## PART I—FINANCIAL INFORMATION

### Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

We have been under conservatorship, with the Federal Housing Finance Agency (“FHFA”) acting as conservator, since September 6, 2008. As conservator, FHFA succeeded to all rights, titles, powers and privileges of the company, and of any shareholder, officer or director of the company with respect to the company and its assets. The conservator has since delegated specified authorities to our Board of Directors and has delegated to management the authority to conduct our day-to-day operations. Our directors do not have any fiduciary duties to any person or entity except to the conservator and, accordingly, are not obligated to consider the interests of the company, the holders of our equity or debt securities or the holders of Fannie Mae MBS unless specifically directed to do so by the conservator. We describe the rights and powers of the conservator, key provisions of our agreements with the U.S. Department of the Treasury (“Treasury”), and their impact on shareholders in our Annual Report on Form 10-K for the year ended December 31, 2013 (“2013 Form 10-K”) in “Business—Conservatorship and Treasury Agreements.”

You should read this Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) in conjunction with our unaudited condensed consolidated financial statements and related notes and the more detailed information in our 2013 Form 10-K.

This report contains forward-looking statements that are based on management’s current expectations and are subject to significant uncertainties and changes in circumstances. Please review “Forward-Looking Statements” for more information on the forward-looking statements in this report. Our actual results may differ materially from those reflected in our forward-looking statements due to a variety of factors including, but not limited to, those discussed in “Risk Factors” and elsewhere in this report and in “Risk Factors” in our 2013 Form 10-K.

You can find a “Glossary of Terms Used in This Report” in the “MD&A” of our 2013 Form 10-K.

### INTRODUCTION

Fannie Mae is a government-sponsored enterprise (“GSE”) that was chartered by Congress in 1938. We serve an essential role in the functioning of the U.S. housing market and are investing in improvements to the U.S. housing finance system. Our public mission is to support liquidity and stability in the secondary mortgage market, where existing mortgage-related assets are purchased and sold, and to increase the supply of affordable housing. Our charter does not permit us to originate loans or lend money directly to consumers in the primary mortgage market.

Fannie Mae provides reliable, large-scale access to affordable mortgage credit and indirectly enables families to buy, refinance or rent homes. We securitize mortgage loans originated by lenders into Fannie Mae mortgage-backed securities that we guarantee, which we refer to as Fannie Mae MBS. One of our key functions is to evaluate, price and manage the credit risk on the loans and securities that we guarantee. We also purchase mortgage loans and mortgage-related securities for securitization and sale at a later date and, to a declining extent, for our retained mortgage portfolio. We use the term “acquire” in this report to refer to both our securitizations and our purchases of mortgage-related assets. We obtain funds to support our business activities by issuing a variety of debt securities in the domestic and international capital markets, which attracts global capital to the United States housing market.

Our conservatorship has no specified termination date, and we do not know when or how the conservatorship will terminate, whether we will continue to exist following conservatorship, what changes to our business structure will be made during or following the conservatorship, or what ownership interest, if any, our current common and preferred stockholders will hold in us after the conservatorship is terminated. In addition, our agreements with Treasury that provide for financial support include covenants that significantly restrict our business activities and provide for dividends to accrue at a rate equal to our net worth less a capital reserve amount, allowing us to retain only a limited and decreasing amount of our net worth. We provide additional information on the conservatorship, the provisions of our agreements with Treasury, and their impact on our business in our 2013 Form 10-K in “Business—Conservatorship and Treasury Agreements” and “Risk Factors.” We discuss the uncertainty of our future in “Executive Summary—Outlook” and “Risk Factors” in this report. We discuss proposals for housing finance reform that could materially affect our business in “Legislative and Regulatory Developments” in this report, in our quarterly report on Form 10-Q for the quarter ended June 30, 2014 (“Second Quarter 2014 Form 10-Q”) and in our quarterly report on Form 10-Q for the quarter ended March 31, 2014 (“First Quarter 2014 Form 10-Q”), and in “Business—Housing Finance Reform” in our 2013 Form 10-K.

Although Treasury owns our senior preferred stock and a warrant to purchase 79.9% of our common stock, and has made a commitment under a senior preferred stock purchase agreement to provide us with funds to maintain a positive net worth under specified conditions, the U.S. government does not guarantee our securities or other obligations. Our common stock is traded in the over-the-counter market and quoted on the OTC Bulletin Board under the symbol “FNMA.” Our debt securities are actively traded in the over-the-counter market.

## EXECUTIVE SUMMARY

### Our Strategy and Progress

We are focused on:

- achieving strong financial performance and strengthening our book of business;
- supporting the housing recovery by providing reliable, large-scale access to affordable mortgage credit and helping struggling homeowners; and
- helping to build a sustainable housing finance system.

Achieving strong financial performance and strengthening our book of business

Our actions to accomplish these goals have had a positive impact:

**Financial Performance.** We reported net income of \$3.9 billion for the third quarter of 2014, compared with net income of \$8.7 billion for the third quarter of 2013. See “Summary of Our Financial Performance” below for an overview of our financial performance for the third quarter and first nine months of 2014, compared with the third quarter and first nine months of 2013. We expect to remain profitable for the foreseeable future. For more information regarding our expectations for our future financial performance, see “Outlook—Financial Results” and “Outlook—Revenues” below.

**Dividend Payments to Treasury.** With our expected December 2014 dividend payment to Treasury, we will have paid a total of \$134.5 billion in dividends to Treasury on our senior preferred stock. The aggregate amount of draws we have received from Treasury to date under the senior preferred stock purchase agreement is \$116.1 billion. Under the terms of the senior preferred stock purchase agreement, dividend payments do not offset prior Treasury draws. See “Outlook—Dividend Obligations to Treasury” below for more information regarding our dividend payments to Treasury.

**Book of Business.** Changes we have made beginning in 2008 to strengthen our underwriting and eligibility standards have improved the credit quality of our single-family guaranty book of business. Single-family loans we have acquired since the beginning of 2009 (referred to as our “new single-family book of business”) comprised 80% of our single-family guaranty book of business as of September 30, 2014, while the single-family loans we acquired prior to 2009 (referred to as our “legacy book of business”) comprised 20% of our single-family guaranty book of business. As described below in “Strengthening Our Book of Business—New Book of Business,” we expect that our new single-family book of business will be profitable over its lifetime.

**Credit Performance.** Our single-family serious delinquency rate, which has decreased each quarter since the first quarter of 2010, was 1.96% as of September 30, 2014, compared with 2.38% as of December 31, 2013. See “Improving the Credit Performance of our Book of Business” below for additional information on the credit performance of the mortgage loans in our single-family guaranty book of business for each of the last seven quarters, and for a description of our strategies for reducing credit losses.

Although we have improved our financial performance and the quality of our book of business since entering into conservatorship in 2008, we remain under conservatorship and subject to the restrictions of the senior preferred stock purchase agreement with Treasury. As a result of the senior preferred stock purchase agreement and directives from our conservator, we are not permitted to retain our net worth (other than a limited amount that will decrease to zero by 2018), rebuild our capital position or pay dividends or other distributions to stockholders other than Treasury. See “Business—Conservatorship and Treasury Agreements” in our 2013 Form 10-K for more information regarding our conservatorship and our senior preferred stock purchase agreement with Treasury. In addition, the future of our company remains uncertain. Congress continues to consider options for reform of the housing finance system, including the GSEs, and we cannot predict the prospects for the enactment, timing or final content of housing finance reform legislation. See “Legislative and Regulatory Developments” in this report, in our Second Quarter 2014 Form 10-Q and in our First Quarter 2014 Form 10-Q,

and “Business—Housing Finance Reform” in our 2013 Form 10-K for information on recent proposals for housing finance reform.

Supporting the housing recovery by providing reliable, large-scale access to affordable mortgage credit and helping struggling homeowners

We continued our efforts to support the housing recovery in the third quarter of 2014. We remained the largest single issuer of mortgage-related securities in the secondary market during the third quarter of 2014 and a continuous source of liquidity in the multifamily market. We also continued to help struggling homeowners. In the third quarter of 2014, we provided approximately 39,000 loan workouts to help homeowners stay in their homes or otherwise avoid foreclosure. We discuss our activities to support the housing and mortgage markets in “Contributions to the Housing and Mortgage Markets” below.

Helping to build a sustainable housing finance system

We also continued our efforts to help lay the foundation for a safer, transparent and sustainable housing finance system, including pursuing the strategic goals identified by our conservator, as well as investing in improvements to our business and infrastructure. We discuss these efforts, as well as FHFA’s 2014 Strategic Plan for the Conservatorships of Fannie Mae and Freddie Mac and FHFA’s related 2014 conservatorship scorecard, in our Second Quarter 2014 Form 10-Q in “MD&A—Executive Summary—Helping to Build a Sustainable Housing Finance System” and in “MD&A—Legislative and Regulatory Developments—Housing Finance Reform and the Role of the GSEs—Conservator Developments.”

Summary of Our Financial Performance

Comprehensive Income

Quarterly Results

We recognized comprehensive income of \$4.0 billion in the third quarter of 2014, consisting of net income of \$3.9 billion and other comprehensive income of \$95 million. In comparison, we recognized comprehensive income of \$8.6 billion in the third quarter of 2013, consisting of net income of \$8.7 billion and other comprehensive loss of \$134 million. The decrease in our comprehensive income was primarily due to a decline in credit-related income and a shift to fair value losses from fair value gains.

The decline in credit-related income was mainly attributable to home prices increasing at a slower pace in the third quarter of 2014 as compared with the third quarter of 2013. In addition, the third quarter of 2013 benefited from foreclosed property income primarily due to the recognition of income related to our compensatory fee agreement with Bank of America. We recognized fair value losses in the third quarter of 2014 primarily due to increases in shorter-term swap rates. We recognized fair value gains in the third quarter of 2013 as longer-term swap rates increased.

Year-to-Date Results

We recognized comprehensive income of \$13.4 billion in the first nine months of 2014, consisting of net income of \$12.9 billion and other comprehensive income of \$512 million. In comparison, we recognized comprehensive income of \$78.2 billion in the first nine months of 2013, consisting of net income of \$77.5 billion and other comprehensive income of \$686 million. The decrease in comprehensive income was primarily driven by a provision for federal income taxes in the first nine months of 2014 compared with a benefit for federal income taxes in the first nine months of 2013 primarily due to the release of our valuation allowance against our deferred tax assets in the first quarter of 2013. For a discussion of the release of our valuation allowance against our deferred tax assets in 2013, see “Critical Accounting Policies and Estimates—Deferred Tax Assets” in our 2013 Form 10-K.

Our pre-tax income was \$19.0 billion in the first nine months of 2014 compared with \$30.3 billion in the first nine months of 2013. The decrease in our pre-tax income was primarily due to a decrease in credit-related income and a shift to fair value losses from fair value gains.

The decline in credit-related income was primarily due to the same factors that impacted the third quarters of 2014 and 2013, as discussed above. We recognized fair value losses in the first nine months of 2014 primarily due to declines in longer-term swap rates. We recognized fair value gains in the first nine months of 2013 as longer-term swap rates increased.

We expect volatility from period to period in our financial results from a number of factors, particularly changes in market conditions that result i
