | \$839,829 | \$1,709,571 | \$1,607,570 | |
| Salaries, wages and employee benefits | 396,169 | 375,916 | 776,665 | 737,658 | |
| Purchased transportation | 148,987 | 136,718 | 287,262 | 258,241 | |
| Fuel and fuel-related taxes | 95,957 | 103,722 | 194,262 | 196,454 | |
| Other operating expenses | 111,524 | 115,748 | 220,895 | 223,495 | |
| Depreciation and amortization | 31,076 | 27,591 | 61,048 | 55,167 | |
| Maintenance | 24,245 | 23,935 | 47,841 | 45,233 | |
| Rents and leases | 12,014 | 11,913 | 24,110 | 22,775 | |
| Purchased labor | 5,123 | 5,131 | 9,557 | 9,048 | |
| Total operating expenses | 825,095 | 800,674 | 1,621,640 | 1,548,071 | |
| Operating income | \$53,429 | \$39,155 | \$87,931 | \$59,499 | |
| Operating margin | 6.1 | % 4.7 | % 5.1 | % 3.7 | % |
| | 2012 vs. 2011 | | 2012 vs. 2011 | | |
| Selected Operating Statistics | | | | | |
| Weight per day | +0.9 | % | +1.2 | % | |
| Revenue per hundredweight ("yield") | +3.2 | % | +4.6 | % | |
| Shipments per day ("volume") | -1.2 | % | -0.1 | % | |
| Weight per shipment | +2.2 | % | +1.3 | % | |

Freight's revenue in the second quarter of 2012 increased 4.6% from the second quarter of 2011 and in the first half of 2012, increased 6.3% from the same prior-year period. Revenue increased in the second quarter due to a 3.2% increase in yield and a 0.9% increase in weight per day. The 0.9% increase in weight per day reflects a 2.2% increase in weight per shipment, partially offset by a 1.2% decrease in shipments per day. In the first half of 2012, revenue increased due to a 4.6% increase in yield and a 1.2% increase in weight per day. The 1.2% increase in weight per day reflects a 1.3% increase in weight per shipment, partially offset by a 0.1% decrease in shipments per day. The increases in yield were primarily due to increases in base freight rates.

Excluding fuel surcharges, yield in the second quarter and first half of 2012 increased 3.2% and 3.6%, respectively. In the second quarter, Freight's fuel-surcharge revenue decreased to 17.6% of revenue in 2012 from 17.7% in 2011, and in the first six months, increased to 17.6% of revenue in 2012 from 16.9% in 2011. The fuel surcharge is intended to

compensate Con-way Freight for the adverse effects of higher fuel costs and fuel-related increases in purchased transportation. Fuel surcharges are only one part of Con-way Freight's overall rate structure, and the total price that Con-way Freight receives from customers for its services is governed by market forces, as more fully discussed below in Item 3, "Quantitative and Qualitative Disclosures About Market Risk - Fuel."

Freight's operating income in the second quarter and first half of 2012 increased 36.5% and 47.8%, respectively, over the same periods in 2011. Improved operating results in 2012 reflected higher revenues and improved margins. The revenue gains were

largely due to yield improvements. The margin improvements also reflect improved productivity and cost controls.

In the second quarter and first half of 2012, expenses for salaries, wages and employee benefits increased 5.4% and 5.3%, respectively, from the same periods in 2011. Salaries and wages, excluding variable compensation, increased 2.7% and 1.6%, respectively, primarily due to salary and wage rate increases in the second quarter of 2012. Variable-compensation expense increased \$5.6 million in the second quarter of 2012 and \$7.2 million in the first half of 2012 based on improved performance against variable-compensation plan targets. Employee benefits expense increased 7.4% and 12.1%, respectively, when compared to the second quarter and first half of last year. Higher expenses for employee benefits in the second quarter of 2012 were primarily due to increased costs for the defined contribution retirement plans. Higher expenses for employee benefits in the first half of 2012 were primarily due to higher costs for employee medical claims and defined contribution retirement plans. Higher costs for employee medical claims were due to increases in the number of claims and expense per claim. The increase in defined contribution retirement plan expense was primarily due to the restoration of benefits in the fourth quarter of 2011, as more fully discussed above in "Overview."

Purchased transportation expense increased 9.0% in the second quarter of 2012, and 11.2% in the first half, due to increased third-party miles and higher carrier rates.

Expenses for fuel and fuel-related taxes decreased 7.5% in the second quarter of 2012 and 1.1% in the first half of 2012, primarily due to lower fuel consumption as the result of fewer miles driven by company-operated tractors.

Other operating expenses decreased year-over-year, down 3.6% in the second quarter and 1.2% in the first half, reflecting \$3.9 million of second-quarter gains from the sale of excess properties.

Logistics

The table below compares operating results and operating margins of the Logistics reporting segment. The table summarizes Logistics' revenue as well as net revenue (revenue less purchased transportation expense). Carrier-management revenue is attributable to contracts for which Menlo Worldwide Logistics manages the transportation of freight but subcontracts to carriers the actual transportation and delivery of products, which Menlo Worldwide Logistics refers to as purchased transportation. Menlo Worldwide Logistics' management places emphasis on net revenue as a meaningful measure of the relative importance of its principal services since revenue earned on most carrier-management services includes the carriers' charges to Menlo Worldwide Logistics for transporting the shipments.

| (Dollars in thousands) | Three Months Ended | | Six Months Ended | |
|---|--------------------|------------|------------------|------------|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Revenue before inter-segment eliminations | \$448,029 | \$394,012 | \$867,175 | \$763,987 |
| Purchased transportation expense | (286,191) | (247,028) | (549,614) | (474,682) |
| Net revenue | 161,838 | 146,984 | 317,561 | 289,305 |
| Salaries, wages and employee benefits | 66,776 | 56,621 | 129,798 | 109,970 |
| Fuel and fuel-related taxes | 206 | 285 | 443 | 541 |
| Other operating expenses | 41,413 | 37,520 | 80,128 | 76,979 |
| Depreciation and amortization | 2,435 | 2,795 | 5,063 | 5,636 |
| Maintenance | 627 | 719 | 1,603 | 1,421 |
| Rents and leases | 15,636 | 15,679 | 31,483 | 31,387 |
| Purchased labor | 22,057 | 21,270 | 44,061 | 42,630 |

Edgar Filing: Con-way Inc. - Form 10-Q

| | | | | | |
|---|----------|----------|----------|----------|---|
| Total operating expenses excluding purchased transportation | 149,150 | 134,889 | 292,579 | 268,564 | |
| Operating income | \$12,688 | \$12,095 | \$24,982 | \$20,741 | |
| Operating margin on revenue | 2.8 | % 3.1 | % 2.9 | % 2.7 | % |
| Operating margin on net revenue | 7.8 | % 8.2 | % 7.9 | % 7.2 | % |

Logistics' revenue in the second quarter and first half of 2012 increased 13.7% and 13.5%, respectively, due to increases in

revenue from both carrier-management and warehouse-management services. In 2012, revenue from carrier-management services in the second quarter and first six months increased 18.1% and 17.5%, respectively, while revenue from warehouse-management services increased 2.5% and 3.7%, respectively. Higher revenue from carrier-management services was primarily due to new customers, growth at existing logistics customers and increased freight-brokerage volumes. Increased revenue from warehouse-management services was primarily due to growth at existing customers.

Logistics' net revenue in the second quarter and first half of 2012 increased 10.1% and 9.8%, respectively, when compared to the prior-year periods. Purchased transportation expense increased 15.9% and 15.8% in the second quarter and first half of 2012, respectively, primarily due to increased carrier-management volumes.

Logistics' operating income in the second quarter and first half of 2012 increased 4.9% and 20.4%, respectively, when compared to the prior-year periods. Higher operating income in the second quarter of 2012 was primarily due to growth in net revenue and improved margins from carrier-management services, partially offset by lower margins on warehouse-management services. Higher margins on carrier-management services were primarily due to the increase in recognition of revenue under performance-based arrangements. Under performance-based arrangements, revenue is recognized upon the achievement of contractually specified performance measures typically without an associated increase in operating expenses. The level of achievement relating to these performance measures varies each period. Lower margins on warehouse-management services in the second quarter of 2012 were primarily due to increased costs for information-technology projects and higher expenses for salaries and wages. Higher operating income in the first half of 2012 was primarily due to the growth in net revenue and improved margins from both warehouse-management services and carrier-management services. Higher margins on warehouse-management services reflect costs incurred in the first half of 2011 as the result of warehouse relocations. Higher margins on carrier-management services were primarily due to the increase in recognition of revenue under performance-based arrangements.

Salaries, wages and employee benefits increased 17.9% and 18.0% in the second quarter and first half of 2012, respectively. In the second quarter and first six months, salaries and wages, excluding variable compensation, rose 19.5% and 18.1%, respectively, primarily due to increased average employee counts in response to growth from new and existing customers. Employee benefits expense increased 15.1% and 16.3% in the second quarter and first half of 2012, respectively, primarily due to increased costs associated with payroll taxes and employee medical claims. Increased expense for payroll taxes was primarily due to the increase in salaries and wages. Higher costs for employee medical claims were primarily due to an increase in the number of claims. Variable-compensation expense increased \$0.5 million or 13.0% in the second quarter of 2012 and \$1.6 million or 24.3% in the first half of 2012 primarily due to increases in salaries and wages.

Other operating expenses increased 10.4% and 4.1% in the second quarter and first half of 2012, respectively, primarily due to higher costs for information-technology projects that support customer operations.

Truckload

The table below compares operating results, operating margins and the percentage change in selected operating statistics of the Truckload reporting segment. The table summarizes the segment's revenue before inter-segment eliminations, including freight revenue, fuel-surcharge revenue and other non-freight revenue.

| (Dollars in thousands) | Three Months Ended | | Six Months Ended | | |
|---|--------------------|------------|------------------|------------|---|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 | |
| Freight revenue | \$ 120,173 | \$ 113,965 | \$ 236,426 | \$ 224,578 | |
| Fuel-surcharge revenue | 38,015 | 37,152 | 74,421 | 67,469 | |
| Other revenue | 4,732 | 4,334 | 9,396 | 8,619 | |
| Revenue before inter-segment eliminations | 162,920 | 155,451 | 320,243 | 300,666 | |
| Salaries, wages and employee benefits | 53,682 | 52,053 | 106,592 | 102,420 | |
| Purchased transportation | 9,194 | 7,033 | 17,592 | 12,863 | |
| Fuel and fuel-related taxes | 44,059 | 45,971 | 89,223 | 88,965 | |
| Other operating expenses | 15,966 | 14,605 | 31,820 | 28,954 | |
| Depreciation and amortization | 17,096 | 17,145 | 33,691 | 33,829 | |
| Maintenance | 7,691 | 7,784 | 14,942 | 15,155 | |
| Rents and leases | 324 | 264 | 648 | 533 | |
| Purchased labor | 289 | 273 | 566 | 541 | |
| Total operating expenses | 148,301 | 145,128 | 295,074 | 283,260 | |
| Operating income | \$ 14,619 | \$ 10,323 | \$ 25,169 | \$ 17,406 | |
| Operating margin on revenue | 9.0 | % 6.6 | % 7.9 | % 5.8 | % |
| Operating margin on revenue excluding fuel-surcharge revenue | 11.7 | % 8.7 | % 10.2 | % 7.5 | % |
| | 2012 vs. 2011 | | 2012 vs. 2011 | | |
| Selected Operating Statistics | | | | | |
| Freight revenue per loaded mile | +3.0 | % | +3.1 | % | |
| Loaded miles | +2.4 | % | +2.1 | % | |

Truckload's revenue increased 4.8% in the second quarter of 2012 from the same period of 2011, primarily due to a 5.4% increase in freight revenue. The 5.4% increase in freight revenue reflects a 3.0% increase in revenue per loaded mile, and a 2.4% increase in loaded miles. In the first six months of 2012, Truckload's revenue increased 6.5% from the same prior-year period, reflecting a 5.3% increase in freight revenue, and a 10.3% increase in fuel-surcharge revenue. The 5.3% increase in freight revenue reflects a 3.1% increase in revenue per loaded mile and a 2.1% increase in loaded miles. In the first six months of 2012, higher fuel-surcharge revenue was primarily due to higher fuel prices in 2012 compared to 2011. The increase in loaded miles was primarily due to an increase in the number of owner-operated units, in the second quarter and first six months of 2012 when compared to the same periods of 2011.

For the second quarter, Truckload reported operating income of \$14.6 million in 2012 compared to \$10.3 million in 2011, and in the first half, \$25.2 million in 2012 compared to \$17.4 million in 2011. Higher operating income was primarily due to an increase in the rate per loaded mile and an improved fuel-surcharge recovery rate.

Salaries, wages and employee benefits increased 3.1% and 4.1% in the second quarter and first half of 2012, respectively. Employee benefits expense increased 7.0% in the second quarter of 2012 primarily due to increased costs for workers' compensation claims, which reflect increases in the number of claims and expense per claim. Employee

benefits expense increased 11.0% in the first half of 2012 primarily due to increased costs for workers' compensation and employee medical claims. The increase in expense for workers' compensation claims in the first half of 2012 was due to an increase in expense per claim, partially offset by a decline in the number of claims. The increase in expense for employee medical claims was due to increases in the number of claims and expense per claim.

Variable-compensation expense increased \$0.5 million or 49.3% in

the second quarter of 2012 and \$1.1 million or 72.7% in the first half of 2012 based on variations in performance measures relative to variable-compensation plan targets.

Purchased transportation increased 30.7% and 36.8% in the second quarter and first half of 2012, respectively, primarily due to increased miles and fuel-related increases related to Truckload's owner-operator fleet.

Expenses for fuel and fuel-related taxes decreased 4.2% in the second quarter of 2012, primarily due to a decrease in the average fuel price per gallon and improved miles per gallon compared to the same period of 2011. Expenses for fuel and fuel-related taxes increased 0.3% in the first half of 2012, reflecting higher cost per gallon compared to the first half of 2011.

Other operating expenses increased 9.3% and 9.9% in the second quarter and first half of 2012, respectively. Higher other operating expenses in the second quarter of 2012 reflect increases in a variety of expense categories, including employee development. Higher operating expenses in the first half of 2012 were primarily due to increases for vehicular self-insurance and employee development. Higher expenses for employee development relate to increased driver certification and training costs. Higher vehicular self-insurance expense in the first half of 2012 was due to an increase in expense per claim. In the second quarter and first half of 2012, other operating expenses benefited from gains resulting from the disposition of equipment, which lowered expenses by \$0.7 million and \$1.7 million, respectively, when compared to the prior-year periods. The gains reflect improved conditions in the used-tractor market. The estimated salvage values for Con-way Truckload's tractors have been increased, which is expected to moderate the amount of gains recognized in the remainder of 2012. The increase in estimated salvage values will also result in lower depreciation; however, that change is expected to be more than offset by increases in depreciation associated with trailer and tractor purchases.

Other

The Other reporting segment consists of the operating results of Road Systems, a trailer manufacturer, and certain corporate activities for which the related income or expense has not been allocated to other reporting segments. The table below summarizes the operating results for the Other reporting segment:

| (Dollars in thousands) | Three Months Ended | | Six Months Ended | |
|---------------------------------|--------------------|------------|------------------|----------|
| | June 30, 2012 | 2011 | June 30, 2012 | 2011 |
| Revenue | | | | |
| Road Systems | \$14,636 | \$12,297 | \$28,927 | \$24,294 |
| Operating income (loss) | | | | |
| Road Systems | \$(49 |) \$6 | \$(125 |) \$(79 |
| Con-way re-insurance activities | (209 |) (1,289 |) (1,428 |) 36 |
| Con-way corporate properties | (331 |) (371 |) (680 |) (730 |
| Other | (4 |) 246 | (16 |) (12 |
| | \$(593 |) \$(1,408 |) \$(2,249 |) \$(785 |

Liquidity and Capital Resources

Cash and cash equivalents increased to \$455.0 million at June 30, 2012 from \$438.0 million at December 31, 2011, as \$161.9 million provided by operating activities exceeded \$127.7 million used in investing activities and \$17.2 million used in financing activities. Cash provided by operating activities came primarily from net income after adjustment for non-cash items. Cash used in investing activities primarily reflects capital expenditures. Cash used in financing activities primarily reflects the payment of common dividends and repayment of capital leases.

| (Dollars in thousands) | Six Months Ended | |
|---|------------------|------------|
| | June 30, 2012 | 2011 |
| Operating Activities | | |
| Net income | \$67,446 | \$36,344 |
| Non-cash adjustments (1) | 159,154 | 140,322 |
| Changes in assets and liabilities | (64,699) | 9,280 |
| Net Cash Provided by Operating Activities | 161,901 | 185,946 |
| Net Cash Used in Investing Activities | (127,694) | (122,497) |
| Net Cash Used in Financing Activities | (17,228) | (15,456) |
| Increase in Cash and Cash Equivalents | \$16,979 | \$47,993 |

(1) "Non-cash adjustments" refer to depreciation, amortization, deferred income taxes, provision for uncollectible accounts, and other non-cash income and expenses.

Operating Activities

The most significant items affecting the comparison of Con-way's operating cash flows for the periods presented are summarized below:

In the first six months of 2012, net income and non-cash adjustments collectively increased operating cash flows \$49.9 million over the same period of 2011. Changes in assets and liabilities decreased operating cash flow by \$74.0 million in the first six months of 2012 compared to the same period of 2011. Comparative changes were primarily due to accrued income taxes, employee benefits and accrued variable compensation.

Accrued income taxes used \$7.7 million in the first six months of 2012, compared to \$29.9 million provided in the same prior-year period primarily due to variations in income tax payments and refunds. In the first six months of 2012, Con-way made net payments of \$6.2 million, and in the first six months of 2011 Con-way received \$28.9 million of net refunds.

Employee benefits used \$20.3 million in the first six months of 2012, compared to \$1.4 million provided in the same prior-year period primarily due to a change in the funding method for contributions to the defined contribution retirement plan. As detailed in Note 5, "Employee Benefit Plans," of Item 1, "Financial Statements," Con-way used repurchased common stock (also referred to as treasury stock) to fund contributions to the defined contribution retirement plan in the first six months of 2011. Effective in July 2011, the contributions were in the form of cash contributed by Con-way, rather than in treasury stock.

Accrued variable compensation used \$14.3 million in the first six months of 2012, compared to \$1.5 million used in the same prior-year period. Variations in performance measures relative to variable-compensation plan targets resulted in a higher level of payments in the first six months of 2012 when compared to the prior-year period.

Investing Activities

The most significant item affecting the comparison of Con-way's investing cash flows for the periods presented was the change in capital expenditures. In the first six months, capital expenditures were \$148.7 million in 2012, compared to \$123.5 million in 2011. Increased capital expenditures in 2012 were primarily due to the acquisition of tractor equipment at Con-way Freight.

Proceeds from sales of property and equipment increased to \$15.7 million in the first six months of 2012 compared to \$4.5 million in the first six months of 2011, primarily due to the sale of two facilities in the Freight segment.

Financing Activities

There were no significant financing transactions that affected the comparison of Con-way's financing cash flows for the periods presented.

Contractual Cash Obligations

Con-way's contractual cash obligations as of December 31, 2011 are summarized in Item 7, "Management's Discussion and Analysis – Liquidity and Capital Resources – Contractual Cash Obligations," of Con-way's 2011 Annual Report on Form 10-K. In the first six months of 2012, there have been no material changes in Con-way's contractual obligations outside the ordinary course of business.

Capital Resources and Liquidity Outlook

Con-way's capital requirements relate primarily to the acquisition of revenue equipment to support growth and/or replacement of older equipment with newer equipment. In funding these capital expenditures and meeting working-capital requirements, Con-way utilizes various sources of liquidity and capital, including cash and cash equivalents, cash flow from operations, credit facilities and access to capital markets. Con-way may also manage its liquidity requirements and cash-flow generation by varying the timing and amount of capital expenditures.

Con-way has a \$325 million unsecured revolving credit facility that matures on August 2, 2016. The revolving facility is available for cash borrowings and issuance of letters of credit. At June 30, 2012, no cash borrowings were outstanding under the credit facility; however, \$170.2 million of letters of credit were outstanding, leaving \$154.8 million of available capacity for additional letters of credit or cash borrowings, subject to compliance with financial covenants and other customary conditions of borrowing. The revolving facility is guaranteed by certain of Con-way's material domestic subsidiaries and contains two financial covenants: (i) a leverage ratio and (ii) a fixed-charge coverage ratio. At June 30, 2012, Con-way was in compliance with the revolving credit facility's financial covenants and expects to remain in compliance.

Con-way had other uncommitted unsecured credit facilities totaling \$65.3 million at June 30, 2012, which are available to support short-term borrowings, letters of credit, bank guarantees and overdraft facilities. At June 30, 2012, \$14.2 million of cash borrowings and \$27.8 million of other credit commitments were outstanding leaving \$23.3 million of available capacity.

See "– Forward-Looking Statements" below and Item 1A, "Risk Factors," and Note 6, "Debt and Other Financing Arrangements," of Item 8, "Financial Statements and Supplementary Data," in Con-way's 2011 Annual Report on Form 10-K for additional information concerning Con-way's \$325 million credit facility and its other debt instruments.

In 2012, Con-way anticipates capital and software expenditures of approximately \$300 million, net of asset dispositions, primarily for the acquisition of tractor equipment. Con-way's actual 2012 capital expenditures may differ from the estimated amount depending on factors such as availability and timing of delivery of equipment.

At June 30, 2012, Con-way's senior unsecured debt was rated as investment grade by Standard and Poor's (BBB-), Fitch Ratings (BBB-), and Moody's (Baa3). Standard and Poor's, Fitch Ratings, and Moody's assigned an outlook of "stable."

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the U.S. requires management to adopt accounting policies and make significant judgments and estimates. In many cases, there are alternative policies or estimation techniques that could be used. Con-way maintains a process to evaluate the appropriateness of its accounting policies and estimation techniques, including discussion with and review by the Audit Committee of its Board of Directors and its independent auditors. Accounting policies and estimates may require adjustment based on changing facts and circumstances and actual results could differ from estimates. Con-way believes that the accounting policies that are most judgmental and material to the financial statements are those related to the following:

- Defined Benefit Pension Plans
- Goodwill
- Income Taxes
- Property, Plant and Equipment and Other Long-Lived Assets
- Revenue Recognition
- Self-Insurance Accruals

There have been no significant changes to the critical accounting policies and estimates disclosed in Con-way's 2011 Annual Report on Form 10-K.

Forward-Looking Statements

Certain statements included herein constitute "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to a number of risks and uncertainties, and should not be relied upon as predictions of future events. All statements other than statements of historical fact are forward-looking statements, including:

- any projections of earnings, revenues, weight, yield, volumes, income or other financial or operating items;
- any statements of the plans, strategies, expectations or objectives of Con-way's management for future operations or other future items;
- any statements concerning proposed new products or services;
- any statements regarding Con-way's estimated future contributions to pension plans;
- any statements as to the adequacy of reserves;
- any statements regarding the outcome of any legal and other claims and proceedings that may be brought against Con-way;
- any statements regarding future economic conditions or performance;
- any statements regarding strategic acquisitions; and
- any statements of estimates or belief and any statements or assumptions underlying the foregoing.

Certain such forward-looking statements can be identified by the use of forward-looking terminology such as "believes," "expects," "may," "will," "should," "seeks," "approximately," "intends," "plans," "estimates" or "anticipates" or the negative or other variations of those terms or comparable terminology or by discussions of strategy, plans or intentions. Such forward-looking statements are necessarily dependent on assumptions, data and methods that may be incorrect or imprecise and there can be no assurance that they will be realized. In that regard, certain important factors, among others and in addition to the matters discussed elsewhere in this document and other reports and documents filed by Con-way with the Securities and Exchange Commission, could cause actual results and other matters to differ materially from those discussed in such forward-looking statements. A detailed description of certain of these risk factors is included in Item 1A, "Risk Factors," of Con-way's 2011 Annual Report on Form 10-K. Any forward-looking statements speak only as of the date the statement is made, and Con-way does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Con-way is exposed to a variety of market risks, including the effects of interest rates, fuel prices and foreign currency exchange rates.

Con-way enters into derivative financial instruments only in circumstances that warrant the hedge of an underlying asset, liability or future cash flow against exposure to some form of interest rate, commodity or currency-related risk. Additionally, the designated hedges should have high correlation to the underlying exposure such that fluctuations in the value of the derivatives offset reciprocal changes in the underlying exposure. For the periods presented, Con-way held no material derivative financial instruments.

Interest Rates

Con-way's exposure to interest-rate fluctuations is more fully discussed in Item 7, "Quantitative and Qualitative Disclosures About Market Risk," of Con-way's 2011 Annual Report on Form 10-K.

Fuel

Con-way is subject to risks associated with the price and availability of fuel, which are subject to political, economic and market factors that are outside of Con-way's control.

Con-way would be adversely affected by an inability to obtain fuel in the future. Although historically Con-way has been able to obtain fuel from various sources and in the desired quantities, there can be no assurance that this will continue to be the case in the future.

Con-way may also be adversely affected by the timing and degree of fluctuations in fuel prices. Currently, Con-way's business units have fuel-surcharge revenue programs or cost-recovery mechanisms in place with a majority of customers. Con-way Freight and Con-way Truckload maintain fuel-surcharge programs designed to offset or mitigate the adverse effect of rising fuel prices. Menlo Worldwide Logistics has cost-recovery mechanisms incorporated into most of its customer contracts under which it recognizes fuel-surcharge revenue designed to eliminate the adverse effect of rising fuel prices on purchased transportation.

Con-way's competitors in the less-than-truckload ("LTL") and truckload markets also impose fuel surcharges. Although fuel surcharges are generally based on a published national index, there is no industry-standard fuel-surcharge formula. As a result, fuel-surcharge revenue constitutes only part of the overall rate structure. Revenue excluding fuel surcharges (sometimes referred to as base freight rates) represents the collective pricing elements that exclude fuel surcharges. Ultimately, the total amount that Con-way Freight and Con-way Truckload can charge for their services is determined by competitive pricing pressures and market factors.

Historically, Con-way Freight's fuel-surcharge program has enabled it to more than recover increases in fuel costs and fuel-related increases in purchased transportation. As a result, Con-way Freight may be adversely affected if fuel prices fall and the resulting decrease in fuel-surcharge revenue is not offset by an equivalent increase in base freight-rate revenue. Although lower fuel surcharges may improve Con-way Freight's ability to increase the freight rates that it would otherwise charge, there can be no assurance in this regard. Con-way Freight may also be adversely affected if fuel prices increase. Customers faced with fuel-related increases in transportation costs often seek to negotiate lower rates through reductions in the base freight rates and/or limitations on the fuel surcharges charged by Con-way Freight, which adversely affect Con-way Freight's ability to offset higher fuel costs with higher revenue.

Con-way Truckload's fuel-surcharge program mitigates the effect of rising fuel prices but does not always result in Con-way Truckload fully recovering increases in its cost of fuel. The extent of recovery may vary depending on the amount of customer-negotiated adjustments and the degree to which Con-way Truckload is not compensated due to empty and out-of-route miles or from engine idling during cold or warm weather.

Con-way would be adversely affected if, due to competitive and market factors, its business units are unable to continue their current fuel-surcharge programs and/or cost-recovery mechanisms. In addition, there can be no assurance that these programs, as currently maintained or as modified in the future, will be sufficiently effective to offset increases in the price of fuel.

Foreign Currency

The assets and liabilities of Con-way's foreign subsidiaries are denominated in foreign currencies, which create exposure to changes in foreign currency exchange rates. However, the market risk related to foreign currency exchange rates is not material to Con-way's financial condition, results of operations or cash flows. For the periods presented, Con-way used no material derivative financial instruments to manage foreign currency risk.

ITEM 4. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Con-way's management, with the participation of Con-way's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of Con-way's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, Con-way's Chief Executive Officer and Chief Financial Officer have concluded that Con-way's disclosure controls and procedures are effective as of the end of such period.

(b) Internal Control Over Financial Reporting

There have not been any changes in Con-way's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, Con-way's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Certain legal proceedings of Con-way are discussed in Note 8, "Commitments and Contingencies," of Item 1, "Financial Statements."

ITEM 1A. RISK FACTORS

There are no material changes to the risk factors previously disclosed in Item 1A, "Risk Factors," of Con-way's 2011 Annual Report on Form 10-K.

ITEM 6. EXHIBITS

- Exhibit No.
- (10) Material Contracts:
- 10.1 Con-way Inc. 2012 Equity and Incentive Plan (Appendix A to Con-way's Proxy Statement filed on April 3, 2012). *#
- 10.2 Form of Restricted Stock Award Agreement for Non-Employee Directors.#
- 10.3 Consulting Agreement between Con-way Inc. and Herbert J. Schmidt dated June 26, 2012 (Exhibit 10.1 to Con-way's Report on Form 8-K filed on June 29, 2012*#).
- (31) Certification of Officers pursuant to Section 302 of the Sarbanes-Oxley Act of 2002:
- 31.1 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- (32) Certification of Officers pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- (101) The following financial statements from Con-way's Form 10-Q for the quarter ended June 30, 2012, filed on August 3, 2012, formatted in XBRL (eXtensible Business Reporting Language): (i) Consolidated Balance Sheets, (ii) Statements of Consolidated Income, (iii) Statement of Consolidated Comprehensive Income, (iv) Statements of Consolidated Cash Flows, and (v) Notes to Consolidated Financial Statements.

* Previously filed with the Securities and Exchange Commission and incorporated herein by reference.

Designates a contract or compensation plan for Management or Directors.
