### Debt

As of September 11, 2007, the Company and its lenders executed two amendments to the \$150 million unsecured revolving credit facility (the facility), which extended the maturity date to September 11, 2012, and modified certain financial covenants to reflect the recent acquisitions. In connection with the amendment, the Company incurred approximately \$231,000 of arrangement fees and related costs, which have been deferred and are being amortized over the expected term of the facility. After giving effect to the extended maturity date, the Company's debt is due as follows at December 31, 2007 (in thousands):

### Fiscal Year

For the remainder of fiscal year 2008	\$ 1,550
2009	28,571
2010	3,571
2011	3,571
2012 and thereafter	110,444

The Company also executed an amendment as of September 11, 2007, to the note purchase agreements with the institutional investors which modified certain financial covenants to reflect the recent acquisitions. In connection with the amendment, the Company incurred approximately \$50,000 of arrangement fees and related costs. The

arrangement fees have been deferred and are being amortized over the remaining lives of the notes.

7)

### **Sale and Leaseback**

On September 24, 2007, Standex Air Distribution Products, Inc. (ADP), a subsidiary of the Company, sold its manufacturing facility located in Philadelphia and leased back approximately two-thirds of the floor space of the facility. Through its lean enterprise initiative, the Company has been able to significantly improve the floor space utilization of the Philadelphia operation and as a result used the sale and leaseback as a means to capitalize on these improvements. The lease has an initial term of ten years with two consecutive additional five-year options to renew.

The net proceeds from the sale, after transaction and other related costs, were \$7.2 million resulting in a gain of approximately \$2.0 million. Under the provisions of sale-leaseback accounting, the transaction was considered a normal leaseback; therefore the realized gain was deferred and is being recognized in proportion to the lease payments expensed over the initial 10-year lease term. The deferred gain is classified as other non-current liabilities on the balance sheet. The minimum annual lease payments are approximately:
